## BULLS WILL WIN POUND OF FLESH

NOW SEEMS IMPROBABLE THAT DELIVERY OF 15,000,000 BUSHELS OF WHEAT CAN BE MADE.

## WHEAT FIGHT NEARS END

Inability to Get Wheat Transferred From Cars to Elevators a Stumbling Block.

By Associated Press. Chicago, May 31.—The leaders of the present May wheat deal are said to have bought between twelve and fifteen bushels for May delivery and it is not believed this amount can be turned over by tonight. The bull leaders insist on the delivery of every bushel they purchased, otherwise the undelivered wheat will go on the July basis, which is twelve to thirteen cents under May. Officials of the Board of Trade deplore the deal and are investigating.

Owing to inability to get the wheat transferred to the elevators, which is the last step required in delivering wheat of the contract grade in car lots—lots within ten feet of elevators sold Monday for 92 cents, which was the July price against \$1.03, the ruling May price at that time. No attempt at protection of the cash wheat market was made by the owners of May delivery on Monday.

## RAIN TOO LATE TO HELP WHEAT

Special to The Times. Oklahoma City, Ok., May 31.—While the recent rains throughout the State will help the late oats crop, wheat will not be materially benefited and the State will produce but about 8,000,000 bushels this year as against 26,000,000 last year, said D. C. Kolp, local grain dealer, Tuesday. The 1910 crop was above the average, but not the greatest produced by any means, 30,000,000 bushels having been harvested one season. The rains came too late this year to do any good.

"Harvesting wheat has already begun in Denton County, Tex., the biggest grain producing county in that State, and new grain will be on the market from that source by the latter part of this week. Locally, farmers will begin harvesting some time next week.

"Corn is in excellent shape," said Mr. Kolp. "There is a big acreage, a good stand and it has been well worked. It is too early to figure on what the corn crop will total, but it will be an enormous yield. We have not had a good corn crop for two years.

"While the oats crop has been materially helped by the rain, there will be, from present appearances, but about one-third the normal yield. Harvesting will begin in the State about the middle of June, or possibly as late as June 20."

Other dealers report substantially the same conditions throughout the State and for the Northern Panhandle of Texas, the crop falling far short of the normal for wheat. Some place the yield of oats as high as half the normal.

## BRYAN'S ATTACK MUCH DISCUSSED

CHAIRMAN UNDERWOOD BELIEVES TARIFF ON WOOL WILL BE RETAINED.

## LEADERS ARE REPROVED

Bryan Declares Wool Tariff is Subterfuge of Protectionists—Discusses Drift of Leaders.

Washington, May 31.—There was a lively discussion today among both Democrat and Republican members of the House over Mr. Bryan's attack yesterday on the Democratic leaders for drafting a protective measure instead of putting raw wool on the free list. The Democratic leaders think the House will ratify the ways and means committee recommendation which Bryan opposes. Chairman Underwood expects that two-thirds of the Democrats will stand by the committee's recommendations at tomorrow's caucus on the subject. Neither House nor the Senate is in session today.

"The Democratic voters," Mr. Bryan said, "know that all needed revenue can be raised in less oppressive ways and they know the argument that the tariff on wool is proposed as a revenue tariff and is merely a subterfuge employed because those who employ it are ashamed to say they favor protection."

The Nebraska warned against the drift of Democrats toward a protective policy, which, he said, is most marked in those Democrats who "have among their constituents influential beneficiaries of the system."

"The Republicans want protection on wool because they believe in the principle of protection," he said. "Let no Democratic advocate a tax on wool masquerade behind the pretense that he is voting for a revenue tariff; let him not add hypocrisy to the sin which he commits against his party."

Before the Democratic party is finally committed to the doctrine of protection," he said, "it will be necessary to consult the voters of the party, and it may be well to remember that the voters of all parties are braver than the politicians. The Republican voters were brave enough to turn out a lot of Republican Aldriches, so what reason have our Democratic congressmen to think that Democratic voters are less courageous."

## A SETBACK ON STOCK MARKET EXPERIENCED

New York, May 31.—Stock market unsettled to unusual degree today on account of the Tobacco trust decision and the indications for an "open market" in the steel and iron trade. The set-back was unexpected inasmuch as many standard stocks had made material gains over Monday in the London market. Within the first hour concentrated selling dominated the market, bringing about a sharp reversal all around. American Tobacco common on curb opened at 50c, unchanged from Monday and then worked down 82 points to 418. On the stock exchange dealings in four and six percent tobacco bonds were most active. Fours advancing one-eighth and a-half points, while the sixes fell off seven points.

## Barton Miller On Trial

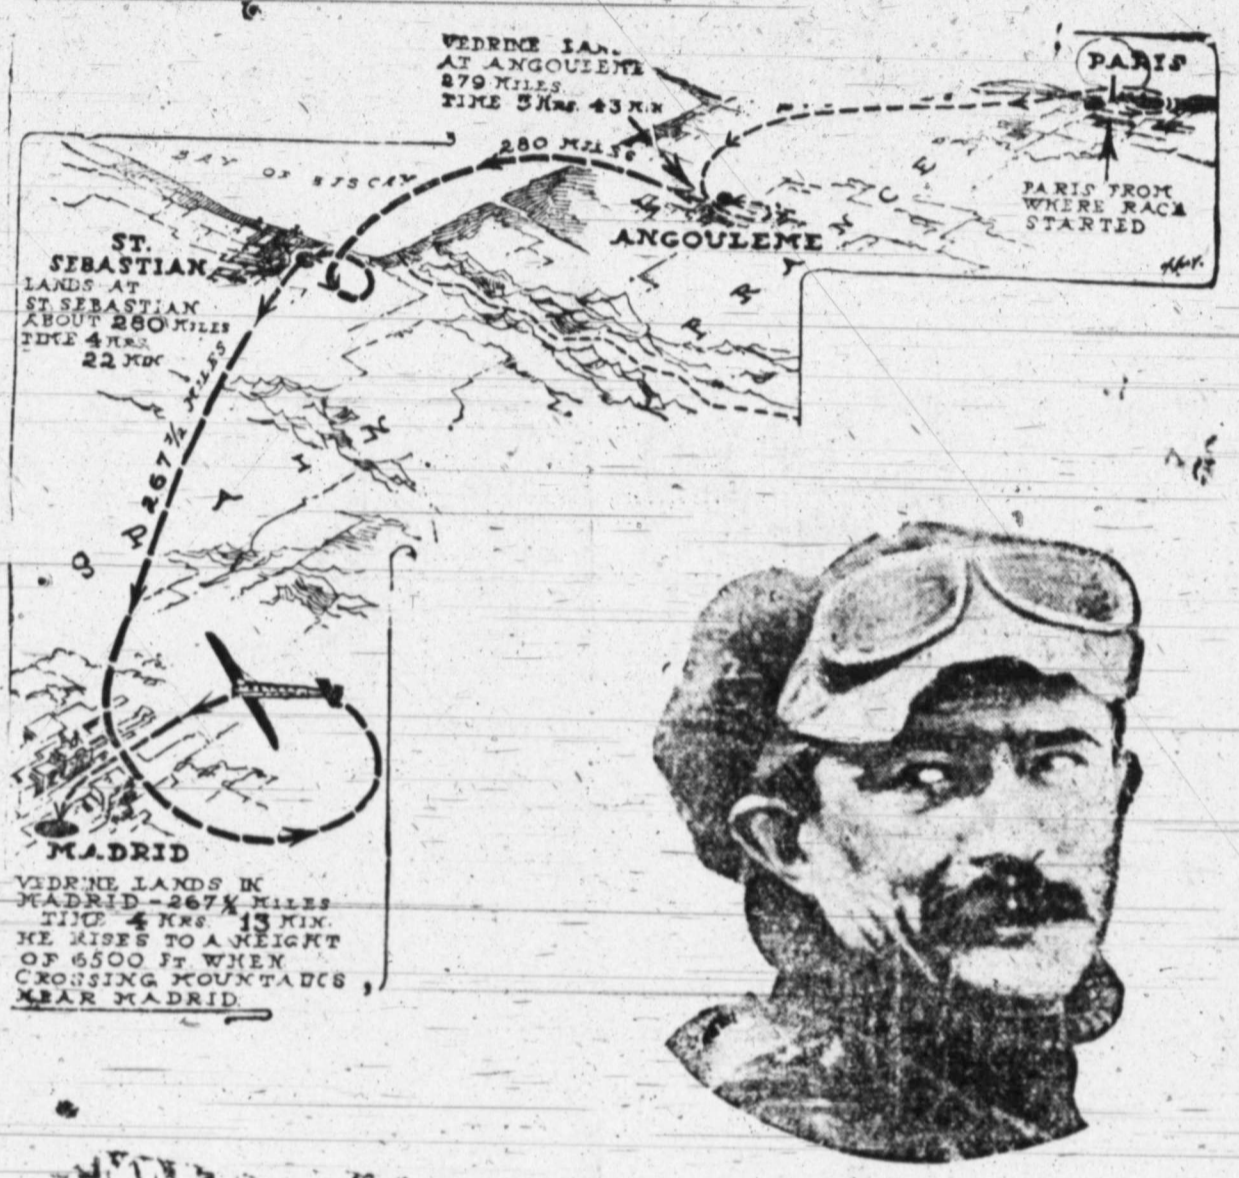

Washington, May 31.—John Barton Miller, former secretary-treasurer of the defunct First Co-operative Building Association of Georgetown, was arraigned for trial today on charges of embezzlement out of the failure of the association. Miller is to be tried on a indictment charging him with destroying the books of the association and also re-tried on a charge of embezzlement. He was convicted on the embezzlement charge a year ago and sentenced to serve twenty years in the penitentiary. A new trial was later granted on appeal to the District Court of Appeals.

## "Il Trovatore" at Gem Again Tonight

The Gem Theatre tonight is offering for its feature the great Pathé picture of the opera "Il Trovatore." The picture was shown at the Gem Monday and attracted so much attention that Manager Tritch decided to have it returned for tonight to enable those who could not be present Monday to see it.

It is conceded by all film experts that Pathé is the greatest of all picture makers, and Pathé claims for this that it is the best he has ever done. The colors are represented exactly as the actors were dressed in the opera, and the whole work is true to the actual life production of the play.

As the result of his wonderful flight, he has been decorated with the cross of the Order of Alfonso XIII and has been acclaimed the greatest aviator in the world. There is now talk of his attempting a flight all the way from Madrid to London, stopping at Paris and possibly western part of Europe.

## G. T. & W. OFFICIALS IN CITY TODAY

Ben B. Cain, president of the Gulf, Texas and Western railroad, with F. E. Heafner, general freight agent, and W. Frank Knox another prominent official of the road were in the city today on business and will return to Fort Worth on the delayed Denver train this evening. While these gentlemen had nothing to give out with reference to their trip, it is understood that they are here in conference with other railroad interests with reference to matters of an important nature the particulars of which may be made known when matters shall have more fully developed.

It will be remembered that there has been some talk of another connection between Wichita Falls and Ft. Worth via the Wichita Falls and Southern to a connection with the Gulf, Texas and Western and thence to Fort Worth from Jackboro. While it is not known that the visit of these gentlemen at this time has to do with this matter, still there are those who are of the opinion that such an arrangement is one of the early possibilities in connection with railroad improvements.

Deputy Sheriff George Hawkins went to Iowa Park on the noon train in response to a telephone message to the sheriff's office that a drug store at that place was robbed last night of \$40 in money and a quantity of jewelry. Further particulars of the robbery had not been received at 4:00 o'clock this afternoon.

T. E. Dobson, president of the company, and W. L. Kemper, who will manage the plant, are now in the East purchasing machinery other than that for which orders had already been placed, and the work of installing the plant will progress as fast as the material can be received from the factories.

## Rawhide Strap LOCATES DIAMONDS

Lash in Hands of Negro Father Produces Results Where Police Third Degree Fails. Where the police third degree utterly failed a rawhide strap in the hands of an earnest negro father brought the desired results and caused a negro youth to divulge the hiding place of diamonds valued at \$500 that had been stolen from the home of J. F. Holt, 1617 Tenth street, last night. The diamonds were found at the place designated, and the negro youth was allowed his liberty, but will probably eat his meals standing for several days.

The diamonds belonged to Mrs. Holt. They had been placed in a dresser drawer, and were taken during the afternoon while two young negroes were at work in the house. They were missed by Mrs. Holt when she was about to retire. Suspicion pointed to the negroes. The younger one had seen Mrs. Holt place the jewels in the drawer. The police were notified and Officers Pickett, Skeen, Lowery and Yearg went to work on the case. The younger negro was apprehended and upon being questioned by Officers Pickett and Lowery he said he had seen the older negro take the rings. This was proven a falsehood whereupon he admitted having stolen them himself and said he had sold them to another negro for \$12. He was soon made to retract the statement and told another story of having disposed of them to another negro. This and other stories told by the negro were under the third degree. Finally the negro boy's father who had been put in jail earlier in the day and another complaint was brought out and the circumstances told him where upon he asked to be handed a strap he kept for the purpose, and proceeded to give the lad a plaster of the fiery raw hide. This treatment speedily revealed the hiding place of the missing jewels. After removing the diamonds from the dresser drawer it was learned, the younger negro had secreted them in another part of the Holt home from where he later transferred them to another hiding place.

## IMPORTANT DECISIONS BY HIGHER COURT

By Associated Press. Austin, May 31.—The Supreme Court reversed and remanded the case of the Orient Railway versus the City of Sweetwater. The court held that the railroad officials' contract to locate the shops and headquarters at Sweetwater was not binding. This means they will move to San Angelo.

Supreme Court held in case Mechanics' National Bank versus W. T. Hanks, from Tarrant, that the owners of elevators in buildings are not common carriers in the sense this term is applied to railroads.

Court of Criminal Appeals affirmed the case of Jim Day from Denton. The Third Court of Civil Appeals sustained the contention that liquor dealers are liable to a gross receipt tax on all sales, not merely on actual receipts as contended by Milton Eppstein.

The Supreme Court established the right of counties to issue bridge repair bonds amounting to less than \$2,000 without a vote by electors. The Court of Civil Appeals held that when a man marries a widow with a child he is obliged to support the child as if it were his own offspring. Decision was in case of Henry Franks versus Fanny Franks of Fayette County.

Frank Kell left today on a business trip to Chicago.

Garros, the Frenchman and Frey, the German Fall With Machines But Escape Unhurt.

By Associated Press. Genoa, May 31.—Roland Garros, who was leading in the Paris-to-Turin race fell about forty miles from Rome this morning, but is unhurt. His machine rolled over on its back but was not badly damaged. Frey, the German entrant, fell near Pisa but also escaped unhurt. The fall broke his propeller. Beaumont, the American entered, passed here safely and reached Rome this afternoon, winning the \$20,000 prize.

Beaumont flew here from Pisa in a single stretch of one hundred and sixty miles. Beaumont also had an accident near Pisa, but repaired his machine quickly and was off on his successful flight to Rome. The accidents of all three of the aviators were due to their mistaking his flag lined race course at Pisa for an aerodrome and landing too heavily. All machines turned somewhat.

St. Paul, Minn., May 31.—Arrangements are all completed for the big Democratic conference here tomorrow, in which the party leaders of all the Northwestern States will take part. ## PHYSICIANS SUBSCRIBE TO HOSPITAL FUND

At Meeting Tuesday Night \$2,000 Was Subscribed—Dr. Miller Named as Member of Standing Committee.

A meeting of the physicians of the city was held yesterday afternoon at the office of Doctors Mackechnie, Amason and Meredith in the Kemp and Kell building for the purpose of considering matters in connection with the proposed hospital planned to be erected by the Catholics Sisters. Those present were very enthusiastic over the matter and the sentiment was largely in favor of encouraging such an institution as much as possible, the physicians expressing an appreciation of the need of a hospital such as is proposed by the Sisters, one that will contain fifty beds, twenty-five of which will be in private rooms, while the remaining twenty-five will be in five rooms of five beds each.

In connection with the meeting Dr. R. L. Miller who has taken an active part in promoting the meeting, was appointed to represent the physicians on the Chamber of Commerce committee selected to raise the \$20,000 required to secure the hospital, and Dr. Mackechnie was appointed as alternate.

During the progress of the meeting the matter of subscriptions on the part of the physicians was discussed and a \$2,000 was started, with \$2,000 was subscribed in connection with the meeting. Immediately after the meeting Dr. Miller advised \$275 to the list. Those subscribed at the list yesterday afternoon were: Dr. T. C. Coons \$100, Dr. G. A. Vandy \$50, Dr. M. M. Walker \$50, Dr. R. C. Coons \$100, Dr. G. A. Vandy \$50, Dr. M. M. Walker \$50.

There were three pleas of guilty in the justice court this morning, one of which paid in cash the fine assessed, while the other two were placed in the road gang.

Rev. N. R. Stone, pastor of the Methodist Church at Leonard, Texas, who with his son was a visitor to the city yesterday, has purchased the Dr. Walter home place, located at 1305 Eleventh street, for which he paid \$2,500.

### Reports Show Progress in Texas Road Building Campaign

Port Worth, May 31.—The Commercial Secretaries' Association has been conducting a State-wide campaign through the Commercial Clubs and the press of Texas for an expenditure of \$25,000,000 on our public highways in 1911 and the organization has just completed an investigation into the progress made in road building during the year and finds that an expenditure of \$25,000,000 is practically assured and if the intense interest in road construction continues, an abated expenditure of \$50,000,000 during the year is within the bounds of possibility. A woman's idea of something too good to keep is any secret. Pointing out a man's faults isn't the kind of pointer he likes to get. Some people seem to have an idea they can buy their way into heaven by paying pew rent. The dyspeptic was discouraging on the subject of his ailments. ### LAKESHORE ASSEMBLY PUBLICITY CAMPAIGN

Secretary Day, co-operating with the committees of the Lakeshore Assembly, is conducting one of the most active campaigns in behalf of that occasion that has ever been known here in connection with a similar attraction, and if the attendance is not a record breaking one for an event of this kind it will not be the fault of those in charge of the campaign of publicity. Thousands of letters, folders, cards, posters and other forms of advertising matter are being mailed out to addresses furnished by different members of the two conferences and it is likely that every member of the church in the territory embraced in the assembly will receive literature calling attention to this big meeting. Not only is the Assembly being advertised in an active and extensive way, but a program of a high order is being arranged and all who come will be helpful entertained both in a literary and religious way.

### IMPORTANT MEETING OF AD CLUB TONIGHT

Secretary Day of the Wichita Falls Ad Club this morning received a telegram from the secretary of the Ad League at Dallas requesting that the club at this place send delegates to Dallas on June 20 to be present and participate in a meeting called for the purpose of organizing a State Association of Advertising Clubs. A like request, it is understood, has been communicated to all the Ad Clubs of the State with a view to having a representative meeting at Dallas on the date indicated above. The matter will be brought before the meeting of the local Ad Clubs tonight and it is possible that one or more delegates will be selected to attend the Dallas meeting.

The following may be given as an estimate of the chief items that the state will be called upon to defray in connection with King George's coronation: Sumptuary allowance (for entertainment of royal visitors)..... \$ 350,000 Entertainment of Indian princes, etc..... 330,000 Colonial office (for entertainment, etc.)..... 65,000 Admiralty (for travel and victualing of bluejackets, etc.)..... 60,000 War office (for travel and victualing of troops, etc.)..... 200,000 Board of works (for alterations at Westminster Abbey)..... 145,000 Earl marshal (for expenses of processions, etc.)..... 25,000 Miscellaneous..... 50,000 Total..... \$1,225,000 Of course, the coronation and its attendant functions mean the expenditure of a vastly large amount by private individuals. Whether these enormous sums of money might be put to better practical use is a question that I prefer to leave to economists; but it is certain that the great ceremonial, in its business aspect, is a blessing to tens of thousands to whom it brings profitable work, while those on whom the financial burden falls are easily able to bear it.—Munsey's Magazine.

### Pointed Paragraphs. Chicago News.

A man should be square and a woman should be plump. Beware of the talking machine that talks machine politics. Tell a girl she is beautiful and it will be news to her she really is. A baby cuts its teeth even before it is on speaking terms with them. Once again the young man's fancy turns to thoughts of vacation money. A woman believes in making her own laws and following her own fancies. A man may induce a woman to keep a secret by not sharing it with her. Revenge may be sweet, but it is likely to leave a bad taste in the mouth. A woman never gets this from worrying over the fact that she is too fat. There's nothing that cures people wanting things like being able to afford them. Utopia says a bachelor is a land whose inhabitants are all engaged but none is married. It's impossible for a young man to surprise a girl by kissing her. She always guesses it if. Womankind is divided into two classes—those who are married and those who want to be. It is not difficult for a girl to love almost any young man that her parents are willing to object to. As a matter of fact, but few people ever have the opportunity of looking at a gift horse, in the mouth. A woman never ceases to question her husband's judgment until the undertaker gets busy with his person. When the thread of one's discourse depends upon a string of lies it is very apt to get tangled into a knotty problem.

### C. E. CONVENTION NEXT ON PROGRAM

June 8th to 11th Dates for Big State Meeting Here—Chautauqua Assembly Follows June 16 to 23.

That the citizenship of Wichita Falls and the visitors to the city will be well entertained during the next two months is evidenced by the attractions booked for this period, which include the State meeting of the Christian Endeavor June 8 to 11, the Chautauqua Assembly June 16 to 23 and the Lakeshore Assembly July 24 to 31. These attractions will bring to Wichita Falls some of the most noted speakers and entertainers in the entire country providing a literary treat such as is seldom afforded a city in the length of time. The attractions are all of the highest order and will leave an impress upon the people of the city that will be for the betterment of the moral tone of the community.

The first to come will be the Christian Endeavor convention, which is expected to attract several hundred delegates and visitors, and for which occasion the local committee has made extensive arrangements. The business men are already beginning to decorate with the colors of the society and there is a disposition upon the part of our people to make the event as pleasant as possible for those in attendance.

It is reported that a sort of tentative syndicate has been organized in Kansas City, with enough money in hand to make a talk about buying a Western league franchise. There have been several rumors that Tebeaus would be willing to admit another club there to play on the Blood park, but the report has not been given very general credence around the circuit.

Mike Lyons, rightfielder for the Hopkinsville team in the Kitty league established a new hitting record the other day in a game against the Vincennes team. He was up seven times and connected for seven hits, including two triples, three doubles and two singles, for a total of 14 bases. Hopkinsville won 24 to 2.

The extremely heavy hitting now going on all over the country is causing worry in big league official circles. After talking the matter over the other day Chairman Hermann of the National commission, stated: "I think it will be but a short time until a ball of less lively patterns will be in use."

That ended their run getting, and during the remainder of the game only two men reached first. The fielding throughout the game was spectacular and brilliant, several sensational catches being made. The score:

FREDERICK WON FROM LOCAL TEAM

The Frederick High School team took Wichita Falls, Tex., to a cleaning Monday afternoon on the local grounds, winning by a score of 4 to 2. On account of the rain the Wichita Falls team was not notified to come until nearly train-time and all their players did not get to the train in time to come up, but they got enough players to come and they arrived on the 4:25 o'clock passenger. The game was called shortly after the train arrived.

There was never a doubt as to the outcome of the game as the Frederick boys gained a lead in the first inning and maintained it throughout the entire game. The visitors were out-classed all around.

Frederick scored twice in the first inning, and from then to the final ninth inning they had a big lead over the visitors. Wichita Falls succeeded in pushing two men over the home plate in the fifth inning when Showalter let a bounce pass through him on second and Smith overthrew home with the ball. The visitors were unable to get another score during the remaining innings of the game. Frederick scored in the fifth, seventh and eighth innings.

The feature of the game was the base-running of Rogers and the hitting of Conner for the locals. Batteries—For Wichita Falls, LeFever and Smith; for Frederick, Wilkins and Wilburn. Umpire—Sterling Newland.

BASEBALL NOTES.

Durant is baseball crazy tonight. Washington was deposed as manager of the Durant team yesterday morning and was succeeded by Joe Connor.

The way the two pitchers were working the game should have gone extra innings, but an error by Taylor and a couple of ivory topped plays gave Durant five runs in the eighth.

Stopper got this usual number of hits in four times up he got three safeties.

Cap Morris made a sensational one-handed catch of a fly that robbed Durant of at least two runs.

RECIPROCITY OPPONENTS BEFORE COMMITTEE

By Associated Press. Washington, May 31.—What was expected to be the last day of the committee's hearings on Canadian Reciprocity featured today by the appearance of John H. Allen and Whidden Graham of the Farm of Allen & Graham of New York, who are said to have been employed to "manufacture sentiment" among the farmers in opposition to the agreement. Senator Stone had them summoned to tell exactly what they did. Stone alleged they were promoters and not practicing attorneys contorting the statement of N. P. Hull, master of the Michigan Grange that Allen and Graham had been acting as legal advisers for the National Grange. It was learned that this firm sent out for some officers of the National Grange literature warning farmers that reciprocity would injure them, and asking them to contribute to the opposition.

# CHARACTER SKETCH OF OHIO'S CHIEF EXECUTIVE

## GOVERNOR JUDSON HARMON OF OHIO

By A. V. ABERNETHY

**C**OLUMBUS, O.—(Special.)—When the bribery charges against members of the Ohio general assembly exploded with the suddenness and force of a bomb, and sent scores on a hunt for lawyers Governor Judson Harmon took the same view of the personality of guilt that he did when he reported to President Roosevelt that Paul Morton, a member of his cabinet, had been guilty of granting rebates while an officer of the Santa Fe railroad.

A few days after the bribery charges were filed, the Ohio executive sent out an order that no man should be spared in the legislative-branch investigation. Party and personal friendships must be set aside, the governor said, and the entire situation cleaned up.

Throughout nineteen years of continuous control Republican state administrations, when charges of irregularities were made involving members of their party, assumed the attitude "They are our thieves, and we must defend them." There is an Ohio statute which grants immunity to every

citizen had been demanding and pleading for in vain for decades.

The supremely important achievements of the Ohio Democracy under the leadership of Governor Harmon may be divided into transactions and legislation. First, for the elimination of graft; second, such reform in the tax system as will protect the taxpayer from the tax spender and will compel corporations to stop dodging taxes and pay along with all individual property owners; third, the application of business methods and economy in public expenditures; and, fourth, the enactment of purely non-partisan laws for the benefit of the entire people, irrespective of political parties, and designed to make rule by interest-seeking corporations extremely difficult and rare by the people.

After he became governor two years ago Mr. Harmon quietly began his investigation of the methods by which public money had been looted by Republican state treasurers. He learned they put interest earnings in their pockets. There followed in rapid order suits against the estate and bondsmen of W. S. McKimmon, former state treasurer, for \$116,783 and interest thereon; against former State Treasurer L. B. Cameron and his bondsmen for \$211,721 and interest thereon. They were

compelling all Ohio political divisions to purchase such supplies as they need from the penal institutions.

Employers and employees locked in a struggle over a workmen's compensation act, and when it seemed there would be no bill passed Governor Harmon stepped in and acted as arbitrator. A bill was framed and drafted that has been approved by both employers and employees.

The compulsory provisions which made the New York act unconstitutional were not incorporated into the Ohio act. Instead the employer could elect either to pay into the compensation fund or not to pay. If he should not avail himself of the law, however, the employee may sue for damages for injuries, or his legal representative in case of death may maintain the action. And in such suits the employer is deprived of the common law defenses of

liability in Dayton has never ceased. No governor has ever been opposed by so strong a force as Governor Harmon.

During his first term of two years a Republican general assembly to discredit him reduced the treasury balance \$2,652,858.68 by making appropriations exceed revenues and also created obligations amounting to \$2,000,000 more by deciding to build new structures for state institutions. When the revenues were reduced \$500,000 a year by voting out saloons and several hundred thousands of dollars were added to the wrong column by the abolition of prison labor contracts. Harmon's arms were apparently tired, and his enemies laughed at his discomfort.

The governor promptly reduced public expenditures. Then, instead of a general levy, the proper enforcement of the excise laws provided \$500,000 additional every year. The establishment

of a market for prison manufactured goods and the concentration of authority over nineteen state institutions is expected to add another \$500,000 to the state revenues. Thus was the sound financial basis without any additional burdens being imposed on the people who are least able to be further taxed.

Voters like to support clean and able men, as has been demonstrated in many localities where the electors displayed remarkable discrimination in honoring exceptional men with an exceptional vote. This explains why in a strongly Republican state Judson Harmon was elected governor of Ohio two years ago by a plurality of 19,572 in the face of the state favorite son, William H. Taft, president of the United States. Governor Harmon won the greatest Democratic victory in the history of Ohio, or of the middle west. It was a crushing blow to the president.

There are some things in Ohio more popular than the Taft smile. One of them is the Hon. Judson Harmon, who will countenance no frills and who sits on the edge of a big table that occupies the center of the governor's reception room and chats with visitors. "Common as an old shoe" is the way Ohio farmers size up their governor after they see him perched on that table, swinging his feet and

follow servant rule, assumed risk and contributory negligence.

The employee cannot resort to the courts for damages when injured in the factory of a corporation which pays into the state compensation fund except when the injury is caused by the disregard of a law, ordinance or order issued by an authorized public officer providing for the protection of employees or by the willful wrong of an employer, his officer or agents.

The employer contributes 90 per cent of the compensation fund and the employees 10 per cent. Awards range from \$3,400 to \$15,000 and are graded on the scale of wages paid employees.

The taxing laws of the state were a joke when Mr. Harmon was inducted into office and the taxpayers had no means to check extravagance of their public officers. These men decided on the amount of money they were going to spend in a year and then made a levy to produce that amount. Taxpayers could do nothing but pay.

"The authority which demands must be curbed," said the executive in a message to the general assembly. That body obeyed and passed the Smith bill which limited the maximum tax rate that could be levied by public officers in each district to 1 per cent of tax duplicates. That was sufficient, the governor held, for an economical administration. If more money were needed there was incorporated in the Smith bill a provision for a referendum vote on a higher rate.

There were a large number of taxing boards composed of various state officers with jurisdiction over excise and other corporate taxation, but different boards were made up of different officers so that there could be no uniform and consistent action. Auditors in eighty-eight Ohio counties had nearly eighty-eight different rules of appraisal property, with the result that no one got a square deal.

Governor Harmon had a bill drafted to abolish all these boards and to place the entire taxing machinery of the commonwealth in the hands of a single state commission of three members. Other new tax laws make it possible to chase out of hiding millions of dollars of property and also strengthen and broaden the inquisitorial powers of the state tax commission.

Ohioans expected big things from Judson Harmon when they elected him their governor. The achievements of the Democratic general assembly show the expectations of the people have been realized. He had been a leading attorney for years, but a search of his record disclosed Harmon, while he had corporations among his clients, had never given his talents to appear in a court suit against the people. As an attorney general of the United States he had proved to be a friend of the people, fighting through court cases which established the foundation of all jurisprudence on the anti-trust subject. In private life he was recognized as one of the ablest lawyers in Ohio.

In February, 1910, ten months before the state election in Ohio, when Judson Harmon would go before the people for re-election, Ohio Republicans by order of President Taft held a banquet meeting in Dayton. The Republicans at Dayton did not talk of helping President Taft or of restoring the Republican party; they talked about the chances of defeating Governor Harmon, and they did not talk hopefully. Unconsciously they paid a patent tribute to the real strength of the man. It suddenly revealed the tremendous success of Governor Harmon and his complete mastery of the political situation in Ohio. The plan of opposition out-

hear him talk straight from the shoulder.

When he was attorney general he argued many cases before the supreme court—argued them well—so well that he earned many deserving compliments from bench and bar. Among them, and perhaps the most noted, was that of the United States against the Trans-missouri Freight association. It was the first test as to the efficiency of the Sherman anti-trust law when applied to prevent an illegal combination of railroads. Mr. Harmon won, and the combination went by the boards.

Of a similar character were the suits against the Freight Traffic association and the Addyston Pipe company. Harmon was successful in both, and thus was established the law as it stands today.

There is an odd series of coincidences in the careers of Governor Harmon and President Taft. Always Harmon has followed Taft or Taft has followed Harmon. Harmon resigned as judge in Ohio, and Taft took his place. Then Mr. Taft became solicitor general of the United States. Harmon followed him to Washington as a cabinet member. Will he follow Taft to Washington again?

Governor Harmon was born in Newtown, Hamilton county, O., Feb. 3, 1846, and he therefore is in his sixty-fifth year. One not acquainted with this fact would take him to be no more than fifty-five. He is just as vigorous as a man of many years under fifty-five and as fond of sports and of the out of doors as a schoolboy. He rides with the grace of a regular army cavalryman, plays golf, competes with the crack rifle shots of the O. N. G. annually and makes good scores, goes to Michigan every summer for his vacation and fishes and fishes, and he is a baseball fan of the species that records each play made during a game on a score card.

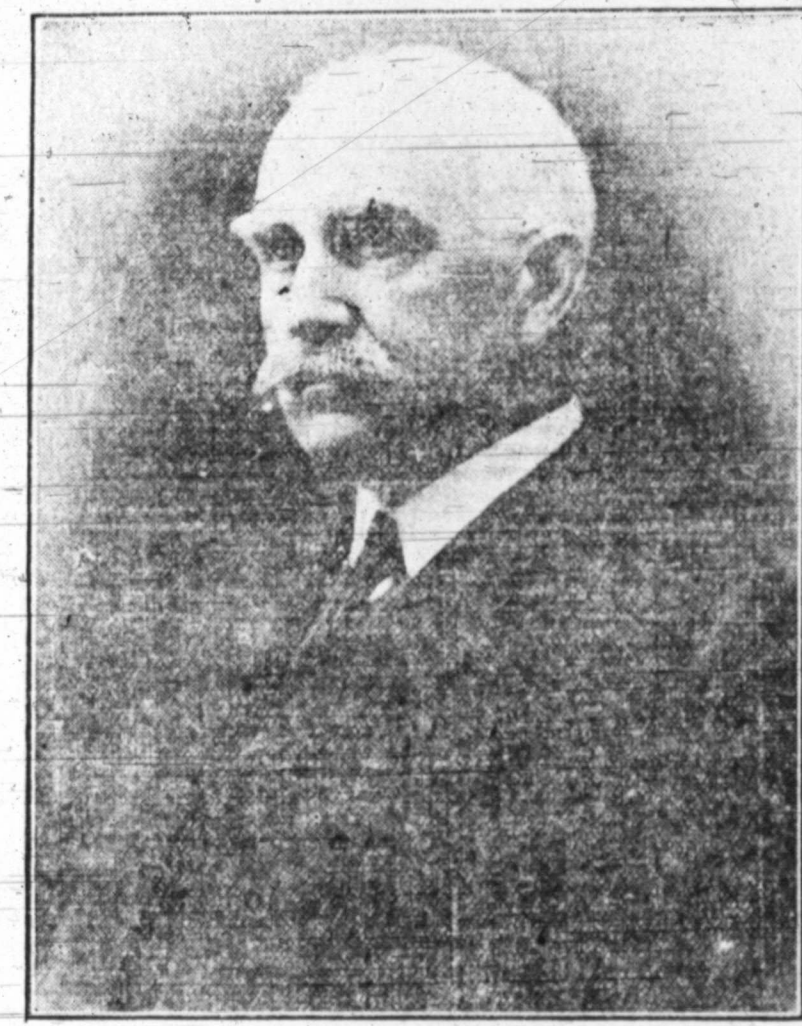

He was for years pitcher in a nine composed of business men who met every Saturday afternoon out in the suburbs of the Queen City to try diamond conclusions with teams from other localities. Judson Harmon never missed a game while he was in town. He would go to the ball-field, shed his coat and collar and wade in and pitch nine straight innings with all the vigor of a big leaguer.

Mr. Harmon's father was a Baptist minister, and from him he received his early education. In 1860 he graduated from the Baptist college at Denison, Licking county, and in 1862 the school honored him with the degree of LL. D. He attended the Cincinnati Law school and graduated in 1869.

Mr. Harmon's idea of what Democracy should do can be summed up in the closing words of an interview which he gave, as follows:

"I take it that the true platform of the Democracy is the preservation to the utmost of the rights of the common man—the man who has not might or wealth to twist the current of events to suit himself, to observe to the strictest possible degree the limits of authority imposed by the constitution, to administer the government economically and in doing that to levy only the amount of taxes direct or through a tariff, which will meet the expenses of the government.

"Am I a believer in the income tax?" said the governor in response to a question. "Most assuredly," he continued. "Without such a tax the expenses of the federal government, which now amount to a billion dollars per year, cannot be fairly distributed. They are now collected by tariff and other taxes on consumption, and the enormous vested wealth of the country escapes. A few states have undertaken to tax incomes, but, as I am advised, with little success. Changes of legal residence are too easy to make. The efficiency of a federal income tax has been proved. The levying of one would help secure the lowering of tariff taxes, so greatly and generally desired, while the people will watch more closely what is done with their money when they know they are paying taxes and how much."

HON. JUDSON HARMON, GOVERNOR OF OHIO.

one who testifies before a legislative committee, and this law, together with a whitewash brush, had prevented any Republican law violator from being held before a court of justice.

Naturally there was a great rush by distraught members for legislative immunity. But Governor Harmon promptly pulled the plug of the immunity bathtub and prevented any one from getting into its soothing waters by insisting that no legislative investigating committee be appointed and that the inquest of the grand jury be the only probe.

Judgments were returned against seven members of the general assembly and the sergeant-at-arms of the senate, and these cases will take the same course as that of the most humble citizen who becomes involved in criminal charges. A coterie of Democrats who had been fighting the governor's bill were among the members indicted.

In less than three years of his administration Governor Harmon has made a record of accomplishment unparalleled in the history of Ohio politics. He has wrought more progress for the people than was accomplished in the forty years that preceded him. There has been written into the statutes legislation that the enlightened

Republicans. Another graft investigation brought forth the exposure, prosecution and conviction of Mark Slater, former Republican state printer, on graft charges in lesser degree; the settlement of an interest claim of over \$5,700 on funds carried in the bank for former Republican State Auditor Walter D. Gilbert and the filing of a claim for over \$31,000 with the receiver of a defunct bank at Columbus as an interest charge on funds carried in that bank by Mr. Gilbert as auditor.

These revelations during the governor's first term awakened the civic conscience and paved the way for his subsequent re-election. The Democrats captured the general assembly at the same time.

Then Governor Harmon renewed his efforts in behalf of certain bills by Republican general assemblies denied him.

The most notable achievement accomplished by the executive during the legislative session was the enactment of the Wyman bill, including the Oregon plan of nominating and electing United States senators.

A conference committee was appointed to frame a compromise senatorial nomination and election bill. "I would

be placed in a single board of four, while a single fiscal agent replaced the nineteen stewards.

The advantage of purchasing supplies for all institutions in bulk and the reduction in employees will save the state \$200,000 a year. This law makes it possible to utilize the work of prisoners and also creates a market for their manufactured products by

compelling all Ohio political divisions to purchase such supplies as they need from the penal institutions.

Employers and employees locked in a struggle over a workmen's compensation act, and when it seemed there would be no bill passed Governor Harmon stepped in and acted as arbitrator. A bill was framed and drafted that has been approved by both employers and employees.

### SOME HARMON EPIGRAMS

Guilt is always personal. I would vote for a Republican for United States senator if the people by their votes declared for a Republican, and I would be proud to do it, for I would simply be doing the will of the people.

The party emblem in municipal elections is an aid to the ignorant and those who corrupt voters and no help to upright and intelligent electors. Both parties would be better off if they were kept out of purely municipal elections.

The people who support the government have to economize. Why should their public servants not do the same?

It is not the existence or discovery of wrongdoing that brings shame to a state, but failure to put a stop to it.

We must make the state government more broadly useful, for its powers are ample to grapple with many things which have been developed by new conditions.

There can be no relief so long as the interests which profit through tariff laws are allowed to frame them.

A lawyer's honor is his crown, and no hand but his own can ever dis-crown him.

**FREE WITH EVERY PRESCRIPTION**

Care—that's one thing that goes in every prescription that goes out of our store. We follow the doctor's orders—follow them with fresh, pure full-strength drugs. As a result, prescription compounded by us often secure results where others fail. Back of this policy is the knowledge that too much depends on the medicine your physician prescribes to permit of substitution for the sake of a few cents more profit and there's no extra charge for the pure ingredients and extra care.
