MAY ASK BIDS ON LOZIER CANYON BRIDGE IN OCT.

Judge Henshaw Completing Signing Up Of All Right-Of-Way

In all probability the contract will be let this coming month by the State Highway Department, for a bridge over Lozier Canyon, Palmer Creek and for completing highway work between the two places and thus finish the link in U. S. Highway 80, "The Borderway."

Judge G. J. Henshaw has just about completed all preliminaries incidental to letting the contract. For the past month the judge has been securing right-of-way for the road as well as the bridges. He has devoted considerable time to getting the rights-of-way and has been assured by all land owners affected that have not already signed, that they will do so by the end of this week.

With the letting of this contract, plenty of work will be assured for unemployed persons in this county.

Killer Of Davis Sheriff Is Carried To Penitentiary

W. R. Crane, of the State Penitentiary, was in the city Saturday night enroute to that institution at Huntsville with a prisoner.

Crane was taking J. T. Farmer, of Brookston, Texas, convicted slayer of Sheriff Lee Sproul of Fort Davis. Sproul was killed on the morning of February 24 when he and a deputy were on the trail of robbers who had the night before robbed the R. S. Sproul ranch of three rifles and a pistol.

One of the men was captured in Lympia canyon but refused to tell where his companions were. A short time later one of the fugitives opened fire on Sheriff Lee Sproul from behind a boulder. He was struck in the abdomen and soon became unconscious and by the time his deputy had carried him to the car he had died.

Farmer was indicted for the murder, after confessing same, by the Fort Davis grand jury. His case was transferred to Fort Stockton where he was tried the latter part of March. At the Stockton trial he received a seven year pen sentence.

The two companions of Farmer, Paul and Elbert Steinberg, were indicted for burglary, and each received a four-year sentence.

CONTRACTOR ON DRYDEN AIRDROME WELL COMPLETES JOB IN RECORD TIME OF FIVE MONTHS AND THREE DAYS, DESERVES PRAISE

By JACK C. BELL

(Editor's Note: The writer has undertaken to give an account of the operation, stages of progress and general information on the water well which was recently completed at the airdrome. This article is written purely in fun and the writer hopes that no offense will be taken by anyone concerned since it is not his intention to offend.)

It seems that the government wanted a water well at the airdrome so that the gentlemen stationed here could have water for any use that gentlemen would use water for. This, of course, brings up the question of where did these gentlemen get their water before the government decided to drill a well? The answer being that the water was piped from Joe Kerr's well which is located about two miles south of the airdrome.

Since such an elaborate system was in effect why shouldn't the government be satisfied and not go to any further expense of drilling a well? As far as this writer knows the government was satisfied but the gentlemen at the airdrome were not. Why? Would you, gentle reader, like to drink water that prior to your consumption was being used to cleanse the body of a native of

Interscholastic League Districts Are Decreased In Size, Offering Greater Opportunity To Sanderson School

AUSTIN—Rules and regulations governing Interscholastic League activities have been amended considerably for 1933-34, according to Roy Bedichek, chief of the University of Texas League Bureau. Under the plan as outlined and adopted by the

State executive committee the number of districts in the Texas Interscholastic League has been increased from 27 to 31. This means that the districts are all smaller, and hence the district centers are more convenient to schools participating and less loss of school time and less traveling expenses are required.

Dull Sunday Afternoon;

Nothing Happening; Girl

Yawns And Dislocates Jaw

The time was last Sunday afternoon. The place was in the J. D. Nichols home.

Everything was quite, so quite that Bernice Nichols couldn't refrain from yawning.

This she did and so bored was she and so thoroughly did she yawn that her lower left jaw was thrown out of place.

A hurried call was made for Dr. Utterback, who reset the jaw with the suggestion that Miss Nichols get more sleep at night or have a few friends help relieve the monotony of Sunday afternoons.

IMMUNIZATION FROM DIPHTHERIA IS URGED BY DEPT. OF HEALTH

AUSTIN, Sept. 28 — Texas lost over eight hundred of its children last year from one preventable cause. The disease responsible was diphtheria.

Dr. H. N. Barnett, director, bureau child hygiene, in commenting on this loss, said, "Diphtheria could be practically eliminated if parents would take their children to their family physician and have them immunized as soon after they reach six months of age as possible.

"Parents would not allow their children to walk in front of a moving car, so why will they allow them to run the danger of contracting diphtheria, his immunization should be done as soon as possible as the winter months are the ones in which the most deaths occur and it takes some time for immunity to occur."

PARENT-TEACHERS TO MEET

Regular meeting of the Sanderson P.-T. A. will be held Thursday, Oct. 5 at 8 o'clock p. m. All members and patrons of the school are cordially invited to be present at that time.

After the district winners have been determined in the 31 districts they are grouped together in eight regions with centers in higher educational institutions, principally in the teachers' colleges, for eliminations necessary to qualify contestants for the State Meet.

At the same meeting the State committee considered the case of schools which were compelled to close for financial reasons before the end of the spring semester. Many questions have arisen in connection with the eligibility of pupils this fall who were compelled to drop out of school before the end of the semester on account of the fact that the schools were closed.

"The Preceding Semester Rule" would automatically bar such pupils. The State committee, however, considers the depression an emergency, and hence made a rule which will qualify all pupils for fall competition who were eligible at the time their schools closed on account of financial difficulties.

An important change was also authorized in the manner of qualifying essay contestants in Interscholastic League contests. Heretofore it has been the custom to qualify the essays produced in the county meet for the next higher meet.

The rule as changed will qualify the essay contestants themselves, who will pass on to the next higher meet and produce essays in that meet, and there will be a final State championship in essay writing participated in at the State Meet by the contestants themselves.

THREE-ACT PLAY GIVEN BY GRADE PUPILS AT CHAPEL

A three-act play, "The Land of Dreams Come True," was given by the fifth grade and pupils from the sixth grade at the chapel period Wednesday, under the direction of Mrs. Grigsby.

The following pupils were in the play: John Clark, Frances and Martha James, Lee McSparren, Eugene Kelly, John Fisher Charlton, Elton Loden, Violet Mae Peoples, Jack Roberts, Marybeth Banner, Mary Bess Hardgrave, James Locke, Robert Lochausen, Ruth Murrab, Mona Breg.

Elizabeth Brown, John Taylor Birdwell, Margaret Higgins, Ethel Laura Nance, Billy Louise St Clair, Roberta Lochausen, C. G. Carpenter, Kenneth Litton, Bobbie Lee McCue, Drury Tankersley, Sarah Kelly, Laverne Halley, Lillian Harrell, Marjorie Canon.

TWO FIRES RESULT FROM REFRIGERATOR EXPLOSIONS

Carl Cochran suffered a severely burned left hand Sunday evening due to an explosion of a mechanical refrigerator on his ranch. Following the explosion of the refrigerator the house caught fire but the blaze was soon extinguished with very little damage being done.

Last Sunday evening a mechanical refrigerator in the home of John R. Taylor at Dryden, exploded, setting fire to the house. No one was hurt but it is reported that the home was badly damaged by the fire.

SANDERSON P.T.A. TO SERVE MEXICAN DINNER SATURDAY

The Sanderson Parent-Teachers' Association will serve a Mexican dinner in the banquet room of the Sanderson high school on Thursday, October 5, from 5 until 8 o'clock.

The following menu will be served: Chili, tortillas, enchiladas, frijoles, cake and coffee.

Everyone is cordially invited to attend. Price will be thirty-five cents per plate.

(Continued on page 2)

SPECIAL TERM OF DISTRICT COURT TO MEET OCT. 9

John Martin Cases, Long On Docket, To Be Tried

A special term of District Court will be held here Monday week, October 9th, at which time a special judge will be here to hear the John Martin case which has been on the docket for some time.

Martin is charged with theft of cattle, altering and defacing of brands. Judge James Cornell will represent Martin while the State will be represented by District Attorney Julian LaCrosse, of Del Rio.

The following 48 men were selected to appear for jury service in the case: N. M. Scott, J. D. McLigmont, Roy Haley, Harry Sharp, R. A. Gatlin, W. Laughlin, Malcolm Moser, Gayle Mussey, J. F. Wilson, B. C. Farley, Geo. Birdwell, Harry Goode, C. V. McKnight, F. A. Hill, Frank Robertson, John E. Landers, Tom Parsons, P. J. Holman.

Roy Mason, Millard Holmes, Max Bogusch, C. F. Staveley, C. A. Wilburn, McDuffy Kessler, Clyde Higgins, N. M. Mitchell, Tol Murrab, O. H. McAdams, Kenderick Harrell, C. Wilson Banner, H. P. Pauli, Roy Barksdale, Jess Haley, Claude Roberts, Ben Gilbert, C. P. Peavey, Chas. Rogers, W. D. O'Bryant, C. M. Turk, H. V. Cox, W. R. Holland, J. C. Mitchell, J. W. Haynes, E. P. Sherrod, W. J. Banner, R. D. Morris and M. P. Lester.

PICKING ALL TEXAS STAR RODEO TEAM IS NO JOKE, FINDS SAM ASHBURN, WRITING IN 'TOP OF THE WINDMILL' FOR SAN ANGELO NEWSPAPER

For the chaperone of an all Texas star rodeo team we would select none other than Grandpappy Bill Nicks of Rankin, who was a roping star in the days when most of the leaders in the game today had not been born. Perhaps many of their fathers and mothers had not even met when Bill was twirling a big loop at Ozona, at Big Lake and at other places where the fans gathered.

Choosing an all-star team of rodeo performers can be preface by that statement that always preceded the naming of the teams in football, basketball and other sports, and that is that it's a difficult job, and many of the best will have to be dropped to insignificant places. Well here it is anyway, as grand a collection of rodeo lads as ever competed, and it is a safe bet that perhaps no other collection of performers in the state could equal them, and nobody in America may then say calf rope.

Best calf roper: Sad, but true, it goes to a boy from the town of Christian education and cotton, Abilene. It is none other than Hugh Bennett, who was also reported to have won about \$11,000 in the nation's rodeos last year. He took part in the big ones, New York, Chicago, Calgary, Pendleton. Bennett began as a sort of drug store cowboy, learned he was good with a rope and went into the racket with a bang. Yes, sir, he stopped standing on the street corners and looking at the gals and began to look at the heifer calves as they leave the chutes hell bent to escape.

Bennett is of the size of most of the successful ropers, tall — he's about six feet, two inches tall — weighs nine onto to 240. Second in line would come baldheaded Allen Holder of Rankin, America's greatest roping town. Allen has been in there for about 20 years and still is good. When his old horse Coon Dog died, he thought the world was at an end, he was almost married to that animal, but he has one now he likes even better. He can take a horse, tell him he's a good roping animal and it becomes just that. Third in line would be Howard Westfall, also in his 40's, and a tall spare and who knows his business.

The best catcher is Bob Crosby who used to be champion cowboy of the world. One man here yesterday

Fall Mohair Clip Brings 40 And 50 Cents At Local Sale Of 150,000 Pounds

At a sale held here last Wednesday the Sanderson Wool Commission Company sold their entire fall accumulation of approximately 150,000 pounds of fall mohair at a price of

40 cents for grown hair and 50 cents for the kid.

Joe B. Blakeney, representing an eastern firm, brought the entire fall clip.

During the past week sales have been made all over the entire western section of Texas with prices ranging from 40 to 45 for grown and 50 to 55 for kid hair.

Peterson and Company at Bracketville disposed of 150,000 pounds for 45 1-2 cents for grown and 55 cents for kid. The Schreiner accumulation at Kerrville brought prices ranging from 40 1-4 cents for grown to 55 cents for kid.

Prices obtained for the Kerrville receipts show an increase from the scale of last spring which was 13 to 30 cents.

Last Thursday the Del Rio Wool and Mohair Company disposed of 275,000 pounds at 40 and 50 cents; while the Producers Wool and Mohair Company disposed of some 525,000 pounds at the price of 40 cents for grown and 55 cents for kid. Hillard and Son, of Boston, through Tom Richey, bought the Producers Clip.

The new high figures are the highest prices paid in four years.

1934 Automobile License Plates Received Here

Automobile license plates for 1934 for Terrell County were received this past week by Lee A. Cook, tax collector.

The new plates, for passenger vehicles, have an orange background with black numbers. The numbers for passenger cars run from 933-051 through 933-650. Numerals for this year bore the legend A09.

Commercial vehicle plates are of a black background with the numerals in orange. The numbers start with 188-351 and go through 188-650.

Licenses tags for 1934 can be purchased commencing December 15.

NO EXTENSION OF TIME, SOLONS ARE TOLD BY GOV. 'MA'

AUSTIN—Governor Ferguson, by inference, served notice on the Texas legislature this week that there will not be an extension of the time allotted it for completing the work laid before the special session.

If the legislature fails to pass the three main subjects submitted for legislation — anti-trust legislation, bonds and public works — the governor would be justified in thinking that the legislature doesn't care to deal with those subjects, and there would be no necessity for another session, according to her husband-adviser, James E. Ferguson.

UNCLE OF JAMES HOUSE DIES AT CARRIZO SPRINGS

Funeral services were held in Carrizo Springs Monday at 3:30 p. m. for J. T. House, 79, uncle of James House of this city.

Mr. House had been a resident of Carrizo Springs for 25 years and was engaged in farming at the time of his death.

He is survived by his brother, J. F. House, at Carrizo Springs, and numerous nephews and nieces.

SELECT ROOM MOTHERS

The pupils of the grammar school have selected room mothers for the different grades. The following were chosen:

First grade, Mrs. D. L. Duke; second grade, Mrs. Joe Kerr; Third grade, Mrs. Bosworth; Fourth grade Mrs. A. E. Creigh; Fifth grade, Mrs. Lee McCue, and Sixth grade, Mrs. W. A. Banner.

Enrollment for the various rooms is as follows: First grade, 15; Second, 30; Third, 24; Fourth, 33; Fifth, 24, and Sixth grade, 21.

EVERY MAN ON THE ROPES

"We need every good man on the ropes," pulling the country out of the hole, says Gen. Johnson, administrator of the industrial recovery act.

There are always some people who aren't willing to make sacrifices, but they expect to get all the benefit that comes from the sacrifices other people make. That will not prove good policy now. Those who take hold and try their best to start up business and give idle people employment, will stand high in the community. He efforts of the government for revival of industry may seem to suspend and contradict standard principles of business. But when we are trying to pull a wagon out of the mud, we all have to pull on the ropes, whether we are sure we are pulling the right way or not.—Chronicle, Milford, Del.

Advertising which lets people know that you have what they want is the most important ingredient in success. It is like an electric light bulb that tells what the big power plant is doing.—Arthur Brisbane.

One thing that will greatly help solve the troubles of the country, is for everyone to make things go well in his home town.

President Roosevelt will go down in history as the plain talker with punch in his words.

"Let the people know the truth and the country is safe."—Abraham Lincoln.

RIO GRANDE PHARMACY

Contractor On Dryden . . . (Continued from page 1)

did partake of coffee that was made with it and the taste reminded him very strongly of a peculiar gas that was used during the war by the Germans in their attempt to cross Belgium. The gas purported to contain embalming fluid which would immediately stiffen the victim. The reason for that (the stiffening of the victim) was never understood—not even by the Germans. Which brings to mind that the gentlemen here did not understand the reason for the taste. It is even seriously doubted whether Mr. Kerr knew.

At any rate the attention of some high ranking authorities was brought to the existing conditions and those gentlemen were eventually convinced that a water well was needed here. Money was appropriated and bids were let.

The contract was awarded to a Mr. F. A. Coleman of San Antonio, who two weeks after he was supposed to have started operations, ambitiously showed up with about half of the necessary equipment, necessitating another two weeks delay and a trip to San Antonio.

After the second trip, however, a complete set of equipment for drilling only was on hand and a vigorous program of putting a hole down was followed until a depth of one hundred and fifty feet was attained. When that depth was reached there was much enjoyment among the drillers and helpers and a general holiday was declared.

But something went wrong. The drill stuck. At the time it was thought by several persons that the drill and allied equipment were angry because the y weren't invited to attend the festivities since they did all the work, but this thought was declared out, the general opinion being that anger didn't last and anyway a drill couldn't get mad.

However, nothing was done about anything so Mr. Coleman made another trip into San Antonio. In the meantime one of the drillers with the aid of a local expert decided to shoot a load of dynamite just to show that they appreciated the seriousness of the situation, when someone suggested that they throw the dynamite into the hole.

This suggestion, of course, was immediately voted on and found good. So the shot was planted and for a while, that is until the equipment was brought up, everyone thought that the problem was solved. Their joy, however, was short-lived when it was found that the drill deached itself from the shaft and stayed at the bottom of its new found home.

I'm sure that anyone in his right mind would prefer to be on top rather than under the ground but not the drill. In my opinion the drill must have found either its old home or one to which he could adopt or acclimate itself to easily.

Needless to say the fishing operations did not budge the drill which goes to prove that a little determination in either man or animal will eventually get him or it to the top. The fact that the drill stayed down shows the exception proves the rule.

So after all the useless effort expended in retrieving the drill it was decided to move the rig and the equipment twenty feet east of where the old hole was drilled. The old hole would have been moved but since they can't move holes, and anyway if they did they would still have the drill to contend with, that, incidentally, was what they were trying to get away from.

This new location was tackled with much determination, added energy, more vigor, force and good advice from the sidelines. Everything would have gone along fine after that but the drillers were fired, that is, all but one, and the helpers quit.

The ardor of the officials of the well was not dampened, however, A mere delay of another two weeks

and a new set of experts took the place of the old set, and things started humming again—but not because of the experts.

Everything went along at a fairly rapid clip until the amazing depth of three hundred and sixty feet was attained, after which time the experts took a hand and operations slowed down.

Everything would have gone completely dead were it not for the fact that one laborer was still kept on the job. His work was done so efficiently that he was permanently put out of commission by a minor injury and was eventually shipped back to San Antonio for fear that he might show signs of recovery and would, no doubt, insist on earning his pay.

Well, another laborer was imported, who by the way, managed to dodge that part of the labor that would result in injury, like overwork, thereby getting out of a lot of work. His ability to sleep while on the job assured everyone that the well would eventually be drilled with other assistance.

Water was found at approximately five hundred and ninety feet but the drilling continued until six hundred and forty-two feet were attained. The reason for the extra drilling was never explained by the officials but it was easily assumed that the drillers would have nothing to do after completing the well, and since none of them wanted to join the Civilian Conservation Corps, they just drilled on.

In due time the hole was accepted and casing placed into it. After that it was easy sledding insofar as the contractor was concerned—someone else completed the job. It only took five months and three days to complete this job, and we think it quite an achievement. After all to dig the Panama Canal it took approximately twenty years and that's not counting the amount of time the French spent on it.

Henry Mansfield came up Sunday from Uvalde for several head of horses for his brother, Francis, who is ranching near that city. He returned Wednesday.

Donald Duncan was in town Tuesday from the Prosser-Brown ranch north of Dryden.

SITUATION WANTED

Married man, one child, wants ranch job. Wife, three years teaching experience, would act as private teacher. References: H. Winston, Miles, Texas. 29pd.

If You Smoke Too Much Watch Your Stomach

For quick relief from indigestion and upset stomach due to excessive smoking try Dr. Emil's Adla Tablets. Don't stop smoking, just use Adla Tablets.—Rio Grande Pharmacy. adv.

Stop Chills and Fever!

Rid Your System of Malaria!

Shivering with chills one moment and burning with fever the next—that's one of the effects of Malaria. Unless checked, the disease will do serious harm to your health. Malaria, a blood infection, calls for two things: First, destroying the infection in the blood. Second, building up the blood to overcome the effects of the disease and to fortify against further attack.

Grove's Tasteless Chill Tonic supplies both these effects. It contains tasteless quinine, which kills the infection in the blood, and iron, which enriches and builds up the blood. Chills and fever soon stop and you are restored to health and comfort. For half a century, Grove's Tasteless Chill Tonic has been sure relief for Malaria. It is just as useful, too, as a general tonic for old and young. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle at any store.

The Livestock Situation

J. A. McNAUGHTON

LOS ANGELES, Sept. 28.—Hog prices in a seasonal advance during the past week, carrying prices well above the five cent mark on Missouri River markets for the first time in several weeks. Prices at Chicago at this writing are well above a year ago for the first time this season. This gives real encouragement to the hog producer and to agriculture generally because it is generally recognized that the hog market is the real barometer of agriculture.

The Agricultural Adjustment Administration announces that nearly four million young pigs have already been slaughtered in the pork reduction campaign and now it is announced that an additional 1,922,000 pigs are to be purchased and eliminated as future pork producers. The effect of the pig slaughtering campaign is hardly expected to be felt until December 1st, yet the fact that the 1934 pork supply is to be reduced by several million head cannot be other than a favorable influence on market sentiment.

Cattle prices have shared in the upward swing in values in the middle west and this should reflect favorably on Pacific Coast prices as this section, particularly Southern California, is and has been actively competing for beef supplies with the middle west. The Los Angeles market for some time has been relatively higher, grade for grade, than Missouri River points. Demand is particularly good on the Los Angeles market for good quality young fed cattle. Fed baby heaves have been selling at Los Angeles up to \$7.00 and better, a higher price than has been paid for some time on the Missouri River markets.

Intermountain cattle and lambs are now moving in volume but because of drouth conditions, many of these cattle lack finish. It seems very likely that a larger proportion of the range cattle supply will be in thin or feeder flesh than normally. Many of these cattle will be forced into beef channels because of a narrow feeder cattle demand brought on both by feed shortage and difficulty in financing. It seems probable that irrigated pasture and dry lot feeding will be on the increase in California and Arizona this winter. Just what the California demand for stocker and feeder cattle for range replacement will amount to depends largely on weather conditions. Range feed is very short in California this fall. Should this state have early rains that will be sufficient to bring out early green feed, there probably will be a tremendous demand for replacement cattle. There should not be great difficulty in obtaining financing, either through federal or private agencies.

CHURCHES

BAPTIST

Sunday, October 1, 1933:
 Sunday School will begin at 10 a. m. Mr. Ruel Adams is superintendent.

Last Sunday was promotion day in our Sunday School.

We had an installation service for our church, Sunday School, Baptist training service and our Womans' Missionary Society.

We greatly appreciate the splendid crowds at all of our services.

Preaching next Sunday morning at 11:00 a. m. by the pastor, at which time the Lord's Supper will be observed.

B. T. S. will meet at 6:30 p. m. Preaching by the pastor at 7:30 p. m.

Prayer meeting will be held at 7 p. m. to 7:40. This will give our people an opportunity to attend the Methodist revival on Wednesday night.

Since we are beginning our new fiscal year's work next Sunday, we call upon all of our new officers of the church, Sunday School, B. T. S. and W. M. S. to be in their respective places. Also we call upon all of our members to give the officers of the various departments their fullest cooperation.

Mr. O. H. McAdams, our chorister, and Mrs. O. H. McAdams, our pianist, are planning to develop a great choir for our church in the near future.

Welcome to all of our services.
 J. F. Green, Pastor.

METHODIST

Services Sunday, October 1:

10 a. m. Sunday School. A class for every age and a trained teacher for every class. A whole family Sunday School.

11 a. m. Sermon subject: "Looking for the Lord's Return." The church mixed quartet will render a special vocal number in keeping with the theme of the message. Responsive reading, 37th Psalm, led by Mrs. H. C. Goldwire.

6:45 p. m. Hi-Epworth League meets in the church.

7:45 p. m. First service of our annual Fall Revival. Sermon by the pastor, the first of the series of 15 sermons. The music will be directed by Mrs. G. B. O'Connor. We will appreciate all singers coming to the choir.

Tuesday, October 3, the Women's Missionary Society will meet at 2 p. m.

Bring your unconverted friends with you to the Revival service with a prayer they find the Lord.

B. M. Stradley, Pastor.

PRESBYTERIAN

Sunday School at 9:45 a. m. Sims Wilkinson, superintendent.

The Adult class will be divided. Mrs. Joe Nichols will teach the ladies and the pastor will have the men.

At 10:30 a Rally Day program will be given. The subject is "The Church of God Is Calling." The attendance goal is "100 per cent plus." Every member of the church is urged to be present at this service to begin the new quarter and to start the fall program of work.

Immediately following the program the Communion Service will be held and the children of the Sunday School who are members are asked to stay along with the adults.

We will have no preaching at night on account of the Methodist meeting.

Young People's Vesper meeting at 7 p. m.

The study in Psalms will be held at 3 p. m. Monday with Mrs. Will Savage.

The Juniors meet Tuesday at 4 p. m. with Harold Lee Grigsby.

The Workers' Conference will meet at 7 p. m. Wednesday to sum up the results of Rally Day.

With cooler weather, let each member strive to be in his or her place at every service.

John V. McCall, Pastor.

SPECIAL NIGHTS NAMED FOR REVIVAL STARTING SUNDAY

The pastor and the official board of the Sanderson Methodist church announce the following feature nights of the annual fall revival which is to begin with the night service Sunday, October 1.

Dryden Community night will be observed on Monday, October 2. Tuesday is Men's and Boys' night; Wednesday, Ladies' and Girls' night; Thursday, Ranchers' night; Friday, School night; Sunday, Oct. 6, Family night; Tuesday, Masons' and Eastern Star's night; Friday, Oct. 13, American Legion night; Saturday,

RECIPES AND MENUS
 By Department of Home Economics
 Texas State College for Women
 (C.I.A.)

Because butter is invariably spread on the bread, and added to vegetables, and because the child drinks whole milk, the fat requirement of the child is adequately met without other special precautions. Thin cream and occasionally small amounts of whipped cream are used on desserts, but any overloading of foods with fat should be carefully avoided. Fried foods should be eliminated from the diet. Meats should be broiled, steamed, or baked.

Breakfast: Grapefruit, Cream of wheat with milk, toast, milk.

Dinner: Broiled scraped beef patties, grits, creamed carrots and peas, toast, cinnamon apples, milk.

Supper: Poached egg, buttered toast and home made jelly, buttered rice, milk.

Breakfast: Tomato juice, grape-nuts, toast and bacon, milk.

Dinner: Creamed fish, parsley potatoes, buttered spinach, lettuce sandwich, milk, stewed plums, cookies.

Supper: Cream of vegetable soup, toast, baked custard, milk.

Cinnamon Apples: 2 c sugar, 2 c water, 6 T cinnamon candy, 8 large apples. Make a syrup of the sugar, water and candy. As it boils, add the apples which have been pared, cored and cut in quarters. Cook very slowly until tender. Serve with cream or soft custard.

Boiled Scraped Beef Patties: Use a sharp knife and scrape the muscle from the fibrous part of the lean section of a piece of tender steak. Lightly roll into a small ball then pat out fat. Place on the rack in a broiling oven that is hot and sear on both sides; then move as far as possible from the fire and turn it from side to side every few minutes. Basting with hot water and butter improves the flavor.

Cream of Vegetable Soup: 1-2 tsp. butter, 1-2 tsp. flour, pinch salt, 1 c milk, 2 T vegetable pulp. Melt butter in sauce pan and when bubbling add flour mixed with salt. Stir until well blended, then gradually add milk and stir until smooth. Add vegetable pulp and reheat. Serve immediately. Vegetables suitable to use: Spinach, carrots, fresh peas, string beans, asparagus, cauliflower, and potatoes (not new). Boil vegetables in an open kettle using a small amount of water. Carrots may be steamed. In this way the good

color and flavor are retained and there is no appreciable loss of the nutrients. All vegetables should be cooked until tender but no longer. While vegetables are still warm press through a fine sieve. Serve with white sauce as a cream or a purée with salt and butter. One teaspoon fine bread crumbs to each 1-4 cup purée may also be added.

Baked Custard: 1 c hot milk, 2 eggs, 1-4 to 1-2 tsp. vanilla or lemon or 1-16 tsp. nutmeg, few grains of salt. First heat the milk. Beat the eggs just enough to mix them well; then stir the hot milk in slowly and add the sugar and salt. Add the flavoring, pour into baking dish or custard cups, set in a pan of hot water, and bake without stirring. Do not have the oven hot enough to make the water boil. The custard is done when a knife dipped into it will come out clean.

Increased business for the Southwest Tablet Co., Dallas, has compelled the company to build an addition to its present floor-space. The company makes tablets, school stationery and supplies.

Rapid progress is being made in construction of the Southern Alkali Co. chemical plant at Corpus Christi on which a total of several million dollars is to be spent. The company is a subsidiary of the Pittsburgh Plate Glass Co. and American Cyanamid Co.

Growth of the dairy industry in Northeast Texas is seen in the fact that the milk plant at Mount Pleasant paid for 1,343,778 pounds of milk during August, exceeding the previous high month's total by 125,375 pounds. June of this year set the previous high mark.

Old Folks night, and Sunday, Oct. 15 is Sanderson Community night. All night services will begin at 7:45 p. m.

The following services will be held daily throughout the two weeks' meeting.

10-10:45 a. m. Bible study.
 4:15-5 p. m. Children's service
 7:15-7:45 p. m. Adult prayer meeting in parsonage.
 7:15-7:45 p. m. Young Peoples' service.
 7:45 p. m. Preaching service.

All are welcome to any and all services.

SOCIETY

DR. AND MRS. JAMES C. SHARP ENTERTAIN WITH BRIDGE

Why Did You Buy This Newspaper?

SUPPOSING that, beginning tomorrow, all the newspapers are discontinued. What a furore the public would make. "News! News! We must have news or we will be no better off than the ancients." All right, suppose we give them news but cut out the advertisements.

Then you would discover that politics, the doings of society, notices of fires, accidents, deaths, scandals, sports, the activities of the police and criminal add little or nothing to the real comfort and happiness of this greatest age in the world's history.

Advertising is the NEWS of all the looms, of all the furnaces, of all the laboratories, of all the shops, of all the stores, of all the world, and all working for you.

Because of advertising, luxuries and necessities that once cost a king's ransom are yours at little prices. Advertising pits merchant against merchant, artisan against artisan, producer against producer, for your benefit, forcing out the best there is in everything and telling the world about it.

Read advertising. Keep abreast of today. Advertising furnishes you with facts and opportunities that otherwise you would never know.

EXAMINATIONS CALLED TO FILL CIVIL SERVICE JOBS

The United States Civil Service Commission has announced open competitive examinations as follows:

Junior calculating machine operator, \$1,440 a year, less a deduction of not to exceed 15 per cent as a measure of economy, and a retirement deduction of 3 1-2 per cent, departmental service, Washington, D. C., and field service.

Rotaprint operator, \$1,440 a year, less a deduction of not to exceed 15 per cent as a measure of economy and a retirement deduction of 3 1-2 per cent, departmental service, Washington, D. C., and field service. Applicants must have had at least one year of experience in the operation and adjustment of a Rotaprint machine and the care of the printing plates.

All states except Delaware, Iowa, Maryland, New Hampshire, Vermont, Virginia, West Virginia, and the District of Columbia, have received less than their share of appointments in the apportioned departmental service at Washington.

Full information may be obtained from the secretary of the United States Civil Service Board of Examiners at the post office in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington, D. C.

Mrs. Mary Pierson of Haymond, spent Tuesday in the city as the guest of her son, E. F. Pierson, and family.

James House returned Tuesday afternoon from Carrizo Springs where he was called Sunday on account of the death of an uncle.

Mr. and Mrs. A. M. McCright of Anson, Texas, visited here several days this week with their son, E. H., and family.

Mrs. A. E. Creigh, Jr., and son, Al, returned Sunday night from San Antonio where they went on Friday to visit with friends and relatives.

Cecil Bradley returned the first of the week from an all summer visit in Goldwaite, Brady and Lometa, Texas, with relatives.

Miss Willie Mae Green left Sunday afternoon for Fort Davis where she is visiting friends and relatives. Before she returns home she will visit with relatives in Valentine and El Paso.

PERSONALS

J. E. Landers returned Sunday from El Paso where he spent the past week visiting with relatives.

C. F. James left Wednesday morning for Memphis, Tenn., where he will visit relatives.

Mrs. Bettie Bosworth returned Sunday from an all summer stay in San Francisco, Calif., with her son, A. R. Bosworth, and family.

E. L. and R. F. Dismuke of Uvalde were business visitors in the city several days this week.

Rev. and Mrs. Ira Harrison of Pecos spent Tuesday and Wednesday of last week here visiting Mr. and Mrs. J. R. Black.

Mrs. T. D. Snead and son left Sunday for Fort Davis where they spent this week visiting relatives. They also visited in Dallas while they were gone.

Mr. and Mrs. W. W. Laughlin and son, Bill, were guests at the Wheeler-Lemons ranch last Sunday.

Mrs. Luella Lemons, Mrs. Grace Wheeler and son, Edward William, were business visitors in Alpine last Saturday.

Mrs. R. M. Gant returned Tuesday from several weeks stay in Uvalde with her uncle, Jim Kincaid, who has been seriously ill. She reports that there is not much change in Mr. Kincaid's condition.

W. D. Hunter was a business visitor in San Antonio several days this week.

Miss Mary Alice Happle returned Tuesday from a three weeks' visit in Lansing, Mich., with her sister, Mrs. Kurt H. deCousser, and with her brother, Carl Happle, in Washington, D. C. Miss Happle also visited the Century of Progress Exposition in Chicago while away.

Mr. and Mrs. Jack McCright, who have been visiting with relatives in Anson, Texas, for several months returned the first of this week. Mr. McCright will again be employed at the Marathon Oil Co. station commencing October 1.

STOCK NEWS

During this past week quite a number of lambs in this section have been sold to Russell Menzies at 4 1-2 cents per pound. Other buyers also are contracting lambs here at prices reported to be the same.

Wednesday Joe Kerr sold 3,000 mixed lambs to Mr. Menzies at 4 1-2 cents per pound. That day he delivered 1,000 ewe lambs and they averaged 71 pounds. The balance of the lambs will be delivered on October 10.

Lambs this year are of unusually good quality and condition, with prices netting the ranchmen much better than in the past.

DYED SHEEPSKINS GIVE NEW OUTLET FOR HERDS

Texas, greatest grower of sheep in the United States and possessor of the largest herds, is interested in a new outlet for sheepskins, which are dyed in solid colors to make one of the most attractive interior decoration novelties known and which are coming rapidly into vogue among decorators and householders over the country.

Miss Aline Harper, Dallas, is one of the leaders in the movement and says she is finding a ready market for the attractive skins.

"Texas dyed sheepskins," said Miss Harper, "constitute a distinct novelty to which persons in all walks of life are taking. After a 12-months sheepskin has been combed, dyed and fluffed, it is one of the most beautiful objects imaginable and lends itself to decoration of homes, offices, hotels, cafes, resorts, tearooms and other public places. We are developing a considerable demand for these rugs in Texas cities and elsewhere.

"The novelty has caught on and is bound to spread to the creation of a new and profitable outlet for Texas sheepskins in the form of rugs, carpets, ornamental drapes and interior decorations of various sorts. Lambskins dyed in colors to match dining or sitting room furniture are being used to cover chairs, couches, settees and footstools."

"Coon" Chandler and Howard Stanley, who have been herding sheep for some time, were in town Wednesday and were enjoying refreshments at the Highway Lunch Room. Coon and Howard are seriously contemplating opening up a pretzel factory.

Picking All Texas . . .

(Continued from page 1)

In the days when he tasted of the bottle, was lifted onto a tough bronco at Big Lake, he came too, rode that outlaw to a finish. He scarcely ever get thrown. He is little but plenty loud and sociable, good natured lad, popular all around the country. Louie is about 5 feet 7 inches tall, weighs about 150. Most of the bronco masters are chaps of this size. The ropers are bigger. Shorty Rutledge of Fort Worth would get place number two in the team as Dan Utley of this city third. Another horse riding like E. L. Nunnally studies Horace, is A. C. Wike, a mite of a boy about 20 or 21. He is coming along fast, makes all the shows, rides them all. Some day he'll be number one. Jim Bridges is also in the top row.

A bronco rider earns his money. He must ride that horse 10 seconds, keep one hand above his belt, rake the horse with his spurs from head to flank. The broncos usually make about 15 or 20 jumps in the 10 second period.

For the bulldogging hero Bob Crosby would be given the lead. Since he got crippled he took to this sport and has grabbed the lead. Jim Bridges gets the second place here. It's a dangerous game, you ride a horse full speed, catch your steer, leap from the horse to the animal's neck and pray that you don't wake up in the arms of the coroner.

The wild cow milking champs are Gaston Brock of Winters and Walker Good of Bronte. This is a game where one man does the roping, the other runs out sticks his head between the rear legs of the cow, milk a drop or two in the bottle and runs home with the clabber.

The goat roping number one call goes to Allen Holder of Rankin, with second place to Homer Wood of Merton. Good time on goat roping is 8 to 10 seconds; on calves 16 to 20 seconds. This isn't as spectacular as the calf roping but is exciting. Harold Jackson of Tierra Alta gets the third placing. He is coming fast but has not yet overcome his stage fright in the big shows.

The wild mare race, the most thrilling of all the western sports goes to Tom Taylor of Cline. In this event, the cowboys are given a saddle and a wild horse. They must saddle that horse, get on him and ride him around a half mile or more track just as in an ordinary race. As Hardy Taylor of the R and R Saddlery here expressed it, "you get on then its a case of 'In God We Trust.'" Jim Bridges would be placed second, Dantley third.

The worst steer in the country goes to that Brahma of Millard Smith of Coke County, a steer that has never been ridden. He takes his steers to all parts of the state and hired a boy to spoil them. The boy was supposed to allow the steers to pitch him but he couldn't have stayed on anyway.

The announcer for this outfit would be none other than Vick Rogers of Kerville, whose lungs were

Double Tasted! Double Action!

developed in paging armadillos in the Hill Country.

The clown would be Buster Edwards of Del Rio and his trick mule.

The best all around cowboy of the group would be Dan Utley, who can clown, ride a bronco, rope, or do anything that needs to be done.

The worst bunch of cattle is that of Gaston Brock of Winters.

The toughest horses are those of Don McCormick of Eldorado.

Best cowhorse: the Gray Eagle of Pecos Pete Meador.

Another thing, the rodeos this season have been more numerous than ever, the crowds have been large, the shows are drawing better all the time. But the performers make very little out of it. Often they could get just as much money by putting on the show in pasture for the jackpot of entry fees. They deserve a better break. Some shows of course take care of them well, others penalize them.

Test a tankful of Humble Motor Fuel and you'll come back for more! Humble Oil, Co., N. E. Charlton, Agent.

FOR SALE—TWO PIANOS

In checking over our books, we find two parties in your vicinity are unable to keep up their payments and we will have to repossess these pianos, one beautiful baby grand like new; and one practice piano at a bargain, easy terms, both nearly half paid out.

Address Credit Department, Bearden-Steele Piano Company, San Angelo, Texas.

Mr. and Mrs. Charley Turk were in town this week from their ranch north of Dryden.
