Three men, long active in Masonic work, received 50 year awards from the Chapter and Council in ceremonies. Calvin Hurst, left, conferred the Chapter awards on the three, includ-

ing his father, Ben Hurst, second from left; H. E. Sherwood of Oklahoma City and P. E. Starr. R. T. Savage, District Deputy Grand High Priest, conferred the council awards.

Norwood Takes Bi-District Title from Roby Tues.

Samnorwood's Eagles came from behind to win their class B bi-district baseball game from Roby, 7-6, at Roby Tuesday.

This is the Eagles' second bi-district victory in a row as they won from Matador last year 14 to 13 in a 13-inning game.

Eagle Coach Don Ward also coached one state championship team and one state American Legion team while coaching in Oklahoma.

Catcher Lou Johnson singled home Randall Murry from second with the winning run in the seventh inning after Murry doubled with two out. The winners tied the score in the sixth frame as pitcher Bill Bentley drove in Don Ameron from second.

Bentley not only drove in the run which tied the game, but turned in a fine relief performance on the mound. He pitched the last three innings and gave up only one hit in facing only 10 men, and struck out 6.

Roby hurler Hal Simmons was the hitting star for the losers, getting a double, triple and home run.

In a recent meeting of the Chapter and Council, held at the Masonic Hall, three members, P. E. Starr, H. E. Sherwood and Ben Hurst received pins in token of 50 years membership.

R. T. Savage, District Deputy Grand High Priest of District 40, and treasurer of the local group, presented the Council awards, while Calvin Hurst, Royal Arch Captain, presented the Royal Arch awards.

While the conferring of a 50-year award is in itself unusual in the Chapter and Council, this ceremony had an even more unusual aspect in that Calvin Hurst presented the award to his father, Ben Hurst. The latter, in turn, has conferred nine degrees of Masonry on his son.

Mr. Sherwood, who now lives in Oklahoma City, is a member of one of the county's earliest families, which has produced a number of local leaders in Masonry. He joined the Lodge here.

Mr. Starr became identified with the Masonic Lodge at Quail, and he also is active in the Eastern Star Chapter here.

Mr. Hurst became a member at Brownfield, and was a member there 20 years. The remaining 30 have been with the Wellington Lodge. He has

filled all offices in the lodge and served as district deputy five times.

Officers of the Chapter and Council are M. W. Stengel of Altus, high priest; Arlois Holtman, excellent scribe; Judge L. E. Gribble, excellent scribe; Savage, treasurer; Ben Hurst, secretary; David Baumgardner, Captain of the Host; Calvin Hurst, Royal Arch captain; Lloyd Harper of Amarillo, Captain of the third veil; Elvis White, captain of the second veil; Dick Richards, Captain of the first veil; and C. M. Simpson, guard.

Woman Gets 10 Year Sentence in Murder Case

Laura Mae Lynch, 25, Pampa Negro, was sentenced to 10 years in prison Wednesday by 100th District Judge Luther Gribble of Wellington. Mrs. Lynch was found guilty of the murder of her husband last Feb. 8.

The trial was held in Pampa after a change of venue on the motion of defense attorney Tom Braley of Pampa.

The Pampa woman was convicted of shooting her husband, Virgie Lee Lynch, 23, as he stood in the door of the Wellington high school gymnasium where Negro high school teams from Pampa and Wellington were playing.

Lynch was struck by six bullets from a .22 calibre pistol. He was pronounced dead on arrival at a Wellington hospital a few minutes after the shooting, which occurred about 10 p.m.

Insurance Agent Indicted for Forgery May 11

A 100th District Court grand jury on Thursday, May 11, returned a felony indictment of forgery against Eli Wolf, Wellington insurance man who 10 days earlier had voluntarily surrendered his local recording agent's license to a representative of the State Insurance Board.

The grand jury also returned three misdemeanor indictments of aggravated assault against a Wellington man, Clyde Brown.

Wolf is charged with forging the signature of N. M. Higdon, manager of the Wellington Housing Authority, on a check payable to the Housing Authority and the Public Housing Administration, from the General Insurance Corp. of Fort Worth, for which Wolf was the local agent, according to John T. Forbis of Childress, district attorney.

The check, in the amount of \$1,970 was dated Feb. 23, 1961, and was to cover a loss by fire which occurred in one unit of the colored housing project here on Jan. 10, Forbis said. The check was signed by Kenneth E. Ure, as agent for General Insurance Corp.

Forbis told The Wellington Leader the investigation is not complete.

H. B. Matthews Sr. of Austin, assistant manager of the Agents' License Division of the State Board of Insurance, who received Wolf's agent's license, said it was voluntary. Matthews told The Wellington Leader that he came here to make an investigation on the basis of complaints of irregularities made to his office.

Matthews cleared Miss Patsy Falk, secretary to Wolf, of any part in the alleged irregularities. She holds a license from the State Board of Insurance as an insurance solicitor.

The insurance companies which Wolf represented at the time he turned over his license will stand behind their policies, Matthews said. They will continue to be serviced locally, with each company working out the way in which its policies are serviced.

The indictment was returned about 4 p.m. by the grand jury in its first session of the April term, with W. C. Barnett as foreman.

Brown was indicted for aggravated assault after he allegedly jumped onto three high school boys on the campus of the Dodson school.

Openly We Aid Communism

To what extent should the free and generous people of the United States be called upon or expected to contribute to the welfare of nations which lie within the orbit of communism and who constitute an integral part of the Communist world?

When we understand that the United States is paying the cost of Polish researchers and technicians working in their own country to develop means of increasing animal and poultry production as well as agricultural output, we must recognize that while it is humanitarianism to help feed the hungry, it is downright folly to help build the economy of a nation classified as within the enemy realm.

Also it should not be forgotten that the United States also paid the expenses of a group of Polish specialists who visited our country to learn what they could do about improving methods.

Then the United States sent a large shipment of fodder and feed grains to assist Communist Poland's program of development of more meat.

Can anyone be so naive as to believe that we are going to change the form of government in Poland from communism to freedom by these vast outlays of money?

And what has happened in Poland has happened in Yugoslavia, Indonesia and other areas, and it is the announced policy of our government to continue on a long range basis a foreign aid program that envisages help to them.

Do we hear the voices of our Senators and Congressmen being raised in protest against this contribution to the success of communism? — Wheeler Times.

CROSSROADS REPORT

Conservative Surplus

I see where it is aimed to set up a Department of Urban culture to take care of the towns and cities like the Agriculture Department looks after the farmers.

My agribroke neighbor says government overseers have brought about rural bliss by getting rid of surplus farmers, and paying the survivors to not farm, and fining anybody caught producing too much crops.

Says an urban control bureau could spread joy in the cities, too, with cash rewards for supporting the right party, and stiff fines for places where they raise too many conservatives.

Diplomas in Wisdom

I see where some purported details have been brought to light about how the CIA's spyboys organized the big Cuban invasion.

My trouble-tutored neighbor says this Grand Flop may prove it takes more than college credits to run a successful war, or even a government.

Says he is duly awed by school-bought wisdom, but also likes seasoned brains and, for instance, would rather have an old bartender than a social prophet mixing his poison.

Tired Relaxer

I see where the consecrated conservers of human energy have delivered mankind some more by bringing out a power toothbrush.

My relaxed neighbor says with power steering, electric dish washers, riding lawn mowers, and now these self-wiggling toothbrushes, people

had ought to last a lot longer. Says he has taken up the new furniture fad, too, but finds it pretty tiring, so he is trying to thought-quip some inventor into designing a self-pumping rocking chair.

Attention Distracters

I see where the Internal Revenues want Congress to put up the money to hire 2300 more agents to sick on us taxpayers.

They claim the treasury gets in \$11 for every \$1 spent on extra harassment, which is about 1000 per cent profit, and nearly as good a business as selling miracle drugs.

My high-tension neighbor says Congress may not buy this as a money-making deal, but might be in favor of a bigger Squeeze Corps so as to keep people so busy fighting it off that they won't notice what the lawmakers are up to.

Outcasts

I note that it takes a good deal of backbone these days for a U.S. citizen to confess same if he has got a little conservative streak.

My prudent neighbor says he is actually not ashamed of his condition, but is just sort of chicken, like when riding with a 100-miles-an-hour driver, he hesitates to speak up in favor of progressing a little slower.

Says conservatism has got such a bad reputation here lately that he feels looked down on, like he had been using the wrong soap.

Tax Predators

I see where every few days we get a message from On High that one of our rat hole hunters has thought up another brave new move to keep taxpayers from getting smothered in money.

But my relieved neighbor says income disposal is no sweat since the government takes half by inflation and half of what's left by force.

Says things are sure different from the old problemsome days when he sometimes had a couple of dollars that he didn't know what to do with, back before the Great Minds started running hog-wild in the tax patch.

Three Taxpaying Doctors Speak Against the 30¢ Tax

We read in The Wellington Leader that an election is called for May 27th to again vote the 30c Tax on our property. In the same paper we read the advertisement of the Commissioners and County Judge in favor of taxing us for this money for them to spend.

There are several statements in this advertisement that we who pay the tax bills may not agree with.

We DO NOT think this money is needed to operate the County Road System, as, among other things, we DO NOT think the County under the Unit Road System, needs any 6 maintainers.

Our County Valuations are high, NOT low, compared to some adjoining Counties.

In the statement that the law exempts the first \$3,000 homestead valuation from this tax, the advertisement forgot to add "AT PRESENT." Any legislature at any time can abolish this exemption and there is nothing the little farmer and homeowner can do except PAY. The time for the small farmer and home owner to protect himself is at this May 27th election.

With the need for bridges we heartily agree, saving the cost of one \$23,000 maintainer and spending for these badly needed bridges will solve this bridge need in a hurry.

This 30c levy was only authorized by the people 4 years ago as a last resort to get the County affairs out of the financial and moral bankruptcy brought on by the old discredited precinct road system. It was an authority for the tax to be levied on us, supposedly only to the extent needed to meet the emergency. It was NOT a demand to levy whether needed or not. Under the savings of the Unit Road System and the added 30c tax money the emergency was largely over 2 years ago and some of us supposed that of course the Commissioners and County Judge would do away with the 30c tax or at least reduce it. To our astonishment, though, this was not done. The Commissioners and County Judge felt it more correct and proper to raise their own salaries a full 15% instead. Some of us disagreed with that action then as we now disagree with the further need for the levy.

It might be added that elsewhere in Texas some other County Commissioners operating under the Unit Road System only draw \$50.00 per month salary.

Another thing this 30c money encourages is some spending of our money on things that we don't approve. In 1960, for instance,

A bond selling firm was paid for our election expenses ----- \$ 580.00

Outside attorneys were paid for legal work ----- 1,324.55

Travel expenses and conferences amounted to ----- 809.38

These items along total over 10% of the amount the 30c tax raised in that year.

Gossip around the square is that the self-same bond selling company that was paid \$580.00 in 1960 is to be paid \$250 for drawing up papers of this 30c May 27th election. We feel such items as this should not be expended. That money should go for roads.

Lastly, some of us that worked hard for the tax 4 years ago did not like the recent efforts to see if some technicality could not be found that would make this 30c permanent without further vote. THE PEOPLE VOTED IT 4 YEARS AGO FOR A FOUR YEAR PERIOD, their intentions and wishes were clear and plain. What assurance do we now have that if voted again for 4 years that some technicality at the end of that time won't be used to make it permanent on us, our children and their posterity.

WE ARE AGAINST THIS 30c TAX ON MAY 27th.

1924 Study Club Presents Mrs. Tindall in Guest Day Tea

Mrs. J. M. Tindall of Shamrock was presented in a review of the Pulitzer prize-winning book, "To Kill a Mocking Bird" by Lee, when the 1924 Study Club entertained with its annual guest tea in the club room of the community building Thursday, May 11 at 4 o'clock.

The guests were greeted by Mrs. Mack Bush, president, and Mrs. Chester Fires, tea chairman. They were registered by Miss Sara Jones.

Honored were 1954 Study Club members, Wellington high school senior girls, all women on the faculty and wives of the men of the faculty, newcomers, club members' guests, and three special guests, Mrs. J. B. Baumgardner, Miss Celia Anderson and Miss Elaine Yarbrough.

Piano music was presented by Miss Shirley Peters to open the program, and she accompanied Gene Nelson as he sang "Sweetheart of Sigma Chi" and "It's the Loveliest Night of the Year."

Mrs. Tindall presented her review in a humorous and pleasing manner, telling the story of a small southern town through the eyes of a 6-year-old Girl Scout whose lawyer-father was appointed by the court to defend a Negro in a controversial case. Kinsfolk, the poor white, beloved family servants, and all the others who are part and parcel of small town life in the South came vividly to life through Mrs. Tindall's telling.

Mrs. Tindall is the former Mayme Walker, the daughter of the late Mr. and Mrs. John Walker, pioneer settlers of Colingsworth county who lived in the Needwood community. She attended high school in Wellington.

Following the book review, Mrs. Bush presented Mrs. J. B. Baumgardner with a white glamelia corsage. Mrs. Baumgardner was the 1924 Study Club Mother of the Year nominee in the District Federation of Women's Clubs contest at Pampa in April.

Miss Elaine Yarbrough and Miss Celia Ray Anderson were presented flower wristlets. Miss Yarbrough was the club's

student entry in the district Junior Vogue sewing contest, and Miss Anderson in the Hallmark art contest.

The program was concluded with piano selection by Miss Yarbrough.

The tea table was laid with a lace cloth and a centerpiece of pink and orchid flowers and pink candles. Crystal appointments were used.

Punch, cookies and nuts were served to 76 guests.

The meeting rounded out the club's year and the next meeting will be on the second Thursday in October with a membership luncheon.

The sale of Lowell Wells Clothier by Mrs. Lowell Wells to Eddie Slay was completed recently and the new owner is now in charge of the business.

It will be operated in the future as Eddie Slay Clothier.

At the time of the sale, the store was one of the oldest business establishments in Wellington to be operated continuously by one family. It was established by Mr. and Mrs. Percy Wells more than 35 years ago, and operated as a department store until they sold it to their son, the late Lowell Wells, who changed it into a men's wear store and fabric shop.

It has become one of the leading men's clothing stores of the area.

The new owner brings to the business a background of merchandising also. The son of Mr. and Mrs. J. T. Slay, he is a graduate of Wellington high school and received his BBA degree from West Texas State College in 1960, majoring in business management. While in college, he was employed by Warren Department Store, a leading Canyon firm.

He then completed his six-months active duty in the Army under the National Guard program, returning to civilian life in December 1960.

Slay is married to the former Charlotte Crain, daughter of Mr. and Mrs. Newton Crain of Canyon, and granddaughter of Mr. and Mrs. A. Y. Bell. She has visited here frequently throughout her life.

Mrs. Slay is second grade teacher in the Canyon schools, having received her degree in elementary education in 1959

Advantage to Sorghum Planted in Narrow Rows

Planting in narrow rows offers advantages that aid in a more economical crop production. Evaporation losses are reduced due to shading, less wind movement, and reduced temperatures. Production can be maintained. Nutrients are more efficiently absorbed and from a farmer's point of view, this method is more practical because of weed control.

Just as important as planting in narrow rows is the planting rate per acre. If 2 or 3 pounds per acre is the seeding rate in 40 inch rows, the same seeding rate should be used in narrow width rows.

Results at Southwestern Great Plains Field Station at Bushland shows that yields were higher with 2 pounds seeding rate than 4 pounds seeding rate in both 20 and 40 inch row spacing.

The best planting arrangement is one that gives ample space to each plant, yet keeps evaporation, weeds and temperatures at a minimum.

Water leaves the soil in two ways. The most costly to the farmers is direct evaporation into the air and the other is transportation through the plant. With more shade and lower temperatures, the moisture loss is less in narrow width rows.

Soil temperatures above 100 degrees are somewhat detrimental to sorghum plants.

Tests in Manhattan, Kan., showed that temperatures reached 107 degrees. The narrow rows gave consistent readings of nearly 20 degrees less than wide rows when air temperatures were over 100 degrees.

This shading effect of plants has another important function. Weeds cannot survive without sunshine. Tests have shown that 40 inch rows did not shade more than 60 percent of the area between the rows at noon at the time of full head. But 20 inch rows provided very good shading, covering about 95 percent of the area at noon at full head.

Narrow row plantings can be done with a grain drill by

plugging the extra holes. In most instances new equipment is not necessary to change to narrow row planting. Almost all farmers can satisfactorily use their available farm implements.

It would be hard to say that narrow width rows will always increase yields. We should expect the same yields as wide rows, but with less expense; thus giving us more profit.

Borger Man New Partner in Keeton & Holt

Estel Holt of Borger has bought the interest of Pete Scott in the Keeton and Scott Grocery at the northeast corner of Wellington, effective Saturday, May 13.

Holt will not take part in the active management of the store, according to George Keeton, the other partner and manager. The store will be known in the future as Keeton & Holt Grocery.

The new partner is owner of a large supermarket in Borger, which he manages, and has had a long period of experience in the grocery business. He is married and has two children, and is active in many Borger affairs.

Scott disposed of his interest in the store after a number of years ownership and active management. He sold part interest in the business several months ago to Keeton, due to ill health, and with Mrs. Scott moved to Dumas.

Keeton said the same friendly service and fine grocery lines for which the store is known will continue to be its outstanding features, as he informed customers and friends of the change.

Mrs. Keeton is also active in the store, and working with them are Mr. and Mrs. John D. Smith, Curtis Southerland works after school and on week ends.

County Has One Fatal Rural Wreck

The Highway Patrol investigated one rural accident in Collingsworth county during the month of April, according to Sgt. D. R. Dowdy, highway patrol supervisor of this area.

This wreck accounted for one person injured and a property damage of \$1,000.

This brings the total for 1961 in this county to six killed, five injured, and property damage of \$4,800.

"A driver who learns and complies with traffic laws can never prevent as many accidents as a driver who learns and complies with both traffic laws and defensive driving procedures," the sergeant stated. A traffic law describes what a driver must do or must not do. Procedure describes ways in which a driver can comply with the law or do something extra that will increase his safety and prevent congestion.

"For example, the law says that no person shall park a vehicle upon the paved or main-traveled part of the highway. A driver complies with this law on a rural highway when his car barely clears the pavement. Procedure, in this instance, when possible and reasonable would require the driver to park a greater distance from the pavement," the sergeant explained.

In surrounding counties, Childress had three persons injured in rural accidents with \$4,400 property damage; Cottle, one injured with \$580 damage; Donley, six injured with \$1,455 damage; Hall, one injured with \$1,350 damage; Gray, three killed, two injured, with \$1,930 damage; and Wheeler county had three accidents with none injured but \$2,800 damage.

B&PW Sponsors Memorial Day Safety Drive

The Business & Professional Women's Club in cooperation with the Safety Council is making plans for an intensive safety drive over the Memorial Day week end, Mrs. Jimmie Kelso, chairman, announced this week.

"We realize that an ugly shadow is cast over motoring holidays and summer vacations by the toll of traffic deaths and injuries. The major factor in this is the 'hurry complex' of the man behind the wheel, expressed in excessive speed, dangerous passing and similar hazardous driving," she said.

The club is asking cooperation of the general public and drivers in particular in promoting the Memorial Day Precaution Program. Several hundred bumper stickers will be distributed by club members, and drivers will be asked to place one on his car bumper.

Out-going mail of B&PW members will carry "Slow Down and Live" miniature stickers.

Workers Should Check Social Security Rates

If you have reached retirement age (65 for men and 62 for women) and have never inquired about social security benefits because you are still working, you should talk to a social security representative right away, Hal Geldon, manager of the Amarillo social security office, advises.

Because of a 1960 change in the law, a great number of older people whose earnings were high enough to keep them from collecting social security benefits, will now be able to receive some benefits during the year.

Up until this year, social security beneficiaries who earned more than \$1200 in a year lost one month's social security benefits for each \$80 of earnings in excess of \$1200. Under the new law, only \$1 in benefits is withheld for each \$2 of earnings in excess of \$1200 and up to \$1500. Thus, the beneficiary who earns exactly \$1500 would lose \$150 in benefit payments, Geldon stated.

For earnings above \$1500, benefits are reduced \$1 for each \$1 in earnings.

What Co-operatives Mean To Wellington And Collingsworth

There are those who would have you believe that co-operatives are tax-free . . . that they get a free ride at the expense of the taxpayer. Here are the facts:

The two co-operatives located in Wellington pay taxes, they contribute to charities, they support local firms with which they do business. They have large payrolls adding to the community's income and in many cases offer services and facilities that would not be available without them.

Also patrons of these institutions, that pay patronage dividends, pay Federal income taxes on these profits that are returned to them.

Here are some of the combined totals taken from the individual re-ports shown on this page:

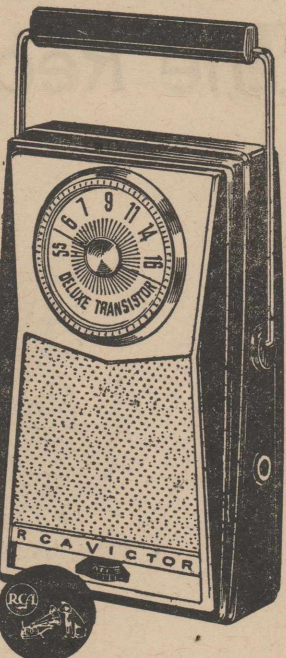

Wages and Salaries	\$128,426.23
Property Taxes	4,808.72
Other Taxes	5,044.47
Dividends	163,658.30
Donations and Dues	775.66
Local Hauling and Freight	49,489.67
Total Spent in the County	\$352,203.05

When you check these reports you will find your co-operatives are a very vital part of the community . . . a part few citizens would want to do without.
