Governor Threatens To Put Mayor In Jail

LOCAL CLUB STAGES TWO FUNCTIONS

Named Heiress Of Rockefeller

Mrs. Margaret Strong De Cuevas, above, was named the sole heir of her grandfather, John D. Rockefeller, Sr., under terms of a late will made by the financier. The estate, estimated to approximate \$25,000,000, will be held in trust until Mrs. Cuevas' death, when it will go to her children.

MARTIAL LAW DECLARED FOR STRIKE AREA

HARRISBURG, Pa., June 19 (U.P.)—Governor George Earle issued a formal proclamation today declaring a modified form of martial law in strike-torn Johnstown. His action followed refusal of President Eugene Grace to close Bethlehem Steel Corporation's Cambria plant.

CLEVELAND, June 19 (U.P.)—The Federal Steel Mediation Board began a determined effort to end the steel strike today after martial law was declared in one Pennsylvania strike center and stern action was hinted in Ohio.

Declaration of martial law at Johnstown, Pennsylvania came almost simultaneously with the start of conferences here among members of the Mediation Board headed by Charles Taft and seeking to settle whether four big independent companies sign union contracts.

At the same time Ohio National Guard observers closely watched developments in Youngstown and Canton where back-to-work marches against picket lines are tentatively scheduled for Sunday and Monday.

At Canton new outbreaks of violence were reported and angry wives of non-strikers met to demand reopening of the steel mills.

Governor Martin Davey of Ohio gave no indication that martial law would be declared and it was understood that every effort would be made to handle the situation through local officers, but the presence of national guard observers in strike centers indicated that action would be taken if the situation warranted.

Telephone Co. Had Picnic Here Friday

Employees of the Bell Telephone Company from Eastland, Ranger and Cisco enjoyed a picnic at Lake Cisco Friday evening.

After the picnic the employees enjoyed swimming, and a nice time was reported.

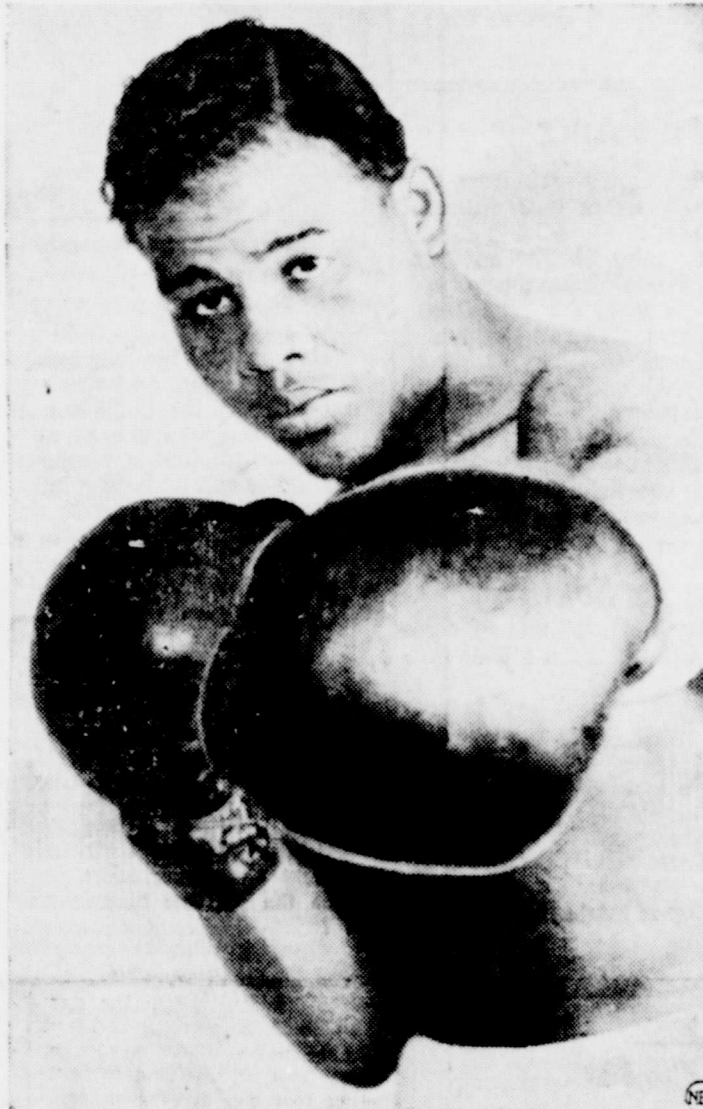

Those attending from Cisco were: Mr. and Mrs. Archer Claton, Wesley Smith, Mrs. Opal Agnew and Mrs. Zola Witherspoon.

CHAMPION

James J. Braddock is doing it for the wife and kiddies and will be a desperate man behind this good right hand when he defends the world heavyweight championship in a 15-round contest with Joe Louis at Comiskey Park, Chicago, June 22.

CHALLENGER

Joe Louis is the first of his race since Jack Johnson to get a whack at the world heavyweight championship, and intends to make the most of the opportunity when he tackles James J. Braddock in a 15-round contest in Chicago, June 22.

Haynies Home From Extended Vacation

The Haynies have returned to their home in Cisco after visiting in Pampa, Panhandle, Electric and Burk Burnett, following the programs at which John James officiated as bugler.

On arrival home, a letter was found from Camp Lookout, near Denver, Colo., where the young Ciscoan was invited to become official bugler for this famous boys camp. The picture in a Texas paper and accompanying article had attracted attention and brought the invitation.

RICH GOLD SAND FOUND

ALLAHABAD, India (U.P.)—The richest goldfield ever found in India, land of gold, has been discovered among the jungle-covered hills of Sirmoor State. Engineers have found that the sand in the hills contains about an ounce of gold to every 27 tons of sand.

JAYCEES OPTIMISTIC ABOUT GETTING CISCO PARK PROJECT

The Jaycees came back from Brownwood Friday after a conference with Weldon Mayes, chairman of the State Parks Board, greatly elated over the probability of getting the CCC camp for Cisco in her proposed park project that would make the Lake Cisco facilities for recreation the ideal spot for Texas.

Wendell Mayes is quoted as saying that the State Park Board is sold on the Cisco project and it has been recommended as project No. 1 for the state. Congressman Clyde Garrett was contacted by telephone and he reported that the next project for the 17th district would lie between Cisco and Fort Griffin, near Albany.

(CONTINUED ON PAGE EIGHT)

Commencement Held for Baptist Bible Class

Commencement exercises for the Baptist Daily Vacation Bible school were held Friday evening at the Baptist church. About 137 children were enrolled in the Bible school.

The first part of the program was the worship program. In the second part each of the three departments put on a ten-minute program of songs, memory work, and Bible stories. The last part of the program was in the form of an exhibition. In the last part every thing the children had made was exhibited. The older children made notebooks, did woodwork and sewing. The smaller children made less complicated things. The exercises were well attended.

Over fifty Bible school students had one hundred per cent attendance records.

LONE STAR CO. WILL PICNIC HERE FRIDAY

Golf, tennis and bridge tournaments to start at 2 p. m. Saturday, June 26 will be features of entertainment at the annual Lone Star picnic to be held at Lake Cisco on that date. An honor luncheon at the Laguna will be given officers of the organization.

The chamber of commerce is sponsoring the luncheon. Prominent citizens of Cisco will also attend. Forest Wright will be toastmaster. A soft ball game will be played at 5 p. m. between the Ranger Lone Star team and the Cisco All-Stars. A basket picnic will be spread at the lake at 7 o'clock. The Lobo band will give a concert at 7:30. J. E. Spencer will deliver the welcome address, responded to by L. B. Denning, Sr. Mr. Denning will also speak to Boy Scouts at their meeting Thursday June 25, if labor conditions in Fort Worth permit.

STATE NEWS FLASHES OVER WIRES TODAY

HOUSTON, June 19 (U.P.)—Striking electricians who have tied up work on public projects valued at almost \$5,000,000, threatened today to extend the shutdown to other jobs held by Houston contractors in Port Arthur and Austin.

AUSTIN, June 19 (U.P.)—If a strike of the local electrical workers has been called here, he knows nothing of it, Lawson Wimberly of the State Labor Department said today.

PORT ARTHUR, June 19 (U.P.)—Officials of the local unit of the International Brotherhood of Electrical Workers said today that members were employed under "satisfactory agreements" and anticipate no strike in sympathy with a walkout in Houston.

AUSTIN, June 19 (U.P.)—Rex Allen, 30, of Bertram was killed by a fall at Buchanan Dam today. It was the last day he was to work on the big Colorado River dam being completed this week, and he was first man killed in work on the main dam.

AUSTIN, June 19 (U.P.)—Attorney General William McCraw announced today he will seek an early trial of the State's \$17,850,000 anti-trust penalty suit against 15 oil companies and two petroleum associations.

Mrs. J. Hinnon Johnson and daughter, Sara Maud of Big Spring visited relatives in Cisco Friday. They were accompanied home by Misses Edda Mae Brown of Houston, Francis and Banna Maud Cooper of Rising Star, Carolyn Bailey and Ruby Irene Arnold of Cisco. These young ladies will be house guests of Mrs. Johnson for two weeks.

Cisco All-Stars Win Over Ranger

Tunnell pitches the Cisco All-Stars to victory in a hotly contested game at Ranger Friday night and White hits homer to place the Cisco Gas Corporation's All-Stars in second place in the Oil Belt Soft Ball league.

C. V. Tunnell, the little speed ball pitcher who was ruled illegal here against Throckmorton pitched the full nine innings against the Ranger All-Stars and held them to four hits. The game at the close of the nine inning stood, Cisco five, Ranger, four.

Cisco was held scoreless until the seventh inning and was four runs behind. It looked like a tough night for the Cisco Gas Corporation's All-Stars. Dick started off the seventh with a sharp hit; became next man up, walked; Sublett struck out; Wilson following Lefty got a nice single scoring Dick; Ry-lee got a walk filling the bases; Cooper, next hitter, laid one down first base line scoring Blew. Tunnell, next up, hit a beauty scoring

(CONTINUED ON PAGE EIGHT)

OLD AGE CUT RUMOR DENIED BY OFFICERS

AUSTIN, June 19 (U.P.)—Rumors that the state had ordered a blanket cut of 30,000 persons from the old age pension roll was discredited today by John Wallace, member of the Board of Control.

"There never has been any instruction from the federal government for us to take a certain number off the roll and the Board of Control definitely has not issued any such order," Wallace said.

"We are taking off those persons eligible under the old law, who became ineligible when the new law went into effect in November."

STRANGE CHARGE IN DIVORCE

BROCKTON, Mass (U.P.)—Mrs. John Willis sued for divorce charging her husband burned her children's mouths with hot fudge to teach them "confidence" in him.

Ranger Post Office Has Second Blowing

The door to the vault of the Ranger postoffice was blown off its hinges for the second time Friday night by parties who failed to get into the safe. Two postal inspectors failed to find any loss after spending the entire day Saturday checking on the matter.

The knob was knocked off the door to the vault which houses the safe, as it was done in an attempt to rob it on May 5. Nitroglycerine was then poured in which blew off the door. This was straightened, however, and placed back on its hinges and was as good as before.

Huestis Station Shows Large Map

Ed Huestis, irreplaceable service station operator, is having a big map of Texas drawn on the front of his station at the corner of Main at Eighth. The two important highways through Cisco are being featured and towns are placed with distances stated on the map.

The map is large enough to be easily seen and read for some distance and should be a great service to tourists who want to locate themselves and get information regarding distances to other towns either east or west. Cisco is represented by a big star.

INSURGENTS OCCUPY BILBAO; TO ADVANCE ON MADRID NEXT

BIARRITZ, France, June 19 (U.P.)—The insurgents occupied Bilbao today, capturing the ancient Basque capital after months of siege.

Thousands of men, women and children perished, or fled into exile. It marked a turning point in the war and put the nationalists at the peak of their success.

When their victories are consolidated, they are expected to turn their full force toward Madrid which was subjected Saturday to a bombardment with casualties estimated at more than 100.

The siege of Bilbao decided ended in comparatively easy capture. The Basque decided to hand over the city to the nationalists to prevent its dynamite destruction by extremists within their own ranks.

retreated to the northwest to make a last stand.

VALENCIA, June 19 (U.P.)—Fifty men were killed in a mysterious explosion aboard the loyalist battleship Jaime Primo in Cartagena harbor, the government announced today.

BERLIN, June 19 (U.P.)—A Spanish loyalist submarine fired three torpedoes at the German cruiser Leipzig off Algeria June 15, an official communique said today. The cruiser was not hit.

LONDON, June 19 (U.P.)—The four-powers conference which met hastily Saturday afternoon over an alleged Spanish loyalist attempt to torpedo the German cruiser Leipzig adjourned without a decision.

SLEIGHS USED ALL YEAR

MONTREAL (U.P.)—Sleighs travel over one narrow street here every day of the year. The sleighs are used to exercise horses from a nearby stable. In winter they are heavily loaded, but in summer the horses drag them along the pavement empty.

WEATHER

EAST TEXAS — Partly cloudy Sunday; probably showers on upper coast.
WEST TEXAS — Generally fair Sunday.

Prosperity Rounds a Corner

The luxury caterers are reporting bumper businesses this year, and jewelry sales are 29 per cent higher than those of last year which was the best since 1930.

Topping the \$350,000,000 jewelry sales for the last season is the reported \$400,000,000 retail sale of the furriers.

Fifth Avenue stores state that "a good fur wrap" can be bought for \$1,200 but that "better coats" range upward from \$10,000.

Chinchilla wraps sold for \$150,000 each, dwarfing in price the modest minks, sables and ermines.

There are not enough pure white orchids which sell at \$100 each, now available on the market.

"Scandalettes," base-garment of the debutante's wardrobe, are selling well at \$50 a pantie.

Bees Now Wintering in South

Millions of bees clustered in tens of thousands of colonies now make an annual trek from the northern states into Florida and return.

Bees are fussy temperamental critters. They believe in living well. In winter, they enjoy being taken to the milder climes, but even then they aren't satisfied.

Refusing to eat any but the best bee-foods, they insist on being moved around for expert nibbles at whatever fruit or flower is in full bloom.

At first the bees make honey from wild flowers; then oranges take their fancy, then galberry and finally sugarcane. Up north the best honey is made from alfalfa, sweet clover and alsac clover.

Justification for the trip to Florida is that the cold weather of the north kills many bees. In Florida the stock can be improved by breeding during the winter.

How to Keep Cool

Those most subject to heat prostration are the very old, the very young, the feeble, the alcoholically indiscreet and the heavy eaters.

The best summer thirst-quencher is cool water with a small amount of salt dissolved in it, because perspiration lowers the water level of the body, producing symptoms of thirst, and also carries away a certain amount of saline solution from body tissues.

"Eat lightly" is an iron-clad rule for hot weather comfort. Fats and fried food should be avoided. Sugars, starches, meats and fats are heavy fuel producers, hence should be consumed sparingly.

Plenty of green vegetables and fruits are recommended for the hot weather menu. A raw vegetable salad, with fruit

BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER
NEA Service Staff Correspondent

WASHINGTON—The Treasury's list of tax dodgers, if it's ever revealed, will be found to be sprinkled with many of the names that make headlines.

Identity of the "horrible examples," whose devices for evading taxes were described in Secretary Morgenthau's letter to the President, has become a pet topic of speculation.

The man who incorporated his yacht so as to avoid taxes on the money spent to operate it is a very famous and important automobile magnate.

A celebrated publisher is also among those whose lawyers found ways to escape payment of as much as the Treasury thinks he should have paid.

Another man, known to be listed, is a member of a prominent eastern industrial family. He evaded some taxes by incorporating his racing stable.

JUST a few days ago Senator Jimmy Byrnes of South Carolina was the chief contender for the Senate majority leadership against Senator Alben Barkley of Kentucky, the White House choice.

—all candidacies being based on the probability that Senator Joe Robinson of Arkansas, present leader, would sooner or later be appointed to the Supreme Court.

Byrnes, however, isn't after the leadership any more. Roosevelt left the word out that his thumbs were down on Jimmy. For that reason or some other, Byrnes has swung his support to Senator Pat Harrison of Mississippi, a stalwart conservative. Pat was understood to have let it be known earlier that he didn't want Robinson's post. But it now appears that he does.

Vice President Jack Garner, who was roaring with indignation about the sidown strikes, was seen behind Byrnes—and not in-

Some of the opposition to continuation of the LaFollette investigation arises from the feeling that it has been a valuable aid to John L. Lewis and the organizing efforts of the C. I. O.

OUT OUR WAY

or ice cream—never pastries—for dessert, is approved. Milk and buttermilk are good summer beverages, but they are also

Hot or cool tea is good. The hot drink increases perspiration tendency and the evaporation of perspiration from the surface of the body is nature's No. 1 method of keeping the body temperature at an even 98.6 degrees Fahrenheit regardless of outside temperatures.

Houses can be kept relatively comfortable in hot weather by placing fans to draw in the cool air of night, closing the doors and drawing blinds in the morning to retain the cool air as long as possible.

Some salesmen traveling in desert and drought country keep cool by placing a hundred-pound cake of ice in the rear seat of their automobiles and closing all windows of the car.

About Our Friends—

(CONTINUED FROM PAGE ONE)

done, and besides he is doing the work by the job; if he doesn't do it right I won't pay him."

When the job was finished the man found the carpenter hadn't

done it right. And he refused to pay. And the carpenter sued and collected.

If one's physician or dentist or lawyer or banker or plumber or cook or father or mother or brother or sister, or anybody else who touches one's life, makes a blunder

there may be a certain morbid satisfaction in laying the blame onto that individual, but it doesn't get anyone anywhere.

The young person hitting a pace that he or she knows shouldn't be hit, and doing so without parental interference, will not find his disaster diminished by a whit because he can lay the blame on his parents.

A snash-up life can't be mended by placing the fault at another's door. Holding the reckless autoist responsible doesn't restore the life that has been snuffed out. One can cuss a stock broker for having misappropriated one's money but that does not get back one's money.

It is better to take precautions to have things go right with one than to blame somebody else if things go wrong.

CAST OF CHARACTERS
CORAL CRANDALL, heroine and senior at Elton College.
DAVID ARNOLD, Elton chemistry professor and Coral's husband.
DONNA ALLEN, Coral's sorority roommate.
HOYT MARQUIS, Coral's one-time fiance.

Yesterday Coral is secretly reunited with David when he calls her to report that the secret formula of his chemical discovery has been stolen.

CHAPTER X

"DAVID, I simply can't understand it," Coral said, as they sat drinking their after-dinner coffee at the Tea Kettle. "That process has been missing two weeks, and not a single sign of it has appeared. It disappeared from the concealed drawer in your desk and vanished into thin air. You'd think that if the thief had sold it, we would have seen an announcement by some company of their 'discovery.' They'd want to make the announcement before President Norton makes the loss public."

David lit a cigaret and puffed on it moodily. "I've stopped even hazarding guesses as to what happened to it, Coral. All I can think of is that it was my fault it was stolen, and that Bendorff, Dean Mathews and most of the other faculty members think I stole it. It was inexcusable for me to leave that drawer containing the only copy of the process unlocked. I know that. But how was I to know that someone would sneak into the lab while I was gone, find the drawer that I thought no one but Maxwell, Bendorff and I knew about, and make off with the process as completely as if black magic were responsible?"

He drew deeply on his cigaret. "Sometimes I think it must have been black magic! I tell you, Coral, it was impossible for anyone to get into that lab Thursday afternoon, and the process was obviously stolen then. My two sororities were out of town at a meeting. I was in my rooms, and since there were no classes the laboratory was locked. Even the janitor took the afternoon off. Even though I did leave the drawer open the room itself was tight shut."

Coral reached across the table and took his free hand. "Don't worry about it too much, darling. I'm sure everything will come out all right eventually." Her brow clouded with worry. "I do wish the thing could be straightened out right away, though."

He shrugged. "I give up. Half the time I'm convinced that I have an evil genius wandering around

the campus, concentrating all his energies on harming me and my wife."

AS she listened to his words, Coral had grown more and more excited. When he finished she spoke slowly, yet with excitement brimming in her voice.

"David, think carefully. Were you in the lab every minute of Friday afternoon? Didn't you leave once . . . just for a few minutes?"

His brow furrowed in concentration. Then he looked up suddenly. "Yes, I did leave once. About 3 o'clock I went outside to smoke a cigaret. I must have been gone about 15 minutes." His face fell. "That won't work, though, Coral. When I came back I found Donna and Hoyt Marquis there, fussing around the equipment. I asked Donna to go in or if they'd seen anyone go in or out of the room while I was out and she said they hadn't, that they'd been there alone until I came back."

Coral jumped to her feet. "David, take me back to the house. Donna either took that process or had something to do with it. Don't you see how it all fits? She works in the lab and faculty members think I stole it. It was inexcusable for me to leave that drawer containing the only copy of the process unlocked. I know that. But how was I to know that someone would sneak into the lab while I was gone, find the drawer that I thought no one but Maxwell, Bendorff and I knew about, and make off with the process as completely as if black magic were responsible?"

Fishermen Have War To Protect Salmon

ASTORIA, Ore. (U.P.)—Seals are making such heavy inroads on the salmon runs near the mouth of the Columbia river that fishermen have banded together to ask that an extra \$2.50 be added to fishing licenses to finance a war of extermination.

The seals have their breeding grounds on both the Oregon and Washington banks of the big river, and on islands near the river mouth. The most successful way of taking them has been the installation of big hooks near the water's edge.

The state of Oregon now pays a bounty on seals. Ruffians have picked up a few odd dollars by bagging the animals, but most of these shot cannot be recovered because of the deep, fast water.

The Columbia River Fishermen's Protective union reports that the seals are increasing heavily, and have been sighted swimming in great herds after salmon.

Slowest Ship in World Being Built

CLYDEBANK, Scotland (U.P.)—A vessel which will be the slowest of its weight afloat is being built here.

It is the Admiralty floating factory, Maidstone, to be launched next month. It is to be specially equipped for carrying out repairs in submarines, will weigh 15,000 tons and will have a maximum speed of nine knots.

EAT? Lose 5 lbs. a week Safely or No Pay

IF you are overweight and flabby, you can lose weight amazingly easy. There is no need to punish yourself with backbreaking exercise—no need to starve yourself and deny your body the foods you need for health.

REDUCE by this DRUGLESS method. Thousands of women are getting back to normal weight easily and quickly by using WATE-OFF, a harmless food compound (no salts, no dinitrophenol, no drugs, no harmful laxatives). WATE-OFF is composed of vegetable and herbal ingredients that neutralize the body acids

—thus preventing accumulation of fat. The instructions say: Take WATE-OFF before meals then eat your hearty fill. "Results," users say, "are simply amazing." A tablet taken 4 times a day will cause unsightly pounds to melt away like magic—leaving no saggy, flabby or broken-down tissue. You've seen WATE-OFF advertised in Pictorial Review, Physical Culture and other leading magazines at \$2.45 per treatment. Here now is your opportunity to purchase this same full size treatment for only \$1.19. Furthermore, if you are not satisfied with the results, you have the privilege of returning the empty carton and we will return your money.

2 weeks treatment \$1.19

STATE VERSUS DRAGNET — SANTA CRUZ, Cal. (U.P.) — The case of the "State vs. The Big Dragnet" is on the docket of the superior court here. The net was found in waters where fishing is prohibited and probably will be condemned.

GIRL TO SERVE LAMPS OF CHINA

CLEVELAND (U.P.) — Miss Haeng Wen, 29-year-old girl of the Orient will be graduated from Penn College here in July as a full-fledged electrical engineer — and the only member of her sex to stay on at the electrical engineering laboratory after the first year.

It wasn't easy competing with American boys, but Haeng had two important objectives toward which she was working.

First she had ambitions to be an electrical engineer. The petite Chinese girl wanted to aid in the work of lighting the dark corners of China.

The second reason was a boon to the first. She likes to work Haeng enjoys putting and fusing in with radios, electric motors and high voltage.

She has done so well at Penn that she is being graduated with the credit of five years' work done in three years' time. Since starting her work three years ago she has taken a double-schedule course attending classes winter and summer, six days a week.

Haeng's father gave her the choice of any college subject. "A good doctor heals his fellow

FRECKLES and His FRIENDS — By Blosser

men. A good lawyer saves his country," he told her. "Take your choice."

The indication was that Haeng's father wanted his daughter to learn something through which she could serve her people. It is electricity that is lighting the lamps of China today and electricity that carries thoughts through the air. The country is badly in need of expert technicians—Haeng chose electrical engineering. Her family has been in this country nearly eight years.

Haeng's father occupied himself with various professions during that period. Her family is waiting until she is graduated, then they all can go back to China.

Haeng expects to attend the University of Nanking for the study of Chinese culture. Then she hopes to join the government service as a radio or electrical engineer.

Politics do not interest the progressive Far East girl. But she hopes she can do her share of giving light to China.

Scientist Blames Improper Eating For Many Errors of Driving Public

BERKELEY, Cal., June 19 (U.P.) — Labor is not the only cause of bad driving, according to the department of physiology of the University of California.

Among a few of the other causes, the department concludes, are hunger, improper eating and the hypnotic influence of long, humdrum driving and road watching.

According to Prof. Eric Ogden good driving requires an even flow of blood through the brain, and this situation is affected by a lack of food and over eating. The obvious remedy for the man on the road, he insists, is to take frequent and light meals without any effort to compensate by intoxicating liquid.

The fact that the driver is often compelled to gaze continuously at the white strip of the road ahead while the motor drops along, also sets the stage of hypnosis, Ogden believes. In such circumstances the driver may be likely to go too fast, and have difficulty in keeping on his own side of the road.

Other physical conditions affecting driving, are said to be vibration, muscular activity, anxiety, mental activity, and fatigue as they all diminish the brain's blood supply and impair the correct working of stable driving habits.

In the opinion of Ogden, driving of an automobile should be as casual and as natural an operation as walking. The driver who finds it necessary continually to use his wits in order to avoid accidents, is more prone to run into them than one who drives instinctively. In-

Tattooing Adds to Plastic Surgery

LENINGRAD (U.P.) — A 25-year-old woman who lost her upper lip and part of her nose in an accident now does not even worry about lipstick following an unusual accomplishment in plastic surgery.

Leningrad Institute of Traumatology surgeons transplanted flesh from the woman's body to form a new nose and lip, but discovered the new lip to be unnatural because of its whiteness.

They called in a tattooing expert who used his needle to color the lip a permanent pink, which never needs touching.

Delinquent contributions to the Unemployment Compensation fund bear interest at the rate of one per cent per month. Already the Commission has collected over \$2,000 in interest on past due contributions.

VET EDUCATOR TO RETIRE
CLEVELAND (AP)—Dr. Eckstein, Case, treasurer of Case School of Applied Science for nearly a half-century and cousin of the founder, will retire July 2. He is to be succeeded by George E. Van Dyke, formerly of the American Council of Education, of Washington.

PINCHOT'S YACHT SUNK
HONOLULU (AP)—The Ariadne, once the palatial yacht of Gifford Pinchot, but more recently a prosaic live bait boat for the fishing fleet, has come to its final end. It was sunk near the same spot where the U. S. Navy recently scuttled two decommissioned submarines.

YOUNG PEOPLE PREPARE FOR ASSEMBLY TRIP

By A. C. DONICA
The young people of the First Methodist church are preparing to go to the Summer Assembly at Georgetown, which will be held at Southwestern University. The beginning is an opening banquet on Monday night, June 21, at 7 o'clock, and the closing meal is breakfast on Saturday morning, June 25.
Registration will be conducted in the Administration Building of Southwestern University beginning at 10 a. m., Monday, June 21, and continuing until 4 p. m.
All delegates must live in the dormitory while attending the assembly except those making their home in Georgetown. The Woman's building will be occupied by the girls, and Mood Hall will be occupied by the boys.
All mail for the delegates should be addressed in care of the Young People's Assembly, Southwestern University, Georgetown, Tex.
Delegates must bring their own bed linen, towels, soap, etc. Athletic equipment, baseball suits, kodaks, tennis rackets, etc., may be included if desired.
It is required that all delegates to the assembly shall take class work, attend business and platform sessions, and otherwise participate in all regular activities of the assembly. There are eight courses from which delegates may choose. All assembly classes will be conducted in the Administration Building of Southwestern University. Platform services Tuesday to Friday nights inclusive, will be conducted in the open air adjacent to the Woman's Building.
The Communion services Saturday morning at 9:45 will be in charge of Rev. John N. Renfro, presiding elder, and Rev. W. C. Childress, pastor, and will be conducted in the University Methodist Church.
A picture of the entire assembly group will be made and offered for

sale. The opening banquet will be in charge of Miss Arvilla McVey, conference president.
The theme of the assembly is "The More Excellent Way." "Representation from every church" is the slogan. The assembly hymn is "Let All the World in Every Corner Sing." Other young people's favorites, such as "Are You Able" and "Heralds of Christ" will be sung frequently.
For the first time in many years in the Central Texas Assembly, we are to have one of our bishops as platform speaker. It is a great honor and privilege to the assembly to have our own bishop, H. A. Boaz, to speak three nights, Wednesday, Thursday and Friday.

TOWN TO MARK OHIO GAS BOOM IN ROARING '80'S

FINLAY, O., June 19 (AP)—One evening more than 100 years ago Charles Wade peered into his newly-dug well half a mile south of Findlay to determine the water level. It was dark, so he placed a candle over the shaft opening.
There was an explosion and Wade was thrown back badly burned.
Wade's misfortune was the greatest stroke of luck for the then struggling little community. It was the first hint that gas existed in the Findlay area.
By 1887 two big wells had come in. Nomads from all parts of the world swelled the population to 20,000. Manufacturers of glass, nails and chains flocked to the city on the inducement of free sites fuel and light. The city celebrated that year.
A repetition of the celebration will be held this year, commemorating the 50th anniversary of Findlay's arrival.
Week's Program Arranged
A corporation, headed by O. D. Donnell, president of the Ohio Oil Company, has been organized to stage a week-long program, beginning June 20, to celebrate the golden anniversary of gas and oil.
A pageant depicting the history of the community will be presented in the J. C. Donnell stadium—one of the city's show places—by a cast of 1000.
Homecoming church services, a drum and bugle corps exhibition and

a musical in the stadium will open the celebration.
A new \$64,000 WPA swimming pool will be dedicated with speeches by Gov. Martin L. Davey, Dr. Carl Watson, state WPA administrator and other prominent persons.
On other days pet and juvenile float parades will move through the flag bedecked streets. On June 22 the townspeople will attend a grand ball.
Golf Play Scheduled
Other features will include a golfing exhibition match between Lawson Little, Harry Cooper, Jimmy Thompson and Leonard Schmutz, Findlay Country Club Professional, on June 21.
On the night of June 26, business, industrial fraternal and civic organizations will join in a grand parade with daily decorated floats.
One of the high-spots of the celebration will be the dedication of monuments to the first two wells—Oesterlein and Karg—on June 21.
The Oesterlein well came roaring in one sunny day in October, 1884, on property now owned by Tell Taylor, the well-known song writer.
It was this pioneer "gasser" that resulted in the great pilgrimage of fortune seekers to Findlay. A year or so later the giant Karg well was completed. It produced an estimated 12,000,000 cubic feet of gas a day.
Oil Discovery Followed
The gas supply did not hold up for more than a few years, but the discovery of oil came soon after providing a permanent basis for community expansion which enabled the city to hold the gains made during the great gas boom.
The markers designating the sites of the two wells—often a subject

of conversation wherever oil and gas men gather—are simple but dignified. Speakers at the dedication will include Axtell J. Byles, New York City, president of the American Petroleum Institute; R. W. Gallagher, New York City, former president of the American Gas Association; and S. I. Weaver, Columbus, president of the Ohio Fuel Gas Company.
Neither of the wells produces today, but there is still a small seepage of oil and gas.
The first gas discovered in the city limits came from a corner lot water well. It did not produce in paying quantities, however.
Numerous wells were drilled many of them plying well. It was estimated about 250,000 people visited Findlay during the two or three years of the great gas boom.

JUSTICE OFFERS COURT PRIMER

PHOENIX, Ariz., June 19 (AP)—Fear of testifying in court is grounds, believes Superior Judge Howard C. Speakman of Phoenix but, he warns, "perjury in murder trials can be punishable by death."
The tall, distinguished justice said, "there isn't a thing to fear in court—if you tell nothing but the truth."
"The same rules apply to all," he declared. "If a person doesn't know the answer to a question, he or she would say so. No witness should stall around and leave the impression he or she is trying to think up an answer."
In Arizona, murder trial wit-

nesses whose false testimony leads to execution also can be put to death if their perjury is uncovered, Judge Speakman said.
"There is no mystery about being called to the witness stand," he says, "simply be yourself."
He recalled a case he once prosecuted in which his "star witness" suffered a severe case of "witness stand fright."
The witness, "a typical cowboy who wasn't afraid of the devil," told his story clearly and freely before the trial. He clumped into court and climbed to the witness stand.
"I noticed he was a bit pale," the judge said, but thought nothing of it. I asked him to state his name, and he finally got it out

after gulping several times. When he finally answered with an errable difficulty,
"Then he seemed to asked for water,"
As lawyers and court dished for water, the slumped in the chair and "He was just plain and he faced an audience," explained.

KILLED BY SNIPERS

JAMESTOWN, Tenn., (AP)—C. H. Woods, 25, the strike-ridden Zenith bear here, was killed by snipers fired a volley into the truck in which he

THIS CURIOUS WORLD By William Ferguson

ESTIMATES of the radius of the universe are changing constantly, and various authorities reckon it as being somewhere between 2000 million and 20,000 million light-years. Today we have photographic evidence to a distance of 500 million light-years, and larger telescopes of the future will enable us to penetrate farther into space.

MYRA NORTH, Special Nurse—By Thompson and Coll

BUT MISS NORTH—IF YOU CAN PROVE BLUEBEARD'S IDENTITY, WHY DO YOU COME HERE? WHY AREN'T YOU AT POLICE HEAD-QUARTERS?

MRS. PASTURES: I HAD HOPED YOU WOULD GUESS FOR YOURSELF... BUT--

THE MAN WE ARE AFTER IS RIGHT IN THE NEXT ROOM! YOUR SON, REGGIE, IS THE NOTORIOUS BLUEBEARD!

AT THAT INSTANT, THE ADJOINING DOOR CRASHES OPEN AND, WITH A WILD SCREAM, REGGIE PLUNGES TOWARD HIS ACCUSER!

IN AN INSTANT, JACK PINIONS THE DESPERATE REGGIE'S ARMS BEHIND HIM, WHILE THE DAZED MRS. PASTURES LOOKS ON.

THAT'LL BE JUST ABOUT YOUR LAST ACT OF VIOLENCE, YOUNG FELLOW. THE YACHT WILL BE SURROUNDED BY OFFICERS IN A MOMENT.

I WON'T BELIEVE IT—IT CAN'T BE TRUE!

I'M SORRY FOR YOU, MRS. PASTURES, BUT IN A WAY, IT'S YOUR OWN FAULT... YOU DOMINATED REGGIE'S LIFE SO COMPLETELY HE HAD TO DO SOMETHING TO ASSERT HIS EGO.

THE ROLE OF "BLUEBEARD" GAVE THIS BASHFUL, REPRESSED LAD THE OPPORTUNITY TO DRAMATIZE HIMSELF IN THE EYES OF THE WORLD. YOU EVEN FORBODE HIM THE SOCIETY OF GIRLS, THRU YOUR FEAR OF FORTUNE HUNTERS. THESE EXPLOITS GAVE HIM SOMETHING TO GLOAT OVER, SECRETLY.

IT WILL TAKE MORE THAN YOUR THEORIES TO CONVINCE ME OF MY SON'S GUILT!

Bettes

SANITARY PROTECTION
without NAPKINS OR BELTS

ANSWERING the problems of modern life for modern women, Bettes protect safely and efficiently without sanitary napkins or pads. Bettes perform their function invisibly and are so tiny that a day's supply can be carried in a handbag. They have set new standards of comfort and convenience... of personal daintiness... for women everywhere.

Worn internally; approved by physicians.

DID YOU SLEEP LAST NIGHT?

USE ATTIC VENTILATION FOR LOW COST COMFORT COOLING

Don't struggle on another day battling the heat and business... trying to sleep in a stifling house. Enjoy life with comfort cooling, the new easy method to get relief from heat.

DRIVE OUT THE HEAT BRING IN THE BREEZE!

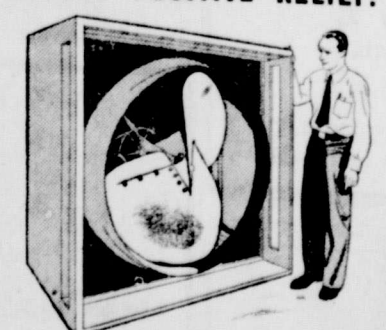

energy. Few realize that only objects which absorb the sun's rays are heated by them. That's what makes your home hot, wrecks your nerves, saps your strength and spoils your disposition. Stirring up the hot air will not give relief. Removing it and bringing in a cooling, comforting breeze from out-of-doors will give remarkable results.

There's no better way known to get comfort cooling than with a Ventura Home Conditioner. For each unit delivers a tremendous quantity of air and is tested and rated in accordance with the Standard Test Code of the American Society of Heating and Ventilating Engineers. All capacities are certified.

LOW COST—EASY PAYMENTS
Because the Ventura Home Conditioner does not require a refrigerating machine or cooling coils its cost is within the means of thousands. Operating costs, too, are exceptionally low—so low in fact that some owners report they do not even notice it on their light bills. So why not get relief from heat now? Phone today for prices and free inspection of your home.

CERTIFIED CAPACITY RATINGS INSURE POSITIVE RELIEF!

That's the action of the Ventura Home Conditioner (see diagram above). That's the way to beat the heat. Everyone knows the sun radiates a tremendous amount of heat

Mother Heiress of Jean Harlow

The million-dollar estate of Jean Harlow, the late film star, was believed almost certain to go to her mother and inseparable companion, Mrs. Jean Bello, above. Miss Harlow, friends said, saved much of her large salary, inherited a considerable estate when Paul Bern, her second husband, killed himself, and recently had taken out "a tremendous policy" with Lloyd's of London.

Mr. and Mrs. Daniel Entertain Friday

Mr. and Mrs. E. E. Daniel were hosts of the Friendly Twelve Forty-Two Club Friday evening in their home.

Baskets of lovely white and yellow daisies were the floral decorations. The same theme was repeated in the party appointments. Mrs. Joe Clements and H. C. Henderson won high scores; Mrs. C. W. Clough and E. E. Daniel won low. Candies and punch were served during the course of the evening to Messrs. and Mmes. H. C. Henderson, Ray Haley, Joe Clements, C. W. Clough, Mrs. E. C. McClelland, Mr. Sam King and host and hostess.

Read it first in the Daily News

CALENDAR

Tuesday The circles of the First Baptist church will meet at 4 o'clock as follows: Circle One with Mrs. Clarence Cleer at 205 West 9th street; Circle Two with Mrs. O. H. Dick on West Fifth street; Circle Three with Mrs. Lee Elkins on Ave. A, Circle Four with Mrs. E. S. James at 1003 West Tenth street; Circle Five with Mrs. W. D. Bracheen at 1309 West Twelfth street; Circle Six with Mrs. S. B. Parks at 1006 West Eleventh street.

The Circles of the Woman Council of the First Christian Church will meet as follows: Circle One will meet with Miss Alice Bacon at one o'clock at 904 West Seventh street for a covered dish luncheon; Circle Two will meet at the church at 3 o'clock; Circle Three will meet at the home of Mrs. Ralph Garrett at 302 Avenue 1 at 4 o'clock; Circle Four will meet at the church at 3 o'clock.

The Woman Auxiliary of the First Presbyterian church will meet at the church at 3 o'clock with Mrs. A. E. Jamison in charge of the program.

Wednesday The G. A. will meet at the First Baptist Church at 4 o'clock.

Friday The Friendly Twelve Forty-Two club will meet with Mr. and Mrs. H. C. Henderson at 505 West 7th St., at 8 o'clock. This will be the last meeting of the club this season.

Luncheon in Honor Of Miss McClinton

Miss Mary Elizabeth Cliett gave a three-course luncheon Thursday at 1 o'clock in honor of Miss Pauline McClinton, bride-to-be.

The table was laid with a lace cloth over pink, and pink and white zenias made the centerpiece. In front of the bride-to-be was placed a small bride and groom and many gifts. Small brides and ushers were in front of other plates.

Guests for the luncheon were: Mrs. James Moore, Mrs. L. E. Richardson, Miss Lillian Shorter, Miss Margaret Spencer and the hostess and honoree.

Glad Girls Enjoy Lake Cisco Picnic

The Glad Girls Sunday School class of the First Baptist church enjoyed a picnic at the lake Friday evening.

After the picnic those who enjoyed skating and swimming were: Misses Lurline Poe, Bessie Rae Coats, Leola Isenhower, Dorothy Jean Walker, Will-na Johnson, Vada Belle Tomlinson, Margaret Hageman, Ruth El Duff, Grace Pollard, Doris Surlis and the teacher, Mrs. J. D. Franklin.

FISH IMPRISONS SELF CLEVELAND (U.P.)—Harry Roemisch, while swimming in Hinckley lake, found a fruit jar holding a fish weighing a pound. Released, the fish was none the worse.

MATCH FOR FASHION REVEALS AT ANY SPORT

The stunning twin print ensemble, in royal rose, is dashing enough to merit a place at the smartest sports events. It includes a simple silk crepe dress and a silk chiffon redingote has short cape sleeves and is bordered with a band of the dress fabric.

Impersonations are Given at Auxiliary

The G. A. of the First Baptist church met Wednesday at four o'clock at the church. The meeting was opened by prayer and a hymn and Jeffy Jean Robinson led in a devotional. Mrs. H. B. Hensley told a story of the "Relay Race for Christianity," after which impersonations were given by Ramona James, Mary Caldwell, Bonny Jean Wilson and Billy Jean Cleere.

Punch and cake were served by the Mother Circle to the following: Helen Hay, Alice Louise Farley, Marguerite Arrington, Billy Jo McArdle, Jimmy Jean Hensley, Ramona James, Mary Caldwell, Bonny Jean Wilson, Billy Jean Cleere and assistant director, Miss Willie Frank Walker.

Mrs. J. M. Little of Olden is visiting Mrs. A. V. Osburn.

Mr. and Mrs. Hay of Florida State College will conduct the tour in which they will be included. They plan to be gone until September the sixth and travel by automobile through twelve countries.

Poetry Led Man, 60, To Get Autographs

HOUSTON, June 19 (U.P.)—A flair for poetry led Barney Sterling, 60, to a successful hobby to autograph collecting.

Within six years, he has obtained the autographs of 250 of the world's most prominent persons. He writes his requests in rhyme.

"I always had a pad and pencil near, when thoughts come to me; if I don't get them down, they don't come for another year," he explained in an unavoidable rhyme.

Sterling writes to kings and queens as freely as to a friend—and nine times out of 10, he gets the autograph.

Of the world's rulers, he has these: Franklin D. Roosevelt, Edward Rydy-Smigly of Poland, Pehr Evind Svinhofrad of Finland, Lazaro Cardenas of Mexico, Eusebio Ayala of Paraguay, Rodolphe Minger of Switzerland, Eamon de Valera of Ireland and Joseph A. Lyons of Australia.

Sterling has autographs of Mussolini, Haile Selassie of Ethiopia and Queen Wilhelmina of Holland. Besides these he has autographs of nine supreme court justices and many senators and congressmen.

One of his prizes is a letter from Dr. Allan R. Defoe, doctor of the Dionne quintuplets.

Thieves Painlessly Extract Bridges

DALLAS, (U.P.)—Adhering to methods advertised by a dentist here, thieves broke into a sidewalk exhibit case, "painlessly extracted" two complete gold bridges valued at \$50 and fled without attracting attention of afternoon shoppers.

Baptist Goal is 100,000 Converts

FORT WORTH, June 19 (U.P.)—A goal of 100,000 new converts during June has caused one of the most wide-spread revivals in the history of Texas Baptists. Simultaneous revival meetings are under way in 3,000 Texas communities.

Dr. George W. Truett of Dallas, president of the World Baptist Alliance, began the wholesale meetings by addressing 700 ministers of that faith on the importance of the campaign.

The church also has set a 20 per cent increase as its financial goal for the year. Rev. R. C. Campbell of Dallas, secretary of the executive board of the Baptist General Convention, said that collections during the first five months of 1937 were \$80,000 more than those for the corresponding period of 1936. The church is seeking \$600,000 for the treasury this year.

MRS. REIMER —has just returned from attending a short course at Lubbock on the subjects of special processes and handlings of Synthetic Fabrics, and delicate colors and dyes. A further subject taught was re-sizing and blocking of knits. An expert knowledge of treating these new fabrics, colors and garments is essential to proper cleaning methods, made necessary by developments in modern manufacture. The proper treatment will retain original luster without damage to fabrics; lack of trained skill will soon ruin such materials. Let Us Demonstrate! Reimer's Cleaners
