CISCO—Pop. 13,500; 1,614 feet above sea; 9 lakes water; 5 rail exits; 5 paved highway exits; 127 blocks of paved streets; A-1 public schools and Randolph college; no mosquitoes; no malaria or typhoid of local origin.

EASTLAND CO.—Area 925 square miles; population 125,000; cotton, fruit, poultry, dairying, natural gas and oil; Cisco is headquarters for operators of the greatest shallow oil field in the world.

VOLUME IX.

CISCO, TEXAS, MONDAY, MARCH 12, 1928.

NUMBER 19

## TEXAS

By WILL H. MAYES, Austin.

### DALLAS POULTRY SALES.

But for the fact that it is based on good authority one could hardly believe that Dallas does an annual poultry business of approximately \$10,000,000 a year. That is what a leading poultry and egg dealer tells us, and he says that the business has grown at least 100 per cent in the last few years. Western markets once discriminated against Texas poultry and egg-laying farmers were lax in regard to the care and handling of them, but now that the poultry business is conducted on a scientific basis all prejudice against the Texas products has disappeared. The same dealer says with the use of business methods in handling poultry flocks, good money can be made in the business, but he doubts whether farmers can make money from poultry where they buy all their feed. "They will have to raise a large part of their feed to make a job of it," he adds.

### PECAN CROP WASTE.

The Dallas county agricultural agent estimates that in favorable seasons \$500,000 worth of pecans fall to the ground in the river and creek bottoms of that county and are not gathered, but not and go to waste. If this is correct it is a safe estimate that not more than 50 per cent of the native pecans of Texas are saved. Those that are gathered and sold bring only about half what they should because of lack of organization in marketing. Too much of the pecan crop is marketed through thriftyless pecan pickers who gather half of the crop and sell in small quantities for whatever buyers offer. No other Texas crop is in worse need of co-operative marketing.

### DALLAS-LOS ANGELES BUS LINE.

Through bus service from Dallas to Los Angeles is now contemplated. For some time through tickets have been sold over connecting lines, but efforts are being made to put on a service that will, through trips between the two cities, making time as good as that on the through trains with service as good as any that can be obtained from any bus service of the country.

### BROWNSVILLE AIR PORT.

In voting bonds for a \$100,000 municipal airport Brownsville has become among the first to do what all other progressive places in Texas must do sooner or later. Every city and town that will want the advantages of air travel will have to provide landing fields. Air travel bids fair to become as popular in a few years as travel by rail. Wharton has set other places a good example by painting the name of the town in immense letters on a large, nearly flat roof, electric light at night, for the guidance of aviators.

### LOWER VALLEY PROSPECTORS.

Land companies are handling from 250 to 1,000 homesteads in the Rio Grande Lower Valley every week. Larger numbers than heretofore are buying land and settling, thus bringing about an era of steady building and development, in no sense to be characterized as a boom. High powered salesmanship, like that used in Florida and California in their boom days, is not encouraged, as experience has taught that settlers who stay "settled" are the only kind that build up a country.

### HORNED FROGS HIDING.

The Eastland frog story has created a great demand for Texas horned frogs in the Eastern markets, but the cautious frogs must have anticipated such a demand, for they are reported to be in hiding and hard to find. Ordinarily horned frogs can be picked up in great numbers around Brownsville and many other places, but they seem to have disappeared. Orders for them are at hand from numerous Eastern zoos, and inquiries from as far away as Sydney, Australia. The small boys are on the job of searching for them all over Texas.

### MAKING INDUSTRIAL SURVEY.

Tyler is systematically going about getting manufacturing industries. A survey is being made showing the industrial possibilities of the city. When it is completed the chamber of commerce will be able to answer satisfactorily almost any question in a way to locate prospective industries for which Tyler may offer a suitable location. If all other Texas cities and towns would do this the location of industries would be greatly facilitated.

### COUNTY AUXILIARIES.

Chambers of commerce are learning that one of their most important lines of work is in assisting the country communities in all their worthy endeavors. Many are organizing community auxiliaries, where no dues are charged, but which are visited by committees of the chamber of commerce and aided in all their problems in which assistance is sought.

# CONFESSES SAN ANGELO MURDERERS

## Henry Helms Refused New Trial

### APPEAL WILL BE TAKEN IN CASE, REPORT

The motion for a new trial in the case of Henry Helms, convicted and given the death sentence in the 91st district court at Eastland recently, for his participation in the bank raid here in December was denied by Judge George L. Davenport this morning. It is stated that the case will be taken to the criminal court of appeals in an effort to save Helms' life.

### GLORY TIMES IN METHODIST CHURCH SUNDAY

Testimonials of ringing spiritual victory were heard yesterday morning at the First Methodist church as the opportunity was given the elderly people to witness for the Lord. Pastor Stanford said this morning. The old hymns of the church, coupled with the praise service, caused the congregation to become so stirred that no time was given for the sermon, but the service was taken over by young and old in an old fashioned class meeting. The holy spirit was present in mighty power. Toward the close of the service pink carnations were given each elderly person. Mrs. Julia Mitchell, the only living charter member of the First Methodist church, was present and was introduced to the congregation. Among the others present were W. F. Elkins, P. P. Barbour, Brother Cook, Mrs. McCary, Mrs. E. G. Eppler, Mrs. W. T. Boyd, Mrs. P. E. Mayes, Mrs. J. A. Elliott and Mrs. Northrup. A large congregation assembled at the evening hour, and were disappointed in that Evangelist Lynn Squire had the influenza and had been ordered to his bed by his physician. The pastor preached from the old text, "Prepare to Meet Thy God." Men may not keep their engagements in this world, said the speaker, but they must keep their engagement with God. No person can escape the just and merciful judgment of God. God is all powerful, all wise, and all sufficient. God, the creator, sustainer and orderer of all life, will call every soul to render an account. No person will stand justified through his effort or his merit, but only through the shed blood of Christ will be able to stand the test of eternity.

### Aubrey Ray's Trial Called at Roby Today

Clenn Calhoun, prosecutor for the 104th judicial district, announced Saturday that Aubrey Ray, Burnie Burnett and Robert C. Peck would be arraigned today at Roby on charges of robbing the McCaulley bank. Roy Formway, Roby attorney, has been appointed by Judge W. R. Chapman to represent Aubrey Ray. Ray's mother and sister are said to be in Roby to attend the trial. The parents of Burnie Burnett, of Tishomingo, Okla., are also said to be in Roby. Ray and Peck are also charged with robbery of the Sylvester state bank.

### FIRE DESTROYS GARAGE AND AUTOS AT CARBON

Fire of unknown origin destroyed the Carbon Motor Co. and the Tate music store building in Carbon Saturday. Both buildings were a total loss. The loss on the buildings and contents was placed at \$20,000, with partial insurance. About 20 automobiles stored in the garage, owned by Tom Bennett, were burned. Tate succeeded in saving most of the contents from the music store, reports said.

### MRS. WEBB RECEIVES NEWS OF BROTHERS DEATH

Mrs. R. N. Webb has received a message stating that her brother, T. M. Richardson, had died in his home in Shawnee, Okla. On account of Mr. Webb being ill with pneumonia, Mrs. Webb was unable to attend the funeral.

### MINISTERS TO FOSTER CHURCH ATTENDANCE

The Cisco Ministerial association met in its regular semi-monthly meeting this morning at the First Christian church. The chief matter of business considered was an inter-city church going campaign, which the ministers of Ranger, Eastland, and Cisco are planning. The plans for the movement were launched at a meeting of the ministers of these towns held in Eastland on last Monday. A committee composed of the chairmen of the ministerial associations of the three cities was appointed and called to meet to work out the details of work and organization for the campaign. This committee will report in the near future and plans will be announced. A motion was passed setting the time for the Sunday evening services to begin at 7:45 o'clock after next Sunday. Those present this morning were: Chairman B. C. Boney, P. T. Stanford, Thomas Lenox, I. W. Lawrence, Acker C. Miller and Rev. Cornell.

### MYSTERY IN TWO DEATHS AT FT. WORTH

FORT WORTH, March 12.—Mystery surrounds the death of two persons whose bodies were found here Sunday morning within 35 minutes, and police are working on clues which may develop murder in at least one of the cases. The body of Leon Smith, 21, an employee of the Fort Worth Steel & Machinery company, who lives near that plant, was found at 7 o'clock on the side of the old Cleburne road, two miles south of the Baptist Seminary by A. R. Parks, a dairy truck driver. Ki Balch, justice of the peace, said a hat and cap were found by the side of the body. The hat was identified as that of the dead man, but the owner of the cap has not been identified. This led Balch to order an autopsy and withhold a verdict as to the cause of death until further investigation is made. Balch said the autopsy would be made today, after which he would hold an inquest. The body of Dewey Lacy was found in a stable at 7:35 a. m. by R. E. Turner. The head was badly crushed. A brick covered with blood was lying beside the body. Police made a report that Lacy had been murdered. However members of the detective department are not sure of it, as the wound in the man's head is crescent-shaped, and they believe he may have been stepped on by a mule.

### LONDON TYPIST FAILS AGAIN IN SWIM OF STRAIT

LONDON, March 12.—The third attempt of Mercedes Gleitze, London typist, to swim the straits of Gibraltar today failed when, after battling the icy water and unfavorable currents, she was forced to abandon the swim when only a mile and quarter from her goal.

### Eastland Woman Has Attorney's License

An Eastland woman has been granted license to practice law. Mrs. Charles C. Robey, wife of Judge Robey, has the distinction of being the only woman lawyer in West Texas, according to the best information that has reached the Daily News. Mrs. Robey has already appeared at the bar of the Eastland county courts, having mustered her first case which was an uncontested divorce suit.

### WHERE WAR MENACES ENGLAND

Real war is facing Great Britain. King of Hedjaz and Sultan of Nejd force of troops and is ready to advance, and Iraq. British troops will help.

### Dabney Favors Air City Auditorium For Early

Guy Dabney, president of the Cisco chamber of commerce, is thoroughly sold on an airport for Cisco, and has had this proposition under consideration for the past two years, he stated, when the subject was brought up by a representative of the Daily News this morning. "I think Cisco should by all means have an airport, and this is one of the new projects I would like to see the chamber of commerce put over. The airport and a municipal auditorium and gymnasium are two projects the city should meet in need of, and I shall lend my efforts to the accomplishment of these projects just as soon as we can get the hotel under construction. For the time being the people of Cisco have been too much engrossed in the completion of the hotel subscriptions to take on any new enterprises. "I favor building at the earliest possible date, a municipal auditorium with a gymnasium underneath, each with a seating capacity of not less than 1,000. I think this gym is a necessary institution, not only for the school athletic teams, but it could be used as a playground for older people, who would be benefited by taking such athletic exercise which they stand most in need of. Then all will admit that a large and comfortable auditorium is something that should be in every town. The auditorium and airport are matters that will be placed before the chamber of commerce in the near future, or as stated, when we get the hotel preliminaries out of the way. "Reverting to the airport: I have been studying this proposition for the past two years, and have given the matter much thought and careful consideration. The principal difficulty is finding a suitable location that is available." Mr. Dabney said. "There are many things to take into consideration in planning an airport. First, to attract attention as a national proposition and as an inducement to secure annual service, the field must not be less than 900 feet square, and should be 1,000 feet square. The ground must be owned and devoted exclusively to air purposes. The location should be on a slightly elevated plateau, free from washes, hills or other obstructions, and should be well sodded in grass. The airport, of course, should be as near the business section as possible, and on a paved highway or easily accessible to a good highway. Then it should be located where an electric car can reach it, for an airport must be provided with lights showing all boundaries, to guide the

### ARMY CLEARS DEBRIS AFTER DEADLY SLIDE

SANTOS, Brazil, March 12.—Army workers are today feverishly clearing away the debris of Saturday's landslide from Monte Serrat. The death list is placed at 40, but others also are missing.

### L NATURE

and wild plum blossoms in decorating the rooms. The hostess, assisted by Mrs. Cecil McCord and Mrs. W. L. Shannon, served a very attractive salad plate with the club flower, which is the violet, as favors. The guest list included Medames C. L. Orr, L. D. Parks, J. J. Youngblood, G. M. Stephenson, Joe Wilson, Will Cunningham, J. E. Griffin, J. D. Barker, D. P. Condit, C. H. Fleming, Sherman Roberts, J. L. Shepherd, George

## SPECIAL!

Beginning Monday 12th we are giving you the benefit of special prices through the week. Madame Hudson Facials ..... \$1.00, \$1.50, \$2.00 Permanents—Eugene and Vita Tonic ..... \$8.50 and \$9.50 Shampoo and Marcel ..... \$1.50

Mrs. Lewis will be glad to consult with all over the about the proper treatment of your hair, and scalp, etc. She has returned to be permanent, and the newest hair dresses and to model your hair as best favor buying the land and any consideration of less tract of land is untenable. "The city owns considerable acreage, some of which I have examined, but hardly think it available, but there are several splendid sites that would make an excellent airport if they could be had at reasonable prices. I think the field should be located somewhere between the city and Lake Cisco, as most of the city's activities are in that vicinity, which is the proper place for the airport, if the land can be obtained," Mr. Dabney concluded.

### ROADS WOULD NOT BUY UNION MINED COAL

WASHINGTON, March 12.—Direct testimony that the Pennsylvania railroad refused to buy coal mined by union employees was given before the senate interstate commerce committee today by Thomas Sagie, general manager of the Roseville Ohio Coal company. Sagie declared that Henry Owens, purchasing agent for the Pennsylvania road, said his road "wouldn't buy me or any other operator any price for coal that justified paying Jacksonville union wage scale." He stated that the Pennsylvania pulled its siding out of his mine property.

### New Editor Ranger Times Is Announced

RANGER, March 12.—George J. Langsdale has succeeded George R. Kelly in the latter's editorial position on the Ranger Times and the Eastland Telegram. Mr. Kelly has been taken up new duties in Fort Worth. Prior to coming to Ranger Mr. Langsdale was with the Binghamton Press, of Binghamton, N. Y., and has been connected with newspapers at Atlanta, Chicago and Los Angeles.

### JUNIOR LEAGUE HOLD CARNIVAL TOMORROW

The Junior league of the First Methodist church announces a carnival to be given in the basement of the church, beginning Tuesday afternoon at 4 o'clock. Plenty of fun is promised for the day, and all are invited to be with their nickels and dimes

Why Pay War Prices?

THE GOVERNMENT USED MILLIONS OF POUNDS

THOSE Dressing Gowns, House Robes, etc. when soiled and mussed, can be restored to their pristine glory of bright colors and fresh, attractive appearance, if you will let us dry clean and press them.

No garment is too elaborate or dainty for us to safely and successfully finish.

The charges are so moderate as to make the work satisfactory.

## DeLuxe

Master Cleaners and Dyers

Workmen have been busy today taking the "kink" out of the city flag pole standing at the intersection of D avenue and Broadway. The pole is also being given a coat of paint. During the miniature cyclone that swept through Cisco in the spring of 1922 the pole was blown off its equilibrium several degrees, and has reclined at a considerable angle since that stiff blow. The "kink" or bend has been taken out by the pole having been pulled back to a perpendicular position, and today is practically straight. The pole is 75 feet high.

## FEDERAL TIRES

features and taking a humorous interest in the new month Sol, to be inserted between June and July, and wondering what's going to happen to a lot of birthdays. When the public assumes that a change is coming, it's almost here. This is a remarkable phenomenon. Calendars have usually been held sacred. People have been seriously addicted to them and feared any change as unsettling and ominous. Julius Caesar was able to establish the calendar in about it present form only because he possessed overwhelming dictatorial power. Now, when people quietly acquiesce in a revolutionary calendar reform, it shows a notable condition of open-mindedness and progressiveness. Change is easier than cynics have supposed.

Any impression that the marines haven't been conquering in Nicaragua is removed by the American commander's appeal to Nicaraguan girls not to marry marines.

EIGHTY MILLION CARS

It may be absurd to say that there will ever be 80,000,000 cars running in the United States. But a few years ago it would have seemed absurd to say that there would ever be 23,000,000. The reckoning is simple. By the year 2,000 our population will probably reach 240,000,000,000, by a conservative estimate. Suppose there will then be as many cars per capita in the whole country as there are today in Los Angeles. There will be one-third as many cars as people, or 80,000,000 in all. What will our grandchildren do with all those cars? They will drive them, and consider it normal. With multiplication of people and cars will go multiplication of roads, bridges and better paving, safer streets and better lighting.

QUICK REFERENCE CLASSIFIED ADS

There is a Place for Everything and Everything in Its Place

These inexpensive advertisements are a "Clearing House" for most everything, such as Buying, Selling, Renting, Restoring Lost articles, Finding Help or Employment and Securing New Patronage for your business.

CLASSIFIED ADVERTISING RATES AND REGULATIONS

ALL CLASSIFIED advertising is payable in advance, but copy MAY be telephoned to the Cisco Daily News office and paid for as soon as collector calls.

RATES: Two cents per word for one time; four cents per word for three times; eight cents per word for six times; twenty-five cents per word for one month; and sixty-five cents per word for three months order.

CLOSING HOUR: Copy received up to 10:00 a. m. will be published the same day.

DISTRIBUTION: A one time ad will be printed in at least 2,325 papers and reach a reader interest of an average of five persons to each paper or more than 11,000 people. A week's ad will be printed in 14,800 papers which includes the American and Roundup or a total interest of 71,545. A month's ad includes 62,000 papers with 310,000 reader interest. A 3-months ad amounts up to 196,000 papers or over a million reader interest.

TELEPHONE 80 and place your copy with understanding that payment will be made at once, collector will call the same day or day following. Copy is received any hour from 8:00 a. m. until 5:00 p. m.

ROAD FILLERS Thompsonville, Conn., is using about 300 old motor cars to fill a big hole which recently appeared when a stretch of roadway 50 feet by 100 dropped out of sight. Sand, cinders, etc., were dumped into the hole without avail. Then the section men started buying up all the old cars they could get, at \$5 to \$15 apiece. This is an admirable use of a lot of the junk now cluttering highways in every community in the U. S. GRIM SPORT the famous English school.

named school it was all a days to say that won on Eton playing more important today Davis Cup or the Wimbledon. So here is the craze for competitive and the mania for championships. Even Eton boys must ake their brows, thrust out their es and go in for victory or death. We Americans and English used to play for fun and health. Now we take our sports with such tremendous seriousness that the fun has gone out of them.

TRAFFIC FOOLISHNESS In one block of one street in a certain city, observes a traffic expert, "5,000 street car riders a day are discommoded for the convenience of 20 automobile owners who park there while they attend a theater or go shopping." The police ought to be able to attend to that. But here is another bit of traffic foolishness which is more difficult to deal with: In every city in America, every day, there are long lines of automobiles trailing after street cars, starting and stopping, starting and stopping, block after block, discommoding all the motorists, causing accidents, slowing down traffic and slowing the pulse of the city's life. A majority is held back for a minority. How about that? Motor cars cannot be allowed to dash past stopping street cars; but surely there is some remedy.

There seems to be some business nowadays as to whether the constitutional prohibition of unreasonable search and seizure is constitutional. If and when that Florida sky-rocketer hops to Venus, they'll arrest him for landing without a permit.

AIR POSTAGE The house of representatives has passed the Kelly bill, which extends air mail contracts and, more important still, reduces the postage rate from 10 cents a half-ounce to 3 cents an ounce. The measure is now before the senate. If the senate has any doubt as to how the public feels about this matter, it should be told. There has been little attention paid to the bill, less than it deserves, but citizens aware of its terms and purposes seem almost unanimously in favor of it. Present air postage is prohibitively expensive. The new rate would benefit business and do the general public a service. It should provide for an increase of patronage and revenue as would support a rapid extension of all air mail.

SPEND TIME AT MINE FEUD IN JAIL

Powers Haggood and his wife, Mary Donovan, who are alleged to have incited a riot in connection with the mine feud at Pittston, Pa., are held in the town jail under \$1,000 bail. They were arrested while staging a protest meeting at the local armory.

Untimely "Breaks" Beat Lobo Cagers in State Tournament; Team Has Great Season Record

By W. B. CHAPMAN. Cisco High School's Big Dab fighting Lobos came very close to entering the semi-finals of the state championship tournament held in Austin last Friday and Saturday and but for one or two bad breaks might have done so and gone even farther. These breaks are all a part of the game and the Lobos are not kicking for next year they may profit by the experience. Friday afternoon the Lobos defeated Lubbock in what the state papers called a rambunctious game. At the end of the first quarter Lubbock was leading by the score of 13 to 4. The Lobos rallied in the second quarter and at the half the score was 16 to 15 in favor of the Lobos. The Lobos played circles around Lubbock in the second half and the final score was 23 to 20. All of the Lobos were in on the scoring in this game. Keys and Van Horn each made 8 points. Little made 7, B. Pippen 6, and H. Pippen 4. Dorell of Lubbock, also made 8 points and Ater 7. This game was played at 4 o'clock and the heat in the university gym was suffocating. Then the Lobos had to play again at 9 o'clock Friday night against Forest Avenue high school. Forest had drawn a bye and did not have to play in the first round consequently was fresh. While the Lobos had had a hard game five hours before. This was one of the bad breaks. At that, the Lobos outplayed them and led in the scoring up until the last three minutes of the game, when Forest went into the lead through some brilliant goal shooting. The Lobos led at the half by a score of 11 to 6.

They lost to Ranger in the Ranger "cracker box" by the score of 11 to 9 and then in the state meet they lost to Forest High by the score of 22 to 21. Ranger was the only team in the county to give the Lobos serious opposition. In the district meet the Lobos had easy sailing, and won all games played without any trouble, defeating Strawn by the score of 31 to 14; Tolar by the score of 51 to 13; and Stephenville in the finals by the score of 34 to 19. In the bi-district games the Lobos had two of the hardest games played in years, but managed to defeat their ancient and honored rivals, the Abilene Eagles, by the score of 20 to 19 and 21 to 13. Then in the first round of the state tournament they defeated Lubbock by the score of 33 to 20 and finally lost in the second round to the Forest Avenue high school team of Dallas by the close margin of 22 to 21. The Lobo basketekers were coached by Coach "Crip" Golightly, handling the team for his second season. They have gone to the state tournament both years and lost but four games out of fifty played during the two years. This is a remarkable record in view of the many games played, and the quality of the opposition. The biggest handicap that the Lobos play under is that of practicing and playing all home games on a small court and then having to play the district, bi-district and state tournament games on maximum size courts. All persons who have played basketball realize how much of a handicap this is. The Lobos lost to Forest by one point. Had they been practicing all year on a maximum size court as Forest had they would probably have won this game. Cisco cannot expect a basketball team to go very far in the state race if they are forced to continue to play under this handicap.

Coach Golightly has awarded letters to seven of the Lobo basketekers. Four of the seven will be back next season. Captain Brit Pippen, Goobar Keyes and Bill Smith have played their last game with the Lobo basketball team. The other four letters men are "Cotton" Pippen, George Van Horn, Ollie Little and O. C. Ray. Quinley Lee was given a manager's letter. Had the Lobos not had to play Friday afternoon and then go against a fresh team Friday night, and B. Pippen had not fouled out, and Bill Smith not been sick, the Lobos might have been rated the fourth best team in the state and possibly better. The Lobos are not complaining for these were simply unfortunate breaks and are all a part of the game. However, it is human to speculate on what might have been and to figure possibilities.

American Delights Mrs. M. A. Rowland Mrs. M. A. Rowland, farmer Cisco lady, in renewing her subscription to the weekly American and Roundup, writes from Berros, California, that she is always delighted when the American and Roundup comes and brings "the news from home."

CHILDREN SEE MOTHER KILL DAD

A bitter parental quarrel ending in the fatal shooting of their father was the tragic Chicago drama witnessed by these three children of Mrs. Anna Downing, confessed murderer, shown here with her fatherless youngsters.

OF A SOCIAL NATURE

The Week's Calendar Tuesday The Baptist W. M. S. will not meet on account of the all day meeting of Workers' Council. South Circle of the Methodist Missionary society will meet at the home of Mrs. B. E. Morehart on West Eleventh street. Circle One of the Presbyterian church will meet with Mrs. Homer Slicker, 1011 West Tenth street. Circle Two of the Presbyterian church will meet with Mrs. J. W. La Munyon at 3 o'clock. Circle 3 of First Christian church will meet with Mrs. H. H. Davis, 1484 N. avenue, at 3 o'clock. Circle One of the First Methodist church will meet Tuesday afternoon at 3 o'clock with Mrs. C. A. Waid, 903 West Fifth street. Wednesday Wednesday Study club meets with Miss Louise Karkkila at 4 o'clock. Y. H. T. H. Bridge club meets with Mrs. James Bates at her home on West Ninth street. Thursday Mrs. Dewey Neal and Mrs. W. T. Graham will entertain with bridge. First Industrial Arts club meets at the home of Mrs. D. P. Condit, 708 West Broadway. Friday Entre Nous Bridge club meets with Mrs. P. J. Connolly, 304 West Seventh street. Art Tea Announced For March 16. The Twentieth Century club invites the public to attend an art tea on March 16, at the First Baptist church at 4 o'clock in the afternoon. Various objects of art will be on display. The program will include negro spirituals. Three charter members of the club will be represented in period costumes by Misses McClinton, Baker and Clayson. Mrs. J. J. Olson Entertains With 42 Saturday Afternoon. Mrs. A. J. Olson entertained the members and other guests of the First Industrial Arts club Saturday afternoon with a 42 party at her home on West Ninth street. The club colors of violet and white were used most effectively with violets.

and wild plum blossoms in decorating the rooms. The hostess, assisted by Mrs. Cecil McCord and Mrs. W. L. Shannon, served a very attractive salad plate with the club flower, which is the violet, as favors. The guest list included Mesdames C. L. Orr, L. D. Parks, J. J. Youngblood, G. M. Stephenson, Joe Wilson, Will Cunningham, J. E. Griffin, J. D. Barker, D. P. Condit, C. H. Fleming, Sherman Roberts, J. L. Shepherd, George...

Pilots Indians

Roger Peckinpaugh, voted the "most valuable player" of the American League in 1925, wears the managerial mantle becomingly this Spring as he warms up his Cleveland "Indians" in New Orleans sunshine.

D. Fee, W. L. Holmesy, G. B. Kelly, J. R. Barnett, C. L. Mount, H. A. Bible, W. L. Shannon and Cecil McCord. The favors in the game were awarded Mrs. J. D. Barker the high score, and Mrs. J. J. Youngblood, the consolation prize.

Mrs. Hyler Lee Entertains Pan Hellenic Club.

Mrs. Hyler Lee entertained the members of the Pan Hellenic club Saturday afternoon at her home on West Sixth street. The meeting was called to order by the president and eight members answered to roll call. During the business meeting officers for the coming year were elected as follows: Mrs. W. K. Espen, president; Mrs. L. Wrightman, secretary; Miss Helen Clayson, vice president; Miss Theresa Lee, treasurer. Plans were discussed for the next meeting, which will be a joint meeting when the Eastland Pan Hellenic members will be guests of the local club. This meeting will be held at the Green Lantern Tea room. The hostess served a very attractive salad plate to the following members: Mesdames C. B. Williams, L. Wrightman, P. A. Blankenbecker, Bob Herron, Dewey Neal, Misses Lavonia Baker, Theresa Lee and Helen Clayson.

# Record and Platform of Hon. Thomas L. Blanton

## Recognized Specialist in the Elimination of Extravagance and Waste, Asks Senate Seat

### TO THE PEOPLE OF TEXAS:

Seeking promotion, but no financial gain, I voluntarily give up my house position of high honor and the same salary Mr. Mayfield receives, for an opportunity to better serve you, in the senate. High office should not be used for pleasure-getting, money-making, globe-junketing, or personal aggrandizement; but solely as a means of rendering maximum service that best benefits alike all of the people.

### Proper Standards of Qualification.

Senators should not be social butterflies, lazy, indifferent, ease-loving and yoke-bound, but should be sober, law-abiding, honest, conscientious, sincere, industrious, tireless, painstaking, courageous, unselfish, dependable, in good health, punctually present at all sessions, wholly uncontrolled by special interests, and representing no selfish sects, but faithfully representing all of the people. Voting with the "gang" for every treasury raid, and following the path of least resistance, insures popularity with colleagues and the press gallery, but makes him absolutely worthless to constituents. He must be willing to fight a man's fight, uncompromisingly, when fight only will protect the public. The issue is: which candidate is best trained, best equipped, best qualified, best intentioned, best measures up to the proper standard, and is best prepared to render maximum service of greatest value to all of the people of Texas?

### Candidates Should Come With Records of Public Service.

By their fruits ye shall know them is a safe guide. The fruits-bearing should cover many seasons of worth-while service. I submit my 20 years record as justifying promotion. Dr. C. C. Coleman, now pastor of the First Baptist church, Waco, in 1911 wrote me:

"Your course on the bench has given me a world of fresh hope for our institutions. You have demonstrated that a fearless, patriotic judge can do wonders in spite of cumbersome precedents and methods of procedure and a prevailing laxity of public opinion. I have often thanked God we have you in this bench."

One of my most priceless possessions is the following testimonial signed in 1916 by many leading citizens of the counties of Taylor, Shackelford, Stephens, Eastland and Callahan, to wit:

"We, the undersigned, heartily endorse Judge Thomas L. Blanton for congress. During his eight years as district judge he has faithfully kept every promise to the people, has impartially enforced the law without fear or favor, has kept strict order, has dispatched business and cleared the dockets, has forced all citizens alike to do service as jurors and witnesses, and has economically conducted the courts. His honesty, integrity, ability, and unsurpassed energy are such as would make him an ideal congressman. We know him to be fair and impartial in passing upon all questions. In his private life he has advocated that which was pure and right, always fighting openly all kinds of vice, and he has given his time and money in the defense

### WHY TRY TO HIDE PIMPLES AND RASHES?

Why try to cover up unsightly pimples, rashes and other embarrassing skin blemishes when it is possible to get rid of them completely?

The sensible and easy way to have a clear, healthy skin is to go to your druggist, ask for Black and White Ointment and use it according to directions. It is pleasant to use, highly beneficial and scientifically safe.

For best results use Black and White Skin Soap with Black and White Ointment. All dealers sell them at small cost.

### NEED GLASSES?

See Prof. J. D. Shaw, 1012 W. 5th. Everything first class. He will save you money. Phone 554-w for appointment.

THOMAS L. BLANTON

I carefully compare all annual supply bills with those of previous years, and have saved millions by knocking out unauthorized rises with proper points of order. By digging up records and briefing facts, I have blocked many bad claims. By posting myself, I have stopped many pet schemes. But I made enemies both of colleagues and the press gallery. It was hard work that should be done by somebody. I did it. I have not missed a roll call this session. I did not miss any last session. During the last two sessions of the 67th congress, Mr. Ricketts and myself were the only two members who answered all roll calls.

### Minority Reports My Strong Weapon.

By filing minority reports with facts well briefed, I have killed many bad bills, and saved many millions. I cite a few: The Sevier Claim of \$66,736,387.60; the Great Falls Project of \$75,000,000; many bills to create additional holidays. My fight helped to preserve for the people our \$150,000,000 Muscle Shoals.

### Caused Removals and Resignations.

My investigations and reports forced Insurance Commissioner Miller to be removed; caused Captain W. L. McMorris to be removed as superintendent of park police; caused Colonel Sherrill to resign as superintendent of public buildings and parks; forced Commissioner Penning to resign; forced Commissioner Rudolph to resign; showed Secretary Fall's method of buying valuable government property at nominal price for his own ranch; disclosed Colonel Charles R. Forbes' misappropriation of Veteran Bureau funds; finally landed in the penitentiary. I forced the reinstatement of Inspector Albert J. Headley, who had been cruelly wronged. My investigations during this session have developed much rottenness in high places.

### Stopped Government Aid to Noted Criminals.

On June 27, 1919, the house passed my resolution No. 128 forcing Secretary of Labor Wilson to report activities of Director Denison, evidencing his waste, extravagance, graft and commission bribery to aid the anarchist, Tom Mooney. I blocked four proposals each to give Denison \$10,000,000 to waste, thus saving it. Most Assimilate Foreigners Already Here.

The 1920 census shows 5,336,605 aliens within the United States, making no attempt to become naturalized. Five hundred thousand new ones come annually, lawfully and unlawfully. My bill would suspend all immigration until 1925, require registration of all aliens here and a proper check upon them thereafter; give them two years to become citizens, deporting those failing; provide Americanization of those retained; and under proper safeguards admit seasonal emergency farm help from Mexico. This would save our jobs for Americans, and maintain our American standard of living. Colonel Winfield Scott reports there are 2,709 foreign-born on our pension rolls who reside in foreign countries. Many hate our flag, spitefully abuse our institutions, ridicule Americans abroad, owe allegiance to foreign potentates, and are not responsive to our call, and they should be dropped from our rolls and not paid longer.

### Labor and Capital.

I am their friend when they are right, I am against them when they are wrong. I am against strong-arm, arbitrary, radical methods.

Many Perquisites Petty Graft. I have consistently fought and opposed the following: raising our own salaries, excess mileage, junkets, furnishing annually to us free cedar and rosewood chests, paying government salaries to barbers, chiropractors, manicurists, bath attendants, body rubbers, restaurant cooks and waiters, paying for all furnishings and losses of the Senate and House restaurant, and selling various merchandise to us as office supplies on our stationery allowances. Such fights lost me the friendship of many colleagues. To stop it finally I exhibited on the house floor in debate many such articles so secured from the stationery room: pearl-handled manicure set, fine carving set, fine ladies' toilet set, ostrich leather overnight bag, playing cards by the gross, poker set, whiskey flask, and many other valuable articles not office supplies. I showed that mileage of our Texas members averaged \$750.48 each per session, or \$2-

191.44 each per Congress of three sessions where there was a called session. Three months later, I was denounced by a specially staged floor attack for making public such facts. But such publicity caused congress to pass a law permitting only office supplies there.

### Denounced Again for Doing My Duty.

On January 11, 1921 my point of order killed Campbell's amendment to raise salaries to \$10,000. The next day, the Star-Telegram with heading: "Blanton Blocks Salary Increase," showed that my point of order killed it. That same day Langley introduced a bill to build a government hotel for members and their families. I immediately denounced it. On January 22, 1921 Campbell introduced a bill to raise salaries to \$10,000. The Herald then stated: "An increasingly strong sentiment is developing for such raise." On January 24, Senator Sherman introduced his bill, S. 4920, to raise salaries to \$12,000. On February 3, 1921, Senator Moses proposed a like increase. Previously in an article headed "Salary Grab Coming," a labor paper said that members were preparing to boost their pay to \$10,000. I learned that it would be forced through shortly before we adjourned March 4, 1921. Campbell requested me to absent myself. I refused. Strong asked me not to have a record. I knew there was but one way to stop it. I appealed to the outside press. I sent a letter embracing the above facts to every newspaper in Texas, and to all prominent papers in the United States, urging them to stop it. They specifically stated they would not. I then staged floor attack by disappointed colleagues, one asserting that I had lied on them, as they had no intention of raising salaries. Thus I kept it back four years, saving \$1,327,500 annually. But in the night time on February 17, 1925 with but few senators present, the senate passed a rider raising salaries to \$10,000, and the house forced it through without allowing a roll call, despite an earnest fight by Black, Cannon and myself.

### Persecuted Again for Doing My Duty.

On October 22, 1921, with leave granted, I published in the record my nine page report of the horrible conditions my investigation disclosed as existing in our government printing office, where 4440 Americans work. Because my report quoted a short affidavit filed by an employe, depicting inhuman treatment accorded him by a union foreman, Republican Leader Mondell used that as an excuse to try to get me out of congress, although I had deleted the bad language of said foreman. Mondell had my report expunged, and though he had a Republican majority of 170 members, he could induce only 204 of the 435 members to vote to put me out, notwithstanding many of them disliked me for blocking many of their bills. Only 91 of said 204 members still remain in the house. In the next election, although he had been the sole and only congressman from the state of Wyoming for 26 years, Mondell was defeated for the senate by a Democrat, carrying only one county in his state, while Wyoming elected a Republican to succeed Mondell in the house. In this present session of congress, I had this expunged report reprinted in the Congressional Record, with no member objecting. I have made such fights in congress for the people. I have been told that the people don't appreciate worth while service—that they don't care what senators and congressmen do, and that the members who takes things easy, and have a good time, and see the world at public expense, are the ones usually re-elected without opposition. Now I want to find out whether the people really care, and whether they will reward and promote a man who has slaved and sacrificed for them constantly for eleven years. A senator may be an ornate, able, truthful, honorable, dignified, and popular, yet be absolutely worthless to the people, if he doesn't toil, if he is silent when he should speak, if he is passive when he should act, and if he votes "yes" when he should vote "no."

### For Strict Enforcement of All Laws.

I will faithfully keep my oath, and uphold, obey, and defend the Constitution and all laws, and do my dead level best to have them strictly enforced. Senators should not have special immunities.

### Dependable Friend of Farmer and Stockman.

In 1925, there were 383,920 white families farming in Texas, 219,385 being tenants, an increase of 7 per cent tenants over 1920. There were 5,000,000 less acres farmed in Texas in 1925 than in 1920. There remains but one answer. Farmers are being starved out. Producers must have maximum marketing facilities, lower freight rates, ample capital to hold their crops, and must have full share in all holding profits, arranged through sane and wholesome laws. My bill would stop all gambling on exchanges in cotton, wool, mohair and grain futures, which rob farmers annually. Commercial utilization must be found for waste products such as grain straw, cotton and corn stalks, peanut hulls, cotton seed hulls, chaff and shucks, with which our bureau of standards is now conducting interesting experiments, prom-

ising valuable aid to farmers. The 3,000,000 bales of low grade cotton raised annually, which usually brings only 4 to 6 cents must find maximum utilization. My bill would create an embargo against all jute and jute products, and prohibit products wrapped in jute bagging from entering interstate commerce, and would require cotton to be sold by net weight. This would force cotton-bagging, and sacks for sugar, salt, cement and sand to be made of cotton, utilizing to great advantage our entire crop of low grades. In 1927 there were 836 tons of raw jute, duty free, and 66,000,000 pounds of jute bagging, bearing small duty, imported here from India.

### Make New England Share Tariff Benefits With Producers.

I am for a tariff for revenue only. But we must collect for revenue from custom houses annually \$500,000,000 in tariffs. I am for removing the tariff from all commodities used in manufacturing farm utensils and machinery which farmers must buy, and placing such a tariff as will equalize the cost of production upon all products of the farms and ranches, so that our farmers and stockmen will no longer buy in a protected market, and sell in an open one competing with the peon labor of the world. In my speech December 22, 1920, when we passed the emergency tariff bill for farmers and ranchmen, I showed that during the preceding fiscal year the importations from foreign countries embraced 68,359,825 pounds of calf hides, 439,461,092 pounds of cow hides, 290,748,340 pounds of buffalo, caribba and other hides; 42,438,333 pounds of beef and veal; 16,358,298 pounds of mutton and lamb; 145,026,652 pounds of oil cake, and 582,382,276 pounds of vegetable oils, all raised by cheap labor in foreign countries and competing directly with our farmers and ranchmen. I then introduced a bill to create an embargo against all cattle and sheep and beef and mutton from South America, and I still favor such embargo, as a safeguard against foot and mouth disease. I endorse the program of the Sheep and Goat Raisers association, of the American National Livestock association and of the Texas Cattle Raisers association, and give them my backing. I will vote for any sane measure, endorsed by farmers, that promises them any relief. I have aided and supported my colleagues, Mr. Jones, in his debenture plan. Since we have forced the senate to eliminate from the McNary-Haugen bill the \$25,000,000,000 waste that was in it, and to strike from it the provision that made criminals of farmers who didn't pay the equalization tax and fined them \$5,000 with imprisonment for one year, I will vote again as I did last year for this revised bill, if farmers are offered nothing better, because they must have some relief. When they ask for bread, I am not going to give them a stone.

### Bankruptcy Act Must Be Perfected.

During the last fiscal year there were 46,758 bankruptcies, freeing debtors of just obligations aggregating \$885,557,006, an increase of \$80,000,000 over the preceding year, which loss consumers must sustain annually. From June 1, 1925, to December 31, 1927, the Credit Men's association received 1,789 complaints of frauds, and secured 932 indictments, and 358 convictions. This law must be properly perfected with amendments.

### Checks on Federal Reserve System.

Congress restricted salaries of members of the Federal Reserve board to \$12,000, yet said board pays unconscionable salaries to its 265 officers and 10,000 employees. Two receive \$5,000 each, one \$40,000, one \$36,000, three \$30,000 each, \$25,000 and eleven \$20,000 each. My bill would stop this and limit them to \$15,000, and prevent construction of any more extravagant, palatial buildings except by permit of congress. Without a dissenting vote, the senate last session passed senate bill 3657 that would have pensioned all the above high salaried officials on 60 per cent of their huge salaries for life, 30 per cent of same to be paid out of government funds. I helped to kill this measure.

### For Reducing House Membership to 306.

The house with 435 members is unwieldy, top-heavy, inefficient, careless, and not conducive to good legislation. Only a few regularly attended sessions. Half do not know "what it is all about."

### Pledge.

If my fellow Texans will send me to the senate, I pledge them that I will be at all sessions, that I will know all about every measure that comes up, that I will fight, uncompromisingly, all waste, extravagance and graft, and that I will give them a worthwhile service of a new kind, to which they are entitled, but which Mayfield can never give them.

### Here's Omega On Horned Frog Tale

The Rip Van Winkle horned frog of Eastland is responsible for a multitude of tales concerning the reptiles. George Henkel, Dallas taxidermist, tells this one, "without winking, thinking or drinking," in the current issue of the magazine Time:

"I know more about horned toads, I reckon, than any man in Texas, both inside and out. I have mounted everything from a humming bird to a Texas steer with horns eight feet long from tip to tip.

"Thirty years ago I opened an office at Waco, when horned toads were so plentiful that boys were selling them for five cents

each. I conceived the idea of mounting a few of the larger specimens and using them for pen racks.

"When I got hold of a big bull horned toad one day I saturated a rag with chloroform and held it under his nose long enough to have killed a bulldog.

"Well, sir, in place of that toad going to sleep, it reared up on its hind legs and wanted to fight me.

"I put him in a cigar box and saturated cotton with a teaspoonful of chloroform and put that in there with him, and then placed a pound weight on the box lid. The next morning Mr. Toad was gone. He had pulled a Houdini during the night and disappeared.

"A horned toad is nothing more than a little alligator that's been stepped on and mashed flat, and

like his forbears that hibernate for months or years at a time, does not bother about the lapse of time.

"Did I ever kill one? I can't say that I did. I stuck a needle through the back of one's neck and as far as I could tell it was dead. I stuffed it and was using it for a pen rack until it began crawling around over the desk, and I finally had to glue it down."

News stories announce that thieves who looted a local office got \$20 and overlooked \$300. It's things like that that make burglars think crime news shouldn't be published. — The Akron Beacon Journal.

Our country is that spot to which our heart is bound.—Voltaire.

## An Outstanding Value

### DUNCAN PHYFE DINING SUITE IN A LUSTROUS WALNUT FINISH

An outstanding beauty is this new Suite consisting of the eight foot extension table and 5 chairs. Buffet and China can be purchased separately. Beautifully finished in rich Walnut. Table top is five ply veneer. Chair seats are covered in fine quality.

### MAYFIELD IN FAVOR OF U. S. ERADICATION

WASHINGTON, March 12.—Senator Earle B. Mayfield, in addressing the senate on his measure which provides that the federal government shall bear the full costs of control and eradication of livestock diseases and agricultural pests, brought into the United States from foreign countries, said: "The invasions of live stock diseases and agricultural pests into the United States from foreign countries always affect the common prosperity, constitute a national menace, and threaten the general welfare. It should, therefore, be the policy of the federal government to bear the entire expense of eradicating such diseases and pests including all damages to live stock producers for the destruction of their live stock and to farmers by reason of the establishment of non-cotton zones by the federal or state authority."

"Acting under the authority of the law of the state in which the invasions may take place, the federal government assumes direct control. The policy to be followed and the measures to be employed are determined by the federal government, the state being given no power or authority whatever. During the last few years, Texas has had two experiences of these invasions which she has not forgotten. The first of these was the pink boll worm pest which came into our state from Mexico on account of inadequate quarantine facilities and supervision, and the second was the foot and mouth disease which came into Texas from a foreign country on account of lack of proper quarantine supervision. The loss to our live stock producers and farmers on account of these two invasions can never be truly estimated, but they are as nothing compared to the losses which our cotton farmers in West Texas will sustain on account of the new invasion of the pink boll worm from Mexico, according to reports which have been made to federal and state authorities."

### COAL STRIKE LEADERS ARRESTED

Infracting a riot were the charges filed against the two strike leaders, Brophy and Toohy, after they had addressed a meeting of the striking miners at Rendon near Pittsburgh. Photo shows a Pennsylvania state trooper escorting Brophy from the headquarters after police had broken up the meeting. (International Newsreel)

### United States Will Fix Blood Stream of Nation by New Law On Immigration Effective July 1

#### WEST TEXAS PRODUCTION BOOSTED 8,000

For the week ending March 3 the average daily production in West Central Texas counties was shown to be 62,800 barrels, against 53,000 for the previous week ending February 25, according to figures given out by the American Petroleum Institute. The production by counties are as follows: Brown, 12,250, decrease, 250; Callahan, 4,000, increase, 200; Coleman, 1,550, increase, 100; Eastland-Desdemona, 8,500, decrease, 200; Jack, 1,550, increase, 50; Palo Pinto 500; Shackelford, 6,500, increase 150; Stephens, 7,700, increase, 50; Tarrant, 1,650, increase, 50; Young, 8,700, decrease 250; other counties, 500. Production in other districts of the state are as follows: Panhandle, 72,850; previous week, 73,150. North Texas, 68,200; previous week, 68,350. West Texas, 405,600; previous week, 297,900. East Central, 23,100; previous week, 23,500. Southwest Texas, 545,950; previous week, 540,300. Gulf Coast, 643,400; previous week, 639,400.

#### DECREE KILLS OLD MEXICAN TYPE OFFICIAL

EL PASO, March 12.—The old order changes. As the Old West with its boots and spurs cowboy has gone, so must go the old picturesque Mexican border official. No longer need the timid traveler entering the Southern Republic via border ports of entry, gaze furtively over his shoulder in fear of bandits, revolutionists, or what have you, Mexican officialdom, it seems, has long sensed the malign influence of the sombrero, the bandana and the six-gun. They believe such headgear, and neck wear and hand artillery creates a feeling of unrest among visitors to their sunny land. Henceforth, according to presidential decree, Mexican customs officers must forego the picturesque bandana, the colorful sombrero and the convincing pistol. From now on, customs officers inspecting the baggage of travelers on trains and in the customs houses of Mexico, must keep their revolvers hidden. They must wear ordinary clothing and in no case shall they wear other than a very ordinary business hat. Such are the orders contained in a circular received at the Juarez customs house, signed by the director general of customs of Mexico.

A man singing in a Chicago cafe was shot by one of the patrons. They'll shoot you for any reason or no reason at all in Chicago, it seems.—The Hamilton Spectator.

WASHINGTON, March 12.—Barring unforeseen action by congress within three weeks the United States will undertake for the first time in the history of the world to fix by law the ingredients of the national blood stream. The ultimate aim of the new policy, as defined in the existing immigration act, will be to re-establish the same proportions of foreign stock as were found in the country at the first census, in 1790.

All previous legislation regulating immigration has been designed to preserve only an unvarying balance between the totals of the native and foreign-born populations. The new policy, to be proclaimed by President Coolidge April 1 unless congress authorizes postponement, will express the national will, not only to control immigration by numbers and selectivity but to determine permanently the portion of each foreign spice which shall go into the great American melting pot. Never before in history, according to state department ethnologists, has a people undertaken to determine by law the content of the blood of future generations. Admittedly an experiment of profound biological and social potentialities, the new "National Origins" policy has been vigorously resisted by ineffective minorities in both houses of congress since its inception four years ago. But it will become effective July 1 if congress does not repeal the clause before April 1, the date set for its proclamation by the president.

**BRECKENRIDGE LEGION POST WINS CITATIONS**  
BRECKENRIDGE, March 11.—The Bernice Coles post of the American Legion, located at Breckenridge is the only post in the state to win both the distinguished service citation offered by the national headquarters of the legion and the special Spafford citation for 1928, according to a letter from Ross R. Cole, state adjutant, to Ben J. Dean, commander of the Bernice Coles post. According to Mr. Cole's letter the Breckenridge post is the only post in the state having a membership of between 250 and 500, to have

### ALL WOMEN TO BE BEAUTIFUL BY YEAR 1958

CHICAGO, March 12.—There will be no such thing as an ugly woman in thirty years. American women are already 65 per cent beautiful. These were the opinions expressed here by Mile M. Rubenstein before the 250 beauty experts attending an annual convention. "If every woman now would start to observe beauty's formula," asserted Mile Rubenstein, "there would not be a really homely woman in 1958. Instead of following the example of their grandmothers and resigning themselves to fat stomachs, broad hips, sagging jowls, double chins and bad complexions and all other foes to charm, modern women are beginning to battle for beauty." American women, she said, are beginning to pick their diet and exercise like they pick out their dresses.

### SUIT FILED AGAINST WOOD ON FROG DEAL

DALLAS, March 12.—Will M. Wood and E. E. Wood, owners of the famous Eastland county horned toad, have been sued for \$6,296.25 for alleged breach of contract in failing to fulfill a state and sidewalk engagement. Dick Penny of Dallas, the complainant, alleges that he contracted with the defendants to exhibit the horned toad on a fifty-fifty division of profit after he had paid all expenses, and that after a few days here Wood suddenly left Dallas, carrying the exhibit back to Eastland with him, where he turned it over to the county judge.

### COLLIE FOR COUNTY JUDGE

To the citizens of Eastland county: I have decided to withdraw my candidacy for judge of the county court-at-law in deference to my friends who have encouraged me to aspire to the position of judge of the commissioner's court, believing as they do that it offers a greater opportunity for service. The people of Eastland county have honored me with public position and this experience has gained for me a knowledge of the work and duties of the various county offices, which is a prime factor in the qualification of a county judge. As district clerk I have attempted to conduct the affairs of the office for the benefit of Eastland county and if you promote me to the position of county judge I shall continue that policy. Believing that all the offices of the county should be managed with a minimum number of assistants, consistent with efficiency, I favor the most economical administration possible so that all the offices would be self sustaining.

WILBOURNE B. COLLIE

of the farmer is increased and, when you increase the prosperity of the farmer, you increase as well the prosperity of the town. The instantaneous contact with the markets only need good roads to make thriving towns. The enforcement of the payment of taxes is another vital matter. There are a large number who owe delinquent taxes and prompt payment should be encouraged. If everyone paid their taxes, there is no argument against the fact that our taxes would thereby be reduced materially. There are a number of suits pending in the courts wherein the county is attempting to recover items claimed to be due from road contractors, banks, and individuals. In my judgment, the commissioner's court has acted in good faith in filing these suits and, if I am elected, I will do everything in my power, as the representative of the people, to carry forward these cases to a speedy determination to the end that our county may recover everything justly due it. Having come in contact with the people of the county, I am encouraged in the belief that the judgeship of the commissioner's court should be filled by a young man of energy, experience and knowledge of the problems to be confronted, uninfluenced by bias or prejudice, and with determination to conduct the business of this county in an economical and efficient manner. If you elect me, I pledge to your service my fullest efforts for a conservative, businesslike and faithful administration. WILBOURNE B. COLLIE. Advertisement.

### BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

Eastland Baptists Call Waco Minister

EASTLAND, March 10.—Rev. W. T. Turner, until recently pastor of the Brooks Avenue Baptist church of Waco, has been called as pastor by the congregation of the First Baptist church of Eastland. He has not indicated his acceptance, but preached for the congregation at both the morning and evening services Sunday. The First Baptist church pays its pastor \$2,700 and furnishes a parsonage. Rev. W. J. Nason, pastor of the Eastland church for six years, resigned the first of this year to accept work at Taylor and the church has been without a pastor since that time.

Mrs. Irene Hallmark principal of the South Ward school, who recently underwent an operation at the Graham sanitarium, was able to be moved home Friday.

Charley Gray made a business trip to Abilene yesterday.

LONDON, March 12.—An international conference to consider fixing the date of Easter will probably be called by Sir Austen Chamberlain, British foreign secretary, sometime during the present year.

This is the result of the house of commons passing without division the Stabilizing of Easter Bill, which fixes Easter definitely on the first Sunday after the second Saturday in April.

Should the bill receive the third reading and pass through the house of lords, "the government will regard it as an intimation to proceed with certain inquiries," according to Sir Austen, and the "government would be asked to summon a conference of the great international nations."

At present Easter fluctuates from year to year, and it is urged that a fixed Easter will benefit all sections of the community.

"Freckles" New Palace Offering

Introducing on the screen the best known book of a famous author—"Freckles" by Gene Stratton-Porter, will open at the Palace theater on Thursday and Friday. It is an FBO production made under the direction of Leo Meehan, who has directed many screen successes based on the works of Mrs. Porter.

"Freckles" deals with the simple and charming love affair between an orphan boy and a wealthy girl who meet through their mutual love of the great outdoors and the mysteries it presents.

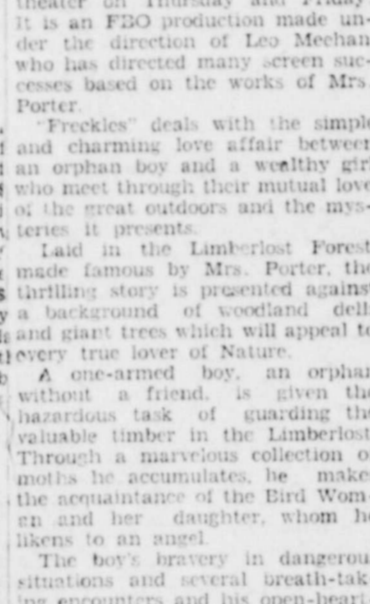

Laid in the Lumberlost Forest, made famous by Mrs. Porter, the thrilling story is presented against a background of woodland, dell and giant trees which will appeal to every true lover of Nature.

A one-armed boy, an orphan without a friend, is given the hazardous task of guarding the valuable timber in the Lumberlost. Through a marvelous collection of moths he accumulates, he makes the acquaintance of the Bird Woman and her daughter, whom he likens to an angel.

The boy's bravery in dangerous situations and several breath-taking encounters and his open-hearted frankness wins the respect of the elder woman and the love of the girl, who, when her lover gets in trouble with timber thieves, comes gallantly to his aid.

But the timber guard realizes the difference in station between himself and his love and is afraid to propose. Only an accident in which he almost loses his life to save her brings them together in a sweet and charming finale.

HOTEL NAMES GROW FEWER; FIVE 'FOREIGN'

The interest isn't lacking—hotel names are simply about used up. This is the reason for the few new suggestions appearing in the Daily News this afternoon. Out of town readers are in a nice suggestions, and Cisco people send in quite a number, some of which will doubtless have a chance with the committee.

The list follows: Hotel Cisco, A. J. Olson, Tulsa, Texas.

The Grand, Marjorie Smitley, Marshall, Texas.

Altitude, W. L. Wilson, 716 Crawford, Houston.

Billmore, or Dan Moody, Fred H. Williams, La Pryor, Texas.

The Riviera, Little, Miss Glenn Duncan, route two, Eastland.

Supreme, Mrs. F. P. Yarger, 402 West Second.

Citizens Pride, H. D. Doyle, 608 East Twelfth.

Cisco, J. W. Tripitt, Cisco Special, Mrs. Vera Doyle, Texas, Route Tripitt, 507 West Eighth.

The Ambassador, Mrs. J. W. Tripitt, 507 West Eighth.

Hollowood, Sid McIntire, 300 J. Cisco Dirigable or Cisco Dream, Mrs. R. D. Vandeford, Cisco.

Lake Palace, J. D. Mann, 1709 F.

Phoenix Inn, Mrs. C. E. Dearolph, 511 West Fifth.

Travelers' Rest, Bernice Doyle, 608 East Twelfth.

Lane Star, Joe Will Tripitt, 507 West Eighth.

Hotel Great, Adolf Stroebel, route three, Cisco.

Lebo Hotel, Alma Stroebel.

route three. La Grande, Clarence Stroebel, route three. Saxe (Texas backward), Mrs. George H. Green, 207 I. Pride of Cisco, Mrs. L. L. Swagerty, box 28. Francisson, Charles Arnold, 1214 West Tenth.

Commercial or Travelers, Tommy Spoonamore. The Randolph or the Victor, Mrs. J. R. Henderson, Humboldt. Hotel De Lux, P. H. Hawkins, Cisco.

THE WEATHER. East Texas—Partly cloudy, cooler in Central and northwest portions. West Texas—Fair tonight, cooler in north. Tuesday, fair and cooler in north and east portions.
