AFL Machinists At Yards Close Extended Strike

Workers Will Return To Jobs Monday; CIO Men And Officials To Meet

By The Associated Press

AFL machinists announced Thursday the end of their 47-day strike at 11 San Francisco Bay shipyards.

Important defense orders aggregating \$500,000,000 have been delayed by the walkout of 1,200 AFL machinists and of 600 affiliated with the CIO.

At a meeting in San Francisco, the AFL men voted to return to work Monday, negotiating their contract later. Meanwhile, they were assured of protection under terms of a master contract negotiated by the AFL metal trades council with all 39 major Pacific Coast shipyards. The striking machinists, after their walkout, had withdrawn from the trades council, but they received assurance from the Office of Production Management in Washington of protection under terms of the master contract.

Meanwhile the CIO strikers prepared to meet to reconsider their position. James Smith, business agent for the CIO local, sat in on the AFL meeting and said he would have a definite recommendation to make to the members of his union. Recently, Mr. Smith has opposed back-to-work plans.

Wages were one of the big issues in the strike. The machinists who had been getting \$1 an hour and double time for overtime, struck for \$1.15 and continuation of the double overtime. The master contract provides for \$1.12 and time and one-half for extra hours.

Clear across the continent, a strike threat hung over New York City's municipally operated subway system, which carries more than 1,800,000 passengers annually.

U. S. And Mexico Make Plans For Economic Pact

By Lloyd Lehrbas

WASHINGTON (AP)—The United States and Mexico have virtually concluded negotiations of an economic defense pact under which Mexico will prohibit exports of vital war materials to countries outside the Western Hemisphere and the United States will purchase from her millions of dollars worth of strategic supplies needed for defense production.

Informed officials said Thursday the pact would be signed and full details announced as quickly as final decisions were reached on prices and delivery schedules for the supplies involved.

None of the Mexican products involved in the deal was disclosed, but Mexico produces considerable lead, zinc, copper, antimony, cadmium, molybdenum, mercury, graphite, henequen and other fibers—all basic materials in the production of military supplies.

Buyer Is In Mexico

A similar economic pact was recently concluded with Brazil. In Brazil, it was explained, buyers for American manufacturers will have first call on the raw materials desired, and then representatives of the government-owned Metals Reserve Company, Rubber Reserve Company, or Defense Supplies Corporation, will purchase any surplus at a guaranteed price.

A buyer for the government-owned corporations is already in Mexico, it was learned, prepared to follow the same procedure in purchasing Mexican materials, upon conclusion of the pact.

Coordinator Asks Best Performance

WASHINGTON (AP)—Maximum performance "such as only an emergency develops" was called for in a message to the American oil tanker fleet by Interior Secretary Ickes Thursday, to help ease the predicted petroleum scarcity on the Atlantic seaboard.

Ickes, who is defense petroleum coordinator, telegraphed the fleet operating heads that "it is apparent that the utilization of these facilities falls short of emergency maximum." He suggested better planning and coordination of transportation requirements.

Ickes also moved to "freeze" existing relationships between oil supplying companies and commercial outlets to prevent petroleum distribution "maladjustments" in the East. Ralph K. Davies, deputy coordinator, said the action was taken to prevent repetition of instances in which some supplying companies, faced by an impending shortage, declined to fill the needs of some customers.

Behind The Headlines

By Fred Vanderschmidt.

Assaulted by one aggressor and "protected" by another over the span of a year and a half, Finland becomes, perhaps, the grimmest small nation tragedy of a war replete with the cynical subjection of the little countries.

Even the Finns in Russian prisons may now get a chance to fight for the liberation of their twice-ravaged country, but the Finns, if they fight today, fight not for themselves or their homes. They fight for Germany, their "protector."

Finland calls her present hostilities with Russia measures of defense and the Germans say, "Finland has declared war," but this makes no real difference, for Finland has had no choice at all since Adolf Hitler told the world Sunday morning: "United with their Finnish comrades, the fighters of the victory of Narvik are standing in the northern Arctic. . . . German divisions commanded by the conqueror of Norway, in cooperation with the heroes of Finnish freedom under their marshal, are protecting Finnish soil."

Finns May Attack Leningrad. What this kind of protection is worth has been stated long ago by Hitler in Mein Kampf: "We are not protective police for the well-known 'poor little nations,' but soldiers of our own nation."

Finland, therefore, can have few illusions about getting back with German aid the soil which Russia snatched by the peace of 1940; nor can she hope to rebuild her sovereignty or her independent economy under the "protecting" heel of the Nazi army, which, once planted on any soil, can be lifted only by force.

At the start of the Russian conflict it appeared that Hitler's primary place for Finland was one of immobilization or distraction of large Russian air forces; now, as the course of the German panzer columns and the resistance of the Red Army takes form, it seems possible the Finns may be forced to join the Germans in a march on Leningrad, across the Karelian Peninsula, and on the nearby Soviet naval base of Kronstadt. In any event, the Russians are devoting no small part of their air power to widespread raids on Finnish objectives, raids reminiscent of the days in the very near past when the Peninsula was an actual battlefield.

Rotarians Describe International Meet

Four Midland Rotarians, inspired by the recent Rotary International convention, told the Midland Rotary club Thursday of the advantages of the organization and its ideals. The speakers were John P. Howe, Percy Bridgewater, Fred Wempe, and Ily Pratt, club secretary.

It was the first international convention for Howe and he was impressed by the work of the organization.

Bridgewater, explained that Rotary International is trying, with its ideals, to make a better world in which to live. He told of the inspirational addresses and asserted the ideals of Rotary should be carried by Rotarians to their fellowmen.

"If you don't put something in Rotary, you won't get anything out of it," Bridgewater asserted.

"Extremely Democratic." The former district governor and past president of the club, pointed out that Rotary is extremely democratic and told of the work it is doing.

"I'm a better, Texan, a better neighbor and a better Rotarian for having attended the convention," Pratt said. "I have a deeper appreciation for the vision of men and for their cooperation with God to develop our world."

He said speakers at the convention emphasized the need for individual effort on the part of all men—"each must do his part."

Rotarians voted to arrange a joint meeting with the Lions Club next Wednesday, because of the Fourth of July holiday.

James T. Smith urged Rotarians to vote in the special senatorial election Saturday and called attention to the Junior Chamber of Commerce's "Get Out The Vote" campaign.

British Make Gains In Syrian Advance

CAIRO, Egypt (AP)—British forces in Syria have made "substantial gains" west of Damascus "in the face of increased resistance," the British command reported Thursday.

Positions captured yesterday in the region of Merjayoun, southern Syria, are being consolidated, the daily communiqué said, while British land guns and guns of the British fleet off the coast are cooperating in supporting the British drive toward Beirut.

Britain Will Ask Soviet Guarantee Of War To Finish

Democracies Want Assurances Against Separate Red Treaty

By The Associated Press

LONDON (AP).—Reports circulated in London Thursday night that Soviet Russia would be asked to subscribe to an inter-allied agreement against concluding a separate peace with Germany before the end of the war.

Informed sources, however, asserted that a formal British-Soviet alliance probably would be a necessary prerequisite and declared there was no indication that any treaty of alliance was being considered at the moment.

"No one knows whether there eventually will be one," they added. They conceded, however, that both Britain and the United States probably would welcome Russian assistance against a separate peace as a condition for sending material aid which might fall to the Germans if the Russians capitulated.

Speeding her effort to aid Russia, Great Britain was reported to have started a military, naval and air mission on its way to Moscow from the Middle East.

Negotiations, meanwhile, were said to be going on in London to free 300,000 Polish soldiers who are prisoners in Soviet Russia to fight against the Germans.

British Air Force Throws Might At German Targets

LONDON (AP)—Britain's RAF reported the destruction of nine more German fighter planes over the channel and Northern France Thursday when it returned there for another shattering raid to reinforce its mastery of the daylight skies in that area. Three British fighters were missing.

Only a few hours after the RAF wound up the greatest 24-hour offensive it has yet attempted—a continuous assault in which 400 to 500 planes were said to have participated—the roar of aircraft could be heard along the South coast as planes rained across the channel to hammer Nazi-occupied territories again.

The sky was overcast and mist shrouded the French coast but prolonged explosions could be heard in the distance and later the planes could be seen winging home.

Wednesday's raid culminated in another smashing air attack on Western Germany. The short summer nights were said to be forcing the RAF to concentrate on Western Germany but when the nights lengthen they expect to reach out to the virtually untouched Eastern sector.

Bremen and Kiel were the main objectives.

Midland To Issue \$30,000 Warrants

The Midland city council voted Wednesday to issue \$30,000 in warrants for the Panhandle Construction Company as part of a waterworks improvement project now in operation.

The council will make investigations and recommendations concerning establishment of trailer camps in Midland when construction workers come here in connection with the building of the U. S. Army Air Corps Advanced Training Engine and Bomber Training Center.

The city will not establish trailer camps but will co-operate in furnishing water and sewer connections, and maintain sanitary conditions for these camps.

Garrison At Tobruk Gains Against Axis

CAIRO, Egypt (AP)—Britain's besieged garrison at Tobruk, Libya, Wednesday made strong, new gains against the Axis front "and thereby by considerably strengthened our own position in this sector," the British Middle East command reported Thursday.

This sign of new British offensive strength on the Western Desert was coupled with claims of gains also in East Africa and what the communiqué called progressive "disintegration" of Fascist forces in Ethiopia.

British mopping-up operations were said to be nearing completion in the Jimma sector and "bulk desertions" of Italy's African soldiers were reported south of Soddu.

Germans Attack Along Polish-Russian Frontier

Attacking German soldiers run along a railway track as smoke billows from a Russian-Polish village. During early attacks on Russian positions German forces are said to have used the dreaded flame throwers to burn out their enemies. (NEA Radio-Photo.)

Magnolia No. 1 Bowman In Abell Pool Gauges 1,904 Barrels Per Day

By Frank Gardner Oil Editor.

Magnolia Petroleum Company No. 1 Bowman established itself as one of the largest producers in the Abell Ordovician pool of Northern Peos County as well as proving a one-third mile southeast extension by flowing a rated potential of 1,904.32 barrels of 43.8-gravity oil per day.

Gauge was taken through one-half inch choke on 2-inch tubing. The well flowed 254.27 barrels the first three hours and 238.04 the second three hours of a six-hour gauge. The latter period was employed as basis for computation of potential. Production is natural and from Simpson, middle Ordovician, sand between 5,170 and 5,180 feet, the total depth. No. 1 Bowman has a gas-oil ratio of 888-1. It is located in the north corner of the south-west half of the north quarter of section 5, block 3, H&T.C. survey.

A 40,000-cubic foot gasser for the pool was registered in Magnolia No. 2 State-Baldwin, 660 feet out of the southwest corner of lot 6, section 24, block 9, H&G.N. survey. The well is producing from the Sharp sand of the lower Simpson. It was dry in the Ellenburger, lower Ordovician and was plugged back 6,745 feet from total depth of 6,147.

Comry Permian Pool.

Opening a new Permian lime pool some miles east of Abell production, Stanolind No. 1 Comry-Davis Unit still is shut down at plugged-back depth of 3,815 feet, with 1,500 feet of oil in the hole. Seven-inch casing was perforated from 3,710 to 3,810 feet with 200 shots instead of 100 shots, as originally reported.

A second producer for this new pool appeared in Stanolind No. 1 Meyer-Logan Unit, one-quarter mile north of No. 1 Comry-Davis. On 30-minute drillstem test from 3,720-47 feet, total depth, it blew 970,000 cubic feet of gas and recovered 420 feet of oil with an additional 30 feet of oil-cut mud. Owner is preparing to run 5 1/2-inch casing and complete.

Amerada Petroleum Corporation No. 1-Ra-Ra, seeking Ordovician production in Southeastern Reagan County, is drilling unchanged at 7,681 feet in sandy lime and shale.

Owmy Offsets Staked.

Sinclair-Prairie Oil Company has staked No. 1 G. E. Grainger as a north offset to George P. Livermore, Inc. No. 1 Ernest Ownby, discovery producer of the one-well Ownby area three miles northeast of the Waples-Platter area in Southeastern Yoakum County. The new test is 330 feet out of the southeast corner of section 487, block D, J. H. Gibson survey.

One mile farther west, Sam G. Dunn No. 1 R. L. Moore had drilled to 5,280 feet in lime.

Indicating opening of a new pool in Western Terry County, The Texas Company No. 1 S. T. Murphy was reacidized with 3,000 gallons of second stage. It was swabbed in pit for 12 hours, recovering an estimated 150 barrels of fluid, one-half oil and one-half sediment and water.

At the end of the time it had 1,090 feet of fluid in the hole. The well then was swabbed in tanks for eight hours, lowering fluid to 790 feet and recovering 36 barrels of oil and 33 of water. Swabbing in pit has been resumed and last shakeout showed dilution of 18 per cent water and seven per cent sediment.

Amon G. Carter No. 4-D A. L. Wasson, deep test on the Northwest-Gaines County side of the Wasson field, is reported swabbing sul-

Nazis Use Million Men Against Russians

NE WYORK (AP).—A British broadcaster quoted a German spokesman Thursday as saying the Nazis have thrown a million men and more planes than were used in the battle of France against Soviet Russia.

British Forces Drive 50 Miles Past Damascus

VICHY (AP).—The French acknowledged Thursday night British forces in Syria have driven about 50 miles north of Damascus and Nebek and roughly halfway to the important railroad and desert bus route junction of Homs.

Pope Calls For Sacrifice To Escape Paganism

VATICAN CITY (AP).—Pope Pius XII called Thursday for "self-sacrifice" to escape the flood of "paganism sweeping over peoples today" when he made a 15-minute radio speech to the closing session of the National Eucharistic Congress at St. Paul, Minn.

Johnson States Election Offers Test Of Loyalty

By The Associated Press

Despite the personalities being bandied about among the four major Texas senatorial candidates, with the election but two days off there is no sign of any material variation in the serenade with which they woo the voter—the necessity of National Defense and the desirability of increasing old-age pensions.

The candidates differ as to means and the qualifications needed to carry out the issues. Yet broadly speaking, the points of disagreement are minor. For the most part, their publicly expressed opinions coincide as to what should be done.

Talks of the candidates Wednesday night, while perhaps pitched in a somewhat higher key due to nearness of the election, followed closely the themes set at the outset of the campaign.

Congressman Lyndon Johnson, who is credited with being President Roosevelt's senatorial choice, told an audience in Dallas' Fair Park the election will afford a test of loyalty to the national administration.

Dies At Nacogdoches

"Your President awaits the answer," he declared. "Your Senate awaits the answer. Berlin awaits the answer. Winston Churchill awaits the answer. The Lindberghs, the Wheelers, the Nyes, who preach the gospel of new leadership and new policy, await the answer. Wendell Wilkie awaits the answer. The \$21-a-month draft boys await the answer. The naval pilot training out over the ocean tonight awaits your answer."

At Nacogdoches Congressman Martin Dies, chairman of the House committee on un-American activities, said if he was elected to the Senate he would demand that disloyal naturalized Americans be deported after revocation of their citizenship.

"If the government three years ago," he continued, "had listened to my plea to expel the Fifth Columnists from our defense industries we would not today be having the strikes and shutdowns and sabotage of our industries."

Attorney General Gerald C. Mann devoted much of a talk at Corpus Christi to replying to Johnson's charge that he had sought CIO sup-

Jaycee Vote Drive Stirs Interest In Midland Citizenry

Interest in Midland in the special election Saturday to elect a U. S. Senator picked up Thursday as citizens read signs on sidewalks and in public places urging them to vote.

The signs are a part of the Junior Chamber of Commerce's "get out the vote campaign." The motto of the organization is "Vote for Whom You Wish, But Vote."

Voting places and election judges were announced. They are: precinct one, Midland County courthouse basement, Mrs. Gladys Tolbert; precinct two, Stokes school house, C. Flowers; precinct three, Stephenson school house, Jay Franklin; precinct four, Warfield school house, W. M. Stewart; and precinct five, Midland, old Presbyterian Church on West Wall St., J. H. Howell. Election hours are 8 a.m. to 7 p.m.

Twenty-eight absentee ballots were cast here, Susie G. Noble, county clerk, said and officials predicted 1,000 votes would be cast Saturday. Others ventured guesses of as high as 1,500 out of the 1,982 eligible voters.

U. S. Will Freeze Tire-Tube Prices

WASHINGTON (AP)—Leon Henderson, price administrator, announced Thursday both wholesale and retail prices of automobile tires and tubes would be frozen at the levels prevailing June 16.

Henderson said that conferences with the tire industry would be held within the next few days to smooth out certain details of the proposed schedule, which is expected to be ordered next week.

An advance announcement of the pending move was decided upon, Henderson said, to advise the trade as to what to expect and to avert any price changes before the schedule is issued.

Sweeping government action to fix mandatory price levels, meanwhile, appeared imminent as a result of two refusals in industry to curb price increases.

The two refusals, as announced by Henderson, were from Chrysler Corporation and a segment of the furniture manufacturing industry.

Russians Reform Large Front Line

Soviet Reports Force Holds At Vilna And Soldiers Recapture Polish Border Town; Charges Finland With Treaty Violation

By The Associated Press

The Red Army was reported in Russian military dispatches Thursday to be enveloping the thrusts of Germany's mechanized armies and if ultimately successful the tactic will be the first checkmate ever found for the panzer infiltration.

By the Russian account, masses of Red troops, thrown into the breach after passage of German tanks in their drive toward Vilna, Lithuania, reformed the front, leaving the tanks to be disposed of in rearward action.

The French tried it a little more than a year ago and it didn't work.

Burglars Enter Two Firms And Take \$100 Cash

Two Midland business firms—J. C. Penney Company and Rockwall Lumber Company—were entered Wednesday night, approximately \$100 in cash being taken from the Penney store. Rockwall reported no loss of merchandise or cash.

A front window, above the awning, was forced at Penney's. The money was taken from a box in the office which is on a balcony. The burglars rifled the office and opened the back door with keys obtained in the building. An undetermined amount of merchandise was taken, store officials said.

Entrance to the lumber company's office was gained by removing a glass panel and unlocking a side door. A safe was opened and a strong box rifled but no money taken. The firm does not keep its receipts in the safe. Papers on desks in the office were scattered and the office disturbed. An employee discovered the entry when the office was opened for business Thursday.

City and county officers are working on the cases. No arrests were reported Thursday.

Midland Oil Men Make Nominations For Ickes Group

Independent oil operators of Midland Thursday made nominations for positions on the regional committees being formed to represent the industry in cooperation with Federal Petroleum Coordinator Harold L. Ickes.

O. C. Harper and P. F. Brown, both of Midland, were recommended for places on the production committee; Brown and D. R. Zachary of Dallas were nominated for the transportation committee; R. L. Tollett of Big Spring for the refining committee, and Neal Prichard of Colorado City for the marketing committee.

The operators also seconded the nomination, by New Mexico operators, of Van Welch of Artesia, N. M., for the production committee.

A telegram listing the nominees was sent to Ickes by James FitzGerald, Jr., chairman of the independent operators committee here.

The region, which includes Midland, takes in Texas, New Mexico, Louisiana, Arkansas, Mississippi and Alabama. It will be served by four committees representing the producing, refining, marketing and transportation branches of the industry. Each committee will have 12 members.

Russian Raiders Continue Attacks

HELSINKI, Finland (AP)—Soviet air raiders kept up devastating raids on Finland Thursday inflicting death and destruction over a wide area of the country.

Heaviest hit, apparently was the Gulf of Bothnia port of Turku, in Southwest Finland, which was raided 10 times Wednesday night alone. Many were killed and wounded there and damage was heavy.

German reports said Turku had been bombed again Thursday and part of the city set afire. It was bombed also Monday.

The Russian bombardments continued after Finland's declaration that she will resist with every means in her power and her report that 23 Soviet raiders had been shot down through Wednesday.

Midland Rotarians Like Gerald Mann

Attorney General Gerald Mann, candidate for U. S. senator, walked away with top honors by a wide margin in a straw vote at the Thursday Rotary Club luncheon. The vote:

Mann 23.
Johnson 11.
Dies 11.
O'Daniel 1.

Russian forces were reported holding tight in the Vilna sector and elsewhere along the 1,000-mile active battlefield. Russian dispatches said that Przemsyl, on the border of Germany-occupied Poland, had been recaptured in a Russian-counter-attack.

The announcement of Russian successes coincided with broadcast of an official Russian statement charging Finland with flagrant violation at Germany's dictate of her treaty with the U.S.S.R. and threatened blows by land and sea to end the "provocations."

Instead of issuing the detailed account of German successes baffling the imagination that had been forecast for its communiqué on the Russian campaign, Adolf Hitler's headquarters Thursday continued only generalized claims of success.

As such it was a let-down from the prediction made by military commentators in Berlin Wednesday. Whether she needs it or not, Germany will get active help from Italy against the Red Army, it was announced in Rome.

Russia Claims Advantage. Against the German high command's announcement that "successes in operation of great dimensions" are starting to appear was the Russian high command's flat declaration that panzer thrusts 100 miles into Sovietized Lithuania and Poland had been checked and the drive toward the Ukraine halted at the Prut River.

In four days of air war, the Russians said, the scores of planes destroyed was 487 to 391 in their favor.

An authoritative Berlin announcement said that German Stukas had wrecked 15 Russian transport trains filled with troops, war materials and motor trucks, but here again no places were named.

The regular communiqué, issued again from Adolf Hitler's headquarters, presumably on the Eastern front, said that decisions "in numerous border battles" indicated development of great successes for the Nazis. The campaign, by land and air, was reported still holding to its timetable.

While Rumanian troops already fought at Germany's side, Italy made ready a motorized division destined for the front and the German-controlled Paris press reported an anti-Russian legion forming in occupied France. Russia herself had prospects of a 300,000-man addition to her forces.

This would be a legion of Poles, now prisoners in Russia. British-Russian negotiations are in progress to free the Poles, including much-needed officers, for the fighting line.

Continued German pressure on Finland to send her men into battle again with the U. S. S. R. was indicated by a persistent German report that Finland was about to declare war.

Germany Loses Cruiser. The Finnish port of Turku was bombed heavily again Thursday by the Russians.

Apart from the Russian-German conflict, the European-African-Asia Minor war was marked Thursday by reports of naval and aerial operations costing the Germans the auxiliary cruiser Penguin in battle with the British cruiser Cornwall in the Indian Ocean.

While 5,000,000 Germans and Russians fought or maneuvered on history's greatest battlefield, Premier Mussolini reviewed a motorized division of an expeditionary corps.

(See WARFARE, page 4)

Finland Will Fight On Against Russia

HELSINKI, Finland, (AP)—President Risto Ryti, broadcasting to the nation while Russian bombs rained down on the cities of Finland, declared Thursday night, "we shall fight for the freedom of our country and for the creed of our fathers."

Since Germany has gone to war against the Soviets, he said, "Russia in this task is facing a united front stretching from the White Sea to the Black Sea."

Ryti made no mention of a declaration of war, but he made it clear that Finland intends to defend herself to the last break.

Army Opportunity

The Army of democratic United States must be a democratic army. That doesn't mean an undisciplined army, which is a contradiction in terms. It means an army in which opportunity is open to all in proportion to ability.

Britain is finding out that an army officered exclusively by wearers of Old School Ties won't do today. The United States Army has never faced that sort of a problem, at least not to anything like the same extent. Nevertheless it is good to see opportunity broadened still more. Eligibility for the officer candidate schools opening in July has been widened to include warrant officers and enlisted men who will have served six months on the date of opening of the course. That means that every man who was in the Army last Jan. 1 is eligible to apply; that in turn means selectees who were inducted in the latter part of last year. Under the former rule, these were just too late to be eligible.

The United States Army wants the most capable officers it can get. The way to get them is to open the way to ability wherever it may be found.

Planes Speed Up Planes

The airplane speeds up everything, even the airplane. Today, when everything depends on speeding up the production of airplanes and more airplanes, what's one of the leading means of speeding up that production? Why, the airplane itself!

Hint of this comes with the newest figures on air express shipments, which show that shipments to and from airplane plants show the greatest increase in a general increase in air express shipments over two years ago. That increase was 287 per cent. It means that plans, small parts, vital castings, dies, and light machinery are now winging through the air from airplane factory to airplane factory, saving precious days and minutes in the creation of more airplanes.

It's "Spring Cleaning" Time For Faces, Too

By ALICIA HART
NEA Service Staff Writer

Faces, like houses, are benefited by a thorough spring cleaning. Now is the time to get rid of sallow complexion tones, blemishes and fine, easy-to-erase lines and wrinkles.

You begin, sensibly and properly, by going on a one-day liquid diet, followed by a two-day fruit and vegetable diet.

Start the first day by drinking two glasses of lukewarm water and fresh lemon juice. Have a fruit juice and a hot beverage, for breakfast; clear soup and a glass of milk in the middle of the morning; more soup, vegetable juice and coffee or tea for lunch; all the fruit juice you want during the afternoon; clear soup and more fruit or vegetable juice or milk for dinner and before going to bed, another glass of milk.

BATHS, SLEEP, MASSAGE ALSO IMPORTANT

On the second and third days, eat whole oranges or stewed, unsweetened fruit, and drink something hot for breakfast. Have a large green salad and more fruit for lunch; several cooked vegetables and still more fruit for dinner. If you are hungry between meals, drink vegetable juice or milk or eat oranges.

Meanwhile, take two baths a day during the three-day diet period, using plenty of soap and water on face and neck as well as the rest of the body. Sleep at least eight and a half hours each night.

The first evening before going to bed, clean face and throat, then apply a bit of olive oil. Only a few drops are needed. Now dip fingers in freshly squeezed, strained lemon juice and massage and pat neck and face with upward and outward strokes. Keep on moistening fingers in lemon juice and rubbing lightly until tiny rolls of dry cuticle no longer are formed as you rub. When you finish, the skin will be pink and

will have a faintly peeled look about it.

Afterward, rinse several times in cold water, smooth on a thin film of night cream and go to bed. Repeat the treatment two nights later.

What would you do if—

(a) Explain to the person why you can't?

(b) Send the person a gift that shows your appreciation?

Answers

1. Certainly. Entertain them in the way you are best equipped to entertain. If they live in the city, they will probably enjoy a steak fry more than any kind of party.

2. No.

3. Yes.

4. That is the thoughtful thing to do.

5. No.

We, the Women

By Ruth Millett

Girls are beginning to realize that it isn't necessary to have a husband in order to be as domestic as they please.

They have at least realized that a woman's desire for a home and having her own things about her needn't be squelched just because there is no man to share it.

And now that they are waking up to this fact, unmarried women are beginning to build more real and lasting backgrounds for themselves.

There is the extremely domestic young woman who, tired of furnished one-room apartments, took the plunge and brought herself a lot and built a little house on it. She figured she couldn't swing it on her job, so she rents one room to a couple of single girls, and she'll continue to rent that room until the house is paid for. Then it will be hers—all her own.

GOT A BIG KICK OUT OF IT

Nothing she ever did in her life gave her quite the thrill of poring over house plans, and then going to work with sewing machine and paint brush to do an inexpensive, but inviting, domestic job.

Another girl who likes living in an apartment decided there was no reason in the world why she couldn't pick out a sterling silver pattern, just as a bride would, and let her friends and family know she would rather have silver for birthday and Christmas than anything else.

When she got her silver service together, she began on a set of lovely china, and today she is just as proud of the table she sets as any bride.

Still another young woman who had wished for years she had a place of her own so that she could have a flower garden woke up to the fact that if she wanted a garden there was no reason in the world why she couldn't have one.

THIS CITY GIRL WANTED A GARDEN

So she moved from her downtown apartment into one in a private home with a large, beautiful yard. She took the apartment with the promise that she could have her own garden, to plant as she pleased, in a spot she could see from her living-room window. Now she rushes home from work, gets into slacks, and has a grand time digging and transplanting instead of sitting in a stuffy apartment wishing she had a garden of her own.

A domestic-minded woman who finds an outlet for her domesticity doesn't miss half as much by not marrying as the woman who thinks that a husband is an absolute necessity around a house.

As one of these resourceful women puts it, "A man in the house is an enviable luxury and I'm the first to admit it. But fortunately for those of us who haven't husbands he isn't a necessity."

Midland To Sponsor Numbers For July 4

Midland was asked to furnish two entertainment numbers at the annual Big Spring amateur program July 4.

Chamber of Commerce officials here Thursday said Midland would provide the numbers.

Miss Linebery Will Represent Midland In 'Goddess' Contest

Miss Edna Earl Linebery, representative of Midland in bathing revues and beauty contests, will represent the city at the Goddess of West Texas Bathing Beauty Revue in Mineral Wells, Aug. 1.

The contest is sponsored by the Texas Health Festival, Inc.

Three winners will be named. First place winner receives a loving cup and the choice of Mineral Wells, Corpus Christi, or Galveston, for a week's all-expenses paid vacation. Second place winner gets a cash award of \$15, and third place winner receives \$10 in cash.

Public Safety Branch Issues Certificates For Bicycle Members

Certificates of membership in a Junior Highway Patrol Safety Bicycle Club of Midland were issued by the State Department of Public Safety and will be given to members here as soon as they are signed.

The cards will be signed by Homer Garrison, director of the department, a captain of the Texas Highway Patrol and the Chief of Police, L. P. McCasland.

Cards for records of equipment and safety violations are on hand for club enrollees. The records will be kept at the city hall.

Midlands' club has 50 members. Membership is open to boys and girls in the city who ride bicycles.

Membership applications will be taken at a field meeting at 4 p.m. Tuesday at the baseball park.

Bundles For Britain To Sponsor Film

As its next project, Bundles for Britain will sponsor the sound film "The Last Stronghold," showing America as the frontier of freedom. The film will be shown at the high school auditorium, Wednesday, July 2.

A small admission charge will be made.

SCIENTIFIC CANCER TREATMENT

Dr. Powell treats all forms of Cancer both internal and external, with an Antioxin which is the most scientific treatment for this dreadful disease. One dose often sufficient. No hospitalization required.

Hemorrhoids, which often cause Cancer, treated without surgery or loss of time. For further information, write

SAN ANGELO, TEXAS

Rollins Speaks To Merchants On Plan

Midland merchants, who will participate in the cotton stamp plan in Midland County, must fill out necessary papers and forms to be eligible to accept stamps, members of the Midland cotton industry committee were told at a meeting Thursday by Lawrence Rollins, surplus marketing administration representative.

Rollins discussed the cotton stamp plan as it will affect merchants. Six representatives of firms attended the meeting.

Merchants will not be permitted to take the stamps unless forms are filled out and returned to County Agent I. O. Sturkie's office.

CRANIUM CRACKERS

Sport Specials.

If you've been reading the sports pages lately, you'll find these questions easy. If not, you should know the answers anyway for most of the events concerned were front page news in recent weeks.

1. What well known baseball player recently received his draft questionnaire and what one was drafted a few weeks before?
2. What tennis player got married, then lost his title the next day?
3. Who won the National Open golf tournament at Fort Worth?
4. What challenger did Joe Louis fight before his bout with Billy Conn, and who is he scheduled to fight next?
5. Who were the co-winners of the Indianapolis Speedway race and how did one of them reportedly invest his money?

Slow but First Aid in Philippines

It's bad enough to be wounded in war, but probably would be doubly unpleasant to be hauled to a hospital by this slow-moving water buffalo, as demonstrated by Philippine soldiers during maneuvers. This technique is used only in swampy regions of islands.

GRAND PRIZE

IS GRAND-TASTIN' BEER!

With the advent of warm weather, I was in a dither as to what to drink because I had been counting calories. Buttermilk, grape juice, sauerkraut juice—I soon tired of 'em all as hot weather took its toll. It was then that I tried grand-tastin' Grand Prize.

Right from the first sip this sparkling beverage satisfied my summertime thirst. So, being scared of the scale, I sampled this brew, then checked and re-

checked my weight. Nary a pound did I gain, so gradually I gave way to my desire and enjoyed a glass of this grand-tastin' beer whenever I liked.

Now I have a scale for sale—cheap! You see, I found Grand Prize dietetically non-fattening. So ladies, take heart! If this torrid weather sends you in search of refreshment, be sure the brand of beer you buy is Grand Prize. Really, you'll love its deep mellowness, the satisfying way it whisks away your thirst.

SOCIETY

Seersucker Shirtwaist Fashion To The Fore

LOVED by enthusiastic, serious golfers are shirtwaist dresses of washable seersucker—which, incidentally, requires no ironing. The golf dress, above, comes in brown and white, gray and white or navy and white stripes, has deep armholes and an action back and is worn with a leather belt, designed especially for golfers.

Bluebonnet Club Adds New Member At Regular Session

One new member, Mrs. J. F. Garber, was received into the Bluebonnet Club in its meeting at the home of Mrs. W. W. Wimberly, 617 W. Texas, Wednesday afternoon.

Three visitors, Mrs. C. E. Allen, of Mercedes, Mrs. West of San Antonio, and Mrs. Fred Middleton, were present.

The usual discussion of fancy work was held and at tea time, a refreshment course was served to guests and the following club members: Misses Garber, J. H. Barron, D. W. Brunson, W. E. Shipp, Frank Ingham, V. Z. Wren, Brooks Pemberton, and the hostess.

Next meeting will be with Mrs. Shipp.

MOVE HERE

Mr. and Mrs. L. E. Murray have moved to Midland from Hobbs, N. M. He is division manager of the National Tank Farm.

Club's First Garden Pilgrimage Reported A Successful One

The first Garden Pilgrimage sponsored by the Midland Garden Club was conducted Wednesday morning and evening and officials reported it a success.

The fifteen hostesses whose gardens were open made a special pilgrimage of their own Thursday morning, as they could not join the regular tour Wednesday.

Complete records of the number taking part in the Pilgrimage were not available, some visiting only part of the 15 gardens open. Mrs. N. A. Lancaster, who kept a record of pilgrims, reported 35 visitors to her garden on W Indiana street.

VISITORS IN MIDLAND

Mr. and Mrs. Allen Kaderli of Stanton were visitors to Midland, Wednesday afternoon. With them was their daughter-in-law, Mrs. Hill Kaderli of this city, who had been visiting them while her husband was out of town on business.

Mrs. Ben Black Entertains For Bridge Club

Choosing summer garden flowers as house decorations, with emphasis on daisies, Mrs. Ben Black entertained Wednesday afternoon at 3 o'clock at her home, 111 north G street, for the Wednesday Bridge Club.

Bridge was played at three tables with high score going to Mrs. Johnny Ratliff and bingo award to Mrs. A. P. Shirey.

Mrs. Lem Peters and Mrs. Shirey were club guests.

At tea time, a refreshment course was served to them and to the following members: Misses Chas. Edwards Jr., Ralph Geisler, Wade Heath, Tom Sealy, Louis Thomas, Hugh West, Jack Wilkinson, Ratliff, Miss Lucile Thomas, Miss Marian Wadley, and the hostess.

FRIDAY.

Belmont Bible Class will meet with Mrs. H. D. Bruce, 311 N Main, Friday afternoon, for study of the fifth and sixth chapters of Deuteronomy.

Women's Golf Association will sponsor the weekly luncheon at the Country Club, Friday afternoon at one o'clock. Reservations should be made with Mrs. S. P. Hazlip or Mrs. Leif Olson, hostesses.

Recreational hour will be held at the Methodist educational building Friday evening at 8 o'clock.

Intermediate Girl Scout group will meet at the Girl Scout headquarters Friday morning at 9:00 o'clock. Mrs. Fred Lupton will be leader.

SATURDAY.

Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'clock.

o'clock until 12.

Midland county museum in the courthouse will be open Saturday from 10:30 in the morning until 1 o'clock in the afternoon. The public is invited.

Bundles for Britain will have a called meeting at the home of Mrs. J. P. Butler, 1603 Holloway, Saturday morning at 9:30 o'clock. All members are urged to be present.

Miriam Club Makes Plans For Party

Plans for the benefit 42 and bridge party next Monday night were completed at a meeting of the Miriam Club at the I.O.O.F. Hall, Wednesday afternoon.

Mrs. Martis Miller was hostess for the meeting which was attended by the following other members: Mesdames Grace Delaney, Florence Floyd, Margaret Fuller, Rhoda Webb, Anna Belle Garden, and Leota Johnson.

Mrs. Garden and Mrs. Johnson will be hostesses for the meeting of the Club at the Hall next Wednesday. Election of officers will be held at that time.

Clubs Sponsor Box Supper At Three-Well's Ranch

Greasewood Home Demonstration Club and the Midkiff Ranch 4-H Girls' Club sponsored a box supper at the Midkiff Three-Well's Ranch, Wednesday evening.

Proceeds will be used to send a delegate to the Short Course at A. and M.

About 50 persons attended.

Eighteen McCamey Girls At Paisano

McCAMEY. (Special) — Eighteen girls, sponsored by Mrs. V. V. Randall and Mrs. G. H. Patterson left Tuesday morning to attend the Baptist Auxiliary Encampment at Paisano, near Marfa from Tuesday through Friday.

Those attending from here are: Misses Edna Lee Schnaubert, Burling Seale, Mary Lou Copeland, Mary Ruble, Maurice and Maurine Seale, Marjorie Ramsey, Meredith Courtney, Maxine Thornton, Joy Randall, Wanda Patterson, Aline House, Lu Beth Harris, Leslie Jo Wood, Mary James, Jean Ellen Payne, Jossie Schnaubert, and Billie Jean Vail.

Couple Is At Home In McCamey

McCAMEY. (Special) — Mr. and Mrs. A. J. Shaw are at home in McCamey following their marriage in Odessa, Saturday evening, June 21.

The ceremony was performed by the Rev. Schaffle, pastor of the Odessa Catholic Church in the presence of close friends.

Mrs. Shaw is the daughter of F. E. Swinnea of McCamey and Mrs. Mrs. F. S. Tomlinson of Neches. She is a McCamey high school graduate and attended Draughton's Business College at Fort Worth. For her wedding costume she chose navy blue

Midland Girls Active At Camp

CAMP CARRIZO, Ruidoso, N. M. (Special) — Several Midland girls appeared in Saturday night's vaudeville. Pantomiming in the junior skit were Dorothy Faye Holt and

alpaca with white and navy accessories and wore a corsage of gardenias.

Mr. Shaw is a son of Mrs. Ida Shaw of Fort Worth and holds a degree from the University of Oklahoma. He is employed by the Humble Production Company at McCamey.

Alma Faye Cowden. Ann Ulmer was the narrator.

Dorothy Faye Holt also entertained with a song and tap dance, "I'm Nobody's Baby."

Elaine Eastham arrived here last week-end to spend the rest of the camp season.

Elaine Hedrick and Florence Larsh are taking interest in their horse-back riding classes. Several overnight pack trips have been planned.

The girls have been making necklaces from sunflower seeds, hatbands from raffia and belts from strings. The arts and crafts rooms are busy places during the day.

The dramatics classes hold a special interest for everyone because of the Saturday night shows. Most of the girls in camp get to appear

Kentuckians Visit Relatives Here

Mr. and Mrs. J. P. Gibbins have as their guests, her sister-in-law, Mrs. Raymond Bigelow, and niece, Miss Wilma Grace Bigelow, of Newport, Kentucky.

The group made a trip to El Paso, returning Wednesday.

The visitors will be guests of their aunt, Mrs. Frank Stahl, here before leaving for the East.

In each week's production because of the dances, plays and special numbers on the program.

A tennis tournament was started in each class Monday and will probably be completed sometime early in next week.

RETURN FROM TRIP

Mrs. James Adamson and children returned Tuesday night from a visit to relatives at Levelland, Post, and O'Donnell. Mr. Adamson made a trip to bring them back.

VISITORS FROM STANTON

Mrs. Charlie Ebersol and daughter, Miss Lela Boyd, were visitors from Stanton, Wednesday afternoon.

Don't Wait Until

Pyorrhea Strikes

Gums that itch or burn can become mighty trying. Druggists will return your money if the first bottle of "LETO'S" fails to satisfy. City Drug Store. (Adv.)

A VITAL PART of making America strong is to make Americans stronger... with the food they need. Vitally aware of this are the thousands of trained and experienced people who are engaged in the nation's great food industry—the farmers, who produce the food; the manufacturers, who process it; and the grocers, who distribute it—proudly working in the best way they know to supply the energy necessary to do the big job.

Merchants Girls Shellack Howe's 16-6 In Softball

The Merchants Girls of Odessa caught John P. Howe on an "off" night and patted a great 16-6 softball defeat on the women's league challengers Wednesday.

The Midland lassies misused in the field and also fell down at the plate.

Merchants Girls are undefeated in women's play and John P. Howe, former loop leader, was challenging. The challenge faded as the "ladies in blue" dropped ball after ball and the Merchant missies socked the apple hard.

It was 4-2 Odessa until the fifth when the visitors got three added tallies. They tacked on three more in the sixth and ended Howe's hopes with five counters in the seventh.

Howe's got one run in each of the first two frames, then were scoreless until the sixth and seventh when they added two in each.

Score by innings:
John P. Howe 110 002 2-6
Merchants 410 033 5-16

Individual hits and scores: Howes—Kidwell, 3b, 1-1; Smallwood, 1b, 1-1; Murphy, ss, 1-0; Davis, cf, 0-0; Musgrove, p, 1-0; Choate, 2b, 2-1; Anderson, sf, 1-0; Tickle, c, 0-0; Cure, lf, 0-0; Manguson, lf, 1-1; Webb, rf, 0-0; Brown, c, 2-2.
Merchants Girls—M. Gray, 3b, 4-3; Hubbard, 2b, 2-2; A. Rogers, c, 1-1; Kiker, p, 1-1; I. Rogers, 2-1; James, lf, 1-1; White, rf, 3-2; Rogers, sf, 0-0; Wheat, sf, 2-1; Temple, ss, 0-0; Stevenson, ss, 0-1; Olivas, cf, 2-3.

Butcher To Play In Tennis Finals

Cary Butcher's 6-2, 6-4 win over C. G. Cooper advanced Butcher to the finals of the Midland Tennis Club city tournament.

Butcher will play either J. C. Williamson, M. H. McKinley, or K. S. Ferguson. These players have been out of the city and will play off matches to determine the other finalist.

Doubles play in the city joust begins as soon as finals in singles are played.

Personals

Mrs. J. L. Tidwell is ill at her home here.

The Rev. John E. Pickering, who is in Fort Worth taking a special Bible course, will return Friday and preach at morning and evening services at the First Christian Church Sunday.

Miss Edna Lindsey of Bonham visited Mrs. Faye Carson here Wednesday.

Mrs. Paul Smith, who is under medical treatment at Lubbock, is reported improving.

W. B. Standefer has gone to Vah Alstine to bring home Mrs. Standefer and their little daughter, Catherine, who have been visiting there. They will return the last of this week.

Senator H. L. Winfield, Fort Stockton, was a business visitor in Midland Thursday.

Mrs. H. L. Albrecht, who was injured in an automobile accident, went home from Western Clinic Hospital Wednesday.

Walter Estes was admitted Thursday to Western Clinic Hospital for medical treatment.

Sports Roundup

By Hugh S. Fullerton Jr.
(Pinch-Hitting for Eddie Brietz)

NEW YORK.—Poughkeepsie pickups: The talk along rowing row all week has been that Washington's Al Ulbrickson will get a bid from Yale to take Ed Leader's place. The Eli alumni think something must be done about Harvard's string of victories and the Crimson's won't go to Poughkeepsie to let Ulbrickson do it with his Huskies. Like Washington, George Pocock couldn't go Wednesday. He built all the boats in the race. Skip Waltz, Wisconsin's coach and one of the most enthusiastic rowing men on the river though he never tugged an oar in college, is trying to persuade one of the Eastern crews to visit Madison next spring and help him sell rowing to other big ten schools.

One Minute Interview

Ty Cobb: "I like to watch baseball but I haven't seen a game this year. Maybe its because the mistakes I see on the field drive me wild. Maybe its because I hate the change that's come over the game. When the value of one run was destroyed, a big kick was taken out of the game for me."

Today's Guest Star

Charles Johnson, Minneapolis Star Journal: "In many respects, Joe Louis is like the Minnesota football team. Northwestern, for example, might beat the Gophers on this Saturday, but next Saturday they couldn't beat Podunk College. The reason is that the Maroon and Gold boys took so much out of them that they couldn't move." (Ed's Note: Take it from us its a tremendous compliment to Joe when a Minnesotan compares him to the Gophers.)

Major And Minor Operations

Joe DiMaggio didn't show much interest in his hitting streak until he got within a few games of the record, but now he's really out to bust the mark. Jimmy Pofahl, A. W. O. L. from the Senators because Clark Griffith wanted to ship him to the Chattanooga farm, says he will quit and go into business with his dad at Fairbault, Minn., unless he gets a reprieve. Detroit has one of the Southern Association's greatest prospects in Hal Manders, who pitches for Fred Lindstrom's Knoxville Smokies. The Reds have farmed out Eddie Shokes, Duke U. first sacker, to Indianapolis and Manager Bill Myer thinks he has "possibilities"—if he can hit. Al Vincent, Buffalo manager, wasn't baling out any left-handed compliments when he ascribed a pal as being "as sincere as an umpire."

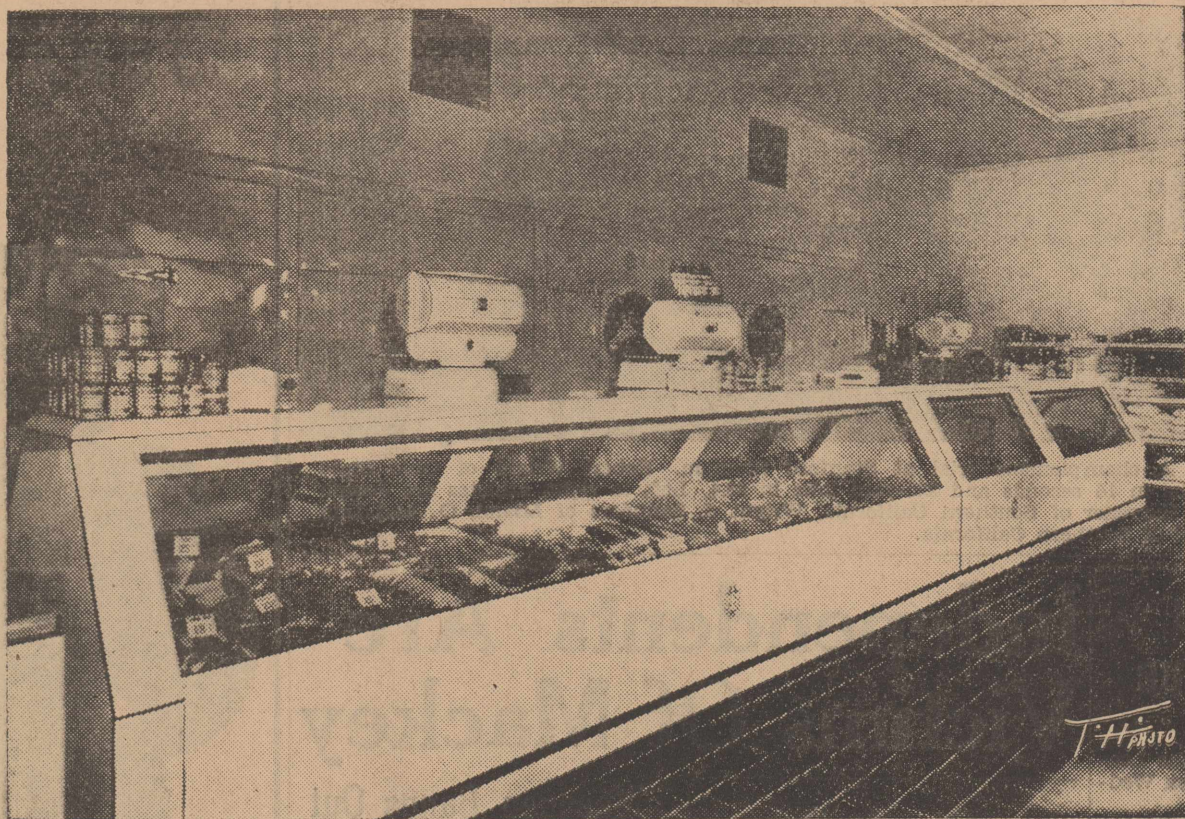

Haw Dept.

Our idea of the toughest job of the week is the one Doc Morris has trying to work up some popularity for Bummy Davis. Doc's best line so far was when he quoted trainer Ray Ansel as telling Davis "nobody ever accused you of using unfair tactics."

Sixteen Stars Compete In National Net Finals

COLUMBUS, Ohio (AP)—Sixteen stars from 11 schools, survivors of the 64 who started match play Wednesday, will battle for berths in the semi-finals of the 44th National Intercollegiate Golf Championship.

Everyone had an eye on Stanford's great four-man squad, winner of the team title. The quartet of Indians roared through two sets of victories Wednesday.

Yankees Bump Browns To Take American Lead

By The Associated Press.

For the first time since the season was in its infancy the New York Yankees are in first place in the American League Thursday and now the pressure is on the Cleveland Indians.

Critics of Cleveland always have contended the Indians were front runners who would fold up if the going got tough and the Yankees are not going to let anybody wait till September to find out.

The Yanks captured the lead Wednesday by bumping the St. Louis Browns 7-5 while the third place Boston Red Sox raided the Tribe 7-2.

Joe DiMaggio led the bombing in New York with a two-run homer that extended his hitting streak to 37 games, four short of the record, and made 20 consecutive contests in which one or more of the Yankees have hit home runs.

In Boston, the Indians were set back on their heels by old Lefty Grove, who pitched seven-hit ball for the 28th victory of his long and illustrious career.

The best one-game pitching show of the season, however, was staged for a little throng of 2,000 fans at Washington yesterday when John Rigney and Sid Hudson struggled for 12 scoreless innings before the White Sox downed the Senators 2-0 in the 13th.

The Philadelphia Athletics nosed out the Detroit Tigers 5-4.

In the National League the St. Louis Cardinals and Brooklyn Dodgers both won, preserving the half game margin between them.

Ernie White held the Boston Braves to seven hits and fanned nine as the Cardinals coasted to a 6-2 decision.

The Dodgers squeezed past the Pittsburgh Pirates 5-4 with two runs in the eighth inning on a single and two doubles.

The New York Giants cleaned up on the Chicago Cubs 4-1.

Cincinnati swept a doubleheader from the Phillies 8-3 and 5-1.

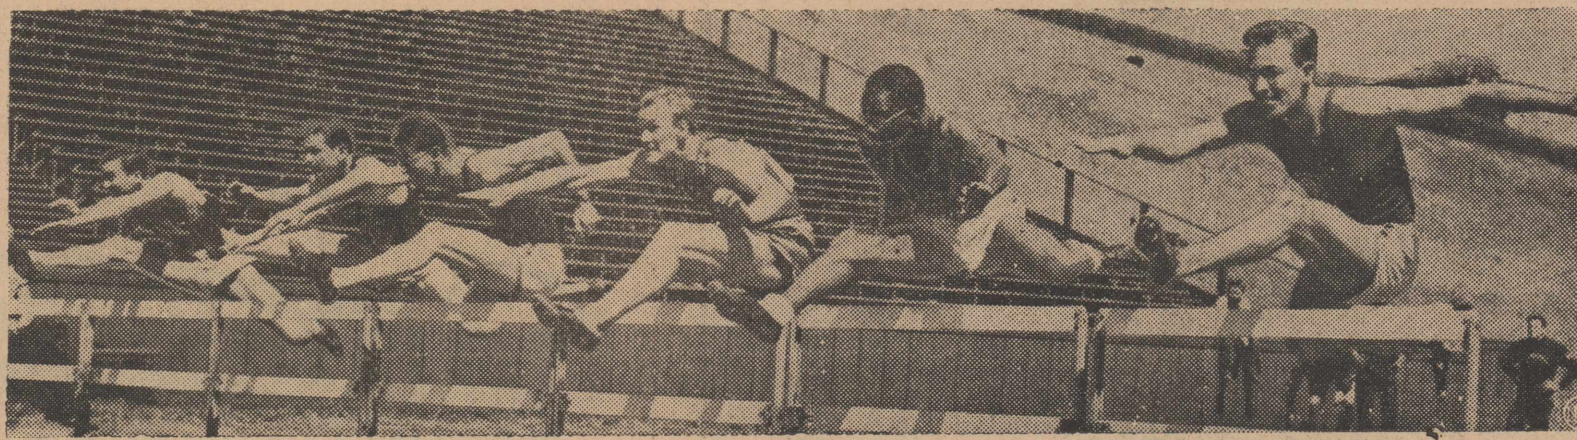

Organize 110,000 Men In State Guard Units

CHICAGO (UP)—More than 110,000 men have been organized into state guard units to do the work of the National Guard while that organization is in the federal service, and approximately 55,000 are being instructed in their duties, the Council of State Governments has reported.

In compliance with an authorization by Congress, at least 28 states are participating in the program for additional military forces for the protection of power plants, water supplies, docks, airfields and other vital defense centers.

The state guardsmen also stand ready to aid the police in case of emergencies, to handle disorderly crowds, and to function in the event any force attempts an air invasion.

All Together Now, Men, Over The Top!

Six sail over hurdles in perfect synchronization in N. C. A. A. championship trial at Stanford Stadium. Robert Wright of Ohio State won and went on to walk away with final of 120-yard highs in 14 seconds and 220-yard lows in 23.4. Left to right, athletes are Joseph Finch of Northwestern, Ed Darden of Kansas State, John Biewener of Southern California, Wright J. Saunders of Miami, O., and Don Hommel of Southern California.

Baron And Waitkus Hold Inside Track For Firstbase Job

DALLAS, Tex., (AP.)—Although seven active players in the north have handled first base for their clubs this year, the choice to represent the team in the sixth annual Texas League all-star game at Beaumont July 16 will probably be limited to the quartet playing the bag regularly.

Tulsa used Ed Zydowsky, who is a natural outfielder, and replaced the big fellow with Glenn Russell, who belongs elsewhere in the infield, and was promptly shifted to third when Ed Waitkus came back well after the season start.

Waitkus, a great Texas League development of 1940, is a southpaw and the two others right-handers.

Dallas used Heinz Becker, a right-hander, at first while Roy Mort was injured but moved Becker to the outfield as soon as Mort was available. So the choice really boils down to Waitkus, Mort, Charlie Baron of Fort Worth and Harry Ashworth of Oklahoma City. Actually it is more limited than that.

On season showing, it should be either Baron or Waitkus.

Payne Names Brown For Sunday Pitcher

Manager Jim Payne announced Thursday "Windmill" Brown, former Midland ace, definitely would pitch Sunday against Odessa.

Brown was unable to be here for last Sunday's fracas with Goldsmith.

Odessa has a strong club. It drew several good players when Crane disbanded a team. "Hi" Haven, ex-New York Giant pitcher, and Johnny Butler, one time catcher for the Fort Worth Cats, are outstanding Odessa players.

Midland has drilled hard this week and the lineup has been switched for the game here at 4 p. m. Sunday at the ball park.

Age Triumphs In Texas League

By The Associated Press.

Age triumphed in the Texas League while youth got a setback Wednesday night.

While 49-year-old Snipe Conley, the nation's oldest rookie, was putting up an amazing exhibition of skill to win an 11-6 victory for the Dallas Rebels over the San Antonio Missions, youthful Freddie Martin, sensational Houston Buff twirler, went down before the Fort Worth Cats while trying to lengthen his string of consecutive wins to 13. Ft. Worth won 9 to 1.

The Oilers continued their none-too-secure hold on second place with a 9-1 decision over Shreveport at Tulsa, and the Indians and Beaumont divided a doubleheader at Oklahoma City, the Exporters winning the opener 2-1 and the Indians taking the nightcap 1-0.

Conley, who returned to the Rebel lineup to show a Dallas crowd that he hadn't lost his cunning during years of retirement, let the Missions down with only one run and six hits until the ninth when the strain got him. The Padres slipped over five runs in the final frame, but they couldn't take the game away from the gallant veteran.

Crane Fighters Beat San Angelo

CRANE (Special)—Crane gained an edge over San Angelo boxers in amateur inter-city matches here. The two teams meet again in San Angelo July 2.

Results of Wednesday's matches: Ham, Crane, decisioned Joe Quinn; Lockett, Crane, won over Thompson; Moddiset, Crane, technical knockout in second round over Jimmy Smith; Howard, Crane, decisioned Albert Yoes.

Roy, San Angelo, outpointed Alvarado; Gibbs, San Angelo, registered TKO over Hutchinson in second. Kent, San Angelo and Arvel Howard, Crane, boxed to a draw.

Ruth Predicts Win In Next Golf Game

NEWTON, Mass. (AP)—Ty Cobb may have first blood on Babe Ruth, his fellow baseball hall-of-famer, as far as their "grude" golf matches are concerned but the latter is bidding his time and he does not expect to be kept waiting overlong. "What else can you expect when you can't sink two-foot putts," Ruth philosophized Wednesday when he took a 3 and 2 dubbing from the Georgia Peach in the first of their charity exhibition series here at Commonwealth. "But watch me take him when we get to Fresh Meadow in Flushing, N. Y., Friday. There's a course that's built for my game."

Abilene To Sponsor Semi-Pro Ball Meet

WACO (AP)—A. H. Kirksey, Texas commissioner of semi-pro baseball, Thursday announced a state district elimination tournament had been assigned Abilene. It will be a three-day event starting July 6. Howard Green, Abilene, was named district commissioner to supervise the event.

The district champions will qualify directly into the sixth annual Texas championship semi-pro tournament here, starting July 24. Midland was scheduled to hold a district tournament here in July but may pass up the event. Midland is not in Abilene's district.

Four-H Club Boys To Practice At Lubbock

County Agent I. O. Sturkie will take five Midland County 4-H club boys to Lubbock Monday for district livestock judging practice. Sturkie has not named the boys who will make the trip.

Conley Falters In Ninth Frame But Wins Battle

By Harold V. Ratliff

DALLAS (AP)—Life began at 49 for James Patrick (Snipe) Conley—and almost ended in the ninth inning.

Baseball's oldest rookie finished with his arm limp but it failed to dim the luster of the most unusual comeback in Texas League history. When Conley pitched for Dallas Wednesday night the batters were fellows who were going to grammar school when he set the present league record of 19 straight victories.

But Snipe was just as crafty, just as speedy and just as effective—that is, for eight innings. In the ninth he faltered. The San Antonio Missions combed his offerings for five hits and five runs. He managed to finish with an 11-6 victory but the end didn't come any too soon.

"I just gave out," he explained as he sat in the dugout while his mates rubbed his arm with arnica. "But a couple more nights like that and I'll be ready to go nine innings. You know it's been 13 years since I pitched the route."

Managed Texon Team Three thousand fans turned out to see Conley in his comeback. There would have been more but too many figured that while Snipe still had the heart the arm and legs wouldn't last.

Conley quit professional baseball in 1928 after seventeen years in the game, twelve with Dallas. Out to Texon, Texas, he went to work for an oil company and managed its semi-pro team.

But President George Schepps of the Dallas club saw the possibilities

not only of building attendance for his club—because Conley was the most popular player this city ever had—but of one of the unique stunts of baseball annals. Too, George thought Conley still could win in the Texas League.

Under league rules Snipe returned as a rookie and also could use his spitball.

Conley was a little crest-fallen over the finish but the fans were not. If pitching nine innings doesn't sap the aging right arm autographing likely will.

WILL DEDICATE PROGRAM TO MEXICANS IN U. S.

MEXICO CITY, (AP.)—Under Secretary of the Interior Cases Aleman announced Thursday night the government planned to dedicate one of its weekly radio programs each month to Mexicans living in other American republics, particularly in the United States, in the belief it would not only strengthen their ties with the homeland, but promote continental understanding.

WICHITA FALLS, (AP.)—The second round of the West Texas Women's golf tourney got underway Thursday after Mrs. J. H. Ball, medalist and favorite, justified advance predictions by giving her first round opponent, Mrs. James L. Nelson a 7-and-6 spanking. Both women are of Wichita Falls.

Results in Wednesday's championship flight included: Mrs. Francis Awtrey, Odessa, defeated Mrs. R. B. Leavitt, Abilene, 2 and 1; Mrs. G. I. Phillips, Big Spring, defeated Mrs. J. R. McFarlin, Wichita Falls, 3 and 2.

RETURNS HOME

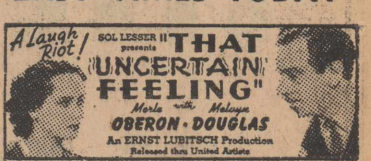

Mrs. Ish McKnight went home from Western Clinic Hospital Thursday.

WILL TAKE VACATION

Mrs. Jimmy Walker will leave Saturday for a vacation at Boonville, Mo. She will be accompanied by a cousin, Robert Holt, who will visit in Woodridge, Mo.

Rockefeller's Coordination Office Goes In For Kleig Lights But More Important Does Big Commercial Job

By Peter Edison
The Reporter-Telegram
Washington Correspondent

WASHINGTON. — All too many people have looked on Nelson A. Rockefeller's Office of Coordination of Commercial and Cultural Relations Between the American Republic as a form of high hat bonobogging concerned principally with sending Doug Fairbanks' smile and Dorothy Lamour's saron on junkets below the Rio Grande, seeing that polite Spanish was taught in the public schools, introducing the rhumba in Utah and taking all South American bad men characters out of Hollywood movies intended for export.

There has been a good bit of that, it's true, but far more important, though less spectacular, has been the real emphasis put by the Rockefeller office on the commercial end of its program. The cultural stuff is nice, and it has done a lot of good in making everybody simpatico and Americas - conscious, but that is only the tobasco sauce on the commercial ac-

tivities, which are the real t-amales.

The Rockefeller office won't be a year old until August. During its first year, the Co-ordination has been done at the expense of the President's emergency funds, which set aside something over three million dollars to get going in a hurry, before the Nazi fire burned down the good neighbors' houses. Currently, the Rockefeller office is before Congress with a budget of more than \$10 million to carry on its work during the next year. From any angle, it looks like cheap insurance.

Magic Gets The Gate
The financial and trade spheres of the Rockefeller act have not been juggled to produce anything spectacular, and perhaps that's why the commercial program has not attracted the attention it should. Instead of producing fifties and rabbits, the dollar-a-year men furnishing the brains have reached under their hats and gone after their problem as a long-time job.

One of the older hands and heads who have been shaping policy for Rockefeller activity has been Joseph C. Rovinsky, a director of the Chase National Bank of New York. Rovinsky first "discovered" South America 20 years ago. He has been all over it, the last time in 1937. He has been plugging South Amer-

ica continually, to such an extent that a lot of his associates have thought him a little hipped on the subject. But now, at a dollar a year, in a silk shirt and an unfancy office in Washington, he labors like any other government clerk, only harder and longer, promoting his pet hobby, the furthering of inter-American financial and trade relations.

When the Rockefeller organization first got going, they began to look for the critical, strategic materials the United States didn't have. The metals ending in m and n—tungsten, vanadium, magnesium, beryllium, and that family. They even looked at the copper supply, though U. S. copper interests said they could produce all the country needed. Now, with copper rationed and a shipping shortage on, copper men are wishing they hadn't been so cocksure and had let more South American ore or ingots come into the country.

May Even Need Their Iron Ore
It is Rovinsky's belief now that if the war lasts long enough, the United States may even be needing South American iron ore. He may be damned roundly for this prediction by American mining men, but the limited supply of the Mesabi range ore is well known, and since the big demand is for steel and more steel for armaments and shells, the nation can well consider the question of its iron ore supply. The copper and iron ore examples are perhaps extreme cases, but they emphasize the importance of the Rockefeller program, the objective of building up a permanent inter-continental commercial relationship with greater inter-American trade consciousness.

I. P. A. A. Executive Asks Cooperation Of Oil Operators For National Defense And Says Must Protect Markets

H. B. Fell, executive vice-presi-

dent of the Independent Petroleum Association of America, told Midland members of the organization Wednesday night the government has agreed to buy at least half of the oil purchased for Britain from domestic producers.

After asking 100 per cent cooperation from the oil operators for National Defense, he declared "our domestic industry should not surrender our markets to foreign oil and furnish ships to transport it. "We as an industry and good Americans must give our cooperation to our government in this unlimited national emergency," Fell added. "Our nation must meet this emergency."

Problems confronting the oil industry and the government were outlined by the Ardmore, Okla., oilman who spends much time in Washington representing his organization.

"To all effects and purposes this country is on a war status," he declared. "The trend toward international disunity is increasingly serious. Some labor leaders don't take National Defense very seriously. Practically all stoppages of work have been in defense industries."

"We have reached the point where business in this nation cannot go on as usual."

"Take A Lesson"

"Disunity brought about the downfall of continental Europe. Let us take a lesson. Place National Defense first and foremost in the life of our country."

"Industry, labor, agriculture and finance must make whatever sacrifices are necessary to defend our nation. Our program of armament must not be used to make millionaires in industry, labor or business."

"To develop unity, people must have the facts of our internal and international affairs. It is the duty of our national administration to furnish them. This is the most critical period this nation ever faced. We must have honest, sincere and unselfish leadership in the United States."

"The petroleum industry must be at its fullest strength. This requires the cooperation of everyone in the industry to develop the greatest unity. Between 4,500 and 5,000 independents in the country are united in our organization. The ability of our industry to meet the crisis of the nation is important."

Discussing the conservation program he said it means larger reserves and greater potential production.

"Reserves now are the greatest in history," Fell explained. "The largest estimate of increased demand for

oil resulting out of the war is about 20 per cent.

Adequate Supply

"We have an adequate supply of oil and oil conservation is the only conservation program in the United States carried out by an industry itself and without federal subsidy."

Fell said the refining branch of the industry is prepared to supply all normal products necessary and pointed out that a third of the refining capacity of the country is less than four years old. The peak capacity of the refining industry is about 4,700,000 barrels of oil a day, he explained, and said 75 per cent of this is utilized.

Fell told the Permian Basin operators that transportation facilities were ample until the Gulf Coast bottleneck developed by diversion of 50 tankers to serve Britain.

The distribution system was described as "ample," and he pointed out that in Canada the building of additional filling stations had been prohibited.

Fell expressed the belief the oil transportation bottleneck would be broken soon and asserted stocks of petroleum products on the Eastern Seaboard continued to increase during May and June.

The speaker asserted Federal Petroleum Coordinator Harold Ickes hopes for cooperation from the industry to the best service of the country during the unlimited national emergency. Federal officials, Fell continued, are emphatic that no waste will be permitted in any section, but that wildcatting will not be discouraged.

Discusses Transportation

Several steps such as increasing tankers loads are being contemplated to relieve the bottleneck. He also discussed pipeline plans under consideration at Washington.

He said a plan has been advanced to build a line from West Texas northeast to tie on to existing pipelines but no approval has yet been granted a project.

"There is no need to worry about gasoline-less Sundays yet," he said, and told of the history of oil conservation.

"A fair price for crude oil is essential for any conservation program," he declared. "If not the industry will not be able to go out and find new reserves. The power to increase the price lies in the hands of some companies responsible for importing oil to this country."

He described the decline in export markets and the importation of oil, estimating the "total squeeze now on domestic producers at 420,000 barrels a day."

"I don't think it is fair to pay taxes to run a war while inequitable and large amounts of foreign oil are purchased. I believe oil men are willing to pay their fair and equitable share of taxes, but will insist that the federal, state, county, local and school governments cut out every unnecessary expenditure. The tax load must be reduced as much as possible."

Taxes Discussed

He discussed his opposition to gasoline taxes and to proposals to increase this tax.

"Gasoline is no longer a luxury," he declared. "It has become a necessity."

Fell also described a move by coal operators to place both state and federal taxes on fuel oil in Pennsylvania.

"Taxes should be for revenue," he shouted, "and not made to protect an industry at a competitive disadvantage so it can compete with another industry."

"In our endeavor to save democracy for the world, let us be sure we don't lose representative government for ourselves," Fell urged.

Proposals for construction of a pipeline from the Midland area to serve St. Louis, Chicago and New York markets were discussed briefly, but no action was taken. All operators agreed the Permian Basin oil industry should demand more.

James Fitzgerald, Jr., chairman of the meeting, suggesting the group become an "audible minority" in the effort to attain the equality it desires.

"All we want is an even break," he added.

Mayor M. C. Ulmer delivered an address of welcome at the opening of the meeting. Operators from several Permian Basin communities attended the affair.

Germany Lauds Sweden For Allowing Passage

BERLIN (AP). — Sweden's decision to allow a German mission to cross her territory on the way to Finland and Russia was regarded in Berlin Thursday as a "significant and friendly act."

An authorized spokesman said the Reich was pleased and there was now substantial evidence that "in sympathies, Sweden is on our side of the fight to prevent a westward surge of Communism."

Lose No Time in Sowing Perennial Flower Seeds

If perennial flower seeds have not been started, no time should be lost in sowing them. The climate is not always favorable to the often advised practice of sowing perennials in mid-summer and it should never be followed if there is any way to avoid it.

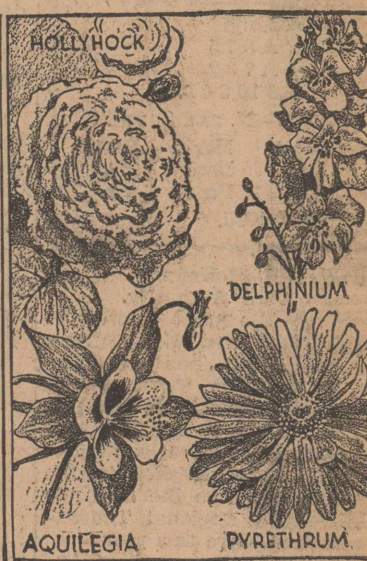

A seed bed in a partly shaded place, but not directly under the leaves of trees, is the place for perennials. They must be grown all this year for flowers next season, so that there is advantage in sowing them in the open border, and hazards are substantially reduced by growing them in a seed bed, somewhat elevated from the surrounding surface and protected by a wooden curb around it.

To prepare a seed bed select a location sheltered from the full force of both wind and sun if possible. Spade up the soil thoroughly and see that the top soil is pulverized as fine as in a seed box.

If the soil is heavy lighten it by mixing in torped sand. Heavy soil which crusts easily is a poor medium in which to sow seeds. It should be easily firmed over the seeds, to enable the tiny roots to penetrate downward without resistance, while the sprouts emerge to the surface without struggling with a hard crust or heavy clods.

Plant food may be applied not exceeding 1 pint to a bushel of soil. Delphiniums and Hollyhocks are the tallest perennials which no perennial border can well do without. When it comes to those of medium height ranging between three and four feet, there is a wide selection. These, however, form the mainstays for sheets of bloom at various times during the season. For the earliest display, starting in mid-May, are the tulips wax and wane, come the pyrethrums or painted daisies and the columbines.

In the latter there is a wide latitude as to blooming season, extending from late April through July. The pyrethrums come all at once in great sheets of bloom for a month, with later scattering bloom.

Four Perennials Easily Grown from Seed.

Pyrethrums are one of the finest of cutting materials, the long-stemmed daisies, sometimes growing three feet tall, keeping for days when cut. They range in color from pure white to palest pinks, rose, scarlet, maroon and crimson.

When seeds are sown in the summer, it is good practice to cover the seed bed with a piece of wet burlap to keep the bed moist until the seeds germinate. In sowing, take care not to sow too thickly. Fine seed may be mixed with sand to sow them more evenly in the row, using 2 or 3 times as much sand as there is seed. Large seed may be placed individually to avoid crowding plants.

Seedlings must be transplanted as soon as they have reached 2 or 3 inches in height and in mid-summer the nursery row to which they are moved should be slightly shaded in a location where water may be supplied when needed. Many of the annual flowers which are wanted in the garden can be moved there directly from the seed bed.

Laughs In The Legislature

AUSTIN (AP). — Rep. Fred V. Klingeman of Karnes County plainly was in a lather. He had lost something and wanted it returned. He hurried to the microphone and interrupted proceedings of the House.

"Mr. Speaker," he told Speaker Homer Leonard of McAllen, "I had a copy of W. Lee O'Daniel News on my desk and it is gone. I would greatly appreciate its return."

He paused, then added: "I don't care about the O'Daniel News. But it had a telephone number on it."

The cost of seersucker suits and the language which "country boys" can understand figured in House deliberations the other day.

Rep. Dorsey B. Hardeman of San Angelo was presiding temporarily as speaker and Rep. Jimmy Phillips of Angleton took exception to "big words" which Hardeman used.

Phillips loudly objected: "Get down to the level of us country boys."

Hardeman just grinned, but Rep. Mark (Hop) Halsey of Lubbock came to his defense.

"If Jimmy is going to be a country boy," Halsey snapped into the loudspeaking apparatus, "he ought to quit wearing those \$90 suits."

"Who ever heard of seersucker costing \$90?" roared Phillips.

By William E. McKenney
America's Card Authority.

Because of the great interest of Randolph Scott and Ned Turner, tournament bridge has advanced rapidly in Memphis, Tenn., during the past year or two. They convinced the American Contract Bridge League that a sectional championship should be established in the Memphis territory, so the first annual Mid-South Regional Tournament was held there this year.

The open pair winners were Andrew McKenney and E. M. Woodworth of St. Louis. The team-of-four was won by C. P. Williams of Anadarko, Okla., Ben Fain of San Antonio, Tex., John Gerber and Paul Hodge, both of Houston, Tex.

While I did not have an opportunity to visit the tournament, Russell Baldwin, the tournament director, sent me an interesting hand played there.

At most of the tables, West reached four spades. Whether North opened a diamond or the jack of hearts, the contract was set, because in addition to the three aces the defenders won at least one heart ruff. In discussing it afterwards, the players called this a "hard luck hand," especially since one East-West pair luckily got the opening lead of the club ace followed by the three.

But this was a lucky hand for all the pairs who bought the contract for four spades! Only one North-South pair ventured to "save" by bidding diamonds, and they were agreeably surprised to find that a small slam was made with little effort—six trump tricks by North, plus two ruffs by South, plus three club tricks, and the ace of hearts.

McCahey Boy Scouts
To Farr Encampment

MUSTANG BOYS' CLUB COLUMN

Some more questions about the sea. Answers tomorrow.

1. What must a sailor do before he can change from a green land-lubber to a salty sea-going water dog?
2. What port in the United States do sailors like best to visit?
3. What terrible punishment, now unlawful, was given to sailors in the old days by their shipmates for double-crossing or dirty-dealing?
4. How many feet in a sea mile?
5. What does a sailor usually eat when he is placed in the brig (jail) in solitary confinement?

The Mustang volleyball team took the North Side playground girls team "to the cleaners" Wednesday night, winning three games out of five. The Mustang clan is the only

team that has beaten these fair Amazons this year, but the girls claim this cannot and must not happen again. Another set of games will be played soon. Boys playing were: Lomer Green, Cecil Smith, Robert Wheeler, Fritz Schottlander, Ike Ditzgerald, Donald Merritt, Red Roy, Ula Tisdale, Tom Tisdale, Corbie D. Friday. Girls were: The Misses Barrington, Grace Collier, Johnnie Collier, Kinsey, Flannery, Johnson, Friday.

We urge every member of the softball team to show up Friday at 4:45, to go to Odessa for the game. We leave at 5 and play at 6.

GERMANY LOSES CRUISER
IN BATTLE WITH BRITISH

BERLIN. (AP.) — The German high command announced Thursday that the German auxiliary cruiser Pinguin, which had been raiding shipping in the Indian Ocean, had been lost in a battle with the British cruiser, Cornwall.

DEFENSE BOND QUIZ

Q. What happens if I suddenly need the money I put into a Defense Savings Bond?

A. You can cash your bond at any time, after 60 days, for the full amount paid, plus any interest due you.

Q. Do many bond owners cash their bonds?

A. No. People want to help arm America against all attacks. In many cases, people are putting every cent they can spare into Defense Bonds and Stamps. Some are doing this by asking employers or banks to withhold part of their salaries in order to buy these bonds or stamps for them.

Note.—To purchase Defense Bonds and Stamps, go to the nearest post office or bank.

Flashes Of Life

By The Associated Press.

CLYDE, N. Y. (AP.) — Small fry found an "ice cream mine" in the village dump—a cigar box crammed with "free" sticks used by an ice cream company which freezes ice cream on a stick, the last lick something revealing that its holder gets another one on the house. They were tossed by error into the wastebasket and thence to the dump.

Confectioners reported a rushing business, one admitting he had accepted 150 "free" sticks.

Thief Service Victimized.

ST. LOUIS. — A burglary was reported at a downtown office. Thieves had obtained \$68.72 from one cash box and an undetermined amount from another.

The victimized office was headquarters for a thief protection service.

Bat What Have You?

TACOMA, Wash. — The thief probably was disappointed with the loot he took from the car of Robert Goodwin, University of Washington professor.

Goodwin reported 60 blue books, college final examination papers, were gone. None had been graded.

Long Ranger.

CHICAGO. — Arnold Witt really scoots around.

The 16-year-old youth rode his motor scooter the 125 miles from his home in Watertown, Wis., to Chicago on one gallon of gasoline. And he still had enough left to scoot around and see some of the sights.

Autry To Stage Big Rodeo Show

ARDMORE, Okla. (AP.) — Gene Autry, Oklahoma's singing cowboy who has been sitting on top of Hollywood's fan mail heap for quite a spell now, plans to seek new laurels with the "finest rodeo show in the world."

Autry announced he had virtually completed negotiations for the purchase of a 1,500-acre ranch 11 miles northeast of here to be used as headquarters for his show, which he expects to take on the road by next fall or spring.

Autry, who left Thursday for Hollywood, added that he would spend between \$50,000 and \$75,000 building up the troupe, which would be

Croatia May Fight By Side Of Germany

ZAGREB, Croatia. (AP.) — Croatia is "ready at any time to fight to the last soldier for the country that freed her—Germany," Dr. Ante Pavelic, Poglavnik, or Puchter of the new Croatian government, declared Thursday in an interview.

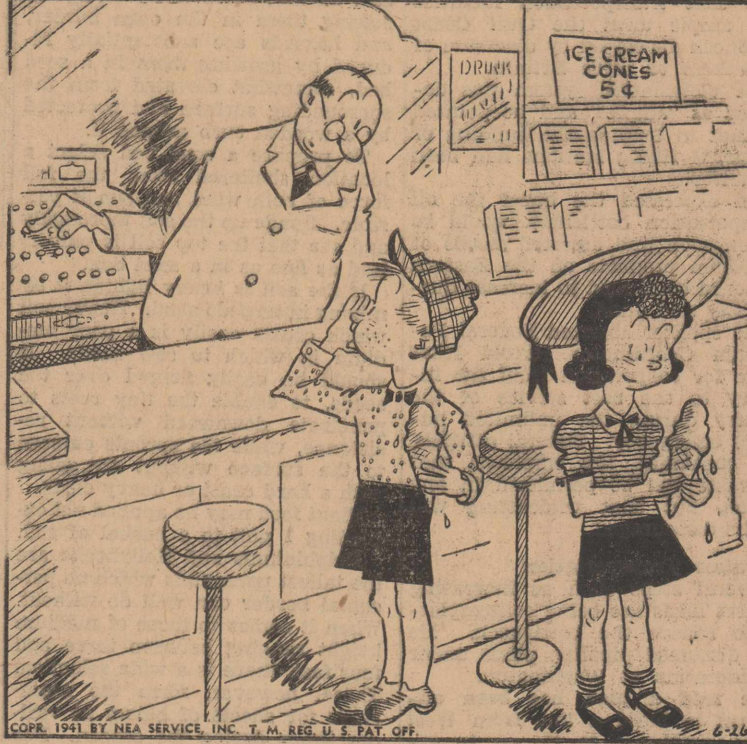

quartered at the ranch.

Autry said he also hoped to develop eventually a dude ranch in connection with his rodeo headquarters.

He explained that he selected Oklahoma for the base largely because it was "centrally located and not too severe in winter nor too hot in summer." He added that he also wanted to be back among his Oklahoma friends, many of whom knew him during the days when he was a telegraph operator.

Free French Leader Charges Aged Marshal Gave Up Month Before Signing Armistice

General De Gaulle Relates Story In Jungle Of Africa

By Ben Lucien Burman
(Copyright, 1941, NEA Service)
BAZZAVILLE, French West Africa. — From the jungle heart of Africa, General Charles de Gaulle charges today that Marshal Petain was beaten before he took supreme command of the retreating French army on May 23 of last year.

"France is done; we must surrender"—that, according to de Gaulle, was the aged Petain's plea to war-time Premier Reynaud nearly a full month before the Franco-German armistice.

This revelation was made in an exclusive interview which General de Gaulle, legend-shrouded leader of "Free France", granted to me on the palm-fringed banks of the Congo.

For the first time General de Gaulle—a tall tower of a man, solemn and measured in his words—told for publication the full story of the incredible chain of events which led him to divorce himself from the Vichy government and to start the Free French movement.

"I Love My Country And My Countrymen"
"There was no other way," he stirred his tea in reflection. "It was not a matter of minutes, not a matter of a quick decision. The debacle was long in coming. I saw it arriving. More than that, I saw the debacle being prepared."

He sat there for a moment. He is an extremely quiet man—far more the reserved Englishman than the popular conception of a gay, electric Frenchman. He is a shy figure, obviously accustomed to thinking a lot in solitude.

His blue eyes grew troubled. "I am very reluctant to say what I am going to tell you," he said, "but I love my country and my countrymen. The life of France and of the world is at stake. The truth must be told no matter whom it touches. As you remember, Marshal Petain took over supreme command of the army as minister of war on May 23. All France believed that he was going to rally all the great powers of the country to resist the Germans. This was his duty. But unfortunately for the world his actions were exactly the contrary. Petain's Attitude

"Beyond Belief"
"At that time I was in the war office of the Reynaud Ministry. I shall never forget the occasion when Petain arrived for his first conference with Reynaud. To my astonishment, instead of advancing plans for halting the enemy, with his first words he urged that Reynaud ask for an armistice.

"We are finished," he said. "We must capitulate."

"Remember, this was the 23rd of May—almost an entire month before the armistice—when the resisting powers of France were still enormous. From that moment on, every time he saw Reynaud—at every slightest opportunity—he continued to repeat his plea: 'France is defeated; we must give up.'

"Even if matters had been going well instead of badly, the psychological effect would have been disastrous. For a general supposed to be defending his country and for an officer of the French Army, whose tradition was to die before

Marshal Petain . . . "We are finished," he said. "We must capitulate."

surrender, his attitude was beyond belief."

Defeatism Of Petain.

General de Gaulle turned to speak to his adjutant, who came in with a message, then went on quietly. "I know that honor in these days has become a platitude, but it is not merely a word to be found in the dictionary. If there is to be no faith in sacred promises, I do not see how a civilized world can be possible."

"I tried to argue with Petain and one of my colleagues in the War Office joined me. 'France must resist,' we pleaded. 'We have promised England that we would fight to the end. Whatever happens, we must keep our word. Moreover, there is no reason for despair. We have lost some battles, but we have not lost the war. It is not the first time that France has been invaded and won in the end. The situation was desperate at the Marne in the last war but France did not surrender. Even if the Germans sweep across all France, we can fight delaying actions as long as possible and then carry on the fight from the colonies. The war has really just begun.'

"But each time Petain would deny us. 'You are young,' he would tell

Gen. Charles de Gaulle . . . "I saw the debacle being prepared."

us, again and again. 'What you are saying is silly, puerile. I am an old and experienced military man. And I know that England is finished. The war is over.'

"And so, when he became head of the Government and had the power, he asked for the armistice."

Could Play Role Only In Defeat.
I asked General de Gaulle if he could advance any explanation of Petain's extraordinary conduct. He read a telegram which his adjutant brought to him and went on thoughtfully: "Any explanation is in the personality of Petain himself. I have known him for a long time. Much of my military life has been spent in close association with him."

"You must remember that Petain is of the old French military school, brought up on the traditions of the Franco-Prussian war

of 1870. He used the same tactics in the war of 1914. When the mechanized war of 1939 arrived, he still could not see any difference. He tried to fight it with a strategy that was 70 years old."

Leaves London

Madame H. Wellington Koo, wife of the Chinese ambassador to Great Britain, arrives by ship from Lisbon. She will stay in New York.

Talks Warlike

Whole world is about to plunge into war, warns Hideki Tojo, above, Japanese minister of war, as tension between his country and Dutch East Indies reaches new pitch.

ing the death blow to Russia and thus free herself of a rear-door check on her expansion southward.

Tydings Predicts Trends Will Ease Far East Tension

WASHINGTON, (AP). — A prediction that Germany's attack on Russia would immobilize Japan at least temporarily and thus ease the tension in the Far East came Thursday from Senator Tydings (D-Md.) as congressional leaders gave further study to this country's position in relation to the latest Nazi campaign.

Tydings, who is chairman of the Senate committee on territories and insular affairs, told reporters he considered it unlikely that Japan would move southward toward the East Indies or become an imminent threat to the Philippines so long as the success of the Nazi smash into Russia remained in doubt.

Beyond that, however, he said that if it became apparent that the Germans were about to score another conquest, Japan might join in deal-

Texas Gets \$8,000,000 From Building Program

WASHINGTON, (AP). — Secretary Knox reports contracts totaling \$38,677,944 have been signed and letters of intent have been issued for \$41,000,195 additional in the Navy's half-billion program to expand the nation's shipbuilding facilities to meet the emergency demands.

Among the twenty-six states which had received "direct and substantial benefits" from the program, Knox said, were Texas, \$8,626,200.

BELIEVES SESSION WILL CONTINUE INTO 1943

AUSTIN, (AP). — Senator Weaver Moore of Houston was a vigorous opponent of the House recess plan.

"It's cruel and unusual punishment," he contended, "not only to the legislature—but the people have got some rights."

Moore supported a motion to postpone until January 25, 1943, a bill by Senator Houghton Brownlee of Austin.

"It's a perfectly good motion," Moore insisted. "There's no doubt we're still going to be here on that date."

Berlin Says Battleship Returns To German Port

NEW YORK, (AP). — The German pocket battleship Admiral Scheer has returned to a German port after a long Atlantic cruise in the course of which she sank 152,000 tons of shipping, the Berlin radio reported Thursday in a broadcast heard by CBS.

The broadcast said the announcement was made by the German high command. The 10,000-ton Admiral Scheer was said to have sunk 86,000 tons "when attacking and destroying a whole convoy."

VESSEL WITH SURVIVORS ENTERS MISSISSIPPI

NEW ORLEANS, (AP). — Carrying nine crew members of the torpedoed American merchant ship Robin Moor, the S. S. Deltargentina of the Mississippi Shipping Company, entered the Mississippi River early Thursday on its last voyage before being turned over to the Maritime Commission.

The \$3,000,000 combination passenger and cargo vessel made a special trip to Recife, Brazil, to pick up the survivors of the Robin Moor which was torpedoed in the South Atlantic May 21.

Among those taken aboard were N. D. Rice, Bowie, Tex.

Missionary Is "Still Sailing"

Mr. and Mrs. R. O. Walker Tuesday received a wire from their missionary son, Dr. Glenn Walker, now en route to Nigeria, Africa, saying that all were well and "still sailing." Accompanied by his wife and two small children, Dr. Walker sailed from New York May 14 or 15 on the Egyptian ship, El Nil, with the expectation that the trip would take 28 days. The boat was scheduled to follow the same route as the ill-fated Zamzam. Dr. Walker did not explain the cause of the delay which has extended the sailing time.

He is returning to his missionary work in Nigeria after a year's furlough.

Worry of FALSE TEETH

Slipping or Irritating
Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FAS-TEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH (APV) today! APV'S PATENT

MY DADDY'S SORE AT THE WHOOZIS COMPANY BUT HE'S GETTIN' EVEN WITH 'EM

IS THAT SO - HOW? WELL, HE SAVED UP A WHOLE LOT OF THEIR LABELS-

-AND WON'T SEND THEM IN FOR THE PREMIUMS

PUNKINS SAYS: The H. & H. GROCERY COMPANY offers real premium food values that save you money and keeps your budget balanced. If you have never shopped the H. & H. way, come in and be convinced.

Food that satisfies, at prices that satisfy, with service that satisfies.

Personals

Mrs. Emma West is here from San Antonio for an extended visit with her daughter, Mrs. I. E. Daniel.

Mrs. C. E. Allen of Mercedes is visiting her mother, Mrs. W. E. Shipp.

Mr. and Mrs. N. A. Moore have returned from Austin where they attended the wedding of a niece, Miss Emogene Neill to Leonard Lundgren. The marriage took place in the First Methodist Church at Austin at high-noon Saturday. Mrs. Lundgren will be remembered in Midland from a visit made here sometime ago.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorders of kidney function permit poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pain, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
