DELAY IN EXECUTION OF RADICALS SEEN

TWO MEN DIE AS TRAGEDY STALKS DOLE RACE

TWO NAVY MEN, DOLE FLIGHT ENTRANTS DIE AS PLANE HITS POINT LOMA NEAR SAN DIEGO

SAN DIEGO, Calif., Aug. 10.—Lieutenants George Covell and R. S. Waggener U. S. N., who left here today on an airplane they had entered in the Dole flight to Honolulu were killed when the airplane crashed into Point Loma, near here.

The plane was destroyed less than 15 minutes after they had left here for the Oakland California airport, where they intended to take off Friday in the flight to Honolulu. The plane burst into flames after it struck Point Loma.

An orderly from the United States naval coaling station at La Jolla returned to his station and reported both bodies had been recovered. From the position of the plane it was believed it had struck the west bank of the point as the men were endeavoring to gain altitude.

Both Bodies Charred Covell's body was found in the cockpit of the plane and was charred beyond recognition. Identification being made from a wallet that was found in a pocket of his coat. Waggener's body was later recovered from the wreckage of the plane and was also badly burned.

Waggener is believed to have jumped to jump clear of the plane as it fell, but was caught in the wreckage.

The scene of the crash is a short distance beyond the Fort Rosecrans aviation station.

Lieutenant Covell was born in Chicago, March, 1899, and joined the aviation service of the navy in 1925. He was married and had two children. Lieutenant Waggener was a native of Warrington, Ohio, and was 25 years old. He was not married, but fellow officers stated he was engaged.

SAN FRANCISCO, Aug. 10 (AP)—Gloom spread over the fliers assembled here for the Dole air race in Honolulu when they heard today that two men had died.

Per Capita School Fund Fixed At \$15

AUSTIN, Aug. 10 (AP)—The per capita public school appropriation was fixed at \$15 for the coming year by the state board of education today.

Mrs. Jane Y. McCallum, secretary of state, made the motion which carried unanimously. State Superintendent S. M. N. Harris estimated the scholastic census at 1,570,000 and his "conservative estimate" of available revenue for per capita would have allowed only \$14.52 but the board believed it would be safe in providing \$15, as recommended, and virtually promised by the fortieth legislature.

Beadle Sentenced In Lehouef Slaying

FRANKLIN, La., Aug. 10 (AP)—James Beadle, Morgan City trader, today was sentenced to life imprisonment for his part in the murder of James J. Lehouef, Morgan City utilities man.

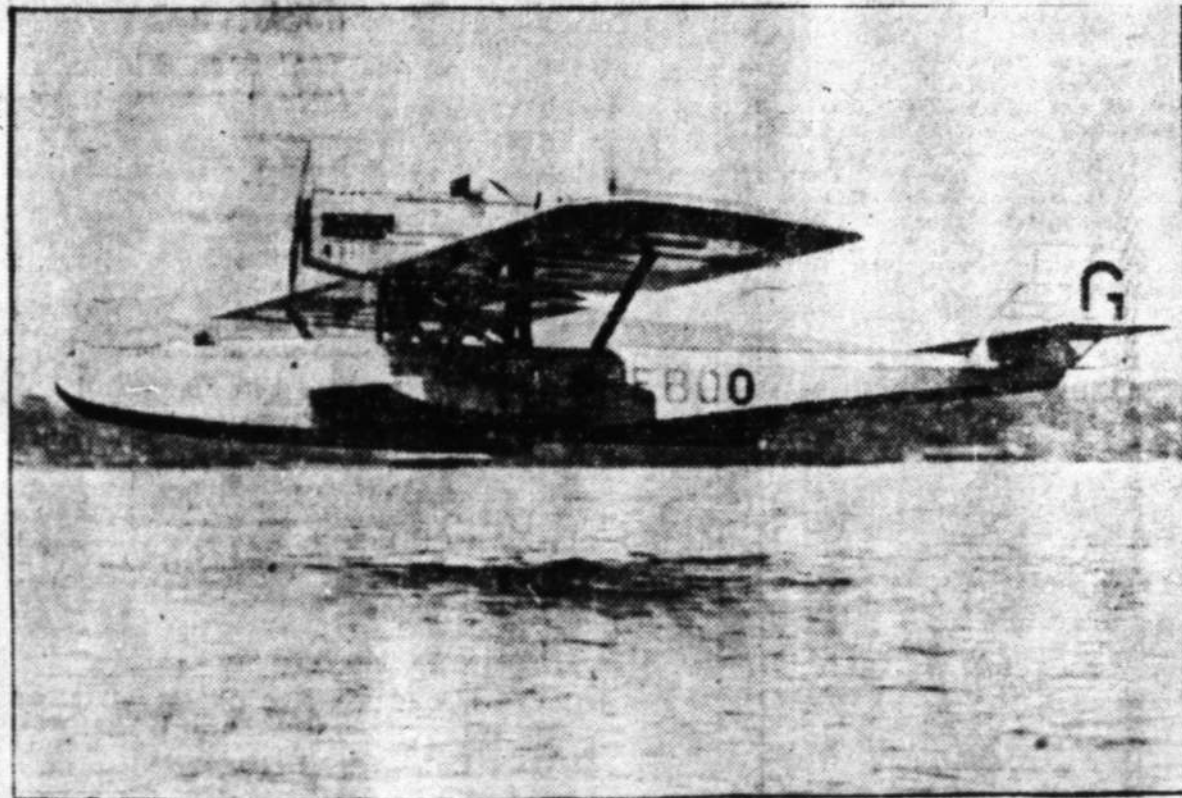

Mrs. Ada Bonner Lehouef, widow of the slain man and Dr. Thomas E. Dreher, who were found guilty without recommendation yesterday at the same time Beadle was convicted, will be sentenced Friday. A motion for a new trial for them was presented and hearing of arguments on the motion was set for that date.

Inventor Of Loom Dies In Michigan

MENOMINEE, Mich., Aug. 10 (AP)—Samuel B. Lloyd, millionaire internationally known as the inventor of the Lloyd loom, died Tuesday night from heart disease after an illness of two weeks.

Credited with revolutionizing the industries through his inventions, Mr. Lloyd was better known as the inventor of a loom for weaving finer furniture, by which baby clothes are made.

CAPT. F. T. COURTNEY AND HIS PLANE, READY FOR LONG HOP

U. S. MEMORIAL IS DEDICATED

PRINCIPLES OF FOUR EX-PRESIDENTS ARE HIGHLY PRAISED

WASHINGTON, Jefferson, Lincoln and Roosevelt, by following the truth, laid the basis for our country. They are proud of the four presidents whose names are on the monument.

The fundamental principles which they represented, Mr. Coolidge said, "have been brought into the very being of our country. They are proud of the four presidents whose names are on the monument."

The president had come far into the wilderness to dedicate this massive piece of granite out of which the figures of the four presidents are to be carved, a memorial sponsored by the people of South Dakota, and in eulogizing their endeavor, Mr. Coolidge paid them the high tribute.

"There is no power that can stay the progress of such a people," he said. "They are predestined to success. Our country is fortunate in having the advantage of their citizenship. They have been pioneers in the development of their state. They will continue to be pioneers in the defense and development of American institutions."

First Formal Address It was the first formal address which Mr. Coolidge has made since coming into the black hills and his first speech of any kind since he announced that he did not choose to run for president next year.

Pointing to the fact that the South Dakota people unaided will not be able to complete the monument they have begun, the president urged the "sympathy and support of private benefactors and the national government."

"Money agent for such a purpose," he declared, "is certain of adequate returns in the nature of increased public welfare."

One Man Hurt When Blast Rocks Steamer

HOUSTON, Aug. 10 (AP)—Pier which broke out in the hold of the ship's boiler, steamship West Quebec at wharf number 11 following an explosion Wednesday injured one man and did considerable damage to the interior of the vessel.

O'Neill, who was rendered unconscious by gas, recovered at a hospital where he said that sparks from his acetylene torch had ignited oil in the bilge in the space between the double bottoms of the ship.

Agents of the ship refused to estimate the probable damage on the grounds that a statement might be prejudicial to an insurance settlement. They assert that only a formal survey can determine the loss.

The underwriters will hold an examination as soon as the water is out. The West Quebec is a steel freighter of 3,711 gross tons, she arrived at Houston August 4 from Portland, Oregon, and finished unloading Tuesday.

Highways And Railroads Principal Topics For Discussion At Regular Meeting Of B. C. D. Directors Today

A number of varied subjects were discussed and action taken Wednesday morning when the Board of City Development held its regular semi-monthly meeting. Highway and railroad matters proved to be the chief topics.

Representatives will be sent to Tahoka Thursday when a meeting of representatives between Amarillo and San Angelo on highway No. 2 will meet to discuss and plan improvements for this highway. The Lubbock representatives will likewise discuss with representatives from San Angelo, Lamesa and Big Spring a proposed rail connection from San Angelo to Lamesa.

Biedace and Beveland has asked that Lubbock assist in preparing a plan to accompany a request for right-of-way on the road west to Biedace. The board voted to send a representative to meet with highway commission when these terms make their request. The board instructed that every assistance and co-operation be rendered the two towns in preparing their data.

The board was advised of a hearing before the interstate commerce commission at Fort Worth September 6 when the Ardmore, Vernon and Lubbock railway's application for a right to construct a line from Ardmore to Lubbock will be heard. The board voted to ask C. E. Maedgen, member of the railway committee to attend this hearing and represent Lubbock.

Entertainments Discussed Two entertainments were discussed, Nell H. Wright, H. D. Woods and H. L. Allen, committee to arrange a reception for J. C. Hall of Colorado in appreciation of his services in helping get the Tech prohibition bill passed, reported that the affair has been arranged for Thursday evening. Representatives from the Tech and a committee from the city of Lubbock will meet Representative Hall, Dr. P. C. Coleman and J. H. Green, secretary of the Colorado Chamber of Commerce. The board voted to entertain the county school trustees for Thursday evening. Representatives from the Tech and a committee from the city of Lubbock will meet Representative Hall, Dr. P. C. Coleman and J. H. Green, secretary of the Colorado Chamber of Commerce. The board voted to entertain the county school trustees for Thursday evening.

Mere Carrying Of Liquor Ruled Legal

NEW ORLEANS, Aug. 10 (AP)—A person may carry a bottle of whiskey through New Orleans streets without fear of molestation by federal agents if it is well corked, the label is not exposed and they have no other good reason to believe it is liquor, Judge Louis H. Burns ruled in federal court here today.

The ruling came in the consideration of charges against John M. Serna, restaurant proprietor, who had been halted by a federal agent as he was carrying a bottle of liquor in a paper bag.

Questioned by the inquisitive agent, Madera threw the bottle into the street, spilling the liquor. The agent arrested him.

Judge Burns dismissed the case after hearing the agent's story. "That's all I want to hear," he said, as defense testimony was offered. "That's plenty. You have the right to stop a person on the street and ask him what he has in a bundle, even though the contents of that bundle take the shape of a bottle. It might be a bottle of something other than liquor."

British India Is Swept By Floods

LONDON, Aug. 10 (AP)—Dispatches received in Bombay from the District of Guzerat, Bombay presidency, British India, and forwarded by Reuters, say floods are reported to have damaged or destroyed fifty percent of the cotton crop, ninety percent of the tobacco and a large proportion of the food crops in the areas north of the town of Broach. The cotton loss in the Guzerat and Kathiawar districts is estimated at 150,000 bales. Floods in the lower Sind also are reported to have destroyed large cotton areas. Elsewhere the crops are flourishing.

The cotton yield in all of India last year was slightly in excess of 6,000,000 bales.

EARTHQUAKE RECORDED

LONDON, Aug. 10 (AP)—An earthquake was estimated to be 5.549 miles distant, was recorded at the Kew observatory at 2:37 o'clock this morning.

SANDERSON'S DECISION ON LAST APPEAL POSTPONED AS OTHER PETITIONS ARE FILED

BOSTON, Aug. 10.—Possibility that the execution of Nicola Sacco and Bartolomeo Vanzetti might be postponed from early tomorrow morning was seen when Judge Sanderson of the Supreme court announced today that he would not give his decision until tomorrow morning on a move by defense counsel. He is to decide whether he shall permit a bill of exceptions from his refusal to grant writs of error and habeas corpus to go to the full bench of the supreme court.

Governor Fuller at 12:45 p. m. had made no announcement of his decision on a petition for a stay of execution.

The execution of the two men has been set for some time after midnight tomorrow morning. Whether Judge Sanderson's announcement presaged a postponement could not be told in advance of Governor Fuller's making public his decision whether to grant a stay of execution.

The judge's announcement following a conference in chambers with Attorney General Reading and Arthur D. Hill, chief defense counsel, Reading and Hill in a joint statement said that they had agreed substantially on the form of the bill of exceptions and that the bill would be put in final shape this afternoon.

Before the exceptions can come before the full bench of the court Judge Sanderson must give his consent.

Separate Trial Plea Is Planned

NEW YORK, Aug. 10 (AP)—Another contemplated legal step which may be employed in a minute effort to save Sacco and Vanzetti from execution tonight was revealed by Leonard Prinst, secretary of the Sacco-Vanzetti liberation committee of the Italian Chamber of Commerce today.

A separate trial was asked for Sacco and Vanzetti promised a hearing the following day. The court he said never gave this ruling, and on the basis of the omission a final appeal is planned.

Attempted Riot In Chicago Is Halted

CHICAGO, Aug. 10 (AP)—Several hundred men and women were dispersed quickly by police this morning when they attempted to start a riot in sympathy for Sacco and Vanzetti.

The riot was soon filled for three blocks with men and women massed from curb to curb and moving toward the loop.

As the mob surged forward it picked up recruits. The first violence came when those at the front seized an automobile, slashed its tires, broke its window and swept on leaving the driver terror stricken. Next a street car was halted, the trolley pulled from the wire, while men and women crowded about shouting "strike, strike," terrorizing the passengers. Another car was halted and the same scene repeated.

By the time the parade neared the downtown district police reserves were speeding to meet the marchers and as the procession swung toward an intersection it was met with tear bombs and threatening pistols in the hands of the reserves.

Police Charge Mob The police charged the crowd, using clubs and tear-gas bombs. There was one volley of shots, but it was not repeated, police orders being to avoid firing unless necessary.

The collapse of the demonstration was even more dramatic than its inception. Breaking before the police wall moving toward them, members of the crowd sought safety in flight. Those in front found their retreat blocked by the forward movement of the thousands behind.

Several rioters were trampled in the wild scramble to escape. Windows were shattered, doors broken down and motor cars parked at the curbs were damaged. A check, however, indicated that no one was seriously injured.

American's Ranch In Mexico Raided

DEL RIO, Aug. 10 (AP)—Twelve Mexican bandits raided the ranch owned by Gus Dunn, in Mexico, recently and forced Mr. Dunn's sons, Travis and Oscar, to turn over six horses, saddles, a few cattle, food and equipment to them. They then told the Duns to go to Villa Ahuna, Mexican town across Rio Grande from Del Rio and tell Mexican officers to "come get them," according to reports here.

Texas Pro Agents On Clean-Up Jaunt

SAN ANTONIO, Aug. 10 (AP)—A squad of prohibition officers and two squads of military police left San Antonio Wednesday morning headed toward the Black Jack country south of here where it is believed they plan to make a clean up of bootleggers.

The flying squad left Central police headquarters shortly after dawn in two army trucks. None of those in the party would disclose their destination or plans. Before leaving, however, they are known to have studied maps which are believed to have been compiled by air observers who have been flying over the black jack country for several weeks, spotting stills in the thick brushy section.

## Hot Weather! Here Are Some Good Dishes For These Warm Days

When watermelon is cut from rind and just the heart served, the rind can be made into a delicious sweet pickle that is always acceptable with cold meat.

**Spiced Watermelon Rind**  
Three pounds rind, 1 1/2 pounds light brown sugar, 4 cups vinegar, 2 cup water, 4 tablespoons whole cloves, 4 tablespoons broken stick cinnamon, 2 teaspoons powdered alum.  
Trim off pink pulp and green skin of melon rind and cut into thin strips. Add about 1 ounce cut cold water and pour over rind. Add water to cover, cover with plate and let stand 12 hours. Heat to the boiling point and let simmer 15 minutes. Drain and plunge into ice water. Let stand until thoroughly cold, about two hours. Drain and dry between towels. Put sugar, vinegar and water in preserving kettle. Bring to the boiling point and all spices tied in a cheese cloth bag. Boil about 20 minutes and add prepared rind. Simmer until rind is transparent and tender. Put into sterilized jars and seal while hot.

Later when quinces come into market the following recipe for "medley" conserve may help to conserve some fruit that might otherwise go to waste.

**Medley Conserve**  
Two pounds quinces, 1 1/2 pounds peaches, 1 1/2 pounds apples, 1 1/2 pounds pears, 2 pounds ripe peaches, 2 lemons, 1 orange, 1 cup chopped nut meats, 2 pounds sugar.  
Pare and core quinces, pears and apples. Cut lemons and orange into slices and remove seeds. Pare and remove skins from peaches. Put all the fruit through food chopper, using the coarse knife. Mix fruit and sugar and let stand over night. In the morning bring to the boiling point and cook slowly until thick. Watch carefully to prevent burning. Ten minutes before removing from the stove add nuts. Turn into sterilized jars and seal while hot.

Corn and cabbage pickle is a good relish with cold meats and may save some good sweet corn from going begging.

**Corn and Cabbage Relish**  
Twelve ears sweet corn, 1 pound head cabbage, 2 pints vinegar, 2 tablespoons white mustard seed, 2 tablespoons tumeric, 1 cup brown sugar, 2 tablespoons corn starch, 1 tablespoon dry mustard, 4 green peppers, salt.  
Shuck corn ten minutes. Cut kernels from cob. Quarter and chop cabbage. Sprinkle generously with salt and let stand while preparing other ingredients. Heat vinegar with mustard seed, tumeric and brown sugar. Mix corn starch and mustard adding enough cold water to make a smooth paste. Add to hot vinegar and cook until thick. Rinse cabbage through several waters and drain thoroughly. Remove seeds and pith from peppers and mince flesh. Add corn, cabbage and peppers to vinegar.

## Thursday and Friday

Special Demonstration And Lectures At 2:30 and 4:00 Thursday 2:30 and 5:15 Friday

Every woman is cordially invited to attend these interesting demonstrations and lectures, for the benefit derived will make them wonder how they have gotten along in their homes without one.

Dollar for dollar, Kelvinator gives greater food capacity, more ice cube capacity, more downright quality and beauty combined than any other system you can buy. Model for model, as nearly as they can be compared, you will find Kelvinator prices actually lower than others.

# Kelvinator Fits Your Refrigerator

Although the Kelvinator may be purchased in a complete unit, we desire to make it plain that the Kelvinator system can be installed in your own refrigerator—the one you are now using.

It only takes a few hours to make the change. We call at your home and determine the model you will require and install it quickly and cleanly without a lot of muss and fuss. Then you have the same dependable refrigeration that was serving others before any other existing system was on the market. Remember that Kelvinator, the oldest system of electric refrigeration on the market, and the system of longest proved life, actually costs less than most others. There's no reason why you should be satisfied with anything less than Kelvinator, the world's standard electric refrigeration.

## PAY FOR KELVINATOR OUT OF YOUR HOUSEHOLD BUDGET

Under our payment plan, you may pay for Kelvinator while enjoying its economy and performance. The household budget plan permits you to take advantage of its superior performance with just a small payment down and a little each week or month. There's no reason now why you should be deprived of a Kelvinator.

Be sure to attend while "Kelvinator" Fielder is in our store, Thursday and Friday. If you cannot come for the special demonstrations and lectures, come at any time it suits your convenience; he will be glad to discuss Kelvinator advantages with you.

### Nicola Sacco (A SKETCH)

(By Associated Press) Before his arrest charged with murder on May 3, 1920, Nicola Sacco, an Italian immigrant, worked by day in a shoe factory in Stoughton, Mass. His evenings for a long period were spent in attending radical meetings and distributing radical literature. He was of medium height, smooth shaven and wore his hair closely cropped. A fiery manner frequently characterized his attitude. He described himself as an anarchist. He said he did not believe in war and in 1917 he fled to Mexico to evade the draft. His speeches were usually made in Italian, his English being very broken. In his testimony at the payroll murder trial he attacked American institutions. It was the fear that he would be deported for

his radical activities, he testified that led him to flee to the police regarding his movements at the time of his arrest. When he came before Judge Webster Thayer for sentence on April 9, 1927, Sacco had his say about his beliefs.

### Bartolomeo Vanzetti (A SKETCH)

(By Associated Press) Bartolomeo Vanzetti was an Italian immigrant and an admitted radical leader. He went to Mexico to evade the draft in 1917. Vanzetti was a fish peddler in the historic town of Plymouth, Mass. With a fairly good command of English, he was a writer as well as an orator, and his style was dramatic. After his arrest charged with murder he wrote voluminous documents setting forth his views and pleading that he was being

persecuted for them. He was thick set and swarthy. A huge black mustache drooping at the ends covered his mouth. So active was he in radical councils that when a fellow radical named Salsedo disappeared, Vanzetti was chosen to go to New York to search for him. This was late in April, 1920. On May 3 the body of Salsedo was found on a New York sidewalk where he had jumped or fallen from a window in the federal department of justice rooms on the 14th floor. The next day Vanzetti returned to Massachusetts, and on May 5 he was arrested on the payroll murder charge.

It was Vanzetti's claim that on the night of his arrest he and Sacco were starting on a tour on which they intended to pick up a mass of radical literature which they had distributed. They wished to dispose of it, he asserted, because they feared capture by federal officers and deportation for their radical activities.

Before he was brought to trial for murder Vanzetti was convicted of an attempted holdup in Bridgewater and sentenced to 12 to 15 years in the state prison. Judge Thayer presided at that trial as well as the payroll case.

### Facts In The Case

(By Associated Press) BOSTON, Aug. 10.—The crime for which Nicola Sacco and Bartolomeo Vanzetti were sentenced to die was a double murder. On the morning of April 15, 1920, Frederick A. Parmenter, paymaster, and Alexander Berardelli, his guard, arrived at the factory of Slater and Morrill Company, South Braintree, near Boston, to pay off employees. They carried, in satchels, \$15,776. As they were about to enter the factory door, two men approached and fired at them. Both fell mortally wounded. The two robbers grabbed the satchels. An automobile, which had been waiting nearby, sped up to the curb. The satchels were thrown in and the two robbers clambered in. (Turn to Page 5, Column 6, Please)

# CUBS SPLIT DOUBLE BILL BUT HOLD THREE GAME LEAD OVER BUCS

## ODGERS STOP RUINS TAKING ONE OF DOUBLE

### BRING RAPS A HOMER TO SAVE YANKS FROM SHUTOUT DEFEAT

(By Associated Press)

Dodgers, who have beaten Cubs only twice in 15 games, had a distinction of stopping the league leaders after they had won nine games in a row. The beat the Robins 2 to 0, in the game of yesterday's double bill, but lost the other 7 to 4. Bruins lost the services of an inspiring catcher, "Gabby" Nett, who was spilled in the 10th by Gus Felix, Brooklyn out-thrower.

Pirates Beat Giants

Cubs were behind three games ahead of the Pittsburghers who trounced the Giants 6 to 1 in a loosely played game, won by Hornsby and Jackson in the Corsair victory, but it was the ever reliable Paul Waner who drove home the winning run in the last of the ninth. The Giant brought the record of McClellan on its western trip to victories against four beat-

## JOHN FARRELL SHOULD BE ON TOP OF STACK

### HIS WINS MARK HIM AS ONE OF BEST GOLF STARS IN U. S.

(By Jimmy Powers)

NEW YORK, Aug. 10.—The unenvied professional golf champion of America—Mr. John Alroy Farrell!

Slow music professor, while we shed a few tears over Johnny. The last season of 1927 is nearing its climax. There remains but the national amateur, the women's championship and the P. G. A. to get excited about.

A critical review of the professional campaign cannot help but drive home the fact that Mr. Farrell is something more than a consistent champion for many days and a model for what the well-dressed man should wear.

He has captured five major 1927 golf tournaments—an unparalleled record.

They are the Metropolitan, Shawnee, Massachusetts, Eastern and Pennsylvania meets. Farrell won't trade these five crowns for Armstrong's single crown and yet there is no denying his accomplishment. Which leads us to a new suggestion: "champion of America." The title, if the Oklahoma classic had been replayed the following week and other probably would have won. Due to the character of the game, an open championship merely decides who is champion for any given week.

Golf resembles baseball that way. They don't proclaim the Giants champions on the strength of one series. Even the lovely Red Sox occasionally trim the Yankees. Permanent races are determined by a percentage of victories over the entire season. Logically, the same procedure should follow in golf.

Understand, in proclaiming Johnny Farrell professional champion over the year's stretch, no slip is intended at good old Tommy Armour. Tommy was good as any golfer at Oakland—and better than most.

The way the "national champion" is picked in America today seems nothing but a glorified lottery. It is a bit of a mess affair with luck throwing who's who's good to be on his game that particular week gets the halo for the entire 52 weeks. It is just as if a batting championship were decided on one afternoon at Babe Ruth, after hitting 100 homers all season, happened to strike out and a rookie scratched a single to cap the title.

This condition was not noticed till 1927 when Mr. Farrell came along and called attention to the faulty system by which a "national professional champion" is selected. Maybe the new statistical idea is too visionary, undramatic. Just the same it is unanswerably just and if you want to find the true leader of 1927 golf look for his name among the F's rather than the A's.

## Southwestern Conference Teams Face Stiff Schedules In Season Scheduled To Open September 24

DALLAS, Aug. 10.—Southwestern Conference football teams face here scheduled for the 1927 season, nearly all of the squads play nine games.

The season opens September 24 and closes as usual on Thanksgiving Day, November 24.

Several interesting inter-sectional games are scheduled for the season that will hold the attention of many persons in the conference region will be the annual clashes between Texas University and Texas A. & M. College at College Station, Baylor University and Rice Institute at College Station, Texas Christian University and Texas Christian College at Lubbock, and Southern Methodist University at Southern Methodist University at Dallas.

**Baylor-A. & M. Game Missing**

One big game that heretofore has been a contest of interest to football followers is missing this year. Baylor University, Waco, and Texas A. & M. College, will not meet, as relations were severed last fall. This action was taken because of the fatal injuries inflicted on a Baylor player at Waco at the same time last year.

The tragedy last fall at Waco was the climax to disorders at several games between the Baptist college students and the cadets. The players of either team were not involved.

So, additionally, the conference schedules of other conference teams last year, have nine games scheduled, four of which are conference events. Their one inter-sectional game is with Missouri University at Dallas, October 22.

**Longhorns Meet Vandy**

Texas University Steers will meet their ancient enemies, the Vanderbilt University Commodores at Dallas, October 15, and November 11. The Kansas Aggies will be welcomed at the memorial stadium at Austin. The latter game is considered one of the most important inter-sectional contests scheduled by any team of the Southwest Conference.

Arkansas University, the only member of the conference not in Texas, has but two conference games scheduled. The Razorbacks play the Baylor Bears at Fayetteville, October 8, and Texas Christian University Horned Frogs at Ft. Worth, November 5.

Baylor University, which has been producing formidable teams for many seasons, will be crippled this fall. The Bears have no inter-sectional games scheduled, apparently because of the tragedy at Round Rock last winter when they lost their best athletes. Enroute to Austin to play Texas University basketball a score of the finest athletes in the southwest were slain when ten were killed and that many more were more or less permanently injured. A fast train slipped through the dark and dismal freezing haze, peculiar to Texas winters, struck and wrecked their bus.

**Frogs Meet Centenary**

Texas Christian University will go beyond the border of the state once to meet Centenary College at Shreveport. Rice Institute will remain in Texas for all but one game, and that with Loyola University at New Orleans.

Texas Aggies will clash with boys from Swannee at Dallas, October 8, to test their strength against a team that in recent years produced sensational football players in the old south.

Many new names will be listed among the players on all conference teams this fall. Graduation last spring took a damaging quota and accidents and personal affairs increased the loss of players.

Changes have been made on some of the coaching staffs. These will result in different kinds of plays and players. New material will be sought among the scrubs, as indications are the coaches desire to build good reserve teams.

**Mustangs Expect To Win**

Only one thing is certain, S. M. U. obviously expects to duplicate the spectacular victory of last year. With the changes in players and coaches and the many possibilities of development in any team in the conference a forecast of the season is impractical. Indications are, however, that a higher class of football will be played this season than ever before. Speed, stamina, and the ability to adeptly seize the opportunities for the breaks in the games, will be stressed by the coaches.

Texas University, which has put out beautiful machines during the past two years, this year probably will have installed the idea of speed on the getaway, since Clyde Littlefield, track coach, has been appointed to succeed E. J. "Boatful Doc" Stewart, as head football coach. Technically, Doc's teams, his first of which won the conference championship, played almost perfectly, but the members lacked speed in getting the ball underway and frequently failed to execute daring plays needed in critical periods of the game.

Already interest is turning to training for the season, schedules for Texas teams in the conference follow:

**Rice Institute**

Sept. 24—Loyola University, at New Orleans.  
Oct. 1—Sam Houston State Teachers' College, at Houston.  
Oct. 8—St. Edwards' College, at Austin.  
Oct. 22—University of Texas, at Austin.  
Oct. 29—Southwestern University, at Houston.  
Nov. 11—Texas A. & M. College, at Houston.  
Nov. 24—Baylor University, at Waco.

## BEAU BRUMMEL RIVIERE SIGNS WITH PELICANS

### FORMER TEXAS LEAGUER TO GET FLING WITH PROBABLE WINNERS

(By Associated Press)

HOUSTON, Aug. 10.—Arthur (Tink) Riviere, right handed pitcher, ace of the Dallas Steers in 1925, and formerly known as the "Beau Brummel" of the Texas league, has cast his lot with a probable pennant winning team again. He recently signed with New Orleans of the Southern league. The Pelicans are leading the league at this time and with such pitchers as Riviere, Dave Danforth, Joe Martin, Benoy Karr, Tiny Osborne and Hippo Hodges, they are favorites to capture the flag.

Riviere had been here during the winter selling insurance. During the winter Riviere and Eddie Dyer of the St. Louis Cardinals are part-

## Tilden Has Easy Time In Taking His Third Round

(By Associated Press)

SOUTHAMPTON, N. Y., Aug. 10.—"Bill" Tilden swept through his third round match with ease today in the stadium club's invitation tournament disposing of Yoshio Ohira, Japanese star, 6-1, 6-0.

Rene La Coste, ace of the French Davis cup team, was harder pressed before defeating the New York junior, Julius Seligson, 6-4, 6-2.

The summaries third round matches:

Three men got on base for Washermen, two as results of a one and one through an error and one through a "Dude" Lasser. Faulty defense behind Smith's bat and the bankers in their win and Shylock artillery blasted the Laundrymen for a total of 17 safe hits. Wolliver, with four hits in two trips, and Nicholas, with one out of four, were the outstanding swatsmen.

## Wholesalers Are Victors Over Rix Team, Score 3 To 0

(By Associated Press)

NEW YORK, Aug. 10.—The winner of tomorrow night's Jack Dempsey-Paulino Uzcudun fight will be held in readiness by Tex Rickard as a possible substitute for either Jack Dempsey or Gene Tunney, in the event either of the principals of the heavyweight championship bout at Chicago, September 22, is unable to go on.

This was learned today, following Rickard's return from Chicago to attend to details of his New York card at the Yankee stadium.

Paulino has been given the approval of medical examiners representing the New York state athletic commission. The Spaniard has a boil on his right forearm but insists he is not bothered by the growth, or from an injured left thumb. Paulino will weigh in around 192 pounds tomorrow. Dempsey came to New York today from his camp weighing 177.

With their original lineup back in the game for the first time in several weeks, the Wholesalers, winners of the first half of the City League flag chase, defeated the Rix Furniture Jugglers at Merrill park yesterday afternoon by a count of 3 to 0.

Raymond "Kid" Ater, former high school shortstop-batter, hooked up with B. Sherrod, Mortician ace, in a neat hurlers' duel and the game might have been going until yet had not errors cost the game.

Evo Marshall, Tech swatsmith, assuming the shortstop role for the Rixners, committed two errors, one of which was a ground ball, and five errors and the game was over.

### New York Station To Radio Reports

NEW YORK, Aug. 10 (AP)—Last minute news of Sacco and Vanzetti including reports of the death scene will be broadcast over station WSOB according to arrangements announced by the Debs Memorial radio committee today. Station WSOB, recently purchased by the Debs Memorial fund, has not yet been turned over to the new owners, and it was said that a special arrangement was made for the Sacco-Vanzetti broadcasting station WSOB is estimated by G. August Garber, secretary of the fund, to have a normal range of about 250 miles. It is a 500 watt station.

### Pair Give Up All Hope For Escape

BOSTON, Aug. 10 (AP)—Nicolo Sacco and Bartolomeo Vanzetti tonight admitted they had given up all hope of escape. They said they would be executed in the morning.

### Death Chair Ready

With the electric chair at the Charlestown state prison, its straws freshly oiled and its electrodes brightly burnished, waiting and triple line of guards patrolling the great walls of the cheerless penitentiary and other officers guarding nearby streets and bridge approaches, the final hours of the condemned men sped by, unmarked by any departure from death house routine.

Unless Governor Alvan T. Fuller, and his council decide to grant them an eleventh hour respite, or their counsel can succeed in other last minute legal stratagems, the seven year fight of the condemned men to escape electrocution will come to an end shortly after midnight.

Police departments were held in emergency duty throughout the day in dozens of cities, following frustrated demonstrations last night and announcements that new efforts would be made to hold such meetings up to the final hour.

Protest strikes called in leading cities yesterday failed to come up to the point of numbers of workers who were expected by leaders to leave their employment. At Rochester, N. Y., however, 10,000 electric workers left their jobs, while in New York City leaders gave unchecked estimates of 400,000 being on strike.

From foreign capitals continued to come reports of similar activities designed to influence state or federal intervention in behalf of the two condemned men. Except for the explosion of two bombs that caused only slight damage in Argentina, one in the palace of justice in Buenos Aires and the other in a railway station near that city no extreme developments were recorded, however, demonstrations taking the form usually of meetings of protest and of delegations waiting upon those in authority.

There was nothing more than a "hint" to base the continued hope of the Sacco-Vanzetti defense for a last day respite. Governor Alvan Fuller at Boston, agreed to "take under consideration" their petition for a further stay of execution. In addition, defense counsel were ready to carry a new appeal to the state supreme court.

Protests came from nearly all over the civilized world to save Sacco and Vanzetti. The protests were mostly peaceful. France, Ireland and Canada reported meetings marked by good order.

In Havana and Santo Domingo the American legations were guarded. The industrial eastern section of the United States was tranquil in the forenoon.

Sacco and Vanzetti began their last day refusing breakfast, apparently apathetic.

## KIMBRO TELLS OF TECH PLANS FOR AVIATION

### NEW DEPARTMENT GETS UNANIMOUS APPROVAL OF BOARD. HE SAYS

Assurance of plans for the establishment of a school of aeronautics for Texas Technological college, which would make possible instruction in flying and the realization of a municipal landing field for Lubbock, was given this afternoon by H. T. Kimbro, member of the board of regents, who returned this morning from a meeting of the college directors held in Dallas.

Dr. P. W. Horn, following the close of the session in Dallas, went to San Antonio where he is now conferring with the board of regents of the possible cost of maintenance of the department of flying.

Favored Unanimously The entire board favored the addition of the proposed department, Mr. Kimbro said. "We believe that aviation has reached such a commercial aspect that it should be included as an instructive measure with the other departments of the school."

Government co-operation can be secured in offering instruction in aeronautics, and with this in consideration we feel cost of equipping and maintaining the school will be relatively small. A committee has already been appointed to obtain government support.

Texas Tech has an advantageous site now under consideration for the field, and with the co-operation of the Chamber of Commerce and the Lubbock Aero club improvements will likely be made soon which will provide Lubbock with a municipal airport.

May Open This Year Definite form will likely materialize when the board of regents meets in October. Instruction in flying will probably be offered by Texas Tech with the opening of the second or third term of this school year, Mr. Kimbro said.

The board was optimistic over the possible impetus toward growth that the new department would add to the college. Texas Tech will be the first school in Texas to give instruction in aviation, and one of the few in the United States offering such a department.

Illinois University, after including a school of aeronautics in its curriculum a few years ago, secured an enrollment of several hundred for instruction in flying the first year. Georgia Tech is the only school in the south now teaching aeronautics.

## Hogg Continues Plea For Clean Christian Lives

Evangelist Hogg continued his theme of the power of God, at the morning service today at the labor temple and spoke in particular to the church people of the congregation. He is urging them daily to straighten up their own lives, clean up their own hearts, and get ready for a great campaign against sin.

He told his hearers this morning in plain terms that one cannot have any influence with the unsaved, unless they first show that they are living clean and pure lives.

Lived and practiced religion is what is needed. It is the only kind that counts for anything in bringing the unsaved to the realization of their lost condition.

Tonight Dr. Hogg will preach on the subject: "Who is your Boss?" It is expected that a large crowd will be present, and it is intended that the women and the men, the boys and the girls be separated, and one sex will occupy one side of the tabernacle and the other the opposite.

Cottage prayer meetings started yesterday and will be continued throughout the remaining days of the revival. Thirteen were held yesterday and more than 150 attended the prayer meetings.

## Pastor-Marshall In Missouri Is Slain

SOUTHWEST CITY, Mo., Aug. 10 (AP)—Rev. W. H. Hatfield, pastor of the Methodist church here and town marshal, was shot to death early today by an unknown assailant.

As a foe of those who flouted the dry laws, Rev. Hatfield made many enemies, and officers believe that one of them killed the pastor-officer.

The minister was found lying in the street, his arms extended as though he had sought to seize his assailant.

Eight months ago he was named town marshal. He had been a pastor here 25 years.

## HISTORIC OLD KYLE FIELD IS BEING CHANGED

### SCENE OF BEGINNING OF MANY DIAMOND STARS HAS BEEN MOVED

(By Associated Press) COLLEGE STATION, Aug. 10.—The old historic Kyle baseball field of A. and M. college is no more. The grand stand had been moved more than 100 yards south and a new grandstand will be erected in the rear future, which will be the scene of A. and M. baseball classics.

On the old diamond many of the game's greatest players have performed and A. and M. baseball stars, many of whom have flashed in the big time, reached their greatest heights there.

Many Stars Star. Enters Old-time fans recall that on the field late "Dugs" Raymond, the former New York Giants star, one of the greatest and most eccentric pitchers of all time, threw his spike ball. The late Christy Mathewson, whom John McGraw recently said was the greatest pitcher of all time, threw his famous "fade" on this diamond.

Combs, an ace of the Philadelphia Athletics six of 15 years ago, made his fast ball whistle there. Brian Harries, the late-like slinger of the Boston Red Sox exhibited his side-arm delivery and Roper Hornsby, who led the Cardinals to their only pennant in this century played on the old turf.

Local fans admit that two of the best pitched games seen on this field were played this year between the Longhorns and the Aggies when Ned Baker, now with the Philadelphia Athletics, defeated the Aggies 2 to 1, while H. A. Hillin, now with Palestine, slugged the Longhorns the next day, 5 to 0.

Falk Did Greatest It was on this field that Bill Falk the former Longhorn pitcher and outfielder, did his greatest play as a collegian. The Chicago White Sox outfielder, when a member of the Longhorns, used to go to bat with his cap, and announce to the Aggie students that he would slant out a triple. The Aggies would commence to ride him, but a few moments later he would pull up at third and again he would tip his cap.

It was on this diamond that Paul Olson and Burnyard Henderson of A. and M., Teddy Lyons of Baylor and Eddie Dyer of Rice showed promise of being big league material. Olson afterward had a trial with the Yankees, while Henderson is now pitching for Joe Dunn a Baltimore in the International league. Lyons, the White Sox pitcher, is ruled one of the best boxmen in the big time, while Eddie Dyer who is the secretary of the St. Louis Cardinals, is hurling great ball for Syracuse.

## Price On Houston Club To Be Made Known Sept. 1

(By Associated Press) HOUSTON, Aug. 10.—The Houston Chronicle today quotes Branch Riekey, vice president and business manager of the St. Louis Cardinals, as saying that on September 1 it will be made known the price at which the interest of the Cardinals in the Houston Texas league baseball club, may be purchased. Riekey took Roberts, Texas League president and Fred Ankenman, president of the Houston club, have been here in conference for two days.

Another conference, Riekey said, would be held to determine the price at which the Houston club might be purchased. Riekey and Roberts, the statement indicated, would endeavor to determine it if they fail to agree. Judge K. M. Landis, baseball commissioner, will be called upon to appoint a third man.

North Texas league clubs have objected to Cardinal control of the Houston club.

With ball players of major league caliber mighty scarce, I have often marvelled how highly capable performers are allowed to drift to the minors.

I have in mind Gene Robertson, who for the past six years has played a pretty intricate role for the St. Louis Browns with great credit.

For some reason waivers were asked on Robertson last winter. How all the major league clubs waived on him is beyond me, but apparently they did, and Robertson was sent to St. Paul in the American association.

The other day I had a chat with four members of the staff of umpires of that league, and when I asked them who was the best ball player in the organization they came the unanimous reply: Gene Robertson.

In all probability some big league club will be paying \$25,000 or upwards this winter to acquire his services for another shoe at the majors. His passing will always remain a mystery to me.

### Browns Malted Nats

Baseball is a funny old game in that it so often refuses to run true to the advance dope and past performance chart.

When the Washington club recently invaded the west for its second tour of that end of the circuit, the team had a winning streak of 19 straight games that was finally shattered by the Yankees.

Playing Cleveland first in the west, Washington returned to its winning ways by taking six straight from the Indians, then came one out of three from Detroit and four out of five from Chicago. With only St. Louis to be visited and the Browns playing poorly, the Nationals seemed certain to return home with the best record in years.

The came the unexpected, three straight defeats at the hands of the boys in brown, who had just been trimmed four straight by New York. To make matters worse, two pitchers discarded by Washington, Crowder and Bullou, scored two of the three wins.

Simply proving there are no soft spots in a major league schedule no matter how poorly a certain club may be doing.

## Former Attorney Generals Called

BOSTON, Aug. 10 (AP)—All but one of the living former attorney generals of Massachusetts visited the state house today, presumably in response to a summons from the governor.

The former officials came in a body to the state house at 11 o'clock and went into the council chamber. They were Albert E. Pillsbury, Jay R. Denton, J. Weston Allen, Herbert Parker, Henry A. Wyman, Thomas J. Boynton and James M. Swift.

It was believed at the state house that Governor Fuller called them there to obtain their advice on legal questions connected with the last moves of counsel in the Sacco-Vanzetti case. Henry C. Atwill, the only other surviving former attorney general is on a vacation in New Hampshire.

## Sacco Refuses To Sign Petition

BOSTON, Aug. 10 (AP)—Nicola Sacco refused to sign a petition for a stay of execution today.

While the park is an excellent one to see on, there is always a stiff wind blowing from center field. This of course gives an added advantage to the pitcher and handicaps the batter by preventing him from getting a distance shot.

The White Sox players suffer most from this condition because they play 77 games at home.

"Playing 77 games on the White Sox park during the season just about erases 25 points from every regular Chicago player's average," said Babe Ruth after a recent four-game series in that city. "You just can't get distance hitting into such a wind as is usually blowing into the batter's face."

I am inclined to think Ruth's estimate fairly conservative. Perhaps that is one of the many reasons why various White Sox teams have been known as the "Hitless Wonders."

American league ball players are agreed that Chicago park is the

most difficult one in the circuit in which to gather base hits.

The long-awaited story of Charles Lindbergh's life, written by himself is at last published under the characteristic title of "We."

Colonel Charles is not to blame of course, for a naturally enthusiastic publisher, this subtle goes "The Famous Pilot's Own Story of His Life and His Transatlantic Flight, Together With His Views on the Future of Aviation."

Even more interesting than the body of the book proper is the foreword by Ambassador Mason F. Herrick. Political leaders are not often hailed as poets, men conspicuous for sensitive perceptions, but here in an able, fearless, tactful ambassador one finds the poet and dreamer, too.

When Joan of Arc crowned her king at Rheims, she became immortal. When Lafayette risked his all to help the struggling Americans, he wrote his memory forever across a mighty continent.

There have been moments here in France when all that my eye could reach or my intelligence fathom appeared dark and foreboding, and yet, in spite of all, my soul would be warmed as by invincible sunbeams.

For I feel with every fiber of my being that Lindbergh's landing here marks one of the supreme moments in the history of America and France, and the faith we have in the deciding power of spiritual things is strengthened by every circumstance of his journey.

Why People Borrow A recent bankers' report made after examination of several thousand loans to working men and women, asserted that 65 per cent of the women loan seekers had dependents.

Illness was the reason given most frequently for the request of the loan. Getting the winter supply of coal was a second leading cause.

It is not difficult to find a reason for the high rate of borrowing among telephone girls. Most telephone girls are required to dress beyond their means, holding, as they do, conspicuous seats in most any office, and their pay envelope rarely takes this into consideration.

Old Master's My heart leaps up when I behold A rainbow in the sky: So when it rains on my childhood days; So is it when my life begins; So is it when I am a man;

Go To School The little red schoolhouse of song and story has been hearing the tolling of going, going, gone for many a year now, but the end seems really to have come.

Just a jingle He followed her to school one day. Nope this one is another. It's not the rhyme on Mary's lambs.

THE PLAINSMAN

Says: The Plainsman is learning through bumpy experience that it is much easier for streets to be torn up than it is for them to be mended.

Tumble 'N' pool, the municipally owned and operated swimming hole, is closed for a couple of days while necessary repairs and improvements are being made.

The Gainesville Daily Register, in a hampered front-page column, pointedly asks if Saccos and Vanzetti don't like the way our laws operate.

A combination cafe and dance hall in Amarillo has been dubbed by a newspaper in the North Plains capital as a 'night club'.

Sometimes it would appear that there are more boob automobile drivers prevalent in Lubbock today than there are of the sensible variety.

Another day, another dollar. A million days, a million dollars. It doesn't take long to get rich, geologically speaking.

New Officials Untried When the new crop of prohibition enforcers is finally on the job which will not be for another six months, it may be confronted with a great deal of debris as a result of the present situation.

Third Stage of Dryness The question is whether sanity and tolerance will meet the almost incredible situation which exists bootleg flourish in most large cities and even right here in the na-

WASHINGTON LETTER

WHAT CAN WE DO ABOUT THIS AWFUL PROHIBITION ISSUE?

By RODNEY DUTCHER, NEA Service Writer

WASHINGTON, Aug. 10.—The country is slowly beginning to realize that the country is facing an unusual prohibition situation.

Andrews Forc Fed Away The Andrews enforcement organization, since the general's resignation, is rapidly disintegrating. Thousands of men were to all intents and purposes discharged from the enforcement service when it was placed under civil service.

Must Check Fire Loss No nation, however rich, can afford a sheer waste of over half a billion dollars a year.

Contemporaries SOUTHERN CHIVALRY An 85-year-old Confederate veteran bowed himself out of a runoff primary race for the legislature with a woman candidate, saying, "No true southern gentleman would try to gain at the expense of a lady."

SEE-SAWING and BROADWAY

NEW YORK, Aug. 10.—Catering to human vanity has always proved good business on Main street as well as Broadway, but Manhattan has added to such trading, these little refined touches that turn a good business into a great fortune.

Flapper Fanny The other day Tommy Purcell came into town from Paris. His bank roll stands at a cool million in liquid.

A Thought Man is born into trouble, as the sparks fly upward.—Job 3:7.

Previous Crimes Committed The robbery and murders at South Braintree had been preceded by similar crimes. Police and detectives had definite suspicions, and they set a trap to catch the owner of an automobile which was in a garage at Braintree.

TEN ON HAWAII The Dole flight from San Francisco to Honolulu having created much interest in Hawaii, here's a chance to brush up on your knowledge of the islands. Answers are on classified page.

The World-Famous Case, Complete

On December 21, 1921, Judge Thayer denied the first of the motions for a new trial. This was met by demonstrations at home and abroad. Several supplementary motions for new trial were made from time to time, but all were denied.

Conflicting Stories But on their arrival, both Sacco and Vanzetti told conflicting stories of their doings. They later protested they lied to conceal their radical activities, through fear of deportation, and not because they had committed murder.

College Professors Had Written Books on the Case Criticism of Massachusetts law expert into newspapers of standing and men and women of importance openly questioned the guilt of the two men and the fairness of their trial.

Sacco Refuses to Sign Thompson carried to the governor a petition from Vanzetti asking "not a pardon, but justice." Sacco refused to sign the petition. Thompson explained to Governor Fuller that Sacco had felt the strain of

imprisonment and that alien indicated that he was being coerced to consider a plea for pardon, but he had not signed the petition.

imprisonment and that alien indicated that he was being coerced to consider a plea for pardon, but he had not signed the petition.

Go On Hunger Strikes On July 17, while the investigations were under way, Sacco and Vanzetti went on hunger strike. The advisory committee concluded its investigation July 25, after examining witnesses and hearing arguments of Thompson and his associate, Herbert G. Ehrmann.

Defense Is Organized A Sacco-Vanzetti defense committee was organized, and financial aid was sought to help them. The cry was raised that the men had been found guilty because they were radicals.

CORPUS PLANS KIWANIS MEET

LARGEST ATTENDANCE IN HISTORY OF CLUB ANTICIPATED (By Associated Press)

DENTON, Aug. 10 - Seventy-nine clubs will be represented at the annual convention of the Texas-Oklahoma district, Kiwanis International, at Corpus Christi, September 5 and 6, according to A. M. McDonald, of Denton, lieutenant governor of the district. The largest attendance in the history of the organization is expected, arrangements being made to accommodate 1,200 persons at the Gulf town. The lure of Corpus Christi as a summer resort is an added attraction. Mr. McDonald explained.

High Officials To Speak

Two Kiwanis International officers will address the convention. They are Fred C. W. Parker, of Chicago, International secretary, and Charles Rinehart of San Diego, International trustee. Henry Heim of Atlanta, Ga., International president, and Roe Fulkerson of Washington, editorial writer for the Kiwanis magazine, have been invited to attend.

Most of the work of the two day session will consist of making reports and outlining plans for the coming year's work. Frank C. Smith of Houston, district governor, will preside. Mr. Smith was elevated at the International convention at Memphis recently to the International board of trustees.

The numerous entertainment features for the Kiwanians and their wives and friends include a religious musical with all church choirs in Corpus Christi participating Sunday evening preceding the opening of the convention Monday. ### PARRISH ASKS PUBLIC AID IN SUNDAY CENSUS

#### SPEEDY ANSWERS TO QUESTIONS OF CENSUS TAKERS IS URGED

In connection with the religious census that is to be taken here Sunday morning between 8 and 10 o'clock by members of the eight or nine churches in the city co-operating in the revival campaign led by the Hogg evangelistic party Mayor Pink L. Parrish has issued a statement calling on the public to co-operate heartily in the campaign by readily answering all questions of the census takers. Mayor Parrish's statement follows:

"My attention has been called to the fact that a city wide religious census is to be made in Lubbock Sunday morning August 14, 1927, between the hours of 8 and 10 o'clock. It is possible that there are several hundred people who have moved to our city within the past few months and have not yet affiliated themselves with the church of their choice. Some of these people no doubt worked faithfully in the church back in the old home town, and could be of as much help to some church in Lubbock.

"Possibly there are those who have not attended church services here enough to become acquainted with the needs of the church, and to find their place among the workers of the Master. The churches of a town or community can never have too many earnest workers. "I therefore ask every citizen of Lubbock to co-operate with the census takers next Sunday morning in giving them the information asked for. It will give the churches an opportunity to be of service to you, and you the opportunity to serve the church.

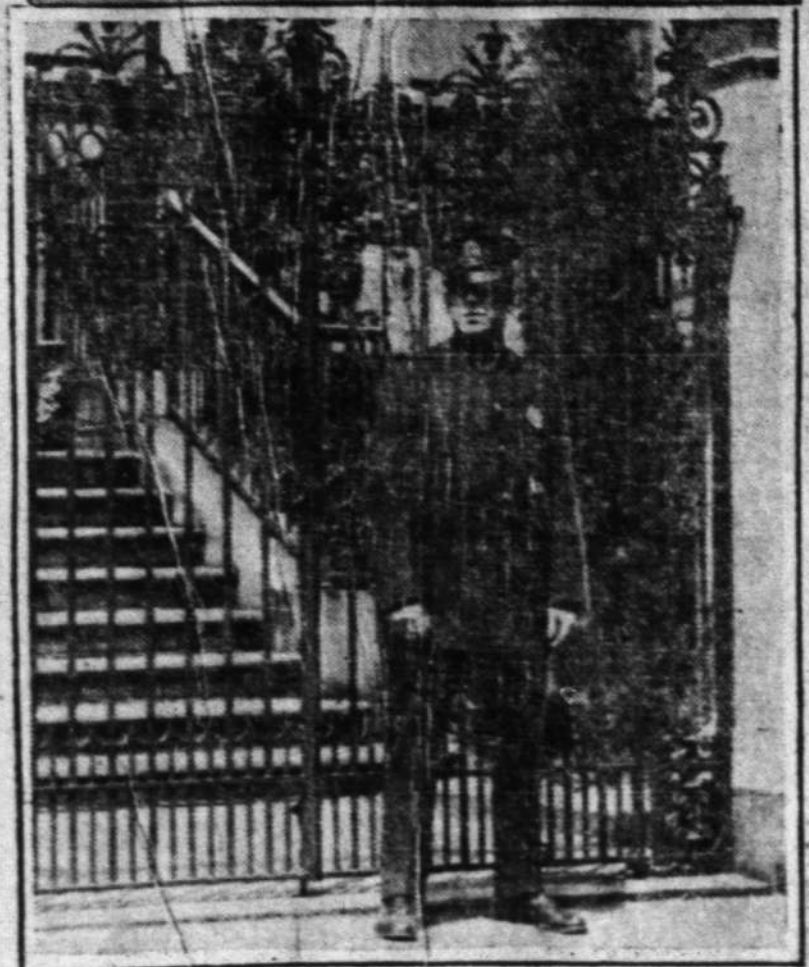

"I truly believe the importance of this census can not be over estimated. Let us all do our part and a complete and correct census will be taken.

"PINK L. PARRISH, Mayor."

#### Pioneers Planning Meeting Thursday

WEATHERFORD, Aug. 10.—The annual reunion of the Hall Century club and the Old Settlers' association of this section will be held at Holland Lake, near here August 11. All members of the association are working to bring together all the old settlers for a reunion with greater success than has ever been known. The organization is composed of citizens who have lived in this section for many years, and have seen Parker county grow from a barren waste land to a well cultivated agricultural section.

### Guarding Gov. Fuller From Radicals

Immediately after Governor Alvan T. Fuller, of Massachusetts, had rendered his Sacco-Vanzetti death decision, strong guards were placed on his residences. Above you see his summer home at Northampton, one of those guarded, and below a police sentry before the door of his urban abode in Boston.

### HOPE REVIVED FOR LOST SON

#### MOTHER IS CHEERED BY RECENT REPORT FROM FRENCH FIELDS

(By Associated Press) DALLAS, Aug. 10.—Hope has been revived in the heart of a Gold Star mother that her son, or her son's grave might be found.

With the report from France that the body of Lieut. William A. Sheehan of the seventy-ninth had been found with the bodies of six enlisted men after nine years search Mrs. M. H. Burke, mother of "Kiyi" Burke, former Dallas linotype operator, believes that she will learn something yet of her son.

"Kiyi" was in the 79th, and was in the battle of Montcoucon. Shortly after that allied offensive a terse telegram came to Mrs. Burke. It read: "Private John Thompson Burke killed in action, September 26."

Since that time she has heard nothing of "Kiyi."

"Kiyi" took a tough turn. Five times he failed to qualify for enlistment and then he was drafted in the army. Within two weeks he was on his way to France. His unit was pushed in a salient from which he never returned, although his outfit came back leaving him and

### Phone Valuation Claimed Too Low By Tax Chairman

(By Associated Press) AUSTIN, Aug. 10.—Telephone company properties in 114 Texas cities were assessed last year at only \$11,528,830 valuation, or about \$7,000,000 less than the reported earnings basis value of the Southwestern Bell Telephone company in Dallas alone, the state tax survey commission, seeking an equalization of taxes, was informed today by its chairman, former Governor O. B. Colquitt.

### HUNGER THREATENS ICE CREAM VENDORS

LONDON.—This has been a cold summer in England—such a cold one, in fact, that vendors of ice cream are face to face with bankruptcy. There are more than 800 such peddlers in London, and the impending starvation of 500 persons is a big enough problem to bother God about.

At least, so said Signor Poggis, leader of those who sell ice cream. So Signor Poggis arranged a special high mass to be celebrated at Clarksdell as an act of supplication for warm and sunny weather so that other people would suffer from the heat—and buy ice cream. But on the morning the mass was to be held, only a dozen of the 500 vendors appeared. The reason was that the sun came out bright and hot that day and most of the peddlers were busy at their trade.

It is estimated that \$200,000,000 worth of automobiles are stolen annually in the United States.

(By Associated Press) AUSTIN, Aug. 10.—Telephone company properties in 114 Texas cities were assessed last year at only \$11,528,830 valuation, or about \$7,000,000 less than the reported earnings basis value of the Southwestern Bell Telephone company in Dallas alone, the state tax survey commission, seeking an equalization of taxes, was informed today by its chairman, former Governor O. B. Colquitt.

The commission spent some time discussing the figures and Colquitt's figures on other public utility properties, which reflected like situations.

Total assessed values of all property in the 114 towns was \$820,621,805. Total taxes paid was \$16,176,074.75. Of this sum, the telephone company paid only \$251,700.71. Chairman Colquitt reported. The telephone company, however, paid at an average rate of \$1.93 on the \$100 valuation, while the average rate on all property was only \$1.94 he said.

### Many Alliances Needed In World Peace, Is Claimed

(By Associated Press) CHARLOTTEVILLE, Va., 10.—John H. Clarke, former justice of the United States supreme court today visioned world peace achieved by many international alliances instead of a single universal treaty like the League of Nations, being at the Institute of Public Affairs at the University of Virginia.

Mr. Clarke spoke on "the present status of the League of Nations" and said it had been found possible to formulate a treaty world wide scope suitable to nations, leading to the development of separate treaties like the Locarno pact which ultimately will set up establish world peace through individual agreements between nations.

Mr. Clarke urged the United States to accept the proposal France to enter into a treaty outlawing war between the two nations.

"Not to do so," he said, "is to place our country in a position would appear as though we were to report to war in dealing other nations."

The most illiterate country in the world is Natal, Africa, where per cent of the natives can not read nor write. Egypt and Guatemala have 52.7 per cent illiterate.
