Our Town...

By JOE BELL

MENTION water to a homemaker and, chances are, he'll be quick with praise for Colorado City's water resources.

He'll tell you about Lake Colorado City with its boating and fishing... the crystal clearness of water in new Champion Creek Reservoir. And, no doubt, he will have fresh comment on the economic and recreational assets which will come with the Colorado River lake just approved by State Board of Water Engineers for the county's lower half.

Possibility of a water shortage wouldn't enter his mind.

HED BE right, too. For a water shortage isn't Colorado City's worry... not with the lakes already built and more to come.

Domestic water supply is one of our community's most important assets. It is at our doorstep and we are attempting to it to best of use.

But we still can become thirsty at our homes, businesses and industries if we can't treat and transport the water in proper amounts.

WE FORGET this simple fact — that a billion gallons of water in a lake does not necessarily mean drinking and industrial water for a community.

The lake water becomes available to a town only in the amount that can be treated and transported to the homes and businesses within that town.

And, because of this fact, the transporting, treating and distribution of water is just as important as the lake supply.

CITY OFFICIALS in recent years have sought to make this plain to local citizens.

They have reported a continuous increase in water usage. They have told us that water demands were outgrowing our ability to move water out of Lake Colorado City, process it and transport it into homes and businesses.

Each succeeding summer with its peak period of water usage has made this predicament more obvious.

NINE YEARS AGO the municipal water plant pumped 288,509,000 gallons of water into Colorado City homes, businesses and industries.

In 1958 — just 6 years later — our water plant pumped 454,021,000 gallons, almost twice as much water as used in 1951. To meet the heavy demands that year, our plant and facilities were pushed to full, 100 per cent capacity 30 days.

And the demand for water has continued to spiral. The peak last summer was Aug. 4 when 2,966,000 gallons of water were used in one 24-hour period.

THIS SUMMER, a record heat wave is pushing our water demands to an early peak.

Wednesday the city pumped 2,913,000 gallons of water. Lowest amount in the last week was 2,502,000 gallons pumped June 15.

And this is being done with a treatment plant and facilities designed to process and move far less than 3,000,000 gallons per day.

THE PROBLEM is more acute than the average citizen realizes.

It is obvious that the city cannot continue to meet this demand over an extended period of time — not even with the advantages of elevated and ground storage facilities, nor the added pumping from the city's well field.

And although the peak may subside this summer... and there is no coloring in scheduling of such watering

June Heat Wave Hits 110; 5 Days Above 105

Temperature spiraled to sizzling modern history record this week and the municipal water plant groaned to meet pressing demands.

July Course For Grocery Store Staffs

A course for grocers and their employees will be conducted here July 11 through July 14 under sponsorship of the Chamber of Commerce.

The 10-hour training course, "Fact-Manners-Skills," will be taught by Clyde Bennett, grocery training specialist and staff member of The University of Texas.

Jointly sponsoring the course will be grocers, Chamber of Commerce and Texas Retail Grocers Association.

Class periods will begin daily at 8 p. m. during the 4-day period, according to Rex Felker, chamber manager.

Instruction is designed to assist both management and employees in better customer service. Topics will include what makes a good employee, how to mark and stock merchandise, why and how of food store housekeeping, better customer relations.

Bennett, the instructor, is a former grocer with 16 years of experience as an owner and operator in Central Texas. He has taught in public schools and, since joining the University of Texas staff 6 years ago, has directed training programs for grocers and their employees in numerous Texas cities.

Tuesday the thermometer reached 110 degrees — high point in recent years and the hottest first day of summer local residents could recall.

And the temperature was a scorching 109 degrees Wednesday the fifth consecutive day the city had sweltered in temperature above 105 degrees.

Sun was out again Thursday with the thermometer again climbing in the heat wave bracket.

Soaring right along with the temperature was the city's water usage up to 2,777,000 gallons for the single day Wednesday.

The heat wave has extended throughout the month of June, which was ushered in the first day with 97 degree heat.

Ten of the first 22 days of June have been above the 100 mark. Not for a single day has the thermometer dropped below a high of 91 degrees.

Here's temperature chart for the last 9 days with only 2 day's high under 105:

Wednesday — high of 109, low of 77 and a 5 p. m. temperature of 103 degrees.

Tuesday — High of 110, low of 78 and a 5 p. m. reading of 108.

Monday — high of 108, low of 74 and 5 p. m. temp of 105.

Sunday — High of 105, low of 78 and 5 p. m. reading of 100 degrees.

Saturday — High of 105, low of 75 and 5 p. m. mark of 104.

Friday — High of 99 degrees, low of 67 and 5 p. m. temp of 97.

Thursday, June 16 — High of 104 degrees, low of 78 and

5 p. m. reading of 93.

Wednesday, June 15 — High of 108, low of 76 and 5 p. m. temp of 105.

Tuesday, June 14 — High of 105 degrees, low of 65 and 5 p. m. mark of 100.

Lowest high of the entire month, so far, was June 10 when the thermometer reached no higher than 91 degrees.

W. Sterling Dies; Rites Thursday

Final rites were conducted Thursday afternoon at 2:30 o'clock for Willie Sterling, 57. Sterling died at his home on East Front Street Monday afternoon following an illness of a few months.

Officiating at the graveside rites was Rev. C. C. Beck, pastor of the Mount Zion Baptist Church. Burial was in Mitchell County Cemetery.

Sterling was born in Madisonville, Aug. 3, 1902. He had been a resident of Colorado City for 34 years.

He is survived by a daughter, Mrs. Lockett Lee Wylie of Hobbs, N. M.; a sister, Mrs. Eunice Sanders of Colorado City and four brothers, Elmer Sterling of Pomona, Calif., Roland Sterling of Denver, Colo., Olan Sterling of Lubbock and Gary Sterling of Tulsa, Okla.

EQUALS 1959 PEAK

City Uses Almost 3 Million Gallons

Thirsty Colorado City keeps using more water as the temperature soars.

The city pumped a total of 2,913,000 gallons Wednesday.

That's right up with the highest single day of pumping for 1959. Major difference is that the 2,900,000-plus peak last summer didn't come around August 4.

And city officials are shaking their heads, wondering what the rest of the current summer will demand if the 1959 high is already reached in June.

A break in the weather probably will trim the water usage to a lower level. But in the meantime the meantime the city is pumping, and testing at capacity load and utilizing storage facilities, too, in an effort to meet the demand.

If the heat wave continues and demand keeps at the peak, the city's water problem could become temporarily acute.

Tuesday the city pumped 2,777,000 gallons of water — not far from Wednesday's 2,913,000 gallons.

And the level has been high practically all month — especially since the temperature has been soaring above the 105 mark.

Here is how the pumping totals have been recorded by the city during recent days:

Monday — 2,671,000 gallons; Sunday — 2,658,000 gallons; Saturday — 2,709,000 gallons; Friday — 2,619,000 gallons; June 16 — 2,705,000 gallons; June 15 — 2,502,000 gallons.

Current usage of water is

averaging more 400 gallons of water per person each day.

Consumption per person in the U. S. 20 years ago was only 122 gallons per day. And it is estimated at 150 gallons a day per this year across the nation.

The water usage being recorded here now is something exceptional — based on average usage across the nation — even for peak summer periods.

2 Producers In County Oil Fields

New producer in East-East Howard Field of Mitchell County is A. L. Holley et al No. 4 W. L. Foster.

The oiler was completed for an initial pumping potential of 65 barrels of 26 gravity oil per day, plus 50 per cent water.

Pay was topped at 2,700 feet over total depth of 3,132 feet and 4 1/2-inch casing was placed to 3,030 feet. Perforations were placed between 2,713 and 3,020 feet.

Site of the No. 4 Foster is 1,650 feet from south and 2,324 feet from west lines of Section 46, Block 29, T-1-N, T&P Survey.

Joseph P. Grinnan No. C. C. Berry was completed in Sharon Ridge-1700 Field with initial daily pumping potential of 35 barrels of 28.6 gravity oil.

IN LITTLE LEAGUE PLAY

Dodgers Hold Third Place; Beat Indians and Tigers

Indians lost their scalp for the first time this season Tuesday night when the Dodgers' bats turned into tomahawks for a 9-6 win.

But the one loss didn't bother the Indians' first place niche, since they have 11 wins under their headresses.

Yankees held onto their second place spot by squeezing the Pirates 5-6 Friday night, even with the Dodgers' win over them and over the Pirates 10-5 Thursday night.

Dodgers are still in third place, while Giants and Pirates are tied for fourth and in the cellar are the Tigers.

In Thursday night games the Dodgers and Tigers both caught fire in the sixth inning. Up to that time Dodgers had 4 runs and Tigers had 1.

Six runs crossed the plate for the Dodgers and four for the Tigers in the 6th inning and that ended the scoring, 10-5.

Indians used their happy hunting grounds Thursday night to shutout the Giants 15-0. Game was called at the end of the 4th inning due to time.

Friday night the Yankees edged the Pirates with a 6-5 score. Yankees 6 runs came in the first four innings and the Pirates scored runs in the third, fourth and sixth innings.

The afore mentioned "hunting grounds" turned unhappy Monday night when the Dodgers ambushed the Indians 9-6.

The brave Indians couldn't keep up with the Dodgers after their 7 run rally in the second inning. Dodgers' other 2 runs came in the third and fourth innings.

Indians' first marker was in

State Board of Water Engineers have given an official nod for construction of a 403,700 acre foot lake on Colorado River in southern Mitchell County.

The go-ahead signal came Monday when the state board approved application by Colorado River Municipal Water District for the reservoir.

Actual permit will not be issued, however, until adequate method is determined for controlling salt water pollution of the lake's water.

"The essence is our petition," said Durwood Manford, chairman of the State Board of Water Engineers, "is that the district won't want that water anyway if the pollution can't be controlled."

CRMWD, Texas Electric Service Company and additional engineers have been at work on the pollution problem for months.

E. V. Spence, Big Spring general manager for CRMWD, told the board the same as he has reported here in Colorado City — that the district was confident the pollution problem can be solved.

The state board's action — which came after public hearing in Austin with 43 leaders present from this West Texas area — allows the district to go full speed ahead with its plans for building the huge dam 21 miles south of Colorado and 1.5 miles north of Coke County line in Section 10, Block 15, SPRR Survey.

And local supporters of the lake project say the board's decision — approving the application, but delaying issuance of permit until more data is obtained on the pollution problem — is advantageous to the CRMWD.

The state board's approval will allow the CRMWD to use 50,000 acre feet of water annually from the lake. Even during most critical periods, the reservoir will yield 45,000 acre feet annually, according to S. W. Freese of Fort Worth engineering firm of Freese, Nichols & Endress.

Control of the salt pollution may come through a series of techniques, Spence told the state board. These include voluntary re-injection of salt water operators along the lake's watershed, separate salt water disposal company and evaporation.

Although the CRMWD is now composed of Big Spring, Odessa and Snyder with Lake J. B. Thomas and wells, as its water source, the district will want to sell water from the new lake to any customers available after the member cities are supplied.

Resolution supporting the lake project were presented the state board from Colorado City, Lorraine, Mitchell County Commissioners Court, Snyder, Big Spring, Lamesa and Stanton.

Delegations were on hand from Mitchell County, Big Spring, Midland, Odessa, Snyder and West Texas Chamber of Commerce in support of the project.

Runnels County Water Improvement District introduced a resolution asking the state board to consider the following items before issuing a permit:

1. Water of undesired quality will not be permitted to bypass the reservoir and go downstream.

2. The CRMWD must provide installation and continuing operation of recording flow measuring devices as are needed below and above the reservoir for measurement of reservoir inflows and releases.

ANNELLE HOLMAN'S

Personally Yours

'Hot' might be the word to describe situations during the past few days.

Temperatures in Colorado City have been soaring up past the 100 degree mark - to as high as 110 Tuesday - and those who have the chance are seeking refuge with air conditioning, ice water, and cooler attire.

Of course, there is a bright side for those who have to be out in the heat of the day - if you are an early riser you'll find that the temperature is nice and cool in the early morning.

Our adjective 'hot' might describe world affairs, too, with groups of Japanese revolting against a possible visit to Japan for Ike, against the proposed treaty between Japan and U. S. leaders, and against Kishi's form of government.

We realize that the world is in bad shape now, but history shows us few times when some sort of world disturbances were not taking place . . . 10 years ago this month marks the beginning of the Korean War.

We feel like there is a bright side to world affairs, too, when we hear of Ike's welcome in the 50th state and in Korea today.

Mrs. Inez Hock has as guest in her home this week her daughter Mrs. Glen Woods of Houston.

Mrs. Hock visited last week with her daughter in Houston and Mrs. Woods returned to Colorado City with her mother.

Visiting with Mr. and Mrs. E. E. Smith and Mr. and Mrs. B. E. Carter are their grandchildren, Cynthia, Sue, and Cheryl Smith of Odessa. While here the Smith children will also visit in the home of their aunt, Mrs. Inez Hock.

Cynthia, Sue, and Cheryl remained with their grandparents following a visit in Colorado City last weekend with their parents, Mr. and Mrs. Cecil Smith of Odessa.

TO STATE MEET

Mrs. Porter Is B&PW Delegate

Mrs. Bryan Porter was Colorado City's representative to the state convention of the Texas Federation of Business and Professional Women's Clubs last Friday through Sunday in Houston.

Colorado City was among the towns which received awards for increase in membership in the B&PW during the past year. Towns with the largest increase in membership were Lubbock and New Braunfels.

During business sessions the state board voted to publish and circulate a pamphlet entitled, "The Techniques of Soviet Propaganda." The pamphlet will be sent to B&PW clubs and other interested groups.

Principle speakers for the three-day meeting were Mrs. Louise Bushnell of New York City, Dr. Minnie C. Miles, third vice-president of the National Federation from Tuscaloosa, Alabama; and Dr. Minnie L. Maffett, honorary president of the Texas Federation.

In her address, Mrs. Bushnell urged members to awaken to the fact that they constituted a large "sleeping giant," completely unaware of their potential in the political arena.

Dr. Miles presented three special challenges before women of today. They were listed as the home, her chosen profession or business career where she can transfer her ability to find the excellence within each woman's personal reach and third, citizenship and her role in politics.

During the Saturday afternoon session, Dr. Maffett presented a film on the Chinese Nursing project of the B&PW. Approximately 1000 delegates attended the 40th annual convention.

Mrs. Airhart Speaks to Carr HD Club

Mrs. Ruth Airhart gave a talk on flower arrangement Friday at the regular meeting of the Carr Home Demonstration Club in the home of Mrs. O. J. Bohannon.

She told the group that judges would look for line and form first - the three basic forms being oval, cube, and pyramid. Arrangements were planned in relation to one of the three basic forms or a combination of more than one.

Mrs. Louis Rees gave the council report. Club recreation been changed to July 13, and it will be presented in La Mesa.

Following recreation directed by Mrs. D. G. Rollins, refreshments were served to Mrs. C. C. Buchanan, Mrs. Airhart, Mrs. Louis Rees, Mrs. Rollins, Mrs. Tom Jackson, Mrs. T. L. McKenney, Mrs. F. G. A. steps.

A Langley, the hostess, and visitors.

Visitors were Mrs. Lee Roy Gressett and Mrs. Roy Messinger. They were welcomed by the president, Mrs. Rollins. The next meeting will be July 1 at 2 p. m. in the home of Mrs. Buchanan.

Local Girls To Stanton Encampment

Four local girls left Monday to attend Baptist Girl's Auxiliary Camp in Stanton.

Sponsor for the group was Mrs. Winn Talley.

Attending from First Baptist Church were Connie Dear-

en, representing Oak Street Baptist Church were Bobbie Thomason, Ethel Ramage, and Mickey Buckner.

The camp was moved to Stanton from Big Spring and is open there for the first time this summer.

While staying at the encampment, the girls will hear speakers from different sections of West Texas, swimming, and working on their G. A. steps.

They will return Friday afternoon.

Picnic Lunch Ends Joint Bible School

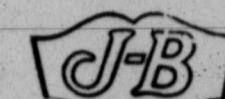

Vacation Bible School for the First Presbyterian and First Christian Churches will close with a picnic lunch Friday in the Fellowship Hall of the First Presbyterian Church.

Enrollment for the school this week was 55. Mrs. Lee Nizon of the First Presbyterian Church is the over-all director of the school. The line of study for the five-day school is "The Church."

The kindergarten age children are meeting at the First Presbyterian Church with Mrs. Steve Pond, Mrs. Frank Ginzel, Miss Theresa Lee as teachers.

Primary age children are meeting at the First Christian Church with Mrs. Virgil Stone, Mrs. Ray Noble, Mrs. Don Womack, and Mrs. Bob Carver instructing them in studies and crafts.

Teachers for the group of junior age students meeting at the First Christian Church are Mrs. J. D. Hill Jr., Mrs. Bob Robinson, Mrs. Sam Majors Jr., and Miss Cecelia Lee. Jim Forshey, youth director of the First Methodist Church, is directing worship services.

Jones-Blair house paints

Custom Colors

for southwestern living!

Here are hundreds of colors taken from the Southwest itself... bright colors of leaves and flowers... soft hues of earth and sunset. Many, many shades... charcoals and pastels... sea mist... driftwood... Jack-o-Lantern... horizon... any color you want in both HOUSE PAINT and PERMANENT TRIM COLORS.

Jones-Blair House Paints are made for the Southwest... made to withstand its rigorous climate with maximum resistance to fading, chipping and peeling. Laboratory and weather-tested, these fine J-B paints hold their true color... stick tight, weather right, last longer.

For greater protection and greater beauty, choose the paint made for the Southwest — J-B Paints, the finest you can buy.

SIGNS LEAD AND PROTECT

Curve ahead... the highway is marked and you slow to the proper speed to take the curve safely. You drive on, assured that the next turn will be marked. Confidence and trust are placed in our nation's highway departments. Trust in the Lord, for His love is clearly defined and His ways are well marked. Depend on the Lord to direct you each day. Attend church each Sunday and seek the Lord's will for your life.

"Teach me thy way, O LORD, and lead me in a plain path..."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

ATHLETICS HOLD PONY LEAGUE LEAD

White Sox to Second, Cards, Braves in Third

Cardinals lost their second-place footing last Thursday night when the White Sox edged by them 9-8, and the Athletics squeezed by the Braves 5-4.

Athletics are still in undisputed first place with 9 wins and 1 loss, while the White Sox are in second with 5 wins and 5 losses. Cardinals and Braves are tied for third place with 4 wins and 6 losses each.

At the end of the regular 7 innings of play last Thursday night, the White Sox and Cardinals were tied 6-6. The game went into 2 extra innings before the Sox scored the winning run in the bottom of the 9th.

McGuire started the scoring for the Cardinals in the first inning but the Sox went 'em one better and made 2 runs in the third, holding the Cards until the 4th before letting in 3 runs.

Cardinals scored again in the 4th with 3 runs, then the Sox surged forth in the 5th inning, 5-4. Cards made 1 run in each the 6th and 7th innings and the Sox tying run came in the bottom of the 7th. Both teams remained scoreless in the 8th inning but the 9th saw plenty of action by both sides.

Making the winning runs in the 9th for the Sox were Kendrick and Pendergrass with singles and Hamner with a triple.

The Athletics and Braves game Thursday night was as good as the score sounds, 5-4, with first place Athletics making the winning run in the

5th inning, with a double by Houston.

Braves' second baseman Jones and shortstop Garrett started the scoring in the first inning — Jones reaching base on an error and Garrett knocking a home run. Erwin and Lindsey, both with doubles, scored the other Braves scores in the 4th inning.

Athletics were held down until the bottom of the second inning when McKay reached base on an error. In the 4th inning the Athletics tied the ball game 4-4. Smith got a free trip to first when Munday hit him with a pitched ball. McKay socked a homer and Belvin belted a single.

Houston's score in the 5th was the last score of the game, both teams holding the last two innings.

Cardinals scored 2 runs in the 4th inning to begin and led 3-0 going into the 5th inning. (Pony League schedule has changed from 2 nights a week to three, Monday, Thursday and Friday). D. Taylor and Fox both reached base on errors.

Braves won the game, 5-2. Their scoring spree was in the 5th inning, when they made all 5 runs. Jones and Damborsky reached base on errors.

Garrett tripled, Kennemur singled and Millsap reached base on a fielders choice.

In the other Friday night game, Athletics swamped the White Sox 15-2. The game was called at end of the 5th inning due to time. Ameszcuo and Burton both reached bases on

errors for the Sox' 2 scores. Athletics started scoring with 3 runs in the first inning, skipped the second and scored 4 runs each in the 3rd, 4th and 5th innings.

Bill McGuire singled to start the Cardinals in the first inning Monday night in a game with the Athletics, and Biggers and Molina scored in the 2nd inning, but that was all the Cards could do. The Athletics beat 'em 10-3.

Athletics made one run in the first inning but were not allowed to score again until the third. Boren singled for the first score and Dale Walker started the third inning off with one over the fence, followed with singles by Smith, Sweatt and Moore and base on balls by Williams and Price, to tally 6 runs in the third. Walker doubled in the 4th, and Boren and Price

scored in the 5th for their remaining scores.

White Sox won their second place berth Monday night when they beat the Braves 7-2. Garrett reached base on balls in the first inning for a run and Kennemur singled in the 7th for the Braves' only scores.

White Sox started slow, too. Hillhouse reached base on balls for a run in the first inning. McKay doubled in the 4th for runs, and then the Sox stood still until bottom of the 7th, when they really went to town with 5 runs by Kendrick, Sledge, Ameszcuo, Burton and Rothwell. Kendrick and Burton reached base

on errors, Sledge doubled, Ameszcuo singled and Rothwell socked a homer.

Individual Influence Big In Census Story

Municipal planners, chambers of commerce, industries, economists and the ordinary curious will be studying 1960 Census figures for years.

They will compare trends of growth and decline, look for indexes to shape new developments, even interpret the population tables in respect to schools and education.

There will be analytical approaches to discover the why and how of it all — why more than 40 towns in our wide West Texas areas expanded with increased population during the last 10 years, yet how even more in the same area declined in population.

Contributing factors will be numerous for both why and how. Urbanization, fewer family size farms, oil industry developments, change in business factors, natural assets like water will be charted in those areas where the census points to population drop.

Almost the same factors, but in reverse, will be used to show why this

city or that one burst forth with gain.

One thing more, though. You can go down the whole census list and visit the towns one by one. And one thing for sure among those making growth — each thinks well of itself and lets you know it.

That's glaring mark of a community on the go — pride and confidence. Citizens in a town looking ahead, moving ahead don't have time with doom and gloom talk. They are too busy manufacturing action.

They look to their advantage, speak of their assets, tell what they do instead of what they don't do, and grapple with a problem instead of griping about it.

This asset is an ingredient which begins with the individual first, then moves through the community and builds the city. It's the start must be in the individual... and it actually precedes the growth.

Local Supervision Pays For Freeway

Congressional probers report disgraceful irregularities are gobbling up funds available for the nation's network of super interstate highways.

In the neighboring state of Oklahoma, for instance, investigations have revealed staggering amounts of spending — more than double actual costs — for segments of interstate highway construction.

Therefore, it is significant when Congressman Jim Wright singles out the Texas Highway Department and the interstate highway program in Texas as exemplary. Wright, a top figure in the highway spending probe, praised the Texas program for getting top value with its interstate highway construction dollars and cited it for economy, honesty and competency without even the slightest hint of irregularities.

This praise — at a date in history when payola, fixing and under-the-table handouts are too prevalent for a nation's good — should come home to

rest on the shoulders of those who build the reputation.

Mitchell County was one of the first counties within the state to participate in the interstate highway development program — providing its own financing for Interstate 80 freeway across the rural areas of the county.

Local citizens know the impact of the multi-million-dollar Interstate 20 construction upon this community's economy, its contribution to improved highway safety and travel convenience.

More than that, though, we should realize the fact that every Interstate 20 freeway dollar spent in Mitchell County has been applied to the best advantage possible for taxpayers. And we should recognize the capable and honest supervision of our Commissioners Court, resident State Highway Engineers Ben R. Wilkinson and Joe Smoot, and District Highway Engineer Lake Roberts has been a prime factor above the muck uncovered in some other states.

SHINNERY PHILOSOPHER

Reds' Propaganda Bows to Weather

Editor's note: The Shinnery Flats Philosopher on his Johnson grass farm on Bone Hollow Creek makes a discovery about Russian farming. His letter this week is published.

Dear editor:

As I understand it, the Russians are experts when it comes to propaganda, they let the outside world know only exactly what it wants to know about what's going on behind the Iron Curtain, no more and no less. Everything is thought out years in advance, and everything runs like clockwork.

Well, I have always felt that regardless of what in-

formation the Russians put out, they must be human beings the same as the rest of us, their tractors must get flats and bust gaskets the same as ours, and this opinion has now been confirmed.

Last night I read in a newspaper which I found alongside my road out here yesterday morning — I guess somebody had run out of beer cans to throw out and had to resort to a newspaper to keep his arm in practice — that the weather in Russia has cut the crop prospects over there.

Obviously, the Russian propaganda system is breaking down. You mean to say Russian agriculture is subject to the whims of nature the same as my farm out here?

PRESIDENTIAL TICKET'S INFLUENCE

Depth of Texas Demo Harmony May Depend on Party Nominee

By VERN SANFORD
Texas Press Association

Texas Democrats are starting a fresh page in their history. The era when the party could be split on the basis of who voted for Eisenhower in 1952 is almost ended.

Only thing which could revive that long-cherished bone of contention would be for the party to nominate a ticket so distasteful to some Texans that the state would again go Republican.

At the state convention Democrats of widely varying views united behind the Lyndon Johnson banner to bury the extreme loyalists of the DOTC in the most overwhelmingly lopsided vote in party history.

Even seasoned political reporters were caught off balance by the 2,252-to-40 vote by which the DOT proposal was defeated. They used such unaccustomed adjectives as "astounding" to describe the victory.

State executive committee proposed a loyalty pledge binding on state party officials, delegates to Los Angeles and presidential electors.

DOT insisted that in addition, a loyalty pledge should be circulated among the county delegations and that no one should be allowed to stay in the state convention hall unless he signed it.

DOT did everything possible to fan the issue. Blurred, hastily printed flyers headed "Who Says Party Loyalty is a False Issue?" were scattered outside the convention hall. Flyers showed a picture of Gov. Price Daniel introducing Eisenhower at a 1952 campaign rally and reproduced a copy of the ballot by which a majority of Texans split their tickets in '52 and '56 by voting Democratic on the state level and Republican on the national level.

Alex Dickey of Denton, one of the DOT spokesmen given equal time to debate the issue before the delegates, proclaimed heatedly that "party loyalty is the issue before this convention."

But his weapon lost its edge. After the vote, Governor Daniel declared that any group that tries to send a rival delegation to Los Angeles on the basis of 40 votes out of 2,292 must be out of their minds.

Even drooping DOTers agreed. Dickey refused to bolt, told sympathizers waiting outside they had been beaten fairly.

Reporters, who had tried to beat deadlines by writing "hold for release" stories describing the expected "rump" convention, hastily filed mandatory kill orders.

UNITY DIVERSITY — Events at the State Democratic convention, though it was frequently referred to as the most united, most harmonious in history, demonstrated clearly that it is, as it always has been, only as united as strong personal leadership can keep it.

By its very make-up the Texas Democratic Party is like 6 tomcats in a tow sack.

State Capital NEWS

Gulf between the very conservative delegation sent to Austin by Harris County and the very liberal delegation from Bexar County is greater than the gulf between Republican and Democrat in many parts of the country.

Convention keynote, Rep. Jim Wright of Fort Worth, took note of this. "Out of our disorganization, our diversity... and even our disagreements," said Wright, "comes our strength. We are the party of no one because we are the party of everyone."

Test of this came after Senator Johnson made his triumphal entry to the accompaniment of marching placard carriers, music and cheers. When the tumult ended and Johnson began to speak, the Harris County delegation, which had voted not to support Johnson, booed at the end of each statement. It was an awkward moment.

Senator Johnson, who was discussing his experiences in the U. S. Senate in working with men of such contrary views as Senator Byrd of Virginia and Senator Morse of Oregon, departed from the text of his speech.

Despite their differences,

said Johnson, these senators "always behave in a courteous and gentlemanly manner."

Harris County was heard from no more, and Texas Democrats proceeded with, for Texas, first class harmony.

EXIT MRS. RANDOLPH — Mrs. H. H. Weiner of Seguin will return next month to the post as national-democratic committee woman from Texas.

Mrs. Weiner was national committeewoman for eight years and was replaced by Mrs. R. D. Randolph of Houston in 1956.

Mrs. Weiner will be officially elected at the national convention beginning July 11 in Los Angeles. But for all practical purposes, Mrs. Randolph already is deposed.

By resolution, the state convention took away from her all authority and privilege she might have between now and retiring. It was retaliation for the war which Mrs. Randolph, as head of the DOT, has waged on Senator Johnson, Governor Daniel, National Committee man Byron Skelton and almost all other party officials for four years.

TEXAS AGRICULTURE

Ag Commissioners Urge 100% Parity

By JOHN C. WHITE
Agriculture Commissioner

An urgent request that congress adopt necessary legislation to enable the American farmer to achieve 10 per cent parity income was among the most far-reaching resolutions adopted by the 14-state Southern Commissioners of Agriculture at their 1960 meeting in San Antonio.

It was emphasized by the Southern Commissioners in their resolution that "in past several years net farm income has shown a rapid decline from \$15 billion to \$11.5 billion, and farm mortgage indebtedness has increased from \$7 billion to \$11 billion, and farmers are not receiving their share of the national wealth."

The Commissioners also made it clear that in their opinion "present farm programs are obviously inadequate to meet farm needs."

No attempt was made to spell out any particular course of legislation or to restrict Congress in working toward a solution of the crisis in present farm programs.

Instead, the resolving clause stated simply: "Now, therefore, be it resolved, that the Southern Commissioners of Agriculture in convention assembled at San

Antonio, Texas, June 10-13, 1960, urgently request the Congress to adopt necessary legislation to enable the farmer to achieve 100 per cent parity income."

This is one of the resolutions which was forwarded to Rep. Chester A. Bowles (D-Conn.), chairman of the platform committee for the 1960 Democratic National Convention in Los Angeles, to Senate Majority Leader Lyndon B. Johnson (D-Tex.), and to other national leaders for their consideration.

Both the chairman of the platform committee and Senator Johnson had expressed interest in receiving a full report of the deliberations and decisions of the Southern Commissioners reached at San Antonio.

Another notable resolution adopted by the Commissioners observed that "credit is a necessary implement in helping small family-sized farms, and interest rates to the farmer are too high."

It was resolved that Congress be urged to "appoint a committee to study the needs of small farmers for credit and that appropriate legislation be enacted."

The Texas Commissioner of Agriculture was elected president of the Southern Commissioners, succeeding Agriculture Commissioner S. E. (Si) Corley of Mississippi.

Skiing Fun Needs Rules for Safety

Six million Americans going splash-splash — and often flip-flop — in the water.

That's the picture as a nation of water skiers nonchalantly skims over miles and miles of waterways — or tries to, at least. And a portion of that picture is every day at Lake Colorado City where skiing is just about as popular as fishing.

Little information is available on what happens when a water skier is unsuccessful in his attempt to remain upright, since reporting of mishaps on water — America's new-found playground — is far from complete. But accidents do happen here and on the vacation road.

While the facts on water skiing accidents may not be handy, you can find plenty of information on the art of skiing in summer.

From the National Safety Council, for example, come these tips for skiing fun:

1. Don't ski if you can't swim.
2. Don't ski at night, in rough water or in shallow or unknown waters.
3. Don't ski near swim-

mers, docks or other obstructions.

4. Don't ski with an inexperienced boat operator. Make sure an extra person is in the boat to keep an eye on the skier.

5. Never wrap a tow rope around your body. If you start to fall, throw the tow line clear of yourself.

6. Always approach the shore at an angle — never straight in.

If you fall, the experts advise:

1. Stay with your skis — they'll help keep you afloat.
2. Raise your hand to signal the boat operator of your plight.
3. In congested waters, raise a ski so other boats will see you.

The experts also, say that consideration for other and safety consciousness go a long way toward preventing water accidents.

"We're not trying to be wet blankets about water skiing," said Ralph Kuhl, the National Safety Council's director of public safety. "We want you to have fun. We just want you to stay alive and healthy to enjoy it."

BIBLE COMMENT

We Say Lord, But How Do We Live

It is clear that when Jesus expressed His authority in the words "I say unto you" it was because of the truth he had to declare, and not because of an ordinary relationship of a master to his disciples.

His disciples, though they

were slow to grasp the meaning of what Jesus taught, were deeply attached to their master because of the beauty of His life.

But Jesus turned down mere personal attachment. He said, "Why do ye call Me Lord, Lord, and do not the things which I say."

These words raise a very important question about our relationship to Jesus. If we profess to be Christians, where is our life and allegiance centered? Is it loyalty to a church or organization? Is it a loyalty to some teaching or doctrine about Jesus? Is it loyalty to Him as a great figure of religion and history?

Or is it supreme loyalty to the truth that He declared, and to the example that He gave?

Are we among those who say "Lord, Lord" but whose lives do not express the reality of all that He said?

It is a great challenge, and the Christ never in trial before the judgment seats of our hearts and lives.

Strictly Fresh

To some people we know, moderation just means eating onions without garlic.

Old-fashioned girls used to call their parents if their boy friends became too serious. Now they prefer to wrestle with the problem themselves.

Some boys around the office want a longer rest period. Others just want a longer rest period.

Most girls worry a lot about their hats and shoes. Between the two there's enough to worry about.

Doctor ... ?

Angie Dickinson, as nurse Fran, seems to be asking Richard Burton, who plays a doctor, a question in this scene from "The Bramble Bush." Shown with them is Barbara Rush, who portrays the wife of a man (Tom Drake) with an incurable disease. "The Bramble Bush," adult entertainment, will show Sunday, Monday and Tuesday at the Palace Theatre.

RESIDENCE REDECORATED

School Head to Arrive Next Week

LORAIN — Residence for Loraine school superintendent is being completely redecorated before arrival of the new superintendent and his family.

Supt. and Mrs. J. B. Cushing and family will arrive here next week from Zephyr, D. V. Marcum, who served as superintendent for the last 3 years, and his family moved last week to Snyder. He resigned after purchasing into the ownership of Canyon Reef Sports Center in Snyder.

Three major vacancies remain in the Loraine school staff. No replacements have been hired yet for the positions formerly occupied by Bobby Ryan, Coach Kenneth Ford and Miss Gladys Phillips.

Miss Phillips, business administration teacher here for several years, recently resigned.

Mr. and Mrs. J. P. Nunn, Mr. and Mrs. W. H. Jeans visited Sunday in Midland with their son and daughter, Mr. and Mrs. Thomas Nunn and children, Mr. and Mrs. Marilyn Bruce and children.

Mr. and Mrs. Troy Moore and children of Andrews visited during the weekend here with her parents, Mr. and Mrs. Everett Henderson.

Sunday they accompanied their parents to Colorado City for dinner with the other Henderson daughter and family, Mr. and Mrs. Bob Chalker and children.

CAPE COD SCANDALS

'Bramble Bush' Due at Palace

A private scandal goes into public view in the daring dramatization "The Bramble Bush" showing Sunday, Monday and Tuesday at the Palace Theatre.

"The Bramble Bush" is based on the novel by Charles Mergendahl, which is itself a monument of literary controversy and which aroused comment and lifted eyebrows from Cape Cod (the town the movie takes place in) to Baja, California.

Heading the cast are Richard Burton, Barbara Rush, Jack Carson, Angie Dickinson, James Dunn, Henry Jones and Tom Drake. The film is directed by Daniel Petrie, prominent stage and television director, making his directorial film bow with this picture.

The picture, which is classed as adult entertainment, deals straightforward with the scandals of a small Cape Cod town.

In "The Bramble Bush," Burton portrays the New England doctor who returns to his home town to care for his best friend who is dying of an incurable disease, and falls in love with his best friend's wife.

The unhappy wife is played

by Barbara Rush, the aristocratic young woman whose star stature has been growing since her performance in "The Young Philadelphians."

Jack Carson plays the role of a brash lawyer who is bucking for district attorney and who successfully defends Burton in the mercy-killing case.

Angie Dickinson is seen as Fran, the bewitching nurse who has two men — Burton and Carson — in her life. Both Fran and the role are bursting with drama and sex.

Seen as the town drunk is James Dunn, the likeable Irishman who won an Academy Award for "A Tree Grows in Brooklyn," and who was in the early Shirley Temple movies. He is responsible for much of Burton's emotional distress in the movie.

Henry Jones portrays the photographer with the evil eye who forces Angie Dickinson to pose for him in revealing costumes for blackmailing purposes.

Portraying the dying husband is Tom Drake. He plays all his "Bramble Bush" scenes in a hospital bed in pajamas, but they will be nonetheless memorable.

IN WESTBROOK HOME

Greenlee Daughter Feted on Birthday

WESTBROOK — Susan Greenlee was honored Tuesday at a party in the home of her parents, Mr. and Mrs. Troy Greenlee.

The event marked the child's sixth birthday and was hosted by Mrs. Greenlee. Favors were party hats, inscribed with the numeral '6' and horns.

Refreshments were served to Karen Lee, Kathi Lee, Kyla Lee, Patsy Lewis, Joyce McKenney, Kim Sullivan, Cindy Parrish, Roxann Moore, Carol Bell, Pat Bell and Sue Bell, all of Westbrook, Connie Parrish of Coahoma and the honoree.

A team of Hardin-Simmons University students will conduct the rally, the Rev. Stewart said.

Court Shepard, junior ministerial student, will be the preacher. Soloist and pianist will be Karen Swartz, sophomore, and song leader will be Jim Pfafflin, junior.

OUT WHERE THE COUNTRY CAN TEAR A TRUCK TO PIECES—

Chevy middleweights get 1/3 more work done in a day!

Where they used to deliver 2,300 gallons of liquefied petroleum gas in other trucks, Petrolane Gas Service of Long Beach, California, can now deliver 3,500 gallons a day! That's 7 days a week usually, over back trails and up into high rock country with maximum GVW loads. And with Chevy's Torsion-Spring Ride-pacing every foot of the way! "You don't get any more jolting on washboard roads than you do in a passenger car, or any sideways on curves," says driver Bernie Stone. "I used to take some rough roads at from 5 to 8 miles an hour. Now I can go 30 over them." Petrolane has over 200 Chevrolets hauling for them.

If you think we're excited about Chevy's independent front suspension, you ought to talk to the truck owners who are profiting by it. They'll tell you Chevy's torsion-spring design is the hottest thing to hit the industry since trucks began. Drive one—that's the proof, short and sweet.

Richburg and Lefevre Families in Reunions

LORAIN — Approximately 70 persons attended the annual reunion here Sunday for descendants of the late Mr. and Mrs. J. W. Richburg, Loraine area pioneers.

Scene for the gathering was the Lions' building in Loraine. In the reunion group were 7 of the 8 Richburg sons and their wives, plus 6 of the 8 daughters and 4 sons-in-law.

The entire group enjoyed a picnic lunch in the Midland park Sunday at noon.

Katrina Wells, who had visited the last 3 weeks in Midland, returned home to Loraine with her parents.

Class Names Memorial Fund Officer

LORAIN — Companion Sunday School Class of First Baptist Church met last Thursday afternoon in the home of Mrs. Dottie Marshall for its monthly worship and business meeting.

Co-hostess with Mrs. Marshall was Mrs. J. L. Johnson. Meeting opened with group singing two hymns, "Make Me a Channel of Blessing" and "My Faith Looks up to Thee."

Prayer was led by Mrs. W. E. Claxton. Mrs. George Mahoney, a guest of class, presented the devotion, "The Burning House," based on scriptures from 2nd Samuel.

Mrs. Johnson, class president directed the business session when the secretary and treasurer report was given by Mrs. L. E. Crutcher.

A box of clothing, valued at \$40 and packed by the class at previous meeting, was sent to the Mexican Orphanage Home in San Antonio. It was reported by Mrs. W. H. Long.

Mrs. R. K. Thornhill was elected secretary of the memorial fund, which will go to help buy church pews.

Mrs. W. A. Pendergrass, who recently moved to Loraine, was welcomed as a new member.

During the social hour, Mrs. W. C. Rogers showed pictures of the class taken at special gatherings.

Refreshments were served by hostess to Mmes. O. C. Lucas, S. H. Hart, Pearl Albright, W. H. Long, W. E. Claxton, Mark Dawson, W. C. Rogers, Ed Shultz, L. E. Crutcher, W. A. Pendergrass, Ila Ingram, and guests, Mrs. George Mahoney and son, Nubbin.

TOTALLY NEW FOR '60

It's a fact! Thanks to Ford's advanced engineering, the Falcon is America's lowest-priced 6-passenger car—priced as much as \$124* less than other 6-passenger compact cars. Yet when you compare the new-size cars, in five minutes you'll see and feel the big quality differences built into the new Ford Falcon.

For example, the Falcon delivers six-passenger comfort... and full luggage space for all six passengers! Doors are big. You get two sun visors, two arm rests, two coat hooks, two horns, and foam-padded front seats all at no extra cost. We Ford Dealers invite you to fun-test the Falcon today.
