## STAR RIDERS TO BE HERE

### HILL CLIMBING WILL DRAW RIDERS FROM OVER SECTION

Among the motorcycle riders that have entered the hill climb to be held at the Johnston ranch near Lubbock Sunday, June 23, are Rural Murry of Ranger and Don Smith of Fort Worth who won high honors at a similar event at Ranger a few weeks ago when over 3,000 people were on hand to witness the event.

A number of other professional riders are to be here. Wade Anthony president of the Lubbock Motorcycle club has announced and a large number are expected yet to be heard from. Over 400 invitations were mailed out recently.

The hill climb has the official sanction of the American Motorcycle association.

"It is particularly gratifying to know that both these star riders are to be entered in the events at Johnston ranch June 22," Anthony said today.

Motorcycle riders will give a sample of the real thing next Sunday afternoon, June 15, at Johnston ranch, when riders from Plainview, Amarillo, Lubbock and other Plains cities meet there to participate in what is known as a "grassy tour."

Grade 15 59 Per Cent

The Lubbock riders will journey to Plainview Sunday morning where they will meet the Plainview boys and a group from Amarillo. It is likely that some races will be staged on the Hale County pavement.

### PLAINVIEW TO GET VOCATIONAL WORK

PLAINVIEW, June 13.—(Special)—A department of vocational agriculture will be established in the Plainview high school, beginning with the opening of school the first of September, Lee Clark, superintendent, says.

Mr. Clark has received word that an appropriation of \$1,500 has been made available under the Smith-Hughes act for the work in the local school. Under the act the federal government will appropriate up to \$1,500 for one half the cost of the instructor's salary.

Recently the superintendent announced the establishment of a vocational home economics department, under the same act.

### Memphis, Lookouts, Vols Win Thursday

ATLANTA, June 13. (AP)—By making four runs in the first inning and hitting Birmingham pitchers for 15 safe hits while Weiser limited the Barons to six, Memphis won, 6 to 2, yesterday.

Scoring in spurts seemed to be in vogue in Chattanooga as the Lookouts made five runs in the second and seven in the seventh, while New Orleans brought in six markers in the first and four in the fifth. The final score of the first game was 14 to 11 in favor of the Lookouts, but New Orleans rallied in the 7th of the nightcap when Powers hit a homer and nosed out the Lookouts, 4 to 3.

A good trouncing was handed Mobile as the Nashville Volunteers downed the Bears 15 to 3.

Little Rock beat Atlanta 9 to 3, in the first game of the double bill, and the Crackers won the abbreviated contest, 4 to 2.

A McCamey, Tex., oilfield worker, Pete Fedell, recently was attacked by a coyote. A fellow worker killed the animal before Fedell was injured.

### ATWELL URGED FOR POSITION

DALLAS MAN REQUESTS HOOVER TO APPOINT WELL KNOWN JUDGE

(By Associated Press) DALLAS, June 13.—Recommendation that Judge William H. Atwell of the District Federal Court be named to the new judge-ship created in the fifth Court of Civil Appeals has been wired President Hoover by Heber Page, republican state executive committeeman for the Dallas district.

The recommendation was counter to the reported choice of the party "organization" in Texas, which had selected Orville Bullington of Wichita Falls, vice-chairman of the committee, for the post. Page said he knew of the Bullington recommendation—which it was said, has not been formally presented to the president—but that he differed with state leaders because he felt "impelled to stand by Judge Atwell."

George S. Atkinson, chairman of the county executive committee, will urge his committee at a meeting Monday to endorse Atwell's appointment, he said.

### Preparations Made For Two Campaigns

DALLAS, June 13. (AP)—Former State Senator John Davis of Dallas has been named chairman of the speaker's bureau for the campaign of Lieut. Gov. Barry Miller, candidate for the democratic nomination for governor.

Alvin Moody of Houston has arrived here to take charge of the campaign of State Senator Thomas B. Love, also a candidate. Senator Love will open his campaign at Austin.

One of the beauty spots on the South Plains is the old ranch headquarters of the "T-L" ranch about ten miles east of Dalhart and in Bailey county, just over the line from Hale county. While the original headquarters building has been destroyed by fire, the place is still being used to some extent.

# SERVING MANY BUSINESSES

## Experience of large fleet owners reveals the unusual reliability and economy of the new Ford

The Associated Companies of the Bell System use more than eight thousand. Modern business moves at a fast pace and it needs the Ford. Daily, in countless ways and places, it helps to speed the production and delivery of the world's goods and extend the useful service of men and companies.

Constant, steady operation over many thousands of miles emphasizes the advantages of the sound design of the Ford car, its high quality of materials, and accuracy in manufacturing. Beneath its graceful lines and beautiful colors there is a high degree of mechanical excellence.

An example of the value built into the Ford is the use of more-than twenty ball and roller bearings. They are hidden within the car and you may

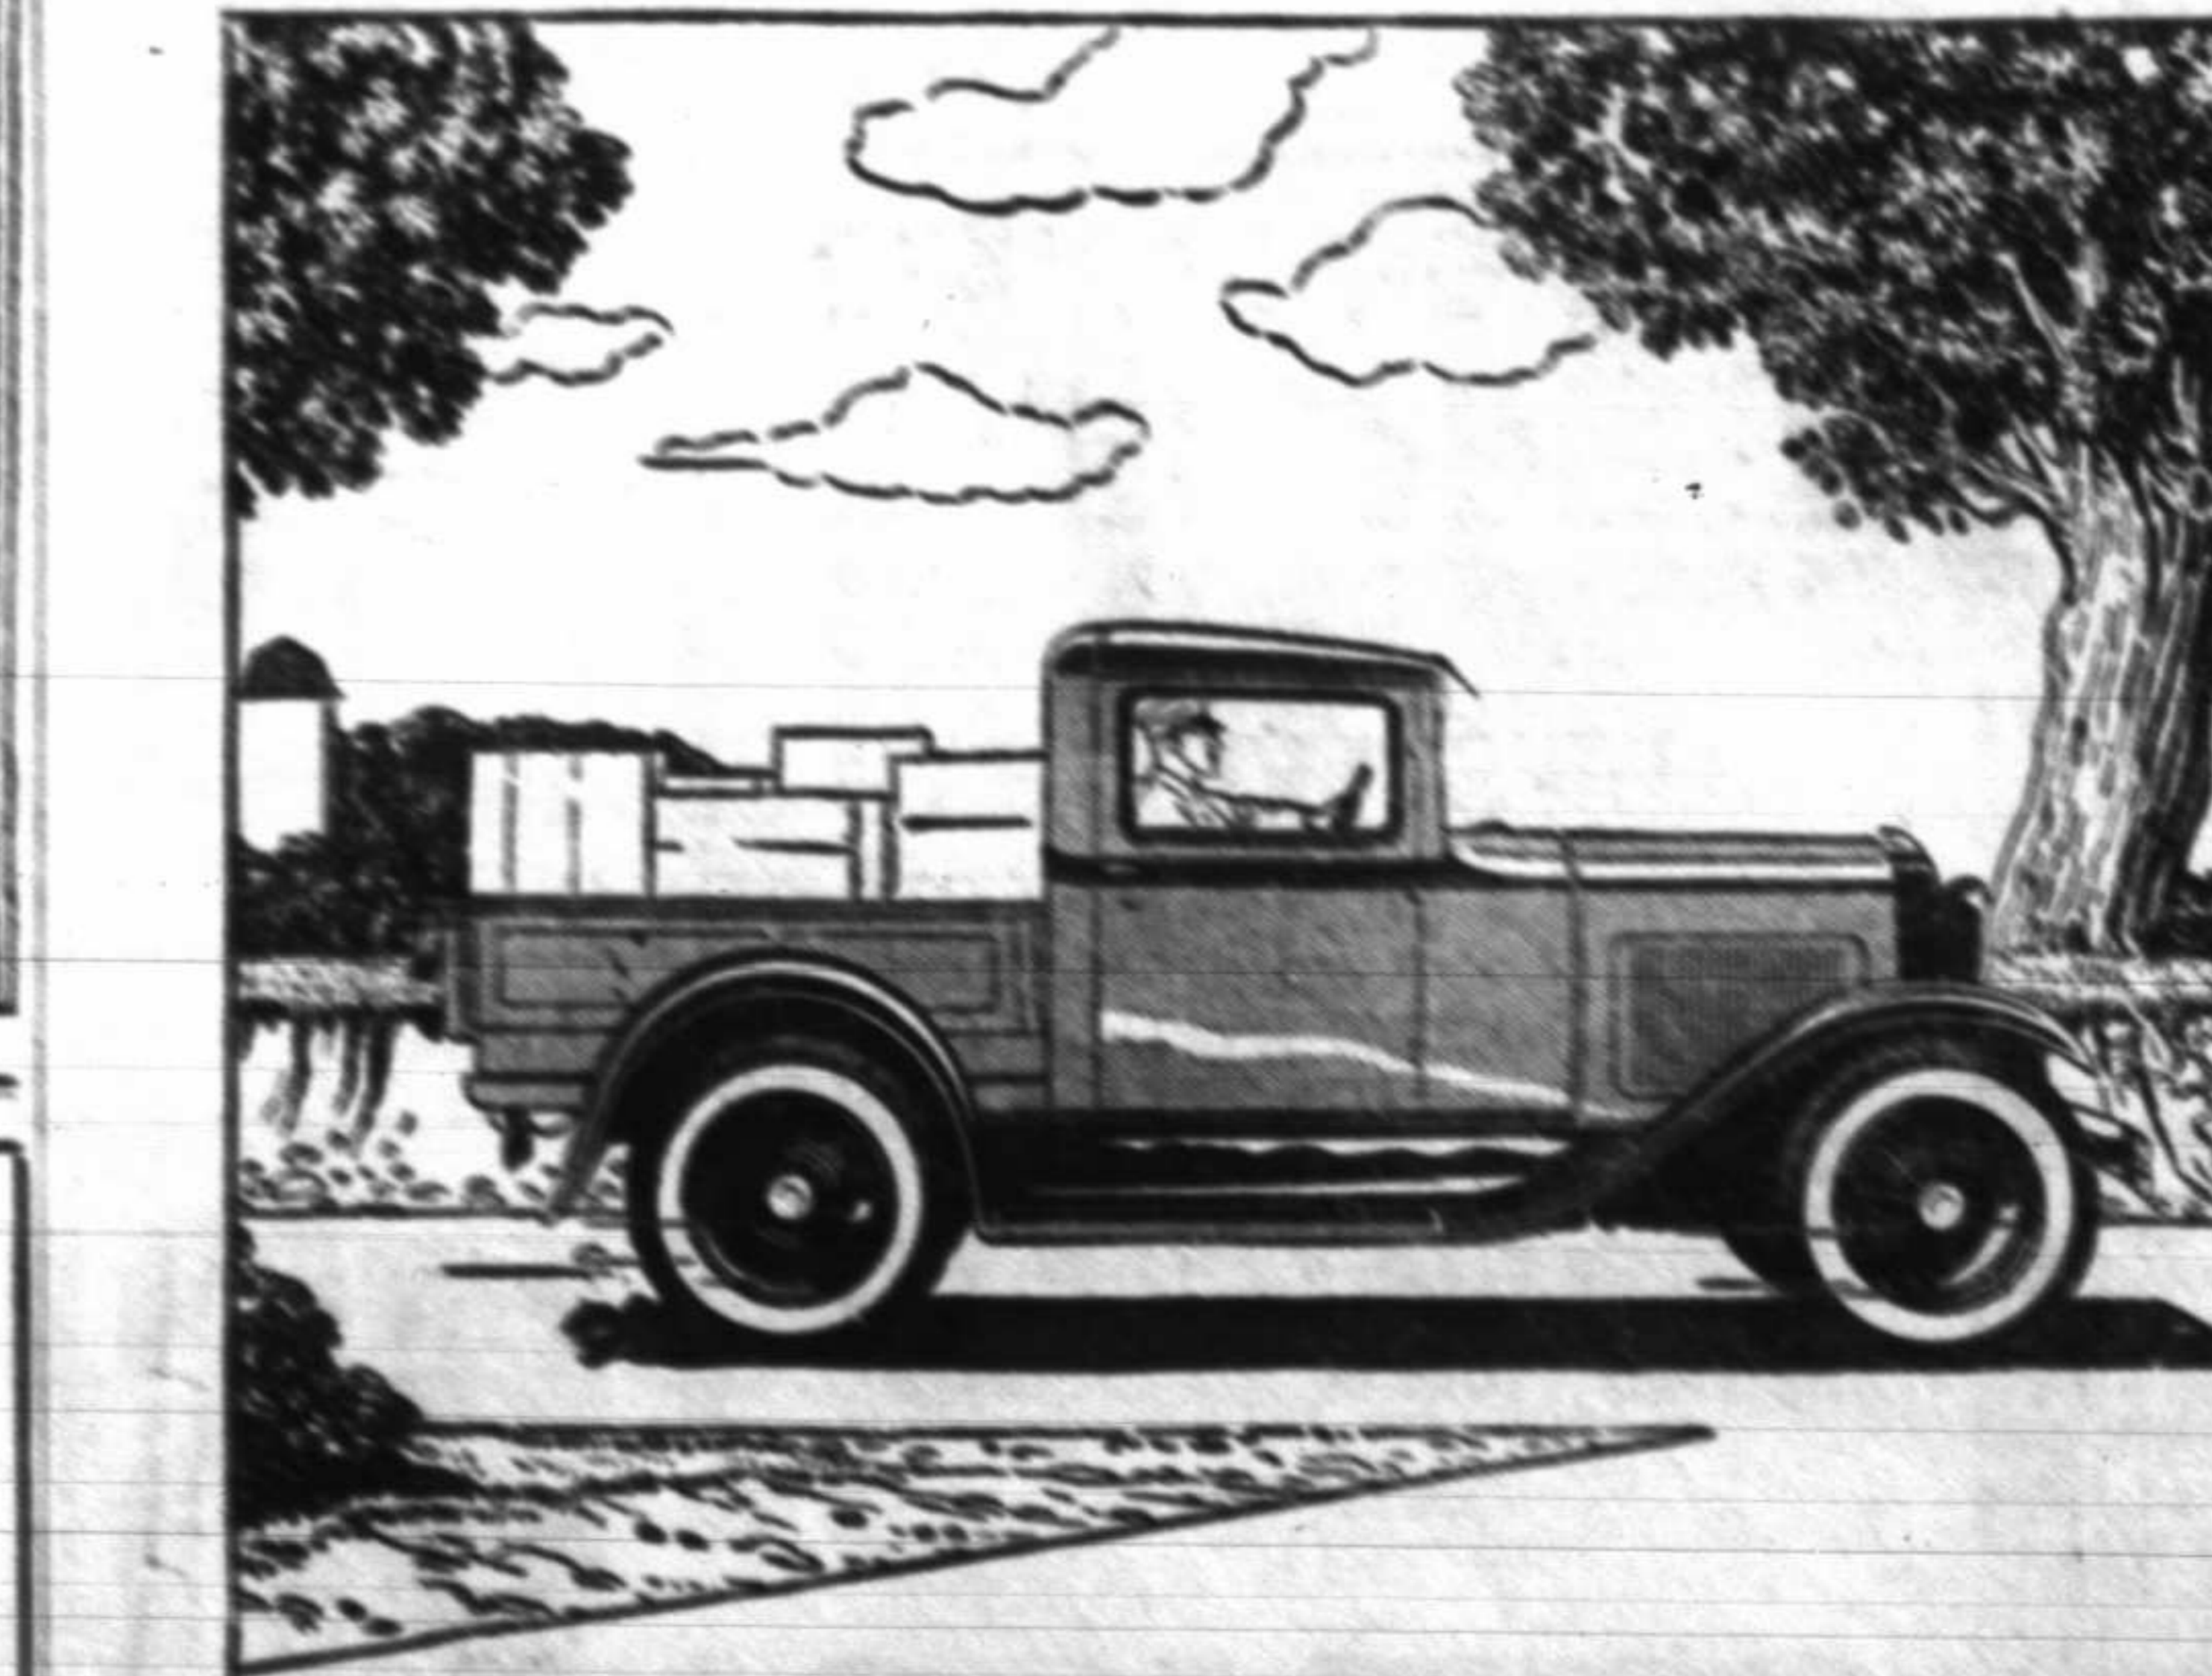

never see them. Yet they play an important part in satisfactory, economical performance. Their function is similar to the jewels of a fine watch.

Throughout the Ford chassis, a ball or roller bearing is used at every place where it is needed to reduce friction and wear and give smooth, reliable mechanical operation.

# CAROL MAKES HELEN QUEEN OF RUMANIA

## RECONCILIATION SEEN AS NEXT MOVE FOR ROYAL COUPLE

(By Associated Press)  
BUCHAREST, Rumania, June 13.—Princess Helen of Greece, divorced wife of King Carol II and mother of Prince Michael, today became Queen Helen of Rumania.

The transition was accomplished with publication in the official gazette of a royal decree authorizing the royal highness, Princess Helen, to bear the title, "her majesty."

Accomplished by Act  
Carol's act was accomplished in line with his reasoning that parliament's annulment of the acts of banishment and renunciation of January 4, 1926, had made him king de jure from the day of his father's death. Helen, not divorced from him until later, similarly became queen at that date.

Queen Marie Arrives  
Queen Helen was not at the railway station when Queen Marie Carol's mother, arrived aboard the Orient Express from Munich and Oberammergau, but King Carol—attired as a general of aviation—Grand Vayvoda Michael, her daughter, Elizabeth of Greece, and Prince Nicholas were on hand with troops and government officials.

A great crowd rendered a welcome which Rumanians said never had been surpassed for warmth. Queen Marie alighted from her coach, kissed Carol three times, and greeted the crowd with a kiss from her finger tips. She then embraced Elizabeth, then Michael, and at the last Prince Nicholas. She appeared to be a very happy mother.

### ROUND BY ROUND

**Round One:**  
Sharkey fought carefully with his left, but could not touch the German's head. He missed Max, who stepped in with a sharp left hook to the chin and neatly blocked the Boston Sailor's counter. Max bobbed under Jack's left-handed left to chin and fell in close with a slug to the body. Sharkey, a big man any way, looked a physical superior of Schmeling in every way. As Sharkey missed a left Max whipped-over his first right, a short smash that thudded on Sharkey's head. Jack appeared shocked and stormed madly forward. He climbed, however, and they were sparring carefully at the bell.

**Round Two:**  
Sharkey seemed to argue with his seconds in the corner and came out on his toes boxing carefully. The black thatched German dove in with a left and right to the body and Sharkey hammered both hands to the head. They clinched, wrestled and Sharkey pumped a left to the head. He met Max coming forward again with a sharp right to the cheek and stabbed the German off balance with his left. Sharkey grew more aggressive, but ever watchful of Max's right, and he stabbed for the head. Max did not seem to mind, although he stepped into the upper cuts and he banded a left hook and another short right on Sharkey's head. The Sailor warmed to his fight, hooking left to the body and right to the head, but Max sneaked over with a left hook and Sharkey backed the German with a straight right to the chin and they stabbed until the bell sounded.

**Round Three:**  
Sharkey tore after the Teuton and they swapped rights to the chin on the ropes. Both were clean

jarring punches. Max sneaked over another right and banked on Sharkey's body in close, while the Sailor tried to tie him up. A short right full on the chin shook Schmeling. A barrage of rights sent him floundering. Another right sent him to the ropes and he came out badly hurt and holding for dear life.

Sharkey, cool as falling snow, stepped into Schmeling with a left and another right. He was taking his time, cutting his man down. Max stumbled through the blows, arms wrapped around his head. As he slowly recovered the German shot a feeble left hook to the chin. Sharkey stepped in with two left hooks that doubled Max up and sent him back to his corner, a bit staggered at the bell.

**Round Four:**  
Schmeling's seconds rubbed his neck with ice and gave him deep draughts of smelling salts while Sharkey sat across the ring complacently awaiting the kill. Sharkey stepped into Max with a left jab, a right punishing blow to the chin and disdainfully brushed aside Max's countering left. The dogged German rallied and fired a right-hand bolt into Sharkey's chin that shook the American. The crowd roared as it landed and Sharkey tossed caution aside for a second to fling both hands wildly at the crouching Schmeling's head. Sharkey settled down, smiled disdainfully, took another right and smashed both hands to Schmeling's body. He crossed a wicked right to the German's chin but Max stayed up. As they clinched Sharkey tried repeatedly to twist Schmeling. Max went down under a left to the body claiming a foul. He could not rise. There was an-

other mad scene as the seconds stormed into the ring, yelling foul, while Referee Crowley could not seem to make a decision, it was a perfect repetition of the Miami fiasco as Schmeling in agony was carried to his corner and rolled to his feet. Still Crowley refused to make a decision and the ring now was full of seconds arguing.

FESTIC WORLD AWAKES WITH HANGOVER AFTER LAST NIGHT

SCHMELING IS RULING TODAY AS CHAMPION

SHARKEY IS CLAIMED TO HAVE FOULLED IN 4TH ROUND BY ALAN GOULD Associated Press Sports Editor NEW YORK, June 13 (AP)—The public world that had hoped to wake up today to celebrate the crowning of a new and undisputed heavyweight champion...

ROUND BY ROUND ON PAGE FIVE

They left the situation as chaotic as were the wild scenes accompanying the abrupt finish of the match. Gets Whatever Honors There Severely battered though he had been, the black-thatched 24-year-old German youth, who looks, boys and weaves like the one and only Jack Dempsey, emerged with his ever-honored and title claims go with the victory. He may, for the time being, be put at the top of the heavyweight class, at least by his own countrymen and by the New York State Athletic Commission...

Schmeling's cause may be espoused further by the National Boxing association and he is a candidate at least for the inscription of his name upon the Muldoon-Tunney trophy, emblematic of championship recognition so far as its donors are concerned. But today, cold analysis and a quick victory and disappointing climax to a long year search for a fit monarch of heavyweight ranks appeared to offer no sound basis for proclaiming the young German possessor of honors universal in the main event, before-hand, held any clear or undisputed claim to championship position.

Was Carried From Ring Dark-browed, likable, courageous Max, experts may hold, should not be penalized and deprived of recognition for events beyond his control; but the fact remained that Schmeling was carried bodily and in apparently great pain from the ring last night, the winner, but a badly battered one.

Schmeling was hurt by a punch that was unquestionably low after having been decisively outboxed and outpointed by Sharkey, who with one erratic blow of his fist swept away the high honors that seemed almost certain to be his. The German crumpled to the floor, to be carried to his corner and declared the victor only a few minutes after it seemed he was on the verge of being cleanly knocked out, in the third round, when the American battered his young rival all over the ring with a viciously sustained two-fisted onslaught.

All Happened Quickly In the third round, Sharkey had Schmeling groggy and a quick victory appeared to be in the air. A round later, the tables were reversed with such startling rapidity that scenes of the wildest disorder and confusion developed.

The fatal and final blow, intended as a left hook for the American, but somehow unintentionally misdirected, was delivered as the fighters were close together along the ropes, with the tap of the gong ending the fourth round only a few seconds away. The referee, Jimmy Crowley, on the opposite side of the ring, with Sharkey's back between him and Schmeling, failed to see the punch. Withholding his decision, as the German sank writhing in agony to the floor, Crowley hesitated and was almost instantly surrounded and harassed by the many spectators who had crowded the two fighters as he sought advice from officials on either side of the ring. With the clamor still at its height and the crowd in complete uproar, Crowley finally accepted the unqualified judgment of the referee, Harry Barnes, and pronounced Schmeling the victor on a foul.

Barnes was the only one of the three officials to have an unobstructed view of the final blow, and he unhesitatingly called it grounds for disqualification of the American. The finish was a shock to the big crowd estimated at more than 70,000 spectators, who had contributed to an estimated "gate" of \$740,000, the largest in three years in the hope of seeing the long-existing heavyweight "middle" cleared up by a clean-cut victory for either Sharkey or Schmeling. Fans and experts had established Sharkey the favorite and, after the third round, expected to see him produce one of his most impressive triumphs. Instead they saw the big and temperamental Bostonian "blow" his way chance for championship recognition, much as by his erratic work he had tossed away two previous chances to climb the heights.

FREESTON HEADS AUDITORS FORT WORTH, June 13 (AP)—County auditors of Texas elected W. H. Freeston, Lockhart, president Thursday at conclusion of a one-day convention in which they drew campaign lines in a battle to obtain legislative sanction to an increase in auditors' salaries.

IN THE REALM OF SPORTS WITH ALLAN CARNEY Journal Sports Editor

This boy Dennis Lavender has started out to show the golf bugs of the state how the grand old Scotch game is played in West Texas and if he holds his present gain the Abilene sensation will return from the down-state wars with several new trophies added to his growing collection.

Today Lavender meets Ed Connor, 26-hole final of the Dallas Country club invitation tournament. In advancing through the first four rounds to the finals, he won in comparative easy fashion from other contenders in the Dallas tournament and as a result is favored to take Connor on the latter's home course.

Since Lavender's proposed match with Frank Foxhall, of Memphis, for the golf championship of "Greater West Texas" has been postponed until next month, the Abilene golfer is expected to invade Fort Worth Sunday for the Annual River Crest invitation tournament. His opponents over the state have come to recognize Lavender as an outstanding contender in any tournament he enters.

Practically every city in the state has made a bid to get the Lavender-Foxhall match. The first 36 holes of the 72-hole grind is scheduled to be played at Quinal, and the second at San Angelo. The injury sustained by the Memphis youth has forced him to lay aside his clubs for some time and his layoff isn't likely to help him in the title match with Lavender.

Sunday's chicken dinner tournament at the Lubbock Country club will bring together the pair of golfers which recently fought it out for the championship in the country club open tournament. Showing much of his old-time form, Don Mitchell won his way to the final match and gave Clinton Bussey a close battle for the title before he was beaten on the 18th green. The two are paired on Sunday and undoubtedly miss our guess the match will prove the feature of the day's hostilities.

Jack Durham, of Hamilton, Texas Tech's 1929 football captain-elect, was signally honored recently when he was awarded the M. C. Overton scholarship of \$200, based upon influence in team morale. The scrappy Tech center furnished one of the few bright spots in the 1929 grid season and came back during the past spring training season to lead his mates through an unusually successful period. Head coach Pete Cavathon has had nothing but words of high praise to offer concerning the Matador captain since coming to Lubbock to take over his new duties. "A real leader and a game fighter," is the way Cavathon characterizes Durham. "If we had whole squads of men like him, Texas Tech could be able to challenge all comers."

Dr. Overton's scholarship was started last year with the idea of supplementing the best-all-around athlete award. Originally it was intended for the athlete, either regular or sub, who showed the most lasting influence on team morale on the field or off the field, and displays the best sportsmanship throughout the year. Leon Fisher was the first Tech athlete to be awarded the scholarship, being awarded the \$200 on the year the scholarship was first given.

The widely-advertised Sharkey-Schmeling heavyweight scrap is over, and although the German was awarded the decision on a foul, the fistic powers are forced to agree that the match failed dimly in its object of producing a new champion. Americans in general would be willing for the Tunney-Muldoon trophy to go to the other side of the Atlantic if the winner had proven himself a champion. Schmeling came by the title by accident after the Boston sailor had handed him a sound beating for almost four rounds. Hundreds of fight fans harbor a dislike for Sharkey who argue that Schmeling would have staged a comeback in the later rounds if the foul had not been hit. This borders on the absurd when it is remembered that Sharkey had his opponent on the third round and has just begun to put on the finishing touches when the fatal low blow came in the fourth. Personally we are willing to give Sharkey credit for putting up one of the greatest fights of his career while the bout lasted.

Professionals Are Left In Waco Play

WACO, June 13 (AP)—Only professionals remained today in the first Professional Golf association flight in the association's annual cup matches being played at the Spring Lake Country Club course. Tom Lally, of the San Antonio Country Club, one of the leading Texas professionals, yesterday eliminated Jack Burke, Texas P. G. A. champion. L. C. Scheider of the Brook Hollow Golf Club, Dallas, one of the favorites to come through to the finals, also went down before L. D. Matthews of the Claco Country Club.

While you might think congressmen might get enough exercise from "hog rolling," they no doubt feel there is more at stake in horsehoe pitching.

TEUTON SAYS HE WANTS TO FIGHT AGAIN

MAX DECLARES HE IS DISGUSTED AT OUTCOME

BY EDWARD J. NEIL Associated Press Sports Writer NEW YORK, June 13.—A puzzled German boy with a victory to celebrate but no desire to revel about it disconsolately today upon Friday the thirteenth and nursed a gripping pain in his lower abdomen. There was no gloe for Max Schmeling, 24-year-old Teuton, in the victory he won from Jack Sharkey on a foul in four rounds while nearly 80,000 of the faithful in the Yankee Stadium last night booted disgustedly the farcical ending of another heavyweight fiasco. Schmeling, somehow, impresses you as a clean-cut, fair-fighting youngster who doesn't want to win any more than he has to. He is not so good a fighter as they say he is. I find out he cannot hurt me with punches after I take his best. I know what I want to know. I am ready to do "something" myself.

"I Am Disgusted" "I am disgusted with like that," he said mournfully in a rubbing table in a dressing room deep under the stands in the ball park. "I fight my fight just as I want it. Then, when my chance is coming, I am fouled."

"For three rounds maybe I don't look so good, but I am doing what I want. I am finding out about Jack Sharkey. I find he is not so good a fighter as they say he is. I find out he cannot hurt me with punches after I take his best. I know what I want to know. I am ready to do "something" myself."

GENE DECLARES BLOW WAS LOW

NEW YORK, June 13 (AP)—Gene Dempsey, former heavyweight champion, sought for an expert opinion after last night's fight, said: "The blow was a foul. It was unintentional beyond question, and unfortunate, but it was a foul."

"The blow ending tonight's bout is a punch which comes under the right hand and must be timed perfectly or it will land with damaging effect. It is one blow that will cause excruciating pain and incapacitate a boxer. If it is started too low it is very dangerous. "Few boxers can use that punch. It is too difficult to control."

JACK SAYS OUTCOME UNFORTUNATE

LOS ANGELES, June 13 (AP)—Jack Dempsey, former heavyweight champion, expressing his opinion of the Sharkey-Schmeling fight in New York last night, said: "It is unfortunate for Schmeling the victor, and Sharkey the loser that it ended in a foul."

The former champion said the outcome would make no difference in his present plans, which, he said, are to go into training after recuperating from a recent operation.

"After going into training, I will decide whether I will fight again," Dempsey said.

AMERICAN DERBY IS MYSTERY RACE

CHICAGO, June 13 (AP)—The \$200,000 American Derby to be decided at Washington Park tomorrow threatens to develop into the mystery race of the turf season, with the winner likely to pop out in front a 100 to 1 shot.

SPLIT SEASON IN TEXAS LEAGUE IS ALMOST CERTAIN; SPUDDERS LEAD BY SEVEN FULL GAMES OVER OTHERS

BY GAYLE TALBOT, JR. Associated Press Sports Writer Six days before Texas league magnets will lock themselves in a hotel room and decided whether their public desires a split season, the Wichita Falls Spudders today were sailing along seven full games ahead of the Houston Buffs, their closest pursuers.

That being the case, there appeared slight reason to doubt that the magnets would decide that their public desires a double-header. There is nothing quite so unexciting as a seven-game lead, particularly when there is no promise of relief.

Just to make their stand in the matter more convincing, the Spudders yesterday poured in 13 runs on 13 hits in their opener at Wichita. They did it, further, at the expense of young Mr. Allyn Stout, ace righthander of the Bison staff, and threw in four homers for good measure. One of the circuit ballparks was engaged by the husky Larry Bettecourt and was his 21st similar sort of the campaign, placing him far ahead of the field. Hal Witbe held the visitors to seven hits and Eddie Brown, who pitched for the Spudders, pitched a perfect game.

Shreveport climbed back within a game of second place by walloping the Waco Cubs, 5 to 1, in their Louisiana premier. Morrell allowed only four hits, while the Sports-nicker Ketchum for seven, including a trio in the first inning that scored four runs. Old Wilbur Cooper, a southpaw pitcher by trade, played first base for the Sports and seems at last to have found his station. He drove in three runs with a double and handled 12 chances flawlessly.

Tom Estel held the Café scoreless until the last inning and San Antonio's Redkins captured their opener at Fort Worth, 9 to 3. The Indians pounded Hans Thormahlen and George Egan, and the Catcher League leading a savage attack on the husky southpaw with a homer, Dondero, Indian infielder, enjoyed a big day with three singles and a sacrifice.

Beaumont and Dallas, battled all afternoon to draw the Exposition, winning the first, 4 to 3, despite the fact they were roundly outbid, but dropping the second, 7 to 0, when Big George Murray kept their six hits scattered. An error by Cotter at first base enabled the Expos to score what proved to be the winning run in the first bout, and poor base running prevented the Steers cashing in on their 13 hits off four Shipper hurlers. The loss was charged to Williamson, making his first start for Dallas. Taitt, with three singles, led the Dallas attack on Vaughn and Mallett in the second fray.

LAVENDER AND CONNOR MEET WEST TEXAN MATCHED AGAINST DALLASITE IN CLUB PLAY

DALLAS, June 13.—Eddie Connor, playing fine golf over his home course, and Dennis Lavender straight-shooting West Texas, faced a fight on the 36-hole course today for the championship of the sixth annual Dallas Country Club invitation tournament.

"Favorite since the tournament opened and apparently getting better as he goes along, Lavender hoped to add one more to his list of championships. Since the qualifying round, when he shot a 71, one under par, the West Texas titleholder had shot almost perfect golf.

In sending his way to the finals yesterday, Lavender defeated Travis Daniel, Fort Worth, 5 and 4, and then stowed away George Wofford, Dallas, by the same score. Connor, who never before has reached the last round of a major event, downed Charlie Rammel, Fort Worth, 1 up in the semifinals. Rammel, his noted brother, Lanham Connor, 5 and 4, in the semi-finals.

PECKINPAUGH'S TEAM WINNING RIGHT ALONG

CLUB IS GAME BEHIND A'S; ROBINS PULL AWAY IN NATIONAL

BY HERBERT W. BARKER Associated Press Sports Writer While other clubs have been getting most of the publicity, Roger Peckinpaugh's Cleveland Indians have been attending strictly to business, taking all rivals as they come, until today they had pushed into second place in the American league standing only a game behind the pace-setting Philadelphia Athletics.

Great pitching by Ferrell, Brown, and Hudlin has been the outstanding feature of the Indians' upsurge since May 24. In the intervening three weeks, Peckinpaugh's men have won 14 games and lost only four.

Was Sixth Straight The Indians' sixth consecutive victory yesterday and their second in a row from the Athletics enabled them to leap into second place while Washington was bowing to Chicago. As the race stands now, all three leaders have lost 13 games with the A's winning 33; Cleveland 31 and Washington 30.

Clint Brown pitched great ball to give the Indians a shutout triumph over the A's, 4-0, granting only four hits. George Barnsbaw pitched well, but three of the eight hits he allowed were home runs. Morgan getting his 10th and 11th and Myatt another with one man on base.

Lyons Wins 9th The Senators bowed to Chicago's White Sox, 10-4, in a free-hitting battle that saw Ted Lyons chalk up his ninth victory of the season after three previous failures to get past his eighth.

The New York Yankees fell on Waite Hoyt and two successors for 22 hits, including Babe Ruth's 20th homer of the season and trounced the Detroit Tigers, 14-2.

Walter Stewart won his eighth victory for the St. Louis Browns, beating Boston, 6-5, but just managing to halt a Red Sox rally in the eighth inning that fell only one run short of a tie.

Robins St. Ch Lead In the National league, Brooklyn stretched its lead to four and one-half games by beating Cincinnati 3-2, while their leading rivals, the Chicago Cubs and New York Giants were beaten.

Jack Flowers' pinch double with the bases loaded in the seventh gave the Robins their win, the hit and what proved to be the winning run. Ray Moss and Bennie Frey, starting hurlers, both were effective but gave way to pinch batsmen before the game was over.

Pirates Halt Giants Pittsburgh halted the New York Giants' nine-game winning streak, 10-7, smothering hits for five runs in the first and four in the seventh. Remy Kremer went the route for the Pirates slowing eight hits, three of which were home runs, two by Lindstrom and Mel Ott's 14th by Lindstrom.

NET CUP PLAY TO OPEN IN ENGLAND

WIMBLEDON, Eng. June 13 (AP)—Picked players from the United States and Great Britain were set today to battle for the Wimbledon cup, emblematic of the women's international team tennis championship.

The United States, with four victories to her credit in the seven series played since the competition was instituted in 1923, was favored to retain the cup. America counted upon Helen Wills Moody to win her two singles matches and Helen Jacobs for at least one.

Pairings pitted Mrs. Moody against Joan Fry and Miss Jacobs against Mrs. Holcroft Watson in singles, and Edith Cross and Sarah Palfrey in doubles against Miss Fry and Miss E. H. Harvey.

BARNES BIG NET FAVORITE

TEXAS UNIVERSITY NET STAR STILL FRESH AFTER GRIND (By Associated Press) DALLAS, June 13.—Still fresh at six days after four days of gruelling competition and playing what observers declare is the most brilliant tennis of his career, Bruce Barnes Texas university net wizard, was matched with Earl Taylor, a team-mate on the Longhorn squad, in the semi-finals of the Dallas district tournament here today.

Contending for a place in the finals from the other bracket were Jimmy Quick of Dallas, second player in the tournament, and Jake Hien, the fireball from Fort Worth, and Rice Institute. Quick was favored over Hien, who had a narrow squeak yesterday in disposing of Karl Kamrath, Austin junior, 6-4, 8-10, 6-2.

Barnes played a brilliant brand of tennis yesterday in stopping John Barr, hard-driving member of the Dallas Tennis Club. The scores were 6-3, 6-2, with Barr never ahead except at the outset of the second set.

Quick had to play only one set in winning from Lucian LaCoste, San Antonio, No. 3 on the Texas university squad. Quick was the initial set, 6-2, and the second set had gotten under way when LaCoste slipped in going after a trap shot and sprained an ankle. The injury forced LaCoste to default.

Ruth Bailey, of St. Louis and Truman university, faced Mary Elizabeth McEale of Dallas, Southern Methodist university student, in the final of women's singles. Miss Bailey favored to retain her sectional title blanketed Ruthie Dean, San Antonio 6-0, 6-0, in her third round hit yesterday, while her opponent in the finals outplayed Anna Mae Reichert, San Antonio, 5-7, 6-3, 6-0.

Bill Landreth, Fort Worth, was crowned boy's singles champion by defeating George Dullin, San Antonio, 6-1, 10-12, 6-2.

# MORE ACTION URGED IN WAR ON GANGSTERS

## CHICAGO MOVES TO CUT OUT ACTIVITIES FROM CITY

(By Associated Press)  
 CHICAGO, June 13.—The cry for action in the hunt for the slayer of Alfred (Jake) Lingle, Tribune reporter, rose higher and higher today, but with no indication from authorities of any new clues or of any prospect of immediate results.

Indignation over the murder was fast translating itself into criticism of police, of the city administration, even of the Chicago Crime Commission which one minister—the Rev. Phillip Yarrow—classified as "a lot of bunk."

Dr. Yarrow, chairman of the political action committee of the Chicago Federation of Churches, called for a mass meeting for the expression of the ministry's "indignation" over crime conditions.

**Police Are Active**

There was no lack of police activity as motor squads cruised through every part of the city, making arrests; but though the police net was drawn tight, the grip of arrests showed no well known gangsters. Indeed, as officials admitted, out of the more than 600 men arrested, only a small percentage could be classified as gangsters. Mostly they were non-descript, minor hoodlums and "bums."

Leaders of the Methodist, Lutheran and Presbyterian denominations announced that within a week they expected to have a united expression of indignation. Dr. John Thompson, pastor of the First Methodist church, announced the opening of a campaign of education against crime from every Methodist pulpit in Chicago.

**Press Decry—Outrages**

Representatives of all Chicago daily newspapers printed in English last night yesterday and adopted a resolution decrying "the intolerable outrages of the past year against civic decency and public security" which "culminated dramatically in the cowardly murder of Alfred J. Lingle."

Members of the city council promised action. Alderman Arthur Albert announced that at the next meeting of the council he will submit a resolution directing Mayor Thompson to appoint a special committee to investigate the police department "from top to bottom."

**Places Closed**

The Herald and Examiner noted that gambling places and speakeasies were "lying low" until the present police scurry ends. Especially in the loop, investigators found the places for gaming and drinking were closed, or at least operating cautiously.

**Police Commission**

Police Commissioner William Russell, Detective Chief Stege and hundreds of members of the police department attended the funeral yesterday of "Jake" Lingle.

## It's Certainly Been A Blessing

### Argotane Has Made A New Man Of Me And Relieved Me Of My Trouble

"Since Argotane relieved me of my troubles, I just can't help saying it to everybody" said J. T. South, of Lubbock, Texas. Mr. South is a well known ginmer of this part of the state and owns and operates the J. T. South Gin company.

"For several years, he continued, I suffered from stomach disorder and a general run-down condition. I had very little appetite and three or four hours after eating, gas would form and cramp my stomach so that nothing would relieve me of the agony. I was in a very weak condition and was tired and worn out and didn't feel like doing my work. I had a severe case of constipation and had, severe headaches."

"My first bottle of Argotane seemed to hit the spot and I have been getting better ever since. I can eat anything and everything I want. I don't have any trouble with gas, my stomach is turned up and I feel better in every way than I have for a long time. Argotane has saved me a lot of suffering and money and has made a new man of me. I want my many friends to know about it."

Genuine Argotane may be bought in Lubbock at the Bowen Drug Store. (adv.)

## QUIZ FORMER CO-ED IN GANG KILLING

Mickey Marahman, former Northwestern university co-ed who studied to be a lawyer, and who later gained fame as a singing hostess in a roadhouse, is pictured here as she was brought back to Chicago from her home in Canton, Ill., by police to aid in their hunt for the gangster who took Harry Deutsch, her racketeer sweetheart, "for a ride" and killed him. Anthony was slain because of gambling debts, she believes.

## DEPARTMENT OF COMMERCE OFFICE IS OPENED AT EL PASO; WORK EXPANDS

one of the most impressive funerals in the history of violent death in Chicago. Later they reiterated that the entire resources of the department had been directed toward the arrest of Lingle's slayer.

Mayor Thompson indicated that the city administration might step forward with a plan of action against gangsters. He planned a conference with members of his cabinet and other administration leaders.

## DOINGS OF SOUTH PLAINS SCOUTS

George Eaton, deputy scout commissioner, accompanied Troop 33, Raids, on a hike at Silver Falls near Crosbyton, Thursday afternoon.

A meeting of the committee of Troop 8, Lubbock, was held last night at the Hotel Lubbock. Members of the committee are Dr. V. C. Jackson and Charles Whitacre, D. T. Jennings, executive of the South Plains Area council, met with the group. Troop 8 is sponsored by Allen Brothers post, local American Legion.

Mr. Eaton is in Seagraves today where he is checking over troop progress and conferring with scout leaders.

A court of honor for Boy Scouts of Seagraves will be held in that city tonight. Mr. Jennings will attend the meeting.

A first aid and civics school for Lubbock scouts will be conducted tomorrow evening at 7:30 o'clock in scout offices at the city hall. All scouts planning advancement and awards at the next court of honor are being urged to take the examinations.

## Misrepresentation Blamed To Movies

BOSTON, June 13 (AP)—The morning picture was accused of distorting and misrepresenting American life, creating hostility in foreign nations and affecting international relations, by Rev. Frederic Siedenburg, S. J., of Loyola university, Chicago, speaking today at a meeting on neighborhood and community life in connection with the national conference of social work.

"Vice is made pleasant while it lasts," he asserted. "Working girls are always the intended victim of an employer's greed or design; people rarely work unless they live in tenements and virtue is generally made to appear depressing. Emphasis is placed on wealth, luxury and idleness."

International relations could be improved, he urged, if the American moving picture industry were declared a public industry subject to government control with a federal motion picture commission to supervise production.

A house built at Arcadia, Mo., before the Civil War and used as headquarters by General Price of the Confederate army, recently was destroyed by fire.

## LUBBOCK GETS GIRLS' MEET

### OVER 700 HIGH SCHOOL GIRLS OF STATE TO GATHER IN CITY

The 1931 Home Education rally of schools and colleges of Texas will be held in Lubbock, according to an announcement received here yesterday by C. A. Sheffield from Miss Lillian Peck, of Austin, superintendent of home economics education of the State Board of Education.

About 700 girls from all sections of the state will attend the meeting, which will be staged for a three-day period in July, 1931, exact dates to be named later.

## SIX MORE NAMES SUGGESTED FOR LUBBOCK PARKS

Six additional suggestions for naming of Lubbock parks, increasing the total to almost 30, were filed today at the city hall on the eve of the close of the park contest campaign.

The contest will end tomorrow afternoon at 5 o'clock. By that hour all suggestions must be in the hands of Miss Laveria Williams, secretary to J. Bryan Miller, city manager.

Winners will be determined by the park naming committee within the next few days.

**Suggest "Overton"**

"Overton," in honor of Dr. Overton, pioneer physician of Lubbock and the South Plains, has been submitted five times, two of the suggestions being received today.

"Jennings Park," in honor of Rev. and Mrs. W. P. Jennings, has been suggested for the park site between Avenue K and L and 23rd and 24th streets. "For their high Christian character and willingness to serve the community at all times," writes the person who submitted the name. Mr. Jennings is pastor of the First Christian church.

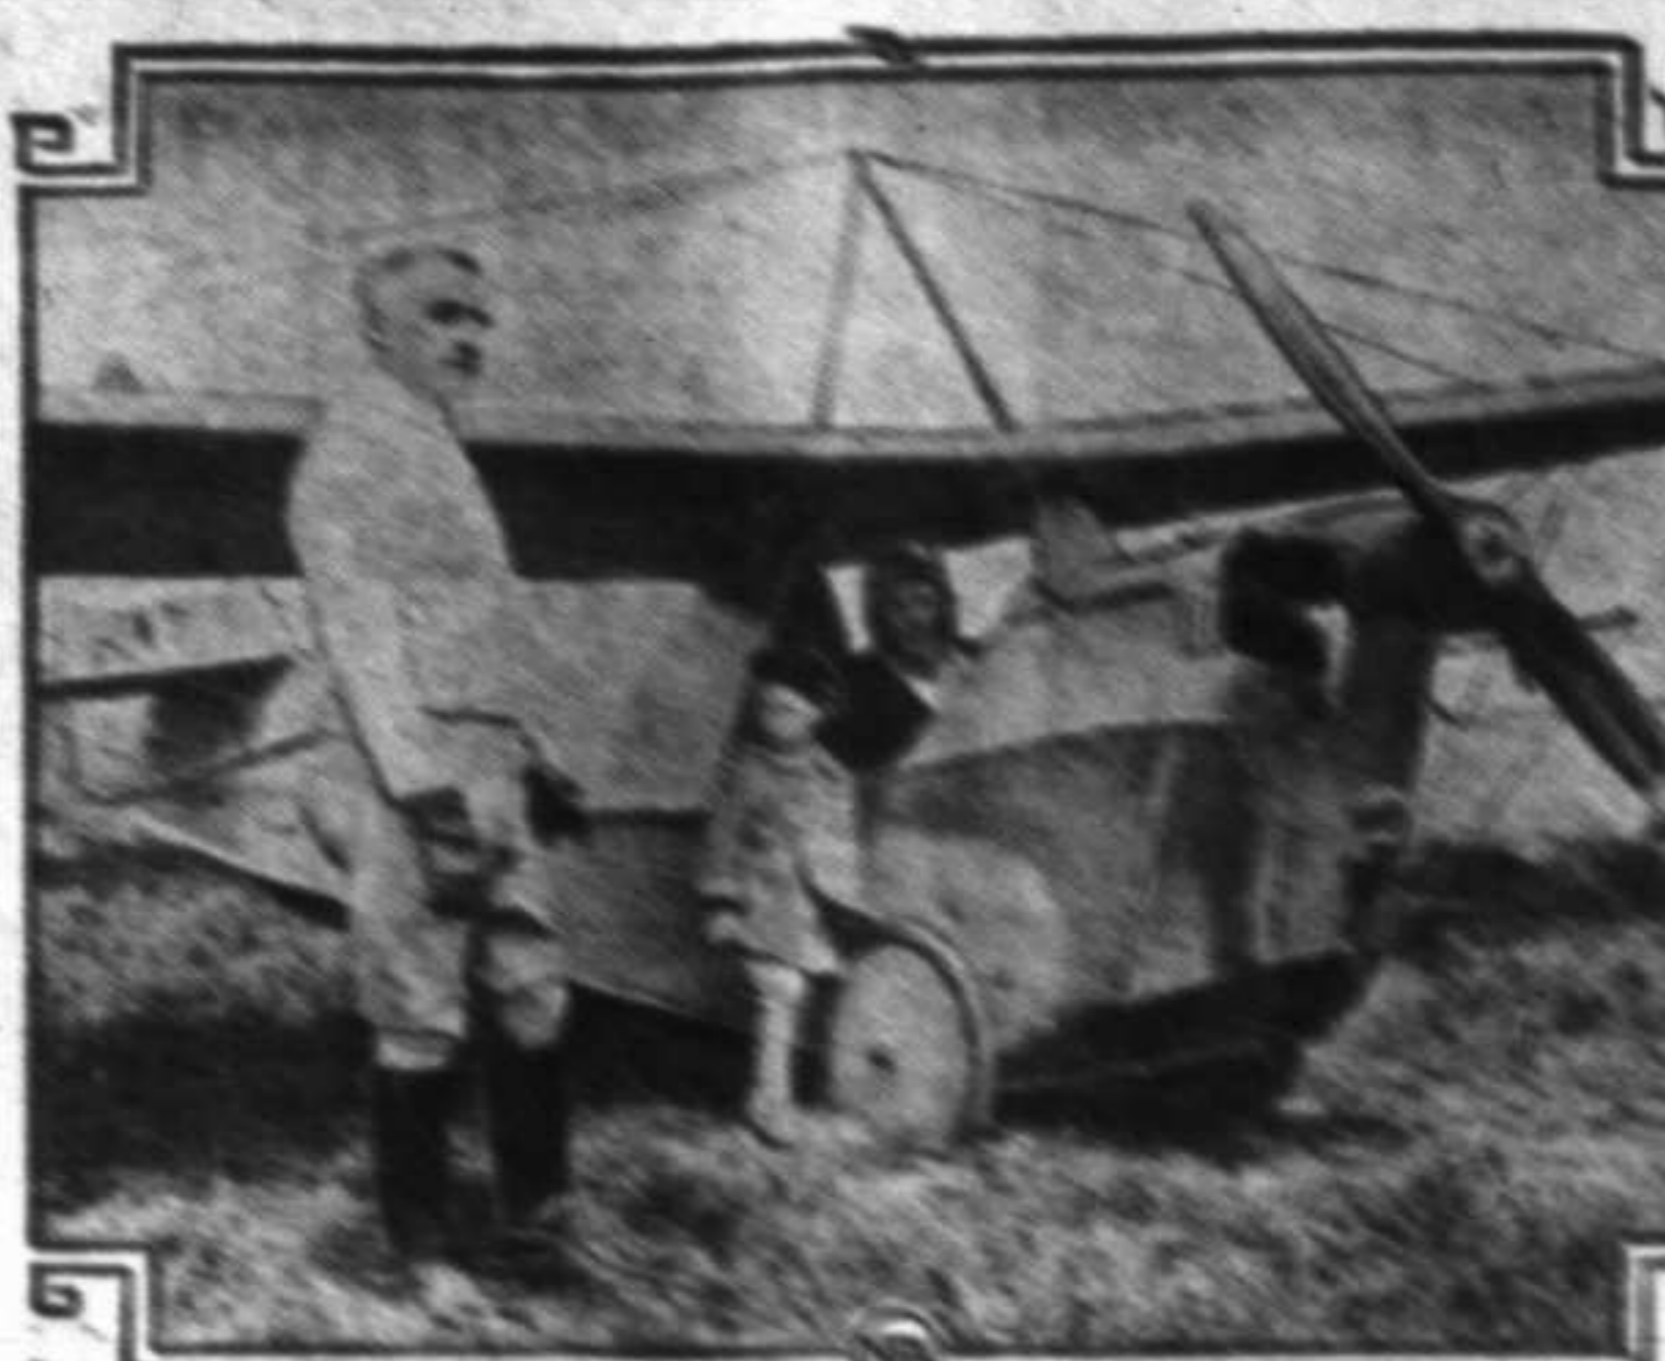

For the site between Avenue W and X and 26th and 27th streets the name of Prairie Park was presented.

"McKnight Park," in honor of Jesse McKnight who moved to Lubbock in 1923 and erected a home and started improvements in the negro section of the city, has been suggested for the negro park.

Another suggested "Phyllis Wheatley," name of a negro poetess and accomplished woman of her race, for the negro park.

## YES, IT'S A PLANE—REALLY IT IS

Baby plane of the air lines is the Avoca C-2 shown here under inspection by Gen. Walter J. Kohler, of Wisconsin, whose son, Carl J. Kohler, has just bought it. This plane weighs only 40 pounds, has a two-cylinder air-cooled engine that will give it a speed of 85 miles an hour and can fly 25 miles on a gallon of gasoline.

## AIR TRANSPORT COMPANY IS FORMED HERE TO OPEN INSTRUCTION SCHOOL

The South Plains Air Transport, Inc., chartered with a capital stock of \$10,000, has been organized in this city. Charles R. Bacon, president of the new enterprise, announced last night.

**To Open Air School**

Officers of the organization are in the Myrick building.

Other officers are E. P. Braden, vice-president; J. C. Orr, secretary-treasurer; and directors are J. A. McElvay, S. E. Cook and G. V. Sims.

A school of instruction in aviation will be opened within a brief period, and an Alexander Eagle-Rock open model plane is to be used as a training ship, said Mr. Bacon. The company has the agency for both the Alexander Eagle-Rock and the Sunbeam-Detroit planes.

Should traffic justify an air line will be established between Lubbock and Hobbs, N. M., officials of the company said. All operations will be made from the Lubbock airport.

DENIAL MADE ON CHARGES

HUSTON DECLARES HE IS TARGET OF ACCUSATIONS

WASHINGTON, June 12.—Chairman Claudius Huston of the republican national committee confronted his critics today with a stout denial of their charges that he had engaged in lobbying or used funds of the Tennessee River Improvement association to cover a deficit in his brokerage account.

Striking back, he alleged a whispering campaign had been conducted against him and that accusations aimed at him were either fabrications or "distortions of the real facts," inspired by "partisan or factional motives."

Deposited With Broker Before the senate lobby committee, Huston testified several months ago he had received as president of the Tennessee River Improvement association \$36,200 from the Union Carbide company and deposited the money with his brokerage firm. This was paid and deposited in two sums, \$22,000 and \$14,000. He also told the committee of his activities as head of the improvement association, which is interested in Muscle Shoals legislation and advocated the acceptance of the bid of the American Gyana-

mid company for the Alabama plant. His denial was contained in a letter sent to members of the republican national committee, and made public last night after a Washington newspaper had obtained a copy of it.

**Thought For Today**

Yes, I will gather you, and blow upon you in the fire of my wrath, and you shall be melted in the midst thereof.—Ezekiel 22:11.

If anger proceeds from a great cause, it burns to fury; if from a small cause, it is a mere flame, and so is always either terrible or ridiculous.—Jeremy Taylor.

**Reward**

There's nothing especially new in the fact that the name of the action goes out of its way to reward the people who have done the most for it.

Now and then, though, something happens to remind you of it again—something that makes you wonder if you really know what's good for us.

In London a man named Sir Ronald Ross recently celebrated his 73rd birthday; celebrated it in ill health without any too much money to make his old age comfortable and without any great public celebration to mark the anniversary. Sir Ronald Ross? No, you very likely never heard of him. He isn't widely known. But when future historians go to write down the names of the men who, in the last three or four decades, have served humanity best, they will put his name somewhere near the head of the list.

A number of years ago Sir Ronald Ross was a young officer in the medical corps of the British army in India, stuck away in a God-forsaken outdoor summer in the tropical heat. Malaria was a curse there, a curse, and an unsolved riddle. The young medical officer turned his attention to it. He had the audacity to doubt that it was caused by the climate, by the food and drink or by the water. Instead, he suspected that it was carried from the sick to the well by some insect.

He outlined his idea to his superiors and was scoffed at. Undaunted, he got a cheap microscope and began to investigate. He put the mosquito down as his chief suspect, and went to work making microscopic examinations of the contents of thousands of mosquito stomachs.

The painstaking work in the tropic heat with poor instruments was terribly hard. It undermined the officer's strength and ruined his nerves. There were years of it, too; for Ross' investigations came to nothing for a long time. At last, however, he found a new species of mosquito, got some specimens of it—and found his malaria germs, in his specimens' stomachs.

Within a short time he had proved his theory to a skeptical medical world and had enabled health organizations to cope with malaria for the first time in history. Nor was that all. It was his work that put the American medical officers on the track of the yellow fever mosquito. The magnificent clean-up on that dreadful disease in Cuba, Panama and the southern states of America grew directly out of Ross' work.

So that's Sir Ronald Ross. He was knighted for his work—and then largely forgotten. Today England's highest honors rest on the shoulders of her war leaders—men who sent thousands upon thousands of men out to kill and to be killed. The man who saved uncounted thousands of lives, and whose work will go on saving lives long after he himself is dead, is ignored.

Really, we don't seem to know after our benefactors really are.

**The Racketeer**

One way to foil the racketeer, evidently, is to refuse to be afraid of him.

Two "tough guys" from Detroit dropped down to Cleveland and the other day, looking for a little easy money. They looked up a well-to-do merchant, found that he had a 6-year-old son, and proceeded to call the merchant up by telephone. Unless he paid them \$10,000 they said, they would kidnap his son and bomb his store.

This scheme usually works, but this time it didn't. Instead of getting scared, the merchant called the police. The two "tough guys" were arrested within 12 hours, and now calls on Ohio's terrible semi-protectionists are being prepared for them.

**THE PLAINSMAN**

**Says:**  
 That Girl on Broadway says the new styles will permit a woman to dress fully in 55 seconds. That leaves one hour, 59 minutes and five seconds she can spend deciding what to wear.

**ANTHROPOLOGISTS** may have made somewhat a habit in their efforts to make monkeys out of men but the reverse procedure isn't so hard when the assistance of the big style and fashion men is called in. The latest piece de resistance—if you know what that means—in tracing the relationship between men and apes is, at this particular time, pants. Plain, old, every-day pants.

Men's pants have come in for a lot of hard knocks lately, although the reason is not quite so clear as it was a year ago. Some disciples of freedom conceived the idea of switching pants to pajamas. Then last fall the silk and ruffle makers held a convention and put on display crayon drawings of jersey bloomers, trimmed with lace, as evidence of what the well-dressed man would soon be going without. The idea to undermine pants, as a badge of masculinity, was growing.

Now college students at Princeton, Swarth or some other asylum, probably subsidized by the muslin manufacturers, have introduced a pantsless fad in which the man in the swim uses his supply of regulation trousers for hook-rugs and skips about in nothing more, and fortunately, nothing less, than a pair of underwear—shorts from the midriff down.

What makes matters worse, the fad of doffing pants and retaining for acquiring, depending upon the degree of civilization and cultural advancement of the subject, underwear seems to be gaining what might be called a hip hold. Hey, hey.

**MEN** of riper years, and, until now considered of sadder minds than college students, are taking up the idea. Huey P. Long, Louisiana's governor, recently depicted himself in his underwear drawers for the edification of some general and his staff. Folks, it's looking black for pants. Other men of prominence have gone home, clad in orthodox manner, only to scamper out next morning, utterly devoid of trousers. Something has got to be done about it.

The problem is of an economic, as well as artistic nature. If the pants habit grows, it will result in work-countless numbers of pants makers, and the threatened decrease in employment among alterers is nothing to be sneered at. It is an established fact that where one man can make a pair of pants at one sitting it requires at least three men and six fittings to alter the original product to suit the individual fancy. Any reader who has ever owned a pair of pants realizes this.

The time for action is here. The campaign to get a new jail, a federal building and a bigger and better cotton crop must be forgotten. We must rise to arms to save the pants. That's the paramount problem of the hour!

**AMERICAN** progress and American stability are founded on pants! Don't you believe it? Stoop and think. Picture if you can, Daniel Boone striding through the well known wilderness, without pants! Who generally makes an excellent fur of his ruffians over the cotton bales at Noo Awieens—clad in the drawers of his underwear and hispicking uniform coat. Consider Thomas Jefferson, penning the constitution, or whatever it was he did, even Jim Ferguson, making a stump speech, without pants! It's unthinkable.

Suppose Paul Revere had made his famous ride in shorts, or even in the old-fashioned long underwear with burrs in it. Do you think the heroic warriors would have rushed out and ambushed themselves? Not by a jugful! They'd have gone back to bed mumbled something about 'that crazy drunk, riding around the country waking honest folks up!

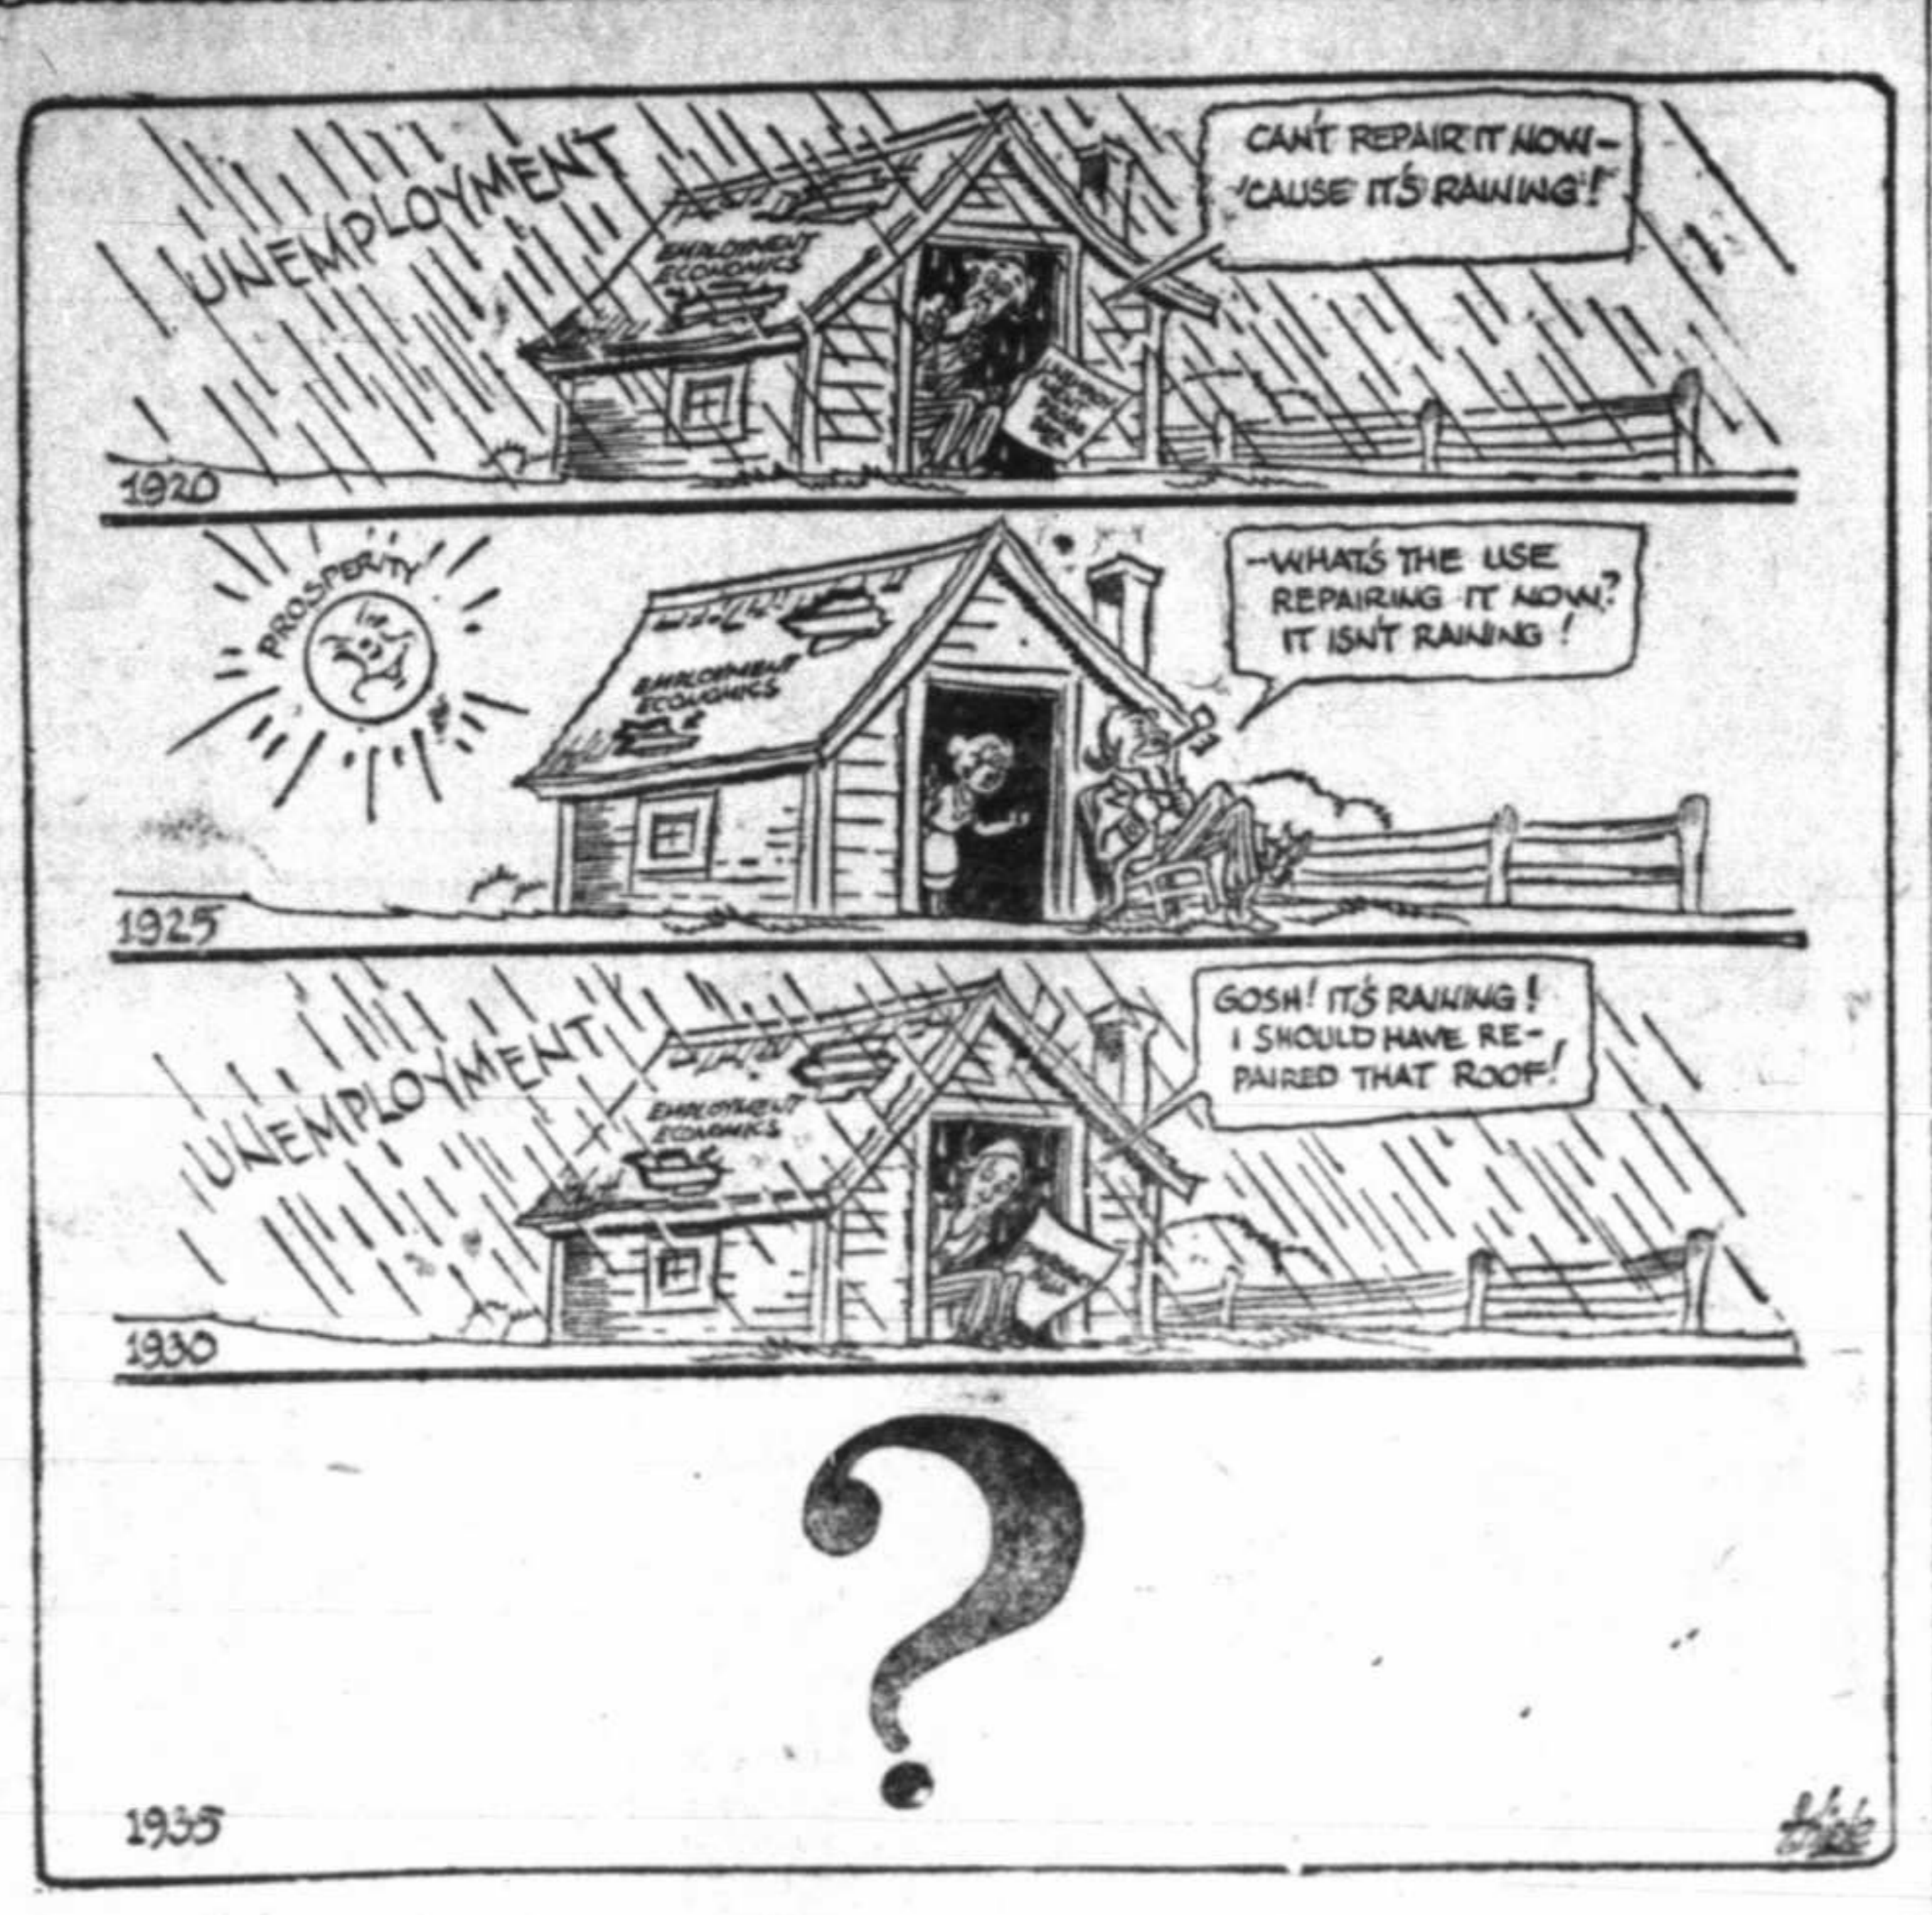

Consider too, the domestic situation. The wearing of pants has long been a symbol of authority in this country—and Heaven be praised, let's hope it always will be. Everybody's heard the expression "Hey! Who do you think's wearing the pants in this family?" and who wants to relegate it to the ash-heap?

Imagine the embarrassment of a husband of 1900, asked by a friend "who wears the pants in your family?" He'd have to reply "Why, boy, there ain't been no pants in this family for thirty years!"—and it would serve him right.

The Plainsman likes to think he's a pretty progressive sort of a nut. He's in favor of paved roads, airports and all those sort of things but he's got to draw the line somewhere. It's all right to be progressive—but why adopt a fashion that makes men look like they've just come in from a disastrous season at strip poker? We're agin' it—stump agin' it!

**Sheppard-Towner Maternity And Infancy Bill Likely To Stay Dead—Agreement Hard To Reacher, Dutcher States**

**BY RODNEY DUTCHER**  
 NEA Service Writer

**WASHINGTON,** June 13—The Sheppard-Towner Maternity and Infancy Act, a piece of legislation which always seemed to interest the women of the country more than any other, is likely to stay indefinitely as the result of a misunderstanding of something between Congress and the White House.

That is the law under which the government appropriated more than a million dollars a year to co-operate with the states in the welfare and hygiene work for mothers and babies, under the administration of the Children's Bureau. The act ran for seven years and everyone seemed to agree that the work was a great success, striking at the mother and infant mortality rates, but it stopped on July 1 of last year when Congress failed to appropriate the money to keep it going.

**Not Getting Anywhere**  
 Women's organizations thought it was fine business to have a "child welfare president" like Mr. Hoover. Now some of their officers are complaining privately that the president has taken such an active interest in the problem that things are getting all balled up without any progress.

After he had announced his White House Conference on Child Health and Child Protection the word went to Capitol Hill that the president didn't want any action on the Sheppard-Towner measure before the conference made a report, which would take a year or more.

Nevertheless, in his message to the regular session of Congress Mr. Hoover declared himself in favor of continuing the Sheppard-Towner Act under the Children's Bureau, with a limited period of years and Congressman Cooper of Ohio and Senator Jones of Washington introduced bills which would provide money to start the thing going again.

But Cooper says Mr. Hoover made subsequent demands concerning the legislation and he introduced a second bill to square with the presidential ideas. This bill would transfer maternity and infant hygiene work to the U. S. Public Health Service. The women complain, however, that it gives no assurance that real practical work would be carried on. The Public Health Service has never done any maternity work, whereas the Children's Bureau has been engaged in it for many years. And the theory of those who will have none of the second Cooper bill is that in order to reduce the baby death rate the mothers who need education must receive it. During the food relief work the president became very fond of the county health units and his idea lately has been that these should be used in future administration of the Sheppard-Towner Act. There are, however, good reasons why many counties which have no such units, Minnesota, for instance, is said to have but one county health unit.

These nearly always disappear. These marks do not look like the real port wine or strawberry marks which do not disappear. However, these red blemishes are very successfully treated now by skin specialists with the X-rays or radium or carbon dioxide snow, depending upon the case. Usually the earlier they are treated, the better. Just what causes the temporary and permanent stains is not known.

**NEW YORK,** June 13.—You'll find the oddest people doing the most unexpected things in this man's town.

The other day, I dropped in on the convention of American Bookdealers and Bookshellers. And I met a dapper, well-groomed, intelligent high-powered salesman for one of the big publishing firms. He can talk to you in rapid fire fashion about all the latest books and their authors. He can amuse you with humorous tales of the road.

And also, on a moment's notice, he can unwind his memory and look back on the days of "the gas house belt" when, as a lad, he was thrown amidst the most picturesque gangsters New York has ever known.

He grew up with Monk Eastman and Humphry Jackson and all the rest of the ill-fated gun guys of another era. He can tell you about city officials who hold respected positions and lead the most conservative lives who "have three bullets in their back" to remind them of their boyhood days.

You'll hear of funds that started outside the church doors among young gang-guns and of gang wars that wiped out a dozen lives before they were ended. The narrator comes in and out of the plots and counter-plots, sometimes participating and sometimes looking on. But always familiar with the actors.

Yet today, he's one of the men that make your handsome library possible and adds to the cultural life of the nation.

Funny—ain't it, that a gang-kid from the gas house should wind up that way!

Ladies and gentlemen, allow me to introduce John S. Waters!

At this same convention I heard about quite another New York personality. One Max Soloh.

Max, it seems, doesn't bother himself much about literature per se. Yet when you get one of those "35 books marked down to \$1.75" in the chain drug stores and cigar stands, just credit Max.

Max may or may not know just what service he is doing to the world by letting it peep in on books that it might not otherwise be able to afford.

For Max is the gent who takes the unsold copies off a publisher's hands at a very low price and turns them loose upon the world at a great bargain. And it's his innovative idea which is having more than a slight effect on the nation's reading.

As for Max himself, he is not to be impressed by important names and well known titles. Max finds that the great public wants to get its money's worth in books if not in art. What it is having more than an earnest young publisher to sign.

Few of the fans of Moon, Flo Ziegfeld—now of Hollywood and way points—know that he has a very private box in his own theater. It is privately entered from a private suite he maintains. It is high above the balcony and the orchestra seats, built in a rear wall, like a cave. There it is possible to see and hear what is going on upon the stage, but also to watch the reactions of the audience. It is never occupied by any persons other than Ziegfeld and his immediate circle.

**Two Are Injured In Llano Explosion**

**LLANO,** June 12 (AP)—A premature explosion of dynamite here yesterday seriously injured Reuben Tommie, 21, of Llano, and F. M. Stuart, 35, of Jacksonville, Fla. Both men were sent to a hospital at Austin.

Stuart, superintendent of construction of highway 29, and Tommie were putting in a water structure four miles north of here on the highway when the dynamite exploded prematurely. Stuart was in danger of losing his eyesight, and Tommie's right leg was blown off and one eye perhaps put out.

**MAN ENDS HIS LIFE AFTER SIXTH ATTEMPT; HANGS SELF BY BEDDING IN JAIL**

(By Associated Press)  
**PROVO,** Utah, June 13—Jesse Ferguson, 35 year old miner, who officers said, suffered a sudden attack of insanity, made five attempts to take his own life and finally succeeded. His body was found hanging from the bars in the cell at the county jail Wednesday.

Ferguson slashed his throat with a razor while driving an automobile with his wife and two children. Falling to inflict a fatal wound, he leaped from the car into the path of an approaching car. The driver swerved, missing him. Patrolman G. E. Van Wagenen took the man into custody and removed the bullets from his gun. During the trip to Provo, Ferguson suddenly grabbed Van Wagenen's gun and at-

tempted to shoot himself but the weapon was not loaded.

As the officer speeded up his car to 55 miles an hour en route to the insane asylum here, Ferguson smashed the rear window and leaped out on his head. Van Wagenen found him still conscious. It required 25 stitches to close the gashes.

Ferguson insisted he would not remain at the hospital, so he was placed in the county jail. During the night he hanged himself with strips of blanket which he tore from his bedding.

Now that a group of congressmen have engaged in a horseshoe pitching tournament, you may expect they will be called before a naive Senate investigating committee to explain all about those "ringers."

### NEW LOWS ON STOCKS MADE

#### LOSSES AVERAGE TWO POINTS ON LEADING ISSUES TODAY

NEW YORK, June 13 (AP)—Numerous utilities, rails and motor accessory shares again touched new lows for the year under the light selling pressure evident in the forenoon stock trading today. Losses averaged two points in the utilities. American Telephone sold down to 214, a new 1930 minimum, and sympathetic weakness spread throughout the list.

The motion picture group was heavy. Coppers were sold on news of a reduction in export prices. Allied Chemical, Auburn Auto, Louisville & Nashville, Low's, International Harvester and R. H. Macy lost several points. New York Central, Johns-Manville, Underwood-Elliott-Fisher, Lambert, Gillette, Paramount-Public, Fox, Mack Truck and Calumet & Arizona yielded around 2 each. U. S. Steel met support after dripping below yesterday's close and soon showed a gain of more than a point.

Call money renewed at 2 1/2 per cent, the lowest since March 20 when the rate was 2 per cent.

#### CHICAGO GRAIN

CHICAGO, June 13 (AP)—Quick rallies from initial downturns in values formed the rule early today in the wheat market here.

Starting 1-3/4 to 1-1/2, wheat afterward more than recovered. Corn, oats and provisions developed firmness likewise, with later opening 3-8 to 1-25 off, and subsequently showing an all around advance.

### MOTHER, 1,200 MILES AT SEA, TUCKS TWO SMALL BOYS INTO BED IN CHICAGO

(By Associated Press)  
CHICAGO, June 12—A mother, 1,200 miles at sea, tucked her two small boys in bed in their Chicago home last night—by radio telephone.

Mrs. John J. Zolp, aboard the S. S. Leythian, talked with the boys, Junius, 6 years, old and Buddy, 12, years older, just at their bedtime. Junius was the first to reach the phone when it rang, and what he wanted to know right away "have you been seasick, yet, mother?"

Next he inquired if there were "any ducks out there."

Buddy, older and more serious, made some adult inquiries as to how the boat was run. Then he told how lonesome he and his brother were. Mother promised to "make you something nice when I get back," and with that the boys went to bed.

It was the first regular radio telephone conversation between Chicago and a ship at sea.

### ONE OF FABLED "SEVEN CITIES OF CIBOLA" BELIEVED TO HAVE BEEN DISCOVERED IN ARIZONA BY FEDERAL LAND MAN

(By Associated Press)  
PHOENIX, Ariz., June 13—W. J. Hanna, federal land inspector, has announced he has discovered an ancient city in southwestern Arizona, believed by the Indians to be one of the fabled "Seven Cities of Cibola."

Hanna stumbled upon the ruins while roaming through a desert near the Mohawk mountains fifty miles south of Phoenix.

The ruins, neatly levelled, are covered by shifting sand dunes over an area six miles square, he said. Traces of masonry and hard beaten thoroughfares appear. Grinding stones and pestles and broken pieces of pottery are scattered about. A pre-historic water course is evident and the remains of an elaborate irrigation system criss-cross it.

Legend says the "Seven Cities of Cibola" were built of gold. A Spanish priest, Father Niz, told of camping on a cliff and watching the inhabitants dine from plates of gold. Others sought the cities, among them Coronado, the explorer, but in vain.

Hanna plans to revisit the ruins next fall and make excavations.

### ACT TO SAVE LINDY'S BOYHOOD HOME

The modest frame house, above, near Little Falls, Minn., that Colonel Charles A. Lindbergh called home, when the boyhood picture of him at the right was taken, is to be preserved as one of the historical show-places of northern Minnesota, if the local Board of

**DREDGE IS DAMAGED**  
PORT ARTHUR, June 12 (AP)—After being damaged to the extent of \$75,000 when struck Tuesday by the British Steamer Nyansa, the U. S. dredge Sam Houston was sunk last night in 30 feet of water in the ship channel here after colliding with the Tennessee Coal and Iron company's tug Hulver, which was towing the steel barge Lake Capen, en route to Beaumont with a cargo of steel.

**GLASSGOW, Scotland** (AP)—Romantic marriages at the smithy of Great Green are on the increase, 300 having been performed in 1929 over the anvil to which eloping couples from England and Scotland go to escape the red tape of formal ceremonies.

**CANBERRA** (AP)—Six thousand young cherry trees have been sent to the Australian national botanic gardens here by Prince Takamatsu of Japan in recognition of the welcome given to him when he visited Australia in July of last year with the Japanese training squadron.

**LONDON** (AP)—Two hundred years ago Oliver Goldsmith was held in jail until Doctor Johnson could sell to manuscript of "The Vicar of Wakefield" for \$100 and pay the poet's board bill. Within recent weeks five Goldsmith manuscripts have fetched \$100,000 from American collectors.

## They Couldn't Know

BACK IN 1818 the greatest newspaper of the day declared that the world had reached the limit of human expansion. It even went farther, saying that there weren't enough supplies in the world to support further growth of population.

The mind of 1818 couldn't conceive of the miracles that human ingenuity would perform during the twentieth century. It couldn't imagine the wonders that would be wrought by new agricultural methods and modern manufacturing genius. It was ignorant of transportation as we know it, or the progressive sales methods of today. It could not see the vital part that would be played by advertising.

Even today there are some who fail to realize what an important factor advertising has become. Advertising is as much a part of today's life as electricity, antiseptic surgery or automobiles. It keeps us up to date on the many things we need in order to live profitable, happy and useful lives. It presents for our approval articles of all kinds and for all purposes. The requirements of each member of the family are met by advertised offers of good merchandise of proved value.

The advertisements save time, money and effort for those who read them and follow their guidance. They are practical guarantees of satisfaction.

Don't lay aside this paper without reading the advertisements

Ankle-Fashioned Oxfords

### Real values In Men's Oxfords That Fit

The fitting qualities around the top of all Nunn Bush Oxfords is something that men appreciate. No gaping or bagging at the side or heel—no extra fullness where it is so unsightly.

Aside from this, Nunn Bush Oxfords are designed in especially pleasing shapes for both men and young men—the leathers range from the heavier calf types to the softest kid stocks. They are real oxfords at moderate prices.

human and un-American Dean act. It will make Texas citizens safe in their homes, so far as the state government can assure it, in the enjoyment of their decent, ancient habits and customs.  
Down to This  
"It boils down to this: Either the 650 poor devils now doing time for Dean act violations ought to be liberated, or the two or three million of us here in Texas who habitually disregard the prohibition laws ought to be in prison with them."  
"The desperate efforts of President Hoover, Senator Sheppard, Mrs. Ferguson and others to save prohibition by making its laws still more savage, come too late. Why, if the existing state and federal prohibition laws could be enforced, we would have fifty million men and women behind the bars, and the other seventy million feeding them

and standing guard over them. The whole situation is a monstrous absurdity.

**Due for Surprise**  
Those who say the repeal candidate hasn't a chance in the July primary are due for a surprise when the votes are counted. Thanks mainly to the local weekly newspapers of Texas, and especially to the foreign language papers read by what Alvin Moody calls "our alien horde", repeal is gaining ground rapidly all over Texas. With a dozen candidates dividing the steadily dwindling dry vote, the repeal candidate's chance to get into the runoff primary is as good as any and better than most of them. This is going to be an election, not an auction. Texas is not yet ready to sell the governorship to the highest bidder. Tom Love, smartest of the dries, knows this is true. That's why he told the state committee at Austin Monday that he wouldn't vote for Frank Putnam in November if I am the democratic nominee. Tom knows I'll do exactly what I promise."

Sharkey's manager, Johnny Buckley, clamored for a return match, but at Madison Square Garden no enthusiasm for this was manifest.

### MULDOON SAYS TROPHY NOT TO GO TO MAX

NEW YORK, June 13. (AP)—The Evening Post today quotes William Muldoon, veteran member of the New York State Athletic commission, as saying that Max Schmeling's name will not be engraved on the Tunney-Muldoon trophy, emblematic of the world heavyweight championship.  
"No man who wins the title on a foul will have his name engraved on the trophy," said the "solid man."

### SCHMELING TALKS TO MOTHER IN GERMANY

ment on the way back to Lubbock and the Johnston ranch. The riders will attempt to get up the hill that is 300 feet long, 150 feet high, with a 50 per cent grade. No regular stock machine has yet made this hill, however some of the professional riders are expected to be able to make the hill using special machines which they have. Ropes will be used in letting the riders back down the hill to prevent the machines getting beyond their control on the steep incline at riding up the hill.  
Wade Anthony and other officials of the Lubbock Motorcycle club are particularly anxious that all motorcycle riders who are interested in entering either of the three contests, novice, expert, or professional, communicate with the club immediately.

### Varied Program Is Held By ABC Today

Robert "Bob" Hester furnished the feature source of amusement to American Business club members today noon at the regular weekly luncheon session at the Elton hotel, when he was toasted by the program chairman and complimented by visiting ladies.  
Misses Lela Tipps and Sylvester

Powers entertained the members at various periods during the luncheon with vocal solo and piano numbers. Miss Powers, dedicating the first number to Mr. Hester who blushing and graciously responded by immediately ordering an armful of carnations for both the young ladies, sang "If You Were the Only Boy in the World."  
Announcement was made today that the delayed baseball game between the A. B. C. club and the Kiwanis club will be played next Friday afternoon at 5 o'clock. Manager Windy Watkins stated that his team was in the pink of condition and ready to go while reports from the Kiwanis camp are to the same effect.

### U. S. CENSUS

(Continued from Page One)

more than one-fourth the population, 25.9 per cent, were big city dwellers. This census is sure to see a commensurate rise.

Near 35,000,000 Mark  
For the 87 cities of more than 100,000 already reported totaled 24,177,977 inhabitants. And if the missing New York, Philadelphia, Boston, Cincinnati, Denver, Columbus, Louisville, St. Paul and Albany reports do not show a single increase, but are added in their 1920 figures, the total would be 33,833,525. It therefore appears certain that the number of those who love their fellow men to the extent of living in a center of more than 100,000 will range around the 35,000,000 mark.

Ten years ago, but 27,429,326 persons were living in cities of more than 100,000. They were 25.9 per cent of the population.

That percentage of the estimated 1930 total population would be 29,845,953.

Since the big city total has passed that mark by several millions, it is now known definitely that the urban traffic policeman shrills to a mounting proportions of the population.

WASHINGTON, (AP)—The House of Representatives today completed the process of electing a new speaker when the House, after a 10-hour session, elected Charles McNary, Republican of Oregon, to the post.  
McNary, 57, of Astoria, Oregon, defeated the Democratic incumbent, Charles McNary, 57, of Astoria, Oregon, by a vote of 217 to 207.  
The election took place after a long and bitter struggle, with McNary's opponent, Charles McNary, 57, of Astoria, Oregon, leading for much of the session.  
McNary's victory was a surprise to many observers, as McNary was considered a long shot.  
The election took place in the House of Representatives, which is the lower chamber of the U.S. Congress.  
The House is made up of 435 members, who are elected by the people of each state.  
The House has the power to impeach and remove federal judges and officers.  
The House also has the power to originate and pass bills, which are then sent to the Senate for approval.
