Where We Stand In The Fight Against Americas No. 1 Killer

By R. L. Kleeberger, M. D. President, Hansford County Heart Association

Fifteen years have come and gone since the people of this country decided to stop merely talking about heart disease and to start doing something about it. A truly massive research assault was launched against this -- the foremost health problem of our time in 1950. In these 15 years, how far have we progressed? What has been accomplished?

Today, we have statistical evidence that we may have turned the corner in our effort to protect the hearts of American men in their prime of life -- the pre-retirement years of 45 through 64. Here, since 1950, there has been a relatively sustained decline in the death rate from cardiovascular disease, which adds up to about 7½ per cent.

To appreciate the significance of this decline, it must be realized that prior to 1950 the cardiovascular death rate had been spiraling up. Surprisingly, the decline was achieved despite a 4.3 per cent increase in the death rate from heart attack among men in this age bracket. But the rate of death from high blood pressure and the heart disease it causes dropped 49.9 per cent, and that from stroke 25.6 per cent. These dramatic improvements were largely responsible for a decline of 7½ per cent. Among women of the same age, the decline was even more spectacular--a drop of 56 per cent in the death rate associated with high blood pressure, and a decrease of 35 percent in that from stroke.

Probably the largest single factor in this important achievement was our recently-discovered and newly-applied knowledge that most cases of high blood pressure can be controlled under medical supervision. Mainly, this involves drugs and diet changes. Improved treatment obviously has had a favorable effect on the stroke picture since some strokes occur as a complication of high blood pressure. Additionally, other aspects of the cardiovascular picture have improved thanks to procedures which prevent repeat attacks of rheumatic fever, the use of artery grafts and artificial heart valves, effective methods for combatting such once-fatal disorders as bacterial endocarditis.

Happily, the decline in the cardiovascular death rate during this decade and a half was not confined to men and women in their prime-of-life. Over the same period the cardiovascular death rate for those aged 5-24 declined 35 per cent. For those aged 25-44, it decreased 10 per cent.

As a result of these advances, people everywhere acquired not only a new measure of hope but also a new feeling of determination to speed the conquest of heart and blood vessel disease with their Heart Association serving as the central and spearheading force behind the effort. Moreover, in these 15 years, it has become apparent for the first time that the average man can do certain things to reduce his risk of heart attack.

Castor Bean Meeting Friday

A meeting for Hansford County farmers will be held Friday in the Farm Bureau meeting room to introduce farmers to Castor Beans as a cash crop.

The meeting sponsored by the Agriculture Committee of the Spearman Chamber of Commerce. Kenneth Evans chairman is open to anyone in this area.

Representatives of the Baker Castor Oil Company and manager of the local A. S. C. office will be in attendance to answer any questions on their phase of the program.

Lynxettes Win District

The district basketball title for the fifth consecutive year has been won by the Spearman Lynxettes. The title was won by the girls by never being defeated.

The champions defeated Stinnett 46-33, Friday night in Stinnett.

Onley will probably be the team the Lynxettes will play for bi-district, as they are leading District 2-AA. This is the first year the Olney girls have competed in basketball.

In Friday nights game, Stinnett only made eight points in the first quarter and four in the second eight minutes. Quarter scores were 21-8, 30-12 and 35-22.

Vicki Wilde led the scoring with 17 and Phillis Patterson followed closely with 16.

Band Concert Is Tuesday

Four bands will present a concert in the Spearman High School Auditorium, Tuesday, February 16, 1965 at 7:30 p.m.

Bands making up the concert will be the 5th grade band, the 6th grade band, the Jr. High Band and the High School Band.

First on the program will be the 5th grade band, under the direction of Mr. Sam Watson. The band will present three numbers entitled "Majorie Waltz" by J. Sparks, "East Port March" by J Hill and "Shirley Waltz" by R. Robbins.

"Salute to Mozart" by Kinyon, "Little Scotch Suite' by Jackson and "Johnnie Learns To Play" by Arsers, will form the 6th Grade bands portion of the program. Bonnie Seymour and Billy Messer will be featured. This band is under the direction of Mr. Frank Porter.

Mr. Porter will direct the Junior High Band in the numbers "A Marching Song" by Ployar, "The Great Gate of Kiev" by Mourissey, and "The Black Knight" by Grundmann.

The finale of the program will be presented by the High School Band. Most of the members of this band have been under the direction of Mr. Sam Watson since their grade school days. Songs played for the enjoyment of the audience are "Thunder Crest" by Eric Ostertino, "Praeludium for Band' by John Cacavas "First Swedish Rhapsody" by Frik Leidzen, "March Juno" by John Stewart, "Prairie Reflections by John Warrington, and "King Cotton" by John Philip Sausa.

The tickets to the concert are now on sale and may be purchased for $1.00 adults and 50c for children.

H S Debate Team Ties For Third

In competition against nineteen schools, the Spearman High School boy's debate team tied for third place at the Phillips University Invitational Speech Tournament held in Enid, Oklahoma February 5 and 6. Debating some of the top ranking Oklahoma teams, Spearman teams made an outstanding showing. Both of the teams that reached the finals in the tournament suffered their only defeat when they met the local teams in the preliminaries. The girl s team is composed of D'dee Collard, Sophomore and Judy Noel, Junior. The boys' teams are Gary Benge, Freshman, Doug Lackey, Sophomore and David McClellan, Sophomore, Eddie Jenkins, Senior. The girl's team had only one defeat in the preliminaries and would ordinarily have advanced into the final rounds. However, due to a scheduling conflict they had to forfeit one round therefore becoming ineligible for further competition.

Pat Massad, Sophomore, competed against 30 students in the poetry interpretation contest, and advancing through the semi-finals and finals was ranked first.

Other students entered in the tournament, but not reaching the finals were: Tim Lackey, Poetry Interpretation; Mansel Bryan, Boys Extremporaneous; Mike Shedeck, Boys Extemporaneous; Judy Womble, Girls Extemporaneous; Paula Stout, Girls Extemporaneous; Donna Ownbey, Standard Oratory and Dramatic Interpretation; Lonnie Morris, Standard Oratory; Judy Noel, Humorous Interpretation. This was the first tournament for most of these students and though they did not reach the finals ranked high in their division in the preliminaries and received favorable criticism.

Mrs. Frank Porter, High School Speech Director, indicated that the next tournament for the local students will be the Spearman tournament on February 19 & 20. Then on February 26 and 27 they will be in Edmond, Oklahoma for the Central State Invitational Tournament there.

One of the teams in the finals at the Phillips tournament was a team from Chandler, Oklahoma where Mrs. Porter was speech director for four years. While there her debate team was State Champions and had state championships in the individual events. She also had three Chandler students in competition at the National speech tournaments. At one of these national tournaments one of these students was judged as one of the four speakers in the nation. Another of these students is presently serving as County Attorney.

NOTICE: The four fast Texans will have races Sunday 14th, at the Spearman Cycle Bowl at 2 p. m. The bowl is located at the R. L. McClellan farm, 1 mile west then 1 mile north of Spearman.

The Governor of Texas, John Connally, has named February as American music Month in Tex.

In this designation, Governor Connally said, "Music, long the universal language, is one of the great arts and an outstanding feature of our culture."

"The National Federation of Music Clubs, having as a foremost objective the promotion of American Music, will stage its eleventh annual "Parade of American Music" throughout the month of February. The Texas Federation of Music Clubs, a component part of the National Federation, join in encouraging and stimulating interest in the American Music."

"The Parade of American Music is designed to give our own worthy United States composers recognition, encouragement and support, t oeffect a more extensive hearing of their works and pay them tribute through their living are, and to impress upon the public that it has creative as well ar performng muscal artsts and a muscal culture equal to that of other conutries."

Morse Is Closed

BULLETIN: Morse will not have any school the rest of the week because of flu!

32 percent of the students were out Tuesday!

Superintendent Bramlett announced this week that the Spearman schools are winning their battle against the flu bug. Monday of thiswee k, 53 students were absent from the Spearman schools, but Tuesday only 48 were absent, and of course not all of these students were out with the flu. Spearman's absence have been running under 5 percent, & this is excellent during the flu season.

Two weeks ago, 55 students were absent from the Gruver schools but they are also whipping their flu bug!

If any student feels that they have the flu symptoms, please contact your school nurse, or your physician.

First Lady Of The Harp In Borger Fri.

MILDRED DILLING

Mildred Dilling, acknowledged by critics to be the greatest woman solo harpist, will play for Community Concerts Association Friday, February 12, 1965, at 8:00 p.m. in the Borger High School Auditorium.

To the delight of concert audiences all over the United States, Canada, and Europe, Miss Dilling, "The First Lady of the Harp," combines musical artistry, wit, and her fabulous harp collection in her recitals! On her annual United States tour she displays fifteen or more antique harps from different eras and countries on the stage and uses them to illustrate a highly amusing short history of the harp. Of course, she plays the actual recital on her Lyon and Healy gold concert grand harp.

Born in Indiana, Miss Dilling began her early musical studies in America; later she continued them in Europe under Henriette Renie, the great French harpist. Her debut took place at the Salle Erard in Paris. Such was the gala concerts at the Trocadero and the Salle Gaveau, the largest concert halls in Paris, followed by concerts throughout the Continent and the British Isles.

Today Miss Dilling annually appears in concert in more than 60 U.S. cities and towns. Also, annually, she undertakes a three-month tour of Europe.

Miss Dilling owns more than 85 harps--all playable--which makes her the owner of the largest private collection of harps in the world. As many as 65 of these harps are kept in her New York apartment!

Even when not in New York Mildred Dilling is never very far away from her harps. Travelling over the United States each season in a 25,000 mile concert tour, Miss Dilling is accompanied by at least a dozen of her harps which she bundles into an especially-designed-for-harps station wagon. Even so, she babies them with inner-spring mattresses, pillows, and special heat control.

Mildred Dilling has interested such diverse personalities as Sir Laurence Olivier and Bob Hope in playing the harp. She is known as "The Harp Lady" to antique dealers all over the world and calls herself "just harp-happy". She frequently guests on television and has played seven concerts at the White House.

Mildred Dilling set out to prove that the harp is as exciting a solo instrument as the piano or violin. Everyone agrees that she has achieved her goal with spectacular success.

County Agents Report

RODENT CONTROL DEMONSRATION

Robert Adamson, Hansford County Agent, states that a demonstration on controlling prairie dogs and gophers will be held Wednesday, February 17, 1965 beginning at 2.00 p.m. The prairie dog control demonstration will be held 2 miles west and about 4 miles north of Spearman on the Guthrie place. This will be about 2 miles north of the golf course. The gopher control demonstration will be held on the Spearman golf course following the prairie dog demonstration. Cars will park at the windmill.

Tom Sparks, Field Assistant with the Rodent Control Service at Lubbock, will be present to demonstrate the use of the poisons used for control.

NOTICE

Poison grain no longer can be sold through the County Agent's office so it will be sold at these demonstrations. Persons Wanting poison grain will need to be present to buy it. If you do not get the grain on this day, you will not be able to buy it until another demonstration day is set up at some later date.

Information on how to poison coyotes will also be presented on this day so ranchers interested in this phase should also be present.

Mrs. McClellan Hosts Bridge Club

Mrs. Wilson McClellan entertained the Bid-and-Chatter bridge club Monday evening.

Mrs. Mackie won high score, Mrs. DeArmond second high, Mrs. Dawson low and Mrs. Noliner the traveling prize.

Dinner and an evening of bridge was enjoyed by Mesdames Peggy Dawson, Gwen Reed, Mary Jane DeArmond, Ruby Lair, Barbara Schnell, Jo Ann Crawford, Verna Strawn, Joyce Lackey, Felma Evans, Norma Jean Mackie, Mary Faith Nollner and the hostess, Joan McClellan.

Mrs. Frank Porters' Poem Selected For Publication

Mrs. Frank Porter, local high school speech director, has been notified that one of her original poems has been accepted for publication in the National poetry Anthology for 1965.

In making the announcement, Dennis Hartman, Editor of the National Poetry Press in Los Angeles, California, said that Mrs. Porter's selection was one of the small number selected from nine thousand manuscripts submitted.

Mrs. Porter, who is a member of the Texas Poetry Society, has had her work published in various anthologies for the past 20 years. The first of these was in 1945 when she was 15.

Mrs. Shirley Fite and baby daughter of Perryton visited Monday with her father, Mr. W. C. Spearman and with Mrs. Ruth Caro.

Mr and Mrs. Floyd Cotham & children of Perryton visited in the home of Mr. and Mrs. Ray Devers Saturday evening.

Information On 'Pooling' Bill

Citizens of Hansford County, producer of some $16.9 million worth of oil and gas a year, have a special interest in the "pooling" bill now before the Texas Legislature, James L. Sewell, president of Texas Mid-Continent Oil & Gas Association, reported this week.

"Although Hansford County has production, the oil men who operate here, as well as the landowners and governmental officials, are interested in securing maximum development," Sewell said. "A pooling law will encourage a more efficient and more equitable approach to development of our oil and gas resources."

A measure, supported by all segments of the Texas petroleum industry after two years of intra-industry conferences and study, was recently introduced as Senate Bill 2 by Senator Galloway Calhoun, Jr., of Tyler, and as House Bill 2 by Rep. Wayne Gibbens of Breckenridge.

Sewell stressed that the measure does not affect normal leasing and voluntary pooling arrangements between landowners and operators, nor does it affect in any way reservoirs discovered and produced before March 8, 1961 (date of Supreme Court decision that wells on small tracts could not produce at rates disproportionately higher than adjoining tracts).

"The pooling bill is designed to make it possible for mineral owners - - regardless of the size tract of land they may have - - to get their fair share of the oil and gas that may underly their acreage," he said.

Mrs. Groves Hosts Happy Homes HDC

Members of the Happy Homes Home Demonstration Club met in the home of Mrs. Fred Groves February 4.

Katherine Patterson gave the devotional.

The annual enchilada supper to be held February 12 was discussed. Mexican costumes are to be worn by members. Plans were made to supply a Valentine tray favor for residents of Pioneer Manor.

Nell Cummings was elected delegate to the District meeting to be held in Canyon April 8.

It was decided in Council that each club would help landscape Pioneer Manor.

A demonstration on "Selection, Buying & Preparation of Meats" was given by Marilyn Groves.

Attending were Mesdames Margaret Adamson, Adalyn Barnes, Nell Cummings, Rose Cummings, Margarette Evans, Joan Gaither, Nina Hendricks, Louise Mullins, Katherine Patterson, Maylynn Lackey and children and Mr. and Mrs. A. L. Wilson and sons.

After six great years like this what could Pontiac possibly come up with next?

The 1965 Pontiac: Car of the Year! That's what!

We had to reach a climax somewhere along the line. And what better climax for a car than to win Motor Trend's Car of the Year Award for 1965? Nothing could please us more, except maybe the way people are buying our cars. And they are. Drive one and find out why.

The Way I C It!

ROBERT CORDES, PASTOR
FAITH & OSLO LUTHERAN

* * *

Traveling by ship nowadays is quite safe. Modern ocean liners are equipped with radar, and instruments that warn of dangers ahead.

In the New Testament times almost 2000 years ago, ships had little of such equipment. During certain storms, they couldn't go straight across the sea. They sailed close to land. The captain wanted to be close to a harbor in case he saw storm clouds building up.

Sailors had good reasons for being afraid to venture out to sea. Small ships could easily fill with water if huge waves splashed over them. They were made of wood and weren't strong enough to stand violent storms. Because they had no engines, ships depended entirely on favorable wind to move them.

We are somewhat like those ships of long ago. As we go through life, we meet many dangers. "Storms" of trouble may cause us to doubt God's goodness. On the other hand, a life that's too easy may lull us into thinking we can get along without God. This is evident today in many lives in this area.

If we venture out into the middle of life's sea on our own, we're helpless against storms. Only by remaining close to Jesus are we really safe. He who loves us and saves us is always present to guide us through all troubles and dangers. Over and over again our Lord tells us: "Fear not, for I am with you."

O Lord, I need Your strengthening presence to lead me through all dangers. Without You, I am helpless. Be with me, as You have promised, that I may live each day in the assurance of your safety and guidance. Cause me to see the hoplessness of trusting my own ingenuity. Guide me by Your Holy Spirit to the one who alone can still the storms of Satan in my life and direct me through the Son to eternal heaven. Amen.

* * *

Most of the people in our area belong to this church denomination or that one. But attendance figures prove people don't show their membership in activity.

For many religion is a salve for the conscience. They dab in to religions but never take the teachings serious--just getting an occasional shot in the arm. For many the membership is good to have in times of sickness, or when there is a funeral.

Where is the active Christian membership in Christ Jesus? On a Sunday morning note the moral inactivity and people are active with their business and pleasures. Truckers hauling cattle, farmers in the field, washing the car, hauling the boat--lots of traffic but little is directed to assembling to worship God who sent His Son Jesus to restore us again to heaven.

There are only two classes of people--either those who are the Lord's and thus forgiven or those who are not his and are lost. You fit into one of these two categories.

Let us remember though--joining a church denomination doesn't save a person. Rather joining Christ is the only way back to heaven. Too many have joined organizations and then drift into inactivity. Your membership in Christ cannot be one of inactivity and still be living faith. Don't forget this.

Religion is the best armor in the world, but the worst cloak. Don't hide under the guise of church membership. An airplane in inexperienced hands or an airplane with a motor out are dangerous things. So is church membership but not membership through faith in Christ Jesus.

Do you only dab into religion--never taking it seriously, just getting an occasional shot in the arm? Then beware friend--beware!

Week-end guests in the Carl Galbreath home were their daughter and family, Mr. and Mrs. James Honaker, Jr. and children, Rickey, Nicky, Tozia and Tony, Pampa. The group were afternoon callers of Mr. and Mrs. J. H. Nichols.

Results Of Soybean Tests On Hi Plains

Research results throughout the High Plains of Texas in soybeans have been most gratifying for the High Plains Research Foundation at Halfway, Texas.

"Farm Centered Research" plots, which are actual tests on farmers' land over the country, have been most successful according to Jack Werner, Associate Agronomist of the Foundation staff. Werner, who is in charge of Farm Centered Research tests reports that information gained in the soybean variety tests has been most helpful in finding the proper soybean for each specific area of the Plains. The Foundation staff planted and supervised some eight "Farm Centered Research" test plots scattered from Farnsworth in the northern Panhandle to Ralls on the South Plains. On each of these test plots, ten different varieties of soybeans were tested.

HINN, the new soybean developed for the Plains by the Foundation, was tested against the standard beans grown in the area as well as several new experimental soybeans being developed by the Foundation. In all of the tests, HINN outyielded the standard varieties by from 5 to 10 bushels.

One of the new beans developed at Halfway and included in the "Farm Centered Research" plots is an early maturing short season bean that has a low water requirement. This new soybean will be best adapted to the north Plains region which has a shorter growing season. In the south Plains, this bean will be a good crop to plant in case of "hail out" when it is too late to come back with either cotton or grain sorghum. In one test north of the Canadian River, this short season bean produced 45 bushels per acre when planted double-row. On the Clayton Terrell farm east of Plainview, another yield of 38 bushels per acre was harvested.

Werner stated that, "Texas is now the number one leader in the nation in bushels harvested per acre of soybeans. With the new varieties being developed, Texas can become the top-ranking state in number of acres in a few years. Soybeans that yield as high as the HINN give the farmer a good net per acre return, and this is what the farmer wants."

One young farmer from Spearman, Don Robinson, grew 136 acres of the HINN soybean under adverse conditions, yet harvested around 32 bushels of beans per acre. This field was ready for harvesting on November 5, but due to the weather, harvest was delayed until Dec. 27. During this time, the soybeans received two heavy rains, a 6-inch snow, a sleet coating, and strong winds.

The HINN withstood the weather by standing up til harvest & had very little shattering. Robinson said that less than 2 bushels per acre fell out of the pod. This shatter resistance along with a higher yielding ability and the characteristic of fruiting about 6 inches off the ground were some of the reasons that the HINN was developed by the Foundation.

For more inormation on HINN soybean, contact the plains Research Foundation Office Drawer 2200, Pla Texas.

His '65 Ford rides quieter....than his Rolls-Royce

Tests proved it.* Does this mean Ford now rivals one of the world's most wanted luxury cars? Hardly! But these tests do mean plenty—to you—if you're shopping for a popular-priced car. They prove Ford has outstanding strength, design, quality. Compare Ford, in every way, with everything in its class . . .

Feel Ford's solid quality
- 100% new body—strongest ever on a Ford.
- New frame "tunes out" vibration.
- New suspension puts a big ultrasoft coil spring at each wheel.

Inspect Ford's luxurious new LTD models
- Decorator interiors, thick nylon carpeting.
- Walnutlike vinyl inserts on doors and instrument panel.
- Rear-seat center arm rests, five ash trays (4-door hardtops), padded instrument panel, and more.

Relax in Ford's spacious interiors
- Swept-back instrument panel, lower transmission hump.
- Trunk holds four 2-suiters standing upright, and more.

Test Ford's new power
- Big, new 289-cu. in. V-8 standard in XL's and LTD's.
- New Big Six—biggest Six in any car. Test-drive a '65 Ford!

*Leading acoustical consultants conducted tests in which 1965 Fords (Galaxie 500 Sedan, XL and LTD Hardtops) with 289-cu. in. V-8 engines and automatic transmissions rode quieter than a new Rolls-Royce. These tests were certified by the U.S. Auto Club.

Best year yet to go Ford!

PROSPERITY ISSUE OF REPORTER NEXT WEEK FEBRUARY 15

Following the custom of the publisher of this newspaper, the annual Prosperity Issue of the Spearman Reporter will be published next week.

With a half million dollars in government payments received, with the wheat crop prospects the best in many years, the price of cattle high, there is more logic for prosperity at this time than any time during the past eight years the prosperity issue has been published.

A new weather chart of the county will be published and additional copies furnished advertisers who cooperate in publishing the prosperity issue.

TWO FEBRUARY SNOWS BRING .58 INCHES OF MOISTURE

A wet snowfall Saturday Feb 3 and a slight fall of the fleecy flakes Feb. 5 brought the Feb. moisture record up to .58 inches. The first snow measured .50 and the Monday snow totaled .08.

C. of C Leaders Leaders' Workshop

Local Chamber of Commerce leaders from 44 cities in West Texas will attend a one-day Community Leaders' Workshop in Amarillo on February 18, one of four such sessions scheduled February 15-18 in Denton, Brownwood, Big Spring, and Amarillo.

The workshops are co-sponsored by the West Texas Chamber of Commerce Community Services Committee and the local chambers of commerce in the four cities. Involved in the four meetings are local chamber leaders from 157 communities in the 132-county WTCC area.

Scheduled to gather at Amarillo are local chamber presidents, officers, directors, committee chairmen, and managers from 44 cities in this section of the WTCC territory. The workshop is designed to acquaint local chamber leaders with their role in community and chamber leadership, to enrich them with knowledge of chamber activities in other areas, and to serve as a market place for new ideas.

Keynote speaker for all the workshops is Frank Mueller, manager of the State Chamber of Commerce Service Department for the U. S. Chamber of Commerce.

During part of the day separate sessions will be held for chamber presidents and other officers, board members and committee chairmen, and managers. The afternoon sessions will be devoted to a study of local chamber programs of work, financing chamber activities, and committee management.

Anyone interested in attending is asked to contact the Chamber of Commerce secretary by calling 659-3330.

The workshop will begin at 9:30 a.m. and close at 3 p.m. at the Herring Hotel in Amarillo.

Mr. and Mrs. Kiff White returned home Wednesday from a fishing trip to Falcon reservior.
