CHRISTMAS BASKETS GIVEN

LEGION DISTRIBUTES FOOD AND CLOTHING TO NEEDY IN PERRYTON AND THIS COMMUNITY

Forty-five Christmas baskets, containing food for the Christmas dinner and to provide the family for several days, as well as clothing and other necessities were distributed on Saturday afternoon by the local Legion post, according to Sibley Jines, chairman of the committee making the arrangements.

Several of the baskets were delivered to country homes and a few were taken to needy families in DeWitt county, the balance being distributed in Perryton.

Serving on the committee with Jines were W. M. Boston and Horace Lackey. They were assisted by other members of the Legion and Auxiliary.

The giving of Christmas baskets to the needy is a Legion project that has been carried out every year since the local post has been reorganized. While funds for this project were limited this year, the work was carried on and what money was available was made to go as far as possible.

The Legion post in conducting such work are striving to carry out the aim of the organization to serve in time of peace as well as war. This is an admirable project and the local Legionnaires and Legion post are to be commended.

Cousin Accidentally Shot

Glazier Youth Killed By Brother On Hunting Trip Is Cousin Of Mrs. Sanders

Wane E. Zenor, 11 year old Glazier youth who was killed in a hunting party near his home last Monday when his brother, Ross Gale, age 14, accidentally shot him, is a cousin of Mrs. W. C. Sanders, it was learned here following the accident.

Funeral services for the boy were held at Glazier on Wednesday afternoon, burial being made in the Highways cemetery.

According to the story of the distressed brother, the younger boy was within gunshot range of the hunter when he failed to see the boy because of the heavily sage-covered and rolling terrain and the dimness of approaching dusk.

Because of the illness of her husband, Mrs. Sanders was unable to attend the funeral services.

NOTRE DAME-U. S. C. GRID GAME COMING

Football fans in this city who may have longed in vain to see that annual football classic, the game between Notre Dame and University of Southern California which was played December 10th in the Rose Bowl at Pasadena, need not repine any longer. They are going to have a chance to see the game in pictures next Monday and Tuesday, when the complete film record of the game taken by Warner Bros. will be shown at the Ellis Theatre.

Save for the actual cheering crowds, patrons of the Ellis Theatre will in reality have seats on the 90-yard line with every play made directly in front of them. A battery of cameras, using regular speed and slow motion photography, were used to catch every thrilling play. Orv Mohler, brilliant quarterback of the U. S. C. team, who was injured earlier in the season, was the director in charge of the making of this sensational football picture.

The regular feature picture for the program will be "One Way Passage" starring William Powell and Kay Francis.

Mrs. J. V. McAllister and daughter Collette, returned to their home at Pampa Wednesday after a few days visit in the R. H. Prewitt home.

.21 INCH RAIN FOLLOWS SNOW

LAST THURSDAY RAIN GREAT BOOM TO WHEAT GROWERS IN PANHANDLE; IS NEEDED BADLY

Rain falling last Thursday over the snow covered wheat fields of the Panhandle supplied a total of 21 of an inch of moisture, according to Jack Allen. The timely rain melted much of the snow, the balance of which has disappeared during the comparatively fair, mild weather following.

The moisture received last Thursday from the soft, easy rain that fell throughout the day in addition to the snow will prove of great benefit to winter wheat in this section.

LEGION PLANS PLANE ROUNDUP

COAST-TO-COAST PROGRAM IN PROMOTION OF AERONAUTICS AND NATIONAL DEFENSE PLANNED

The most extensive program for the promotion of aeronautics, commercially and for national defense, ever undertaken by The American Legion, according to National Headquarters in Indianapolis, is being developed by the Legion's National Aeronautics Committee, recently appointed by National Commander Louis A. Johnson.

E. V. Rickenbacker of New York, famous war ace, is chairman of the national committee, and H. Weir Cook, of Indianapolis, is director. Others on the committee are outstanding in the world aeronautics—Norman M. Lyon, Los Angeles, vice chairman; John Dwight Sullivan, New York; R. W. Schroeder, Northbrook, Ill.; J. Carroll Cone, Little Rock, Ark., and T. B. Clement, New York.

The first work of the national committee is the thorough organization of each state, or department. This is now under way, and is creating particular interest because a coast-to-coast airplane membership roundup is planned, details of which will be worked out when the various department aeronautics committees are completed. The national roundup probably will climax a similar one in each state, where airplanes will gather the membership cards from each of the posts and carry them into state headquarters. Then planes will bring the cards and dues from each department headquarters into national headquarters on a given date.

The major objectives tentatively outlined include:

1. Service and support to aviation in all its branches. This will include helping U. S. Air Mail lines with their problems and the general development of commercial flying.
2. Promotion of general interest in and creating public confidence in aviation.
3. Promotion of the interests of The American Legion through aeronautics work.

It is felt by the committee that it can be of great service to the country in the promotion of aeronautics, commercially by lending support and encouragement to necessary and worthy aviation developments, promoting safety, reliability and efficiency of equipment and of operations. Legion posts, which now number 10,602, will be expected to give local support to proper expansion and extensions of air mail, passenger and express lines. This, and other activities, will aid in building up passenger traffic and air mail postage.

National defense will be another phase of the work of the national committee.

Ochiltree County Herald

89 Births Registered In County In 1932

Eighty-nine births have been registered in Ochiltree county during 1932, according to Dewey R. Allen, local registrar, with only a few remaining days in which to record before the first of the year. While it is known that this list is not complete, parents are often negligent about filing certificates. It is thought that the total should be well over a hundred if all were recorded.

At the pre-school age clinic conducted by the Red Cross nurse last spring, out of thirty-four five year old children examined, only six had birth certificates. In a way this shows how incomplete the records are and although a greater effort is being made this year many children born in 1932 have not been registered.

Birth Registration.
 In reply to a request from the League of Nations, the Bureau of the Census furnished the birth and death rates of all states in the Union except Texas. These rates were furnished for world-wide publication, so that those organizations and individuals interested in human welfare, or those who wish to travel abroad, or those who wish to invest their money, might compare one state with another, or one nation with another, as to the health conditions. And Texas was not included in that report. This must be embarrassing to every citizen, and especially so to every local registrar of births and deaths.

Birth and death registration has been tested in every state in the Union and found complete except Texas. Every state in the Union has been admitted to the registration area except Texas.

The state registrar is special agent of the U. S. Bureau of the Census. The state's records are copied and sent to Washington, the data is tabulated, the rates computed and published in the national reports. Texas has not been formally admitted to this area but every privilege shown the other states has been shown Texas. Since 1927 the Census Bureau has done everything within its power to bring Texas registration up to one hundred per cent. These special favors have never been

shown the other states. Under these circumstances Texas must pass any test asked for.

Early in the spring of 1933 a test of the completeness of registration in Texas will be asked for, with the hope that more than ninety per cent of the births and deaths will be found recorded, and Texas may be relieved of this stigma. Therefore, we are very anxious that the certificates for all births occurring in 1932 be filed with the local registrar before the New Year.

There are many personal reasons why birth certificates should be filed. Are you planning a trip to Europe next summer? Have you heard that your great, great Aunt Susan left a large fortune, which in part may belong to you? Do you desire to vote for the next president? If so, a birth certificate to establish certain facts, now locked in the archives of the Bureau of Vital Statistics, may be necessary. You can get that record; you can establish those facts about yourself that you may never have dreamed of before, provided your doctor filed the record of your birth. Under the direction of Doctor W. A. Davis, State Registrar, and his eighteen able assistants, are more than a million and a half births and a million death certificates, stored away in fire-proof vaults, containing the secrets of Texas citizens.

A birth registration is a checking in and a death registration is a checking out of a citizen. The registration of births and deaths is an inventory of the country's most important element, its citizenry.

Maybe your children want to join the Boy or Girl Scouts; they must be one hundred per cent Americans. In order to be, they must be citizens of this nation, and to prove their citizenship, their births should be a matter of public record. Maybe some of them, when grown, will want to go to a foreign country. If they do, and they want to come back home they must have their births registered, and secure a passport. Some of them may want to join the Navy and travel around the world. If so, then by all means, establish

their citizenship in America by registering their births.

You know the best of us forget dates. One day a well known Texas attorney, a former Attorney General and former Chief Justice of the Supreme Court, came into the State Registrar's office and said: "Doctor, my oldest son goes to Europe this summer, and must have a birth certificate so as to get his passport." The copy was issued, and with that judgment and foresight of an eminent jurist, he added: "My younger son might want to go to Europe some time, and as it costs but 50 cents, just give me a copy of his record too." They took the date, but it could not be found. The next day a very meek voice over the telephone said: "Doctor, my wife says my boy is a year older than I thought."

Some schools require a copy of the birth certificate of the child, establishing his age, before that child is allowed to enter the school. They are a help to get correct school census and to establish legal age for state aid in school appropriation.

A birth certificate is a legal claim for inheritance rights. The great grand-children of Anne Dobler heard that in Denmark a fortune had accumulated from the property held in trust by that Government for the father of Mare Depree. Anne was born in Sherman, Texas, in 1859. Her birth certificate was filed in Texas, she was the daughter of Mare Depree. That copy of a Texas record went all the way to Denmark, served its purpose, and protected the rights of Anne Dobler's great grand-children.

Some may be children of disabled veterans. To collect a claim against the Government, based on a birth or death, it must be registered, and a certified copy of it sent to the Veterans' Bureau. There was a family living on a small chicken farm between Fort Worth and Dallas. The father, an invalid, had been gassed during the war. The mother was trying to make a living on a tiny farm of five acres. The Government paid the father \$90.00 per month as a pension. Each child was entitled to \$5.00 a month, but only the oldest one was getting it part. The mother wrote to the State Bureau of Vital Statistics for a birth certificate for the younger child,

CHRISTMAS EVE CAROL SINGERS

LEGION PROVIDES MUSIC FOR CITY ON CHRISTMAS EVE; SING CAROLS FROM TRUCK

To be awakened at midnight on Christmas eve or early in the morning to the beautiful strains of Christmas carols, sung to the accompaniment of an old fashioned organ, is the sensation enjoyed by Perryton folks last week when the Legion and Auxiliary serenaded the city.

Driving slowly up and down the resident streets the carolers visited all parts of the city with their Christmas messages set to music. The party was composed of H. P. Lorenz, J. Malvin Jackson, Jas. E. Barbour, Beno Truax, Mr. Price, Mr. and Mrs. G. Ward Moody, Mr. and Mrs. Horace Lackey and Mr. and Mrs. Freeman Garrett. Mrs. Jack O. Lusher accompanied the singers on the organ. The truck was furnished by Wm. Van Gulder who drove the party.

ORGANIZE TEXAS GOOD ROADS

ASSOCIATION IS COMPLETED TO GIVE EVERY TEXAN A NON-POLITICAL PICTURE OF PROBLEMS

HOUSTON, Tex., Dec. 28.—Following completion of organization of the Texas Good Roads Association here this week, the aim of this new state-wide agency was outlined by Judge W. O. Huggins, president.

The sole aim of the association is to see that highway construction and maintenance in Texas is continued, and the membership will be composed of Texas car owners who, by joining forces in such an organization, can constitute a force they would not have as individuals. Directors from each congressional district in the state will be announced shortly.

The first duty of the association, President Huggins feels, is to give every Texan the true picture of the state's highway situation. At the outset, general tax money was used to pay on county bonds to help pay for state roads. But this was plainly unfair, and the next forward step was the gasoline tax. By this tax, the user of the roads paid a sort of toll, or road rent, in proportion to the amount he used the roads.

Out of this gas tax today, which is four cents per gallon one cent goes to the state school fund and one cent to the refunding of county bonds issued in earlier years to build state roads.

This leaves two cents per gallon from which the entire system of highways must be maintained, and new roads built. The total amount, some \$15,000,000, can be made to cover maintenance and a moderate construction program, when combined with available Federal aid.

So the prime purpose of the association is to unite to preserve the two remaining cents of the gas tax to road building and road maintenance purely.

With legislators everywhere seeking new sources of revenue, there is an increasing temptation to seek to divert more of the gas tax money to non-highway purposes.

The association is urging all citizens who grant the value of the good roads in Texas today to impress upon their neighbors and their legislators the need for keeping this money for road purposes only, in order that present roads may be kept up and the system finished.

Present roads must be maintained or the heavy investment in them will be lost. A moderate program of new road-building must be carried on, or millions in federal aid will be lost.

And in addition to this, with 20,000 men now on the payrolls of the highway department and contractors doing the work, with many thou-

The game was interesting throughout and the score close enough to keep the final outcome in doubt until the very end of the session.

sands more making road materials and with 30,000 more employed in associate line of endeavor, a total of more than 100,000 men, women and children of Texas are dependent upon the highway program for their daily bread.

The association, Judge Huggins emphasizes, is non-political and thoroughly non-partisan. It endeavors to do nothing for feathered drosses or condemn no program or set of officials. It is not interested in what administration spends the money for roads. It merely wants to arouse the entire citizenship of the state to the proposition that Texas' highway system must be maintained and carried forward, and that the only way this can be done is for the remaining two cents of the gas tax to be preserved for roads alone, and not diverted for any other purposes.

In addition to Judge Huggins, who is editor of the Houston Chronicle, and a pioneer worker for adequate roads, the association's officials are Col. Ike Ashburn, General Manager, Houston, and Marshall R. (Dan) Diggs, Financial Secretary, in charge of the Dallas office.

New Chevrolets Add Over 85,000 People to Payrolls of Nation

TOP: New 1933 Chevrolet roadster climbing hill at General Motors Proving Ground.
 LEFT: New Fisher "No-Draft" Ventilation system illustrating how each passenger may have individually-controlled ventilation instead of being subjected to a sweep of air through the car, with resultant discomfort and danger to health.
 RIGHT: New rear-end of all closed models screening all unsightly underparts of the car.

Chevrolet's public showing of its new 1933 line means a material spur to national employment and materials consumption, since this company is the largest manufacturer in the largest industry in the world. More than 85,000 people are back at work, 30,000 in the company's twenty domestic factories, 21,000 more in Fisher body plants working exclusively on Chevrolet-Fisher bodies, and more than 36,000 in dealerships throughout the nation. As many more are indirectly benefited by the announcement, through making their livelihood by building parts for the car which Chevrolet buys from independent suppliers.

Chevrolet's 1932 volume totals nearly 400,000 cars and trucks with a retail value in excess of \$200,000,000. This is said to be one of the greatest contributions made by any company this year to the economic welfare of America.

In the new line, now on display at all dealers, is a variety of models

featuring longer wheelbase, new Fisher "No-Draft" Ventilation and many other features which the company has designed to retain for its leadership in the industry it has enjoyed for four years out of the past six.

Other features included in the new line are more power and speed in the engine, which is newly cushion-mounted; improved free wheeling, plus Synchro-Mesh transmission with Silent Second gear; a new "Starter" that greatly simplifies starting; such safety elements as shatter-proof glass in the windshield, larger and lower bodies by Fisher, in the new "Air-Stream" mode; three fewer controls, with really automatic features in some of those retained; an Octane Selector that insures the highest possible operating efficiency from all grades of gasoline, besides a uniform gasoline cost per mile; dash instruments of airplane type, for instant, easy reading; positive brakes; and still easier steering.

With all these, and many more, the price range continues to be mindful of the buyer's pocketbook. It has been found possible to equip the new Chevrolets with many fittings that used to be confined to cars selling at several times Chevrolet's base price.

Since October first, trained former employees have been going back to work in Chevrolet's widely distributed manufacturing and assembly plants, with welcome additions to the general purchasing power, made possible by more wage money in circulation. Throughout November, the increase in employment continued to a seasonal peak to the middle of December, when concentrated operations incident to prompt dealer stocking were in full swing. More than twenty million dollars worth of the new cars were in dealers' hands when the national introduction was made.

McMILLEN NOTES

Earl Waide, Reporter
 The snow seems to be here for the winter, for in spite of several warm days we still have quite a bit of snow left. At this time (Thurs.) the roads are in very bad shape and some of the less traveled roads are almost impassable.
 The McMillen P.-T. A. was postponed until the regular meeting time of next month.
 There was a large crowd present in spite of the bad roads last Saturday night, for the Christmas program. It had been rumored that Santa would not get to see us this year as he didn't have anything but one reindeer and a set of whiskers, but these stories were disproven, as every one present received a present of some kind.
 Mr. and Mrs. Arthur Swink ate Christmas dinner in the W. E. Dear home.
 Bernard Barnes came in from Texola, Saturday night, to spend the holidays with home folks.
 Mr. and Mrs. J. W. Smith and Mr. and Mrs. Fred Smith and children, Leroy and Ledon, spent Christmas day in the S. F. Waide home.
 Sunday school was postponed last Sunday because it was thought that everyone would want to go visiting or entertain company on Christmas day, but from reports, almost everyone stayed at home on account of the roads. The Sunday night meeting was also called off.
 Miss Ruth Ann Urban visited with Caroline Taylor Saturday afternoon.

McMillen Gossip

As there is no news of interest this week I am giving some of the neighborhood gossip. This is to be read only by those living in this community, and under no circumstances must it be mistaken for the truth.
 The committee which helped in sacking the treats at the school house last Saturday afternoon insist that the treats would not have run short that night if Harvey Urban and Earl Waide had worked instead of eating. The two mentioned are not able to argue the question yet.
 Opal Swink told a neighbor that she was going to give Arthur a pair of socks again this Christmas because he washed his feet before he put the new ones on last year and it was possible that he might do such a thing this year.
 Mrs. Lois Flowers believes that everyone should economize on presents this year and is doing that very thing. While looking through Gilman's trunk the other day (she did not tell what she was looking for) she found several new handkerchiefs

With a garden of 27 varieties, Ruth Cain, Indian Rock 4-H club girl in Upshur county, provided 4,450 pounds of fresh vegetables for the family and 157 containers of canned food. The garden cost \$12.50.

Thirty McLennan county farmers have built trench silos this year and have found the ensilage the best substitute for grass, the county agent reports. T. C. Westbrook, who built the first concrete silo in the county 20 years ago at a cost of \$900, built a trench silo of the same capacity this year at a cost of \$17.50.

Of the 50 San Saba county 4-H club baby beves weighed in November, 22 showed average gains of a little more than two and a half pounds per day, made on an average of 12 pounds of grain per day.

TEXAS 4-H CLUB CALF BECOMES AMERICA'S GRAND CHAMPION STEER

College Station—"Texas Special," the first Texas calf to be made grand champion steer at America's largest livestock show, was originally a 4-H club calf fed by Marvin Maberry of Fisher county last year. It was a creep fed calf, finished on a recommended A. & M. College ration under direction of C. C. Johnson, county agent of Jones county, points out A. L. Smith, animal husbandman in the Extension Service at Texas A. & M. college.

"At four months of age the calf weighed 420 pounds, due to the fact that he was a well bred animal and was well fed during the summer," says Mr. Smith. "From July 1st until September 19, 1931, Bumpy Lad, as he was then known, was kept in a barn in daytime, nursed his mother twice daily, and ran on sudan pasture at night. He learned to eat ground maize, ground wheat, a little cottonseed meal and plenty of hegari roughage during this creep feeding period. From September 19 when Marvin put Bumpy Lad into the feedlot until March 16, 1932, he was fed a daily ration averaging 10 pounds daily of grain consisting mainly of ground threshed milo and wheat, 2 pounds of cottonseed meal, and 8 pounds of hegari and sudan fodder. He also nursed his mother until January 1st, and another nurse cow twice daily throughout the remainder of the feeding period. When sold at Lubbock, Bumpy Lad weighed 880 pounds after making average daily gains of two and a half pounds per day.

"The possibilities of this calf, bred by D. F. Maberry and fed in a baby beef club contest sponsored by a Hamlin civic organization, were recognized first by John Gist of Odessa and later by C. M. Largent & Sons of Merkel who successively acquired Bumpy Lad and fitted him for championship honors," says Mr. Smith.

AUXILIARY ENROLLS ONE-FOURTH OF MEMBERSHIP

Nearly 100,000 women had enrolled in the American Legion Auxiliary for 1933 a month in advance of the beginning of the new year, according to Mrs. B. Carter and Mrs. Sibley Jines, membership chairmen of the Pierce Johnson Unit of the Auxiliary. This large advance enrollment amounted to approximately one-fourth of the Auxiliary's total membership, which is 406,293 for 1932.

The Department of Panama led the entire Auxiliary in percentage of members re-enrolled for 1933, with 93.83 per cent re-enrollment.

Wisconsin was second with 65.01 per cent, followed by Arkansas, Tennessee, Rhode Island, Kansas, Minnesota, Michigan, California and Connecticut in the order named.

Stop Fee Exemptions

Texas State University Takes Lead In Move To Eliminate Fee Exemption Practice

Austin, Tex., Dec. 20.—Exemptions of fees granted to certain students of The University of Texas because of their high standing as valedictorians and salutatorians in high school and for the achievement of other honors and distinctions will be eliminated henceforth as the result of a policy adopted by the Board of Regents at their last meeting in Austin. No student will be exempted from college fees except those expressly exempt by the statutes of the State; namely, veterans of the World War, and veterans of the Spanish American War.

Other State-supported higher educational institutions of Texas already have taken or will take the same action. A resolution favoring such action was passed at a meeting of Texas senior college presidents in March, 1932. The University has recently conducted an inquiry into this practice in other state universities west of the Alleghenies. As a result of that inquiry, it appeared that not half of the states have any extensive fee exemption systems and that far less than a third have systems in any wise resembling the one that has prevailed in Texas.

The University of Texas Regents scholarships include those given to the valedictorian of the senior class of each accredited high school, to the valedictorian of the graduating class of each first class junior college, to Boy Scouts, Girl Scouts, and Campfire Girls satisfying certain requirements, to students making high averages in correspondence work, and to winners of literary events in the Interscholastic League.

Previously all State teachers colleges and Mechanical College, Texas Technological College, the College of Industrial Arts, the University and its branches and other State supported institutions had offered these scholarships. The accredited school scholarships are the most numerous of the group because Texas has so many accredited high schools. In the University the holder of one of the regents' scholarships is exempt from payment of the registration fee of \$30 for one long session. Before 1931 the scholarships exempted the holder from the payment of registration fees for four long sessions in the University.

"None of the denominational schools have yet abolished their scholarships for honor graduates of accredited high schools, but they are expected to follow suit," E. J. Matthews, registrar, said.

WOMEN TO HOLD NATIONAL DEFENSE CONFERENCE

Women from all parts of the United States will assemble in Washington, D. C., January 30, 31 and February 1, for the eighth annual Women's Patriotic Conference on National Defense, according to an announcement received by the local Unit of the American Legion Auxiliary from the Auxiliary's national headquarters. The conference will be held for the purpose of uniting the patriotic women of the country in support of the maintenance of an adequate national defense for the United States.

The conference will be sponsored by the American Legion Auxiliary, with many other women's patriotic organizations participating. Mrs. S. Alford Blackburn, of Versailles, Ky., the Auxiliary's national president, will be conference chairman. Prominent authorities on the different phases of national defense will address the conference, and a program of activities by which the women of the participating organization can work for necessary defense measures will be drafted.

AGRICULTURAL BULLETINS

Goodwell, Okla., Dec. 20.—Three new agricultural bulletins have been published by the Panhandle Agricultural Experiment Station here, recently. Number 42 presents an analysis of conditions surrounding the payment of premiums for high protein wheat during the market season of 1931. Various reasons for the loss of premium values by the farmer are pointed out with suggestions for avoiding these losses in the future.

An improved knife sled designed by W. A. Hager of Texhoma, Okla., is described in Bulletin No. 43. The Hager knife sled was devised to eliminate some of the more objectionable features of the ordinary knife sled.

Of interest to poultry producers are the most enlightening results of a feeding trial just completed by O. S. William, Animal Husbandman, in which the yearly egg production costs and other data have been figured for three widely types of poultry ration. Bul. No. 44.

Any of these bulletins may be had on request to the Experiment Station.

WHO WILL PAY?

Who will pay the taxes after all property has been confiscated and all capital has at last found its way into the coffers of the government? The optimistic answer is that that will never happen. Probably it won't. But we are coming closer to it than we realize. In some middle western states more than 50 per cent of the farms have been foreclosed and are being worked by lessees, not owners. In some cities it is cheaper to tear a good building down than to allow it to stand—because taxes on the structure are greater than the income it produces. In other cases it is cheaper to close a factory—because, under present conditions, returns are not great enough to meet the tax bill and the other running expenses.

It is very easy to advocate soaking the rich and to help the poor. But over-taxation of capital is the surest way to produce distress, unemployment, depression. When peo-

ple are afraid to invest their money in producing enterprises, because of fear of increasing taxation, the country faces a crisis from unemployment and actual confiscation of capital and jobs by taxation.

The Congress now in session must deal with an unbalanced budget. The next Congress will have the same identical problem. Unless expenditures are reduced, there will come a time when there will not be enough taxpayers to meet government's high cost.

LOCAL WAR RECORDS PRESERVED IN FILES OF LEGION AUXILIARY

A permanent record of the World War service of many local families is contained in the membership files of the Pierce Johnson Unit of the American Legion Auxiliary, according to Miss Anna Lee Hodges, Unit Secretary. Miss Hodges is adding additional records to the files as new Auxiliary members are being enrolled for 1933. The application form of every member lists the war service of members of her family and becomes a permanent part of the Auxiliary records.

The Auxiliary membership records will become of increasing value as the World War recedes further into history, Miss Hodges pointed out. They very probably will be used by descendants of World War veterans to establish eligibility for honorary organizations based on war service. They also will provide a wealth of detailed information for historians and biographers of the future.

Women who are members of the Auxiliary run no risk of losing official record of their family's service. In addition to the record kept in the files of the local Unit, copies are sent to state and national headquarters of the Auxiliary where they are permanently preserved.

New Year's Prayer.
Let me dedicate this year to Thee whatever earthly state I may be in. Let me have me be free from sorrow, pain, or care. Let me dare I claim; let me shall be my prayer: glorify Thy name.

Thou wilt spare that yet are mine; life, serene and fair, brighter rays may shine, my glad heart while its sings there in all proclaim whatever the future brings glorify Thy name.

When thou callest to the cross and its shadow come, leading all my gain to loss, leading heart and home, let me think how Thy dear Son His glory came in deepest woe pray on: glorify Thy name.

New Year's Eve, December 31, 10 p. m. a divine service in the English language will be held. The service for New Year's Day at 10:30 a. m. morning will be "My Times in Thy Hand" (Ps. 31, 15). Sunday school and Adult Bible class will meet. In the afternoon at 3 p. m. quarterly voters' meeting will be held.

At the beginning of the new year right with Jesus. Take Jesus as your Guide, let Him be your con-

stant Companion. Resolve to make 1933 a year of prayer, Bible study, faithful attendance at God's House, and willing service of God and man. These things are essential for a blessed and happy new year. Come to church Sunday and hear a very timely, necessary and worthwhile message. If you ever need to hear a message to comfort and cheer and guide you, you certainly need it this year. Come and be assured of a real message and a cordial welcome.
H. W. Hartenberger, pastor.

CHRISTIAN SCIENCE

"God" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, January 1. The Golden Text is from Psalms 65: "Praise waiteth for thee, O God, in Zion; and unto thee shall the vow be performed. O thou that hearest prayer, unto thee shall all flesh come."
Passages from the Bible will include this from Job 23: "O that I knew where I might find him! that I might come even to his seat! . . . But he is in one mind, and who can turn him? and what his soul desireth, even that he doeth."
The Lesson-Sermon will also include the following from the citations to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "It should be thoroughly understood that all men have one Mind, one God and Father, one Life, Truth, and Love. Man-kind will become perfect in propor-

tion as this fact becomes apparent, war will cease and the true brotherhood of man will be established. Having no other gods, turning to no other but the one perfect Mind to guide him, man is the likeness of God, pure and eternal, having that Mind which was also in Christ" (p. 467.)

89 BIRTHS

(Continued from page 1.)

who was born in a Texas city, but the record had not been filed.

Birth Registration is a help to the physician doing research work for the betterment of the race, to the minister in different phases of his work, to the one registered—he or she can refer to record any time during life, should question arise as to their age, to the Federal Government to get correct census, and makes it easy in case of war to ascertain the draft age. The individual, the state, the nation, and every enterprise in the country is at some time or in some way affected by these Vital Statistics.

If you have a baby in your family born in 1932, whose name does not appear, please call at the office of your physician or at the office of Dewey R. Allen, the local Registrar, and have certificate prepared for filing. There is no expense to you for 1932 births if filed before January 1. It is much better if complete name of child is filed.

The following is a list of the births filed for 1932 and if your child's name does not appear please arrange to file certificate at once. Where the child's name does not appear on the list the name may be sent in and added to the official record.

STARS FACE PROBLEM IN UNUSUAL LOVE STORY

William Powell and Kay Francis met one of the hardest problems of their long and varied careers in portraying the romance of "One Way Passage", their latest Warner Bros. picture, which comes to the Ellis Theatre next Monday and Tuesday.

Their story in "One Way Passage" is that of a man and woman deeply enamored of each other whose sacred love is doomed to be unconsummated. Portrayal of their parts required perfect acting in order to convey the depth of feeling between them while conveying to the audience at the same time the utter hopelessness of their case.

Powell and Miss Francis are supported in "One Way Passage" by an all-star cast, including Aline MacMahon, Frank McHugh, Warren Hymer, Frederick Burton, Douglas Gerrard and Herbert Mundin.

Mr. and Mrs. Carroll Dodd had guests to help eat their turkey dinner Sunday. They were Mr. and Mrs. J. H. Stansberry, Mr. and Mrs. A. W. Blue and son, Mrs. Pat Benjamin and John Fields.

Mrs. G. D. O'Dell was a Sunday guest in the home of Mr. and Mrs. W. E. Perry.

Miss Maude Dean came in Monday from Slaton, where she teaches, and visited until Thursday in the home of her sister, Mrs. R. C. Johnson, and with her father, O. W. Dean.

W. J. Neuman is home from Wayland college, Plainview. He will return the first of next week.

ADOPTS THE WEST

Like Zane Grey, famous author of Western fiction, Randolph Scott, who appears in the chief role in Grey's "Wild Horse Mesa", coming Friday and Saturday to the Ellis Theatre, is an Easterner who acquired his love for the wide-open range. Zane Grey was born in Ohio, and lived East during the early years of his life. Fascinated by the West he turned, and subsequently lived there, writing his experiences and views into the fiction that has made him great in books and on the screen. Scott is a Virginian who came West two years ago. But, training since youth to familiarity in the saddle, he quickly found himself at home in his Western roles.
