Along The Waterfront

Sea Gun marina manager Vernon Kleypas reports there has been considerable interest shown in Sea Gun's second annual fishing contest now in progress.

At the present time Mrs. Alex Barnes of Santa Fe, N. M., is holding the lead with her 7-pound drum. The contest continues until April 15.

A few party boats have gone out the past week, but there have been some good catches of drum and rat reds caught in the Sea Gun basin.

Sheriff Warns Against Rifles

A number of near accidents have been reported recently in which negligent persons have been improperly shooting .22 caliber rifles, Sheriff Joe Earl Hunt stated today.

In one case a .22 bullet penetrated a plate glass window near the Aransas County High School. In another, a bullet hit a tree near a house occupied by a family on Market Street.

Hunt said several shooters have been warned lately in the matter of these incidents, "and if the incidents are not stopped, harsher methods must and will be employed to protect our citizens."

The sheriff further stated that "there is virtually no place in Aransas county that is safe to shoot if the rifle is pointed at an angle upward.

"Today's high powered shells are extremely dangerous as far as a mile or so. Target practicing is generally accepted, but only when a proper backdrop is utilized.

"Please be careful," Sheriff Hunt warned.

Aliens Must Report Addresses

Joe F. Staley, district director of the Port Isabel District of the Immigration and Naturalization Service, has again reminded all aliens to report their addresses during January.

Cards with which to make the reports are available at post offices and offices of the Immigration and Naturalization Service throughout the country. The reports must be submitted to one of those offices.

Parents or guardians submit reports for alien children under 14 years of age.

Staley urges all aliens to report before the end of January, as wilful failure to do so may lead to serious penalties.

Members are asked to bring clothing, household items, odd pieces furniture, etc. Call SO 4-6397 if someone is needed to pick up various items.

WHOOPING CRANES ARE PUZZLE TO BIRDERS

Mystery surrounding migration techniques of the rare Whooping Cranes has been intensified will compilation of reports of their late 1966 movement from far north Canada.

Phil Morgan, manager of the Aransas National Wildlife Refuge on the Texas coast, told the Texas Parks and Wildlife Department there could be some significance to the fact that official and unofficially light.

This supported theories that the giant birds with a seven foot wing span travel a secret course at great heights to take advantage of tremendous high altitude winds.

Ordinarily, authorities receive sufficient authenticated reports to trace many of the southbound cranes.

But Manager Morgan said tracking notes totaled "only about a half dozen" from volunteer observers and that only Kirwin Federal Refuge in Kansas officially chronicled one sighting, comprising two adults and one young.

Morgan rated the decline as unusual since the conservation-conscious public in recent years has responded to the popular acclaim that the Whoopers symbolize the fight to sustain all wildlife.

Some ranking authorities believe the huge cranes fly non-stop on the 2500 mile hop to the summer nesting areas in Wood Buffalo National Park, Northwest Territory. This theory got tacit support last April when a refuge staffer witnessed an extraordinary daylight mass takeoff of most of the 44 Whoopers wintering there last year.

But Manager Morgan said the big birds arrived piecemeal last fall, strung out from the first ones Oct. 13 on into late November when the final count showed a total of 43, or one less than the year before.

The music to be performed consists of selections the All-Star Choir will perform in February, and a novelty number or two. The Del Mar Collegt Band will accompany the choir as they sing two selections—"Song of Democracy" and "O Come Let Us Sing."

The concert will be held at Del Mar College Auditorium, Saturday, Jan. 28 at 8 p.m. The admission will be 50 cents for students and \$1.00 for adults. The public is invited to attend.

Cerebral Palsy Drive Brings In \$685.20

The annual Cerebral Palsy Telethon, held locally in the Chamber of Commerce Building, produced \$685.20, according to Roy W. Hunsinger, president of the Rockport Lions Club which sponsored the drive.

The telethon was put on by television station KZTV, Channel 10, Corpus Christi, last Saturday night and Sunday. Movie and television stars and Corpus Christi performers were featured in the annual campaign to raise money to combat cerebral palsy.

Funds in the Rockport area were contributed by people who called the local Chamber of Commerce indicating their willingness to participate.

Hunsinger expressed appreciation to members of the Lions Club who took part here, to ladies of the Auxiliary of the Rockport Volunteer Fire Department who helped "man" the phones, to Boy Scouts and Girl Scouts and other young people who went to many homes to collect funds, and to the Chamber of Commerce for supplying its building as the phone center.

A social hour followed the program in the cafeteria. Refreshments of punch, coffee and cookies were served by hostesses, Mrs. Jack Sparks, Mrs. Donald Meeks and Mrs. Ray Longino. The Valentine motif was carried out and the flower arrangement of white mums was furnished by Gayna.

Next, the Council named to the Board of Equalization Robert Landrum, George Dickey, E. A. Tengg, with Jimmy Little as alternate.

In the concluding action the Council set Feb. 13 for a joint public hearing for the Council and the City Planning and Zoning Commission to hear five rezoning requests.

Lay Committee Planning Easter Sunrise Service

At the request of the Aransas County Ministers Association, a lay committee already is busy making plans for an outstanding Easter sunrise service to be held on Rockport Beach.

At a meeting this week the lay committee agreed to "suggest and develop a format for the forthcoming Easter sunrise service which might yield a more dramatic impact to the service by seeking to involve both the congregation and the leaders in such a way as to make a more meaningful service, and to foster a growth of the spiritual community."

The directive of the Ministers Association, regarding the lay committee, was as follows:

"Resolved that a Lay Committee, made up of two lay representatives from each congregation within the community, be established. This committee shall be given direction as follows:

1) A sunrise service should meet the spiritual needs of the whole community. 2) This service should seek to "involve" both the congregation and the leaders in such a way that all present will be moved to a renewed personal dedication to Christian witness and service."

bank to \$750,000, "making it one of the highest capital to deposit ratio banks in the Coastal Bend."

The capital expansion program was recommended by the bank's Board of Directors and was later approved by the stockholders and the Comptroller of Currency, Washington, D.C.

One result of the capital expansion is to increase the loan limit of the bank.

VIET NAM GI'S ELIGIBLE FOR VFW

Members of the Armed Forces who have served in the Viet Nam War or military personnel now in Viet Nam are now eligible for membership in the Veterans of Foreign Wars.

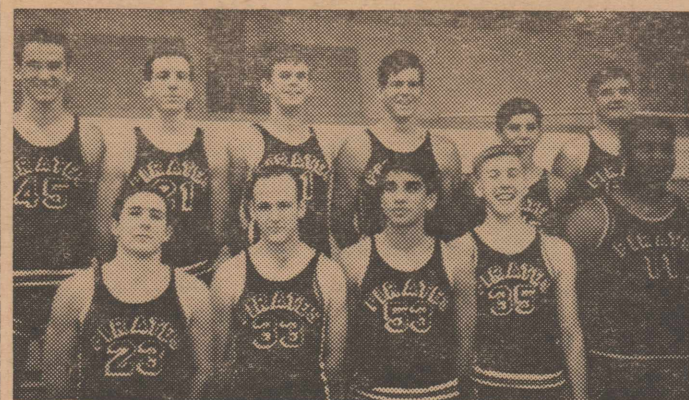

It is now possible for the parent or guardian, wife or brother of these GI's serving our country to make application for the man's membership in the VFW.

The more members there are in the VFW, the stronger the veterans voice is heard in Washington and all over the U. S., Commander Bob Hewes says, adding that he knows of many boys in Viet Nam and hopes that the parents or wives will make application for these men.

"Let them know that we at home are proud of them, give them a membership in one of the greatest Veterans organizations in the history of this world. Persons interested in this program may contact any member of the local VFW post, Hewes explains.

PIRATE SPORTS

By Robert Oliver

Fighting Pirates of Aransas County High School. Front row (l-r): Bart Rozzell, Charlie Roe, David Nava, Johnny Kuehn, and Thomas Lewis. Top row, (l-r): Chris Edwards, Jerry Brundrett, Jody Rouquette, James Crabb, Joe Valdez, and Richard McMakin.

PIRATES WIN 39-34 OVER WILDCATS

The Fighting Pirates of Aransas County High School won 39-34 over the Gregory-Portland Wildcats in a District 28-2A basketball game last Tuesday night in the Wildcats' gym.

The Pirates dominated the game all through the first half, which ended with the Pirates leading 27-14.

The Pirates came back in the third quarter and continued to add to their score. The final quarter found the Pirates' second string varsity boys on the court. They played dedicated ball and continued to hold a lead over the Wildcats.

Of the 39 Pirate points, Thomas Lewis led with 12. He was followed by David Nava with 11, Charlie Roe 6, and Bart Rozzell and Jerry Brundrett with 5 points each.

The Pirates drew 8 game fouls while the Wildcats drew 10. The Pirates hit 5 of 12 free shots and the Wildcats hit 6 of 9.

PIRATES LOSE TO BADGERS 35-33

The Pirates of Aransas County High School fell to the Bishop Badgers by a score of 35-33 in a District 28-2A basketball game last Friday night in the Rockport gym.

In the first quarter Bishop took a quick 6-point lead. The Pirates came back strong and were leading at the half by a score of 17-16.

In the second half the scoring was neck and neck, with the score 33-33 and one minute to play, Bishop began to stall in hopes of making the final shot.

The plan worked and with one second on the clock Bishop dropped in the winning basket. There was no time left to play and the Pirates were forced to accept a two-point defeat.

Of the 33 Pirate points Thomas Lewis led with 13. He was followed by David Nava with 9, Charlie Roe 7, Jerry Brundrett and Chris Edwards both with 2 points each.

The Pirates drew 8 game fouls while Bishop drew 14. The Pirates hit 13 of 18 free shots and Bishop hit 7 of 11.

PIRATES MEET PANTHERS JAN. 27

The Pirates will travel to Aransas Pass on Friday, Jan. 27 to meet the Panthers in a District 28-2A basketball game. The game will start at 8 p.m. following the Freshman and Junior varsity games.

The Pirates have met and defeated the Panthers on two previous occasions this season. They first defeated the Panthers 60-30 in the "Toast of the Coast" tournament, and then defeated them in a district game 49-27.

The Panthers have had a poor season up to now, and they are not considered as a strong threat. The Panthers should have no trouble in getting a victory when they meet the Panthers this Friday night.

PIRATES HOST WARRIORS JAN 31

The Pirates will host the Tuloso-Midway Warriors on Tuesday, Jan. 31 in a District 28-2A basketball game. The game will start at 8 p.m. in the Rockport gym following the Freshman and Junior varsity games.

The Pirates lost to the Warriors 44-43 in a district game earlier in the season. However, the Warriors lost to the Taft Greyhounds which the Pirates defeated in the closing seconds.

The Pirates are capable of defeating the warriors if they show the drive they are capable of displaying. Pirate fans are urged to attend this game and give the Pirates the fine backing they deserve.

MUST OUR ARMY FIGHT WITH FOREIGN-MADE GUNS

Only a few months ago it was that the President was telling business to please curtail investments and purchases abroad in order to keep as many dollars as possible on these shores. At about the same time the President pleaded with tourists to do their traveling in the U. S. for the same reason.

So it is with a bit of disbelief and shock that one reads we are now going to buy German-made guns for the U. S. Army.

Defense Secretary Robert S. McNamara and West German Defense Minister Kai-Uwe have announced an agreement whereby we'll buy a gun known as the Hispano Suiza 820, a 20 mm. affair to be mounted on the M114 armoured command and reconnaissance vehicle used by scout squads in tank platoons.

We are to spend \$74.2 million with the Germans for the guns, ammunition, spare parts and so on.

Rumors have been circulating for some time that we were about to make a deal with the Germans. This led Mayor Charles V. Ryan, Jr., of Springfield, Mass., to protest that the gun was not only inadequate but a better one could be built at the Springfield armory by American labor, using American materials and keeping American dollars at home.

When our defense force must go to a foreign country to supply it with arms then there's a black sheep out there in the herd some place. It causes one to look upon the venture with some trepidation.

The record of American industry in producing war materials is tremendous. One has only to look back to the World War II days when industry swung into full force making supplies not only for our forces but for those of the other allies as well. Our ability to produce more and better materials is accepted as one of the principal reasons why we won World War II. So why is it necessary now to go to Germany for guns? It doesn't add up in more ways than one.

It is like pouring salt into the sores of American business to be told to curtail foreign spending and then have the government to do just the opposite.

A-SITTIN' ON STEPPES

Not so long ago the Soviets initiated a scheme to convert the idle young into industrious producers. The plan was simple in theory and practice. Non-working youths in industrial centers would be sent to labor on farms.

It hasn't worked out very successfully. The former idlers of the city are now the idlers impeding the work of the farmers—and they cry is going up from the Russian farms: "Take them away or take us away from them."

The skills of non-work, it appears, are portable. They can be taken from the town to the country and the experts in their application need never lose them. —Victoria (B.C.) Times.

OYSTER RESTORATION PROGRAM LAUNCHED

The first co-operative oyster project in Texas coastal history was underway this week in the Rockport area. It is a program in which the Texas Game, Fish and Oyster Commission and the oyster dealers are uniting to restore the dwindling reefs which have meant payrolls and food.

TAX PAYMENTS HIGHEST IN THREE YEARS

Tax payments have been made more promptly by Aransas county residents this year than in any of the last three years, according to A. R. Curry, Sheriff and tax assessor-collector.

"For the first time since I have been in office," Curry said, "I'll probably make the full amount of salary allowed me by law—\$3,000."

EMERGENCY LANDING FOR HARLINGEN MAN

L. T. Wilkinson of Harlingen was an involuntary user of the Rockport Naval airport facilities.

His three-passenger monoplane developed engine trouble and Wilkinson made an emergency landing with a dead motor.

EDITOR'S VIEWPOINTS

ON HIS OWN

We have a new hero among the much-maligned young men of today—the fellow who walked out on a stinky-plush wedding financed by the bride's dough-heavy parents; \$25,000 in show-off glamour, including a feature production in which the bride tripped down a stairway from "heaven" through oodles of misty flowers and live doves.

If this wasn't enough to make a he-man cringe, then there was an 83-day honeymoon trip around the world, also financed by paparich. The kid found his protest over-ruled, so he failed to stick around for the event.

Now there's a cool head for you. He probably could have swallowed hard and never worked another day in his life. But he would just rather be his own man.

Nowadays that takes guts.—Concrete (Wash.) Herald.

THE TASTE OF KENT

You don't have to be a smoker to enjoy the taste of Kent. We're not referring to the taste of the tobacco. We refer, rather, to the taste of the advertising agency which handles the P. Lorillard Company television advertising account.

Maybe you haven't noticed, but Kent commercials are just about the most palatable of all. For one thing, they're new every time you hear or see them; none of the monotonous repetition that is featured by so many TV advertisers.

The youngsters who appear in some commercials have been in them so long that some of them must be mothers or fathers by now.—Goshen (Ind.) News.

AT LEAST THIS IS AN IDEA

Most city blocks were designed in the horse and buggy days. Consequently, they are too short to handle the stream of automobiles back up behind traffic lights.

Out in California a newspaper columnist figured what it would do for San Francisco if all the motor vehicles were a foot shorter and half a foot narrower. It would mean, he said, the equivalent of 75 miles of streets in a city of 400,000 motor vehicles, and an extra 37 miles of street width.

At first the idea of reducing the size of cars appears impractical. But something has to be done, and at least it is an idea. In the meantime most all of us are tired of the ant-hill crawl of weekend traffic.

FOOLS AND THEIR QUESTIONS

It's an old saying that fools ask questions that wise men can't answer. But, in this complex world, there are plenty of questions that aren't answered, or at least satisfactory, even when asked by sensible men.

We note the following question posed in the Milwaukee Journal. A writer plaintively asks: "Someone should explain so that ordinary people will understand, why an economy like ours is threatened with inflation when a workingman's pay catches up with his needs."

We'll let the economist see what they can do with that one. We doubt if their explanation is one ordinary people will understand!—Windsor (Ont.) Star.

A SPOT O' GREEN

Agriculture Secretary Orville Freeman went to a village in New York State recently to implement the first federal grant under a new government program which will help communities acquire cropland for conversion to recreation uses. This is a program which appears to have considerable merit.

The program is traveling under the unhyphenated name of "Greenspan." (Green Span, get it?) Our first reaction was that somebody had made a mistake, that the name should have been "Greenspot." Nobody cooks greens in a pan.—Birmingham News.

PEAS TEASE

The foremost expert on peas in Britain, Franke Bales, retired from his canning firm job recently and told his friends he didn't want to see another pea again. Mr. Dales had to use his own bean, however, when his pea-pickin' friends stealthily planted peas in his garden. He decided to string along with the joke and avoid any blackeyes. He just pulled up the plants and un-crowdered his garden.—Dallas Times Herald.

WHO HOLLERS?

Met any brutal police lately? It's the fashion, now, to holler police brutality for every occurrence, from parking tickets to murder. And who does the hollering? The punk picked up on the sidewalk for learing at women, blocking pedestrian traffic or making a general nuisance of himself. Or it is the impaired driver who can't possibly be in the wrong. It may even be the father who tried to pick up a young neighborhood girl and found himself arrested instead. Society must be going soft in the head.—Timmins (Ont.) Press.

SOCIAL SECURITY
TAX INCREASES

The social security tax rate is 4.4% on wages up to \$6,600 this year. Employers and employees are reminded by District Manager H. M. Cleveland of the Social Security Administration in Corpus Christi of the increase which became effective Jan. 1.

The higher rate which was set when the law was revised in 1965, was scheduled to meet the increases in social security benefits.

Self-employed persons, who are now preparing their income tax returns for last year, will pay the 1966 rate of 6.15% of the net earnings from their trade or business, Cleveland said.

"These rates include the hospital insurance tax of .5%," the manager reported. "This part of the payment is the same for all workers."

All persons are encouraged to learn more about the social security benefits for which they are paying. By doing so, families can make better plans for the future, Cleveland believes.

A handy booklet, titled "Your Social Security," gives answers to most questions on this subject. A copy will be given to any one who requests it. The office which serves this area is the Social Security Administration, 1802 South Staples Street, Corpus Christi.

MRS. DUPRE
WINS GOLF

Mrs. Helen Dupre won the \$5 first prize at Ladies Day at the Live Oak Country Club Tuesday with a net score of 79. Mrs. Norma Hagy was second with a net of 83.

The picture of Salmon P. Chase appears on \$10,000 bills, Grover Cleveland on \$5,000, and William McKinley on \$1,000.

FIREMEN'S AUXILIARY
HOLDS SOCIAL

The Rockport Firemen's Auxiliary met Tuesday, Jan. 24 for its monthly social.

The meeting was called to order, minutes read and reports given on the convention and cook book projects.

The meeting was turned over to the program chairman who introduced the guest speaker, George Miles of the Social Security office in Corpus Christi. He gave an interesting talk on Social Security and then a question and answer period followed.

The treasure chest furnished by Mrs. Gene Howland was won by Miss Sarah Belle Smith.

Refreshments were served by Mrs. Bill Gray, Mrs. J. C. Gurley, Mrs. H. J. Gurley, Mrs. Gilbert Hill, Sr., Mrs. Gene Howland, Mrs. Eva Mullinax, Mrs. Velma Malchar, Mrs. Sadie Smith, Mrs. Max Simpson, Mrs. Edward True-love, Mrs. Coy Truelove, Miss Sarah Belle Smith, guest Mrs. J. W. Pruitt, Bill Gray and George Miles.

Anyone wishing to give special recipes for the auxiliary cook book, please send them to Mrs. H. J. Gurley, 701 Cornwall St., Rockport.

Auto Inspection Ends April 15

Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, reminded Texas motorists today that most vehicles have not yet been inspected for their 1967 vehicle inspection sticker.

"The inspection period is two-thirds over and only about one-third of the vehicles have been inspected," said Garrison. "This means that during the 14 weeks remaining before April 15 deadline for inspections, more than twice as many persons each week must have their car inspected to avoid long lines forming at the end of the period."

In urging motorists to have their vehicle inspected at an early date, Garrison pointed out that official inspection stations are easily identified by the standard sign displayed at or near the service entrance of the garage.

He advised that inspection stations are being urged to request permission to inspect any vehicle brought into the garage for repairs or regular service.

"In this way," Garrison pointed out, "time will be saved for the motorist as well as for the inspection station."

"And if you have not had your vehicle inspected, take it to one of the 5,500 authorized inspection stations for a 'check-up' and start the new year off right with a safe vehicle."

Social Security For Students

If you are a student between 18 and 22, and your parent has qualified for Social Security benefits as a retired or disabled worker, or has died, you are probably eligible for monthly benefits, according to H. M. Cleveland, Social Security district manager in Corpus Christi.

To qualify, you must be unmarried and attending an accredited school full time. The school may be either a high school, college, or vocational school. Checks are paid all 12 months of the year if you attend school in at least nine months of a year. You can also work, earning up to \$1500 a year, and still receive all of your benefits.

A child already receiving benefits because he is under 18 may continue to receive benefits as a student after 18, Cleveland said. The parent or the student should file evidence of school attendance shortly before the student is 18.

Think you might qualify? Get in touch with your social security office at 1802 South Staples in Corpus Christi and find out.

JOHN KINSEY

There's a black mongrel dog in Rockport that deserves a medal for loyalty, intelligence and determination to protect his young master.

The first few times I saw the dog was in front of the Duck Inn where he stood just off the edge of the highway. He always faced the north, looking and looking as though waiting for a ride. I noticed also that he was not a car chaser.

The performance seemed a bit odd until one day I noticed that the dog not only glanced north at approaching cars but he also would turn his head to keep a sharp watch at a little boy playing on the driveway adjoining the highway.

As the days rolled along, it was also obvious that the dog would growl at cars in the right hand lane and particularly those moving along at the extreme right edge.

Later, I saw the same dog and the little boy on two occasions near the Chamber of Commerce building. Once the pair were on the west side and the other time they were on the east side. In each case, the dog was busy "protecting" his master who, I noted, has a habit of running across the street every so often.

I'm no expert on dogs but I'm convinced this black dog is doing what he thinks best to protect the little boy from being hit or run over by a car.

Until a few days ago I thought a fiddler was a person who plays the violin. Then I heard Ed Harper talking about "digging up some fiddlers for bait."

Not wanting to show my ignorance, I muttered something like, "Oh, is that so?"

Then when Ed left, I looked in the dictionary and found "fiddler crab: a burrowing crab (genus Uca) that has one claw much enlarged in the male."

Bet Harper didn't know the male had a larger claw than the female.

There has been an epidemic of colds lately among church members. E. J. Moore, Pauline Tucker, Viola Curley and Dennis Stephens are among the victims.

The congregation extends its sympathy to Mr. and Mrs. E. J. Moore in the recent death of Moore's uncle, Sid Braswell of Robstown.

Also, Moore's brother-in-law, A. A. Schmidt of Seguin, recently died.

Those With Incomes
Over \$600 Must
File Tax Returns

All citizens or residents of the United States, including minor children, who had gross incomes of \$600 or more in 1966, must file a Federal income tax return, R. L. Phinney, District Director of Internal Revenue Service in Austin announced today.

If the taxpayer is 65 years old on or before Dec. 31, 1966, he is not required to file unless his gross income for 1966 was at least \$1,200.

Phinney added that even though a taxpayer is not required to file under these rules, he must file to obtain a refund, if any tax was withheld from his pay.

He said there is one exception to the general rule. Self-employed persons such as sole proprietors, partners, and independent contractors, must file an income tax return and pay a self-employment tax, if net earnings from self-employment were \$400 or more.

The Austin District comprises the area south of and including the counties of El Paso, Hudspeth, Culberson, Reeves, Pecos, Terrell, Val Verde, Edwards, Kimble, Mason, McCulloch, San Saba, Lampassas, Hamilton, Bosque, Somervell, Hill, Limestone, Freestone, Leon, Madison, Walker, Trinity, Polk, Tyler, Jasper and Newton.

Taxpayers living in the Austin District who owe tax should file their returns with the District Director of Internal Revenue, 300 East 8th St., Austin, Texas 78740.

Even the ash tray rides
smoother in Chevrolets

When you're down at your dealer's trying out a new Chevrolet, be sure you pull out the ash tray. Notice how nice and easy it glides, never hanging up or even scraping. The reason is, it rides on ball bearings. Four shiny little ball bearings. (Take the tray all the way out and you'll see them.) You say you don't even smoke? Then look at it this way. That ash tray is a symbol of the way we make cars: Paying extra attention to the little things as well as the big ones, as a way of making extra sure your '67 Chevrolet gives you

that sure feeling
