NUMBER 169.

WOMAN VICTIM OF BRUTAL BURGLAR

REFUSAL TO SURRENDER JEWELRY LEADS TO MURDEROUS ATTACK ON DR. GREVE.

THIEF WELL DRESSED

Victim Describes Intruder as Stylishly Attired and Handsome—Saw Reflection in Mirror.

Fort Worth, Tex., Nov. 15.—Because she hesitated to part with her jewelry, a thief who entered the apartments of Dr. Anna Greve at 201 Taylor street Wednesday night shortly after 6:00 o'clock choked the woman into unconsciousness and left her lying for dead upon the floor. The woman fought bravely but her efforts were futile, as the man closed his brawny hands in a vice-like grip around the throat of the victim.

Forty minutes after the assault took place Dr. Greve was found lying insensible by Miss Vay Brown, a daughter of the boarding house where Dr. Greve has her apartments. The girl screamed and attracted the attention of her mother. The two hurriedly summoned Dr. R. B. Grammer, who lives across the street, and after some time the physician succeeded in restoring the stricken woman to her senses. She was then able to tell the story of the assault.

Dr. Greve left her office in the Wagoner building a few minutes before 6:00 o'clock. She arrived home about 6 o'clock and, turning on the electric light, she took off her hat and then turned to the glass to arrange her hair. The reflection she saw in the mirror for a moment horrified her. She could hardly believe that she saw a man advancing toward her with a revolver in hand.

A gruff voice, which said, "Don't scream or I'll kill you," proved to be the woman's stern reality. She wheeled about and faced the man.

"Hand over your valuables," he said. "The trembling woman opened her purse and drew out a \$10 note, all the money she had with her.

"Take this," she said. "It is all I have. But please put down that revolver."

With the revolver still pointed at her head the man roughly snatched the money from the extended hand of the frightened woman.

"Give me that watch," he whispered, as he noticed the long gold chain dangling from the shirtwaist pocket of Dr. Greve.

"My God, please don't take this watch; it's an heirloom," pleaded the woman.

"Take it off or I am going to kill you," answered the man, in subdued tones.

In desperation Miss Greve tore the watch and chain from her bosom and, not thinking what she was doing, hurled it at the man. Instantly he thrust the revolver into his hip pocket and started for her. Before she could scream she was in the man's grasp.

For a few seconds she struggled and then everything became a blank.

When Miss Greve was found lying upon the floor, the watch, broken and battered, lay at her side with the hands pointing to 6:10, a mute witness to the time of the assault.

How the man entered the house is not known. Dr. Greve believes he either followed her into her room or was hidden in the closet when she entered. She had been in the room only half a minute when she saw in the mirror the man advancing upon her.

Was Well Dressed. The man who robbed and assaulted Dr. Greve was no ordinary looking burglar. He was dressed, as near as the woman can remember, in the height of fashion. A neat Fedora hat, pulled down over his forehead, partly obscured his eyes. His suit was of light gray. He apparently was 5 feet 9 inches tall.

The man had all the appearances of a gentleman, but his speech was interspersed with curses, says the woman.

Dr. Greve was found when Miss Vay Brown was called to the front door by a man acting as if he were intoxicated, who repeatedly rang the door bell. The man said he was looking for some rooms and asked to be allowed to look through the house. He was told that no rooms were taken and then he hurriedly left.

A girl turned to go upstairs, she noticed the door of Dr. Greve's room ajar and seeing the light was out she entered the room to investigate. Throwing on the electric light she was alarmed to find the woman lying unconscious on the floor. It is believed that the man turned off the light when he departed so that his victim would

SEWING MACHINES FOR DOMESTIC COURSE

Series of Oil Pools From Kansas Development To Electra Field

Independence, Kansas, Editor and Authority on Oil Matters Believes That Field Will Prove a Continuous One

Situation in the Mid Continent Field

(Independence Reporter) Aside from the activity in the Pawnee county pool, the new work at Turkey Mountain and the development of the new pool at Jenks, there is very little going on in the Mid-continent field at this time. The Pawnee pool is an extension of the old Cleveland pool and the rich stuff in the Osage. The Turkey Mountain and Jenks development are both extensions of the North Glenn development and the latter from the first work done in the Glenn about six years ago. They are not new pools in the sense of finding new remote territory. Some excellent producers are being found in the Turkey Mountain and in the Jenks development, but drilling is treacherous, a single location reaching completely beyond the limits of the pay sand. In addition to this the possible territory is small.

There is a tendency, however, to close up that big gap between the Jenks and Turkey Mountain pools and the production north of Tulsa. Here and there wells are being found and quite as often dry holes, the territory being spotted. It is believed though that it will not be long until practically all of the southern districts will be connected with now and then a failure to vary the monotony. The stretch from the Kansas line to Tulsa is now almost solid producing territory, save as is characteristic of most oil fields, the small barren spots. In a little while the pools of the southern end of the field will likewise be connected as will also the east and west sides of the Cherokee. Then will come a bigger and more extensive east and west development.

There is little if any doubt now that time will prove a large producing area west of the Osage, now known by the limited area of Ponca City. After a while Ponca City development is going to broaden out as did the shallow sand. In the beginning the shallow sand field did not attract much interest because oil men had made up their minds that there was nothing to make down in that shallow stuff. Then came the awakening. Oil men are skeptical about Ponca City and the transure to come, and after that will come the closing up of the intervening territory between it and the present Osage development.

It may have been observed that there have been very few sales of production in the Mid-continent field for months. There is a reason for this. Producers will not sell for the money the pipe lines are willing to pay and the pipe line companies absolutely refuse to meet the demands of the producers. Your correspondent has had opportunity of late to glean some inside information from a number of the big producers of the field part of which was incorporated in a recent letter showing the way wells fall off, and it is quite alarming how certain parts of this field fall off in

production. The buyers of production have found that they cannot pay large prices and expect wells to pay out, and if they cannot make something in the end they are not going to buy. It is found that for at least the last five years of the life of a well its production will cut in two every year. There are a few exceptions to this rule, especially in the true of the great Glenn pool, where wells are holding up remarkably strong and it is also true in some parts of the Osage, outside of the gusher pools. It is also true of the old Cleveland pool and of the new Pawnee pool.

But in the shallow sand side of the Cherokee and in the gusher parts of the Creek and up and down the deep side of the Cherokee the wells fall off fast. In the upper shallow district the wells are giving their owners considerable alarm. They start off big, some of them as high as 1,500 barrels, but they are now all shot to pieces. However, it must be said that while they lasted they were immense money makers and do not now owe their owners a cent.

There is less wildcatting now than there has been for some time and this is no doubt accounted for by the fact that the several hundred wells drilled recently on new leases did not produce the results desired. It may have been well for the field, as there has been an increase of production ever under existing conditions. There is less drilling around Henryetta and in the Okmulgee district generally, although some of the biggest wells ever found there have been drilled during the past few months, but they have only emphasized how uncertain is the territory. Drilling is almost at a standstill in the Muskogee district because of the numerous dry holes completed the past four months.

Summed up, the Mid-continent field at present is sparring, as it were, for wind. By and by some one will find a new strike, and there will be another 20,000 barrel a day pool. In the meantime operators from this field are getting more and more interested in the Electra field which is likely to work over in Oklahoma. There is little if any doubt that the Kansas development of ten years to the new Texas pool. There is no question but pools will be found from the Creel development on down to Electra. It is just a question of locating them.

R. S. Artley of Bradford, Pa., has returned after an absence of several weeks to look after developments at Electra.

Jack Kelly, a well known oil man has leased a tract a mile square in the Huff-McGregor ranch recently purchased by the Culberson Brothers northwest of Dean Station, and timber is now being hauled out for a rig there. The location is directly south west of the Petroli field.

Ben Williams has purchased Fletcher and Davenport's barber shop at 810 Eighth street and will again engage in the barber business. Mr. Fletcher will remain in the shop and Ben invites all his friends to visit him when their "alfalfa" needs attention.

Samuel E. Bell has returned from Smithport, Pa., where he went several months ago when he was taken sick here. He has fully recovered from the effects of his illness and is now in good shape. Mr. Bell was among the first of the eastern oil men to get into the field here.

Fred Joehrendt, one of the oldest and a highly respected German resident of Wichita Falls died at his home at 702 Travis street this morning after an illness with bowel troubles. Mr. Joehrendt was 72 years of age at his death and had been a resident of Wichita Falls a number of years. He has a son, William Joehrendt living here and another son lives in Oklahoma. Definite arrangements for the funeral this morning were awaiting word from relatives in Illinois.

MANY ARRESTS AT ELECTRA THIS WEEK

Constable S. Walkup of Electra, was here yesterday, and while in the city, stated that a total of over twenty-two arrests had been made in Electra since last Sunday.

The cause of this large number of arrests is attributed to drunkenness, street fights, and other minor forms of misdemeanors, although one man has been placed in the county jail here, charged with assault with intent to kill.

Constable Walkup says that he has a competent force of deputies, and that he and his men will see that the law is enforced in Electra, regardless of who may be the offender.

TURKISH WOMEN ARE FORSAKING HAREM

Turkish women have been affected almost as much as the men by the changes that have been taking place in their country. They are showing surprising alacrity in availing themselves of the opportunities found in new conditions.

One of the most interesting and remarkable events in the revolt of the Young Turks in 1908 was the attitude of the women. Being immune from molestation they undertook to deliver messages and documents and traveled to and fro on missions of great secrecy and importance.

It was stated that during the Revolution some of the women dispensed with servants and did the housework themselves in order to parry spies. When their party triumphed many women discarded their veils and took part with uncovered faces in the street demonstrations of the men to celebrate their new liberties.

One woman headed a vast crowd at Stamboul and declared in favor of the new regime, calling upon her sisters to give it their utmost support, while among the most indefatigable members of the Young Turk party at Salonica was a woman graduate from the American College at Scutari. Women's clubs were also started, but were afterward suppressed.

After having availed themselves of the help of the women, the victors ungratefully refused to assist their former companions in their own struggles for a wider life, and have been endeavoring to push them back into the seclusion of the harem. It has been found impossible to do this altogether.

Turkish women are often well educated though it is only within the last fifty years that it has become customary for them to read and write. Their lives of seclusion and encourage study, and they pass the long winter evenings in devouring any literature that comes their way, for many are excellent linguists. For many years past the education of the upper classes has been conducted on modern lines which has had the effect of increasing their discontent, and they are intensely envious of their Christian and Jewish sisters.

Many of the leading Turks, especially those belonging to the official classes, are broad minded, highly cultured men; they are brought into touch with foreign women when they are anxious for their womanhood to resemble; they therefore offer but little opposition to the movement for women's higher education and greater liberty which is now going on in the country.

It is not generally known that the Turkish woman is in a better legal position than her sisters in any country in Europe. She is economically independent of her husband, and the law obliges him to endow her at marriage with a separate estate over which he has no control. She has the disposal of any money or possessions that may have been hers before her marriage, and as in Turkey daughters inherit from parents equally with sons, this is often considerable.

She can dispose of her possessions as she pleases. She can sue her husband in the courts and be sued by him; she is allowed a sum for house-keeping expenses, and no one has a right to inquire how it is spent, while her husband is obliged to maintain her and her servants according to his means. The case recently brought before an English magistrate of a man who had given his wife six cents a day for herself and two children for five years would be impossible in Turkey.

In fact, the rights and pretensions of the Turkish woman are so powerful that though men are allowed four wives by law they rarely are found with more than one, chief among the reasons given being that they do not care to put themselves in the power of more than one woman.

It must not be supposed, however, that Turkish women do not suffer under many and great disabilities. It takes the sworn evidence of two women to balance that of one man, and whereas men are permitted to marry those of another faith the women are forbidden to do so. It was recently announced in English and American papers that a law had been passed by the Turkish Parliament by which a woman could claim divorce from her husband for unfaithfulness. Had this been true it would have been a great and far reaching reform. The statement, however, is incorrect. All a woman can do under the circumstances is to put the matter before a court of jurisdiction, which can grant her a separation, should it be considered desirable. The Turkish Parliament could not pass such a law.

CARELESS ABOUT APPENDICITIS IN WICHITA FALLS.

Many Wichita Falls people have stomach or bowel trouble which is likely to turn into appendicitis. If you have constipation, sour stomach, or gas on the stomach, try simple buckthorn bark, glycerine, etc., as compounded in Adlerika, the new German appendicitis remedy. Wichita Falls druggist states that A SINGLE DOSE of this simple remedy relieves bowel or stomach trouble almost INSTANTLY. O. F. Marchman sells it.

You Will Appreciate My Meat Service

Perhaps beef, pork and veal wherever you see it looks a great deal alike to you.

There is quite a similarity in the GENERAL appearance of all beef, but when you get on the table you have no trouble in telling the difference quickly.

You would probably be startled if you could figure up the money you have lost in the past year on meats of all kinds because they were either tough, tasteless or for other reasons the family did not like it well enough to eat it all and you had to throw a considerable part away.

You won't get any meats of that kind at my meat department.

My meat buyer is an expert in selecting and cutting and you can bank on always getting your money's worth.

Ring up and tell me your favorite cut of meat and let me send it as my meat cutter prepares it.

I'm sure it will be very satisfactory to you.

Give me your meat and grocery orders together—all delivered at one time.

**HEARD ON
THE
STREETS**

The large stone columns to support the front portico of the government building are being placed in position.

G. C. Minor was up from Olney yesterday on business. Last night he went to Holliday to visit a brother.

J. A. Pels of Mt. Pleasant, Texas, has accepted a position as stenographer in the traffic department of the Wichita Falls Route.

Mrs. N. C. McIntyre is having a new front put in the one-story building on seventh street formerly occupied by Bennett and Hardy's saloon.

Messrs. C. C. Huff, Mayor T. B. Noble and Captain Mendel left on the northbound Denver train last night for a visit to Mr. Noble's ranch near Clarendon.

Messrs. A. S. Fonville, V. E. Stamp, H. D. S. Campbell and a boy named Sidwell have gone to Fort Worth in Mr. Fonville's auto.

E. Rexford came in from his farm in the Burk Burnett neighborhood, and reports that his renters are busy sowing wheat.

City Engineer Hinckley has just finished surveying and is now making our Highland addition to Wichita Falls. The addition in question is the property of R. F. Carter of Bartlettville, Okla., and is situated one and one-half miles south of the corporate limits.

C. B. Green, a carpenter residing at 292 Travis street died last night at 7:15 at a local sanitarium, death being due to dropsy and asthma. Deceased leaves a widow and four children. The funeral was held this afternoon.

L. M. Guggenheim of St. Louis is in the city looking after his property interests. Mr. Guggenheim has always taken a great deal of interest in the upbuilding of Wichita Falls.

Good progress is being made with the second story addition to the Times building on Seventh street. The one story part of the building occupied by Weidman Brothers is being built two stories. The second story will be occupied by the job printing department of the Times Publishing Company. After the addition is completed the job department will be operated separately from the newspaper department.

H. Pennyrocker, advance man for the "Alma Where Do You Live Comedians" which comes to the Wichita Theatre next week, says that all the big shows are reporting better business this season than last year and therefore he believes financial conditions are better. Mr. Pennyrocker is here today arranging for the coming of his company here.

**NUTS FROM PECAN
TREES IN SIX YEARS**

San Antonio, Texas, Nov. 16.—By grafting and giving proper attention and care to the groves, pecan growers are now able to produce nuts from the trees in from four to six years after planting. Formerly when seedlings were planted, the pecan growers would have to wait ten or twelve years for results, but this method is now considered obsolete. Not only does the grafted tree produce earlier, but the grade of nut is far superior to the nuts formerly produced.

Responsible nurserymen in the pecan growing districts propagate the standard variety of trees, selecting those prolific in bearing and that

produce nuts of good size, with thin shells and attractive kernels. It has been found by observation that a variety that will do well in one section of the country does not make such a good showing in another section and vice versa, and nurserymen are learning to adapt the trees to local soils and conditions. Along the Texas coast nearly all varieties of pecans are found to do well, bear early and produce more and better fruit with richer flavor than any other part of the south.

Closing-Out-Cost-Price-Sale!

We have placed in our Beautiful Show Windows over 100 different pieces of Odds and Ends, such as Hammered Brass, Wall Mottoes, Punch Bowl Sets, Clothes Hampers, Taborettes, Smoking Sets, Clock Shelves, Jardiniers, Shaving Stands, Bric-a-Brac Cabinets, Florentine Mirrors, Book Racks, Pictures, Umbrella Stands, Brass Trays and many things too numerous to mention. **WICHITA FALLS MAN
LOSER IN GRANDFIELD FIRE**

Brendt Taylor returned from Grandfield yesterday where he had been to look over the ruins of the new home which he was building there and which was burned down Monday morning.

Some time ago Mr. Taylor decided that Grandfield offered good inducements in a business way and started the erection of a home, with the intention of going there to live and to engage in business. Saturday night he came back to Wichita Falls with the satisfaction of knowing that his home was just about completed, and in a week at the latest would be ready for occupancy. Monday morning he received a telephone message that the house was burned down, having caught fire at 3 a. m., and was entirely consumed. More than that the message stated that his insurance had expired, and the house would be a total loss. This latter turned out to be a false report, but so near the truth that Brendt has cold shivers running down his back yet, when he thinks how close it came to clearing him up. The insurance policy carried as a builders risk, was due to expire Monday at noon and the fire occurred at 3 a. m., Monday, just nine hours before the policy expired. Mr. Taylor feels mighty bad over

the loss of his new home, especially as it disarranges his plans for business to a considerable extent.

We write all kinds of insurance. Phone 694, Kell, Perkins & Cravens Ground floor, Kemo & Kell Building.

**Dandruff and Itching Scalp
Yield to Zemo Treatment**

Why should you continue to experiment with salves, greasy lotions and fancy hair dressings trying to rid your scalp of germ life. They can't do it because they cannot penetrate to the seat of the trouble and draw the germ life to the surface of the scalp and destroy it.

Why not try a PROVEN REMEDY? One that will do this. We have a remedy that will rid the scalp of germ life and in this way will cure DANDRUFF and ITCHING SCALP.

This remedy is ZEMO, a clean, refined penetrating scalp tonic that goes right to the seat of the trouble and drives the germ life to the surface and destroys it. A shampoo with ZEMO (ANTISEPTIC) SOAP and one application of ZEMO will entirely rid the scalp of dandruff and scurf. Do not hesitate, but get a bottle of ZEMO today. It acts on a new principle and will do exactly what we claim for it. Sold and Endorsed in Wichita Falls by the Miller drug store.

Really Good
Tender skinned, sweet, juicy sugar corn; cut off far enough from the cob to avoid husk, prepared the "home cooked" way; canned by an exceptionally clean, wholesome method—this description almost does justice to

White Swan Canned Corn

Nothing but your own eating of it will ever describe the "mouth-watering" deliciousness of this better-than-fresh corn.

Ask Your Grocer for White Swan Food Products. There are few, very few, who do not carry them, but yours may be one of the few—or he may be just out. Ask him to get them for you. He can, easily—he will, of course.

Editorial and Business Office.....167

Wichita Falls, Texas, Nov. 16th, 1911.

The Waco Daily News says: "Setting a young man afloat with money left him by relatives, is like tying a bladder under the arms of one who cannot swim; ten chances to one he will lose the bladder and go to the bottom. Teach him to swim and he will not need the bladder. Give your child a good education. See to it that his morals are pure, his mind cultivated, and his whole nature made subservient to the laws which govern man and you will have given what will be of more value than the wealth of the Indies. You have given him a start which no misfortune can deprive him of."

The Times is for any movement that will result to the good of Wichita Falls, and will give it hearty and loyal support at any and all times. By this is meant that it favors any scheme that will result in the betterment of the condition of the common people, and not for the very few only. It wants to see that those upon whom the burden of increased cost of living, high taxes, etc., bears heaviest get a corresponding increase in income. It is tired of this business of urging the people of the necessity of patronizing home industry when it makes the observation that at least some of those who are benefitted thereby show their appreciation (?) of the loyalty of the people of Wichita Falls by charging them a greater price for their product than the same is delivered and sold for in neighboring towns, after the freight charges are paid. This is unjust discrimination against our home people, and the concern that resorts to such discrimination is unworthy to be listed as a friend to Wichita Falls.

A few weeks ago the Denton Record and Chronicle put to a vote of subscribers the question of whether it should continue to put out its "funny paper," and the result was almost unanimous in favor of cutting it out. In the judgment of The Times these "funny papers" are getting to be entirely too numerous, and some of the artists or cartoonists, in their efforts to be "funny" are absolutely silly. There are a few really good funny papers issued, but the men who get them up are men of brains and draw salaries for their work equal to that of the president of the United States. But the concern which furnishes the ready-printed colored supplements to the newspapers, that are unable to print their own, are a very poor substitute for the real article, and most papers that have been induced to put them on or finding this out rapidly. The Times will venture the assertion if they put the matter to a fair test, as did the Record and Chronicle, their subscribers will render a like verdict.

A BOQUET FOR THE TIMES.

In renewing his subscription for another year to The Times, Mr. E. W. Morris, formerly of this city, but now a business man at Abilene, which by the way is one of the best regulated little cities in all Texas, has the following to say:

"Since leaving Wichita Falls nearly three years ago The Times has been a regular as well as a welcome daily visitor to our home. It has come as a letter 'from the home folks.' As such we have enjoyed it very much. The Wichita Daily Times has always championed every movement looking toward the moral, educational and religious uplift of the people. This we have admired and appreciated. With best wishes and kindest personal regards for The Times and its many readers, among whom we have many friends, we remain, most respectfully,
E. W. MORRIS."

The Times receives endorsements and testimonials frequently almost as strong as the above, but it is only occasionally it feels justified in giving publicity to them. But, while it gets compliments like the above it also receives knocks and pretty severe ones at that. It has even been accused of being an ingrave, and such charges would not hurt so had were it not from the fact that those making them have little or no excuse for doing so. The Times appreciates its friends. Without their backing and support the efforts put forth by its enemies to destroy and wreck it financially would have succeeded.

SINKILLER GRIFFIN HAS COME TO GRIEF.

Sinkiller Griffin, who has given Old Nick more hard scraps for his African subjects than all other colored divines in the state, is in jail. With Sinkiller incarcerated the gospel is sorely hobbled in darktown circles. A powerful preacher is he, and one blast from his ten-inch throat is worth a thousand ordinary negro sermons in shaking up the lives of the crap-shooting, whisky-drinking negroes and making them cry aloud for mercy. Sinkiller's voice is as low and musical as the hum of the water-mill, but it has the volume and power of the thunder of the sullen roar. He can bow in lavish homage before beauty's shrine and pay a tribute to the loveliness of the dusky dames and dandies that contribute to the number and aroma of his audiences that would make Claude Melnotte write his speeches over; he can describe the glories of the New Jerusalem in word pictures that excel the wonders revealed to St. John the Divine on Patmos' treasury isle. The burning words of Sam Jones, the gentle persuasion of Moody and the logic of Beecher are short-armed compared to the eloquence poured forth in gutteral notes by Sinkiller. His wonderful sermons on "The Eagle Struth Up Her Nest" and "The Horse Paweth in the Valley" "too had that he's in jail."—Honey Grove Signal.

WOULD CONCEAL THEIR SHAME.

Petitions are being circulated in Lincoln Center, Kan., to bar reporters and prevent details of the coming trial of the now celebrated tar and feathers case from being made public. In other words the people of that remote benighted neighborhood or community hope to conceal the shame of the men and women who so brutally assaulted an unfortunate girl whose only offense was to be born beautiful.

The brutal crime with which some of the more prominent members of Lincoln Center are charged was the result of stories told by wicked, warring tongues of jealous and envious women. Here was a girl who by force of circumstance was compelled to go out into the cold and unsympathetic world to make her own living. She had qualified as a school teacher and was offered a position at Lincoln Center. She was attractive and it was not surprising that she was generally admired. Her popularity was the incentive for Serpent Tongues to say things not at all to the credit of the girl. It culminated in the abduction of the girl by a young man who betrayed his charge into the hands of a gang of twenty men, who stripped the clothing from the young woman and left her unconscious and nude save for the covering of tar and feathers. Later the girl was taken to her boarding house, crushed, shamed and humiliated.

This girl had done no wrong. She was morally clean and pure. She was simply unfortunate in attracting too much attention, and the women of Lincoln Center were envious. Fourteen of the mob have been indicted and will be tried this week, shocked over the revolting details, are now asking the newspapers to refrain from publishing the details for the sake of the good name of the town.

Good Lord
The men who are guilty and the women who urged them on should not be spared. The women now explain that they had no idea the men would go so far. They admit that they gave circulation to stories that were untrue, but does that lift the shame from the unoffending girl? The acknowledgment coming at this time cannot soothe the lacerated feelings, not blot out the ugly stigma that will follow her through life.

It is brutal enough when men, for a serious crime, restore to lynch law, but when they so far forget their manhood as to commit an act of this character, they are not entitled to any mercy. Their names and the part they took in the crime should be published far and near, that all the country may see and understand their worthlessness.

Twenty men; strong, sturdy, and courageous men; men of prominence and men of influence; species of God's handiwork popularly referred to as God's masterpiece, combined against one poor, weak lonely woman whose only offense was that she was born beautiful.

The shame of Lincoln Center, Kansas can never be blotted out.—Bartlesville Examiner.

Editor James of the Independence, Kansas Daily Reporter and one of the highest authorities on oil matters in the United States, expresses a belief that the oil fields extend continuously across Oklahoma to the field North-west Texas. The Times figuratively shakes hands with the Reporter across the state of Oklahoma on this statement and hopes to see the day when the distance will be covered with producing oil fields.

TEXAS IN THE LIMELIGHT.

Dr. Wiley says that the greatness of a nation is determined by its consumption of soap. Isn't that rather hard on Texas?—Charleston News and Courier.

Texas has come to bat with the claim that it raises more mules than Missouri, and quite naturally, Missouri has registered a kick.—Milwaukee Sentinel.

Texas is trying for the prize as the great mule state. No one can say that it isn't stubborn enough, with all kicking qualities politically.—Atlanta Constitution.

We should not hesitate to say that the peanut is a better nut than the pecan if it would start a controversy between Virginia and Texas.—St. Louis Globe-Democrat.

Down in Texas it is getting to be suspected that a public man's family record is had if he does not announce his candidacy for Joe Bailey's seat in the senate.—Omaha Bee.

George Bailey says that Galveston was strictly dry on Sunday. He must be speaking from hearsay. It could not have been if he was there.—Charleston News and Courier.

A Seattle man claims to have inherited \$7,000,000 from a rich uncle who recently died in Texas. When he gets the money, we advise him to get out of Texas with it with all possible dispatch. Otherwise, the nephew will speedily follow the uncle to a place where the coin of this realm doesn't take support.—Norfolk Virginian-Pilot.

"The Store Dependable"

WEALTH OF FARMER GROWS THE FASTEST

RURAL INCREASE 117 PER CENT AGAINST CITY'S 59

121 NEW TOWNS IN TEXAS

During the past decade the value of our property, assessed as town and city lots, which includes the lands and buildings within our city limits, has advanced in value from \$189,760,838 in 1900 to \$506,255,238 in 1910, making an increase of \$317,494,400 or 167 per cent, but city property not being rendered at its true value it is likely that its actual increase in value will exceed \$600,000,000. No attempt is made to separate the value of the buildings from the value of the land within our city limits by either the State Comptroller or the Federal Census Bureau and the information is therefore not available.

The Federal Census shows that we have built 121 new cities during the past decade, and our city population has increased from 559,872 in 1900 to 938,161 in 1910, making an increase of 378,289 or 67 per cent. We now have twenty cities with ten thousand population and over, and three cities that approximate 100,000 in population.

The per capita increase in wealth of city population, taking the assessed value of city lots and buildings as a basis, has advanced from \$339 in 1900 to \$540 in 1910, making an increase of \$210 per capita or 59 per cent.

Compare these figures with those of the per capita increase in farm wealth and we find the farmer has made an increase of 117 per cent against an increase of 59 per cent within our cities. These figures prove that we have greater opportunities on the farm for money making than in the city and if our citizenship could fully appreciate the force of this comparison it would turn the tide of our population back to the soil.

Texas has probably suffered less from the rush of its citizenship from the farm to the city than any other State in the Union. While our cities have shown a rapid increase in population, our farms have considerably more than held their own. Our cities have been built up by immigration, inter-state and foreign, and have drawn very little from the farms.

800,000 STARVING IN RUSSIAN PROVINCES

By Associated Press.
St. Petersburg, Nov. 16.—That 8,000,000 persons are in need of immediate relief owing to the failure of crops in twenty Russian provinces was the startling announcement made by the Duma yesterday evening. The premier said it was necessary for the expenditure of \$60,000,000 of which the Imperial Exchequer would have to find \$44,000,000.

New U. S. Battleship Will Carry Heaviest Armament

Washington, D. C., Nov. 16.—The battleships, New York and Texas, now under construction, when commissioned, will be the only craft in the world with 14 inch main batteries. With their completion the United States will wrest from Great Britain the distinction of having the world's heaviest armaments.

North Carolina has 125,000 cotton mill operatives.

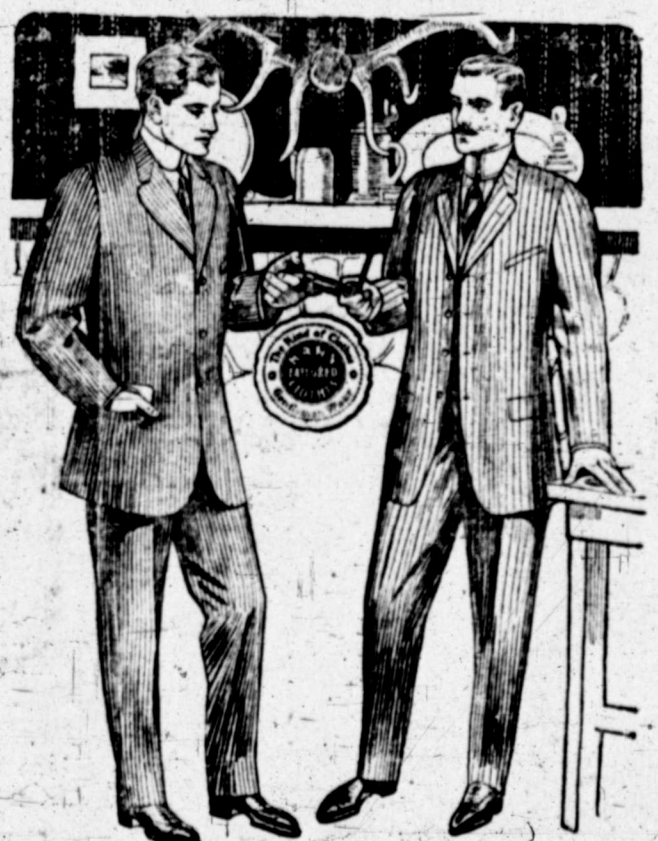

TORREON REFUGEES REACH EL PASO

El Paso, Texas, Nov. 16.—Refugees from Torreon, Mexico, are arriving here, fifty-four coming on the Mexican National train this morning. They say all the foreigners will leave Torreon today or tomorrow. They say there are eight thousand strikers in the town.

The Milwaukee Merchants and Manufacturers' Association is to establish a permanent free employment bureau.

FOWLER SUFFERS ANOTHER MISHAP

By Associated Press.
El Paso, Texas, Nov. 16.—Aviator Fowler, while attempting to fly a collied with a tree and damaged the machine. Fowler was not hurt.

Correct Dress!

What does "correct" dress mean to you? Instantly you answer: "Clothes made to order in the latest styles. Merchant-Tailored clothes, measured, cut and made to fit me alone. That's correct dress!" You are right, sir—and you have described KAHN-TAILORED-CLOTHES. They are cut and tailored in latest style from your individual measurements in sunlight shops by skilled craftsmen and delivered in six days. And they cost no more than you paid for that last suit which was not made for you alone.

HENRIETTA HIGH SCHOOL

PLAYS HERE TOMORROW

The High School football team is scheduled to meet the hitherto invincible Henrietta team in a game to be played here tomorrow afternoon, on the grounds of the old high school, corner of 13th and Bluff streets. This game has been matched following the recent game played in Henrietta, and should the High School win, the full series of three games must be played in order to determine which is the stronger team. In case of a victory by Henrietta, the visiting team will have won two out of three of the games to be played and it will be unnecessary to play the other game. In speaking of the game to be played tomorrow afternoon Karl Hammon, captain of the High School eleven, stated this morning that the members of his team had been practicing every day for the last two weeks and that upon learning that another game had been matched with Henrietta, they began to work with redoubled efforts, and have been training to the limit ever since. The game tomorrow afternoon will therefore no doubt be a hotly contested one, not only for this reason but because of the result of the last game which was played between these two teams at Henrietta, in which game the Henrietta team was victorious by a small score, the High School boys claiming that but for their own lack of practice, the game would have gone to them. This lack of practice has now been overcome, and should the High School be defeated in tomorrow's game, no such excuse can be offered. However, the High School boys, even if they do not win, will at least put up a stiff game, and with the sting of the last defeat still rankling in their breasts, the home boys will enter the game with a determination to win, which will be very likely to go hard with the Henrietta boys. The cotton industry of England employs many more women than men. In 1898 the total number of railroad employes in this country was 874,558. Last year the total was 1,451,000.

MAKING CLOTHES TO MEASURE is our pride. If anyone can fit you in fashionable garments we can. **OUR EXHIBIT** of new goods for fall pleases our patrons. The finest from fashion's headquarters is here for your inspection, and the small number of dollars it takes to get a suit that is perfect in every respect is surprising.

FIGS A POPULAR FRUIT

EVE'S FAVORITE BECOMES GOLD IN TEXAS PROGRESS.

LARGEST ORCHARDS HERE

The fig was the early companion of man. Its leaves furnished the initial garments for our first ancestors, its fruit nourished early civilization and its foliage has shaded and sheltered man and beast since the beginning of time. It has had more free advertising than any other fruit in the vegetable kingdom. It figured conspicuously in the episode that resulted in closing the Garden of Eden, the Savior waded in it in a parable and it is closely woven in ancient legends and in the history of nations. To mention the fig leaf makes mankind smile and to mention the fruit makes the whole world hungry. It is the most sensational, romantic and popular of fruits. It threads its way through the literature of the world. It is a favorite with the sculptor and the painter; it is one of the most useful of medicines, and with the consumer it is the most popular fruit on the market. The soil, climate and altitude of the coast country for one hundred miles inland is especially adapted to the hardy growth of the tree and the perfect maturity of the fruit and the skillful horticulturist has developed varieties especially adapted to natural conditions. It responds generously to kind treatment, makes few demands upon its owner, its yield is reliable and abundant and the tree shows remarkable business instinct in making Texas its domicile. The fig is the pioneer of Texas fruits and the numerous races of the tree have explored most every section of the State, but it has more thickly populated the coast country than any other part of Texas. According to the Texas Almanac we have 3,710 acres now in commercial fig orchards on the coast country and the planting of an additional thousand acres is under contract. Galveston County leads in fig culture, having 1,225 acres. The largest fig orchards in the world are located in this county. The farm value of the annual output of one acre of bearing figs averages \$250 and the total value of the annual Texas output approximates \$1,000,000.

OIL LOTS FOR SALE

ELECTRA OIL FIELD
 \$10.00 EACH

The Powell Oil and Development Company owns in fee simple 311 acres of land situated about three miles south, 42 degrees east from the Electra Oil Field. This company is offering 87 acres of this land on the market for the purpose of developing holdings.

The land is a part of the H. & G. N. E. Survey of land located in Wichita County, Texas, Survey No. 21, Abstract No. 142.

All men of experience consider holdings as being in the heart of the oil bearing territory for the reason that the geological survey marked by the government shows that the oil strata runs northeast and southeast from the town of Electra.

The first shallow oil encountered is about three and a half miles southeast from our holdings. This 57 acres of land is near enough the railroad to afford shipping facilities. It is also within one mile of a two hundred acre tract bought by the Fordyce Oil Company for tankage purposes.

OUR PLAN.

There are 818 oil lots as shown by plat on file with the county clerk of Wichita County. Each lot contains 640 square feet. The purchaser of each lot is entitled to one share of capital stock of the company, when same is finally organized. When one half of the lots are sold we will at once begin operations on a deep well to be put down to a depth of 2,000 feet, unless oil or gas in paying quantities is found at a less depth, and when well is completed it will be turned over to the stockholders to be managed by a Board of Directors. 100 lots in the center of the field will be reserved for the deep well. The price of these lots is \$10 each in hand.

THE POWELL OIL & DEVELOPMENT CO
 J. L. POWELL, Owner. WICHITA FALLS, TEXAS.

We Have Been Silent for Some Time But Now We Are Sounding Our Trumpet—

We have had very little to say this summer as we have been rearing our stock, so we could show a new clean stock.

Now we wish to state we have the goods ready for delivery; we are not asking any one to wait till we can order; the goods are here and arriving daily. We will have more to show you this year than last as our business has increased ever since we have been in business here.

SATISFIED CUSTOMERS IS THE REASON.

We are not running a junk shop but a Best Class Jewelry Store.

WATCH OUR ADS.

It will mean money to you as well as the best selection on the Denver road.

ADVICE ABOUT FERTILIZER RECEIPTS

"Three dead cats and a bucket of wood shavings would be better fertilizer." This is the statement made by Dr. G. S. Fraps, state chemist of Texas, at the A. & M. College of Texas, when commenting upon the so-called formulas for fertilizers which are advertised for sale and by which the farmers of the state are duped. In his Bulletin No. 96, which will be sent free to anyone asking for it, Dr. Fraps says:

Farmers are warned against the purchase of recipes for making fertilizers, particularly if they are claimed to be secret, or wonderful discoveries. Numbers of these recipes have been sold in different parts of the country at from \$2.00 to \$5.00 or more. As a rule they are of no value. The Experiment Station at College Station will furnish free of charge correct formulas for the mixing of fertilizers for cotton and corn, potatoes or any other crop to any farmer in the state. Do not purchase recipes, when correct formulas can be had for nothing, particularly when the recipes that you buy will probably cause waste of time and money in the preparation of the mixtures which are of little value, and disappointment in the crop produced.

When you purchase a recipe for making fertilizers, you are parting with your money for nothing. We have seen several of these recipes and have yet to see one that was spot worthless. The mixtures prepared according to the directions are not worth the time and labor applied. Ingredients are called for that can only be purchased at a drug store at high prices and likely are not of the same value to the plants than a piece of coal would be.

But even if you did happen to buy good directions for mixing a fertilizer—what then? You have to be paying your money for something that could be secured for nothing. The Texas Experiment Station, at the A. & M. College will at any time send without charge, directions for mixing any kind of fertilizer desired.

But as we said before, we have never yet seen a fertilizer recipe sold for \$5.00 or any other price, that was not worthless.

Do not buy fertilizer recipes. The fertilizer formula which has been sold in the state is as follows, or some variation of this:

- 2 lbs. limestone
 - 2 lbs. saltpeter
 - 2 lbs. nitrate of ammonia
 - 2 lbs. soda ash
 - 4 lbs. potash ash
- Disolve in 5 gallons of water and sprinkle on sand, make a ton, sufficient for one acre.
- Applied to one acre of land, the mixture would have practically no effect on the crop and would merely lead to disappointment. Three dead cats and a bucket of wood ashes would be of greater benefit.

FOR DYSPEPSIA.

You Risk no Money if You Try This Remedy.

We want every one troubled with indigestion and dyspepsia to come to our store and obtain a box of Rexall Dyspepsia Tablets. They contain Bismuth-Subnitrate and Pepsin, care fully combined so as to develop their greatest power to overcome digestive disturbance.

Rexall Dyspepsia Tablets are very pleasant to take. They tend to soothe the irritable, weak stomach, to also strengthen and invigorate the digestive organs, to relieve nausea and in digestion, thus promoting nutrition and bringing about a feeling of comfort.

If you give Rexall Dyspepsia Tablets a reasonable trial we will return your money if you are not satisfied with the result. Three sizes, 25 cents, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store, O. F. Marchman Drug Store.

Measuring Land in Texas.

Texas surveyors, in computing areas and distances, use varas instead of yards, as taught in the books. A vara is 33.13 inches in length and 190 varas make a mile. The common school boy and girl is taught that 11 inches make a foot, 3 feet a yard, and 1760 yards, 5280 feet, or 63,360 inches make a mile; but when they go to measure land they have no use for yards, etc., for they have to deal with varas altogether. The yard mile is 26.23 inches more than the vara mile as commonly used. They are taught at school that 4840 square varas make an acre, but when they go out to survey they say that 5615 square varas make an acre. The reason why we use varas instead of yards is that when Texas was under Spanish and Mexican rule they began surveying with the Spanish system, and when the Americans assumed control, in order to prevent confusion, they continued this system. But just why the English standard of measure is taught in our public schools instead of the one now in actual use, is more than we can understand. We believe it is would be safe to say there is not one teacher in ten of our public schools that could tell you how many square varas in an acre, yet all the lands in Texas are measured in varas—Sterling News.

We believe it is would be safe to say there is not one teacher in ten of our public schools that could tell you how many square varas in an acre, yet all the lands in Texas are measured in varas—Sterling News.

Measuring Land in Texas.

Texas surveyors, in computing areas and distances, use varas instead of yards, as taught in the books. A vara is 33.13 inches in length and 190 varas make a mile. The common school boy and girl is taught that 11 inches make a foot, 3 feet a yard, and 1760 yards, 5280 feet, or 63,360 inches make a mile; but when they go to measure land they have no use for yards, etc., for they have to deal with varas altogether. The yard mile is 26.23 inches more than the vara mile as commonly used. They are taught at school that 4840 square varas make an acre, but when they go out to survey they say that 5615 square varas make an acre. The reason why we use varas instead of yards is that when Texas was under Spanish and Mexican rule they began surveying with the Spanish system, and when the Americans assumed control, in order to prevent confusion, they continued this system. But just why the English standard of measure is taught in our public schools instead of the one now in actual use, is more than we can understand. We believe it is would be safe to say there is not one teacher in ten of our public schools that could tell you how many square varas in an acre, yet all the lands in Texas are measured in varas—Sterling News.

COTTON SEED MEAL AS FEED FOR HORSES

John C. Burns, professor of Animal husbandry of the A. & M. College of Texas says:

As much as two or two and one-half pounds cottonseed meal per thousand pounds live weight per day may be fed to horses and mules with very good results, but when as much as 3 pounds or more have been fed less favorable results have been obtained.

Cottonseed meal, added to a grain and ordinary hay ration, is much better than corn alone with hay, as it affords a much better balanced ration. By the use of cottonseed meal, I think you can safely count on replacing as much as from two to two and one-half pounds corn and 1 pound of meal, in other words where the ration has been 10 pounds corn per day by adding 2 pounds meal, I think you can feed only 6 pounds corn and at the same time have a more effective ration than with the corn alone.

If pure rice bran can be obtained in the community at a lower price than corn powder for pound, I think it would be advisable to feed it instead of corn. Also if hard corn or milo maize can be obtained at a lower cost than corn, it would pay to use these feeds.

For a thousand pound horse doing moderately hard work, the following ration should prove a good one:

Eight to 10 pounds corn, rice bran, or ground kafir corn or milo maize; 2 pounds cottonseed meal; 12 to 14 pounds sorghum hay or prairie hay.

Grows Hair at 65 Years of Age.

Dear Sirs: "I heard of PARISIAN SAGE and as my head would itch a good deal, I thought I would try it. I never used any remedies before and was bald on top of my head. I am using the third bottle and have a lot of hair where I was bald. I would like you to see the new hair sprouting from my head. The itching in my scalp quickly disappeared. I am 65 years old and have been at the Bazaar 51 years. Wm. A. Hopper, Auctioneer (Harkness Bazaar, Ninth & Samson Sts., Philadelphia, Pa.)

Large bottle of PARISIAN SAGE 50 cents. Guaranteed by O. F. Marchman for dandruff, falling hair and scalp itch. Puts life and beauty into faded hair and is a delightful hair dressing.

LOCOMOTIVE INSPECTOR.

Will Make Headquarters in the Federal Building at Fort Worth.

Fort Worth, Tex., Nov. 15.—Inspector John M. Hall of Washington, D. C., will make his headquarters in the Federal building at Fort Worth while he is inspecting the 1,043 locomotive boilers there are in this district subject to inspection under the United States laws.

There are two inspectors' districts in Texas, the other being at San Antonio.

The office of inspector of locomotive engine boilers was created to go into effect July 1, and the purpose is to improve conditions of safety. The boilers of all locomotives are to be inspected and the inspector has the power to order repairs in cases where, in his judgment, they are demanded. There are fifty such inspectors in the United States.

WANTED

Everybody to know that we have a shoe shop in our store and sew all repairs on our shoes free of charge; keep the soles sewed on; put on buttons, and heel plates, and give our customers shoe strings, and button hooks; do the best repair work in the city. In fact we give you more for your money than anybody in the shoe business. Come and see.

Cardui Worked Like a Charm

After Operation Failed to Help, Cardui Worked Like a Charm.

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times, I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer. I went to the hospital, and they operated on me, but I got no better. They said medicines would do me no good, and I thought I would have to die. At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pain. Cardui worked like a charm. There must be merit in this purely vegetable, tonic remedy, for women—Cardui—for it has been in successful use for more than 50 years, for the treatment of womanly weakness and disease. Please try it, for your troubles. N. B.—Write for Ladies' Advisory Dept., Chatterbox Medicine Co., Chattanooga, Tenn., for Special Dietetic Food, and Menstrual Book, 'Home Treatment for Women,' sent in plain wrapper, on request.

The Great Public Pulse Says: CALUMET

It says "Calumet" — For the critical housewives of America have found that Calumet Baking Powder makes the most appetizing, light, wholesome food — that Calumet is the most economical and dependable of all Baking Powders.

If you, too, Mrs. Housewife, want to learn what Calumet means to you, bake with it just one batch of biscuits. If you don't find it unlike any other — so much greater in leavening power — in uniformity — in purity — Return it, and get your money back.

That's all we ask — and think what it means to you to always be sure that each time you bake you will have the most tempting biscuits, pastry, etc. Think of it — the highest quality Baking Powder at a moderate price — the most economical in use. Cheap big can kinds give you quantity, but not quality. High priced trust brands mean extravagance. For no Baking Powder can be equal in quality to Calumet. Was not that proven when it received the Highest Award at World's Pure Food Exposition?

Don't be deceived — ask for Calumet — and get it.

CALUMET Baking Powder

Everybody That Knows

on the "FIREFLY" gags. They leave Wichita Falls at 1:55 p. m. via Bowie or at 1:30 p. m. via Ringgold, and connect with this fastest, finest Flyer passing Bowie 1:05 p. m., Ringgold 4:37 p. m. and arrive in Kansas City at 7:25 next morning. Observation sleeper, cafe-diner, steel coaches.

Mrs. K. A. White, who has been visiting with relatives here for several weeks will return to her home at Dallas tomorrow.

Mrs. S. H. Hodges, of Frederick, Okla., who has been visiting relatives here will leave today for Hereford, Texas, for a visit with Mrs. P. M. Palmer before returning to her home.

Rev. R. R. Hamlin, pastor of the Christian church will make a talk to all students who are over twelve years of age in the public schools, tomorrow morning at nine o'clock in the auditorium of the high school building. The subject of the address will be "Schools of the East Which I Have Visited." Beginning at nine o'clock tomorrow morning, the address will last indefinitely, and regular classes in the public schools will be temporarily suspended in order that the students may be present. Rev. Hamlin's talks have always heretofore proven worth while, and his lecture tomorrow will no doubt be highly interesting to all who are so fortunate as to hear him.

CITY TEACHERS' INSTITUTE SATURDAY

The regular monthly city teachers' institute will be held at the High School building next Saturday morning, beginning at 9 o'clock, and all of the teachers in the city public schools are expected to be present, as some important matters are to be discussed.

Upon the meeting of the institute next Saturday, the teachers will be divided into the primary, intermediate, and high school sections, and each section will discuss measures related to improvement in methods of teaching in that particular department. In this connection, talks and the reading of papers by the different teachers will form a large part of the program, and each instructor will be given an opportunity of expounding upon points in the management

MANCHUS ARE THE GOTHS.

China is Ruled By a Set of Uncultured Aliens.

Prof. E. A. Ross in the Independent. "Reform" is in the air in China, but there are two brands of reform—that of the Manchu rulers and that of the leaders of the people.

By "reform" the government means the suppression of weakening vices like opium smoking and gambling, the building of railroads, the establishing of a trained police, the strengthening of army and navy and the opening of new sources of government revenue.

But among the patriots "reform" means universal education, industrial training, an improved agriculture, sanitation, a free press, a humane penal system, the expenditure of taxes for the benefit of the people, accounting for public money and the responsibility of government to the chosen representatives of the people.

What Peking wants is policies that will help them to hold the powers they have, swell their revenues and leave them in serene enjoyment of the matchless graft to be tapped from 500 millions of industrious Celestials. In their native Asiatic view, the government exists in order to magnify the luxury and glory of the Imperial Clan. Among the Manchu masters there is no tradition of service nor can they acquire it in our time. Millions burn with patriotic ardor, and thousands acquainted with Western knowledge realize clearly just what might be done for the people. But the Manchus are careful to exclude them from high places, and after the manner of hereditary parasites, they go on in their

Miss Ada Meade, who plays "Yvonne" in the sensational musical comedy "MADAM SHERRY" in her aeroplane.

Madame Sherry was the musical comedy fad of New York last season. Stealing into the metropolis quietly late in August, the piece scored sensation and attracted overflowing audiences to every performance for nearly a year. The newspaper praise elicited by the piece was quite as phenomenal as the production's box office success.

Madame Sherry will be at the Wichita Theatre Tuesday night.

One of the first Elk's dances of the season will take place tonight in the club rooms of this organization, and a number of young couples of this city are expecting to attend. Music will be furnished by the Katz Orchestra, and light refreshments will be served.

Program For Parents Day.

Mrs. Mamie D. Brown, chairman of the program committee announces the following program for Parents Day in Iowa Park schools on November 24: Invocation by Superintendent.

Welcome Address by High School Pupil.

Response by a Mother.

What can we do to better our schools?

Thanksgiving and how to observe it: first in the school; second in the home; third in the church, in the Nation.

Round Table.

Fe will offering for school library.

Song "What will the Harvest be." Benediction.

of the students under his or her personal instruction, which he or she believes can be improved upon.

The institute will convene at 9 o'clock in the morning, and will be under the personal direction of the superintendent of city schools, T. L. Toland, who will act as chairman of the meeting. The hour of adjournment is not definitely known, as it is desired that every teacher present be given an opportunity to speak, and the meeting will therefore probably last throughout the day.

This gathering of teachers is a regular monthly feature of the work in the public schools of this city, and is in no way related to the yearly teachers institute composed of all of the teachers in Wichita county, and which usually meets every year about the Thanksgiving holidays.

75 THEATRE MEN ACQUITTED.

Cases Growing Out of Alleged Sunday Law Violation Nov. 5 Disposed of by Jury.

Fort Worth, Texas, Nov. 16.—By the verdict of acquittal rendered by the jury in the seventy-five cases on trial in the Corporation Court yesterday, all of the cases made by the city police for having places of amusement open Sunday, Nov. 5, or working at such places on that date, were disposed of and Thursday morning the city will begin the trial of the cases made last Sunday, Nov. 12. There are about eighty-five or ninety of those. The Jurymen, asked for a jury fee of 50 cents in each case, or a total of \$37.50. The jurors were sworn separately in each case, and while the city elected to try the cases all at once, distinct verdicts were rendered in each case and hence the jurors contend there were separate cases and they are entitled to a jury fee in each case. If that claim holds good it will cost the city about \$225 to have those cases disposed of in its court.

A darkey was asking old Uncle Jake about a party platform. Uncle Jake said: "Bless yer life, nigger, didn't yer know what dem platforms is? Dey is jes' like de platform on dat car yonder. It ain't made ter stand on; it's made to sit on; an' den when you git in de party it is jes' like dat little cyard up dar. Dangerous to ride on de platform." Lor nigger, you got a heap to larn in dis here wicked, persecutors world, yer den't know nuffin.—Vernon Call.

Notice to Shriners.

old, self-indulgent way.

The head of the provincial college, a ripe scholar, a Han-lin wan, in fact, told me he could hardly endure his position. "How can I keep my self-respect," he broke out, "when constantly the board of education at Peking forces me to do foolish things? Here is an applicant 30 years old, who passes a brilliant entrance examination; but Peking won't let me admit him to my college because, forsooth, he is not a graduate of a middle school."

The Manchus are not a cultured people, mark you, and when they climbed into the saddle of empire about the time of Cromwell, they were on a level with the Afghans of today. They are to the Chinese what the Goths were to the Romans; and a Manchu directing the new education of China is as out of place as a Goth presiding over the schools of Athens in the Fourth Century. It is the brilliant Chinese who travel and study abroad. Yet, when they return they are balked by the huge pervasive Manchu machine.

Sometimes high Manchu officials are totally illiterate, and I heard of one Manchu literary chancellor who could not even read the examination essays submitted for provincial honors. So he piled them on top of his head cap and poked them with his cane as he lay smoking, and the thirteen that slid off first were declared winners!

In the board of war at Peking are six hundred employees, but fifty do all the work. The rest are Manchus who sit in a chair, suck the pipe and watch the clock.

One of the directors of the Shanghai-Hangchow Railway—a purely Chinese line—told me their chief trouble in building the road was the harassing "inspections" which obliged them to bother the officials in order to go on with the work. Moreover, Peking forced upon the company a large, unneeded foreign loan which would have been expended by government men without the stockholders knowing how much stuck to the fingers of the officials. So instead of using the money for building the road, the company loaned it out in small amounts at a high interest and will repay it as soon as the terms of the loan permit.

It is certain that the Chinese who have traveled or studied abroad or lived in California or the Philippines or the Straits Settlements, despair of their country under its present leadership, and many of the best elements of the nation are leagued to expel the Manchu parasites.

PERSONAL MENTION

Mrs. W. J. Howard is reported to be very sick at the family residence, 1908 Eighth street.

S. Walkup, constable at Electra came down today on official business and returned this afternoon.

W. H. Coffield, of Bowie, Texas, passed through the city on his way to Newcastle this afternoon.

C. R. Hine, of the Texas Road Supply Company, returned this afternoon from a business trip to Gainesville, and other points.

C. S. Smith, a traveling man with headquarters in this city, left this afternoon for Burk Burnett on business for his firm.

E. Rexford, a prominent citizen from Burk Burnett, after a short stay in this city on business, left this afternoon for his home.

J. W. Murphy arrived here this afternoon from Henrietta, from which place he comes to this city on business.

W. B. Walker passed through here this afternoon enroute to his home in Petrolia, after spending a day or two in Fort Worth on business.

T. J. Taylor, president of the First State Bank, returned last night from Fort Worth, where for the last several days he has been on business.

Judd Presley, a citizen from Loveland, Okla., was here this afternoon, and left on the Northwestern for his home after a stay of one day in this city.

M. M. Cook, a draughtsman in the offices of the Wichita Falls Route, is absent from the city on a short business trip to the scene of the Northwestern extension above Hammon.

R. T. Pickett left last night for Burnett's ranch, where he goes in response to a call from Tom Burnett, who desires to confer with him on business.

J. W. Stringer, one of the old time residents of Electra, and now heavily interested in the oil field there, was a visitor here yesterday and today. He came down on business.

Mr. and Mrs. S. G. Maddox left this afternoon for their home in Weatherford, after a stay of several days in the city as the guests of Mr. and Mrs. Wiley Blair on Tenth street.

Sidney Webb passed through here this afternoon en route to his home in Bellevue, after looking after his interests in Archer and other nearby counties for the last few days.

Mrs. H. W. Kuteman and Miss J. M. Maddox, after spending several days in the city as the guests of Mr. and Mrs. Wiley Blair on Tenth street, left this afternoon for their homes in Weatherford.

Frank Kell, vice president and general manager of the Wichita Falls Route, left last night for a trip in inspection over a portion of the new Northwestern extension above Hammon. He will be gone only a day or so.

W. C. Heath has returned from Texline, where he has been located several months buying broomcorn for the factory in this city. Mr. Heath is of the opinion that the hot air from the lower plains of Texas, coming in contact with the high altitude of the Panhandle is the cause of the rains in that section.

Fred Householder and wife left this afternoon for Austin, in response to a telegram announcing the sad news that Raymond Smith, Mrs. Householder's brother, had died there last night. Upon hearing the news Mr. and Mrs. Householder left on the first train, and will arrive in Austin some time tonight.

THIS SPACE IS RESERVED

A stove that weighs over fourteen hundred pounds isn't exactly suited for parlor use and that isn't the purpose for which the Wichita Falls Poun dry & Machine Co. is making about twenty stoves of that weight. The stoves are being made for the Wichita Falls and Northwestern and will be used in heating depots and stations. A few of that weight are also being used for some of the oil companies operating at Electra. They are used to keep the drillers warm. The local foundry has made a number of stoves from special patterns for railroads and these stoves have proven very satisfactory.

A meeting of the board of trustees of the public schools will be held tonight, beginning at 8 o'clock, in the board room of the high school building. This meeting was called for Thursday night of last week, but, on account of various matters, it was decided to defer the time of discussing business affairs until tonight. All members of the school board are expected to be present, as several matters of importance will be discussed, among which are manual training and domestic science.

The Y. M. C. A. football boys are training hard in anticipation of their game with Denton high school at the baseball park next Saturday, and if they do not win it will be no fault of a lack of training. However, considering the fact that Denton has only been defeated one time this season,

For the benefit of those who are going to Dallas to the Ceremonial Session of the Temple of the Mystic Shrine tomorrow afternoon and night a special Pullman will be carried on the Katy train leaving here at 12:30 o'clock tonight. This Pullman will be cut out at about nine o'clock so that those making the trip may go aboard after that time. A special rate of five dollars for the round trip has been secured. This rate will be good for the return trip Saturday night. Among the number who will go from here are Dr. and Mrs. S. H. Burnside, Jack Culbertson, J. B. Marlow and wife, Alex Kahn, Abe Marcus, Otto Stehlik, and a number of others whose names could not be learned this afternoon.

Always a good show at the Gem Matinee every afternoon from 2 to 5:30 159-3tc

\$10.00—Reward—\$10.00

We want every family in Wichita Falls to test our fresh roasted coffee, and see the difference between it and goods roasted out of town. We know that one pound means repeat orders, and are willing to pay something for that first order. Have hit upon the following plan—Commencing Wednesday, November 15th until December 1st we will take orders for a special blend at 35c per pound. This coffee to be roasted by us and delivered the same day it is roasted. Each pound purchased entitles the purchaser to submit a name for this particular blend and we will pay the party who submits the most appropriate name (which we will adopt for this blend) the sum of Ten Dollars. We are to be the sole judge, but the Ten Dollars will be paid to someone who submits a name for the coffee. The coffee will be delivered and award made as soon as possible after December 1st, which will be within the first five days of the month. Our solicitors will make a canvas of the city but that no one may miss the opportunity we will accept telephone and mail orders and orders may be left at the store. Now we promise you will get more than full value for your 35c and in addition you get a chance at the \$10.00. If the coffee don't make good we are the loser as we are staking our reputation as roasters on this deal. All coffee sold by us under the name adopted will be exactly like the first pound. As these orders will be small will expect to collect on delivery.
