

### Unintentional Speed Record Set By X15

EDWARDS AIR FORCE BASE, Calif. (AP)—X15 pilot Joseph A. Walker, streaking upward to a maximum altitude of 127,000 feet, set a speed record during the climb—but he didn't mean to. The space agency aviator took the 32-foot, stubby-winged rocket plane aloft Wednesday to experiment with some risky braking maneuvers. But en route to the maximum altitude, he reached a record 4,150 miles an hour—more than six times the speed of sound. The old mark of 4,093 m.p.h. was set last Nov. 9 by Air Force Capt. Robert White, also in an X15. Officials said they were uncertain why the craft, designed for a 4,000 m.p.h. top speed, did so well. The flight was to test the angle to attack, a maneuver future space craft may use to slow their return into the earth's atmosphere. The plane loses altitude with its nose higher than its tail in a "pancake landing." The plane was dropped from a B52 bomber at 45,000 feet and landed 10 minutes later.

**PRISONERS SPEND NIGHT ON WATER TOWER**—Thirteen prisoners spent happily for photographers on a water tower at the Western State Penitentiary at Pittsburgh, Pa., in protest to conditions at the prison. Twelve climbed up on the tower, joining a fellow inmate who had been there for a day. The catwalk is about 100 feet above ground. (AP Wirephoto)

## Rusk Opens Lisbon Talks

By HAROLD K. MILKS  
LISBON, Portugal (AP)—U.S. Secretary of State Dean Rusk opened a round of fast talks today with Portuguese officials in an effort to mend badly strained relations between Portugal and the United States. A cool welcome and anti-American demonstrations marked Rusk's arrival Wednesday for the wrapup of his 10-day tour of North Atlantic Treaty Organization allies.

Today the government organ *Diario de Manha* greeted him as a friend and said it hoped he would act as a real friend after seeing for himself the situation of Portugal and its possessions. Rusk began his day with a 90-minute conference with Foreign Minister Franco Nogueira and emerged smiling. Neither side would comment on what was said.

Then Rusk drove to the office of Premier Antonio de Gouveia Salazar, chief executive dictator for nearly 33 years, for another conference. The key issues for discussion were renewal of the lease for U.S. military bases in Portugal's Azores Islands, Portuguese bitterness because the United States supported a U.N. investigation of Portugal's African colony of Angola and resentment because the

United States did not prevent India's seizure of Goa. American officials said nothing would be said publicly about the future of the Azores bases until both sides can think it over in connection with broader questions of cooperation. Rusk and Ambassador Burke Elbrick looked gloomy when they walked out of Salazar's office.

## Mexico Set To Greet JFK

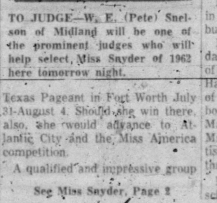

By JACK RUTLEDGE  
MEXICO CITY (AP)—Rising expectancy gripped the Mexican capital today on the eve of President Kennedy's arrival for possibly the warmest welcome Mexico has ever given a visiting chief of state. The Weather Bureau said it is almost certain that warm season showers will fall during the afternoon of his visit. The president's arrival is expected to anti-cipate a record number of people. Kennedy's arrival is expected to anti-cipate a record number of people. Kennedy's arrival is expected to anti-cipate a record number of people.

### Market Has Strong Rally

NEW YORK (AP)—The stock market staged a strong rally in vigorous trading today. It was the first clear-cut advance in almost two weeks. Major key stocks gained 51 or more in a rise that seemed stronger than the several other rallies that frittered out in recent weeks without reversing the general downward trend. Factors cited as contributing to today's gains included more favorable business news, indications Congress may not support some administration plans which businessmen oppose, and Wall Street's feeling that a rally was overdue.

## Miss Snyder To Be Picked Friday

Final preparations are underway and the "finishing touches" being applied to the Jaycee-sponsored Miss Snyder Pageant, which will be staged here in the High School Auditorium tomorrow night beginning at 8 o'clock. Meeting with their beauty and talent for the title will be Misses Jackie McNabb (sponsored by J's Super Market), Judy Thomas (Wallborn Motor Company), Ellie Contella (Modern Beauty Salon), Kathi Verno (Robbie's Chat and Carl) and Betty Morgan (Lamb Chevrolet). Miss Lady Falls is the reigning Miss Snyder. She is en route to Europe, however, and will not be able to accept for this year's show. The 1961 title, Miss Sherone Gladson, is assisting in the presentation, and will sing as a part of the program. Miss Linda Jackley Loftis, who won the Miss Texas title last year and went on to be named third runner-up in the Miss America finals at Atlantic City, will be present to add still more sparkle to the glitter to the program. She will also sing during the evening's program, and will crown the lucky girl who is named Miss Snyder of 1962. The winner of the local pageant will go on to compete in the Miss

TO JUDGE—W. E. (Peter) Snider, of Midland will be one of the prominent judges who will help select Miss Snyder of 1962 here tomorrow night.

Texan Pageant in Fort Worth July 31-August 4. She'll also win there, also, she would appear to Atlantic City and the Miss America competition. A qualified and impressive group of judges will be present to help select Miss Snyder of 1962. The judges include W. E. (Peter) Snider, of Midland, who will be one of the prominent judges who will help select Miss Snyder of 1962 here tomorrow night. The judges include W. E. (Peter) Snider, of Midland, who will be one of the prominent judges who will help select Miss Snyder of 1962 here tomorrow night.

## Highway Construction Allocation Announced

The Texas Highway Commission has approved the expenditure of \$1,105,000 for primary highway construction in Scurry County during 1962-64. J. C. Roberts, District Highway Engineer, announced today. Involved is a 13.8-mile segment of U.S. 84 from six miles north of Snyder to the Gafza County line. This will complete the giant project on U.S. 84 through Scurry County. Construction work is now underway around the east edge of Snyder and on the segment from Inadale south to the county line and on to Roscoe. The segment from a point southeast of Snyder to Inadale already is completed and in public use. The work in Scurry County during the next two years is part of the 1962-64 Consolidated Highway Program in the amount of \$130 million just authorized by the Texas Highway Commission. Roberts said the purpose of the program is to continue the construction and modernization for the arterial highways for increased convenience and safety of travel. In recent years programs for new construction and betterment have achieved a meaningful reduction in traffic fatalities on the primary highway system. A total of 50.9 miles in this highway district will be involved in the 1962-64 program, at a total cost of \$4,590,000. The work in Scurry County will be under the supervision of Homer Eay, resident engineer in Snyder. The plans on U.S. 84 in Scurry County are to construct grading, structures and surfacing of two additional lanes. This will provide a four-lane, divided highway.

## Union, Five Aluminum Firms Agree

NEW YORK (AP)—The United Steelworkers of America announced today new two-year agreements with five major aluminum companies covering 20,000 union members. The agreements, effective Aug. 1, do not provide for any wage increase. Union President David J. McDonald said the agreements were reached "without government intervention or pressure from an outside source." They provide for improvements in vacations and pensions and supplemental unemployment benefits. A new supplemental vacation plan could provide as much as a week's additional time off a year for every employee, union sources said. The agreements were reached with the Aluminum Co. of America, Reynolds Metals Co., Kaiser Aluminum Corp., Olin-Mathieson Chemical Corp., and Ormet Inc.

## B. J. Tucker Rites Today

Funeral services were set for 3 p.m. today for Benjamin Joseph Tucker, 63. Tucker died at 12:15 a.m. yesterday at the Snyder Hospital following a long illness. He was born Sept. 9, 1898 in Argonia, and had lived in Scurry County for the past 39 years. Mr. Tucker was a retired farmer. Mr. Tucker was a member of the Baptist Church, and services were set at the First Baptist Church of Snyder with the Rev. T. L. Nipp officiating assisted by the Rev. Walter Mitchell, pastor of the church. Bolger Funeral Home was in charge of the services, with burial in Snyder Cemetery. Mr. Tucker is survived by three daughters, Mrs. Lloyd Ainsworth of Snyder, Mrs. Otha Nanny of Haskell, and Mrs. Howard Jones of Odessa; two sons, Bill and J. C., both of Snyder; two sisters, Mrs. Mattie Galloway of Abilene, Tex., and Mrs. Huelene Rushing of Yantis, Tex.; eight granddaughters and three grandsons. Nephews and grandsons were scheduled to serve as pallbearers.

## Brazilian Girl Is Exchange Student

Miss Maria Burity, 16, will be Snyder's Foreign Exchange Student during the coming year. Miss M. H. Roe, President of Snyder's American Field Service Chapter, has announced. Miss Burity, whose full name is Maria Pedreira de Freitas Burity, is a resident of Salvador, State of Bahia, Brazil, where her father, a physician, is Superintendent of a hospital. Maria will arrive in Snyder during the latter part of August, and will enroll in Snyder High School at the beginning of the fall semester. Her host-family in Snyder will be Mr. and Mrs. Leon Autry and their daughter. Maria is the third of four children; she has two brothers and a sister. Her oldest brother is a second-year engineering student in college, and her second brother will enter business school at the beginning of the fall term; her only sister is four years old. ## Wreck Kills Three Persons

DICKENS, Tex. (AP)—Three persons were killed and three were injured today when a station wagon fell down an embankment. Eight children escaped injury. The Highway Patrol said the driver was killed when the station wagon fell about 100 feet from the embankment. Killed were Arthur Moore, 30, of Daytona Beach, Fla.; Leonard Neece, 13, and Charles Mager, 10, of Dickens. Injured were Gerald Moore, 12, of Dickens; Beach and Mager. The station wagon was owned by Moore. The driver was killed when the station wagon fell about 100 feet from the embankment. The station wagon was owned by Moore.

## Soblen Held In Tel Aviv

TEL AVIV, Israel (AP)—Israeli police today arrested Dr. Robert A. Soblen, long-jumping fugitive from a life sentence in the United States as a Soviet spy, and hurried him before a magistrate. Arraigned in Tel Aviv court, Soblen was ordered held for the issuance of an official charge against him within the next 10 days. It is understood he will be accused of entering Israel illegally and with false papers. Reliable sources said Soblen arrived Tuesday night after a flight from New York via Paris, showing immigration officers a Canadian passport in the name of his late brother, Beras Soblen. When police asked for his passport this morning on his arrest at the Hotel Savoy in Tel Aviv he reportedly said he must have lost it on the way from the airport. There is no extradition treaty between the United States and Israel under which the United States could ask for Soblen's return. However, U.S. Atty. Robert M. Morgenthau said in New York, "We will make every effort to secure his return." Morgenthau said he had been notified by Israel of Soblen's arrest. Soblen fled from New York Monday on the 63, his scheduled surrender to begin serving his life sentence, escaping via Idlewild Airport. In Washington, the FBI and State Department said no official word had been received there about Soblen's arrest. Soblen was free in \$100,000 bail. The 62-year-old Lithuanian-born psychiatrist, reputedly dying of cancer of the blood, was convicted July 18, 1951, in federal court in New York of spying for the Soviet Union over a 20-year period. The U.S. Court of Appeals affirmed the conviction March 13, 1952. Last Monday the U.S. Supreme Court refused to review his conviction. Soblen's wife said he disappeared a few hours later. He was scheduled to surrender in federal court at New York today to begin serving his life term. Soblen could have been sentenced to death, U.S. Dist. Judge William B. Herlands had spared him; the electric chair because Soblen's disease, leukemia, was supposed to kill him by this summer. In New York Wednesday, Judge Herlands ordered Soblen's bail forfeited; but stayed the forfeiture until this afternoon. Soblen's wife, known professionally as Dr. Dina Soblen, became his surety by posting \$100,000 in cash and \$40,000 in government bonds. According to authorities, \$20,000 of the money was her own and

\$20,000 was borrowed from a friend whom she later repaid. The \$80,000 in bonds was lent by another friend. When the \$100,000 bond was posted last August, the government expressed fear that Soblen might flee to Cuba. Soblen, 62, a psychiatrist, has been ill to sit down for any length of time. During his four-week trial last year, Soblen remained or stood in the courtroom most of the time, sucking on ice cubes and taking pills. The car Soblen had been driving was found Wednesday parked on West 91st st. A woman friend who lives nearby could not be located. At the time of his arrest on Nov. 29, 1960, Soblen was supervising psychiatric patients at Rockland State Hospital, Orangeburg, N.Y. His wife, herself a psychiatrist, also worked at the hospital. Soblen was convicted of being a member of a spy ring headed by his brother, Jack Soblen, 57, imprisoned for a seven-year term in 1957 for espionage. Soblen was a star government witness against his brother. The brothers spell their names differently. Soblen and his brother came to the U.S. in 1941 and were naturalized in 1947. Soblen's attorney, Ephraim M. A. London, appeared Wednesday in court. "It is my belief that he (Soblen) is very ill, incapacitated or dead somewhere not far away," London said. "It is most unlikely that he would be fleeing."

## Sprinkle Falls Here Today

A touch of rain dampened the Snyder area during the forenoon today, as forecasts again called for the possibility of thunderstorms in most sections of the state. For the second day in a row, the temperature remained in the 80's. Light showers were reported in places in Central and South Texas Wednesday. Fort Arthur residents spotted a water spout on Lake Sabine. The Weather Bureau said a few scattered showers fell across Central and East Texas in early morning. Deluges were reported in places in Central and South Texas Wednesday. Fort Arthur residents spotted a water spout on Lake Sabine. The Weather Bureau said a few scattered showers fell across Central and East Texas in early morning. Deluges were reported in places in Central and South Texas Wednesday. ## Estes Case Handling Defended By Freeman

WASHINGTON (AP)—Secretary of Agriculture Orville L. Freeman defended his agency's handling of the Billie Sol Estes case today and acknowledged "some errors and shortcomings" for which, as secretary of agriculture, must assume responsibility. Freeman's statements were in testimony prepared for the Senate investigation of the Estes case. The Senate investigation subcommittee headed by Sen. John McClellan, "BARK" is exploring how the Press, Farm Finance-made multimillion-dollar profits under federal farm aid programs and whether high-powered political influence deals helped him. As the hearing began, McClellan said Freeman's actual appearance at the stand would be delayed until after noon. He said members of the committee had not received copies of Freeman's statement until this morning. Freeman said he had intended to give them time to read it, but that the majority of which has been challenged by the department. The subcommittee remained that "BARK" involvement in the Estes case was not a sufficient reason for dropping him. Freeman said he added "BARK" involvement in the Estes case was not a sufficient reason for dropping him. Freeman said he added "BARK" involvement in the Estes case was not a sufficient reason for dropping him.

# Obey Ruling On Prayer, JFK Urges

By WHITNEY SHOEMAKER

WASHINGTON (AP)—Whether the Supreme Court's school prayer decision pleases or displeases, in President Kennedy's view it is the law of the land and commands support. Moreover, he says, it should encourage every family to pray more at home.

There is bound to be disagreement, Kennedy said at his news conference Wednesday.

He did express a personal opinion but declared, "I think that it is important for us, if we are going to maintain our constitutional principle, that we support Supreme Court decisions even when we may not agree with them."

This was his indirect advice to members of Congress who have denounced the court for holding an official prayer read in New York schools an unconstitutional crossing of the wall separating church and state.

Kennedy declined to comment on constitutional amendments proposed to circumvent the ruling until he could measure their effect on the Bill of Rights.

The President was asked about the decision after he opened the conference with a statement designed to correct any misunderstanding of U.S. policy by the Chinese Communists. In course of questioning, he also restated policy on Chiang Kai-shek's Nationalist government on Formosa.

The United States, Kennedy emphasized, opposes use of force in that area but is ready "to take necessary action in the face of force."

He cautioned the Communists who have been massing troops on the mainland of Quemoy and Matsu, that the U.S. position remains as it was under former President Dwight D. Eisenhower. It is committed to defense of Formosa and the Pescadores and would react to an attack on the offshore islands that appeared to threaten Formosa and the Pescadores. He did not specify the form such a U.S. reaction might take.

As for any attempt by Chiang to attack the mainland, Kennedy said a 1954 agreement prohibits such an offensive without U.S. concurrence and repeated: "Our interest in this area is defensive."

For the controversy over the court decision, Kennedy said there is a simple remedy. "And that is to pray ourselves." He said it could serve as a reminder to pray more at home, attend church with greater fidelity and make the true meaning of prayer more important in the lives of children.

Kennedy had this to say of other subjects: Trade—With the house gripped in debate over his tariff-cutting bill, Kennedy said passage this year "is vital to the future of this country." He opposed a Republican move to substitute an extension of present trade law as self-defeating on grounds that "we have exhausted the powers" it provides.

Congress—don't adjourn, he suggested, without adopting a good deal more of the administration's legislative program. He emphasized trade, tax, medical care, education and housing proposals among those difficult to get through Congress, where he acknowledged some Democrats have been voting with Republicans for years and have to do better. He called the November congressional elections important, with a workable majority hanging in the balance.

Farm Bill—The unexpected defeat of his wheat and feed grains control measure last week was "a great mistake," Kennedy said. "What is interesting," he added, "is that Republicans now indicate they will support an emergency feed grain bill but voted against it with four or five exceptions last year."

Eisenhower—Asked about Eisenhower's assertion that his administration is spending too much on defense and "floundering" in fiscal and economic currents, Kennedy said he didn't enjoy the spending but felt strength helps maintain peace. With some Republicans protesting not enough is done to stand up to the Communists and other saying expenses are too high, he quipped: "There should be some coordination of policy. Otherwise it may appear that the Grand Old Party may be floundering."

His brother—Massachusetts voters, he said, will have to judge the qualification of Edward M. Ted Kennedy, a Democratic candidate for the Senate, against complaints there would be too many Kennedys in Washington.

But for the first time since his youngest brother entered the race, the President commended him publicly for work in past campaigns — an expression of confidence in his ability.

Business—He welcomed a poll which recorded businessmen favoring his tax credit and trade bill but finding his administration antibusiness. It suggests, he said, that "most businessmen, No. 1, are Republicans and No. 2, that they realize what is in the best interests of business and the country, that is, the trade bill and the tax credit."

Troops—Any decision to reduce U.S. forces in Europe would be based on strategic and tactical considerations, Kennedy said. The six divisions now there will remain through "the foreseeable future" and certainly until "we have a clear indication of what the future is going to be in Berlin."

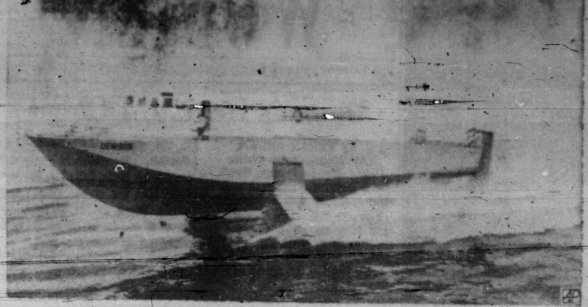

Taxes—Kennedy again urged Congress to grant him standing tax-cutting authority to cope with economic slumps. As to whether income taxes should be reduced earlier than next Jan. 1, the date he has advocated, Kennedy said the government is keeping watch on signs in the economy. Some are good, he said, and some not so good.

France—The United States accepts the fact, but does not approve, that France is developing its own nuclear deterrent force. NATO alliance and the steps we have taken to implement the NATO alliance give adequate security to Europe and the United States.

Rostow—Walt W. Rostow, chief of the State Department's policy planning council has acted very responsibly in preparing a document on national security policies, Kennedy said. He contends the report, which some Republicans have criticized, will help the National Security Council determine what changes are needed in policies laid down in the '50s.

Fallout—Nuclear testing in the atmosphere serves the national interest, he maintained, and "There is no health hazard here in this country nor will there be from our tests."

Cubans—Kennedy said he was unfamiliar with a committee organized to ransom prisoners held by Fidel Castro in Cuba but sympathized with the objective. When a reporter said Kennedy's sister-in-law, Princess Lee Radziwills was a member, he said she is free to make her own judgments.

**FIRST FLIGHT**—This is the H. S. Denison, 90-ton ocean-going hydrofoil ship which attained a speed of 50 knots on its foil system in a test run on Long Island Sound in New York. Later tests will take place in the Atlantic. When the craft reaches a speed of about 26 knots its hull clears the water completely, freeing itself from normal water friction. (AP Wirephoto)

# Churchill Hurt In Fall At His Hotel

MONTE CARLO (AP)—Sir Winston Churchill fell in his hotel Wednesday night and a nurse at Monaco Hospital said today his right thigh bone was broken.

Britain's famous wartime leader, who will be 88 Nov. 30, was taken to the hospital this morning and examined by the hospital director, Dr. Charles Chatelein, and Dr. Andre Fissore, an X-ray expert.

Dr. Chatelein is studying the X-rays, the nurse said. "But from Churchill's home at Chartwell near London, a family spokesman said, "It is not a life and death matter."

He said Lady Churchill would not fly to Monte Carlo today. Churchill arrived here last Tuesday for a two-week stay. The Riviera is one of his favorite vacation spots to paint and sit in the sun. Lady Churchill stayed at Chartwell.

Dr. Chatelein said the former prime minister would be sent back to London today if he is able to travel, but a decision would be withheld until the X-ray pictures have been developed and studied.

The hospital nurse said Churchill had suffered a fracture of the left femur. Earlier, Dr. Chatelein said the injury was at or near the col-de-femur—the hip joint.

There was an unconfirmed report that Sir Winston had also suffered a slight injury to his left shoulder in the fall at the Hotel de Paris.

Word of Churchill's fall was telephoned by his secretary, Anthony Montague Browne, to Prime Minister Macmillan in London.

The news also was sent to Lord Moran, Churchill's longtime physician, who was reached while en route from Oxford to London. Asked if he would fly to Monte Carlo, Lord Moran said: "If he needs me, of course I will."

When Churchill left London for his holiday, he had to be helped up the steps to his plane. "For the last few years, Britain's great wartime leader has appeared to have had more and more difficulty in getting about. Yet he has insisted on seeing friends—visiting them at their homes—add frequently going to the House of Commons."

# National Safety Council Pats Own Back

CHICAGO (AP)—The National Safety Council has accepted its own highest award for safety from itself.

The award, a plaque, commemorates 3 million man hours worked without disabling injury or day lost because of disabling injury. The council has 375 employees and accumulated its record in 4 years, 3 months.

William H. Lowe, Inland Steel treasurer and the NSC's board chairman, presented the award Wednesday to the council president Howard Pyle.

The award, a plaque, commemorates 3 million man hours worked without disabling injury or day lost because of disabling injury. The council has 375 employees and accumulated its record in 4 years, 3 months.

Both bills agree on increasing to 60 per cent the U.S. growers' share of the domestic sugar market. It now is 55 per cent.

They also are quite similar on the allocation to American producers of more than 60 per cent of the new growth factor resulting from increasing population, although the Senate measure is

slightly more generous to U.S. best growers.

The two bills disagree completely on the method of handling the 40 per cent of American consumption reserved for foreign countries.

Beside following the administration lead in eliminating the premium subsidy price on foreign purchases, the Senate also knocked out all country-by-country allocations except for the long-standing obligation to the Philippines.

The House bill named 25 countries.

Sen. Harry F. Byrd, D-Va., head of the Senate delegation, told a reporter he would not be surprised if there were a conference deadlock. He suggested a temporary extension of the present law might result.

Rep. Harold D. Cooley, D-N.C., who is expected to lead the House conferees, has called the administration bill wholly unacceptable on foreign purchases.

Both bills agree on increasing to 60 per cent the U.S. growers' share of the domestic sugar market. It now is 55 per cent.

# Sugar Fight Won By Administration

By JOE HALL

WASHINGTON (AP)—The Kennedy administration has won its sugar fight in the Senate with overwhelming passage of a bill that would eliminate subsidies to foreign producers.

Passage Wednesday night by a 72-26 vote after 10 hours of debate sent the measure to a Senate-House conference. There it runs smack into a House bill which is in direct opposition to administration recommendations on foreign sugar purchases.

The conferees will be working under a tight deadline since the 28-year-old sugar law, which long has divided the American market under tight controls, expires at midnight Saturday.

Sen. Harry F. Byrd, D-Va., head of the Senate delegation, told a reporter he would not be surprised if there were a conference deadlock. He suggested a temporary extension of the present law might result.

Rep. Harold D. Cooley, D-N.C., who is expected to lead the House conferees, has called the administration bill wholly unacceptable on foreign purchases.

Beside following the administration lead in eliminating the premium subsidy price on foreign purchases, the Senate also knocked out all country-by-country allocations except for the long-standing obligation to the Philippines.

The House bill named 25 countries.

Sen. Harry F. Byrd, D-Va., head of the Senate delegation, told a reporter he would not be surprised if there were a conference deadlock. He suggested a temporary extension of the present law might result.

Rep. Harold D. Cooley, D-N.C., who is expected to lead the House conferees, has called the administration bill wholly unacceptable on foreign purchases.

Both bills agree on increasing to 60 per cent the U.S. growers' share of the domestic sugar market. It now is 55 per cent.

They also are quite similar on the allocation to American producers of more than 60 per cent of the new growth factor resulting from increasing population, although the Senate measure is

slightly more generous to U.S. best growers.

The two bills disagree completely on the method of handling the 40 per cent of American consumption reserved for foreign countries.

Beside following the administration lead in eliminating the premium subsidy price on foreign purchases, the Senate also knocked out all country-by-country allocations except for the long-standing obligation to the Philippines.

The two bills disagree completely on the method of handling the 40 per cent of American consumption reserved for foreign countries.

tries, and gave them specific guidelines.

The Senate accepted Kennedy's proposal that 2.6 million tons of the foreign share be allotted to Cuba if that country's Communist government is overthrown. Meanwhile, the tonnage would go to friendly nations on a competitive basis.

The House version reserved 1.8 million tons for Cuba but provided that not among all nations in the next year.

# From me to you A DAILY VIEW

Rev. R. Charles Spirey

"And they answered Joshua, 'All that you have commanded us we will do, and wherever you send us we will go. Just as we obeyed Moses in all things, so we will obey you; Only may the Lord your God be with with you, as he was with Moses.'"

Joshua 1: 16, 17 (read chapter 1)

Jesus once said, "A house divided against itself can not stand." And how true those words are. No matter what kind of "house" it might be, a family, a nation, a club, a church; if the members do not follow willingly and loyally their leaders, then that house is very quickly headed for trouble.

In the case of Joshua and the people of Israel, Joshua came and asked for their support, laid out the plans for the future, and they pledged complete backing. Together they went forward and conquered. It is true, I'm sure, that not everyone agreed on all things at all times; but this still supported their leadership. This is a lesson we need to learn.

# LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY—When the Spaniards blew into town in 1520, the Aztecs had a tremendous palace on the site where the National Palace of Mexico now stands.

Apparently, it was quite a house, covering several city blocks. Mr. Hernan Cortes wrote a letter to King Charles V of Spain and told him all about it.

Emperor Montezuma travels first class, says Mr. Cortes wrote. "You should see the spread he lives in. Twenty doors open by the street and the banging during a wind storm must be fearful. The walls are made of marble and the ceilings are fine carved wood. One of the party halls will take 3,000 people. And in the upper story, thirty knights could hold a journey. It pains me to say this, King, but our fairland has nothing to equal this in size or quality."

I did not personally read the letter but historians who did claim this is the information Mr. Cortes passed along.

Later on, when the Spaniards and Aztecs got into a discussion about the real estate, Mr. Cortes had his men fire a good many cannon balls at the city.

And it looked like a junk yard when they got through. The Aztecs said it was a pretty sad way to run a country. The Spaniards said they were right and rounded up all the volunteers in sight to build a new town.

Mr. Cortes apologized for knocking down the fine old palace and to make up for it, he let the Aztecs build another. It turned out so well, although smaller than Mr. Montezuma's building, that he wrote the King and asked for a title to the new palace.

The King sent Mr. Cortes a deed.

# SPORTS

The Snyder (Texas) Daily News, Thurs., June 28, 1962

## Tough Layout Greet Field

CHICAGO (AP)—A field of 128 professionals and 7 amateurs teed off on a golf course that defies anyone to take it apart.

## Expansion Door Ajar

BOSTON (AP)—The door was still open today for American Football League expansion but the feeling was the present eight-club setup will continue another year at least.

The AFL's Executive Committee decided Wednesday against expanding to 10 teams, with two new franchises starting play in 1963.

Commissioner Joe Foss said he felt there was no reason to rush expansion at this time. However, he said a decision to expand still could be reached later this year.

The eight-club owners conferred in Boston for three days, discussing a variety of league matters in addition to hearing presentations of franchise applications from syndicates in New Orleans, Kansas City and Atlanta.

## Griffith To Battle Dupas In Title 'Go'

NEW YORK (AP)—Will Emile Griffith be able to forget the Benny (Kid) Foret tragedy and get on out against Ralph Dupas in their July 13 welterweight title fight?

"I hope so," said Emile as he prepared to leave today for Las Vegas, the fight site. "I guess I won't know until I get in there. I know in my heart that Benny's death was an accident. Boxing is my business. It got me and my family out of the slums and I never want to be poor again. So I will continue to fight."

Talking in the sing-song of his native Virgin Islands the welterweight champion added: "I'm still a little uncomfortable in the ring. In training I know what I want to do and sometimes I can do everything and sometimes I just can't."

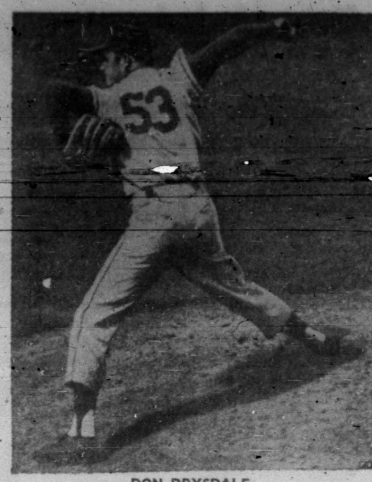

Griffith hasn't fought since he regained the 127-pound division crown on the 12th round knockout of the March 24 night that resulted in Foret's death 10 days later.

## It's Back To School For Vaulter Tour

CARBONDALE, Ill. (AP)—Marine Lt. Dave Turk is going back to school, and he still plans to keep his vaulting pole in action, even if he can not play for the varsity.

Turk, who set a world record in the pole vault earlier this year, announced Wednesday he plans to enroll as a graduate assistant at Southern Illinois University.

The position will not allow him to compete with the varsity, but it will permit him to be a member of the SIU Track Club in AAU events.

DON DRYSDALE Could Be His Year

## DRYSDALE CARDS Victory No. 13

By MIKE RATHET Associated Press Sports Writer  
Calm, cool and collected, that's Don Drysdale. That's right—Don Drysdale.

The Los Angeles Dodgers' fireballer, whose pitching talents have been diminished in the past by an easily reached boiling point, has learned to curb his temper and seems headed toward his first 20-victory season in the majors.

Drysdale, 25, won No. 13 Wednesday night with a five-hitter that whipped Milwaukee 6-2, but had to maintain his composure during a series of incidents. Twice he was hit by pitches, and twice had to pitch out of jams created by errors. In the sixth, Mury Willis booted a grounder by Hank Aaron, allowing the first Braves run to score. In the eighth, Ed Mathews got a double when Frank Howard misjudged his fly, and took third on a passed ball.

The Giants remained on top with their fifth consecutive victory, 6-3 over the Reds. Third place Pittsburgh edged the New York Mets 6-5 in 10 innings and fourth-place St. Louis blanked the Chicago Cubs twice, 4-0 and 8-0 on shutouts by Nippy Johnson and Ray Sadecki, respectively. Philadelphia was not scheduled.

In the American League, Detroit knocked off first-place Cleveland 4-0, the New York Yankees beat second-place Minnesota 7-3, Los Angeles Angels blanked Boston 3-0, Baltimore edged the Chicago White Sox 3-1 and Kansas City defeated Washington 4-1.

Drysdale (13-4) also got the Dodgers started in the fifth when he was hit by a Bob Shaw (9-4)

## Yank Luck Rests With Fem Netters

By JOHN SHEPPARD  
WIMBLEDON, England (AP)—The United States' declining tennis prestige is to be bolstered at Wimbledon this year, it looks like the women will have to do it.

Thirteen American men—including Chuck McKinley—left by the wayside in the first two rounds of singles play and only three remain in the Australian-dominated field of 32 that went into today's third round.

McKinley fell before little-known Mike Hanp of England Wednesday in another major upset in this year's edition of the historic tournament. The 21-year-old star from St. Ann, Mo., was the only American seeded, with the No. 5 rating.

McKinley, losing finalist to Australian Rod Laver last year, said he had a strained muscle in his forearm which prevented him from gripping his racket properly. He was beaten in straight sets, 6-3, 6-2, 6-2.

That left only Dennis Ralston, Bakerfield, Calif.; Frank Froehling, Coral Gables, Fla., and the

top-ranked U.S. player, Willes Reed, Alameda, Calif.—all unseeded in the field.

The American women have had much better going, however. Billie Jean Moffitt, Long Beach, Calif., set the pace Tuesday with her eye-popping upset of top-seeded Margaret Smith of Australia, and Nancy Richey, San Angelo, Tex.; Justina Bricks, St. Louis, Mo.; and Mrs. Karen Hantze-Surman, Cifala Vista, Calif., marked up victories Wednesday.

CONGRATULATIONS FOR NO-HITTER—Earl Wilson, pitcher for the Boston Red Sox, who became the first Negro in history to pitch a no-hit game in the American League, receives congratulations from his opposing pitcher, Bob Belinsky of the Los Angeles Angels after Wilson's 2-0 victory at Boston. It was the major leagues' second no-hitter of the season and it was Belinsky who spun the first one on May 5. (AP Wirephoto)

## Football In Early Start

BUFFALO, N.Y. (AP)—The All-America Bowl, featuring the cream of last season's college stars, sets the football—on that's right, football—season off to an early start Friday night.

Both squads, the East and West, finished heavy preparations on Wednesday for the second annual game. The game will be televised (NBC) over 175 stations with the Buffalo area blacked out.

East Coach Woody Hayes of Ohio State and the West's Murray Warmath of Minnesota, named their co-captains Wednesday, but neither has announced his starting lineup.

Hayes nominated Roman Gabriel of North Carolina State and Larry Osesti of Northwestern to co-captain the East, while the West picked a pair of quarterbacks, Bobby Ry of Baylor and Sandy Stephens of Minnesota.

## Local Slate

Thursday, June 28

Von Roeder Seed Farms Red Sox vs. Wilson Motors Yankees. LL and FL Yankees vs. White Sox and Braves vs. Cubs; Harlin Oilers vs. Surrency (City Softball).

## Mick Wright Shoots For Fourth Crown

MYRTLE BEACH, S.C. (AP)—Mickey Wright, who has scored all three of her 1962 victories on Southern golf courses, opens her bid today for a fourth U.S. Women's Open Championship in five years on a Dixie layout that seems tailored to her powerful tee shots.

The tall California native who plays out of Dallas, Tex., is seeking the second leg on a possible grand slam she began by winning the August Titleholders crown last April. After the Open, there is the Ladies' PGA Championship at Las Vegas in October to round out the big three events for the professionals.

Mickey, 27, faces a field of 68 challengers in a 3-day, 72-hole test over a Dunes Golf and Beach Club course that promises to be a severe test. It's a par 72 layout, hard by the Atlantic, with 6,400 yards of sand and trouble and ocean wind on many holes.

Lightweights To Vie  
SAN ANTONIO (AP)—Houston's Otis Blackbear will meet indie Puccio in a 10-round lightweight match Tuesday. In an earlier bout here, Blackbear knocked out Puccio in the sixth round.

## TENNIS, ANYONE?

The entry list for the annual Scurry County Tennis Tournament has begun to swell, but entries in the junior division (boys and girls aged 15 and under) are particularly needed at present.

The tourney has slated a Monday blastoff, with play set to continue through Tuesday and the finals on Wednesday, July 4.

All Scurry County residents are invited to take part, and those interested are asked to contact tournament director Jerry Jackson at HI 3-5486, or HI 3-5018.

Entry fee is one dollar for doubles and \$1.50 for singles. The adult division is to feature men's and women's doubles. The junior phase will be concerned with boys' and girls' doubles and singles.

**Road To Success In Society Is Paved With Long Green**

**BY INEZ ROBB**

Now that Edward M. Gilbert, the compulsive check grabber, is in Rio de Janeiro beyond the reach of any U.S. Wyatt Earp, cafe society will have to look around for another patsy to set 'em up in the champagne bar.

Gilbert, who was or wasn't (whose story do you believe?) accompanied by almost \$2,000,000 "borrowed" from a Wall Street firm which he formerly headed, is not apt to be back this way in the foreseeable future.

But cafe society won't have to look long or far for another sucker. There are always one, two, three or a dozen Edward M. Gilberts eager to pick up the tab for the privilege of hobnobbing with the cafe set.

Probably the most educational stretch of my lifetime in the newspaper business was as society editor, years ago, of the New York Daily News. I learned more about human and inhuman nature in those years than in all the class books, laboratory work and graduate lectures of Alfred Adler in psychology, in which I minored at school.

It took hand-to-hand combat with assorted social climbers, the guerrilla fighters of the cafe crowd to teach me that the male of the species is 10 times as deadly as the female once he is habituated by the social bug. That was contrary to all I had read and to all my preconceived notions.

There was then and still is abroad in the land a conviction that such silly, ridiculous actions as social climbing are solely confined to women; that man is above such foolish, petty strivings.

In a pig's eye it gradually dawned on me in those far-off days that a man afflicted with the itch to be in society will shell out any sum of money and put up with any hanky-pank to achieve his goal. He is capable to a politician stung by the Presidential bee; only death will ever part the twain.

Gilbert, whose house of marked cards collapsed with the current stock market nosedive, is typical of the breed. Although his father was well-to-do and Gilbert did not split from the financial bottom, he was certainly low man on the social totem pole.

But he didn't propose to stay low man for long. No sooner did Gilbert become the newest boy wonder of Wall Street than he yearned to break the barrier of cafe society.

Like all other men of his kidney, he saw money only as a launching pad to put him in social orbit. What was the good of all that gold if he couldn't get his name in the society, gossip, Broadway and night-bell columns? That was true glamour he yearned for. Better dead than not read daily in some column.

So, like many another smart operator in this field, Gilbert decided to make a pitch for social recognition as a patron of big, glittering charity events. That gambit is almost sure-fire, if one's donation to the charity is sufficiently large.

An then Gilbert took the wit to himself. Edna Maxwell. So his second smart move was to attack society first on the Riviera rather than frontally in New York. It's comparable to the tactic of the American operatic singer who, when she knocks 'em dead in Europe, to get a contract at the Met.

In Monaco Gilbert met a New Yorker, a man who like M. S. Maxwell, can be "sympathetic" in these matters. Indeed, for that matter, cafe society itself is frightfully sympathetic with anyone who shows the slightest inclination to pick up its checks, as Gilbert did.

So as long as Wall Street boomed, Gilbert zoomed on the fringes of cafe society. And it wouldn't surprise me if the Rio branch of the cafe set isn't cautiously checking right this minute to determine whether Gilbert can still pay the tab. If so, he'll be a member in good standing, and instantly, in Brazil.

**Progress Is Grim For Old Fuddy-Duddy**

**By HAL BOYLE**  
NEW YORK (AP)—Are there links worth 18 restaurants?

What good is progress if it risks what you like?

These are questions I ponder every time I look out the window where I work.

Many people never know when they become a fuddy-duddy and an old fogey is a person who prefers things as they were rather than as they will be. He fights change.

Well, every time I hear the river-eter's hammer echo in the new 40-plus-story building goes up across the street, I wonder how become more of a fuddy-duddy and an old fogey.

There seems to be a noisy conspiracy afoot to turn mid-Manhattan, one of the world's favorite playgrounds, into another paper city forest—an urban Wall Street.

Down come the fine old apartments, the beautifully ugly brownstones. Up go the new antiseptic aluminum and glass, business foundries full of offices with neatly lettered doors.

Midtown used to be full of people on a lark. Now it is thronged with vice presidents full of grim purpose. It is getting harder and harder for a human being to find elbow room among the Junior executives.

For nearly a quarter of a century I have hung my hat and exercised my typewriter in one of the pioneer outposts of Rockefeller Center.

When I first moved in, I could look out the window and see Old Lady Vanderbilt's society mansion anchoring one end of the street, across the way. At the other end of the street was a two-bit bar with a second-hand bookstore up

Over the years since then you could get your hair dyed in that single block, have a violin reared, join a bridge club, rent a book room, or wife and dine in 18 restaurants and taverns.

In the good old summertime there were two outdoor cafes where you could sit and sip bourbon or iced tea and watch the world and the girls go by. The chattering Rockettes from the Radio City Music Hall used to come across the street with their painted faces and rest their lovely long limbs there between shows.

Well, what happened to it all? They tore down the old hotel, Old Lady Vanderbilt used and they tore down the landmark she lived in where the champagne bubbled.

One by one they tore down the old brownstones, the beer-perfumed taverns, the restaurants of many languages.

Now the street across from the window I look from is inhabited by giant office buildings, full of eager beavers eager to go home to the suburbs, and three stone

Banks are wonderful for depositing money, but hardly a place to deposit a life—and certainly they do serve a lousy beef stew.

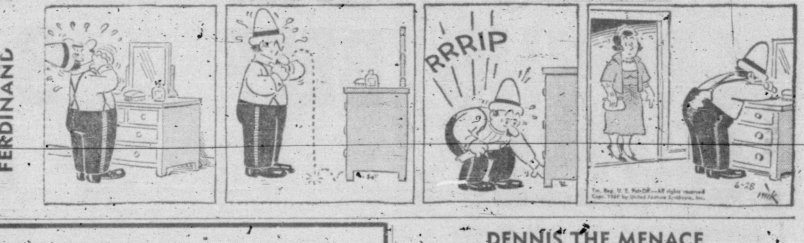

But only a fuddy-duddy complains against progress. I'm that fuddy-duddy.

**Oklahoma's Crude Flow Is Unchanged**

**OKLAHOMA CITY (AP)**—The State Corporation Commission ordered Wednesday that Oklahoma's present oil allowable of 55,000 barrels daily production be continued through July.

The allowable calls for a 30 per cent market demand factor applied to the depth-acreage table.

Oil buyers appearing at the commission's market demand hearing said they want to purchase 516,720 barrels a day next month. This is 660 barrels a day less than their nominations a month ago.

**Junior Editors Quiz on SCIENCE**

**QUESTION:** Is there water heavier than the water we drink?

**ANSWER:** All ordinary water contains a mysterious substance about 11 per cent heavier than the water around it. Look at the diagrams of atoms below the picture. Water is a combination of hydrogen and oxygen, and the left is a hydrogen atom. The ball in the center, or nucleus, contains one proton, and there is one electron whirling around it. But in the atoms of a substance called deuterium, one of which we show to the right, there are two balls in the center, a proton and a neutron, with one electron whirling around. You can understand that the atoms of deuterium, with their heavier centers, would be heavier than the ordinary particles of water. The deuterium particles were unknown until discovered by Harold C. Urey in 1932, and were successfully separated from other water particles by Gilbert N. Lewis in the same year. The product of this separation, heavy water, has been found to be useful in nuclear reactions.

**FOR YOU TO DO:** Such wonderful things are happening in science these days that all of us should make an effort to keep up with the progress of science. You can do this by reading the scientific and popular science magazines and newspapers.

(Have Nelson of Nelson Print Co., give \$10 for this question. Mail your answer to Junior Editors in care of this newspaper.)

**NAMED FOR NEXT SPACE FLIGHT**—Astronaut Walter M. Schirra, right, was named by the National Aeronautics and Space Administration as pilot for the next manned United States orbital flight. Astronaut L. Gordon Cooper, left, will serve as backup pilot. The flight is being planned for as many as six orbits for some time late in summer. (AP Wirephoto)

# Schirra's Wife Knew He Was Next

LANGLEY AIR FORCE BASE, Va. (AP)—A woman's intuition, astronaut Walter M. Schirra Jr. says, told his wife he'd be the next American in space.

Schirra, a Navy commander, whose selection for the United States next orbital flight was announced officially Wednesday, says his wife realized this fact some time ago "through a sixth sense which all wives have."

Actually, Schirra told a news conference, the official word was given him Tuesday night although he and his family had been told earlier he was the next astronaut in line.

The reaction from Schirra, his wife and his parents was as expected. "Enthusiastic, Delighted, Happy."

Schirra, 39, who may circle the earth as many as six times, said the additional three orbits would be a great bonus.

"I am performing well and the capsule is performing well, we will decide during the third orbit whether to go for six," he said.

No major modifications are planned for the capsule or the space suit, Schirra said, "we always felt the Mercury capsule had a capability of more than three orbits."

Schirra said he plans to slim down to 171 pounds before the space mission later in summer. He now weighs 185 and keeps in good physical condition by swimming, water skiing and golf.

At the public announcement of his selection, his wife said "I'm delighted that Wally will have this chance."

## Bean Fined; Prison Term Suspended

AUSTIN (AP)—Former El Paso County Judge Woodrow Bean was fined \$500 and a 3-year suspended sentence Wednesday for failing to pay income tax returns.

U. S. Dist. Judge Ben Rice suspended the sentence on condition that Bean pay the fine within 60 days.

Bean pleaded guilty June 18 to charges that he did not file returns for 1956 through 1960. He said during a campaign for congressman-at-large that taxes were withheld from his salary during this period.

His lawyer, Sen. Charles Herring of Austin, asked the court for leniency. He said Bean cooperated with the Internal Revenue Service and "didn't try to hold back anything."

"As far as I know, he never before has been accused or convicted of a crime," Herring said. "He has lived a good life, but he has violated the law and he knows that. He is willing to pay for it."

## Soviet Milk Production Down 20 Per Cent

MOSCOW (AP)—Soviet milk production for the first half of 1962 is falling 20 per cent short of the government's target. Meat production is off even more.

Pravda disclosed this Wednesday in reporting a speech by Presidium member Gennady Vorozov to a top-level agricultural conference in the Kremlin.

A conservative gray shade called Army green has replaced olive drab for Army uniforms.

importance of her father's assignment. "Oh, golly!" said the astronaut's mother in San Diego. "It takes my breath away. My husband and I are so happy for him."

She said she and her husband a World War I air ace, will remain in California. If the mission goes to six orbits, she said, her son will land in the Pacific and they will see him sooner by remaining on the West Coast.

## It Started From Scratch... On The Leg

MIAMI, Fla. (AP)—The Dade County sheriff's office received a call that a car had hit a boy on a bicycle.

Three squad cars responded. A large crowd gathered. Traffic was backed up for some distance.

An ambulance attendant surveyed a damaged bicycle and asked about the victim.

Someone pointed to a house and the attendant rushed over, carrying a stretcher.

Just then, Chris Schofield, 16, sauntered out, explaining the lady

inside had given him a drink of milk. Chris showed the ambulance attendant a scratch on his leg. Everyone went home.

## Uranium Production Cut In London

LONDON (AP)—The British government announced Wednesday that it possessed so much enriched uranium for its nuclear weapons program that it has decided to cut back production.

Uranium Hallsam, minister for science, said supplies are fully adequate for the current nuclear deterrent policy.

# Four Lutheran Bodies Merge In Solemn Ceremony Today

By GEORGE W. CORNELL, Associated Press Religion Writer  
DETROIT (AP)—The largest merger in the history of Lutheranism in America takes place here today.

With solemn ceremony and song, four Lutheran denominations join forces to become one. "An Epoch, long prayed for"

## Ceremony Just 50 Years Late

MOBILE, Ala. (AP)—In 1912, in a small community in Lawrence County, Pennsylvania, Mae Hestley Pundy and Harry Moore were busy planning for their wedding.

The ceremony was to take place on July 5, Harry's 21st birthday. But her family objected and the wedding never took place.

Mae later married another man and moved to Wisconsin, where her three children were born. After the death of her husband, she moved to Mobile.

Harry also married, but he never forgot the love of his youth. Now a widower, he recently learned of Mae's death of Mae's husband.

Last April he wrote Mae, mentioning "the good times we used to have." He asked if he might see her, since he planned to be in the Mobile area. She consented.

"After we'd talked for just a few minutes," she said, "I knew we still had much in common, and the visit stretched to over a week."

Moore proposed again, and she accepted. But they decided to wait six months to sort of get reacquainted.

Harry left and very shortly Mae found she had become extremely lonely.

"So," she chuckled, "I wrote a letter and asked him how he'd like me for a birthday present. Since we'd already waited 50 years, I couldn't see any sense in having to wait six months more."

On July 5, Mae, 69, and Harry, 71, will be married in the small church in Lawrence County, Pennsylvania, where the ceremony was to have been performed a half century ago.

eight," said the Rev. Dr. Franklin Clark Fry, of New York. "Thousands of Lutherans including 2,500 delegates and officials were on hand for the occasion in Detroit's giant Cobo Hall."

"There is jubilation here today," said the Rev. Dr. P. O. Bersell, of Minneapolis. "At long last these four Lutheran bodies have come together because they belong together, because they have one Lord and one faith."

"Their past divisions trace back to differences in national origin and languages. But these factors have faded on the American scene, leading to formation of the new united church."

Its name, "The Lutheran Church in America,"

At present, it has 24 million members in 4,125 congregations, the sixth-largest protestant body in the nation.

It will provide a mighty witness for the faith in the midst of all the compromising, humanizing and secularizing tendencies rampant in the world today," said the Rev. Dr. Lavin H. Lundeen, of Minneapolis.

He called it a step toward the "unification of all Lutherans" in America.

The merging denominations are the 24-million-member United Lutheran Church of German background; the 830,000-member Augustana Lutheran Church, of Swedish descent; the 35,500-member Finnish Evangelical Lutheran Church; and the 25,000-member American Evangelical Lutheran Church, of Danish origin.

Their merger is part of a trend toward Christian unity that is gradually bringing various denominations closer together, and is sealing the rifts in organizationally divided Lutheranism.

Back in the 1800's, this country had more than 70 different Lutheran branches, separated along ethnic lines. They have steadily coalesced.

The new union reduces the number to 11, and brings 95 per cent of the 83 million Lutherans in America into three major bodies.

They are the 2.6 million member Lutheran Church-Missouri-Synod; the 2.3 million member American Lutheran Church, that was formed through a three-way merger in 1960, and the new church created here today.

"Other Christians throughout the world are taking note of this event in the unfolding drama of the Christian Church," Dr. Bersell, long-time leader of the former Augustana Church, said in a prepared sermon.

A huge communion service, marked the occasion.

The new merger comes after about six years of negotiations, headed by a 46-man commission of the former Augustana Church.

He said the new church does not look on itself as an end, but as a means for seeking closer relations with other Christians "for the furtherance of the Gospel of the Lord."

"Take this, we believe, is part of the plan God has for his church," he said.
