THREE U. S. PLANES AWAIT LONG FLIGHT SIXTY THOUSAND MORE ARE HOMELESS IN FLOOD

LAY DIKE OF RIVER SPLITS UNDER STRAIN

EFFORT TO BE MADE TO PATCH HOLE IN EARTHEN LEVEE

BATON ROUGE, La., May 13.—The tremendous pressure of the latest Mississippi river flood in the west bank of the Mississippi which finally broke down the Big and levee today, at Moreauville the Bayou Des Glaisses. The levee, made of clay, had held the steadily rising flood of waters rushing down from Arkansas and through the crevasse on the west bank of the Mississippi which already have blanketed 13 Louisiana parishes. For the past more than 1,000 workers day and night to strengthen the embankment and efforts will be made if possible to close the break.

New Break Reported
The levee at Moreauville, on Bayou Des Glaisses, also broke this morning, according to word received here by Flood Relief Director M. Parker. The Moreauville break is about 10 miles northwest of New Orleans and on the opposite side of the river.

Parker said that the twenty thousand persons and sixty thousand acres in the immediate vicinity of the Bayou, mostly in Iberville parish, will be affected by the Big Bend break.

60,000 Must Flee
The muddy waters from the break in the Atchafalaya river into Grand Lake and through Bayou to the Gulf, sixty thousand more people will be driven from their homes and nearly 1,000,000 acres, much of a marshland expected to be inundated.

The new flood also is expected to break down before the Atchafalaya river and cause the spreading of that stream's swollen waters over a huge thickly populated area, jeopardizing more than 900 people.

The region is the "Sugar Bowl" of Louisiana, the southern parishes practically all the sugar cane of the country is grown.

100 Foot Crevasse Reported
ALEXANDRIA, La., May 13.—The Bayou Des Glaisses levee broke in the Big Bend section at Moreauville today.

The crevasse, occurring in the town at six a. m., had reached a depth of 100 feet at 9 a. m.

The levee at that point was 9 feet high. The water will flood the same territory inundated by the Hamburg crevasse in 1922.

Former Ranger Dies In Home In Florida

NEW YORK, May 13.—J. M. Lambert, 54, real estate operator of Miami, Florida, and former Texas ranger, died suddenly today while breakfasting in a sandwich shop. He came here about four weeks ago with two business associates, E. E. Short and G. F. Elliott. He was president of the Carroll Investment company and vice president of the New Jersey Holding corporation, both Florida concerns. His widow is in Miami.

Newspapermen Open Brownwood Meeting

BROWNWOOD, Texas, May 13.—The first meeting of the Mid-Texas Press association began here at noon today with a number of editors from this section in attendance. Inclement weather kept many away, it was said. The body was formed last September.

Channing Girl To Be Tech Sponsor

Miss Anna Belle Collins, popular sophomore student from Channing, was today selected by the committee in charge to represent the Tech as sponsor in the West Texas Chamber of Commerce convention at Wichita Falls Monday and Tuesday.

Miss Collins has been a prominent worker in student affairs since the opening of the school and it was through her efforts that the girls pep squad has been active this year. She is secretary of the students association, member of the students council, of the Sock and Buskin club, Home Economics club, College Inn club, Y. W. C. A., W. A. A. and Amarillo club. She has also been a leading contributor to the capacity of assistant editor for the past two years.

Her escort had not been selected early this afternoon, the committee reported. Miss Collins and her escort will take part in the parade with the Lubbock representatives. Miss Ruth Dunn and Herbert Street.

SCHOOL BILL ACTION URGED

Revised Law Calls For Four And A Half Millions For Texas Education

AUSTIN, May 13.—After lengthy hocking between the appropriations committee, the "economy bloc" and the 74 "neutrals" the house today decided to take first action on a revised bill carrying \$4,500,000 to supplement the available school fund for the coming biennium.

The measure, cut from an original \$5,000,000, is one of the seven house money bills called for a grand total of more \$53,000,000 which the retrenchment faction declares must be slashed to come under the expenditure revenue.

Action Is Urged
A cry for action was couched by the "neutrals" today through Representative George Purl. Twenty-eight members, he said, are waiting to get to work while the appropriations committee "is diving out one door into a caucus and the economy bloc is scouting out another for a confab."

Chairman Tor reported to the house that the appropriation committee now computes that \$4,500,000 will be sufficient to make the available school fund supply a \$15 per capita appropriation. That rate was endorsed at a meeting late yesterday of the economy faction, which also favored \$2,600,000 instead of \$3,000,000 for rural aid.

The amended supplemental school fund bill was to be taken up this afternoon, the rural aid bill next. Results of action on them will guide the appropriations committee on cuts to be made on the other pending bills.

The senate adjourned yesterday until Monday.

Sanders School To Hold May Festival

Between sundown and dark this evening on the campus of the Sanders ward school, more than one hundred children are to participate in a May festival, features of which will be the crowning of a king and queen, who have been selected by children in the school. Eva Richardson, daughter of Mr. and Mrs. David Richardson, and R. C. Matheny, son of Mr. and Mrs. W. C. Matheny, will be crowned. The festival, which will follow old English traditions, is to start about 7 o'clock.

Farmer Barricades Against Officials

CLEVELAND, N. D., May 13.—Barricaded in a granary on his farm with his two sons, 14 and 15 years old, Sayles Hastings, 50 year old farmer wanted for the fatal shooting of William Flint, a neighbor, defied police today to take him into custody.
A large quantity of ammunition and fire arms were in Hastings' possession who was charged in a warrant with slaying Flint and with wounding the latter's son yesterday. Arrangements were being made to bring national guard troops from Jamestown to the Hastings farm.

GRAY AND MRS. SNYDER GIVEN DEATH DECREE

LITTLE EMOTION SHOWN BY EITHER; APPEALS MAY BE MADE

(By The Associated Press)
NEW YORK, May 13.—Mrs. Ruth Snyder and Henry Judd Gray today were sentenced to die in the electric chair at Sing Sing for the murder of Mrs. Snyder's husband, Albert Snyder, magazine art editor. Neither defendant showed any emotion as Justice Townsend Scudder pronounced sentence. Mrs. Snyder was dressed in black, the same costume she wore during the trial. A matron stood on each side of her, but beyond a clasping and unclasping of her hands, she did not show the strain.

Gray Is Tense
Gray's figure was tense. He stood about five feet from his blond partner, but neither looked at the other.

Prior to imposition of sentence, counsel for both Gray and Mrs. Snyder made motions asking that the verdict be set aside. Justice Scudder denied the motions. A crowd not nearly as large as the smallest to attend trial was in the court room when sentence was imposed.

There were no demonstrations. Neither Gray nor Mrs. Snyder replied when the clerk of court asked if they had anything to say as to why sentence should not be imposed. Attorneys for both interplated that the defendants had nothing to say at this time.

Appeals Contemplated
An appeal from the sentence are contemplated. There will be made direct to the court of appeals instead of the appellate court, as is provided by law in cases of death penalties.

Court attaches said Mrs. Snyder and Gray would be taken to Sing Sing next Monday.
Counsel for Gray denied reports that Gray had asked the privilege of saying good bye to his erstwhile paramour. Jail attendants quoted him as saying he "wanted only to see her in heaven."

Two Officers Shot Down By Fugitive

REDFIELD, S. D., May 13.—Carl Bintliff, federal prohibition agent of Mitchell, S. D., and Charles Halbin, a deputy state sheriff, were shot to death early today by Walter Christman, a fugitive from justice, when they sought to arrest him at his farm home near here.

Bintliff and Halbin, with three other officers, had surrounded the Christman home, expecting resistance from Christman, who is wanted on a charge of having slain W. R. Labrin, a federal officer of Huron, S. D. Christman stepped from the house and opened fire, killing Bintliff and Halbin, and escaped in the darkness after emptying his revolver at the other three.

Posses are searching for Christman throughout the county, and rewards totalling \$1,000 have been offered for his apprehension.

Cemetery Ass'n To Purchase Own Pump

Since there is an insufficient water supply at the Lubbock cemetery to keep shrubs and flowers there alive, members of the association, meeting at Rix's, decided to inaugurate a campaign to buy an electric motor to pump water. Mrs. R. A. Barclay, president, was in charge of the meeting. A treasurer's report made by Mrs. Poseny showed insufficient funds to install the motor.

Oil Worker May Die As Result Of Fight

ELECTRA, Texas, May 13.—Slight hope was held Friday for the recovery of George Stonking, 45, drilling contractor, who was injured in a street affray here Thursday afternoon. Sam Morris, who a drilling contractor, was charged with assault with intent to murder immediately after the fight and was released under bond of \$1,000.
Chief of Police J. T. Taylor, quoted Morris as saying that the trouble grew out of business disagreements. Stonking is suffering from a fracture at the base of the skull and from bruises and abrasions.

Dorothy Mackaye, With Her Father, Hears Trial Of Husband's Slayer

Dorothy Mackaye, movie actress, has been very much in evidence at the trial of Paul Kelly, film actor, who is being tried for the slaying of her husband, Ray Raymond, musical comedy star, in a riot fight. Miss Mackaye, by prosecution alleges, though married to Raymond was Kelly's sweetheart and she will have to answer charges of conspiracy in connection with the affair. She is shown above with her father, who has been at her side during the trial.

Action Of Plainview Will Not Stop McMahan Gas Line, Officials Report

The Plainview City Council in session Thursday afternoon refused to renegotiate or renew its franchise contract with A. J. McMahan and associates on the South Plains natural gas line, and is standing out on its recent action in granting a franchise to C. L. Bullock and associates of Wichita, Kansas, according to information received here this morning.

Representatives of the McMahan interests were in the session, and offered to post any reasonable guarantee of faith, cash or otherwise, as an evidence of earnest, but the proposals were not considered, advocates here said.

Plans are under way, however, to continue with construction of the lines regardless of Plainview's attitude, and all towns between Amarillo and Slatten, including Lockney and Floydada, will be served, a representative of the West Texas Gas company, McMahan project, said. Several cars of pipe are now enroute to Plainview, it was said, with money held in Plainview for payment of freight upon arrival.

Lubbock Scouts To Spur Ceremonials

Eighteen Boy Scouts of Troop 4, Lubbock, left here Friday morning with Scoutmaster K. N. Clapp, for spur where they will spend the week-end in a series of demonstrations, including a Court of Honor ceremony Saturday night, that will culminate in a series of spur ceremonies. A camp fire program is to be held tonight, showing various phases of scouting, and Saturday a series of demonstrations will be given in the business district when the Lubbock scouts will be joined by two troops of Spur Saturday night a Court of Honor ceremony is to be held, ending a day of intensive financial campaign that is to be conducted tomorrow. Sunday morning the boys will attend church in a body, returning to their homes here in the afternoon.

Cases against P. D. and W. B. Sooter, Lubbock county men, were dismissed in Judge Norbyke's court this morning upon testimony of prosecuting witness which the court ruled, did not substantiate the charges of swindling in connection with issuance of alleged worthless checks.

RUSSIA ANGRY OVER RAID ON TRADE OFFICE

PROTEST LODGED WITH CHAMBERLAIN; SPLIT MAY RESULT

(By Associated Press)
LONDON, May 13.—The Russian charge d'affaires, A. P. Rosenzweig, went to Downing street today and lodged a protest with the foreign secretary, Sir Austen Chamberlain, against the raid yesterday on Arcos House, headquarters of the soviet trade delegation in London.

Relations Are Strained
The Associated Press is authoritatively informed that the foreign office was not connected with the raid in any manner, but it is admitted that Anglo-Russian diplomatic relations may be affected in consequence of the police action. Whether this effect will be serious depends first upon what the Scotland Yard search discloses, and second, how seriously the soviet government views the raid.

Charge Rosenzweig's protest, which was handed personally to Sir Austen Chamberlain, asserts that the Scotland Yard raiders "violated the most elemental guarantees and demands of common decency. The police are alleged to have assaulted a soviet employee who refused to surrender the key to the safe containing the personal papers and cipher codes of M. Chinchuk, head of the soviet trade delegation.

Russia Is Angry
MOSCOW, Russia, May 13.—That the attacks on soviet institutions began in China, promise to be re-enacted in England, was the impression today at the soviet commissary, based on incomplete information on the raid on Arcos House in London.

Personal Search of the Women
The charge d'affaires protested that women as well as men employees were subjected to personal search for the codes and cipher keys. "Personal search of the women was carried out by male police officers," the protest said.

Prof. Ray Mowery To Have Charge Of South Plains Contest Tomorrow
Gathering for participation in the second annual vocational agricultural judging contest of the Texas Technological college, contestants from more than 25 high schools of North Texas and the South Plains will be in Lubbock tomorrow. Headed by Ray C. Mowery, who has charge of the contest, officials have made complete preparations for the contest, which will be a close competition in all divisions. The contest will start tomorrow at 10 o'clock.

Winners in the three divisions: livestock judging, poultry judging and plant proposition, will receive \$500 each from the Lubbock chamber of commerce. High point individual in the most will receive a scholarship given by the college.

Stock Used in the contests will be from the college farm and from pure bred herds of Lubbock county. Poultry is to be selected from the college plant while the laboratories of the college will be used in the plant proposition.

The Lubbock high school team, which was coached by Professor Mowery last year, and carried two of the divisions, will enter this year. Littlefield, winner of the livestock judging last year, is expected to be strong this year. The contest is based on the state meet and serves as good experience for the teams that are to go to College Station, June 6.

Fall-Sinclair Case Is Again Postponed

WASHINGTON, May 13.—Trial of the Fall-Sinclair oil conspiracy case was postponed today in the District of Columbia court from May 24 to October 17.

WICHITA FALLS, May 13.—P. A. Rogers, 45, vice president and general manager of the Texas Electric Service company, died at his home here Thursday after prolonged illness. He was prominent in Masonic affairs in Texas.

Lamesa Territory Drenched By Rain

LAMESA, May 13.—The lower South Plains was drenched with general rains last night, with the government gauge here registering 4.6 of an inch. Reports received here this morning from O'Donnell, Seminole, Gail and distant rural communities indicate a general precipitation of from .75 to 1.25 inches over the territory. Crop prospects are brighter, and with the good underground season, this rain assures a cotton crop.

Dallas Boosters Visit In Lubbock

Accompanied by their 25 piece band, 125 Dallas business men stormed Lubbock today at noon on the 26th annual good-will tour of the Dallas Chamber of Commerce, and after spending about an hour here, left for points north, expecting to spend the night in Plainview after visiting all the points enroute.

Several hundred Lubbock people were at the Santa Fe station despite arrival of the special train during the noon hour, and were entertained several minutes at the station by the band and by distribution of souvenirs by the visitors. The band led the parade through the city, and the visitors disbanded to visit, each among individual business associates. The trip, sponsored by the Dallas Chamber of Commerce, is an annual jaunt designed to create a better feeling and closer co-operation between cities and towns.

STOCK JUDGES WILL COMPETE

Gathering for participation in the second annual vocational agricultural judging contest of the Texas Technological college, contestants from more than 25 high schools of North Texas and the South Plains will be in Lubbock tomorrow. Headed by Ray C. Mowery, who has charge of the contest, officials have made complete preparations for the contest, which will be a close competition in all divisions. TURBULENT WEATHER HALTS FLIGHT OF BELLANCA SHIP

CURTIS FIELD, N. Y., May 13.—The weather on the Atlantic is so unfavorable that the scheduled start of the Bellanca plane on Saturday morning will in likelihood be postponed until Sunday.

This was the viewpoint of Lloyd W. Bertaud, co-pilot with Clarence D. Chamberlain of the Bellanca plane Columbia, this afternoon after studying a preliminary weather chart received at 2 o'clock.

MAY POSTPONE IT

(By Associated Press)
NEW YORK, May 13.—Three American planes slated for non-stop flights to Paris were berthed on Long Island flying fields today and indications were that two of them at least would take off tomorrow morning in a race to be the first to cross.

At Curtis field was the Bellanca monoplane Columbia in which Clarence Chamberlain and Lloyd Bertaud had hoped to hop off early this morning, until unfavorable weather reports caused them to decide postponement until tomorrow.

Lindbergh Is Ready
Beside it was the Ryan single seater monoplane, the "Spirit of St. Louis," in which Captain Charles Lindbergh flew from San Diego, Calif., in two days preparatory to a flight to France which may now develop into a race with the Bellanca.

And at Roosevelt field was Fokker monoplane America sent over from Hushouek Heights, N. J., last night for the flight of Commander Richard E. Byrd, this flight is to be postponed, however, until the fate of the missing French flier, Xanousen and Collis, is determined, and until Byrd has recovered from a broken wrist injured during a test flight.

Couple To Marry On Tuesday Honored With Party

As a courtesy to Miss Irma Dalrymple and Mrs. A. McWhorter, Mr. and Mrs. Kenneth I. Kimbro entertained Thursday evening at their home, 1917 17th street.

The two honor guests are to be married Tuesday morning and Miss Dalrymple is being feted with many pre-nuptial courtesies.

Green and yellow were used by Mrs. Kimbro as prevailing colors. Hand painted cards and tally cards were brides, the center piece for the table was a bride dressed in sweet peas and flower mints served with Bavarian cream and angel food cake were in the colors.

The table cover was in green. The table was laid in affair and the supper was served buffet style.

High score trophy, a green rose bowl, was received by Miss Dalrymple, who was also presented with a Dresden china lamp by the hostess, Mr. McWhorter was given a brass cigarette container and Hyren Dickinson, winner of men's top count, received a novelty desk set.

Guests were Messrs. and Mesdames Lawrence Bacon, O. L. Peterson, Carl Roberts, Frank Jones, Louis Hunter, Floyd Bowen, Mesdames Campbell Anderson, Dorraunce D. Roderick, H. T. Kimbro, A. L. Robertson of Elston, Misses Irma Dalrymple and Ruth Sison, Misses Ross McWhorter, Owen McWhorter and Hyren Dickinson.

Dental Inspection Is Greatest Work Of School Club

Deeming the greatest achievement of the year dental inspection for each child in the school, the Central Ward Parent-Teacher association held the last regular meeting of the term yesterday afternoon with Mrs. E. W. Camp, retiring president, in charge. News of the inspection was presented and the retiring president, Mrs. R. T. Campbell, reported on the late district meeting in Memphis.

W. C. Bowlin, principal, Miss Lorell Wallace, teacher in the school, and Mrs. Camp each made talks thanking the parents for their cooperation during the year. There was a large attendance of fathers and mothers at the meeting. Mrs. Annie Adair's room received the picture for having the most persons in attendance.

The new officers are as follows: Mrs. A. T. Stewart, second vice-president, Mrs. W. E. Lyle, third vice-president, Mrs. C. H. Smith, secretary, Mrs. Howard Pearson, reporter, Miss Mayme Alexander.

Eyes Show Woman's Inner Self—Coffin BEAUTY DEPENDS ON THEM TOO, SAYS EXPERT

BY HASKELL COFFIN
For NEA Service

Eyes often speak more eloquently than lips. Therefore, eyes are vastly important in the scheme of beauty.

Expression is all-important to eyes. For eyes are an index to the soul. They register a woman's inner life. They speak of her sweetness and understanding. They betray her selfish character.

But, of course, certain rules apply to beauty of the eyes. Perfection of eyes depends on spacing, contour and expression—perhaps in the reverse order in which these factors are mentioned.

Spacing the Eyes

Wide-spaced eyes often intrigue and create the impression of restfulness and peace. Alice Joyce, for instance. Narrowly spaced eyes may suggest nervous temperament, restlessness. The eyes that give the same satisfaction that a perfectly proportioned art object instinctively gives, are just an eye's distance apart.

The perfect pair of eyes has well-shaped, full and well-formed sockets. The upper lid's formation is especially important. Too full-shaped eyes suggest voluptuousness. Protruding eyes are distinctly unpleasant, while deep set eyes are the most beautiful.

Color Important

Color usually has much to do with the beauty of a pair of eyes. Sometimes a pearly-violet or some strange amber tint may intrigue. I happen to prefer gray-blue eyes. Some warm to the snappy, black eyes of Spanish origin. Others have their pulse quickened by green or sky-blue tints. The form of the

eyes and the lashes that fringe them are as important as color.

Certain cinema actresses have become famous because of their eyes. Colleen Moore's lacy stars, Viola Dana's innocent look under long lashes! Often a good actress can express her whole emotion by a close-up of the eyes. Sometimes the light in them appeals—Norma Talmadge is remembered for the light in her eyes.

Delicate Creation

To me the texture and construction of the eye is a marvel of delicate creation, one of God's masterpiece, as fine as a flower, and expressing most of the moods of humanity.

A sidelong flash of eyes, laughing, or scornful frowning or pleading are all charming—the very action and flickering changes intrigue. Behind them is a real soul with happiness and sorrow—many trials endured—and many triumphs won.

Reward Posted For Finding Lost Men

WASHINGTON, May 13 (AP)—A reward of \$5,000 for any aviator who discovers either of the missing French fliers or traces of their airplane, has been posted by Raymond Ortel, sponsor of the \$25,000 New York-Paris flight prize.

Announcement of the reward offer was made today by W. P. McCracken, Jr., assistant secretary of commerce, in charge of aviation.

Ortel, an American, is now in Paris. He called the offer to his attorney, George W. Burling, of New York, who notified the commerce department. The fund was posted with the Bank of America, 44 Wall street, New York.

Search Continues For Lost Fliers

NEW YORK, May 13 (AP)—A concentrated search of wild and rock areas of the extreme north-eastern Atlantic coast was under way today for Captains Nungesser and Goll as new reports bolstered the theory that their lost airplane passed over the fog-covered region last Monday morning.

Support of the belief that the French aviators reached the Atlantic coast was seen in the report of two lobster fishermen that an unidentified plane had passed over St. Mary's Bay, N. S., early last Monday. At Harbor Grace, New Foundland, six persons have said

they heard an airplane pass over that town the same month.

Search Given New Impetus

Although Harbor Grace and St. Mary's Bay are more than six hundred miles apart, the organized search by radio, ships and airplanes was given new impetus, since New Foundland and the maritime provinces are in the path laid out by Captain Nungesser before he hopped off from France Saturday on his 3,800 mile flight for New York.

American naval hydrographers have offered the theory that if the fliers are alive they are probably somewhere in Labrador.

Dirigible May Fly To Labrador

WASHINGTON, May 13 (AP)—The possibility of sending the dirigible Los Angeles as far north as the coast of Labrador in the search of the missing French fliers was taken under consideration today by the navy.

The Los Angeles is covering the north Atlantic coast today and there were indications at the White House that the administration would like to have it make a thorough search while it is out. Whether it would be practicable, however, for the huge airship to go as far north as Labrador will have to be studied by navy officials before any orders are issued.

A message to the navy department by Lieutenant Commander Rosendahl, sent from the Los Angeles off Nantucket and received here shortly before noon, said the dirigible had encountered heavy fogs in that vicinity, adding that the visibility was "very low" and the ocean's surface was "totally obscure."

GIANTS HAVE TWO GAMES ON WORLD CHAMPS

YANKS HAVE A SIMILAR LEAD IN AMERICAN LEAGUE RACE

(By Associated Press) The pennant races in both major leagues today settled down to a grim pursuit of New York's two peacemaking candidates.

Displaying no visible signs of yielding to aggressive thrusts from their western rivals, the Giants and Yankees yesterday definitely established their right to lead the chases in both circuits by heading off twin challenges from St. Louis.

The Giants, as a consequence, today held a clean-cut advantage of two games over the world's champions in the National, while a similar margin in the American separated the Yankees and second place Chicago.

McGraw's cohorts yesterday found Grover Alexander decidedly a more stubborn pitcher than Lee.

The defeat endangered the Cardinals' grip on second place, for the Pirates shot up to within a single game of O'Farrell's contingent by outlasting the Braves in a slug fest, 8 to 7.

Lloyd Waner One Of Smallest Men In Major Leagues

By NEA Service PITTSBURGH, Pa., May 13.—The Pittsburgh Pirates now boast of the second smallest player in the majors in young Lloyd Waner, outfielder.

Yes, he's a rookie brother of Paul Waner, and is playing the outfield just as regularly as Brother Paul is.

Little Jackie Tavenor of Detroit is the only big league player who is a bit less in weight than the younger Waner is.

Tavenor weighs 142 pounds, three pounds less than Waner does. A Tavenor is an infielder, Waner can be called the lightest outfielder in the majors.

Despite this handicap, young Waner can sock 'em far. His record in the Pacific Coast League, where he busted the apple for an average of .336, showed several extra base blows.

He doesn't look the part of a fence-buster, but the 30-year-old looks good to Donnie Bush, Buc pilot, who is himself a real midget!

LAUNDRY CLUB BEATEN AGAIN

Wholesalers Chalk Up Win Behind Airtight Hurling Of Raymond Ater

The Wholesalers won their first game of the season in the city loop by defeating the Lubbock Washermen 13 to 9 yesterday afternoon at the Tech Park. Raymond Ater, hurler for the highly touted Wholesalers, allowed no hits and no runs to be made off him in the four frames he tossed. It is the first no hit no run game to be tossed in the Lubbock City league.

Ater, too, received airtight backing from his team mates and no a bobble was chalked against the Whole sale infield.

Two pitchers were used by manager Lonnie Sanders of the Laundry, Harris, slim right hander, allowed three hits and five runs while in the box and "Lefty" Barker, south-paw cleaner, walked four, allowed four hits and three errors were made behind him to allow eight runs scored while he worked on the mound.

Helen Wills Names Her Tennis Rivals

SAN FRANCISCO, May 13.—Three British and three American players are feared by Helen Wills in her drive for national and international tennis supremacy.

The American favorites are Miss Elizabeth Ryan of California, Mrs. Molla Bjurstedt Mallory of New York and Miss Eleanor Goss of New York.

The British stars liable to trouble her are Mrs. Kathleen McKane Godfree, Miss Joan Fry and Miss Eileen Bennett.

But despite the strong opposition these players and others will give her, little Miss Piker-face is confident that she will regain the national title and then reach the point from where she can again challenge Suzanne Lenglen.

ANY ENTRY IS LIKELY TO BE DERBY WINNER

THOUSANDS ARE READY TO WITNESS 53RD TRACK CLASSIC (By The Associated Press) LOUISVILLE, Ky., May 13.—Derby eve! Just one more day and the Kentucky Derby, America's foremost turf attraction, will be run at Churchill Downs for the fifty third time.

The hundreds of visitors will be swelled to thousands by sundown tonight. The names of the fittest of the three year olds nominated for the race will go through the entry box, and the trainers will give their charges final work outs in preparation for the \$50,000 event.

Dope is Plentiful

The Derby "dope" is flowing freely, but nowhere is there any unanimity of opinion as to the winner. It is not a horse race, as was the case last year when the east talked Pompey and the west Bubbling Over. Almost every one of the some fifteen Derby horses has his own special admirers, and you may hear Whiskery or Totted Stockings, Osmund or Fred, Jr., South Flow or the Bradley entry named on every hand.

Chilly winds from the west will soften to spring breezes as "increasing cloudiness" envelops the city, the weather bureau has forecast for today.

The mile oval, around which the horses will race one and a quarter times, was fast and barring rain, should be in the best possible condition at post time, about 4:40 p. m., central standard time, Saturday.

LOUISVILLE, May 13 (AP)—Eighteen colts were entered today for the fifty-third renewal of the Kentucky Derby, at a mile and a quarter for \$50,000 added money and a gold cup, to be run at Churchill Downs tomorrow afternoon.

NEW YORK COTTON
NEW YORK, May 13 (AP)—The cotton market today failed to hold sharp early advance on unfavorable weather and crop news. July led up to 15.51, on the opening and 18 points net higher, but reacted to 15.61 under realizing and some selling on reports of good rains in West Texas. The mid-afternoon market was comparatively quiet, but steady, with active months about 2 to 5 points net higher.

NEW ORLEANS COTTON
NEW ORLEANS, May 13 (AP)—Cotton was somewhat erratic today and prices showed a fair gain in the early trading, declining in the afternoon. Despite favorable cables the opening was irregular, one point down to six up. Prices soon became firm on local news and fears of dry weather in portions of the belt where rain is needed. On this advance July traded up to 15.76, October 16.06, or 14 to 16 points above the previous close. After mid-session reports of rain in West Texas started the market on the down-grade, and before the afternoon were absorbed prices showed a loss of 16 points.

WALL STREET REPORT
NEW YORK, May 13 (AP)—Reactionary tendencies again predominated at the opening of today's stock market but there were several notable changes. "Nickel Plate" common opened 6 1/4 points higher at 21 1/4, and was followed into new high ground by Fleischmann and Houston Oil. General Motors opened fractionally lower, indicating that the extra cash dividend of

22 already had been discounted by the recent rise in the stock.

The general market turned upward soon after the opening with the rails, equipments and public utilities in the forefront of the advance.

"Nickel Plate" common quickly extended its gain to nearly 10 points and a brisk demand developed for Chesapeake and Ohio, Norfolk and Western and Gulf, Mobile and Northern preferred, Baldwin, Pullman and Westinghouse Air Brake led the equipments and Brooklyn Union Gas and Radio Corporation the public utilities. Commercial Solvents B, Union Bag and Paper and Dupont sold off on the execution of large overnight selling orders. Demand sterling and French francs opened unchanged at \$4.85 1/2 and 3.91 5/8 cents, respectively, but Italian lira and Spanish pesetas were heavy.

GAS SITUATION

(Continued from Page 1)

received here from W. D. Coulson, of Barrett and company, New York bankers backing the project, that the action of Plainview toward the company will have no ill effect whatever on the financing, and that plans are going forward for construction of the line as originally planned, except that the high pressure lines will be routed around Plainview.

Representatives of the Bullock interests who were here Thursday told the City Commission that they held franchises from Plainview and all points between there and Amarillo, but this was denied by McMahon representatives who said that Canyon had rescinded its action in the franchise grant to Mr. Bullock.

The question as to the legality of the action by the Plainview council has entered into the negotiations, some claiming that the city cannot forfeit the franchise regardless of a forfeiture clause which, it was said, is included in the extension contract and not the original. A decision of the Texas Supreme Court was cited in this connection, which says in effect that no city of a group of several can forfeit an agreement that will in any way whatever damage any of the other cities under the contract.

Construction To Begin
While local representatives of the McMahon interests say they, with others, would like to see the Plainview situation clarified, they assert that it will have no effect whatever on the financing or construction work on the project, and that construction work will be under way in earnest by June 1, the date set under the contract with Lubbock and other cities for beginning of work.

The City Commission here Thursday, by unanimous action, tabled for the second time within a week the application of Mr. Bullock for a franchise, presented by W. H. Newberry, of Amarillo, by which action they virtually refused to grant another franchise pending expiration of the McMahon contract on June 1. The commission took

the attitude that to grant another franchise now might complicate matters, and said they desired to give the West Texas Gas company every advantage under this contract to comply with their promises. It was said, however, that after June 1, if the company has not shown sufficient evidence of continuation with the project, city officials will be ready to take up other proposals.

TERRELL SHOT BISHOP, CLAIM

Ex-Convict Testifying For Mrs. Bishop, Says Bandit Told Him Of Slaying

(By The Associated Press) OKLAHOMA CITY, May 13.—Bert Meredith, former convict in the state penitentiary, today testified that Ray Terrell, fugitive bank robber, told him that he killed Luther Bishop, state detective, who was shot to death in his home here last December.

Meredith was testifying as a defense witness at the trial of Mrs. Edith Bishop, charged with murdering her husband.

King's Hearing Statement
Meredith made the statement after state attorneys had objected to his testimony. He said he saw Terrell at Seminole, Okla., April 10, and that the statement was made in the presence of Matthew King, youthful robber, who is also a fugitive from justice.

Terrell was sitting in an automobile, dressed as a woman when Meredith talked to him, the former convict said.

"Terrell had on two guns," Meredith said. "One was a pearl-handled gun, also a Browning machine gun, and several shot guns."

Construction To Begin
While local representatives of the McMahon interests say they, with others, would like to see the Plainview situation clarified, they assert that it will have no effect whatever on the financing or construction work on the project, and that construction work will be under way in earnest by June 1, the date set under the contract with Lubbock and other cities for beginning of work.

The City Commission here Thursday, by unanimous action, tabled for the second time within a week the application of Mr. Bullock for a franchise, presented by W. H. Newberry, of Amarillo, by which action they virtually refused to grant another franchise pending expiration of the McMahon contract on June 1. The commission took

the attitude that to grant another franchise now might complicate matters, and said they desired to give the West Texas Gas company every advantage under this contract to comply with their promises. It was said, however, that after June 1, if the company has not shown sufficient evidence of continuation with the project, city officials will be ready to take up other proposals.

SOLONS TALK JUDGES PAY

Magistrates May Not Enjoy Boost In Pay Voted By Last Legislature

(By Associated Press) AUSTIN, May 13.—Further expression of dissatisfaction with the judges' salary raise bill passed by the forty-third legislature's regular session cropped out yesterday in a caucus of house conservatives formulating a policy of action on the total recommended appropriations of some \$52,000,000 which exceed all revenue in sight by about \$4,000,000.

Representative Boyd Farrar of Waxahatchie, wanted to know if the salaries could be left on their original scale by cutting recommended appropriations.

He was informed by Representative Claude Teer, chairman of the house appropriations committee, that the matter is up to the attorney general's department to decide.

Teer expressed belief that a general law such as the salary raise bill cannot be legally nullified through failure to appropriate the increase.

Teer said he had no expression from Governor Moody whether question of repealing the bill will be submitted to the special session as sought in a petition signed by about 25 house members.

Several representatives said people in their districts are dissatisfied with the increase.

Raises in the judges and other county officials salaries and increased mileage and per diem fees for out-of-county witnesses augmented the total of judiciary bills

PECOS FIELD IS EXTENDED

Addition To Winkler Field Also Looms; Is Near To New Mexico Line

(By Associated Press)

SAN ANGELO, May 13.—Pecos county's shallow test highly productive oil field has been extended three thousand feet east and a new field in Winkler county fifteen miles north of present production and only 1 1/2 miles from the New Mexico line appeared in the making.

Mid-Kansas and Transcontinental's number 1 C Yates in Pecos made over 100 barrels the first twenty-four hours after topping the pay at 1,616 feet and drilling to 1,653, and shut down to be connected with storage. It is in the southwest corner of section 60.

Llano Oil company number 1 Scarborough in the center of section 1, block C 21, public school land, in Winkler county, was standing in oil, variously reported from 75 to 350 feet, after penetrating eleven feet of sand to 2,993 feet. Tools were blown up in the hole by gas and cleaning out was under way forty feet off bottom.

Independent Oil and Gas company's number one Hendricks, western offset to Southern Crude Oil purchasing company's No. 1 A 1 Hendricks, Winkler county's discovery producer was flowing twenty barrels hourly by being drilled to 1,862 feet, fourteen feet in the pay line.

Gossett Discusses The Cotton Situation In Speech Before Convention

(By The Associated Press)

ATLANTIC CITY, N. J., May 13.—James P. Gossett, of Williamston, S. C. president, in his address at the opening of the 31st annual convention of the American Cotton Manufacturers' association today said that he regarded the formation of the cotton textile institute as the "most conspicuous and brilliant transaction in the whole history of the industry."

"The organization of this great institute has done more," he said, "to bring together and to harmonize the north and the south than has any other single act, political or otherwise, since the Civil War, save only the calling out, commissioning and pulling into active service by President McKinley during the Spanish-American War, of those matchless soldiers and ex-Confederate generals, McKinley called forth

morning for Navasota where Mrs. Lewis and daughter will visit with relatives for some time. Rev. Lewis will go on to Eldorado, Arkansas where he will attend the general assembly of the Presbyterian church representing the El Paso district.

...trying to tell you, honey, but I'll have to be calmer or the doctor will beat me up for making a scene." Bob told Faith tenderly. "Lie quietly now, and I'll make as short as I can. The witness named Sanders, a chauffeur for McClintocks, whose garage and vans quarters are backed up to the alley behind Uncle Ralph's garage. Sanders was in his room over garage from half past seven till ten minutes to nine, when he got out the car to take the family to the church for Uncle Ralph's wedding. He looked out of his bedroom window about half past eight, just the time within two or three minutes—and saw a yellow-brown taxicab either parked or rolled in the alley. Since he went to the house in answer to a ring in McClintock, and when he got back to his room to get his overcoat, just before getting the car out, he happened to look out of the window and saw that the cab was there. It was ten minutes to nine, says."

"Bob," Faith cried, her eyes glistening, "there's no doubt in the world that the murderer came there in that cab, found Chris' coupe waiting in the front driveway, hid on the roof of the porte cochere until Chris and Cherry were gone and then climbed up the drain pipe to Chris' window. Oh, can't they do it?"

"Churchill's doing his best, but he's darn little for him to work except theory. No one saw the murderer, and Hanning can make appear that the taxicab was really stalled in the alley, or was

waiting there for a servant or a policeman calling on a cook, or something like that! But of course I think you are dead right, and the least Churchill can do is to make the jury see that there is room for reasonable doubt."

"Who was the next witness?" Faith asked dully, her excitement fading in the old hopelessness. "He called June Pritchard, an old-maidish sort of girl who was Uncle Ralph's secretary before Lola Gonzalez. She testified to the threatening letter. It was clever of Churchill to figure out a way to get it into the evidence without incriminating me for robbing Uncle Ralph's filing cabinet. June testified that she had opened the original letter. She also swore shown it to Uncle Ralph, who looked started, then annoyed, and then contemptuous—I'm quoting June—and that she had filed it. She admitted that she had automatically discarded the envelope when opening the mail. When Churchill asked her if Uncle Ralph had received any more threatening letters from the same source, she gave us all a big shock by saying he had received two more, which he had destroyed on reading, and which he did not answer, of course. She also swore that Uncle Ralph had been hounded, not long, after the last of the three letters was received by a series of mysterious telephone calls. "I'm going to court tomorrow if I have to go on a stretcher!" Faith declared vehemently.

TOMORROW: Faith doesn't go.

Friday the 13th will be your Lucky Day if you decide to turn the Monument "peddler" on his way—and do business with the "Home folks" who are here always to see that you are given a square deal.

IN MEMORY OF A

Loved One

It may be that war has never taken a loved one from your midst. Yet, in a neighboring cemetery, a green-covered mound of earth is mute evidence that you have known a day of grief—a sacred bit of ground that marks the last resting place of a loving mother, father, brother or sister.

MARK THAT HALLOWED SPOT

for all time—mark it with a beautiful MONUMENT as a symbol of the everlasting love you held for the deceased. 'Tis only fitting and proper.

JACK LOCKWILL IN THE AIR

(Creator of Frank Merriwell)

By Gilbert Patten

Lockwill rose from the ground, shivering a little at the realization that he had had a narrow escape from death. The pilot of the airplane had made a decidedly awkward landing. The plane was rolling away over the grass, the revolutions of its propeller gradually slowing down. "That fellow's a dub!" exclaimed Jack, starting after the plane. "He almost killed me!"

When Jack reached the plane, the pilot had sprung out and was helping his passenger, a man past middle age, to descend. The latter appeared ill.

"What's the matter?" asked Jack as he came up. "Get away from here!" commanded the pilot harshly. "It's none of your business!"

"You don't have to bark at me!" returned Lockwill indignantly. "I saw you were in trouble, and came to find out if I could be of any assistance." "We don't need your help," returned the pilot. But the passenger detached himself from the peppy young man's hands, and tottered toward the boy. "On my word, it's Jack Lockwill himself!" he cried, holding out his hands. (To Be Continued.)

Editorials Deflating Bill

One of the most impressive things about a great airship station is the quickness with which the gas balloons had been deflated. One moment the airship is a great, airy, floating thing, seemingly capable of slipping away from its human captives and going on forever. The next, almost, it seems a mere skeleton of metal framework with shrunken gas bags hanging down impotently.

Since the war, Germans have been engaged in the more or less profitable occupation of deflating the greatest gas bag the world ever saw—Kaiser Wilhelm. There have been many books on the subject, but two recent ones have been deadly.

One was the study of the Kaiser by Emil Ludwig, who took pains to exclude from his material everything from foreign sources or sources, sources or hostile, home sources. He based himself entirely upon the memoirs, letters and diaries of the men who surrounded the Kaiser and who were his intimates and favorites. The other book by Prince Max of Baden, the last imperial chancellor.

Prince Max doesn't have to report the notes of others. He tells what he himself saw, heard and observed. The refugee in Holland is completely deflated. How any thinking German can ever again take him seriously is beyond comprehension.

He did not know men. He did not know women. He did not know the acts of war. He did not even know how to demean himself as a leave man.

Swearing a descendant of Frederick the Great would never abdicate—he abdicated. And turned tail. And ran away. And left to others the serious job of facing a warring army and a starving people.

Talking Movies

"And when... the sun... sank in... a blaze... of glory... behind those... peaceful hills... Paul and Emma... hand... in hand... wanda... wended their way... When you or I or any other quiet-loving movie patron find ourselves beside a nutting, talking picture-render, may we crown a \$20 with any handy blunt instrument, or must we endure him in silence? Ever since the first post road the first subtitle that flashed across the first screen, we have wondered about our legal rights in that question. And now, from a suit that grew out of a brawl in a New York moving picture theater, we seem to have the answer. And it's a pretty safe bet that if any film fans are sitting on the jury the verdict will be in favor of the citizen who mauled his noisy neighbor.

Bad Eyes?

Is little Tommy really a bad boy—or is it just that he has bad eyesight? That question isn't as foolish as it sounds. Listen to Guy A. Genery, general director of the Eye-Sight Conservation Council of America, who asserts that many of the young offenders who are held into juvenile court are there primarily because of defective eyes. He says: "Bad eyesight leads to inattention in school, to unfair competition and to disrespect for authority. Bad eyes lead to truancy, and the truant child is a criminal in embryo."

Encouraging

It was an encouraging message that President Coolidge delivered before the United Press associations in New York the other night. The overwhelming majority of Americans hope that peaceful relations between this country and Mexico can be maintained. President Coolidge indicated that they can and will be. Let us be thankful. It would be a tragedy, if they couldn't.

THE PLAINSMAN

Says: Mrs. Snyder and her little playmate, Henry Judd Gray, had had luck today, when they were formally sentenced to death in the electric chair for a jolly little murder that they recently pulled off, but although they had had hard luck it was good luck for the rest of us. With the Snyder-Gray sentences in mind, The Plainsman advances the theory that from now on Friday the Thirteenth should be known as "Lucky Day," instead of "Unlucky Day." Some sort of observance should be given the day that prepares for ridding the world of two depraved creatures such as the "bloody blonde" and the "corset shick."

You know you've got to hand it to the efficient man in any line—that bird who can accomplish more things easier, in less time and with less effort than his competitor. Take the burglars, for instance. They're getting so—that is the best of 'em are—that they can come into a house, turn up a few policemen, turn out the lights and then haul off a bank safe to the country where it can be blown open without disturbing anyone. That's mighty white of the boys. The Plainsman thinks and speaks well of them. I'd hate to have my slumbers interrupted by a bunch of bungling safe blowers who weren't efficient enough to get the bank safe out of town far enough to blast it open without waking the whole bloomin' county.

When a lawyer, through a legal trick, can free a guilty defendant from a brilliant attorney. When a business man puts over a deal in the same manner he's a crook. When two trains come together they call it a collision—when it's babies they're twins—and hard luck.

France is a whole heap more mad with us now than she was when she wanted to borrow money to fight the Germans. Some wise man once said that if you want to keep a friend neither borrow from him or lend him money. The same thing might hold good with nations.

Mexico seems to be like a high-powered electric motor—21,000 revolutions per minute.

Old Master's

World, I cannot hold thee close enough! Thy winds, thy wide gray skies! Thy mists, that roll and rise! Thy woods, this autumn day, that ache and sag And all but cry with color! That want rag To crush! To lift the lean of that black bluff! World, world, I cannot get thee close enough!

Long have I known a glory in it all But never knew I this, Here such a passion is As stretches me apart. Lead, I do fear, Thy hand! Thou'st made the world too beautiful this year. My soul is all but out of me—let fall No burning leaf; prither, let no bird call. —Edna St. Vincent Millay, "God's World"

WASHINGTON LETTER

NATION'S UNEXCITED ABOUT THIRD TERM—BUT YOU NEVER CAN TELL EDITOR'S NOTE: This is the last of a series of three articles analyzing the third term situation. By RODNEY DUTCHER, NEA Service Writer. WASHINGTON, May 12.—The third term issue, which appears to be the only important stumbling block between President Coolidge and re-election, has two phases. It might conceivably be inflated to such proportions as to cause Mr. Coolidge to refuse renomination. Hardly anyone questions at this time that Mr. Coolidge can have renomination if he wants it. But assuming that Mr. Coolidge were renominated, question would still remain as to how much of an issue might be made of the third term in the 1928 election campaign.

Politicians, including the members of congress, will do most of the wrestling with the first phase. The American people will decide the second phase, with a wealth of aid from the same politicians. One of the best axioms of politics is that no one knows what the future holds. And there is more or less uncertainty among many political minds as to the amount of excitement that can be stirred up over the third term.

Look Easy! But there is nothing to indicate anything other than a quiet and complacent frame of mind on the part of the electorate at this time. There is nothing to indicate that President Coolidge has lost any of his popularity with the mass of the voters except perhaps in agricultural sections and nothing to indicate the anti-third term politicians will be able to drive them into a frenzy over keeping the same president more than eight years. And still that proves nothing about the future.

There will be plenty of customary political hypocrisy as the issue of all political shades will hang with right-wing indications that the bulwarks of our republican government are threatened by one who would disregard the sacred Washingtonian precept. On the other hand the most ardent third term defenders will also include those who would jump on either side of the fence that political expediency suggests. But this does not mean that there isn't a minority of honest men who will take a stand on either side in accordance with conscientious convictions.

If politicians and statesmen were knights errant given to expressing their desires and convictions fearlessly and without regard to consequences, one might expect to see a letter like this: "Dear Mr. President: The time has come when you must advise the country of your intentions. Otherwise we will become hysterical or subservient. Some of us have ambitions of our own. (Signed) Dawes, Longworth, Borah, Butler, Norris, Hoover, Lowden, Hughes."

It would express it. And the list might be greatly lengthened. A notable list, but these men do not control state machines; they do not control that Republican solid south which comes to conventions and does its work there and no more. And it is unthinkable that they could get together behind such a petition, although there can be no doubt that it expresses their general sentiment. A Republican conscientiously opposed to the principal of a third term, elective or otherwise, is in rather a quandary. He hasn't much

BANKERS END YEARLY MEET

Fort Worth Man Elected To Head Association For Coming 12 Months

(By Associated Press) EL PASO, Tex., May 13.-With the election of W. M. Massey, vice president of the Fort Worth National Bank, as president and selection of San Antonio as the 1928 convention city, the 43rd annual convention of the Texas Bankers Association closed here yesterday.

F. E. Hendricks, cashier of the Liberty State Bank at Dallas, was elected treasurer. Selection of a secretary will be made by the executive committee. W. A. Phillip, Jr., Dallas, who has been secretary for the past 11 years, is expected to be reappointed.

A barbecue in Juarez and a bull fight closed the session officially late this afternoon.

Fuqua Makes Talk... "We are overburdened in numbers, but not in quality," W. H. Fuqua, president of the First National Bank at Amarillo, told the convention. "Something must be done to eliminate and take care of the overhead. This can only be done by consolidation. Four or five banks in a city are enough. One or two in a country town are sufficient. I would rather have one or two good banks in a place than four or five sorry ones."

"Banking is a high calling; it is a splendid opportunity offered to the time the referee was ready to sell they were in position to buy. This is not just to the men who are trying to do what is right and fair."

Mr. Fuqua said that he wished those who granted bank charters would go on a fishing trip and get lost for about nine months.

Raisers association executive committee, in quarterly session here was told by J. A. Whitten, Eldorado.

WOODY TIGHTENS UP... AUSTIN-More stringent dipping regulations for tick-infested areas are provided in a proclamation issued Thursday by Governor Moody at the request of the livestock sanitary commission.

"Slow Clubs" in Chicago... CHICAGO-"Slow Clubs" solve the problem of young people who balk at the pace of flaming youth, but a Chicago matron in her early thirties asks "What about young married folk who want to have a good time but don't care for the cocktail drinking set?" She is trying to organize a Slow Club for Newlyweds.

A Cleveland man has invented a device that controls traffic signals by sound. Thus the shriek of a fire engine's siren will change signals and halt all vehicles.

TEXAS LIONS FINISH MEET

Wichita Falls Is Chosen As Convention Site For Club Men In 1928

(By The Associated Press) McALLEN, Texas, May 12.—The 1927 state convention of the Lions club, which has been held in McAllen, came to a close Wednesday evening. The days activities consisted in a business meeting during the morning, a trip through the upper part of the valley and dinner at Reynolds in the evening. Most of the men then boarded the special trains and left for their respective homes. Some of those who came by auto remained over until tomorrow and will tour the Lower valley tomorrow.

Wichita Falls Wins

Laredo went down to defeat before Wichita Falls in their battle for the 1928 convention, the latter city winning the honor.

Ty Cobb, city editor of the Bryan Eagle, won his fight to have the Allen academy boys' band sent to Miami Florida in June to represent Texas at the International convention of Lions clubs. It was also decided that the official emblem of the Texas Lions would be a cap with a Lions emblem and a star, this cap will be worn to the International convention and all other conventions.

The complete reports on the golf tournament held this afternoon have not been completed, but the first returns give John Shive of Waxahachie low medal score with an 81 on the 18 holes and Richard Sims of the same city runner-up with an 85. Out of the ten prizes offered, John Shive won the longest drive from first tee, low medal, greatest number of fives, while Sims won the greatest number of pars for the 18 holes. It was declared by many of the delegates that this was the greatest convention that they had ever attended.

ORDERS 400 FROGS

HONOLULU.—Two thousand pairs of frogs who have been harmonizing under the Hawaiian moon will be given a trip to the Orient if an order from a Japanese frog fancier can be filled. Why the Hawaiian variety of croaker is desired is not stated, but natives claim the edible hind legs are made unusually large and muscular by surfing.

KICK, BUT NO ALCOHOL

He says it has curative properties effective against respiratory diseases. He declined to reveal the formula.

Road Commission In Another Fuss

(By Associated Press) AUSTIN, May 12.—Drawn into the second public controversy since its induction, the state highway commission Wednesday defended T. H. Webb, assistant state highway engineer, from verbal attacks made on him today by J. S. Yeager of Putnam. In a letter to Senator Archie Parr of Benavides, ordered printed in the senate journal.

Yeager charged before his appointment as assistant engineer, Webb allowed "White Clay" to be placed on highways in Callahan county when specifications called for rock screenings and that Webb later "went before the court and said that rock screenings were used."

The commission said an investigation of Webb's reported action, before his appointment as assistant engineer, showed "calico" not "white clay" was used on less than two miles of Callahan county project with the advance approval and consent of its by the state highway department and the federal department, under the supervision of state and federal engineers. The specifications having called for screening or other approved material.

HOW ABOUT 'AGRARIAN'?

HARTFORD, Conn.—Pity the poor farmer—not because he may or may not need federal aid; but because the word "farmer" has been given an offensive and humiliating significance by custard pie comedians. At least, so says Willard Rogers, who has requested the aid of the New England council in substituting the word "agriculturist" for "farmer." The older term, he says, has given tilters of the soil an inferiority complex.

SOLONS FIGHT COLLEGE FEES

Fruitless Attack Is Made Against Policy Of Fees For Summer Schools

(By Associated Press) AUSTIN, May 13.—A fruitless attack on the senate finance committee's policy in summer school appropriation Wednesday "smoke out" a declaration on senate floor that Governor Dan Moody will open the year for repeal of the Pollard bill limiting college fees.

Senator A. E. Wood, chairman of the finance committee, told Senator Joe Moore of Greenville, during debate on attempted boosts of summer school appropriations that the governor will submit the issue of repealing the Pollard measure, passed at the regular session.

Wood is Cornered

Wood was being run into a corner by friends of the normal colleges, including Senators Moore, Neaf, Love and Stuart, who wanted to know how the summer schools could be operated on the halved appropriations in the educational bill finally passed today carrying nearly \$12,000,000 for the coming biennium.

"The teachers can pay more tuition," Senator Wood told them. "But how?" Senator Moore asked, "when the Pollard bill passed at the regular session would make it illegal?"

Fight is Premised

Pollard of Tyler, a few minutes later promised a "whale of a fight" on any attempt to repeal the bill, which limits general matriculation fees in Texas colleges to \$20.

Backed up by other members of the finance committee, including Senators Witt of Waco and Fairchild of Lufkin, Chairman Wood carried motions to table amendment.

SCANDAL RAMPANT IN DUCK FAMILY

CHICAGO.—Oscar was just a duck and not a very forward one at that. He lived in Lincoln Park Zoo with twelve other ducks, six of them flappers, six of them shies. When eating time came around Oscar discovered that he had halitosis or something, for he was left without a wife. Oscar moped, sulked, grew angry. Finally he began flirting with other ducks' ducky little mates, who primly repulsed him and told their husbands about it. The outraged males united and went after Oscar. It was six to one and Oscar couldn't duck them. He was hurried quietly to avoid scandal in zoo society.

General Andrews, prohibition chief: "Secret service methods and under cover men are absolutely necessary if the prohibition law is to be enforced."

Who was killed in the Shen disaster in 1925, was recently tried to John Caswell of Crossing Mass.

(By The Associated Press) AUSTIN, May 13.—Private A. P. Cummings today charged that Dan Moody, alleged illegal le Wagner, former reporter, and assistant Adjutant General Cummings first ending investigation with the state yesterday. An hour's announcement of the case. Cummings' report on the act of the Adjutant General who received a mission and explanatory state made later.

Illegal

The governor of Cummings' affidavit had just been published in a newspaper story written concerning the following trial of the oil field, maintained that Cummings' sending a telegram without the approval of the bureau of the adjutant in Austin after his suspension. Nichols, acting as told by Gov. letter written to from Ranger C. Hamer "very laudable" which prompted to attend to the adjutant in Austin. Hamer had been investigated the affair. "From the reports of the said," it is my Mr. Cummings' (Ivey from date). "If you have discharge which best that you give discharge."
