NUMBER 13

After Sunrise Service to be Sunday

Perryton Churches and Knights Templar Sponsor Service

Arrangements for the Sunrise Service have been made, it was announced. The Easter message will be given by Rev. R. Luther, District Methodist superintendent.

Services will be held Sunday morning, March 28, in the creek canyons south of Perryton on highway 83, a short distance from the Lake Fryer where the services have been held for the past two years. The service will be at 6:40 a. m. on Sunday, and it will be held by 6:30 a. m. Members of Perryton churches, together with their respective families, will be at the location in a body. The service is being sponsored by the Canadian Commandery, Knights Templar, together with churches of Perryton, as in the following program will be given:

—Harp Solo, Mrs. Gus Harp.
—"He Lives," Congregation.
—Rev. Raymond Harp.
—"Christ Arose," Male Chorus.

—Onward Christian Soldiers, Male Chorus.
—Message—Rev. Luther.
—What a Friend We Have in Jesus, Congregation.
—Harmonization—Rev. Harold N. Harp.

—Harp Solo, Mrs. Gus Harp.
—Invitation has been extended to the entire community to attend the service, the third of its kind to be staged here. Two years ago, 800 persons attended, 800 at last year and it is expected that over 1,000 will attend this year.

—Harp Solo, Mrs. Gus Harp.

ADMINISTRATOR GETS CHECKS—E. B. Germany (left), president of the Lone Star Steel company of Texas; Rep. Wright Patman (D-Tex.) (center), and War Assets Administrator Jess Larson hold checks totaling \$1,504,647 in Washington—the down payment on a surplus steel plant at Daingerfield Tex., being purchased by Germany's firm. Sale price for the plant is approximately \$7,500,000 to be paid over a 10-year period.

Perryton Baseball Club is Organized Wednesday Night

TSCW Professor to Assist Teachers in Personnel Problems

Dr. L. H. Moore, professor of psychology at Texas State College for Women, will arrive in Perryton March 30 and will spend three days in the Perryton schools, assisting teachers in personnel problems and will also conduct a series of tests with high school juniors and seniors.

Dr. Moore will be remembered as the principal speaker at the 1947 Perryton high school commencement exercises.

He will speak at the Lions Club Tuesday at noon and at the Rotary Club Thursday noon.

New Police Signal System Installed

A new system for summoning a city police officer at night has been installed in Perryton.

This device is a light, located on Main street east of the telephone office. If a city police officer is needed, all that the person has to do is call the telephone operator. The operator then turns on this light, the officer in the patrol car sees the light and he then phones the operator for instructions.

It's not as elaborate as a two-way radio system, but it is a lot less expensive and will probably serve the needs in Perryton.

PTA Officers Are Elected

Mrs. Cecil Dodd was elected president of the Perryton Parent-Teachers organization at the March meeting held Monday night in the school auditorium.

She will succeed Mrs. Vance Apple, present president.

Other officers of the PTA elected for the next year are Mrs. G. W. Acker, vice president; Mrs. Harold Hudson, recording secretary; Mrs. Jack Todd, corresponding secretary; Mrs. Jerome Woods, treasurer; Mrs. Alton Witt, historian; Mrs. J. A. Anderson, parliamentarian.

These new officers will be installed at the April meeting.

Members of the PTA enjoyed "Men's Night" last Monday, which was provided exclusively for men.

Four Car Wrecks In Area During Recent Weeks

Four automobile accidents, none of them resulting in serious injury to the occupants, have been investigated by state highway patrolmen J. J. Shields and Dave Wolfe, during the past few weeks in and around Perryton.

The first one, on March 5, happened 14 miles north of Canadian on highway 83, when a panel truck owned by the Canadian Laundry, driven by Edward Rowley, overturned. Cause of the accident was excessive speed and slick roads, according to the investigating officers. Rowley was not injured, although the panel truck was damaged.

Also on March 5, an accident on Main street and Third avenue damaged the automobiles driven by Clarence Miller and Bill Clark. Clark backed out into the Miller automobile, which was double parked, bending fenders on both cars.

On March 17, a 1941 Mercury driven by Burton McGee of Coldwater, Kansas, smashed broadside into a 1947 Dodge pickup driven by John Fleck of Shedd, Wisconsin. This accident took place at the intersection of highways 83 and 117. McGee, in the Mercury, was traveling south and hit the Fleck pickup, which was going east after having failed to stop at the sign at the intersection. An estimated \$500 damage was done to both vehicles. No one was injured.

Last Thursday night, March 18, Harvey Urban stopped his 1948 Chrysler on the highway.

See No. 3, Page 8

Quota Passed For Red Cross

Ochiltree county passed the 1948 Red Cross quota of \$924 this week after the weather cleared up enough to allow workers in the drive to solicit contributions.

By Wednesday noon, the total collected for Red Cross was \$1,010.

The drive will continue through the month of March, even though the quota has been reached, stated A. P. McCelvey, county chairman of the drive, and those who desire to contribute may bring or mail their contributions to the First National Bank, Perryton National Bank, Stewart Printing Co., or the Perryton Furniture Co.

Easter Revival In Progress at Christian Church

An Easter Revival began at the Christian Church on Sunday, March 21, and will continue thru Easter Sunday, March 28, under the direction of Charles W. Boatman, new minister of the church.

A special Youth Service will be held Friday night, March 26, with the message for the evening services being "Today's Kingdom."

The public is cordially invited to attend the revival services during this week, stated Mr. Boatman.

SUPERSTRUCTURE OF THE TEXAS—This is a view of the superstructure of the U. S. S. Texas, from forward, showing the 14 inch guns, at berth at Norfolk, Va., Naval Station. The Texas is enroute to its home state on a final voyage to become a state shrine.

Many Ochiltree Motorists are Putting Off Buying Car Tags

Despite the new policy this year of allowing new license tags to be placed on Texas automobiles after February 1, when the tags went on sale, plenty of Ochiltree county motorists are still putting off until the last minute the necessary task of buying the 1948 tags.

As of Wednesday, March 24, there had been 875 passenger car tags sold at the sheriff's office, 380 farm tags and 100 commercial tags for a total of 1,355. Last year, there were 1,975 tags sold, and judging from the number of new automobiles sold during the year, the number of cars to be registered is now well over the 2,000 mark.

This means that at least 600 license tag buyers are waiting until the deadline of March 31 to buy the tags. After that date, a 20 per cent penalty is added, and there will be penalties paid this year, as in years past, because of forgetfulness or procrastination.

State highway patrolmen J. J. Shields and Dave Wolfe report that many motorists are driving automobiles with expired Oklahoma tags in Perryton. Oklahoma tags expired on December 31, 1947, with a 30 day grace period, making them absolutely void on January 31. Still, there are cars driving on Perryton streets with the outdated 1947 Oklahoma license tag, say the

School Census Closes Wednesday, March 31

Wednesday, March 31, is the last day for school children to be enumerated on the annual scholastic census. It is very important that every school child in the Perryton area be listed on this census. The school receives a \$55 apportionment from the state for each child listed on the census. Those children that will be 6 years of age by Sept. 1, 1948 or who will be 18 years of age on that date must be enumerated. F. B. Sumpter is the census enumerator and parents with pre-school age children who will enter next year are urged to contact him and secure a census blank, if they have not already done so.

Harlan Hawk, present county commissioner from precinct 2, has authorized the Herald to announce his candidacy for re-election to that office, subject to the action of the voters in the Democratic primary in July.

Hawk is serving his first term as county commissioner, having been elected in 1946. During his two years in the office, he has discharged the duties of the office in a highly capable manner, giving extra time to these duties in an effort to be of the most possible service to the people in his precinct.

He is one of the county's most progressive farmers and stockmen, known for his ready acceptance of modern farming methods and his application of sound business methods to whatever enterprise he might be engaged to whatever enterprise he might be engaged.

Hawk has been a resident of the county for over 20 years and has taken an active part in civic and community affairs. At present, he is a member of the board

First National Bank Advances 644 Places To Become 2080th Largest Bank in the Nation

Under date of March 19, the Herald received the following news release wire from the editor of the "American Banker":

"The First National Bank of Perryton which reported deposits of \$8,097,990 on December 31 gained 644 places in its standing among the 2500 largest banks in the United States during 1947 and now ranks as the 2080th largest in size compared with 2724th place at the end of 1946. This is revealed in the 1948 annual call of the larger banks in the United States published today, March 19, by the Daily American Banker which is the trade newspaper of the banking business."

This bank has experienced a remarkable growth under the able direction of Carl Ellis, who joined the institution about 15 years ago as president. With a background of ranching and large scale farming, Mr. Ellis has built it to the top place among the northeast Panhandle banks.

A remodeling and enlarging program is now underway at the bank which will more than double the floor area of the banking house, affording many added conveniences for their customers.

Starting with a capital structure of \$62,473 at the close of business in 1933, the capital structure on Feb. 10, 1948, stood at \$248,619. The record of capital structure over the intervening years was as follows: 1934, \$65,751. 1935, \$68,107. 1936, \$66,087. 1937, \$65,236. 1938, \$69,117. 1939, \$71,000.

Safety Meeting is Planned April 13

Plans are being made by the Perryton Safety Council to hold a public safety meeting at the school auditorium on April 13, at which time several films will be shown, and state highway patrolmen will speak on the safety problem, especially as it applies to Texas highways.

The Perryton high school band will be present to play several numbers for entertainment.

The Safety Council will meet on Thursday, April 1, to perfect plans for this public safety meeting.

Blue Cross Enrollment Gets Off to Good Start; Business Firms and Individuals Enroll

The community enrollment in the Blue Cross hospital plan got off to a good start this week, with approximately 50 individuals and employees from eight business firms signing up for the group plan during the first three days of the enrollment. It is expected that many more will take out the Blue Cross plan before the deadline on Saturday night, March 27.

School Board Candidates Very Scarce

The names of three men have been filed as candidates for positions on the county school board and two men have filed for the Perryton Independent School District board as of Wednesday, final date for filing in the county school elections scheduled for April 3.

Trustees for the five common school districts in the county, as well as the Perryton and Waka Independent districts will be elected on April 3. No candidates for the vacancies on the boards of the common school districts or the Waka district have been filed.

County Board L. R. Conner and Charley Kent are candidates for the vacancy of

See No. 8, Page 8

The business firms whose employees have taken out Blue Cross hospital insurance are Perryton Furniture Co., Sanford Drug, Stewart Printing Co., Kent and Apple, Triple Supply, Bob Schuster Pontiac, Perryton National Bank and Woolwine's.

The teachers in the Perryton schools and the Ochiltree Farm Bureau group already had Blue Cross insurance in force.

Harry G. Hatch, regional director of the Blue Cross and Mrs. Eileen Callender and Mrs. June Bower, both of whom are enrollment representatives from Dallas, are assisting in this community enrollment, with headquarters in the Chamber of Commerce office.

Local people who have assisted in the enrollment thus far are Mrs. Audie Conley, Mrs. Dewey Allen, Mrs. Sibley Jines, Mr. and Mrs. J. H. Kershaw, Mr. and Mrs. Fred Huston.

After the community enrollment closes on Saturday night, there will be no way for an individual to enroll in the Blue Cross plan until the community advisory council opens another enrollment, not earlier than six months. The Blue Cross community enrollment was brought to Perryton by local people who wanted to bring the advantages of this complete non-profit hospital plan to the people of the Perryton community.

Both hospitals in Perryton are members in Group Hospital Service, Inc., sponsors of the plan, and Blue Cross members in Perryton may secure hospital service at either hospital they choose.

Enrollments are being taken at the Chamber of Commerce office, from 9 a. m. until 5 p. m. daily.

HAPPY EASTER

Texas Today

By DAVE CHEAVENS
Associated Press Staff

McDonald Observatory, Fort Davis, Tex. (AP)—The travel bargain of the day in Texas is a 900 million mile journey by eye to the spectacular planet Saturn.

The look, via McDonald Observatory's 82-inch telescope, is free. All you have to do is make advance arrangements to visit the observatory the last Wednesday of any month between 8:30 and 10 p. m. You write the observatory at Fort Davis, enclosing a stamped, self-addressed envelope, for a return admission card.

Saturn stole the show at the recent Mars party staged by the Observatory. There was a good deal of talk about recent progress in the study of whether or not there is some form of life on Mars, but most of the looking was at Saturn and its glowing

ring system.

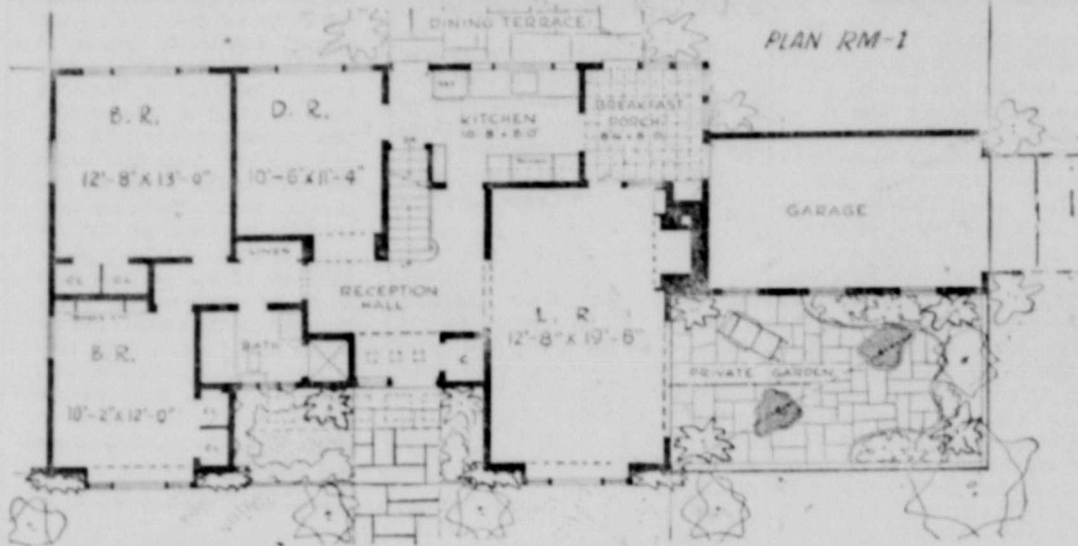

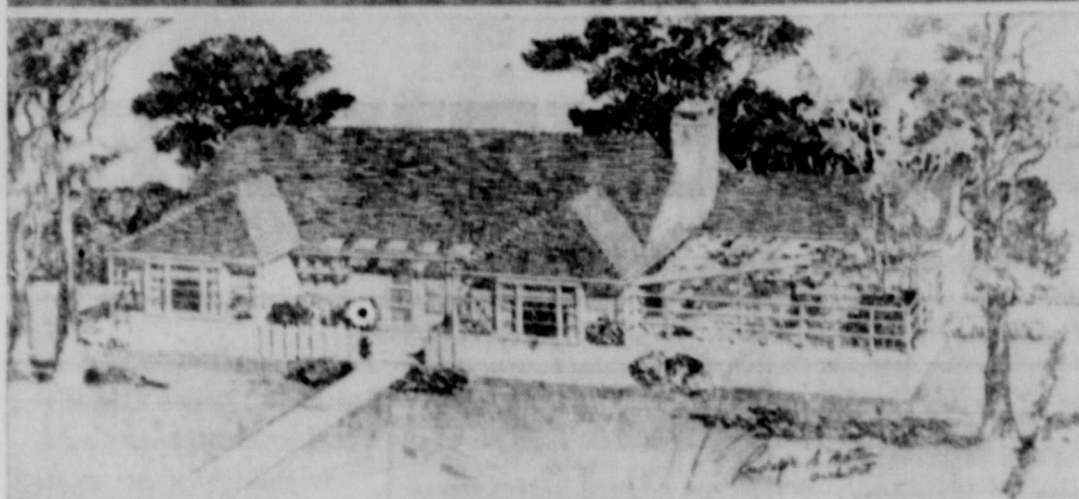

First we saw the planet high in the eastern sky through the 18-foot slit in the observatory's dome. To the unaided eye, it was just another fairly bright "star."

Then Dr. Gerard P. Kuiper began to bring the Telescope's full light-gathering power to bear upon Saturn. This power is about 150,000 times greater than that of the average eye. It is directed entirely by push-button and it took the McDonald director and an assistant less than five minutes to complete the job. Electric motors swing the telescope's spider-web tube. The railed observation platform was lowered flush with the floor under the dome. The focus was sharpened.

This was 90 tons of glass and metal and an incalculable portion of know-how in a smooth operation to bridge nearly a billion miles of space.

It pulled Saturn in so that it swung in the center of the eyepiece, bright and round as a new dime against a tiny black patch of universe. The surrounding

HOMES FOR AMERICANS

(AP) Newsfeatures

THE 1948 MODEL HOUSE, being erected in New York's Grand Central Palace for the National Home Show, April 17-24, designed to illustrate "an optimum level of living." This modified ranch style dwelling was planned for the show by Rudolph A. Matern Architectural Associates 90-04 161st St., Jamaica 2, L. I., N. Y. Separation of work, play and sleep areas is a feature of the layout. An enclosed private garden, 12 by 22 feet, adjoins the living room. A solarium porch overlooking the rear garden dining terrace, can be used for a breakfast room. The house covers 1,160 square feet. The plan lends itself to easy orientation for exposures. If built on the north side of a street the solarium will get the morning sun and the living room will face the south. On the east side of a street, all rear rooms would get the morning sun and the living room would face southwest.

egg-shaped rings tilted to the foreground and gave the Saturn set-up a rakish touch.

Likewise, through McDonald's big eye, Mars and the Moon were pulled down until they seemed almost within reach. The Moon loomed so large that it far overflashed the eye piece, and Mars seemed nearly to close for comfort. Its polar cap was easy to see as well as its mottled green and brown surface. If you really want a close-up, go to McDonald in 1956 when Mars edges in to

the 30-million-mile point. On Feb. 18, it was 63-million miles away.

Casual, direct star-gazing is not the real work of McDonald Observatory. It is a research institution operated jointly by the University of Chicago and the University of Texas. The plant is owned by the Texas School, staffed by the University of Chicago. Most of the observation is by photography. This accurately reveals the chemical composition, the motions, temperatures and pressures of the planets and stars.

Dr. Paul Jose, resident astronomer, says almost any intelligent person with a flair for mechanics can learn to operate the observatory's telescope and appliances. Interpreting the results of the observations is another matter and that's what makes an astronomer.

Saturn is pretty but its atmosphere is poison. A glance through a telescope shows the beauty but the fatal Methane and Ammonia could not have been discovered without additional aids. Recent developments in electronics, says Dr. Kuiper, make possible new things which were once "undreamed of" in astronomy.

The astronomers are not only seeking to describe nature, but to explain it. One staff member at McDonald was asked what practical purpose would be served if it were determined that life exists on Mars. There might not be any immediate dollar value, he replied, but it is worth something just to satisfy man's curiosity.

Mr. and Mrs. A. P. McCelvey Jr. and Betty Ann were in Vernon, Texas, this weekend visiting Mr. McCelvey's parents, Mr. and Mrs. A. P. McCelvey.

INDEX OF TEXAS BUSINESS

ADJUSTED FOR SEASONAL VARIATION
1935-39=100

OF TEXAS BUSINESS ACTIVITY—The volume of Texas business climbed 1 per cent in January from a postwar high, according to the University of Texas Bureau of Business Research. The composite index of Texas business activity was 211 per cent of the 1935-39 base. The January index was due largely to the rise in seasonally-adjusted department and apparel sales, while four of the components decreased. The index of department and apparel store sales rose 1 per cent to 351, and electric power consumption was 303, 5 per cent above December. On the other hand, pay rolls decreased 3 per cent to 329; miscellaneous freight carloadings 2 per cent to 158; and index of crude oil to stills, 1 per cent to 172 in Jan.

Abey, Okla.

His Neil of Spearman met folks at Dombey over the weekend.

Mrs. J. C. Stevens of here supper guests Sunday home of her parents, Mrs. J. R. Kulow. Mr. Stevens will leave Saturday for Lawton, Okla., to attend the sunrise Easter in the Wichita mountains. This is the second year Stevens have been present at this service. They will go to Wichita Falls to visit his father and to Vernon to visit Ernest Shepherd and Shepherd.

Shepherd of Liberal is recuperating from pneumonia at the home of his sister, Mrs. J. R. Kulow. Mr. Stevens and Mr. Kulow, and Mrs. J. R. Kulow and Shepherd spent a day in the home of Chester and Mrs. Bartel is Mrs. Kulow's daughter, and Mr. Shepherd.

and Mrs. Edwin Neill and were overnight guests last week in the home of mother, Mrs. Tillie Neill. has begun to show up with the nice spring-like weather. We hope there's no more this year.

TERRIFIC TED—Ted Atkinson leading rider at Hialeah Park last winter, is off to a brilliant start this season. He rode 14 winners during the first eight days of the Florida meeting.

Mr. and Mrs. Jim Dodson and Jim Bill left Wednesday morning to spend about two weeks vacationing in Phoenix, Ariz.

West of Gray

Sunday dinner guests of Mr. and Mrs. Harry Gordon and family were Mrs. W. D. McDonald, Mr. and Mrs. J. D. McDonald and Elvin.

Those calling in the Springmeyer home Sunday were Mr. and Mrs. Bob Gentry and Mr. and Mrs. Roy Springmeyer.

We have had a few nice showers this week.

We are glad Mrs. Ellen Neff is improving nicely.

Mr. and Mrs. E. L. Pugh and family were Tuesday visitors of Mrs. Dan Seaton and son.

Mr. and Mrs. Ewing Phelps, Mr. and Mrs. Dave Springmeyer, Clifford and Preston Miller were in Guyton, Wednesday.

Mrs. Hugh Campbell has been selling a few fryers this week.

Several from the community were in Perryton Saturday.

We hope that Mrs. Harry Gordon is improving by now.

The dedication service at the Bethel Baptist Church will be March 28 with an all day service and a basket dinner. It will also be the beginning of a two week revival meeting.

Mr. and Mrs. Adalia Yoakley are happy to announce the arrival of a daughter, Linda Lou, February 21, at Los Angeles, Cal. The baby weighed eight pounds, two ounces. Mr. Yoakley's mother, Mrs. A. S. Brillhart returned home Sunday from Los Angeles where she has spent the past month visiting Mr. and Mrs. Yoakley and making the acquaintance of the new grandchild.

Keith Flowers and Vernon Flowers, students at T. C. U., Ft. Worth, are spending their spring holidays this week with home-folks.

Secret of Annoying Screen Credits Bared by Hollywood Ace Reporter

By GENE HANDSAKER

HOLLYWOOD—Annoying isn't it. You've kicked off your shoes, you're settling back with your popcorn and expecting to enjoy the movie. But first you're expected to read through many names identifying everybody from the wardrobe woman to the man who had the original idea and the man who rewrote it—and maybe loused it up—into a movie.

Contracts state that film editor, sound men, costume researchers, set dressers, cameramen and others shall be named. Actor's names must be in letters of agreed height. The director's name shall appear just before the action begins.

Experts strive to make such preliminaries as attractive as possible. They may photograph the main title and credits against burlap, silk, a brick wall, ocean waves, or appropriate scenes from the picture. Maybe the names will emerge from a typewriter. Books and albums, their pages turned slowly, are standard devices.

Art Silver, a patient, brown-haired, brown-eyed man, has charge of such title and credit gimmicks at a major studio. Sometimes his ideas occur while he's driving to work, or while he's sleeping or taking a shower.

Working with him are a creative artist, a letterer, and several air-brush experts.

"Right now we have a picture called 'One Last Thing,'" Art told me. "We wanted the main title to be cute, gay, maybe a little naughty. Our first idea was to show an ermine wrap, top hat and gloves, and two champagne glasses. Then we got a better idea than the glasses: an ash tray with two cigarettes facing

FATHER OF TELEVISION—David Sarnoff, president of RCA, was presented with the first annual award of the Television Broadcasters Association. He believes that television will expand in the next few years to span the American continent and the oceans.

each other, the smoke twirling together up through the title.

"One of our best openings was on 'Life With Father.' The cam-

era showed a Victorian living room, then a hand picked up an old-fashioned stereoscope, and the audience saw the titles thru it, against scenes from the picture.

Fred Allen probably had the jolliest time yet with the titles and credits, however. When the long list of technical experts came on in his picture, he narrated, "These are the producer's relatives, folks!"

Do you have a white elephant? Get rid of it with a Herald ad.

Mrs. Anna F. Wilson and Mrs. L. M. Woodward of St. Joseph, Mo., were dinner guests Sunday of Mrs. Clara Gregg of Bakersburg, Okla. Mrs. Gregg was a weekend guest in Perryton.

J. W. Payne, Scott Hoy and Beecher Crawford of Hardesty, Okla., spent the weekend in Vernon, Texas.

Buster Mitts, Spearman, and Joe Yoakum were Vernon, Texas visitors from Friday until Monday.

Marriage Licenses

Dwendie Atchison and Laura Francis Taylor, both of Perryton, were issued a marriage license at the county clerk's office on March 19.

Ronald E. Hoover and Alta Biehn, both of Boulder, Colo., were issued a marriage license on March 22.

Kenneth Munger and Carl Blackmore made a business trip to Ft. Worth, Texas, Sunday.

Russia Discovers 'Oldest of Old Roads'

MOSCOW (AP)—A tenth century road has been discovered in old Pskov—oldest of all roads in Russia.

News of the discovery was announced by S. A. Tarakanov, head of an expedition from the Institute of History and Maternal Culture of the Academy of Sciences.

The road was discovered in Pskov's old Kremlin. It was built of wooden blocks lying close to one another.

Tarakanov said the first roads in western Europe, with the exception of those in ancient Rome, were laid in the twelfth century. "This," he stated, "confirms again the high level of material culture in ancient Russia."

Mr. and Mrs. B. H. Peckenpaugh returned home Saturday from Canyon where they were called to be with their son, Wendell who underwent an emergency appendectomy last week. His condition was quite satisfactory when they left to return home.

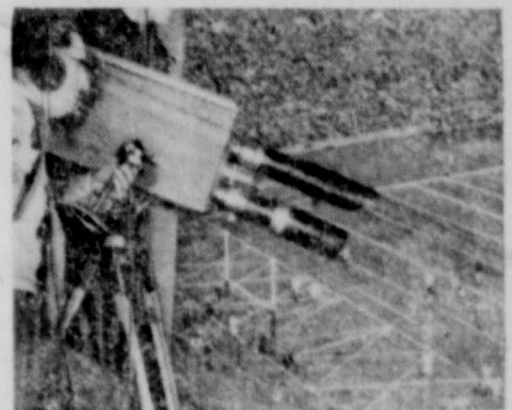

Save the Soles and You Save the Shoe

Broken soles cause shoe leather to crack and spread, throwing the whole shoe off balance. New half soles will prolong and preserve the good looks and comfort of your shoes for months.

PARADE—How the New York American Legion procession was telecast.

By C. E. BUTTERFIELD
Associated Press Radio Editor

NEW YORK—It has cost more than \$50,000,000 to get television started in the United States. And it still has quite a ways to go before it can classify as a fully operating nationwide facility. This after two decades of endeavor.

The present cycle of activity—and it is giving every indication of a "boom"—actually is the

ASK YOUR DRUGGIST

third attempt to bring television into public acceptance.

The first attempt was in the early 1930s when a mechanical system was given a brief try. The other, forerunner of the present renewed operation, was started in 1939 when the equipment had become all-electronic.

Even the 1939 effort, made simultaneously with the opening of the New York World's fair, was somewhat experimental. While television broadcasting of a sort continued as the war proceeded, it was at an absolute minimum.

New York City was not the only pioneer in the earlier telecasting. Schenectady, Philadelphia, Chicago and Los Angeles have had stations on one type or another since the early '30s.

These tryout years, coupled with the many laboratory efforts, make it apparent why the money outlay has been so big. This cost of preparation is an important factor in determining today's market prices of television receivers, which range from something under \$200 to \$2,500 or more. Screens go from 25 to 300 square inches.

Of the amount spent, by far the most is credited to the Radio

Corporation of America, probably more than half of the estimated \$50,000,000. Among other important spenders have been the Philco and Allen B. DuMont laboratories.

Now, as television enters its third post-war year, the beginnings of a real nation-wide service are well beyond preliminary stages. These are evidenced by the number of stations growing steadily. New cities are becoming television centers. More and more radio fans are turning into television enthusiasts.

Receivers in homes far exceed the number of sets in public places. The best available figure at the year's end was 180,000, with the increase through purchases running at a monthly average of 30,000 or better. There have been estimates that by next Christmas the increase may go to a million. The war-total was around 7,000 sets.

Just as important has been the growth in the number of stations. When the war ended the five cities of New York, Philadelphia, Schenectady, Chicago, and Los Angeles had nine stations. The last count showed 20 on the air with several new cities added.

Since the war, Washington, St. Louis, Detroit, Baltimore, Milwaukee, Cleveland and Cincinnati have joined the parade. Some of the television cities ultimately are to have the maximum number of seven stations.

In the next 12 months 30 or more other stations are expected in Newark, N. J.; Richmond, Va.; Boston; New Haven, Conn.; Buffalo; Toledo; Bloomington, Ind.; St. Paul; Indianapolis; Dallas and Fort Worth, Texas; San Francisco; Minneapolis; Riverside, Calif.; Louisville, Ky.; Columbus and Dayton, Ohio; Albuquerque, N. M.; Providence, R. I.; Miami, Fla., and Johnstown, Pa.

Television already has incorporated the advertising plan of program as a means of income. Many of its program techniques are patterned after the radio.

Television, too, is thinking in coast to coast network terms. So far interconnection of stations has been put into operation only in the east. Extension to the mid-west is hoped for in another year, with the coast to be added later.

The present network circuit connects Washington and Schenectady through Philadelphia, Baltimore and New York. Another link will bring in Boston as soon as that city gets on the air.

The four radio chains also are set for television networks, with NBC and CBS already in action. ABC and MBS expect to get under way later. A newcomer to the network field is DuMont of New York and Washington.

While network distribution already has included such events

as President Truman addressing congress, telecast activity has centered mostly on local features.

In addition to the radio interest going into television, newspapers in various cities are playing an active part in station development. Some have run broadcast units for years. These include the St. Louis Post Dispatch, Detroit News, Washington Star, Baltimore Sunpapers, Cleve-

It's Being Done at Willow Run!

Kaiser-Frazer Introduces Four New 1948 Models

- The 1948 KAISER • The 1948 KAISER CUSTOM
- The 1948 FRAZER • The 1948 FRAZER MANHATTAN

AT NO INCREASE IN PRICE!

While Other New Car Prices Are Advancing

HERE'S WHY Kaiser-Frazer can make this announcement while other new car prices spiral upward. Kaiser-Frazer controls its own supply of many basic raw materials... has its own engine plant, foundry and steel mill. Materials from these sources funnel into new and modern Willow Run—the largest automobile manufacturing plant in the world under one roof.

Unfinished steel goes in one end of this great plant and comes out a quality automobile, ready to be driven away. All this is accomplished in a matter of hours, and with the economy of Kaiser-Frazer straight-line production. This is an achievement of men who are injecting new methods and ideas into an old industry.

In the new 1948 Kaiser, Frazer, Kaiser Custom, and Frazer Manhattan you get all the features

that others have attempted to copy since Kaiser-Frazer design was introduced in 1947.

So far no one has been able to more than approximate the graceful exterior body lines. No one has come near matching the roadability... the ride resulting from seats cradled between the front and rear wheels, such wide seats with both elbow and shoulder room. And none have the style features, the wide choice of colors and fabrics.

You get all this plus the many refinements made possible by years-ahead engineering and design. And, of course, all 1948 Kaiser or Frazer cars have the new Goodyear 24-pound pressure Super-Cushion tires that make bumps something you see but never feel.

Enjoy a ride today in America's newest new cars—the 1948 cars that have not gone up in price!

Wherever you drive, wherever you go, round the corner, down the street, there is a Kaiser-Frazer dealer ready to serve you with genuine factory parts and approved service.

We Invite You to SEE, DRIVE and COMPARE Them, Today!

BROADWAY

By Jack O'Brian

NEW YORK—Leland Hayward, producer of "Mister Roberts," ...

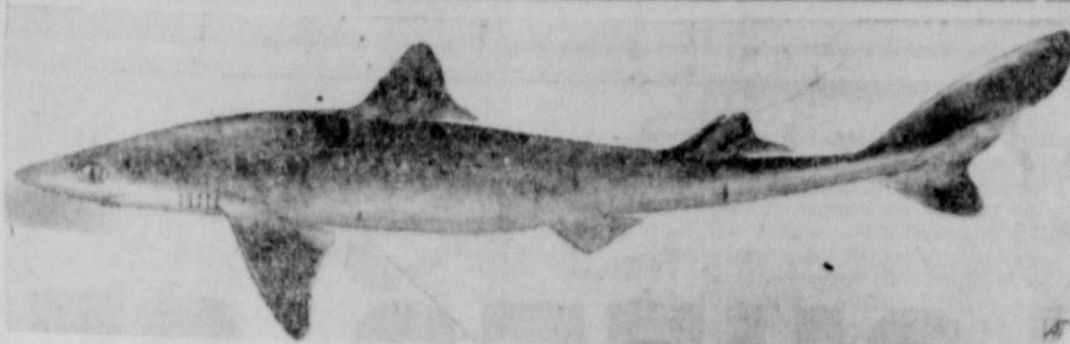

...wears makeup ... The action calls for sun-bronzed sailors. There's a battery of sun-lamps, at the Alvin Theatre. There's a gymnasium set up too, for it wouldn't do to have sailors on a ship such as is portrayed in the play walking about with rolls of fat.

The costumes in the show came from the Brooklyn Navy Yard, where Hayward finally went after seeing the phoney effect of the ones designed originally for the play ... He bought a pile of authentic, abandoned Navy dungarees, grease, dirt, paint smudges and all, and now things are all-to-the-Navy ...

Star Hank Fonda wears the same lieutenant's uniform he used during his actual Navy service. Great hand for realism, this Hayward guy. I asked who thought up the idea of having "Mister Roberts" adapted into play form. "I wish I could blush nicely and decline to say, but I have to admit it was my own idea," he said.

"I read dozens of books and scripts a week. Usually I go thru a book with one part of my mind being diverted, the other mentally adding up the possibilities of it as a play or movie. All of a sudden one night I discovered I'd read through this swell novel by Tom Heggen without watching my reactions at all. So I read it again for commercial purposes and decided right then it would make a fine play, and a tremendous movie. I tied up the rights in a hurry, you can bet.

"Strangest part of it, though, was the fact that Josh Logan, who later adapted the play with Tom, read the book in Cuba on a vacation. He sent frantic wires, letters and telephone calls to tell

GRAYFISH LIVER—The sex life of the grayfish shark has shed light upon a major source of vitamin A. Two western scientists found that the vitamin A content of oil from the grayfish liver is correlated to the sex, sexual maturity and length of the fish. So, the shark is being caught in greater numbers to furnish a source of vitamins for U. S. health.

RUSH FOREST FIRE PREVENTION—The 1948 fire prevention campaign is reaching out all over the forest regions of the Lone Star state to spread its message. Above, Gov. Beauford Jester looks over a "Smokey Bear" poster with Director W. E. White of the A. & M. College Texas Forest Service. Posters like the above and other types of fire prevention literature and reminders are being distributed throughout the state.

me to get this book in a hurry before someone else beat me to it. I was on a short vacation and didn't get the messages until much later. Josh was mighty relieved to hear I'd bought the rights quite a while before he thought of it."

Mr. and Mrs. Ivan Vance and family of Imperial, Nebr., visited in the Don and Houston Mizar homes over the week-end. Mr. and Mrs. Vance were here to attend the funeral of J. L. Mercer at South Flat Sunday.

Mrs. Ray Jessup and children, Guthrie, Okla., are houseguests in the home of her sister, Mrs. Malcolm Bealmer. Mr. Bealmer and family.

Mrs. Foster Miller, Lubbock, came in Tuesday evening for a visit with her parents, Dr. and Mrs. E. E. Jarvis. Mr. Miller plans to spend the weekend in the Jarvis home.

Colorado Aptly Names Its 'Snowslide Belt'

DURANGO, Colo. (AP)—Snowslide areas in southwestern Colorado's Rockies have historic names, the same as mountains and rivers.

Douglas N. Stewart, state highway maintenance chief, believes the 23-mile stretch between Durango and Ouray along the route of the "million dollar" highway is possibly the worst avalanche area in the United States where a main road is involved.

When Stewart and his division superintendent at Durango, John R. Shea, exchange telegrams and correspondence about slides, they call them by their time-tested names.

Among these are Lime Creek, Slippery Jim, Snowflake, Mule-shoe, "Nother Cline Telescope and Brooklyn.

Mr. and Mrs. C. A. Zirkle and Mr. and Mrs. Rufus Bolerjack, Sandra and Buddy, were in Erick, Okla., Sunday to visit their son and brother, Bill Zirkle and family.

'Check Off' System Fails Honeymooner

PIERRE, S. D. (AP)—It was St. Valentine's day and the defendant let his heart run away with a checkbook—not his pocketbook.

Before Circuit Judge O. K. Whitney he admitted he gave three worthless checks Feb. 14. One was for his pre-marital blood test, one to the county judge who performed his marriage ceremony, and another to a service station for honeymoon gasoline.

Mr. and Mrs. C. R. Cudd, Mrs. W. G. Yearly and J. E. Cudd were in Oklahoma City Tuesday to attend funeral services for their cousin, Claude Nance.

TEXANS IN WASHINGTON

BY TEX EASLEY
(UPI Special Washington Service)

WASHINGTON (AP)—Most Texans probably know that the Rio Grande Valley is a highly developed area with a relatively concentrated population, but that doesn't show up in census figures.

Big industrial firms and enterprises in other states study census data when they go to picking a place to locate branch offices and plants or to do business.

That's what is worrying civic and business leaders in Brownsville, McAllen, Harlingen and other communities up and down the fertile valley at the bottom of Texas.

The difficulty arises by virtue of the fact that there are numerous towns close to each other and with close business relationship, but which are located in four different counties—Cameron, Hidalgo, Starr and Willacy.

The valley is 30 miles wide, 110 miles long, has 32 cities and towns and a total population of 254,000.

An appeal was made to J. C. Capt, director of the U. S. census Bureau, to classify the valley as a "metropolitan area" and issue data showing the over-all population and business activity in that section.

O. M. Longnecker, Jr., manager of the Brownsville Chamber of Commerce, wrote Capt as follows:

"This section of Texas is an isolated geographic and economic unit of the state.

"From every viewpoint its economy is not closely related to the rest of the state and because of its isolation it has developed along area lines rather than along the conventional distinct town or county differentiation as in other sections of the state and country.

Since the Lower Rio Grande Valley acts and thinks as a metropolitan area it is only logical that its statistics should be presented on a similar basis."

Rep. Milton West of Brownsville also took the matter to Capt, a native of central Texas.

The Census Bureau chief observed in a letter to West that he personally could understand the problem but that it was not one he could act on without much study.

The only quick decision he could make, Capt continued, would be to turn down the request of the Texans because the valley comprised parts of four counties. After noting that the request was without precedent and had to be carefully considered, he added:

"On the basis of this study we hope to determine how many areas would have a claim as valid as that of the four Texas counties under consideration and then to decide whether any objective standards could be set up for differentiation among the various claims for setting up new metropolitan areas."

Two Army Reserve Corps bills passed by the House are described by Rep. Olin (Tiger) Teague of College Station as "probably the most important national defense measures" ever before Congress.

They provide pay for reservists while attending weekly monthly meetings, as already is provided

Just One More Run

PHILADELPHIA (AP)—The Philadelphia Athletics flirted with a first place berth all last season and wound up fifth after their most successful campaign in years, but the A's might have finished even higher if they had been able to produce just one run occasionally. The Mackmen lost 29 games by a single run last season. They won 17 by that slim margin.

Mr. and Mrs. Press Kromer, formerly of Borger, have moved to Perryton, where he is the owner of the Hotel Barber Shop.

Mrs. Harold Hudson and Mrs. C. B. Rogers were Amarillo visitors Saturday.

National guardsmen, and retirement pay.

With such an inducement, the army should be able to build up a large and efficient reserve force, says Teague. He proved to be one of the most effective supporters for the measures when they faced possible defeat in the Rules Committee. A World War Two disabled veteran, and for years a reserve officer, he contended the bills would preserve a large "stockpile of manpower" trained and experienced in battle.

FOOLING FOOLERS — That axiom, "who laughs last laughs best" is true on April Fool's Day as any other time. Chili Williams, of the movie "Raw Deal," proves it by outfooling the April fools. Won't camera men think up the damndest ways to get a bathing beauty's picture?

For State Representative, 124th District: WILLIAM J. CRAIG

Scientist Sees Earth As Gas Bag

(AP) Newsfeatures NEW YORK—Sky and Telescope, the astronomical magazine, reports a theory that the central part of the earth is made of compressed gas. R. B. Borcherds of South Africa is author of the idea.

It substitutes for the long held belief that beginning at a depth of about 1,800 miles, the earth's core is made of nickel-iron.

This iron core was invented to explain the earth's magnetism. Recently mathematics have indicated that the magnetic poles are due simply to the earth's rotation.

That permits other explanations of the earth's core. Borcherds supposes this core to contain the same substances may not be the same in the core, but all of them presumably are there.

He has to account for something that earthquake waves show, that seemed to support the iron core theory. At 1,800 miles down the waves abruptly change. The change is the same as would be made by a quake wave going through nickel-iron.

Borcherds says that temperatures at 1,800 miles down will account equally well for this behavior of earthquake waves. He estimates the pressure at 1,800 miles at about 6,000 tons per sq. inch. The heat from this pressure he says is about 190,000 Fahrenheit. At earth's center he estimates the pressure at about 25,000 tons a square inch. The heat there he figures at nearly half a million degrees Fahrenheit.

Whatever is down there he says must be gas because of the great heat. It is also so compressed that oxygen is about as heavy as lead and an ounce of hydrogen, that would occupy 11 cubic feet in the air, is reduced to one-thousandth of a cubic foot.

Mrs. Maybelle Lawrence and daughter, Betty, were in Amarillo this weekend to visit friends and relatives. Mrs. Lawrence's son, Bob Lawrence and Mrs. Lawrence, who live at Decatur, Texas, met them there enroute to Hereford to transact business.

William, Duke of Normandy, conquered England in 1066 A. D.

No. 2 Continued from Front Page

Perryton has a new minister in the person of Chas. E. Boatman of the First Christian Church, and Herschel Combs of the Memphis Democrat writes as follows about him.

"You will find Charles is an unusual preacher in that he will not only work to save souls but will take an active part in promoting your city.

"He has not lived here very long, but he has made some of the old nesters look up and take notice. He's a wheel horse on a booster trip, and all you fellows will need to do is let him know that you want his help... then you'll recognize his efforts."

Old timers around Perryton will remember Roscoe Snyder who was associated with the old Farmers & Stockmans State Bank. Roscoe, who has been secretary-treasurer of the Plainview (Texas) Production Credit Association for the past 12 years, has recently been named as vice president of the City National Bank in Plainview. Congrats to you Roscoe, you're deserving.

No. 6 Continued from Front Page

of trustees, Perryton Independent School District, with his term expiring this year.

He is married and has one son, Douglas, now a student at WTSC, Canyon.

In making his announcement, Hawk stated that he would let his record during his first term as county commissioner speak for itself and that if the people of precinct 2 were pleased with the way their county business has been conducted, he would appreciate their support and patronage in the July election.

Prince Von Bismark was chiefly responsible for the unification of Germany.

In French history May 31, 1793 to July 27, is known as the "Reign of Terror."

We want to give Food Herndon a pot on the back for the hard work and interest he's putting into his job as a director of the Ochiltree County Chamber of Commerce. This is a job that usually goes to a business man... very often he doesn't do a thing about it after he gets it but he's still a director of the chamber. Now old Food Herndon is a rancher and farmer and he works at it too... but that isn't keeping him from being one of the most active directors we've ever seen on the board.

Did you ever read what John Ruskin wrote about "The Lowest Bidder." Here it is:

"It's unwise to pay too much, but it's worse to pay too little. When you pay too much, you lose a little money—that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing it was bought to do. The common law of business balance prohibits paying a little and getting a lot—it can't be done. If you deal with the lowest bidder, it is well to add something for the risk you run. And if you do that, you will have enough to pay for something better."

Ministerial Group Is Formed Here

A Ministerial Alliance, composed of the ministers of Perryton, was organized last week and officers were organized.

Rev. O. C. Curtis, pastor of the First Baptist church, was elected president; Rev. Raymond Campbell, minister of The People's Chapel was elected vice president; and Rev. Jim H. Sharp, minister of the Methodist church, was elected secretary.

The purpose of the organization is to promote cooperation between all the churches of the Perryton area in religious work and community projects.

No. 7 Continued from Front Page

\$70,960. 1940, \$79,959. 1941, \$64,231. 1942, \$78,965. 1943, \$92,126. 1944, \$124,057. 1945, \$147,666. 1946, \$151,470. 1947, \$209,261.

Deposits of the First National Bank have increased at a much greater ratio than the increase in the capital structure. On Dec. 30, 1933, their deposits were \$135,400. Fifteen years later, on Feb. 19, 1948, the deposits have multiplied almost 62 times to \$8,345,207. Following is a record of the deposits through the years: 1934, \$413,077. 1935, \$390,308. 1936, \$372,916. 1937, \$375,635. 1938, \$435,432. 1939, \$560,723. 1940, \$695,830. 1941, \$848,319. 1942, \$1,808,363. 1943, \$2,576,349. 1944, \$4,452,253. 1945, \$6,182,785. 1946, \$6,107,985. 1947, \$7,099,186.

Officers and directors of the First National are: Carl Ellis, president; R. H. Holland, vice president and cashier; J. W. Rogers, J. V. Stump, H. T. Cutter and L. R. Conner. Mr. Conner, prominent rancher and grain dealer of Farnsworth, recently was elected to the board, filling the vacancy occasioned by the death of Vice President C. B. Rogers whose astute banking knowledge contributed much to the stability and growth of the bank.

Others active in the operation of the bank are Miles Edwards, assistant cashier; Moina Caldwell, assistant cashier; Juanita Brillhart, assistant cashier; Elizabeth Fuelscher, Nettie McElroy, Bama Nicholson and Ruth Grady.

No. 1 Continued from Front Page

season, the third and fourth place teams will play, and the first and second teams will play. The winners of these two games will play a three-game series for the title. The winner will receive a trophy.

There may be 25 players on the roster, and if additional players are added to the club during the season, the additions must sit out two games before being allowed to participate.

The park at the fair grounds will be converted into a baseball field. The lights will be moved from the old location west of the new rodeo arena and placed in front of the grandstand. The two fences in front of the grandstand will be converted into a removable affair so as to permit both baseball games and rodeos. A committee consisting of Keith McLain, Alton Witt, Tom Slack, H. E. Young, Jake LeMaster and Sam Hergert are working out details for converting the rodeo arena into a baseball diamond.

Although no practice call has been issued, baseball players in the Perryton area are asked to be getting into shape for workouts with the club. Practice sessions will be held at night when the lights are moved. Competition is open to anyone who wants to play baseball and the more candidates, the better.

west of town, preparing to put on mud chains and go down the dirt road leading south from the highway to his farm home. While the Urban car was parked, a 1946 Plymouth sedan driven by Claude Motsenbocker of Idalou, Texas, smashed into the rear of the Chrysler. An estimated \$800-\$900 damage was done to the automobiles, although no one was seriously injured. Motsenbocker received a severe bruise on the head, but was released from the hospital after treatment.

No. 8 Continued from Front Page

member-at-large on the county board to fill the vacancy of Sam Hergert, whose term expires this year. Harold Kershaw has been entered for re-election to the county board from precinct 1. No candidates have been filed from precinct 3 to fill the vacancy that will be left by the expired term of Harvey Urban.

Perryton District

The terms of Harlan Hawk and George Dietrich expire this year, and the names of these two men have been filed for re-election.

Waka District

The terms of Jake Boese and Mart Waggoner will expire this year on the Waka board. Waggoner is filling the unexpired term of W. A. Elledge, who resigned. No candidates have been filed for these two vacancies. Holdover members of the Waka board are J. R. Stump, L. L. Rawls, Carl Scroggs, Dick Reed and Herman Wiebe.

No. 5 Continued from Front Page

patrolmen.

The patrolmen, whose headquarters are in Perryton, say that they will "crack down" on motorists driving a vehicle in violation of the law, which means one with an outdated license tag of any state. Texas motorists have until midnight, March 31, in which to buy their 1948 license tags.

Californians Eager to Nab Pesky Beaver

AP Newsfeatures
SACRAMENTO — Beaver dams within sight of the Golden Gate (on a very clear day, that is) are getting in the hair of ranchers in the Sacramento River delta.

For the first time since 1910, an open season on golden beaver has been declared in a restricted area by the State Fish and Game Division, to last until Feb. 25.

Experts predict that about half the estimated population of 2,000 beaver will be taken.

This is along 1,200 miles of inland waterways facing the delta, in a triangular area lying between the towns of Sacramento, Tracy and Vallejo.

Trapping requires special permits, and all beaver pelts must be tagged and submitted for official inspection.

Granville Lilly of Stinnett visited in Perryton Monday with his brothers, Irvin and Willis Neal Lilly.

Veterans' NEWS

Veterans needlessly take the chance of losing their money and their insurance protection when they mail cash to pay premiums on National Service Life Insurance policies, the Veterans Administration warned.

A number of NSLI policyholders continue to send cash to the VA Branch Office at 1114 Commerce Street, Dallas, Texas, for premium payments. Early this month, an eastern VA Branch Office received an envelope with \$1,700 in \$100-bills to be applied to the veteran's insurance account.

VA pointed out that a veteran, making his insurance payments in cash through ordinary mail, has no way to prove he made the payment in the event it fails to reach VA. Failure to receive the money leaves VA no choice but

to lapse the policy.

Veterans are urged to use money orders, postal notes (with the reverse side filled out in full), or checks for NSLI premium payments, and also to use the yellow envelopes furnished by VA in mailing the payments to the Insurance Service in the Dallas Branch Office.

Housing costs must be reduced if builders hope to continue serving the veterans' market, Thomas B. King, director of the Veterans Administration loan guarantee service, has informed the National Association of Home Builders.

"The variance between the

prices currently being paid by veterans' families and the prices which can be afforded on the average" indicate that "the bottom of the barrel is being approached," he said.

Nearly one-third of all patients in Veterans Administration Hospitals take part in sports activities, many of which have been adapted to the limitations

of veterans' disabilities.

Mr. and Mrs. W. M. Good returned this week from the Eastern states where they attended REA meetings in Chicago and Washington, D. C. They also enjoyed a vacation trip to Niagara Falls, N. Y.

VALVE-IN-HEAD

is far ahead!

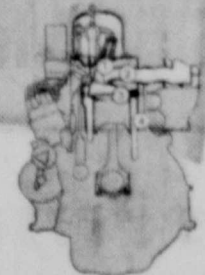

in performance and economy...
 in ruggedness and reliability!

1 In the world's champion Chevrolet engine, the valves are located in the head of the cylinder, directly over the pistons... hence the name, Valve-in-Head.

2 Valve-in-Head design provides faster intake of fuel mixture... and quicker and more complete exhaust of burned gases... all of which contributes to better performance and economy.

3 Valve-in-Head design also permits a more compact combustion chamber; and this, together with Chevrolet's "Blue Flame" combustion, means more driving power for the pistons—less heat loss—and maximum economy.

Valve-in-Head engines are inherently easier to cool; and Chevrolet's individual cooling of cylinders prevents waste of power—promotes efficient operation—prolongs engine life.

CHEVROLET Automotive experts and millions of motorists agree: Valve-in-Head is far ahead because it gives an outstanding combination of performance, endurance, dependability and economy... Chevrolet—master builder of this master motor—has proved this by producing more than 20 million Valve-in-Head engines during the past thirty-seven years—engines which hold the distinction of having delivered more billions of miles of satisfaction, to more owners, over a longer period, than any other power-plant built today! Chevrolet's World's Champion Valve-in-Head engine is another powerful reason why **CHEVROLET AND ONLY CHEVROLET IS FIRST**... another convincing proof that only Chevrolet gives BIG-CAR QUALITY AT LOWEST COST!

 DEVOTIONAL READING: John 14:1-6

Eternal Life

Lesson for March 28, 1948

"The Lord has risen indeed," and because he lives, we too shall live. Easter is the day that reminds us of this blessed truth—the truth of eternal life. Well has Henry Burton expressed it in these lines:
*"There's a light upon the mountains,
 And the day is at the spring,
 When our eyes shall see the beauty
 And the glory of the King;
 Weary was our heart with waiting,
 And the night watch seemed so long,
 But his triumph day is breaking,
 And we hail it with a song."*

"He is breaking down the barriers;
 He is casting up the way;
 He is calling for his angels
 To build up the gates of day;
 But his angels here are humans,
 Not the shining hosts above;
 And the drumbeats of his army
 Are the heartbeats of our love."

READ John 21:1-14 for the exquisite account of Jesus appearing to his disciples in the early morning at the sea of Tiberias. They had been toiling all night, and had taken nothing. Bringing their boat near to the shore, they saw one standing there, "but the disciples knew not that it was Jesus."

Jesus told them to cast their net on the right side of the ship, which they did, and they caught 153 "great fishes." Jesus then summoned them to breakfast. He had prepared the bread and fish on coals of fire. And they did eat.

BLESSED ASSURANCE
 BEFORE his death, Jesus had said to his disciples, "Because I live, you will live also." John 14:19, but they did not fully grasp the meaning of the great words. But that morning on the sea shore, they understood. They remembered that he had died on the cross, and now they were assured that he was really alive, for this was the third time he had appeared unto the disciples after the resurrection.

How happy they must have been! How happy we should be on this recurring Easter season, assured that he is alive evermore. And because he lives, we too shall live.

WHAT IS ETERNAL LIFE?
 SUNDAY'S lesson leads us on to the answer to the question, What is eternal life? In Colossians 3:14 and 12:17, we have the declaration, "Your life is hid with Christ in God..." If we have believed on him—cast ourselves in implicit trust into his keeping—we have eternal life, which is his gift to every believing heart.

Paul goes on to admonish those who have "entered into life eternal," through faith in the risen, reigning Saviour, to put on the garments of his presence and power and peace—kindness, humility, meekness, long-suffering, forbearance, forgiveness.

The evidence of eternal life is to be found in the fruits of the Spirit in our daily lives.

CERTAINTY OF ETERNAL LIFE
 WE READ in John 17:3 this word of further assurance, "This is eternal life, that they know thee the only true God, and Jesus Christ whom thou hast sent." And in 1 John 5:11-12, we read, "And this is the record, that God hath given to us eternal life, and this life is in his Son. He that hath the Son hath life; and he that hath not the Son of God hath not life."

In another passage John tells that we know that we have passed from death unto life because we love the brethren.

Easter is the day of eternal hope. It lifts above the fog of earthliness the glory of the blessed hope that fades not away. We have God's own testimony that we shall live with him forever, through Jesus Christ, our risen, reigning, returning Lord.

Our Richest Treasure

The Bible walks the ways of all the world with familiar feet and enters land after land to find its own everywhere. Children listen to its stories with wonder and delight, and wise men ponder them as parables of life. The wicked and the proud tremble at its warnings, but to the wounded and the penitent it has a mother's voice. It has woven itself into our dearest dreams: so that love, friendship, sympathy, devotion, memory, hope, put on the beautiful garments of its treasured speech. No man is poor or desolate who has this treasure for his own. —Henry Van Dyke.

Mr. and Mrs. Knute Dowers and Paula, left Sunday for a week's visit with his parents, Mr. and Mrs. A. N. Dowers at McAllen, in the Rio Grande valley.

 "Reality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 28.
 The Golden Text is, "Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty: for all that is in the heaven and in the earth is thine; thine is the kingdom, O Lord, and thou art exalted as head above all" (1 Chronicles 29:11).
 Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Thy throne is established of old: thou art from everlasting" (Psalms 93:2).
 The Lesson-Sermon also includes the following passage

Dead Animals Removed FREE

Premium given with each extra large animal.

Make This Test

During the war and immediate post-war years we were not troubled to a great extent by out-of-town peddlers, vendors, and solicitors. There were two excellent reasons for this: first, manpower was short and most people not in the armed forces were absorbed in war work of some type or other, and secondly, the type of merchandise which they sell was exceptionally scarce.

But now these transient salesmen are beginning to reappear with their glib talk and their order books. The items most frequently sold are various types of clothing, cosmetics, household furnishings, and photography.

We contend that this type of house-to-house selling by out-of-town peddlers is definitely unfair to established local merchants. Local merchants pay taxes for operation of our municipality, they support the schools and churches, and they contribute generously to every civic and humanitarian cause through the local Community Chest or otherwise. They contribute fully of their time and money to help build a community in which it will be pleasant and wholesome to live. They, as a matter of fact, by their support and civic enterprise build the town and community in which the transient works, if it were not for their contribution there would be no town in which peddlers could sell.

It is difficult to control this type of solicitation by city ordinance and the local merchant has no way of curtailing it if he would. It is the responsibility of the local citizens to think twice before they buy merchandise outside their community and then expect their local merchants to provide schools, fire protection and police protection for them.

Here is a good test for the individual citizen to make: Next time one of the solicitors presents his appealing sales talk tell him that we are short in our Community Chest fund, and we need a substantial contribution to this local charity fund.—Mission Times.

Babson Discusses Tax Reduction

ROGER W. BABSON, Editor-in-Chief

BABSON PARK, Fla., March 19—Apparently everybody is interested in tax reduction with the exception of President Truman and his immediate friends. The difficulty seems to be that all hand have forgotten what is best for the country and are just playing politics.

Reducing Government Expenses
Everybody with whom I talk agrees that it is possible to reduce greatly the Government expenses. This would not only save the taxpayers' money, but it would go a long way towards increasing production and lowering prices. If people now on the Government payroll could be employed to produce more goods or aid in the marketing of the same, it would be a real help in reducing the so-called inflation.

Every Senator and Representative, however, has certain relatives and friends in the Government service. Hence, although Congressmen will agree in principle that the expenses of Government should be reduced, yet when it comes to their own friends and relatives, it is a horse of another color. Perhaps, the only practical way for putting a million Government employees back to earning an honest living would be by a change of Administration. Democrats hate to fire Democrats; but a new Republican Administration might do so very gleefully!

Need of Lower Taxes
I have just been doing some work on trying to help my community get houses for veterans. A house for which veterans are being charged \$12,000 today could have been built ten years ago for half this sum. Moreover, he would then have had a better house for \$6,000 than he is now

paying \$12,000 for. When analyzing the increase, I find that wages have gone up about fifty per cent and that many bricklayers, carpenters and painters are not giving an honest day's work today even at the higher wages. The increase in the cost of materials varies greatly. Cement, for instance, has gone up in most sections only 10%, while lumber has gone up 175%.

The greatest increase is in connection with taxes. Before the war builders' taxes amounted to very little, while today Federal, State and other taxes amount to over half of the building costs. The same increase applies to everybody involved in the preparation and handling of building materials. As a result, of the \$6,000 increase in costs, at least \$3,000 goes to Uncle Sam. This shows the great importance of getting taxes reduced.

Army, Navy and Aircraft Appropriations
We all should heartily get behind President Truman in his demand for more money for defense. Hence, we need a plan whereby the Government can reduce taxes, thereby reducing prices, and at the same time collect the money which President Truman says is required for defense. Of the many suggested solutions I have received, I should like to relay one from John M. Glass, accountant and tax authority of Frostproof, Fla.

It is fair to assume that 90% of the people in this country are honest. Yet, the Government is probably losing five billion dollars a year from ignorance in the making out of tax returns by small businessmen and other individuals. Some money is undoubtedly lost through dishonest returns, but most corporations have their returns made out correctly by accountants.

Increasing Government Income
My very practical suggestion is that if the Government should spend a hundred million dollars annually on publicity, it could get back five billion in stray money. For instance, the owner of every filling station should receive a letter once in three months explaining simply, but very forcefully, what he should deduct and what he should pay. The Government should buy advertising space in the newspapers, as well as use the mails, to impress upon all taxpayers what they should do and warn them of penalties. This would bring in several billions more money without hurting anyone.

There should be nothing politically repugnant to any Congressman in such a campaign. It would treat everyone alike and hurt no one. This plan would enable taxpayers to get the reduction in taxes which we desire, and, at the same time, enable

Veteran Forum

Q. My son was killed in action during World War II, and I would like to know if I am entitled to receive compensation?

A. You are entitled to compensation, provided dependency can be shown. Dependency will be held to exist if you do not have sufficient income to provide reasonable maintenance for yourself and your family.

Q. I am taking on-the-job training in a hazardous occupation under the GI Bill. In case of an accident, will Veterans Administration pay my hospital expenses at a local hospital?

A. No. Any disabilities incurred while training under the GI Bill are considered non-service-connected, but you may be able to establish eligibility for hospitalization in a Veterans Administration hospital because of your war service.

Q. My son, who is in a Veterans Administration hospital, is trying to get a pass to visit me. Will Veterans Administration pay for his transportation to and from the hospital?

A. No. All travel while on leave from a Veterans Administration hospital is at the expense of the veteran.

Q. Should a claim ever be filed by a veteran who has been dishonorably discharged?

A. It is always the privilege of a veteran to file a claim; but, to show entitlement, it must be established to the satisfaction of the Administrator of Veterans Affairs that the veteran was insane at the time of commission of the act for which the dishonorable discharge was issued.

Alton Boxwell and J. A. Anderson attended the annual banquet of the Dumas Chamber of Commerce Thursday night, March 18.

well as men in the event of other war.

Appearing before a Senate appropriations subcommittee seeking restoration of a cut in Selective Service appropriations, Lewis B. Hershey, Selective Service director, said the proposed plan is a "breath-taking" move. He has had almost no experience in trying to control the body.

He added that the plan for mobilization of men is much faster rate.

WASHINGTON, D. C.—Selective Service is studying plans, which if adopted, will provide for the drafting for national service of women and children as well as men in the event of other war.

HERE'S THE MOST
UNUSUAL OFFER EVER MADE
IN THE TIRE BUSINESS!

YOUR MONEY BACK

If Super-Cushion Tires Don't Give You
The Softest Ride You've Ever Had!

YOU RIDE....THEN YOU DECIDE!

We mean every word we say—we'll put a set of Super-Cushion tires with new tubes on your car. Drive it for one week. Then, if you don't agree they give you a softer ride than any tire you've ever owned, we'll replace them with your own tires and give your money back.

The Super-Cushion is a remarkable new kind of tire. It is bigger and softer than conventional tires and runs on only 24 pounds of air pressure. It is so superior that we make this amazing trial offer... for a very limited time only due to the great demand for Super-Cushions.

Super-Cushion
TIRES BY
GOOD YEAR

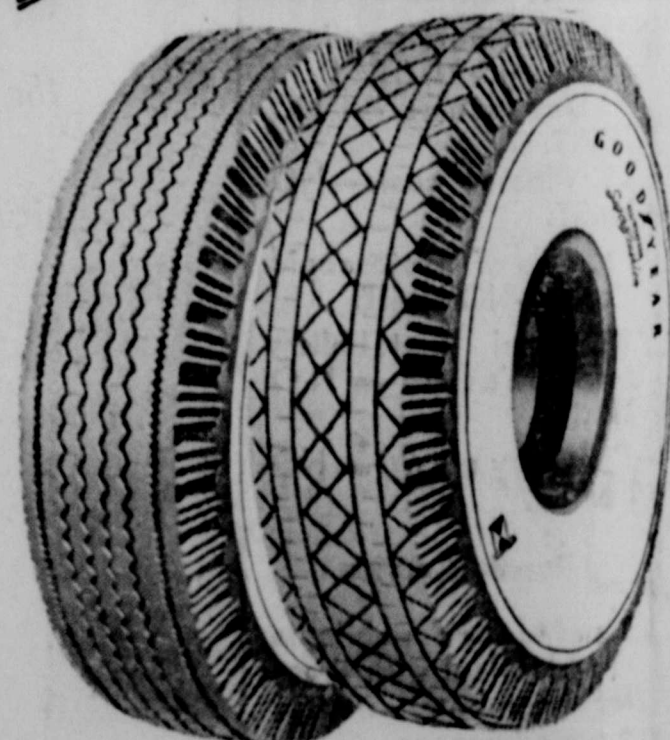

SUPER-CUSHIONS give you a remarkable new ease in car handling. Your car hugs the road, seems to float through traffic, to flow around curves.

SUPER-CUSHIONS soak up crosswise jolts, soak up vibration. Results: less driving fatigue, less wear and tear on your car, fewer rattles, fewer repair bills.

SUPER-CUSHIONS consistently average more mileage than the best standard tires. More—they make small cars ride like big ones... make big cars ride better.

SUPER-CUSHIONS run cooler; and because they're softer, they "roll with the punch", are harder to cut, bruise or blow out.

Arrange now for a Super-Cushion test run on your car.

MILLIONS OF SUPER-CUSHIONS ARE NOW IN USE ON NEW AND OLDER CARS

Break Gar Wood 124 mph. Speedboat Record

Lombardo Plans to Scrap \$40,000 Engine

FRANK ECK Editor
 Features Sports Editor
 — Guy Lombardo, leader with a flare for speed, hopes to break Gar Wood's water record.

will scrap his \$40,000 Miller engine in 16-cylinder Allison air-cooled engine.
 Danny Foster and Guy Lombardo last summer scored with an Allison engine in the second half of the Cup at Detroit on the 1000-mile race. Lombardo became the first to win the Cup event in 1946.
 He liked his first ride on the Allison engine especially after the second 45-mile heat race by 2 1/2 miles. Allison engines were "P38's," says Guy.
 "I need that I can do miles an hour with it. I worry will be to boat at that speed."
 To drive Fallon's Miss on Indian River in a new straightaway winter. Gar Wood's record of 124 miles an

Bandleader Guy Lombardo tinkers with new speedboat motor.

hour. I have two of his Gold Cup records now.

"Naturally I hope to set a new record in my own boat, Tempo VI. So I may have to wait until next summer."

The Allison engine on which Lombardo now is sold is larger than his Miller which cost Zimm-Simmons \$40,000 when he ordered it for My Sin, now Tempo VI. However, because most of the fittings are constructed of aluminum and other lightweight materials the Allison weighs 110 pounds less than the Zumbach-Miller which tipped the beam at 1,400 pounds.

Lombardo probably never will part with his \$40,000 engine. For one thing he rarely has time to give his boats a thorough trial, even when weather permits. His present engagement will keep him at the Roosevelt Grill here until late March and he knows of no buyers for the 16-cylinder Miller.

Meanwhile, three Allison engines and the expensive brace that helped win the Gold

Cup at Detroit in 1946 are in Lombardo's Long Island boat-house. Anybody want a \$40,000 motor for a song?

Sons Carry On

PHILADELPHIA — Famed Olympic Coach Lawson Robertson has retired as track mentor at Pennsylvania—but the Robertson name is not absent from the Penn track rolls.

Two of Robbie's sons are competing for the Quaker forces—Lawson junior in the shotput and 35-pound weight and George in the sprints. Jack Glascock, Jr., son of Penn's acting coach, also represents Penn in track. He is a hurdler.

Mr. and Mrs. J. H. Stephenson. Happy weekend in Perryton this weekend to visit their son, Mr. and Mrs. J. H. Stephenson Jr. They were in the house party for the Perryton Lumber Co. open house Saturday.

Louis, 12, Is a Model For Hospitalization

TULSA, Okla. — Louis McDonald of Tulsa, 12, thinks he has been in hospitals enough. Louis is home again after his sixth hospital session. He suffered his first serious accident—a broken arm—when only two. Shortly afterward he broke a leg. When he was eleven a fall from a horse resulted in another broken arm.

Not long after the arm healed, Louis fell while running with a stick in his mouth, ripping a tonsil from his throat.

His next accident brought severe burns. While lying too close to a fire in his home, a comic book in his hand, his clothing suddenly became aflame—and back to the hospital he went.

Judge Freed Him

CHICAGO — Ed Albosta, a pitcher who will bid for a Chicago White Sox job this season after winning 11 for Hollywood of the Pacific Coast League last campaign, is one of the 90-odd Detroiters granted free agency in 1940 by the late Commissioner Kenesaw Mountain Landis.

Judge and Mrs. Dave Shanks are spending a few days in Austin visiting with their son, Dave Shanks, Jr., and family.

FOG HORN CLANCY — This loud voiced fellow is probably the nation's best known announcer especially at rodeos. He doesn't even need a public address system, just raises back and lets go. His largest crowd addressed by voice was 86,000 at Sheepshead Bay, N. Y. Once when he tried out a microphone and sound system, his voice blew out a tube.

Bill Bartlett of Canadian attended the formal opening of the Perryton Lumber Co. Saturday.

Mrs. Ruth Joy, Stinnett, is visiting her daughter, Mrs. H. D. Meadows, this week.

Cleaning Health Sections

Texas, March 23—"A fashioned spring house every city and community would do a lot toward furthering health in this state," Dr. C. A. State Health Officer, in urging all communities and cities in the state to clean up their act.

clean-up program of health proportions with the bettering health conditions our citizenship should surface cleaning, draining, graveling of streets and the cleaning of all parks, playgrounds and the clearing of weeds and rubbish.

construction of mosquito places and rat harbor. Proper disposal of garbage, trash and the general cleaning of all premises will help to keep down health hazards such as typhoid and poliomyelitis. Good community housekeeping and ordinary sanitary require the prompt removal of all waste matter in and around homes in order to insure good health throughout the State. Our stressed the fact that dangerous diseases are common, and the only possible control is to eliminate unsanitary conditions responsible for their spread.

Hawk, who attends West State College, Canyon, the weekend with his parents, Mr. and Mrs. Harlan Hawk.

BOB POUNDS

FIRST MEETING between co-stars John Wayne and Laraine Day is chaperoned by Judith Anderson in "Tycoon," new melodrama of love and engineering in the wild Andes country. The film, in Technicolor, comes to the Ellis on Sun.-Tues., March 28-30.

John Wayne, Laraine Day Starred in Cataclysmic Romance of the Andes

Dealing with the stormy romance of a young American engineer building a railroad thru the Andes, "Tycoon" stars John Wayne and Laraine Day. The production, in Technicolor, appears at the Ellis on Sun.-Tues., March 28-30.

Wayne plays the engineer and Miss Day is seen as the half-Yankee, half-Latin daughter of the wealthy industrial tycoon for whom Wayne is working. The owner, irritated by Wayne's demands for more money to put a concrete lining in the tunnel he is driving, becomes furious when the engineer dares to court his daughter, and deliberately sets out to ruin the younger man.

When the young couple accidentally have to spend the night in the mountains, the girl's father icily sees them married and then disowns his child. Wayne doggedly tries to complete the tunnel, but his bride, unable to endure the competition of his work, returns home. The outcome strikes an unusually dramatic note as the conflict between the two men reaches a climax at the same time as titanic things happen at the tunnel.

Milland, Dietrich In Daring Romance As Gypsy Lovers

A film romance very much on the daring side is in the offing for theatre goers this week when "Golden Earrings," starring Ray Milland and Marlene Dietrich appears at the Ellis on Friday and Saturday.

According to word received via the movie grapevine, the love story of the seductive gypsy and the British man-of-the-world is definitely off the beaten film path. Based on Yolanda Foides' best-selling novel of the same name, "Golden Earrings" concerns the adventures of a top-ranking British officer who, in eluding his Nazi pursuers in the Bosnian forests, comes upon a Hungarian gypsy woman. The woman offers to help him, disguises him as a gypsy, complete with pierced ears and stained skin, and then proceeds to make him fall in love with her. Considering the fact that her ragged

Movies Need Week's Rehearsal, But Salaries to Players Interfere

By GENE HANDSAKER

HOLLYWOOD—Close-ups: The movies' greatest need, says Director Michael Gordon, is a week's rehearsal before shooting starts. But finances interfere. An actor engaged to work five or six weeks hence must be kept on salary all through the intervening weeks, under present Guild rules, if he's hired for a week's pre-shooting rehearsal.

"Both the producers and the guilds will have to give a little," the bushy-browed emigre from Broadway declared on "The Judge's Wife" set.

Dane Clark, Cornell University graduate, complains: "I never get a part where I have a coherent thought. I'm always an illiterate thug." He's playing another one in "Sunburst."

Jeanne Crain's husband, Paul Brinkman, accompanied her on a location trip to Reno for "Apartment for Peggy"—and lined up nearly \$8,000 worth of business for his furniture factory. . . . Clifton Webb, told he's great in "Sitting Pretty," replied, "I am much better than that. I am sensational." Bill Holden's ex-Air Forces buddy, former Maj. Joe M. Kilgore, is now a state representative from Hidalgo County, Tex., and Bill predicts: "I think he'll be governor of Texas some day."

Geraldine Brooks, brunette doll playing Fredric March's daughter in "The Judge's Wife," told me how she got interested in becoming an actress: Her dad owned a New York costume shop, and little Geraldine used to hold the pins for Gertrude Lawrence and strut around in Katharine Hepburn's and Maude Adams' outfits. "John Barrymore used to stand in front of the mirror and recite his 'Hamlet' speeches," Geraldine remembered.

A promoter offered to equip Alan Ladd's playroom with slot machines. Alan said, no, thanks. It's neither "TY-rone" nor "Teer-rone" Power. Ty himself pronounces it "Ty-rone"—accent on neither syllable. . . . A press-agent I know says he inoculates his conscience daily with "anti-truth serum." That's why you have to check what so many of 'em tell you.

F. LORENCE FRISBIE, better known as Johnny, is the attractive young author of "Miss Ulysses from Puka-Puka" being one of the northern Cook islands. She was born in Tahiti, and began this book, a diary which she wrote in English and two Polynesian languages at age 12, long before she found out what shoes were for, or very much about clothes in general. She and her manuscript were discovered by Lt. Jim Michener, author of "Tales of the South Pacific," which Rodgers and Hammerstein are turning into a Broadway musical. Her mother, now dead, was the daughter of Mataa, a missionary to Papua; her father, a South Seas trader and writer, has edited and translated her fascinating story. Now 16 years old, she is going to school at Rarotonga. She has a brother Jakey, sisters Elaine and Nga, and a step-brother Charlie.

450-Pound Fat Man Defies the Doctors

BELGRADE (AP)—The weekly newspaper Republika says a 450-pound peasant, Zdravko Mihajlovich from Vojvodina, whose stomach drapes over his knees when he sits down, is still very much alive although Serbian doctors predicted he would die last year.

Yugoslavia's contender for the fat man championship of the world, according to Republika, is so fat he can't lie down when he sleeps but must remain sitting. His first name, Zdravko, means healthy.

'Ride the Pink Horse' is Not Wild Western

"Ride the Pink Horse," staccato melodrama from a best-selling novel has Robert Montgomery as star and director of the film which comes to the Ellis on Wed.-Thurs., March 31-April 1. The picture presents Montgomery as a tough, embittered war veteran who comes to a small New Mexico town at fiesta time bent on collecting vengeance and blackmail from a master criminal.

Hardly in town 24 hours, Montgomery is knifed and slugged by the villain's henchmen. Up to a smashing climax, he is hunted and harried and saved from death only by the devotion of two newly-made friends, Thomas

Gomez, a philosophical proprietor of the fiesta's ancient merry-go-round and Wanda Hendrix, in the role of a wistful Indian girl who attaches herself to him with doglike but hopeless devotion.

The picture is a bold experiment in unorthodox endings. Montgomery does not get the girl but his relationship with her endows her with a heightened social standing as important to her and probably as satisfying as love.

Mr. and Mrs. Clifford Gyger and son have returned home from Rogers, Texas, where they spent the past week visiting her parents, Mr. and Mrs. E. D. King. While they were there the family staged a reunion.

ague Auxiliary Americanism
Contest

People in the United States are very fortunate to be able to live in liberty and freedom. In many years before Columbus discovered America, there was a church called "The Church of England." It was, the church that you had to go to that church. If you didn't you would be punished. In the United States you are free to go to any church of your choice.

A man called James Oglethorpe asked the King of England for permission to take some people from the prisons and take them to America. The

King gave Oglethorpe his permission to do so. The people were in prison because of debts they could not pay. In the United States today, you are not put in jail because you can't pay your debts. The people are free, and can pay the debts when they get the money.

"American liberty has not always meant freedom of the people to govern themselves by representatives of their own choosing. It has always meant there shall be a government." It is said that a man will put forth much more in his own field, but when he is made to go and work in someone else's field, he will just poik. A man should put forth as much work on someone else's field as he does his own.

PERRYTON, TEXAS

Phone 150

LOOK! NO HANDS ON THE TELEPHONE—A boon to disabled veterans who cannot use their arms is the way. Australians describe this new invention from Down Under. They say it enables the ordinary telephone user to sort papers and take notes without shifting the instrument or using a headset. A steel spring arm holds the receiver to the ear and can be adjusted for any position. A small arm on the dial unit switches on when the phone rings and off when the call is completed. The hand set remains fixed to the flexible arm.

When a battle is started, it is usually started by force or chance. In the United States the people try to keep peace and liberty. Liberty is a wonderful thing that can be had. When you think of freedom, you think of liberty.

In Russia their country is ruled by communism. The first thing a communist is asked to do is to throw away all belief in God. In America we think it is foolish to do such a thing. Without God (to me) we could not have liberty and freedom. It is men like Abraham Lincoln, George Washington and William Penn who gave our country liberty.

Have you heard the story of William Penn's life? The life of William Penn is characteristic of the true American spirit.

Most people love liberty, freedom, and peace. I think every American's duty is to face and admit the truth about their land. Some people rob, steal and assault people. We need our government to make a better country. Have you heard of the "Freedom Train?" I have. It is a train sponsored by the government to take a message of our American freedom directly to the people with exhibits such as our United States Constitution and historical information of our country.

These things the people have heard about but have never seen. Let's all try to live a better life. Let's enjoy our liberties, and be thankful we don't have the difficulties other nations have.

Panhandle Club at A. & M. Plans for Visitors March 20

COLLEGE STATION, Mar. 8.—(Spl.)—The Panhandle Club of Texas A. & M. College has made arrangements for the outstanding male graduates who may be interested in visiting A. & M. College on Sports Day March 20, may do so.

"This is not an athletic recruiting program," J. D. Vaughn, president of the A. & M. Panhandle Club says. Student government officers, publication editors and the like, are eligible. "If they are also athletes, fine, though this is secondary," Vaughn declares.

The Panhandle Club has made arrangements for housing and entertaining while the students are here.

This is a statewide program, and will acquaint students selected to come here on March 20 with A. & M. College.

Gold Limited

MACAO (A)—The Macao government has limited gold imports to 1,000,000 ounces for 1948—250,000 ounces every quarter. The reason for the limitation was not given but a number of nations, including the Philippines, recently have announced they were complying with the International Monetary Fund policy of control over the precious metal.

Send a birthday card from the Stewart Printing Co.

Chain Letter Writers Well Prepared to Cry

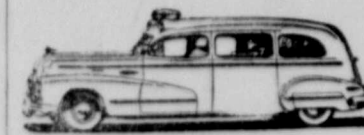

BERN (A)—Swiss police authorities have issued a warning that the transmission of "chain letters" is illegal under the Swiss penal code.

Many persons in Switzerland have recently received such letters, mainly from England, asking the recipient to send one

handkerchief to the sender, and transmit copies of the letter to four other persons. This procedure, it is claimed, would eventually bring each person forming a link in the chain 256 handkerchiefs.

Do you have a white elephant? Get rid of it with a Herald ad.

We Are Now Dealers for Spee Dee Rotary CULTIVATORS

Cultivate Your Wheat

and
Watch It
Grow

This Rotary Cultivator is not new. It has been tested and proved by thousands of farmers throughout the large wheat belt. Its success has been amazing — the increased crop yield is a proved fact.

Cultivating the SPEE DEE way in early spring kills short rooted weeds by breaking the crust; increases yield of wheat from 3 to 10 bushels per acre.

The SPEE DEE ROTARY CULTIVATOR is an excellent tool to cultivate alfalfa; very easy to pull at top field speed in high gear; sizes 18½ feet, 21½ feet, and 24½ feet. See it today.

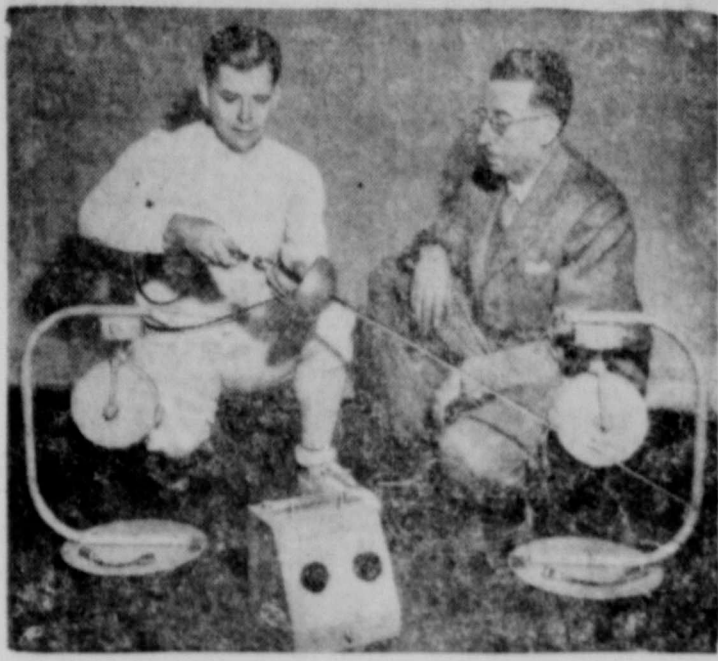

Perryton Implement Co.

John Deere Farm Equipment — Krause

Plows — Jeoffroy Cultivators

What Spee Dee Does

- ★ Cultivates wheat and other small grain crops
- ★ Breaks the crust
- ★ Stops dirt blowing
- ★ Conserves moisture
- ★ Leaves top soil cloddy
- ★ Kills wild flax or any other young short-root weed
- ★ Ideal for alfalfa—will not harm old plants, and cultivates seedlings
- ★ Stops weed germination on summer fallow land

TOUCHE OR NOT TOUCHE?—Robert E. Driscoll and Charles E. Williams, left, examine new electrical equipment designed by Willous. It is capable of distinguishing up to 1/16 of a second which fencer scores.

Dangerous Housing

HONG KONG AP—House collapses during 1947 killed 28 persons, according to a survey by the Hain Sheng Evening Post. Sixty-eight houses collapsed here.

U. S. Restores 74 Miles Of Roads in Greece

ATHENS AP—Arthur Dobson, chief of the reconstruction division of the American Mission for Aid to Greece, announces that 75 miles of road have been repaired in Greece since the road project was launched last fall.

The road program calls for the repair and reconstruction of 1176 miles.

All weathering of five airfields also is well underway, Dobson says.

Architecture Study Needed in High School, Says Prof

AUSTIN, Tex., Mar. 16—Architecture has a definite place in elementary and secondary school curricula, J. Robert Buffler, University of Texas associate professor of architecture, declares.

A better-informed adult citizenry would result from architecture study, he said. Civic duties require such things as participation on school boards, church building committees, and city planning organizations, he points out. If adults have received some elementary and secondary school architectural training, they can serve their communities better.

Buffler's idea is to teach architecture, not as a subject in itself, but in connection with civics, history, and social studies. In social studies, students could learn the "why" of architecture of other countries; in civics, fundamentals of city planning and work of planning boards could be brought out. In high school special courses which cover community architecture, history and planning, could be offered, he explains.

"An intelligent interest in and support of civic duties is to the betterment of the community," Buffler asserts. "Better architecture makes better business commercially because of increased customer attraction; industrially because of more efficient production."

Soviets Building Huge New Stadium

MOSCOW AP—Ground is shortly to be broken for a new stadium in Leningrad which will seat 75,000 spectators.

The biggest stadium in the USSR is Moscow's Dynamo Stadium which accommodates almost 100,000 persons, including stands.

Russia's largest sport crowds turn out for soccer football.

PARSONS AND BARITONE—Here are two reverends and a chorus boy who are track stars as well. The Rev. Gil Dodds, left, is the famed miler and minister from Boston. Center is John Schmidt, a baritone in the chorus of the hit musical Brigadoon and a pole vaulter who was former Big Nine champion. Rev. Bob Richards, right, of the Illinois A. C. is also a pole vaulter and is present Big Nine champ. They were together at a recent track meet.

Our Great American Heritage

By MARY HURTER
Winner, Perryton high school division, American Legion Auxiliary Americanism contest

We people in America talk about freedom and liberty. We all have it, but do we know what it is? We feel free when we can do as we please. In reality, however, this is another form of hatred of restraint. Freedom means much more than that.

It means choosing. A person may be free to follow any career or profession that appeals to him but is not free to follow them all at once. As soon as we have chosen one, the freedom to follow the others has vanished.

Freedom, like everything else, has to be restrained. Unless we put some restraint on freedom, no one can enjoy any freedom at all. For example, nothing could destroy our freedom to drive automobiles more quickly than for all restraints concerning this to be taken off.

Freedom must be shared. Not even the greatest lover of liberty could make anyone free to carry on a conversation without someone else around to talk to. Much of our freedom depends on the action of others. A person, in order to get one freedom, must give up another. This doesn't mean that we should give up all our freedom. It means, rather, that we will have to learn to give and take so that everyone will get a share of liberty.

Many people take liberty for granted and do not fully appreciate what many people have died for. However, we do not place enough emphasis on this. We are brought up in a world where everyone talks of liberty and democracy. We know that we are free but we don't realize how much this should mean to us.

In our schools, we learn how the Pilgrims came over to gain freedom to worship as they pleased. They suffered great privations in order to gain this, but

the freedom that they enjoyed was enough to make up for the other. Our ancestors worked hard to establish the government that we know today.

In World Wars I and II our young men died for this thing that we in America call liberty. They quoted Patrick Henry in saying, "Give me liberty or give me death." Many of them had to take death.

In other countries people are forced to worship against their beliefs or to give up their homes and belongings to the government. They are forced to do the kind of work that the government wants them to.

We in America must try to understand, then, the true definition of liberty. If we will only realize how much it means to us and what we would suffer if we were deprived of it, we can be honestly proud when we say, "I am an American. I live in the land of the free and the home of the brave."

Mrs. Fred Osborne, Ann and Dorrance, and Mrs. Joe Dorrance were Amarillo visitors Tuesday.

Mr. and Mrs. W. E. Foglesong, Miami, were weekend guests of Mr. and Mrs. M. M. Cudd.

Mr. and Mrs. R. T. Correll and Virginia and Mrs. E. L. Whippo returned home Sunday night from Mineral Wells where they spent the past two weeks vacationing.

OFFICE OUTFITTERS

The facts you need to choose a washer wisely!

"HOW THE TESTS WERE MADE"

The soil removal tests were made in accordance with the Test Manual of the American Washer and Ironer Manufacturers' Association, with water temperatures of 160° for the automatic machine and 125° for non-automatic type machines as specified by the Manual.

For the germ removal tests the washing procedure as above was supplemented by a pre-determined rinse procedure established from contact with authorities in the field of home laundering including the manufacturers of the machines used. The Bendix was used in accordance with the manufacturer's published instructions. Staphylococcus aureus bacteria (bacteria commonly used for test purposes) were used to measure efficiency of germ removal. The four washers used, three non-automatic and a Bendix automatic Washer, were purchased in the open market by the Pittsburgh Testing Laboratory.

No general words... no vague statistics... but actual, unretouched photographs SHOW THE BENDIX METHOD IS MORE THOROUGH!

At last it's possible to know in advance what results to expect from the washer you buy. No more disappointments if you read and heed the results of tests just completed by America's largest independent testing laboratory.

The Bendix outwashed all others tested for both soil and germ removal.

Matched against three leading non-automatic washers in two-way tests of washing thoroughness, the Bendix did a much better job than any of the others, according to reports from the Pittsburgh Testing Laboratory. In soil removal tests, the Bendix automatic Home Washer removed 23.3% more soil than the "next-best" machine tested.

In germ removal tests, the Bendix did 10 times as good a job as the other washers tested!

Best way is also thriftiest and easiest!

According to the Pittsburgh Testing Laboratory's report, the do-everything Bendix used 40% less soap than the average of the other washers tested, and averaged 10 gallons less water for a single load of clothes! Get the whole story and see a demonstration at your authorized Bendix Dealer's.

Reds Lack Board For Olympic Action

ZURICH, Switzerland (AP)—Members of the Soviet sports delegation which attended the winter Olympic games at St. Moritz as observers declared here after the games that Soviet sportsmen would have taken part in the games "if they had been invited."

a national Olympic committee, and therefore could not have been invited.

If a Russian Olympic committee has been established by the time the International Committee meets in May, the Soviet Union will "without any doubt" be asked to take part in the Summer Olympic games in London, Mayer added.

Mr. and Mrs. Bill Zirkle and family, Eric, Okla., visited in the home of his parents, Mr. and Mrs. C. A. Zirkle this weekend.

To Ochiltree Voters

In Appreciation and Explanation
(With Apologies to No One)

I know of no better way to convey my appreciation of early expressions of favor and encouragement of my announcement.

Many expressed surprise as well as pleasure. One said something about, "If we had known—etc". Another, "you should have announced earlier."

I know it is unusual, but we all have our little peculiarities. I so much dislike what we know exists in many places where a few powerful ones dictate who may aspire to office, let alone be elected. It is true, I have refrained from embarrassing any of my friends, by seeking to ascertain what their attitude might be. I am willing to leave that to be definitely disclosed at the polls.

I did not even talk with those who had suggested two years ago that I enter this race then. I did make some effort to learn what I could, about the duties and work in the office, IF I should be so honored. Also, what the office pays.

I asked my doctor (and one other, after a check-up) as to physical condition, and otherwise endeavored to determine to my own satisfaction whether I might confidently expect to be capable of discharging the duties of the office, if elected.

Since I would have no other work, business or farming, I am assured that I can handle the job. Since completing my home I have tried to adjust myself to complete retirement, but have found it difficult. Possibly something like the old-time fire horse that would break loose at every alarm.

I do understand how some of my friends, especially those who encouraged me two years ago, may have been taken by surprise, but I can only explain and not apologize. After all, as I told Dave, after I had placed my announcement in the paper but before publication: "Perhaps a trio is better than a duet and if another gets in, a quartet might be even better." Bill Lance was out of town that day so I did not see him. I trust that when the election is over Van may be able to say, as did John McCarty in the DALHART TEXAN in 1932 after I won over that very fine man A. C. Johnson, for State Representative. He said "It has been demonstrated that men can oppose each other for public office and still remain gentlemen and friends." Johnson and I were both proud that it could be said.

All this space costs money and I happen to be one casualty of the depression and draught that never recovered to any degree. I hope to meet as many as possible, and especially those who have become residents and/or voters in recent years.

In a sense, a candidate is applying for a job. (In advance of possible vacancy.) You, the voters are the employers. Qualifications, experience and references are in order. These I hope to furnish anon. I do have ONE reference of which I am very proud. My service with the concern was when I was very young, and the concern itself was much smaller then than now. I quote: "Service Honest and Faithful—Character EXCELLENT—ARMY OF THE UNITED STATES."

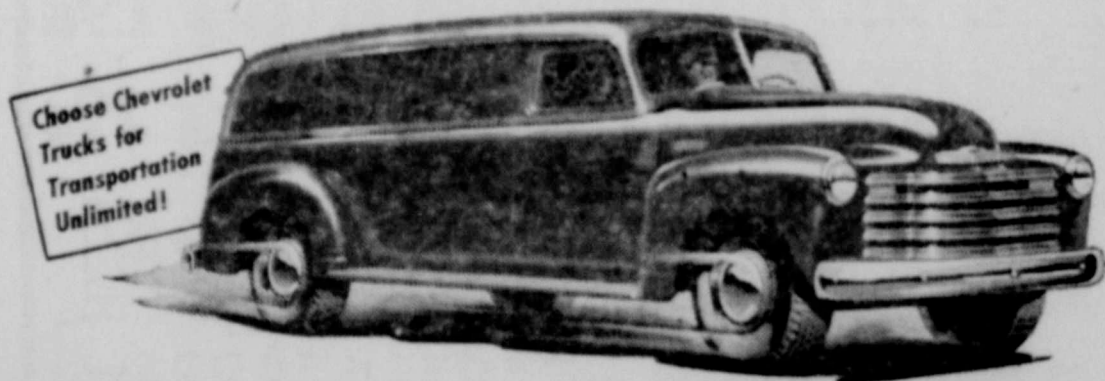

I Repeat from My Initial Announcement

"To me, a public office, is a sacred trust, and if elected I intend to devote all my time to the office. I have no other job, no outside interests, nothing to do but devote my time to serving as county judge, if elected, and will not seek reelection in 1952."

Visiting Hours
2:00 p. m. until 4:00 p. m.
7:00 p. m. until 9:00 p. m.

Mr. and Mrs. Sam Sheer, Follett, announce the arrival of a son, March 11.

Mrs. Fountain Wade and son have been dismissed from the hospital.

Medical patients dismissed from the hospital include Lynn Johnson, Perryton; J. Lickey, Dodge City, Kans.; Melanie McCoy, Hardesty; Barbara Sheets, Mrs. Robert Meek, Phyllis Patterson, Janis Phelps, Spearman; Byron Groves, Waka, and J. T. Ford, Beaver.

Mrs. Warren Kerns and infant, Goodwell, Okla., have been dismissed from the hospital.

Mrs. M. J. Groves, Waka, and Mrs. J. C. Knight, Gruver, surgical patients, have been released.

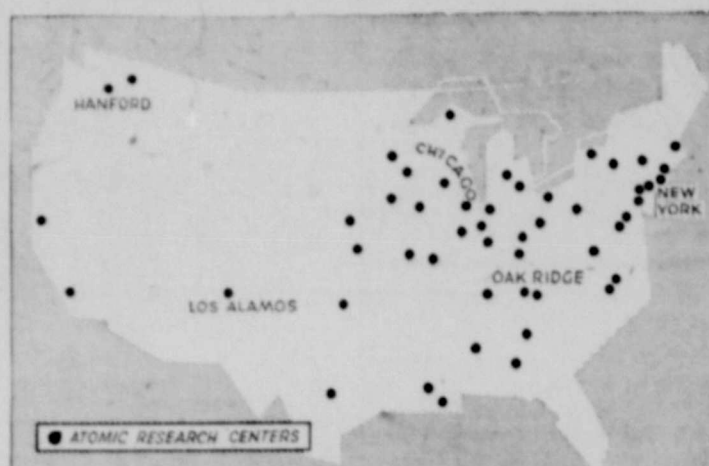

Mr. and Mrs. Julian McClenahan of Venango, Neb., who have been hospital patients since January 31, when their plane crashed on the G. C. Brillhart ranch, left by plane to return to their home Thursday, March 11.

Medical patients include Martha Jo McClenahan, Gruver; Kathryn Pattison, Mrs. R. A. Evans, Mrs. Roscoe Sparks and Burl Brockus, Spearman; John A. Sillars, Hardesty; Sam Baker and Mrs. Cora Barnes, who is much improved, Darrouzett; Chas. Patton, Perryton.

Mrs. Ralph C. Tidrick, Dalhart, is a surgical patient.

Mr. and Mrs. Charley Kent spent the weekend in Amarillo to be with her brother, Elmer Bales, who underwent a major operation at the Veterans Hospital there.

Mrs. R. T. Bowen and Mrs. H. C. Brillhart were Amarillo visitors Friday and Saturday.

ATOMLAND, USA—This map shows all the places in the country where atomic research is being conducted. The major centers are at the places named. A "shuttle army" of hundreds of top-flight scientists, engineers and physicians work to make sure this country comes up first with the latest in atomic research.

Fish Farming Is Good Fun for Pondowners

COLLEGE STATION — Ever go fishing and wonder if there were really any fish in the lake or if you were just going on a boat ride with a fishing pole in your hand? Here is a chance to make sure there are fish in the pond. Raise your own, says R. E. Callender, extension wildlife conservation specialist of Texas A. & M. College.

Ten state fish hatcheries under the direction of the Texas Fish, Game and Oyster Commission of Austin, and nine federal hatcheries produce fingerling fish for lake and pond owners throughout the state.

Six landowners in Jackson county who had ponds on their land recently received 2,300 black bass and 1,600 blue gill perch from their district hatchery. These fish were furnished to the landowners for stocking their ponds, and they were not charged a cent for the fish. Applications for fish may be made during the year to the headquarters source of the hatchery serving that particular county. All applications received up to Aug. 1 of any year are usually processed after that time, and at a time when the small fish are about fingerling size.

Many Texas pondowners are now thinking of producing pounds of fish in acres of water, in a like manner to the production of beef on acres of land. An acre pond, properly managed, will furnish the average family with an adequate supply of fish meat the year round. There is lots of fun and recreation connected with the harvest of the fish crop, too.

Fish require plenty of food, and the best source of food is to raise it right in the pond where the fish live. Tiny plants and animals in the pond, commonly referred to as "the bloom" or the plankton, make up the main diet of fish. Therefore, the amount of

plankton in the water will determine the number of fish present; likewise, the amount of plankton is dependent on the fertilization program each year, and three months is all the time needed for this program. Make up a mixture of 400 pounds of cottonseed meal and 200 pounds of 20 per cent acid phosphate for each acre of pond area. Broadcast 300 pounds of this fertilizer mixture around

Baltimore Girls Give Up Flowers And Reap Thanks

BALTIMORE (AP)—Maryland debutantes who gave up flowers in favor of CARE packages for Europe have been told by a grateful recipient: "May life strew flowers on your path."

Demurely dressed in white, 63 girls representing Baltimore's first families made their debuts last December at the first Monday German of the Bachelors Collation, the social event of the winter in Baltimore.

Ever since the ball originated in 1796, it has been the custom for each debutante to receive 20 or 30 sprays and bouquets from families and friends for the coming out party.

This season, instead of the traditional flowers, many girls

chose to have CARE packages sent in their names to the hungry in Europe.

An answer arrived the other day from a family in Germany. It said:

"We hope you did enjoy your ball and are only sorry that you have missed your flowers for our sake. May life strew flowers on your path."

Mrs. Frances Ferguson, Virginia Good and Ray McWilliams were in Canadian Monday evening to take Mrs. Ferguson's son, Jerry, who entrained for Missouri Military Academy, Mexico, Mo., days in Perryton.

INDEX OF TEXAS RETAIL SALES—The seasonally-adjusted index of Texas retail sales dropped to 321 in January from a December record high of 325, according to the University of Texas Bureau of Business Research. (Base: 1935-1939 is 100). This setback, the first since last August, was brought about by the 3 per cent drop in the sales index of nondurable goods stores. However, the index of durable goods store sales rose one per cent above December. Deflated for price changes, the adjusted total sales index decreased from 175 in December to 172 in January. The total dollar volume of Texas retail sales declined 23 per cent from December to January, without seasonal adjustment.

Volume of Texas Business Hit Another Postwar High in Jan.

AUSTIN, Tex., March 15—The volume of Texas business hit another postwar high in January, The University of Texas Bureau of Business Research reported.

The Bureau's composite index of business activity was 211 per cent of the 1935-39 base period. Dr. John R. Stockton, professor of business statistics and Bureau statistician, pointed out the index was only 11 per cent below the wartime peak of 238 of January 1945.

A 1 per cent December-to-January increase was largely due to a 11 per cent rise in seasonally-adjusted department and apparel store sales. Electric power consumption gained 5 per cent. Pay rolls decrease 3 per cent; miscellaneous freight carloadings, 2 per cent; employment, 2 per cent; and crude oil runs to stills, 1 per cent.

Dr. Stockton said, "The failure of four of the components to make gains over December may indicate that further increases in the composite index may be small. The question is still being debated as to whether the break in commodity and security prices

in February is the beginning of a major downturn in the business cycle, and at the present time the answer is not clear. However, the fact that the various element entering into the composite index showed such diverse trends in January suggests that the index of business activity might be approaching a peak."

In comparison with a year ago, all components were up, and the composite index increased 11 per cent. The largest rise over January 1947 was in crude runs to stills — 16 per cent, and the smallest in employment—3 per cent.

The Bureau's seasonally-adjusted index of retail sales declined 1 per cent from 325 to 321, for the first drop since last summer. The decline in retail sales is related to the behavior of other indexes of business. It lends further support to the theory that the boom may have about reached the end of its rise, Dr. Stockton pointed out.

Industrial power consumption declined 1 percent to 287 percent of the 1935-39 base. The decline

for two consecutive months suggests that the peak of the postwar boom has been reached in manufacturing," Dr. Stockton said.

Farm cash income dropped 39 per cent from December, bringing the Bureau's seasonally-adjusted index to 299 per cent of the 1935-39 base period. In spite

7:00 p.m. until 9:00 p.m.

Medical patients dismissed from the hospital this week include Mrs. Ezra Simpson, Donna Sue Yochel, Mrs. Ben Davis, Glenn Henry, Jas. Gosnell, Mrs. Chas. Gipson, Jimmy Stewart, Dr. Manse Wood, Alex Boren, Jimmie Morley, B. L. Barnes, Mrs. "Shine" Rifenburg, June Brown, Mrs. J. G. Woodfin, Mrs. M. La-Casse, Joe Close, Mrs. Wm. Flow-ers, Dehanna Loven, Booker, and Joe Todd, Colorado Springs, Colo. Mrs. Lowell Wermske, a surgical patient, was released.

Mrs. L. M. Lewis and infant daughter have been dismissed.

Mr. and Mrs. George Mehnert of Logan, Okla., announce the arrival of a son, March 14.

Mr. and Mrs. Herbert Butts announce the arrival of a son, March 13.

Medical patients in the hospital are Mrs. Emma Claybrook, D. W. Dunnihoo, J. T. McLarty,

of the decline, farm income was 23 per cent above a year earlier.

Prices generally rose between December and January; the index of consumers' prices in Houston rose 1 per cent and the index of food prices 2 per cent. In comparison with a year ago, consumers' prices were up 11 per cent; and food prices, 15 per cent.

Charley Holmes, Baby Mike Cudd, Mrs. M. L. Buckely, Mrs. J. H. Goode, Mrs. J. H. Anderson and Mrs. Cecil Stringfellow.

Mrs. R. R. Ward is a surgical patient.

Mrs. Roy Cudd has joined the staff at Perryton Hospital; she began her duties on Monday.

Children Happy In Temporary School

NEWTON, Ia. (AP)—When the Hammer rural school near Newton burned, the 18 pupils refuted the old anti-school belief—they were sick at heart.

Although residents could have sent their children to other rural schools, parents and farmers pledged \$1,700 for a temporary school.

Men gathered with pick-up trucks to cart away the debris of the fire. Carpenters completed construction of two 14x16 foot units within two days.

The Chances Are "1 to 10" You'll Enter the Hospital this Year Let Blue Cross Pay Your Hospital Bills

This is your opportunity to enroll in Blue Cross, which provides prepaid hospital care to more than 29,000,000 people in the United States. The entire family is protected against hospital bills—all for only a few pennies a day. Once you join Blue Cross you can keep your membership wherever you go; you simply transfer your membership to any of the 91 Blue Cross Plans in the United States, Puerto Rico and Canada. When you go to the hospital you don't have to worry about the hospital bill... There is no red tape... no claim to file. Just present your membership card at the admission desk of the hospital, and the finest in hospital care is made available to you.

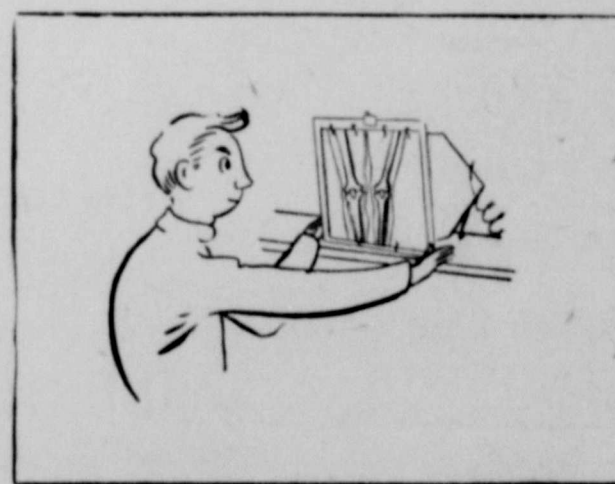

NO LIMIT...

All operating room charges for Blue Cross members and their families are "paid in full" by their Blue Cross Plan, one of the many benefits of membership.

ENROLL NOW...

Service Includes:

Meals, including special diets and infant feedings. Room accommodations up to \$5.00 per day for the member, except obstetrical cases; up to \$4.00 per day for dependents, sponsored dependents, and all obstetrical cases. General nursing service. Anesthetics and anesthesia up to \$10.00 each admission. All drugs and medicines furnished by the hospital, except blood and plasma. Emergency Room service, which includes X-Ray. Maternity care after 12 months membership. AND WITHOUT LIMIT... operating room, laboratory examinations, dressings, plaster casts, use of cystoscopic room, all delivery and nursery room service for 10 days, basal metabolism examinations and oxygen therapy.

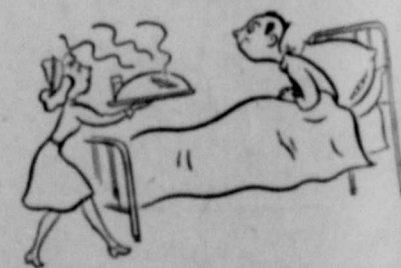

RESEARCH... All advancements and discoveries of scientific research are used to speed up the recovery of Blue Cross members. Among the services of membership are X-Ray examinations, up to \$15.00 for each admission to the hospital and laboratory examinations without limit, paid by Blue Cross.

COST

For those who enroll through an employed group, dues may be handled through payroll deduction on a monthly, quarterly, semi-annual, or annual basis, as the group decides.

MONTHLY DUES	
Individual member	\$1.10
Married Woman enrolling without husband	\$1.50
Member and one dependent	\$2.30
Member and all dependents	\$2.60
Each sponsored dependent	\$.60
Enrollment fee	\$1.00

Feeling Better

Blue Cross members do feel better when they realize that their hospital bill is being paid for them, just Blue Cross. Your peace of mind will help you leave the hospital sooner.

Martha Lollis Keim Jr. Take Nuptial Vows

Marriage of Miss Martha Lollis, daughter of Mrs. Viola Lollis, Texas, to J. H. Keim Jr., son of Mr. and Mrs. J. H. Keim, was solemnized in the parsonage of the Christian Church, Dalhart, Tex., March 19.

Rev. H. Higgins, pastor, officiated for the ceremony. The bride chose a suit of gabardine with white accents for her marriage, and her corsage was fashioned of white carnations.

Keim is a graduate of the high school and for the past year and a half has been employed by Perryton Hospital. He is a graduate of Perryton High School, Canyon, entering the Army. His service was in Manila, where he made their home in Perryton. Mr. Keim is employed by Public Service Company. They have just returned from a wedding trip to Mexico and Colorado.

Corinthian Class Irish Party

Members of the Corinthian school class of the Christian Church were entertained in the home of Mr. and Mrs. C. E. Keim, with an Irish party.

New minister and family, Mr. and Mrs. Boatman, Butch, enjoyed the evening of the party. Games were played until a late hour when refreshments were served to the members and their guests. Lyndall Riley, Merle Patsy Halpain, Winifred M. Madolyn Humphrey, and Hummer, Dwayne Smith, Har, J. B. Langwell and others.

Girls Interest Group Meeting

The Girls Interest Group of the Christian Church met in the home of Miss Nancy Dodd on Tuesday afternoon, March 23. During the business meeting, they were given by the members who visited at the hospitals the past week.

Carrying out the Easter theme, program presented included a story, "Joy Cometh in the Morning," by Zona Donley, and a vocal solo, "The Old Rugged Cross," by Johnnie Johnson. Sandwiches, cakes and cookies were served to the 15 members and guests who were present.

Blackmore Children Honored

Mrs. Carl Blackmore entertained with a children's party in her home, Rob Roy, last Saturday afternoon. The table was beautifully decorated with pastel shades of paper and had for its centerpiece the traditional Easter and grass nest. At either end of the table was a birthday cake for Rob Roy was six years old, and Janelle was five years old.

After the two young honorees opened and admitted the guests, they were given a picture reel. Games in which they were enjoyed while Mrs. Blackmore prepared the refreshments which held ice cream and cake. Favors were musical.

Following little guests at David Clark, David Loyd, Robin, Gary Knowles, Charlene, Rebecca Ann Witt, Kay, Bobby Dean Schwaik, Joe, Shirley, Deanna and Charly, Kathryn, James and Mary Bess Brillhart, Wright, Bonnie Witt, Gary, Judy Hawkins and the other children.

Miss Pittman, who was unable to attend, sent a gift.

City Circle Meets

City circle of the Women's Christian Service met Tuesday afternoon in the home of Mrs. J. H. Neufeld. Mrs. Neufeld conducted the study lesson on the historical background of the service.

At the meeting besides the above mentioned women were Mrs. John Sell, C. E.

Home Ceremony March 12 Unites Miss Annabelle Cox and Mr. Neel, Guymon

On March 12, the 33rd anniversary of the marriage of her parents, Mr. and Mrs. J. F. Cox, Miss Annabelle Cox became the bride of Vernon Otis Neel, son of Mr. and Mrs. S. F. Neel of Altus, Okla. Rev. J. H. Sharp, pastor of the First Methodist Church, read the impressive double ring ceremony in the Cox home, 801 South Fordham, at six o'clock in the evening.

Floor basket arrangements of spring flowers formed the decorative setting for the exchange of vows.

For her marriage the bride chose a navy suit with matching hat and shoes. Her blouse and gloves were of pastel pink, and her shoulder corsage was of pink rosebuds. Her five strand pearl necklace and diamond ear screws were the gift of her parents.

Mrs. T. M. Ethridge was the bride's only attendant. She wore a dress of navy blue with white accessories; her corsage was of red carnations.

Mr. Ethridge was the bridegroom's best man.

Deana Marie McLarty was ring bearer. She carried two white lilies and was dressed in a pink wool suit with white accents. A floral address of pink and white carnations completed her costume.

Mrs. Cox, mother of the bride, wore a dress of royal blue with a corsage of gardenias.

When the couple left for their wedding trip to Oklahoma City, the bride was wearing a suit of gray gabardine, blue accessories and a three-quarter length beige topper.

Mrs. Neel graduated from the Perryton High School with the class of 1937, and in April, 1938, was graduated from Venus Academy of Beauty Culture, Wichita, Kans. She has owned and operated Ann's Beauty Shop in Perryton for the past ten years.

Mr. Neel served four years in the Navy as a Chief Petty Officer, with three and one-fourth years of this time spent in the South Pacific. For the past two years he has been employed by the Cabot Carbon Co., Guymon, Okla.

After a short wedding trip the couple will be at home at 1304 N. James, Guymon.

Mrs. Neel Is Honoree for Shower Tea

Mrs. Vernon Otis Neel, who before her marriage March 12, was Miss Annabelle Cox, was the honoree for a shower tea last Friday afternoon in the T. M. Ethridge home. Mrs. Dean Blank and Mrs. Dean McLarty shared the hostess duties with Mrs. Ethridge.

To carry out the green and white color scheme, shaded green and white carnations were used on a reflector to form a four-leaf clover, the focal point of interest on the serving table. The floral arrangement was flanked by gleaming tapers. Mrs. J. F. Cox, mother of the bride, poured. Guests called from three until seven o'clock in the evening.

Attend Emblem Breakfast Sunday

Seven members of the Perryton Business and Professional Women's Club were in Amarillo Sunday morning to attend the Emblem breakfast of the Amarillo club in the Crystal Ballroom of the Herring Hotel.

Making the trip were Mesdames Wilford Lance, Dorothy Crisp, W. E. Perry, Frances Ferguson, Misses Georgia Hurlifey, Virginia Good and Edith Eggleston.

Mr. and Mrs. O. A. Schuster left Friday on a trip to the Rio Grande Valley and South Texas.

Forbes, J. W. Chase, Clifford Beck, F. B. Kile, Leland Fisher and J. W. Short.

Home-Baked Cake Sale on Saturday

The Perryton chapter, Order of the Eastern Star, will hold a pre-Easter cake sale on Saturday morning, March 27, at ten o'clock, at the Perryton Builders Supply. Members of the organization are furnishing home baked cakes for the sale; proceeds will go into the Eastern Star treasury.

Notla Club Meets In Savage Home

The regular meeting of the Notla Home Demonstration Club was held last Thursday afternoon in the home of Mrs. Fay Savage, and a quiz on safe driving, conducted by Mrs. Fayette Waggoner, was the opening feature.

Mrs. Virdie P. Wheeler, agent, read and discussed various essay titles for the coming contest, and several club members volunteered to write essays.

Mrs. Waggoner discussed the planning of a garden to meet the family needs, and Mrs. Wheeler demonstrated the arrangement and selection of furniture for a room. She also showed the proper way to hang a picture.

During the social hour refreshments were served to Mesdames Fay Savage, Carroll Wall, J. H. Callahan, Fayette Waggoner, J. D. Wright, Jess Brownlee, W. C. Cotner, Ed Savage and Bill Keim, and a guest, Mrs. Waggoner's daughter, who is visiting with her.

The next meeting will be held in the home of Mrs. J. D. Wright.

Two Showers Compliments to Miss Correll

Two small showers last week were compliments to Miss Virginia Correll, whose marriage to Dr. Alexander A. Eisenberg of Dallas was an event of Sunday, March 21. Two of her aunts, Mrs. S. P. Whippo and Mrs. W. E. McMillen entertained at a bathroom shower on Thursday afternoon and Friday morning.

Breakfast and apron shower was given by Mrs. A. C. Witt and Mrs. Clarence Neufeld.

The bride-elect's chosen colors, white and yellow, were accented in the floral and decorative notes at the shower Thursday afternoon in the Whippo home. Shasta daisies in white and yellow hues were arranged with the tapers on the mantel, and a bouquet of yellow tulips graced the coffee table.

Depicting the bride's home, a miniature ranch house and typical yard scene with horses at the back, a winding path to the door and yellow daisies circling the mirror plaque which represented the pond formed the decoration for the table laid with a multi-colored cloth. Mrs. McMillen poured from the pewter tea service, a family heirloom, and wagon wheel pottery dishes were used for the courtship.

Guests included Mesdames Elliott Lee, Jimmie Palmer, Bruce Johnson, Bill Trayler, Ike Vernon, Drew Ellis, Beth Fuelscher, Archie Correll, Misses Marie Pinckley and Moina Caldwell.

At Friday morning's breakfast courtesy, individual gladioli corsages provided floral decorations for the tables. The guest list included Mesdames Kermit Johnson, Maida Butler, Drew Ellis, Sidney Jines, Lewis Lanners, V. O. Neel, Archie Correll, Irvin Molesworth, Dean Blank, Luther Kirk and W. H. Jennrich.

The meeting April 2 will be held in the home of Mrs. Jim Gunter.

Pood Herndon attended the annual banquet of the Borger Chamber of Commerce Thursday night, March 18.

Miss Virginia Correll and Dr. Eisenberg Take Nuptial Vows on Sunday, March 21

Miss Virginia Dorothea Correll, daughter of Mr. and Mrs. R. T. Correll, became the bride of Dr. Alexander A. Eisenberg, son of the late Dr. and Mrs. A. A. Eisenberg, New York City, Sunday morning, March 21.

The double ring ceremony took place in the home of the bride's parents in the presence of relatives and a few close friends.

Judge Jack R. Allen performed the nuptial rites before the fireplace banked with jounquills, heather and orchid stock before a background of potted begonias. Seven branched candelabra held gleaming tapers.

"Liebestraum" by Liszt played by Mrs. Gus Henshaw at the harp was used in lieu of the traditional wedding marches.

Mrs. Drew Ellis attended the bride as matron-of-honor. Her dress of grey crepe was accented by a corsage of Italian iris. Archie Correll, brother of the bride, attended Dr. Eisenberg as best man.

Given in marriage by her uncle, Spencer P. Whippo, the bride was gown in navy crepe with an orchid corsage. She also carried a Colonial bouquet centered by an orchid; her something old was her mother's wide gold band ring, her something new, a strand of pearls, the gift of the groom.

The bride's mother wore a dress of black with aqua accents and a corsage of Taisman roses. Mrs. E. L. Whippo, the bride's grandmother, was dressed in grey with a corsage of American beauty roses.

Wedding guests were Gus Henshaw, Drew Ellis, Mr. and Mrs. Louis Lanners, Carrie Lynn, Randy Correll and Flora Irene, Mrs. Jack R. Allen, Miss Bess Porter, Mrs. E. L. Whippo, Mrs. Spencer P. Whippo and Mrs. Archie Correll.

A reception was held at one o'clock Sunday afternoon in the Correll home to compliment the couple. Guests were Mr. and Mrs. W. E. McMillen, Mrs. E. L. Whippo, Mrs. Lee Halpain, Helen and Patsy, Mr. and Mrs. E. R. Thurman, Mr. and Mrs. Chas. Whippo.

Don Neufeld Marks Birthday

Tuesday morning, March 16, at ten o'clock, Dannie Witt, Betty Ann McCreivy, Bonnie Witt, Marylyn Sodowsky and Camilla Jane Emerick went to Don Neufeld's home to wish him a happy birthday.

Movies were made of the group, and the children spent the hour at play until Mrs. Neufeld served a delicious birthday dinner. Favors were bunny balloons and birthday candles.

The occasion marked Don's sixth birthday anniversary.

Rosamond Adkins, Mr. Miller Wed

Announcement is made by Dr. and Mrs. E. R. Jarvis of the marriage of their daughter, Rosamond Adkins of Lubbock, to Foster Miller, also of Lubbock.

The vows were solemnized at the manse of the Lubbock Presbyterian Church on Sunday, Feb. 29, with Dr. Lewis reading the marriage ritual.

The couple have returned from a wedding trip to Old Mexico and other Southern points, and will make their home in Lubbock where Mr. Miller is associated with the International Business Machine Co.

If we don't have it, we can get it for you. Stewart Printing Co.

po, Mr. and Mrs. A. K. Wilson, Ogden and Virgie Lou, Mr. and Mrs. Spencer Whippo and Ruthie, Mr. and Mrs. Robert Thurman, Cavita, Rollin and Dannie Frank, Mr. and Mrs. Rex Clark, Berta B. Wiley Wait and Kelley, Mr. and Mrs. Alfred Pittman, Maresa Sue and Marita Lou, Mr. and Mrs. DuWayne Thurman, Mr. and Mrs. Rupert Allen, Judge and Mrs. Jack R. Allen, Mr. and Mrs. Gus Henshaw, Mr. and Mrs. Louis Lanners, Carrie Lynn, Flora and Randy Correll.

For traveling, the bride chose a grey suit with navy accessories. Her corsage was an orchid.

Dr. Eisenberg is a graduate of New York University Heights College and New York University College of Medicine. He served his internship at New York City Hospital in 1942 and 1943. Following service in the Army from 1943 to 1946, with 14 months overseas in the E. T. O., attached to 80th Hospital Train Unit, he served as assistant resident dermatologist at New York City Hospital for a year. Dr. Eisenberg is now preceptor to Dr. Arthur G. Schoch, Dallas, Texas, and a Major, M. C., in the Texas National Guard 49th Armored Division.

Mrs. Eisenberg, granddaughter of the late E. L. Whippo and member of one of Ochiltree County's pioneer families, graduated from Perryton high school and attended T. S. C. W. Denton, for two years before attending Chilli-cothe Business College and enrolling as a law student at Texas University. She withdrew from the University to accept overseas service with the American Red Cross Clubmobile Department in 1944. She was in the European theater for 14 months and when she left Europe to return home, she was Paris Supervisor of the Clubmobile Department. For the past year she has been employed as secretary to Koch and Isley, Attorneys-at-law.

The couple will be at home at 5603 Anita, Dallas, following their wedding trip to New Orleans, La.

Current Events Monthly Session Held March 17

Mrs. J. O. Wooten, Mrs. L. T. Tucker and Mrs. Alton Boxwell and Mrs. R. D. Graves shared hostess duties for the meeting of the Current Events department of the Sorosis Club on Wednesday afternoon, March 17, in the club room at Hotel Perryton.

During the business hour, Mrs. W. L. Herndon was elected chairman of the department for the coming year. Mrs. Mark Burton was selected for first vice chairman; Mrs. R. B. Orrill, second vice chairman; Mrs. T. O. Pugh, secretary-treasurer; Mrs. L. T. Wright, program chairman. Mrs. Burton presided for the session in the absence of Mrs. A. K. Wooten, department chairman.

Mrs. T. O. Pugh was named delegate to the State Convention to be held in Pampa April 6 and 7.

Mrs. W. B. LaMaster, guest speaker for the afternoon, told the group of her travels in the Gulf States, and Mrs. W. L. Herndon showed moving pictures of the beautiful Bellingrath Gardens. Piano selections were presented by Miss Johnnie Johnson.

Members answering roll call were Mesdames John Boin, Alton Boxwell, Mark Burton, J. W. Chase, H. T. Cutter, Chas. Garrett, W. L. Herndon, F. M. McGee, R. B. Orrill, T. O. Pugh, R. L. Smoot, L. T. Tucker, Luther Wade, Leonard Wright, H. E. Young and Mrs. LaMaster, department guest.

Colleen Milledge in Holy Week Program

Organized through the Student Christian Association, Holy Week is being observed on the campus of Colorado Women's College, Denver, from March 22 to 25. Daily program of music, dramatics and guest speakers are being presented in Pulliam Auditorium amid the traditional atmosphere of the Cross and Easter lilies, Miss Marie Roth, who is in charge of plans, announced.

Students presented Tuesday's program of music by the glee club under the direction of Mrs. Georgia B. Ellyson. Devotionals, built around the last seven sayings of Christ were presented by various students. Miss Colleen Milledge of Perryton presented one of the devotionals; she is the daughter of Mr. and Mrs. Andrew J. Milledge.

County Council Meets Saturday For Discussions

Ochiltree County Council met in regular session last Saturday afternoon in the lounge room at the Ochiltree Building with nine clubs represented.

Mrs. P. W. Wernske, chairman of the finance committee reported that Dr. G. L. Kengle, county doctor, states that a baby incubator is needed more than any other article in his work as county doctor. The council voted earlier to purchase some item for him as their project for the year. Action on the purchase of an incubator will be taken at a later date, when more material is available for discussion.

Blue Cross Hospitalization Service was discussed by J. W. Erickson, business administrator of Sanford Hospital, in connection with the community Blue Cross drive to be held this week.

Mrs. Fred Huston, who is council representative on the Safety Council, reported various activities and accomplishments of this organization and urged attendance at the meeting of the Safety group to be held on April 13 at the school house.

Mrs. Harold Kershaw was elected T. H. D. A. chairman to replace Mrs. E. N. Flathers, resigned.

Mrs. Carl McDowell, Dumas, who is vice president of District 1, T. H. D. A., spoke to the women on the observance of National Home Demonstration week May 2 to 8. She also spoke of plans for the district meeting to be held in Perryton April 30.

Members present were Mesdames O. J. Crain, J. D. Wright, J. H. Woodward, John Schoonover, Charlie Selby, T. M. Osborne, P. W. Wernske, Clarence Haar, Robert Barlow, Corwin Trosper, J. H. Callahan, Martin McCarty, Warren Gum, J. S. Thrasher, Carl Philipp, Oscar Blank, Bill McLanahan, Amos Morris, Faye Savage, E. N. Flathers and Delbert Davis.

Visitors were Mrs. McDowell, Mrs. Huston, J. W. Erickson and Mrs. Virdie P. Wheeler, agent.

Delegates Are Named to State B&PW Convention

Delegate of the Perryton B. & P. W. club to the state convention of Business and Professional Women's Clubs which will be held in Dallas on April 23-24-25 are Mrs. Frances Ferguson, Miss Georgia Hurlifey, Miss Edith Eggleston and Mrs. Pearl Wade. Alternates named by the group at their meeting last Thursday night were Mrs. H. D. Meadows and Miss Cornelia Wright.

Mrs. Ferguson, president, presided for the business hour which followed dinner at Hotel Perryton, and letters of welcome from clubs at Lubbock, Floydada, Pampa, Dimmitt and Lockney were read. Committee chairmen announced their committee members for the year: Miss Moina Caldwell, treasurer, reported on finances. The club is furnishing workers to help enroll Blue Cross members on Friday, March 26.

Next meeting date is Thursday, April 1, at 6:30 o'clock. The 35 members present for the meeting were Mesdames J. M. Anderson, Dorothy Crisp, F. A. Edwards, Ferguson, Ida Garrett, Joy Hergert, C. A. Igou, Wilford Lance, Harry Nail, W. E. Perry, Raymond Powell, Verna Roberts, Van W. Stewart, Pearl Teeter, Lois Trollinger, Pearl Wade, Edythe Williams, Jim Wright, Misses Betty Berry, Moina Caldwell, Edith Eggleston, Phyllis Foreman, Virginia Good, Frances Grimes, Polly Holmes, Georgia Hurlifey, Marjorie Price, Hulda Schmidt, Grace Schneider, Anna Tevis, Bertha Thomas, Maurine Turner, Bobbie Webster and Carmenta Wright.

EASTER HALO . . . Primroses and narcissus, green malin by Northridge.

Huntoon Club Meets in Lounge

Because of bad roads, the Huntoon Home Demonstration club met Wednesday, March 17, in the lounge room at Perryton. Twelve members and the agent, Mrs. Virdie P. Wheeler, were present with Mrs. J. C. McNally acting as hostess.

Mrs. Dorwin Padgett was welcomed to the club as a new member. Each member brought to the meeting an antique or a sample of her hobby. The examination of these objects proved a delight to all. Among articles displayed by club members were a yard stick over 100 years old, an old fashioned pickle dish, an old doll, a folding type fan, several old-fashioned baby dishes and an old baby cup, a family heirloom. Very pretty and neat embroidery work was shown as hobby work.

Mrs. Corwin Trosper, president, called the meeting to order, and the club business was transacted in routine order. J. W. Erickson met with the club and discussed with them the Blue Cross Hospitalization plan.

Mrs. Wheeler's demonstration was on different sprays for insects.

Refreshments were served to Mesdames Wheeler, Roy Doerrie, D. D. Hummer, M. S. Hummer, M. L. Kershman, Edwin Malaney and Lynn, Edward Schroeder, Rhodie Stollings, J. S. Thrasher, Corwin Trosper, Corwin Padgett, the hostess and James Dwayne McNally.

The next club meeting is scheduled for April 21.

Income Tax Board Thwarts Revenue

DENVER (AP) — A Colorado farmer made a bank deposit of \$17,000 but didn't report such income in his tax return. The internal revenue department asked why.

The farmer contended this money was a sudden windfall; he had been saving it in his basement for years. Every time he tucked away a little more, he said, he penciled the date and amount on pine boards leaning against the wall.

Could he produce the boards?

Well, he'd saved them up and made a kitchen cabinet out of them. Revenue agents took the cabinet apart, found the penciled memos true enough.

But this led to quite some revision of the farmer's earlier tax returns. The tax men suggested he keep an account book.

Sunday afternoon callers in the home of Mr. and Mrs. L. L. McGarragh included Mr. and Mrs. L. L. Crocker and family, Denver, Colo., Mr. and Mrs. Frank Owens and family, Walsh, Colo., Mr. and Mrs. Joe Storey, Mr. and Mrs. C. S. McGarragh.

HEALTH FOR ALL Jobs For The Tuberculous

No one expects you to be happy if you learn you have tuberculosis. It is bad news to the most optimistic and means a temporary disruption of normal living, home life, social contacts and your work or career.

Tuberculosis is certainly serious, but once a person has it, it is to his best advantage to accept it and act intelligently and sensibly about it. Full cooperation with his doctor should be a guiding principle.

The doctor will stress the need for complete rest and will also tell you that pessimism and a defeatist attitude may delay your cure. Rather than waste time and energy in regret and self-pity, it is far better to start some constructive thinking about getting well and planning the future.

The tuberculosis patient who thinks he can never again earn his own living at work he enjoys is ignoring the experience of thousands of former patients who are now leading useful and financially independent lives.

During the months of treatment, many patients discover special skills and talents that they never realized they had. The finding and developing of a new skill often means a better, more

interesting job when the patient's disease is arrested.

Sometimes the tuberculosis patient has an opportunity to further his formal education in the tuberculosis hospital. Young patients whose high school training was interrupted have continued their studies leading to a high school diploma. Adult education in the sanatorium has

Beef Eaters Have Beef in India

NEW DELHI, India (AP)—Beef eaters in India are trying to remember the taste. The central government has created a cattle preservation committee to study whether slaughter of beef cattle should be prohibited. Cows are sacred in India.

The riot-caused exodus of Mohammedans from large cities has left few persons willing to slaughter beef. Those who remain do not want to invite trouble by butchering cattle.

Most beef served in public places here now is ancient frozen

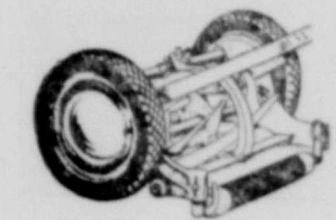

army surplus, not much in flavor and texture, but nevertheless beef.

Mr. and Mrs. S. P. Whippo left Sunday for Kansas City, Mo. Mrs. Whippo will remain there to visit with her mother, Mrs. J. L. Couger. Whippo goes on to Quincy, Ill., to transact business.

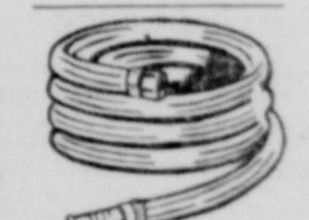

Wendel Cook came in from Randolph Field, San Antonio, after receiving charge from the Army last week. He will assist his father, Cook of the Hunton community in farming.

Jimmie Brinkley of Houston Ray Roberts, Jr., of McKinney, chairman of the state executive committee, and Jimmie Parks of Kilgore. With back to camera is Earle Mayfield, Jr., of Tyler.

With Baby Sitter Movie, Hollywood Has New Formula

By GENE HANDSAKER

HOLLYWOOD — For an evening of guffaws, see "Sitting Pretty." This is a hilarious farce built on a modern couple's problems with a baby sitter. Every dad who has had to move his kid's toys out of the driveway before he could put his car away, every mother harassed by the kids and the dog will feel right at home with it.

Perhaps unconsciously, 20th Century-Fox may have stumbled on a sure-fire formula: Put a couple of competent stars in the conventional leads for marquee name value. Then give them a sensational supporting actor who can steal the show. It happened in "Miracle on 34th Street," starring Maureen O'Hara and John Payne but stolen by Edmund Gwenn. Now Clifton Webb walks off with "Sitting Pretty" in the presence of Miss O'Hara and Robert Young.

Webb plays Lynn Belvedere, the incomparably capable baby sitter and admitted genius. He can set a broken bone, make a salad, calm a rebellious child, dance a mean rumba, or write a best seller. He knows he's good, and the colossally nonchalant, supercilious way Webb whips over his lines makes them funny. There are other superb players, too, notably Richard Haydn, as an iris-breeding neighborhood gossip.

Gene Stinson left Monday to return to Kemper Military School, Boonville, Mo., after spending a four day spring holiday with his parents, Mr. and Mrs. L. D. Stinson. Gene flew to Amarillo on the way home where his parents met him.

Firing upon Ft. Sumpter in April, 1861 was the first military act of the Civil War.

CARD OF THANKS

I want to take this means of expressing my real gratitude and appreciation to the friends who sent me all those nice cards and flowers during my stay in the hospital. I really appreciate it.

Washington Letter.

WASHINGTON—Marie Annette McLean, a pretty 24-year-old blonde WAVE, is the first girl to sing with the United States Navy Band. She joined the WAVES six years ago to help with their recruiting.

Though she is not a member of the band, she's been "attached" to it as chief yeoman for three years. Her duties are mostly clerical. The fact that she sings is incidental, Navy officials say.

Marie is the only WAVE at the Naval Gun Factory, where the U. S. Naval Band has its headquarters. She is the darling of the band's 88 members.

Marie sings with the dance band and concert orchestra at big dinners all over town, on the radio and for the USO. She's had two big thrills, "singing for President Truman and singing on a local radio program."

The other night she sang for the President at the White House Correspondents' Association dinner. Margaret Truman was also on the program and got a big hand. No one knew who Marie was until some of the newsmen began asking questions afterwards.

"She was pretty smooth," says

one of the boys. Marie was studying piano and voice in Pelham Manor, N. Y., when she joined the WAVES. She asked to be assigned to the Navy Band for yeoman service because she wanted to be near music.

She is very serious about her musical career. She hopes the WAVES are made a part of the regular Navy so she can go to one of the local universities under the GI bill and study music. (The WAVES are still Reserves and don't come under GI legislation.)

As it is she has three lessons a week in coaching and singing and two piano lessons weekly. She likes to read—books about music and musicians. She says her "dream job" is doing chorus work over the radio.

"I want to get married some day, raise a family and keep a nice home, but I think I'd better wait a while for that," she says. "I love to cook—steak, pies, cakes — and I can sew. I make most of my own dresses."

She also likes to go dancing and collect classical records. James Melton is her favorite male singer and she wants to see all of the United States, before she goes traveling abroad.

The United States Navy Band was organized in 1925. Lt. Comdr. Charles Brendler has been its

Pneumatic Mat Aids Aching Feet

DETROIT (AP)—Clarence V. McGuire's sympathy for persons with aching feet has brought about two inventions to help them.

Several years ago McGuire developed pneumatic shoes for men who must stand while at work. His latest is a pneumatic mat.

The mat is made of rubber but compressed air actually supports the weight of the body. Small, overlapping cells with sloping elastic walls yield with pressure.

McGuire, 38, is a former automobile and tire company executive.

Music Triumphs Over Warehouse

MILES CITY, Mont. (AP)—When no music came out of the church piano, Dick Pemberton went to work with a screw driver. Once he chased out a score or so of mice and sanded up a half of bushel of wheat that somehow got inside, the piano delivered music for the Sunday school class.

If the brooder house is given a very heavy spraying with cresol or a coal tar disinfectant, the chicks should not be placed in the house for several days. The strong fumes are injurious to chicks.

CATTLEMEN GATHER—Members of the Texas and Southwestern Cattle Raisers' Association are gathered in El Paso for the association's 71st annual convention. Those in the group above (right to left) are: C. E. Weymouth, Amarillo, president; Bryant Edwards, Henrietta, first vice-president and slated to be the next president; Henry Bell Fort Worth, who has been secretary-general manager of the association for 28 years; Hale Kokernot, Sr., San Antonio a past president of the association and a member for more than 51 years; M. A. Fuller, Fort Worth, association treasurer and president of the First National Bank of Fort Worth.

'Shantrailer' Gives New Touch to Housing

SALISBURY, Md. (AP)—It's official now: Mr. and Mrs. Harry Mason are living in a "shantrailer," and have to put license tags on their home here.

City Solicitor Harry H. Cropper took a look at the Mason residence the other day and came up with this verdict:

"I would say it's a 'santrailer.' That's a cross between a shanty and a trailer." He ruled that the Masons would have to take out a trailer license.

City officials pondered a week over the question. The Masons said their home was a portable cabin, minus wheels. County as-

essment records listed it as a house. City Plumbing Inspector William E. Neal called it a trailer. Solicitor Cropper agreed, and that settled it.

Locusts Have Kick!

SYDNEY (AP)—"Grasshoppers" in the Burra district of South Australia (actually locusts) are kicking fowls to death. Fowls have been swallowing the "hoppers" alive and their kicking hind legs, with their saw edges, have cut the fowl's jugular veins, and caused them to bleed to death.

Children Rescued From Nazi Revenge

BERN, Switzerland (AP)—A group of 50 children belonging to the families of German generals and prominent civilians executed for their part in the bomb plot against Hitler in July, 1944, arrived here recently to be cared for by a private charity. Dr. Albert Von Erlach, head of the charity group, says the children were being ostracized as "the children of traitors" by the Germans, and deserve special care. They included grandchildren of Fieldmarshal Von Stauffenberg, who planted the bomb under Hitler's conference table, and of Dr. K. Von Goedecker, burgomaster of Leipzig, who was caught by the Nazis after a Germany-wide man-hunt lasting several weeks.

business here. The big wingman believes the Colts' chances of landing Bobby Layne, Texas' fabulous passer, was enhanced by Chicago signing Johnny Lujack, the Notre Dame star.

Pro Griding Hard Work, Says Bechtol

(AP) Newsfeatures

AUSTIN, Tex.—Hubert Bechtol, twice All-American end at the University of Texas, says, the glances, the glory and the glittering gold of professional football do not compensate for the bumps and bruises.

Bechtol played with the Baltimore Colts of the All-American Conference last year and was well paid for his efforts. But he doesn't believe the loss of 25 pounds, plus 15 grueling games in four and one-half months, offer a fair return on the dollar.

Bechtol came to Austin to register in the university and complete work toward a degree in business administration. After that he isn't sure he will go back to pro football. He may go into

HUB BECHTOL May Not Go Back

business here. The big wingman believes the Colts' chances of landing Bobby Layne, Texas' fabulous passer, was enhanced by Chicago signing Johnny Lujack, the Notre Dame star.

"That gives the Bears four good quarterbacks," Bechtol figures, "and Bobby probably knows he would be buried far down among the subs on a club with all that talent at his position."

Layne, said Bechtol, would be about the only convincer he would need to return to the Colts next year. In 1944 and 1945 Bechtol was Layne's favorite passing target.

Bowling Booming in Land of Birth

BERLIN (AP)—Bowling, the American way, is becoming a highly popular sport in Germany—the country where, according to ten-pin historians, the game originated.

Reports from the U. S. Zone of Occupied Germany say that 76

alleys are in use throughout that area with another 54 being installed.

Harvard University is in Cambridge, Mass.

Natives of North Carolina are called Tarheels.

Rosa Bonheur painted The Horse Fair.

German Assets Freed

BERN, Switzerland (AP)—The Swiss Federal Council has decided to free the assets of German citizens resident in Switzerland who did not live in Germany between Feb. 16, 1945, and Jan. 1, 1948. Swiss assets of such Germans resident in other countries were also freed, provided the owners were not liable to be deported to Germany.

FLY YOUR KITES Safely

Away from Electric Lines!

Kite flying is great fun but danger lurks when kites are flown near electric lines. Many a child has lost his life using wire for a kite string or climbing a pole to get a tangled kite. Play safe by following these rules:

1. Use only dry, cotton string to fly your kite.
2. Do not use metal or wire on kites.
3. Do not climb a pole to get a tangled kite.
4. Fly your kite only in open fields away from power lines or busy highways.

If your kite becomes entangled in electric wires, don't risk injury by trying to get it down yourself. Call our office and we'll send a man to remove it for you safely.

COMMUNITY PUBLIC SERVICE COMPANY

Lobsters Air-shipped Coast to Coast

NEW YORK (AP)—Shipment of live lobsters by air from coast to coast in a new type carton which requires no refrigeration, has been started here by Air Lines, Inc.

"An insulated boxboard carton controls temperature and a bag-type liner retains moisture of the seaweed in which the lobsters are packed. A shipment of 50 pounds by the old ice barrel method can weigh up to 150 pounds. The 50 pounds packed in the carton weighs only 58 pounds, says David A. Couture, vice president of the airline.

Prospects for Optima Dam Are Brighter

Prospects for construction of the large government dam at Optima, Okla., near Hardesty, were considerably brightened this week with the news that a \$75,000 appropriation bill has passed the House of Representatives and the Senate committee has passed favorably on it. This \$75,000 will go for further engineering surveys.

Construction of this dam has been pending since 1936, when the U. S. Army Engineers recommended its construction after a survey. The dam, planned at the junction where the Blue Water creek enters the North Canadian river, is expected to furnish water for extensive irrigation and possible industrial electric power.

Chambers of Commerce in Guyton, Liberal and Perryton are working to secure construction of this dam. At a meeting in Hooker last week, a Tri-State Chamber of Commerce was set up to aid in pushing the appropriation. A telegram from Texas Senator Tom Connally received by the local Chamber of Commerce Tuesday stated, "Committee has recommended appropriation of \$75,000 for planning for Optima, Okla., dam, Hardesty site. Shall bear in mind your interest. Tom Connally."

When Moonshines Over the Jail House

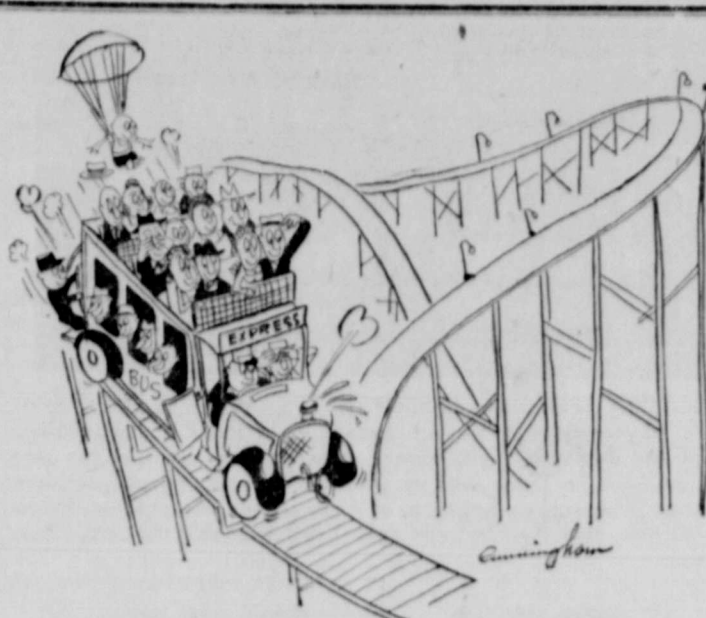

TULSA, Okla. (AP)—Federal Judge Royce H. Savage agrees that determination to pay one's debts is worthy, but that law breaking just isn't the way to go about it.

A sharecropper haled into his court told the judge he started "moonshining" to pay off a \$100 bank loan. The culprit said he "had it down to \$4.75" before the revenue agents moved in.

The judge assessed him 60 days in jail, plus a year's probation.

In 1925 Mary Kay Browne held national ranking in both golf and tennis.

(AP) Newsfeatures
SHANGHAI—The average Chinese bus driver in Shanghai must be a frustrated airplane pilot.

In most lands a bus is a means of transportation, but not here. A Shanghai bus is a means of transportation, but not here.

thrills. Getting where you have to go is somewhat incidental. The bus is built to carry 25 passengers, but no Shanghai bus driver is happy until he has at least 65 customers aboard. He needs the extra weight for momentum going down hills.

Once underway, a Chinese bus driver recognizes no obstacle. He once ignored red lights, too, but the power of the police has at last prevailed.

A corner presents a challenge. Bus drivers firmly believe corners are built to take on two wheels.

It is always easy when the bus comes to a traffic island, which in theory is put there for the safety of pedestrians. When your head bangs the ceiling you know the driver has run over the island, as usual.

Every bus ride seems to last 30 minutes, even though your destination may require only 10. This is because it takes 20 minutes to fight your way out of a bus.

EDDIE MILLER

Holland Plans Music Festival

AMSTERDAM (AP)—A musical competition festival will take place in Scheveningen, Holland, from May 19 to 29 organized by the Dutch Radio Philips. There are three divisions: singing, violin, piano.

Musicians from 15 to 30 years old may compete.

The judging committee comprises musicians of 14 nations and includes Yehudi Menuhin, Nathan Milstein, Georges Enesco, Sara Scuderi, Leonard Bernstein, Marguerite Long, Sem Dresden, Berthe Seroen and Jo Vincent.

Woodrow Wilson was the first president to leave the U. S. during his term of office.

Ralph Lapointe Jackie Albright

SHORTSTOPS—The Philadelphia Phillies are long on shortstops this year, Eddie Miller has the job sewed up. Ralph Lapointe, however, hit .308 last year and Jackie Albright was a good one. They have three more shortstops just about as good.

Murry, Emerick Attend Coaching School at O. U.

Perryton high school coaches Floyd Murry and Lewis Emerick attended the coaching school held at the University of Oklahoma in Norman last Friday and Saturday, along with approximately 300 other high school coaches from Texas and Oklahoma.

Matty Bell, head coach of the Southwest Conference champion S. M. U. Mustangs, was principal speaker at the school. He spoke about his single wing offense and defense against the T formation, two departments in which his team excelled last season.

Motion pictures of the Cotton Bowl game between S. M. U. and Penn State, and the Sugar Bowl game between Texas and Alabama were shown to the coaches.

Among the other Panhandle coaches present were Howard Lynch of Amarillo, Joe Champion and James Love of Lefors.

Polish Press Grows Despite Censors

WARSAW (AP)—The press of Poland is growing despite stiff censorship.

From a handful of publications in early 1945 after the liberation of Warsaw, the nation now has 35 daily newspapers. There are 81 weeklies, 51 bi-weeklies, 226 monthlies, 23 quarterlies and 29 magazines published at irregular intervals.

Most numerous are 49 magazines devoted to economic and religious issues. Among the religious publications, 44 are Catholic.

One Polish daily has reached 400,000 circulation. The majority of others average 100,000.

Only about 150th of the earth's atmosphere is above an altitude of 21 miles.

Funeral Services Held Tuesday for Mrs. Mary Wells

Funeral services were held Tuesday, March 16, at the Boxwell Brothers Chapel for Mrs. Mary Ann Wells, who died at the home of her daughter, Mrs. John J. McDonald, 9 So. Date street, on March 14.

She had made her home with her daughter for 29 years, the past 7 years in Perryton. She was 78 years of age.

Lee E. Rawlings, minister of the Church of Christ, conducted the final services. Pallbearers were Lester Norris, V. R. Coon, Chester Thiessen, Dee Smith, Jack Holden and Ed Padgett. Interment was in the Ochiltree cemetery.

What Russia Is Reading

LONDON (AP)—Moscow Radio reports a current best-selling novel in Russia is Ira Wolfert's "Tucker's People," which it said "exposes the social origin of gangsterism and the gangster nature of American monopoly capital."

Upton Sinclair's "World's End" depicting American life during World War I, and the Sinclair Lewis novel "Gideon Planish" which the radio said was "aimed against fascism and its manifestations in America," will soon come off Russian presses.

Baton Rouge is the capitol of Louisiana.

It often happens that rain falls from a cloud but is evaporated before it reaches the earth.

Hard to Get a War Out of Your System

PITTSBURGH (AP)—Joseph Cafardi, a construction foreman, hopes the last relic of World War I has been taken from him.

In 1915, while serving in the Italian Army, he was wounded. Thirty-one years later he began to limp and a physician removed some shrapnel from his hip. A few weeks ago he began to limp again and a physician found some more shrapnel.

Under normal conditions, eight to 12 inches of snow equals about one inch of water.

The barometer was invented in 1643 by Torricelli, a pupil of Galileo.

One half the mass of the air is below the three and one-half mile level.

Ochiltree Pioneer Dies March 15 At Albuquerque

Ashley Wiley Thurman, who will be remembered by old timers of Ochiltree county as one of the first school teachers and one who helped organize the county, died in Albuquerque, N. M., on Monday, March 15, in the home of his son, Rollin Thurman. He was 83 years old.

He was born in Pikeville, Tenn., on October 24, 1864, and moved west to Kansas in 1881. He came to the Panhandle of Texas in 1884, and lived here until 1926, when he moved to Albuquerque.

He is survived by two children, Rollin Thurman of Albuquerque, and Mrs. Jack Wyatt, Amarillo; a nephew, E. R. Thurman of Perryton, a great-nephew, Robert Thurman of Perryton; two great-nieces, Mrs. Alf Pittman and Mrs. Rex Clark, Perryton; five grandchildren and three great-grandchildren.

Mr. Thurman joined the Methodist church at an early age and served the church faithfully all of his life. Funeral services were held Thursday, March 18, in Albuquerque. E. R. Thurman and Mr. and Mrs. Rex Clark of Perryton attended the funeral.

LOOKOUT SPOTS BALTIMORE'S SHIPS—Walter Gelbach, Baltimore's 70-year-old ship lookout, spends eight hours a day thinking, talking and dreaming ships. From a shack on north point, at the harbor's entrance he keeps tabs on port traffic, notifying the maritime exchange in downtown Baltimore of each arrival. This gives notice to customs men, ship chandlers and agents that their ship will dock within the hour.

Large Crowds At Church of Christ Meeting

The meeting now in progress at the Church of Christ is being attended by overflow audiences, reports Lee E. Rawlings, minister. Horace W. Busby of Fort Worth has inspired hundreds with his presentation of Christ and Roy Hooten has presented the Gospel

in song in a great way.

Mr. Busby, one of the leading evangelists of America, has averaged 620 sermons each year during the past 28 years, and since 1920 has devoted his time altogether to evangelistic work, preaching in every city and most of the towns in the nation where there is a Church of Christ. He has baptized more than 16,000 people. He began his ministry in 1910 and served as resident minister of a Fort Worth church.

Services continue through Sunday, March 28, with three services on that day. The special afternoon service will begin at 2:30 p. m. and will be preceded by a basket dinner in the church basement immediately following the morning service. The public is cordially invited to attend each of the remaining services of this meeting at 10 a. m. and 8 p. m. All attendance records in Bible School, morning service and evening service have been broken and the last services bring anticipation of the greatest audiences of the entire meeting, stated Mr. Rawlings.

The earliest known lighthouses were beacon fires in towers erected in lower Egypt several hundred years before Christ.

The first lighthouse in the United States, a tall masonry tower, was built at the entrance to Boston harbor in 1716.

Formation of the Coast Guard in 1915 involved the merger of the Life-Saving Service and the Revenue Cutter Service.

Truck Blaze Tuesday At Holdeman Motor

A truck parked in the Holdeman Motor Co. shop caught fire in some unexplainable manner Tuesday morning and caused quite a bit of excitement before the blaze was extinguished. The fire started from the gasoline tank, although no one was near

the truck at the time. Employees shoved the truck outside and had the blaze nearly extinguished when the fire department arrived. No damage was done to the truck except some paint burned off.

It is estimated that prehistoric men had an average life of about 18 years.

Crowd at Perryton Lumber Shop Opening

Formal opening of the new Perryton Lumber Co. office building was attended by over 600 visitors on opening day last Saturday. With 450 persons trying for prizes given away by the company as a feature of the opening.

Contests were held, one a guessing contest and the other a board guessing contest. Clarence Morris of Perryton won first prize in the nail guessing contest, naming 3,247 in the glass jar, a very close guess, since there were actually 3,243 nails. She received a prize for two complete

Gaines of Tulsa, Okla., named 3,250 nails and received a prize, five gallons of house paint and one gallon of trim paint.

In the board guessing contest, a three-way tie, with 47 feet. There were

46.83 feet. These three persons drew for the prizes.

Frank Williams of Gray won the polished plate glass mirror, Willie Jones of Perryton and Mrs. T. W. Gray of Gray won Rembrandt three-way floor lamps.

Coffee and cake was served to the visitors and the interior of the building was decked with congratulatory flowers from local business firms and individuals.

In the early days of poker-playing in the United States, three of a kind were ranked above a straight.

Jumping beans come from Mexico.

CARD OF THANKS

I wish to express my appreciation to my many friends for the beautiful flowers, cards and visits while I was ill. They helped so much to make my hospital stay more pleasant. I also wish to thank the doctors and nurses of the Perryton Hospital for their kindness.

Mrs. W. L. Wermse

HE HAS TWO 62s—Ben Hogan, the pint sized Texas top pro golfer, has posted two scores of 62 for 18 holes, which ties the best mark ever posted over that distance. He is the only big time golfer to post two such marks.

Borger Man Opens Hotel Barber Shop

Press Kromer, formerly of Borger, announces the opening of the Hotel Barber Shop, located just off the lobby in the Perryton Hotel. The shop opened for business last Thursday.

Kromer is an experienced barber, having been in the trade since 1919. He formerly owned shops in Pampa and Borger.

He was commander of the American Legion post in Borger during the past year, resigning that office when he moved to Perryton. Kromer is also a member of the Lions Club and Elks.

He is married and has two sons, Preston and John. At present, Mrs. Kromer and the boys are remaining in Borger until housing accommodations can be located in Perryton.

The shop is furnished with completely new equipment from the ground up. There are three chairs and the shop is equipped for three barbers, although Kromer is operating the business alone at present.

A cordial invitation is extended to come in and get acquainted with the new shop and owner.

The pocket-gopher is a rat-like rodent, found chiefly in North America, so named because of large cheek-pouches.

The onion was one of the earliest plants cultivated and is believed to be a native of western Asia.

Services Held In Mobeetie, Plains Pioneer

Death came to W. D. Matthews, pioneer cattleman of the Plains, on March 14, just three days before his 98th birthday, at the home of his son, J. P. Matthews in Pampa. His death came following a birthday dinner which was attended by scores of relatives and friends who journeyed to Pampa for this annual affair.

He is survived by six daughters, Mrs. C. B. Trew, Perryton; Mrs. Nep Trew, Mobeetie; Mrs. W. E. Thornton, Pampa; Mrs. R. A. Flowers, Canadian; Mrs. J. W. Lea and Mrs. W. E. Lary, both of Meirose, N. M.; three sons, R. E. and C. E. McLean, and J. P., Pampa; 36 grandchildren, 69 great grandchildren and 5 great great grandchildren. His wife and two sons preceded him in death.

Funeral services were held at the First Baptist church in Mo-

bette on Tuesday afternoon, March 16.

He was born March 17, 1850 at French Camp, Mississippi and was reared on a cotton plantation. His father was a Methodist minister.

In the fall of 1905 he moved his family to Miami from Cleburne, settling on a ranch northwest of Miami, residing there until he and his wife moved to a small home in Mobeetie. It was here that Mrs. Matthews passed away, leaving him alone, and since that time he resided with his children, most of the time with his daughter, Mrs. W. E. Shorton and son J. P. Matthews both of Pampa.

Mr. Matthews, or "Grandpa" as he was affectionately known, united with the Baptist church at an early age and lived a Christian life always. He was always ready to assist his neighbors and friends. His advice and opinions were always sought and respected by his entire family.

He had been a shut-in since 1943, most of the time bedfast. He was very patient and enduring during these trying times, and maintained a cheerful outlook in spite of his condition.

He became suddenly ill on March 13 and when his children had come in Sunday to be with him on his 98th birthday celebration, he closed his eyes and went to rest.

Relatives from Perryton attending the funeral were Mr. and Mrs. C. B. Trew, Mr. and Mrs. Chas. Trew, Mr. and Mrs. Thurman Trew, Mr. and Mrs. William Flowers, Mr. and Mrs. Ellis Matthews and children, Mr. and Mrs. Leon Brown.

Friends from Perryton attending the funeral were Mr. and Mrs. Frank Gipson, Mr. and Mrs. Willis Hardy, Mrs. James Hardy, and Mr. and Mrs. Paul Hardy.

Relatives Attend Rites for Mrs. Goucher

Several relatives were in Perryton last week for the funeral services of Mrs. Eli Goucher.

They included a niece, Mrs. Fannie Lawrence, San Gabriel, Calif.; two sons, Jess and Delbert Goucher, Tolison, Ariz.; a son, Mr. and Mrs. Chas. Goucher, Evansville, Ind.; another son, Mr. and Mrs. Virgil Goucher, Hydro, Okla.

A daughter, Mrs. John How-

FOR THE RECORD—Rep. John W. Heselton (L), Mrs. Helen Coar and Rep. Christian A. Herter prepare to make a recording of a speech. Every week senators and congressmen record more than 700 speeches, right in their own studios for the folks back home. The speeches are for broadcast over radio stations in the law-makers' own districts.

lett, Farmington, N. Mex.; two daughters, Mr. and Mrs. Chas. Todd and Mr. and Mrs. Arlo Williams and Arla, Colorado Springs, Colo.; a granddaughter, Mr. and Mrs. Allen Bickford, Oklahoma City, Okla.

Florence Nightingale, English hospital reformer, was born of British parents in Florence, Italy, and was named after that city.

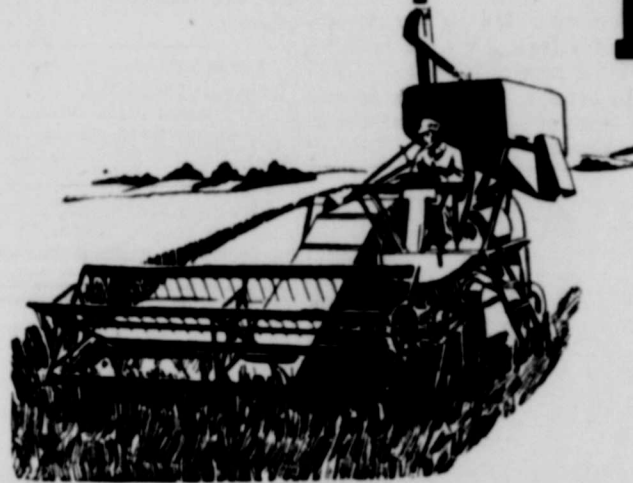

During the Revolutionary War, Americans drank tea made from brewing leaves of the ceanothus, a shrub of the buckthorn family.

Men's Night is Observed Friday By Waka PTA

"Men's Night" was observed at the Waka PTA last Friday, with guest speaker on the program Joe Erickson, manager of the

Sanford Hospital, who outlined the Blue Cross program. Homer Gurley gave several numbers on the guitar and banjo and Donald Lee Gurley of Lubbock gave a humorous reading to round out the program. Plans were made for holding the annual daily vacation Bible school this summer, with the starting date set at May 17. Refreshments were served at the close of the program.

THE PLAY'S THE THING—BBC boasts of superior programs.

LONDON DRAMA goes on air

QUITE CRICKET—a closeup.

BRITISH TELEVISION—British television, operated by the government, with set owners paying annual license fees, is on the upswing after a seven-year lapse for the war. At the turn of the year, 31,250 licensed television receivers were in the London area. There is only one transmitting station at present, but more are planned. The above shots show how the actors work inside the studios.

Joint Missionary Study at Christian Church Wednesday

A joint session of missionary study, for men and women, will be held at the Christian church on Wednesday night, March 31, Charles W. Boatman, minister, has announced. Refreshments will be served, but this will not be a regular covered dish supper, he emphasized.

The men of the congregation will furnish the program and the main speaker of the evening will be from the Juliet Fowler Home in Dallas.

It is estimated that winds of tornadoes sometimes exceed 300 miles an hour.

REALLY NOT BAD—Phil Samis who leads the American Hockey League in bad time with 153 minutes in the penalty box, says he is really just a peace-loving player and that in the rough game of hockey someone is always pushing him around and he gets mad. Thus the penalties.

School Remodeling Plans Approved

The school board, Perryton Independent School District, has approved the tentative plans for remodeling the center building of the school plant, and as soon as the architect returns the finished plans, the board will be ready to enter into a contract for the work.

It is planned to remodel the center building and construct the heating plant in the very near future.

This will be the first phase of the extensive building program approved by the patrons of the district recently when they voted a \$395,000 bond issue for the construction of a new gymnasium, auditorium, heating plant, and remodeling of the center school building.

Plan Soccer Clinic

NEW YORK AP—Anxious to assist groups interested in the budding sport, the U. S. Soccer Football Association's promotional committee has outlined a program for a soccer clinic which covers every phase of the game. Copies of the program can be obtained by writing to the U. S. S. F. A., 320 Fifth Ave., New York City.

More Owners Contract for Alley Paving

Several more business property owners have signed alley paving contracts with the City of Perryton, although no business block is completely signed up for alley paving, reports T. M. Ethridge, city superintendent.

A total of 35 lots have been signed up, and the nine out-of-town business lot owners have been contacted by mail, although no replies have been received.

It is expected that a complete block will be signed up within the next week or so. The two alleys behind Main street, between Second and Third avenues, on both sides of Main, have well over half of the owners signed up for alley paving.

New Closing Policy For Local Stores

The Retail Merchants Committee of the Chamber of Commerce has adopted a new policy regarding closing of Perryton business firms for funerals. In the past, an effort has been made to have all firms close for funerals, or none at all. It was decided Monday night to allow each firm to close or not close, at their own discretion.

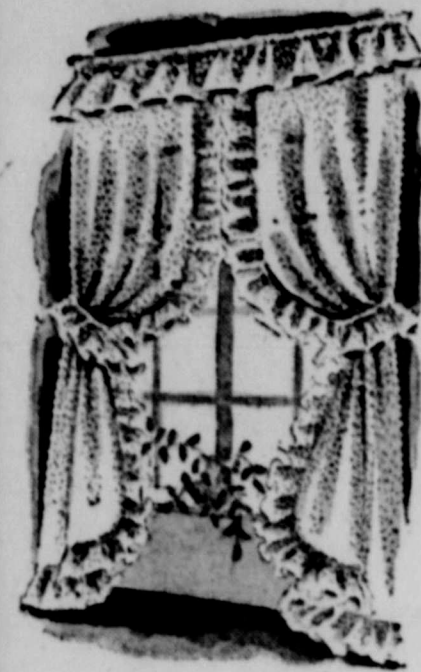

The six closing days set aside by the committee will continue to be observed, and for any exceptional occasion, the Retail Merchants Committee will work out an agreement as to general closing.
