

CHAMBERLAIN HAS LITTLE HOPE LEFT

FOR APPOINTS
COMMITTEE TO
PROBE STRIKERailroad Walkout
Automatically
Postponed

WASHINGTON, Sept. 27. (AP)—President Roosevelt appointed a three-member fact-finding commission today to investigate the wage dispute between railroads and their employees.

Members of the commission are Chief Justice Walter P. Stacy of the North Carolina supreme court, chairman; Professor Harry A. Mills of the University of Chicago, and Dean James M. Landis of the Harvard Law School.

Under the railroad labor law, they will report within 30 days.

Railroad workers have voted to strike if the carriers insist on a 15 per cent wage reduction proposed for October 1. Because of arbitration machinery contained in the labor law, however, employees could not actually walk out before December 1.

CHICAGO, Sept. 27. (AP)—Nearly a million railroad workers from section hands to streamliner engineers—were committed today to a nationwide strike this week-end but presidential intervention, postponing the walkout, was considered imminent.

The strike was ordered to combat a 15 per cent pay cut. Deadlines were fixed late yesterday by the chiefs of 19 rail brotherhoods after tabulation of a strike poll.

The zero hour for 100,000 employees in 15 unions constituting the Railway Labor Executives Association was 5 p. m. Friday, Sept. 30. The 100,000 members of the Brotherhood of Railway Trainmen were ordered to quit work at 12:01 a. m. Saturday.

All of the nation's major railroads were involved in the dispute. George Harrison, chairman of the association, and President A. F. Whitney of the Railway Trainmen's Union, reported the workers voted overwhelmingly in favor of a strike. Under the railway labor act such action would automatically

GARRISON TO
HEAD POLICE

AUSTIN, Sept. 27. (AP)—The Public Safety Commission today announced promotion of Homer Garrison Jr. from the assistant directorship to the directorship of state police, succeeding the late Col. H. H. Carmichael.

The 37-year-old East Texan who rose from the ranks will be executive director of the Texas Rangers, highway patrol, driver's license bureau, narcotics division, bureau of identification and other divisions of the far flung police organization.

The appointment was announced by W. E. Richardson Jr. of Austin, commission chairman, who said Garrison would continue all policies of the former director, who died Saturday of a heart attack.

Garrison was born in Lufkin and became a deputy sheriff at the age of 19. He became a state license and weight inspector in 1929 and later to the highway patrol in 1930. He successively became a lieutenant and captain and was promoted to assistant director of the entire safety department in September, 1935.

I HEARD ---

John Peake, just back from Houston, reporting that the five boys enrolled at Rice Institute are "just fine." He brought Howard Neath a large picture of the Owl coaching staff. The pictures were presented everyone at the Houston Junior of commerce luncheon last Friday at which the coaches were guests and to which Mr. Peake went.

Lange Outlines Drive
To Raise \$4,000 For
Salvation Army Here

Aims and methods of the Salvation Army results were cited by Envoy Frederick M. Lange as members of the Salvation Army advisory board met in city hall last night and outlined a campaign to raise \$4,000 to assist the needy of Pampa.

An advance canvass plan was begun Monday, headed by J. M. Collins, advisory board treasurer, and the general drive will open next Monday.

"We have one thing to beware of," Envoy Lange cautioned, "and that is the Salvation Army not being taken for granted and the public thinking that someone else will do the giving. It is the business of everyone to aid and without this help we cannot continue to give excellent service."

"Pampa has always responded to every good cause and I am certain that the service of Captain and Mrs. Herman Lambrecht is appreciated. We must raise this \$4,000 if we continue to render the service this community expects."

After a discussion on ways and means of contacting business concerns and individuals, Arthur Teed,

FROM POPE

VATICAN CITY, Sept. 27. (AP)—The Vatican newspaper, *Osservatore Romano*, asked in an editorial today whether a European war, if it should come, would not be "to maintain a date—the first of October" rather than "as has been contended, to maintain a federal lordship of one state over people not its own."

The editorial was a thinly veiled rejoinder to Premier Mussolini's speech at Padua last Saturday. The newspaper asked: "Is it possible that millions of men who have no reason to be at odds with one another or for conflict or hatred, millions of men who are at peace with one another, should be hurled against each other simply to destroy themselves?"

"Why cannot the patience which has lasted 20 years without obtaining what was wished for endure for six days after having gotten it?"

One Of Many

By NEA Wire Service
The Czechoslovakian army, mobilized and crouching on the borders waiting word to defend the frontier, is one of the most efficient armies of Europe. Though comparatively small, it is well-armed with the most modern weapons; it is highly mechanized, and thoroughly trained. Many of its higher officers fought in the World War, and French strategists have been active

HOPKINS TROOP
LEADS SCOUT
HONOR COURT

Troop 18 of Hopkins led in advancements and merits badges at the Boy Scout Court of Honor last night in the district court room with Troop 14, Sam Houston school, and Troop 80, First Methodist church, tied for second place.

Neil McCullough, Jr., of Troop 14, received the highest honor in scouting when he was advanced to the rank of Eagle Scout. Joe Cargile, Jr., Troop 14, received the gold palm and J. H. Duncan, scoutmaster of Troop 19, LeFors, was given a silver palm.

Advanced to Star Scout were Everett Sparks and Karl Rippel, Troop 18; Kenneth Nelson, Troop 80; and Royce Cripp, Troop 16.

Advanced to First Class Scouts were Claude and Kenneth Lard, Troop 20; Charles Erickson and Dale Harrell, Troop 80; William Jones, Troop 18.

Advanced to Second Class Scouts were N. L. Cummings and Ernest Miller, Troop 18; Gene Lunsford, Troop 20; Melvin Howe, Troop 18. Merit badges, by troops, follow:

Troop 21—Leonard Earl Walker, scouting, camping, sailing, and handicraft; Glen Lindsey, Jr., woodworking, handicraft, athletics; Olan Stroud, firemanship, pathfinding, handicraft; John Shelton, firemanship, pathfinding.

Troop 14—David Stennis, poultry keeping, handicraft; Neil McCullough, Jr., sailing, camping; Robert Brandon, music, first aid, cooking.

Troop 80—Charles Erickson, first aid to animals, bookbinding, handicraft; Dale Harrell, first aid to animals, bookbinding, handicraft; Kenneth Nelson, hiking, civics, first aid; Karl Rippel, sailing, cooking, personal health, first aid, bookbinding, handicraft; Everett Sparks, animal industry, bookbinding, public health, handicraft.

Troop 19—J. H. Duncan, forestry, rowing canoeing; Joe Gourlay, woodwork.

Troop 20—Claude Lard, handicraft, firemanship.

The Rev. Robert Boshen presided at the court, assisted by Vaughn Darnell, Howard Neath, Ernest Cane, Frank Monroe and George Briggs.

Syphilis Clinics
Will Get State Aid

AUSTIN, Sept. 27. (AP)—Texas campaign to combat syphilis, estimated to infect 2,000 additional persons each year, gained new impetus today with an announcement the State Health Department would extend financial aid to locally operated clinics.

Dr. George W. Cox, state health officer, said a \$128,000 federal allotment would be supplemented by department funds for aiding city and county clinics treating indigent patients.

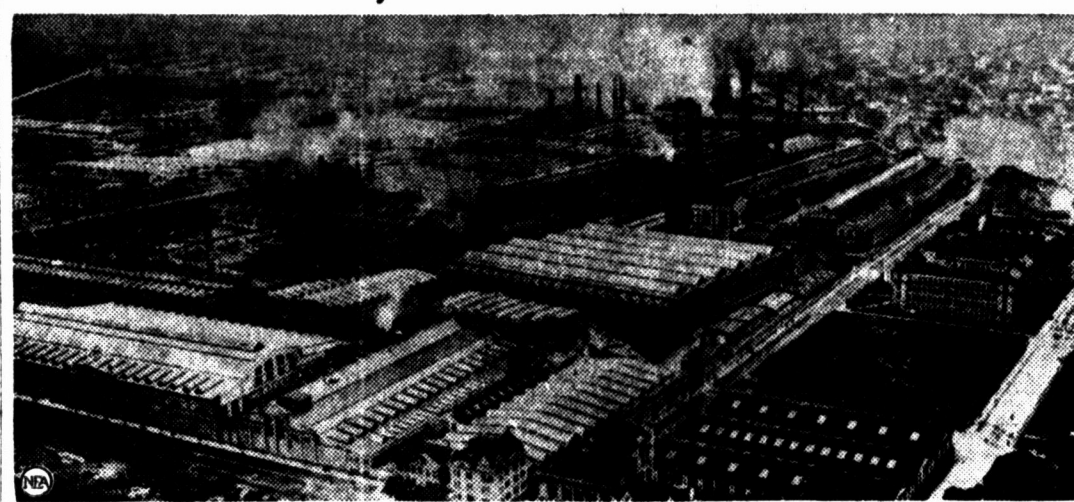

He said clinics in Dallas, Fort Worth, Beaumont, Port Arthur and Cameron county and possibly five or six additional clinics would receive aid not later than Nov. 1.

In addition, the department will provide free medicines for rural indigents on proper certification from county medical associations, Dr. Cox said.

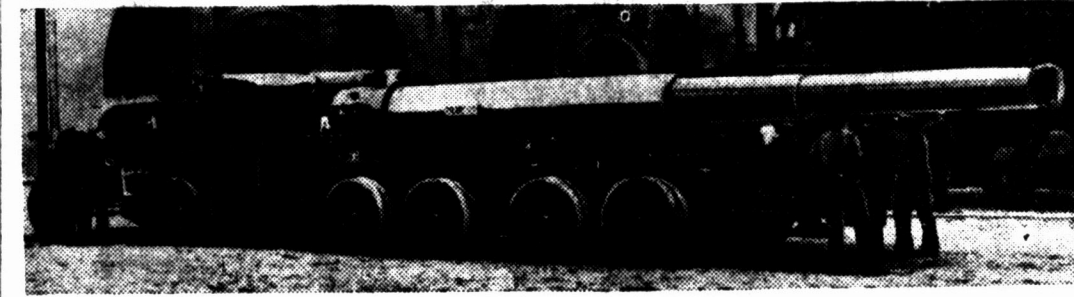

Another phase of the new program is proposed post-graduate training courses to be given Texas physicians at the University of Texas Medical School at Galveston.

One Reason Why Hitler Wants Sudeten

The vast Skoda arms factory dominates Pilsen (Pizen), the Bohemian city also famed for its beer. Some idea of the extent of the Pilsen works, where 30,000 men turn out arms for the world, may be had from the panoramic view above.

Heavy artillery has been the specialty of the great Pilsen works of Skoda, ever since it turned out the 42-centimeter guns which blasted a path for the Germans through Liege and Namur in 1914. Above is one of the latest "streamlined" heavy guns leaving the Skoda plant.

School Tax Rate Cut
And Valuation RaisedPYTHIAN HEADS
TAKE OFFICE

Officers of the Pampa lodge 489 of the Knights of Pythias were installed at a meeting held at 8 o'clock last night at the American Legion hut.

Conducting the installation was Dr. G. H. Ater, of Lubbock, junior inner guard.

Officers installed were: M. D. Johnson, vice chancellor; R. R. Watson, prelate; C. J. Maise, keeper of the records and seals and master of finance; John Strange, master of the exchequer; R. J. Cecil, inner guard; and R. M. Barnard, outer guard. Due to his being on a 31st district court jury, W. F. Jor was not present at the installation. Mr. Jordan heads the lodge as chancellor-commander.

Dr. Ater in a speech to the lodge said the Knights of Pythias offered young men an opportunity for the exercise of patriotism, good fellowship, and training in public speaking.

Meetings of the Pampa lodge will be held weekly on Mondays. The next meeting of the lodge will be held at the court house on Monday night. On the second and fourth Mondays of each month, the lodge will meet at the American Legion hut, on first and third Mondays, at the court house.

The Board of the Pampa Independent School district yesterday afternoon adopted the budget for 1939 and set the tax rate at 95 cents or a reduction of five cents from last year.

Representatives of six oil companies attended the budget hearing. After discussing points of objection with the board, the men stated that the board was "doing a mighty good job" of handling the tax payers' money.

Action of the board in retiring bonds before they were due was questioned by the company representatives but after the saving to tax payers by that action had been revealed they declared the board was doing the right thing in protecting the tax payers.

When it was revealed that teachers' salaries averaged slightly less than \$1,250 a year, the men attending the hearing declared themselves as perfectly satisfied with the budget and with actions of the board.

A budget of \$333,413 was adopted for 1939. Estimated revenue was set at \$342,260.

Taxable valuation for the district for 1939 has been set at \$27,500,000 compared with \$26,850,000 last year, or an increase of \$650,000.

Business Manager Roy McMillen told the board that collections to date were 93 per cent or the best record in many years.

Largest figure on the budget was for teachers' salaries, a total of \$165,000. There are 133 teachers and principals in the system, not including the negro school, which

See NO. 4, Page 6

Osborne Sale To Be
Tomorrow At Ranch

J. P. Osborne, noted Hereford breeder, will open the fall auction season tomorrow with the sale of 15 linebred bulls and 75 females, all of Prince Domino breeding.

This sale will be held at the Osborne ranch 12 miles northeast of Pampa, and 12 miles southwest of Miami. The old Miami road which runs north of town leads to the Osborne ranch. It is located about two miles off the highway which is paved and hard-surfaced all the way. The road is marked at the turning off place.

The sale will be held in the Osborne sales arena and lunch will be on the grounds. It will start promptly at 12:30 o'clock.

In charge of the sale will be Earl Gartin, famous auctioneer; Frank W. Farley of the Hereford Journal; O. R. Peterson of The Cattleman; R. J. Kinzer, American Hereford Association. Each animal will be sold separately to the highest bidder.

Among the animals offered for sale are: Jr. Prince Domino 4th, calved May 18, 1930, and his full brother, Jr. Prince Domino B, calved Sept. 30, 1933; Beau Prince Domino 25, calved Oct. 4, 1937; Domino Prince, calved Aug. 3, 1937; Domino Prince 76, calved Nov. 17, 1937; Prince Domino B, calved May 2, 1937; Beau Prince Domino 15th, calved May 3, 1937, and nine other bulls, born in 1937, and one born Feb. 24, 1938.

The heifers in this sale are really a selected group coming from our own good hereford bulls and their dams are producing cows of the best Guggell and Simpson families," Mr. Osborne stated. "Many of the highest-priced females ever sold were bought by us as seedstock to carry on our herd improving plan. Represented in the lot for sale are the Donna Annas, Gwendolins,

Czechs May
Blow Up Big
Gun WorksBy WILLIS THORNTON
NEA Service Staff Correspondent

"The Germans will never take the Skoda Works. If German troops get to a point where they are near taking them, there won't be any Skoda works."

This dark hint concerning the gigantic munitions plants whose smoke darkens the skies above the famous beer-making city of Pilsen (Pizen) means that certain Czech leaders would rather see them blown to bits than surrendered to the Germans.

It is a hint often heard in Czechoslovakia, for so important is this vast munitions plant that a German possessing it would be immensely strengthened. The eye which filled with tears for the Skoda Germans has nevertheless been fixed all along on the Skoda plants, which constitute one of the most vital links in the world's armament facilities.

A modest little shop of 120 workers, the Pilsen works contributed their share to the Austro-Prussian War. But by 1914, they were important enough to have made the case of the founder a baron and to secure one of the principal sources of munitions for the German-Austro-Hungarian alliance. The great 42-centimeter siege guns which blasted a path past the Liege and Namur forts in Belgium for the invading

Threw Switch

This study of Leonard Jacobson was made a moment after the 64-year-old brakeman had said, "I only wish I could trade places with any of the dead persons." He assumed full responsibility for the wreck at Tortugo, Ariz., in which 11 persons were killed. Jacobson threw the switch which sent a crack passenger train hurtling into another passenger train standing on a siding.

Prime Minister
Finds A. Hitler
'Unreasonable'

LONDON, Sept. 27. (AP)—Prime Minister Chamberlain declared tonight that "We can not undertake to involve the whole of the British empire in war however much we may sympathize with a small nation."

But at another point in his broadcast to the empire and the world the prime minister said:

"If I were convinced that any nation had made up its mind to dominate the world by force I would not hesitate to resist it."

Chamberlain spoke only about six minutes. His address, the most momentous British broadcast since the abdication crisis of 1936, was delivered from the cabinet room of famed Ten Downing Street.

After he had finished his speech was broadcast in German.

Chamberlain declared he would not hesitate to take a third trip to Germany if he thought it would do any good, but at the moment "I can see nothing further that I can usefully do in the way of mediation."

"If I were convinced that any nation had made up its mind to dominate the world by force I should not hesitate to resist it," the prime minister declared in a broadcast from famed Ten Downing Street.

"I find Herr Hitler's attitude unreasonable in his final demands," he continued.

"But I shall not give up my hope for a peaceful solution."

Speaking from the cabinet room of famed Ten Downing Street the chief figure in Europe's efforts to keep the peace began his address, the most momentous empire broadcast since the abdication of 1936, at 8 p. m. (1 p. m., C. S. T.)

He told the world:

"Tomorrow Parliament is going to meet and I shall be making a first statement on the events which have led up to the present critical situation. An earlier statement would have been impossible when I was flying backwards and forwards across Europe and the position was changing from hour to hour."

"But today there is a lull for a brief time and I want to say a few words to you men and women of Britain and perhaps to others as well."

"I have done all that one man can do to halt this war. Tomorrow I shall be making a full statement of events which led up to the anxious present situation," Chamberlain said.

"I thank those who have written to my wife and myself."

"It has been heart-breaking to me when they thought too soon that the danger of war was past."

"How horribly incredible that we should be digging trenches and trying on gas masks because of a quarrel which is taking place in a far away country."

"It seems still more impossible that a quarrel that is already settled in principle should be a subject of war."

"I can well understand the reasons why the Czech government have felt unable to accept the terms which have been put to them in the German memorandum."

"Yet I believe, after my talks with Herr Hitler, that it ought to be possible to arrange for transferring the territory that the Czech government has agreed to give to Germany by agreement under conditions which would insure fair treatment to the population concerned."

After my first visit to Beichtesgaden, I did get to the Czech government the proposals which gave the substance of what Herr Hitler wanted, and I was taken completely by surprise when I got back to Germany and found that he insisted that the territory should be handed over to us immediately, and immediately occupied by German troops without previous arrangements for safeguarding the people within the territory who were not Germans and who did not want to join the German Reich."

"I must say that I find that attitude unreasonable. If it arises out of any doubts that Herr Hitler feels about the intentions of the Czech government to carry out their promises and hand over the territory, I have offered on the part of the British government to guarantee their words, and I am sure the value of our promise will not be underrated anywhere."

"I shall not give up the hope of peaceful solution or abandon my efforts for peace as long as any chance for peace remains."

"I would not hesitate to pay even a third visit to Germany if I thought it would do any good."

Viscount Gort, chief of the Imperial general staff, and Marshal Sir Cyril Newall, air chief, conferred with Prime Minister Neville Chamberlain today, strengthening the belief that Adolf Hitler was obdurate in his "final" demands on Czechoslovakia.

The conference took place after Sir Horace Wilson, close adviser to the prime minister, flew back from Berlin after two meetings with the German chancellor in a desperate effort to stave off war.

The fact Viscount Gort and Sir

Cyril called on Chamberlain immediately after Sir Horace's talks

VIRGINIA NELSON BECOMES BRIDE OF L. HARVEY

Miss Virginia Nelson, daughter of Mr. and Mrs. Harry A. Nelson, became the bride of Lloyd R. Harvey of Lubbock Saturday evening, Sept. 24, at the home of her parents east of Pampa.

The beautiful and impressive ring service was read by the Rev. Joseph Strother, pastor of the Miami Methodist church, before the immediate family, Mr. and Mrs. Nelson, the bride's sister, Mary Potter Nelson, and brother, John Henry Nelson.

Preceding the ceremony Rev. Strother gave a short musical program including "Oh Promise Me," "At Dawning," and "I Love You Truly."

To the strains of Lohengrin's Wedding March, the bride entered on the arm of her father. The ceremony was performed before a background of beautiful fall flowers with white and purple colored cosmos, gladioli, and potted plants predominating.

The bride was attractive in a white crepe silk dress with silver trimmings.

Mrs. Harvey is a graduate of Pampa high school, St. Joseph's college, and for the past two years she has attended Texas Technological college at Lubbock. The parents of the groom are long-time residents of the Lubbock community and the bridegroom will be associated with his father in the cotton business.

The couple will be at home in Lubbock.

Miss Joyce Womble And Pampan Wed

STINNETT, Sept. 27.—Miss Joyce Womble, daughter of Mr. and Mrs. A. J. Womble of Coballa, N. M., former residents of Morse, and Dan Cambern of Pampa, son of Mr. and Mrs. Dan Cambern of Stinnett, were married September 14 in Santa Fe, N. M.

Attending the wedding were the bride's parents and her brother, A. J. Womble, Jr.

The bride was graduated from Morse high school and attended college at Canyon where she majored in home economics and was a member of Kappa Omicron Phi society.

The bridegroom attended school in Cotulla.

The couple are now at home in Pampa after a honeymoon trip in Old Mexico, returning via Carlsbad Caverns. Mr. Cambern is connected with the Wilcox Oil and Gas Company.

Amarilloan Will Speak Wednesday At Local Church

The Rev. Powell Smith, pastor of the West Amarillo Christian church, will speak Wednesday evening to the officers of the local first Christian church, the officers and teachers of the Bible school, officers of the classes and other organizations of the church.

This is one of the 254 similar meetings being held in large Christian churches of the state as part of the churches five-year program of advance.

The Rev. John Mullen, pastor of the local church went to Shamrock Monday evening and will go to Claude Thursday evening to conduct similar conferences.

"Better gimme two nickels. It'll take three minutes to tell her why we can't go, an' three more while she tells us how to behave when we get there."

Glorifying Yourself

By ALICIA HART.

Although she has spent her last day on the beach and does not expect to wear shorts again for months and months, the fastidious woman continues to practice beauty routines that keep her feet and legs smooth, soft and attractive. She has or gives her feet a pedicure at least three times a month, removes superfluous hair from her legs regularly and believes wholeheartedly in lotions and creams for both feet and legs.

To make her knees as soft and lovely as they were last spring before she started sun bathing in the sand with a vengeance, she massages rich cream into them several nights a week, scrubs them with a stiff brush each time she bathes and, after each bath, puts on a soothing lotion.

Pedicure Is Simple

To remove callouses on feet and ankles, she lightly rubs the hardened areas with a bit of pumice sometime during each pedicure. She puts only cuticle remover on them now and then between pedicures. And she never cuts a callous or scrapes it with scissors or a razor.

Her routine for a proper pedicure is thorough but essentially simple. First she shortens toenails with sharp scissors or special clippers, shapes the nails and smooths away rough edges with an emery board. She then takes a tub bath or else soaks her feet in warm, soapy water. Afterward, she massages cuticle remover oil or special manicure cream into the base of each nail, pushes dry skin back with an orange stick and lightly rubs callouses with moistened pumice. After a careful rinsing and drying with a rough towel, her toenails are ready to receive a coat of lacquer or to be buffed lightly with powder polish. When the lacquer is dry, she massages hand lotion into feet and legs.

There are, of course, several superfluous hair removal methods. You might try one of the cream depilatories this fall. Simply find one that sounds easy to use and which is made by a reputable company, then apply it exactly according to directions. Generally speaking, the cream is to be smoothed on over the fine, unwanted hairs left for a few minutes, then rinsed off. The hairs come off with the paste.

Wax depilatories, both hot and cold varieties, require a trifle more skill and a great deal of patience. But they, too, are satisfactory, and you might find it worthwhile to give them a fair trial.

However, the least troublesome way to remove hair on the legs is to use a safety razor regular-sized or miniature. Finally, apply cream, massaging it in thoroughly, then removing it with a coarse, textured bath towel. The irritation caused by the towel will eliminate dry skin and those tiny bumps which resemble goose flesh. Dust your legs with bath powder before putting on stockings.

SPARKLING DANCE NUMBERS ON KIWANIS PROGRAM

Entertainment alone will be provided Pampans on Friday night when the Kiwanis Club presents the play "Snow White and the Seven Dwarfs" and these pupils of Dixie Duce, dancing instructor, in a program on the stage of the high school auditorium. The Kiwanis Club is presenting the play for the benefit of their fund for underprivileged children.

Modern Menus

By MRS. GAYNOR MADDOX

Onions have their better moments. Give them a chance to prove it. Especially now when the Bermuda-type onion begins to roll into the markets.

Onion Rings

Bermuda-type onions, salted water, lemon juice, butter, paprika. Slice onions into thin rings. Have large kettle of rapidly boiling salted water ready. Add juice of half a small lemon. Then drop in the onion rings. Boil no more than five minutes. Drain at once.

Arrange in loose crumbs on hot dish. Sprinkle bread crumbs over top and bake with melted butter. Then dust with grated cheese. Bake in moderately hot oven (375 degrees F.) for 35 minutes. Serve on flat dish.

Tomatoes a la Creole

One quart stewed tomatoes, salt and pepper to taste, 1 cup rice, 1 teaspoon curry powder.

Wash rice through several waters. Add curry powder and salt to tomatoes, mix well. Put one layer of tomatoes in bottom of baking dish, then layer of uncooked rice, then another layer of tomatoes, rice, etc., having tomatoes as last layer.

Sprinkle top with bread crumbs. Place a few bits of butter here and there and bake in moderate oven (350 degrees F.) about 45 minutes.

Serve in dish in which they were baked. A layer of okra may also be added for a piquant taste. Sprinkle with melted butter and dust with paprika. Then bring in the broiled steak.

Tomatoes can play tricks, too. Arnold Reuben, a New York restaurateur whose clients go in for pretty heavy eating and like, has delicate thoughts about September tomatoes.

VFW Auxiliary To Meet This Evening

A special meeting of the Veterans of Foreign Wars Auxiliary will be held this evening at 8 o'clock in the American Legion hall.

All members are urged to attend this session.

the parents of a son, born this morning at Pampa-Jarratt hospital.

Mr. and Mrs. B. W. Kelley are the parents of a daughter, born at Worley hospital.

County Farm Agent Ralph R. Thomas and J. E. Yoder, FCIC member for Gray county, were in Plainview yesterday attending a regional FCIC meeting.

O. T. Lindsev, chief deputy sheriff, left this morning for San Angelo, where he is to appear in connection with the case of A. E. Fowler, alleged to have been driving a car stolen in San Angelo, when he was apprehended at Kingsmill two months ago.

Novelty Dances To Be Features At 'Snow White'

When "Snow White and the Seven Dwarfs" is presented on the stage of the high school auditorium Friday night, those attending will see not only an excellent play but will also be entertained by dance pupils of Dixie Duce.

Between the four acts of the play, the audience will see these pupils in a series of novelty dance numbers, as smooth and as polished a performance as is given by the children in the play.

Pampans will be charmed by the appearance and voice of Betty Howard, 16-year-old girl, who has the role of the fairy princess. She was chosen for the part because of her resemblance to Walt Disney's Snow White.

Floy is well known in the Pampa field of entertainment because of her part in a hillbilly duet with her brother, Glib. As a team they have been on the radio for over two years.

Floy says being Snow White is lots of fun. Her directors say she has great talent and is developing into quite an actress as well as a singer.

In the play she will sing these songs, "Whistle While You Work," "I'm Wishing," and "With a Smile and a Song."

Co-starring with Floy are George Pierce as Prince Charming, Shirlene Barker as the Witch, and Charles Campbell as the Huntsman.

Directing the play is Mrs. Doris Lander Hess, who recently presented the production to a crowd of 2,000 persons in Amarillo.

The play is being presented here for the benefit of the Kiwanis club underprivileged children's fund.

First Lady Bars Advance Speeches

WASHINGTON, Sept. 27. (AP)—Mrs. Franklin D. Roosevelt refuses to make advance copies of speeches because she does not want to be bored while she is talking.

The first lady, announcing several Autumn speaking engagements today, said she never speaks from a completely written manuscript.

"I found that if I did not have to think about what I was saying," she said, "I became bored with my own conversation."

Believing if she were bored, she could not keep the audience from feeling likewise, Mrs. Roosevelt said she had chosen to use only notes for her talks, thus to keep her speeches "a little fresher."

Phone 666—All departments.

MEMBER OF THE ASSOCIATED PRESS (Full-Featured Wire). The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or otherwise credited to this paper and also the regular news published herein.

Entered as second class matter March 15, at the postoffice at Pampa, Texas, under act of March 3, 1879. National Advertising Representative: Texas Press League, New York, N. Y., 100 N. W. 4th St., Kansas City, Mo., 100 N. W. 4th St., Chicago, Ill., 100 N. W. 4th St.

SUBSCRIPTION RATES (Full-Featured Wire). In advance, in Gray and adjoining counties, also Hansford, Ochiltree, and Lincoln counties, \$4.50 per year. Outside above named counties, \$5.00 per year. Price per single copy 5 cents. No mail orders accepted in localities served by carrier delivery.

An independent Democratic newspaper, publishing the news fairly and impartially at all times and supporting in its editorial columns the principles which it believes to be right and opposing those which it believes to be wrong, regardless of party politics.

For A Good Cause

When contributions are asked for carrying on the work of the Salvation Army, the people of Pampa do not need to be told much except the amount needed. So familiar are they with the work of this organization that they know for what their gifts are needed and used.

The annual appeal is now being made. The amount asked is not large, considering the work to be done. It is a work that is not duplicated by any other agency, and a work that has shown in the past year in Pampa that it is worth while. There should be prompt and adequate response to the appeal so that the work may be carried on without temporary cessation or lessening.

One phase of Salvation Army work that may not be regarded by the public as of great importance is really its greatest work—that of religious and moral instruction. There are many agencies giving physical relief such as food, clothing, medical attention, housing, none of which have for their basic purpose the saving of children from becoming criminals or public charges, the putting of heart into people through the broad principles of the Bible.

Recently the people of Texas have chosen as their chief official the coming two years a man who took for his course of conduct the Ten Commandments and the Golden Rule. There is every evidence that his adherence to those things made him the almost unanimous choice of the citizenship. The Salvation Army has always based its work on those same principles, and it is peculiarly appropriate at this time that the people should have opportunity to contribute to such an organization as evidence that they believe in those principles in relieving distress as well as in the selection of a governor.

Give freely, and gladly for a good purpose.

Behind The Scenes In Washington

By WILLIS THORNTON

NEA Service Staff Correspondent

WASHINGTON, Sept. 27.—The cards are down for a knock-down and drag-out fight this winter over chain-store legislation.

Whether or not, as Representative Patman believes, the present act bearing his name is "outstanding among all laws of its kind ever passed," the successor law he is expected to present will stir up much opposition.

Details aside, the difference between the present and future Patman acts is this: the earlier laws are aimed at eliminating certain advantages in mass purchasing and distribution which have been enjoyed by chain stores. The principle was: "make them compete fairly with the independent dealer." The new law will aim by discriminatory taxation to kill off chain stores entirely. Progressive taxes, increasing with the number of units and the number of states in which they are operated would make chain grocery or shoe-store operation next to impossible.

PROPAGANDA UNDER WAY

The campaign to rouse public opinion against any such law has already begun by the A. & P. stores, which got tangled up badly with the present act and regards the proposed one as a death sentence. With a candor rare in such cases, the A. & P. has frankly announced it is going out to fight the "death sentence" tax proposal, and that it has hired public relations, counsel to disseminate information, prepare paid advertising, organize consumer groups and forum discussions.

Patman, whose heart and soul are wrapped up in his legislation, is himself one of the best propagandists in Congress, spending most of his spare time lecturing and speaking on his legislation, which he believes will have the competitive system from encroachment of increasing monopoly.

So definite and candid a promise of a propaganda fight on a proposed measure, even before Congress assemblies, is unique and promises plenty of fireworks.

NAVAL BASE AT KANSAS CITY

One of the strange by-products of the military and naval expansion program which has received such an impetus from European developments is the proposal to enlarge greatly the Naval Reserve Aviation Base at Kansas City.

Odd? No! Really. Kansas City, far from the seaboard, happens to be a half-way point for naval planes flying from coast-to-coast or from Canada to the Gulf. Big dikes would be built in the Missouri river to extend the landing area so that it would accommodate big four-engined naval and army bombers. Such an "inland sea base" would go a long way toward making naval air forces available on any of the country's borders. The base is small at present, with only two naval and one marine squadron.

GOVERNMENT GOES TO PRESS

People worried about the vast amounts of government printed matter which flood the country should take a walk down by the ancient "red brick barn" building which houses the Government Printing Office. They would see the excavation for a new \$4,300,000 production plant eight stories high. With a \$1,294,000 warehouse also just completed, it is easy to deduct that the prospect is for more government printing rather than less.

According to a recent headline, "Mussolini Holds War Approaching." He's been reading his own stuff again!

Comes news that the latest dodge in Germany is making synthetic woolen rugs out of fish. Oh, hooked rug!

Sharing The Comforts Of Life...

By E. C. Smith

"CONQUEST OF CIVILIZATION"

The picture as presented by James Henry Breasted in his great revised book, "Conquest by Civilization," as to the cause of the loss of liberty of the Roman citizen, should at least be interesting to every lover of our liberty. For this reason, we quote from this great book.

"The Roman Empire thus sank to a primitive system of taxation already thousands of years old in the Orient. It was now customary to oblige a group of wealthy men in each city to become responsible for the payment of the entire taxes of the district each year; and, if there was a deficit, these men were forced to make up the lacking balance out of their own wealth. The penalty of wealth seemed to be ruin, and there was no motive for success in business when such prosperity meant ruinous overtaxation. . . . The Roman Empire had already lost, and had never been able to restore, its prosperous farming class. It now lost likewise the enterprising and successful business men of the middle class. Diocletian therefore endeavored to force these classes to continue their occupations. He enacted laws forbidding any man to forsake his lands of occupation. The societies, guilds, and unions in which the men of various occupations had long been organized were now gradually made obligatory so that no one could follow any calling or occupation without belonging to such a society. . . . Thus there disappeared in Europe the liberty for which men had striven so long, and the once free Roman citizen had no independent life of his own. . . . Even the citizen's wages and the prices of the goods he bought were as far as possible fixed, for him by the state. The emperor's innumerable officials kept an eye upon even the humblest citizen. . . . In a word, the Roman Government now attempted to regulate almost every interest in life, and wherever the citizen turned he felt the control and oppression of the State.

"Staggering under this crushing burden of taxes, in a state which was practically bankrupt, the citizens of every class had now become a mere cog in the vast machinery of government. He had no other function than to toil for the state, which exacted so much of the fruit of his labor that he was fortunate if it proved barely possible for him to survive on what was left. . . . The century of revolution which ended in the despotic reorganization by Diocletian completely destroyed the creative ability of ancient race in art and literature, as it likewise crushed all progress in business and affairs. In so far as the ancient world was one of progress in civilization, its history was ended. . . . We are now to watch it then as it falls to pieces."

Instead of reading further how the Roman Empire continued to fall to pieces, we only need to read the laws that we have passed in the United States during the last quarter of a century and note the change in public opinion as to what the state should do for the individual and what the individual should do for the state, to see our own nation falling to pieces, just as the Roman Empire fell.

Yet, the President of the United States continues to call those people who cite history and call attention to what is happening "fear mongers." If the President does not think we are in a very critical condition, he has so hedged himself with "yes men" that he has not come in contact with men who are actually attempting to buy labor and produce something on a free market to benefit customers and to benefit the laborers and hope, after benefiting both of these, to have a little left in reward for his enterprise.

ONLY ONE CAUSE FOR UNEMPLOYMENT

As one talks to people who hold rather important positions and hears them say that "no one knows why there is unemployment," one might get the impression that the question is a difficult one. It would seem that the cause is so simple that most people overlook it in looking for something difficult. They look for a complicated cause rather than for the simple, plain cause.

I have never been able to think of but one cause for unemployment and would appreciate it very much if anyone else could suggest any other cause than this one. And the one cause, as we have said before, is an interference with the free exchange of goods and services; that is, an artificial restraint establishing an artificial exchange value for one article as against another.

It always has been an axiom that in every business transaction both people must be benefited, if the exchange is to be repeated and continued; and when it ceases to be an advantage to both parties, the exchange ceases.

Now there are, of course, different causes of this interference but it must be remedied that interference of exchange is THE cause of unemployment. Then when we have arrived at that conclusion, we can begin to analyze the causes interfering with exchange.

The columns of this paper are open for anyone to point out any other cause for unemployment than the interference with free exchange and if no one can think of any example, then by the process of arriving at all axioms, we have established a principle and a starting point.

The Nation's Press

PROBLEM IN "COERCION"

(New York Times)

The Senate Campaign Expenditures Committee holds that M. Hampton Magruder, Collector of Internal Revenue at Baltimore, violated the Civil Service Act in calling employees of his office together and appointing them of his intention to support Representative David J. Lewis in the Maryland Senatorial race. The committee says:

It is true that in this statement to the employees Mr. Magruder expressly disavowed any intention of coercing any of the employees under his jurisdiction whom he had thus summoned, but the committee finds that his action in thus assembling the employees was in violation of the spirit of Paragraph 6 of Section 2 of the Civil Service Act, which provides that no person in the civil employment of the government "has any right to use his official authority or influence to coerce the political action of any person or body."

It will be interesting to see what action the Treasury Department takes in the matter. If a private employer called in his employees and told them what sort of union or lack of union he favored, there is not the slightest doubt that the National Labor Relations Board would call his action "coercive" and proceed against him accordingly.

Whether decision properly apply in the one case should in common consistency apply in the other.

to the Nation's Problems

Around Hollywood

By ROBBIN COONS

HOLLYWOOD—It's terrible, the way most of the uncertainty is being taken out of my life.

Six nights a week, for instance, I know that the doorbell is going to ring. About 10:30, and I'm going to answer it and the man is going to say, "Well, here I am again."

And I say, "So you are," and he gives me the envelope and we both chuckle a bit, like the old friends we are by now. Maybe he says, "Nice evening," and maybe I say, "Yeah, lookit that moon," and he says, "Well good night," and goes chug-chug down the street to take the uncertainty out of other lives kindred to mine.

Sometimes we're going to persuade him to come in for a sarsaparilla—if special delivery men can take sarsaparilla—because we want to know if he knows how much uncertainty he's taking out of our lives. Also because it seems rude, sort of, to let an old friend chug-chug away without refreshment of a sort, night after night like this.

He hasn't missed yet. If we happen to be out looking at a movie, or sleeping through one, or just out at a movie, it's there when we come in. That envelope. "Today at Warner's."

The contents tell all that the next day holds. At Warner's anyway. Well, practically all. Well, something. Well—

And it's funny, but I've checked on it several times, and the prophet who writes it seems to know. Maybe he reads the call sheet, or asks around. But he knows.

Today, for instance, when the mercury is higher than Jeanette MacD's best note and I wouldn't go near the Warner oven unless I thought Joan Blondell was going to sock Errol Flynn or all the Dead End kids were going to get the spanking they need—today he has it done like this:

"Unfit to Print"—Joan Blondell Warned Against Mob "Finger"—Having brought in biggest scoop of past ten years, Joan is warned by co-reported Pat O'Brien that the mob will get her if she doesn't watch out. Pat is worried about the sob sister he married yesterday, the same Joan Blondell.

"Wings of the Navy"—Bomb Derelict Ship in Pacific—John Payne, after receiving final instructions from Victor Jory takes bomber up on mass flight to Honolulu. Target practice en route. Payne spies derelict ship and bombs it to bottom of Pacific (You mean the Warner tank, mister?).

"They Made Me a Criminal" (Whitaker, Calif.)—Garfield Loves Dickson—On ride to water tank in antique airplane, John Garfield declares his love for Gloria Dickson and willingness to turn over a new leaf. He sees she is receptive so he follows up advantage. After lunch he will be pulled out of irrigation tank into which he dived to save Dead End kids last week at Indio. (Yeah, that's right—it's the movie.)

POLAND LINES UP

LONDON, Sept. 27 (P)—Reuters (British News Agency) in a dispatch said Czechoslovakia had entered into friendly negotiations with Poland.

People You Know

By ARCHER FULLINGIM

Maps may be dry and uninteresting to you, but take the word of Mrs. Laveda Robinson and you'll enjoy reading your newspaper more than you do—especially the foreign news. Mrs. Robinson was like most of us. She would read about a battle being fought in the Hendeys area of Spain, or about the Japs trying to get to Hankow, or about the Italians advancing on Addis Ababa, and she would try to remember where they were on the map, but couldn't. Then the Czech trouble came along but Mrs. Robinson already had the habit of cutting maps out of the newspaper.

"When you look at these maps three or four times—I mean when you study them, then the map of the country is fixed in your mind, and when you read you can visualize what's going on in Europe," she said. "For instance just were Poland and Rumania and Hungary touched Czechoslovakia bothered me until I cut out a map and put it away. Now I read the newspapers with a map before me." Mrs. Robinson has been cutting out maps for a couple of years. She says that the maps are better than the ones you see in geographies and atlases.

IN MEMORY OF BETTY BLYTHE

Today I woke up with a smile, As fresh as any dawn, But my smile was quickly faded, For I heard that "Betty's gone."

Oh yes, I knew her ready smile, For years she was my pal, She was what anyone would call, A true and regular gal.

Today I gazed upon her, My heart was filled with pain, But then I seemed to hear her say, "Come on—Let's laugh again."

"You must not stand there grieving, It isn't right, I say, For this same road is traveled, By hundreds every day."

"You must not stand there crying, For I am happy here, And the ones that's left behind, Need kind words and cheer."

Yes, Betty was just like that, A kind and generous soul, Who strived to make folks happy, It seemed her only goal.

I know we all will miss her, With her ready smile, But we can thank the good kind Lord, For losing her to us for a while.

She set us a great example, That will be hard to keep, But if we do, we'll meet her, When we take our "Eternal Sleep."

—A Friend

So They Say

If the war threatens continue the price of sugar will go sky high. —SENATOR MARAO MERCADO OF Puerto Rico, putting his finger on the significance of the European situation.

It is becoming apparent that the affairs of corporations in the future will be conducted in a goldfish bowl for all the world to see. —COL. WILLARD T. CHEVALIER, business publisher.

A fire brigade was set up in the innocent hope that by some lucky chance there would be no fire. —MAXIM LITVINOFF, Soviet Foreign Commissioner, on the League of Nations sanctions provisions.

How's Your Health?

Counteracting Poisons

In case of poisoning, call a physician promptly. But in the meantime, administer first aid. Determine—if you can—the nature of the poison involved. Examine the container—if it is available—for instructions as to trying the antidote. Not infrequently you will find these printed on the label.

If you are not certain as to the nature of the poison taken, administer first aid on these principles. Induce vomiting in order to empty the stomach of its contents. Give the poisoned individual—provided of course he is conscious and able to swallow—a soothing solution that also has the power to bind or neutralize the poisonous material.

In order to induce vomiting, stimulate the back of the throat by pushing the finger down into it or by administering an emetic. Common emetics can be made of mustard and water in proportions of a heaping teaspoonful of mustard to a cupful of lukewarm water. Salt may be used in place of mustard in the same proportions.

As demulcent or soothing solutions you can use milk, flour water, white of eggs beaten in water, sweet oil, and melted butter.

If the poisoning is due to some strong acid or alkali, be cautious in inducing vomiting. The acid or alkali may have corroded the stomach so that the violent convulsions associated with vomiting may cause a rupture of the stomach.

For poisoning by sulphuric acid, nitric acid, muriatic acid, and bicarbonate of potash, give magnesium or soap dissolved in water. For oxalic acid give lime water or chalk; and for iron and water and alcohol.

For iodine-containing compounds, use a mixture of starch and water, or flour and water in the form of a thin paste. In case of morphine or opium poisoning, or poisoning by strong sedatives including those of the barbituric acid compounds (luminal, alonal) induce vomiting, give strong coffee, keep the patient in motion, and when necessary, apply artificial respiration, to aid him in breathing.

Yesteryear In The News

TEN YEARS AGO TODAY

Stuckey Construction company again bid lowest to obtain the contract for Pampa's third paving program, which was as 27 blocks. A meeting of the nominating, by-laws and constitution committees of the newly organized Pampa Highway association was called at the local Chamber of Commerce rooms.

FIVE YEARS AGO TODAY

An intensive drive for new Boy Scouts was to be made in the Adobe Walls council during the remainder of the year, it was stated by Executive C. A. Clark. Unusual features to make the Santa Day different from the days in the previous years were planned by the Junior Chamber of Commerce committee.

We couldn't resist him. —MRS. ALICE TANRATH, speaking for herself and the five other wives of George Tanrath of Chicago.

Tex's Topix

By Tex DeWeese

It begins to appear as if Europe's World Series would start ahead of ours. . . . Germany's big Hitler and run man figures his team already has won the national league tie over there and he's ready to trot 'em out on the diamond and get it over with. . . . Czechoslovakia thinks she has a winning team, too. . . . Manager Edouard Benes, of the Czechs, probably will use Chamberlain and Daladier for his battery in the opener. . . . Mussolini is likely to pitch for the Nazis unless he goes into the hot/out ranks. . . . In his last pitching performance against Ethiopia in a minor league exhibition, Fast-Ball II Duce chalked up a no-hit, no-run game. . . . However, it was reliably reported at the time, that Mussolini had the umpire baffled into calling some pretty bad ones.

I can remember back to the days when people thought self-reliance was something you had to have to get by and eat regularly. . . . They thought they had to work for what they got. . . . They thought nobody would hand them stuff on a silver platter. . . . They thought a man had to look out for himself. . . . If there isn't a wholesale return to that kind of thinking, it's going to be just too bad. . . . One of the reasons it's so hard to get people thinking in that direction today is because their own government teaches them to believe that they don't have to save for a rainy day. . . . The government leads them to believe that there is a federal Santa Claus that will take care of them and that there is a federal Utopia which will swing its doors wide open to them. . . . It's all wrong.

News arrives that a colony of Bohemians is going back to the old-fashioned oil-burning street lamps. The id a probably being that it makes it harder for them to see each other. . . . Prehistoric woman, according to an archeologist, went in for necklaces. But being a savage she wasn't smart enough to think up pulling her hair on the top of her head. . . . It's beginning to look as if historians of the future will probably be referring to this era as the breaking-off-of-negotiations age.

Comes a report of a North Carolina man who wrote an obituary on a pet hen. Now how do you suppose he ever kept the creature still? . . . A dietitian states that large numbers of Europeans are not eating enough fat. Still, they're certainly chewing plenty of it these days. . . . Consider the embarrassment of London's weather man the other day; he predicted rain, and that was the way it didn't rain that year.

The Japanese say they've found a way to keep their battleships from being top-heavy. Now all they need is a way to keep the cabinet from being top-heavy. . . . A traffic expert discloses that one out of five drivers regularly risks his life. The assumption is that the other four regularly risk somebody else's. Three British explorers have set out to visit a mountain in what they term "the lost world." Late news from Europe suggests that if they'd waited a while the mountain might have come to them.

BEARS HAVE STRANGLEHOLD BUFFALO, N. Y., Sept. 27 (AP)—Newark's rampaging Bears appeared today to have a stranglehold on the International league playoff championships after battering the Buffalo Bisons for a 10 to 2 victory in the third game of the final series. Last night's one sided win gave the Bears a two to one edge in games played. The teams will meet here again tonight.

YOU AND YOUR

Nation's Affairs

Income Distribution

By ERNEST MINOR PATTERSON

President American Academy of Political and Social Science

The National Resources Committee has submitted a report to President Roosevelt which analyzed the distribution of our national income of \$88,258,658,000 in 1935-36. It was estimated in this report that the average family income of one-third of the United States was in that year only \$471. Also it was estimated that less than one per cent of the population with family incomes ranging from \$10,000 upward had incomes exceeding \$50,000.

gregating more than 13 per cent of the national income. Under our economic system one thing has been done which meets with universal approval. The production of the good things of life has grown enormously. Ever some of the sharpest critics of capitalism concede that this increase in production has been due at least in part to the nature of the system which is commonly called capitalism.

But the enlargement of production is only a part of the task. We do not produce merely for the sake of producing. Production means toil with its backaches and headaches. Of course we produce in order that we may have something to consume. If goods are to be consumed they must get into the hands of consumers who in turn must have purchasing power.

The estimates of the National Resources Committee are only estimates and are not advanced as exact. But in a broad way they agree with other estimates. The Brookings Institution a few years ago told us that \$77,116,000,000 of 1929 was distributed very unevenly. They calculated that almost six million families or more than 21 per cent of the total had incomes less than \$1,000 while about 600,000 families or 2.3 per cent had incomes in excess of \$5,000. Other estimates by other investigators for other years show similar inequities.

It is not an answer to point out the real or alleged failures of this or that effort to raise mass purchasing power. This column has reported the judgment that the methods used have in many cases "put the cart before the horse." If even more extreme controls over business are to be avoided in the future a change must come. The task is to make sure that what is done will accomplish its purpose and not make matters worse.

Glib proposals come from all directions. But the economist worth listening to thinks the answer isn't that it can be found through any one line of effort. Many mistakes must be made and tremendous issues rest upon our ability to choose the methods that combined will give us a less unequal distribution of the national income in ways that will not prevent the growth in the total income to be distributed.

(Address questions to the author, care of this newspaper)

BRITAIN WILL HOLD TIGHTLY TO HOLY LAND

By JAMES A. MILLS

JERUSALEM, Sept. 27 (AP)—British defense authorities here are taking all necessary measures to protect vital interests in the Near East should the empire be drawn into European conflict.

In Palestine, where the British army is grappling with Arab revolt, hope is expressed that Germany will heed President Roosevelt's entreaties for peace.

But at almost the same time Reichsfuehrer Hitler was making his "final" demands on Czechoslovakia, several thousand British reinforcements reached the Holy Land, bringing Britain's total army strength here to almost 15,000. Measures have been taken to safeguard the international oil pipe line from Iraq to Haifa, its Palestinian terminus on the Mediterranean. Defense plans have been made for Haifa itself and other ports in Palestine.

In collaboration with Egyptian military authorities, Britain is solidifying the defenses of Port Said, Alexandria and the Suez Canal—vital links in her line of empire. British air force stations in Palestine, Egypt, and Transjordan are watching alertly.

All other branches of the British army and navy have been ordered to be prepared for any contingency. Should Britain join a European war, it is believed, one of her first acts would be to intern German residents of Palestine which is a highly strategic zone for protection to the gateway to the east and of British interests in the middle east.

The arrival of new troops was expected to enable the British army soon to abandon purely defensive tactics for active offensive measures against the Arab insurgents. It is predicted Britain will try to "recapture" Palestine, some parts of which now are under control of rebellious Arabs.

Insurrectionary activities, however, seem to have decreased as danger of a European war has grown.

War Would Cripple Picture Industry

HOLLYWOOD, Sept. 27 (AP)—The financial fate of America's billion-dollar motion picture industry, trade experts fear, lies hidden in the war clouds over Europe. Movies, of all United States exports, are among the most vulnerable if a foreign explosion occurs.

One studio trade authority estimates today that the international market is now relied on for 50 per cent of a picture's earnings. And that this market might be slashed in half by the outbreak of hostilities. He pointed out that the infant film industry of 1914-1918 had so many opportunities for expansion that it was hardly crippled by those war years. Since it has grown up, jarred by the slightest disturbance of the world economic balance.

Hollywood's foreign revenues actually improve! as the 1937-38 recession cut theater attendance here by as much as 25 per cent, statistics show. Lands where the scarcity of gold made it difficult for Hollywood to get its money out, companies traded their celluloid product for wheat, oil, or other commodities—almost like primitive barter.

Lamesa Team Described As Exceedingly Fleet

Harvester football coaches did considerable line experimenting yesterday afternoon but made no definite changes. They tried James Carille at guard but sent him back to the fullback slot. They tried Carroll Montgomery at guard and he looked promising.

"We will have to wait until Jack Hasey gets back in shape before deciding how to get more weight needed in the line," remarked Coach Odu Mitchell and J. C. Prejean after the workout.

Hasey, 210-pound tackle, was used in workout yesterday but it will take him a week or two to get back to the point where he can go full time. He has been on the bench with a broken collar bone since camp.

With Hasey in the lineup it might be possible to shift Candier to a guard position on the defense. The little Harvester guards have been playing outstanding ball but they are handicapped by lack of weight.

"A good little guard is good but a good big guard is better," coaches remarked. "We have several good little guards but we would like a big one of two."

Sturdy Lamesa Plays.

The squad was given a blackboard talk on Lamesa plays and then worked on defense. Lamesa is not big, about the same size as the Harvesters, with fleet backs who play close to the line and scout.

In Vaughn and Crawley the Tornados have a couple of fleet ball toppers who also pass and punt. The pair average 39 1/2 yards on nine yards against Plainview last Friday night. The Tornado line is also fast and aggressive. A sample of their speed was shown against Plainview when they blocked two Bulldog punts even with Plainview using a rick punt formation of the punter about 15 yards behind the line and protected by a wave of blockers.

Pea Dunaway and A. C. Miller and Red Watkins, injured last Friday in the game with Northeast of Oklahoma City, were in uniform yesterday and although hobbling around worked out and said they would be ready for Lamesa in Lamesa Friday night.

Challenge Matthews, despite an ankle "as big as his head," was in uniform. He sprained the member last week during practice.

The Harvesters will go through a long scrimmage session this afternoon, according to coaches. The team will leave for Lamesa Thursday noon, stopping overnight in Lubbock where they will have a light workout.

If Dizzy Wins Today He'll Be Gabby's Hero

CHICAGO, Sept. 27 (AP)—The Chicago Cubs paid plenty of tribute to Dizzy Dean and expected plenty of victories in return. But Manager Gabby Hartnett was willing to settle for one today—the series opener against Pittsburgh's National league leaders.

Dan and his famous sore arm proved a gamble for the Cubs from the start. Today he was Hartnett's finest to a championship.

If he wins, the Cubs would be a half game behind the pace set by the Yankees and would have the high trumps—Clay Bryant and Bill Lee—to play against the Bucs tomorrow and Wednesday.

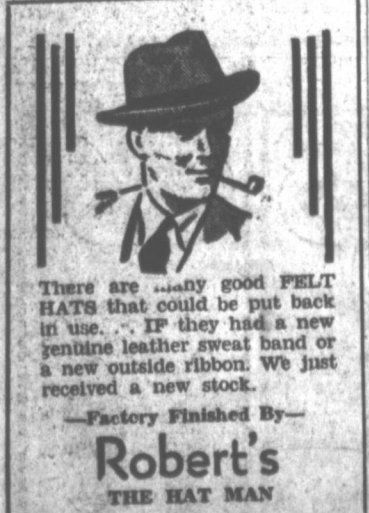

If he loses, the Cubs still would retain an outside chance. It was merely another gamble for Hartnett, who has called enough turns to bring the Cubs 37 of their last 22 games—seven of them in a row.

The first of the all important series that probably will determine the 1938 race was expected to attract 30,000 to Wrigley field. However, with the surprise announcement that Dan would pitch, Charley Drake, assistant to Owner P. K. Wrigley, boosted his estimate to nearer 40,000.

Jim Tobin was the pitching choice of Pirate Manager Pie Traynor.

IN COAST PLAYOFF.

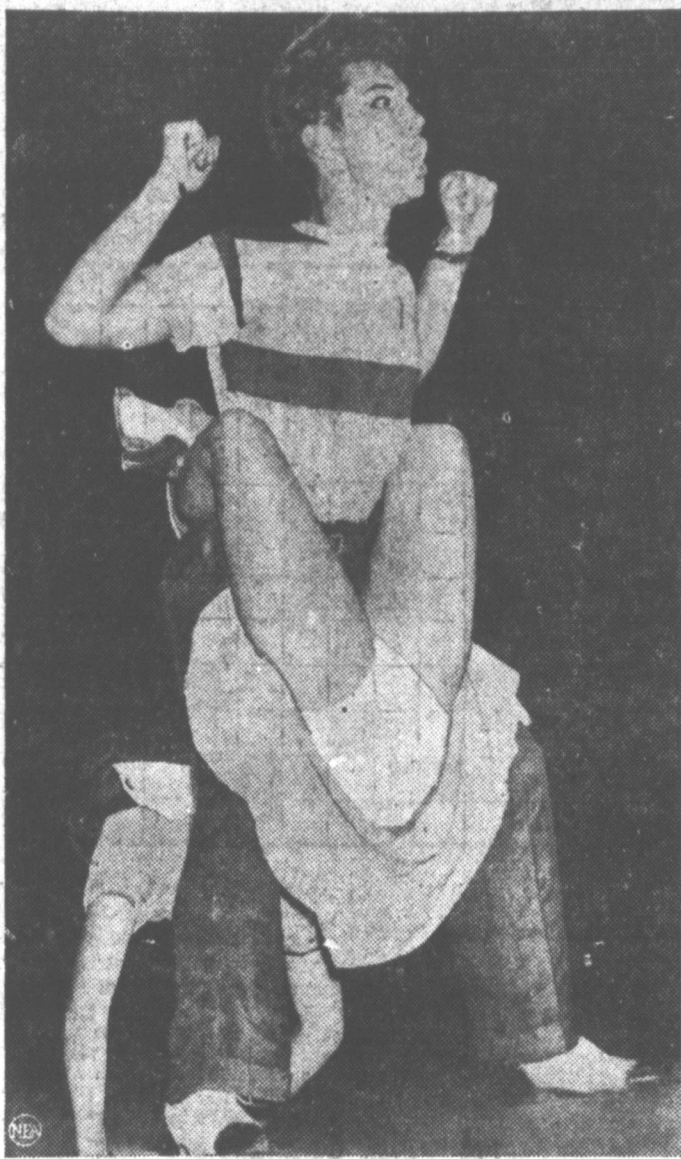

SACRAMENTO, Sept. 27 (AP)—San Francisco and Sacramento open a seven-game series tonight to determine the winner of the Pacific Coast baseball league. Shaughnessy plays off with \$5,000 going to the victorious team and \$2,500 to the runner-up. In the opening playoff series, Sacramento defeated Los Angeles, winner of the regular season pennant, and San Francisco won from Seattle.

There are many good FELT HATS that could be put back in use. If they had a new genuine leather sweat band or a new outside ribbon. We just received a new stock.

THE HAT MAN

How to Be a Jitterbug Champion

This is the dance that won the jitterbug contest in the American Legion stadium in Los Angeles as thousands of swaying mad cats, alligators, etc., cheered. Pattie Lacy and Ray Hersch are the youngsters. They got themselves untangled in time to receive the honors.

McCarthy Admits His Yanks Have Let Down Some

NEW YORK, Sept. 27 (AP)—The average baseball manager whose team has won only two of its last ten games is a worried individual with a drawn look given to starting nervously every time he sees a telegraph messenger. He knows that any news he receives from his clubhouse is going to be bad.

So it was pleasant to find Joe McCarthy with his ample bulk propped back comfortably, no lines furrowing his noble brow, no doubt of the future written on his placid countenance. His Yankees have been doing the Dipsy-Doodle ever since they clinched the American league flag but Joe can afford to be an indulgent parent.

"Yeah, we haven't been so good lately, have we?" he said easily. "However, I think we'll probably do all right when we get in the World Series. I know all about this club."

The players all have admitted to losing a little though not intentionally, since they shook off their last rivals. It's a sort of custom with the Yankees. Last year they lost six of their last ten games, but you wouldn't have suspected it when they started shooting for keeps in the World Series.

McCarthy said he hadn't even dispatched a scout to the vital Cubs-Pirates series starting today in Chicago. The series offers him a fine opportunity to size up the two clubs remaining in the National league dog-fight, yet he swears he isn't peeking.

Vic Frasier Has Chance To Win Title For Saints

KANSAS CITY, Sept. 27 (AP)—Vic Frasier, who clinched the semi-final playoff with Milwaukee, has a chance tonight to clinch the American Association title for St. Paul and send the Saints into the Little World Series against the International league champion.

His opponent in the fifth playoff game will be Marvin Breuer, who won the series opener in St. Paul by giving Kansas City its only victory over the Saints.

The Saints' timely hitting and Frasier's six-hit pitching of three hurlers gave them their third straight last night, 7-1.

CALLED TO COLORS

BRUSSELS, Sept. 27 (AP)—Belgium called six classes of army reservists to the colors today after Premier Paul Hymans' announcement that the army would be called to length with King Leopold.

Sports Roundup

By EDDIE BRIETZ

NEW YORK, Sept. 27 (AP)—This week tells the story in the National league. Cubs against Pirates in a three-game series starting today. Pirates still remain the favorites, though thousands are pulling for the Cubs. You can't lose sight of the fact that the Bucs have been in top of a hectic race since July 2 and that's a real test in any man's league. Besides that, they have one of the best balanced clubs in either major league. On the other hand the Cubs are coming long under the inspiring leadership of old Gabby Hartnett and they have two red hot pitchers right now in Bill Lee and Clay Bryant. Anything can happen, brothers.

Mid-west fans don't like the attention this column pays to the southwest Conference and one bird who doesn't bother to sign his name points out that Rice, which won the championship down there, was beaten by Oklahoma, which was not champion of the Big Six. Six former South Bend, Ind., high school players were members of this year's western all-stars which may not be something of a record. Thanks to the plugging of the Big Six of the New Orleans team, the preppers of that city will get the use of the new municipal stadium on the cuff.

We'll go on record as predicting the Yankees will take either the Cubs or the Pirates in five games.

Northwestern On March Again For Football Crown

CHICAGO, Sept. 27 (AP)—Northwestern's Wildcats, champions of the Big Ten two years ago, are on the march for the 1938 title. That's the deduction of Coach Lynn Waldorf who doesn't like to talk about championships. He is so impressed by the morale and team spirit, however, that he can't help it. His squad of 72 players reported in the best physical condition of any squad in four years since Waldorf has headed the coaching staff. The players, he says, believe they have a splendid opportunity to supplant Minnesota at the head of the conference list just as they did in 1936.

The Wildcats won their last Big Ten title largely on the strength of a hard charging line. This fall all signs point to another such weapon. Fourteen of the 20 returning lettermen are linemen, providing the Wildcats with experienced men from end to end and in some positions.

16 HARVESTERS IN COLLEGE IN THREE STATES

Former Pampa Harvester football stars are playing football on three fronts this year—Texas, Oklahoma and Colorado. There may be others in action elsewhere but their whereabouts has not been reported.

Texas, naturally, leads the list with eight, followed by Oklahoma with six and Colorado with two.

Rice Institute at Houston is the favorite school for five boys, Bill Haner, J. R. Green, Stokes Green, Moose Hartman and J. P. Mathews. Haner and J. R. Green are juniors, Hartman and Stokes Green sophomores and Mathews a freshman having reported last week.

Roy Lee Jones, last year at Southern Methodist university, and Roy Showers are at West Texas State, Canyon.

Topsy Reynolds has enrolled at McMurry college, Abilene.

Carl Smith and Donald Sparkling are veterans with the Cameron Aggies this year along with Lewis Jones.

Roy Webb, Lester Stephenson and Gaston Harbor are listed at Oklahoma City university this semester.

Attending Greeley State Teachers college at Greeley, Colo., are Mayse "Boogie" Nash and Bob Drake.

Mathews and Reynolds are the only members of the 1937 Harvester squad so far listed in college football circles.

Beaumont Leaves For Atlanta To Play Crackers

BEAUMONT, Sept. 27 (AP)—The Beaumont Exporters, champions of the Texas league, departed this morning for Atlanta where they will meet the Southern Association pennant winners tomorrow night in the opening game of the Dixie series.

Atlanta clinched the title last night with an 8-3 win over Nashville. Beaumont defeated San Antonio Sunday in the deciding game of the Texas league playoff.

Before departing Manager Al Vincent of Beaumont said he would start either Schoolboy Rowe and Dizzy Trout on the mound against Atlanta in the first game.

Games will be played at Atlanta tomorrow night and Thursday night then the teams go to Beaumont for games Saturday, Sunday and Monday. Beaumont is the favorite to win the series.

As it headed into its final 36 holes today at the Fenway Golf club, this 43,500 open golf competition had failed to live up to any of its promises except possibly that of close rivalry.

On Saturday and Sunday it attracted thousands of persons but hardly any of them put their tee shots within the circles. But the circles were so small, and the pins in such hard-to-reach corners of the greens, that only four players have been within them the last three rounds. One of the four got a hole-in-one.

There hasn't been even the saving grace of a quantity of sub-par scoring. In approximately 585 18-hole rounds played by some of the game's rearest stars—Sam Snead, Ralph Guldahl, Paul Runyan, Harry Cooper, Jug McSpaden, Denny Shute, Jimmy Hines, to mention only a handful—there have been exactly six sub-par rounds. The best the boys could produce in yesterday's 36-hole stretch was for par 70's.

The players don't hesitate to name the difficulty.

"The greens," said one of the leaders, "are down-right lousy."

Women Beat Men In Donkey Ball Game

Skellytown's business women aided the volunteer fire department by putting on a big donkey parade Sunday afternoon immediately preceding the donkey baseball game. The women, mounted on the donkeys and a few horses led the crowd out to the Skelly diamond one mile southeast of town. The women played the men one inning and beat them 3-0. Those making the scores were Maur Lee Greer, Mrs. John Stratton, and Letha Rush. Pete Kramer offered a prize to the first lady making it to first base, which was won by Maur Lee Greer. Those getting the folk were Mrs. Bill Harlan, Mrs. Oler Station, Mrs. Clint Freeman and Mrs. Lynn Wall.

The champions' line-up: Pitcher—Mrs. John Stratton, capt., catcher—Mrs. Lynn Wall, 1st base—Mrs. Bob Clements, 2nd base—Mrs. Oler Station, shortstop—Mrs. Joe Miller, third—Mrs. Pete Kramer, fourth—Mrs. Bill Harlan, Mrs. Clint Freeman, Mrs. Keith Caldwell, Mrs. Hugh Ellsworth, Miss Letha Rush.

Sam Green's "Oil Field Rough Necks" won over the firemen Friday night. Net receipts from the game Friday night and Sunday afternoon were \$100.

Hill-Billy Hi-Jinx in Jersey Campaign

AUSTIN, Sept. 27 (AP)—Advocate of public water conservation will hear W. Lee O'Daniel's views on the subject at a conference here October 5 and 6.

The Democratic nominee for governor is scheduled to address a statewide conference to be held in the senate chamber on those dates under auspices of the Texas Watershed Association and endorsement of Gov. James V. Allred.

Congressman J. J. Mansfield of Columbus, chairman of the house river and harbor committee and F. O. Hagie, secretary-manager of the National Reclamation Association, are also listed as speakers.

WATERWORKS BOMBED.

CANTON, Sept. 27 (AP)—Japanese warplanes scored nine direct hits on Canton's old waterworks today, causing fears of a water shortage in the city. The city's new waterworks previously had been put out of commission by bombs. The International settlement on Shamen Island has an independent water supply.

FLIGHTS PROTESTED

LONDON, Sept. 27 (AP)—An exchange telegraph company (British News Agency) dispatch from Warsaw today said the Polish minister in Prague protested in strong terms against recent alleged flights by Czechoslovak airplanes over Polish territory.

No, Junior, that's not the highspot in a vaudeville act. It's a big moment in the hill-billy political campaign of James J. Farley (not the big mailbag man, Junior), civil engineer, lawyer and former U. S. Army Major, who is a candidate for the Democratic nomination for Sheriff of Essex County, N. J. Ex-Major-Lawyer-Engineer Farley liked the way W. Lee O'Daniel, of Texas, recently crowned himself the Democratic gubernatorial nomination so he got up an Essex County version of the O'Daniel hill-billy campaign. Here he is lighting a cigar for clown Tom Matin, a member of his committee.

BIBLE GRUMPY OVER SHOWING OF LONGHORNS

(By The Associated Press)

A minimum of injuries cropping out from opening games last week. Southwest Conference football coaches drove their squads at top speed today as they prepared for an array of tough opponents in the second round of clouting in the clinches.

Most of the mentors found something to grumble about but couldn't completely cover up their elation at the good showings made generally.

Coach D. X. Bible at the University of Texas had the most cause for complaint inasmuch as his Longhorns were the only aggregation to take a beating. He showed his boys moves of their 19-18 defeat at the hands of Kansas and admonished them to "Let that be a lesson to you."

Coach Dutch Meyer of Texas Christian worked on his running game, being well satisfied with the serial work that brought a 13-0 victory over Centenary.

Coach Fred Thomson at Arkansas University said his team was "potentially strong" but needed a lot of polishing. Morley Jennings, head man at Baylor University, said he was pleased with the way his Bears performed against Southwestern. Odell Griffin, sophomore guard, received a twisted knee in the game. Baylor plays Oklahoma A. and M. Friday night at Wichita Falls.

Texas A. and M. Walloped Texas A. and I. about as it pleased but Coach Homer Norton didn't like the Cadets' defense. Coach M. J. Bell was rather gloomy at Southern Methodist University. "I know we'll be facing the best football team in the history of Arizona," he said.

The Rice Institute Owls pushed hard for their opener with Oklahoma Saturday.

'Dream' Golf Tourney Turns Into Nightmare

WHITE PLAINS, N. Y., Sept. 27 (AP)—The "Westchester 108," which started out as a "dream tournament," has turned into a nightmare.

As it headed into its final 36 holes today at the Fenway Golf club, this 43,500 open golf competition had failed to live up to any of its promises except possibly that of close rivalry.

On Saturday and Sunday it attracted thousands of persons but hardly any of them put their tee shots within the circles. But the circles were so small, and the pins in such hard-to-reach corners of the greens, that only four players have been within them the last three rounds. One of the four got a hole-in-one.

There hasn't been even the saving grace of a quantity of sub-par scoring. In approximately 585 18-hole rounds played by some of the game's rearest stars—Sam Snead, Ralph Guldahl, Paul Runyan, Harry Cooper, Jug McSpaden, Denny Shute, Jimmy Hines, to mention only a handful—there have been exactly six sub-par rounds. The best the boys could produce in yesterday's 36-hole stretch was for par 70's.

The players don't hesitate to name the difficulty.

"The greens," said one of the leaders, "are down-right lousy."

Americans Urged To Stay Out Of Europe

WASHINGTON, Sept. 27 (AP)—The state department "strongly advised" Americans today to forego travel to Europe.

The department warning was based upon reports reaching here from nearly all sections of Europe that travel there is becoming increasingly difficult.

Delays are being experienced by American citizens, the department said, in obtaining immediate passage home.

Officials estimated there are about 85,000 Americans resident in Europe who may find themselves in war zones.

The war department's most recent check showed thousands of these Americans were born in Europe and returned there for permanent or semi-permanent residence after becoming citizens of this country.

O'Daniel To Talk At Water Meeting

AUSTIN, Sept. 27 (AP)—Advocate of public water conservation will hear W. Lee O'Daniel's views on the subject at a conference here October 5 and 6.

The Democratic nominee for governor is scheduled to address a statewide conference to be held in the senate chamber on those dates under auspices of the Texas Watershed Association and endorsement of Gov. James V. Allred.

Congressman J. J. Mansfield of Columbus, chairman of the house river and harbor committee and F. O. Hagie, secretary-manager of the National Reclamation Association, are also listed as speakers.

Waterworks Bombed

CANTON, Sept. 27 (AP)—Japanese warplanes scored nine direct hits on Canton's old waterworks today, causing fears of a water shortage in the city. The city's new waterworks previously had been put out of commission by bombs. The International settlement on Shamen Island has an independent water supply.

Flights Protested

LONDON, Sept. 27 (AP)—An exchange telegraph company (British News Agency) dispatch from Warsaw today said the Polish minister in Prague protested in strong terms against recent alleged flights by Czechoslovak airplanes over Polish territory.

BRITISH BUILD RAID SHELTERS

By JAMES B. RESTON.

LONDON, Sept. 27 (AP)—Britain, successfully defended for a thousand years, prepared furiously today for the greatest defense in her history.

All night long through the drizzling rain, her old men dug trenches in parks and vacant lots. All night long her young men rolled away to their guns along the coast.

In the ghastly glare of torchlight, residents dug up their garbans. Convinced their peace-time hours were numbered, they threw out their chrysanthemums and dug themselves refuges below ground.

Trucks filled with gas masks rumbled across the city.

Police went from door to door with instructions how to darken windows in air raid black-outs. Patients able to continue convalescence at home left hospitals.

Appeals for help went to automobile owners.

Everything imaginable was turned into air raid shelters. Workers sealed the wine cellar at Windsor castle. They barricaded railroad tunnels. Oil caves along the south coast, church crypts, bank vaults.

In a single night Englishmen sought to prove the boast "we don't need conscription." Sound trucks appealing for "anybody who can swing a pick and shovel" brought men flocking to the parks.

No arrangements were made to feed these people, but they were fed. Women came from neighboring houses with steaming pots of tea and bread and butter.

Crude Production Shows New Increase

TULSA, Okla., Sept. 27 (AP)—A moderate increase in the national production of crude oil, 24,000 barrels daily, brought the average to 3,254,873 barrels daily during the week ending Sept. 24, the Oil and Gas Journal reported today.

In Oklahoma an increase of 1,500 barrels daily brought the total to 448,275. East Texas showed an increase of 511 barrels daily to 369,000 and the total state of Texas had a jump of 9,753 barrels daily to 1,224,447.

Louisiana's production decreased 1,140 barrels daily for a total of 265,390. California had a drop of 1,250 to 677,190 and Kansas production was off 5,825 barrels daily to 161,125.

Talks to King

LONDON, Sept. 27 (AP)—United States Ambassador Joseph P. Kennedy remained more than half an hour in an audience with King George VI at Buckingham palace. It was the ambassador's first audience with the King since the European crisis developed.

SOVIET IGNORES HITLER

MOSCOW, Sept. 27 (AP)—Soviet newspapers ignored Reichsfuehrer Hitler's speech today, but gave prominent display to President Roosevelt's appeal for peace. The stronger stand taken by Great Britain and France was viewed in Soviet quarters as a justification of Moscow's repeated warnings against the folly of trying to buy off Hitler with concessions.

By HUGH S. FULLERTON, Jr., Associated Press Sports Writer.

When you go back into the records, it becomes harder than ever to figure out what may happen in this Pirates-Cubs "pennant" series which is bound to make all other baseball take a back seat until it's over.

In the first place, neither has been able to gain a decisive edge in 10 previous encounters this season. The Pirates have a 10-9 edge so far and appear in a bit better shape, especially where pitching is concerned, for a tough series.

On the other hand, the records don't prove it will help Jim Traynor much to be able to shoot Jim Tobin, Bob Klinger and Russ Bauers at the Cubs in order. They're his aces, but in ten starts against Chicago they have won only three games among them and lost five.

Gabby Hartnett, after tossing his No. 1 moundman, Bill Lee, against the St. Louis Cardinals yesterday to gain a 6-3 victory that put the Cubs only a game and half behind, decided to take a chance with Dizzy Dean for today's opener. Old Diz has faced the Bucs twice, winning one game with a seven-hit job and being knocked out to lose the other.

Lee apparently didn't have work any too hard to beat the Cards. He kept a dozen hits well scattered and never was behind.

The winning and losing streaks of the rivals don't prove much, either. Since Aug. 9, when the Bucs held a 5 1/2-game lead, Pittsburgh has won only half its 46 games and Chicago has won 30 out of 47.

In the only other game yesterday, the New York Yankees began turning-up for the world series by conquering the second-place Boston Red Sox, 4-3, on Steve Suro's good pitching and a three-run rally in the sixth inning. It was only their second victory in ten games.

German Newspaper Makeup Resembles Dark Days of 1914

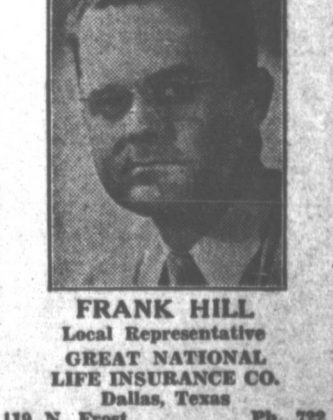

BERLIN, Sept. 27 (AP)—Resembling in makeup the days of 1914 before the World war, German newspapers today uniformly charged to President Benes of Czechoslovakia the blame for whatever may be Europe's fate.

Chancellor Hitler's own mouthpiece, the Volkischer Beobachter, in heavy red type bannered "We Are Resolved!"

An editorial titled "The Last Word" drew the conclusion "the fuhrer's speech actually was the last word spoken by Germany in this conflict."

Italian Warships Sail

SHANGHAI, Sept. 27 (AP)—The Italian cruiser Montecuccoli and the destroyer Lepanto sailed suddenly for an undisclosed destination today. The gunboat Carlotta is the only Italian warship remaining here.

SERIAL STORY HIT-RUN LOVE BY MARGUERITE GAHAGAN COPYRIGHT, 1938 NEA SERVICE, INC.

Yesterday, Pat refused to let Larry, to get away to "go easy." After talking him over, he accepted Tom's invitation to dinner.

CHAPTER XI

It was different being with Tom. She felt freer, more able to express herself, she decided, sitting across from him in the hotel dining room where he insisted upon taking her.

"A first time should be done in style," he explained, when she suggested a smaller place. "After all this is quite an event for me. Maybe you don't know that."

There was no need for pretense with Tom. Sometimes in the old days with Larry she had had to play up. Larry had a way of belittling the time-accustomed ways she and all the crowd she had grown up with did things.

For a little while she forgot that life was changed. The time was passed quickly, too quickly, for she still felt a blank wall. She felt that knowing Tom better had not offered her a way out. Could she turn to him now and tell him about Larry? One moment he seemed so kind, so competent, that asking his advice should be easy, and then a remark reminded her that he was still all prosecutor.

Still trying to find the courage, she saw him look at his watch, take the bill and put down his napkin.

"I have to run," he said. "I'm supposed to be at headquarters to go over some details. Maybe there will be a time when one of us won't always be in a hurry. Coming with me tonight was kind of you. Will there be other times?" She nodded. "I hope so." She felt ashamed. She had enjoyed being with him, but she didn't want him to know the reason that had prompted her acceptance of his invitation. If only she knew what to do. That sense of uncertainty still held her in its grasp.

She wavered back and forth as the week sped by. Surely Larry would find a way out for himself. Church wouldn't permit him to run the risk of injury when the case came to trial. As for that, how much did Church actually know? How much did anyone other than she know about the true facts? And what would Tom think of her if he ever did find out?

Each day his kindness, his gentleness reminded her of that. Each day she became more conscious of his caring, and of her own desire to live up to his belief. Too quickly the trial date came. She moved in a world without order. She felt frozen, insensitive to life. She clung blindly to the hope that Larry would clear him-

self, but with no knowledge of how he could do it and save his honor.

Hope and fear came on each other's heels in rapid succession after that. The trial started. Tom instructed the jurors in their duty. Sitting at her table staring at the faces of the men and women in the jury box she couldn't believe that affairs had progressed to this point. That these people had been called to decide upon Larry's guilt or innocence in an involuntary manslaughter case.

TAKING down the testimony of police called to the scene of the accident, she tried to get her thoughts in order. Not 10 feet away Larry sat with his attorney and in the background, were the usual courtroom stars: relatives, friends, witnesses, curious spectators, and around the bench itself reporters came and went.

Papers carried the story on the front page again that morning. Headlines stood out. "Kent starts—Pat leaped over Desk Sergeant O'Shea's shoulder to read quick sentences. The defense would attempt to show Kent was on the other side of town at the time of the accident, Church declared. Circumstantial evidence alone would prove a weak case for the prosecutor. Two more deaths had been added again yesterday to the year's toll in the traffic war, and the police commissioner demanded action."

Yes, as the police around the court so aptly put it, the heat was on. There must be action, and Tom was the one to teach the public that heedless driving would result in severe punishment. Today was his, and today he must start on a hard lesson.

Yet as the pattern was woven there in the court Pat could feel an uneasiness on Tom's part. After the first details had been gone through and they were down to the serious business of questioning witnesses, the girl could see just how clever Church was. Quickly he would talk to the man or woman on the stand, then suddenly break in with a sharp question that broke their certain answers, confuse them as to distance, degree of light and dark, condition of the pavement, how far ahead they themselves could see.

Already two men who had appeared positive in their testimony that the killer's car was a blue coupe had left the stand with their stories broken and tangled. Tom's forehead was furrowed, and he was taking voluminous notes while conferring with the two detectives from the Accident Investigation Bureau. She knew he

was worried, and she could sense the amusement on Church's face. SHE looked up with relief when Shelia dropped in to visit that afternoon. For last week she had been so completely cut off from the outside world, living fearfully, shut within the secrecy of her own world.

"I've wanted to come here and see you for ages," her cousin said, her big childish brown eyes shining with interest. "And then along comes a whole half day free. If I'd known before I'd have had some plan for the afternoon, but as it was I thought I'd have to go with my fifth graders to this music festival. Miss Gordon was grand. She said to forget work, that the kids could go with the eighth grade teacher, and so here I am. Now tell me who everyone is, and what all these people are doing."

Pat made a place for her at her own table below the judge's bench and pointed out the familiar procedure. Shelia was thrilled over such simple things—meeting the police sergeants and some of the attorneys who were always on hand when a pretty girl appeared.

And then she introduced Tom. "He's assistant prosecutor," she explained, watching the sudden flush stain her cousin's face. "You wanted to know some big shots, so of course you must meet Tom." Shelia's naive excitement would ordinarily have only amused her, but now she watched the brown eyes sparkle and her face grow animated as she talked with Tom. Let tell a stab of jealousy. It frightened her, made her ashamed and glad for an excuse to go into her own office. There she looked at herself in her tiny mirror. Hard to believe that such a horrible weakness should show up in herself. And toward Shelia of all people in the world: Shelia who was as near and dear as a sister, the same girl with whom she had played and dreamed through school years, the same girl to whom she had first confided her love for Larry, the girl who was to be her bridesmaid when the wedding took place.

She didn't have any right to think of Tom as her own. She belonged to Larry, and now of all times she should think of him and what she could do to help him. But when she went back to her table she could feel a little pulse hammer in her throat and a dull beat deafen her ears as she watched Tom lean toward Shelia while he explained some statute in a law book.

GERMANS LOOK ON CZECHS AS 'VERY TERRIBLE'

By DEWITT MacKENZIE

BERLIN, Sept. 27. (P)—Sitting opposite me on a train from Cologne yesterday was a German in his early forties who had old soldier written all over him. He was a fine looking chap despite some rather terrible scars on his face.

The way he carried his head over square shoulders bespoke one used to command.

Every time we halted at a station he hurried out and came back with the latest editions of Berlin newspapers. He would glance eagerly at front page headlines, then he sat looking grimly out the window. He wasn't looking at anything—just gazing into space.

Dreads To Get Call

It was easy to read his mind. He was watching for a possible location of European hostilities. His mind was back in the holocaust of twenty odd years ago and the stench of the battlefield was in his nostrils. That was when he was very young—before he married and babies came. He dreads to get a call to arms.

That is the feeling I found when traveling about. The man in the street and his wife are quick to tell you they don't want war.

However, they're just as quick to say that the men of the fatherland will fight if war comes out of the Czechoslovak situation.

Carrying aid to the Sudeten Germans has become a holy cause to the people of the homeland. Streamer headlines in German newspapers, recounting constantly what they term persecution of the Sudetens, fan the indignation of the German people. Sometimes the headlines are red and their language is no less fiery.

A workman told me Sunday in a voice breaking with emotion: "The Czechs must be very terrible folk. They killed more than 300 more of our people last night."

I don't know where he got this story, for it was a different version of affairs from which I had seen. However, the thing which seems to matter is that the citizen-in-ordinary of this country has the feeling that he will be fighting for a just cause if he has to go to war.

Short War Seen

While this feeling exists, one

hears the belief expressed among all classes that there will be no war. Perhaps the wish is father to the thought, but the presence of the wish is an influence for peace.

I asked the workman if there would be war. He said he thought not and added:

"If there is a war it will be short. We shall have to fight only Czechoslovakia and Russia. England, France and America won't come in."

It is true that the blood of some of the youths of Germany—especially those who are making the army a career—moves faster at the sound of rolling drums and clanking sabres. They're never seen the horrors their fathers knew and war still holds a glamor for them. Yet, even these boys, as a whole, don't want to see death on the battlefield.

Germans Were Hungry

For many millions of the population the memories of the last war are still a nightmare. They escaped the terrors of invasion such as Belgium and France knew, but they underwent great privations for all that.

I came into Germany with the British army of occupation after the World War and local authorities begged us for food and clothing for the people. The sufferings of unfortunates in invaded allied territories had been so much greater that the German trials seemed

very mild at the time. Looking back now I can see that Germany had her cross to bear, too.

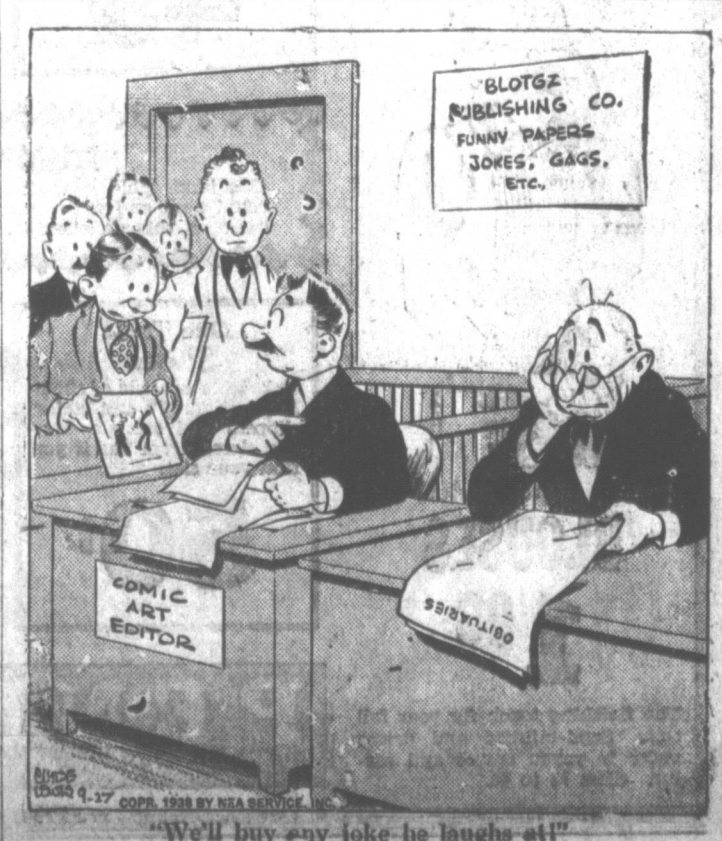

The people were hungry. Little nourishing food remained in the country because of the allied blockade. They were lucky who had soggy, sour bread made from potato scrappings. The faces of children of the poor were pinched and lined so that they looked like tiny old men and women. Many suffered rickets, since butter and other fats had disappeared from the market long before. They were cold from lack of shoes and warm clothing.

It is a vastly different picture one sees now. Everywhere are rosy cheeks and sturdy bodies. The physical development of the children and the young women of Germany is magnificent. That was one of the first things that struck me as I started to move through the country.

There was small wonder the people don't want to go back to war days.

JURY 'HUNG' IN FORGERY CASE

With the jury "hung" in the case of State of Texas vs. F. A. (Speck) Campbell, who has been charged with forgery, 31st district court today proceeded to the trial of State vs. T. E. Bradley, who is charged with driving a motor vehicle upon a public road while intoxicated.

Defense witnesses were being heard in the case in the court this afternoon. State's witnesses were on the stand this morning. John Sturgeon is representing the defendant. District Attorney Lewis M. Goodrich the state.

Bradley was arrested by a Texas Highway patrol officer on West Brown street on September 19, at the time the circus was making a stand here. Bradley is from Sayre, Okla.

Jurors hearing the case are Newt Barker, T. F. Morton, Ernest H. Bada, C. W. Bird, F. C. Johnson, Joe Duby, M. V. Ward, D. Wall, Hugh Castleberry, A. T. Rowe, and J. M. Saunders.

Duby, Morton, Castleberry, Johnson, and Wall were on the jury that heard the first case of the week yesterday. The case went to the jury at 4 o'clock, and the jury returned its verdict at 9:30 o'clock this morning to Judge W. R. Ewing.

PLEASANT PENALTY
MUNCIE, Ind.—A boy pledged to a Central High school club was ordered as part of his punishment to kiss every girl who passed through the entrance to the school building. He kissed one girl so fervently he broke her glasses. Now the club has to buy her a new pair.

Pay Fines Or Go To Jail, Two Heads of Talent School Told

LOS ANGELES, Sept. 27 (AP)—Two officials of National Talent Pictures, Inc., had the alternative today of paying fines or going to jail on misdemeanor charges.

I. C. Overdorff, president of the concern, was given a sentence of \$500, or 90 days on conviction of false advertising and petty theft. Edward Ross, vice president, was fined \$300 or 60 days for false advertising.

The company was accused of operating a talent school that induced dancing students to come to Hollywood on the promise of film work which never materialized.

Two Boys Held For Burglarizing House

Two boys, one 14 years old, the other 15, are Captain H. G. Lambrecht's first case as juvenile officer of Gray county. Captain Lambrecht said the boys had broken into a house on a Sinclair lease south of town Sunday, and had taken some watches and rings.

Placed on probation, the two boys will be required to attend school regularly and to report once a month to the Salvation Army captain.

Captain Lambrecht Monday was named as juvenile officer of the county in a deputation issued by the county commissioners court. He receives a salary of only \$1 a year from the county for this service.

County Judge Sherman White said he believed the appointment of the Salvation Army captain would be a benefit in reducing the amount of delinquency among juveniles. He stressed the point that due to the nature of Captain Lambrecht's work, he could go to homes in a manner quite different from that of the judge or an officer carrying a gun and could find out the exact facts on each case much better than others could.

Judge Would Like To Have The Wave

SACRAMENTO, Calif., Sept. 27 (AP)—Justice Percy G. West was all sympathy as a woman suing for return of money she paid for a permanent wave told her woes.

"Now, Your Honor," said Alice Oenley, combing her shoulder length hair with her fingers, "would you pay \$7.50 for a wave like this?" "Young woman," replied the judge, fingering his bald pate, "I'd pay \$100 if I could get a wave like that."

Queen Elizabeth Launches Namesake

GLASGOW, Sept. 27 (AP)—Queen Elizabeth, with a message from King George calling on the people to "keep cool heads and brave hearts," today launched Britain's new \$5,000-ton liner bearing her name.

Nearly 300,000 persons watched the giant vessel, companion ship of the Queen Mary, glide down the slipways into the Clyde.

"I have a message from the king," Queen Elizabeth told the huge crowd. "He bids the people of this country to be of good cheer in spite of the dark clouds hanging over them and indeed the whole world."

"He knows well that, as ever before in critical times, they will keep cool heads and brave hearts."

"He knows, too, they will place their entire confidence in their leaders who under God's providence are striving their utmost to find a just and peaceful solution of the grave problem which confronts them."

Czech Radio Calls Hitler Talk Brutal

PRAGUE, Sept. 27 (AP)—The Czechoslovak government radio today broadcast indignantly that Reichsfuehrer Hitler's demands showed "brutal desire to crush Czechoslovakia as a free state."

"The form given by Hitler to his memorandum," the government station announced, "is sufficient to show that it is not enough to make an agreement and maintain peace."

"One feels in Hitler's memorandum a brutal desire to crush Czechoslovakia as a free state."

"The memorandum demands annexation to Germany of territory counting 3,736,000 inhabitants of whom 2,823,000 speak German and 816,000 Czech."

"On the other hand, in the territory where Hitler demands a plebiscite there are 1,116,000 Czechs and only 144,000 inhabitants who speak the German language."

"It results from this that Germany would incorporate 816,000 Czechs into Germany and there would remain 102,000 Germans in Czechoslovakia."

"The Hitler memorandum is flatly directed against the economic existence of Czechoslovakia. As a result, Czechoslovakia would be deprived of a great part of her forests and her highways and railways broke in two."

"Czechoslovakia would be so weakened in a military way that the greatest part of her territory, notably Bohemia and Moravia, would be at the mercy of Germany."

The Czechoslovak press described Hitler's attack on President Benes as without precedent in his history.

KWIK-KORNER
DO SNAKES TAKE MILK FROM COWS?

ANSWER: No. A snake could not possibly milk a cow, even if the cow raised no objections. The shape of the snake's mouth makes the feat impossible, and the sharp teeth would stampede the gentlest of bossies. This is only another of the snake stories that will not stand up under possible thinking.

Cities To Vote On Power Ownership

AUSTIN, Sept. 27 (AP)—Lower Colorado river authority officials said today eight Central Texas cities have ordered elections this week on bond issues for acquiring municipal systems for distributing electric power to be purchased from the authority.

San Marcos votes tomorrow; Lockhart, Cuero, Schulenburg, Gonzales, Kyle, and Llano on Friday and Comstock on Saturday.

Lampasas, Fredericksburg, Bastrop, Smithville, Burnet, and Marble Falls recently authorized revenue bonds for the same purpose.

Townsend Club Will Meet Here Tonight

An important business meeting will be held when members of the Pampa Townsend club assemble at 8 o'clock tonight in the county court room. The Pampa Townsend club No. 2 has been invited to meet with the older club.

The group will decide upon the election of additional officers and discuss legislation to be advocated in furthering the aims of the national organization.

Present officers of the Pampa Townsend club are C. W. Rupert, chairman, and Mrs. Betty Richard-

postpone a walkout and would maintain existing wage scales for a 60 day period. Hence, the status quo apparently will remain until Dec. 1.

The carriers decided on May 12 that a wage slash was imperative in view of their financial condition. The unions rejected the proposed cut and negotiations began on July 18.

The National Mediation Board entered the dispute on Aug. 11 when the rail management and the unions admitted they were deadlocked. The failure of mediation was announced Aug. 31. Arbitration was rejected by the unions and the carriers immediately fixed Oct. 1 as the date for the new wage scales. The strike followed.

Harrison stated a strike was the only recourse unless the carriers backed down on their demands. If workers consented to the pay cut, estimated at \$260,000,000 a year, it would, said Harrison, "be not only a gross injustice to themselves but also a wrong to the social and economic life of the country." He said business levels do not justify a cut in wages.

son, secretary-treasurer. There are 200 members in the club.

A meeting of the Townsend club at McLean last week was attended by C. W. Rupert, Mrs. Betty Richardson, Mr. and Mrs. W. C. Cook, and Cal Rose of Pampa, and W. S. Kennedy of LeFors. Special music was a feature of the program. There are 70 members in the M. V. Lean club.

Americans Besiege Home-Bound Liners

LONDON, Sept. 27 (AP)—A peaceful army of Americans—business men, tourists, naturalized immigrants, just ordinary Americans—looked homebound longingly today from all over Europe.

Most of them set out to do something about it. They wanted no truck with the war clouds hanging over the German-Czechoslovak border.

From the British Isles, France, Italy, Germany, European Russia and intermediate points came applications for return passages to the United States.

Steamship agencies were besieged. In London and Paris, lines reported every available space in all classes had been reserved up to October 15.

Preference was being shown women, children and the aged. The possibility appeared that families might be separated to speed the return of the trailer members. With all this haste to get back to the United States, however, there were no indications of hysteria. With typical American curiosity thousands of Americans, particularly in London, gave every indication of intending to stay in Europe to see what would happen. These were having a good time in the midst of the preparations for possible war.

LEE UPHOLDS BILL

OKLAHOMA CITY, Sept. 27 (AP)—Sen. Josh Lee (D., Okla.) declared today "powerful controlling interests" in the American Legion blocked approval of his bill to conscript wealth in time of war at the convention in Los Angeles.

FDR'S SPEECH BELITTLED.
ROME, Sept. 27 (AP)—Virginia Gayda, authoritative Fascist editor, asserted today President Roosevelt's appeal for peace was "far from the realism and practical clarity of Premier Mussolini's." He compared the President's message of yesterday with the speech in Verona in a pessimistic editorial in Giornale d'Italia in which he said, "the days of peace are numbered."

DON'T LET YOUR NERVES GET TIRED, UPSET!

Irish Setter

Native of Ireland. Believed to be a cross of English setter, spaniel and pointer. Originally red and white in coloring. Today's standards call for solid mahogany red or rich golden chestnut. Essentially a gun dog. Bold, hardy, yet remarkably gentle nature. Noted for long life.

He's giving his nerves a rest...and so is she

THE DOG pictured above has a nervous system amazingly similar to yours, with this difference: It is the nature of the dog to rest when he needs rest. It is the nature of mankind to drive on...until nerves jerk and twitch...until you are cross and irritable...tired out without knowing it. No matter which

of the common forms of tenseness you feel, try this experiment: Ease up and enjoy a Camel. Camels are made from costlier tobaccos. They are so mild and comforting. Smokers find that "Let up—light up a Camel" puts more zest into life, and that Camel's costlier tobaccos soothe their nerves.

MILLIONS FIND

"Let up—light up a Camel" puts more joy into living

Terrell Jacobs, lion trainer, and "Tony" Concello, circus aerialist (right), both testify to the value of "Let up—light up a Camel." "Animals can spring into instant action—then relax," says Jacobs. "We are apt to get our nerves all wound up with our tense way of living—can't let go. I find that Camels soothe my nerves." "Terrell's right," Miss Concello says. "When my nerves are tired, a Camel helps them to rest."

DID YOU KNOW?

—that one tablespoonful of tobacco seed will sow 100 square yards? Right down to the day of harvest, Camel tobacco experts watch the development of the crop in each locality. The Camel cigarette buyers know where the mild, choice, aromatic tobacco is, and buy accordingly.

Camels are a matchless blend of finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic

Fred L. McDaniel, cowboy (right), says: "When I feel nervous I let up, and light up a soothing Camel. Camels are mild—I smoke 'em steadily. They are so comforting, and never tire my taste."

Smoke 6 packs of Camels and find out why they are the LARGEST-SELLING CIGARETTE IN AMERICA

LET UP—LIGHT UP A CAMEL!

Smokers find Camel's Costlier Tobaccos are SOOTHING TO THE NERVES

Happy Kitchen Cooking School Will Open Tomorrow

LECTURES TO CONTINUE FOR THREE DAYS

Tomorrow is the big day!

That's when the Happy Kitchen Free Cooking School opens. It will be held at the LaNora theater and lectures will begin promptly at 9:30 o'clock a. m.

Mrs. Arreva D. French, the famous home economist and lecturer, who has been engaged to conduct the school, will be introduced to the women of Pampa and vicinity under auspices of the Pampa News and a group of merchants cooperating to bring this instructive event to the women of the community.

No item of home management and the creation of the "happy kitchen" attitude toward housework will be overlooked in Mrs. French's series of talks.

She will make a full discussion of the such subjects as good buying, the planning of menus, selection of foods, preparation of inexpensive foods in a way to make them more attractive and more nourishing, recipes that tempt the appetite and please the purse.

All of her talks are of a practical, constructive nature, and the recipes she gives are demonstrated while she actually prepares each one before the eyes of her audience.

Any housewife, whether a novice or an experienced cook, will benefit from the knowledge Mrs. French has gained from her contacts with more than 100,000 typical American women.

So don't make any other plans for Wednesday, Thursday and Friday mornings. Be at the LaNora theater when Mrs. French presents her first lecture, as after you hear the first one, you won't let anything keep you from hearing them all.

Admission is free, and other attractive free features have been arranged for those attending the daily sessions.

NO. 1— Continued From Page One

President of the advisory board, expressed thanks for the support given him during the past year.

He paid tribute to Captain and Mrs. Lambrecht, local Salvation Army officers. "Handicapped by many obstacles and some almost insurmountable, they have labored unceasingly to win the affection of the community through love and sincerity of purpose born of passion for those less privileged among our people. I personally pay them my respect and pledge a continuance of my support."

Telling of the work done in the past year:

"The work in Pampa has been carried in the commendable fashion. With the funds available, 1,200 homeless and transient men were given lodging, as were 73 homeless and transient women.

"A total of 1,180 garments and shoes were given. Sixteen persons were given medical aid, 1,664 given meals, and 18 families were returned home, forestalling their chances of them becoming county cases.

"2186 Garments Distributed. "Of our city families, 165 were given groceries, 2,186 garments were distributed and medical aid was rendered to 16 through the help of the Lions club and the county health officer. "Three unmarried mothers were sent to our state institutions, while seven more were aided locally or in other institutions. At Christmas time, with the aid of various organizations and service clubs, 82 families received baskets of food, and 180 children were given toys, candy, and fruits.

"In order to avoid duplication, ev-

BOARD COMPLIMENTS LEADERS

Members of the Salvation Army advisory board, meeting last night in the city hall building when the annual report was presented, paid tribute to Captain and Mrs. H. G. Lambrecht to whose efforts the results reflected in the report are largely due.

any other agency in the city was

contacted before casts were aided.

Of course, in emergencies the matter

was left to the judgment of the officers

so that no red-tape hampered those

who needed quick aid. City, county,

state and federal departments cooperated to the fullest extent.

Accurate Records Required.

"The oversight given by the state,

territorial, and national organization

makes it imperative that the local officer

keep accurate records, not only of the cases given aid, but

a receipt must be filed for each expenditure.

"The report is sent to state headquarters

weekly, covering all activities. The books are audited quarterly

by the state auditors and annually by

Ernst & Ernst. I am proud of the fact that we have

adhered to the 'pay as you go' policy in the matter of maintenance

and relief funds."

"Mindful of the Scripture quotation that man does not live by bread

alone, it is well to take cognizance of the character building work

performed in this city by the Army, without note as to station or creed

of a person.

Classes Taught.

"The Salvation Army not only

recognizes the need, it conducts free

music lessons, mothers' clubs giving

instruction in domestic science, home

economics, and home sanitation. I

also conduct summer outings for children

and classes for the teaching of potential officers in the future.

"It has been my privilege and pleasure

to speak to state and national leaders of the organization

and I have always been conscious of their sincere purpose to lead men to

a higher level than they found them and to literally portray through their

lives and efforts that world-wide known maxim that "a man may be

down but he's never out."

"They have stoutly held to the principle

that every man should worship God according to the dictates

of his own conscience in whatever church

affiliation he felt he could best serve God. This has been the

work of the Salvation Army from the beginning when their leaders

cry was "go for souls and go for the worst."

"I am happy for the endorsement of

the ministry of the leading churches, also for the cooperation of the

laity of all churches. A total of 433 services were held indoors

in Pampa last year, 103 outdoor meetings were conducted and 53

persons were won to Christ. The majority of these are aligned with

some church in the city.

Thanks were expressed toward press, radio, service clubs, fraternal

orders, and county and city officials for their contributions toward the

work of the Salvation Army.

"There is no question that the figures

in the report given entirely fail to show the real spirit of service

rendered but suffice to say we have used our best judgment and

my prayer and desire is that we might be successful in raising the

Legion Auxiliary Chooses Justice

Mrs. James Morris, above, of Bismark, N. D., associate justice of the North Dakota Supreme Court, was elected president of the American Legion Auxiliary at the national Legion convention in Los Angeles.

recognizes the need, it conducts free music lessons, mothers' clubs giving instruction in domestic science, home economics, and home sanitation. I also conduct summer outings for children and classes for the teaching of potential officers in the future.

"It has been my privilege and pleasure to speak to state and national leaders of the organization and I have always been conscious of their sincere purpose to lead men to a higher level than they found them and to literally portray through their lives and efforts that world-wide known maxim that "a man may be down but he's never out."

"They have stoutly held to the principle that every man should worship God according to the dictates of his own conscience in whatever church affiliation he felt he could best serve God. This has been the work of the Salvation Army from the beginning when their leaders cry was "go for souls and go for the worst."

"I am happy for the endorsement of the ministry of the leading churches, also for the cooperation of the laity of all churches. A total of 433 services were held indoors in Pampa last year, 103 outdoor meetings were conducted and 53 persons were won to Christ. The majority of these are aligned with some church in the city.

Thanks were expressed toward press, radio, service clubs, fraternal orders, and county and city officials for their contributions toward the work of the Salvation Army.

"There is no question that the figures in the report given entirely fail to show the real spirit of service rendered but suffice to say we have used our best judgment and my prayer and desire is that we might be successful in raising the funds of \$4,000 necessary to carry on in the coming year so that these officers can carry on to greater usefulness the movement for good in our city."

Sons Chosen On Board. After the report had been accepted, L. L. Sons was elected to fill the vacancy on the board left by removal of R. B. Fisher to Corpus Christi. A committee was named to present the names of six additional members of the board to serve for the fiscal year of 1939.

Present at the meeting of the Salvation Army advisory board were Arthur Teed, president; Tex DeWeese, vice president; J. M. Collins, treasurer; Judge Sherman White, W. A. Bratton, Aaron Meek, L. L. Sons, Captain H. G. Lambrecht, and Envoy Frederik M. Lange.

While Texas produces more hides than any state in the union, it has only a handful of tanning plants.

Popcorn production is growing in Texas, a land use committee recently reported.

Oil overages—accumulations in excess of allowances through humanly imperfect tank and pipeline measurements—which cannot be shipped into commerce—are being studied by the Railroad Commission.

COFFEE FIRM OUTSTANDING IN SOUTHWEST

Outstanding among the industrial concerns of Houston and the Southwest is the Duncan Coffee Company, of Houston. That company was born in the month near the end of the World War, and began business on August 13, 1918. The company started business in a modest plant at Carr and Conti streets, where it has continued in business ever since.

H. M. DUNCAN

In the beginning, the plant force consisted of Mr. H. M. Duncan, Mr. Lester J. Bland, a colored helper, one woman in the packing department, Mr. C. H. Lawrence, roaster, and Mr. Frank Pilot, salesman. Each week-day morning, Mr. Duncan and Mr. Pilot called on retail grocers, because the long established machinery of distribution through brokers and jobbers to retailers was closed to the Duncan Coffee Company, as all claimed they a coffee account and could not take on or sell a new and unknown brand.

Undoubtedly the foregoing circumstance was a "lucky break" for Mr. Duncan and his new brand of Admiration Coffee, as it forced him to go direct to the retail grocer with his coffee. That route of selling was already being explored by Fleischman's Yeast, and one or two other National manufacturers who were finding it the economical thing to do.

As a matter of fact, a new trend in merchandising was already beginning, and in the years since the War, American industry has tried harder and more to shorten the road and reduce the expense of getting goods—especially food products—from the manufacturer to the consumer.

Some few years later, based upon their experience in selling retail grocers direct, the Duncan Coffee Company began to study seriously the problem of distributing coffee direct from the roaster to the grocer throughout Texas.

The system of direct distribution now covers the greater part of the State, and is constantly being extended to take in more territory. As the company faced the problems and the rapidly changing conditions of the depression period beginning in 1929, it became apparent that the public had less money to spend even for necessities. So a new brand of Coffee, "Bright & Early" was developed, to be sold at a lower price than Admiration, which had already become very popular, and the Company experienced a constant increase of tonnage right through the trying depression years.

Then came President Roosevelt's N. R. A. and the Duncan Coffee Company was among the first of industrial units of the country to wire the President that it would conform to the standard of hours and wages set up under the N. R. A.

Immediately it became necessary to increase the Company's plant capacity to produce the coffee to meet the increased demand. Then Mr. Duncan decided to try another experiment. He believed that depression would be overcome only after men and women who had been forced into idleness could be again employed in some gainful occupation. He began to employ more and more people to do the work of packing and labeling coffee, which had been done previously by machinery. Again the sales curve of the Duncan Coffee Company went up, and it was necessary to employ more and more men and women, so that a plant and a business, which was operated by six people in 1918, now required two hundred thirty-seven men and women to operate, with an annual payroll running into six figures.

Within the past year, the Company established a fine new roasting plant and distributing center at Corpus Christi, the better to serve the growing population of the lower coast, and the Winter Garden territory to the south and west of San Antonio, and the Rio Grande Valley. The new plant is already working to capacity.

The present official family of the Duncan Coffee Company consists of Mr. H. M. Duncan, President and General Manager; Mr. C. W. Duncan, Vice President in charge of city sales; Mr. L. J. Bland, Secretary-Treasurer and sales manager; and L. Williamson, credit manager.

"Leto's" for the Gums

Superficial soreness can become mighty trying. Druggists will return your money if the first bottle of "LETO'S" fails to satisfy. Fatherson Drug Store.

JACKETS FOR NEW WINTER AND FALL SUITS DRAMATIZE FIGURE

By MARION YOUNG

NEA Service Staff Correspondent

NEW YORK, Sept. 6.—The majority of the jackets of new fall suits are fitted and are slightly longer than formerly. Skirts are slim—although Molyneux features

gored ones, and Lanvin uses pleats lavishly. Tweeds for town are talked about. Color is the biggest news of all. And the square look is something not to be ignored by any means.

Suits, like the majority of fall and winter fashions, dramatize the figure. Longish jackets emphasize the smallness of the waistline, accent the bosom and give shoulders a broad look which makes hips seem slender. Shorter, boxy jackets are essentially youthful. These, too, make hips seem tiny.

The strictly tailored, classic suit in heavy tweeds for country and lighter ones for town, is still very much in the limelight. The softer tailleur, in zephyr light tweed, in smooth wools and in rough ones, and dressier models, usually fur trimmed, are featured.

There are three-piece suits, of course, a few cape suits, ensembles which include dresses and separate jackets, often fur-trimmed or lined with fur. Indeed, with such a variety of styles from which to pick and choose, no customer ought to have the slightest difficulty finding the suit she really will love.

You can have a black, brown or gray suit if you like. But before you decide in favor of such a practical though not especially imaginative idea, look at the array of colors. Consider teal blue that new greenish-blue shade for a two-piece tweed suit to wear under a mustard coat. The coat would be stunning over either black or brown dresses.

Red barn is a color that's creating a sensation. And plum, wine and sage green look new. Any of these can be worn with black accessories.

If you do pick a dark, conservative suit, enliven it with blouses in gay colors. One of scarlet satin would be handsome with black. A mustard yellow or pink and gray striped blouse would be lovely with gray. Mulberry would be charming with sage green. Or how about olive green with plum? (The last suggestion takes us right away from conservatism back to color, we admit. But once you've seen the array of new fall shades, you'll understand why we can't help being enthusiastic.)

For a suit which you hope will turn out to be one of the wonderful backlogs of your wardrobe, the simple, slim-skirted version with single-breasted, nipped-in-at-the-waist jacket cannot be beat. For a dressier type, you have a lavish array of fur-trimmed models from which to make a selection. One stunning number, in dull black wool, has a generous collar with notched lapels of shiny black Persian lamb. And a lovely model in

LOGAN URGES QUICK REPEAL OF NEUTRALITY

WASHINGTON, Sept. 27 (AP)—Senator Logan, Democrat, Ky., advocated outright repeal of the neutrality act today and a policy of making available to England and France "all the materials they need, except munitions," if they become involved in war.

The Kentuckian has been a consistent supporter of the administration in the Senate. He is a member of the military affairs committee.

He said he favored repeal of the neutrality statute because "there can be no neutrality in a war." The law would ban shipment of munitions to belligerents and limits the scope of trading in other commodities.

Some other Senators said the neutrality act undoubtedly would be the subject of controversy in the next Congress.

Senator Borah, of Idaho, ranking Republican on the foreign relations committee, said he felt certain that sentiment in Congress would prevent repeal of the law, but that some changes in it might be approved.

Both Borah and Logan expressed the opinion that the outbreak of war in Europe might make a special session of Congress necessary.

Senator Bilbo, Democrat, Miss., said he thought there should be no restraining influence on American trade, so long as it was maintained on a "cash and carry" basis.

"If they must fight in Europe," Bilbo declared, "I'm in favor of selling them all the commodities we have."

EUROPEAN NATIONS LOOK TO AMERICAS FOR FOOD FOR WAR

LONDON, Sept. 27. (AP)—European nations looked hungrily toward the Americas today in a mad scramble to fill their cupboards for war and prevent the starvation that stalked the last conflict.

With the possible exception of Soviet Russia no major European nation grows enough to feed itself. Without the wheat fields and cattle lands of North and South America, they face starvation.

For the past two years the principal European nations have taken some steps to store up for a rainy day. Now they are setting up organizations to do so in earnest.

Great Britain claims to have enough food stocks, together with normal production of the British Isles, to feed the country for one year without a single ship coming in. It was announced April 26 that large stocks of wheat, whole oil and sugar had been stored.

England imports at least 50 per cent of her beef, mutton and pork and three-fourths of her wheat.

Germany's bumper wheat crop is expected to total well over 28,000,000 tons. Field Marshall Hermann Goering, Nazi economic dictator, recently ordered hurried building of more granaries.

Goering told the Nurnberg Nazi party congress it was certain no blockade could bring Germany to its knees for lack of food.

The meat situation in Germany presents a different picture. Fresh meat is not very plentiful in the Nazi realm.

Four Danube countries—Hungary, Yugoslavia, Rumania and Bulgaria—which with Poland and Lithuania are regarded as exporting nations, had an aggregate wheat harvest of more than 13,000,000 tons, which was said to be a record.

Usually well informed sources said Italy has laid by only a comparatively small stock of food.

Dozen Youths Seek NYA Employment

Applications of a dozen Pampa high school students for employment on a National Youth Administration project in the school were mailed to J. C. Kellums, NYA administrator of the state, Austin, by Mrs. Frances Alexander Monday afternoon.

Actual work of the youths cannot start until authorization is received from the state NYA office, and when this will occur was not known here.

Under the setup, three students each will be employed in library, laboratories, and building maintenance, and one each in the mimeographing room, home economics room, assistant to Miss Zenobia McFarlin, instructor in commercial subjects, and one with miscellaneous duties.

Students will receive \$6 a month for work of not more than 24

Laymen Lead In Revival Service

The Central Baptist choir was composed of men only for the Monday evening revival services with O. H. Gilstrap as director and Woodrow Brister, pianist.

The opening songs were "Stepping in the Light" and "What a Friend we have in Jesus," followed by prayer led by Homer Johnson, president of the brotherhood. Special music given was the song, "I am Praying for You," which was sung by O. H. Gilstrap, H. C. Price, Ben Siebold, Nat Lunsford, and Mr. Thorne.

The Rev. Phillip C. McGahey, pastor of the First Baptist church of Breckenridge, who is conducting the revival services, which will continue throughout the week, preached on the subject, "Something Will Get You," using Philippians 3 for his scripture reading, and for his text, Philippians 3-12. "I was laid hold on by Christ Jesus," in opening, he said that his own Christian experience was personal and realistic, that he knew the Lord as a saviour, that something had gotten him.

The apostle Paul, at first a persecutor and spoiler of the church, faced about when "something laid hold on him" and as we all know instead of being an enemy was next to the greatest preacher of all time, and died a martyr for his Lord and church. Peter and Stephen died for the cause of Christ, because "something got them." Love for the souls of men in Africa "got" Livingstone who gave his life for them.

The evangelist continued by pointing out that various things dominate or "get" the lives of some people, such as social functions and business. When these things come between them and the love of God, it is ruinous for them.

The speaker urged that people should let the church have them, they should not remain inactive, all Christian people should by all means be in the church to help carry on its program.

Christ gets some people in a glorious way. Rev. McGahey cited the story of the great preacher, Russell H. Conwell, who resigned a thriving law practice in Philadelphia years ago to accept the pastorate of a small Baptist church of only 18 members. He later built a great church in Philadelphia.

There will be services each evening

hours a month, not more than five days a week. There is a seven-hour limit on Saturday work and three hours on the other days of the week. Twice as many students applied for the jobs as there were jobs open. The age-limit provided, 16 to 24 years, was a handicap here in considering applicants, as the range of ages at Pampa High school is lower than that set up.

USDA To Inspect A & M As Site For Farm Laboratory

COLLEGE STATION, Sept. 27.—The Texas Agricultural and Mechanical College will put its best foot forward Thursday when it is inspected as the possible locale for a government agricultural research laboratory.

W. V. Van Arsdale, bureau of chemistry and soils, U. S. Department of Agriculture, will make the inspection accompanied by Elmore Torn, state-wide cotton committee official and agricultural director of the East Texas Chamber of Commerce.

Director A. B. Conner of the Texas Agricultural Experiment Station, will head a committee of College students and Bryan officials who will be host to Mr. Van Arsdale during the day. He will visit A. and M. after an itinerary which will include Port Worth, Dallas, Waxahatchie and Waco. After his visit here Mr. Van Arsdale will go to Houston and close his Texas visit at Austin Oct. 1.

Itinerary for the Texas tour of Mr. Van Arsdale was arranged by Burris C. Jackson, Hillsboro, general chairman of the state-wide cotton committee of Texas.

ing at 7:45 o'clock for the remainder of the week. A number have trusted in the Lord and rededicated their lives to the service of the Lord.

Convicted Robber Escapes From Jail

SWEETWATER, Sept. 27 (AP)—Nolan county authorities combed rugged country southeast of here today for John Buford, convicted robber, who escaped from the court house jail yesterday and fled in a commandeered taxicab.

The cab driver, Stuart McGinley, of Sweetwater, was forced to accompany Buford but made his escape last night at Bradshaw, 35 miles southeast of here, when the fugitive

went to buy cigarettes and left the ignition keys in the car.

Buford, under a nine-year sentence on his plea of guilty to armed robbery, pried his way out of the jail which is located on the fourth floor of the court house, made his way to the roof and from there went down the side of the building by window ledges and a fire escape. He passed a window where district court was in session.

STUDENTS SEEK PEACE

EL PASO, Sept. 27 (AP)—World peace plans from students of Canada, Mexico and the United States, were on their way to heads of the three governments today. The students met here last night and adopted a joint resolution which was dispatched to President Roosevelt, President Lazaro Cardenas of Mexico, and Prime Minister Mackenzie King of Canada.

Fascists Challenge American Interests In South America

WASHINGTON, Sept. 27 (AP)—Some students of international affairs here say a German and Italian challenge to the United States interests in South America steadily is drawing closer.

This theme is discussed at length in an editorial survey of the inter-

national situation in the current issue of the Army and Navy Journal which, though not an official publication often reflects the views of service circles.

"Within the scope of German and Italian ambitions is Pan-America," the Journal said.

"The propaganda of the dictators has been loosed upon it. Fascist coups have been attempted in Brazil and Chile, and there is intense cultivation of Mexico, aided by the irritation against the United States

and Great Britain resulting from their protests at the expropriation of the land and oil properties of their nationals.

"Even though we are successful in avoiding embolism in Europe, or Asia, we will face in our hemisphere determined drives to fust dictatorial ideology upon the countries below the Rio Grande, and to encourage their hostility against us."

"It is apparent that the test of the Monroe Doctrine is nearer than it has been for years, and it behooves

the American people to be ready for it."

EGGS HAVE MANY USES

Eggs are used for more than food, as any housewife knows. But a report by research workers recently revealed some unusual uses of eggs such as classifying wire, tanning of leather, as an ingredient for pigment colors used by artists and photographers, printers ink, sizing for paper, textile dyeing and in varnishes.

MRS. TUCKER CAKE CONTEST TO BE HELD AT COOKING SCHOOL

Housewives of this territory will have the opportunity of participating in the celebration of Mrs. Tucker's twenty-fifth anniversary during the cooking school as they enter the Mrs. Tucker's Silver Anniversary cake baking contest which will be an important feature of the school. The dear old lady of shortening fame is offering 25 silver quarters to the housewife who bakes

any kind of cake using Mrs. Tucker's shortening, which is judged the best entry in the contest. Details of which will be explained elsewhere in this paper and from the stage of the school. Mrs. Tucker's Shortening was first placed on the market in 1913 when kitchen work was "rudimentary" and during the last quarter of a century, this ever-improved shortening has

This Is the American Legion in 1938

Waistlines considerably larger than in the war days of 1918 and graying hairs a year grayer, the American Legion took over Los Angeles for its 1938 convention with undiminished capacity for a good time. Here are typical scenes. Top, left, C. J. Hughes, in Indian headdress, and Gordon Holland, both of Chicago, in the locomotive of one of the 80 special trains, and right, Gov. J. B. Poindexter of Hawaii and James R. Mahaffey, national vice commander of Honolulu with smiles on their faces and leis about their necks. Lower, left to right, Senator David I. Walsh, chairman of the Senate naval affairs committee, keynoting the convention opening; a train pulling into Central station; and Guy E. Wolfe of Paris, France, with son, Francis, atop his shoulders.

played a large part in making cooking more certain and enjoyable. Mrs. Tucker was the first shortening manufacturer to put "Made exclusively from choice cottonseed oil" on shortening containers; and her policy of making only a pure, vegetable product has meant much for better digestion and health. When housewives showed a preference for shortening in cartons of economy, Mrs. Tucker pioneered and developed the air-tight inner-seal of cellophane, which assures factory-freshness, and which has made her product known as "The Shortening with the Silver Lining."

First to feature triple creamed shortening, Mrs. Tucker now leads with a multi-creamed product that mixes easily with other ingredients without tiresome creaming. And, after a quarter of a century of laboratory testing and control, Mrs. Tucker's shortening goes forward this silver anniversary year as the shortening that fills homes with more smiles of cooking and eating satisfaction. As a lasting symbol of these smiles, the manufacturer is offering several Mrs. Tucker's silver anniversary spoons to a limited number of cooking school attendees. These beautiful spoons are made and

guaranteed for life by one of the greatest silverplate manufacturers in the country, and they are said to be as fine as the most expensive silver-plate. Mrs. Tucker's kindly face is embossed on the handle of each spoon, but there is not a word of advertising on them. These exquisite anniversary spoons may also be had at cost by addressing Mrs. Tucker at Sherman.

Attend the Pampa News cooking school; see how Mrs. Tucker's shortening makes cooking easier and more economical; how these foods are more digestible, and celebrate Mrs. Tucker's birthday by entering the silver anniversary cake contest.

4-H Club Notes

WIN SCHOLARSHIPS

Educators often believe that there could be no greater reward for successful study than for it to be made easy for them to study some more. And this, it would seem, is the attitude of many a 4-H club member, judging by reports from here and there. Numerous 4-H boys and girls are as a result of their excellence in project work winning scholarships to attend universities and farm schools, and they are eagerly taking advantage of the opportunities. So, hats off to them for being like educators. They have learned their way to more learning.

HEALTH CHAMPION.

How correct! Let, sufficient sleep and proper exercise can improve health is shown in the case of a Nevada girl who has been crowned champion in a state-wide "Keep Growing" contest among rural school children.

Male Nygren, 13 years old, won the blue ribbon in the group for children who were in poor nutri-

Heads Delegation of Chinese Artists

Talented wife of one of the leaders in Gen. Chiang Kai-shek's Chinese government, Mrs. Ernest Tong, pictured here on arrival in San Pedro, Calif., is heading a group of eight noted Chinese actors and musicians on a five-month tour of universities and women's clubs of the United States. Object of the tour is to acquaint the western world with the musical and theatrical art of China.

Club congress and the International Livestock Exposition.

RECORD BOOKS.

4-H club members are now concentrating on completing their record books showing progress made during the year on various projects. Projects champions and outstanding members will be chosen at the finish of the year's activities, to be climaxed by achievement programs.

AID 4-H CLUBS.

Business men in many communities are backing 4-H club projects. Reports from various sections tell of funds provided by civic clubs for the purchase of poultry, hogs, sheep, and cattle for 4-H club projects. Loans are made to 4-H members at a low rate of interest.

ASSIST FARMERS.

4-H club members in some counties are participating with large groups of farmers in soil improvement work designed to increase crop production.

MILK NATURE'S MOST NEARLY PERFECT FOOD

Milk is nature's most nearly perfect food, the only one she has ever made solely for food. It is the only food for which there is no satisfactory substitute.

Milk is a tonic, a revitalizer, a nerve quieter. It builds strong bones, teeth, and muscles, increases the vigor and the ability of the body to resist disease.

The best evidence that milk has stood the test of the ages is the high regard in which it is held by physi-

cians and nutritionists, says the National Dairy Council.

Scientists know what milk can do for the body and are constantly urging adequate consumption of milk for the improved health and well-being of the people.

Dr. McCollum made one of the strongest endorsements ever made for milk when he wrote: "The people who have achieved, who have become strong, vigorous people, who have reduced their infant mortality, who have the best trades in the world, who have an appreciation for art, literature, and music, who are progressive in science and in every activity of the human intellect, are the people who have used liberal amounts of milk and its products."

Milk and cream for the Happy Kitchen Cooking School, sponsored by the Pampa Daily News, will be furnished by the Northeast Dairy, G. C. Heard, proprietor. The school will be held Wednesday, Thursday, and Friday at the LaNora theater.

MRS. FRENCH LISTS PROVED BAKING RULES

Mrs. Arreva D. French, who is conducting the News' cooking school, says that for best results in baking it is a good plan to follow these simple rules:

Use the amount of baking powder recommended on the can. Because of the high strength of K. C. baking powder which she is using in the cooking school, only one level teaspoonful should be used to a cup of well sifted flour for most recipes. This is equivalent to one heaping teaspoonful to a quart of flour.

Careful measurement is very necessary as using more or less than a recipe calls for will not produce best results.

Another secret of good baking is to be sure that the baking powder is thoroughly mixed with the flour and other ingredients. The more thoroughly the baking powder and flour are mixed before you add moisture, the better your results are likely to be. Sift three or four times.

For biscuits, make a smooth dough that can be handled without sticking, and bake in moderate oven. For cakes, have your oven slow to moderate at first, until the cake is fully

risen; then increase heat so as to just brown lightly.

Mrs. French says that K. C. the brand she is using in the cooking school, is manufactured by baking powder specialists who make nothing but baking powder—controlled by expert chemists of national reputation. It is always uniform in quality and can be relied upon to produce for you the kind of bakings you will be proud to serve.

Try the following choice recipe:
K. C. Everyday White Cake.
2-3 cup butter (4 ozs.).
1 cup granulated sugar (8 ozs.).
1/2 cup milk.
2 cups flour (8 ozs.).
2 level teaspoons K. C. baking powder.
Whites of 3 eggs.
1 teaspoon vanilla extract.

Nazis Refused To Parley, Envoy Says

NEW YORK, Sept. 27 (AP)—Col. Vladimir Hurban, Czechoslovakian minister to the United States, commenting today on his arrival from Europe on President Roosevelt's appeal for arbitration in the Czech controversy, said: "We offered Germany arbitration. It was refused."

"The question is not one of liberating the German minorities," Col. Hurban said when he was asked to comment on the Roosevelt appeal. "The question is one of opening the path of German supremacy and domination of Europe."

"Our whole attitude since the beginning of this crisis has been that we tried to settle the question in

a peaceful manner. We made sacrifices as far as the security of our people would stand."

Col. Hurban was accompanied by President Benes' brother, Vojta, who will make a speaking tour of the United States in behalf of his country.

Modern Menus

By MRS. GAYNOR MADDOX

A simple pleasant dinner that costs little and is easy to prepare—that's the dream of the modern wife. Perhaps you'll find this inexpensive meal suitable to your desires. Begin with small glasses of chilled tomato juice. Then—

Beef Patties With Herbs.
(Serves 4 to 6.)

Two pounds ground round steak, 1 teaspoon chopped parsley, 1 teaspoon minced celery leaves, 1 teaspoon lemon juice.

Mix steak, lemon juice and herbs thoroughly. Then shape into 12 small cakes and flatten to 1/2-inch thickness. If meat is too dry, moisten hands with cold water when making cakes.

Use large metal griddle or heavy iron frying pan. Heat well. Pan broil the patties quickly, turning frequently to prevent burning. Do not use any grease.

The patties will be browned on the outside yet juicy tender on the inside when cooked about three minutes. Serve immediately on a hot platter. Dot each patty with butter and season with salt and pepper.

Cream Noodles With Cheese.
(Serves 4 to 6.)

One package "fine" noodles (6 ounces), 1/2 cup whole milk, 1/4 cup grated Italian cheese, 2 teaspoons butter, salt, pepper, paprika.

Put the thread-like noodles into a large kettle of rapidly boiling salted water. Boil uncovered for 20 minutes. Drain, retaining 1 cup of the water. To noodles and the 1 cup water, add top milk, cheese, pepper and cayenne.

Cover and simmer over very low heat for 20 minutes, stirring occasionally to prevent sticking to the bottom. The noodles will be creamy and surprisingly different.

Select a green vegetable that can be steamed or boiled quickly. Broccoli is a good, sturdy choice and is inexpensive to boot. For your salad course, arrange a few leaves of lettuce in a bowl, add sections of grapefruit and about 1/2 teaspoon grated onion. Pour a little French dressing, made of oil, vinegar and lemon juice and spices into the bowl. Mix and serve the salad at table.

Chilled applesauce makes a delicious and wholesome dessert. For piquancy, add a little ground cinnamon and nutmeg, or else a little pulverized peppermint candy.

If your budget permits, serve lightly whipped cream with the applesauce and a dish of cookies. Then comes coffee, and the sense of well-being, gained without much labor or much expense.

NATURAL GIRL ACTS WAY SHE LOOKS AND WINS REAL ADMIRATION

Katherine Aldridge, above, one of John Robert Power's most famous models, is the personification of the Natural Girl and rather con-

vincing proof that Beauty can go along with brains. She is twenty, a former secretary, unmarried, and not interested in Hollywood, at all.

By MARIAN YOUNG
NEA Service Staff Correspondent

NEW YORK.—The Natural Girl doesn't think the world owes her admiration. She's willing to earn it. And she does—not by posing all over the place, looking and being bored except when she's the center of attention—but by being a reasonably well informed, interested and interesting person who can contribute something to any gathering.

A Natural is a wonderful listener. But an intelligent listener—not a blank-faced, unresponsive one. Furthermore, she doesn't think it dull to listen to or talk to another woman. Sincerely liking women is part of her natural charm, and the fact that they like her, too, gets her more invitations to more interesting parties than any glamor girl ever had.

Her manners are simple, sincere, healthily natural. She never excludes from people she doesn't like simply because she hopes to meet people she will like at their houses. She doesn't go out a second time with a man she can't tolerate just for the sake of going somewhere. She knows better than to try to impress any man by telling him about the exciting date she had last week or by intimating that she is a gloriously popular, sought-after creature.

She does not, in the old Glamor Girl manner, keep others waiting so she can make an impressive entrance. She's as punctual about her engagements, business or social, as any considerate, successful male executive.

However, considerate though Miss Natural is, she never excludes "charm." She knows that an unmitigated yes-know can be as boring as a yes-man. And get just about as far. She's a gentle person who seldom loses her temper and never is rude to anyone, but she isn't namby-pamby. She can prove a point without seeming unfeminine. And she doesn't resort to the kind of craftiness which has gained women the reputation of not being as trustworthy as men.

Typical of her kind are some of the newcomers to John Robert Power's famous list of photographers' models. Although strikingly beautiful (and how could they help

but know it?) not one of them believes that she can get by on looks alone. Being easy to work with, able to remain good-natured when tired and having a sense of humor are part and parcel of the 1938 model's bag of tricks.

Furthermore, a great deal of a model's success depends on her ability to retain her individuality. She, like Miss Natural, doesn't let herself become a type. A pleasant difference between Natural Girl and the now outmoded Glamor Girl is that one can claim true membership in the former category without looking, acting and thinking like all other Natural Girls.

Glamor Girls resembled one another all too closely. With her pale, rouge-less cheeks, bleached hair cascading over her shoulders or else dragged down about her face in Page Boy effect, claw-like, scarlet finger-nails, painfully thin figure, affected mannerisms and a vacant stare, even a novice could spot a Glamor Girl a mile away.

The Natural Girl's claim to glory depends on no such artifices. She may be tall, short, plump or slender or wear her hair up or down. But she's amusing without being sarcastic or catty, can win a man's admiration without turning on oceans of sex-appeal, realizes that her mind is something to be used, is gay, friendly, healthy, happy. In other words, she's fun to have around. She's a Natural!

Soviets Pleased With FDR Appeal

MOSCOW, Sept. 27 (AP)—President Roosevelt's peace appeal to Germany and Czechoslovakia was welcomed in Soviet circles today as further encouragement to Czechoslovaks to stand up for their rights.

At the same time, the Communist part newspaper Pravda declared that Adolf Hitler's memorandum to Czechoslovakia amounted to a demand for extermination of the Czechoslovak republic.

"Chamberlain (British Prime Minister) has been taught a lesson—that concessions only increase the appetite of aggressors," Pravda said. President Roosevelt's appeal awakened no enthusiasm in Czechoslovak circles here.

Use KC in your favorite recipes. Follow instructions given you by the demonstrator. It will produce the finest of baked goods at low cost. You will realize why KC Baking Powder is the choice of millions.

Guaranteed pure — economical — efficient

Use only one LEVEL teaspoonful of KC Baking Powder to a cup of sifted flour for most recipes.

MILLIONS OF POUNDS HAVE BEEN USED BY OUR GOVERNMENT

AAA PROGRAM FOR 1939 TO BE EXPLAINED

COLLEGE STATION, Sept. 27.—Challenged by far-flung controversial statements concerning the present American farm program, agricultural leaders from nine southern states will assemble at Fort Worth in a regional three-day conference beginning Thursday to thrash out problems of the AAA farm program for 1939.

George S. Slaughter of Wharton, chairman of the Texas Agricultural Conservation committee, and himself an extensive farmer, announced plans will be made to place the programs in the hands of farmers ahead of previous years.

Wallace's Speech Feature
Feature of the meeting will be a major farm speech by Secretary of Agriculture Henry Wallace at 11:30 a. m. Friday in the Will Rogers Memorial auditorium. The address will be broadcast on the Farm and Home Hour program. Invited to Texas by farm organizations, Wallace will discuss the cotton situation of the entire South. More than 5,000 farmers from the South and the Southwest are expected to attend. The state committee and administrative officers of the AAA in Texas, county committeemen throughout the state will be present.

"All Texas and the Southwest are intensely interested in the cotton situation and the AAA program devised to meet this and similar problems by Congress," Mr. Slaughter said. "There have been so many controversial statements made about this program that I urge farmers and their wives and other interested persons to go to Fort Worth to hear the subject discussed by Secretary Wallace."

States to be represented at the regional conference are Texas, Oklahoma, Arkansas, Alabama, Louisiana, Mississippi, South Carolina, Georgia and Florida.

Pampan on Committee
State committeemen are Victor L. Cade, Slaton; Donald L. Cothran, Caviness; Alonzo E. Gates, Laredo; Bonnie B. Ingle, Grandview; Howard T. Kingsbury, Santa Anna; Romeo M. Korth, Electra; Frank B. Seale, Benchley; Charlie L. Thomas, Pampa; Jesse H. Watson, New Castle; John Weatherly, Appleby; H. H. Williamson, College Station; L. W. Anderson, Pecos; and Mr. Slaughter.

E. N. Holmgren, administrative officer in charge of the AAA in Texas, will attend the meeting with B. F. Vance, assistant administrative officer, and others of the ad-

STUBBLE WILL PROTECT SOIL, SCS ADVISES

Land needs an overcoat in the winter too.

High winds are normal in the Southern Great Plains during winter and spring, and, unless the land has a protective cover of vegetation, some of the valuable topsoil is likely to be carried away in the form of dust storms. Soil Conservation Service technicians point out.

Many farmers of the wind erosion region this year have grown grain sorghums because of their soil protective quality and feed value. Farmers within recent years have learned that by leaving a stubble from eight to 12 inches tall on the field and then protecting it against overgrazing and trampling by livestock, they can provide an overcoat of erosion-resisting vegetation for the land during the period of high winds.

Where sorghums are grown in strips with crops which do not resist erosion, such as cotton, corn and beans, the strips of stubble serve to check the movement of soil from the clean-tilled strips.

On fields of light or sandy soils, farmers found during the last "blow season" that emergency listing or chiseling between rows of stubble increased the protection against soil losses by wind erosion. The cloddy surface left by such tillage methods served to break the force of the wind and checked the movement of soil, many reported.

Generally over the wind erosion region administrative staff with headquarters at A. & M. college.

Sooners Invited
Oklahoma farmers, through Texas farm organizations, have been extended a special invitation to hear Secretary Wallace speak.

While designed especially to answer the main questions facing cotton farmers today, the talk also is expected to correlate problems of the wheat farmer of Oklahoma and the Panhandle and other agricultural problems of the South bound up in the destiny of cotton.

Washington office of the AAA announced also a speech by Secretary Wallace be made Sept. 29 at Hutchinson, Kan., to deal primarily with the present situation regarding wheat farmers, in the light of existing conditions here and abroad.

The address is to be before members of the AAA state committees, farmers and farm leaders and others from wheat states, and is expected to draw considerable representation from the Panhandle and Oklahoma.

At Hutchinson, Secretary Wallace, in addition to other matters, is to discuss plans for administering the government wheat program for the coming twelve months. Possibly the speech will be broadcast.

sign. It has been observed that where a good stubble is left on the fields and protected from grazing, there is practically no loss of soil from blowing. On the other hand, where there is little or no stubble, or where this protective cover is grazed and the surface pulverized by the trampling of livestock, there is considerable soil loss by blowing.

SOLDIERS RECALLED.

RUSSELS, Belgium, Sept. 27 (AP)—The Belgian cabinet, after a hurried session, today recalled soldiers on leave. A communique said the

Card Party Will Be Given By Boy Scouts At Hopkins

HOPKINS, Sept. 27.—A card party will be given tomorrow night by the

government, decided to "complete military measures taken previously by decreeing the recall of men on indefinite leave belonging to the regiment of Ardennes chasseurs, the corps of mechanized cavalry and certain classes of fortress troops."

Boy Scouts of troop 16 at 7:30 o'clock in the Phillips community hall.

Contract and auction bridge, pitch, and Chinese checkers will be featured games. Prizes, which have been made by the Scouts, will be given to the winners.

The proceeds will be used to repair the Scout hall and to buy new equipment.
