

Silver Squares Plan Salad Supper Here

The Silver Squares will have a salad supper and dance January 18 at 7:00 p.m. in the Fire Hall. Scotty Scott will be the caller. Admission will be \$2.00 a couple.

Junior Play Is To Be January 30

The Junior Class of Silverton High School will present a three-act mystery, "Somebody Screamed," Saturday, January 30, at 7:30 p.m. in the school auditorium.

The cast of characters is: Orlin Grabbe as Bryan Williams, an active boy about 15 or 16, who is interested in everything.

Bonnie Drewry plays Jack Douglas, Bryan's friend, though a bit more sluggish and inactive.

Blaine Boyles as Mrs. Erna Douglas, Jack's mother, a brisk, competent woman of middle-age.

Linda Fisch plays Aunt Hilda Douglas, Jack's flustered, nervous elderly aunt who behaves girlishly.

Paula Turner as Miss Delaney, the severe proprietor of the Delaney Tourist Home.

Ruth Ann Minyard plays Maxine Kline, a pretty 16-year-old whose usual good nature is eclipsed by fear.

Johnny McGavock portrays Maxine's younger brother, Paul Kline.

Joe Self plays Edward Elliott, Paul and Maxine's well-dressed middle-aged uncle, who is charming when he wants to be.

Nena McDaniel as Dawn Adams, a rather timid soul in her early twenties, nice looking and well groomed.

Darrell Long plays Dawn's young husband, Hank Adams, handsome and happy-go-lucky, on the surface, at least.

Monty Smith plays The Stranger, a ghost who speaks in a low voice.

An evening of entertainment is promised if you attend this exciting and ghostly play. Admission is 75 cents for adults and 50 cents for children. All proceeds will be used for the annual Junior Senior Banquet.

Marketing Quotas Approved For Cotton

Preliminary returns show that growers of upland cotton in a referendum in cotton-producing states December 15 approved marketing quotas for the 1965 crop by a 96.3 percent favorable vote, the U. S. Department of Agriculture has reported.

Returns showed a total vote of 300,533. Of this total, 289,276 voted for and 11,257 voted against.

Growers of extra long staple cotton approved 1965-crop marketing quotas by a 80.3 percent favorable vote. Of 940 votes cast, 755 were for and 185 against.

Other states in which votes may have been cast include Kansas and Nevada for upland cotton. The relatively small vote expected in these states will not affect the outcome.

These preliminary votes compare with December, 1963 referendum results, when 220,701 or 84 percent of the total upland vote of 234,682 were for and 13,981 against. Of the 1,237 votes cast in last year's extra long staple cotton referendum, 919 or 74.3 percent were for and 318 against.

Since more than the necessary two-thirds of the growers voting have approved quotas on both types of cotton, marketing quotas will continue in effect for 1965 crops, with growers who exceed acreage allotments being subject to penalties on the farm's cotton production.

Price support will be available to growers who comply with the farm's effective acreage allotment for the particular kind of cotton grown. In addition, producers who participate in the domestic allotment program for upland cotton will be eligible for price support payments as well as loans.

The marketing quota penalty on "excess" upland cotton is 50 percent of the cotton parity price as of June 15, 1965, or 50 percent of the support price for that kind of cotton, whichever is higher.

Preliminary results of the 1965 marketing quota referendum in Texas is as follows:

124 yes votes
171 no votes
171 total vote
42 percent yes votes

NUMBER 2

Mackenzie Board Agrees To Send Bill To State Legislature

Climaxing a five-hour session last week in the Lockney City Hall council room, the board of directors of the Mackenzie Municipal Water Reservoir voted unanimously to introduce a bill into the current session of the State Legislature creating the Authority. Two amendments were adopted to the present text of the bill after considerable discussion.

With board members from all four cities present, along with engineers, attorneys, bond men, U. S. Geological Survey representatives and land owners in the dam area, the matter of location of the dam and the question of the amendments held the attention of the group for a solid five hours before the impasse was broken. In the final act, however, the four cities voted unanimously also to add the amendments to the text and the directors all appeared pleased with the bill.

Landowners D. M. Cogdell, jr. and C. M. Flowers were present seeking information about the location of the dam and the board's intention toward condemnation of land for the Authority.

Silverton board member Carl Bomar began the extended discussion with the request that an amendment be added to the text of the bill giving any of the four cities right to enter the reservoir authority and participate in the use of water after paying their share of the cost at any later date should they not vote for the bonds in the first election.

He suggested as an alternate amendment that the text be changed so that should Silverton fail to vote for the bonds, the right of eminent domain, that is the right to condemn property needed by the Authority, should not be effective in Briscoe County. Lockney and Floydada board members objected to both amendments and the opinions of the lawyers, bond men and engineers were sought in the long discussion.

If the dam is located at the bridge, it will be on the property of C. M. Flowers. Flowers stated that he certainly believes in fishing and boating and was agreeable to selling land for the dam and lake, but that he was concerned about the condemnation clause in the act which would allow the Authority to work away from the lake and take up good grass land.

The board assured Mr. Flowers that they were not interested in acquiring additional land for cabins and lodges, etc. that their main interest was drinking water.

Both Flowers and the board were in agreement that an area around the lake for flood purposes as well as a road is satisfactory and necessary.

D. M. Cogdell, jr. asked if the dam would cut off the normal flow of the creek through his land. An engineer replied that a state law requires that the normal flow of the creek must be maintained.

In the final action, which seemed to be agreeable to all board members, the group adopted an amendment saying that should one of the four cities vote against the bonds and not come into the Authority in the first vote, that city will be given first preference when any city is added to the Authority at a later date.

It is impossible at this time to estimate the cost of the dam, the cost in revenue and ad valorem taxes to the residents of the respective cities and the exact location of the dam is still under study.

Another amendment which drew considerable discussion was concerning the condemnation of land for recreational purposes. It was felt that some land around the proposed lake would be necessary if it was to be used for recreation. However, the board split on the matter. Tom Moore of Lockney

made the motion that the bill be left with the recreation clause in it. The move was seconded by O. C. Bailey. When the vote was taken, Lockney and Floydada voted in favor with Tulsa and Silverton voting against. Later Moore moved to delete the recreational clause and the motion was approved unanimously.

President Lon Davis, jr. of Floydada presided over the meeting, which was called to order at 7:30 p.m. Bill Long of Silverton read the minutes of the previous meeting. It was announced that Jennings & Bookout of Tulsa had been employed as attorneys for the board succeeding G. W. Suggs, deceased.

Davis stated that preliminary surveys have been made and that topography maps are being made of the area. Long also announced that all current bills are paid and that the Authority has a balance of \$2600. Funds are provided by the four cities on the basis of water connections.

Davis discussed the water needs of the area, stating that the water supply in this area is dwindling. He said the question confronting the board was: Shall we proceed with the bill? Millard Parkhurst, attorney who drew up the bill, recommended that the bill be introduced into the Legislature as soon as possible in order to insure its passage. It was noted that a notice of intention must be published in the area cities 30 days prior to the introduction of the bill. That notice is being carried in the newspapers this week.

James R. Nichols, a member of the board's firm of consulting engineers, Freeze, Nichols and Enders, stated that a preliminary study indicated that the suggested dam site would probably have to be changed due to several factors. He said that the "narrows" where the dam site was proposed, is inaccessible and unsuited for a dam of the type needed here. He said that it would be impossible to create a spillway on this site and that a dam here would inundate the farm paved highway from Silverton to Claude and that rebuilding the highway would be too expensive. He is of the opinion that probably the site of the dam will have to be moved above the highway crossing. He said that there are many questions yet unanswered on the matter and that his firm must make a study of the topography maps before making recommendations. Both sites are on the Tulsa Creek northwest of Silverton.

Representatives of the U. S. Geological Survey present, Julius Lyons and David G. Stubbe, both of Tulsa, said that the organization would probably finish the field work by April 1 and the maps will be available by July 1. The mapping area covers the terrain from about six miles north of Lockney to ten miles north of Silverton and from three miles east of Silverton to twelve miles west of Silverton.

It was pointed out that each of the four cities must vote either revenue bonds or property tax money for the dam. Marvin Shurbet, a member of the State Water Development Board was present and said that he is sure that his board will be able to buy the bonds if a suitable package is presented. If one of the cities of the four fail to vote the bonds, then the remaining three cities will have to re-vote in order to make the project valid.

Silverton is already short of water, a member of that city said, and the other cities probably will face a similar situation within the next few years.

Present for the meeting were Tom Moore and O. C. Bailey of Lockney, S. W. Ross and Olen Petty of Floydada, R. C. Hill and Jim White of Tulsa, Carl Bomar and Bill Long of Silverton, Lon

Davis, jr. of Floydada, all directors of the reservoir authority; D. M. Cogdell, jr. of Cedar Hill and C. M. Flowers of Tulsa, land owners; Donald L. Bookout of Tulsa, attorney for the Authority; Millard Parkhurst of Dallas, bond counsel; M. L. Eeds and Jim Nichols of Fort Worth, consulting engineers; Marvin Shurbet of Peters-

burg, member of the State Water Development Board; John T. Forbis, Childress, attorney for Silverton; Joe W. Smith of Lubbock, representative of the First Southwest Company; Julius Lyons and David G. Stubbe of Tulsa, U. S. Geological Survey; Edgar R. Hays of the Lockney Beacon and Wendell Tool-

ey of the Floyd County Hesperian.

The Owls and Owlets opened their scheduled conference play last Friday at Hale Center. The Owlets won their match at the end of three overtime periods, and the Owls dropped their match to Hale Center.

The Owlets led Hale Center at the end of each quarter of play. Score at the close of the first period was Silverton 15, Hale Center 7. At the half the Owlets led 24 to 22. At the end of the third quarter the Owlets had a 31-27 lead. At the final buzzer the score was tied, as it remained at the end of the first two overtimes. With two seconds left on the clock in the third overtime with Hale Center one point ahead, Donna Stephens sank a field goal, bringing the girls a

49-48 conference victory.

Mert Mills was the highest scoring individual with 21 points followed by Tena Williams with 20 points.

The Owls dropped a 55 to 47 decision to Hale Center, with Greg Towe leading the scoring with 23 points. Fred Stafford scored 18 points.

The Owls led 15 to 14 at the end of the first quarter, but trailed 23 to 30 at halftime and never overcame the difference.

Tuesday evening, the locals traveled to Sudan, and captured a pair of wins.

The Owlets took a 38 to 31 win after trailing Sudan 5-6 at the end of the first quarter and still behind 10-13 at halftime. The Owlets outscored Sudan in the third period to take the lead and controlled the remainder of the game.

Highest scoring individual was Mert Mills with 19 points followed by Tena Williams with 17. Connie Dudley and Donna Stephens also saw action as forwards for the team. Guards who shared the win were Brenda Martin, Pat Cagle, Margaret Minyard, Ruth Ann Minyard and Dianne Davis.

The Owlets were outscored 13 to 15 by Sudan in the first quarter of play, but came back strong in

the second quarter to lead 31 to 26 at halftime. The final score was 72 for the Owls, 63 for Sudan.

Greg Towe led the scoring with 25 points, followed by Fred Stafford with 24 points. Ike Bruton made 13 points.

The 1964 Briscoe County Fat Stock Show is to be held Saturday, January 16, in the Fat Stock Show barn. All livestock should be on

the show grounds by 9:00 a.m.

Judging will begin with the steers at 10:00 a.m.

Official judge for the show will be Max Sherbert, Hale County State Bank Vice President in Plainview. Robert Ledbetter has been named the General Superintendent of the show.

The Fat Stock Show is financed annually by those who believe in better livestock for a better agriculture and in the development of the youth of Briscoe County.

The public is encouraged to attend the stock show.

Mrs. Sam Montague Buried At Plainview

Funeral services for Mrs. Myrtle Montague of Portales, New Mexico, were conducted there Tuesday with Rev. Wheeler, pastor of the Methodist Church of which she was a member, officiating.

Burial was in a Plainview cemetery Tuesday afternoon beside her late husband. Grandsons were pallbearers.

Mrs. Montague was born in Montague County, Texas, on August 28, 1886, and was married to Sam Montague here in 1904. He died in 1950, and three children preceded him in death.

Mr. and Mrs. Montague lived near Silverton until the early 1920's and lived at Plainview before moving to Portales.

Survivors are four sons, Grant T. of San Jon, New Mexico, Gid and Fred of Portales, and Clyde of Clovis; five daughters, Mrs. Gertie Moore and Mrs. Mozell Carter of Amarillo, Mrs. Johnny Betts of Manfield, Arkansas and Mrs. Opal Bryan of Morton; two brothers, Warren Thomas of Amistad, New Mexico, Zerrell Thomas of Eads, Colorado; five sisters, Mrs. Alice Dickenson of Portales, Mrs. Patti Deavenport of Silverton, Mrs. Eula Joiner of Clarendon and Mrs. Lonis Kendall of Lockney; 33 grandchildren and 18 great-grandchildren.

Among those who attended the services were Mrs. Lee Deavenport, Mr. and Mrs. Earl Cantwell, Mrs. Wayland Fitzgerald, Mrs. James Henderson, Mrs. Ray Teeple, Mr. and Mrs. Joe Montague, Mr. and Mrs. Roy Montague, Mr. and Mrs. Printz Brown, Mr. and Mrs. Marvin Montague, Mrs. Vinson Smith, Mrs. Lowell Jarrett, Mrs. H. P. Howard, Mrs. Floyd Williams, Mr. and Mrs. Edwin Crass, Mr. and Mrs. R. E. Brookshier, Dick Garvin.

Mrs. Fleeter Boydston of Plainview spent Tuesday night of last week with her daughter, Mr. and Mrs. Boyd Bingham, Brenda and Shirley.

W. H. Tension was taken by ambulance to Swisher County Hospital early Sunday.

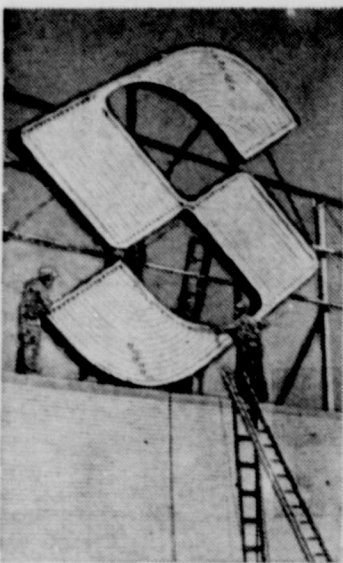

LeAnne Womack of Lubbock, granddaughter of Mr. and Mrs. Bruce Womack, had her ankle broken and three vertebrae dislocated and other minor injuries in an automobile accident in Lubbock December 14 as she and other high school girls were enroute home from school. She is recuperating satisfactorily according to her mother, Mrs. Doug Sewell, and expected to return to classes January 11.

Mr. and Mrs. J. C. Rhoderick attended the funeral of Virgil L. Teaver in Plainview last Friday. Mrs. Teaver is a former Silverton resident, and Mr. Teaver was well known by cattlemen here.

Mr. and Mrs. Raymond Teeple and Mr. and Mrs. Elbert Dickerson returned home last Thursday after a trip to points of interest in South Texas. They visited at Rockport, Corpus Christi, Aransas Pass and attended Sunday morning church services in Rockport. They drove through the Rio Grande Valley to Falcon Lake. They stopped at LaFeria to visit Mr. and Mrs. H. H. McPherson, but found they were out fishing.

Have you tried

POMMAC

the soft drink from the

Continent?

You're in for a treat when you try Pommac. The new soft drink from the Continent. It has a new taste — a crystal taste — with the sparkle of champagne.

Of course Pommac is a low calorie drink. With meals, alone or at parties, Pommac should always be served iceberg cold. Try Pommac, the particularly appropriate soft drink.

LOW CALORIE

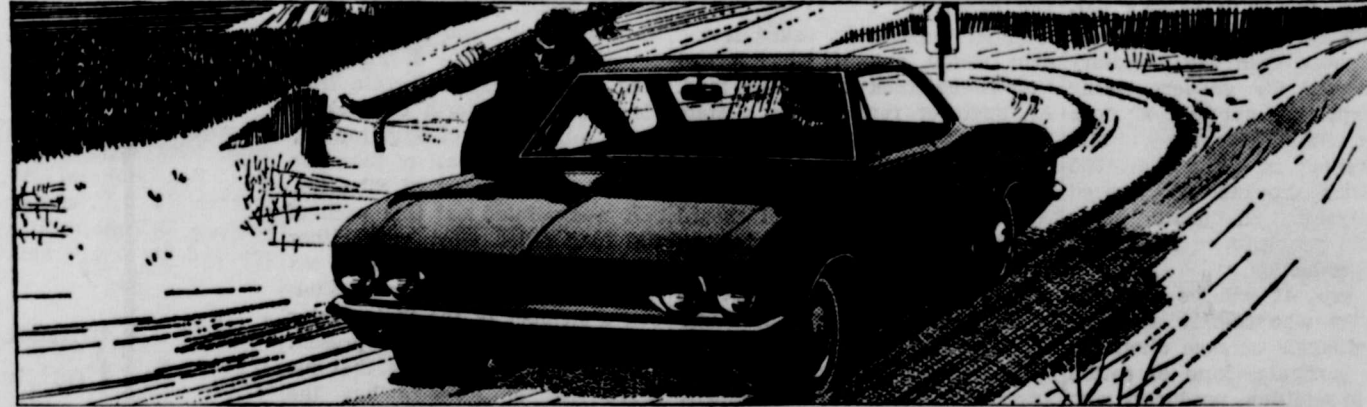

Discover the difference in the '65 Chevrolets (As different from other cars as they are from each other)

CHEVROLET—As roomy a car as Chevrolet's ever built.

When you take in everything, there's more room inside this car than in any Chevrolet as far back as they go. It's wider this year and the attractively curved windows help to give you more shoulder room. The engine's been

moved forward to give you more foot room. So, besides the way a '65 Chevrolet looks and rides, we now have one more reason to ask you: What do you get by paying more for a car—except bigger monthly payments?

CORVAIR—The only rear engine American car made.

You should read what the automotive magazines say about the '65 Corvair. They're wild about its ride. They think there's nothing else this side of the Atlantic that can touch its styling. They say if you haven't driven a new Corvair Corsa with a 180-hp Six Turbo-Chargaarged! you just don't know what you're missing.

Drive something really new—discover the difference at your Chevrolet dealer's Chevrolet • Chevelle • Chevy II • Corvair • Corvette

SILVERTON, TEXAS

Dorothy Wilbur Is "Cook Of The Week" At Dalhart

Mrs. Earl Wilbur of Dalhart, the former Dorothy Dickenson, was recently featured as "Cook of the Week" in the Dalhart newspaper.

The Dalhart woman grew up in Silverton and was graduated from Silverton High School. She attended the University of Texas for one year and then West Texas State University for three years where she was awarded a bachelor of arts degree. Her major was English.

It was while she was working as assistant to the Registrar at WTSU that she met her husband, Earl, who is also a West Texas State graduate. The couple were

married in Los Angeles in January 1942. Another of the war years was spent in California, and from there they went to Florida for three years. Afterwards they were in Canadian for a short time before going to Higgins where Mr. Wilbur was executive vice president of the Higgins First National Bank for nine years.

In August 1955 the family moved to Dalhart where Mr. Wilbur is now president of the First National Bank. They have two children, D'Ruth, a fifth grader, and Robert, a student at Missouri Military Academy.

The Wilburs are members of the First Baptist Church. Dorothy enjoys bridge and belongs to two clubs, and also holds membership in Beta Epsilon chapter of Epsilon Sigma Alpha. She participates in Parent-Teacher work and for some years was in Scouting and has served as a Den Mother. She enjoys reading and is an ardent de-

votee of Crossword Puzzles. In addition to liking to cook, she also spends much of her time in handicraft. Some of her intricate and beautiful items are jeweled and sequined Christmas tree decorations.

The recipes Dorothy submitted to the Dalhart newspaper were for Mushroom Oven Baked Chicken, Cheese Stuffed Potatoes, French Bean Casserole, and Date Cake. Mrs. Wilbur says that she usually makes up the potatoes in large quantity and freezes them. Everything that she freezes she wraps in foil. The Date Cake is from a recipe that her mother, Mrs. A. P. Dickenson of Silverton, has followed many years, and it is a big family favorite.

Cheese Stuffed Potatoes
Eight medium sized baking potatoes. Bake, split in halves, carefully remove from shell, mash with hot milk, butter, salt and pepper to taste. Add two cups grated Velveta cheese, 1 cup minced onion—mix. Pile lightly back into shells—dot with butter, sprinkle with paprika—bake until golden brown.

Or freeze on cookie sheet, then take off and bake in hot oven for about one hour as needed.

French Bean Casserole
2 cans French Fried Onions
2 cans French Green Beans
2 cans Mushroom Soup
Mix, bake for 45 minutes in medium oven.

Mom's Date Cake
1 teaspoon Soda; 1 cup boiling water; 1 cup chopped Dates. Dissolve soda in boiling water; pour over dates; let stand until soft
1 cup chopped nuts
1/2 cup shortening
1 cup sugar
1 well beaten egg
1 1/3 cup flour
1/2 teaspoon salt
1 teaspoon vanilla
Cream shortening and sugar, add egg and vanilla and beat until fluffy. Stir in date mixture, nuts and the flour sifted with salt. Bake in 8-inch layer pans. Bake in slow oven (325 degrees) 30-40 minutes.

Frosting
5 tablespoons Butter, 3/4 cup of Cream, 5/8 cup Brown Sugar. Mix and bring to boiling point. Remove and add confectioner's sugar until of right consistency.

Mushroom Oven Baked Chicken
Buy an all-purpose chicken, 2 1/4 to 3 1/4 pounds ready to cook weight for four servings. Cut into serving pieces.

Combine 1/4 cup flour, teaspoon salt, 1/4 teaspoon pepper and one teaspoon paprika in paper bag; then shake each piece to coat well. Melt 1/4 cup butter in shallow casserole (1 1/2 quart size); lay in chicken pieces with skin down.
Bake in hot oven (400 degrees) about 30 minutes until golden brown on underside. Meanwhile combine 1 can condensed cream of chicken soup, 3 or 4 ounce can mushrooms (Do Not Drain) and 1 tablespoon sherry if you like; heat. When chicken is brown, turn; pour soup mixture over and bake 15 or 30 minutes more until bubbly.

Annual Meeting Will Be Held Tuesday

The Annual Meeting and election of officers of the L. O. A. Junior Study Club will be held in the home of Mrs. James Hawkins Tuesday. Mrs. Hawkins and Mrs. Ronald Dale Kitchens will be hostesses.

The devotional will be given by Mrs. Bill Durham.

Federated Clubs Plan Reporting Workshop

The Caprock District Texas Federation of Womens Clubs are planning a Reporting Workshop to be held at Hemphill-Wells Monterey in the Hob Nob Room on Saturday, January 16, beginning with a luncheon at 11:30 a.m.

Club presidents, district department and division chairmen and reporting chairmen have been urged to attend by the District President, Mrs. Robert N. Tipps of Denver City. Club representatives are asked to bring their current yearbooks, minutes, notes and questionnaires to the meeting.

Several representatives of the three Silverton federated clubs are planning to attend.

Members of the L. O. A. Junior Study Club are to meet at 9:30 a.m. at the home of Mrs. Charles Sarchet.

Mrs. Mercer Elected President Of Club

Mrs. Fred Mercer was elected to serve the March of Time Study Club as president in 1965-66 at the annual meeting held last Thursday afternoon in the Production Credit community room.

Other officers elected were Mrs. Roy Mayfield, vice president; Mrs. J. S. Hinds, second vice president; Mrs. W. E. Schott, Jr., recording secretary; Mrs. Alvie Mayfield, corresponding secretary; Mrs. H. A. Cagle, treasurer; Mrs. Rex Dickerson, reporter and Mrs. True Burson, parliamentarian.

The theme for the meeting was "Diamond Jubilee of Service for Freedom and Growth."

Reports of officers were received and standing and special committee reports were heard.

Mr. and Mrs. Edward C. Lain of Pasadena, California, are parents of a daughter, Sara Elizabeth, born there Wednesday, January 6, at 6:58 p.m. She weighed six pounds and twelve ounces.

Grandparents are Mr. and Mrs. Warner B. Grabbe of Silverton and Mr. and Mrs. W. E. Lain of Savannah, Georgia.

BRISCOE WAS ONE OF TWO COUNTIES WHICH HAD NO TRAFFIC DEATHS IN 1964

Of the 31 counties in the Amarillo District, Briscoe County was one of the two counties which had no deaths resulting from traffic accidents during 1964.

However, the Department of Public Safety recorded 37 mishaps on rural highways in the county in 1964. Those accidents injured 20 persons with some spending countless days in hospitals. Property damage from these accidents amounted to \$46,836.00.

During December there were four accidents on rural highways in the county, according to Sergeant W. E. Wells, Highway Patrol supervisor in this area. These four crashes resulted in two persons injured and an estimated property damage loss of \$24,150.00.

Officials are hopeful that motorists will heed warnings and drive

Great-grandparents are Mr. and Mrs. A. H. Chappell and Mr. Louis Grabbe.

with greater care during 1965 and give special consideration to the hazards of driving during the winter months ahead.

Jim Whitfield, a former Silverton resident who has been seriously ill in an Alpine hospital for several weeks, was moved to the Childress General Hospital last Friday. His condition is now considered critical. The Whitfield household goods have also been moved to Childress where their son, Mr. and Mrs. John Whitfield and son live. Keith Whitfield, his wife and two children are also in Childress with his parents at this time. Keith is stationed with the Air Force at Dover, Delaware, but is on a 30-day leave. Mrs. J. K. Bean and Mrs. Roy Morris spent Tuesday in Childress with the Whitfield family. Mrs. Keith Whitfield, a registered nurse, is helping care for her father-in-law at the hospital.

Dick Bomar was taken to Swisher County Hospital Tuesday. Mrs. Bomar, Mr. and Mrs. Freeman Tate and Jackie Carol, Mrs. Ray C. Bomar and Mrs. L. K. Gilkeyson, Silverton, and Mr. and Mrs. Rex Long,

Kit and Mike of Alanreed were at the hospital to see him Tuesday evening.

Mrs. D. O. Bomar, Mrs. T. C. Bomar, Mr. and Mrs. Lee D. Bomar, Carl D. Bomar and Don Burson attended the funeral of Wylie Morris in Clarendon Tuesday afternoon. Bud Long was a pallbearer.

Mr. and Mrs. A. H. Chappell attended the Golden Wedding Anniversary of Mr. and Mrs. Daniel Bryan in Lubbock Sunday afternoon.

Mrs. Jimmie Tidwell, nee Clynnell Hutsell, Mike, Nancy and Bill of Almagordo have been recent guests of her parents, Mr. and Mrs. R. C. Hutsell.

Mrs. W. L. Perry, Milton and Debbie of Corpus Christi recently brought Mrs. Milton Perry home. She had been visiting her son and family in Corpus since Thanksgiving.

Ends Factory Training School

Garner (Blackie) Waters of Brown-McMurtry Implement Company in Silverton has completed a factory training school of three days in Amarillo. This was held at International Harvester Company and was conducted under the direct supervision of Dan E. Dunscomb, IH District Service Supervisor.

The course of instruction covered the subjects of hydraulics and diesel engine service, plus shop management. The purpose of the school was to provide specialized education on farm tractor service so that tractor owners can secure the most efficient operation of their tractors.

Mr. Waters became acquainted with new servicing techniques on the new International Harvester tractors and took refresher training for service work on previous models. He also worked with new shop equipment so that he could quickly and efficiently diagnose engine troubles.

This training is a part of the annual program which is presented by International Harvester Company so that its field representatives, and dealer service men can maintain their education at a high level and provide the very best in tractor service to their customers.

Guests of Mr. and Mrs. Floyd Williams, Martina and Annette during the holidays included his step-mother, Mrs. Jesse Williams and Mr. and Mrs. Leonard Williams and son of Amarillo; Mr. and Mrs. W. B. McAlister and sons of Portales, New Mexico; and Otho Coats of Clovis, New Mexico.

Mrs. Floyd Perkins and Kathy Elaine of Amarillo are spending this week with Mr. and Mrs. R. E. Sweek and family, Mr. and Mrs. Perkins and family and other relatives.

Mrs. Garland Ellis of Ralls and Mr. and Mrs. Sonny Thomas are spending this week with Mr. and Mrs. J. W. Dillard, parents of Mmes. Ellis and Thomas, in Geny, Arkansas. Mr. Dillard expected to undergo eye surgery this week.

ed by International Harvester Company so that its field representatives, and dealer service men can maintain their education at a high level and provide the very best in tractor service to their customers.

1965 March of Dimes Is Launched To Score Birth Defects Knockout

A "one-two" punch will be aimed at the problem of birth defects this January during the annual March of Dimes campaign across the nation.

"The objective of the drive is twofold," explained Dr. Daniel Bergsma, director of the medical department of The National Foundation-March of Dimes. "More than 250,000 seriously defective children are born each year in this country—one every other minute. Given the facts, the American public will recognize the problem of birth defects for what it is—a national emergency that requires immediate action. We invite the public to help us meet this emergency."

"The second goal is money. With public contributions to the January March of Dimes, we expect to establish the additional March of Dimes-supported birth defects centers desperately needed for the faster diagnosis, evaluation and improved treatment of these defects which cripple or disfigure a child before it's born. Funds are also needed to enable scientists to continue their search for the causes and possible ways to prevent birth defects."

To support medical and scientific workers in the front lines of the battle against birth defects, The National Foundation-March of Dimes has a behind-the-lines army two million strong. These are volunteers from the more than 3,000 March of Dimes county chapters throughout the 50 states—men, women and teenagers, too, who dedicate their efforts to the success of the January campaign and the year-round programs of The National Foundation.

Visit 15 Million Homes
To acquaint families with the aims of The National Foundation-March of Dimes, these volunteers will join the Mothers' March at the end of the month during which some 15 million homes are visited. Other volunteers will address about 30 million informative mailers. March of Dimes volunteers also organize fund-raising events to support the work of local chapters and the national organization.

Her parents' persistence paid off for 4-year-old Mickey Heinicke, the 1965 National March of Dimes child. Mickey was born with a spinal deformity that paralyzed her from the waist down. At one time it seemed unlikely that she could ever walk.

Yet today the spunky youngster goes darting around with pint-sized crutches and braces. Not perfect—but certainly an improvement over crawling. The increased mobility means an expanded world to little Mickey and her family.

In research within the past few years, scientists supported by March of Dimes funds produced new or improved tests to detect inborn errors of metabolism, so that prompt treatment can prevent permanent

SQUARING OFF for a knockout blow at birth defects is Michaeline ("Mickey") Lea Heinicke, 4, Denver, the 1965 National March of Dimes Child.

damage to the infant's body or mind.

"The progress made thus far is significant and promising," Dr. Bergsma noted, "but we have taken just the first step on a long road. When the American people recognize the magnitude of the problem, they will demand and support an efficient and effective attack against the many birth defects that cripple or disfigure 700 infants each day. With their generous help, we can build up our chapter center programs and birth defects centers throughout the country and we will continue to support individual scientists in the quest for knowledge in this critical area."

NEW CREDIT SERVICE AID FOR LOW-INCOME RURAL PEOPLE

A new credit service to help low-income families in rural areas raise their incomes is now available in Texas, according to State Director, L. J. Cappleman, Farmers Home Administration.

Mr. and Mrs. Nuke May, Barbara and Monte recently returned from a visit with Mr. and Mrs. Dick May, Alicia and Evelyn in Santa Barbara, California. They traveled to and from California via jet airliner.

Mrs. A. M. Kendricks of Leuty spent from Wednesday through Saturday of last week with her father, J. J. Vardell, and other relatives.

Mr. and Mrs. A. L. Phillips of Lockney visited her parents, Mr. and Mrs. G. H. Thomas and other relatives Sunday.

Mr. and Mrs. Rex Jones and children of Lubbock visited her grandmother, Mrs. W. A. Rowell, Sunday afternoon.

Mrs. R. L. Hill returned her daughter, Susie, to Canyon Sunday afternoon and visited her mother, Mrs. W. T. Haley. Susie, a student at WTSU, spent the weekend here.

Dr. and Mrs. M. O. Walls and family of Frederick, Oklahoma visited her mother, Mrs. J. C. Hill, Friday afternoon and Sunday afternoon as they were enroute to and from Hale Center for a visit with other relatives.

Joe Ray Stodghill and his stepson, Fred, of Perryton and Jodel Hutsell were recent visitors with Mr. and Mrs. Clifton Stodghill and daughters. Joe Ray, Fred and Jodel have returned to Perryton, where Jodel is employed.

Mr. and Mrs. Dick Guest, Joni Beth and Janie of Floydada, Mr. and Mrs. Ed Hutsell, Jan, Bob, Jill and Kim were Christmas Day dinner guests of their parents, Rev. and Mrs. R. C. Guest at Cone.

Mr. Cappleman said the new service opens up Farmers Home Administration credit aid for the first time to many low-income rural families who previously were unable to obtain either public or private loans to improve their earnings.

All county offices in Texas, Cappleman said, are accepting applications for loans up to \$2,500 to finance farming enterprises, small family businesses, trades and services. Rural cooperatives serving low-income families and providing services and facilities not otherwise available may also be eligible for credit under the program.

Borrowers will be provided continuing management aid to help them make a success of their farming enterprises or new businesses.

Farmers Home Administration a U. S. Department of Agriculture agency will administer the new loan service under recently delegated authority from the Office of Economic Opportunity.

Liberalized loan terms and conditions for participating low-income families allow for an interest rate of 4 1/2 percent.

To be eligible for the new rural credit program, an applicant must live in a rural area, have an income that does not cover basic family necessities, be unable to obtain credit from other sources, including the regular loan program of the Farmers Home Administration, and show a reasonable promise of succeeding in the enterprise to be financed by the loan.

A cooperative, to be eligible, must be primarily composed of and serve low-income rural families and be unable to obtain credit from other sources.

About 3.5 million families in rural areas across the country, including 500,000 farm families, are unable to obtain credit to develop income-increasing enterprises. The new credit program is budgeted at \$35,000,000 for the current fiscal year.

In addition to the new credit service, the Farmers Home Administration serves all rural counties in Texas with loans to finance farm operations, buy and enlarge farms, construct rural housing and develop community water systems, recreation areas and grazing land. It also provides a program of emergency loans, watershed loans and rural renewal loans.

PLANNED OBsolescence

"These were the diseases that were," might make good television programming for a science show in the future if the course of medical progress continues at its current brisk pace.

The dedication and employment of the medical and allied professions toward making all disease obsolete already has relegated many once common maladies to the ranks of medical curiosities, while at the same time lengthening the lifespan some 20 per cent in 20 years and saving the lives of an estimated 4 million Americans who would have died if the 1937 death rate prevailed today.

However, many medical targets still remain, most significantly cancer and heart disease, both of whose death rates have more than doubled since 1900. The investment since 1950 of some \$2 billion in research by the American pharmaceutical industry and millions more by the Government and universities has generated unprecedented medical achievements and augers well for the future fight against disease.

Semester Test Schedule Given

For those who may be wondering why so many high school students are on the streets today and tomorrow, there is a simple explanation: these are semester test days.

Today the students meet only their first, third and fifth period classes at 8:40, 10:20 and 1:00 o'clock respectively. Tomorrow, they meet only their second, fourth and sixth period classes at the same times.

Any free time the students have between classes is theirs to do with as they choose.

Sergeant: Did you volunteer for this detail?

Joe: You can tell by my fingernails.

Sergeant: How?

Joe: You can still see the splinters I got when they dragged me from my bunk.

ATTEND ADMINISTRATORS' MEETING IN AUSTIN

Superintendent J. S. Hinds and High School Principal O. C. Rampley attended the School Administrators' Advisory Conference on Education in Austin January 6-8.

They reported a very informative and pleasant trip. They attended meetings on Civil Rights Law, Extended NDEA Program, Vocational Education, Teacher Certification, and heard a talk by the Dean of Education from Texas University.

A teacher, unfastening with difficulty the overshoes of one of her little pupils, asked, "Did your mother hook these for you?" "No," the child said, "she bought them."

SCHOOL CALENDAR

Jan. 14 Semester Tests
Jan. 15 Semester Tests
Jan. 18 Clarendon Junior College Representative to speak to Seniors
Jan. 19 Class Meetings
Springlake, there
Jan. 20 Assembly

WHAT IF --

—Johnnie Martin was afraid of frogs?
—Sue learned not to run from teachers?
—There weren't any erasers in the government class?
—Coach Hines and Coach Thornburg really ran the office?
—The students could put all the gossip they know in the paper?
—Joe wasn't the envious type?
—The Senior girls were as good in English everyday as they were on Wednesday?
—Brenda accepted Johan's proposal?
—Mr. Grosdidier didn't use pencils to lock the annual staff door?
—Connie Dudley couldn't type better than some of the Typing II students?

Sergeant (after war game): Private Jones, didn't you realize you were exposing yourself to an imaginary enemy only 250 yards away?

Private Jones: That's right, Sergeant. I was standing behind an imaginary rock 25 feet high.

FROM MR. DUNN'S OFFICE Semester Ends Soon

The time is drawing near to close another semester. It has been a good year thus far and I am sure it will continue to go smoothly. I would like to take this opportunity to urge each and every student to work harder and try their best on the semester tests that lie just ahead. Give these tests due consideration as they make up an important portion of your semester grade.

We will be having a pre-beginner day on Friday, January 29. First graders will not have to come to school on this day. This is the day we set aside each year for those children who will begin school this fall to come to visit the school. This is for the purpose of census enumeration, meeting teachers and other school personnel, and getting acquainted with the new surroundings of school. These children should arrive at school at 8:30 a.m. Please see that the first grade teachers have access to a birth certificate for your child. These students will eat lunch at 11:00 a.m. in the school cafeteria. Parents are asked to pick up these children at 12:00 noon. We will be looking for all students, including all races and nationalities, for this pre-beginner Interscholastic League literary day on Friday, January 29.

Contests will be held during the spring. This will be the first year for competition in District 3-A. Some students have already begun preparation for these contests. Materials for Interscholastic League are available in the principal's office.

L. R. Dunn,
Elementary Principal

Being a husband is like any other job—it makes it a lot easier if you learn to like your boss.

A family man is one who replaces the currency in his billfold with snapshots.

Senior Class News

The Senior class met Tuesday, January 5, and elected candidates for Most Athletic girl and boy. Mert Mills and Gregg Towe were those selected.

Try-outs for the Senior Play were scheduled for Wednesday at 6:30 p.m.

Janice Lewis thanked the class for the flowers and gifts sent her while she was in the hospital.

Cafeteria Menu

Thursday, January 14
Turkey casserole, peas, rolls and butter, milk, lettuce and tomato salad and honey.

Friday, January 15
Tuna and pimento cheese sandwiches, soup, crackers, milk and fruit.

Monday, January 18
Fish sticks, tartar sauce, corn, peas, bread and butter, milk and fruit cobbler.

Tuesday, January 19
Pinto beans, hot tamales, buttered carrots, cornbread and butter, milk, cole slaw and applesauce cake.

Wednesday, January 20
Hamburger meat with spaghetti, navy beans, rolls and butter, milk and honey and apricots.

Komments

From Kathy

Here we are in the beginning of a new year. It holds many things in store for each of us. It holds joy and happiness, sorrow and pain. It holds many new, different and exciting experiences. The important thing is how we handle each new situation.

It has been said that each new year is like a book and we are its author. Each separate day is a page and we determine what is to be written on that page. There is one difference. What we place on the page can never be removed. It is a lasting thing and will be with us for the rest of our lives. For this reason, we must be careful what we put down. We are responsible for what happens to us during our life. We decide what course we shall take. Let's make this the best year yet by doing our best every day in everything we do.

She: It must be difficult for a man with a moustache to eat soup.
He: Yes, quite a strain.

REMOVE WARTS!

Amazing Compound Dissolves Common Warts Away Without Cutting or Burning
Doctors warn picking or scratching at warts may cause bleeding, spreading. Now amazing Compound W[®] penetrates into warts, destroys their cells, actually melts warts away without cutting or burning. Painless, colorless Compound W, used as directed, removes common warts safely, effectively, leaves no ugly scars.

Luci Baines Johnson Will Head March of Dimes Teen Program

Luci Baines Johnson, America's most famous teenager, will be honorary chairman of the 1965 March of Dimes Teen Age Program against birth defects. Luci, who has some very strong opinions about young people and their place in society, is leading a task force of thousands of young people in the fight against birth defects.

"There are a lot of good and useful things we can do right now—without waiting to turn 21," she says.

Her opinion is confirmed by March of Dimes spokesmen. "Teen-age volunteers are among our most dedicated workers. Their interest, their contribution of time, talent and energy has been impressive. There can be no doubt that they have played a significant role in the conquest of polio."

Cites New Hope

"The victory over polio gives us heart and hope that answers can be found in an infinitely more complex disease area—birth defects. It is a problem in which young people have a special stake—not only because of the large percentage of babies born to mothers under 20 but because of the relationship of the health of teenagers to that of their future children," Luci points out.

More than a quarter of a million seriously defective infants are born in this country each year—one every other minute—700 a day. The problem of birth defects is far greater than polio ever was.

Young people who have joined the Teen Age Program of the 1965 March of Dimes fight against birth defects will shoulder many responsibilities.

Many are helping to carry out the public education program against birth defects. Others are assigned to help in various ways with the Mothers' March for the March of Dimes. Some help out at one of the more than 3,000 local chapters of The National Foundation-March of Dimes.

The purpose of the Teen Age Program (TAP) of the March of Dimes is to acquaint teenagers with the problem of birth defects—a major health problem which affects them, their families and their communities in which they live.

TAP also gives young people the opportunity to help solve these problems through year-round programs of education, service and fund raising.

Most TAP volunteers work through school or club groups, teaming up to work on planned projects or to initiate programs of their own.

Help Plan Programs

March of Dimes educational programs provide material for club and organization meetings. Films, publications and exhibits on the subject of birth defects are available for meetings. Local chapters can help plan a program and supply a speaker to discuss the problems of birth defects, new treatment techniques and research breakthroughs.

Through a program of Health Career Awards, many chapters of The National Foundation offer March of Dimes scholarships to attract students to the health fields. Ranging from \$100 to \$500 per year, these awards are "starter incentives" to help students begin their first year of professional study in the fields of medical social work, medicine, physical therapy, occupational therapy and nursing.

TAP service projects range from helping to distribute literature to being of service to patients and to helping raise funds for research and patient care.

Dances, Games Help

Teenagers have raised money for the March of Dimes by putting on dances, basketball games, contests of all sorts and sales of everything from balloons to garden seeds. Much of this money has gone into the establishment of 50 March of Dimes birth defects centers throughout the country.

These birth defects centers make diagnosis, evaluation

LUCI BAINES JOHNSON, the President's younger daughter, at her desk in the White House, as she began her duties as honorary chairman of the Teen Age Program of the 1965 March of Dimes.

and treatment available to their communities. So great is the birth defects problem, however, that the nation needs triple that number of centers, according to Dr. Daniel Bergma, medical director of The National Foundation-March of Dimes.

As energetic members of The March of Dimes Teen Age Program, young people have proved that they are capable and eager to take greater responsibility in public service. With marriage and a family in their future, teenagers have a great personal interest in solving the problem of birth defects—these "accidents of nature" which add up to the biggest child health problem in this country today.

Most of us lead a double life.

One minute we're a BUYER. The next minute we're a SELLER . . . of goods, services, time, or talents.

Of course, there's some incompatibility in a Buyer-Seller combination. About like you'd expect in a dog-and-cat mixture.

Consequently, we sometimes get to playing our part as Mr. Buyer with such enthusiasm we forget that our other self, Mr. Seller, has to

put dollars in our pocket before our Mr. Buyer self can spend them out of it.

And every time we, as Mr. Buyer, take one of those dollars out of circulation here by spending it out of town, we shrink Mr. Seller's market so it's a little harder for him to get us some more dollars.

It's too bad we don't get more teamwork out of our two personalities. When Mr. Buyer is cutting Mr. Seller's throat, we need to recall that they are both using the same throat.

ADVANTAGES OF A PCA LOAN

1. Planned for farmers and stockmen. Your P.C.A. rep-
resentatives are interested in providing the finest in
credit service.
2. Interest only on time money actually used.
3. Reasonable costs. Present interest rate 6%.
4. Owned by farmers and stockmen. Production Credit
Associations are credit co-operatives locally owned
and operated by farmers exclusively for them.
5. Credit Life Insurance available. Your loan can be
protected for your security and peace of mind.
6. Permanent and dependable source of credit. One loan
can be set up to supply all of your credit require-
ments for your operations for a full year.
