TRADE BODY FACES SUIT

Posse Closing In On Negro Slayer

OFFICERS SURROUND FILLMORE DAVIS IN OKLAHOMA

(By The Associated Press)

WATONGA, Okla., July 3.—A posse of officers and citizens this morning was closing in on a negro at the Graham farm, six miles northeast of here, believed to be Fillmore Davis wanted for slaying recently of Guy Jarvis, Blaine county deputy sheriff.

Sheriffs and deputy sheriffs in all northern Oklahoma counties were advised the negro was believed surrounded on the farm and rushed to the scene. At Enid it was said the sheriff and deputies left immediately after being notified.

A posse of several hundred officers and men formed a cordon about the farm since 4 a. m., when it was learned the negro was supposed to be there.

Jarvis was killed and George Genders, another deputy, was slightly injured when they attempted to arrest Davis at the farm home of his former wife near here, on a charge of stealing gasoline.

The negro fled in Jarvis' car which later was found near Cleo Springs and residents reported seeing the negro near there.

Heat Wave Death Toll Is Boosted

(By The Associated Press)

Although the first summer heat barrage was believed waning, the toll of deaths attributable to the heat continued to grow.

Throughout Illinois there was general relief, but that state continued to lead with 86 deaths during the past 24 hours. Ohio was second with 30 deaths, and Indiana third with 28.

The total deaths throughout the United States yesterday, including drownings and two killed in electrical storms, was estimated at 213, bringing the toll of the entire wave to 1,231.

Airline Extension Is Announced Today

NEW YORK, July 3. (AP)—American Airways announced today that on August 1 it would open an extension air line between El Paso, Tex., and Albuquerque, N. M.

The line will connect the existing line from Texas to the west coast and the one from New York to the west, enabling transfer of mail from one continental line to another in case of emergency. Passengers will also be carried and there will probably be one plane each way daily.

TOKYO FLIERS PLAN HOPOFF

ROBBINS AND JONES TO LEAVE TOMORROW ON REFUELING HOP

(By Associated Press)

SEATTLE, Wash., July 3—Reg L. Robbins and H. S. Jones, Fort Worth, aviators, checked the motor of their white monoplane here today in preparation for taking off tomorrow on a non-stop refueling flight to Tokyo and a $25,000 prize.

They said they hoped to start about 3 o'clock tomorrow morning on the attempt to win the award of the Japanese newspaper Asahi for the first non-stop flight from the United States to Tokyo.

The hopoff here hinges on the safe arrival in Fairbanks of their tri-motored refueling ship, scheduled to fly from Edmonton to the Alaska city today. It is piloted by J. J. Mattern of San Antonio.

Under present plans the Robbins plane will refuel over Fairbanks and Solomon, Alaska, and don the Siberian coast, the trimotored ship to accompany it across Bering strait.

The fliers said if their venture was successful they had a "sneaking hunch" they might try to fly back again in an endeavor to win a $25,000 prize offered by Seattle business men for a flight to this city from Japan.

"If we do not attempt this venture," Jones saidd, "we intend to fly across Europe to Paris and ship the plane to New York."

GILDA IMPROVES

* * *

Gilda Gray, famed as the creator of the "shimmy," is recovering, in New York, from a heart attack, which at first was feared to be severe. This picture was taken at the height of her dancing career.

CONSTRUCTION PROGRAM TO BE RUSHED

TREASURY WILL SPEND OVER $100,000,000 ON BUILDINGS

By The Associated Press

WASHINGTON, July 3—Planning to spend more than $100,000,000 on public buildings, the treasury has entered the 1932 fiscal year prepared to carry on as speedily as possible its huge construction program.

It holds $90,000,000 to be spent for federal structures and expects congress to appropriate additional funds needed to meet the program expanded to alleviate unemployment and to take advantage of low material costs.

To Purchase Sites

Of the amount on hand, $85,000,000 will go for construction and sites outside the District of Columbia, $5,000,000 for acquisition of sites in Washington.

The expanded program, which is under Assistant Secretary Heath, was carried on at a cost of approximately $72,000,000 in the year just closed. Outside the District of Columbia the government spent $60,000,000 for sites and construction while in Washington it spent $12,000,000.

As the year ended the treasury had completed 113 buildings at a cost of $36,897,362, had let 170 contracts for other buildings which will cost $99,000,000 and had paid $29,000,000 for its Washington projects. It had called for bids on projects which will cost $68,000,000.

Plans Being Drawn

Sites have been selected and drawing of plans started for 173 other buildings which will cost the government about $178,000,000. Besides these projects there are pending about 150 others in which sites for new buildings have not been

PROGRAM HERE WILL BEGIN TONIGHT

ENTERTAINMENT TO BE VARIED IN PLAINS TOWNS TOMORROW

Lubbock observance of the Fourth of July will begin tonight with a baseball game at Merrill park and trek of members of the Lubbock American Legion post to a barbecue at Two Draw lake near Post, and will continue tomorrow with a motorcade to Plainview's All-Plains celebration, a rodeo and dance at Johnston's ranch, baseball, several dances and an American Legion picnic here, and countless private outings.

Banks, city and county offices, the postoffice, and most barber shops and retail houses will be closed here throughout Independence day.

Postmaster John L. Vaughan said stations at Texas Technological college and Hemphill-Wells department store would be closed all day. Only collections of mail will be at 10 a. m. and 6 p. m. in the business district, he said.

Dances Scheduled

A breakfast dance will be held at the Hilton hotel. Other Fourth of July dances here will include one at the Uptown Dance palace.

Explosions of firecrackers began here early this week. No restrictions will be placed on the use of pyrotechnics in residential sections but fireworks will be banned in the business district, Chief of Police John Lemon said.

The South Plains Independence day program includes barbecues, rodeos, baseball, races, water sports, singsongs, speakers, and fireworks.

Baseball Tonight

Playing under lights at Merrill park for the first time, Lubbock Hubbers will meet the Amarillo Aviators here at 8:15 o'clock tonight in the first tilt of a two-game series. The two clubs will play another game tomorrow night, climaxing the Fourth of July here.

South Plains towns planning celebrations include Plainview, Crosbyton, Lorenzo, Lamesa, Muleshoe,

FLIERS ARE TO RECUPERATE

POST AND GATTY WILL VISIT WHITE HOUSE ON NEXT MONDAY

(By The Associated Press)

NEW YORK, July 3—A nation's appreciation is to be shown Wiley Post and Harold Gatty for their flight around the world. A weekend yachting trip will enable them to recuperate from the rigors of the flight and the enthusiasm of New York City's welcome. And on Monday they will go to Washington to be President Hoover's guests.

Eventually congressional honors are in store for them. Senator Hiram Bingham of Connecticut, said last night at a dinner in the fliers' honor that he would introduce a resolution awarding them congressional medals.

Before a week-end of rest the fliers had to do a little more of their specialty, fly the Winnie Mae from Roosevelt field, Long Island to Floyd Bennett airport, Brooklyn, where it will be on public exhibition for three days.

The fliers were guests of the Detroit Aircraft corporation at the dinner in the New York Athletic club last night. Among the guests were three other round-the-world travelers—Lieut. Leslie Arnold, U. S. A.; John Henry Mears and Col. E. S. Evans. Also there were Amelia Earhart, trans-Atlantic flier; Dr. James S. Kimball, weather forecaster for fliers; Elinor Smith, aviator; F. Trubee Davison, assistant secretary of war in charge of aviation and Clarence Young, assistant secretary of commerce in charge of aeronautics.

President Hoover wired the fliers at the dinner telling them America is proud of them and praising their striking contribution to aeronautical progress.

Permission Given To Fly In Russia

WASHINGTON, July 3. (AP)—Reg. L. Robins, of Fort Worth and H. S. Jones of Chicago have been authorized by the Soviet government to fly over Siberia on their projected flight from Seattle to Tokyo.

Unofficial Washington representatives of the Soviet announced the permission asked for the flyers by Senator Sheppard, Democrat, of Texas had been granted.

MONASTERY IN SPAIN RAZED BY MOBS

ANTI - RELIGIOUS RIOT ENDS IN BATTLES WITH OFFICERS

(By The Associated Press)

CORUNNA, Spain, July 3.—Burned by a mob of about 3,000 men and women, the Capuchin monastery of San Jose was in smouldering ruins today and its priests were hiding in fear of further anti-religious outbreaks.

The city was under rigid military control with troops and civil guards patrolling the streets.

Incensed by the resumption of masses in the morning, the mob swept out of a bull ring where they had listened to anti-church addresses and set fire to the monastery. Firemen who tried to save the building were stoned and clubbed and had their hoses cut. The monastery burned to the ground along with four adjacent homes.

The arrival of armed forces was the signal for a pitched battle. The troops charged with sabers and rifles and the rioters countered with stones, sticks and knives. The mob was finally driven back while flames devoured the monastery, built four years ago at a cost of $50,000.

Part of the rioters raced to other parts of the city and attempted to fire the Jesuit college and Dominican monastery, but were thwarted by the vigilance of the authorities. Three persons, including a priest, were seriously wounded during the night and about nine others slightly hurt.

Advices from other parts of Spain indicated that labor and political disorders were brewing. Troops paraded a show of strength in Seville to cool the ardor of radical republican adherents. Malaga and Logrono writhed under martial law. Telephone workers were ready to strike in Madrid.

Railway Charge To Be Aired July 14

AUSTIN, July 3 (AP)—Charges that the Rock Island has refused to provide box cars and divide revenue have been made by the Sanford and Northern, a one and one-half mile railroad in Hutchinson county and will be aired at the term of the railroad commission starting July 14. The Rock Island connects with the Sanford and Northern at Sanford.

The short road runs from Riverside to a gravel pit.

According to Rock Island officials, the Sanford and Northern was a subterfuge and built by the owners of the gravel pit to haul their gravel. In the event the Sanford and Northern is upheld, between 40 and 50 gravel pit operators could build lines to their pits and obtain a division of the freight revenue they said.

Assault Charge Is Filed In Shooting

DALLAS, July 3. (AP)—A charge of assault with intent to murder was filed today against Chester A. Achilles, who is sought in connection with the shooting and serious wounding yesterday morning of Mrs. Kathleen Achilles, his estranged wife, and J. W. McCulley.

Police continued their search for Achilles here and also enlisted the aid of San Antonio authorities in the belief that he might have gone there.

Defense Theory Heard In Abilene Girl's Heart Balm Suit; Kissing Cited

(By The Associated Press)

ABILENE, July 3.—Introduction of defense testimony was resumed in district court here this morning in the $50,000 breach of promise suit of Margaret Roberts against Louis Keel, New Mexico youth, who is alleged to have wooed and won the blonde Abilene girl—then married another.

Matt Blanton, son of chief defense attorney, Rep. Thos. L. Blanton, and himself associated with defense counsel, was the first to testify. He denied having asked and been refused a date by plaintiff, as she alleged from the witness stand yesterday.

Blanton was followed on the stand by the wife of the defendant who testified, among other things, that she found and destroyed a letter and picture of the plaintiff, when she and her husband returned to Roswell after their marriage. She testified the letter asked a loan of $75.

Bob Sellers, next defense witness, testified to being in a car with Miss Roberts and Buford Free.

"Did you see him kiss her?" he was asked.

"Yes", was his answer.

Miss Roberts has emphatically denied accusations she has kissed other boys.

Plaintiff's attorneys, cross-examined Sellers asked him what he was doing when he saw Free and Miss Roberts kiss.

"All I could do," he answered.

"What was that?"

"Driving with one arm." (Laughter).

Miss Roberts mother, Mrs. T. E. Roberts, who testified yesterday for the plaintiff, was closely questioned as to her part in the suit. It was alleged in Keel's answer to plaintiff's petition that Mrs. Roberts had instigated the suit. Witness denied this.

Suits May Echo Ardmore Slaying

THE WORLD'S SUPER SALESMAN "SALESMAN SAM" A Daily Feature

MILLION DOLLARS ARE ASKED IN PROPOSED DAMAGE CASES

(By Associated Press)

SAN ANTONIO, July 3.— Suits asking $1,000,000 damages for the slaying of Emilio Cortez Rubio, kinsman of Mexico's president, and Manuel Gomez, Mexican college students, who were slain several weeks ago at Ardmore, Okla., may be filed against the state of Oklahoma and the sureties on the bond of the sheriff of Ardmore, M. C. Gonzales, San Antonio attorney, said today.

Gonzales represented the Mexican government at the recent trial in Ardmore, Okla., of W. E. (Bill) Guess, deputy sheriff who was acquitted of the slaying of Cortes Rubio. Cecil Crosby, the other deputy charged with the slayings, has not yet been tried.

Two Suits Planned

The attorney said today that he was waiting word from relatives of the slain youths preparatory to filing in federal court two suits, each for $500,000, on behalf of the respective families of the slain youths.

Salvador Cortes Rubio, companion of the two students on the night of the killing, informed Gonzales after the trial of Guess that the families of the two desired him to file damage suits, according to Gonzales. Since that time Gonzales has awaited some official word from the families before drawing up the suits.

Rubio and Gomez were slain after they had been stopped by the two deputy sheriffs on the night of June 7.

The contemplated action of the relatives is independent of any action of the Mexican government, Gonzales said.

Octogenarian Dies Of Fractured Hip

A fractured hip which J. L. Fisher, 81, suffered while playing with a small boy at Amherst, led to the octogenarian's death at 6 o'clock this morning in a local sanitarium. The body was sent to Amherst this afternoon by Rix Funeral home.

Fisher was received at a sanitarium late Wednesday following his injury that day. The body will be at Amherst until a daughter arrives from California, when it will be sent to Mullins, Fisher's former home.

While the civil war was under way, Fisher settled in the Mullins vicinity in 1862 and lived there until recently when he went to live with a son at Del Rio. He was visiting a son at Amherst when the accident occurred.

Survivors are:

Four sons, Henry and Bob Fisher of Amherst, John Fisher of Del Rio, and Ben Fisher of Pampa, and a daughter, Mrs. Mary Baker of Bakersfield, Cal.

JUNE RAINFALL BELOW NORMAL

The mercury skyrocketed to 105 degrees here June 13. Minimum temperature for the month was 53 degrees. Precipitation here in June was only .95 of an inch as compared to a normal of 2.51 inches.

The monthly summary of weather conditions by D. L. Jones, superintendent of the state experiment station here, records that and additional information.

Average mean temperature last month was 78.9 degrees. Maximum and minimum relative humidity was 73.3 per cent and 36.5 per cent, respectively. Mean relative humidity was 48.2 per cent.

There were 18 clear days, 10 partly cloudy days, and 2 cloudy days.

Precipitation here from January 1 to July 1 was 7.73 inches as compared to normal for that period of 8.34 inches, total departure from the average being .61 of an inch minus.

Total wind run was 5,953 miles, normal wind run 6,024 and total evaporation 10.289 inches.

Double Accident Is Almost Fatal

SAN ANTONIO, July 3 (AP)—A double accident almost brought death to E. W. Rahls in his home today when he slipped in his bath room, striking his head on a gas jet, turning it on.

Knocked unconscious by the blow on his head, Rahls lay on the floor breathing the deadly gas fumes for several minutes before he was rescued by his wife.

FARMERS BODY AT AMARILLO PLANS SUIT

TO TEST VALIDITY OF FARMERS RIGHTS IN PROPOSED ACTION

(By Associated Press)

AMARILLO, July 3.—Plans to file suit against the board of trade of Chicago "to test the constitutional rights of farmers" were announced here today by Judge L. Gough, president of the Farmers Protective league, newly organized farm group with headquarters in Amarillo.

Judge Gough said the suit would be filed "before the summer is over."

"We are planning an organized effort to stop the manipulation of grain prices by the operations of a small group of speculators," Judge Gough said. "It is a well known fact that five men control the price of wheat in America. We do not know their names because they are designated by numbers in reports of speculation in wheat futures. They will be named defendants in the suit, along with the board of trade."

The petition will ask that the names of these men be divulged, that they may be restrained from speculating in wheat futures, and that damegs be paid members of the league in the Texas Panhandle, eastern New Mexico and Western Oklahoma.

Judge Gough is organizer and past president of the Texas Wheat Growers association.

Three Horns Stolen From High School

Three horns valued at $300 were stolen from the old Lubbock High school building Tuesday and Wednesday nights, police were notified last night. The instruments, a baritone and two trombones, were used in the Westerner band.

Dwain Rogers of 1701 Thirty-fourth street and Dykes brothers of 2120 Broadway were owners of the horns.

Fifty feet of black hose recovered by police has not been identified by the owner, Chief of Police Lemond said. The hose has a connection joining two pieces.

A man arrested last night by police for abusing his wife. Police were summoned.

Two boys arrested yesterday in connection with robbery of the Logan filling station, Texas Avenue and Thirteenth street, of $26.09 were released yesterday afternoon after being questioned by police.

Discontinuance Of Trains Is Allowed

AUSTIN, July 3. (AP)—The railroad commission today authorized the Southern Pacific to discontinue trains 221, 22, 223 and 224 between Spofford and Eagle Pass and to substitute therefor round trip mixed train service with San Antonio-Eagle Pass pullmans.

The change will become effective Sunday. The commission said representative Eagle Pass residents had not opposed it.

PROSPECTS FOR ACCORD ARE BRIGHT

MELLON GIVES HOPES TO AMERICANS OVER TELEPHONE TODAY

(By The Associated Press)

PARIS, July 3.—There are fairly reasonable prospects that accord between the French and American negotiators will be achieved by tonight, a person in authority said this afternoon.

This informant declared that no agreement on the Hoover war debt plan had yet been completed.

WASHINGTON, July 3 (AP)—The hope and expectation that a Franco-American reparations agreement would be reached before nightfall was expressed by American officials today after a telephone conversation with Secretary Mellon in Paris.

No amplification of the expression was given.

The conversation, unlike most of those which have gone before, was carried on from the executive offices at the White House with Acting Secretaries Castle of the state department and Mills of the treasury and Chairman Meyer of the federal reserve board participating.

Hoover Absent

The president was absent from the room while they discussed with Secretary Mellon the latest developments. He talked over his plan for a war debt suspension with the cabinet at its regular meeting which was under way while the telephone conversation was going on.

After its adjournment one cabinet officer said the president was "very much happier over the outlook than he was a week ago."

One official who has been close to the negotiations said he expected the remaining differences between the French and American views would be smoothed away before tonight. No definite announcement was looked for, however, until the conference between French

CHURCH WARNS DEMOCRATS

METHODISTS DECLARE SOUTH WOULD VOTE AGAINST "WET"

(By Associated Press)

LAKE JUNALUSKA, N. C., July 3—A warning went out today from spokesmen of the board of temperance and social service of the Methodist Episcopal church, South, that if the Democratic party adopts a wet platform or nominates a wet in 1932, it may face the same opposition in the south as it did in 1928.

Four states of the Democratic south in the 1928 presidential election voted majorities for the Republican candidate against Alfred E. Smith, the Democratic nominee, who favored modification of the dry laws.

Cannon Gives Views

Bishop James Cannon, Jr., who fought Smith in 1928, asserted here last night at a public meeting of the Methodist board that Smith and John J. Raskob, national Democratic chairman, were endeavoring to have the party take a wet stand in 1932. He said the board, of which he is president, asked him to state the position of the Methodist church on prohibition.

"If the Smith-Raskob program is adopted," he said, "the south 12 months from now will be faced with the same problem as in 1928. And I can not believe that those southern people who put moral principle above party regularity in 1928 will fail to take exactly the same position, if compelled to do so, in 1932."

FIGHT HYSTERIA GRIPS CLEVELAND AS SCHMELING-STRIBLING BOUT AWAITED

(By Associated Press)

CLEVELAND, July 3—Fight hysteria gripped Cleveland today as thousands of fans whiled away the hours before the gong sends Young Stribling and Max Schmeling smashing at each other for the heavyweight championship tonight.

Hotels were choked with fight fans, millionaires and newspapermen. Early in the morning automobiles poured into the city from all roads, bringing fans by the hundreds. Others were coming by special trains, airplanes, and even by yacht.

The rank and file of fightdom took it seriously, too. A line formed this morning in front of the windows where 10,000 general admission tickets were offered at the $3 minimum.

The weather relented from the oppressive temperatures of the last week. Cooling breezes from Lake Erie dropped the mercury down into the 70's. The prediction of thunder storms tonight was still good, but the fight will go on unless there should be such a downpour that the contenders can not be seen.

Schmeling money was being brought into town and the odds were shifting toward an even basis. Stribling overnight was a 10 to 9 favorite.

ADD YOUR BIT TO THE MILK AND ICE FUND TODAY! TOTAL NOW IS $133.92

Steadily climbing as Lubbock responds to the needs of its unfortunates, the Avalanche-Journal's Fifth Annual Goodfellows' Milk and Ice fund topped $133.92 this afternoon. Here's the tabulation:

Previously Reported	$123.50
J. T Linmon, Corporation judge	2.50
Miss Ruth Young, 1632 13th street	1.92
Bill Levine, Levine's store	5.00
Mrs. B. B. Baldwin, Dallas	1.00
TOTAL	$133.92

Let's finish the job as soon as possible, assuring $200 for the operation of the fund throughout the summer months. Send YOUR donation or bring it, in person, to the Avalanche-Journal today. Just ask for the Milk and Ice Editor and he'll do the rest.

"VOLUNTARY PARENTAGE" BY BIRTH CONTROL APPROVED BY CHURCH BODY

(By Associated Press)

SEATTLE, July 3.—The newly organizel general council of the Congregational and Christian churches was on record today as approving "voluntary parentage" through birth control.

By a nearly unanimous vote, the convention yesterday indorsed findings of a seminar committee favoring birth control. The delegates expressed themselves in resolutions on several other present-day problems.

They included a stand in favor of recognition of Soviet Russia, taken after Colonel Raymond Robins, New York, made a plea which swung the delegates away from an attack on communism by the Rev. J. Burford Parry, Wellesley, Mass.

Participation by the United States in the League of Nations and the World Court was urged.

The findings favoring birth control endorsed the stand taken by the federal council of churches committee.

"We believe in the right of children to be wanted and the right of husbands and wives to assume parenthood," it read. "Therefore, we favor the principle of voluntary child bearing, believing that it safeguards physical union and safeguards the well being of the family and society."

Hobo Party Is Gala Affair For Young People; Visitors Here Honored

Doctor Myers' Daily Column On Child Welfare

DR. MYERS

BY GARRY C. MYERS, PH. D.
Head Division Parental Education Cleveland College, Western Reserve University

WED TO STAY PUT

AS ONE who has been married for nineteen years I shall presume to offer some advice to my young friends who are thinking seriously concerning marriage.

Now that you are sure you love each other, carefully consider whether you believe you always will. If you are looking for happiness, you want to plan ahead with great care.

Don't set out with any doubts. Marry to stay married. Nothing contributes so much to peace of mind as security nor to the want hereof as uncertainty.

Does the one you love come from a family you always will be glad to welcome in your home? Will he or she fit well into the customs and ideals of the family in which you grew up? Is the one you love secure in his or her home? Do his or her parents get on well together?

Can you and your fiancee settle matters of difference without excitement? Have you learned to talk over such things calmly and with reason? Have each of you found it easy to be faithful to each other over a period of a few years?

* * *

Once a pair are mutually pledged such mutual fidelity ought to be a good reason to expect such fidelity after marriage. So far as you are concerned your private pledges to each other are the most important; the marriage vow is a mere formal matter.

If you are to school yourselves for a happy married life you will, during your engagement-period, not stoop to childish conduct. Each of you toward the other will observe all the dignities, nice amenities and considerations worthy of your honor.

Conventions have their value to those with character enough to live by them. You doubtless would not choose a mate who to your knowledge had had sex experience out of wedlock. You would want, therefore, to prove to your mate the same guarantee. It is a narrow sportsmanship which makes one expect in the other he wishes to marry a higher standard of habits and ideals than he had himself maintained.

If you are mutual lovers really and truly you will guarantee to each other freedom from venereal disease.

* * *

The bride a virgin until after marriage, and the bridegroom who had lived accordingly, have ahead of them favorable opportunities, all else equal, for a happy life together. Self-discipline in accordance with the best accepted social restraints and conventions are exceedingly valuable for building the kind of character which will contribute toward marital happiness.

All these new-fangled theories about marriage are convenient means of getting social approval for violation of what have proved most valuable for family happiness. There is no royal road to marital felicity that endures. Always there must be discipline of self and a constant effort at cultivating sportsmanship.

No matter how much you love each other now you will need some children in your home to enjoy all the happiness you deserve.

May you, if you marry, stick together lovers and sweethearts to the end.

EDITOR'S NOTE. Two pamphlets by Dr. Myers may be obtained by sending 10 cents a coin, for each, and a self-addressed, stamped envelope, to Dr Garry C. Myers, in care of this paper, or Central Press Association 1433 East Twelfth street, Cleveland, O. The pamphlets are: "Punishments and Rewards" and "Fear."

Large Bridge Fete Honors 2 Visitors

Among the events of Thursday were several affairs for visitors in Lubbock and a gay hobo party for a group of young people at the Country club.

Hosts for this latter event were Charles Maedgen and Robert Overton. Those who attended took a hay ride to the Country club where they roasted weiners and marshmallows and ate a picnic lunch that had been carried by individuals in bandana knapsacks.

The lunches were prepared, tied in the bandanas and fastened to sticks so that the guests could carry them in hobo fashion.

Dr. and Mrs. M. C. Overton, Mr. and Mrs. C. E. Maedgen and Miss Evelyn Jennings accompanied the party.

Guests included Misses Charlotte Ratliff, Elizabeth Spencer, Marguerite Spencer, Katherine Klett, Kathryn Weaver, Eleanor Crenshaw, Janet Hambright, Anseth Jones, Josephine Powell, Sue Michie, the hosts and Wayne Prather, Franklin Maddox, Richard Godeke, Robert Strickland, Carl Maxey, Clarence Mast, Mike Crenshaw, Billy Dykes, T. D. Allen and Buster Moxley.

Miss McCrery Has Party Thursday

Complimentary to Miss Martha Twyford of West Union, West Virginia, and Miss Elizabeth Evans of Mangum, Okla., Miss Jonnie McCrery entertained Thursday evening with an eight-table bridge party in the P. R. Friend home, 2005 Broadway.

High scores were made in the games by Mrs. Mary W. Doak and Dude Buster. Low scores were made by Miss Ruth Rix and Carl Svensen. Favors were presented to the honorees.

Luncheon Honors Miss Lucia Eaton

Miss Lucia Eaton, who is visiting here from Mineral Wells, was extended another courtesy Thursday when Miss Sara Rather entertained with a one o'clock luncheon in her home at 1625 Broadway. Miss Rather was assisted by her mother, Mrs. Clark E. Sloan, in entertaining.

A silver bowl of daisies was used as a centerpiece for the table, which was lighted with yellow tapers.

Guests were Misses Rosemary Leaverton, John Anna Boyd, Virginia Hodges of Shreveport, La., Wanda Butler, Maxine Clark and Frances Snyder.

Miss Eaton, who is the guest of Mr. and Mrs. John Dalrymple, is to return to her home on Sunday.

Mrs. D. Abbott Has Ace Hi Club Party

Mrs. Richard Hooper of Paris was a special guest Thursday afternoon when Mrs. Dick Abbott entertained members of Ace High club in her home at 2001 Main street. Mrs. Allan Webb made high score in the games of bridge and received a favor. A guest favor was presented to Mrs. Hooper.

Others in attendance were Mesdames A. D. Montgomery, C. A. Nowlin, Hugh R. Norman, Charles Files, Lola Shuey, V. R. Plummer, J. D. Shaw, Elmer Price, E. Paul Carter, Paul Reed and C. W. Ratliff.

Mrs. Campbell Gives Picnic Thursday

Mrs. R. C. Campbell entertained a small group with a picnic at the Country club Thursday evening, complimentary to Rev. Campbell on his birthday. Those who attended were Mr. and Mrs. J. D. Carroll, Mr. and Mrs. John Porter, Miss Phyllis Pool, Miss Juanita Pool, Miss Hazel Kokanour, Miss Carnes, Jot Smyth, jr., Julia Irene Carroll and Dorothy Sain of Big Spring.

Theatre Party Given For Small Girls

Mrs. J. Hooper Stiles entertained Thursday afternoon with a theatre party for her daughter, Wanda Ruth, on the latter's eighth birthday. Favors were presented to the guests with the refreshment course.

Guests were Jackie Davis, Miriam Webb, Nancy Lou Skulkey, Laura Jean Renner, Mary Heard, Mary Minon Stangel, Jean Bardwell, Ruth Overton, Rose Alta Smith and Leila Ray Allen.

Mrs. Raymond Allen and Mrs. W. M. Fulbright accompanied the group, also.

Child Is Born To Mr. And Mrs. E. Ing

Announcements have been received here telling of the birth of a son, Dean Charles, to Mr. and Mrs. D. Emory Ing, in Austin, on June 17. Emory Ing is the son of Mr. and Mrs. J. Homer Ing, 1912 17th street.

Watch For Your Name;
Free Lubrication Job!

Dr. I. E. Barr, bring your car to Beacon Master Service 13th St. and Ave. L or phone 2000 and we will come and get your car. You have a Firestone specialized lubrication job coming FREE any time you want it. It is the best and most complete you can get anywhere. We don't have to prove it—the job itself will prove it. Adv

R. W. Walker Home Is Scene Of Party

Earl Walker and James Kimmell entertained for several of their friends Wednesday evening in the R. W. Walker home at 216 30th street, assisted by Mrs. Walker.

Various games were enjoyed and refreshment course was served carrying the colors of green and gold.

Those who attended were Gordon Sanders, Kendrick Green, Fiser Middleton, Harry McCarty, J. L. Stimson, Bob White, Norma Smith, Nollie Emerson, Grace Emerson, Marguerite Power and Mary Ross Edwards.

Alex McDonald Is To Prepare Picnic

Alex McDonald is in charge of lunch arrangements for the American Legion picnic Saturday, it was announced by Mrs. N. L. Peters. Those who attend will not be expected to bring any food, she said, although it was originally announced that Legion Auxiliary members would bring cakes and salads.

Slumber Party Is Given For Society

Members of the Calvary Baptist Y. W. A. were the guests of Miss Irma Lois Harris, 1801 20th street, Thursday evening for a slumber party. The group motored to the County park this morning for a sunrise breakfast.

Those in the party were Misses Martha and Jennye Mae Whittaker, Agnes McCullough, Gertrude and Gladys Schantz, Violet Bratcher, Lillian and Vivian Syfrett, Lois Marie Wilkins, Roberta May, Rosa Lee Syfrett, Pearl Jackson, Evelyn McCrummen, Edna Muriel Lewis, Mary Alley, Nilia Bess Sprawles, Imogene Mullins, Mrs. C. J. McCarty and Mrs. O. F. Riddlehoover. Mrs. Riddlehoover is sponsor of the auxiliary.

Rev. and Mrs. Earl M. Nowlin and son, Jimmy, spent Thursday night with Mrs. Nowlin's parents, Mr. and Mrs. George R. Bean, 1614 19th street, leaving today noon for their home in Anson.

LOCALS

Mrs. Dannie Walton of Beaumont is visiting with her brother, Jot Smyth, and family. She is accompanied by her granddaughter, Dorothy Sain, of Big Spring.

Mrs. N. H. Sims and daughter, Marjorie Ann, of Albuquerque, N. M., are guests of Mr. and Mrs. T. M. Carter, 2305 Broadway.

F. W. Reedy, of Wichita Falls, has returned to his home after visiting during the week with Mr. and Mrs J. P. Edgar.

Addie Lee Clark, 10, Is Given Party

Addie Lee Clark, 10, was given a birthday party Thursday afternoon by her mother, Mrs. Etta Clark, in their home.

Games were enjoyed for several hours and an ice course was served to the following guests: Maisie Coon, Juanelle, Sylvia and Bobbie Doss, Joy Norwood, Lorene Jones, Erlene Hardy, Addie Lee and Thurman Clark.

Mrs. Wilson Gives Club Bridge Party

Several guests played bridge with club members Thursday afternoon when Mrs. Maple Wilson entertained for members of Congenial club in her home at 2409 Broadway.

Mrs. H. L. Allen scored high in the games among the club members playing, Mrs. Altus Sansom scored high for guests and Mrs. R. L. McAllister was high in a cut.

Members playing were Mesdames Vernon Brown, Byron Brown, Bode S. Adams, Allen, Rufus Rush, Charles Rush, R. B. Borders, W. H. Crunk, Tom J. Foster, H. E. Miller, McAllister, Howard Pearson and C. E. Slaton.

Guests included Mesdames M. C. Butler, J. H. Hankins, Sansom, Grady Watkins, F. H. Sawyer of Waycross, Ga., H. E. Kimbell and C. O. Gwyn of Topeka, Kansas.

John R. Hall, 2020 Main street, is in Plainview and Dumas on business.

Camp Fire Girls Are In Work Meeting

Sunowa Camp Fire girls attended a meeting Wednesday afternoon at the organization headquarters, devoting the time to songs and work toward higher ranks. Those who were present were Jeanette Kelly, Ruth Holland, Ethel Green, Virginia Cook and Fern Hollanc.

Miss Spikes Is At Home For Society

Miss Alma Spikes entertained Sans Souci at 1613 Broadway. Mrs. Ross McWhorter scored high among the players and Mrs. John Edmisson was second high.

Other members present were Mesdames Lewis Price, Weldon Hankins, Lorenz Ellis, Pierce Magee, Clarence Wiginton, Lovie Thompson, Misses Anne Snyder, Nancy O'Neall, Ruth Slaton, Grace Jennings, Blanche Bradley and Virginia Conley.

Miss Frances Conley and Miss Lee Barwell were guests.

Mrs. W. L. Baugh Is Hostess For Party

Mrs. W. L. Baugh was charming hostess to members of Six and Six club in her home at 1810 13th street Thursday afternoon and games of forty-two were enjoyed by those who attended.

Members present were Mesdames Temple Ellis, Fred Spikes, J. A. Wilson, W. R. Spencer, John Richards, J. C. Street, F. M. Maddox, Charles S. Middleton, K. Carter.

Guests were Mesdames John Dalrymple and Clyde Elkins.

Finances Discussed At Lodge Meeting

Members of Rebekah Lodge discussed finances Thursday evening at a regular weekly meeting in the new hall on Texas avenue. This was a regular business meeting of the organization.

Officers will be installed at the meeting next Thursday evening.

SIMILARITY BETWEEN ROASTING COFFEE AND COOKING FOODS

"A Little at a Time" Is the Secret for Securing the Finest Flavor

Foods generally taste better when cooked in small quantities. For then the cook can mix her ingredients properly, also control the heat.

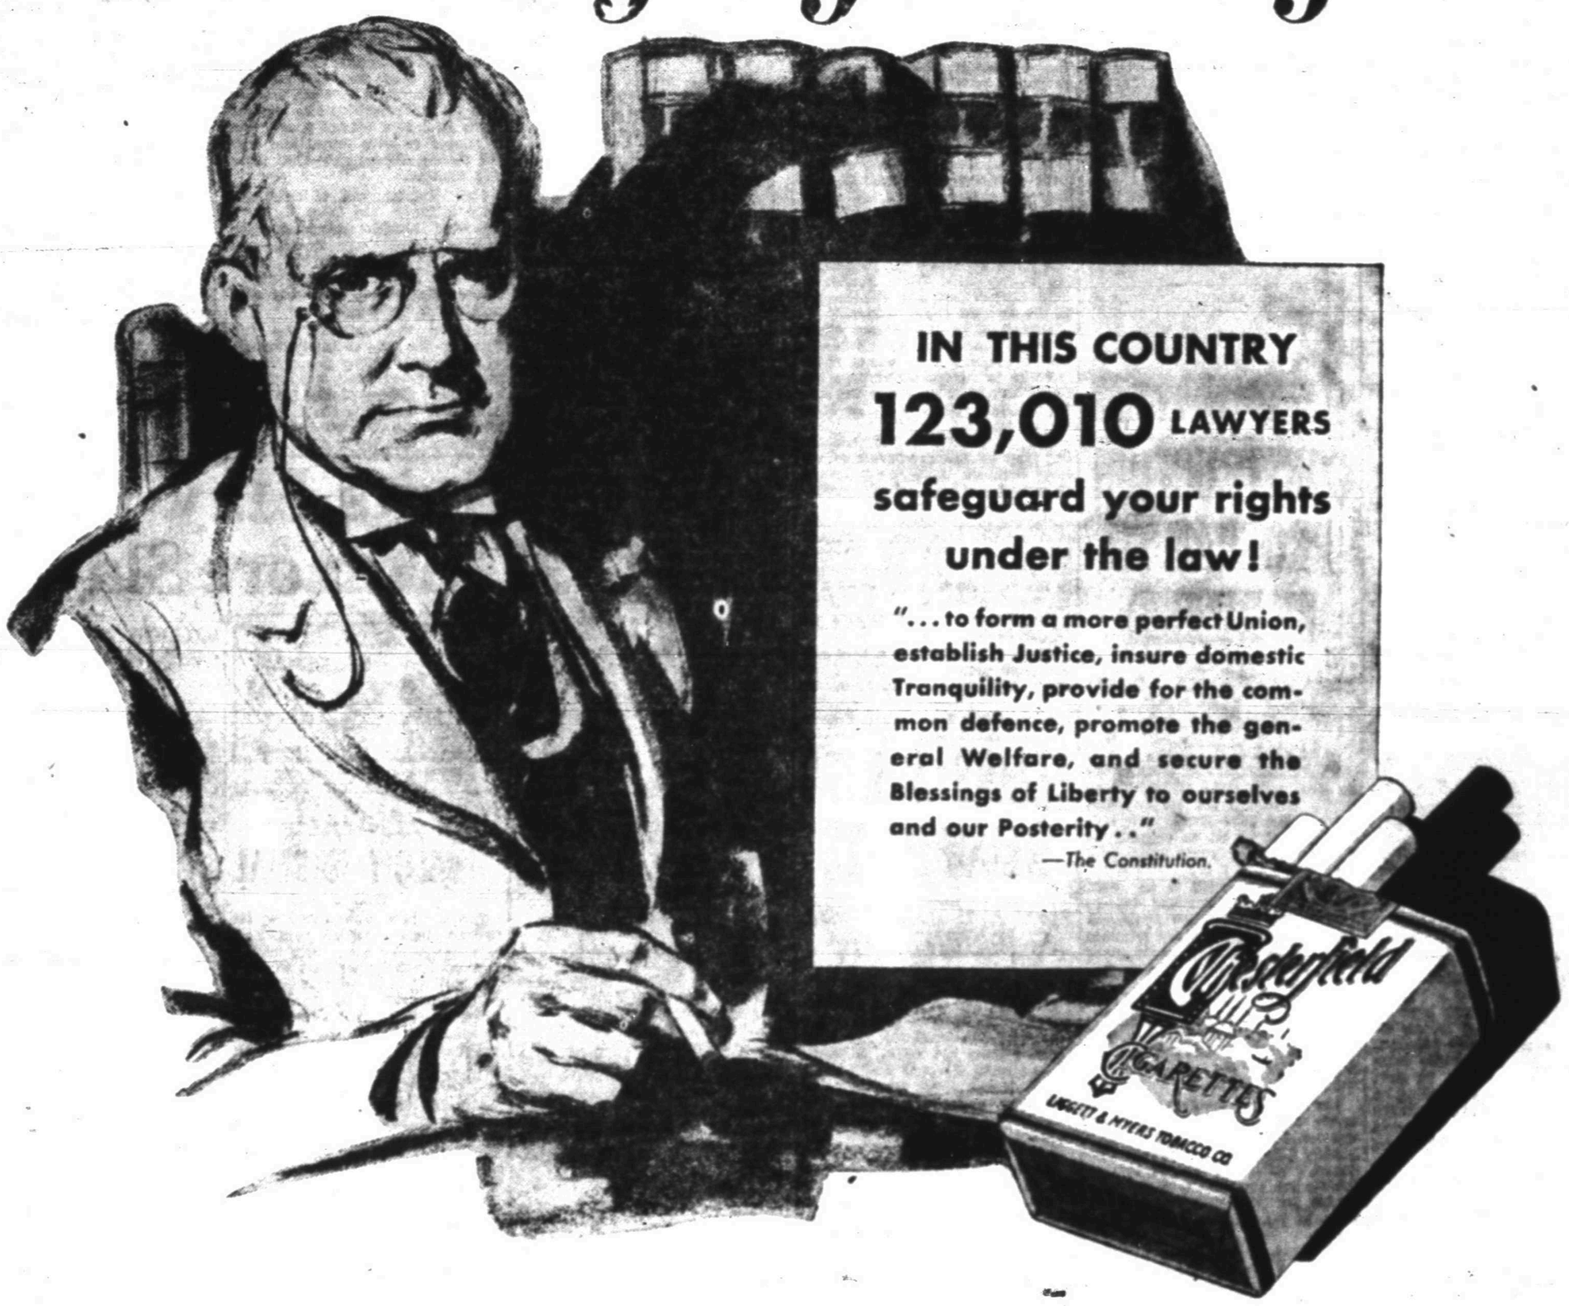

When coffee is roasted in small quantities, the same thing is true. But when coffee is roasted in bulk—as most coffees are—exact control is lost. Under-roasting and over-roasting very easily occur. This method being so unsatisfactory, caused Hills Bros. to look for some improvement—some way to roast their rare blend to uniform perfection. They experimented for years, and eventually invented and patented Controlled Roasting.

As the accuracy of the hour-glass depends upon an even, continuous flow . . . a little at a time . . . so the fine, uniform flavor of Hills Bros. Coffee is produced by Controlled Roasting—the patented process that roasts evenly, continuously . . . *a little at a time.* Marvelous unvarying flavor results in every pound. For no berry is underdone nor overdone.

Hills Bros. Coffee is always fresh. It is packed in vacuum cans. Air, which destroys the flavor of coffee, is removed and kept out of these cans. Ordinary, "air-tight" cans won't keep coffee fresh. Order Hills Bros. Coffee today. Ask for it by name, and look for the Arab trademark on the can.

Hills Bros. Coffee, Inc., Kansas City, Missouri. © 1931

Good—*they've got to be good!*

You can settle this out of court

Every cigarette is its own best witness. LET CHESTERFIELD SPEAK FOR ITSELF.

They're MILDER . . . you can smoke as many as you like.

They TASTE BETTER . . . you KNOW that the minute you light up. MILD RIPE TOBACCOS—the best that money can buy, aged right, blended right.

PURE CIGARETTE PAPER—the purest made.

Right there CHESTERFIELDS rest their case with YOU.

CONSTRUCTION HOLDING UP

TEXAS MAINTAINING STEADY PULSE OF NEW BUILDING

DALLAS, July 3 (AP)—The year 1931 turned the halfway mark with Texas cities maintaining a steady pulse of new construction which, although in most cases somewhat less than during the similar period of 1930, indicated business conditions were maintaining an even keel of development.

Houston ranked at the top of the list with a total of $6,700,000 in new construction for the period. Dallas was second with $5,292,352, and Fort Worth third with $3,292,778. San Antonio boasted a total of $1,434,284 for the city proper, but taking account of construction at army posts there, excluding Randolph field, listed a total of $2,196,800. The Dallas yearly total included $1,740,721 for public utilities construction in the last quarter of 1930.

Cities reporting totals for the six-month period were:

Houston, $6,700,000; Dallas, $5,292,352; Fort Worth, $3,292,778; Galveston, $1,650,041; San Antonio, $1,434,284; Austin, $1,194,307; Beaumont, $792,736; Port Arthur, $568,401; Corpus Christi, $320,325; Brownwood, $285,535; Pampa, $152,400; Sherman, $132,900; Corsicana, $66,785; Wichita Falls, $57,022; Plainview, $36,800; and Gainesville, $24,150.

AVIATION FIRMER TODAY THAN EVER BEFORE, CLARENCE YOUNG BELIEVES

BY OSCAR LEDING,
Associated Press Aviation Editor

WASHINGTON, July 3 (AP)—Aviation, to the nation's chief of civil flying, is firmer today than ever before.

Clarence M. Young, assistant secretary of commerce for aeronautics, gave voice to optimism today as he reviewed the industry's progress at the beginning of a new governmental year and the halfway mark of the calendar year.

Depends On Use

"Aviation has begun to see its way out," he said, "with progress still dependent to a substantial extent on increased use of aircraft for mail, express, and passenger travel.

"Air transportation is just shaping itself into an organized system. We must not forget that while the Wrights first flew nearly 28 years ago, air transportation in organized form is little more than two years old.

"There can be no question of its ultimate development since already we may go, for instance, one-half way across the nation between breakfast and dinner or accomplish the entire trans-continental trip within 36 hours.

Passengers Increase

"The number of passengers using scheduled airlines has been constantly increasing and there should be two times as many, or nearly a million people, who will travel by air in the current year.

"Aviation is on a firmer premise. Manufacturers and operators have realized that their business is no exception to the age-old laws of economics and they are going about its development in employing the same methods practiced in other fields of endeavor.

With about 35 manufacturers building 80 per cent of the planes, he said, aviation's manufacturing side is shaping itself along the lines of automobile production.

So far as accidents are concerned, he states "they are in no sense peculiar to air transportation alone although one might get that impression by the amount of attention they receive.

Dentist Wounded By Mysterious Shots

HOUSTON, July 3 (AP)—Mysterious shots fired from a speeding automobile resulted in a young dentist being wounded critically last night.

With two bullet wounds in his abdomen, Dr. J. T. Botthoff, Pelly dentist, was found lying in a pool of blood beside the Westheimer road one mile west of Postoak shortly after 11 o'clock.

NEWLYWEDS FOUND

SEATTLE, July 3 (AP)—The newly weds have been found. The Rev. J. E. Judson and his bride, Mrs. Minnie Kennedy, mother of the evangelist, Aimee Semple McPherson, were located here.

Propose Delay In Opening Of Bridge

EL PASO, July 3 (AP)—Opening of the international bridge between El Paso and Juarez at 10 a. m. instead of 6 a. m. is proposed by W. J. Moran, labor newspaper publisher, here as a means of relieving unemployment.

Speaking before the city's general unemployment committee, Moran said about 1800 Juarez residents entered El Paso daily to work, and if the bridge were opened at 10 a. m. unemployed of El Paso would get the jobs of such residents.

The committee took no action on the proposal.

A plan to ask El Paso manufacturers and business houses to give part time employment to persons out of work and qualified to fill jobs was approved.

Vanderbilt Files Reply To Complaint

RENO, Nev., July 3, (AP)—Cornelius Vanderbilt, Jr., filed a reply to the cross complaint of his wife, Mary Weir Vanderbilt, placing the divorce action originated by Vanderbilt in a position which would permit its going to trial at any time. The reply is a denial to the allegations of cruelty made by Mrs. Vanderbilt, which are according to the statute and which give no details.

SCHOOL TEACHER FREED

ATHENS, July 3 (AP)—Burton Hughes, former Henderson county school teacher, was acquitted last night by a jury of responsibility for the slaying of Dempse Reese, who was shot April 4 at a school trustee's election.

CENSUS BUREAU HAS TO SLOW DOWN ITS POPULATION ESTIMATING CLOCK

WASHINGTON, July 3. (AP)—The census bureau has had to slow down its population estimating clock.

It announced today that the population of the country is now increasing only one every 36 seconds as compared with one every 23 seconds a few years back. The clock is being adjusted accordingly.

While heretofore there was one birth every 13 seconds, a death every 23 seconds, an immigrant arrival every one and one-half minutes and an emigrant departure every five and one-half minutes, records for 1930 and the first three months of 1931 showed a marked slowing down in all factors figuring in the computation.

The new computation is based on one birth every 14 seconds, a death every 22 seconds, an immigrant arrival every 12 seconds and an emigrant departure every seven minutes.

The net result is a slowing down of population growth equivalent to a difference between an annual increase of 1.2 per cent as indicated by the former computations and an annual increase of .7 per cent as indicated by the more revised data.

The revised figures placed the total population of the United States on July 1 at 124,069,651. Former computations would have set the figure at 124,833,818.

PHILOSOPHER DIES

COPENHAGEN, July 3 (AP)—Professor Harold Hoffding, described as the most versatile philosopher since Spencer, died today at the age of 88.

SHE ISN'T TOO OLD

LONDON.—Believed to be England's oldest woman, Mrs. Elizabeth Hasler, of South Primrose Hill, Chelmsford, has just died. Mrs. Hasler was 105 and, at 102, became the nation's youngest flapper. She had her hair bobbed at that age. She is survived by eight children, 35 grandchildren, 59 great-grandchildren—a total of 106.

DIES OF WOUND

LAREDO, July 3 (AP)—Horacio Martinez, 11, died today from a bullet wound in the head. He was injured at a ranch near Nuevo Laredo while playing with a small-caliber rifle.

Had Awful Bearing Down Pains

"Better after First Bottle"

"AFTER my little girl was born, I was in an awful condition. I had bearing down pains and had to lie down a great deal. I read what other women had to say about Lydia E. Pinkham's Vegetable Compound.

"After taking the first bottle of your wonderful medicine I felt better right away. My pain is gone and the color is coming back.

"Every day I am getting stronger. I will answer all letters asking about this medicine"—Mrs. Gerald A. Ritchey, 1200 Johnson Ave., Portage, Pennsylvania.

SCHMELING WILL DEFEND TITLE AGAINST STRIBLING TONIGHT

HUBBERS TO MEET AMARILLO HERE TONIGHT

Collier Parris

SPYING ON SPORTS

Needless to say, it's a big day in the sporting world. It is doubly big for Lubbock, for tonight at Merrill Park this town sees its first home-owned outdoor athletic contest when the new lights are turned onto a field occupied by the Lubbock Hubbers and the Amarillo Aviators in a baseball game. And there are enough fight fans in Lubbock to get quite a large kick out of the world's heavyweight boxing championship fight in Cleveland.

But don't let the fight and the fan-side radio keep you away from the ball game. A radio, two of them, as good as the one in your home, perhaps better, will be installed at Merrill Park tonight and while you watch the ball game you may hear the blow-by-blow report of the Schmeling-Stribling fight, the "Battle of Lake Erie."

Sport page readers will notice a decided turn in the betting odds against Stribling and for Schmeling in tonight's fight. We've picked Strib to win and we're not backing down now, though we would advise you to think twice, once about Stribling and once about Schmeling, before you place your salary on either. Schmeling is a good fighter. He proved it by winning over Johnny Risko, Joe Sekyra and Paulino Uzcudun, three fighters whose powers are not to be denied, since winning the world's championship by over Sharkey.

Strib has beaten equally good fighters during the past year, scoring quick knockouts over Otto Von Porat, Phil Scott, K. O. Christner and a decision over Tuffy Griffith. But Stribling has the greatest number of knockouts to his credit than perhaps any major fighter in history. He plans to slip the k. o. punch to Schmeling, but forecast a decision.

Those tall towers surmounted by great reflectors which in turn enclose high powered electric lamps out at Merrill Park look mighty good, and it is an effort to pass the time until tonight. The towers rise 55 feet into the air. Three of them have seven reflectors, each containing two powerful incandescents. The others have five reflectors. There will be 60 lamps in all and they will shed a light that will be as bright as daytime. They are not to be compared with the lights comprising the portable outfit brought here in May by the House of David club. The lights at Merrill Park will be twice as brilliant.

We were pleasantly surprised yesterday when W. H. (Jew) Keeling, former assistant coach at Lubbock High school and now head coach at Tyler High school, Kerrville's Class A school, dropped in. Keeling is in the midst of a vacation tour that will carry him from here to Carlsbad and back through South Texas. Keeling is highly optomistic over his prospects at Kerrville and believes he will be in the thick of things in the interscholastic league rate this fall.

This department made a gross mistake when we first announced Keeling's connections at Kerrville, and we sincerely regret it. We received a telegram from him in which it was stated that he had a head coach job in Class A competition at a junior high school in Kerrville. So we printed it, leaving out the "Class A" portion. Immediately there came not one but several kicks. Keeling had accepted the high school position there had a junior high coach and a second assistant to help him. We corrected the error once and are glad to do it again. Jow has the best coaching job in Kerrville, and we congratulate him again most heartily. After his vacation he will return here for the coaching school at Texas Tech, August 1 to 15.

Pete Cawthon, Tech head mentor, received a letter from Clyde Littlefield, University of Texas football and track head coach, in which Clyde said to put him down for a berth in the coaching school here in August. He is a firm believer in Wallace Wade and Jimmy Phelan, the coaches who will conduct the school during the first two weeks of next month, and has used their ideas to bring Southwest Conference titles to the University.

Cawthon received other letters yesterday in connection with the school. One was from Ad Lindsey, head coach at the University of Oklahoma. Lindsey will be here for the school. Other letters were from R. R. Robinson, coach at a college in Phoenix, Arizona; Coach Quigley of the Corpus Christi Municipal college and Coach Maus of Arkansas. Each will be here for the school, so they said. Letters come in daily to Tech's coach asking particulars about the school or stating the writers' plans to be present. The fact that S. D. (Sad Sam) Burton of West Texas Teachers and Jimmie Kitts of Athens High school will be here to conduct a basketball course is drawing many subscribers to the coaching school.

CHALLENGER IS FAVORITE TO WIN MATCH

FIFTY THOUSAND ARE EXPECTED TO SEE 15-ROUND BOUT

BY CHARLES DUNKLEY,
Associated Press Sports Writer

CLEVELAND, July 3. (AP)—Max Schmeling, world's heavyweight champion, will defend his title tonight against the challenge of that strong, wiry, young Georgian, W. L. (Young) Stribling, with the prospect of an attendance of 40,000 to 50,000, with receipts of $300,000 to $400,000.

The powerful German lad who somewhat resembles Jack Dempsey in facial features and ring characteristics, will battle Stribling 15 rounds or less in Cleveland's $3,000,000 concrete and steel stadium on the shores of Lake Erie. It will be the German's first defense of his crown since he won it on a foul in four rounds from Jack Sharkey a year ago.

Stribling Favorite

Stribling, the challenger, remained a 3 to 2 and 7 to 5 favorite to win the title, with very little betting, chiefly because there was very little Schmeling money in sight.

The battle may develop into a stirring fight or into a dull, uninteresting spectacle, depending upon the ring actions of the warriors. Both Schmeling and Stribling will step into the ring as well-matched physically as any two heavyweights who ever fought. There will be less than three pounds between them in weight. They will have practically the same reach and the same height. Both finished their training strong and in perfect condition. Stribling outmatches the champion almost in everything except aggressiveness.

Schmeling will depend upon two things for victory—an aggressive attack and a jarring right hand, a punch that is damaging when it lands. The German has trained himself to fight the only way he knows—to crowd it and punch at close range. If he elects to remain away from Stribling, and attempt to out-box him, he may be outclassed, but by charging in and forcing the issue, he hopes to keep Stribling so busy on the defensive that the Georgian will have little opportunity to start an offensive of his own.

Challenger Faster

Stribling possesses greater speed and superior boxing skill than the German; far greater experience in ring craft and cunning. He is a better left-hand hitter either to the head or body and has a right-hand that also carries dynamite. But the Georgian has the reputation of having displayed at times a faint fighting heart, and there is no way of judging his mental attitude for tonight's engagement. Stribling has yet to prove that he can come through with the pressure of a championship at stake.

Amid a perfect bedlam of commands by photographers to "face this way," "face that way," "smile and shake hands," Schmeling and Stribling weighed in last night in the studio of WTAM, Cleveland broadcasting station, with the proceedings going to listeners over a NBC network. The weights were officially announced as 186½ pounds for Stribling, with Schmeling scaling 189.

"It doesn't make much difference to me what I weigh," remarked Stribling as he jumped on the scales first. Then he turned to Schmeling and said with a grin, "we're going to fight anyway, aren't we?"

Weather Oppressive

While Stribling and Schmeling were resting in quiet retreats today, prayers went up from the fight fans for rain, for a cooling breeze, that would release them from terrific heat that has baked and par-boiled Cleveland. The weather remained oporessively hot but with indications that the heat wave might be broken by thundershowers before Stribling and the champion climb into the ring a few minutes after 9 o'clock (C.S.T.) tonight. The battle will be held as scheduled unless there is a terrific downpour forcing a postponement until tomorrow night.

BOTH FIGHTERS ARE CONFIDENT

CLEVELAND, July 3. (AP)—Young Stribling believes he will win the world's heavyweight championship by a knockout within five rounds.

Max Schmeling says he will retain his crown by knocking out Stribling within 10 rounds.

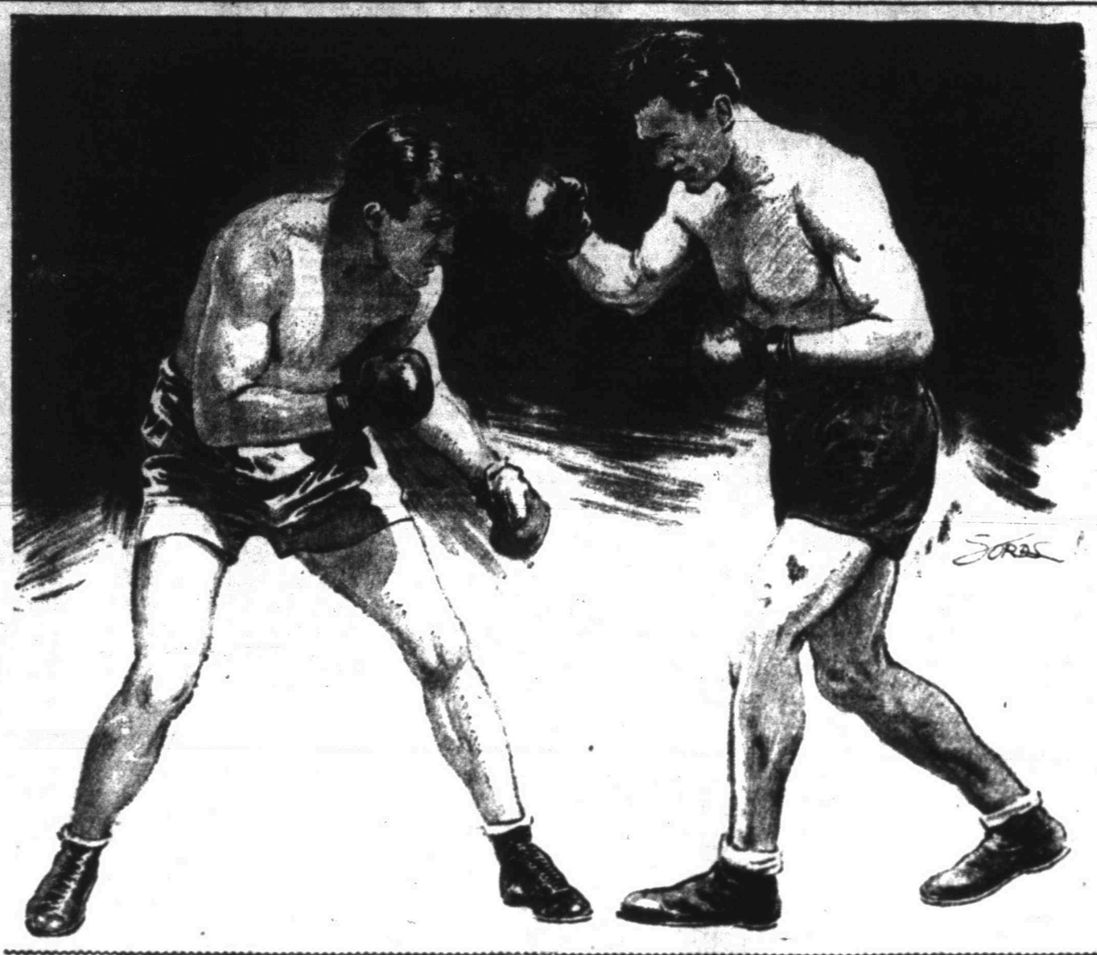

These were the pre-battle statements of the principals today.

"I am in perfect condition," Schmeling said, "and I never felt better in my life. I feel I will win and I will be happy then because I will have proved that I am a real champion. I cannot and will not lose. My plan of battle is simple—just to keep punching until I stop him. I am positive he cannot knock me out and that is his one chance of winning. Stribling has never faced a man who can hit as hard as I can."

"I have seen Schmeling fight," Stribling said, "and do not underrate his ability, but I think I can beat him, and that championship looks mighty good to me after 10 years of boxing. I have no set plans for the fight. I have paid no attention to anything they have told me about Schmeling. "I'll fight him the way I think best after I get in there. I can tell you one thing. I'll be throwing a lot of punches and putting everything I've got behind them. If I do not win, there will be no alibis. But I am sure I can win decisively."

Principals In Title Bout Tonight

W. L. "Young" Stribling, shown left, young Georgia challenger, tonight will seek to wrest the world's heavyweight championship from Max Schmeling, right, German title holder. The fight will be in Cleveland's new municipal stadium starting at 9 o'clock, Central Standard Time.

FOUR OF DARK HORSES LEAD

FAVORITES IN ANNUAL U. S. OPEN TRIAL CLOSE BEHIND

BY PAUL MICKELSON
Associated Press Sports Writer

TOLEDO, O., July 3 (AP)—Out in front of the National Open championship derby galloped a quartet of dark horses today but the twenty grands of golf were right behind them.

As the 72-hole chase for the most important stake of American golf charged toward the halfway post on the sun scorched Inverness course, the surprising pace setters got the cheers but the favorites still received the solid backing.

The leaders, who blazed to the front with the only par 71 score of the first 18-hole round yesterday were Herman Barron, Port Chester, N. Y., Mortie Dutra, Long Beach, Calif., Charlie Guest, Deal, N. J., and Eddie Williams of Cleveland, none of whom ever before caused any disturbance in National Open struggles.

Favorite Right Behind

Within the short space of but five strokes of the four leaders came 13 of the best shot makers in the game. One away was Al Espinosa of Chicago, who tied Bobby Jones in 1929 at Winged Foot and who carded the best round in the qualifying round of the open this year. Five others of international fame—Billie Burke of Greenwich, Conn., one of the big stars of America's 1931 Ryder Cup team; Billy Davies and Fred Robson, two of England's best marksmen of the links; Joe Turnesa, of White Plains, N. Y., a dangerous rival in any tournament, and MacDonald Smith of New York, who finished second at Interlachen last year—were still very much in the fight with comfortable 73's. Walter Hagen of Detroit and Gene Sarazen of New York, two of the heaviest played favorites, were in nice spots with 74's while the dangerous Tommy Armour of Detroit, Auguste Boyer of France, Leo Diegel of Agua Caliente, George Von Elm of Detroit and big Ed Dudley of Wilmington, Del., could not be counted out because of their 75's.

Others In Match

Several others, thoroughly capable of helping to give the championship the wildest finish in its 35 years of play, were sandwiched in with those 13. They were Henry Ciuci, Bridgeport, Conn., 73; Frank Walsh, Chicago, 73; Tony Manero, Elmsford, N. Y., 74; Bobby Cruickshank, Purchase, N. Y., 74, and Al Watrous, Detroit, 74.

Lott And Van Ryn Advance To Finals

WIMBLEDON, STADIUM, England, July 3. (AP)—George Lott, jr., and John Van Ryn, the United States leading doubles team and first seeded pair in the Wimbledon tournament today advanced to the final round with a straight set victory over George P. Hughes and Fred Perry of England. The scores were, 6-4, 11-9, 8-6.

Mrs. L. A. Harper and Mrs. John Van Ryn, the only American pair in women's doubles of the Wimbledon tennis championships were eliminated today in the quarter-final round by Betty Nuthall and Mrs. Eileen Bennett Whittingstall, 3-6, 7-5, 6-3.

BROWNS WIN IN HOME STAND

ST. LOUIS STEPS TO FIFTH FROM LAST PLACE IN GAMES

BY HUGH S. FULLERTON, JR.
Associated Press Sports Writer

At home or away, intersectional games in the American league seem to bring about the same results for all the clubs except the St. Louis Browns. A complete round of games with the eastern clubs of the circuit playing in the west, which wound up yesterday, brought just one big change in the standing.

The Browns, who started their campaign at Sportsmans park against the eastern invaders in last place, finished it yesterday a good fifth in the standing while the Chicago White Sox dropped from fifth to eighth in the same time. St. Louis won 12 games and lost five while the White Sox had only five victories to 12 defeats.

Others Unchanged

The rest of the standing remained about the same with the eastern division pulling slowly ahead.

Washington trouncing the Browns 13 to 5 in the final game yesterday, came home all square for the tour with eight victories and as many defeats.

The league leading Philadelphia Athletics took a 12 to 4 beating from Cleveland yesterday. The New York Yankees, aided by Babe Ruth's 19th home run, finished their tour with a 13 to 1 triumph over Detroit.

Tommy Thomas pitched Chicago to a final victory over Boston, holding the Red Sox to three hits while the Pale Hose won 2 to 0.

Twin Bill Today

In the National league, where a double header today between St. St. Louis and Philadelphia winds up the intersectional campaign, the Brooklyn Robins stood out as much as the Browns in their home stand. Outhit 10-5 by Cincinnati yesterday, the Robins bunched three doubles for three runs in the sixth inning and defeated the Reds.

Frank Hogan's home run and some expert fielding behind Fred Fitzsimmons enabled the Giants to reduce the St. Louis lead to 1 1-2 games with a 3 to 2 victory. The Chicago Cubs held their place three games behind the Giants by pulling out an eleven inning game with the Phillies by a 2 to 1 count.

Heinie Meine of Pittsburgh turned in the best mound performance of the many good ones in the National league yesterday as he limited the Boston Braves to five hits to gain a 1 to 0 decision in a duel with Bruce Cunningham.

EXPORTERS IN DOUBLE WIN

BEAUMONT FAILS TO CRACK AS SPORTS SCRIBES THOUGHT

BY BILL PARKER
Associated Press Sports Writer

When the first half Texas league pennant race dropped curtain, catching Beaumont and Houston in a tie, the under-current pennant wires had it that the Exporters had shot the works in the first half—that they would explode and be just an ordinary ball club in the second heat. Among those who watched the grand first half finish, were some who claimed Del Baker's hustling but very young ball club would crack under the strain.

If the Exporters are to stumble in the second half, they made a poor start of it Thursday when they opened their final lap with a double win from the Galveston Buccaneers 3 to and 1 to 0. Sixteen consecutive innings of baseball without a run being scored against them—that's everything but cracking. In the initial battle, Buck Marrow and Lefty Thormahlen hooked up in a pretty mound duel.

Home Run Wins

The Exporters faced Bill Harris, Galveston ace, in the nightcap and beat him 1 to 0 when Roy Fritz hit a home run in the second inning.

The Wichita Falls Spudders oeat the Fort Worth Cats 5 to 3 Thursday for their second straight win in the second half.

Cast-Offs Star

Two Dallas cast-offs, Ralph Erickson, southpaw pitcher, and Rip Radcliff, sometimes a first sacker, sometimes an outfielder, but always a hitter, played important leads when Shreveport defeated the Steers for the second consecutive time, the score being 7 to 6.

At San Antonio, the Indians had their "3 sign" on the Houston Buffaloes in the first game, winning 12 to 5, but pitcher Flinn went back to the mound for San Antonio in the second game for an iron man stunt, and failed to last through the fourth inning. The Buffaloes taking the second game 5 to 0.

THIS IS QUEER

ELDORADO, Kan. — Although most cats chase and kill chickens, Ada Ratley's pet cat has adopted a baby chick with its litter of three kittens. The cat devotes as much motherly attention to the chick as it does its own family. The chick gets a daily bath, administered by Mrs. Cat's tongue.

Berkeley Bell Is Favored In Match

ST. LOUIS, July 3. (AP)—Berkeley Bell of New York, wiry little Davis Cup team aspirant and former University of Texas ace, today ruled a strong favorite for the national clay courts tennis championship as the tournament entered the semi-final round at the Triple A courts here.

Bell, who became the favorite by his easy 6-1, 6-3, 6-1 victory over George Jennings of Chicago, national public parks champion in the quarter-finals yesterday afternoon, was pitted against Ellsworth Vines, lanky California state champion in one of the semi-final matches today. In the other, Keith Gledhill, Santa Barbara, Calif., inter-collegiate championship opposes Bruce Barnes, Austin, Texas.

Only 4,423 motor vehicles were manufactured in Russia last year.

NEW LIGHTING SYSTEM IS FINISHED

LUBBOCK WILL GET AN INTRODUCTION OF NIGHT GAMES

Emphasizing the latest trends in modern developments, such as daylight saving time and the idea of putting one over on the weatherman, Lubbock enters into a new era of athletics tonight with the turning on of a system of brilliant floodlights and the beginning of night baseball on a permanently lighted field.

Electricians this morning completed the work of installing the baseball lighting system at Merrill Park and tonight a switch will be thrown and two of the best semi-pro baseball clubs in West Texas, the Lubbock Hubbers and the Amarillo Aviators will be disclosed before what is expected to be a record crowd at the old park. Additional bleachers from the Texas Tech field have been added to the grandstand seats and it will be possible to seat comfortably more than 2,000 fans.

Meet Again Saturday

The game, the first of a series of three between the Hubbers and Aviators, will begin at 8:15 o'clock tonight. The teams will appear in a matinee contest tomorrow afternoon at 3:30, meeting in the final game of the series tomorrow night at 8:15.

Merrill Park holds the distinction, so far as is known here, of being the third semi-pro-owned field in the country to be equipped with a first class lighting system.

As a special feature of the game tonight and as a part of the dedication services at the newly lighted park, Mayor J. J. Clements will toss the first ball and Charles A. Guy, editor and publisher of the Avalanche-Journal, will be on the receiving end.

To Broadcast Fight

Radio loudspeakers will be installed in the stands and a round-by-round broadcast of the Schmeling-Stribling heavyweight championship fight may be heard. The fight will come over the national broadcasting hook up, with Graham McNamee and Floyd Gibbons at the mikrophones.

Manager "Dirty" Waller has announced that Willis Knight, star hurler for the Hubbers, will be in the box for the locals tonight. Knight has won seven games for the Hubbers and has his first one to lose this season.

Lubbock's lineup tonight probably will consist of Galey, catching; Berlin, first base; Broadlove, second base; France, shortstop; Waller, third base; Gaither, left field; Hambright, center field and Hardwick, right field.

UTILITIES SEEK TO REGAIN LEAD

The Texas Utilities baseball club will attempt to regain a title for first place with the Avalanche-Journal in the City League this afternoon when it meets the Rainbow club at 6 o'clock on the Merrill Park field. The newspaper outfit went into first place yesterday when the Advertisers forfeited a scheduled game.

The Legion-Lions defeated the Wholesalers yesterday, 11 to 6. The Wholesalers, who have not won a single game this season, threatened to win their first yesterday by jumping to a three-run lead in the first inning, but the Lions scored 9 runs in the second to ice the game.

Paris is to eliminate its overcrowded slums.

The SPIRIT of '76
In SERVICE TODAY-----

Closed All Day Saturday July 4th

The spirit of '76 was one of Service — Service to a just cause. Service was rendered by our forefathers, willingly—and with no thought of reward.

Willing service completed by great sacrifices on their part made possible this great country of ours—a country made up of units and individuals—all rendering service to you.

So tomorrow—We close as a tribute to those who rendered PERFECT SERVICE to their country in 1776—and to join the celebration of the 155th anniversary of the Declaration of Independence.

The Nations 155th. Birthday

HERE'S WHAT HAPPENED IN 1776

"DECLARATION OF INDEPENDENCE", a document drawn up by a committee of the American Congress, consisting of Thomas Jefferson, of Virginia; John Adams of Massachusetts; Robert R. Livingston of New York, and Benjamin Franklin, of Pennsylvania. A draft was reported by this committee on June 28th. On July 2, a resolution was adopted declaring the colonies free, and independent states and on July 4th, the Declaration was agreed to, engrossed on paper and signed by John Hancock, President. It was afterwards engrossed on parchment and signed by the Representatives of the United States. The Independence of the United States was acknowledged by France, January 16, 1778, and by Holland April 19, 1782; and provisional articles of peace were signed by England, September 3, 1782.

Since this time we as a Nation "Of the People", "By the People", and "For the People", have set aside July 4th of every year in honor of The Declaration of Independence and America's Birthday.

Thought For Today

And be ye kind one to another, tender-hearted, forgiving one another, even as God for Christ's sake hath forgiven you.—Ephesians 4:32.

* * *

There never was any heart truly great and generous that was not also tender and compassionate. —South.

An Old Era Passes

News that the War Department has decided to abandon some 53 army posts in the far west sometime in the near future emphasizes again the way in which the nation has done an about-face in the last few decades. The change that has come over the army mirrors a change that has come over the whole country.

These posts are surviving relics of the old days of Indian warfare—the days of the "winning of the west," when the frontier was close at hand and America had no attention to spare for anything outside of its own borders. New trails were being made into hostile wildernesses, new settlements were springing up amid distant mountains and on remote plains; army posts were needed for their protection, and the 53 that are soon to be decommissioned were, in their day, havens of safety for pioneer families.

Their very names speak of the color and romance of the old west. Fort Laramie, Fort Bridger, Fort Learned, Fort Phil Kearney—they excite memories of a day that never found its poet, a day when adventure, danger and bloodshed were abundant in the land and the red Indian was something more than a picturesque figure in story books.

The army was devised to meet those conditions. It did the job well. Little more than a constabulary force, from European standards, it was precisely the kind of army America needed. It was scattered all up and down the far west in small detachments, a platoon here and a platoon there; and the bravery and ability of the men in these detachments have given the army some of its brightest laurels.

When the Spanish-American War broke out it was discovered that there was not an officer in the army, except for a few Civil War veterans, who had even seen a body of troops as large as a brigade assembled in one spot. As a preparation for war with a European power, this was almost disastrous; but it meant, really, that the army had been doing its job very well. Dispersion of its units had been essential. There had been no need to hold large-scale maneuvers.

But it is all different now, and the pending abandonment of the old posts proves it. The nation today has finished its frontier skirmishes; now it trains its army for war on a large scale, providing skeletonized commands that can be enlarged rapidly, making sure that it will never again be caught unprepared as it was in 1898.

That fact is a measure of the change that has come over the country. The end of the army's western forts marks the disappearance of the last vestiges of an old era in American history.

A Bad Sign

A Detroit grand jury, ending a 10-months' investigation of gang and activities, has indicted 50 persons. Two are high police officials; the others, whose identity so far has not been made public, are said to be "public officials, racketeers and gangsters."

That last phrase explains a great deal, and many a city besides Detroit could profitably ponder over it for a little while.

Detroit, being cursed by defiant gangs, looked into the matter and found an unholy alliance of "public officials, racketeers and gangsters" responsible for its troubles; and that, in the long run, is the way it always is. Whenever a city's underworld becomes bold and more than usually menacing, it is a perfectly safe bet that some such alliance as that exists. The presence in any city of well-organized gangs is an unfailing sign that somewhere in the city government there is some rather extensive crookedness.

The Plainsman Says:

That Girl on Broadway says Greta Garbo has given us talkies in broken English and now that Anna Mae Wong is returning to Hollywood, we can expect something in broken China.

* * *

Mr. Hoover's debt moratorium is just another kind of foreign missions. Why not try the same thing at home?

* * *

THE PLAINSMAN and Hizzoner Mayor Clements have been secretly practicing for several days, preparing for their part in opening the nocturnal baseball season at Merrill park tonight. The Mayor was a little wild at first—being mayor is enough to drive anybody wild. But he's got his old soupbone worked out pretty well now and says that even Mickey Cochrane doesn't make as good a target as The Plainsman.

* * *

It isn't generally known, but both Hizzoner and The Plainsman were topnotch ball players back in the years when Jawn McGraw and the Baltimore Orioles were winning so many pennants. Walter Glazener, the cotton man, remembers those days, when Big Dan Brouthers was playing first base, Hughie Jennings was at short, McGraw himself was on third and the great Wee Willie Keeler in the garden.

About that time Mayor Clements and The Plainsman were among the best ball players in the country and tonight they aim to show the cash customers how it was done 'back in the good old daze'.

* * *

TONIGHT will be a great night for The Plainsman and all the other country boys in these parts, who didn't go out to see Grover Alexander fight off the pink snakes on the coaching line here recently, and have never seen any arc-light baseball. And if the home nine does as well under the anthetic sun as it's been doing, the Hubbers will make Gib Jackson sorry that he ever left God's country—that's no foolin'!

* * *

ODE TO SUMMER

The sun beats down.
The sage turns brown.
It's summer time again!
For winter's breezes
And flu's own wheezes,
We have an awful yen.
Six months from now
T'wont be the same:
When blizzards strike a hummer
We'll all stand by
To moan and cry:
"I'll be glad when it's summer!

* * *

That Man on Avenue Q says many a mathematics teacher's wife has problems all her own.

* * *

The wide open spaces we have in this country would sell at a big profit if taken to the cities and sawed up into parking holes.

* * *

OVER in columns 7 and 8 of this page will be found the second suggestion made through The Plainsman for the alleviation of unemployment—not only in Lubbock but throughout the nation. Its author, C. B. Powell, was an active member of the Lubbock BCD Unemployment committee last winter and for two years has been making a personal study of the problem.

Mr. Powell is owner of the Lubbock Lumber company and in his business he meets many workers, both skilled and unskilled. His opinions, like those of Dr. J. C. Granbery, published yesterday, are worthy of consideration.

* * *

Without a lengthy study of conditions and the question generally, The Plainsman is inclined to agree with the suggestion presented today. The hard part about it is securing the necessary public action to bring the change about. Read it for yourself, and if you have a suggestion, slip it along to this column. One idea is as good as another as far as public study is concerned. The unemployment problem will never be settled until the public is aroused to action.

* * *

ROY McKINNEY, publicity man for the gas company, is working on a new wrinkle in the way of crops. Having received a suggestion that the Jerusalem artichoke should do well on the South Plains, he has written authorities of the United States department of agriculture and has ordered some seed which he will have planted for experimentation and observation.

* * *

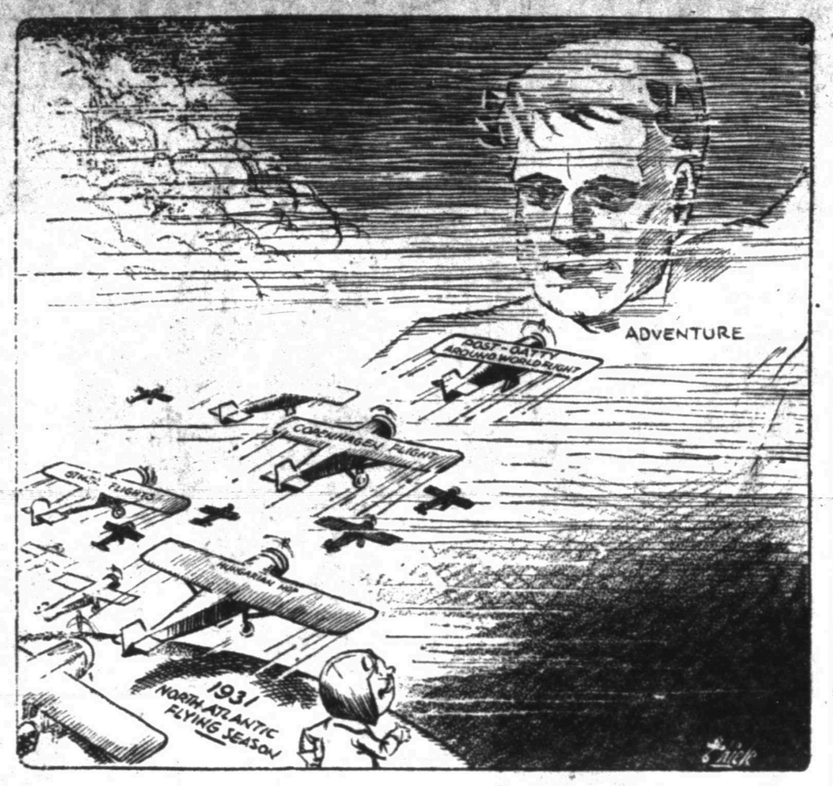

The Jerusalem artichoke grows well in sections adapted to corn and should prove interesting to Terry county people, in particular. It has a high sugar content and in addition, makes a good hog feed. Agricultural agents and experiment farm people will watch the experiment carefully.

* * *

THE PLAINSMAN takes this opportunity to commend the directors of the Panhandle-South Plains fair in their selection of Homer Grant as president of the organization for the coming year. This column has had Mr. Grant in mind for some time as one of Lubbock's best citizens—a civic worker who will work when a job is given him to do.

With Mr. Grant at the helm, the fair is in safe, sane and conservative hands for the new president is the type of executive who not only directs but pitches in and labors himself. The same determination and ability which have carried him from a labor gang to an executive partnership in a successful construction company will stand the fair in good stead.

The Face That Launched A Thousand Ships!

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes"—Byron

As If War Costs Weren't Enough, We Have To Reckon With Period Of Inflation Which Multiplies Burdens Of Future

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, July 3.—All the excitement over the debts-reparations moratorium proposal may incidentally impress the fact that big wars cost a lot of money and that the costs are likely to cause a lot of trouble in later years.

DUTCHER

Thus, certain interesting though not especially comforting thoughts are inspired by the assertion of Bernard M. Baruch, who was chairman of our War Industries Board, that about half of our expenditure in the World War was unnecessary. That is, our war expenditures were nearly $40,000,000,000 and Baruch says that an efficient, comprehensive war plan embracing an effective method of preventing inflation would reduce the cost of war at least 50 per cent.

Payne's Views

Assistant Secretary of War Frederick H. Payne, addressing the National Association of Retail Credit Men at Boston, justified the army's extensive industrial war plans by citing Baruch's estimates as given to the War Policies Commission and implied that the war plans not only would provide success in war but would be a big aid in attaining subsequent prosperity.

"As we consider the general effect on present conditions in our country if we had saved some 10 to 15 billion dollars of our expenditures in the late war," Payne said, "we are encouraged to intensify our efforts to insure efficient conduct of any possible 'next emergency.'"

Baruch proposed a drastic wartime "price-freezing" plan which has stirred up some controversy. It would give the president power to declare that all prices prevailing on a certain day should be effective until further notice.

"Inflation enormously increases the cost of war and multiples burdens on the backs of generations yet to come," he explained. "The war debt of the nation is necessarily incurred in terms of debased dollar values. In the inevitable post-war deflation the debt, of course, remains at the inflated figure. Thus the bonds that our government sold in the World War for 50-cent dollars must be paid through the years by taxes levied on 100-cent dollars.

"For example, our total war expenditure was $39,000,000,000 incurred in terms of 1917, 1918, 1919 and 1920 dollars. In terms of the purchasing power of 1913 dollars it probably would have been only $13,000,000,000, or in terms of 1930 dollars probably not more than $15,000,000,000.

Checking Inflation

"Such a grotesque result would be almost unbelievable were the figures not living facts. If anything can be done to avoid this practical doubling of the economic burden of war, we should spare no effort to accomplish it. . . . We did, in 1918, arrive at a method which checked the process of inflation in America and kept it in check until all controls were released in November, 1918. We have proved in practice a method to control inflation and that proff convinces me that it would also prevent inflation if applied at once upon the advent of war and before the inflationary process begins."

Attempts to check inflation after it begins are old in American history, according to Baruch, who pointed to a New York law of the revolutionary period which fixed manufacturers' profits, wages of mechanics and laborers and many commodity prices at a figure "not to exceed twentyfold of the price paid in 1774." The figure measured the debasement of the Continental currency.

The amount Baruch thinks we might have saved on the World War is, of course, much larger than the total of allied debts to this country which, with reparations, are now credited with causing so much trouble.

Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

EDITOR'S NOTE. Six pamphlets and six articles by Dr. Clendening can now be obtained by sending 10 cents in coin for each pamphlet and 2 cents in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper, or Central Press Association, 1433 East Twelfth street, Cleveland, O. The pamphlets are: "Reducing and Obesity," "Feminine Hygiene," "Indigestion and Constipation," "The Care of the Hair and Skin," "Infant Feeding" and "Instructions for the Treatment of Diabetes." The articles are "Normal Diet," "List of Books for Mothers," "Bed Wetting," "Diet of the Expectant Mother," "Ear Troubles" and "Tuberculosis."

BENEFITS OF FISHING

Fishing is more exercise for the fish than for the fisherman. But except for the famous ones that got away, obviously not quite so healthy.

Dr. Clendening

Of course. It depends a little bit on how you do your fishing. If you just sit on a bridge or on the edge of a bank, you do not exert yourself unduly. But rowing a boat is about as good a form of exercise as anybody could wish. It develops all parts of the body—back, arms, forearms, hands, shoulders, abdominal muscles and legs. And it is conducted against resistance so that it really develops the muscles, and adds to their strength.

But actual development of the muscles alone is not the only part of the body that gets benefit from sports, as I have tried to show this week. The training of the eye, the nervous system and the senses — even the soul—comes in for consideration.

No sport does more for this than fishing. Some one long ago adapted Kipling's poem to muskellonge fishing as follows:

"Youth's daring courage, Manhood's fire,
Strong hand and eagle eye
Must he acquire who would aspire
To see the muskie die."

There, you see, are the elements of the soul as well as the body. The things a boy learns of Nature's secrets when going fishing will be of benefit to him all his life. The adjustment between plants and animals, the way each living creature has to make his way in life, the different adaptations they all make to conform to the basic requirements of life—oxygen and food—in order to continue to live as individuals and to reproduce the species, is about as valuable an education as anyone can get. Going fishing is a splendid laboratory course in biology.

Fortunately, there is now one book available that every fisherman should take with him on his expedition. That is, "The Science of Life," by Wells, Huxley and Wells. With this work along the whole world around the fisherman is revealed. The fish itself is a sufficiently illuminating study to one who understands all about it. The gills, acting as lungs in the fish's surrounding medium of water, which seems so strange to us air breathers, have a pertinent message for us. Because some of the fish's structure still remains in our bodies. In some people you can easily see the reminiscences of the gill clefts of our fishy ancestors—in these people the gill clefts persist in the neck forming strange lumps and masses that often give a great deal of trouble.

One reminder of our fishy ancestral days that is in all of us is the recurrent laryngeal nerve — the nerve on the left side which innervates the vocal cord on that side. Its structure shows a great waste of tissue because it originates high up on the neck, passes clear down into the chest, hooks around the arch of the great blood vessel, the aorta, and then climbs clear back to the voice box in the neck. The explanation, as given by anatomists, is that the aorta originated from the blood vessel in one of the gills and in the course of development the recurrent laryngeal nerve got hooked around it, and was carried down into the chest.

Doesn't Bite

This fearful monster has never been known to bite, but it is dangerous when in action. It shoots death-dealing torpedoes through the holes shown in the picture. In short—it's a close-up of the prow of the Australian submarine Oxley in drydock at Sydney.

DAILY ALMANAC

Cloudy

WEST TEXAS: partly cloudy tonight and Saturday, possibly showers in the Panhandle and extreme west portion.

EAST TEXAS: Partly cloudy tonight and Saturday, possibly local thundershowers in northwest portion. Light to moderate southerly winds on the coast.

OKLAHOMA: Partly cloudy tonight and Saturday.

SWAN

In New York With Gilbert Swan

NEW YORK, July 3—Typical of the New York that has little to do with Fifth Avenue, Broadway or any of the widely advertised arteries is the information that Maxie Dick is going back to Poland to distribute part of his fortune among old boyhood friends who have spent impoverished lives.

Max Dick is the "mayor of Rivington street."

Those "locality mayors" are an institution native to Manhattan.

There are "mayors" of Chinatown and of Yorkville and a dozen other sections. They are not elected. Like Topsy, they "just grow." The "locality" mayor is a sort of minor potentate to the dozen and one small towns that make up the biggest town. Each one has a population as distinct as the population of a suburb. Park Avenue has little in common with the Bowery, and barely speaks the same language. To be sure there are folk in Park Avenue graduated from the Bowery belt; and there are hungry men in the Bowery who disintegrated from Park Avenue.

But there are neighborhood problems and neighborhood squabbles and neighborhood politics—and the locality mayors must keep a sharp eye on politics!

Generally speaking, a "locality mayor" is a prosperous citizen of his district, and a most loyal one. Amusingly enough, the "mayor" of what appears to be a Jewish selection can, often as not, be Irish.

Well for instance "Abe" Fagin is "mayor" of Hunt's Point and has been known to produce a dress suit if the occasion demands. Angelo Rizzo is "mayor of Mulberry street." Herman Zellar is "mayor of Chrystie street." Dr. Sam Wagner is "mayor of Avenue B."

And "Stitches" McCarthy rules over Grand street, which is as kosher as it is Irish.

Izzy Einstein, who was one of the famous team of prohibition officers to attain national distinction in the early days of raiding, now is "mayor of Ridge street." Billy Marcus is "mayor of Ann street."

John Leppig, who holds the title on Avenue A, is product of a sort of "Abie's Irish Rose" situation. His mother was Irish and his father German. Such marriages are more common in the old Ghetto belt than our modern anti-melting pot leaders realize.

Isador Pinkowitz, who ordinarily is a prosperous maker of kosher sausage is mayor of East Broadway.

The list is long. And the members of the Locality Mayors' Association are from the stock and the sections that keep the rest of New York going round.

* * *

Visitors, and even residents of Manhattan, are inclined to overlook the millions represented by these local "mayors." This is not the great flashlight parade that makes up the "great white way." This is the New York that has worked up from the gutters into the very skies.

Don't fool yourself — Broadway has built no skyscrapers!

These modern monuments that attract the attention of the world have been built mainly by men who came out of the nowheres of the world.

The Chanins, whose modernistic corridors dazzle the tourist eye, were frightened and tearful tots, clinging to the skirts of an immigrant mother.

Al Smith, whose Empire State Building rises higher than any other, came from the sidewalks of New York—as all the nation knows. A whole chain of buildings in the garment section and dozens scattered over the town can be credited to ex-newsboys and office boys.

So it is that when the "mayor of Rivington street" goes back to Gusova, in Poland, with some $25,000 in his jeans for old playmates who are hungry now, there is more than passing excitement in a street dedicated to colorful pushcarts and sidewalk merchants. And messages from a transplanted population go with him to be scattered along his line of travel.

If our secretary of treasury, on his visit to France, gets into an argument over the debt plan wisecrackers will have a fine chance to call him a Mellon feud baby.

Flapper Fanny

Hard-time travelers are gripping packs instead of packing grips.

THE PLAINSMAN GETS SOME MAIL

C. B. POWELL SUGGESTS SHORTER HOURS FO TAKING UP UNEMPLOYMENT SLACK IN U. S.

Dear Plainsman:—In your column of the 29th you print a letter from "A Citizen". In your comment on this letter you figuratively throw up your hands and ask the public to help in answering the letter. In other words, on the question of unemployment, you offer your column as an open forum for the discussion of the question. By and with your permission I am offering a solution of the "Citizen's" question both as to fact and remedy.

To my mind, the cause and remedy of unemployment is so simple and the remedy is so easy to apply, that its very simplicity is the reason that people overlook it. They are gazing at the stars, searching among the Sun spots as it were, expecting to find the reason in the occult, when all the time it lies at their feet. We are all prone to look for the trouble in the management of our own affairs or in the small circle in which we revolve and try to remedy things by conforming to the conditions. We have failed to learn, that as a nation, that we are our brothers keeper, more so than at any age.

Relief Doesn't "Just Happen"

Such conditions, as we are now experiencing, do not just happen nor the relief of them does not just happen. They are brought about by and through the mismanagement of man, and their relief comes about through the good management of man, sometimes unwittingly but by him just the same. This space does not permit of the going into the causes of depressions and the reasons for their relief in the past or the difference in this one and those we have suffered before, hence I shall come to the meat of the question at once.

In the first place, Dear "Citizen", it is not within the power of Lubbock or its citizenship to remedy this condition, neither is it possible for the county or the state or any other city or state. It is a national problem and the United States is, probably, the only nation which has within its power to remedy this trouble for itself irrespective of whether any other part of the world takes a hand or not. The whole world, nevertheless, can be made liveable by the same process.

Times Are Contrast

Our primary needs are food, raiment and shelter, just as was the case with primeval man. All other requirements are secondary and the results of our civilization. Under our system we acquire these primary and secondary requirements by and through the medium of exchange called money. The great majority of our citizenship must have steady and remunerative employment in order that we secure this medium and we are classed as prosperous or poor by the ability we have in securing our part or more than our part of this medium. When there is a great demand for labor and wages are high, we speak of the prosperous times. When work is scarce and a large number of people are idle, we suffer the affliction of poverty and we have a panic a defiation or a depression, depending on the thought as to the trouble at the time. In any case they are the same thing.

In times of these depressions, as we have named this one, people increasingly become unemployed. The idle man becomes a competitor of the one still with a job and down goes the price of labor. The lowering of the wage scale reduces the power to consume, reduces the demand for the products of the farm and the factory further restricting the demand for labor and turns loose still more people to swell the ranks of the unemployed and so on and on, till the Lord only can know where it would end. There are none who are or can be immune to the final effects of conditions such as we are now in the midst of if it is not checked by the wisdom of man.

Machinery Blamed

What is the cause of this unemployment at this time? The question is answered in one word, MACHINERY. I was told by a man who had just returned from Oklahoma, just a few days since, that he saw three tractors, each driving a gang of plows, being handled by one man alone. All that he had to do was to keep them traveling at the same speed to prevent them overtaking each other, keep them filled with gas and oil them. He saw another man who with a tractor and gang cultivators was cultivating seven hundred acres of row crops. In every line of effort, whether on farm in factory, office, home or shop, we are using labor saving devices. It is safe to say, I think, that today one man will do the work, through present improved methods, that required efforts of at least ten under the old methods in use not further back than twenty years. What provision has been made to take care of the workers thrown out of employment? What compensation commensurate with the increased results have been given the one still employed? Practically none at all and nothing at all. In many instances greater and more exacting requirements are made. Up until the beginning of about two years ago, these nine men who lost their places, found employment in the mushroom growth of the automobile factories, radio factories and kindred kind which and are the children of the installment plan of buying, very largely and in the rapid growth of the towns and cities which were incidental to the factory growth. The demands for these things have been saturated. It is no longer possible to sell these things in any quantity either for cash or on credit, the factories are running on short time or shut down as the case may be, and the nine men are again out of a job and will remain so, subjecting themselves to lower standards of living and in many instances, the objects of charity. What is the answer?

There is a greater demand today for the necessities of life than at any period of the world's existence. To produce these it requires the performance of a great deal more labor, notwithstanding this, due to our improved methods, we are using not more than four-fifths of our potential workers. It is therefore necessary that we prorate the work to be done in proportion to the number of workers available so that all may have employment by adopting a national work day of six hours each, through national legislation next December. If this be done, there is little doubt but that all the states would fall in line almost immediately by legislation, all trades unions would adopt it, the railroads would immediately fall in line and before six months was gone every thing would adjust itself to the new day, every one would go to work and prosperity would abound, poverty would take its flight and everything would be normal again.

Lubbock cannot remedy the situation but Lubbock can be the initial point to make demands on Congress for this legislation. Lubbock can and should organize at least five thousand strong, should through the press and every means possible promote this idea, through organizations of other towns and communities until when the next congress meets we can through the representatives of the whole country present such solid phalanx in the interest of this idea that we will get a hearing and get the relief we so much need. Who of the readers of this column will subscribe to this idea and join in the crusade?

And this Mr. Plainsman, is the answer to the "Citizens" question.

C. B. Powell.

THE TINYMITES

STORY BY HAL COCHRAN—PICTURES BY KING

(READ THE STORY, THEN COLOR THE PICTURE)

I hope that meat won't tumble so. Just look how it is oozing," said Clowny. "I can eat my fire and more, when it is done. The fire is getting rather low so for the wood we ought to go. I'll stay and watch the meat while you bring sticks in, one by one."

"Gee, but you are a lazy lad," said Scouty, "but I'm more than glad to help out with the preparation of this dandy meal." Then off they ran to get some wood. The others helped as best they could. "Just think," cried Coppy, "when we eat our dandy we will feel."

The happy Tinies shortly found that, as the stick was turned around, the meat upon it had a chance to cook up to a brown. Soon Coppy shouted, "It is done! Get ready now for some real fun, but do not eat so much that we can't walk back into town."

Great loaves of bread were sliced in thick and then of course it was no trick to make up real fine sandwiches. When these were handed out the Tinies started in to eat. Said one, "My, this is tasty meat! It's cooked all through. Now we can let the little fire go out."

When everyone had finished they said everything that they could say to thank the kindly natives who had given them the treat. And then they wandered on their way and shortly heard wee Scouty say, "I think I hear some music and it surely sounds real sweet."

Another added, "You are right. Just look ahead there! What a sight! The Tinies saw two natives who had instruments quite queer. Their playing brought a real sweet tone. "Why, each one has a saxophone," said Clowny. "Gee, but they play fine. Each note is loud and clear."

(The Tinymites ride a carabao in the next story.)

Livestock Market

KANSAS CITY REPORT

KANSAS CITY, July 3. (AP)—(U. S. D. A.)—Hogs 2,000; slow and un- even; opening 10-15 higher; closing 10-15 lower; early top 7.25 on 180- 215 lbs.; 140-250 lbs 6.40-7.15; 250- 290 lbs 5.90-6.60; 290-350 lbs 5.50- 6.10; packing sows 275-500 lbs 3.85- 4.85; stock pigs, 70-130 lbs 6.75-7.35.

Cattle 500; calves 200; generally steady; top 786 lb mixed yearlings 7.40; 1,215 lb fed steers 7.40; stock- ers and feeders nominal; steers 600- 1500 lbs 6.00-8.50; 600 lbs up 4.00- 7.00; heifers, 550-850 lbs 6.50-8.25; cows, 3.50-5.00; vealers (milk fed) 3.50-6.50; stocker and feeder steers, 5.00-7.25.

Sheep 3,000; trucked in native lambs strong to 10 higher; top 6.85; lambs 90 lbs down 6.00-7.00; ewes, 150 lbs down 1.00-1.15.

FORT WORTH REPORT

FORT WORTH, July 3.—(AP)—(U. S. Dept. Agr.)—Hogs: 200; market steady to 15 higher; 248-lb rail hogs 7.00; bulk 170-230 lb truck hogs 7.00; practically no choice butchers of- fered; packing sows scarce.

Cattle 450, including 150 calves; hardly enough cattle or calves to test values; sales all classes active at strong prices; light weight grass slaughter steers 3.75; low cutters 2.15; butcher cows 2.65; 248-lb slaughter calves 5.50.

Sheep: 600; aged fat wethers 2.50; fat truck lambs 4.00, or weak to lower.

Grain Market

CHICAGO REPORT

CHICAGO, July 3. (AP)—Unexpect- ed downturns in Liverpool wheat quotations led to lower prices for grains early today. Liverpool re- ported that Russia had begun of- fering wheat on a parity, and this announcement was interpreted here as meaning large scale competition with wheat from North America.

Opening unchanged to 5-8 cents lower, wheat later declined all around. Corn started 1-4, 1-2 off and held near the initial limits.

Stock Market

WALL STREET REPORT

NEW YORK, July 3. (AP)—Stocks moved forward confidently during the earlier trading today, but be- gan to taper off when gains of a point or two had been attained by many active issues. The market was dull on this decline.

U. S. steel, after touching 104 where it was up 1 3-4, lost half its rise. Allied Chemical, Air Re- duction and International Busi- ness Machines were 2 point. high- er at the best, while New York Central, Bethlehem, Westinghouse, American Smelting, Woolworth, Consolidated Gas and Intgrnational Telephone rose 1 to 1 1-2 before the advance was halted. National Biscuit was heavy, off 2 points.

Call money renewed at 1 1-2 per cent.

Lubbock Cattlemen To Attend Session

A breeder-feeder conference Sat- urday at Midland will be attended by several cattlemen and farmers of Lubbock county and other South Plains counties.

The conference will begin at 11 a. m. at the barbecue pits. Fifty-three barbecued calves, given by Midland cattlemen, will be served at noon.

Persons from many sections of West Texas, who are interested in the breeder-feeder movement are expected to attend.

TRIAL NEARS JURY

TEXARKANA, Ark., July 3 (AP)— The case of John McCall, on trial on a murder charge for the slay- ing of George Griffin, was to go to the jury this afternoon. The de- fense rested when the hearing was resumed this morning.

King Of Barnyard Scratchers

It's going to be tough on the neighbors' gardens when this youngster grows up, for nature endowed it with double the ordinary amount of scratch equipment. The four-legged chick, which is the property of Louis Boehm, Montgomery, O., gets tangled up and trips over its spare legs.

CONSTRUCTION

(Continued from Page One)

selected. The joint committee of the treasury and post office has been meeting nearly every day recently, examining proposals, submitting sites, checking costs, reviewing re- ports of agents and making the final selection.

The building program is expected to be concluded in about six years. The entire public building pro- gram as now outlined contemplates the expenditure of approximately $700,000,000.

Water Commission To Guage Streams

EL PASO, July 3. (AP)—L. M. Lawson, head of the international boundary commission and mem- ber of the international water com- mission, said stream gaging work formerly performed by the geolo- gical survey at Austin would be carried on hereafter by the water commission with headquarters at El Paso.

This work has included measure- ment of discharges into the Rio Grande at a number of stations from San Marcial, N. M., to Brownsville. These stations now will be operated directly by the water commission and additional ones will be installed to determine com- pletely the discharge of the in- ternational portation of the Rio Grande.

Bible School Will Hold Program Here

Closing exercises of Daily Vaca- tion Bible school at Broadway Church of Christ will be conducted in the church basement tonight.

The program will begin at 8:45 o'clock, 45 minutes after the base- ment is opened for an exhibit of articles made in the school. More than two hundred children enroll- ed in the two-week school.

Another Magistrate In New York Ousted

NEW YORK, July 3. —(AP)—Jesse Silbermann, removed from the bench of the appellate division of the supreme court, is the fifth magistrate to leave office since Samuel Seabury as referee started investigation of the inferior courts last September.

Last week the apoellate division removed Mrs. Jean H. Norrie, New York's first woman magistrate. Magistrates Francis X. McQuade, Henry M. R. Goodman and George W. Simpson resigned after the in- vestigation started.

The court decided that Silber- mann's decisions were "improperly influenced by political considera- tion," and that his conduct on the bench had been unfair and unjudi- cial.

LIGHTNING KILLS MAN

CORSICANA, July 3 (AP)—Light- ning instantly killed Frank Peeler, 24-year-old field worker, yesterday afternoon on a farm near Rodney.

DEBT SOLUTION

(Continued from Page One)

and American officials in Paris late today.

TACKLE PLAN AGAIN

PARIS, July 3 (AP)—Secretary of the Treasury Mellon and Ambas- sador Edge tackled the Hoover war debt plan again today in a long consultation and it was learned they considered the situation most optimistic from an American stand- point.

Mr. Edge was informed that ow- ing to parliamentary duties it would not be convenient for the French delegates to hold today's conference before nightfall. The meeting was tentatively arranged to begin at 9:30 p. m. (2:30 p. m., Central Standard time.)

Work Out Details

Mr. Mellon and Mr. Edge were up until a late hour last night talk- ing to Washington by trans-Atlantic telephone. Their experts spent con- siderable time this morning work- ing out the technical details of points which remained unsettled between France and the United States and upon which trade agree- ments are understood to have been evolved.

Among these points is one pro- viding for financial aid to central European powers other than Ger- many. France wants this done, but the United States believes the sus- pended German annuity should au- tomatically go back to Germany in its entirety.

A way has been found to help such countries as Jugoslavia through the advance of special credits. Paris links this solution with the visit which Eugene Meyer, the governor of the federal reserve board made to President Hoover and under Secretary of State Castle in Washington.

The American negotiators were particularly happy because a com- promise arrangement was being worked out on a point which had offered the greatest difficulty and had been considered one of the most dangerous issues.

That was the question of the guarantee fund which France would deposit in case Germany declared a moratorium at the end of the one year debt holiday.

Philadelphia Is To Celebrate Tomorrow

PHILADELHIA, July 3.—(AP)From historical Independence hall where 155 years ago colonial leaders sign- ed the Declaration of Independence, Philadelphia's celebration of the anniversary of that event will be broadcast over a nation-wide hook- up tomorrow.

Patrick J. Hurley, secretary of war, will represent the government and deliver the principal address. Preceding exercises in the hall thousands of regular army and na- tional guard troops will pass in re- view while squadrons of airplanes under the command of Major J. Sidney Owens maneuver overhead.

FOURTH OF JULY

(Continued from Page One)

Ralls and Floydada.

Members of Allen Brothers post, No. 148, will be guests of the James C. Cole post, No. 270, of Post at a barbecue and all-night camp at Two Draw lake tonight. Four hun- dred legionnaires are expected from Lubbock, Tahoka, O'Donnell, Sla- ton, Brownfield and Lamesa. They will assemble in Post at 7 p. m. and will go to the lake.

Plan Legion Picnic

Lubbock legionnaires and mem- bers of the local Legion auxiliary will attend their annual Independ- ence day picnic tomorrow at coun- ty park. O. B. Conley, is general chairman. The group will leave the Legion home at 5 p. m. A baseball game between clubs captained by Amos Howard and H. H. Bidwell is scheduled for the Legion outing.

Plainview is expecting 15,000 per- sons there. Led by C. E. Luce, mo- torcycle policeman here, a Lubbock delegation will leave City hall at 8 a. m. for Plainview.

The Lubbock High school band will be in the motorcade. Tom A. White, general chairman, has ask- ed that persons able to transport members of the Westerner band no- tify the chamber of commerce, and has asked that all Lubbock citizens desiring to join the delegation do so. The motorcade expects to arrive in the Hale county capital at 9:30 a. m., or an hour before the parade, which will be led by the Lubbock representation.

Lubbock automobiles will bear windshield stickers reading "We're From Lubbock" and members of the delegation will don lapel-badges stamped "I'm From Lubbock."

The Lubbock group will assemble at 10:30 a. m. at Third and Cherry streets in Plainview to lead the pa- rade, which will depict the progress of the South Plains section. In uni- form and astride a motorcycle, Luce will lead the Lubbock section, fol- lowed by the Westerner band and the bulk of the delegation.

To Barbecue Beef

Ten tons of young beef will be barbecued for a free dinner at Plainview, the chamber of com- merce there has announced. A ne- gro baseball game, a wrestling match and a dance are on the pro- gram.

Josh Lee, University of Oklahoma faculty member and humorist, will speak in the afternoon at Plain- view.

A pryotechnic display will be followed at night by a sham bat- tle between battery A of the 131st field artillery, Texas National guard, and the American Legion.

Aid Milk-Ice Fund

Ten per cent of the receipts from the Fourth of July events at Johnston's ranch, 12 miles south- east of Lubbock, will be contrib- uted to the fifth annual Avalanche-Journal Goodfellows' milk-and- ice fund, Jim Johnston, promoter, said.

A dance will be held at the pav- ilion at the ranch tonight and a second one tomorrow night. Buf- falo Rhythm Stompers, Lubbock negro orchestra, are scheduled to furnish music.

A matched polo game between Lubbock and Spur teams will pre- cede a rodeo at the ranch tomor- row afternoon. The polo match is scheduled to begin at 1:30 p. m.

Riders and rovers from Texas, Oklahoma, New Mexico, and Ari- zona will compete in broncho rid- ing, goat and calf roping, a wild horse race, steer riding and other events. "Texas Jack" Lewis of Mid- land and L. P. Kennedy of Post, trick rope artists, will entertain during intermissions. F. V. ("Leath- erhat") Brown, veteran cowman, is directing the program jointly with Johnston.

"A man from New Mexico" has agreed to attempt to ride a quar- ter-buffalo bull bareback, with one hand on a loose rope-surcingle, Johnston said. Fifty dollars will be awarded any person riding the an- imal to the judges' satisfaction, the promoter promised.

Join In Program

Crosbyton and Lorenzo joined in a program which began today at Silver Falls lake, east of Crosbyton, and will continue through the Fourth. Roller skating, boating, swimming, dancing, baseball, and band concerts are billed.

An all-Dawson county celebra- tion will be held at Lamesa under auspices of eight Lamesa and Daw- son county organizations. A high- light probably will be a juvenile bathing beauty review for girls less than six years old. Potato races, sack races, a greased pole, a greas- ed pig, pony and mule races, a fat man's race, junior baseball, and water polo are on the program, supplementing a band concert, a pageant, a basket-dinner, and speaking.

Although stores will remain open at Ralls, a program will be pre- sented in municipal park and a dance held at night.

Several hundred delegates of the Floyd county Baptist Young Peo- ples' union are expected to attend at picnic in Blanco canyon near Floydada. Twenty-nine churches are scheduled to participate.

Muleshoe and Clovis, N. M., base- ball teams will meet at Muleshoe.

IT COULDN'T HAVE BEEN THE DOCTOR PLAYING THE FLUTE—BUT IT WAS

CHICAGO, July 3. (AP)—The neighborly residents of the 200 block in East Delaware place, which is part of Chicago's famous gold coast, now know who it is that has been playing the flute.

For some time they had been trying to locate the place from which the piping came, but were unsuccessful. They even went so far as to insert the following want ad in a newspaper:

"Will the flute player in the 200 E. Delaware block kindly cease and oblige the neighbors?"

Yesterday two of the residents were discussing the situation when they heard the plaintive, strains of "Coming Through the Rye."

"I think," said one of them, "that it is in this building."

"It couldn't be the doctor on the third floor," said the other.

"Well, hardly," was the reply. "Anyone in the building, I should say, but the doctor. I suppose the doctor is irritated by it more than any of us. Imagine the doctor playing a flute."

Together they entered the elevator. The door of the third floor apartment of Dr. Arthur R. Elliott, head of the Chicago Society of Internal Medicine, was knocked upon and a maid replied.

"Is that the doctor playing that flute?" she was asked.

"It is," she said, and militantly closed the door.

INJURIES CAUSE DEATH OF YOURDY

Injuries received when run over by a tractor while at work in a field caused the death this morning of L. O. Yourdy, 39-year-old farmer living nine miles northeast of Ab- ernathy. The accident occurred late Tuesday morning. Yourdy died in a sanitarium here this morning.

The widow, a 14-year-old son, Bobby, and the man's parents sur- vive. The body will be taken to Plainview early tomorrow by Rix Funeral home of Lubbock. Funeral services probably will be conducted at Plainview tomorrow afternoon.

Yourdy suffered heavily from loss of blood as a result of gaping wounds made by the tractor's bev- eled wheels. Dirt from the field col- lected in the wounds. Bones in an ankle were crushed, both legs were lacerated and cut severely, and cuts, bruises and abrasions were suffered on the body.

The farmer was said to have been run over by the tractor, which he had attempted to shift to reverse- gear, after he had gotton off of the machine and faced the opposite di- rection.

New Oil Proration Order Looms Today

AUSTIN, July 3 (AP)—The rail- road commission today had ten- tatively agreed on a new oil pro- ration order for East Texas limit- ing that field's production to 250,- 000 barrels daily this month. It was likely a formal order will be issued today.

Proration would be on a unit basis with 20 acres comprising a unit. Each unit would be allowed the same production, regardless of potential.

New wells would be allowed 100 barrels daily pending drafting of new schedules which would be done every 15 days. Then the new wells would be given their share of the 250,000 barrels.

Officials To Leave Capital For Fourth

WASHINGTON, July 3. (AP)— Many of its residents, including the president, will leave the cap- ital tomorrow in holiday mood.

Mr. Hoover plans to spend the week-end at the Rapidan, where he will go late today or tomorrow.

The weather man has promised a clear, warm day, suitable for celebrating the 155th year of the independence of the United States. Besides President Hoover, others in high officialdom who will lay aside for the day their world debt negotiations will be acting Secre- taries Castle of the state depart- ment and Mills of the treasury de- partment and Senator Dwight Mor- row of New Jersey.

MacDONALD SAYS U. S. IS GREATEST

LONDON, July 3. (AP)—The Unit- ed States is the greatest nation on earth in the eyes of Prime Minister Ramsey MacDonald.

The Hoover moratorium offer, he believes, is an "action of great wis- dom, of great courage and of deep insight."

America and Great Britain are matching strides in the "great moral causes" of humanity in his opinion.

He spoke at the Independence day dinner of the American Society of London last night.

The Boston tea party, he said, was a historical incident, that means you are able to lift up your heads to the world, that you have been able to build up by patient la- bor, by courage and by self-respect the greatest nation that now exists on the face of this earth."

"I am perfectly certain that to whatever political party you may belong you will excuse me if I say that the recent action of your pres- ident to alleviate and soothe the wounds and unhappiness of Europe is an action of great wisdom, of great courage and of deep insight."

Political Figure Of Golden Era Dies

DARTFORD, Kent, England, July 3. (AP)—Sir William Hart Dyke, a po- litical figure of the golden era of Gladstone and Disraeli, died today at his home. He was 93.

Lady Dyke, who is ill, was not in- formed of his death. He was a great sportsman, owning an estate of 9,000 acres, and was credited as one of the originators of lawn ten- nis. He represented this division in parliament from 1885-1906, but held his first post from West Kent in 1865.

GRAF ZEPP RETURNS

FRIEDRICHSHAFEN, Germany, July 3. (AP)—The Graf Zeppelin re- turned to her home mast early to- day after a cruise to Iceland on which she covered 4,500 miles in less than 73 hours elapsed time.

Mrs. Fred Fite of Shallowater is resting well this morning following an operation Thursday at the Lub- bock sanitarium, according to her sister, Mrs. R. W. Walker.

MOTORCARS TAKE PLACE OF STEAM LOCOMOTIVES NOW

Passenger trains on the Pan- handle & Santa Fe line between Lubbock and Amarillo are headed by motorcars instead of steam lo- comotives now.

Powered by a new electrically driven motor in the front of a com- bination coach, the new motor train made its first run Wednesday. Two passenger coaches complete the train.

It replaces trains Nos. 93 and 96 in making a roundtrip from Amarillo to Slaton each day, Mr. Bayless said. The train leaves Amarillo at 8:30 a. m. and arrives in Lubbock at 11:40 a. m. on its southward trip. On its return it leaves Lubbock at 4:15 p. m. and arrives at Ama- rillo at 7:15 p. m.

The new engine is a combination gas and electric motor, capable of developing 535 horse power. It will pull five standard passenger coach- es at a speed of 60 miles per hour.

The new type of engine has been tried out on other divisions of the Santa Fe and has proved to be very successful in promoting economical transportation, R. F. Bayless, local freight and passenger agent, said. It may be operated much more economically than the steam en- gine, it was said.

Former Students Of Tech Cavern Guides

When Lubbock people and Tech students visit the famous Carlsbad Caverns on next Tuesday in ob- servance of "Tech Day" at the park, they will be greeted by two graduates of the college who are now members of the caverns guide staff. The boys, Carl Stults, a graduate in the June class in geol- ogy, of Dallas, and L. B. Worley, also a June geology graduate, from Snyder are the boys.

They are assistant forest rang- ers in the guide service of the government and stand a chance of becoming permanent employes, col- lege officials said today.

Col. Thomas Boles, superintendent of the park, said here Thursday that he expected to have Tech students in the guide service from now on.

N. H. Payne Works In Houston Area

Although N. H. Payne, widely known Lubbock farmer and cotton man, will return later in the sum- mer for field work from the Texas Cotton Cooperative association of- fice here, he now is doing field work for the 1931 crop at Houston.

Charles M. Davis, manager of the district office of the association, said that yesterday. Payne has been active in local work of the Texas cotton association as well as in the field.

The last several months, Payne did membership work, adding new members of the T. C. C. A. to the district.

What is thought the world's long- est motor service has been organiz- ed to operate between the Juba ter- minus of the Nile river steamers to Cape Town, a journey requiring eight weeks.

ROGERS TALKS AT LUNCHEON

AMARILLO SCHOOL MAN ON KIWANIS CLUB PROGRAM HERE

Methods of bettering conditions in America today were cited by Prof. C. M. Rogers of Amarillo before the Kiwanis club at luncheon at the Lubbock hotel yesterday. He is a member of the Amarillo Kiwanis club and is here for the Texas Technological college sumer session.

Prof. Rogers outlined ills of the American life today, declaring that the court system, public officials and citizens themselves were responsible for conditions.

"How are we going to make citizens out of these people?" Prof. Rogers asked after he had mentioned crimes committed in his home city. "Is the making of punishment swift and sure the right way. It is said that the way to stop a bad habit is by substituting a good one. Can we correct these bad habits by punishment?

"We can get better results by starting early," he said, "We can accomplish much toward our goal by training citizens from childhood."

He then cited instances of how fathers could be of much aid in making their sons better citizens, by setting good examples, by being obedient to laws and public officials and by taking an interest in their activities.

He praised the work of the boy scouts and declared that America would have very little trouble with criminals if the organization's work reached every boy as it should.

Parker Prouty was in charge of the day's program.

Following Mr. Roger's address, the club members voted to retain the Lubbock hotel as their meeting place for another year.

Sherman Rioter Is Given 2-Year Term

AUSTIN, July 3. (AP) —J. B. McCasland, one of the 14 Sherman riot defendants, yesterday pleaded guilty to a charge of rioting and was sentenced to two years imprisonment. The sentence will run concurrently with a term on an arson charge which in turn likely will run concurrently with a previous conviction on a chicken theft charge. McCasland was convicted of arson here last month.

Three other charges against McCasland, also growing out of the mob disturbances at Sherman May 9, 1930, were dismissed. Sixty six cases against the 13 other defendants were transferred to Cooke county.

BIG ATTENDANCE SEEN AT McMURRY

McMurray college at Abilene next fall will have the largest enrollment in its history, Dr. J. W. Hunt, president, predicted here yesterday. He visited a sister, Mrs. George R. Bean, stopping here while en route to the North Plains for a tenday tour in behalf of McMurray college.

"We are installing at McMurry college this year a cooperative plan for our dormitories that will enable us to board and room boys and girls at $18 a month.

"In the event we can do it for less, we will share the profits with the boys and not with the college.

"This reduced price will put our prices down with the state schools. We will be able to charge for board and room about what you charge here at Tech."

Dr. Hunt is planning to spend a good portion of the summer in the field for his school. He will preach at Groom Sunday morning and Stratford Sunday night, he said.

SEEK TO QUELL PERU REBELLION

TACNA, Peru, July 3 —(AP) —The government is attempting by conciliation and a display of armed force to quell a rebellion in the military garrisons at Cusco and Puno.

Representatives of the military junta arrived at Arequipa by airplane yesterday to start peace negotiations with the chiefs of the two insurgent regiments. Federal troops on the way to the scene halted when assured that the loyal detachment at Arequipa expected to dominate the situation.

The scope of the revolt has not been entirely determined. The government insists that it is confined to the two garrisons but observers say that much of the region is unsettled, with the citizenry divided in their loyalties. The situation is complicated by a strike of telegraph operators which has crippled communications.

A PLEASANT FINE

EL PASO, Tex.—There were quite a few parking offenses committed here recently and the offenders weren't so loathe to pay their fines. The reason is that Judge Henry Moore issued a statement that anyone wishing to do so could pay $1 for a parking offense and receive a ticket to the Southwestern League.

SIX HUNDRED TIMES THROUGH FAMOUS CAVERNS, COL. BOLES STILL FINDS SOMETHING NEW ON HIS EVERY TRIP

Although Col. Thomas Boles has been through Carlsbad caverns more than six hundred times, he still finds something new each trip, the caverns national park superintendent said yesterday. He appeared at a convocation in the gymnasium at Texas Technological college yesterday morning, inviting students and faculty to the first annual Tech day at the park. Tuesday will be Tech day.

Tech students and faculty members visiting the caverns Tuesday will be guests of the government, Col Boles pointed out. The entourage will be the first college group admitted without charge and the superintendent of the "eighth wonder of the world" gave credit for this innovation to C. A. Sheffield, manager of Hotel Lubbock.

"Mr. Sheffield came to Carlsbad," Col. Boles said, "and our brief association was a pleasant one. At its conclusion, I made arrangements with the government to admit the Tech entourage to the caverns as a courtesy."

The government has spent $15,000 on new trails in the caverns this year and visitors are offered more sights than ever before. About two-thirds of the stairways have been eliminated, Col. Boles said. The new elevator which will carry visitors to the big room will not be in operation until August, he said.

"Visitors may now make the trip through the caverns with about one-half the physical effort formerly required," he declared. New members have been added to the guide staff and every possible courtesy is extended visitors. Greater facilities for serving lunch in the big room have been provided, he said.

Col. Boles said the caverns are becoming more and more the greatest mecca for tourists in the U. S. He cited increases in the number of visitors, indicating that July is to be a banner month. More than 270,000 people have seen the scenic wonder since it has been under control of the government park service.

"Tuesday will be the first college day to be observed in Carlsbad Caverns," Col. Boles told the students in the convocation, "and we are quite anxious to make it a success."

Col. Boles stressed the educational and inspirational values afforded in a trip through the caverns, comparing it in value to a six weeks' tour through Europe.

Special transportation for students is to be offered for the trip which will be made in busses. The students will leave Monday, visit the caverns on Tuesday early and return to Lubbock late that afternoon. No fees will be charged the group for going through the park, it was said.

College officials are making plans for several hundred students and towns people to make the trip.

Caverns Highway Is Now Being Improved

Improvement of Carlsbad Caverns highway between Brownfield and Plains is under way, Joe Caldwell, state highway engineer, said yesterday. The section had been reported in poor condition.

The road is to be in excellent condition for the holiday travel to the caverns, it was said. Improvement of the highway is to be of great benefit to scores of Lubbock people and Tech students who are to visit the caverns on Monday and Tuesday.

Work Order Awaited On Paving Project

Although expected in a few days, a work order for start of construction on College avenue and Nineteenth street paving east and south of Technological college had not been issued this morning, so far as the local construction engineer's office knew.

The contractor, J. W. Zempter, of Amarillo, formerly of Oklahoma City, probably will sublet the grading and drainage job to I. Chessley, who had a similar job in Crosby county on highway 24. Mr. Chessley has his machinery and equipment here, ready for the work.

There will be a number of culverts to be built on 19th street from College avenue west to the junction of highways 24 and 137. The slab is to be laid on the south line of the property of Texas Technological college on 19th street.

Thirty carloads of spinach were shipped from Oklahoma last year, compared with nine carloads in 1929.

Druggists Find New Way T Stop Headach

Realizing that no one drug conquer all headaches, as come from so many causes, North Carolina druggists deve a combination of several dients which function tog giving three-minute, safe relie any kind of headache, neur sciatic or rheumatic pain, the nerves and leaves you nor buoyant, without depression o after effects.

DETAILS OF LITTLE JUAREZ MELEE BARED IN MEXICAN ASSAULT TRIAL

Although he was a member of the orchestra, Auguste Saltillo wanted to dance instead of strum a stringed instrument for the "baile." But Pablo Flores told him "no play, no dance." Auguste rebelled and that was the beginning of an altercation.

Testimony at the belated trial of Flores for assault in corporation court yesterday indicted that much. Flores and a companion had tried to oust Satillo from the dance hall. The orchestra member had been stabbed in the shoulder.

Witnesses Heard

The story of the dance and knife-play which occurred the night of June 13 in Little Juarez, Mexican quarter north of the tracks, was told yesterday by numerous Mexican witnesses, questioned by City Prosecutor J. C. Levens, Max Coleman, and others.

A jury found Flores guilty of simple assault and fined him the old standard fighting fine of $11.70.

The case was set for trial last week but was postponed when Saltillo failed to appear in court. The youth's mother said Saltillo left his home in the company of one of the brothers of the defendant. Both the complaining witness and the brother failed to reach the city hall.

Oscar S. Norling, in charge of the new branch office of the United States immigration service here, acted as interpreter.

Independence Day

One hundred and fifty-five years ago, July 4th, solons from the original 13 colonies declared themselves free and independent, drew up a proclamation, and issued it to Great Britian. It was decided then that this country could take care of itself. The Declaration of Independence is today an incident in history. The fact that this country has managed its own affairs and prospered is a living fact, with plenty left for the future. While we celebrate the occasion and honor those who started the ball rolling for our happiness, the many generations of men and women who since then pioneered and developed the country may well be remembered.

Ice
Light
Power

TEXAS UTILITIES CO. LIGHT POWER 1930 ICE

CONCEIVED in the surge of a great upheaval, the Declaration of Independence was tried by fire in the very crucible that cradled it. Reduced by the heat of that crucible to the most basic elements of sound idealism, it became not mere codified theory but the fabric of a welded structure whose strength endured.

In honor of those great Americans who so faithfully served their country in that dire time of need, the West Texas Gas Company, along with the other leading business firms of Lubbock, will be closed all day SATURDAY JULY 4TH.

West Texas Gas Co.
