METHODIST CHURCH
Thomas B. Sowell, Pastor

All servics Sunday at the regular hours, and we will be glad to greet every member of the church at the morning service.

Last Sunday was a day of joy and gladness and a great spiritual feast for a great audience gathered at the Portola.

Every human heart hungers for that food that only is to be found at the Throne of Grace, and roaming over a material world will not satisfy the longings of the hungry heart. It is a desire of the church to satisfy this longing and we will do our best for you.

We are having a fine growth in the great work of the Sunday school and fathers and mothers will do well to come with their children to the Sunday school.

Remember Sunday and make plans to come to the services, and we will endeavor to give you that spiritual food that will satisfy.

You are always welcome to all of our services and we are glad to have you.

Morris, and sales manager S. H. Copy.

CHRISTIAN CHURCH NOTES

The splendid crowds at all the services Sunday were very much appreciated. The only way for a church to go forward is for its local membership to be loyal to every church activity. If you are a church member and show little or no interest in its services or work don't expect the news to be filled with strangers. If your name is David you have your Goliath. Meet him like a true soldier of the cross. Sunday school next Lords day at 11 A. M., followed by the Lords Supper. At the eleven o'clock hour the Pastor will speak on the following subject, "Office Holders In The New Testament Church. We especially urge every Elder and Deacon to be present at this great service. Both Senior and Junior Christian Endeavor meet at 7 P. M. and the evening preaching service at 8 P. M. Every one is welcome to all the services. The Christian Church strives to be the church with the glad hand of welcome.

FISH FRY AT O. S. STRICKLAND HOME

Tuesday Mrs. Strickland who teaches the Ladies Bible Class at the Baptist church, invited the members of her class to come out for the day and a regular fish fry. Rev. J. F. Nix and family of Clovis were guests of honor as the Rev. Nix assisted the Stricklands in planting the fish in their tank. The ladies each brought a dish of food and the men drained the tank and caught the fish. Rev. Nix and Rev. Grizzle and W. B. Oldham were dressed in a ministers baptismal robe and gathered the fish. Rev. Nix succeeded in catching the first and also the largest one. The ladies cooked the fish and when the table was spread there was a feast fit for a king. The tank contained cat fish, some which weighed several pounds. It also contained gold fish and there were thousands of them. Each took home all the pretty gold fish he wanted.

191 Voters For Gas, 8 Oppose Franchise

In the gas franchise election on last Friday only 199 votes were polled. Of this numbr 191 voted in favor of granting the franchise, and 8 voted against it.

The results of this election means that Portales will soon be served with natural gas. Work is to start on the gas line by the 1st of July, and the company promises to be ready to turn gas in the pipes of the consumers by the first of January.

Albert T. Wood, who was in Portales on election day, assures the farmers of the Portales Valley that they will receive a pumping rate which will enable them to use gas for fuel in their irrigation pumps.

This means that the shallow water belt of the Portales Valley will develop rapidly, and many new plants will go in before the 1930 crop planting time arrives.

This section of New Mexico has been handicapped with the high cost of fuel for years, and the people as a whole will welcome the day that New Mexico gas is turned into the mains for heating of Portales houses.

E. H. Robinson Funeral Service

Funeral services for the late Elmer Homer Robinson, who died at the Baptist hospital at Clovis late Saturday evening, were held at the First Methodist church, corner Main and Seventh stheets, Monday afternoon at 3 o'clock, with the sermon by Rev. J. C. Jones, pastor of the church, assisted by Rev. Clyde Barton, pastor of Calvary Presbyterian church here, and Rev. Ted Hollifield, Waxahachie, Texas. Interment was in the Clovis cemetery.

Mr. Robinson was taken ill about 10 days preceding his death and compelled to take to his bed where his condition grew steadily worse until on last Friday evening he was taken from his home to the Baptist hospital where he died Saturday evening.

Born In Ohio

Deceased was born in Bidwell, Ohio, September 29, 1863 and moved to Texico, New Mexico, in 1905 where he taught school and later was engaged in the insurance business until the year 1909 when he came to Clovis. The Carter-Robinson Abstract company was organized in that year and opened for buisness here. Partners in this firm were Mr. Robinson and his sister-in-law, Misses Nellie and Edna Carter of Portales. Mr. Robinson has been actively in charge of the business since its organization. His first abstract was made for A. B. Wagner on March 8, 1909.

He is survived by his widow and daughters, Misses Louise, Marjory and Mary, all of whom have made their home with their parents in this city. He is also survived by a son, Roy Robinson, and a daughter, Miss Blanche, by a former marriage. A sister and two brothers live in Ohio.

A member of the Methodist church since early youth, Mr. Robinson was the organizer of a church congregation in his old home in the Ohio city. He was also a member of the Masonic lodge, Elks and Knights of Pythias.

Mrs. Robinson's parents, Mr. and Mrs. C. L. Carter, brother, Lee Carter, and two sisters, Misses Nellie and Edna Carter, reside at Portales, and a brother, Powhatan Carter lives in Roswell.

Active pallbearers were P. S. Lamison, W. L. Price, A. W. Hockenhull, John Beals, S. C. Hunter, Texico, and Harry Highfill. Honorary pallbearers were Carl Hatch, C. E. Dennis, R. E. Brown, J. H. Barry, A. J. Whiting, J. W. Wilkinson, Cash Ramey, Claude Raybourn, T. W. Stricklin, G. A. Campbell, W. W. Pipkin, Lee Hammond, Harry L. Patton and S. A. Jones.

Business Houses Close

Business houses of the city were closed from 3 to 3:30 during the services as a mark of respect to the deceased who was considered one of the honored and trustworthy citizens. Scores of friends from all sections of the county were here for the funeral.

Mr. Robinson was known to practically everyone in Clovis and Curry county. Since 1913 his office has been located at 309 Main street. The best evidence of his esteem in which he was held is given by the concern which has been manifest since the first news of his illness was learned, and thruout day and night since that time, scores of calls asking about his condition have been answered by the family and physician.

The funeral services were conducted by the Johnson Brothers Mortuary of Clovis.—Clovis News Journal.

Lea County In Line For Development

On last Sunday, Mr. and Mrs. Ezra Watts, Mr. and Mrs. S. M. Seay, Mr and Mrs Ad Hobbs, Mr. and Mrs. S B. Fletcher and J. G. Greaves attended the railroad meeting at Lovington.

This was the first visit of the News editor to Lea County, and he was surprised at the possibilities of our neighbor to the south.

Lea County has thousands of acres of level tight grass land, and with her oil field is beginning to grow and prosper.

Tatum and Lovington, are clean well kept towns and much building is going on in these towns.

At the railroad meeting, a big Barbecue was served the visitors and all were filled, after which the program of the day was carried out.

Gov. Dillon made a short talk on the future development of Lovington and Lea County.

Officials of the Texas and Pacific Railway company were there and stated that they were preparing to build in Lea County, and were well pleased by the reception which they had received from the people of Lea county.

They stated that a great development was in store for that section of New Mexico, and that it was their policy to aid in all developments in the territory which they served.

Several thousand visitors were in attendance and the day passed of very pleasantly and profitable for Lovington and Lea County.

While the T. & P. officials made no statement as to their intentions to build to Portales. they have a crew of surveyors at work running a line north from Lovington to Portales, the crew now being at work north of town.

Should this road build to Portales, it will open one of the richest agricultural districts in the state, as Lea county has a large area of shallow water lands suitable for irrigation.

With the coming of the railroad, the News predicts that Lovington will make a city of 5000 people within one year.

It is a pretty town, surrounded by a rich agricultural district, which only awaits the plow to turn it into a garden spot.

To the south and west is the Lea county oil field and a well has been brought in within ten miles of Lovington, which is producing a strong flow of gas.

This section of the state has been handicapped for the want of railway facilities, and with the laying of the steel ribbons thousands of farmers will flock to that section.

ON TRIP THROUGH EAST

Monday morning Miss Bess Dehoney, Miss Muriel Galloway, Miss Caroline Bradley and Miss Brannon left in Miss Galloway's new Ford for a trip through the East and north. They will go through New York, the New England States and Canada. They plan to be gone all summer.

With the assurance that Portales will have ample natural gas for all purposes by the 1st. of January, Portales people are setting out top of the world. This will do away with the greater part of smoke fro mthe burning coal and will be of great convenience to the residents of Portales.

A new day dawned in Portales with the granting of the gas progress, and the eight votes against, signifies that the majority of the people favor this move. Now it is up to Portales to unite as a whole and help put a family on every 5, 10 and 20 acre tract in the valley. This will mean prosperity for all.

The irigation farmer will now be able to discard the old high priced fuel for his pumping plant, and have abundance of water for his every need. There are thousands of acres now lying idle, which should be brought under irrigation.

The entire county enjoyed a good rain last week, which stores sufficient moisture to insure abundant crops. Many fields are not yet planted. On this land it is still time to put in a good acreage of cotton. Sufficient should be grown in the valley to keep both gins running night and day throughout the ginning season.

While we are feeling good over the coming of gas, do not forget your old friends, the New Mexico Utilities, who have supplied you with cheap electricity. As a fuel for cooking there is no better, and those who have electric ranges should consider long before making a change.

With the heavy rains over the state in the past week, the importance of flood control is brought before the eyes of the world. Many streams become the means of distruction, when properly harnessed, they would be of vast benefit to mankind. Not only does this apply to New Mexico, but to the nation at large. In many sections timber has been cut to the banks and the land put under the plow. Brush has filled the channels of the water ways, causing overflows. This can be remedied to a great extent by clearing and straightening out the channels, planting timber on each side. This would also prove profitable investment as this timber could be of a nut bearing kind or other commericial value. Waste of timber is largely responsible for the flood conditions in many sections

Over 70 blocks of paving and gutter are now under advisement by the city fathers. This will surely give Portales much better streets, as every block of paving put down, makes every other block just that much more serviceable.

In the past five years Portales has improved more than in the past twenty years. The 1920 census gave Portales a population of 1200. The 1930 census should give her a population of over 5000.

If you have any doubt as to Portales as a shopping center, visit the stores in Portales and see the wonderful bargains in merchandise that are being offered.

What Others Say About Us

LAST WEEKS ISSUE OF PORTALES NEWS SOME PAPER

Editor Greaves, of the Portales Valley News cluttered up the mails with a 56-page industrial edition, the largest issue of weekly newspaper ever printed in the state.

Illustrations of business buildings and industrial plants as well as pictures of county and city officers and merchants, with suitable write-ups made the edition one of interest.

Editor Greaves is giving the people of Portales a good newspaper and the patronage he receives proves his business men are aware of the merits of the News.—Tucumcari News.

What is said to be the largest country weekly newspaper ever published in the state was that of the Portales Valley News of May 16. The edition consisted of 56 seven column pages in six sections and was devoted to the industries of Portales and Roosevelt county. A large number of well-printed half-tones and well displayed ads, together with a world of interesting reading matter made up the context. It is said that if the sheets of paper in this edition were laid end to end they would reach sixty-five miles. J. G. Greaves editor and owner of the News, should certainly feel proud of this edition.—Publishers Auxillary, Chicago.

Editor J. G. Graves surely covered himself and his city with glory, last week, when, with the co-operation of the business men and citizens of Portales and Roosevelt County, he got out a fifty-six page edition of the Portales Valley News. It being a big undertaking for a country print shop and could not have been done a few years ago. The edition was the largest paper ever published by a country weekly in New Mexico and every page and paragraph was a boost for Roosevelt County and the progressive citizens whose faith in their country has demonstrated its marvelous possibilities so cinvincingly. The world will learn much that it did not know about that section from this splendid issue and Editor Greaves is due the hearty commendation of the people for putting over the project so successfully.—Southwest Plainsman, Amarillo, Texas.

The Portales Valley News is a good weekly newspaper, one of the best in the state. It recently demonstrated its ability to serve its community by publishing a fifty-six page edition. The size was not the important thing, although that showed that hard work was necessary, but the quality proved the newspaper ability of Editor Greaves. and his staff. It is to be noted that one section of twelve pages was devoted to the Joyce-Pruit Co., which has a fine store at Portales. —Roswell Record.

Not only is Portales a good shopping town, but when it comes to the marketing of farm products, Portales leads. The Cream and egg shipments which go out each week, are adding many thousands of dollars to the resources of the farmers of Roosevelt county.

Now that the public schools have closed for the term, there are many students who will return to the farm and do their bit to produce the necessities of life. School is a fine institution, but the student who goes out with a clear conception as o his or her duties as a producer, has failed to get the best from their schooling. It is the boy or girl of today that will make the man and woman of tomorrow. It is they who will direct the affairs of the nation. The News trusts that they all have the proper vision of life and that all will take part in the world as producers—and not as loafers.

RESOLUTIONS OF SYMPATHY

"Like shuttles thru the loom so swiftly glide our feathered hours."

We are reminded of the above lines by the passing away of one of the links in our star's golden chain, brother Jim B. Crawford who while nestling seemingly secure admist the loving, tender care of his surroundings, and with no thought of a shadow so soon to hover over the home. Finishes life's wearisome journey and answered to the last call on the afternoon of May 9, 1929.

Out beyond the sunset, across the great divide, a gentle start has ended his lonely voyage, and anchored on the fair shore,

He will come no more, but we will wait a little while, you and I, and with our sails of hope and faith we too, shall take up this journey and sail the unknown sea, where the chain will be welded anew again by His grace. Where as the Devine Providence in his infinite wisdom has deemed it best to come into our circle and take from us a faithful member, and from the home a devoted husband and father.

Therefore be it resolved; That the Chapter has lost one of its most loyal faithful members.

That while we are grieved at the going away of one of our brothers, we must bow in humble submission to the will of Devine Providence. That his life influence as we labored together in our fraternal work has been an inspiration to us, and may his mantle fall on some one who will carry on the work he loved.

That we extend to the sorrowing wife, daughters and relatives our heartfelt sympathy.

That a copy of these resolutions be spread on the minutes of our chapter, a copy sent to the family and one to each news paper.

Respectfully submitted,
Mrs. Alva Seay,
Mrs. Margaret Hancock.
Mr. Ed J. Neer.

PORTALES EDITOR VISITS METROPOLIS THIS MORNING

Editor J. G. Greaves of the Portales Valley News, was a visitor at the News-Journal office for a few hours between stages this morning enroute to Amarillo where he goes to consult a foot specialist —and he needn't blame that defect on Mrs. Greaves' rolling pin, either.

Mr. Greaves put out a 56-page edition of his paper last week and the effort was so stupendous that this week he turned the sheet over to the high school journalism class which put out a 12-page paper.

Portales is prosperous, the Portales Valley is prosperous, and everyone down there is ha cording to the editor, and is carrying on a building that would be a credit Clovis—Clovis News, Journa

Ford or DISAPPOINTMENT.

The Highways are thick with Fords. Getting thicker every day. It you get on highway and start any place better drive Ford or a car costing about $2,000.00 or you will be a wiser man when you return. You will most likely be "Ford Sold." Every few minutes they will come up from behind, "dust you off and scat on by." To save money and disappointment too "Buy A Ford."

Their performance is astounding. The way it stands up under rough use is a MIRACLE. With ordinary care a Ford will last years and years, with no cost for repairs and the model won't change every year.

"HURRY WITH THE SERVICE CAR
THE OIL BROKE DOWN"
DON'T LET THIS HAPPEN TO YOU

STRANDED five miles from nowhere because the oil wouldn't do its job! Has that happened to you? If it has, the chances are that you were not *particular* the last time you had the crankcase drained — or perhaps you ran too long without changing the oil. This will be a slack summer for service cars if motorists will remember two things: first, to change oil regularly, and secondly, to use only a brand of oil which they know from their own experience or the experience of others will stand up under the most trying conditions of motor operation.

You can depend upon any oil which has the backing of the Continental Oil Company. These are the brands which have been tried and tested — in the laboratory and on the road. They lubricate thoroughly, protect every moving part and stand up under intense heat.

Ask for these brands at leading service stations and garages.

Years of service in MODEL T FORDS

THE Model T was so strongly and sturdily built that it is still rendering reliable, economical service to motorists in every section of the country. Millions of these cars can be put in shape for two, three and five more years of use at very small cost.

So that you may have this work done economically and satisfactorily, the Ford Motor Company is still devoting a considerable section of its plants to the manufacture of Model T parts. It will continue to do so as long as they are needed by Model T owners. The following list gives the approximate labor charges for reconditioning the Model T Ford:—

Engine

Tune motor (including replacement of commutator case, brush and vibrator points if necessary)	$1.00
Grind valves and clean carbon	$3.75 to 4.00
Overhaul carburetor	1.50
Reline detachable car transmission bands	1.50
Install new pistons or connecting rods	6.00
Tighten all main bearings	6.00
Overhaul motor and transmission	$20.00 to 25.00

Rear System

Replace rear axle assembly	2.50
Install universal joint	3.00
Reline brake shoes	1.50
Replace rear axle shaft, drive shaft pinion, or drive gear	5.00
Overhaul complete rear axle assembly	$5.75 to 7.00
Rebush spring and perches	1.75
Oil and graphite springs	3.00

Front System

Overhaul front axle	$4.00 to 5.00
Rebush spindle bodies and arms (both sides)	2.50
Replace or straighten spindle connecting rod	.75
Tighten radius rod or steering ball cap	.60
Tighten all sockets and joints of front end	1.50
Replace front spring tie bolt or new leaf	2.50
Straighten front axle	3.00

Chassis

Replace rear fender	1.75

These prices are approximate and are for labor only, because the need and number of new parts depend on the condition of each car. The charge for these parts is low, however, because of the established Ford policy of manufacturing and selling at a small margin of profit.

WHAT KIND OF PICTURES IS THE LIBRARY PUTTING IN YOUR CHILD'S HEAD

3,664 books have been read by 400 students in the last nine months.

48 Students have read 20 or more novels during this time. 43 have read none.

Junior high school students have probably read more than senior high school students.

These are the approximate figures which a study of the individual record cards of the student and future conduct? There kind of pictures or ideals is all of this reading putting into the adolscent, forming mind, and how will these ideals affect their present and future conduct? Theer will be results; hence the parent should be and is justified in knowing what kind of reading a school library has to offer the student.

This packet of well worn, thumbed-over student record cards tells many secrets, and like all secrets that are not kept this is "letting the cat out of the bag."

But did you know that the seniors have been so busy this year that 12 of them did not find time to read a single book, at east their record does not show it, while the average for the class was approximately 6 books each. Only three sophomores and four juniors were so busy. But the average for each of these classes is about two more books per student. The junior class did most "balanced" reading of any class in high, or junior high school.

The Freshmen, what did they do? Nine of them failed to read a library book, although the average for the class was better than 8 books each. One freshman, an A student read over twenty novels.

Possibility of Error

The possibility of error in the records is slight. Considering the number of books the librarians, all students checked in and out, they made a very small percentage of errors. A second possibility is that all books checked out were not read. For example, many students would check out a book, look it over and maybe start reading it and turn it in without finishing it. The junior high school student is more inclined to do this than the senior high student. But making allowances for these un-read books, the average for each class would probably be the same, so the percentages would not be greatly affected.

And even those books that were not read were selected from. In other words, the total books the student checked out, if he did not read them all, was the field from which he selected his reading.

Magazines and Reference Work

Novels have not been the only thing read by the students this year. Besides fiction, the library has many reference books on history, English, science etc. It also receives more than twenty of the best American magazines, two daily newspapers, and the two local papers. All of these have enjoyed a wide circulation. Special reports and "current event" lessons have been obtained from them. Frequently magazines have been checked out and taken home at night for "dad to read." Scientific magazines are very popular reading.

Few papers have been read by as many readers as have the daily and local papers which have been kept on the files of the library.

Besides these books and magazines in the general library, the domestic science, commercial, agricultural and manual training departments have received "professional" magazines which have been kept in these respective departments.

What Lessons From All This?

Since any erading puts picture's, ideals into a childs head, or perhaps not the right sort of ideals, we should carefully select their reading material. The library would like to encourage more reading of good biography, history and science. A student who reads 20 or more novels in a school year is, perhaps, over reading and getting into a one sided education. A study of the relation between scholastic standing and the reading habits as revealed by these records might well be used to fix a limit for reading. For example, a student who is failing in his school work certainly should not be allowed to read as many novels as an A student.

The records of a few noticeable cases indicate that two or three students who dropped out of school or with drawn by parents who did not think "Johnny was doing any good in his books' failed because they were reading novels instead of preparing their school work. This is lamentable, and preventable. These records should be used by parent and teacher in guiding and helping a student to get from school what he ought to get.

At the meeting held by the East Valley View Club plans were completed for the house dress contest and style show to be held Wednesday, June 12th, this meeting the dresses will be scored by members from other clubs and the dresses will then be worn by the maker and judged for attractiveness, style and becomingness to wearer.

Even though the skies looked threatening (the agent drove thru three showers) a most fruitful meeting of the girls and women of Perry, in the Tolar section of the county, was held on Monday of last week. Before lunch a demonstration on salads was given by the agent. Then afternoon the girls and women organized clubs to carry on regular programs. At the next meeting to be held Friday, May 31st, a miscellaneous program of work will be planned.

The agent has left her note book at a meeting place or someone's home. It is most important so any information about it will be appreciated.

Several have signified their intention to go to Farm Women's Camp at Ruidoso June 24th, but we have a quota of ten for the county. Cannot more of the Club members or leaders of the girls' clubs make an effort to go. It will be well worth it.

The Floyd Willing Workers met Friday May 24th at the school building with an all day meeting. Miss Wetzel gave a demonstration on the cooking of vegetables, in the morning. The business meeting was held in the afternoon with Mrs. Geo. Sweat acting as chairman. Each member will pay a monthly membership fee of 10 cents to give the treasury a sum to work on. The next meeting will be in three weeks on Friday, June 14th, at the school building with an all day meeting, the ladies bringing a dish for the noon lunch.

Mrs. Mark Tolliver, Sec.

The sweepstake prize in the apron contest held throughout the country was won by Mrs. Stovall of Arch. The following were prize winners in the various communities. Portales, Mrs. Fisher, Arch Mrs. Stovall with Mrs. Hamlin Hill a close second, Rogers, Mrs. Wilhite East Valley View, Mrs. W. A. Stroup with Mrs. Leslie Smith a close second, Floyd, Mrs. L. H. Heckathorn, Mrs. Catt of Portales, Mrs. Fredric of Floyd and Mrs. Dacus of Arch deserved honorable mention.

The past two weeks have had threatening weather. It has not rained enough to postpone any meeting but at several in the late afternoon storm clouds rolled up. At the first peal of thunder it was "Oh, my chickens" or my turkeys" and in five minutes not a soul was about but the agent.

Thursday, May 23, was a whole week for the agent. For that day she was hostess for the Arch club and the women sewed for her, doing 49 hours of work, six eight hour days. The work ranged from shortening sleeves to finishing dresses and making club exhibits. Over 20 articles were worked on. The agent is 100 per cent for the hostess business. In the morning the regular program was carried out, the demonstration on vegetable cooking being given.

"Our country's future depends upon and is in keeping of the coming generation. Every child sound in body, mind and spirit, surely this is a lofty national goal." Arthur M. Hyde, secretary of agriculture.

The Arch 4-H Sewing Club had meetings on the 9th and 23rd of May. At the first meeting only 6 were present. Our leader, Mrs. Poe, was present; at the next regular meeting all the members were here. Our leader and Miss Wetzel were with us this time. The first year girls hemmed their towels and the 3rd year girls made their darned patches.

The 3 clubs canning, baking and sewing met at the Floyd Home Economics Room Friday, May 24th, on account of the rain only ten girls came. The leaders, Mrs. Jones and Mrs. Wilson were present. In the morning the girls attended Miss Wetzel's demonstration on vegetable cookery given for the women's club and in the afternoon worked on their sewing project. In the business meeting it was decided to have the club picnic at the home of Mrs. Price on Monday June 3rd. All of the girls and their mothers are invited to come to spend the day. Each one bring a dish for the dinner.

At the home of Mrs. Stroud local leader of Richland the girls met to begin their club work. 6 members started the sewing work and 3 will do the canning. Lucille Stroud was chosen president, Bonnie Helmar, vice president and Ethel Vick, Secretary. After the meeting Mrs. Stroud and Lucille and Johnnie Stroud served lovely refreshments of cake and cocoa.

The Perry girls organized to do the Sewing Club work. Details will be put in next Week's column.
