SPRING AFTERNOON AT THE WHITE HOUSE — President Johnson and his family took advantage of a warm afternoon to play with their pet Beagles, Him and Her, in the flower garden at the White House. Luci is playing with Him at left, with her sister, Lynda beside her. (AP Wirephoto)

Home Tells Of Accord In Cutback

LONDON (AP) — Prime Minister Sir Alec Douglas-Home associated Britain fully today with the U.S.-Soviet cutback in the production of fissionable material for nuclear weapons.

He told the House of Commons:

"I believe that the public announcement of these reductions will do much to foster that confidence which is essential if we are to build on the achievement of the (nuclear) test ban treaty."

Broadly speaking, Labor Party leader Harold Wilson agreed with this analysis. He said the action Monday by President Johnson and Premier Khrushchev "cannot be regarded as a positive act of disarmament, but it is a welcome psychological step on the road to peace."

Britain is reducing her own fissionable production. This was spelled out in a government white paper in February. The same decision was reiterated today by Douglas-Home who said that "military plutonium production is being gradually terminated."

The United States, Britain and the Soviet Union concluded a limited nuclear test ban in Moscow last August after years of haggling.

Western leaders have expressed hope that this treaty would serve as a foundation for a series of positive steps to halt the world's arms race.

Better Red Relations Seen From N-Cutback

By JOHN M. HIGHTOWER

WASHINGTON (AP) — A further improvement in U.S.-Soviet relations should result from the newly announced plans of President Johnson and Premier Khrushchev to cut back production of nuclear explosives, Washington officials said today.

The hope in government quarters here is that such moves, which have been building up now for several months, will:

—Create a more favorable atmosphere for disarmament negotiations.

—Brighten the prospects for actual East-West agreement to bring the nuclear arms race under control.

—Initiate measures to discourage surprise attack.

Disarmament by international agreement, however, will require international inspection arrangements in the Soviet Union as well as in the Western countries, according to long-standing U.S. policy. So far, no breakthrough is in sight on this critical inspection issue.

The production cuts announced by Johnson and Khrushchev Monday, with cooperation from Britain as the other main nuclear power, do not require inspection and so far as is known were decided primarily for internal reasons.

Certainly in the case of the United States, the President made clear that this country no longer needs to produce plutonium and enriched uranium — nuclear weapons materials—at the level of which it is capable.

He had decided on the reduction before advising Khrushchev of his intention to make the announcement which he made Monday.

What the President announced in a speech to an Associated Press luncheon in New York was "a further substantial reduction in our production of enriched uranium to be carried out over a four-year period."

He had announced an initial cutback in his State of the Union message last Jan. 8. He said Monday that the cuts he has now ordered add up to a 20 per cent decrease in plutonium output and a 40 per cent decrease in the manufacture of enriched uranium.

"By bringing production in line with need," Johnson declared in his AP speech, "we reduce tension while maintaining all necessary power."

When the President's speech was released at 2 p.m. EST the Soviet News agency Tass simultaneously released a statement that Khrushchev was halting work on two reactors designed to produce plutonium, that he would "substantially" cut back production of uranium 235 and would allocate more nuclear materials for peaceful uses.

Some Solons Have Doubts

By JOE HALL

WASHINGTON (AP) — U.S. and Soviet announcements of parallel plans to reduce production of nuclear weapons material brought questions from some members of Congress today as to how Soviet good faith could be checked.

Comment at the Capitol tended to split on partisan lines.

Republicans said it appeared an informal agreement had been reached lacking provisions for inspection and verification.

Many Democrats approved the decision President Johnson announced Monday in an address to The Associated Press in New York. They stressed belief that it was based on conclusions of American military authorities that the United States no longer needed to add to its stockpile of nuclear weapons material.

The President's action requires no formal approval by Congress but undoubtedly will figure in floor debates later on military policy and budgets.

In disclosing the cutback, Johnson said, "I am happy to say that Chairman Khrushchev has now indicated to me that he intends to make a move in this same direction."

Shortly after Johnson's announcement, the White House disclosed that since last Oct. 10 when the nuclear test-ban treaty became effective, the United States has obtained important information from its underground testing program.

A report to Johnson by Secretary of Defense Robert S. McNamara and Chairman Glenn T. Seaborg of the Atomic Energy Commission disclosed that the U.S. test program had been more extensive than the 20 underground explosions announced during the last eight months.

"Important information has been obtained on new weapons designs and weapons effects," they said. "The highest-yield nuclear device ever detonated in the continental United States was fired underground at the Nevada test site. Weapons effects tests have been carried out underground and others are being planned and prepared."

Members of the Senate-House Atomic Energy Committee were briefed on the cutback in nuclear weapons material production in secret Monday. Afterward, Rep. Chet Holifield, D-Calif., who presided at the meeting, said he considered it a "reasonable action." Atomic Energy Commission officials conducted the briefing.

WEATHER

SNYDER TEMPERATURES: High Monday, 93 degrees; low 56 degrees; reading at 7 a.m. today 61 degrees.

North Central Texas: Cloudy today and tonight, with occasional showers and thunderstorms in east and south today and in north tonight. Partly cloudy Wednesday with a few thundershowers in north. Slightly cooler today, a little warmer Wednesday. Low tonight in 60s. High Wednesday 80 to 86.

Northeast Texas: Mostly cloudy today and Wednesday. Occasional showers and thunderstorms and cooler in north today and early tonight. Partly cloudy Wednesday, a little warmer in north. Low tonight 65 to 70. High Wednesday 82 to 86.

Northwest Texas: Clear in north to partly cloudy in south and slightly cooler today. Cloudy and cooler Wednesday. Scattered showers and thunderstorms in south tonight and over area Wednesday. A little warmer in north tonight. Low tonight 45 to 65. High Wednesday 67 to 82.

Coast: Small craft warnings are displayed for southeast and south winds 15 to 30 knots today and Wednesday.

South Central Texas: Cloudy today and Wednesday with widely scattered showers in north. Low tonight 66 to 74. High Wednesday 85 to 95.

Southeast Texas: Cloudy and warm today and Wednesday with widely scattered showers. Low tonight 68 to 74. High Wednesday 76 to 86.

Southwest Texas: Partly cloudy in northeast, cloudy elsewhere with widely scattered showers. A little cooler in northwest today. Low tonight 50 to 72. High Wednesday 89 to 92.

Mother Says Baby's Death Unintentional

FORT WORTH (AP) — Lawyers in the Doris Jean Bowman murder trial argued their case before the jury today.

Mrs. Bowman testified tearfully Monday that she was afraid to stop her boyfriend from abusing her 34-month-old daughter Paula.

The state seeks the death penalty for the mother in the fatal scalding and abusing of the child March 3.

The blond, heavy-set Mrs. Bowman recently said she was "through with" Clifford Darrell Carroll, 21, also charged with murder in Paula's death.

Mrs Bowman denied she ever beat her baby. "The only thing I did to her was whip her when she didn't mind," she asserted.

The mother also admitted she poured hot water over the baby, slapped her and ducked her head under water, but said she did not intend to murder her.

School Boycott Labeled Success

KANSAS CITY, Kan. (AP)—A one-day boycott Monday of public schools was termed a success by Carl Randolph, head of the local chapter of the Congress of Racial Equality.

Randolph estimated that 80 per cent of all Negro children and 20 per cent of all white children stayed out of school.

School officials, however estimated that absenteeism was only about 40 per cent above normal at buildings predominately attended by Negroes.

As Captive, Phouma Still Claims Power

By ANTOINE YARED

VIENTIANE, Laos (AP) — Cooped up in his villa by rightist rebels, neutralist Prince Souvanna Phouma declared today he and his coalition government still function.

Diplomatic reports from Saigon and elsewhere had said Monday that the day-old coup of right-wing officers had collapsed under the pressure of U.S. disapproval. That was at a time when communications from Vientiane and the outside world were all but cut off.

But when the sun came up this morning, the guard still tramped around the villa, barring the way to anyone who tried to visit Souvanna.

Apparently under some kind of wraps preventing his speaking freely, Souvanna appeared on the balcony and called down to reporters below. It was under similar circumstances that he made the assertion that his coalition of neutralists, pro-Communists and rightists still is functioning.

U.S. Undersecretary of State William Bundy arrived in Vientiane on a special mission for President Johnson to emphasize Washington's disapproval of the rightists' grab for power Sunday.

Despite the rightist troops ringing Souvanna's villa, the situation appeared to be returning to normal. Souvanna's so-called coalition government has been a powerless facade of a regime for 14 months. The sporadically warring armies of the right-wing, neutralist and pro-Communist factions each control parts of Laos.

From his balcony, Souvanna told newsmen that King Savang Vathana, whom he visited with the rebel leaders at the royal capital of Luang Prabang Monday, told him he did not approve of the coup.

Informed sources said the king told Souvanna that even if he resigned as premier, the king could not accept the resignation because the coalition was guaranteed by the 14 nations which signed the Geneva agreement in 1962.

The agreement guaranteed the neutrality of Laos and paved the way for the coalition government. The coalition has not functioned because of continual feuding between the rightists and the pro-Communist Pathet Lao.

Souvanna went to Luang Prabang with the two leaders of the coup, Gens. Kouphasith Abhay and Siho Lamphoutakal. Asked to reconcile his claim that his government still functioned with his being under house arrest, Souvanna replied: "I cannot say anything more."

Rickover Rocks Boat For Academy

ANNAPOLIS, Md. (AP)—The Navy usually says nothing when Vice Adm. Hyman G. Rickover stands up and rocks the boat, but the last time apparently was too much.

A third Navy admiral took exception Monday to Rickover's statement to Congress that the Naval Academy should either reform itself as an educational institution or be abolished.

Rear Adm. Charles C. Kirkpatrick, who completed a 17-month tour as academy superintendent last Jan. 11, called the testimony "extravagant and exaggerated."

He indicated Rickover, head of the Navy's nuclear program, was either not fully aware of what's been going on at his alma mater or gave it no credit for trying to keep abreast of technological changes.

Adm. David L. McDonald, chief of naval operations, and Vice Adm. John S. McCain, commander of the Atlantic Fleet amphibious force, had earlier voiced sharp disagreement with various statements in Rickover's testimony.

Rickover's latest blast at the Navy came in testimony before the House Appropriations committee March 6. It was released publicly last Friday.

He criticized teaching methods at the academy, use of officers on the faculty, duties given midshipman officers, emphasis on sports, and other facets of academy life.

Word Awaited For Crash Victims

BEIRUT, Lebanon (AP) — Middle East Airlines said today it was still awaiting instructions from relatives of victims of the plane crash in the Persian Gulf on what to do with their bodies.

The Caravelle jetliner bound from Beirut went down in a sandstorm late Friday night minutes from its destination, Dhahran, Saudi Arabia. All 49 aboard, including 23 Americans, were killed. Bodies of 38 have been recovered.

A Middle East spokesman said it was believed some of the victims would be buried in Dhahran while bodies of others would be sent back to the United States. He said he did not yet know when they would be sent back.

Bodies Recovered From Greenville Lake

GREENVILLE (AP)—Bodies of two Dallas men drowned April 12 have been recovered from Lake Tawakoni. They were Welton Thomas and Jimmie Thompson.

Castro Nixes US Flights

HAVANA (AP)—The Castro government Monday night rejected U.S. claims to the right to send reconnaissance planes over Cuba and warned that it will defend Cuban air space.

Foreign Minister Raul Roa signed a threatening note to the U.S. government after Washington warned that its planes will continue to fly over Cuba and that use of Soviet missiles against them would create "a highly dangerous situation."

In his note, delivered to Swiss Ambassador Emil Stadelhofer for transmission to the United States, Roa replied:

—"The U.S. government would bear responsibility exclusively for creating this dangerous situation by violating national air space and ignoring international law."

—"The government of Cuba does not recognize any right claimed by the U.S. government for such violation and rejects entirely its note of March 27, 1964, in which it ratifies cynically its aim to maintain these spying flights over Cuban territory."

—"These blackmailing and threatening statements will not frighten the Cuban people or prevent them from defending with dignity and courage their sovereignty and their rights."

Roa said the Cuban government "has protested repeatedly against these flagrant violations of Cuba's sovereignty and the most elementary principles of international law which endanger international peace and security."

Prime Minister Fidel Castro had warned in a speech Sunday night that Cuba would no longer tolerate violations of its sovereignty by American planes and implied the use of force to stop such flights.

One American reconnaissance plane, a high-altitude U2, was shot down over Cuba during the October 1962 missile crisis, apparently by the same kind of missile the Russians are expected to turn over to Cuban control soon.

A State Department spokesman in Washington said Monday U.S. flights over Cuba "are a substitute for the on-sight inspection agreed to by the Soviets in October 1962, but which Fidel Castro refused to permit."

The spokesman noted that the reconnaissance flights were started before the U.S.-Soviet missile crisis, were continued to check Soviet nuclear missiles out of Cuba and will be maintained to guard against re-introduction of such missiles which could threaten the U.S. mainland.

Jacksonville Police Fight Racial Unrest

JACKSONVILLE, Fla. (AP)—Policemen worked on prolonged shifts today against a wave of vandalism and racial unrest that ended a three-week truce Monday.

Two bus drivers and a garbage truck worker, all white, reported to police they were attacked by bands of teen-age Negroes in a Negro section of Jacksonville.

There were numerous incidents of vandalism, mostly broken windows. This was a type of vandalism which accompanied racial unrest here a month ago and in 1960.

Killed In Crash

FORT WORTH (AP) — Jose Mata, 65, was killed and his son, 27, was critically injured today when their car collided with another. Mrs. H. L. Wyatt, driver of the second car, suffered face cuts and possible chest injuries.

RIGHTS DEBATE

Mansfield Says Argument Over

WASHINGTON (AP) — Senate Democratic leader Mike Mansfield of Montana said today he expects the first amendments to the civil rights bill to be called up for debate Wednesday.

He said both proponents and opponents of the measure have adequately discussed their viewpoints, and that it now is time to start acting on the legislation. He added that he looks for the first votes Thursday or Friday.

"The sooner we dispose of the bill, the better off we will be," Mansfield said.

Mansfield spoke with newsmen after the weekly breakfast meeting of Democratic congressional leaders with President Johnson.

In the Senate others were pressing for action.

Assistant Democratic leader Hubert H. Humphrey of Minnesota, the bill's floor manager, served notice he would demand strict enforcement of the rules against various time-consuming practices by Southern senators, who have fought the measure in a marathon debate now entering its 36th day.

Republican leader Everett M. Dirksen of Illinois, rated as an important figure in efforts to work out some compromise on the bill, mapped companion moves of his own.

Dirksen promised to unveil during the day an "amendment with appeal" which he predicted would widen support for the bill's equal employment opportunities section.

He said it would not be a "weakening" amendment, but declined to reveal its details pending a final round of discussions with other members of the senate-house republican leadership.

Dirksen also announced plans to seek some test votes, possibly late this week and early next week, on what he termed relatively minor amendments he had offered previously to this section of the bill.

Texas Denied Part Of Beet Acreage

WASHINGTON (AP) — The U. S. Department of Agriculture has designated areas in Maine and Arizona as recipients of the last remaining sugar beet acreage allotments.

The action in effect turned down requests for the acreage from farmers in the Texas Panhandle, Midwestern and Rocky Mountain States and Eastern farm belt states.

The Sugar Act authorized an increase in the domestic sugar beet industry after the government said no sugar could be imported from Cuba after Fidel Castro took over.

Blasts In Ft. Worth

FORT WORTH (AP) — Fire fed by two explosions destroyed McDonald Bros. Stone Co. Monday night. An owner, J. W. Knight, set damage at $200,000.

SET WEDNESDAY

Workmen Race Fair's Opening

NEW YORK (AP)—A small army of workmen—many of them weary from weeks of stepped-up operations — raced today to get the New York World's Fair ready for Wednesday morning's opening.

Last-minute construction and other work went on through the night under floodlights.

Among those in the vanguard of 70 million persons expected to visit the exposition during its two six-month runs will be President Johnson.

The President is to fly from Washington to address 16,000 guests invited to attend the opening day ceremonies in the fair's Singer Bowl. Gov. Nelson A. Rockefeller and Mayor Robert F. Wagner are to attend.

Officials of the multimillion-dollar exposition said the fair will be better than 90 per cent completed for the 9 a.m. opening.

Still to be handled are some cleanup chores, laying of patches of sod and minor construction on buildings which will open for visitors Wednesday, regardless.

Some larger areas, a foreign village and a few other displays, will not be able to accommodate visitors for a week or more.

Various setbacks caused delays in their building plans, but a fair spokesman said they are so situated, that they will offer little inconvenience to visitors.

Fair officials admit they can not estimate how many persons will visit the fair opening day. This could be partially attributed to announced plans of civil rights groups to cause a massive traffic jam along roadways leading to the fair.

The 646-acre fairgrounds, in Flushing Meadow Park is laced with broad macadam and cement, tree-shaded, walkways and vehicular arteries along which visitors will amble and ride in buses to and from exhibits.

Rising high over most fair buildings is the Unisphere — a massive, stainless steel model of the world—setting the fair's theme: "Peace Through Understanding."

Violent Weather Rakes W. Texas

By The Associated Press

Violent thunderstorms pounded parts of West Central Texas with hail and up to five inches of rain today.

It was a continuation of unruly weather which spread from areas farther north during the night after rousing alarm in an area still jittery from tornado death and destruction April 3 at Wichita Falls.

Brown County caught some of the heaviest downpours and hailstones rattled off the roofs at San Angelo, Comanche and Mineral Wells in a broad band of thunderstorms which swept eastward over Stephenville and Cleburne.

At Lake Brownwood a rain gauge at a Girl Scout camp caught 5 inches of moisture. Four inches soaked the Joe Smith Ranch in the Holder community, 10 miles south of Brownwood. Blanket, 12 miles east of Brownwood, received 3.60 inches with heavy hail.

Thunderstorms ranged from the San Angelo vicinity northward to near Ardmore in Oklahoma. Showers fell in Southeast Texas and down the coast from Galveston.

Moisture measurements at other points up to 6 a.m. included San Angelo 1.38 inches, Fort Worth and Wichita Falls .04 and Dallas .02.

Early morning temperatures varied from 35 degrees at Dalhart to 75 at Alice, Brownsville and Victoria.

Several tornadoes swooped down Monday evening but did little damage. One funnel

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: Get this message to NO NAMES PLEASE, who wanted to move her aging mother from Illinois to California, against the old lady's wishes. I plead with her, don't move your mother to California to be near you so you can "look after" her. She will disrupt your whole life. I know. It happened to me. My mother made a nervous wreck of me with talk of how abused she was, and how she couldn't wait to die. I should have let her sit in Minnesota with the blizzards in the winter. She complained in Minnesota, but she complains more in California. Leave well enough alone, and don't look for trouble trying to please a half-senile mother who doesn't know herself what she wants.

VOICE OF EXPERIENCE

* * *

DEAR ABBY: I don't know how much experience you have had with aging parents, but I have had plenty; so let me tell you what I would have told NO NAMES PLEASE to do about her elderly mother in Illinois, who was incompetent to live alone, chased away all the live-in companions hired to stay with her, and refused to move to California to be with her children. I would put her in the best rest home I could afford in Illinois. It is familiar country and she wouldn't feel as though she was being torn up by the roots. She may not be happy there. But she won't be happy with you, either. You will at least know that she is being well cared for.

VETERAN OF A 20-YEAR WAR

* * *

DEAR ABBY: Why don't people leave their old parents alone? Children think they know what is best for their parents. Let me tell you, parents know what is best for themselves. The worst thing you can do to an older person is to move him away from his familiar surroundings. He feels so friendless, helpless and lost. Maybe the winters ARE cold, but if they have survived 78 winters, they can survive a few more. They might not live quite so long, but they will not mind, if their last years are happy.

"78 and still in Iowa"

* * *

CONFIDENTIAL TO R. AND S.: Sidney Smith said: "Marriage resembles a pair of shears, so joined that they cannot be separated; often moving in opposite directions, yet always punishing anyone who comes between them." Is this your marriage?

Firemen Called Out

The Snyder fire department answered a call at 8:20 p.m. Monday to the Virgil Walton Laundromat just south of Thirty-seventh Street on the Big Spring Highway.

A quantity of paper had become ignited. Damage to the building was minor.

Peoria Tells Of Storm Damages

By The Associated Press

Violent windstorms and thundersqualls ripped across northern and central Illinois today and damaged 75 homes in the Peoria County area.

Fire Chief Lester Manace estimated damage in the city of Peoria alone at $30,000. No injuries were reported. Several homes under construction were blown across a street into other homes. Water backed up from sewers after a rainfall of more than two inches.

Water in the streets in some section of Champaign, Ill., was more than two feet deep after a weekend of rainfall that totaled more than five inches. Rockford, Ill., got 2.32 inches in a morning thunderstorm that caused some flooding in low spots. Joliet, Ill., reported wind gusts up to 58 miles an hour.

Temperature extremes ranged from Monday's 99 at Presidio, to a morning low of 20 at Greenville, Maine. By midmorning it was in the 70s in the southern sections of Texas and Florida.

By nightfall temperatures were expected to dip below freezing from northern Minnesota through most of the Dakotas, down through western Nebraska and extreme western Kansas.

The wet and cloudy weather covered broad areas of the nation after the outbreak of violent thunderstorms and tornadic winds in the central sections.

LBJ'S REPORT

Economic News 'Unspectacular'

By STERLING F. GREEN

WASHINGTON (AP) — The economic good cheer radiated by President Johnson last week betokens no early boom; the gains he announced at two news conferences were good but definitely unspectacular.

Looking at the many business indicators now in hand for March, the first month of the massive federal tax cut, most government economists were:

First, a bit surprised that retail sales slipped slightly even though practically every wage-earner had more take-home pay; and

Second, considerably relieved to note that the modest gains provide neither reason nor encouragement for a whirl of higher prices.

Johnson broke the news on Thursday that national output hit a record rate of $608.5 billion in the first quarter, up nearly $37 billion from a year ago.

Most economists had expected something bigger. The $8.5-billion rise for the January-March quarter fell short by nearly $3 billion of the gain in the preceding quarter, and was somewhat smaller than even the quarter before that.

The sales volume of the nation's retailers—who had every right to expect a banner Easter month—declined 1 per cent from February after allowing for seasonal trends, according to the preliminary Commerce Department survey.

The volume of new orders booked by durable goods manufacturers dipped 2 per cent, the first decrease since fall.

Most other indexes rose. But the record seemed to substantiate the forecasts of the President's Council of Economic Advisers that the stimulative impact of tax reduction will be spread out over a period of two or three years.

The council's chairman, Walter W. Heller, told the Midwest Economics Association in Chicago Saturday that the first-quarter rise in Gross National Product is "directly on the projected course" laid out in his January forecast.

At that time the council predicted a total output of about $623 billion for 1964, or a gain of some 5½ per cent from the first to the final quarters.

"This hardly sounds indigestibly rapid," Heller said. Buying demand will not outstrip production, he said; there will still be much excess plant capacity; and unemployment is likely to be around 5 per cent at yearend, despite some improvement since January.

Another government economist, replying privately to a newsman's inquiry on the impact of the tax cut, said it would be premature to judge by the March statistics, but: "If you had to say something, you'd say there has been no visible effect. It will show up a bit later on."

WEATHER

Continued From Page One

caused a mild panic in Wichita Falls, when it appeared it might descend on the same part of town that was ravaged April 3 by a twister. Seven persons were killed and more than 100 injured in that storm.

Monday's funnel lingered easingly, then disappeared. Soon after, hail the size of golf balls pelted the city.

Northeast of Wichita Falls, the small community of Byers was hit by a similar barrage which left few windows intact and damaged many roofs and automobiles.

A twister struck four miles west of Petrolia and churned along harmlessly in open country for about seven minutes before lifting and heading for Oklahoma.

The Weather Bureau said a weak cool front over west Texas had just about frittered out but temperatures were expected to be cooler there and in northwest Texas than elsewhere.

Early today, thunderstorms showed signs of increasing in intensity as they moved in a 50-mile-wide path from Lake Texoma southwestward as far as Waco. One-fourth inch of hail fell in Mineral Wells during an hour's time.

A tornado forecast expired without incident at 4 a.m. It covered north central and northeast Texas and parts of Oklahoma. The Dallas - Fort Worth areas were not included.

The weather bureau had warned persons in the vicinity of Bridgeport, Paradise, Boyd, Alvord, and Decatur to take precautions from the strong surface winds up to 50 miles.

Gulf Cotton May Not Be Plowed Up

BELLVILLE (AP) — Gulf Coast farmers aren't likely to plow up cotton just to participate in a new cotton program recently approved by Congress.

That was the report Monday from Agricultural Stabilization and Conservation Service county committeemen from the 10 largest cotton counties of the Gulf Coast area.

They were here to learn about the new program in order to inform cotton farmers in meetings starting this week.

The committeemen meeting represented 261,317 acres of cotton.

Farmers who participate will plant two thirds or less than their alloted acres and receive payment of 3.5 cents per pound based on their normal yield for cutting production.

Farmers who plant their full allotment will have to take a cut in price support of about 2.5 cents per pound. The basic support price for cotton is reduced to 30 cents a pound under the new program.

Nearly all cotton in this district has been planted and most of it is up to a stand.

The officials said, however, that if weather conditions became adverse or insects damaged the crop, some farmers might plow up to come within the two-thirds figure by July 1.

Beard Says He Will Play In Tournament

LAS VEGAS, Nev. (AP)—Frank Beard, stricken recently with a form of meningitis, says he has recovered enough to golf in the $65,000 Tournament of Champions.

Beard says he has been practicing for a week. His acceptance of a bid to play means 29 golfers will take part in the four - day tournament starting April 30.

Connally To Speak At El Paso Meet

AUSTIN (AP) — Gov. John Connally will address a regional meeting of the Texas Municipal League Saturday in El Paso.

Scranton Voters Pledge Write-In

By STANLEY MEISLER

WASHINGTON (AP) — Supporters of Gov. William W. Scranton for the Republican presidential nomination have decided to go all out on a write-in campaign in next week's Pennsylvania presidential primary despite what they call the "high risks" involved.

"We will be badly hurt if Scranton gets a small vote or if Barry Goldwater polls more votes than him," said Rep. Richard S. Schweiker, R-Pa., in an interview on the strategy of the men boosting Scranton for president.

"I wouldn't say it is the end of it" if the Scranton vote is small, he continued, "but I would say we would be farther behind than when we started."

On the other hand, Schweiker went on, the write-in campaign would be productive if Scranton polls enough votes to convince both political analysts and himself that he has real popular support.

Schweiker is chairman of the Scranton for President Club of Pennsylvania, a close friend of the governor, and the man who appears to coordinate many of the national efforts to win the nomination for Scranton.

No names will be listed on the Republican ballot in the Pennsylvania primary.

A write-in drive was launched recently, Schweiker said, despite doubts expressed by some Scranton supporters.

Schweiker said he was sure that Scranton's total will be compared with the 178,000 Pennsylvania write-in votes received by Sen. Robert A. Taft in 1952 and the 183,000 write-in votes received by John F. Kennedy in 1960.

Black Muslim Gets Two-Year Sentence

FORT WORTH, Tex. (AP)—A self-styled Black Muslim was convicted Monday of aggravated assault on a policeman and sentenced to two years in county jail.

David Myles, 26, refused to testify at his county criminal court trial.

The conviction stemmed from a fracas last month in which four Negroes attacked Fort Worth policemen who were trying to evict them from ground they claimed they were "taking over for the black man."

A Black Muslim leader said none of the attackers belonged to the Negro supremacy group.

Mishap Reported

The Snyder police department reported a two-vehicle mishap this morning at 8:38 at the corner of Twenty - fifth Street and the East Highway.

Involved were a 1961 Ford pickup driven by Cecilio Pesina, 1405 Twenty - third Street, and a 1964 Chevrolet driven by Rogan McClarence Myers, 303 Thirty-third Street. Damage to the truck was estimated at $150 and to the auto at $750. There were no injuries.

Queen Crowned

Bowling Queen Is Named

Faye Eubank was crowned Queen of 1964 by Jo Nell Kesner, fund raising committee chairman, at the annual meeting and banquet of the Snyder Women's Bowling Association.

Glitter covered bowling pins lined the tables at the Country Club Saturday night. Faye was also reelected president, Ruth Bookout vice president, Cille Wilson Secretary, Jo Nell Kesner sergeant at arms, Neita Vaught publicity chairman. Cille Wilson was elected delegate to the State meeting to be held in Dallas next year, with Betty Tatum serving as alternate.

The nominating committee elected includes: Betty Winkles, chairman, Evelyn Dorman, Doris Rollins, Lily Farrar, and Naomi Wilson. New constitution and by-laws were adopted as required by WIBC. One change was election of officers by a two year stagger system.

Trophies were awarded the winners of the City Tournament. Betty Tatum, delegate to state, reported on major changes at the state level and Jo Nell Kesner gave the fund raising committee report. Ruth Bookout and Betty Tatum decorated the tables.

Werlein Is Speaker For 'Boss Night'

The American Business Woman's annual "Boss Night" banquet will be held Thursday evening at Martha Ann Woman's Club.

The event will start at 7:15 o'clock, but members are urged to arrive early for the "Lucky Lady and Lucky Man" awards.

Guest speaker for the evening will be Mr. Ewin Werlein, Jr., an attorney and Captain in the U.S. Air Force, stationed at Webb Air Force Base, Big Spring.

He is a graduate of the University of Texas Law School, where in 1961 he was named "Outstanding Senior Student." In law school he was an editor of the Texas Law Review. He graduated in June, 1961, with honors.

Werlein took his undergraduate work at Southern Methodist University, where he graduated with honors and Phi Beta Kappa in 1958. During his senior year he was president of the student body at S.M.U. His B.A. degree was in the field of history.

This fall Captain Werlein will complete his Air Force duty and return to his home town of Houston. He will join the Houston law firm of Vinson, Elkins, Weems & Searls, and will be engaged in general trial and appellate work.

Werlein is married to the former Kay McGibbon, of Big Spring.

He is a member of the Kiwanis Club of Big Spring; the Sons of the American Revolution; and is a member and High School Sunday School teacher in the First Methodist Church, Big Spring.

Country Cousins Square Dance Club Meeting

The Country Cousins Square Dance Club met for their regular dance Saturday night at the armory.

Ninety dancers, including guests from Stanton, Colorado City, Roby and Rotan were present. Darrell Boen of Goldsmith was guest caller. Tips were called by Roger Fleckenstein of Stanton, Doug Ayers, Jr. Behringer and Bill McKinney of the local club.

Refreshments were served by Mr. and Mrs. Doug Ayers, Mr. and Mrs. Jackie Grimmett, Mr. and Mrs. Buddy Norris, Mr. and Mrs. J. B. Davidson and Mr. and Mrs. C. W. Dorman.

THE SWEEPSTAKES AWARD which was awarded to the Lamar Junior High School Band is proudly displayed by the band president, John Salmon, and the drum major, Linda McKinney. The trophy is awarded to those bands which place first in marching, concert, and sight reading. Awarded at the Region II competition last week, it was the first time for the school to receive such an award. Don Elring is the band's director.

GOP Hopefuls Spell Out Positions

By PEGGY SIMPSON
ASSOCIATED PRESS WRITER

The four Republicans running for the Senate spelled out their positions on civil rights, Russia, and money matters in a Houston political rally Monday sponsored by the society for conservative political action.

George Bush, Jack Cox, Milton Davis, and Robert Morris each assured the crowd of about 200 that he was the only one who could beat Sen. Ralph Yarborough, a Democrat.

Bush said Yarborough "ducked the issue" of civil rights and declined to state his position until he saw the bill in final form.

"Where has he been during the prolonged debate when many of our senators have been fighting this dangerous bill?" Bush asked. "If he doesn't know what's in the bill, it is certainly time he found out."

Cox said all of America's threats are not political or military. "Our national solvency, and with it our national security, is at this very moment in jeopardy," he said.

Davis spoke against any kind of treaty with the Russians and recommended getting out of the United Nations at once. He also spoke for an amendment to let Congress override a Supreme Court decision with a three-fourths majority vote.

Morris said he wanted to serve in the Senate to help halt what he called an attempt to merge Russia and the United Nations within the framework of the United Nations, to prevent nuclear war.

Yarborough was due back in Dallas Wednesday night.

Yarborough's only Democratic opponent, Gordon McLendon said the Senator's criticism of Dallas was damaging to the economy of the entire state.

McLendon said the assassination of President Kennedy in Dallas "was the work of a Marxist nut and could have happened anywhere... Instead of joining the hate parade against Dallas and thus joining the hate parade against Texas itself, Yarborough should have been standing up every since Nov. 22 and making speeches and writing coming to the aid of that city and this state."

The Dallas radio executive said he didn't share with Yarborough "the position of being a deserter to the state of Texas."

Gov. John Connally spoke in New York Monday and said American public education can make or break the free world.

He said Russia and Red China put education first "because they are convinced that in this way only can they hope to achieve their dreams of world domination ... When we contrast that sacrifice with the apparent reluctance on the part of our own people, blessed with unbelievable material prosperity, we are haunted by the thought that we might not deserve to win."

Don Yarborough, Democratic candidate for governor, asserted that Connally was conspiring with former Gov. Allan Shivers to wrest control of the state party from President Johnson's supporters.

Deadliest Of Nerve Gases Bottled In Indiana Hills

EDITOR's NOTE—At a plant in western Indiana, the United States makes a deadly nerve gas in a race to stay ahead of any aggressor, just "so he won't be tempted."

By JAMES R. POLK

NEWPORT, Ind. (AP)—In a cloistered complex of buildings on a hill in western Indiana, the United States brews and bottles one of war's deadliest weapons.

It is nerve gas, a stealthy assassin that is odorless, tasteless and virtually invisible. A drop, breathed or soaked into the skin, can kill.

At the end of an assembly line laced with 40 miles of pipes, the liquefied gas is poured into rockets, land mines and artillery shells—destination secret.

The facility, housed in a former atomic energy installation now known as the Newport Chemical Plant, is the nation's major supply center for nerve gas. It has been in operation 24 hours a day for three years.

Details on the gas are secret, but a plant official describes it as "hundreds of times more toxic" than any commercial chemical.

An Army publication says only that the gas can "cause death within four minutes." A congressional report says less than a minute's exposure can kill.

"This stuff here was originally developed as an insecticide," says a vice president of the FMC Corp. which operates the plant under a government contract.

The chemicals which form the nerve gas are mixed and boiled in a plumber's nightmare of pipes, furnaces, pumping towers and reaction vats. At one point, the product looks like frozen milk.

In a separate building, the gas is pumped into rockets and other munitions by automatic equipment in a sealed compartment.

The equipment fills the rocket, X-rays it to measure the contents, rinses and dries it, and checks for leaks.

From Newport, the rockets and artillery shells are shipped in "normal Army supply channels" says Lt. Col. William J. Tisdale, officer in charge at the plant. He will say no more.

"Everything we have here we would like for the public to know, but we don't want the Russians to know," Tisdale explains.

The nerve gas is dispersed in a spray when its carrier explodes. It kills by attacking the body's cholinesterase, substance transmitting nerve signals for muscles to expand.

When this fluid is crippled, muscles continue to constrict and the body strangles its own vital organs. There is an antidote, atropine, but it must be injected quickly, and the gas gives no warning.

Manufacture is inexpensive. The Newport operation spends about $3½ million annually—less than the cost of one jet bomber.

The plant includes a complete hospital. Ten per cent of the operating budget is spent on safety. There has never been a plant fatality.

Contrary to popular belief, the United States is not bound by any treaties forbidding the use of nerve gas.

Tisdale describes the Newport operation simply as "a race to stay ahead of any aggressor so he won't be tempted."

Boycott Is Blamed On Subversives

CLEVELAND, Ohio (AP)—Most school board members appeared unmoved by Monday's civil rights boycott of city schools, and one charged that subversives were responsible for the demonstration.

"I'm still of the opinion it's a hard core of subversives," said John J. Gallagher, vice president of the seven-member board.

The United Freedom Movement, which sponsored the boycott, estimated that 35,000 to 45,000 youngsters attended "freedom schools" set up to give instruction to those taking part in the boycott.

Antoine Perot, an official of the Congress of Racial Equality, said the schools had a capacity of 35,000 but this figure was "far exceeded."

Less than 10 per cent of the student body showed up at some public schools.

The Cleveland school system has 150,000 pupils. Estimates of the Negro enrollment range as high as 75,000.

William F. Boyd, only Negro member of the board, supported the boycott.

Ralph A. McAllister, board president, said the boycott "reaffirms that certain alleged leaders are not interested in the welfare and education of children and that their only interest is in those things that are adverse to the interests of children."

He said he is studying possible legal action against parents who kept children out of school.

The United Freedom Movement is a federation of civil rights groups.

Schools on Cleveland's East Side are overcrowded, and about 1,000 Negro pupils are transported by bus to schools in predominantly white areas.

The demonstrators want to expand the bus transportation program, claiming there are more than 12,000 places available in schools around the city, and that ending the transportation program would mean "resegregation" of Negro pupils being bused to other schools.

Soviet Grain Is 'Stuck In Mud'

NEW ORLEANS, La. (AP)—The American freighter Manhattan—carrying 79,000 tons of grain to the Soviet Union—is an old stick-in-the-mud. She can't get out of the Mississippi River into the Gulf of Mexico.

The Manhattan went aground Monday for the fifth time in a week. Six tugs worked without success to free the vessel from its latest encounter with a mud bank.

The latest grounding came after one of the ship's anchor chains snapped and the flukes sheared off the other anchor. The Manhattan floated downstream and stuck in mud again.

Kennedy Plaza To Be Built In Dallas

DALLAS, Tex. (AP)—Workers will begin constructing the John F Kennedy Memorial Plaza late next year and will complete it early in 1966, County Judge Lew Sterrett said Monday.

The park-like plaza will envelop a one-block area less than two blocks from where President Kennedy was assassinated Nov. 22.

The John F. Kennedy Citizens Memorial Committee of Dallas will pay for any statute or marker placed in the plaza, Sterrett said.

Cemetery Working Set At Camp Springs

An all-day cemetery working is set for Thursday at the Camp Springs Cemetery.

The noon meal will be served at the church. Workers are asked to furnish their own tools.

THE DEPENDABLES: SUCCESS CARS OF '64

Amazing how little it costs

to put a roof over your head

Amazing? Most people are downright flabbergasted the first time they check out a new compact Dart convert. Pop goes the top. But the price just sits there low and easy to take.

It's even more amazing when you consider all that makes a Dart a Dart. Room, for instance. Size it up with knees, head, elbows, or luggage. You'll find large economy-size room—as much stretch-out and load space as in many standard-size cars. And there's large economy-size power to go with it . . . from a 170 cu. in.-standard Six to an optional gung-ho 273 V8.

Amazing? You bet. It's what happens when a quality car maker builds a compact bigger and quicker and then tops it off with such good looks.

ON TO DALLAS—Ronnie Clemmer, winner of the local Optimist Club's oratorical contest, displays the first place trophy he won at the zone contest in San Angelo. He will compete with 12 other zone winners at the district contest in Dallas May 16-18. Clemmer is a student at Lamar Junior High School.

Connallys To Tell Of Assassination

WASHINGTON (AP) — Gov. and Mrs. John B. Connally of Texas go before the Warren Commission today to recall the nightmare moments of Nov. 22 in Dallas, Tex.

They were, besides Mrs. Kennedy, the nearest persons to John F. Kennedy when he was assassinated. The commission wants any information they can add to the investigation of the assassination.

The governor and his wife were sitting in the jump seat of the open presidential car in the motorcade when the three shots drilled into the car, fatally wounding Kennedy and injuring Connally.

Connally is still recuperating from his wound.

Also to appear before the commission today are two of the physicians who tried to keep Kennedy alive after he was rushed to Parkland Memorial Hospital—Drs. Charles Gregory and Robert Shaw.

A few days after the shooting, Connally explained what happened.

Mrs. Connally noting the warm reception for the President had turned to Kennedy and said, "Mr. President, they can't make you believe now that they're not some in Dallas who love you and appreciate you, can they?"

"No, we sure can't," replied the President.

Then, said Connally, "We had just turned the corner. We heard a shot. . . I turned to my left and looked in the back seat. The President had slumped. He said nothing.

"Almost simultaneously, as I turned, I was hit, and I knew I'd been hit badly, and I said —I knew the President had been hit—and I said, 'My God, they're not going to kill us all.'

"And then there was a third shot, and the President was hit again. . . ".

The idea that criminals can wade through water to avoid a bloodhound is false. Actually the dogs can track better through the water which holds the scent.

Finley Has 'New Image'

KANSAS CITY (AP)—Charles O. Finley has a couple of new wrinkles for his Kansas City Athletics to use tonight as a face lifter for the club's battered image at home.

In their home opener against Cleveland's Indians, the Athletics will take the field wearing uniform colors that Finley describes as "misty green" and "wedding gown white."

Finley hasn't deserted last year's colors, which he calls "Kelly Green" and "Finley gold." He bought two sets of uniforms and said the team will alternate color schemes.

And if one of his players hits a home run, Finley will display his other new gimmick — 60 whirling colored lights and three huge horns that can smother a foghorn.

The Athletics' image became tarnished through winter-long bickering between Finley and the City Council and Finley's efforts to move the franchise to Louisville, or Dallas, or Oakland, or anywhere.

Fewer than 1,900 season tickets were sold after the American League finally convinced Finley that the franchise is going to stay in Kansas City.

Now it's up to the players to pull in the customers who are willing to pay to see good baseball. About 25,000 are expected tonight.

Bloodiest Week Of Viet Nam War Told

SAIGON, South Viet Nam (AP)—South Vietnamese forces have had their bloodiest week of war, with 200 dead and 660 wounded in action against the Communist Viet Cong, an American spokesman reported today.

Another 140 were wounded in engagements of the past week, when Communists made sharp thrusts in the Mekong River delta.

The most severe engagement was at Kien Long, near Ca Mau, in which nearly 300 government troops were killed or wounded.

The Viet Cong suffered 710 casualties, most of them killed, the spokesman claimed.

AF Sets Up Area Liaison Office

DALLAS (AP) — A scientific and technical liaison office to serve eight states have been set up in Dallas by the Air Force Systems Command. The office will maintain liaison between scientific communities in Texas, New Mexico, Colorado, Kansas, Oklahoma, Arkansas, Louisiana and Mississippi.

STAINLESS TABLEWARE

A Product Of International Silver Co.

Graceful, Modern "Aristocrat" Pattern

OFFER CONTINUES FOR 8 WEEKS

THIS WEEK
One Solid Handle Serrated Dinner Knife

With each food purchase of $5, you are entitled to buy one piece of tableware at 9c. With $10 purchase, two pieces at 9c each . . . and so on. Each week we offer one basic piece. This week it's the dinner knife. Next week comes the dinner fork, then the teaspoon and the tablespoon. Then we repeat this sequence to allow you to get more of the pieces. Thus the entire program runs for eight weeks.

9c
1 Piece With Each $5.00 Purchase

Start Your Set Now

Completer units are on sale throughout the eight week period so that you may round out your tableware set. Buy these matching units any time for 99c, with no minimum purchase required. They will complete your sparkling table setting. Every piece of this tableware is SOLID stainless steel of substantial weight, beautiful enough for any occasion yet amazingly low in cost. See it on display at Rainbow Market.

SPORTS

Yanks, Bums Worst Yet

By MIKE RATHET
Associated Press Sports Writer

As things stand today, the Los Angeles Dodgers are just a shade worse than the New York Yankees.

But then they've had more time to work at it.

The Dodgers maintained their edge Monday, but not without some difficulty. They collected five hits and scored a run off Bob Sadowski while losing to Milwaukee 7-1 and running their longest losing streak in two years to six games.

The Yankees, meanwhile, tried to catch up but failed. They didn't score but they did stroke nine hits before losing to Boston 4-0. They might have had a better chance if the other half of the Patriots' Day doubleheader at Boston hadn't been rained out.

The Dodgers' edge, however, stems from the fact they've played more games. Each team has won one game, but the Dodgers have squeezed in six losses to the Yankees' four.

The Dodgers, in the National League cellar one game behind the New York Mets and four behind leading Philadelphia and San Francisco, have scored only 14 runs in seven games and three in the last 35 innings. They've collected only 50 hits, for a .213 batting average.

The Yankees, in the American League cellar one-half game behind the Washington Senators and three behind front-running Baltimore, have scored 12 runs in five games. But they've collected 41 hits for a .216 batting average.

The biggest hitting show of the day was put on at Houston, where Nellie Fox drove in four runs with a single and triple in the Colts' 7-1 victory over St. Louis. In the only other game played, Bob Skinner's error gave San Francisco two eighth-inning runs and a 5-2 triumph over Cincinnati.

The Chicago at Baltimore and Philadelphia at New York Mets games also were rained out. The other clubs were not scheduled.

Sadowski had retired 21 Dodgers in a row when they finally scored in the ninth on a single by Tommy Davis and Ron Fairly's triple. Gene Oliver stroked three hits for the Braves. Lee Maye hit a homer, and Frank Bollins drove in three runs with two run-scoring singles and a bases-loaded walk. Nick Willhite was the loser.

Bill Monbouquette, who allowed seven hits before leaving after eight innings because of arm trouble, and Dick Radatz combined to shut out the Yankees. Dick Stuart drove in two runs for the Red Sox with a pair of singles and rookie Tony Conigliaro hit his second homer of the season. Rookie Bob Meyer took the loss.

Close Events Due On Local Track

Track teams from Colorado City and Big Spring were due here this evening for a full-fledged triangular event with the Snyder Tigers.

The events will get underway in Tiger Stadium at 6:15 p.m. All 14 events, including 12 individual events and the 440 and mile relays, will be run, and points will be scored as in a regular meet.

One of the closest battles appeared to be shaping up in the 180 yard low hurdles. Big Spring will bring its district champion Johnny Hughes to compete. Hughes won the District 2-AAAA low hurdles title with a time of 19.7.

He will face a challenge by Harley Bynum and Leslie Anderson of Snyder. Bynum and Anderson ran one-two in the low hurdles at the District 3-AAA meet when Bynum turned in a time of 19.8 and Anderson finished on his heels. Last Saturday, Bynum turned in another 19.8 performance at Lovington, N. M., and Anderson was close behind with a 19.9.

Colorado City will bring a strong aggregation in the field events, and the Wolves' Redwine holds the District 3-AAA 440 yard dash title with a time of 51.4. Freddie Fox is the district broad jump champion with a 22-3½ mark, and Pete Garrett of C-City is the district pole vault champion with a leap of 12-3½.

Snyder's Craig Stokes and Jackie Rice are expected to make strong bids in the broad jump and pole vault events here this evening.

Baylor Defeats Texas Lutheran

SEGUIN, Tex. (AP) — Baylor beat Texas Lutheran 3-1 in a non-conference tilt Monday night to hold onto the season lead in the Southwest Conference baseball race.

Baylor has a 14-4 record and is tied for second in the conference race with 6-2.

The Bears scored twice on a Texas Lutheran error in the ninth to win the game. An attempted double play backfired.

Gary Statham, who relieved Joe Robison in the sixth, got the pitching decision. Robison and Statham combined to limit Texas Lutheran to four hits.

Defensive back Charley Migyanka of East Conemaugh, Pa., will captain Michigan State's 1964 football team.

Mary Goosby, left, was the singles champion, and was also double champion along with Pearly Jo Scott, right.

U. S. Team In Finals

LIMA, Peru (AP)—The United States has gained a berth in the final round of the Women's World Basketball Tournament, but the Russian girls, favored to repeat as world champions, are upstaging the U.S. entry.

The American team clinched a place in the seven-nation championships by defeating Paraguay 54-48 at Chiclayo Monday. The U.S. girls beat France 41-37 in their opening game of one of three preliminary tournaments.

But, while the Americans had to go all out in their game, the Russians buried Chile 91-28 at Tacna. Russia, Bulgaria, Czechoslovakia, Yugoslavia and Brazil each have won two straight and have qualified for the finals. Peru, the host nation, completes the championship field.

Gun Club Auxiliary Holds Shoot Sunday

Eileen Martin was first and Judy Watkins was second in the shoot held Sunday by the Auxiliary of the Canyon Gun Club.

The shoot was a .22 rimfire event with metallic sights at 50 yards.

Kentucky Is On NCAA Probation

SAN FRANCISCO (AP) — Those extra conditioning sessions that helped cost the University of Kentucky nearly half of its 1962 football team, are costing the 1964 squad any chance to play in a bowl game.

The National Collegiate Athletic Association put the school on one-year probation Monday. The only sanction is against post-season football. Slippery Rock of Pennsylvania and Prairie View A&M of Texas drew the same penalties for playing in non-sanctioned bowl games last year.

The NCAA took Indiana University, University of Colorado and New Mexico State off the probation list — the latter nine months earlier than expected.

The NCAA Council said Kentucky "violated provisions governing out-of-season football practice in that during late winters and early springs of 1962 and 1963, its football coaches conducted physical conditioning programs for all student athletes" planning to play football.

Attendance was required.

Charlie Bradshaw was in his first year as head coach in 1962. After eight weeks of conditioning and before spring practice was even a week old, numerous players quit.

More followed until the original squad of 68 was reduced to less than 40 by the end of the 1962 season. The daily conditioning included weight lifting, calisthenics and running — but coaches were careful not to have footballs on hand.

Some of the players who quit gave up their grants-in-aid. The council said the school gave the players form letters to sign as their "voluntary" letters of resignation from the grant program.

It called this procedure "questionable" and said it "reflected poorly on the general administration of intercollegiate athletics."

NCAA executive director Walter Byers said the Southeastern Conference had advised Kentucky the conditioning program was legal.

"The NCAA Council is of the opinion that the university did not intend to do wrong, however in fact, the activity violated NCAA rules two successive years," said Byers.

New Mexico State won early reinstatement from its three-year probation because the school introduced new evidence reportedly showing fewer students were involved in admissions irregularities than at first believed.

Colorado, banned from post-season football during its two-year probation, was rapped in 1962 for recruiting irregularities exposed in the Sonny Grandelius case. Grandelius, the football coach, was fired.

Indiana served a more serious probation lasting four years during which it could not compete in post-season football games, championship tournaments in other sports, or in invitational affairs.

LITTLE LEAGUE SIGN-UP TO END

The second and final session of Little League Baseball registration is set for tonight at the Texas Electric office on the west side of the square.

All Snyder area youngsters from 8 through 12 who are not already assigned to a Little League team and who wish to participate in the summer baseball program are invited to sign up. The registration hours are from 7:30 to 9:30 p.m.

SMU Defeated By Arkansas Golfers

FAYETTEVILLE, Ark. (AP) —Arkansas beat Southern Methodist 4½-1½ Monday to move past the Methodists into fifth place in Southwest Conference golf.

Arkansas now is 11½-12½ in the standings while SMU is 13½-16½.

Rod Bliss won the only SMU match, downing Davie Lee 3 and 1, while Bobby Parks split with Gary Markland. Mike Hastins beat Albin Johnson 3 and 2, Bell Hall downed Tommy Culp 4 and 2 and Arkansas also won both doubles.

FIRST PLACE WINNERS—Among the many high winners at the Odessa Craftsman's Fair were these four Snyder High students. From left are Donny Fenton, Johnny Nokes, Whit Boren and Leslie Anderson. Fenton was overall division winner in the leather division, while the other three took first place awards, with the projects shown.

Snyder Students Win Many Honors In Craftsman's Fair

Pupils in the Industrial Arts Department of Snyder Schools participated in the West Texas Student Craftsman's Fair sponsored by Odessa College on Saturday.

The various students who participated and their teachers are as follows:

Power mechanics, taught by Joe Harwell — Carl Campbell, first place and first division winner; Dale Cantrell, second; Buck Martin, third.

Electricity and electronics, taught by Joe Harwell — Robert Bowlin, first with 5-tube radio demonstration; Damon Ginbey, first in student participation contest. Bobby Easterwood, first in electrical devices; Bobby Easterwood, first in electronic devices; Damon Ginbey, second with solar powered transmitter amplifier; Joe Fuller, second with VTVM; Buck Martin, second with radio; Stanley Baize, third with transistorized telephone amplifier; Johnny Gardner, third with radio; Bobby Easterwood, third with speech synthesizer.

Drafting courses taught by Frank Miller — Bill Wiman first, Robert Thomas second and Steve Crowell third, descriptive geometry problems; Douglas Pitner, first in detail development drawings; Gary Perser, third, detail assembly drawings; Bill Wiman, second, beginning mechanical drawings; Roy Miller, second, and Ronnie Stevens, third, architectural drawings; Fred Finley second architectural presentation drawings; Cary Don Hardin, third, architectural information contest.

General metal working taught by Frank Miller — Maxie Beasley first and Craig Merritt second, foundry projects; Johnny Gardner third, machine shop project.

General wood working taught by Frank Miller —Maxie Beasley second, wood turning projects; Leon Smith second and Jackie Watson third, wood working information contest.

Areas in crafts taught by Mrs. Lillian Jones — Leather division (large projects): Danny Fenton first place and first in overall division with three tables and leather picture; Johnny Nokes, second with picture; Richie Smedley, third with scrapbook. Leather division (small projects): Johnny Nokes first with picture of Christ and first with a dragon; Whit Boren, first with leather picture; Jerry Kitchens, third with notebook cover.

Art metal division: Leslie Anderson, first with metal tray; John Finke, second with metal tray. Wood sculpture: Glenn Ward, third with "Design in the Wind."

Mosaics senior division: John Finke, second with Mosaic arrangement; Donald Palmer, third with Mosaic arrangement.

Mosaics junior division: Jackie Rice, second with Mosaic clock.

Crafts student participation contest: Danny Fenton, first; Dickie Williams, second; Gary Blackshear, third.

Travis Junior High general shop taught by Robert Bowden — General shop test: Randy Davis, first class A; Troy Welch, third class A; Forrest Wimken, first class B. Metal working test: Troy Welch, first class A; Randy Davis, second class A; Keith Mitchell, third class A.

General shop wood working: Mike Needham, second class A; Carlos Mijares, second class B. Musical instruments: Ronnie Kelly, second class A; Tim Jones, third class A; Jackie Sifford, first class B and first in division; Bobby Clardy, second class B; James Munsell, second class C.

Foundry division: Roy Bartels, first class A; Bobby Parmer, first class B and first in division; Darrell Pollard, second class B; Mike Cook, third class B. General shop metals: Bruce Beall, third class B. Mechanical drawing (beginning): Larry Woolsey, second class A; Roy Bartels, third class A; Randy Feagan, first, class B.

Travis arts and crafts taught by Charles Hodges — Terry Sowell, first jewelry class B; Roy Garrett, first tool set; Jimmy Koonce, first, jewelry class A; Roy Lee, second wood carving; Vernon Moore, second plastics.

Lamar Junior High general shop taught by Joe T. Harwell — Don Malone, first with desk in wood division; Tommy Bullard, first with desk in wood division; Jack Greene, first electrical mandolin in musical instruments; Mike Martin, first with transistor radio in class A electronics and first in student participation in electronics, technical; John Harkins, first with short wave radio in electronics; Henry Grinslade, first with arc and spot welder; Richard Glenney, first with clock radio in class B electronics; Billy Raborn, first in crafts, student participation technical knowledge; Jerry Simons, second with turned end table, wood; Henry Grinslade, second with two-pole electric motor; Bill Taylor, second in general shop technical knowledge, student participation; Doug Burney, third, machine shop, ball hitch and bolt; Richard Glenney, third with 5-tube radio.

Lamar arts and crafts taught by W. E. Raborn — Bob Ray, first in division, with plastic bud vase; Kinne Callaway, first with engraved aluminum tray; Larry Krause first with plastic cake server; Don Lewis, first with liquid plastic pen stand; Larry Lofton, first with hand carved leather belt; Bob Ray, first with plastic bud vase; Weldon Riley, first with miniature caballero saddle; Billy Wilson, first with pink speckled sconces; Joe Wood, first with copper letter opener.

Also, Betty Ann Bruce, second with copper letter opener; Sandy Duckworth, second with plastic cake server; Mike Kenner, second with engraved aluminum tray; Coy Rhodes, second with ceramic ashtray; Bill Taylor, second with predator caller; Sandy Wellborn, second with plastic salt and pepper shakers; Dennis Kennedy, third with pen and pencil set; Chapman Mott, third with engraved and hammered aluminum tray; Teresa Rylander, third with triangular ashtray and third with leather correspondence secretary; Jerry Simons, third with plastic pen holder with letter clip.

Student participation contest: Greg Clemmer, second in arts and crafts; Don Lewis, third in electronics.

Optimism Told In Rail Talks

WASHINGTON (AP) —There were optimistic reports from the White House and Congress today that railroads and unions may be able to work out an agreement before Saturday's deadline for a nationwide strike.

Rep. Oren Harris, D-Ark., chairman of the House Committee on Interstate and Foreign Commerce, predicted the end in the dispute was imminent.

President Johnson was reported on high authority to expect an agreement before the remaining four days of the crisis postponement run out.

The administration stepped up the pace of the emergency bargaining sessions, already in day and night meetings, and today's talks began at midnight.

Sources said that nothing dramatic should be read into the early start of the meeting and White House press secretary George Reedy put it this way, "The tempo is still increasing."

All sides cautioned against optimism.

Snyder Couple's Daughter On TV

Mr. and Mrs. Frank D. Stephenson have been advised that their daughter, Mrs. Robert Overgaard, will appear on the "Say When" television program for three days beginning tomorrow.

The program is presented over NBC television at 9 a.m. daily, Snyder time.

Actually the programs on which Mrs. Overgaard appears were taped in advance, and Mrs. Overgaard told her parents that she won several large prizes, including furniture, a motorboat, a mink coat and overseas vacation trips.

The first hot dog eaten in the United States is believed to have been bought at Coney Island around 1871.

Big Spring Man Flies With President

WASHINGTON (AP) — J. B. Pickle of Big Spring, Tex., took his first plane ride at the age of 88—and at the invitation of President Johnson.

The President took Pickle with him to the annual luncheon of The Associated Press in New York, where he also got a helicopter ride.

"It's the only place in the world where such an incident could have occurred and I enjoyed it very much—greatly, of course," said Pickle. He is the father of Rep. Jake Pickle, a Democrat who represents Johnson's home district in Texas. Another son, Joe Pickle, is managing editor of the Big Spring Herald.

Pickle said, however, that he preferred the jet ride to the helicopter jaunts, saying the jet was "the smoothest way to ride." He came to Washington by car, with the Big Spring sheriff, Miller Harris, who was bound for Washington pick up a wanted man.

When someone mentioned that an airliner carrying Mrs. Johnson had been jolted by an electrical shock earlier Monday, Pickle looked appalled. Turning to Johnson, he said, "Well, I hope lightning never strikes you —politically or otherwise."

Pickle said he didn't feel afraid on either of the air rides. — "I'd figured I don't have much longer to live anyway."

Oil Production Drops

TULSA, Okla. (AP)—U.S. oil production dropped last week, the Oil and Gas Journal reported today.

The trade magazine said output last week averaged 7,552,280 barrels a day, down 37,299 a day from the previous week.

Decreases included Oklahoma, down 9,900 to 575,400 and earthquake-hit Alaska, down 2,200 to 23,800.

Crime Didn't Pay Kansas City Man

KANSAS CITY, Mo. (AP)—Crime certainly didn't pay Carl Angus Fry. But it did place a costly price on his head.

Alive, Fry at one time was worth $32,500—in appearance bonds. That was in 1956, when he was tried as a habitual criminal. Police records state 30 of his 39 years were spent behind bars.

Fry was out on $5,000 bond when he was found shot to death in a ditch April 15. Monday, the Clay County Court authorized $70 to give him a pauper's burial at the county home.

Former Army Major Killed Near Oaxaca

MEXICO CITY (AP) — A former Army major of San Antonio, Tex., was among nine persons killed Friday in a bus accident near Oaxaca in the southern part of Mexico.

The victim was Alvin Floyd Wheeler who was an occupant of the bus which careened off the highway, plunged into a ravine and burst into flames. The other victims were Mexicans.

The U. S. Embassy in Mexico City said Wheeler's body was being returned to San Antonio for burial.

Suspicion Is Sure Reaction To Any Communist Move

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—Almost 19 years of cold war secrecy, and all that means in skepticism about Communists, has had a freezing effect on the American mind.

The reaction to a Communist move, even when it sounds peaceful, is almost predictable.

Suspicions of the Soviet Union popped up immediately in Congress Monday after President Johnson announced to an AP luncheon in New York and Premier Khrushchev disclosed in Moscow they were cutting production of material for nuclear weapons.

The suspicions went like this. "How do we know Khrushchev will keep his word? Will he let us into Russia to check to make sure? We need proof." In short, is he up to tricks?

But all this overlooks the point: In this case it doesn't matter whether he's playing tricks or not. Johnson said this country has more material for weapons than it needs.

Therefore, continuing to produce it without needing it is wasting money. Johnson put it this way: "We must not operate a WPA nuclear project just to provide employment when our needs have been met."

The Soviets have the same problem of overproduction of nuclear weapon material, as do the British, but Khrushchev in his announcement tried to pitch his decision on a lofty plane.

He said the cutback was an "opportunity for improving mutual understanding." The British were to announce a cutback today. Actually, they put the brake on last year.

Either Johnson is right or wrong in his decision. If he is wrong, he may be jeopardizing the country. But it must be assumed he would not have made his decision without the advice of his military and atomic experts.

So, if he's right, it can make no difference what Khrushchev does about cutting back. If the Russians have more material than they need but keep on producing it, then they're wasting money.

Another question was raised: Is this a step toward disarmament? Johnson anticipated such a question before making his announcement and answered it as follows:

"This is not disarmament. This is not a declaration of peace. But it is a hopeful sign and it is a step forward which we welcome and which we can take in hope that the world may yet, one day, live without fear of war."

In the case of disarmament the consistent American position has been that inspection would be needed, and it is easy to see why it would be needed in that case but not in Johnson's cutback decision of Monday.

If the United States and the Soviet Union for instance, agreed to destroy a certain number of missiles and nuclear warheads, this country could never be sure the Soviets were not cheating unless they permitted inspection.

Without such proof, this country would be a first-class sap to destroy a single one of its weapons for, if that continued, it could wind up at the mercy of the fully armed Russians.

But any disarmament agreement is a long way off. Johnson, ever since taking office, has been communicating with Khrushchev privately but reporters were told the two men's decisions of Monday were not a deal.

For the reasons explained above there didn't have to be a deal.

But that probably won't stop suspicions about the whole business although it would be hard to explain why this country should produce what it did not need, no matter what the Russians did.

It's possible that moves like this one by both countries may lead to better understanding, but that's for extra.

Height No Worry To A Cleaner

By HAL BOYLE

NEW YORK (AP) — About 12 of the 3,000 men who clean the gleaming windows of Manhattan's skyline fall to their deaths each year.

And as John Goggin, a fine hand with a squeegee, ate his luncheon plate of corned beef and cabbage, he explained why.

"In most cases they are the result of carelessness. With some people familiarity breeds contempt," he said.

"Height isn't a danger in itself. If you take care, you're as safe up there 800 feet above the street as anywhere. It's what's down below that can hurt you.

"It's much harder on the street cleaning windows from ladders. Twice I fell 15 feet off ladders. But I've never fallen from a strap, God be thanked. You only get one mistake with the belt."

The belts are made of linen. Rope cuts, leather rots, cotton and nylon fray. But linen lasts and its condition is easily checked.

"It is supposed to be Irish linen," said John, who cleaned his first window here — it was 17 stories up — back in 1929, not long after he left a farm in County Cork.

"That was in depression days, and there were more stockbrokers going out the windows than cleaners."

A cleaner handles around 80 windows a day. Goggin, who is 57, has five children — two in college—and two grandchildren, has been on the job 34½ years. He estimated that in that time he has cleaned about 690,000 windows.

"The trouble is," he said, "that after all those years the same windows still get just as dirty — or more so — as when I began."

His age is no handicap. He still is as agile as when he started, and he goes out the 67th-floor window of the RCA building as unconcernedly as some young ex-paratroopers who've worked with him.

"There are 31 men in the union over 65 still working," he said. "They don't want to retire, and I want to keep on myself at least until 65 — with luck, and if the health stays good.

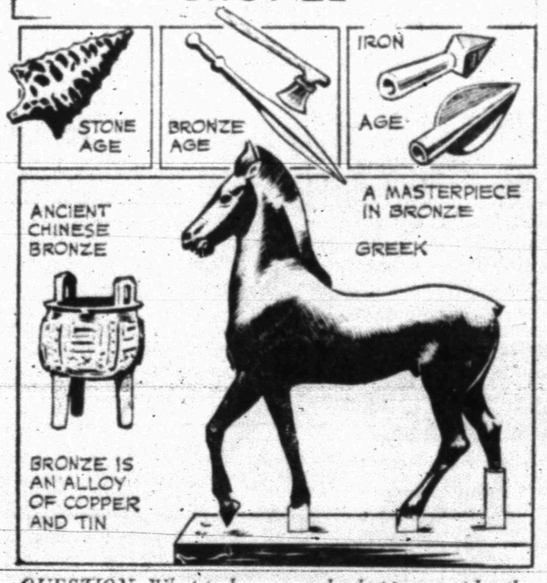
Window cleaners get paid even on the 25 days a year weather prevents them from working. They can work in high winds, but not if it is too rainy, snowy, sleeting or the temperature falls below 10 degrees.

Right now Goggin's employer is looking for trainees.

"We've always looking for learners," said John. "But most young fellows think there is too much risk, the work is too hard and the pay too low."

"I did the windows at home for Easter. I tried to fake three of them, but my wife caught me. Women are hard to please."

Junior Editors Quiz on BRONZE



QUESTION: What is bronze and what is meant by the "bronze age?"

* * *

ANSWER: At first, prehistoric men used implements and weapons chipped out of stone or flint, such as the arrowhead in our first picture. Then they discovered metals in the rocks, such as copper, tin, lead and zinc. They found it was possible to melt these metals with heat and then shape them in various useful ways. But the first metals found were too soft to hold an edge well. It is thought that a bit of copper and some tin were accidentally melted together and when the mixture hardened, it was found to be much sharper on the edge and stronger than the first metals. This mixture was an "alloy" meaning two natural metals combined and was called "bronze." The Bronze Age began about 3,000 B. C., and during this period many weapons and utensils were made of bronze. Then iron, a very abundant and extremely strong metal, was discovered. Iron working began about 1100 B.C. in Asia Minor. Iron was cheaper than bronze and made much better tools.

The use of bronze has continued, however, especially for statues and fine works of art. To cast a statue, the original clay model has a plaster mould made. This is lined with thick wax, and plaster is put inside to make a core. Then the wax is melted out and molten bronze is poured in. When the outside plaster is chipped off, there is the statue case in enduring bronze.

* * *

FOR YOU TO DO: Have you a penny? Look at it carefully, noticing how sharply it is cast and what an attractive color it is. The metal is bronze.

(Tom Buchholz of Port Edwards, Wis., wins this week's grand prize of a set of Compton's Pictured Encyclopedia for this question. Mail yours on a postcard to Junior Editors in care of this newspaper, and you may win the weekly prize or the daily prize of Compton's Illustrated Science Dictionary plus $10 cash.). 4-21

First Lady's Trip Tests Secret Service Ingenuity

By FRANCES LEWINE

WASHINGTON (AP) — Mrs. Lyndon B. Johnson took on a nine-hour motorcade ride home from Cleveland in heavy rain and fog Monday night, rather than try another bad - weather airplane ride.

She thought she'd "enjoy the adventure of driving" after an explosive - like lightning discharge frightened her and passengers aboard a United Airlines Viscount Monday.

The drive back proved to be an adventure, too, and Secret Service veterans said it probably will go down in their records as the longest auto trip ever taken by a First Lady.

En route, the President's wife stopped off for dinner at a Howard Johnson's restaurant, where she took a few minutes in the manager's office to telephone the White House to talk to her husband.

There was a private dining room set aside, under advance radio instructions, here steaks were ordered for all in the party of 19.

Later, her borrowed Cadillac developed mechanical trouble. No turnpike motorist ever got more speedy service. The car was driven right inside a service garage and the First Lady didn't even get out. Three waiting mechanics swooped down on the engine, quickly found the trouble — "the fuel filter was blocked" — and had a new filter installed in five minutes flat. She thanked the head mechanic and the motorcade moved on into the rainy night.

When the First Lady made her impromptu decision to take the 348-mile drive back to Washington, she tested the ingenuity of the Secret Service.

It proved ready, even down to providing pillows and blankets for the long journey.

Four cars already had been borrowed for Mrs. Johnson's day-long visit to Cleveland to speak at a YWCA convention and to see a public housing development for the elderly.

Cleveland's entire available force of Secret Service agents—five of them—joined two White House agents to do the driving and protect the First Lady's entourage.

Their passengers included Mrs. Johnson, White House physician Dr. Janet Travell, Public Housing Administrator Marie McGuire, Mrs. Anthony Celebrezze, wife of the secretary of welfare; the First Lady's press secretary, Elizabeth Carpenter, five reporters and a presidential photographer.

All along the route, state police of Ohio, Pennsylvania and Maryland and patrolmen of the District of Columbia neatly synchronized to take turns providing lead and back - up patrol cars. Walkie - talkies connected all the cars of the motorcade.

Departing at 4:29 p.m., the agents made it plain that all speed limits—65 to 70 on the turnpikes—would be held firmly on the slick-wet roads.

The White House was darkened, except for the President's office, when Mrs. Johnson's motorcade finally pulled into the southwest gate at 1:23 a.m.

Despite the tiring journey, Mrs. Johnson took time to thank everyone who had joined in her saga and to wave a good night.

Education Said Key To Survival

NEW YORK (AP) — State-administered public education, under frontal assault as never before, must stand if our nation is to survive, says Texas Gov. John Connally.

"The test is no longer one of regional pride or provincial superiority. It is a test of national survival," Connally said in an address Monday night to the Economic Club of New York.

The governor said, "The contest in education between our country and the Communist world must be carried on by 5 separate systems of American education. If the states and their subdivisions falter in the contest, then America stumbles, and if America stumbles, the free world falls."

He said Russia and Red China have a single-mindedness about education, "going ill-housed, ill-clothed and ill-fed while supporting a great national effort in education because they are convinced that in this way only can they hope to achieve their dreams of world domination."

"When we contrast that sacrifice with the apparent reluctance on the part of our own people, blessed with unbelievable material prosperity, we are haunted by the thought that we might not deserve to win," Connally said.

"We must believe that the states will—we must demand that they will—move boldly to meet the life and death responsibility that is imposed upon them and make the sacrifices required to discharge that responsibility," he said.

In his speech, the first by a Texas governor to the Economic Club, Connally urged business and education to "move—and move fast—in common undertakings. This is not social idealism on the part of the university, nor philanthropy on the part of business.

"It is a joint American enterprise."

Such a combined effort, he said, means: "Greater cross-fertilization of the best minds of business and education. Jointly, business and education must improve means for exchanging information, ideas, plans, hopes and guesses."

"Not just an occasional 'New book' at education, but a constant regard for educational programs—any one of which may be painfully outmoded within a generation."

"A systematic expansion of adult education, to provide the worker not only re-education for his changing job but also new horizons for his living as a citizen."

Study Dam's Feasibility

WACO (AP)—The feasibility of a $14.8 million dam and reservoir on Aquilla Creek will be studied by the Brazos River Authority and Army Engineers.

The dam, between Waco and Hillsboro, would be part of a control-water conservation project. The reservoir could store 218,000 acre-feet.

Directors authorized the study Monday.

The board also:

Accepted a study on a proposal by the Bureau of Reclamation for an inter-basin canal. The canal would extend from East Texas To Lower Rio Grande Valley.

Appointed a committee to study the inter-basin canal. Members are J. D. Tompkins of Abilene, G. D. Hinson of Graham and David Casey of Lubbock.

Authorized aspects of final planning for the De Cordova Bend Reservoir on the Brazos near Granbury.

Rocky Visits Louisiana

NEW ORLEANS, La. (AP)—New York Gov. Nelson A. Rockefeller visits Louisiana today, just three days after the state's Republican party gave a ringing endorsement to one of his rivals for the GOP presidential nomination.

Rockefeller's appearance in New Orleans was billed as nonpolitical.

He will speak on Latin American affairs at a noon luncheon of the annual Pan-American press seminar after receiving an award from the city's International House for furthering hemispheric cooperation.

A special guest at the luncheon will be the governor's brother, Winthrop Rockefeller, who recently announced he would run for governor of Arkansas as a Republican.

Louisiana's 20 votes at the Republican National Convention have been sewed up by Sen. Barry Goldwater of Arizona. The state GOP convention last Saturday endorsed Goldwater's nomination and instructed the national convention delegation to vote for Goldwater until released by him.

Two Fierce Farm Battles Haven't Ended The War

By OVID A. MARTIN

WASHINGTON (AP) — Two fierce battles have been fought over new federal farm programs for wheat, long a headache for growers and the government. Each side has won a contest. The war is far from over.

Lined up in this economic and political conflict are the administration, the National Farmers Union, the National Grange and a number of state, regional and commodity farm groups on one side. On the other are most Republicans in Congress, the American Farm Bureau Federation and several lesser farm organizations.

The administration has just won its battle—enactment of a new program which makes significant changes in government efforts to stabilize supplies and grower incomes from wheat.

The other side won its battle last year in a grower referendum which soundly defeated a wheat plan having many of the general characteristics of the one Congress has just approved.

The Republicans and Farm Bureau leaders vow they will seek in this year's congressional elections to elect members committed to destroying the wheat plan won by the administration by a narrow vote in the House.

In a few words, the issue is whether there should be more or less government control over wheat growers. The administration forces insist that a government supply management plan is essential if farm incomes are to be sustained. Their opponents want less government, contending that farmers want more freedom and that a free market system could, in the long run, provide greater returns than would a restrictive program.

The administration wheat plan defeated by growers last year would have provided acreage allotments marketing quotas and a sharply reduced grower price support for the grain. Under it, growers who complied with their allotments—that is, held down production in years when surpluses existed—would have gotten supplementary returns in the form of processing and export levies.

This plan, referred to as a compulsory program, would have levied cash penalties on wheat grown by non-cooperating farmers in acres in excess of their allotments.

The plan passed by Congress last week is called a voluntary program. It too provides for acreage allotments but not marketing quotas. It does not require approval at a referendum. It, too, sharply reduces price supports, but offers supplementary returns to cooperating farmers in the same manner as the plan growers rejected last year.

Secretary of Agriculture Orville L. Freeman is fully conscious of the prospects for another fight in Congress next year to continue the program. While authorized for 1964 and 1965 crops, Congress must decide at next year's session what to do about wheat programs for 1966 and subsequent years.

As a consequence, Freeman will have to try to show, through his handling of the 1964 wheat program, that the new plan is what the administration has said it will be. Critics will be watching every turn and development.

He is unlikely to have much cooperation from the grain trade. The trade does not like the new plan because it adds complications to the operations of grain merchants, millers, other wheat processors and exporters.

Without doubt the new wheat program will become a major campaign issue in wheat-producing areas.

There is a good possibility that the battle may wind up in the courts long before voting time in November. Some millers have indicated they may refuse to buy 70-cent-a-bushel certificates from the government to cover all the wheat they use in processing flour and other wheat products for domestic consumption—as the law requires they to do. They contend the certificate—refurns from which go to farmers holding down wheat acreages—is an unconstitutional processing tax.

Freeman discounts the possibility of unfavorable court action. He said his department has good lawyers and he is confident they will be able to win any court contest.

Industries Still Woo Top Grads

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—Business is still giving top students in college graduation classes a rush. But this year there's a difference.

The ardent wooing of any and all college engineering seniors by aerospace and electronics copanies which followed the Soviet orbiting of its first Sputnik has slumped, especially on the Pacific coast.

Even worse, from the student's point of view, the big annual increase in starting pay has slowed to a crawl in the jet-age specialties and also in most other fields.

Much of the blame is placed on defense contract losses by some companies. But also the post-Sputnik efforts of both government and private business to encourage youth to study engineering has been bearing fruit. The supply of recruits is catching up with the lessening demand.

Top students are still sought even by the defense industries. And college placement offices report the demand heavy for good students in accounting, mathematics, chemistry and physics. If anything, there's been an increase in job opportunities in banking, insurance, retailing and sales.

But almost all sections of the nation report the summer job market growing poorer each year.

Many in this year's graduating classes aren't affected yet because they are going on to further studies. A survey by the Family Economics Bureau of Northwestern National Life Insurance Co. of Minneapolis, Minn., shows graduate schools taking nearly half of the business majors and a third of the engineers.

Seniors being signed up this spring are reported averaging about 2 per cent more this year than last, much less of a rise than formerly. The survey gives as average starting pay: engineers $610 a month; mathematicians, chemists, physicists $600; accountants $525; other business majors and graduates in the humanities and social sciences $500.

A master's degree usually rates $100 more a month than a bachelor's. A doctorate in engineering and the sciences can command from $10,000 to $13,000 a year.

To interest U.S. youngsters in elementary and high schools, Science Service, a nonprofit Washington organization, promoted science fairs, attended last year by more than a million youths. Among firms sponsoring such fairs are General Dynamics, California Standard Oil, Montgomery Ward and General Electric.

Westinghouse Electric has an extensive scholarship program for the education of youth in sciences needed for defense, space and electronics jobs. Bausch & Lomb offers such a scholarship at the University of Rochester, Minneapolis - Honeywell Regulator Co. is sponsoring a network television series aimed at interesting teen-agers in science as a career.

A number of corporate officials regard as a temporary thing this year's loss of the lush job opportunities in the aerospace and defense companies currently plagued by cutbacks and cancelations of government contracts. And they note that some consumer products companies are hiring more science graduates this spring.

Bad Weather Fails To Stop Seeding

AUSTIN (AP)—Despite strong winds and showers in some areas, Texas farmers pushed crop planting and seedbed preparation last week, reports the U.S. Department of Agriculture.

Small grains, clover and pasture continued to provide good grazing for livestock, but had begun to play out in South Texas, the department said Monday in its weekly crop and weather report.

Onions continued to account for the bulk of Texas vegetable shipments.

Peach damage from the April 9 freeze in north Texas appears much lighter than expected earlier, the department said.

About 29 per cent of Texas cotton is planted, compared with 35 per cent at this time last year. Corn was 91 per cent planted. Early planted sorghum in the eastern half of the state has received first cultivation.

Oats for grain are ripening in South Texas. About 32 per cent of intended rice acreage is planted, compared with 61 per cent at this time in 1963.

Peanut planting reached 15 per cent of intended acreage, 3 per cent ahead of last year's schedule.

Carrots are available in good volume from the Rio Grande Valley, Laredo and Winter Garden. Watermelons in South Texas are blooming.

Serves Sentence By Cleaning Highway

FULTON, Mo. (AP) — Malcolm Dalrymple, 21, of Brentwood, Mo., arrived in court Monday with 10 sacks of empty beer cans and whiskey bottles.

He collected the trash along a five-mile stretch of county road on orders of Magistrate Hugh P. Williamson.

The Westminster College student had pleaded guilty earlier to careless and imprudent driving while drinking. Williamson offered him a choice of a jail sentence or collecting beer and whiskey bottles along the highway.

Dalrymple also was fined $50 and court costs.

"If the Good Lord sends me enough of these cases," said Williamson, "I'm going to have the highways cleaned up. I enjoy my work."

King Hussein Visits Ranch In Texas

By BOB M. GASSAWAY
Associated Press Writer

ZAPATA, Tex. (AP) — King Hussein I of Jordan is to fly in to deep south Texas today to visit Houston oilman John W. Mecom's ranch near Zapata.

The King's agenda calls for a tour of Mecom's 15,000-acre spread with close looks at the multi-millionaire's thoroughbred and quarter horses, a Texas-style barbecue, a swim in the ranch pool, and an overnight stay at the ranch.

A tight security net has been thrown up around the huge ranch 25 miles south of Laredo and 20 miles north of this small town on Lake Falcon.

The 28-year-old middle eastern monarch is on a 10-day tour of the United States. His official visit ends Thursday in New York with the dedication of the Jordanian pavilion at the World's Fair. He will remain in the country until April 20, however, with visit to San Francisco and Chicago.

In Houston Monday Hussein inspected a new sports racing car John Mecom Jr., 24, named after him. He also received a new car as a gift from the oil magnate.

In addition to the tour of the Mecom automobile racing team shops, the King's party visited the Mecom oil operations and was honored at a banquet in the evening.

Mecom recently signed a 40-year oil exploration concession agreement initially covering the entire kingdom.

The Mecom ranch is primarily rolling rangeland thickly covered with brush, punctuated by prickly cactus. The ranch headquarters is only a few miles from the Texas-Mexico border.

Texas High Patrolmen, U.S. Department of State personnel, Secret Service agents and Border Patrol units planned stringent security measures for the visit.

Fire Disrupts Subway Service

NEW YORK (AP) — Fire ill from smoke poisoning before broke out on a subway shuttle the blaze was brought under train early today and spread to control.
a wooden platform and several stores in the Grand Central Terminal area. Dense smoke poured from terminal entrances.

Six firemen were injured and at least two other men became ill from smoke poisoning before the blaze was brought under control.

In addition to knocking out service on the shuttle train which operates half a mile between Times Square and Grand Central Terminal, the smoky blaze halted service for 45 minutes on a portion of the Lexington Avenue and Broadway-7th Avenue lines.

The blaze broke out on the shuttle train as it neared the terminal. There was no panic and the few passengers aboard the train got out quickly without injury.

Many license plates carry pictures; a tiny heart of Alabama, a mountain range for Colorado, a small sunburst for New Mexico, a cowboy on bucking bronc for Wyoming.

LIGHTEST MEXICO

BY JOHN ABNEY

QUERETARO, Mexico — You know how it is when big-shot writers come to town. The carpet is rolled out and they are invited to sip cognac with governors and bank presidents.

But the moment I appear anywhere officials shout, "Watch it, here comes Abney." And everybody disappears behind tightly closed doors.

I did manage to slip up on one gentleman and tell him I wanted to write something on his beautiful city. Maybe he thought it was dirty words on walls because he handed me a booklet and a sort of look.

The booklet shows where Queretaro is on the map (I know or I could not have gotten here). It says they have agriculture, commerce, police, firemen, communications, electricity and industry. It also gives the distances by highway and railroad to various cities around Mexico.

Therefore I acquired the services of Mr. Audelio Rocha Duran (Audie for short), registered guide No. 6640 and night gentleman at the Motel Casa Blanca. Audie gave me the word and picked up books on subjects.

Queretaro has been involved in a great deal of history. The Spaniards came in and beat up the Indians not long after Cortes took over for the King.

In 1810 the Mexicans got tired of European cooking and ran the Spaniards out. For a few years they had a breathing spell but in the 1860s Mr. Napoleon III decided to save Mexico again.

He staked out foot - soldiers here and set Emperor Maximilian on the throne and promised to keep him there with French troops.

However, Napoleon was always in an argument with somebody so he pulled his soldiers out and there was Maximilian gazing into hostile eyes trying to think of something to say.

A skirmish broke out between the Patriots and the Imperialists (also known as Conservatives). Things got bad so Maximilian selected Queretaro to make his stand and try to salvage the fading empire.

After considerable fighting, he was captured with two of his loyal Mexican generals — Miromon and Mejia. Maximilian was held captive for three days in three famous convents here. Possible the patriots shifted him around because they figured it would leave some alluring landmarks for the tourist trade later on.

At any rate, on the morning of June 19, 1967 the Emperor and his two generals were led to the Cerro de las Campanas (Hill of The Bells) at the infuriating hour of 7 o'clock, Central Standard.

"Sire," one of the officers told him, "we just held a trial and what has to go is you conservatives." (No mention of Barry Goldwater.)

Maximilian nodded and asked, "So where do you think we'll be going?"

And the officer said, "That ain't up to us after you depart. But as a subtle hint, these fellows with rifles are the firing squard. Over here, please."

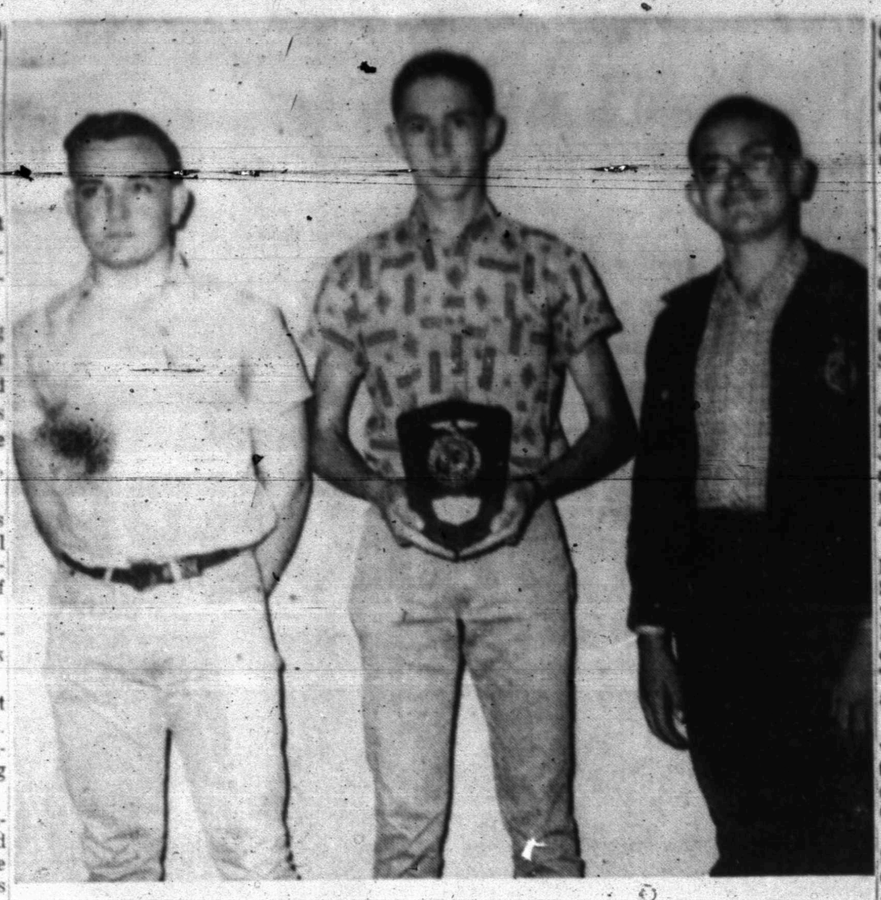
According to history, Maximilian looked out at the city and said, "I always wanted to die on such a beautiful morning as this."

And the officer said, "We would never refuse a man his last wish. Fire!"

The Mexicans wept afterwards because Maximilian wasn't a bad sort. It was just that they prefer to run their own country but people wouldn't listen to their arguments.

So they built a shrine with an altar on the Hill of The Bells, in memory of men with impossible ideas who ran out of luck.

And inside the shrine, before the altar, are three marble slabs with the names, Maximilian. Mejia. Miramon.



THE SNYDER FFA MEAT JUDGING TEAM qualified to compete in the state contest at A&M University, May 2, at the area contest Saturday in Abilene. Pictured with the area trophy are John Zalman, Tommy Hallmark and Ernie Shifflett. Hallmark was third high individual at the contest, and Paul Savage, also a member of the team, who was not present when the picture was taken, was fourth high individual. Area schools who qualified for the state contest were Sweetwater, Post, Snyder and Brownfield. There were 25 schools entered in the area competition.

Florida Notables Pay Hunting Fines

CHATOM, Ala. (AP) — Fines of $50 and costs have been paid by a Florida congressman, a retired general and several businessmen who pleaded guilty to hunting law violations.

The hunters included U.S. Rep. Robert F. Sikes, D-Fla.; Gen. Nathan F. Twining, former chairman of the Joint Chiefs of Staff; Edward Ball, a Jacksonville, Fla., financier; and R. A. Leanard, an Aluminum Corp. of America vice president.

They pleaded guilty Monday to charges of hunting turkey over a baited field Sunday. They were among a number of guests at the hunting lodge of former Rep. Frank Boykin of Mobile.

Texans' Trial Set For May

MUSKOGEE, Okla. (AP) — Trials of three Texas men charged with the Feb. 6 bank robbery at Red Oak will begin May 4.

A fourth man, Billy Ray Mabry, 31, of Dallas, entered a plea of guilty Monday before U. S. District Judge Luther Bohanon here. Mabry, jailed in lieu of $25,000 bond, will be sentenced after a federal probation officer makes a report.

The men were arrested in Dallas about a week after the $17,000 robbery.

Also charged are Raymond Claude Nabors, 21, and Joe Jerrell Crocker, 20, both of Dallas, and Donald Wayne Sumrall, 22, of Tyler.

All three have been moved to jail in Tulsa after an attempted jailbreak at Muskogee earlier this month.

Smith To Speak At San Jacinto

By The Associated Press

Lt. Gov. Preston Smith will speak on the Battleship Texas and the traditional Aggie muster will be held at College Station today as Texans observe San Jacinto Day.

Sam Houston's 800-man Army defeated a Mexican force of 1,600 men April 21, 1836, at San Jacinto. The battle assured Texas of independence and marked the end of Mexican Gen. Santa Anna's prowess.

Some 100 ships of the Texas Navy will pass in review for Smith. Memorial services also will pass in review for Smith. Memorial services also will be conducted on the decks of the Texas, now permanently moored at San Jacinto.

Activities at Texas A&M University will feature the return to the campus Tuesday of the original "twelfth man," E. King Gill, a Corpus Christi doctor.

It was Gill who was called from the stands by then-Aggie Coach Dana X. Bible in 1922 to suit up and bolster the Aggie football squad in a game with Centre College.

Gill put on a uniform and went to the playing field but did not actually get in the game. The "twelfth man" incident has developed into one of the strongest traditions at A&M.

MATH CHAMP — Woodruff Powell, 11th grade student at Lincoln School, was a first place winner in the Interscholastic League state meet at Prairie View A&M Apr. 18. Powell competed in the mathematics division.

Spelling Champs Err On Erroneous!

ALBANY, N.Y. (AP) — Both finalists in a spelling bee at a junior high school in suburban South Colonie spelled "erroneous" erroneously.

BIRTHS

Mr. and Mrs. Johnnie Lopez, Box 33, are the parents of a 7 lb. 2 oz. baby girl born at 10:57 a.m. Apr. 20 at Cogdell Hospital.

De Gaulle Recovering From Operation

PARIS (AP) — French President Charles de Gaulle, recovering from a prostate operation, resumed some of his duties from his hospital bed today.

A medical bulletin today said De Gaulle, 73, is expected to remain in the hospital for another week or 10 days.

Soviet Military Councilman Dies

MOSCOW (AP) — Col. Gen. Nikolai Alexandrov, a member of the Soviet Military Council, has died unexpectedly, the Communist party newspaper Pravda reported today. It gave no details.

Comet...World's 100,000-Mile Durability Champion

At Daytona, a team of four specially equipped '64 Comets each traveled day and night 100,000 miles at over 105 miles per hour—an unequaled feat of stamina and durability.

In Africa, Comet showed its stamina again in "the wildest ride on earth"—the monsoon-swept East African Safari Rally. 94 cars started. Only 21 finished the run—two of them were Comets.

Route of the "wildest ride on earth"—3,188 miles through the heart of Africa.

Leads the sales success parade!

Is it any surprise that Comet sales are up to almost double last year's? Comet proves what it can do. After 100,000 miles at Daytona, one of these special Comets has traveled another 31,000 and is still going strong. Then rally-equipped Comets slogged through 3,188 miles of African mud, rocks and jungle—the first to carry America's colors in the world's toughest car event. Want more reasons? Just take a look at this new Comet. Husky, racy, beautiful, and built, really built. Make tracks for a Comet at your Mercury dealer's.

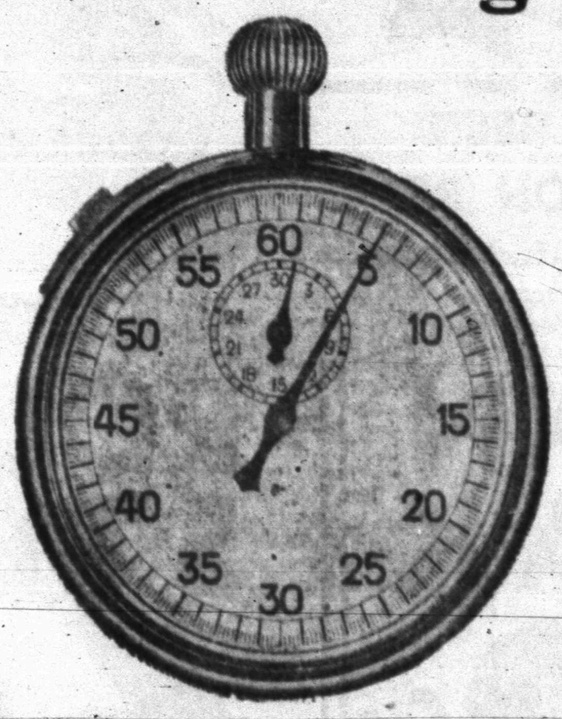
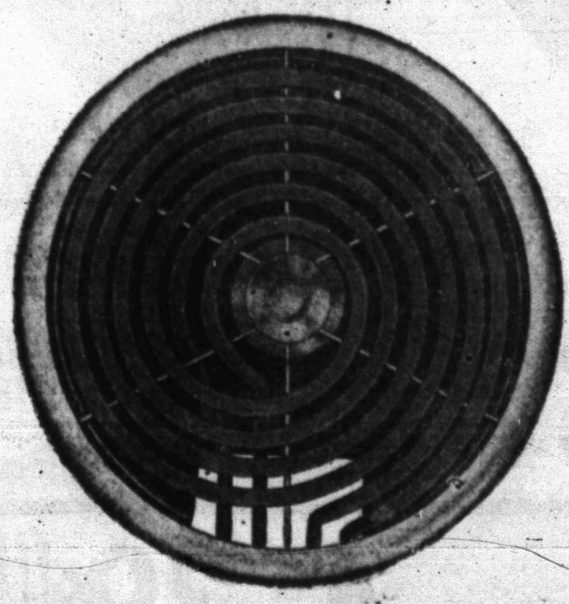
Talk about cooking speed!



In just 65 seconds



this high-speed electric unit can heat a can of soup bubbling hot

Super-speed cooking units on today's electric ranges start heating *instantly* — reach full high heat in *seconds!* And because they transfer heat by direct contact with utensils, they offer unsurpassed cooking speed. A can of soup or beans, for example, can be heated bubbling hot in just 65 seconds. A quart of water boils in only four minutes. On top of range, broiler or oven, you get the cooking speed you want electrically. See your electric range dealer soon. Cook electrically . . . live better electrically!
