Contributions As Oil Operator Recognized

Distinguished oilwoman — Mrs. Edith W. McKanna of Snyder, above, receives her certificate of award Friday night in Mineral Wells from Dr. M. E. Sadler, president of Texas Christian University. Mrs. McKanna was cited at the Party of the Year for her contribution to the development of Scurry County oil fields.

Award Is Given Mrs. McKanna As Distinguished Oil Woman

The food was good, the seven honored guests all distinguished Texas women, but Vice-President Alben W. Barkley's talk at Mineral Wells Friday night was exceedingly light intellectual fare.

Speaking at the Party of the Year, an annual affair at the Baker Hotel in Mineral Wells, Barkley lauded pioneer women, exhorted modern women to emulate their forebears, and said nothing that would make anybody mad.

SNYDER REPRESENTATIVE

Mrs. Edith W. McKanna, independent oil operator was one of the distinguished women honored at the affair. She sat at a table on a dais with Barkley and the other honorees. Her dinner partner was Jack Cox of Breckenridge Tex., state representative from the 108th district.

Dr. May Owen, Fort Worth physician and specialist in cancer, sat on Barkley's left, and John Ben Shepperd, Texas Secretary of State, was on the vice-president's right. Shepperd was master of ceremonies.

More than 600 guests, who paid $12.50 a plate, were crowded into the hotel's banquet hall for the elaborate dinner.

Mrs. McKanna, dressed in a coffee colored evening gown with satin slippers to match, was called to the microphone while Dr. M. E Sadler, president of Texas Christian University, read her citation of merit and presented her with the award. The citation praised Mrs. McKanna's part in developing the vast Scurry County oil fields.

Mrs. McKanna, who testified later that she was very nervous, appeared composed on the platform. Watching her from the floor were several Snyder residents, including Mr. and Mrs. L. W. Dumas, Mayor Forest G. Sears and Mrs. Sears Mrs. J. D. Scott, Joe Dave Scott Mr. and Mrs. C. T. McLaughlin Mr. and Mrs. Bob Davie, Mr. and Mrs. Charles Wolfe and Mrs. McKanna's brother, Dan Ed Whatley and Mrs. Whatley, both of Wichita Falls.

IN LIGHT VEIN

The Veep's lighter remarks turned out to be the highlights of his talk. He ribbed himself mildly when he commented that had he known Texas had such handsome and rich widows, he might have come to Texas instead of to St Louis. He alluded to the nation-wide publicity he attracted two years ago when he wooed Carlton Hadley of St. Louis, now Mrs. Barkley.

Early in his speech, he referred to Mineral Wells as Mineral Springs, and in recovering from that one, commented that he had recently lost 30 pounds and felt that Mineral Wells could do little for him.

Following his speech, he received the honorees in his suite. Besides Mrs. McKanna, the others were Mrs. John M. Hanna prominent church worker of Dallas Mrs. Rupert Harkrider, rancher and cattle raiser of Abilene; Mrs. J. Howard Hodge, civic leader and clubwoman of Midland; Mrs. J. H Moore, Deport, Tex., banker and civic leader; Dr. Owen; and Mrs V. Y. Rejebian, Dallas radio commentator and literary critic.

The Veep's reception of the women in his drawing room was brief. Photographers, seriously inhibited during the evening by the security - conscious secret service men, were permitted to make photographs. Three photographers among them Joe Dave Scott and a television cameraman, were the only ones permitted in the room with the women and Barkley.

GOOD FLYING

Mrs. McKanna, a flying enthusiast and former officer in the Civil Air Patrol, asked Barkley how his flight to Texas had been, and he replied with a compliment to the state's flying weather. The vice - president flew to Mineral Wells from Washington in an Air Force B-17 converted for passenger use. Throughout the evening he was closely guarded by plain clothesmen.

After the honorees left his suite Barkley received various Texas friends, among them Wright Morrow of Houston, Democratic national committeeman, and C. T McLaughlin.

Introduced by Morrow, Barkley in his extemporaneous address made several gallant and appropriate references to women.

"The presence of women at the polls has brought refinement and culture into politics," he declared. The industry of our pioneer women is what has made us a great nation in so short a time, he continued.

Picturing the world divided between democracy and autocracy Barkley declared there is no room in the world today for partisan politics, but did not amplify that point.

He pointed to a future of sacrifice and hardship if we are to pass on to future generations the freedoms we have inherited.

"In this," he said, "we need the counsel and advice and inspiration of women, just as the pioneers needed the counsel and encouragement of the women sitting at their sides in the covered wagons."

Besides the honorees, those sharing the speaker's table with Barkley were Rep. Cox, Maj. Gen. Charles E. Thomas, commanding general of the 14th Air Force, Macon, Ga.; Wright Morrow; John Ben Shepperd; Dr. Sadler; Wayne Wagonseller, state senator from the twenty-second district; the Rev. Roger Bell of Mineral Wells and Fred Brown, assistant manager of the Baker Hotel, Mineral Wells.

Two other honorees did not attend the banquet. They were Oveta Culp Hobby Houston newspaper publisher and former commander of the WACs, and Mrs. Allan Shivers, wife of the governor.

Hopes of Averting World War Rise; Yugoslavia Danger Spot

By JOHN M. HIGHTOWER
(Associated Press Staff)

WASHINGTON, Feb. 10.—A survey of toplevel estimates on the danger of a new outbreak of war this spring disclosed today the following authoritative conclusions:

1. Yugoslavia is the peril point A Soviet-Communist attack there would set off spreading hostilities that would almost certainly engulf other nations in World War III.

2. The U. S. should do what it properly can to strengthen Yugoslavia and discourage an attack either this spring or later. The problem of what to do is now under pressing consideration here and in consultation with Britain. France and Marshall Tito's government at Belgrade. One good bet is that Tito eventually will get military supplies from the Western powers

3. The chances are that despite the dangers in the Yugoslav situation, general war will not break out this spring because Russia is not ready. . . Some high officials here believe Russia will not take a serious risk of war even during 1952.

4. Though the odds are in favor of maintaining the present half-peace, there is still a danger of war by incident. The Soviet block countries have been stepping up their propoganda against Yugoslavia; evidently a new period of nerve war is opening.

5. On the peace side are two developments. One is the prospect for a big four foreign ministers' meeting this spring, indicating the great powers will fight on the diplomatic rather than military front. The other is growing hope for a settlement in Korea now that the Chinese Communists have found out they probably can't win.

Politically, Tito has proved the possibility of national independence in eastern Europe and has had a marked effect among western Europe's Communists. Recent purges in Czechoslovakia and defections of some Communist leaders in Italy are regarded as evidence of Titoism on both sides of the Iron Curtain.

Militarily, Tito represents with his 32 divisions the most powerful anti-Soviet force in the European area today. Moreover he is guarding the highly strategic southern flank of Communist Europe, standing with Greece and Turkey across Russia's path to the eastern Mediterranean and Middle East.

Bill Status At End Of Week

WASHINGTON, Feb. 10. (AP) —The status of major legislation in Congress at the end of the week:

Reciprocal Trade Program: Legislation extending the trade agreements program three more years and containing administration-opposed "peril point' and escape clause provisions has passed the house and is pending in senate finance committee.

Draft Law: Senate Preparedness Subcommittee has approved a draft of 18-year-olds, with limitations. House Armed Services Committee has been holding hearings but has yet to act.

Taxes: The House Ways and Means Committee has started hearings on the President's request for heavy tax increases to help pay for the cost of preparedness.

Appropriations: The House Appropriations Committee has decided to abandon the one-package plan of lumping the entire federal budget in one bill. It started hearings this week on the separate budgets of individual agencies.

Defense: The House has passed bills authorizing a huge increase in naval ship constructon and giving GI's $10,000 worth of free life insurance during their period of service. The Senate has not acted on either bill.

Predict Few 18-Year-Olds In 1951 Draft

By EDWIN B. HAAKINSON
(Associated Press Staff)

WASHINGTON, Feb. 10—Some if any 18-year-olds will be drafted the first year even if Congress authorizes it.

They based their views on the numerous restrictions and additional manpower sources provided in a broad universal military training and service bill approved 7 to 1 by the Senate preparedness sub committee. The House Armed Services Committee also is at work on a new draft bill.

MAY NOT DIP

Sen Hunt (R-Wyo), subcommittee member said:

"It might happen that the armed services would not have to dip into 18-year-olds during the next year in order to fill manpower needs."

Secretary of Defense Marshall and top military leaders had asked Congress to lower the present draft age minimum from 19 to 18, without restrictions, and extend the length of active service for draftees from the present 21 months to 27.

Instead, the Senate subcommittee under Chairman Lyndon Johnson (D-Tex) approved drafting 18-year-olds only if older men from 19 through 25 years do not fill manpower needs. and then by taking those 18-year-olds who are nearest 19.

OTHER ITEMS

They also tightened required service to 24 months without leave. This amounts to a little more than 26 months, if the draftee uses his month of leave for each year of service.

The Senate group also called for:

1. A recheck of more than 800,000 men in the present 19-25 draft manpower pool who have been rejected as "4Fs."

2. Draft of married men from 19 through 25 years who are nonveteran, nonfathers.

Japan Believed Wanting Post-Treaty Help

TOKYO, Sunday, Feb. 11 (AP)-Japanese acceptance of an American offer of protection after signing of a peace treaty was apparent today in statements issued by John Foster Dulles and Premier Shigeru Yoshida.

The occasion for the carefully-worded separate statements, was departure of Special Ambassador Dulles and most of his party for the Philippines, Australia and New Zealand after peace treaty discussions in Tokyo.

TALK PROTECTION

Dulles said "provisional security arrangements between the United States and Japan" were discussed during his two weeks' stay. The Japanese, he said, have convinced him of an "overwhelming desire" to accept American protection in the immediate post-treaty period

Yoshida said his government and "a preponderant majority" of the people "warmly welcome" a security arrangement which includes "stationing of United States armed forces in and about the country."

IN UNTIL 1953

The prime minister's government with its unchallenged parliamentary majority will remain in power until 1953.

Dulles offered the Japanese, after they become free, the backing of American might to prevent "a vacuum of power" in unarmed Japan. No time limit will be specified. The arrangements will depend upon Japan's willingness to undertake her own defense.

While it lasts, an attack on Japan would be considered the same as an attack on the United States, Dulles has made clear.

No Argument From Wife About Husband's Guilt

This doesn't happen very often, but it did in Snyder Friday.

A woman entered a plea of guilty to charges of drunkenness and disturbance of the peace for her 38-year-old husband who was in jail.

Judge W. C. Davidson, justice of the peace, pointed out to the woman that her plea was not legal, but she insisted, telling the judge, "I know he was drunk and disturbing, because I witnessed it."

She inquired what would be the fine for the two charges.

Judge Davidson replied that it would be a total of $28, which included $26 costs.

The woman pealed off the money from a roll, paid the fines, and got her receipt.

A deputy went to the county jail and brought the man to the courthouse. He told the judge that he guessed his wife knew what she was talking about, and went his way smiling with his better half.

Bill Zimmerman, highway patrolman made the arrest and signed the complaints.

County Road Bonds Are Favored by Big Majority

Tito's Heresy Causes Rage In Kremlin

By WILLIAM L. RYAN
(AP) Foreign Staff

Titoism has provoked a raging fever in the body of European Communism in the past year. Despite vast and often bloody purges the Tito rebellion is on the upsurge. and Moscow is reacting with frenzied rage.

The Kremlin looks upon Titoism as a malignant disease. Such a disease can kill the unity that welded the European Communist front after World War II. If it becomes epidemic—and there are signs of this now—it can push Stalinism back to the borders of Soviet Russia.

The swift rate of Titoism's spread in the last 12 months split the ranks of the party in Italy It dug deep into ghe German and French parties. Behind the iron curtain it aroused such an atmosphere of suspicion as to become a permanent center of tension.

Titoism in essence means national communism independent from the dictates of Moscow. It may go down in history as one of the most significant events of the 20th Century. The Great Heresy may be the Achilles heel of the monolithic rule of Stalinism—the brand of Communism dictated and severely controlled throughout the world by the Kremlin.

Purge has followed upon purge. The process is continuing, and at this writing it seems it will never let up. Moscow finds it difficult to know whom to trust.

The party in Czechoslovakia is in a turmoil. The party in Germany is engaged in the greatest purge of its history. There's sickness in the party in France. There is an unceasing witch hunt in progress in Hungary, Romania Bulgaria and Poland. In all the satellites the Russians have found it necessary to move in men from Moscow to take the reins of economic and military affairs and insure the Kremlin's predominance

Defeated Its Purpose

APPLETON, Wis.. Feb. 10. (AP)—Police asked the Junior Chamber of Commerce to take down its billboard advertising highway safety today.

ROK Patrols Enter Seoul; Toll Is Huge

TOKYO, Sunday, Feb. 11. (AP)—A furious allied artillery barrage set huge fires in Seoul last night and early today while a South Korean patrol felt out Red resistance inside the old Korean capital.

American, Turkish and South Korean troops of the U. S. Third and 25th Divisions watched from the snowy south banks of the Han River. They expected orders would send them to attack the city they had abandoned to the Communists Jan. 4.

In three swift, sure blows Saturday, these weary, veterans of the U. S. Eighth Army had captured Seoul's industrial suburb of Yongdungpo, Kimpo Airfield, 15 miles northwest of the capital, and Inchon port, 22 miles southwest of Seoul.

ENTER SEOUL

A South Korean Republican patrol of the 25th Division entered Seoul Saturday. But the announced Allied objective still was not the capture of Seoul. It was the slaughter of Chinese and North Korean Red troops.

This was being accomplished. The official estimate of Red dead and wounded was above 65,000 from the start of the Allied offensive Jan. 25 through Friday, Feb. 9. Saturday's toll was still to be added.

Unlike the hit-skip killer attacks of the previous 16 days, the Allies Saturday held all points they had taken, without retiring.

After fleeing hastily before the Allied advance Saturday, the Reds inside Seoul Saturday night fired artillery and mortars south across the Han. This touched off the tremendous Allied artillery response.

CHINESE FLEE

An American intelligence officer said it was believed the Chinese had fled northward, leaving the North Korean Communists to defense Seoul's ruins.

The spectacular one-two-three punch that captured Korea's best west coast port at Inchon, the best airfield Kimpo and Yondungpo's industiral center took only eight hours.

Last September the U. S. First Marine division and the U. S. Army Seventh Infantry Division fought more than a week to secure the same valuable ground.

Life Still Robust For 106-Year-Old

LONDON, Feb. 10. (AP)—Mrs. Ann Parish celebrated her 106th birthday today with three hearty meals, a cigarette, a little whisky. and a dance.

Asked what she thought of the modern girl, she replied:

"Dreadful. And the boys are just as bad."

Connally Hits Hoover Speech

By JACK BELL
(Associated Press Staff)

WASHINGTON, Feb. 10 (AP)—Senator Connally (D-Tex) said today that former President Hoover's air-sea defense plan would leave Europe at the mercy of Communist conquest.

Asserting that Hoover apparently does not want to send any American troops to bolster Western Europe's defenses, Connally said:

"If they are attacked, it will all be over before we can get Mr. Hoover over there or the Army over there."

On the other hand Sen. Taft (R-Ohio) said at Chicago today that he agrees with "practically everything" Mr. Hoover said.

HOOVER STAND

The ex-president warned in a Friday night radio speech that a land war with Russia might bring the "loss of civilization." He urged that the United States concentrate on sea and air power to help defend Europe.

Sen. McFarland of Arizona, the democratic leader in the Senate, denounced unnamed Republican critics of the administration and said "the defeatists, the fearful men who urge us to abandon our leadership of the free world do not represent America today."

NO INVITATION

Connally, the chairman of the Senate Foreign Relations Committee, made it plain that if Hoover testified before his group and the Armed Services Committee when they open public hearings on the troops-to-Europe issue next Thursday it will not be on Connally's invitation.

"I don't desire to use Mr. Hoover," Connally said. "He's not our witness. I'm not going to call him, but if he wants to come, of course we'll hear him."

Weather

WEST TEXAS—Fair and warm Sunday. Monday partly cloudy colder in Panhandle and South Plains in afternoon.

EAST TEXAS—Partly cloudy, warmer northeast Sunday; colder northwest portion late Monday. Fresh southeast and south winds on the coast becoming locally strong Monday.

882 For Issue; 90 Against In Early Count

Scurry County voters -- a few of them — went to the polls yesterday to approve a road bond issue which should do much to consolidate Snyder's position in the oil world.

By a ratio of 10 to 1, voters favored the issuance of $2,500,000 to build 157 miles of county roads.

Incomplete returns from 19 boxes out of 21 indicated a substantial majority in favor of the bond issue, 882 for, and 90 against.

The city and the county voted almost the same proportion. The city voted 455 for and 40 against, and in the county there were 427 for and 50 against.

SUPPLY CENTER

Advocates of the bond issue had pointed out that as drilling declined in this area, other activities would have to take up the economic slack. Snyder is favorably situated to serve as the supply center for the rapidly expanding oil development in Kent County.

At present, however, roads to Kent County are in such poor repair that firms can hardly afford to send their vehicles over them. The Clairemont road is to be paved this spring by the highway department to a point eight miles from Snyder.

The county road bond issue will carry the pavement on to the Kent County line. It is believed that the highway department will then complete the road to Clairemont, including building of a new bridge across the Double Mountain fork of the Brazos.

The paving program is about equally divided between the four precincts of the county.

The voting, by boxes, follows:

Box	For	Against
NE Snyder	122	11
Ennis Creek	5	12
Dermott	13	0
Fluvanna	53	2
Union	32	2
Bison	25	5
China Grove	42	2
Ira	45	0
Lone Wolf	18	0
Pyron	19	4
Hermleigh	49	20
Canyon	24	0
Lloyd Mountain	27	0
Arah	6	0
NW Snyder	59	8
SW Snyder	179	7
Crowder	13	0
SE Snyder	95	14
Dunn	56	3

Water To Be Shut Off For Two Hours Today

Water will be shut off about two hours this afternoon on the main line in Southwest Snyder, W. J. Ramsey, city superintendent, said.

The shut-off will be done while a fire plug is being moved back from the right-of-way at the intersection of Twenty - seventh Street and Avenue W. The water gate on the main will be closed about 1 p.m. and should be opened again about two hours later, Ramsey said.

It will cut water off to residences and businesses along Thirtieth Street from Avenue W to the alley that runs between Avenues S and T.

Work To Begin Tomorrow On City's New Paving Projects

Paving equipment has been moved into Snyder and set up to begin tomorrow on the city's 200-block paving project, according to Weir Washam, contract representative for Brown & Root Construction Co.

Contract signing has been completed on five units in the 72-unit project and is virtually complete on 11 other projects, Washam said

That means that from 20 to 25 per cent of the contracts covering about 25 per cent of the blocks in the project have been signed, he said.

Washam said that with normal weather conditions and the average contract signup rate the company should be able to complete the paving project by September 1, this year.

UNITS SIGNED

Units on which contract signing has been completed and on which the paving will begin first are: Avenue T from Thirtieth to Thirty-third Street; Thirtieth Street from Avenue X to Z, Avenue U from Twenty-fourth to Twenty - fifth Street; Avenue W from Twenty-fifth to Twenty seventh Street: and Avenue T from Twenty third to Twenty - fourth Street.

Units almost completed are: Twenty-sixth Street from Avenue T to Z; Twenty - seventh Street from Avenue W to Z; Twenty-eighth Street from Avenue T to V; Twenty - seventh Street seven blocks from Avenue F to M; Twenty-ninth Street from Avenue U to Z; Thirty-second Street from Avenue V to Y; Avenue W from Thirtieth Street to Thirty-second; and Twenth-eighth Street from Avenue N to Q. Considerable work has also been on the unit on Avenue Y from Twenty-fifth Street to Thirtieth, and some other units, Washam said.

READY TO GO

"As soon as the signup is completed on the units we will be ready to go to work on the units," he said.

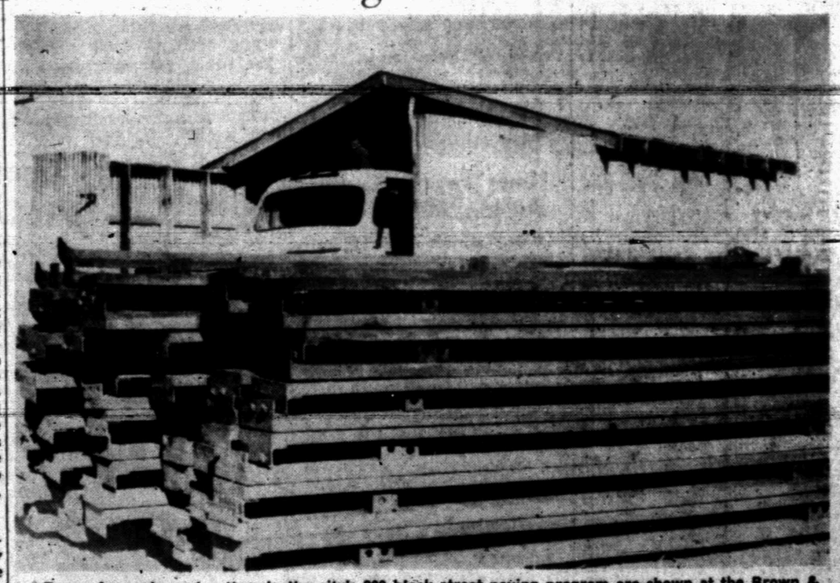

Many property owners have not yet been contacted by the company, but they will be just as soon as we can get to them, Washam said.

The company has moved equipment to a location in South Snyder on Thirty-sixth Street between Avenues J and K. They have set up a storage house, office, and have hauled in curb and gutter forms, he said.

The company is moving their equipment here from a job being completed at Midland.

"The quicker we get the contracts signed, the quicker the paving can be done," Washam said.

Street Paving Starts Tomorrow

Forms for curbs and gutters in the city's 200 block street paving program are shown at the Brown & Root Co. installation being built in Southeast Snyder. Actual work on the paving project will begin tomorrow. Company representatives say that the project should be completed by Sept. 1, with favorable weather and early completion of contracts.—Staff photograph.)

En Route to Fort Worth

Three high school students are shown here as th way to the Snyder day event at the Fort Worth Ex ey took time out to eat in Mineral Wells on their position. Left to right are Eulene Riley, Judy Miller and Ray Gordon.—(Joe Dave Scott photograph.)

Ford Holds Lead In $10,000 Texas Open

By HAROLD V. RATLIFF

SAN ANTONIO Feb. 10. (AP)—Doug Ford of Briar Cliff, N. Y. rolled in with a seven-under-par 64 today to snatch the lead in the $10,000 Texas Open away from the man who played the greatest round of golf in PGA tournament history.

Ford's 197 for 54 holes was a stroke better than Al Brosch, Garden City, N. Y., who had fashioned an unbelievable 66-11 under par—over the 6,400-yard dusty, battered Brackenridge Park course. Last year in the St. Louis Open Dow Finsterwald, an Athens, O., amateur, shot 61. That was the record and, of course, the greatest round in Texas Open history.

But Ford, who led at the end of the second round yesterday, was not to be denied.

Brosch came in right behind Harry Todd of Dallas, who had shot a 62 to tie the competitive course record set in 1947 by Jimmie Demaret of Ojai, Calif.

Tomorrow, when the final round begins, two fellows who never have won a major tournament will be in front. Brosch has been only a part-time player on the PGA tour. Ford is finishing his first year on the tour.

Brosch's putter was as hot as grandad's old wood stove. He was sinking putts from one to 15 feet with monotonous regularity, showing how his approach shots were working. He had only 23 putts in the round today.

BURKE THIRD

In third place in the tournament was Jack Burke, Jr., of Houston. He had a 63 today to make his total 200.

Tied at 201 were Todd, E. J. Harrison of St. Andrews, Ill.; Glen Teal of Jacksonville, Fla., and Johnny Palmer of Badin, N. C. Harrison had 64, Teal 67 and Palmer 67 today.

The leaders include

Jimmie Demaret, Ojai, Calif., 68-70-66—204.

John Barnum, Grand Rapids, Mich., 72-66-68 — 206.

Earl Stewart, Jr., Dallas, 71-68-68—207.

Charles Klein, San Antonio, 70-67-70—207.

Others qualifying for tomorrow's final round included

208—Morris Williams, Jr., Midland, Fred Haas, Jr., New Orleans.

211 — Elroy Marti, Houston; Iverson Martin, Hamilton, Ernest Fortner, Austin; W. A. Stackhouse Laredo.

212—Tony Holguin San Antonio; Al Escalante, Torreon, Mexico; A-Monty Sanders, Marshall.

A-denotes amateur.

These amateurs were placed in the field automatically

Ed Dingell, San Antonio, 214; Sgt. J. C. Goosie, San Antonio 215; Don January, Denton, 213; Joe Jiminez, San Antonio, 214; Joe Ruby, San Antonio, 216; Billy Erfurth, San Antonio, 219; Chester Sealey, San Antonio, 219; Ken Antonio, 220.

Scores of Texans who failed to qualify

A—Benny Castloo, Mineola, 71-75-79—225.

Miles Falls, Brownsville, 73-70-71—214.

Sammy Speer, McAllen, 75-68-70—213.

Ten Lettermen Return To T.C.U. Baseball

FORT WORTH, Feb. 10. (AP)—Texas Christian University's Southwest Conference baseball squad starts working out next week with 12 lettermen returning.

A strong mound corps, headed by four veterans, will be among the some 30 candidates expected to begin practice Feb. 15 under Coaches Walter Roach and Pete Donohue.

Moundsmen returning are Norris (Knobby) Graves, Ed Mathes, Johnny Swaim and Mike Salim. All are righthanders. A towering newcomer, Lloyd Moore of Fort Worth's North Side, is expected to add throwing strength.

The Frogs play their first practice games March 9-10 against Brooke Army Medical Center in San Antonio.

Drew-M'Carthy Feud Probed

WASHINGTON, Feb. 10. (AP)—The Army disclosed today it has dumped the Pearson-McCarthy feud into the hands of the Justice Department.

Columnist Drew Pearson and Sen. McCarthy (R-Wis) have accused each other of violating military security by making public information from secret defense department dispatches.

The Army indicated it got nowhere in trying to find out who gave Pearson confidential military messages from which he quoted in his newspaper column Dec. 30.

Secretary of the Army Frank Pace, Jr., reported his department's "preliminary investigation" was completed with "negative results."

Writing McCarthy, who had fired at Pace a list of questions about the Pearson column, the Army secretary added that the case had been handed to the Justice Department "for further investigation."

The Pearson column had purported to show that Communist strength in Korea prior to the big Red offensive and allied retreat was considerably less than Gen. MacArthur had reported publicly Pearson said no security was involved; that he was disclosing "military errors" which the public was entitled to know about.

Chicago Cage Tourney Plans

CHICAGO, Feb. 10. (AP)—Plans for a National Invitational Basketball tourney at the Chicago Stadium in direct competition with the established National Invitation meet at New York's Madison Square Garden were disclosed today by Arthur Morse, Chicago Stadium cage impressario.

Morse said he was sounding out such teams as Kentucky, Oklahoma A&M, North Carolina State, Bradley, Arizona, Beloit and two other ranking quintets to round out an eight-team field.

The meet would be held four days, between March 10 and 17, paralleling New York's invitational meet which has a 12-team field.

T.C.U. Football Clinic For Southwest Teams

FORT WORTH, Feb. 10. (AP)—Texas Christian University will hold a football clinic in connection with spring training, Coach L. R. (Dutch) Meyer announced today.

The clinic, open to all high school and junior college coaches in the Southwest, will be held March 2 and 3.

Meyer will lecture on his spread formation and wingback setups. A guest speaker will lecture on the T formation.

The climax of the clinic will be an intrasquad game March 3.

Many Ways To Commit Suicide, All in Use

DECATUR, Ala., Feb. 10. (AP)—There was no doubt, said Coroner Joe Morrison, that Charlie Vaughn 56, was a suicide.

The Negro railroad worker, Morrison reported today, had shot himself three times in the chest, swallowed poison, cut his wrists with a razor, inhaled ether, and wrapped a towel around his neck as a noose.

Besides that, Morrison continued Vaughn already had bought a cemetery lot and showed an undertaker where he wanted to be buried. Morrison added no motive for his death had been established.

Buffs Trade Pitchers

HOUSTON, Feb. 10. (AP)— The Houston Buffs of the Texas League traded pitchers Marty Garlock and Roy Pound to Columbus of the American Association yesterday for veteran pitcher Al Papai.

Harriman For Global Policy, Containment

PHILADELPHIA, Feb. 10. (AP)—Presidential Asst. W. Averell Harriman today told foreign policy critics who want the U. S. to concentrate its "energies" in Europe or in Asia that they don't understand "the nature of the struggle" and are "courting disaster."

Stepping into the great American debate on foreign policy, Harriman asserted that the "world-wide strategy (of the Russians) can be met only by a global strategy."

"Those who advocate concentrating our energies exclusively on one part of the world or on one aspect of the situation fail to understand the nature of the struggle," Harriman said, adding:

"This struggle cannot be won by any single method—not by military strength only, nor exclusively by economic and social programs, nor by moral force alone.

"Anyone who attempts to find an easy way out by concentrating on one area or one phase of the conflict does not understand the character of the threat we face and is courting disaster."

Speaking to the World Affairs Council of Philadelphia, the assistant to Mr. Truman said that "if this country ever had a wise course ahead of it, it is for ourselves to follow the leadership of Gen. Eisenhower in the job he has undertaken.

Might Reopen Lattimore Case

WASHINGTON, Feb. 10. (AP)—Senators assigned to investigate subversive activities confided today that they expect "sensational" results from a dramatic seizure of voluminous files of the Institute of Pacific relations.

Acting on a tip, an investigator of the new Senate judiciary subcommittee on subversive activities, grabbed the files Thursday in a surprise raid on a farm near Lee, Mass.

Frank Schroeder, the committee investigator, brought the truckload of files through a snowstorm and over muddy country roads to New York. From there the truck moved to Washington under a Treasury Department armed convoy.

The files were under guard over the week end.

The seizure recalled repeated charges by Sen. McCarthy (R-Wis) that Owen Lattimore, former head of the institute, was the "No. one" Communist in government activities in this country.

A foreign relations subcommittee under former Sen. Tydings (D-Md) cleared Lattimore over protests of McCarthy. Republican members refused to sign the report. Senators said seizure of the files might reopen the case.

The institute describes itself as working to increase the friendship and knowledge among nations bordering the Pacific.

Fort Worth Is Site Of Intercollegiate Rodeo

ABILENE, Feb. 10. (AP)—Fort Worth will be the site of the National Intercollegiate rodeo in May, it was announced. Dates for the annual affair have not yet been selected.

Bill Guest of Hardin-Simmons University is president of the sponsoring organization, the National Intercollegiate Rodeo Association.

Pioneer Net Profit Of $1.51 a Share For 1950

DALLAS, Feb. 10. (AP)—Pioneer Air Lines today reported a net profit of $135,611.17, equal to $1.51 per share for its 1950 operations.

This compares with an adjusted net profit of $126,633.73 or $1.40 a share for 1949.

The company served 22 cities in Texas and New Mexico.

Passenger revenues were up 20 per cent for one year and charter income was up 349 per cent.

Texas Rookie To Majors

ST. LOUIS, Feb. 10. (AP)—Eddie Albrecht, who pitched last year for San Antonio and Wichita Falls, is signed today with the St. Louis Browns of the American League. Both clubs are Brown farms.

Lou Gehrig led the Yankees in batting on four different occasions —1927, 31, 34, 36.

Shivers Gets Hundreds Of Scout Handshakes

AUSTIN, Feb. 10. (AP)—Allan Shivers was probably the handshakingest governor in the nation this morning. But he wasn't politicking. He was shaking hands with "The army of liberty."

That's what the governor called hundreds of Boy Scouts and Cubs who flocked to Austin from all over Texas. They were in town to celebrate scouting's 41st birthday and to make their annual progress report to the governor.

The state's chief executive heard the report on the Capitol steps. He listened attentively.

Behind him was a row of high-school aged scouts in fierce-looking Indian garb. In front, were badge-bedecked Eagle Scouts, Explorer Scouts, Sea Scouts, and Air Scouts. Packed on the sides were wide-eyed cubs. They had the rest outnumbered two to one.

The governor commended the Scouts on their report.

Defeat By Colorado City Puts Tigers in Tie for 2nd Place

The Snyder Tigers slipped to a tie for second place with Colorado City Friday night when they lost a close bout here to the Wolves by two points.

In a game that saw some of the season's best playing by both teams, the Tigers were overpowered by the greater height of the Colorado City five. The score was 28 to 26.

B TEAM LOSES

The powerful Tiger B team lost their game to the Wolf B team also by a score of 43-39.

High pointer for the A game was W. G. Birt of the Tigers with 10 points. Melton Wilbanks with eight points was high man for the Wolves.

First blood was drawn by the Wolves when Steve Scott made a field goal. John Gary for Snyder shot that hit the basket dead center.

This loss puts the Tigers in a tie for second place with Colorado City, both teams having lost three games this season.

Roscoe undisputedly leads the district after a Friday night 38-12 victory over Roby.

Snyder has two tough out-of-town games next week to end the season. Tuesday night they play the Plowboys at Roscoe, and Friday night they end the season playing the Badgers at Merkel.

Wins over Roscoe and Merkel would put the district leadership in a three way tie - Snyder, Roscoe, and Colorado City.

Individual scoring in Friday night's game was for the Tigers Birt 10, Max Coffee eight, John Gary six, and Bill Hanks two; for the Wolves, Melton Willbanks nine Nathan Corbell eight Wayne Hulme four, Don Williams, three, and Steve Scott and Billy Post, two each.

In the B game which was the fifth loss for the Snyder B team this season against 21 wins, Kenneth Crook led scoring with 18 points for the Tigers. Other Tiger B scoring was Joe Cargile 10, Bill Cain six, and David Harlin three. B Wolf scoring was Tom Fulton 13, R. B. Golden 10, Burman Corbell and Billy Post nine each and George Swann two.

John Gary making the most spectacular shot of the Friday night game which the Tigers lost to Colorado City 28-26. Gary shot from the middle of the court to sink the last two points of the game.—(Staff photograph)

tied the score only a few seconds later, but then the Wolves pulled away and by the end of the first quarter they led 9-5.

A desperate catch - up attempt by the Tigers during the second quarter was hindered by some bad breaks from the officials more than from a lack of good ball playing on the Tigers' part. Troy Tate one of the referees, unintentionally called out the wrong color and gave the ball to the Wolves on an out-of-bounds, when it should have been the Tigers' ball. After the game he said that it was a mistake, but one that could not be helped after it was made. Nevertheless, the Tigers had closed the lead at half-time down to 15-12.

SLIGHT LEAD

In the last half, the Wolves managed to make two points every time the Tigers did, to keep always just a few points in the black.

A long shot with two minutes to play in the last quarter by John Gary was probably the most spectacular shot of the game. He was rushing madly down court with the clock ticking out the last few plays. When he reached the middle stripe he lunged a one-handed

Gaps in Texas Baseball Team

AUSTIN, Feb. 10. (AP)—When the National Champion Texas Longhorns open baseball practice Thursday, Coach Bibb Falk will have seven gaping holes to fill — two created by players who were "too good."

Besides finding replacements for five lettermen who finished their eligibility, Falk will have to fill the shoes of two players who became stars in just one year of varsity competition.

They are Kal Segrist, .395-hitting first baseman, and Ben Tompkins, home-run clouting, rifle-armed shortstop. Segrist signed a bonus contract last summer with the New York Yankees, and Tompkins got big money for joining the Philadelphia Phillies at mid-term.

Falk also has to replace Pitchers Murray Wall and Charlie Gorin, Outfielders Bob Brock and Dick Risenhoover, and Catcher D. P. Cavness.

Wall, Gorin, and Brock also have inked professional contracts.

Returning to the Longhorn fold are seven lettermen.

They are Jim Ehrler, pitcher who hurled a no-hit, no-run game in the NCAA Tournament; Frank Womack, an all-conference outfielder who doubles as a pitcher; Frank Kana, third baseman for two seasons; Irving Waghalter, second baseman; Guss Hrncir, outfielder and batting hero of the national playoffs; and Stuart Benson and Eddie Burrows, catchers.

The Texas schedule:

March 17 — Milwaukee (AA) at Disch Field.
March 19-20 — Ohio State in Austin.
March 23-24 — Oklahoma in Austin.
March 26-27 — Minnesota in Austin.
March 30-31 — Rice in Austin.
April 9 — Baylor in Austin.
April 13-14 — TCU in Fort Worth.
April 16 — SMU in Dallas.
April 21 — A&M in Austin.
April 27-28 — Baylor at Waco.
May 4 — Rice in Houston.
May 5 — TCU in Austin.
May 11-12 — SMU in Austin.
May 17-18 — A&M at College Station.

Gangway Is Winner

MIAMI, Fla., Feb. 10. (AP)—Gangway, a 10 to one shot owned by P. L. Kelley of Chicago, surged from behind in the stretch today to win the $25,000 added McLennan handicap at Hialeah Race Track.

Lindle Castle, sophomore on Kentucky's basketball squad, is the youngest member of the team. He is 19 years old.

A&M To Open Grid Training

COLLEGE STATION, Feb. 9. (AP)—Candidates for Coach Harry Stiteler's 1951 Aggie football team will report some 70 strong Monday to open spring training at A&M.

Stiteler expects the Aggie squad to include 25 lettermen, nine squadmen, 20 from the B team and an equal number up from the fish team of last season.

Ray George, new line coach, will see his prospects in uniform for the first time. The rest of the coaching staff consists of Bill (Dog) Dawson as end coach, Gilbert Steinke as backfield coach and Dalton Faireloth as B team coach. Bill Dayton is trainer.

A freshmen coach, to replace Perron Shoemaker who went to the University of Georgia as end coach, is expected to be employed soon.

One new gridman is being added to the squad. Roy Dollar, six foot two inch quarterback at Del Mar Junior College last fall, is eligible for varsity competition this fall. He joins Ray Graves, Delmer Sikes and Dick Gardemal as top candidates for the man-under slot.

Aggie Quarterback Darrow Hooper may move permanently to one of the terminal posts, a position he played on the Aggies' four final games.

Polly Riley Beats Fellow Texan To Win Palm Beach Tourney

PALM BEACH, Fla., Feb. 10. (AP)—Polly Riley won the 26th annual Palm Beach Women's Golf Tournament today with a short lead that went a long way.

She defeated Betty MacKinnon 2 and 1 after taking the lead on the third hole and holding it around the 6,008-yard Palm Beach Golf Club course.

Both girls are Texans, Miss Riley from Fort Worth and Miss MacKinnon from Mount Pleasant. The victor had reached the finals of the tournament twice previously, both times with Peg Kirk of Findlay, Ohio, but it was the first time she won it.

Putting turned the trick for Miss Riley. Her hand was steady, while Miss MacKinnon was shaky on the greens.

Turf Conference Set

COLLEGE STATION, Feb. 10. (AP)—The annual Texas Turf Conference will be held at Texas A&m College Feb. 12-14.

Conference speakers will discuss production and maintenance of turf, including control of diseases and insects, weed control, mowing watering, aeration and fertilizing.

Speakers will include Dr. Glenn Burton, department of agriculture geneticist, of Tifton, Ga., and Dr. F. V. Grau, director of the green section of the U. S. Golf Assn. Dr. Grau is from Beltsville, Md.

MUSIC AND DRAMA

The Westminster Choir of Dayton, Ohio, will be presented in a concert at the Odessa high school gymnasium at 8 o'clock Feb. 19 under the sponsorship of Odessa College.

The 40-voice choir will be directed by Dr. John Finley Williamson, founder of the original choir.

Mail orders for tickets must be received not later than tomorrow. Reservations may be made by writing Mrs. Doris Edwards at box 3752 in Odessa. Reserved seats are $3.60, $2.40 and $1.20, with general admission tickets 90 cents and student tickets 30 cents.

In connection with the concert a choral clinic for high school students of this area will be conducted by Dr. Williamson during the day. Reservations for the clinic are to be made by writing Robert Page at box 3752 in Odessa

* * *

Frederick Balazs, musical director of the Wichita Falls Symphony, will appear as soloist with the San Angelo Symphony at 8:15 tomorrow night in a performance of the Beethoven Concerto in D minor for Violin and Orchestra.

Balazs, who was born in Budapest, was one of the last pupils of the late Jeno Hubay, world - famous violinist. Balazs came to the United States in 1940 and has gained widespread recognition.

Tickets for the concert may be purchased at the auditorium on the night of the concert. This is the first concert of 1951 for the San Angelo Symphony.

* * *

An exhibit from the Midtown Galleries of New York City will be opened to the public at the Helen Kendall Memorial Art Gallery in San Angelo this afternoon and throughout the week.

Thirty pictures representing 20 well-known artists will be included in the show. The Kendall Gallery will be open from 3 to 6 o'clock today and from 2 until 5 o'clock on week day afternoons.

* * *

Elena Nikolaida, soprano, will be presented in a program on the Community Concert series in El Paso Tuesday evening. A second program on this series, the Slavenska Ballet Variante, will be presented there on Feb. 19. Reservations for both these performances may be made by writing Mrs. G Hallett Johnson at the Cortez Hotel in El Paso.

* * *

The Dallas Symphony Orchestra will give a special program entitled "Concierto Entre Las Americas" at the State Fair Auditorium on Friday evening. This concert will feature Paul Breisach as guest conductor.

The eighth in the series of Tuesday evening subscription concerts will be presented by the orchestra on Feb. 20, with Saschi Gorodnitzki, pianist, as soloist.

NEWS FROM HERMLEIGH

By Mrs. W. C. Fargason

Mr. and Mrs. D. E. Watson have received word that their son, Bob Watson of Painview, Tex., was called into active military service last week. He received his call just two days before he was to report. He was in the Air Corp. Reserve. Bob Watson was reared here, and after finishing Hermleigh high school, he attended Texas Tech. until he entered military service during World War II. After he was discharged he re-entered Texas Tech, where he received his B.A. and M.A. degrees, majoring in journalism. He and his wife were teaching school at Plainview when he was called into service last week.

Mr. and Mrs. Ernest Brock are in Lubbock with their daughter, Mrs. Pauline Campbell while Mr. Brock is remodeling Mrs. Campbell's home.

Mr. and Mrs. A. J. Burney of Wink visited here Sunday with Mrs. Burney's parents, Mr. and Mrs. M. J. Haynes.

Mrs. Annie Taylor became a great-grandmother Monday when a son was born to Mr. and Mrs. Joe Doris Roemisch of Odessa. Mrs. Roemisch is Mrs. Taylor's granddaughter, the former Virginia Robertson, sister of Jerry Robertson.

Mr. and Mrs. Orbie Richburg of Inadale are building a residence in Hermleigh. It is one block north and one block west of the high school.

Miss Jewel Piper of Midland spent Sunday here with Johnye Fargason.

We welcome back to our town Mr. and Mrs. J. S. Provens and family and Mr. and Mrs. J. R. Snider and young son who have been living in Coahoma two months. Both men are employed in the Snyder oil fields.

Mr. and Mrs. A. W. Mobley visited last week in Fort Worth with their son Max Mobley and family.

Suit Filed By Bruce L. Greer

A suit for $4,500 damages against Dr. W. R. Newton, owner of the Snyder Hospital Clinic, charging breach of contract, was filed in 32nd district court yesterday by Bruce L. Greer, former administrator of the hospital.

In his petition, Greer alleges that he was employed by Dr. Newton on June 1, 1950, as administrator for the hospital at a salary of $1,000 per month.

Greer further alleges that shortly after he assumed his duties as administrator, Dr. Newton commenced a course of interference in the administrative matters of the hospital, which increased until he was unable to continue his duties according to the terms of the contract.

Greer resigned as of Jan. 14 and is seeking judgment for the remainder of his contract, which includes $500 for the balance of January this year and $1,000 for the months of February, March, April and May.

George R. Killam, Jr., attorney filed the suit for Greer.

Meeting Tomorrow Of American Legion Post

A report on the home talent show given last week at the high school auditorium which netted more than $300 for the Girl Scouts will be made at a meeting of the American Legion at 7:30 o'clock tomorrow night at the clubhouse according to Hilton Lambert, commander.

Other matters in connection with the 1951 Legion program will be discussed, he said.

Civil Air Patrol Will Meet in Sweetwater

A group from Snyder will attend the meeting of the Civil Air Patrol at Sweetwater airport at 7:30 o'clock tomorrow evening, according to M. W. Pilcher, one of the active members of C.A.P.

"Anyone interested is invited to attend this meeting," he said.

It is not necessary to be a pilot or own an airplane to become a member, he pointed out.

About 10 persons from this city are members of the Sweetwater squadron.

Dallas Man Burns To Death Saving Furniture

DALLAS, Feb. 10. (AP) — A 50-year-old West Dallas man, James Edwards Ivey, burned to death early today as he tried to salvage furniture from his blazing frame house.

The house, owned by the victim, was destroyed.

Spectators said the man died when he entered a side door of the structure to carry out more furniture.

Shrimp Boat Explodes And Sinks In Canal

GALVESTON, Feb. 10. (AP) — A 32-foot shrimp boat exploded and sank in the Intracoastal canal south of here yesterday. One man was missing and two were injured.

Missing is Sonny Mason, 25, of Galveston.

Treated for burns and released from a hospital here were Isaac Olson and Thomas Waters, both of Galveston.

Truman Pen In Lubbock

LUBBOCK, Feb. 10. (AP) —You can see the fountain pen President Truman used to sign the Canadian River Project Law at Texas Technological College.

Charlie Guy, editor of the Lubbock Avalanche Journal, presented the pen to Tech President D. M. Wiggins in behalf of Sen. Lyndon B. Johnson and Rep. George H. Mahon.

The pen is on display in the West Texas Museum on the college campus.

Aliens Are Deported

LAREDO, Feb. 10. (AP) —Federal Judge James V. Allred assessed 90-day suspended sentences to 163 aliens for illegal entry to the United States from Mexico. He also ordered 63 deported Friday and 20 more deported today.

Few If Any Bond Forfeitures Are Ever Collected In Scurry

A new bail bond act, now pending before the Texas legislature, in which professional bondsmen would be licensed and made subject to suspension for bond forfeitures within 20 days instead of at the current next term of court, has the approval of most court officials and law enforcement officers in Scurry County.

"I think the new law should be passed and I am heartily in favor of the new bond act that has been introduced by a Dallas legislator," said A. S. Mauzey, judge of the 32nd District Court.

NEED NEW LAW

"The present bond law should be superseded by the new act or amended," said Judge Mauzey.

Lloyd Merritt, sheriff, said he is in favor of the proposed new bond act, and hopes it becomes a law.

"This bond-business is a headache for me, because it falls to my lot to approve them for the courts," said the sheriff.

NO BLAME

Merritt pointed out that as far as he knew, no court bond forfeiture have ever been collected since he has held office. There have been thousands of dollars on bond forfeitures ordered, but no one has ever paid off, he said. Merritt did not say who was to blame for such conditions.

"I would like to see the professional bondsmen placed under license, and suspended if they did not comply with the law," he added.

SEES LITTLE VALUE

Jack Kennedy, assistant county attorney, said he can see little value in the new bill in a town the size of Snyder. But it would be of great value in the large cities such as Dallas and Fort Worth, he said.

"In my mind this act seems to be striking at the professional bondsmen because it requires them to be licensed; subject to suspension, and it forfeits the bond in 20 days, which, in a large city as Dallas, would keep the professional bondsmen from skipping the bond, and from using all the time now allowed by law to maneuver out of paying the bond," he continued.

"For this purpose, I think that the new act would be of benefit especially in a large city where a great many bonds are made.

OBJECT OF BOND

"The object of a bail bond is to effectuate the release from custody of a person accused of crime, and to secure his presence in order that he may be tried upon the charge against him. The bond is actually an obligation to the State of Texas, and it binds the principal, which is the person accused of crime, and also the sureties who sign his bond and who guarantee payment of the amount of the bond if the principal fails to appear at trial time.

"While many people do not think it right for a man to be released from jail after committing a crime, it would be remembered that a man is presumed innocent until his guilt is proven beyond a reasonable doubt and that the Bill of Rights of the State of Texas declares 'all prisoners shall be bailable by sufficient sureties.' If a proper bond is refused by an officer, the prisoner has the right to use the famous writ of habeas corpus to secure his freedom.

"If the sureties do not have the principal in court according to terms of the bond, the bond stands forfeited. The forfeiture is ordered by the court in which the defendant is to appear.

"When the forfeiture is declared, a warrant is issued for the arrest of the defendant, and a new bond is required.

"After the forfeiture, a judgment nisi is entered, and the sureties are served citations to appear at the next term of court and show good cause why the defendant did not appear. If the sureties do not show good cause, then a final judgment is taken against them and execution will be issued to secure the money promised in the bond."

Water District Bonds Sold At A Little Under 2.5 Per Cent

(Special to the Daily News)

The $11,750,000 revenue bonds of the Colorado River Municipal Water district will go at a cost of money slightly under 2.5.

Actual figure, announced Norman S. Downey, New York, representative of Union Securities, will be 2.4842.

This brought an expression of satisfaction from R. T. Piner, Big Spring, president of the CRMWD. And well it might. Downey estimated that the water district had saved itself around $415,000 through its delayed issuuance of the bonds.

Last November Union Securities had been given the right to handle the issue. Downey and Joe King president of Union Securities, urged instead the issuance of certificates of indebtedness up to $200,000. The bonding house, they said would stand by its offer of cost of money not to exceed 2.70. Moreover, it woud give the district benefit of the going rate of time of actual issuance when first major bids were received.

The district took this course and knocked .21 of a point plus off the original rate guarantee.

Under the scheduling of the issue, there will be no principle payments until 1957 when $155,000 will be due. This graduates progressively until it reaches $725,000 per annum in 1976. That brings the district to the $3 million "balloon" or tail - end bulge on the issue which then would fall due. The plan of finance anticipates that reserves would have been created to care for a major portion of this or that refinancing could be a simple matter.

Bonds maturing in the period 1957-66 would draw 2 per cent; those from 1967-72 would command 2¼ per cent; those from 1973-76 woud draw 2⅜ per cent; and the remaining bonds woud be rated at 2½ per cent.

Meanwhile, Paul Horton, Dallas, member of the legal counsel for the district, was in Big Spring Friday morning to get several resolutions signed and certified. Contracts with the various cities (Big Spring, Odessa and Snyder) were being executed formally.

Representative of contractors and supplying firms were making contacts in the city and area. Pipe suppliers are due to set up a plan in Big Spring and possibly one at Odessa to split the concrete, coating and dinnig for the pipe to be used in transmission of the water

Texas History Written in Brands

By JOHN HENDRIX

No story of Texas Panhandle brands and ranches could be nearly complete without considerable reference to Canadian and Lipscomb County, Texas. First of the cattle to come into the country were the thousands that bore the brand DAY in 1879; the herd had formerly belonged to J. M. Day of Austin who sold out the Lipscomb County ranch in order to start anather near Camp Supply.

The Dominion Cattle Company, a group of Canadians, bought the Day herds, took over his range and built up the Box T, the only ranch ever owned and operated in Texas by Canadians. They honored their home country by naming the town of Canadian for it. They operated successfully until 1885 when President Cleveland ordered all white ranchers out of the Indian territory.

The Box T was less affected than most ranches in that district, as its was merely a matter of building a new camp a few miles across the line in Texas. At one time the Box T ran more than 30,000 cattle; its neighbors, the 7K ranch, had about the same amount of cattle.

Numerous other outfits and brands that flourished for a time and which eventually went under the plow were in the Canadian country. Much of it, due to its terrain, is still good ranch country and from it comes many of Texas's best feeder cattle.

One of the big old outfits, the Box T, is still in operation and is owned by the widow of Patrick Doyle, who later married John May and is again widowed. Mrs. May has made the Box T pay a gratifying return for every Canadian dollar invested in it.

WindInsurance Changes Are Not in Effect

Elimination of the $100 deductible clauses applying to hail, hurricane, and wind storm insurance for home owners here in Snyder and all over Texas except seacoast territory has not gone into effect yet, W. Willis Cox, Jr., insurance man here, said.

The state insurance commissioner has ordered the mandatory $100 deductible included in the 28 Texas counties classified as seacoast territory.

The method for obtaining the removal of the optional $100 deductible clause has not been determined by the insurance commissioners, he said.

This could be done in several ways either by endorsing the present policies or writing a separate policy covering the first $100 of loss, he said.

From information available now the optional coverage will not be offered the insurance public before March 1, he said.

"The announcement of the intention to make the $100 deductible clause optional did not include any information concerning its cost. However, I think after proper consideration has been given, an additional premium will be necessary if the policy holder is to have coverage on the first $100 of loss," he said.

If buyers of insurance need coverage before March 1 they should obtain their insurance policy just as if no announcement had been made concerning the removal of the $100 deductible clause with the understanding that the optional coverage can be applied when it becomes available, he said.

The proposed change in insurance for hail, hurricane, and wind storm coverage applies only to urban properties that have been insurable only with $100 deductible policies. Rural properties which are eligible for insurance with $50 deductible clauses are not affected by the change.

Costal areas within 100 miles of the Gulf of Mexico are not affected by the change, but inland Texas urban properties will be when the change becomes effective.

Cox says that many people have misunderstood recent news releases on the matter because the releases were not fully explicit.

Snyder Residents To Baylor Alumni Meeting

Mr. and Mrs. Wayland Holt and Leroy Howard were in Midland Friday night to attend a joint meeting of the Midland and Permian Basin Baylor Ex-student clubs.

Speakers for the evening included Ross Sams, president of the ex-student association, and Jack Dillard, executive secretary of the association, both of Waco. Sam Boyd, freshman coach, also spoke.

Ex-students from Big Spring, Lamesa, Andrews, Midland, Odessa and Snyder were present for the meeting.

Miss Sumlin Will Sing Today at Presbyterian

Miss Olive Ann Sumlin, soprano, will be the guest soloist at the morning services today at the First Presbyterian Church. Miss Sumlin will sing "The Twenty - third Psalm."

Mrs. R. E. Gray, 701 Twenty-ninth Street, returned this week end from Ballinger. Mrs. Gray, who has been away a few weeks for dental surgery, is now back at her business, Gray's Style Shop.

Little Time to Act On City Alderman Election

Snyder is hard on its city councilmen. It asks them to handle the immense problems of building a city almost from scratch, and as compensation, pays them $35 a month.

We have always thought it was too big a demand to be made on any busy citizen that he make himself an expert in the innumerable and complex phases of city management in order to serve as a good councilman. As soon as the city can afford it, the burden of DETAILS should be given to a city manager, leaving the councilmen only the problem of setting general policies.

But for a while at least we must continue to overtax the civic pride of a few citizens by asking them as councilmen to build us a city and to accept as our gratitude the abuse and complaints which we Americans heap on our public officials.

Nobody in his right mind would take the job, except for two considerations: (1) if one doesn't serve, somebody worse may get the job and the power, and (2) the satisfaction of a man's civic pride may make up for the obvious deficiency in the $35 salary.

At a recent club discussion of the obligations of a citizen, one of our public officials urged the voters to take an interest in the city council elections April 3. The deadline for candidates to file is March 3, about three weeks away.

Since nobody wants the job, we will have to beg good men to serve us. This calls for the formation of groups in each ward to select as their candidate a qualified citizen, one who knows their particular neighborhood interests but at the same time is primarily interested in the welfare of the whole city. The group must then assure him of their support and urge him to run.

If the councilmen whose terms expire satisfy you, tell them so and urge them to run again. If they do not satisfy you, prevail upon a candidate who will please you and run him. But don't pass over this important election.

March 3 is the deadline.

There is very little time to act, to form groups in each ward, to choose candidates, and to work up support for them.

Rail Strikers Back to Work

The Army's "work or be fired" deadline arrived Saturday but striking switchmen already were back on the job.

Some industry still was feeling the pinch of strike-caused shortages. Rail spokesmen said it would take from two to three weeks to clear the backlog of freight.

The waning "sick call" strike collapsed Thursday when the Army announced switchmen who failed to report by 4 o'clock Saturday would be discharged and lose their seniority unless they could prove they were ill.

The bulk of the striking crews reported on the Thursday night shift in Chicago—most vital rail hub still affected at that time—and by Friday conditions were virtually normal throughout the country.

Lower Priced Mexican Meat Being Smuggled Into This Country

LAREDO, Feb. 10. (AP) — Officials report that meat smuggling from Mexico is on the increase due to the high prices brought on this side of the Rio Grande.

Two men were assessed 90-day jail sentences in federal court today after 840 pounds of beef and young goat (cabrito) were seized Sunday night in the refrigerator of a restaurant here.

Customs agents have made several seizures of meat recently. The importation of meat from Mexico has been banned due to an outbreak of the hoof and mouth livestock disease.

Army Group To Survey Airfields In Texas

WASHINGTON, Feb. 10. (AP) — Army engineers had orders today to survey airports at Laredo, Del Rio and Victoria for possible use in the defense program.

The Air Force said the action is not a commitment the fields will be used. The "lease planning reports" will show what would be needed if the AF decided to activate them.

The fields are Laughlin at Del Rio, Municipal Airport at Laredo and Foster Field at Victoria.

Two More Directors

WASHINGTON, Feb. 10. (AP)—Two more assistant deputy directors have been sworn into office in the PAD set-up.

They are C. Stibling Snodgrass, vice president of Bechtel Corp. of San Francisco, as director of PAD s foreign operations and A. P. Frame of New York, a vice president of Cities Service Company, as assistant deputy for domestic operations.

ANNOUNCEMENT

Drs. Wasson and Sims announce the moving of their offices from 2910 Avenue S, to 2811 Avenue S.

Robert F. Wasson, M. D., J .R .Sims, M. D.

No Tinny Organ Music

WASHINGTON, Feb. 10. (AP)—Pipe organ manufacturers are fretting over the new government order cutting down on the use of tin.

Members of the industry's advisory committee met yesterday with National Production Authority officials and complained that:

Tin is the basic metal used in pipe organs. There is no satisfactory alternative metal.

And if their needs are not met, they may lose highly specialized workers who have been with them [illegible]. The industry consumed 57 tons of tin in 1950, the committee said.

On Vice-President's Arm

Mrs. Edith W. McKanna of Snyder and Fluvanna is shown at the extreme right above on the arm of Vice-President Alben W. Barkley Friday night. The other two women are Mrs. Rupert Harkrider of Abilene, ranch woman, at the the extreme left, and Mrs. J. Howard Hodge, Midland club woman, on Barkley's left. The three west Texans are among seven awarded certificates as distinguished women of the Southwest at the Party of the Year in Mineral Wells. The picture was made in Barkley's suite following his address to 630 guests at the Baker Hotel.

Oilmen Mystified by Rumor Of Reduction in Well Spacing Here

You hear it everywhere — the butcher, the housewife, and men on the street corner.

"The boom will be on again in a few weeks. Well spacing will be reduced."

But oilmen of long experience do not see how it can happen.

The rumor has it that spacing will be reduced in the Scurry County fields from one well every 40 acres to one every 20 acres.

Experienced oilmen say they do not see how such a move could be profitable now.

Wells closer together would unquestionably bring up a few more barrels of oil, oilmen say, but would that increased production justify the expense of sinking more wells? And in wartime or a period of national emergency, would the steel be available to drill the wells?

C. T. McLaughlin, owner of the Diamond M ranch, heart of a vast oil activity, and an oil operator for years, said that nothing could be gained either in the recovery of more oil or in reducing the cost of that recovery.

"A reduction of well spacing is usually a stripper action," he said.

"Well spacings are reduced usually only when bottom - hole pressure drops so low that the wells spaced on each 40 acres are no longer effective in complete recovery of oil," he said.

McLaughlin and other oilmen here have said that oil companies would not find any profit in reducing the well spacing if it only meant recovery of the same amount of oil they are now getting, because of the approximately $80,000 it costs to drill and put into production each new well.

The railroad commission sets the allowables of wells in Texas, and they base the allowables on spacing, bottom hole pressure, and gas-oil ratio of the well.

Scurry County wells have been given an allowable based on those three things. Bottom hole pressure here is fairly constant with the present allowable, but if an additional well was drilled for each one now producing the bottom hole pressure would take a big drop, oilmen think.

To maintain the same bottom hole pressure we now have, the allowable of each well under 20-acre spacing would have to be cut to about one-half of the present allowable. So there would be no object in going to the expense and use of scarce materials needed in oil drilling to recover the same amount of oil that is now being recovered. That is neither logical nor economical, oilmen say.

However, there are some things that could bring about a reduction of oil well spacing here, the oil fraternity thinks, but most of those things would not be immediately effective.

Military urgency could make it necessary that a much greater amount of oil be produced, especially loss of the wealthy oil fields of Saudi Arabia. But that is speculation based on a change in the present Kremlin policy, which so far has been rather unpredicatble either before or behind the Iron Curtain.

A drop in bottom hole pressure could make the flow of oil so slow that it was not economical to continue production on that spacing. That too is speculation on the distant indication of a dangerous drop in bottom hole pressure here.

An increase of the ratio of natural gas to oil recovered could bring about a decrease in well spacing here, but that too has been rather constant —remaining about 1,000 to 1,200 cubic feet of gas to each barrel of oil recovered here since the opening of the field.

Liquid Fuel in Short Supply Due to Strike

WASHINGTON, Feb. 10. (AP)—Spot shortages of liquid petroleum gas and other oil fuels have appeared in some parts of the country because of interruption of railroad service and severe winter weather.

Bruce K. Brown, deputy director of the Petroleum Administration for Defense, has telegraphed governors of Michigan, Illinois, Indiana and Wisconsin a request that they take steps to permit tank trucks to operate over their highways with full loads, regardless of state weight limits, during the fuel emergency.

And distributors and cooperatives have been requested to load and unload tank cars 24 hours a day, seven days a week at least until normal rail service is restored and probably for the rest of the winter.

This is designed to make more use of the available tank cars.

PAD also has reported some slight fuel oil shortages in northern Georgia, at Canton, Ohio, and at some points in the northeastern part of the country.

Use of tank cars for heavy movements of components for synthetic rubber and aviation gasoline probably has added to the fuels pinch.

Start Wildcat Near Floydada

Drilling is to be started by March 1 on a wildcat in Northeast Floyd County which may drill to 9,800 feet to explore the Ellenburger.

The prospector will be Houston Oil Co. of Texas No. 1 John S. Lackey, and will be located one mile north and one mile west of Cedar Hill.

The drillsite is 330 feet from south and 990 feet from east lines of section 11, block D-2, GC&SF survey. That makes it 12 miles north and one mile east of Lockney and 10 miles north and five miles east of Floydada.

The exploration is to be on a checkerboard spread of 3,133 acres of leases which Houston Oil has secured from P. N. Wiggins and associates of Dallas. Those leases were obtained for an unreported cash consideration plus the assumption of an obligation to drill the wildcat development.

The contract calls for Houston Oil to drill the wildcat to at least 8,000 feet, regardless of what show of production may be encountered above that point.

The 8,000-foot objective is calculated to allow a test of the Pennsylvanian lime. Should it fail to produce above 8,000 feet, the exploration is due to go to at least 9,800 feet unless it gets a test of the Ellenburger before penetrating to that depth.

Application Filed To Drill 2 Wells In Upton

Sharpless Oil Corp. has filed Commission of Texas to drill two 13,250-foot tests in the Pegasus field of Northwest Upton County.

Sharples No. 2-E-37 TXL is located 660 feet out of the southwest corner of the northeast quarter of section 47, block 41, T-4-S, T&P survey. It is an east offset to Magnolia Petroleum Co. No. 1-E TXL, a producer on the west side of the field.

Location for Sharples No. 3-E-43 TXL is 660 feet out of the southeast corner of the northeast quarter of section 43, block 40, T-4-S, T&P survey. It is a south offset to Sharples No. 2-E-43 TXL a producer in the south part of the pool.

Six From Snyder Are Called For Induction By Sweetwater Board

Six men from Snyder were among the 30 inducted into the Army by the three - county Selective Service Board in Sweetwater Friday. Four men each from Roby and Rotan, three each from Sweetwater and Hermleigh and one each from Fluvanna and Ira were also included.

Snyder men inducted were Luther Ray Smith, Alfred Burley Smith Harold Jonce Buchanan, Joe Clifton Waters, Gilbert Louis Wolf and Anthony Seva Jarana. Other Scurry County men inducted were Charlie Edwin Eckert of Fluvanna George Ocie Polnack, Kenneth Wayne Dacus and LeRoy Hull of Hermleigh and Ira Eugen Maupin of Ira.

Snyder and Rotan carried the burden of 52 men sent for physical examinations last week. Sixteen men were called from Snyder and 10 from Rotan, Sweetwater sent seven, Roscoe six, Hermleigh three and Blackwell and McCaulley two each.

Hearing Is Set On Tidelands Issue

WASHINGTON, Feb. 10. (AP)—The Senate Interior Committee is going to hold a hearing Feb. 19 on legislation for interim control of lands beneath the marginal seas.

Chairman O'Mahoney (D-Wyo) said the measure would give the Secretary of Interior temporary supervision of the oil-rich so-called tidelands pending final settlement of the state-federal controversy over their ownership.

He said Justice and Interior Departments have already approved the legislation providing for federal superivison of oil and gas development of the submerged lands until the courts or congress finally determine the issue.

Stake Midland Location

Seaboard Oil Co. of Delaware has staked location for its No. 1-6 L. C. Jones one location north of production on the north side of the Germania - Spraberry field of Northeast Midland County.

Location was made 660 feet from south and east lines of section 6, block 36, T-2-S, T&P survey. It will be drilled with rotary tool to a possible 7,500-foot bottom.

Borden County Wildcat Staked

Location has been staked for an 8,000-foot wildcat in the southeast corner of Borden County by Rowan Oil Co. of Fort Worth.

It is No. 1 C. H. Garner, and is located 660 feet from south and east lines of section 80, block 20 Lavaca Navigation Co. survey.

Drillsite is two and one quarter miles southeast of the Reinecke-Canyon reef lime field and one and one quarter miles north of the one-well Gartner - Mississippian pool of Northeast Howard County.

It is also one mile southwest of Magnolia Petroleum Co. No. 1 Conrad, an 8,541-foot Ellenburger failure in Borden.

Martin Discovery Flows During Test

Gulf Oil Corp. No. 1-E-B. Glass, Southwest Martin County discovery from the Spraberry sand flowed 87 barrels of oil and two barrels of basic sediment and drilling water in 24 hours through a 5-16th inch tubing choke from pay at 8,720-80 feet, and is still flowing, to test, clean out and complete.

Gas-oil ratio during the latest testing reported was 774-1.

Location is 1,980 feet from north and east lines of section 13, block 39, T&P survey, T-1-N. It is 12 miles north of Midland and 18 miles west of Stanton.

Gulf No. 2-E-B Glass, one half of a mile north and one eighth of a mile east of the same concern's No. 1-E-B Glass, and 662 feet from south and 670 feet from east lines of section 12, block 39, T&P survey, T-1-N, which had indicated a flowing discovery from the Pennsylvanian lime from the section at 10,412-521 feet, is now bottomed at 10,582 feet in lime and is conditioning the hole to set and cement 7⅝th inch intermediate casing.

After that is done the prospector will make more hole. It was started out to go to 13,000 feet to explore the Ellenburger.

Indicate Upton Well As Discovery In Test

Ted Weiner et al No. 1-17 Walter Braden, Spraberry wildcat in Northeast Upton County and about 29 miles north and a little east of Rankin, indicated as a Spraberry discovery on a four and one-half-at 7,091-7,080 feet.

The test was taken in the sand at 7,0917,180 feet.

Gas was shoved to the surface one and one-half hours. Recovery was 480 feet of pipe line oil, and no water.

Open hole section from 7,000 to 7,180 feet was to receive a Hydrafrac treatment.

The No. 1-17 Braden topped the Spraberry at 6,980 feet, minus datum point of 4,265 feet, or 124 feet high to Weiner's No. 1-16 Driver and 264 feet high to Humble Oil & Refining Co. No. 1 Midkiff.

The latter two wells are recently completed Spraberry discoveries in Southeast Midland County.

The No. 1-17 Braden has had southeast of the No. 1 Midkiff and eight and one-half miles south of Weiner's No. 1-16 Driver.

The No. 117 Braden has had saturated section, by intervals, from 6,985 to 7,180 feet.

Drillsite is at the center of the southeast quarter of the southeast quarter of section 17, block 37 T-5-S, T&P.

Good Field Extender Completed In Borden

The Texas Co. has completed its No. 1 A. M. Clayton as a one location northeast extender to the proven limits of the Good field in Southeast Borden County.

The well produced 786 barrels of 40.1 gravity oil, flowing through a one-half inch tubing choke, during 24 hours of testing on the official potential test.

Shakeout was two - tenths of one per cent basic sediment. There was no water. Gas - oil ratio was 974-1. The production was natural and it came from perforated section at 8,175-8,215 feet and from open hole at 8,230-60 feet in the Pennsylvanian lime — the regular pay in the Good field.

Casing pressure was between 1,100 pounds and 875 pounds. Flowing tubing pressure was between 1,100 pounds and 800 pounds.

The new oil well is 662 feet from south and 663 feet from west lines of section 31, block 32, T&P survey, T-4-N. That makes it 14 miles southwest of Gail.

Signs Of Oil Found In Southeast Midland

Magnolia Petroleum Co. No. 1 Sam R. Preston, Southeast Midland County wildcat which has indicated possibilities of a new discovery from the Spraberry sand in the section between the top of that formation at 7,113 feet and 7,135 feet has found more signs of petroleum.

A core was cut at 7,135-64 feet. The recovery was 29 feet of sand and shale, with the bottom five feet being sand with an oil odor.

Operator started another core at 7,164 feet. After that specimen is pulled a drillstem test may be run.

On the top of the Spraberry at 7,113 feet this prospector has a datum of minus 4,376 feet. It is located 660 feet from west and 1,980 feet from north lines of section 41, block 37, T&P survey, T-4-S. That makes it 23 miles southeast of the city of Midland.

Ellenburger Well In Lynn County Abandoned

Murray Oil Corp. No. 1 Sunray-Sohio-Ernst, wildcat in Northwest Lynn County, has been plugged and abandoned after developing water on a drillstem test of the Ellenburger from 10,944 to 11,000 feet.

The tool was open for two hours. Recovery was 270 feet of sour gas, 240 feet of mud slightly oil and gas cut and 480 feet of gas-cut salt water.

The failure is located 1,980 feet from east and north lines of section 140, block 12, TEL&RR survey, and three miles southeast of Lakeview.

The Ellenburger top has not been called officially, but it is at approximately 10,940 feet.

County Officials Prefer New System to Old Fee Procedure

This is the time of year when officials in many Texas counties start preparing their fee reports, which later make the basis for their annual pay.

Scurry County, however, abolished the fee system a couple of years ago and is now under the officers salary fund system, each official drawing a set wage.

PREFER SYSTEM

Most officers here report they like the present system much better than the fee system. A few years ago, all county officials were under the fee system, but the state legislature passed a bill in 1948 making it unlawful to pay law enforcement officers by the fee method. When this happened, the commissioners courts in many counties, including Scurry, put all officials under the system of the officers salary fund.

Court costs remain the same here as they did before, when a portion of each cost went to the sheriff's office, another portion to the judge, and another to the county attorney. For instance, the justice court costs of $13 each were divided to give the county attorney $5, the judge $4, and the sheriff's office $4. A similar method was used in county court with costs set at $23.50.

These same costs are now pooled in the officers salary fund, which also includes moneys from other sources and percentages from the county taxes collected. Under the fee system 50 cents from each of the first 1,000 sets of automobile license plates sold in each year went to the fee fund, and 40 cents from each set after 1,000 had been sold. This is still in effect, but the money goes to the salary fund.

LESS RELIABLE

Wages varied considerably under the fee system, which never paid official as sure a wage and seldom enough. The system provided that most officials—excepting the county treasurer and justices of peace— could collect $2,400 each any time during the year for their year's base pay.

Then at the end of the year, an additional $600 could be collected, provided the officer had secured enough fees to cover the collection, and if the fees in the fund were sufficient to allow it, an additional $750 could yet be collected, but this was a thing so rare it was considered a dream.

Fees going to pay officers then included those charged for recording deeds and other legal papers in the clerk's office and many other items.

Officers under the present system receive definite wages which amount to much more than under the old system, and the county has an excess amount of cash in the officers salary fund. At the first of the year, this excess amounted to several thousand dolars here.

Shell Initiates Ten-and-Over Club Members

(Special to the Daily News)

Twenty three new members were initiated into Shell Oil Co.'s Midland Area Ten-and-Over Club at the organization's fifth annual banquet held Saturday night in the Crystal Ballroom of the Hotel Scharbauer in Midland.

A total of 4,071 years of service with the company was representated by the 233 members of the club. Membership includes 225 men and 8 women employees.

C. L. Thomas, attorney, served as master of ceremonies for the evening and introduced the new members, employees with 30 years' service with the company, the club's annuitants and guests.

Bill Hiss played the accordion during the social hour preceding dinner. During the dinner hour he played the electric organ and was accompanied by Bob Baugh at the piano.

The initiation ceremony and entertainment was led by Mysterious Howard, who was introduced by the master of ceremonies as the leading Trickologist, Cardologist, and Humorologist of Houston, Texas.

New ten year members welcomed into the organization were: H. P. Burton, W. H. Spivey, A. L. Ellerd, L. C. Allen, C. W Summers, C M. Marsden, J W Rustamier, F P. May, J. C. Seibert, R. G. Patterson, A. M. Sconiers, R. E. Clark, I. W. Batchelor, C. F. Blankenhorn, H. L. Skinner, Jr., C. R. Beckett, R. B. Cravens, C. Jones, R. M. Johnson, D. D. Sullivan, W. L. Brady, E. B. Van Saun, and G L. Rowlett

Area Manager B. L. Ryan, Midland; N. Wallace, Automotive, Midland; G. L. Buland, gas, Denver City; E. L. Kimrey, production, Hobbs; L. D. Rhodes, production, Odessa; and C. B. Gray, gas, T. X.L.; were honored for having been with the Company 30 years or more as of this year

J. L. May of Austin, Davis S. Masters of Mertzon, and Lee A. Coleman of Irving, three of the Area's eight annuitants, were present and introduced. George C. Jackson of Jacksonville, Mark W. Nutter who now resides in California, J. Clingan of Abilene, F. B. Pugh of Azle, and C. T. Stern of Deming, New Mexico, were unable to attend.

This year's membership in the Ten-and-Over Club represents an increase of 15 members and 432 years of service over the total represented last year.

King Farouk, Commoner To Be Married

CAIRO, Egypt. Feb. 10. (AP) — King Farouk I will marry Narriman Sadek, beautiful 17-year old Egyptian girl, it was officially announced today.

The formal engagement announcement was made at Abdin Palace on the day before Farouk's 31st birthday. No date was set for the wedding.

The future queen celebrated her 17th birthday last Oct. 31. She graduated from the Princess Ferial High School in Cairo in May 1949.

Narriman has lived in Egypt all her life except for vacation trips to France, Italy and Switzerland. Her father, who died last year, was secretary-general of the ministry of communications.

Friends describe her as a serious girl who reads a great deal, plays the piano, and is a fine tennis player. She is about five feet one inch and has brown eyes and light brown hair. She is said to be unusually mature mentally for her years.

Narriman was engaged to a young Harvard-educated Egyptian Zaki Hachian. Then one day in 1949 the king set eyes upon her Hachian was an economist with the Egyptian delegation to the United Nations. Both he and Narriman were commoners. Their wedding had been set for Dec. 8, 1949, informed sources said.

Shortly thereafter, according to Hachian's friends, the young economist was advised his engagement to Miss Sadek had been broken.

Farouk divorced his first queen Farida, Nov. 17, 1948. Although the couple had three daughters there had been no son. In Moslem countries, where the crown descends only to males, this is an important consideration.

Stonewall Wildcat Is Started By Oxford

Oxford Drilling Co. of Albany has started its No. 1 J. W. Hines as a wildcat in Southeast Stonewall County.

It is projected to 6,500 feet with rotary tools.

Drillsite is five miles southeast of the Moutary-Moore - Swastika field and one half miles north of the Jones County line.

No. 1 Hines is 330 feet from north and east lines of section 171 block 1, BBB&C survey.

Magnolia Schedules Lynn County Wildcat

Magnolia Petroleum Co. is scheduled to drill a 6,500-foot wildcat in Southeast Lynn County, nine miles southeast of Skeen and two and one quarter miles southwest of the O'Donnell multipay field.

It is No. 1 Pearl Callaway. Location is 660 feet from north and east lines of the southeast quarter of section 6, block 10, EL&RR survey.

Rotary tools will be used to drill the test beginning in the near future.

Roy Campanella threw out 32 and 48 base runners who attempted to steal last season.

Quiz Driver Of Death Train

PERTH AMBOY, N. J., Feb. 10. (AP)—The engineer of the Pennsylvania railroad train which crashed in Woodbridge, killing 83 persons and injuring another 400 persons, said today he was looking for non-existent caution lights when the crash came.

Questioned at Perth Amboy General Hospital, Engineer Joseph H. Fitzsimmons admitted he knew the railroad customarily had no yellow caution lights at places similar to the temporary trestle where the accident occurred.

After John E. Boswell, president of the New Jeresy Public Utility Commission, read a Pennsylvania railroad rule book calling for such a caution light in an area covered by a slow order, the drawn, unshaven engineer exclaimed

"Yes, that's the light I was looking for."

He told Boswell, Interstate Commerce Commissioner William J Patterson and other probers of the nation's worst rail wreck in 32 years that he had reduced speed on the North Jersey Shore commuter train before it hit the trestle in nearby Woodbridge.

Fitzsimmons said the sharp reduction of speed cut the rate at the moment of the crash — when the engine and several cars had cleared the trestle — to about 25 miles an hour.

He told authorities the day after the crash that he knew of a railroad order restricting speed to 25 miles per hour in the area but that he was going 50 over the trestle.

Taft Thinks Truman Not Power Worthy

WASHINGTON, Feb. 10. (AP)—The "great debate" raged on tonight as:

1. Sen. Taft called President Truman too "reckless" to be entrusted with uncurbed powers to send U. S. troops to Europe.

2. Administration men struck out at Herbert Hoover's air-sea defense plan. Sen. Connally of Texas, administration foreign policy leader in the Senate, said the Hoover plan would leave Europe at the mercy of Communist conquest.

HITS AT TRUMAN

Taft, in a speech prepared for delivery at Chicago, hammered anew at the theme that Congress must determine the policy on sending American forces to bulwark the continent against Russia.

The Ohio Republican recalled that Mr. Truman had:

Dared Congress to cut his budget; called rail union leaders "Russians;" and denounced the senatorial report criticizing the RFC. Taft also said the President had shown "lack of judgment" in his letters.

"Yet," the senator said, "we are asked to surrender to this man complete power to make snap judgments on the commitment of millions of American boys to war in foreign lands."

BACKS HOOVER

Taft told reporters he agrees with "practically everything" in ex-President Hoover's foreign policy speech last night. Mr. Hoover warned that a land war with Russia might bring "loss of civilization." He urged that the United States concentrate on sea and air power to help defend Europe.

Connally opened fire on the Hoover views here. Saying the former President apparently does not want to send any American troops to bolster western Europe's defenses, he added:

"If they are attacked, it will be over before we can get Mr. Hoover over there or the Army over there."

Brotherhood President Named to Assist Eric Johnston, Stabilizer

WASHINGTON, Feb. 10. (AP)—Economic Stabilizer Eric Johnston announced today he has appointed George M. Harrison, president of the AFL Brotherhood of Railway Clerks, as his special assistant.

A spokesman for Johnston said Harrison will be Johnston's principal lieutenant in the Economic Stabilization Agency. He will have the same status under Johnston that Gen. Lucius Clay and Sidney J. Weinberg have under Defense Mobilizer Charles E. Wilson.

Ever since the Korean war began last June, labor unions have been demanding a more important voice in the government's economic mobilization drive.

"Mr. Johnston has felt all along that labor ought to have this voice in stabilization," the spokesman said. He feels that a responsible leader of labor is needed in the program to fight inflation.

Dawson County Wildcat Makes Salt Water

Amerada Petroleum Corp. No. 1 Adcock, Central - North Dawson County wildcat, four miles northeast of Hindman, and 1,530 feet from west and 467 feet from south lines of section 186, block 34, D&SE survey, T-7-N, made salt water in the Spraberry lime and sand in the interval at 7,426-7,525 feet.

The tool was open three hours and 45 minutes. Recovery was 270 feet of drilling mud, 180 feet of salt water cut mud and 685 feet of salt water.

The prospector has now penetrated to 7,634 feet in the Spraberry and is taking a drillstem test.

This exploration entered the Spraberry at 6,720 feet, on an elevation of 3,002 feet. It has not found any possibilities of production down to the current bottom.

It was started out to go to 10,500 feet to explore the Pennsylvanian lime and it will continue to that objective unless it makes an oil well before getting there.

Another Record Made By Rising Food Costs

NEW YORK, Feb. 10. (AP)—After climbing steadily for 16 weeks in a row; the Associated Press Wholesale Commodity Index eased a shade this week.

At 214.30, this index of 35 important wholesale commodity prices compared with 214.77 last week end and with 161.07 a year ago. The base year of 1926 equals 100.

The only commodity group to post a decline was industrials which eased to 204.41 from 207.17. This largely reflected a drop in scrap steel prices which were rolled back effective Feb. 7.

Greek Official Dies

GAINESVILLE, Fla., Feb. 10. (AP)—Louis Edgar Browne, 59, who for many years was internationally known in military circles as commander of the Greek navy, died day. He had been ill for sometime.

New Pen Records Set At Hereford Auction

RED BLUFF, Calif., Feb. 10. (AP)—Cattlemen said they believed a new world record price for a pen of five Hereford bulls was set today as they sold for $6,900.

The pen, consigned to the 10th annual Red Bluff bull sale by the Double M Ranch of Adams, Ore., was bought by Donald Nickelsen of Fossil, Ore.

Spraberry Prospector

Two locations north of production on the east side of the Tex-Harvey field of Midland County, A. N. Hendrickson of Midland will drill his No. 1 Boone - Perkins as an 8,000-foot Spraberry prospector.

Drillsite is 663.1 feet from north and 668.3 feet from east lines of section 12, block 37, T-3-S, T&P survey and 20 miles southeast of the City of Midland.

Ten American League pitchers hurled 20 or more home run balls during the 1950 campaign.

THE SNYDER DAILY NEWS

VOL. 1—No 234 SNYDER, TEXAS, SUNDAY, FEBRUARY 11, 1951 SECTION TWO

Miss Dewey Fay Everett And Mr. Ralph N. Miller United In Double-Ring Rites

Mrs. Ralph Miller, the former Miss Dewey Fay Everett before her marriage last night.

Couple To Live On Borden County Ranch Following Wedding Trip To California

Miss Dewey Fay Everett, the daughter of Mr. and Mrs. Dewey Everett, who live west of Snyder, became the bride last night of Ralph N. Miller, in a candlelight ceremony at the First Baptist Church. Mr. Miller is the son of Mr. and Mrs. Clyde Miller, who live in Borden County.

The Rev. E. K. Shepherd, pastor of the First Baptist Church, officiated at the large church ceremony, which was performed in double ring rites, the couple standing beneath a pillared arch of palms and candelabra.

Mrs. Roy Stokes was at the organ to play the traditional wedding music, and Miss Olive Ann Sumlin gave several vocal numbers.

The bride was accompanied by Mrs. Excel Smith, of Trinidad, Colo., her matron of honor, and eight attendants, Miss Johnnie Dell Brock, Miss Durelle Stokes, Miss Mary Edith Scarborough, Mrs. Dub Everett, Miss Jean Everett, Mrs. Eldon Perry, Mrs. Weldon Perry, and Mrs. Riley Miller.

Mr. Miller's best man was Excel Smith of Trinidad, Colo. His ushers were Dub Everett, Jesse Everett, D. M. Cogdell, Jr., Weldon Perry, and Eldon Perry, and his groomsmen, Dick Miller and Dave Andrews of Lincoln, Neb.

Mrs. Miller, who entered on the arm of her father, chose a gown of light ivory Duchess satin accented with matching Chantilly lace which formed the bodice. The bodice detail was a high, round neckline with appliqued lace, repeated again on the long, tapering sleeves. The full satin skirt was complimented by a panel of lace down the center front, forming a fan-shaped Cathedral length train. Her veil was of net trimmed in Chantilly lace, her bridal bouquet gardenias.

Mrs. Smith and the attendants were identically attired in gowns of flame blue nylon tulle and taffeta. Each gown, with a strapless bodice of taffeta, was softly shirred with a tulle stole covering the shoulders to give a decollete effect. Extremely full gathered skirts of tulle extended to the floor. Each attendant carried a huge bouquet of deep pink gladioli.

The flower girls were Jo Beth Smith, the daughter of the best man from Trinidad, Colo., and Ginger Peveto, a young cousin of the bride from Lubbock. Another cousin of the bride, Jimmy Don Everett, was ring bearer. Flower girls were in all-white ruffled taffeta frocks with heart shaped bonnets of net and satin, demurely tied with velvet strings.

Both Mr. and Mrs. Miller are natives of this area, both from ranch homes. Mrs. Miller graduated from Snyder High School, attending Texas Tech a brief time. Mr. Miller is a graduate of Lamesa High School.

Following the impressive rites, Mr. and Mrs. Everett honored the couple with a large reception in their ranch home. Mrs. Everett's dining table was covered in red lace, a clever centerpiece of white hearts adding a romantic air. Miss Dorothy Waldrep presided at the wedding cake, which was three tiered and white. Mrs. Jesse Everett presiding at the guest book.

After the reception, the couple left for California on a wedding trip. Mrs. Miller's traveling costume was a pink wool, two-piece suit with navy accessories.

Mr. and Mrs. Miller plan to live at the Miller Ranch in Borden County.

Book Is Reviewed At Cosmorama Club

"The Healer", a Biblical novel by Margaret E. Sangster, was reviewed by Mrs. O. M. Fowler at the meeting of Cosmorama Study Club Wednesday.

Mrs. W. J. Bryant, Jr., 3750 Highland Drive, entertained the group. Girl Scout Troop No. 7 served refreshments. The girls, who are sponsored by Cosmorama Club, wore their new uniforms for the occasion.

Twenty members were present: Mrs. Richard Brice, Mrs. James Rosser, Mrs. Fred Bullard, Mrs. Scott Casey, Mrs. H. F. Clark, Jr., Mrs. Bob Dupree, Mrs. Jesse Everett, Mrs. Sam Joyce, Mrs. R. J. Kidd, Mrs. Weldon Kincaid, Mrs. J. R. Meadows, Mrs. E. J. Richardson, Jr, Mrs. Renal Rosson, Mrs Max West, Mrs. C. V. Thompson, Jr., Mrs. Lee Smyth, Mrs. J. H. Boren, and Mrs. Lyman Yoder.

The group will meet with Mrs. Max West next.

Teen Talk

By Shirley Teague

The main event of high school this week was the selection of class favorites. They were chosen as follows: Senior—Ann Richardson, Jerry Allen; Junior—Marlene Nixon, Bill Harris; Sophomore — Martha Cary, Lynn Jordon; Freshman—Gwen Swan, Jackie Grimmit.

* * *

Some of the comments varied after returning from the Fat Stock Show in Fort Worth. Sandra Blackard: "I enjoy it more each year. The hospitality of each town we visited was wonderful". Jane Houston: "I especially liked the rodeo". Lynn Jordon: "Pretty good." Madolyn Crow: "A lot of fun". Roland Barton: "They had the best rodeo I have ever seen." John Jarrell: "It was a lot of fun and I certainly think the trip was worth the time and energy." Junior Weathers, blowing cigar smoke rings: "As a whole it was rather exciting." Mr. T. D. Wiman: "I thought we were well received by everyone. The group was always on time and were very nice. There was nothing wrong with the trip."

* * *

The Seniors ordered their graduation invitations this week. The invitations should arrive in a few weeks.

* * *

The Press Club met Wednesday. Miss Gilmore, the sponsor, gave several points on writing stories. The Valentine party was called off and it was decided to have a Spring Festival, which will be given in March.

* * *

The Dramatics club, under the direction of Mrs. O. B. Jordon, also met on the same day. A variety program was planned and discussed.

* * *

Shirley Miller entertained a group of high school girls in the home of Lou Miller Wednesday. The girls talked and planned a party which will be given in March.

* * *

Many teen-agers attended the basketball game in the Snyder gym Tuesday evening. Snyder and Roby played, and Snyder won 44-20.

* * *

An assembly program was given in high school Friday morning. The presentation of a FFA jacket was presented to the sweetheart, Dorlene Taylor, by Junior Weathers. The Student Council presented the first part of the program. The Star - Spangled Banner was led by Kay Weber, and Patsy Pogue led the student body in the alligance to the flag. A talk was made by Mr. M. E. Stanfield on the organization of the Student Council. The main part of the program was the installation af the officers and members of the Student Council by Mr. Wiman.

They were installed as follows: Grant Teaff as president; Ann Richardson as vice - president; Barbara Lewis as secretary; and Ellis Huddleston as treasurer. The members and the student body also took a pledge. Special mumbers were presented by the brass division of the band and by the choral club, accompanied by Mrs. M. M. O'Rear.

The charter to the Student Council was presented by Mr. Wiman and it was accepted by Grant Teaff. The program closed with the school song.

* * *

The entire high school listened to the program of prayer for peace to our nation over the loud speaker at two p.m. Friday afternoon.

Contest Features Beans This Week

If your husband and children rave about the pinto bean dish you serve with piping hot corn bread, or maybe cold, thick onion slices, or fancied up with meat chunks, or any way the bunch like it . . . better mail in the recipe.

A $20 grocery order will be the first prize awarded Sunday for best recipe. Mrs. Mildred Sparks and the staff of the County Home Demonstration Agent's office will judge. Other prizes, $15, $10 and $5 grocery orders will be given by several local grocery stores. There will be various runners-up also.

Simply mail your recipe at once to Recipe Contest Editor, Daily New, Snyder. Or bring it in.

Early mailing of recipes is urged by the judges.

One early arrival sounds interesting:

Baked Red Beans

Ingredients:

4 cups red beans
water
½ cup molasses
1½ tablespoons salt
½ teaspoon day mustard
¼ teaspoon black pepper
2 tablespoons chopped onion
Bacon, frankfurter, or luncheon meat.

Soak beans 12 hours or overnight in cold water. Simmer in same water until beans are tender. Drain. Save water and mix with molasses, salt mustard, pepper, and chopped onion. Place beans in pot or casserole. Pour liquid over beans. Arrange bacon strips, franks, or lunch meat over beans. Bake in slow oven (300 degrees F.) from 1 to 1½ hours.

Band Leader Was Visitor

Horace Heidt discusses with Mrs. Ed Stout the trials and pleasures of meeting schedules for his nationally known television show and personal appearances. Mr. Heidt spent two days here last week visiting in the home of his friends and family, Mr. and Mrs. John Spears, 2212 Thirtieth Street.—(Joe Dave Scott photograph.)

Notables To Gather Here For Chamber Of Commerce Dinner

One of several guests who will come here for the Chamber of Commerce round-up—Mrs. Mabelie Kennedy, Democratic committeewoman from Pawhuska, Okla.

Replies are being received from several distinguished out-of-town guests who have been invited to the annual Chamber of Commerce round-up here March 2.

Among them are Jesse James, state treasurer, who will introduce the principal speaker, Mrs. Georgia Neese Clark, and Mrs. Maybelle Kennedy, Democratic committeewoman from Oklahoma who will travel here with Mrs. Clark.

Mrs. Clark, first woman treasurer of the United States, is scheduled to make the principal address at the affair, to be held in the high school gymnasium.

Traveling with her will be her friend, Mrs. Kennedy, Democratic national committeewoman from Pawhuska, Okla., who recently was appointed by President Truman as the only woman member of an official United States delegation to represent this country at the inauguration of Gen. Getulio Vargas as president of Brazil.

Mrs. Kennedy was recommended for the place by India Edwards, head of the women's division of the national committee.

The group flew to Rio de Janeiro last month aboard the presidential plane, the Independence.

A widow, Mrs. Kennedy operates a bank and a ranch in Pawhuska. While here, Mrs. Kennedy and Mrs. Clark will be guests of Mr. and Mrs. C. T. McLaughlin at the Diamond M ranch.

Jesse James, state treasurer, who will introduce Mrs. Clark, was born in Milam County, Texas, in 1904.

A graduate of Jefferson Law School, he has a degree in business administration as well. He was elected to the Texas Legislature in 1933, and after serving three terms in the house, was appointed assistant treasurer.

In 1941 he was appointed state treasurer to suceed Charley Lockhard, who resigned, and in November, 1942, he was elected to serve his first full two - year term. He is a Democrat, a Presbyterian, Mason, Knight of Pythias, and Shriner.

He is married to the former Zana Bell, and the couple has one child.

In addition to the speakers at the banquet, numerous other out-of-town guests will be presented by McLaughlin, who will be master of ceremonies.

James Rosser, incoming president, will be installed at the dinner.

Who's New

Newcomers to Snyder from Olney, Tex., are Mr. and Mrs. J. W. Pigg and family, 3312½ Avenue K. Mr. Pigg is employed by the Frankwood Association Co. in oil field work, and was engaged in farming before accepting his present position.

Mr. and Mrs. Pigg have two children, Sandra Pigg, 12, and Gary Pigg, nine. Both children are now here with them attending school.

Unlike many other newcomers to Snyder, Mr. and Mrs. Pigg were not accustomed to moving. They had made their home in Olney for several years, and Mrs. Pigg admitted she misses their friends there, as do the other members of the family.

They are members of the Baptist Church.

Woman's Calendar

MONDAY

Crusaders Sunday School class 7:30 p.m., a party at Fellowship Hall, First Methodist Church.

TUESDAY

Dad's night, Southeast Primary Parent - Teacher Association, 7:30 p.m.

Newcomers Plan Tea For March 9

A musical program was heard by members and guests at the Newcomers Club luncheon at the Longhorn Cafe Friday afternoon.

Appearing on the program were Jimmie Bennett, Rae Lashaway, Joe Love, Juanita Tibbets, Nancy Allen, Joyce Allen, Gene Halvorsen and Mrs. Marie Groom. The students were from the West Texas Music Studios, directed by Mrs. Groom and Mr. Halvorsen.

Mrs. V. A. Knight, president, directed the business meeting at which time plans for a tea in March were made. The tea will be held at the next regular meeting date, March 9, and will be for all newcomers as well as club members. Members of the Cosmorama Club will be guests of honor.

About 20 persons attended the luncheon.

Duce Bridge Club in Home Of Mrs. Smith

Mrs. Dell Smith was hostess to members of the Duce Bridge Club at her home, 3108 Avenue T, Thursday.

Members of the club present were Mrs. Roland Bell, Jr., Mrs. R. M. Phillips, Mrs. Armor McFarland, Mrs. C. W. Popnoe, Mrs R. E. Patterson, Mrs Marcel Josephson, Mrs. Weldon Kincaid, Mrs. Ed Pheland, Mrs. Tom Ezell, Mrs. Hallie Benton, Mrs. V. K. Ratliff, Mrs. Mabel Brock, Miss Polly Harpole, Miss Katherine Northcutt and Miss Vera Periman.

Mrs. Hoyt McMinn of Carlsbad, N.M., was a guest at the meeting.

The next meeting of the club is to be held Feb. 22.

Mrs. Floyd Burnett, Jr., and Mrs. Robert F. Wasson spent Friday in Big Springs shopping.

TALK OF THE TOWN

By FRANCES BIOW

This embroidered organdie flounce makes a charming party dress, easy to make with the aid of modern standard patterns. The border design of the American fabric is a boon to home sewers. This petite frock is McCalls' Pattern 8200 and 7878.

There's something about war a mill-end remnant counter here news which seems to bring out the in town she purchased material needles and the thread among the for a gabardine spring suit for ladies of the town. The women $4, including buttons and thread. who can mysteriously, click knitting utensils throughout a movie and never drop a stitch or take their eyes off the silver screen, are at it again pattern sales are booming in the stores . . . gals who never before thought of anything more practical than 3-numbered price tags on exclusive little numbers in the shops now have bought sewing machines and are turning their husband's collars.

* * *

Attribute it to Spring, the War, or anything you like, but sewing is most popular now. MRS. DILLARD POPE, 3782 Avenue V, is an excellent example of what a working girl can do for the budget if she turns a clever needle. . . Mrs. Pope, who expertly punches the teletype machine at the Daily News, is rather smug about this feat. She looked sadly at a three-piece suit ensemble, smart, but a $127 investment, and decided to try for something cheaper. From throw rugs, and most any accessory to her comfortable home originated from her sewing knack. . .

* * *

MRS. LOWELL LIGHT of Pyron is a farm woman, whose nimble fingers make of her small daughter the best-dressed tot in West Texas. Mrs. Light has discovered a gratifying hobby in sewing for the child . . . intends to follow the hobby along with the daughter as she grows older. She has her well-arranged "sewing center" in her dining room. . . A sewing center to the uninitiated might mean most anything or nothing, but to a woman who pridefully sews and likes efficiency at it, it is THE THING . . . MRS. GUY STOKER who lives at her ranch home north of town, has a "scientific" sewing center, a joy to work in. As is usual, she has chosen her dining room (when the family are through with a meal) for headquarters. Her trusty electric machine is the first item in importance, and from her seat at it she can reach, without rising, any article of equipment or accessories needed. She has cleverly arranged ample drawer space to facilitate this, which saves endless hours of running for thimble, elastic, machine oil, snaps or any of a hundred sewing musts. The dining table makes a perfect cutting surface. It's strategically located where no draft hits to disarrange the flimsy pattern papers. And of course a window is situated just where the light falls plentifully and, better still, where Mrs. Stoker can see who drives up and what's going on outside!. . . . .

* * *

MRS. HOUSTON HARTE, 3726 Dalton Drive, is one of many beginners. When the new Singer arrived, she was practically afraid of it, but large on her schedule looms the sewing school the sewing machine company furnishes those who purchase. To be a student in the regular classes in March will be an adventure, Mrs. Harte believes. Both morning and afternoon classes are offered, headquarters are Colorado City, with expert seamstresses instructing.

* * *

MRS CHARLES EGNER, 405 Thirty-first Street, whose husband drives out early in the morning to the Lion Oil Camp, spends several hours daily at her favorite pastime, operating her portable machine. . . "Now is the time for short coats and jackets", says Mrs. Egner, who sews for women who found just that brocaded material they want in a slipover jacket for spring skirts. . . . MRS. FRED BULLARD, southwest of the city, doesn't stop at clothes for the family — the draperies, slipcovers,

Gift Shower Given For Mrs. Underwood

Mrs. Billy Mack Underwood, the former Miss Rose Nell Holladay, was honored with a bridal gift tea in the home of Mrs. Marcus Underwood, 1307 Seventeenth Street, Wednesday afternoon.

Hostesses assisting Mrs. Underwood were Mrs. Travis Rhoades and Mrs. J. T. Crouse.

A spray of red and white baby chrysanthemums decorated the serving table. Favors were small red hearts bearing the names of Mr. and Mrs. Billy Mack Underwood.

Eighty - two persons signed the guest book and sent gifts.

Mr. and Mrs. W. W. Morgan, Bootheland Addition, entertained Mr. Morgan's sister, Mrs. A. J. Way of Sweetwater one day last week.

Wallace Morgan of Bootheland Addition, is now back at his post as clerk for the B&B Food Market. He has been away several days with an attack of flu.

50 YEARS AGO

(Taken from the files of THE COMING WEST for Feb. 14, 1901)

The hearts of our people were gladdened by the recent snowfall, which began falling Friday morning and continued till Tuesday morning. There is sufficient moisture to put a good season in the ground and a moderate amount of stock water, which will be appreciated by both farmers and stockmen. The previous mild weather has unfitted us for the disagreeable, but there has been little grumbling. However, we welcomed the return of the sunshine and have gone to work with a will.

* * *

The stock men who have come in since the snow say that the stock stood it well and there was no loss anywhere.

* * *

We will take butter, eggs, milk chickens, maize, sorgum or any old thing that will do to chew on for subscriptions.

* * *

Dr. Person and W. T. Baze are engaged in an effort to have the street just south of the square opened up and graded. The banks up Deep Creek are very low on that street and the opening of the street will be quite a help to Buena Vista heights and the people living southwest in general. The opening of the street south of the square calls the attention of ye local eyes that there are a number of streets that need opening and grading.

* * *

T. L. Morris, one of Snyder's drummers came in last Friday and is spending the snow season with his family. No doubt T. L. is somewhat of a weather prophet, and knows just when to pull in for Snyder.

* * *

The Scurry County "Flyer," operated by the well known Bill Jones, and which has been making flying trips daily between Colorado City and Snyder, has absorbed the Snyder "Fast Mail," owned by Uncle Sam and E. C Woodward. The "Fast Mail" has been making schedule time between the two cities and supplying people here with a daily mail service, but will now cease operations.

The "Flyer" will carry the mail in the future and also any and all male and female passengers and continue to give the people of Snyder the daily papers 30 hours behind time.

* * *

(Taken from the files of the SCURRY COUNTY TIMES for Feb. 11, 1926)

Messrs. Baugh & Webb, the well known merchants of Snyder, are this week opening a store at Colorado, and are putting on a big sale at their Snyder store in order to reduce their big stock here.

* * *

Mrs. D. C. Howell and Mrs. Dixie Smith have purchased the J. K. Blackard two - story brick building on the north side of the square, now occupied by the hardware department of the Bryant-Link Co. We understand that the purchasers bought it as a matter of investment as it is one of the most desirable business buildings in the city.

* * *

The residence of Mr. and Mrs Cleve Patterson, which was about four miles southeast of Hermleigh was completely destroyed by fire last Thursday afternoon. There was no insurance to cover the loss.

* * *

The Times - Signal has obtained from strictly reliable sources the information that the Mid - West Exploration Co. is getting up a drilling rig on the Rogers farm southwest of Justiceburg, and that it is the intention of this company to put down one or more deep tests. With activities on all sides of Snyder and with oil and good indications the result of practically every test, it is beginning to look as if Snyder might become the center of a great oil field in the very near future.

* * *

Sam Nations has an ad in this issue announcing the opening of his produce house in the Lon McNeill building east of the Wilkirson Lumber Co. Mr. Nations invites those who have poultry to sell to see him and get his prices before selling.

* * *

Mrs. George Northcutt was hostess to the Mothers' Culture Club at her home Tuesday afternoon. The lesson was led by Mrs. Jack Harris and the following papers were given: "The Fairy and Myth as Answering a Fundamental Need," Mrs. Joe Taylor; "The Value of Fairy Tales," Mrs. J. E. Sentell; "Myths and Legends for the Little Ones," Mrs. Porter King; "What To Read," Mrs. E. J. Anderson, and "How to Develop Imagination," Mrs. J. C. Stinson.

For diversion, two pupils of Miss Elaine Rosser, little Misses Frances Stinson and Margaret Deakins very cleverly gave a fairy dance.

* * *

The members of the Victory Bible Class were entertained by their teacher, Mrs. B. W. Dodson, at her home Wednesday afternoon.

Mrs. E. F. Wicker presided at the business session, at which time Mesdames W. R. Merrill, J. P. Avery and Pat Brown were appointed as the new committee to visit the sick. Two interesting contests furnished diversion at the social hour.

Dainty refreshments were served to Mesdames W. B. Lemons E. F. Wicker, H. G. Towle, Pat Brown, J. C. Dorward, J. W. Hendryx, E. A. Birdwell, W. H. Merrill, Butch McClenton Joe Strayhorn, Joe Stinson, J. P. Avery, B. S. Gann, J. L. Martin, J. L. Waskom and Pearl Shannon of Colorado City.

Two Fires Handled By Department Friday

Two fire calls Friday that did little damage were the first ones reported this week, city firemen said.

First of Friday's calls was to a car fire at Nineteenth Street and Avenue N. The fire had been extinguished when G. L. Autry arrived with one of the city's fire trucks, he said.

The other was a grass fire about four blocks east of the Clairemont road in North Snyder Friday afternoon. Whizzer White and a number of volunteer firemen put it out before any serious damage was done.

Butler Presented Medal

HAVANA, Cuba, Feb. 10. (AP) — President Carlos Prio Socarras awarded the Order of Merit last night to Robert Butler, who recently resigned as ambassador to Cuba.

Bob Davie Addresses P.-T.A. Group Here On Citizenship Training

"Importance of Citizenship Training of your Child" was the topic Bob Davie, attorney, spoke on to the Central Elementary Parent-Teacher Association Thursday afternoon. "Set a good example for your children," he said.

Mrs. Harold Brown, president, presided during the business meeting. Mrs. Ovid Lawlis opened with prayer. Shampoo was sold to members to obtain a coffee urn.

Volunteering to help with P.-T.A. "March of Mothers" Drive for the polio fund were Mrs. Harold Brown, Mrs. Waldo Montgomery, Mrs. Lawlis, and Mrs. Elmo Crowder.

Care In Preparing Diet Urged As Excellent Health Measure

As we go into the now-hot, now-cool days of an unpredictable late winter and early spring, Snyder-style, appetities are at their best, if we feel well. Since most everybody today seems to be carrying around a load of pressure, worries, and hurried engagements, full and nutritious diets are essential to well being.

According to surveys made by Mrs. Mildred Sparks, County Home Demonstration Agent, there's a plentiful list of foods which supply the nutrients we need—oranges, grapefruit, apples and potatoes being the best and cheapest buys now in the stores and very plentiful. Next month, watch for onion buys, as storage of them from the big Fall crops from the North are abundant.

For protein in February, count heavily upon eggs, broilers, and fryers, large - sized turkeys, frozen fish fillets, fresh and frozen shrimp, as well as cottage cheese and peanut butter. Marketing specialists also report that packs of canned tuna, sardines, and mackeral were large this year.

Honey is advised for table sweetening . . . it is abundant, cheap and most nutritive.

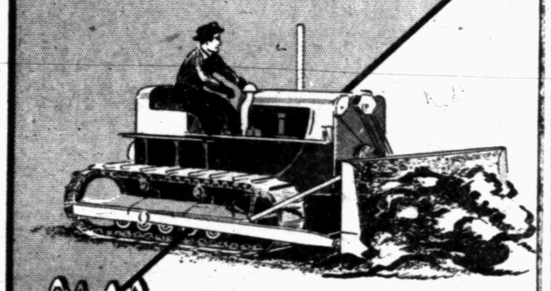

But Mrs. Sparks points out, the very best buy, outranking most all foods now is the plump and yellow sweet potato. They are rich in vitamin A which helps all ages to maintain normal vision, and a new thought, the same active vitamin keeps the skin and linings of nose, mouth, and inner organs in good condition.

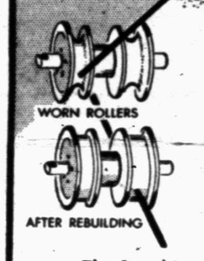

In addition sweet potatoes provide a good amount of vitamin C. One medium - sized potato, an average serving for most persons, gives at least a third of the vitamin C needed in a day. One such small potato and a cup of citrus fruit and your needs of the mighty C are taken care of for the day.

Sweet potatoes, incidentally, lose some of their vitamin content in baking, but they retain far more than most foods.

Two great facts stand out in modern social thought—the potentialities of youth and the obligation resting upon the older generation to turn these hidden powers into safe and useful channels.

In some countries youth and childhood are exploited to foster political aims and bolster the power of totalitarian dictators. Such organizations desecrate youth and add to the pain and confusion of the world.

The Boy Scouts organization exists to bless and strengthen youth itself. It seeks to develop character by inculcating the principles of truth, honesty, integrity and faith. It builds strong bodies through healthful outdoor exercises.

Religion is the safest guide in human living. Boy Scouts are taught to respect and reverence religious faith, to attend Church and put their trust in God. Scout troops seek to translate religion into practical living.

The Boy Scouts organization is a potent factor in combating juvenile delinquency. The scouts are taught to be true to God and their country, to keep themselves morally clean and physically strong. What more could a parent ask for his boy?

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Training Session at Demonstration Agent's Office

Officers of several of the county's home demonstration clubs are shown here as they met for officer training recently in the office of the county home demonstration agent in the courthouse. Left to right, they are Mrs. Mildred Sparks, county agent; Miss Bonnie Cox, extension organization specialist from Texas A&M College; Miss Thelma Casey of San Angelo, district agent; Mrs. Clifford Barrow, Fluvanna; Mrs. Ernest Schattel, Pyron; Mrs. Dale Hess, Pyron; Mrs. Doyle Pogue, Plainview community; and Mrs. Jim Moss, 3749 Avenue V. Others attending the meeting but not shown here were Mrs. Ben Henderson, Mrs. Frank Nachlinger, and Mrs. Minnie Lee Williams, all of Hermleigh; Mrs. J. L. Light, Pyron; Mrs. J. W. Green and Mrs. A. K. Murphy, both of the Plainview community; Mrs. Guy Stoker, Mrs. Guy Glenn, and Mrs. George Webb, of the Tri-Community area; and Mrs. Lynn Fox and Mrs. J. E. Lewis, both of Dunn.

Skipped Row Planting Yields More Cotton Than Solid Field

By planting field peas in with the "money" crop in a system that rotates peas to all the land once each three years, J. L. Denson, Dunn farmer, has averaged high yields on his feed crops, and more than one-half bale per acre on his cotton for the past 15 years. Denson, Right, is explaining the peas to Harry Henkhaus, center, and Wilson Bright, members of the soil conservation service here. (Staff photograph).

Systematic crop rotation has been so dependably satisfactory for one Dunn farmer that the only way he can make less than half a bale an acre is for nature to intervene.

Last year too much rain brought his yield below half a bale an acre, but it was the first time in 15 years that J. L. Denson had harvested so little.

Denson rotates grains (sorghum) with cotton and field peas. But his system is more than rotation, because he always plants four rows of the "money" crop and two rows of peas in fields where he has grains.

On cotton lands in the past he has planted four rows of cotton and left two rows idle, but next year he is going to try planting peas on those two rows.

Here is what Denson thinks the planting of field peas has done for his land.

"I have followed this rotation the past 15 years, and I have never made less than one-half bale of cotton per care," he said.

"My crops never suffer from drouths, the peas put nitrogen in the soil, and it seems always to stay moist right up to the top of the ground," he said.

PROVED RECENTLY

That statement was proved recently. Samples of the top soil in his fields would stick together because of the dampness. Those samples were tried by Harry Henkhaus, and Wilson Bright, soil conservationists with the soil conservation service here.

DRY SOIL

Samples of similar sandy soils taken in other fields of the county where such rotation and peas had not been used proved to be dusty dry because of the long drought.

On land where Denson had goose neck maize on four rows and field peas on two rows last year, he gathered about one ton of head maize per acre which threshed out about 1,600 pounds per acre, he said.

But that was not the total payoff, he said. The peas made healthy vines and a big crop of peas —which was two-way profit— to Denson. They furnished excellent grazing for his cattle, and they kept his soil from blowing during the dry, windy winter we are having.

That was the top crop from the peas. Nodules of nitrogen on the roots of the peas helped replenish the lands.

Denson says that the field peas do not cut his yield on other crops by taking up one third of the land. They actually increase the yield of other crops.

The moral of this story is that Denson has manged to get high yields from his crop lands during many years when his neighbors were making failures.

He started the practice of planting peas back before the time of tractors.

NEW PLAN

When he first started and was using mules to pull his plows, he said that he planted two rows of the "money" crop and one row of peas, but since he has started using tractors, he plants four in the "money" crop and two in peas.

In his cotton fields he has practiced planting four rows of cotton and letting two rows stay idle. He said his cotton yield averaged higher than that of his neighbors who planted solid.

And by following that practice, he actually saved much money in cultivating costs. He could plow his cotton in the regular manner, then plow the skipped rows at a much higher rate of speed, cutting both his work time and fuel costs.

Denson says there is one more big advantage to the field peas. They are a white - face variety and highly edible for humans as well as live stock, he said.

The dried peas cook quickly and easily even in the hardest waters, he said.

Denson has decided on two new lines of good farming practices to increase his already high yields from the land. He is going to plant the two skipped rows in his cotton fields in peas, and he has had terrace lines run and terraces will soon be built on his land.

Condition Improved

John D. Dunlap, 43, of 1005 Twenty-fourth Street, was reported to be showing continuing improvement at Snyder Hospital. Dunlap sustained head and internal injuries in an automobile accident Monday afternoon, and was listed as being in critical condition when taken to the hospital.

Youth Center Drive Reports $2,051.70 As Being Raised Here

A total of $2,051.70 has been reported from the Youth Center fund drive, the Rev. Clifford Taylor chairman of the board of directors said yesterday.

The fund drive was begun during official Youth Center week, the week of Jan. 14. Representatives of civic organizations agreed to act as solicitors for the drive. Reports are not yet complete from these solicitors, Mr. Taylor said.

A goal of $10,000 has been set for the drive, in order to pay off most of the balance still due on the building. Solicitation will continue until that goal has been reached, Mr. Taylor said. It is hoped that most of the debt can be paid off in time to open the building about April 1, he added.

Exchange To Assure Correct Change Given

MEXICO CITY, Feb. 10. (AP) — The Banco de Mexico is going to open a money exchange office on the International Bridge between Brownsville, Tex., and Matamoros, Mexico, next week.

The Mexican Tourist Commission asked the bank to open the exchange. The commission said it would assure tourists receiving the official rate of 8.64 pesos to the dollar. It said some private exchange houses had been paying less because the tourist didn't know what rate he should receive.

Lead is one of the oldest of metals. Egyptians used it 5,000 years ago, and there are numerous references to it in the Old Testament.

Sifting Top Soil

Top soil in this cotton field in Scurry County has blown until the surface is left covered with pebbles and hard clods of dirt. Cotton stalks provide only moderate protection against wind, members of the soil conservation service here say. A drift of sand can be seen around the clump of grass in the center left side of the scene.—(Staff photograph.)

Wind Erosion Not Serious In The County At Present Time

Almost all of the small grain in Scurry County has been lost due to the lack of moisture.

But for the most part this crop is planted on the heavier land in the county and is not subject to blowing even without cover on the land, according to Ed Seay, work engineer, of the Upper Colorado Soil Conservation District, here.

In this county there are about 50,000 acres of the red sandy land and the deep sands in cultivation, said Seay. This year, he pointed out, about 20,000 acres were in cotton and the remainder in grain sorghums.

SOME DANGER

"There is some danger of blowing on these lands but the cotton stalks remaining on the cotton land and the sorghum stubble are furnishing enough cover to prevent any wide-spread damage so far this year," he said.

Sorghum stubble is very effective in controlling the effect of the wind if it is left standing during the critical periods or if it is plowed in such a manner as to leave the major portion of the stalks in the surface area, according to Seay.

DEEP PLOWING

"Some few acres in the deep sands have been deep-plowed to bring some of the clay sub-soil to the surface and this has been very effective in holding the soil," he said. Adding, "In some cases, however, the surface sand has been too deep and none of the clay was brought to the surface and in this case, the deep plowing was not effective, as far as wind erosion control goes."

Wind erosion conditions in the blow areas of Texas have undergone little change in the past two weeks, according to Louis P. Merrill, regional director of the U.S. Soil Conservation Service in a letter to the local office. The letter in part says:

"Moderate increases in acreages without enough plant or residue cover to prevent blowing have been balanced for the most part by reductions elsewhere in the vulnerable areas.

"In one West Texas section, 10,000 acres of grass sod have been broken out for cultivation. This land will be damaged unless owners can irrigate before strong winds blow."

DeMolays Present Sweetheart At Dance Given Friday Night

Mary Jo Harrel was the hostess to a Valentine dance given Friday night at the Snyder Country Club for the Demolays and their dates. The music was furnished by a five piece orchestra.

Some of the couples attending the dance were Sandra Blackard, Junior Weathers, Patsy Pogue, Grant Teaff, Camille Cloud, Manuel Hedges, Ramona Harless, Jay Fish, Martha Stoker, Bill Smith, and Shirley Teague, Billy Don Harris.

Some of the others attending were Ed Frank Bayouth, Bob Gram, Dee Lockheart, Gene Knight, N. J. Harrison, Jamie Bills, Jane Thomas, and the hostess.

The Demolay sponsor and his wife, Hilton and Elaine Lambert, were also present at the dance.

Shirley Teague, Demolay sweetheart was selected Friday evening and presented at the dance. The sweetheart will have the honor of attending the state conclave at Houston this year, which will be in the summer.

Proceeds Of Show Go To Girl Scouts For Building Equipment

The coffers of the Snyder Girl Scout funds have been swelled by $355.15 as a result of the benefit home-talent show staged Wednesday and Thursday nights at the High School auditorium under the auspices of the American Legion and Veterans of Foreign Wars, it was announced yesterday by Hilton Lambert, general show chairman.

The $355.15 was the net proceeds derived from the three-act comedy play, "Aunt Silly," by local talent, which, according to Lambert, was a big success.

The Legion and V.F.W. sponsored the show in order that the Girl Scouts could obtain additional funds to equip a building that is slated to be presented to the organization soon, said Lambert.

"I want to thank everyone, including the press and radio for the fine co-operation in making the show a success," he said.

Four-H Club Meets

The Fluvanna 4-H Club held a regular meeting Thursday afternoon with nine members present. A demonstration on baking donut muffins was given on the program.

Club members are to begin work on their sewing projects at the next meeting on March 1. Mrs. Mildred Sparks, home demonstration agent, will meet with them to give instructions on placing patterns for cutting.

Snyder Youth Named To English Fraternity At McMurry College

Don Bynum of Snyder has been elected a charter member of Sigma Tau Delta, a professional English fraternity, at McMurry College. Membership in the organization requires at least a sophomore rating, a B average in English and contributions to literary magazines.

Bynum is a junior, and played his third season with the McMurry Indians this year. He was all-district end for Snyder high school in 1947.

Philadelphia Phillie pitchers allowed 624 runs last season, the lowest permitted in the National League.

Man Dies Of Heart Ailment Here Friday

Funeral arrangements are being made in Iowa Park, Tex., for Billy Ried Daniel, 26, who died here about 4:45 o'clock Friday afternoon of a heart ailment.

Mr. Daniel, who had been in Snyder only a short time, was living at a trailer court on the Lamesa highway. He was employed as a bulldozer operator for a dirt construction firm.

Mr. Daniel was born Sept. 13, 1924, in Vernon. He had been making his home in Iowa Park before moving to Snyder.

Survivors include his mother, Mrs. Grace Rushing Hughes; his step father, Arch Hughes; a step brother, John Bruce Hughes, all of Iowa Park; his father, T. E. Daniel, both his grandmothers, Mrs. A. C. Daniel of O'Donnell and Mrs. Effie Rushing of Wichita Falls.

Bolger - Barnes Funeral Home prepared the body for transportation to Iowa Park.

PERSONALS

Mr. and Mrs. G. C. Spence and two daughters returned Thursday night from a four-day trip to Dallas where Mr. Spence attended a lumber estimating course at S.M.U. sponsored by the Lumber Association. Mr. Spence is manager of Forrest Builders Supply Co.

Mr. and Mrs. Sam Stokes, 901 Fourteenth Street, entertained their son and family, Mr. and Mrs. Doyle Stokes of Whiteface, Tex., last week.

Man Found Guilty Here In Liquor Violation Case In County Court

A verdict of guilty was returned yesterday in the county court jury trial of Elmer James Terry, 49, of 3020 Lamesa Highway, charged with illegal possession of liquor.

Terry was convicted of possessing 303 half-pints and 24 pints of whisky in his trailer house west of the city near the Lamesa highway and was assessed a fine of $250 plus court costs of $28.50.

Represented by Fred Chandler, Colorado City attorney, Terry claimed the trailer house belonged to Jack Fanning, 39, of 2212 Avenue S, at the time of the offense, Jan. 25. Fanning, who operated Speedy's Drive - in on Avenue S, was arrested at the same time and convicted last week by a county court jury of transporting liquor for purpose of illegal sale.

Ben Thorpe, county attorney, and his assistant, Jack Kennedy, prosecuted in both cases.

The New York Yankees have won 17 American League pennants since 1921. They were led to the top by only four different managers—Miller Huggins, Joe McCarthy, Bucky Harris and Casey Stengel.
