GUN-PLAY OF "RADIO RAFFLES" CREATES PANIC IN NEW YORK CITY LUBBOCK, LORENZO, AND SLATON DIVIDE MUSIC CONTEST

LOCAL HIGH SCHOOL ORCHESTRA WINS 1ST PLACE IN ITS CLASS

SLATON BOYS ARE BEST AMONG DAY'S FIDDLERS

POLIKOFF PLAYS VIOLINIST CALLED BACK TO REPEAT OWN COMPOSITION

Lubbock, Lorenzo, and Slaton divided honors yesterday at the music contests in the High School Auditorium which preceded the appearance last night at the Tech pavilion of Polikoff, violinist, in the third day of the annual South Plains music festival here.

The Lubbock high school orchestra took first place in the orchestra contest with Slaton a close second; Mrs. Fern Cope of Lubbock won first place in Class D, pianists, with Miss Bennie Cobb of Lubbock second; Miss Margaret Balsell and Ruth Johnson took first and second places respectively in the Class E girls violin contests. A Lorenzo entry, Miss Ilaree Kennedy, came first in the Class C violin contest, with Miss Doris Mullins of Lubbock second. Miss Katherine Alford of Slaton carried off the honors in the Class D violinists, with Miss Hazel Lynn of Lubbock second. Among the boys, Joe Brewer of Slaton came first, and Roger Eaton of Lubbock, second, on the Class C violins, and C. S. Greer of Slaton first and Tommy Cumble of Lorenzo second in the Class D violins.

Shenandoah Hero Gets Sister Ship

WASHINGTON, March 26.—Lieutenant Commander Charles E. Rosendahl, senior surviving officer of the ill-fated Shenandoah has been named commander of the Los Angeles, the remaining naval dirigible, the navy department announced Friday.

CONGRESSIONAL RECORD

HOUSE

Continued debate on legislative establishment appropriation bill. Telegrams from farmers urging farm relief legislation presented to agriculture committee.

Military affairs committee reported unanimously to the house a bill providing for a five year building program for the army air service.

Two minority reports holding that Federal Judge George W. English of Illinois should not be impeached were submitted.

SENATE

Confirmed the nomination of Thomas F. Woodlock as a member of the interstate commerce commission.

Ratified commercial treaties with Estonia and Hungary.

Claims committee reported favorably on Odde bill providing for payment of claims of producers of minerals during the war for government purposes.

Judge Elmer T. Ritchie of Alaska denied before the judiciary committee that he had been lax in conducting cases involving morals and prohibition in his district.

Immigration committee heard charges that department of justice agents in collusion with immigration agents along the border were deporting aliens to satisfy intrigues with the Calles government.

Gasoline Tank Car Sets Wreck Afire

A disastrous explosion was narrowly averted near Ypsilanti, Mich., when two freight cars sideswiped each other, and piled up over a 5,500-gallon gasoline tank car on the tracks of the Michigan Central. Thirty cars were burned, and one man, a fireman, who jumped, was hurt. Photograph shows the burning wreck.

NAB ABSCONDING MESSENGER AND GET LOOT

CHICAGO, March 26.—John Joseph Corbett, the messenger who disappeared a month ago with \$85,000 in liberty bonds belonging to J. F. Rippl & Company, Newark, N. J., was taken into custody here Friday. A search revealed a key to a safety deposit box. The box yielded \$75,500 in bonds and a bank account of \$700 more.

Congress Forms Rotary Club

WASHINGTON, March 26.—At lunch hour in the White House restaurant the old familiar songs ring out and there is good cheer. Congress is organizing a Rotary club.

FINAL CRASH OF FRENCH FINANCE LOOMS AS FRANC DIVES LOWER AND BRIAND'S CABINET TOTTERS

Court Martial For Williams on April 6

WASHINGTON, March 26.—The court martial of Colonel Alexander S. Williams on charges of intoxication brought by Brig. General Smedley Butler has been set for April 6 by Secretary of the Navy Wilbur.

KILLED HIMSELF RATHER THAN GO TO PRISON

WOLCOTT, N. Y., March 26.—Three months in the penitentiary for chicken stealing was a disgrace Bert Borden, 32, partially blind, could not face. He shot and killed himself while officers waited to take him to prison.

Polar Blimp Makes Test Flight in Italy

ROME, March 26.—Raold Amundsen Italian built dirigible in which he hopes to fly across the north pole this spring made a successful test flight Friday under handicaps of a powerful wind and heavy rain.

INVOKE OLD LAW TO SAVE BANDIT FROM NOOSE

NEW YORK, March 26.—Eleven days from the noose, Gerald Chapman through his attorneys is battling desperately for life. Counsel for the bandit, who is sentenced to hang on April 3 for the murder of a New Britain, Conn., policeman, will invoke an old common law writ known as "coram nobis."

MAN AND WOMAN IN CALIFORNIA GUN-DUEL

BAKERSFIELD, Calif., March 28.—Fighting it out with pistols under a moonlit sky, a man and a woman engaged in a desperate battle here Friday as the result of a love affair that had turned to bitterness.

Druse and French Clash; 100 Killed

BEIRUT, Syria, March 26.—Druse rebels and French cavalry clashed Friday at Kattana, southwest of Damascus. The Druse are reported to have lost 100 killed and many wounded when the cavalry attacked.

Would Give Army 2200 New Planes

WASHINGTON, March 26.—The war department aviation bill providing a five year building program and an increase in air service personnel has been reported unanimously to the house.

THE CUP THAT CHEERS—WILL IT INEBRIATE?

LONDON, March 26.—A secret Indian tea drink, which stimulates and may solve the prohibition problem in the United States, will be announced to ship news reporters by Sir Charles Higham, the tea advertiser, just before he sails on the Leviathan Tuesday for New York.

'SHOOT ON SIGHT,' IS ORDER TO 150 COPS WHO HUNT MANIAC

TWO POLICEMEN HURT BY DEMENTED BURGLAR

IS RADIO FAN OVERLOOKS VALUABLE LOOT TO GET AT SETS

NEW YORK, March 26.—Ordered to shoot on sight and investigate later, 150 policemen, all in plain clothes, patrolled Richmond Hill and Woodhaven Friday night, searching for the "radio raffles" who has thrown the section into a condition approaching panic.

Radio sets have been the robber's principal loot and many ariels were removed Friday for fear that the man would be attracted to them.

With two policemen wounded by the supposedly demented burglar, Captain of Detectives John J. Gallagher is taking no chances.

Persons walking the streets of Queens late Friday night were halted and forced to give an account of themselves.

The police believe the man is unbalanced mentally because in stealing the radio sets he has in a number of instances overlooked far more valuable loot and goods easier to carry.

"Radio raffles" in his freedom with a revolver recalled to veteran detectives the old Dutch house men, the rang of 25 years ago that made headquarters in lower Manhattan.

CHINESE PRESIDENT FLEES PEKIN AS THREE REBEL ARMIES CONVERGE ON ANCIENT CELESTIAL CAPITAL

Italian Debt Faces Delay in Senate

WASHINGTON, March 26.—Extended delay faced the pending \$2,045,000,000 Italian debt settlement in the senate Friday.

Other privileged matters must be sandwiched in during consideration of the debt settlement and chairman Smoot of the senate finance committee does not believe he can get a final vote any time soon.

The opposition will launch its attack possibly tomorrow. Senator Howell, republican, Nebraska, will be the first speaker against the agreement.

Digs Own Grave Eats Rat Poison

SAN ANTONIO, March 26.—Lying on the edge of a shallow grave he had dug for himself, George Gorrian, 56, was found writhing in agony Friday by passerby and rushed to a hospital for first-aid treatment.

The ghostly groans of Gorrian emanating from the cemetery which attracted the passerby, to what is said by police to be the most accommodating suicide plan ever discovered here.

When revived, Gorrian said that domestic troubles had driven him to the act.

He asserted that he was getting on in years and was afraid that he would put someone to trouble; so he tried to dig his own grave, became exhausted from the effort and took a dose of rat poison without finishing the excavation.

LET CONTRACT FOR SNYDER SCHOOL ADDITION

Contracts for the construction of an addition to the Snyder high school were let at the office of Peters & Haynes, architects, here yesterday.

The general contract was let to Miller & Martin of Snyder, who were represented by A. J. Martin, with a bid of \$62,125.

The plumbing and heating equipment and installation contract was awarded the New Mexico Plumbing Company of Plainview, whose bid was \$6,185, while the electrical equipment contract was awarded the Simpson Electric Company of Lubbock at \$1,575.

Work on the building is to be started at once, provision for which was made yesterday when material for features of the building was purchased by the contractors and the school board after the contracts had been awarded.

Prince Merciful to Would be Assassin

THIS STORK FLEW HIGH

BROOKLYN, N. Y., March 26.—Hearing a child crying outside her home, Mrs. Batrice Bellette investigated and found an unclothed baby girl lying in the branches of a small tree. The infant was unharmed and will live.

PEKIN, March 27. (Saturday)—Pekin's communications with the south have been severed as rival armies of General Feng Yu-Hsiang, who was defeated at Tientsin, and the armies of General Chang Tso-Lin, the Mukden war lord, draw close to possible battle in the territory adjacent to the capital.

SHANGHAI, March 27. (Saturday)—Marshal Tsiu Chi-Jui, provisional president of China has fled Peking to Tientsin, leaving north China without president or cabinet, according to a report from Peking.

FALL FOLLOWS CLOSE ON GENERAL RAIN, IS BOON TO FARMERS

TEMPERATURES DROP, BUT NO SERIOUS HARM EXPECTED

MERCURY AT 28 NOT MUCH SNOW FALL AT AMARILLO; RAIN AT SWEETWATER

Snow, falling steadily all day and well into the night, blanketed the South Plains yesterday, reaching three inches in Lubbock, or the equivalent of a little more than a half inch of rain.

Coming hard on the heels of a general rain, it added that much more to the excellent prospects of a good year for Plains farmers.

Lamesa reported an all day snow, following a heavy rain Thursday night. Plainview, Snyder, and as far as Abilene, reported heavy snow. Amarillo had a heavy rain. These were advices through the Bell Telephone office at midnight.

Although the temperatures fell to 28 here before sundown, with prospects of a greater fall during the night if the skies cleared, no great damage was feared even for the fruit trees, which are partly out, and other crops were not endangered according to observers.

DALLAS, March 26.—Weather conditions in Texas varied Friday from sunshine and clear skies in this section to snow and rain with a 30 degree temperature in the Panhandle district.

Plainview advices said that a three inch blanket of snow covered the ground there and that wheat growers were jubilant.

Floydada and Amarillo also reported snow falling and continued freezing weather with livestock warnings broadcast for that area to night.

East Texas may have frost Friday night but fair and warmer weather is in prospect for the week end.

REPAIR STORM DAMAGE IN ORANGE FIELD

ORANGE, Texas, March 26.—All available oil workers were assembled here today to replace more than a hundred oil derricks wrecked by the cyclone which swept through the Orange field Thursday causing property damage estimated at \$1,000,000.

Electric and water lines have been repaired.

Oil wells loosened by the destruction of derrick connections have been brought under control. Oil wastage resulting from several breaks was large.

NARROW ESCAPE FROM NAVASOTA BOLT

NAVASOTA, Texas, March 26.—Three persons narrowly escaped death when lightning struck the home of Lee Savage near here. The family were asleep when the bolt came down a rock chimney, killed a hen and chickens near the fireplace and dashed through the side of the house, unharmed the sleepers.

ORANGE STORM WRECKS SALESMAN'S AIRPLANE

BEAUMONT, March 26.—His plane wrecked by probably the same storm that laid waste the Orange oil field, McDowell Lyon, New Orleans flyer-salesman, tramped nine hours through the marshes to find haven in a trappers cabin Thursday.

\$1,000 Bond on Booze Charge Here

Dan F. McCombs was placed under \$1,000 bond to the grand jury yesterday afternoon after examining trial in Justice W. E. Johnson's court on a charge of possessing intoxicating liquor. McCombs was the man arrested Thursday night by Sheriff Johnson, Deputy Vernon Ford and Special Officer Bundy, who said they found 22 quarts of liquor in McCombs automobile, wrapped up in Denver newspapers.

The Weather

Carlisle Community Club Enjoys Fine Meeting

The Carlisle ladies demonstration club met at their appointed time Tuesday, March 9.
The presence of Miss Du Bose added greatly to the interest of the meeting.
Several kinds of salad and dressings were made, with talks on food values by Miss Du Bose.
There were 28 members present and we extend a cordial invitation to other ladies of the community to become members.
The meetings are held in the domestic science room at 2 o'clock the second and fourth Tuesdays of each month.

MEN'S BIBLE STUDY CLASS

First Baptist Church
The Men's Bible Study Class at the First Baptist church is now having some very interesting lessons on prophecy. In the lesson for tomorrow the teacher will take up the first eight verses of the first chapter of the Book of Revelation and seek to give their plain simple meaning. This book gives the climax of God's plan of redemption and no man can understand the Bible without knowing at least the outline of its message. No book in the Bible offers the same stimulus to proper Christian living as this book and one of the main reasons why the church is becoming cold and barren is because it is neglecting the study of this part of God's revelation to man. The book is no more difficult than other parts of the Bible to those who come to it in simple faith to believe its plain message. It is difficult only to those who are not willing to believe it and who want to substitute their own ideas for the message of the book. To those who will do his will, it is as plain as John three sixteen. If you want to know what this the greatest book in all the Bible has to say, come out and join us.—Class Reporter.

DR. BAUGH VISITS FATHER IN BROWNWOOD

Dr. W. L. Baugh is in Brownwood visiting his father, W. M. Baugh, and is expected home the first part of next week. His father has not been well for several months, but is not seriously ill at the present time.

MRS. C. M. HOLT VISITING IN ABILENE

Mrs. C. M. Holt, recording secretary of the seventh district T. F. W. C., is in Abilene visiting her parents and will remain there for several weeks. She will go from Abilene to Childress April 15 to attend the district convention.

Surprise Birthday Fete Given For T. J. Day By Sons

Mr. and Mrs. T. J. Day of Lubbock were delightfully surprised with a family reunion and fine dinner on Mr. Day's sixtieth birthday, when all of the married sons and their families came with boxes loaded with all kinds of good things including cakes, pies, baked chicken and everything usually accompanying a feast of this kind, which was truly "fit for a king."
All of the six sons were together at home for the first time in the years since they had separated. Twenty-five were present to enjoy the bounteous dinner and the music and games afterward.
The children and grand children all went to their homes late in the afternoon wishing Mr. Day many more such happy birthdays.
Those enjoying this reunion were Robert Day and family, Floydada; G. H. Day and family, Floydada; Carey Day and family, Slaton; R. V. Day and family, Lubbock; Earl Day and family, Lubbock, and S. H. Day, the youngest and the only son at home with his parents.

CAKE BAKING CONTEST ANNOUNCED BY LOCAL DEPARTMENT STORE

Barrier Brothers Department Store has devised a plan whereby some assistance can be given the home economics department of the Lubbock High School and other schools in the county and in furnishing cake baking contest which will be a closing feature of the Ninth Anniversary Sale that is now at that store.
Miss Clara Price, head of the home economics department of Lubbock High School, and Miss Hammer, county home demonstration agent, are co-operating and will assist in making the contest a success.
The cakes will be judged by a committee representing the several schools that will be represented by numbers which will eliminate any possibility of partiality being shown in any way. The best cake will be designated Barrier Brothers Birthday cake and the contestant responsible for its making will receive \$25 coat or dress selected from the large stock of the store here.
Saturday morning, April 3rd, at 10 o'clock all cakes entered in the contest will be sold at public auction at Barrier Brothers Store, and the proceeds will be given to the home economics department of the school represented by the individual contestant.

Hedda Hoyt Talks

PLAIDS

By HEDDA HOYT
(Written for the United Press)
NEW YORK, Mar. 25.—Dame Fashion has taken up the game of checkers this Spring, her last move being checks and plaids in various sizes. She jumps from tiny checked taffetas to huge plaid woolens, reminding of steamer blankets, unhesitatingly.

Plaids, in both silk and woolen materials will be outstanding among the Spring styles. Garments of every type are being made entirely in plaid or trimmed in plaid. Most prominent among the styles displayed in the Fifth Avenue windows are Spring coats of black and white plaid mixtures. On most models the plaids are rather indistinctly woven since black and white checks without shadings are apt to be blatant.

One particularly lovely coat has a black background with a single wide gray stripe used as a border. It looks as though it were made of a steamer blanket since there are four white squares placed where the gray stripes cross at the corners. This coat has a cape formed of the bordered portion with two ends of the square falling in points at the sides. The slender skirt portion of the coat is also bordered. Other models similar to this are made of navy blue and green or red plaid combinations. In some instances a self fringe forms the borders. Very soft squares of snug size are being sold in the shops for coat purposes.

Suits with plaid skirts and with plain Tuxedo jackets collared in plaid are both new and smart. Usually the skirt is pleated in front and at the sides if not all the way about. The jacket is the typical smoking jacket variety with long lapels of plaid. A few plain double-breasted coats are also shown with plaid skirts of harmonizing color.

Jumper frocks for Spring street wear come in all sorts of plaid combinations with blue being the dominant color and red, green, gold or henna forming the plaid design. Plaid scarfs are offered for those who wish to use plaid sparingly. Gypsy scarves of plaid on plain dresses are prominent. Gloves with plaid cuffs are pressed into service. Crisp taffetas with tiny checks will be popular as Spring advances.

A scientist declares that people would keep their feet in better order if the churches would institute feet washing.

THREE CENTURY OLD CONVERSATION STATUE HAS BEEN DISCOVERED

By United News.

WASHINGTON, March 26.—Just 300 years ago—March 29, the first forestry order ever promulgated on the North American continent was issued, says a statement today from the American Tree Association.

The Association is marking 1926 the Semi-Centennial of the first forestry activity by our government, as at present organized, by publishing for free distribution 300,000 Forestry Primers "in an endeavor to reach the public opinion of tomorrow." American Forest Week is April 18.

"This Order" said Charles Lathrop Pack of the American Tree Association today "shows our forefathers were forest wise. Charles W. Saunders of the Forest Committee of the House of the state of Washington and Julius H. Tuttle the librarian of the Massachusetts Historical Society made the investigation and President Coolidge has just been informed of their finding by Mrs. Saunders."

The decree with its odd spelling is being incorporated in the next edition of the Forestry Primer. The following order is found in the printed records of the Colony of New Plymouth, Vol. XII, 1620-1697-8, page 8 under the heading "Orders agreed on at several times for the general good of the Colony:

"It was decreed by the Court held on the 29 of March Anno. Do. 1926 That for the preventing of which inconveniences, as doe, and may befall the plantation by the want of timber. That no man of what condition soever sell as transport any manner of works or frames, for houses, planks, boards, shipping, shalops, boats, canoes, or what so ever may tend to the destruction of timber aforesaid; how little so ever the quantities be: without the consent, approbation & liking of the Governour & Councell."

Mrs. W. I. Cumble and son, Johnnie, are visiting at the home of her daughter, Mrs. A. C. Woods in Flynn addition. Tommie was entered in the violin contest at the South Plains music festival here yesterday.

Deputies Sheriff Mufford and Jackson, of Wichita Falls, spent yesterday in Lubbock working with Sheriff H. L. Johnston and Deputy Sheriff Vernice Ford.

Turbines are used to run a new type of locomotive developed in Sweden.

HELPS THOSE WHO HELP THEMSELVES

Topcoats Are Styled With Clever Pockets and Belts

By JULIA BOTTOMLEY

AND now the mode is directing its time and genius to the fashioning of pockets, which shall add prestige to the newer coat models. Not "useful as well as ornamental," but rather ornamental as well as useful, is the guiding thought when it comes to detailing the spring coat with pockets.
If the choice of milady's spring coat were left to the small boy, whose pride and love for "pockets" is proverbial, then the model in the picture wins. With it should, for it is a very swagger new style. This handsome sports coat is made from bold de rose colored diagonal cheviot, this fabric being a leader among novelty woollens for spring. Huge patch pockets lend a distinctive style touch. Tailored straps with huge bullet buttons find unique placement both on the sleeves and the pockets. A short strap belt is buttoned across the front, which brings up a most interesting subject, for belts vie with pockets in point of importance this season. Not particularly straight all-around belts but belts that show a unique treatment. Not only topcoats, but suits, blouses, as well as one and two-piece dresses, are in the fashion for clever ideas in belts. Sometimes the belts are cut in one piece with an added turn form, the two ends brought to the front and buckled.
Still another item of interest appears on the fashionable cloth coat, namely, the below-the-elbow puff sleeve. This idea is featured especially on straightline coats made of fine twill, for there is still a considerable interest in the unflared model. Sometimes the puff is heavily embroidered.
Fur collars of simple design finish the neckline of many a spring topcoat. It is quite the proper thing to match the fur to the color of the coat. Very handsome types of twill coats have a capelet effect, such as for instance a quaker gray fine woolen, cut narrow, topped with a matching short cape and collared with squirrel.
Belted coats in fingertip lengths are meeting with favor. The belt is placed just above the hips. (© 1926 Western Newspaper Union)

ENROLLMENT CLIMBS FOR SPRING TERM

The enrollment showed a good increase from a check-up in the Registrar's office. The total enrollment of the college is now 1028. A number of new students have not yet enrolled. A still larger number of the old students have not registered for the Spring term. They are spending the week end at home taking advantage of their early cuts. More students are expected to enroll for the first time the first of next week according to reports from the office of the president. Most of the new students are transfers from other colleges.

TECH FEATURED IN CHAMBER OF COMMERCE BULLETIN

In the March issue of the Chamber of Commerce and Board of City Development bulletin, the Tech is given as one of the main reasons why Lubbock is the metropolis of the South Plains. One entire page is devoted to the description of the college and a summary of the courses and degrees to be offered. The bulletin is a six-page issue telling of facts and figures of the City of Lubbock and Lubbock county. These bulletins being sent out in the regular advertising of the two organizations.

SPRING TERM TO BE CLIMAX OF THE SCHOOL YEAR

The Spring term will be the high point for all student activities of the school year. More work will be done on the courses and better grades will result from this action. The Spring term will also be the social term of the year. The students are forming and have formed close friendships with each other and the days of this term will aid in strengthening this friendship.

The student elections for the coming long session will be held during this term including the staff officers, the yell leader, the President of the Student Association and others. At the close of the Spring term the scholarship awards for the 1926-27 session will be given. There are several awards to be made and a number of contestants for each. One of the main awards will be made to the best all round athlete for the school year to be given by Amon G. Carter, chairman of the Board of Regents. A scholarship for the best college citizen, boy and girl also be given. The may festival and other festivals will feature in the close of the first long session of Texas Tech.

BRAVE STORM FOR GEORGE MORRIS FUNERAL

Funeral services for George W. Morris, well known local business man who died at his home here Thursday afternoon of heart failure, were conducted at the First Baptist church yesterday afternoon with Dr. E. E. White, pastor of the First Methodist church in charge.

Braving a snow and wind storm that was unusual for this season of the year, friends of the family attended the services and the high respect and love in which Mr. Morris was held was reflected in the large floral offerings.

Following services at the church a long line of cars formed a procession that bore the remains to the cemetery where despite the snowy weather, final services were conducted with members of the Masonic bodies in charge.

BLOOD AND SAND FROM EL TORO

Just a little thought for the day: A TASK

To be honest, to be kind; to earn a little and to spend a little less; to make upon the whole a family happier for his presence; to renounce when that shall be necessary, and not be embittered; to keep a few friends, but these without capitulation; above all, on the same grim condition, to keep friends with himself—here is a task for all that a man has of fortunate and delicacy.—Robert Louis Stevenson.

It sometimes behooves us, when we are in the midst of an uproar and rush, to just stop a minute or two and to think over what we are, what we are here for, and what we are doing. When we have done this, we can proceed without so much doubt as to what it is all leading to.

Classes began again yesterday. There was some talk of cutting some of them out, but there was some action of putting some others on. For instance, in one of our classes—as in the classes of some others—we were shifted over to the H. E. building.

We haven't decided just what the outcome will be; but it was mighty lots of fun braving the snow yesterday. There will be, perhaps, some fun coming along when we get to slipping upstairs to the kitchens about the time some of these Home Economics classes get to serving some nice dishes of some things to eat.

Convocation the thirtieth—Tuesday—if we're correct. And something extra special for the convocation—just you be there and listen to the concert band when they get all banded together.

We were right the other day when we said it would likely "clabber up and blink." If it hasn't already, we'll be seated.

NO SERVICES TODAY AT REVIVAL MEETINGS

There will be no services today at the three churches, where during the past week the simultaneous pre-Easter revival has been in progress, but following the Sunday school services tomorrow another week of revival will be started and it is expected to have the church buildings filled to capacity at that time as stirring messages will be delivered by the evangelists.

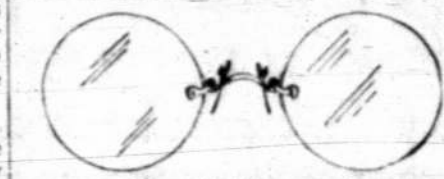

Attendance at the services at the three churches yesterday was somewhat lessened by the inclement weather, however those faithful ones who were in attendance were sincere in their reception of the messages that were ably delivered.

Mrs. N. L. Peters yesterday underwent a very serious operation at the Ellwood hospital and according to a report from Dr. V. V. Clark, who assisted Dr. Campbell in performing the operation, she was resting as well as could be expected and the operation was described as being successful without any fear of complications held.

QUARTET TO BE ACTIVE THIS TERM

The Texas Tech Quartet will be one of the most active units of the College this term. They have been at work for the past few weeks preparing new songs and numbers for their programs. They plan to make several appearances in neighboring towns during the Spring term. The first of this week they appeared in a school building dedication program at Anton and made a wonderful hit with the people of that community. The Tech booster song was the feature of the program, receiving several encores. The members of the quartet are H. P. Cooper, Horace Moore, V. Eagan and Etheridge Eagan. They are all students in the school of Liberal Arts and are doing fine work in all courses.

The Story of the BANANA

On the Plains!

It is short! As reported to us briefly: "Why, a year or so ago we never thought of paying less than 60c per dozen for bananas. Just a few months back I awoke to read the *Avalanche* and there in big black type was the M SYSTEM'S advertisement quoting Me choice bananas at 19c per dozen. A saving of 41c per dozen. We've enjoyed fresh fruits and vegetables since the M SYSTEM came to Lubbock that we could not buy or afford before you came. We want to thank you." (Name on request)

No wonder we hear such testimonials. Look what you can buy at the M SYSTEM.—Fresh cucumbers, Asparagus Tips, Leek, Hot-House Radishes, Mustard Greens, Green Beans, Red Cabbage, Fresh Parsnips, Fresh Strawberries, Etc.

"REJOICE WITH THEM THAT REJOICE"—"And Jehro rejoiced for all the goodness which Jehovah had done to Israel in that He had delivered them out of the hand of the Egyptians." Ex. 18: 9.

A NATIONAL SCANDAL

Official statistics show that there is in the United States one divorce to every seven marriages. It is growing steadily worse and in many of our States it has gone far beyond this.

THE CHAPMAN CASE

General Chapman, a convicted thief, sent to the Federal prison at Atlanta, escaped. While a fugitive he lived by theft. He committed a murder in Connecticut and was captured in Indiana, taken back for trial and convicted.

SAME EVIDENCE ACQUITS AND CONVICTS

In our weekly scrutiny of the news of the Republic we ran across the news that Frank Corey, of Worcester, Mass., had been convicted of robbing Mrs. Mae Price, of New York, a theatrical company wardrobe mistress in a hotel, and was sentenced to life imprisonment.

THE SIN OF IGNORANCE

It is extraordinary that in this twentieth century we should see a recrudescence of bigotry in this land, and that in the name of Americanism which it soils. Much, probably most, of the world's evils and sorrows are due to ignorance, to the lack of an understanding heart.

THE LEAGUE HAS TROUBLE.

The first serious difference of opinion developed at the meeting of the League of Nations last week when several nations successfully opposed the entry of Germany to the council unless other nations also secured permanent seats.

DEBT PAYMENT.

Many eminent European statesmen and financiers do not believe that debt contracts made or to be made, can have any permanence. They believe that within ten years or less the whole question of reparations and war debts will be wiped off the slate.

TEACH CHILDREN "SAFETY."

The public schools of many cities have observed a "Public Safety Week" for the purpose of emphasizing, to children, the rudiments of safety on the streets. This is a good idea.

Little Avalanches

The birth rate in New York has dropped in twelve years from 24.6 to 20.6 the thousand of population. The legislature is considering increasing the tax exemption on married people \$1,000 as a possible remedy.

In time, most of the inside information gets outside—and that seems to be as true of secret diplomacy as of back-yard gossip.

There are always plenty of clever men at hand who will not hesitate to pretend friendship with you, if they think that they can make you into a serviceable tool for forwarding their plans.

Florida's representative to the National Street and Highway Conference to be held in Washington contends that there is no reason or excuse for automobiles running more than 45 miles an hour, and proposes to seek national law forbidding the manufacture of such cars.

We knew that the world was full of associations, and that almost every conceivable subject was represented but until last night we were unaware of the "League for Fostering Genius."

New York City has only one policeman on duty at a time for every 2,800 plain-clothes citizens. Commissioner McLaughlin says they need 25,000 more.

One of the easiest ways to make a fortune, it seems, is to be a messenger boy for a New York bond house.

Our idea of wasting time is taking a newspaper poll on prohibition.

Odo Slobodskaja, Russian soprano, sings in six languages. Think of having to put up with that around the house.

Everybody who has read the Congressional Record for one day's proceedings in the past two years will please stand up.

Our idea of a sport is George Eastman, 72 year old manufacturer, en route for Africa to hunt big game, and hoping that the jungles won't be too civilized.

It ought to comfort our subscribers to learn that they can keep this great moral periodical coming regularly by paying in advance the well known subscription price.

The installment business has grown so fast that it now includes five billion dollars a year. Despite criticism installment accounts are a lot better than some charge accounts.

Christians wishing to abolish war will be interested in a recent dispatch from Madrid saying that a 30-day fast, in observance of Ramadan, will suspend hostilities in Morocco.

The young sheik, who drives his car with one hand, is a son of the old man who let Dobbin find her way home.

Hot Beds

SO THINK WE

We think the hats trimmed with ostrich feathers may be popular with the Paris milliners but we bet it not popular with the ostrich nor the American men who have to pay the price.

We think there should be more than two turkey days. It is too far from Christmas to Thanksgiving. Why not establish about two more turkey days along there somewhere say on Texas Independence and Fourth of July.

We think that if Lubbock had the canyon dammed up now it would have caught a lot of mighty good water to store up for future use.

We think it hardly probable that the canyon will ever be navigable, but it is pretty certain that there is not anything impossible about building a concrete dam across the canyon at some place near Lubbock, and creating one of the biggest lakes of water in this section of the country.

We think now if a large number of people had planted some wheat last fall they would have been in pretty good shape now to make a good crop this year. Its strange that people will take a chance every year at planting cotton, but will not take even one to try wheat.

We think that most every farmer in this country could plant wheat and corn enough to raise all the flour and corn meal that they would need. Possibly not every year, but they could certainly make enough often enough to put them over in fine shape and then some to spare.

We think it pitiful for a fellow to be paying out an automobile and paying rent on a home, and not able to furnish enough clothes for the family to go to church in, and using that for the excuse for not going to Sunday School. Such is the case we are told with some people in Lubbock.

We think there is much to wreck the confidence in men—one with the other—when men will lie to you point blank and then again something on the other side comes up and we think this old world is not so "worse" after all.

We think there should be some other offices where the wife can vindicate her husband for we feel sure many of us need vindication.

We think it is bad policy to get in a rut, no matter what you may be engaged in, but after all we believe its even better to go forward in a rut than it is to not make any progress at all.

We think Lubbock should get real busy after this snow and rain, and paint up a bit. Nice bright houses add much to the appearance of any town.

We think that nicely white-

washed trees make a great improvement in the appearance of the trees of the town. We never did believe in whitewashing anything but the trees and the back yard fence.

We think if you will rake up the trash in the alley at the back of your house, you will probably be surprised to see just how much stuff you will find there that should not be.

IT IS REPORTED

That a new gold rush has started in California. Its up to Florida now to begin something new.

That the postal inspector, who visited Lubbock recently, recommended that the post office here have more room.

That Texas and West Texas at that—has a man that measures eight feet and six inches. He is a resident of El Paso.

That the dignity of the boot-legging profession has again been insulted by the sheriffs department running in another alleged dispenser of fire water.

That 20,000,000 automobiles are used in the United States but we will bet our old typewriter that there are not 40,000,000 head lights in use.

That the Plains wheat crop is looking as good as anywhere in Texas. The only regret is that we did not have more acres.

That Lubbock is the objective for several rail roads.

That El Paso wants to be connected by rail with Lubbock.

That Roswell will make a great effort to get the Santa Fe to extend from Bledsoe to that place.

That all of the Plains section is enjoying a fine season and planting time will find the soil in excellent condition.

That a number of new candidates will sprout out for county and possibly district offices soon.

That the coal dealer who prophesied that spring weather was not yet come is now running an ad entitled "we told you so"

That the ice man was frozen out Friday.

That many radiators were given a fresh drink of alcohol Friday.

It is reported that weather prognosticators declare that spring is here. We hope they know more about it than they usually do.

It is reported that it pays some folks to drive fast—The police court.

It is reported that there is one way of having free speech and that is to say something foolish or highly obnoxious.

METHODIST CHURCH AT LITTLEFIELD DEDICATED

LITTLEFIELD, March 26—The Methodist Episcopal Church in Littlefield will be dedicated next Sunday morning, according to announcement made last Sunday evening by the pastor, Rev. H. C. Scoggins, and a program appropriate to the occasion is being prepared this week.

TEXAS

By J. MARVIN NICHOLS

- Rains—1870 Organized December 1, 1870; created June 9, 1870. Built out of Hunt, Wood, Hopkins, Van Zandt and Henderson Counties and original municipality of Nacogdoches. Emory, the county seat.

JUST FOLKS

GOLF Golf is a curious game, as all have found. Who's ever ventured out to play a round. One day the ball will hold the line for you, The next it won't in spite of all you do.

Let us increase our vocabulary by mastering one word each day.

JAIL FACES DEMPSEY ON SPEEDING CHARGE

By United News
MADERIA, Calif., March 26.—Some three years ago Ralph De Palma mistook a Madera county highway for a race track and spent 10 days in jail, wondering how he could have made such a silly error.
Just what kind of reasoning, if any, Jack Dempsey was following when his big, rakish automobile sped southward at a rate variously estimated at from 50 to 75 miles an hour, has not been made clear. The heavyweight champion will have his chance to explain when he appears before Justice L. E. Bailey on or before next Tuesday.
First charged with speeding, which in this section at this time can be translated into a jail term sentence, Dempsey is now accused of reckless driving, an even more serious offense.
Madera county prides itself on a comfortable sanitary jail. Since the sunny days of spring have come the prison has not been as pleasant as in the rainy days of winter, and there is plenty of room, even for Dempsey's bulk.
Justice Bailey will make no prophecy as to the disposition of the champion's case. He promises, however, that justice shall be done.
Dempsey was not driving when a traffic officer overhauled his machine. Robert A. Gates, chauffeur was at the wheel, but both men were named in the complaint filed Friday by the district attorney.
The champion and his wife were traveling from Sacramento to Los Angeles. According to the officer who stopped the machine, Mrs. Dempsey was not at all pleased over the episode.
"We've seen enough traffic cops during this trip to win a world war," she was quoted as saying.

NORTHER CRIMPS TEXAS RELAY MEET

By United News
AUSTIN, March 26.—Chilly March breezes drove into the faces of college and university athletes in the second annual Texas relay games here today and killed all attempts at new marks. Six hundred athletes shivered through the long afternoon to turn in mediocre marks and no world records were broken.
Iowa university relay team, cleanup squad in the western conference indoors meet, repeated by taking the one mile relay from a field of 14 entries in 3:23 1/2.
Georgetown and Drake finished second and third respectively.
Guthrie, of Oklahoma, annexed the pentathlon event with Wright of Texas second.
The Kansas State Teachers college took the two mile relay in 7:58 in a vain attempt to overturn the mark of 7:42 set by Georgetown in 1925.
Kansas university won the 440 yard relay in 43 3/4 seconds, one second slower than the mark set by Illinois in 1923. Illinois ran second to Kansas today.
The medley relay, consisting of the 440, 220, 380 and one mile distances was annexed by the University of Oklahoma in 7 minutes 52 1/4 seconds. The Oklahoma Aggies finished second in the event.
Lands of Texas university took the 100 yard dash in 10.4 with Wheeland of Georgetown and Farley of Missouri running a dead tie for second place. Richardson of Missouri heaved the regulation shot 46 feet 5 1/8 inches to out-distance Planks of Georgetown.
Hines of Georgetown took the javelin throw with a distance of 192 feet four inches.
Standcliff of Rice institute at Houston annexed the discus event with a distance of 140 feet. Gooch of Texas placed second.
Potts of Oklahoma pole vaulted 12 feet 5 3/4 inches to win the event. Haggard of Texas cleared the bar at six feet 2 7/8 inches to win the high jump. Norton of Georgetown was second. Dowling of Georgetown cleared 23 feet three inches for first place in the broad jump.
The college medley was won by Haskell institute at Lawrence. The time three minutes 19 seconds. Mexico National university placed second.
Adrain Paulen, Dutch sprinter, was an easy winner in a special quarter mile event, covering the distance in 48.8.
Scores of the university and college teams entrained following the meet for Houston where they will take part in the Rice institute south west carnival Saturday.

Pro Money Can't Tempt Suzanne
By United News
NICE, March 26.—"He can't make a 'Red' Grange out of me," snapped Suzanne Lenglen Friday in response to reports that C. C. Pyle, manager of the famous football star, had sent an agent to Riviera to lure the French girl into professional tennis.
Suzanne, who has returned from the mountains greatly improved in health, definitely disposed of rumors that she might consider going to the United States to play tennis professionally.
"There's not sufficient money in the United States to tempt me to give up my amateur standing," quoth Miss Lenglen. She said that if Pyle's agent called, she would be "not at home," as she is not interested in business offers.

England Flocks to See Big Boat Race On Thames River

By CHARLES McCANN
United News Staff Correspondent
LONDON, March 26.—The trek to the Thames begins at dawn Saturday, when thousands of Londoners with lunch baskets and light or dark blue rosettes in their button holes will take up their favorite posts along the winding, rippling four and one half miles of river up which the eight-oared crews of Oxford and Cambridge universities will row in their annual boat race.
In the hours before the starter's gun send the crews away from the mark at Putney the banks of the Thames will gradually fill up with solid ranks of spectators until by 12:30 when the race starts, probably to a million persons will be in their places to catch a glimpse of the shells as they slip past.
The river winds sinuously between Putney and Mortlake, the finish, and the swift current in the last half mile is the hardest test known to oarsmen. Oxford, with a heavier, stronger crew, has perhaps the best chance to win this year's race, unless the speedier Cambridge eight gains a big lead before the boat reaches Hammersmith bridge.
The betting on the eve of the classic was at even money.

NO ROOKIES FOR BUCKY HARRIS THIS YEAR

By LARRY DAILEY
United News Special Correspondent
TAMPA, Fla., March 26.—The rookies that bloom in the spring have nothing to do with the case of the Washington Senators. Bucky Harris has not builded for the future. The only changes in the personnel of the team since that dismal October day in Pittsburgh are the addition of a pair of stalwarts.
Harris is after his third straight pennant. Let the future take care of itself. Possibly he is right. At least, the Senators look to have an excellent chance to repeat.
Walter Johnson, Stanley Coveleskie, Dutch Ruether and Joe Bush will be the regular pitchers. Johnson is starting his twentieth season in the Washington club. His recent work indicates he is ready for another big season. Coveleskie is ready. Bush, acquired from the St. Louis Browns with Johnny Tobin, in exchange for Win Ballou and Tom Zachary, was pleased with the transfer and should be a factor in the Senators flag fight. Ruether was a holdout until a few days ago but he is reported in good condition and will be in shape to work when the championship season gets under way.
Firpo Marberry, one of the best relief pitchers in the American league organization, who has shown pleasing effectiveness and Ferguson are other pitchers who will be of service.
Muddy Ruel, is all that could be desired as a catcher and young Benny Tate is a capable understudy.
Roger Peckinpaugh despite his unfortunate play in the 1925 world series will be at shortstop. Peck is going about his work in a manner that commands admiration. Voted the most valuable player in his league last season, Roger was one of the main reasons for the loss of

the championship to the Pirates. But he is too fine and apt a ball player too courageous a man, to permit temporary adversity to dishearten him. Fred Merkle lived down a far greater ill reputation in baseball than that of Peckinpaugh, and Roger can and will overcome the memory of those disastrous eight errors.
Joe Judge, Stanley Harris and Ossie Blüchler are the same brilliant trio. Buddy Myers is a vastly improved ball player. He is understudying for Peckinpaugh.
Joe Harris seems destined to stardom. The batting and fielding of this player has been a sensation of the league. Johnny Tobin was slated to play right field but the former Brownie's light hitting and the all-around excellence of Harris indicates that Joe will patrol that suburb.
"Goose" Goslin and Sam Rice will, of course, occupy the other outfield positions.
Trainer Marlin may be forced to a liberal use of the adhesive tape and liniment to hold the veterans together but the way they look thus far in preliminary training, those ambitious athletes, bustling Browns and other contenders will get a fight all the way from the ancient Senators.

SPORT FLASHES

FANNING WITH FARRELL
By HENRY L. FARRELL
(United Press Sports Editor)
Women athletes have made most amazing strides towards international recognition since the great war.
The Amateur Athletic Union, one of the most powerful influences in the world for the promotion of amateur athletics, was the first to recognize that some day women athletes might progress to the place where they would be able to run, jump, hurdle and vault against male competitors.
The A. A. U., against the protest of conservatives, started to promote track meets for women and they were so successful that it is not too visionary to predict that in years not too far removed, there will be events for girl athletes in the Olympic games.
The greatest progress was made in the campaigns to interest girls in athletic exercises by the Women's Swimming Association, under the capable coaching and shrewd management of L. de B. Handley.
The Women's Swimming Association, from a very humble start in the basement of an apartment building developed such swimmers as Aileen Riggall, Sybil Bauer, Gertrude Eberle, Elizabeth Eibtbrey and too many others to mention.
The result was that for several years the United States has been the ranking nation in women's swimming just as American tennis has been supreme on international courts.
The reason is not hard to find. A few pioneers saw the possibility of interesting youngsters in lines of sport that would develop them physically and offer them amusement, ravel and education.
The strangest thing if all, however, may happen soon. New York state is about to reorganize all its executive departments for the purposes of efficiency, and economy. Charles E. Hughes, former governor of New York and former cabinet member in Washington, was ap-

pointed to head the committee to recommend the changes in administration and among his recommendations was one that the functions of the state athletic commission (the state boxing commission, in unofficial words, should be transferred to the department of the N. Y. Secretary of State.
The New York Secretary of State is Mrs. Florence E. S. Knapp. Mrs. Knapp never had seen a boxing match when she read the Hughes report and she admitted she had been under the impression that all boxers were prize fighters and that their social qualifications barred them out of first class parlors but she proved herself a modern woman-athlete.
"I'm going to see every boxing bout that I can before the Hughes report is acted upon and if I have to run boxing in New York, I'll bet you that I can do it," she said.

NEW TRACK STARS

By BERT M. DEMBY
(United Press Staff Correspondent)
CHICAGO, Mar. 25.—Two more athletes have emerged from the ranks of the comparatively unknown to write their names plainly across the track and field record books.
One is Herbert Schwarze, a great big dark-haired boyish looking chap who stepped out with a shot in his hand in the A. A. U. games here and hurled it farther than any other man had ever hurled it indoors.
Albert Francisco, the other—the more surprising of the two—is a dark-skinned, black-haired, 17 year old schoolboy who looks as if he were destined to go down with the stars of all time as a dash man. At the A. A. U. games he stepped the sixty yard distance in six and one fifth seconds to tie the world's record held by Cyril Coaffee, Loren Murchison, and Chet Bowman.
Francisco came up from the Mooseheart high school, a school maintained by the Loyal Order of Moose at Mooseheart, Illinois, a few miles from Chicago. No one had ever heard of him. In the first heat of the night he tied the world's record and beat Loren Murchison, world known sprint man, by at least three steps. In his second heat he stepped away from Cecil Coaffee to win by a good margin. In the final heat, though, Chet Bowman went out and covered the distance in world's record time and won the race.
Francisco gets away faster than any of the men and a couple of years practice on maintaining his get-away pace may put this high school boy in a class by himself.
Schwarze, competing against John Kuck, Kansas State Teacher's college, but the shot fifty feet seven and five eighths inches, almost an inch farther than the previous world's record held by Kuck.
At present Schwarze is a student at the University of Wisconsin but is ineligible for competition. He was competing unattached when he set his record.
The "Big Boy" is working part time to pay his expenses at college where he went from a Milwaukee high school. Previous to coming to the A. A. U. games here he set a Big Ten conference record in his favorite event and he went to Europe with the A. A. U. track stars last summer, but no one outside of his immediate friends figured he was capable as yet of setting the world's indoor record.

AMERICAN HORSE WINS ENGLISH RACE

LIVERPOOL, England, March 26.—The victory of Jack Horner, a nine-year-old jumper, recently purchased by C. L. Schwartz, a New York sportsman, was the surprise feature of the classic Grand National steeplechase which was run over the difficult Aintree course Friday afternoon and witnessed by more than 20,000 spectators.

Another American owned horse, "Right" Boy, the property of S. Sanford, the polo player, finished third a length behind Mrs. W. H. Dixon's Old Tay Bridge, the favorite.

Both Jack Horner and Bright's boy were outsiders and paid 25 to 1.

One backer made a double killing, having received odds of 100 to 1 against Jack Horner in the national and King of Clubs, the 90 to 1 shot which won the Lincolnshire handicap last Wednesday.

Schwartz, who is well known in American sporting circles, has been "sided" by his English friends because of the purchase of Jack Horner for \$25,000 a few weeks ago.

The race was worth \$50,000 in stakes to the owner of the winner, and the happy New York man also declared that he and all his friends had fulfilled his predictions. All his family and friends were "on it," Schwartz declared. "I have never entered a horse that I owned an English race before. I think making the grand national is a good thing."

A few years ago Jack Horner was purchased as a hunter by a woman for \$400.

The grand national is the most thrilling horse race in the world, with 30 odd jumps, both high and low, which must be cleared. Just as difficult, the course is run in the fact that the horses start and only 14 were on their feet the finish.

Jack Horner's time was 9 minutes and 36 seconds for the four miles and 856 yards.

The British royal family, which annually attends the grand national as guests of the Earl of Derby was not away by cold. The prince and princess was confined to York house by a cold and an ear ache, but stated that the result, he flashed him immediately after the race.

King George remained at Sandringham, and the duke of York at residence.

Rabbit Drive Put Off, Account Snow

The rabbit drive scheduled for today will be postponed until some later date, Gene Wofford announced yesterday, on account of the snow.

Sport Flashes

FANNING WITH FARRELL
By HENRY L. FARRELL

British sportsmen who have been viewing with alarm the invasion of the American amateurs in tennis and golf will have more reasons to view with alarm when Walter Hagen announces the team of professional golfers he is going to take across to charge into the British open championship.

Hagen, who is now playing the greatest game of his career, is going to organize a team of six players to be selected from the highest ranking pro stars in the country.

It will be a month or more before Hagen is ready to announce the team but the players will be chosen from Gene Sarazen, Leo Diegel, Harry Farrell, Macdonald Smith, Willie McFarlane, Al Espinosa, Bill Melhorn, Tommy Armour, Bobby Cruickshank, Al Watrous and Jim Barnes.

Hagen has made his plans definitely to enter and he intimated recently in Florida that Sarazen, Diegel, Farrell and Mac Smith were sure starters. "This lineup, Hagen figures, is the strongest array of stars that could be mobilized under any banner."

Hagen said he was not promoting a trip but that he had been delegated unofficially to head the invasion and that he wanted to get the strongest possible team.

In addition to the British open championship, the pro players will also engage in a team match against the British pros, patterned after the Walker Cup competition for the amateurs.

The date and the course have not been decided but the match will take place between the British amateur and the open in June.

There will be added starters under the American banner in the British open, recruited from the Walker Cup team.

Bobby Jones and Watts Gunn, the leading boy citizens of Atlanta and George Von Elm, the Californian, have announced that they will mix with the pros and old McKenzie from Washington, also may start. Gunn and McKenzie haven't reached the voting age and British officials have been especially eager to show the boy prodigies to the sages of British golf.

Hagen thinks that the American pros will help to make the invasion a complete success.

Glenna Coletti, America's first for the British Women's Championship ranking woman golfer, is going overseas and she may be accompanied

by Miss Louise Fordyce.

Mary K. Browne, who has accepted an invitation to play with the Wightman Cup tennis team, also may play in the golf tournament as she is every proficient at each game.

Miss Browne said recently in Florida that she had been asked to concentrate on tennis in Europe, but that she found golf to be a diversion this training and that she might play a lot of golf on the other side.

By setting a royal example of all around athletic prowess, Sweden's Crown Prince, Gustavus Adolphus, has stimulated a greater Swedish interest and participation in sports than ever before. Though now 44 years old, the heir to the throne keeps himself in top notch physical condition by regularly taking part in some form of physical exercise.

His favorite sport is ski running in which he has mastered the difficult right angle turn, called "The Lapp Twist," invented by the no-made-of-the-north. He is also a good swimmer, skater, horseback rider,

tennis player, long distance hiker and golfer.

Though in Sweden golf is a relatively new sport, the more important cities have their clubs and the crown prince is the head of the Stockholm club.

To general athletics in Sweden a strong and lasting impetus was given by the 1912 Olympics in which the American track team was victorious. The Stockholm stadium, built for that occasion, was a permanent structure and during the past ten years nearly four million persons

have paid admissions to see athletic contests. Football has been the most popular, followed by track games and hockey. In the royal box the crown prince and his family are frequent spectators in winter as well as in summer.

The Swedish gold insignia, awarded to all round athletes who can pass certain tests, was won by the crown prince in 1915, after passing creditably in swimming, jumping, running and discus throwing.

RAKISH TILT TO HATS EXCLUSIVE IN ENGLAND
By United Press

LONDON, March 26.—Admiral Beatty and the Prince of Wales are the only two officers in the British empire who are permitted to wear naval or military caps on the side of their heads, declared Lieutenant-General Sir William Pirzo, instructing members of the church boys brigade how to wear their uniforms.

Glass bottle may now be blown with a machine using compressed air.

DOGERS BREAK CAMP
United Press

CLEARWATER, Fla., March 26.—Brooklyn Dodgers broke camp today and left for Waycross, Ga., where Saturday they will meet the New York Yankees in the first game of their barnstorming series.

Manager Wilbert Robinson injured before leaving that he had virtually given up hope of signing Iton Stock, veteran infielder, who still a holdout. Chuck Corgan, Wagoner, Okla., rookie shortstop who has a good showing in exhibition games, will be taken with the Dodgers.

MULTIPLE STANDARD MORALITY FEARED AS RESULT OF CASE

By S. P. HOLLINGSWORTH
United Press Staff Correspondent
WASHINGTON, March 26.—In a case of the "double standard" of morals, we will have a multiple standard in the United States if Judge Bondy's decision in the Catharine case stands, according to W. H. Husband, assistant secretary of the American Civil Liberties Union, who filed an appeal.

"Every crime involving moral turpitude recognized in this country is now being tested according to the standards of the nation seeking admission," he told the United Press in an interview today. "If our investigation of these standards discloses any country where murder is a crime, then under this court decision, the murderer will have to be admitted. That is the effect of a decision and that is why we appealed the case."

"The greatest difficulty in dealing with moral turpitude is the difference in standards in different communities, in different countries."

"Misconduct is a crime in France but not in England. Citizens of France admitting moral turpitude under the court decision can not be in, but a citizen of England, regardless of the degree of turpitude, must be permitted to enter."

"That is the inconsistency of the standard which we are forced to live up until congress or the courts return it."

Two acceptable methods of dealing in cases similar to the Catharine case under the immigration law provision governing "turpitudinous" cases, were outlined by Husband. These were:

1. Clarification of the law by congress by detailing the crimes which will bar an alien from admission to the country, regardless of the standards.
2. Establishment of the common principle to govern moral turpitude by the degree of the offense.

This latter plan, Husband said, would leave to the discretion of the public officials and public opinion a decision whether the case is a violation of the law.

"In the case of adultery, which is a crime in some states and not in others, the best standard would be the effect on the community, which was the basis of the common law."

"If the offense is open, continued and shocking to the community it could not be hard to decide under a rule," he said.

"I suppose however that is what is needed the 'double standard.' Well, a court decision gives us the 'multiple standard,' and we will soon see how it works out."

Reward, Notify W. W. McCullough, Shallowater, Texas. 147-1p

TROUBLE STARTS AS FISHING FLEET SAILS

By United News. SAN FRANCISCO, March 26.—The Alaskan fishery fleet is heading toward the open sea again and already the water front is astir with talk of drunken orgies and knife fights aboard the old sailing craft. Just before the schooner Glendale pulled up anchor Friday for her cruise to the Bering sea, a police launch put alongside to investigate reports of a "hell ship" outbreak aboard the vessel. Thirty men were on the Glendale, most of them drunk. There was no liquor in sight, the supposition being that the supply had been consumed. Condition of some of the men indicated that a vicious brawl had been in progress. Sailors and fishermen begged the police to take them ashore, but this was impossible. Many of the men had drawn advance wages to spend with bootleggers and were in debt to their employers. They will have to work this off by a season in the Arctic. Soon after police left the Glendale the old wind jammer dropped down the channel toward the open water. A similar state of affairs was found when officers visited the schooner Mawema. Nothing could be done in the absence of liquor evidence. "The hell ship" orgies come each year, but usually not until August, when the fleet returns from the north. The men take the cruise because they are in need of cash and complain later that they are piled with drink; forced to pay exorbitant prices for necessities and generally mistreated.

AMERICANS WON 25 OUT OF 30 RACES

By United News. HONOLULU, March 26.—Jackson Scholz and Lloyd Hahn, American athletes, who have been participating in Australian competitions, arrived here Friday from Auckland on the steamer Vianigara. They will remain a few days before sailing for the mainland. Hahn, middle distance runner, and Scholz, sprinter, left America in January and during their tour visited 14 cities. They engaged in 30 races, winning 25 of them. The men were enthusiastic about the caliber of athletes being developed in New Zealand.

STOCKS Closed Steady WHEAT Closed Higher COTTON Closed Lower

Market furnished by SAM S. DENMAN CO Correspondent J. N. Wisner & Co. - New Orleans PHONE 364, LUBBOCK Long Distance Phone 16 (Adv.)

Manchester cables, small cloth trade both for home and exports. Yarns depressed with business restricted. Galveston ships 4,755 bales coastwise. As expected, the call money market turned a fraction easier and there is little reason to suspect that further firmness is in prospect for the immediate future. Incidentally during the past few days of weakness the call market held at five per cent despite the fact that funds were being realized by the sales of stocks and that the lower level prevailing curtailed the demand for new loans.

Outside the stock market the general run of news was fair from favorable. The raw and refined sugar markets were weak and lower; entering new law ground, the concession. This was responsible in large part for the failure of the sugar stocks to reflect the general betterment in the stock market. French francs featured the foreign exchange market with a further decline to new low ground. The latter is to be expected and about the only favorable thing that can be said for the franc at the present time is the fact that French authorities are not attempting to supply artificial and expensive aid to the rate. It is being allowed to seek its own level and therefore it is not likely that a wide open break such as recently distinguished the "pegged" Belgian franc is on the cards.

The market still lacks anything sufficiently promising in prospects to warrant the belief that the new upward move might be inaugurated, inasmuch as the average market is not inclined to advance without real stimulation, this is a serious factor to be reckoned with.

The weekly statement of brokers loans by member banks of the Federal reserve system again showed a sharp decline, losing \$81,000,000 from the previous week and showing a new low since the figures have been made public. This is accepted as fair proof that the situation has been well liquidated. Stories were afloat in the financial district that pressure has been brought to bear on bankers to force a curtailment of operations in the call loan market. These stories failed of verification in responsible quarters, but there is no doubt that the market took the first announcement of the pending announcements of weekly figures as a very strong hint.

As expected, the call money market turned a fraction easier and there is little reason to suspect that further firmness is in prospect for the immediate future. Incidentally during the past few days of weakness the call market held at five per cent despite the fact that funds were being realized by the sales of stocks and that the lower level prevailing curtailed the demand for new loans.

Table with columns: Open, High, Low, Close. Rows for Jan, May, July, Oct. for various markets including New York, New Orleans, Liverpool, Fort Worth Livestock.

Home of Spuds Imports More Than It Exports of 'em

WASHINGTON, March 26.—The United States imported more potatoes last year than it exported, the commerce department announced Friday.

By United News. KANSAS CITY, Mo., March 26.—An average Friday supply of cattle was in the yards today and like the usual end of the week run there was little of attractive quality to the killers. Trade was an end of the week cleaned up after a prices generally regarded steady. Scattered sales on steers were reported around 750 @ 910.

Total receipts of hogs at the five western markets were heavier than those of a week ago or a year ago. Trade at most points was slow, with prices unchanged. The market here was fully steady on the bulk of the kinds shown. Hogs 2,000; steady to strong, lights 15 @ 25 cents lower; desirable 185 to 225 pounds averages 185 @ 1230; 240 to 325 pounds 1075 @ 1165; sorted 130 to 160 pounds, 1300 down, packing size 950 @ 1000; stock pigs scarce. Cattle 500; calves 50; around steady with the week's decline; good 1,100 lbs. steers 910 light Arkansas canners 350; veals steady; good to choice averages 1100 @ 1200; stockers and feeders very slow. Sheep 3,000; wool lambs weak, 25 cents lower; 86 lbs. Colorado lambs 1250; 92 lbs. offerings 1200; few natives 1550; aged sheep steady wool ewes 825; Idaho yearlings 1050; Idaho wethers 900.

NEW YORK FINANCE

By E. WALTER MOCKLER Financial Editor United News

NEW YORK, March 26.—Stocks rallied well Friday as might have been expected in the light of the heavy selling of previous days. The likelihood of this recovery on technical grounds if for no other consideration was rather obvious before the serious Thursday when bearers executed a turn about and called early losses in a last hour covering movement.

This extended Friday through the industrials and rails. In general the main propulsive force was generated by bears who were perfectly content with the profits at hand on the short side and were anxious to insure these profits.

As the decline wears on it is becoming increasingly difficult to start enthusiasm upon the selling side and more serious attention is being paid to the possibility of the long side. For this reason the professional element which has acted as the main spring of the last few declines is becoming more wary of establish a definitely short position with some assurance that sufficient weak accounts can be blasted loose to make the maneuver successful.

The market still lacks anything sufficiently promising in prospects to warrant the belief that the new upward move might be inaugurated, inasmuch as the average market is not inclined to advance without real stimulation, this is a serious factor to be reckoned with.

The weekly statement of brokers loans by member banks of the Federal reserve system again showed a sharp decline, losing \$81,000,000 from the previous week and showing a new low since the figures have been made public. This is accepted as fair proof that the situation has been well liquidated. Stories were afloat in the financial district that pressure has been brought to bear on bankers to force a curtailment of operations in the call loan market. These stories failed of verification in responsible quarters, but there is no doubt that the market took the first announcement of the pending announcements of weekly figures as a very strong hint.

As expected, the call money market turned a fraction easier and there is little reason to suspect that further firmness is in prospect for the immediate future. Incidentally during the past few days of weakness the call market held at five per cent despite the fact that funds were being realized by the sales of stocks and that the lower level prevailing curtailed the demand for new loans.

Outside the stock market the general run of news was fair from favorable. The raw and refined sugar markets were weak and lower; entering new law ground, the concession. This was responsible in large part for the failure of the sugar stocks to reflect the general betterment in the stock market. French francs featured the foreign exchange market with a further decline to new low ground. The latter is to be expected and about the only favorable thing that can be said for the franc at the present time is the fact that French authorities are not attempting to supply artificial and expensive aid to the rate. It is being allowed to seek its own level and therefore it is not likely that a wide open break such as recently distinguished the "pegged" Belgian franc is on the cards.

WASHINGTON, March 26.—The United States imported more potatoes last year than it exported, the commerce department announced Friday.

A small crop in 1925 resulted not only in an increase in imports but a decrease in exports. The total exports in 1

WOODLOCK OK'D FOR SEAT ON I. C. C.

By THOMAS L. STOKES
 United News Staff Correspondent
 WASHINGTON, March 26.—President Coolidge won his first important victory over the senate this session with confirmation Friday of Thomas F. Woodlock as a member of the interstate commerce commission. Woodlock's name had been sent up three different times and pocketed twice.

The successful outcome of administration Woodlock fight which has lasted for a year, was won by a vote of 52 to 26.

The president's victory was laid to his maneuver in promising Pennsylvania the south and southwest representation on the railroad regulating body of the proposed bill for re-organizing the commission along geographical lines is enacted.

Several votes were changed by this pledge.

The vote was a surprise. While it was expected that Woodlock would be confirmed after the president's promise, it was not believed that the majority for him would be so large.

The action as usual was in executive session. The roll call was not made public. Opponents of the nomination asked that the names be published which provoked a row, those voting for Woodlock howling down the suggestion.

The president's victory was the more impressive as it follows rejection by the senate in the last year of two of his nominations as well as the harsh treatment accorded hitherto to Woodlock, whose confirmation was opposed by the interstate commerce committee recently. The committee refused to act on the Woodlock nomination twice last year, first in the regular session and the later in the special session. He was given a recess appointment by President Coolidge under which he has been serving.

Rejection of the two nominations affected the president personally that of Charles E. Warren, of Michigan, former ambassador to Japan and Mexico for attorney general in the special session last year, and that of Wallace McCamant of Oregon, who nominated him for vice president in 1920, and judge of the ninth circuit court of appeals. The nomination of Woodlock had become a personal matter as well, and the president determined that it should be confirmed.

About half of the democrats, from whom a large part of the opposition has come, flocked over Friday to the support of Woodlock. They were led by Senator Robinson of Arkansas, minority leader, several western republicans opposed the nomination along with the rest of the democrats.

Members were unwilling to discuss what went on behind the closed doors in the session which lasted from the time the senate convened at noon until later in the afternoon.

Senator Wheeler who has led the opposition, spoke for three hours Friday against confirmation. He held the floor for nearly the whole of the executive session on Tuesday when the nomination was first taken up.

The opposition to Woodlock was based on his previous connection with railroads and the expression of his position on valuation of railroads for rate making purposes.

Many southern democrats opposed him originally on the grounds that the south had no representation on the commission, which was also the position taken by the Pennsylvania senators.

\$9,500 Equipment Contracts Let For Schools

At a meeting of the board of trustees of the Lubbock Independent School District yesterday afternoon school supply and equipment companies were awarded contracts for the furnishing of the four schools to be completed this year by Lubbock aggregating about \$9,500.

Bickley & Company, of Houston, was awarded the contract to supply 1200 students desks, and sewing tables for the home economics department.

Wichita School Supply Company, of Wichita Falls, was awarded the contract to supply chemistry tables, domestic science tables, typewriting tables, and bookkeeping tables.

Chambers & Company, of Waco, will supply 33 teachers' desks and 120 primary chairs.

The Southwestern Seating Company, of San Antonio, represented by Con Singleton, of Lubbock, was awarded the contract to furnish 177 window shades in addition to the 4500 feet of blackboard purchased of them at the meeting of the Board Thursday evening.

BOTH CHILE AND PERU ACCEPT U. S. ARBITRATION

WASHINGTON, March 26.—Both the state department and White House spokesman Friday confirmed the exclusive United News dispatch of Thursday night reporting that both Chile and Peru had accepted the tender of good offices looking toward a diplomatic settlement of the 14-year old controversy over the sovereignty of the provinces of Taena and Arica.

CUBS BEAT SEALS

SAN FRANCISCO, March 26.—After bunching four hits for three runs in the second inning, the Chicago Cubs coasted the rest of the way and scored an easy 9 to 5 win over the San Francisco Seals Friday. It was the Cubs successive victory in exhibition games here.

'CURE PUPPY LOVE,' SAYS FAMOUS JUDGE 'AND YOU TAKE LOTS OF CASES OUT OF AMERICAN DIVORCE COURTS'

By United News
 CHICAGO, March 26.—For 20 years, wrecked romance passed in gloomy-faced review before Judge William Nelson Gemmill of the Chicago court of domestic relations. It was a colorful pageant of more than 10,000 sorrows with scarlet lives, black sin, the green-eyed monster and even white purity among its ranks. Yet, Judge Gemmill decided that life was good and decided to write a book about it.

"The Kingdom of Hearts," is the result, just off the press. The jurist rather pitilessly has taken Dan Cupid apart, but, like all ardent physicians, feels that in so doing he has discovered the cure for another one of the major ills of the human family.

All the contributing influences in the disintegration of home have come under his powerful microscope. With ten thousand court cases as his background of experience, Judge Gemmill reveals the causes of marital incompatibility—differences in religious belief, money, clothes, food and the other women.

Marriages may be made in heaven, but they are maintained in the kitchen the "love logist," writes, declaring that "love never lingers on an empty stomach."

Puppy love, heritage of the adolescent, comes in for its condemnation when he declares that "if one could be inoculated against puppy love, many of our divorce courts would go out of business."

"No one can tell what will happen when the disease is at its height," he adds. "All sense of proportion is lost. Neither heat nor cold, hunger nor thirst, makes any difference."

Flaming youth has its inning too, with much of the "new freedom" upheld by the author. "Some things may be said against the short skirt," he says, "but more things may be said for it."

The average girl is more cultured than the average man, he says, but the average man of 50 is more intelligent than his wife. There is other pertinent comment: part of the book, devoted to crime, carries his conviction that criminals are made and not born.

"Society is strong enough to overcome all of its own weaknesses," he believes the man who for 20 years has watched the march of shattered happiness.

Will Graft Glands Of Criminals To Sickly Children

PARIS, March 26.—The grafting of the thyroid gland of the bandit Olivier to a sickly child immediately after the bandit's execution a year ago has produced such excellent results that the surgeons who performed the operation now are recommending similar operation in cases of other criminals executed in France.

Ten seconds after Olivier was beheaded at Lille prison, his thyroid was transferred to a little girl who was both mentally and physically weak and had no traces of intellect.

Doctors Fefort and Piquet of the faculty of Lille university now declare that the gland has developed perfectly, that signs of intellect have appeared, that the child is nearly normal, that she asks intelligent questions and discusses complex subjects.

Physically, she is like a child of her own age, and the surgeons assert that the great value of such operations has been definitely proven.

Beauty Doctor Sues For Diana Manners Lifted Features

LOS ANGELES, Calif., March 26.—The Pittsburgh Pirates met the Hollywood Stars of the coast league and defeated them 5 to 2 here Friday.

Every member of the champion ship team got a hit except "Oil" Smith. Wright, Rawlings and Barnhart each got two safe pokes.

CAT SHORT-CIRCUITS CITY

FALL RIVER, Mass., March 26.—A cat, parking on a transformer, short-circuited Fall River's electrical system Friday and crippled the city's service for 20 minutes.

LOS ANGELES, March 26.—Antone Brusek admits it is a woman's privilege to change her mind and fiancée when she wants to but he objects when it costs him real money.

Brusek brought an action against Elizabeth and Joe Kohentek Friday, charging that Elizabeth took his \$363.50 to pay for her transportation from Austria for the purpose of marrying him.

Instead of marrying him, Elizabeth, according to the complaint, met and married another man.

In plain words, Brusek wants his money back.

Mussolini Makes Bombastic Speech

ROME, March 26.—Calling to the fascists of Italy to prepare to fight for their ideals "as an immense army awaiting new battles," Premier Mussolini issued a proclamation Friday in observance of the seventh anniversary of fascism.

"After seven years of struggle, you face a new effort," the premier's proclamation said. "It is now necessary to build up the moral and material power of the Italian people. We will realize our ideals by the use of all means against any obstacle that may arise."

Negro Convict Held For Killing Guard

HOUSTON, March 26.—Colley Underwood, negro convict, was taken to Angleton Friday to answer a murder charge in connection with the killing of E. A. Lotl, aged prison guard on the Ramsey prison farm where the shooting occurred late Thursday.

PIRATES 5, STARS 2

LOS ANGELES, Calif., March 26.—The Pittsburgh Pirates met the Hollywood Stars of the coast league and defeated them 5 to 2 here Friday.

Every member of the champion ship team got a hit except "Oil" Smith. Wright, Rawlings and Barnhart each got two safe pokes.

Opera Star Sings For Home Town Little Rock, Ark.

LITTLE ROCK, Ark., March 26. Mary Lewis, prima donna of the Metropolitan Opera Company, sang in Little Rock Friday night for the "home town folks" just as she did seven years ago in the church choir.

Hundreds sat through the concert while "our Mary" lifted her golden voice in the melody of the simple "homey songs" some of which she sang back in that choir while the congregation joined.

The demure vocal goddess came home a few days ago and Little Rock reacted quickly to the romance, the drama of her visit. Seven years ago Mary was looked upon as merely an ordinary singer, more beautiful than most perhaps, but still ordinary.

No one troubled about her and her dreams and did not follow her career when she left home. It was a devious route that carried her to world-wide fame. She was an actress with a road show for a time, and for many months she was in the movies as a bathing beauty.

Following the concert, Miss Lewis was the guest of honor at a public reception held at a local hotel and attended by virtually every person who heard her at the auditorium where she sang.

The seat stubs given at concert admit the holder to the hotel reception, which took on the character of a "get together gathering." Mary mingled with everybody and met many friends whom she had not seen for years and there were pleasant reminiscences.

Paid Her Way Over And She Up And Married Other Man

LOS ANGELES, March 26.—Antone Brusek admits it is a woman's privilege to change her mind and fiancée when she wants to but he objects when it costs him real money.

Brusek brought an action against Elizabeth and Joe Kohentek Friday, charging that Elizabeth took his \$363.50 to pay for her transportation from Austria for the purpose of marrying him.

Instead of marrying him, Elizabeth, according to the complaint, met and married another man.

In plain words, Brusek wants his money back.

TODAY

The Tenth Day of Our 9th Anniversary Sale

SALE

A Sale that's bound to make an indefinable heart appeal if you have the least idea of saving abundantly—a Brilliant stirring Sale of Spring Merchandise that is staged to be a huge success.

Ginghams

1c Yard

RED SEAL—TOILE-DU-NOID—PETER PAN, FRENCH TISSUE—

In fact all Ginghams included.

The plan is this: We will sell you the third yard for 1c—for the first two yards you pay Sale price and for the third yard only ONE CENT—for instance, suppose you want our 10c Sale price Gingham, which is worth 15c yard—you pay 10c yard for two yards which would amount to 20c, and ONE CENT for the third yard and that would make the three yards cost you 21c—and for six yards, which is the limit, the cost to you amounts to 42c. The same with Peter Pan, 49c a three yards of 75c Gingham and \$1.98 for six yards, which is the limit of yardage any customer can purchase. You do not have to buy any one grade—you can take three yards of one grade and three yards of another or take it from same quality in different patterns or all from one pattern.

One Hour FROM 9:30 TO 10:30

All sales people on main floor with many extra will use their best endeavors to serve all who come promptly. THIS ONCE IN A LIFE TIME OPPORTUNITY—Come and you won't be disappointed.

Remnants

Again Tomorrow

You never saw as many remnants—we never had as many before. The enormous selling in this department has been the cause for this big accumulation.

Lubbock Morning Avalanche

VOL. 4, NO. 147

LUBBOCK, LUBBOCK COUNTY, TEXAS, SATURDAY, MARCH 27, 1926.

FULL LEASED WIRE UNITED NEWS

PLAINS TIRE COMPANY WILL OPEN DOORS OF NEW BUSINESS HOME THIS MORNING; FREE TUBES OFFERED FOR FIRST BUYERS

The Plains Tire Company, wholesale and retail distributor of Seiberling tires and tubes, will open for business this morning in the modern new brick building erected at 1308-1310 Avenue H.

R. R. Ragan and H. H. Austin, managers of the business who will devote their entire time to the development of this territory for the Seiberling Rubber Company, of Akron, Ohio, will employ three men to assist them in the business here and two experienced salesmen will work the large territory which is bounded on the south by the T. & P., on the west by the New Mexico line, and extending to Sweetwater on the east and Amarillo on the north.

A. R. Perry is the salesman working out of Lubbock and is assisted in handling the business in the large territory by a salesman traveling out of the Oklahoma City branch of the Seiberling Rubber Company.

The home in which the business of the company will be operated from this morning onward is the property of Wm. D. Green and was especially built to accommodate a wholesale and retail tire business by Contractor D. N. Leaverton, of Lubbock.

The building is 45 by 105 feet, and will be equipped entirely by the tire company, which will install equipment for tire repairing. No gas or oil business will be conducted in connection with the tire business, the managers said yesterday.

The stock which will involve an average of \$50,000 at all times, will amount to as much as \$100,000 during busy seasons, the managers stated yesterday, and will contain all tires and tubes from the smallest to the largest size manufactured for automobile and truck use and used as standard equipment.

Every piece of merchandise handled by the Plains Tire Company will be guaranteed by the dealers, backed by the guarantee of the Seiberling Rubber Company, of Akron, and adjustments will be made without delay.

Opening Offer

The first eight men who enter the

store after its opening and who buy a tire will be given without cost a Seiberling tube.

Carload Shipment

A shipment of one carload of tires and tubes has just been received here by the company, and another car that was shipped from the Akron factory on March 19th is expected to arrive at any time. This large stock will enable the company to meet all of the requirements of its large territory.

The Seiberling Rubber Company, who have just established a distribution connection with the Plains Tire Company, has a very interesting history.

While it was organized only four years ago, it has made the most rapid progress of any tire company for its period.

The Seiberling Rubber Company is new name, but old in experience, having for its head Mr. F. A. Seiberling, founder and for twenty-three years president of one of the largest Rubber Companies in the world.

Mr. Seiberling is a leader in the Rubber industry, and many of the improvements that are now adding to the life of the automobile tire are the product of his brain.

In forming the Seiberling Rubber Company, Mr. Seiberling was able to gather around him the best talent in the Rubber industry. In 1925 automobile owners paid more than fifteen million dollars for Seiberling products, and the sales of the Seiberling Company were limited to its ability to produce, rather than to the demand, which was far beyond its production facilities. During 1925 they will produce 50 percent more than they produced in 1925, and the opening of the distribution warehouse at the Plains is the result of their natural expansion.

Seiberling has wide distribution in the Plains section. They point with pride to the type of dealers who are selling their product and to the service their tires are giving.

Mrs. Katherine Ivey of Detroit, was sentenced to thirty days in jail for trying to influence jurors to acquit a bandit on trial.

D. N. Leaverton Built Home For Plains Tire Co.

The building of a modern and beautiful business home, such as that of the Plains Tire Company, requires more than material and a lot, and those who have inspected the building have commended the workmanship that has been invested in it.

The general contract was carried out by D. N. Leaverton, prominent Lubbock building contractor whose handling of the Santa Fe buildings along the Doud line stand out as an achievement that distinguishes him as a big builder, and whose personal supervision of the construction of the new tire company home was responsible for the splendid appearance of the structure.

Ohlen Franklin was in charge of the construction crew and was careful to see that all specifications were met.

The electrical work was installed by the Y. & L. Electric Company of Lubbock, the proper lighting of the big building being important because of the requirements made by the managers of the Plains Tire Company, who will maintain a large stock and expect it to be subjected to public inspection at all times.

Plumbing fixtures were installed by the Nevels Plumbing Company of Lubbock, while the roof was built by the Lydick Roofing Company also a Lubbock institution.

FURNITURE DEALERS HAVE BIG STORE ON AVENUE H.

"We are well pleased with our location at 1307 Avenue H, and feel that this section of the city is receiving its deserved portion of attention from the entire citizen-ship," W. A. Stephenson, who with his brother, E. H. Stephenson, is manager and owner of the South Plains Furniture Company, told the Avalanche yesterday.

The large store of the company is stocked with both new and used household furnishings, and with the Stephenson brothers personally looking after the needs of their patrons the business is making expected progress.

SPIKES BROTHERS OLD TIMERS IN THE RETAIL FIELD HERE

Spikes Brothers Grocery, at 1212 Avenue H, is new to Lubbock only in that the store they now operate was just recently established and is among the growing businesses on Avenue H, but the brothers are not at all new to Lubbock as they came to this city in 1902 with their father, who was among the city's earliest business men.

The store on Avenue H, is housed in a modern brick building which is the property of Spikes Brothers, who in connection with their grocery store operate a furniture business that is making such growth as to demand a great deal of their attention.

Buying for the store is done by Bill Spikes, who has made close study of that feature of the business and is enabled to demand much in the wholesale markets.

The business is operated on a strictly cash basis, and a new plan for offering delivery service to their patrons has just been inaugurated.

LOUIE SHOPSHIRE MOVES LUNCH ROOM TO AVE. H. PLACE

Louie Shopshire, who for the past five years has had a part in feeding the people of Lubbock, is giving special attention to those living on Avenue H since his place of business has been moved to larger quarters at 1216 Avenue H.

Mr. Shopshire is assisted in the operation of the business by A. C. Woods, who has been with him for some time.

PASTEURIZED MILK PLANT TO BE ENLARGED BY McILHANEY BROS.

McIlhenny Brothers, local dairymen, who also operate a pasteurized milk business on Avenue H, have announced plans to increase facilities for handling their business by the addition of a great deal of new equipment to their plant at 1307 Avenue H.

The capacity of the plant will be doubled and a general improvement in service to patrons will result.

Theft of Rent Cars Biggest Problem Managers Say

There are many interesting and hazardous phases to the operation of a rent car business, according to M. R. and B. A. Fowler, owners and managers of the Rent Car Station at 1214 Avenue H.

The difficulty of getting insurance companies to write policies protecting the company against loss of cars by theft is one of the hazards, as which the disappearance of cars that in many instances are out of the station before the theft is discovered is one of the big problems. During the last year five apparently reliable patrons called at the station to rent cars, and after each of them had contracted to keep the cars, officers were notified and while four of the cars were returned after weeks of tireless search on the part of officers, the loss on each of these amounted to from fifty to one hundred and fifty dollars. The fifth car has not yet been located, according to Fowler brothers. One man is in the penitentiary and two are in jail for these thefts.

A fleet of thirteen cars, including Fords, Chevrolets and a Hudson coach, include the rolling stock of the Rent Car Station, and many times all of these are out of the station at a time.

EARHART ESTABLISHES NEW TIRE BUSINESS ON AVENUE H.

J. B. Earhart, owner of the Earhart Rubber Company, and who for the past five years has been located in Lubbock, stated yesterday that business is good at his shop at 1218 Avenue H, with patronage increasing steadily.

Mr. Earhart has equipped his Avenue H, shop to take care of general tire service, including tube repairing, and is retailer of Goodrich and Michelin casings and tubes.

He moved his shop from East Main street in February to its present location, and is not at all dissatisfied over the change.

Abbe Bacie, a French parish priest, has invented a machine for setting out cabbage plants.

LITTLE HOTEL ROUNDS OUT FIRST YEAR IN GOOD CONDITION

The Little Hotel, which occupies the Barrier Brothers building on Avenue H and is under the management of Mrs. Kaufman, was among the first businesses catering to exclusive patronage that was opened on Avenue H, and since it has been in operation during the past year it is well established and is meeting the need for which it was built.

The Little Hotel has been a material aid to Lubbock in that it has contributed to meeting the city's biggest problem—that of taking care of its visitors.

INCREASED STOCK SHOWN AT AVENUE H BUSINESS

The Army Store, of which Sam Koretzky is owner and manager, is one of the institutions that has added to the popularity of Avenue H, being located at the corner of that Avenue and Broadway where since last October, Koretzky has busied himself looking after the development of his business.

The Army Store, though it was first established to handle only army goods, has been stocked to meet general needs in the dry goods line, an especially large patronage having been attracted to the shoe department.

FARM RADIO MAKES RAPID GROWTH DURING FIVE YEARS

There are nearly 1,000,000 radio sets on farms in the United States, Department of Agriculture estimates, in a report on growth of farm radio during past five years.

In some states, Department says, there are radio sets on 25 to 40 percent of all farms. Estimates made by Department in 1923 showed 145,000 sets in use on farms at that time; 365,000 sets in 1924, and 553,000 sets early in 1925.

Increased power and improved broadcasting, together with better receiving sets, the department believes, will do much to aid in establishing permanency of use of radio for benefit of agriculture.

"One station alone in a period of three months broadcasting of market and weather reports, received more than 3,000 letters of commendation from farmers, country banks, shippers of live stock, and small merchants in towns in 12 agricultural states surrounding station."

ENROLLMENT INCREASED AT BARBER COLLEGE ON AVENUE H.

Three students have just been enrolled in the Lubbock Barber College, according to C. W. Eubanks. Mr. Eubanks and B. B. Gillen are owners and heads of the college, which is located at 1216 1-2 Avenue H, and which is being enlarged to take care of the increased attendance of students and the larger amount of business that is being received.

BAVARIAN SOLOMON SETTLES GOOSE ROW

RACHEL, Bavaria.—In this little village with its biblical name, King Solomon has found a rival.

A bicyclist rode down a goose. The farmer to whom the dead goose belonged promptly appeared and demanded damages. The cyclist offered 50 cents heart balm—or, as he put it, stomach balm. The farmer demanded \$1.50 in return for which the cyclist was to keep the goose.

A long, fruitless argument ensued and both finally agreed to appeal to the local mayor as arbitrator.

"You, sir," the mayor told the bicyclist, "you want to pay 50 cents and you want the farmer to retain his goose."

"And you, my neighbor," he said to the farmer, "you want \$1.50 and are willing to let your adversary keep the goose."

The mayor turned to the cyclist. "Give me fifty cents," he commanded.

He turned to the farmer. "Give me the goose," he ordered. Both complied.

The mayor pulled \$1.00 from his own pocket and handed the farmer \$1.50. Then he carefully wrapped up the cheap goose and tucked it under his arm.

"Now you're both satisfied," he told the smiling pair, "and what's more, I am, too."

JAP DIET REPORTERS STRIKE FOR MORE PAY

TOKYO, Japan.—The girl stenographers employed at the House of Representatives, 36 in all, have gone out on strike, leaving the honorable members without clerks to take down their oratory. The girls have served notice on the Speaker of the House that they want shorter hours and bigger pay. Earlier in the session the special police employed by the Diet threatened to strike, but had their demand complied with.

Tulsa Wants Next Geologists Meeting; Decision Put Off

By United News. DALLAS, March 26.—Election of officers of the American Association of Geologists will be taken up at the Saturday session of the meet, it was announced by C. N. Decker, secretary of the association Friday.

John R. Suman of Houston and Alex W. McCoy of Denver, were nominated popular among the members of the association. The Tulsa delegation 150 strong is making a desperate fight for the 1927 convention the association but it was announced that the convention city for next year will not be named during this meet.

The association adjourned early Friday in order for the delegates to participate in a golf tournament. Technical papers and addresses featuring the use of the seismograph and other instruments of science in the sub-surface search for oil occupied the morning session of the association.

CITATION BY PUBLICATION

THE STATE OF TEXAS To the Sheriff or any Constable of Lubbock County—Greeting: You are hereby commanded to summon J. H. O'Neal by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, on the 1st Monday in April, A. D. 1926, the same being the 5th day of April, A. D. 1926, then and there to answer a petition filed in said Court on the 3rd day of March, A. D. 1926, in a suit, numbered on the docket of said Court No. 2299, wherein the original petition was filed in said Court on the 6th day of October, 1925, wherein M. M. Crawford, is Plaintiff, and Laverne Kershner and W. R. Lawler, are defendants, and in said Cross-action filed aforesaid, Laverne Kershner is Cross-Complainant & W. R. Lawler is Cross-Defendant, and said petition alleging that Laverne Kershner has purchased from the plaintiff the Vendor's Lien Note sued upon and that he is now the legal and equitable owner and holder of said Notes, and also the superior title against the hereinafter described lot. For cause of action against the cross-action defendant, W. R. Lawler, this defendant complains of said W. R. Lawler, and brings this suit in trespass to try title against him, on all of Lot 6, in Block No. One, of the Dixie Land Addition to the town of Lubbock in Lubbock County, Texas, securing the payment of 3 notes each for \$125.00 each and

of one note for \$75.00, dated March 4th, 1924, due respectively on or before six, twelve, eighteen and twenty-four months from date, thereof, signed by W. R. Lawler, and payable to order of Laverne Kershner. In alternative, this defendant sues for amount of principal, interest and attorney's fees, etc. Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lubbock on this the 5th day of March, A. D. 1926. (SEAL) LOUIE F. MOORE, Clerk, District Court, Lubbock County, Texas. BY OLIVE FLUKE, Deputy. 126-4 Sat.

D. 1926, in a suit, numbered on the docket of said Court No. 2458, wherein Basie O'Neal, Plaintiff, and J. H. O'Neal, is Defendant; and said petition alleging, That plaintiff and defendant were married on April 6, 1925, that soon after said marriage defendant began a course of cruel treatment, and was criminally intimate with other women, and this plaintiff was forced to work out of the home for her own support, wherefore, plaintiff prays for judgment granting a divorce to her, etc. Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lubbock on this the 5th day of March, A. D. 1926. (SEAL) LOUIE F. MOORE, Clerk, District Court, Lubbock County, Texas. BY OLIVE FLUKE, Deputy. 126-4 Sat.

Rev. Bob James, the noted evangelist, has insured his life for \$25,000, in favor of the college founded by him at College Point, Fla. Mrs. Maud Harkins, of St. Paul, when arrested for being intoxicated said she drank part of her husband's liquor to keep him sober. Australia will spend \$25,000 a year to advertise its products in England.

Women in Congress No Longer Freaks; Used to 'em Now

BY MARTHA STRAYER Written for the United News WASHINGTON, March 26.—The job of being a congress woman isn't what it used to be.

"No ma'am," said the doorkeeper at the ladies gallery in the house. "Folks don't bother much about seeing the lady members much—not any more. They use to once in awhile a woman stops and asks me where the three ladies sit. But not very often."

"I was a congressman's secretary when Alice Robertson was in the house," says the young woman who now serves Mrs. Mary T. Norton of New Jersey, one of the three women drawing down \$10,000 a year in congress. "So I notice the difference. Mrs. Robertson use to get a lot more attention than Mrs. Norton gets."

"Yes, Mrs. Rogers is bothered by reporters and photographers than the average congressmen," says secretary to the lady from Massachusetts. "But not so much, at that."

"Mrs. Kahn discourages any special attention," says the California congress woman's secretary. "She wants to fill her job like a man. Thus from all accounts several years of suffrage have taken the glamor off the congressional job for women. A woman who comes to congress is a member of congress and that's about all. She attends committee meetings and answers letters, back again to a specially selected committee where views of

"NO ESCORT LEAGUE" NOW BEING ORGANIZED BY CALIFORNIA CO-EDS

BERKELEY, Calif., March 26.—Feminine freedom—that's what these individualistic co-eds want. On the rolls beneath the names of Carrie Chapman Catt and Emmeline Pankhurst will be inscribed the names of Geraldine Cassad, Katherine Nixon, Gertrude Wright and Helen Phillips.

They are University of California students who have solved the "mnn problem" by declaring independence to it. They are leaders of the Gamma Epsilon Phi and Phi Chi Theta societies whose membership embraces some of the university's most prominent and popular co-eds.

Rebellious at the very idea of sitting around waiting for patronizing men to invite them to dances and parties, they have inaugurated a "no escort league." The girls have taken solemn pledges that they will attend college functions unencumbered by any masculine guidance.

After the female minds of the campus have been educated to the idea so that it will be more or less generally accepted as a matter of course, these original thinkers will make the revolutionary proposal that the ladies alone do the bidding, inviting such men as they please to escort them.

That is—they will if their first declaration of independence "takes" the motorists themselves could be presented.

The association disagreed with a number of the conclusions of the conference which ended its session Thursday as the association's convention started, but Henry expressed the belief that the differences could be smoothed over.

Bill Nearly Ready For German War Claims Settlement

By United News. WASHINGTON, March 26.—The treasury department has about concluded congressional measures providing for settling of German war claims, it was said on behalf of President Coolidge Friday.

The White House spokesman declined to comment further on the bill declaring that he knew nothing of their details.

George Shannon of Kelo, Cal., charged that his prospective mother-in-law stole his marriage license to prevent his marrying her daughter.

Greece will levy a tax of \$10 on all foreigners visiting that country, but will provide free tickets for admission to historic buildings.

Mrs. Mary Morgan of Brooklyn was awarded \$13,500 damages against the city on account of slipping on an icy sidewalk and receiving an injury which shortened her leg two inches.

GAINES COUNTY FARMERS ORGANIZE POULTRY ASSOCIATION; WILL HOLD SECOND ANNUAL SHOW IN NOVEMBER

BY RAY B. McCORKLE
Staff Correspondent

SEMINOLE, Gaines County, March 25—The "Cow, Sow and Hen" program has been adopted by Gaines county farmers, and unless there is a serious mishap there will not be a farm in this county where a flock of chickens will not be found before the close of the present year. At least that is the way members of the Gaines County Poultry Association expressed themselves at meeting of that organization which was held in the county court room here Tuesday.

The association was organized at Seagraves a few weeks ago. Some 30 members joined the organization and took part in the first poultry show. Later it was decided to take the entire county so representatives from Seagraves met with the Chamber of Commerce here and extended an invitation for new members. At the close of the meeting 22 farmers and business men of this section took membership.

A number of interesting addresses were made, though probably the most important was that of Monroe Jones, president of the organization. Mr. Jones insisted that the hen has proven her worth—that the standard-bred hen is superior to the mongrel, and that people who start breeding fowls should be careful when selecting foundation stock.

A number of business men have joined the association, and in most instances they will breed a few fowls and be in position to take part in the poultry show which will be held in Seagraves in the late fall. A small membership fee is being charged and the money collected will be used by the association to purchase exhibition coops.

The association now has a membership of about 60, and an effort will be made to increase the number to at least one hundred before the close of the year.

QUITAQUE AND TURKEY NOW HAVE LIGHT SERVICE

LOCKNEY, March 26—The Twin City Lee & Light Company have completed their plants at Quitaque and Turkey, this gives both cities 24 hour service, with a high line that serves the rural communities.

TRAIN SERVICE FOR SEMINOLE VERY PROBABLE

(Staff Special to The Avalanche)

SEMINOLE, Tex., Mar. 26—A committee of farmers and business men was appointed by the Seminole Chamber of Commerce, Tuesday night, to attend the railroad hearing to be held in Austin early next month. An effort is being made to have the Texas and Pacific railway company operate trains over the Midland & Northwestern which runs into this city.

Train service was suspended many months ago, and the owners of the line have been trying to junk it. An injunction saved the road, and Attorney General Moody recently ordered the T. & P. company to begin operating trains within 90 days. This they refused to do and the case is now up before the courts. The federal government may offer the rail company some relief, but under their charter, which was granted in Austin, they may still be forced to operate trains.

The members of the committee will be used as witnesses when the hearing is called by the attorney general.

Mrs. Clifford Hughes of Cleveland, Eng., is now 102; her grandmother lived to be 102 and her mother to the age of 100 years.

Good Season at Hale Center is Good Sign

HALE CENTER, March 26.—Hale Center is this morning having a nice snow, which with the two rains that fell recently will almost assure a wheat crop. Farmers are well along with their work at this time, having their land in excellent condition for the row crops, and are looking forward for a great crop this year.

Business men report that they are having a real good business even at this time of the year, and there is quite a bit of construction work going on.

The people who moved here last fall and winter are well pleased with the outlook, and report that many people where they came from will

move to this section this fall, which will no doubt see greatest immigration, ever known to this section of the Southwest.

The prospects of a fine yield of wheat west and northwest of this place seems to be brighter than for many years, and the acreage is good and there will no doubt be a good yield this season.

More Than 5,000 Bales Ginned At Littlefield

LITTLEFIELD, March 26—Cotton continues to come in from all parts of the county. The past week 48 bales were ginned by the Larimore & Irvin gin here, and 130 more are yet to be ginned, is the opinion of Wm. Larimore. The amount of bales already gin-

ned in Littlefield totals 5,039, which is far more than was expected two months ago. A number of farmers over this section who returned to gather the remainder of their cotton after the price advanced a few cents a short time back, found a number of bales to their credit.

It is the consensus of opinion that the farmers in this vicinity will di-

vert more of their attention to diversified farming this year than ever before and the average per acre cotton per farmer will doubtless be greatly reduced this year. However, the total acreage in cotton will far exceed any previous year due to the increase in population and the great amount of new land being put into cultivation.

Jack Williams, district manager for the Automobile Finance Corporation at Galveston, was here yesterday from his home at Plainview.

When long hair doesn't make a man look intellectual is when his wife picks it off his coat.

BOOZE REFERNDUM SEEMS TO BE DOOMED

By United News. WASHINGTON, March 26.—Senator Edge's proposal for a national official referendum on prohibition appears likely to meet an early death at the hands of the drys.

Senator Overman, of North Carolina, ranking democrat on the judiciary committee to which Edge's resolution has been referred, predicted to the United News that it would never get out of committee. The republicans on the committee, with the possible exception, are all dry and therefore opposed to the New Jersey senator's measure.

Edge in his joint resolution proposes that in the 1928 elections, the following question be placed on ballots in all states: "Shall the congress amend the national prohibition act (commonly known as the Volstead act), so as to allow the manufacture, sale, transportation and possession of beverages containing as great an amount of alcohol as is lawful under the constitution, provided that such amendments shall not interfere with the constitutional powers of the several states to legislate with respect to intoxicating liquors as each state may deem proper?"

The resolution provides that this question shall be printed on the ballots without alteration or explanation.

In view of the probability that the senate judiciary committee will decline to approve the proposal, Edge may move in the senate to discharge the committee from consideration of the resolution. Unless the senate line up changes the resolution would be referred there, but Edge might be able in this way to put the senators on record.

Edge's plan provides that state legislatures could enact the necessary election legislation to put the question on the ballots. This would have to be done at the session which will be held in the most states next winter, hence the provision delaying the balloting until 1928. In states whose legislatures refuse to act the postmaster general and secretary of commerce through his census organization would be authorized to poll voters. Costs on both procedures would be borne by the federal government.

Edge's plan involves no suggestion of modification of the amendment but only of raising the one half of one per cent maximum fixed by congress—always remaining with the prohibition against "intoxicating beverages."

This plan was put forward by Edge to critics of the dry party who said recent newspaper polls meant nothing because the balloting was not under official control. It is put in the form of a joint resolution which requires a majority vote of both houses and the president's signature. In event of a White House veto, a two thirds majority would be required in both houses to over ride the president veto. But the drys do not expect it to ever reach the White House.

CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County, Greeting: You are commanded to summon May Terry by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Lubbock County, to be holden at Lubbock in said Lubbock County, on the 5th day of April, A. D. 1926, then and there to answer a petition filed in said Court on the 5th day of March, A. D. 1926, in a suit numbered on the docket of said Court No. 2461, wherein J. W. Terry, is Plaintiff, and May Terry Defendant, and said petition alleging that plaintiff and defendant were lawfully married in Holdenville, Oklahoma, June 25, 1925, and lived together as husband and wife until on or about July 1st, 1925, when plaintiff was forced and compelled to permanently abandon defendant.

Plaintiff further alleges that defendant had deceived and coerced him into marrying her; that she undertook to extort money from him in violation of their marriage vows, and other wise treated him with contempt upon his failure to comply with her demands; and that since their separation as aforesaid, they have not lived together as husband and wife and plaintiff prays for judgment dissolving said marriage relation, and for all cost expended.

Herein fall not, but have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same. Given under my official signature and seal at office in Lubbock, this 5th day of March, A. D. 1926.

(SEAL) LOUIE F. MOORE, Clerk, District Court, Lubbock County, Texas. BY OLIVE FLUKE, Deputy. 126-4 Sat.

CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County—Greeting: You are hereby commanded to summon James F. Souares, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Lubbock County, to be holden at the Court House thereof, in Lubbock, Texas, on the first Monday in April, A. D. 1926, the same being the 5th day of April, A. D. 1926, then and

there to answer to a petition filed in said Court on the 24th day of December, A. D. 1925, in a suit, numbered on the docket of said Court No. 2389, wherein C. F. Anderson, is plaintiff, and James F. Souares, is defendant, and said petition alleging that it is a suit on the following notes, to-wit:

On January 15, 1925, defendant made, executed and delivered to plaintiff, his certain promissory note in the sum of \$1,200.00, bearing date on the day and year aforesaid, payable to the plaintiff, at Slaton, Texas, bearing interest at the rate of 10 per cent per annum, providing for 10 per cent additional if placed in the hands of an attorney for collection, and being payable in installments of \$100.00 each, on the 15th day of each month, beginning February 15, 1925, in equal monthly amounts; and to secure payment of said note, defendant, executed and delivered to plaintiff, a chattel mortgage on the following described personal property, to-wit: All fixtures in the Busy Bee Cafe in the Roper Building on the north side of the square in the town of Slaton, Lubbock County, Texas, one 3-passenger truck bearing car. 1920, Model No. 45, Motor No. 594824, License No. 388-090, Seal for 1924 being No. 668-029; that said mortgage was to secure the above described indebtedness, also any future indebtedness that might accrue.

Thereafter, on February 28, 1925, defendant, made, executed and delivered to the United Publicity Company, St. Louis, Mo., his certain promissory note in the sum of \$91.00, payable in installments of \$7.50 each, beginning March 28, 1925, and one installment falling due and payable at intervals of 30 days each providing that failure to pay any installment, matured the entire note at option of holder and being payable at Slaton, Texas; that plaintiff obtained said note for the United Publicity Company, for value, before maturity and in due course of trade.

And thereafter, on June 1, 1925, defendant, made, executed and delivered to J. R. Jones, his certain promissory note in the sum of \$50.00, with interest from date at the rate of 10 per cent per annum; and on November 1, 1925, providing for 10 per cent additional if placed in the hands of an attorney for collection, payable at Slaton, Texas; that plaintiff obtained said note in due course of trade, before maturity and for a valuable consideration. Whereby, defendant became bound unto plaintiff and promised to pay plaintiff the said sum of money in the last two notes above described,

ed, together with interest, attorney's fees, etc.

That a number of installments on the above described notes are due and unpaid, and all of the same will be due and unpaid by the time Court meets, and defendant, though often requested has hitherto failed and still fails and refuses to pay the same, or any part thereof, except the sum of \$775.50 on the first of the above described notes, leaving a balance thereon of \$504.11, and attorney's fees, and except the sum of \$34.96 on the second note described above, leaving a balance on same of \$15.04, and except the sum of \$30.00 on the last described note, leaving a balance due on same of \$20.00, plus interest and attorney's fees, to plaintiff's damage in the sum of \$700.00.

Wherefore, plaintiff prays that upon final hearing hereof he have judgment for his debt, interest and attorney's fees, for foreclosure of the chattel mortgage above described, for order of sale, costs of court, etc.

Herein fall not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lubbock, Texas, on this 12th day of Mar., A. D. 1926.

LOUIE F. MOORE, (SEAL) Clerk, District Court Lubbock County, Texas. 126-4 Sat

CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County—Greeting: You are hereby commanded to summon T. J. Wilson and the heirs and legal representatives of the said T. J. Wilson, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Lubbock County, to be holden at the Court House thereof, in Lubbock, Texas, on the 1st Monday in April, A. D. 1926, the same being the 5th day of April, A. D. 1926, then and there to answer a petition filed in said Court on the 5th day of March, A. D. 1926, in a suit, numbered on the docket of said Court No. 2462, wherein the Citizens National Bank of Lubbock, Texas, a corporation, is Plaintiff, and T. J. Wilson and the heirs and legal representatives of said T. J. Wilson, are Defendants, and said petition alleging: Herein-

looked on September 25, 1925, H. R. Fluke and wife Olive Fluke, mede, executed and delivered to T. J. Wilson promissory note for \$700.00 payable to T. J. Wilson secured by mechanic's, materialman's laborer's, builder's and contractor's lien on property beginning at a point 490 yards east of the northwest corner of Survey 7 in Block B; Thence south 150 feet to office; Thence west 50 feet; Thence north 150 feet to place; Thence east 50 feet to the place of beginning. That T. J. Wilson transferred assigned and endorsed said note and liens securing same to plaintiff without executing and acknowledging a written transfer thereof. Whereupon plaintiff prays that upon final judgment against defendant, vesting the title to said mechanic's and materialman's lien on the above described property in plaintiff.

Given under my hand and the seal of said Court, at office in Lubbock, Texas, on this 5th day of March, A. D. 1926.

(SEAL) LOUIE F. MOORE, Clerk, District Court, Lubbock County, Texas. 126-4 Sat

After speaking for 20 minutes speaking he was broadcasting to many listeners, the mayor of East Chicago found that Lester Ottenheimer had disconnected the microphone as a joke.

Three large American film companies will quit speaking in Hungary on account of too much government interference.

WELL BALANCED DIET FOR YOUNG AMERICANS

WASHINGTON, Mar. 26.—Youth is earned by the Agriculture Department to limit the quantity of fats and sour eaten if they desire to preserve health. "Drink a pint of milk a day and stay healthy" is the new slogan drafted for junior citizens. They are also advised to include in their diets an abundance of vitamins and minerals from vegetables and fruits. To show the youth of the country the well balanced diet the Department points out that Americans should choose meat, eggs, milk, bread, and a variety of fruits and vegetables, just as Japanese select fish, rice, certain legumes, soda sauce, bamboo sprouts and persimmons.

WASHINGTON, March 26.—President Coolidge will keep the family farm at Plymouth where his father died a few days ago, it was said at the White House Friday.

FEDERAL EMPLOYEES WORK HALF CENTURY WITH ONLY SMALL SALARY INCREASE

By JOSEPH S. WASNEY (United Press Staff Correspondent) WASHINGTON, Mar. 26.—The champion long-distance woman worker in the government service is Mrs. Lillie A. Beard, expert money counter of the Treasury Department, who is just completing 55 years of service for Uncle Sam.

In an exclusive interview today with the United Press, Mrs. Beard told how, when only 15 years old, she became a government employee and now that she has handled more than \$1,000,000,000 without an error, she is ready to retire in June at the age of 70 years.

Mrs. Beard was appointed at a salary of \$900 a year, today her salary is but \$1,440 annually after all her years of labor.

"It is nice to work for the government but I really do not think that salaries are advanced sufficiently," she said. "Younger people now advance much more rapidly but they can not do the work a bit better than we did. The methods of promotion are not as fair as they should be."

Mrs. Beard has counted more than 20,000 bills in one day. She is an expert on identifying burned and mutilated currency and is an expert silver counter, readily detecting counterfeit coins from the genuine.

Right next to Mrs. Beard in the big Treasury cash room sits Miss Letitia Calhoun, the runner up for governmental service honors.

"I think the government treats its employees fairly," she said. "I do think that other departments promote their clerks more rapidly and that I would be earning more if I had started out in a different bureau."

The champion of champions, however, is James O. Manson, Knoxville, Tenn., with a record of 62 continuous years in government service.

Manson left college to become a weather bureau observer when he was 14 years old. His salary began at \$87.50 a month and he worked his way upward to \$3,600 annually as Assistant Cashier of the Treasury.

At the age of 76 Manson is now writing the history of the Treasury for the Department as he is an authority on governmental finances. It will take two years to finish his work and then he plans to continue "right along."

"If I had it to go over with I start right out working for Uncle Sam again," Manson said. The government needs efficient service as well as commercial business needs trained men and in the long run it pays to devote your entire service to the country."
