Herald Will Publish Letters to Santa Claus

Santa Claus letters written by children of Ochiltree and adjoining counties will be published in the Herald again this year. Every child in the area is invited to write a letter to Santa and send it to the Herald, where it will be printed in the December 14 issue, a week before Christmas. Letters should be written early and addressed to Santa Claus in care of the Ochiltree County Herald, Perryton, Texas.

Rangers to Open Cage Season Tuesday Night

The Rangers will open their 1950-51 basketball season at the high school gymnasium on Tuesday night, Nov. 28, when they meet Bethany.

Cage equipment was issued Monday by coach Lynn Hulsey and workouts started Tuesday. With only three days of practice before the first game, the Rangers are accorded little chance of victory. Thanksgiving holidays this week will cut out practice sessions on Thursday and Friday.

There were 33 boys reporting for the first workout, and from this group will be picked 10 for the A squad and 12 for the B squad, which coach Lewis Emerick will tutor.

Only two lettermen return from last year's squad, which didn't win a game. These are B. R. Pletcher and Floyd Pletcher, both guards. Up from the B team are J. B. Langwell, Don Dietrich, Bill Johnson, Don Cooper, Laurel Lovett, Dick Haar, Bobby Campbell, Clifford Kauffman, Charlie Downey, Ronald Hillton, Verles See No. 3, Page 8

Results of PMA County Election Are Announced

A total of 279 Ochiltree county farmers and their wives cast ballots in the annual PMA election held Monday. There were 91 ballots cast in community A, 117 in community B, and 71 in community C.

In community A, N. P. Dear was elected delegate; A. F. Milledge, chairman of the community committee; John R. Stump, vice chairman; W. E. Brown, member; Charles B. Trew, first alternate; and Johnnie Luthi, second alternate.

Community B chose Omar Truax delegate to the county convention; Harold Kershaw, alternate delegate; Byron Tevis, chairman of the community committee; Mart Wagner, vice chairman; Ben Peckenpaugh, member; Wayne Cudd, first alternate; and Jack Williams, second alternate.

In community C, Martin McCarter was chosen delegate to the county convention, with W. L. Herndon first alternate. Ivan Day was elected chairman of the community committee; Virgil Devers, vice chairman; Warren Good, member; Keith McLain, first alternate; Arthur Morgan, second alternate.

New Ford Cars Go On Display Here Friday

The 1951 Fords, featuring Fordomatic Drive, the new automatic transmission, will go on display Friday at the A & B Motor Co. on south Main. On display at the local firm will be a custom 4-door sedan and a deluxe 2-door sedan. Neither of the cars will have the Fordomatic Drive, but it is hoped to have one in the near future, stated Gene Akers Wednesday.

Both the conventional three-speed transmission and the Ford overdrive will continue to be available in the new cars, as well as the Fordomatic Drive. Either the 100-horsepower V-8 or the 95-horsepower six-cylinder are offered.

The Fordomatic Drive combines the advantages of a planetary torque converter and a planetary gear train to provide maximum performance and a smooth and economical flow of power.

A lowered hood, a new dual spinner grill and a wider, longer wrap-around bumper give a more massive appearance to the front end. Key starting is provided.

Santa Claus Parade Next Tuesday to Open Christmas Season in Perryton

SANTA CLAUS IS COMING — Santa will come riding in a bright-colored sleigh drawn by four big-antlered reindeer when he comes to Perryton next Tuesday afternoon. These sleigh animals are Donder and Blitzen, Prancer and Dancer, and they're coming straight from the Arctic Circle to gladden the hearts of all children.

Seven Bands To Participate In Yule Show

The big Santa Claus parade next Tuesday afternoon, November 28, will open the Christmas season in Perryton and a full program has been planned for the opening day.

Santa Claus and his four reindeer will lead the parade, and seven high school bands will participate in it. Bands will be here from Perryton, Booker, Spearman, Liberal, Balko, Canadian and Follett. The parade starts on Main street at 1 p. m.

Christmas lights and green decorations are scheduled to be hung on Main street by Tuesday, and the downtown district will be all decked out in the Yuletide tradition.

Santa Claus will be on Main street Tuesday afternoon, giving out treats to all the children, and each of the band members will receive one dollar.

A series of Christmas bargain days has been set by the Chamber of Commerce, with cash prizes being given away on Wednesday afternoons of December 6, 13 and 20 to carry out the Yule shopping season.

The reindeer which Santa Claus will bring to Perryton come from the Arctic Circle, near Kotzebue, Alaska. They will wear red leather harness with bright trimming, and the children can tell which is Dancer, Blitzen, Prancer and Dancer, for each will have his name spelled out on his harness.

Santa's sleigh is a colorful vehicle, too. It is bright red and silver with green trim, and the words "Merry Christmas" spelled out in the decorations.

Baptist Church To Show Picture

"Dust or Destiny," a dramatic presentation of the miracles of nature, will be presented in motion picture form at the First Baptist church on Sunday night at 7 o'clock. The picture will be shown in the main auditorium of the church.

The public is invited.

Buyers from Wide Area Make Aberdeen-Angus Sale Big Success; Animals Bring \$71,278

The first commercial Aberdeen-Angus sale, held Monday, was a big success, viewed from any angle, and the black cattle were eagerly purchased by buyers from the Texas-Oklahoma-Kansas area.

A total of \$71,278.14 was paid for 393 head in the sale. Seventeen consignors, most of them from Ochiltree and Lipscomb counties, delivered 200 females, 180 steers and 13 registered bulls.

Roy Wilmeth of Spearman paid a top of \$36.75 for 16 light steer calves delivered by Jim Lourie of Darrouzett.

Wilmet reportedly purchased the calves for his large-scale operations in Hansford county. He has several hundred cattle on wheat and sorghum stubble south of Spearman.

Roy Stinson paid a top of \$700 for a bull consigned by Lee Crawford.

Percy Powers, another local breeder, sold five cows and calves to Lester Schwalk, also of Perryton, for \$345 a pair. An unofficial tabulation indicates this transaction was the top for females.

The 393 head averaged \$181. Highest average was \$418 a head

for the registered bulls. The females averaged 178, and the steers averaged \$167.

The Perryton Sales Pavilion was crowded with buyers all during the sale. Ray Simms of Belton, Mo., was the auctioneer.

County agent Hood Willis, who helped arrange the sale, welcomed the audience to Perryton and introduced visiting dignitaries.

Among visiting cattlemen were Luther T. McClung, president of the Texas Aberdeen-Angus Breeders Assn., F. L. Worth, and Milt Miller, field man for the American Aberdeen-Angus Assn., Chicago.

Ring men representing livestock publications included Louis Fields, The Cattleman, Fort Worth, and Bill Castellaw, Texas Livestock Journal, San Antonio.

Adrian Munger of Perryton clerked the sale.

Consignors included Percy Powers, Roy Stinson, Daniel New-

man, Clyde Jamison, Ollie Morris, Cecil Regier, E. N. Flathers. See No. 5, Page 8

Mrs. Powell to Conduct Speech Sessions Today

Prominent parts will be taken by Panhandle teachers at the Texas Speech Association's convention which is being held from Thursday through Saturday at San Antonio.

Mrs. Rose Powell of Perryton high school will head a panel on interpretation.

The TSA convention will include three other Panhandle teachers, including John P. Bannard of Borger; Mrs. N. N. Whitworth, Amarillo; J. H. Flathers, Amarillo; and Crandall Tolliver of West Texas State College.

Canasta Benefit Is Schedule by Sorosis Clubs

A canasta benefit is being held Tuesday night, November 28 at the Legion Hall, sponsored by the Perryton Sorosis Club to raise funds for Teen Town and city park improvement, two of the club projects for the year.

The canasta benefit will start at 7:30 p. m. and refreshments will be served. Tickets are now on sale, under the supervision of the committee composed of Mrs. H. D. Barnes, Mrs. Manse Wood and Mrs. John Bollin. The tickets are priced at \$1 each.

The general committee is composed of Mrs. O. A. Schuster, chairman, Mrs. Cecil Dodd and Mrs. Sibley Jines.

SCHOOL BURGLARY—Deputy sheriff Clyde Tarbox, left, and state highway patrolman Bob Loving inspect the damage done by burglars who ransacked the Perryton schools Tuesday night. About \$350 was taken from vaults in the superintendents office, and the two principal's offices. The burglars pried the metal facing away from the vault door to get inside the vault.

Burglars Loot Perryton Schools Monday; Net \$350 Cash, Much Damage to Building

Burglars entered the Perryton school buildings Monday night, taking approximately \$350 in cash, and doing considerable damage to three vaults and six lockers in the building.

The burglars entered the north building by way of the east door, which was not locked, leading officers to believe that the lock was picked.

entered with a key, or found unlocked. The thieves then broke out the pane in the door leading upstairs from the cafeteria, and broke the glass in the outer door of superintendent Gilbert Mize's office.

Once inside the office, the intruders went to work on the heavy steel vault door. They finally pried the door open by prying away a part of the wall and inserting a heavy bar under the steel door facing and tearing it away from the door.

After ransacking the safe and getting about \$135, most of it in silver, they opened Mize's desk and threw the contents about the room.

From there, they went to the middle building, taking a hall door off its hinges to get into the building, and opened junior high principal Kenneth Precise's office by the simple method of prying the door open with such force that the lock bolt tore through the wooden door.

A small teal vault in Precise's office posed no problem, as it

Harvest Time Nearly Over

The grain sorghum harvest is approximately 85 per cent complete in the Perryton area, and piles of grain may be seen in all sections.

With an estimated 75,000 acres planted to grain sorghums this year, and an average yield of 50 bushels per acre, the total harvest amounts to 3,750,000 bushels in Ochiltree county, comparable to a fair wheat crop, as far as cash income is concerned.

Elevators are still taking grain only as they are able to ship it out and the boxcar shortage is hampering the grain movement. Most of the tremendous harvest is being stored in farm granaries and on the ground, with much of it being trucked out.

Jaycees Meet in Harlem Aces Wednesday

The Harlem Aces, nationally known colored basketball team, will meet the Perryton Jaycees at the Perryton school gymnasium Wednesday night, Nov. 23. Game time is 8:15 p. m.

The Aces employ a number of pleasing stunts, and have defeated the best professional teams in the Middle West. Outstanding player on the team is big Johnny Watts, a former LaCrosse University player.

Others are Richard Pete, Shaw Hunter, Kirk Milwauke; Bob Morgan, Virginia Union; Wilbur Morgan College; and Jake Morgan, Mil. Lincoln.

The Jaycees team will be particularly the same team as last year's successful Legion against the exception of John Williams, who is now a freshman student at WTSC.

The Jaycees team will have Johnny McWilliams, Tommy Hunter, Bob Schell, David Hummer, Lynn Hulsey, Myron Williams, Wesley Cox, Irvin Schroeder, Jimmy Cameron and Billy

Silica Sand Deposits In Area May Have Industrial Possibilities, Experts Believe

A load of sand holds little fascination for the casual observer but to J. A. (Shorty) McClung it represents not only a profitable business but also literally tons of industrial possibilities for this area.

A deposit of fine silica sand on the W. M. Hamker place south of Booker holds the key to a great many industrial possibilities, McClung believes. The deposit was first exploited by Bill Slaughter who used the silica sand in the production of concrete building blocks. Later the deposit was explored by Cudahy Packing Company as a possible source of silica for their famous product, Old Dutch Cleanser. By core drilling they determined the extent of the deposit to be 27 1/2 acres with the silica strata varying from six to seventeen feet deep.

Pepsodent tooth paste is another industrial firm which has reportedly investigated the possibilities of the deposit.

Attention was again focused on this large quantity of high grade silica sand when Bell and Braden Construction Company used hundreds of tons of it for topping local streets recently. Representatives were high in their praise of the product for this purpose. The sand is so fine that 97% of it could be filtered through a 200-mesh screen. When dry, it is snow white and is a dull grey when moistened.

Laboratory tests have shown it to be almost a pure silica compound with 1% aluminum and a trace of iron.

Silicon is the most common element found in nature, besides oxygen, but it does not often occur in a form commercially useful.

Silica is widely used in the manufacture of cleaning compounds, soaps, cosmetics, tooth paste, paints, glass, et cetera.

The local deposit was reportedly rejected by Cudahy because a deposit near Meade, Kansas was much nearer to the point of manufacture.

The wide variety of uses for silica convinces McClung that this area's economic future lies in its sand pits. To him sand is a fascinating subject, but not only from a business viewpoint. Supplying sand and gravel to local building contractors is one of McClung's many "irons in the fire." The dynamic little man with the big cigar probably sleeps less than any man in Perryton and still has difficulty in finding time to carry out all his plans.

McClung can claim the distinction of having been here long before the town of Perryton. His father, farmed part of the present townsite and McClung recalls that his father broke sod on the present townsite with a six-horse team and disc plow.

He remembers when there were no fences in the area and herding cattle and hogs was his principal activity as a boy. Wild mustangs were still in the area, and keeping them away from the

J. A. "Shorty" McClung is pictured above in a deposit of high grade silica sand on the W. M. Hamker place south of Booker. Silica sand from the above deposit is believed to be one of the finest in the country. More than 97 per cent screened through a 200-mesh screen for use in topping Perryton streets recently. Laboratory tests have shown the deposit to be almost 100 per cent silica oxide with a small quantity of aluminum impurities and a trace of iron. McClung believes that the key to new industrial development lies in these silica deposits. He points out that silica is used in a wide variety of products including paint, glass, cleaning compounds, mud-packs for facials, soaps, etc. The deposit has already been investigated as a possible source of raw materials by the makers of "Old Dutch Cleanser" and Pepsodent Tooth Powder, McClung says.

Economist Believes Surplus in Wheat May Result Soon

STILLWATER—An uncertain market demand in wheat, coupled with increased U. S. and foreign production, may bring about a surplus in the world's wheat supply, according to A. L. Larson, agricultural economist at Oklahoma A. & M. college.

An unusually large market which had been taking almost any available amount of wheat was disappearing up to the time of the Korean war. He added that even with present world conditions it is not likely to equal proportions of two and three years ago.

Next year's wheat production and marketings, with favorable growing conditions, will be relatively large, Larson pointed out, because of increased acreage allotments, high support prices and the elimination of the possibility of marketing quotas on the 1951 crop.

A normal wheat crop next year would add over one-billion bushels to an estimated carryover of 439 million bushels, totaling slightly over twice the amount ordinarily consumed in the United States.

A strengthening factor in the uncertain market conditions, Larson said, is this country's export quota of approximately 228-million bushels set up under the International Wheat agreement.

British Move Industries

BIRMINGHAM, England (AP)—British and foreign industry is in the midst of a big scale migration to Scotland.

Since 1937, a total of 210 enterprises have moved there, including nearly 90 from London and 35 from overseas. A score of the foreign plants were from the United States. The figures were cited by Dr. H. S. Phillips, of the Scottish board of trade, in a paper read to the British Association for the Advancement of Science.

Dr. Phillips said new jobs in the American projects alone will total 10,000. He said many of the new firms "seem satisfied that their production in Scotland is more economic than elsewhere."

A bronze plaque has been placed on the campus in memory of William Nelson (Pop) Golden, Penn State's first football coach.

Perryton's population will be swelled during the next few days by a construction crew of the R. H. Fulton Co., which is constructing a new pipeline for the Panhandle Eastern Gas Co. The new 6-inch pipeline is being laid from the booster station north of town through the western part of the county a distance of about 20 miles.

Crocodiles Are Gifts

MELBOURNE (AP)—A passenger on a crowded tram touched Jerry Randell, 37, of Darwin, on the shoulder and said: "Excuse me, but I see a crocodile coming out of your satchel." Randell pushed the crocodile's head back into the satchel, thanked the passenger, who nodded gravely and resumed reading his newspaper.

Randell is a crocodile and buffalo hunter who is spending a few weeks in Melbourne to recuperate from a bite on his left arm from a 12 foot crocodile. He explained that he was carrying a baby crocodile to Melbourne friends as an "unusual gift in return for hospitality."

Prisoners of Reds Come Back

IMMENSEE Switzerland (AP)—Three Swiss Roman Catholic missionaries have returned to Switzerland after three years in a Chinese Communist prison in Manchuria for alleged collaboration with the Japanese. The three priests, Fathers Friedrich Hort, Johann Imesch and Franz Senn, reported on their experiences in guarded language, evidently fearful of harming other Swiss priests still imprisoned under sentences ranging from five to 12 years.

"We suffered greatly from the unclean habits of the other prisoners," Father Hort said. "There was an unimaginable plague of insects, vermin and nearly all the priests caught typhus—some of them two or three times. We were not ill-treated by the authorities," Father Hort said, "but we suffered from the malice of the other prisoners."

A system of public confession was introduced at the prison, at which every prisoner had to confess his crimes and errors and demonstrate that he was turning towards Communism. "Under this system, the other prisoners would make false accusations against us, in order to enlist the sympathy of the prison authorities," Father Hort said.

Grid Crowds Grow

The rise of Southern football as a football drawing force is not even a little short of phenomenal, to change a bromidic expression slightly. Methodist men of the gridiron were packed when they played these days. Five years ago Southern Methodist drew 10,000 fans for five home games. Now SMU had that many fans for the opening game.

The rise of the Methodists as football fans began in 1946 when 10,000 persons saw their 10th year. Two years later, as Goldie Dink Walker wrote All-American football, 439,000 paid their money to see the Mustangs gallop.

SETS UP SCORE—Fullback Byron Townsend of Texas smacks over his right tackle and is dropped on the one-foot line as he set up his team's first touchdown in the second quarter of the game with Texas Christian University at Fort Worth, Tex. TCU defenders center Tommy Moorman catches him from behind and end Wayne Martin moves in from the left. Texas won 21-7. (AP Wirephoto)

Deadline Near For PO Position

December 8 is the deadline for filing applications for employment as substitute clerk-carrier at the local post office, according to postmaster Irvin Hergert. Entrance salary is \$1,313 1/2 per hour and no experience is necessary, as the necessary training is done on the job. Application blanks may be secured from the local office.

Mine May Draw Tourists

PORT ARTHUR, Ont. (AP)—A big hole in northwestern Ontario may become a tourist attraction. It is the steep rock iron mine at Atikokan, midway between The Lakehead and Fort Frances. Right now tourists would have to come by train to see it, because Atikokan has no highway connections with the outside. The Atikokan mine is 500 feet deep, two miles wide and three miles long. Steep Rock Iron Mines, Ltd., produces about 1,000,000 tons of ore a year and began operations in 1937, draining off parts of Steep Rock Lake and diverting the Seine river which flows into the lake.

Grasshopper Year Predicted

REGINA (AP)—Saskatchewan farmers have been warned that 1951 may be a bad grasshopper year. The Provincial Department of Agriculture says infestation by the stubble grasshopper, voracious enemy of grain crops, probably will be worse than in the last two seasons. The Dominion Entomological Laboratory at Saskatoon says an extensive anti-grasshopper campaign will be required in a large part of the province.

Wolf Creek Philosopher

Doesn't Hold With Efficiency Theory

(Ed. note: The Wolf Creek Philosopher no doubt is misinterpreting again in his letter this week but that never seems to deter him.)

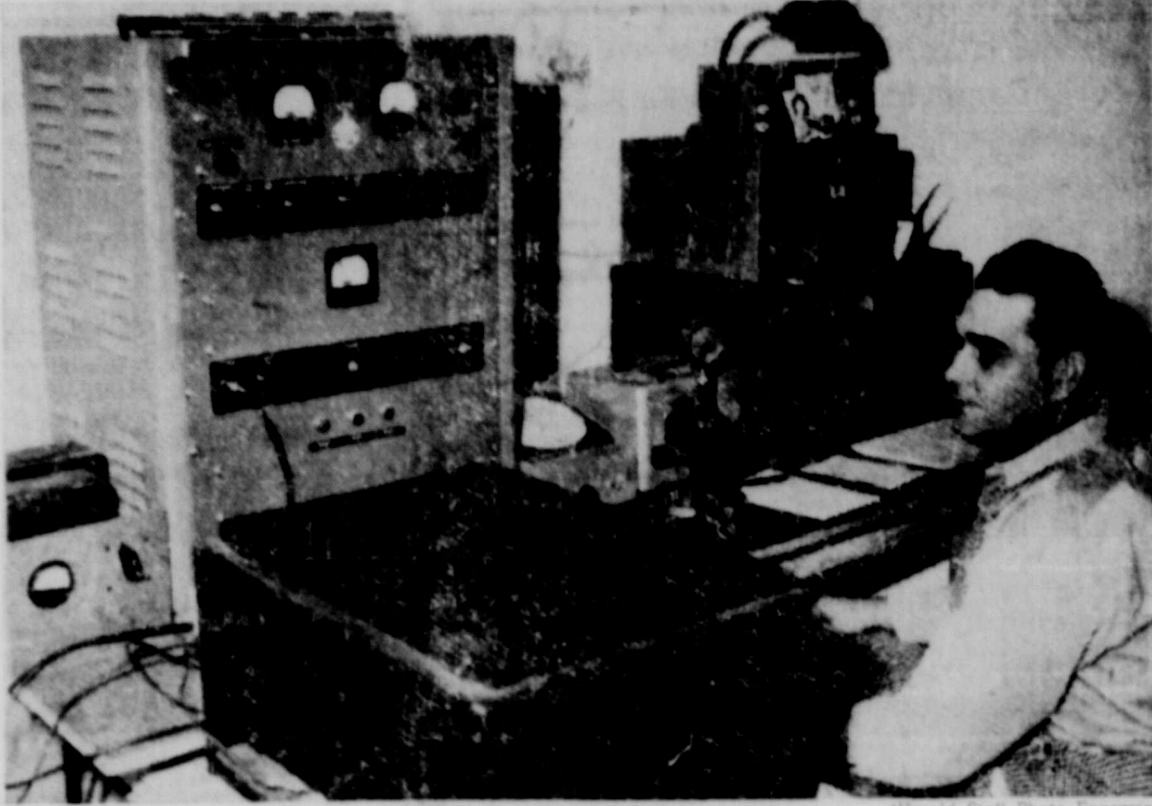

Dear editor:
I read in a newspaper which fell out of an airplane which passed over my farm yesterday, it's about time I was getting something for the use of the air above my place. I know I didn't put the air there but come about as close to do it as oilmen did putting oil under the ground or deer hunters did putting deer in the woods and if any of us can cash in on such things I'm in favor of it, where Louis Bromfield, the celebrated writer who farms, said the other day that higher efficiency in farming will solve all our agricultural ills.

Being a farmer who writes instead of a writer who farms, I don't like to disagree with such an expert, but as far as I'm concerned higher efficiency is one of the worse ways on earth of solving farm problems.

You take the average efficient man, don't make no difference whether he's a farmer or a banker or a business man, and put him in charge and turn him loose out here on my farm and he'll improve it or make a physical wreck out of me tryin'. When most people talk about efficiency, they mean a lot of hard work for somebody else. I know without being told that bindweed in a crop of wheat ain't no efficient way to grow wheat, but I know that it would take to get rid of the weed and that's where me and efficiency lose interest in each other. Gettin' rid of bindweed by plowin' or saltin' or sprayin' is efficiency, all right, but it blame sure don't solve no ills, as far as I'm concerned.

Likewise, an efficient farmer wouldn't have no broken down, patched up fences, but since I'm aware of what it takes to get a new fence out here, you don't just go to the back door and order one and go back to your

Suit for South Atlantic

DES MOINES (AP)—A Scot on lonely Tristan da Cunha Island in the south Atlantic will soon be the best dressed man on the island, thanks to a Iowa utilities executive and an Iowa banker.

Last December the cruise ship Caronia anchored off the island, sometimes called the "world's loneliest outpost." Ben Webster, Des Moines secretary of the Iowa Utilities Association, was one of the few passengers who risked the rough trip ashore in one of the small boats in which the islanders rowed out to meet the ship. Webster's "native" roommate, William Gordon Glass, confided the thing he wanted most in the world was a new suit of clothes. This Webster promised to send.

Back in Des Moines, Webster sized up Albert Robertson, first vice-president of the Iowa-Des Moines National Bank and Trust Company. Webster knew he had

Suit for South Atlantic

the problem solved. "Got an extra suit?" Webster asked the medium-built banker.

Hence when William Gordon Glass opens his soon-to-arrive package on tiny Tristan da Cunha Island, he'll find a suit to fit.

When Napoleon was exiled to St. Helena 135 years ago, a British garrison was stationed on Tristan da Cunha. After a year's duty the troops were withdrawn. But seven of the garrison, mostly Scots, elected to remain. The island's 259 present inhabitants answer to just seven names and are descendants of those seven soldiers and their imported wives. It's a good bet that none of them ever had such a conservative suit before.

Perryton Audience Acclaims Dimitry Markevitch, Celloist

By M. C. Genuchi

An artist, and truly a great one, was in our midst last Thursday night when the North Plains Mutual Concert Association presented its second concert of the season at the High School Auditorium. Dimitry Markevitch was his name and the cello his tool of creative art.

There are two prime requisites for greatness in the fine art of music—complete sensitivity to the message and the technical facility for making this message understood by the listeners. This, Markevitch did throughout his entire concert.

In all phases of the music which he presented, he was always the master of the music and the instrument; always with his eyes closed as if in deep concentration, his face mirrored the emotional tumult within him; from the soul of the great cello poured the soul of the man. This is true artistry. No man is capable of perfection, and no musician can ever hope to attain it. This young man has almost reached the pinnacle of near-perfection that is man's greatest objective.

In an after-the-concert interview with Markevitch, we found him to be very casual and friendly. There was much for him to tell about places in Europe where he had concertized, personalities here and abroad whom

he knew and was affiliated with, about the great cello which was given him by a Parisian couple and which has been valued at more than \$18,000, and about his army career here in the United States. It will not be the privilege of the people in this Panhandle area to hear another artist of Markevitch's stature again soon; we who heard it were more than thrilled that it was made available for us.

Syrians to Spread Arabic

KARACHI, Pakistan (AP)—The Syrian minister in Pakistan, Syed Omar Bahaudin El-Amiri, has pledged his country's support to spread the Arabic language in Pakistan.

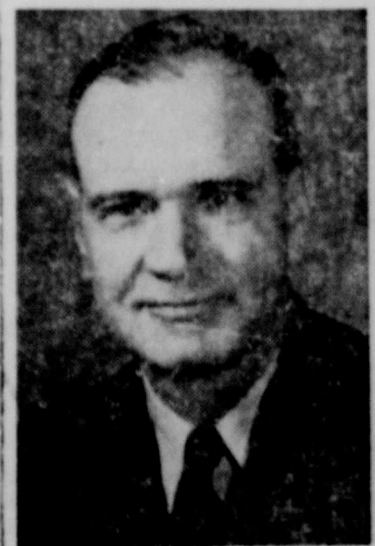

He announced plans to open Arabic reading centers in Karachi and to obtain Arabic books from Damascus to popularize the language in Pakistan.

Romance in Red China

SAN FRANCISCO (AP)—"Boy meets girl" was a theme which the old China discouraged in favor of arranged marriages. In Red China it's different.

"Young men and women who fall in love should be encouraged to cultivate their friendship and affection on the basis of work, study, and common revolutionary ideals," declared Teng Ying-ehao, vice-president of the All-China Democratic Women's Federation, according to a broadcast by the Peking (Peiping) radio.

FFA JUDGING TEAM—Members of the Balke FFA crop judging team which won first place in 4-state contests at Goodwell, Okla. are pictured above. They are (l to r) Ivan Giff, Bennie and Buddy Harris. Harris won the second place outstanding individual award at the event and Giff first in the crop judging contest.

Balke FFA Chapter Wins Top Judging Honors at PAMC

The Balke high school FFA chapter won the trophy for the second consecutive year along with numerous other team and individual honors at the third annual FFA judging contests held Nov. 11 on the campus of Panhandle A. & M. College at Goodwell, Okla. The future farmer chapter representing four states entered in the contests. Winning the team trophy for the second consecutive year ends the Balke chapter to remain in permanent possession of the giant trophy. The Balke chapter barely tossed out Wood-ward, winners in 1948, for the top honor. The chapter honors included first in crop judging and meat judging. Among the individual honors earned by members of the Balke chapter was second place as outstanding over-all individual by Buddy Harris. Darrell Kerns placed third in the meat judging competition. In the crop judging contest Kerns placed first, Benny Kerns placed third, and Ivan Giff received eighth place. Darrell Kerns placed second in the meat judging contest.

It's a Strong Will

EDINBURGH, Scotland (AP)—Can a husband's will bar his widow from "any association whatever" with other men after his death?

A Scottish court had that question tossed into its lap today by Mrs. Stella Beaton, widow of a wealthy coal exporter. \$187,600 hangs on the answer.

The will of Mrs. Beaton's husband, Alexander, says the money must go to charity unless she "remains true to my memory and does not marry again nor have any association whatever with any other man."

However, five brothers and sisters of the dead man want to share a big hunk of the estate. Mrs. Beaton wants it all. She hasn't married again, the court was told, and she hasn't "had any association with any other man to which criticism could be directed."

But she thinks the "any association whatever" part is void because it's "contrary to public policy."

The court reserved decision. Marshal Stone and Twyla, Mrs. Aaron Diehl, Mrs. F. A. Talley and Miss Wanda Jean Eisman spent the week end in Dallas and Fort Worth, visiting with Mrs. Zora Stone and Mr. and Mrs. Johnnie Burt.

Former Resident Of Darrouzett Killed in Crash

DARROUZETT—Mrs. Katherine E. Mattison, daughter of Mr. and Mrs. George Schoenhals, Sr., of Follett, and her husband, Roy Mattison of New Braunfels were killed in a two-car collision near New Braunfels Nov. 12.

Mr. and Mrs. Mattison and a friend, Miss McCullough, were in one car, and the other was occupied only by the driver. The driver of the other car and Miss McCullough were killed instantly. Mr. Mattison died at 10 p. m. Nov. 12 and Mrs. Mattison died six hours later.

Mr. and Mrs. Mattison were en route to San Antonio to visit Mrs. Mattison's brother, Bill Schoenhals, who is stationed at Lackland Air Force Base.

Obituary

Katherine E. Mattison was born on a farm near Darrouzett, Texas on Oct. 20, 1925. She started school at the Flaming School and was graduated from Darrouzett high school in 1945 as valedictorian of her class.

She completed a business course at Draughts business college in Dallas where she was later employed.

She was united in marriage with Roy Gene Mattison of Dallas on January 9, 1948. They lived for a time in New Mexico and Arizona returning to Dallas last year. Mrs. Mattison was employed at Air Associate at the time of her death.

Besides her parents she is survived by three sisters, Mrs. Roy Herbel of Booker, Mrs. Sam Bruntz of Bazine, Kansas and Ruth Schoenhals of the home; four brothers, Henry and George of Darrouzett, Bill of the U. S. Air Force and Sam of the home, and a half-brother, Carl Miller of Sterling, Colo.

Roy Gene Mattison, son of F. F. Mattison of Como, Texas, was born on April 24, 1927 at Como. He entered the military service in April 1945 and served during the Nuremberg trials in Germany. He was discharged in 1947 moving to Dallas where he found employment. He was married to Katherine Schoenhals on January 9, 1948, and at the time of his death was employed at Allied Products Co.

Hereford Wins Coin Flip; Will Represent 1-A

Hereford won the right to represent District 1-A in the state class A football championship playoffs by a flip of a coin at the district meeting held Saturday in Amarillo.

A three-way tie for first place in the district between Hereford, Dalhart and Phillips was decided at the meeting. Robert Veigel, a member of the Hereford school board, flipped tails while Phillips superintendent Lee Johnson and Dalhart coach Gene Sunder-

man both tossed heads. The odd man won.

Hereford and Shamrock, winner of district 2-A, will play Friday afternoon at Pampa to determine the bi-district winner. Game time will be 2:30 o'clock.

This is the second consecutive year that the district has had

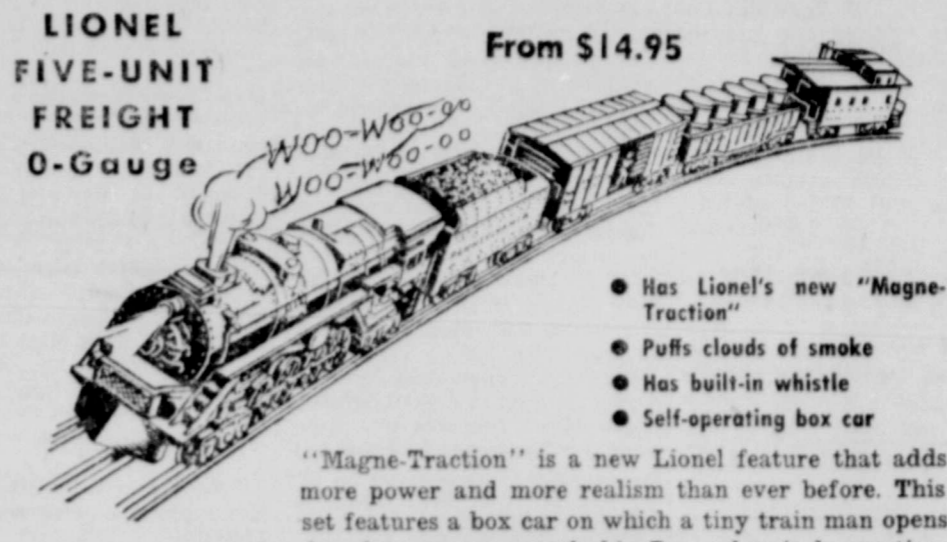

three teams as co-champion. Last year it was Dalhart, Phillips and Canyon, with Phillips winning the toss. The Hawks were beaten by Lefors in the bi-district tilt.

The Whitefaces, who started the season with excellent prospects, lost two of their first three

games, then won six of the next seven, including a decisive 35-9 win over Phillips two weeks ago. They have lost to McLean, Leveland and Dalhart.

There were 20 players on a side when Yale played its first intercollegiate football game against Columbia in 1872.

'Operation Democracy' Will be Held in Texas on December 7

"Fires of Freedom" will burn brightly in more than 600 Texas communities on the night of Thursday, December 7, as the climax of the one-day series of programs of "Operation Democracy," the campaign sponsored by the state's 777 American Legion posts to keep the fires of freedom burning forever in the hearts and minds of Texans.

In Austin at 7 p. m., Governor Allan Shivers will light the first fire that will be the signal for the simultaneous state-wide ceremonies, Bill Elkins of Killen, state Legion Commander, has announced. The Austin "Fire of Freedom" will be set off on the Capitol grounds.

"Casting a glow over much of the Texas sky, the simultaneous burning of 600 lights of liberty across the state will shine as a beacon of America's hope to penetrate the darkness behind the iron curtain," the Commander

aid in his announcement. Secretary of State John Ben Shivers, originator of the successful Legion-sponsored "Democracy Beats Communism Day" last year, predicted that three million Texans will join with the American Legion in this phase of "Operation Democracy," a four-fold program emphasizing Democracy's strength through religion, education, civic duty and citizenship.

On the night of December 6, the program will be launched by thousands of church-goers as Texas pastors, priests and rabbis share the conviction that faith in Democracy are irrevocably linked if fires of freedom are to be rekindled throughout the world.

Breakfasts sponsored by local American Legion posts begin the "Operation Democracy" timetable on December 7. They will be followed by a meeting of the women of each community to discuss "Democracy's Concerns"; "Operation Heritage" for student participation; a noon luncheon of business men to honor local, county and state officials; and a public meeting on education.

Then at 7 o'clock the "Fire of Freedom" will be ignited across the length and breadth of the state to blaze their way into the consciousness of the people the importance of actively participating in government affairs. Speakers to be selected in each community will touch off the fires.

Shepherd, State Chairman of the Legion's Americanism Committee, previously had announced that Governor Allan Shivers will make a state-wide radio address on December 7.

News From ANTHONY

By Mrs. Cari Carter

Beaver county teachers had a vacation the first of the week and many visits were made.

Several from this neighborhood attended the safflower dinner and meeting at Perryton Wednesday evening. All enjoyed the dinner very much and expressed much enthusiasm on the prospects for a new crop in this country. Those attending were Mr. and Mrs. Leon Morris, La Vern Davis, Mr. and Mrs. Carl Carter and Leslie Bobbitt.

Mr. and Mrs. Glen Myers and family returned Wednesday evening from a trip to Carlsbad, N. M., to visit with Mrs. Myers sister and family, Mr. and Mrs. Blitch. The two families drove on to El Paso and Juarez, Mexico during the week end.

Mrs. Cari Carter attended the McLanahan funeral in Perryton Thursday.

Members of the first and second grades in the Turpin schools had their first chapel program under the direction of Mrs. Smith on Thursday evening. Those from our community were Janet and Myrtell Bobbitt, Patsy and Kay Myers, Duane Ratzlaff, and Judy Morris. Mrs. Leon Morris and Mrs. LaVern Davis presented a comedy skit, "One Born Every Minute."

Attending a fellowship meeting of the Christian church in the Beaver school auditorium Thursday evening were Leon Morris, Carl Carter and Howard Carter. The luncheon was served in the school cafeteria after all had enjoyed motion pictures taken by Rev. Barr of the Beaver homecoming football game. The football team and coach were guests of the church men.

Friday evening was Thanksgiving night for members of the Ladies Friendly Neighbor club their families and friends. A bountiful Thanksgiving supper was enjoyed at 6:30, and at 7:30 a short program of home talent was presented. Members of twenty-three families attended.

Mr. and Mrs. Wayne Wilson are happy to announce the arrival of a baby boy. The youngster arrived Friday morning at the Beaver hospital and has been named Skipper Bill.

AT BOYS RANCH—Donnie Tubbs, 10, of Lubbock, is telling his pet burro that he had better be good from now until December 25th if he wants Santa Claus to treat him right at Christmas. Donnie has a roller skate proposition for Santa.

Boys Ranch Youngsters Look Forward to Christmas Holidays

Each of the 132 boys at the famous Boys Ranch near Amarillo, Texas, is eagerly looking forward to the Christmas holidays. To a few of the boys, it means a chance to go home to visit families, relatives and friends.

To the boys who have no home, to go to, it means a big Christmas party at the Ranch, complete with free gifts, and turkey dinner. It will also mean a few special privileges for the day.

For many of the boys, it will be their first real Christmas. Never before have they had the chance to enjoy the holidays with a family or to know the fun of opening presents on Christmas morning.

It is planned to give each boy a Christmas box containing two pair of levis, one pair of dress shoes, two plaid shirts, two pair

of heavy socks, two pair of dress socks, two suits of underwear, a box of candy, and an appropriate gift. The box will also contain essentials such as a comb, a toothbrush, and tooth paste.

Many of the younger boys plan to ask Santa Claus for roller skates as there is now plenty of space available for skating. The boys themselves have poured over 1000 feet of concrete sidewalks between the Ranch buildings which offer good surfaces for roller skating.

Of course, there are other gifts on the list of requests, including the inevitable BB guns, bicycles, games, and marbles.

As each week passes, the excitement grows, and the staff and directors are working to see that all the boys at Boys Ranch have a truly Merry Christmas.

The Beaver Duster football team took the worst beating of the season Friday night from the Guyton team. The team had made a good showing the rest of the season and it was disappointing but maybe they can take it away from Guyton next year.

Turpin chalked up another basketball victory over the Baker school Friday evening. Miss Patricia Owens of Beaver spent Saturday evening and Sunday with Cleta Carter.

Warden Faces Bare Facts

NORTH BAY, Ont. (AP)—It takes courage and presence of mind to make good as a game warden. Joe Carswell, RCAF veteran who is now a game warden, has both.

On a routine patrol near a lake, he found himself confronted by a pair of sneakers and a pair of spectacles, with nothing but man in between. The man berated Joe for charging in on a nudist camp. The young warden was then aware of other naked bodies among the trees.

A blonde young woman emerged from the lake, attired only in a daring pair of running shoes, and started towards them, and Joe thought it time to call a halt.

"Listen you," he said, "I'm here legally I'm a game warden. If you people lived like other folks, you wouldn't worry about anyone walking in on you." With that, he made a dignified exit, looking back to see that they weren't making a fire without a permit, of course.

J. D. Westfall, band director, and two students, Ruth Frank and Rheta Faye Cates left Sunday to attend a band clinic at Panhandle A. & M. College in Goodwell. Willie Patrick substituted in the seventh and eighth grades during Mr. Westfall's absence.

Mrs. Isabella Jackson left Saturday to attend a Thanksgiving dinner and family reunion at the home of her sister, Mrs. Hazel Cann, in Oregon, Illinois. A brother, Carl Tilton and wife who live in Beaver, will also attend the reunion.

Mrs. Jackson will visit her daughter, Mrs. Ruth Seibert, who also lives in Oregon, Ill.

Students in the Balko school enjoyed an old-fashioned Thanksgiving dinner Wednesday in the school lunch room. The menu consisted of turkey, dressing, giblet gravy, cranberry sauce, Jell-o and carrot salad, mashed potatoes and dice cream.

Mrs. Luella Denny of Beaver is visiting in the home of Grandma Humphrey and Neil Beatty this week.

Mr. and Mrs. Raymond Jackson and children, Clifford, Marvin and Kay will spend Thanksgiving Day in the home of their uncle and aunt, Mr. and Mrs. C. Berry of Woodward, Okla.

A week end guest in the home of Mr. and Mrs. Bob Duff was Mrs. Fred Herscher of Hennessey, Okla. Mr. Herscher and Dorothy were Sunday visitors in the Duff home and Mrs. Herscher returned home with them.

Mrs. Noel Keith of Gray, Okla. underwent surgery at the Scott and White Hospital at Temple, Texas last week. Her condition is reported as satisfactory, and Mrs. Keith is expected to return home next week.

Among those from Balko attending the Nebraska-Oklahoma University Football game Saturday were Supt. D. L. Boyer, Gerald Kerns, Billy Kerns, and Ray Hogen.

Cost of Alaska, purchased by the U. S. from Russia in 1867, was about two cents an acre.

Thanksgiving Day Services Set by Christian Science

Thanksgiving Day services will be held Thursday at the Christian Science Church, 7th and Colgate, in keeping with the services that are held each year by the Mother Church, the First Church of Christ, Scientist, in Boston, and its branches throughout the world.

The order of services includes the reading of a Lesson-Sermon on the topic of "Thanksgiving," and opportunity is afforded for testimonies of gratitude to be expressed to the occasion.

The public is cordially invited to attend these services. The Golden Text is: "Oh that men would praise the Lord for his goodness, and for his wonderful works to the children of men! And let them sacrifice the sacrifices of thanksgiving, and declare his works with rejoicing" (Psalms 107:21,22).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Bring ye all the tithes into the storehouse, that there may be meat in mine house, and prove me now herewith, saith the Lord of hosts, if I will not open you the windows of heaven, and pour you out a blessing, that there shall not be room enough to receive it" (Malachi 3:10).

The Lesson-Sermon includes the following from the Christian Science book, "Science and Health with Key to the Scriptures" by Baker Eddy: "To those on the sustenance of life is big with blessings" (VII).

Leningrad Boasts Largest Stadium

Newsfeatures
MOSCOW—The largest stadium in the USSR is located not in Moscow, the Soviet capital, but in Leningrad.

The Kirov Stadium in the northern city seats 85,000 persons. For special events there is standing space for an additional 35,000.

This capacity is well above that of the Moscow Dynamo Stadium. The Soviet capital does not intend to lag behind Leningrad for long however, for plans are under way to expand the Moscow Dynamo Stadium and to complete another immense stadium of equal capacity.

The Leningrad stadium was started in 1933. The body of its structure consists of earthworks raised by the builders. The surface works are, of course, all of concrete.

The stadium is surrounded by the Finnish Gulf on three sides. It rises above the level of the island and from its top there is a magnificent view.

The stadium is complete for all types of sport events. It has a football field and a regulation track. It has a pool for swimming competitions and even a hotel with complete accommodations for visiting athletes.

Radio Really Used in North

YELLOWKNIFE, N. W. T.—This is the country where radio men deliver babies by remote control, and bears may be shot from the window of the transmitter station. At the big 30,000 watt station of the Canadian Army Signal Corps at Yellowknife, key station in the army's northern network, they hardly bother mentioning happenings such as these. It's old stuff for northern radio men.

The radio network is called upon to turn its skilled hands to everything from delivering messages to delivering babies. Among its important tasks is a daily report on weather conditions in the Mackenzie river valley, the "cradle" of North American weather. This report is relayed to Washington, D. C., where it is a key factor in making up continental forecasts.

Radio reception in the north country is exceptional, the army men report. On one occasion they had a complaint from Philadelphia because a small set used here was interfering with Philadelphia police radio. The transmission traveled a couple of thousand miles in spite of the fact it was not supposed to be powerful enough to be heard over the horizon.

The number of horses and mules in the U. S. has fallen from 21,431,000 in 1915 to nearly 10,000,000 today. In about the same period tractors have increased from a thousand to around 3,000,000.

Government Statisticians Estimate that the Rat Population of the U. S. is at Least 140,000,000, about Equally Divided between Farm and City.

"Laghorn" hats are named after the Italian port of Laghorn through which they are shipped. But the hats actually are produced in Fiesole, a suburb of inland Florence.

Government statisticians estimate that the rat population of the U. S. is at least 140,000,000, about equally divided between farm and city.

Crenshaw Rites Held Tuesday At Shamrock

Funeral services for Edward Crenshaw, 33-year-old Perryton painter, were held Tuesday afternoon in the First Methodist church at Shamrock cemetery.

Mr. Crenshaw suffered fatal injuries when the truck he was driving overturned on the Pampa highway two miles west of Skellytown early Sunday morning. He died in North Plains Hospital in Borger Sunday afternoon.

A native of River Rouge, Mich., he came to Borger in 1948 and lived there a year before moving to Perryton. He was associated with Roscoe Nelson in the painting business in Perryton.

Survivors include the wife; a son, Eddie B. Crenshaw, 6, and his parents, who live at River Rouge.

Christmas is still celebrated on January 6, the ages-old Twelfth Night, by residents of Rodanthie, small village on Hatteras Island off North Carolina.

was taken from this vault, most of it money which students had paid on their school pictures.

Fortunately, the \$217 receipts from the senior play that night had been taken home by Frank H. Smith and was not placed in any of the vaults.

Damage was heavy to the building, especially the vaults. The wall was damaged around the vault in the superintendent's office, and both vault doors will have to be replaced.

The burglar evidently used a heavy bar or some strong men in their efforts. The steel facing around the vault door was more than a quarter-inch thick, yet was ripped loose and bent straight out from the wall.

Sheriff Ray Phagan was called at 7:15 o'clock Tuesday morning, about 15 minutes after custodian Oliver King had discovered the burglary and reported it to Supt. Mize. Phagan said that two good fingerprints were found, but outside of that, the clues were few.

The local job resembled a burglary at the Borger school this week, and officers believe there may be some connection.

Christmas Cards Made Appearance In England Over Hundred Years Ago

When William Maw Egley, the engraver's apprentice, created the first Christmas Card in a London garret in 1842, he had no inkling that just a little over 100 years later one and a half billion Christmas Cards would be exchanged in the United States alone.

This means that nearly 50 billion Christmas Cards will be mailed every day in the period between Thanksgiving and Christmas Eve, 1950.

Strangely enough, the Christmas Card idea was not very well received when it was introduced to the English people back in 1842. In fact, the traditional exchange of holiday greetings did not become popular at all until the 1860's and it was not until 1875 that the first American Christmas Cards were offered to the public by Louis Prang, the lithographer, craftsman of Roxbury, Mass.

Since 1875, the sending of Christmas Cards has become a vital part of the annual Christmas celebration to a point where over 25,000 different designs were created this year to meet the demand for Christmas Cards of every description.

Recently, The National Association of Greeting Card Publishers made a survey of representative Christmas Card lines for 1950 and came up with some interesting conclusions.

First they found that the traditional Christmas symbols are far and away the most popular. For instance, the five leading design motifs, Holly and Peppercorn, Winter Scenes, Bold Merry Christmas Titles, Christmas Carols illustrations and Santa Claus himself, clearly show that when remembering friends and loved ones Mr. and Mrs. America have

a decided preference for the Christmas symbols which carry their greetings in a simple direct manner.

Second, the survey revealed a tremendous upsurge in the popularity of truly reverent Christmas Cards. Historically, Christmas Cards carrying scenes reflecting the true spirit of the Holy Season were not introduced until many years after the first Christmas Card was created. And for a long time, the so-called religious Christmas Greetings were used by a very limited number of people. In recent years, however, paralleling the general upsurge in religious activity, the Association's survey shows that to meet the growing demand for Christmas Cards portraying the Biblical narrative of the first Christmas, nearly 300 million religious Christmas greetings have been produced for the coming holiday season.

The third result from the survey was the evidence of an entirely new trend in what might be termed novelty and whimsical Christmas Cards. The Christmas Card designers have vied with one another to come up with Christmas Card creations that sometimes border on the fantastic. Such new ideas as cards with sound effects, movable gadgets and special construction to permit hanging on Christmas trees bring a refreshing new note to the 1950 Christmas Card picture.

A fourth highlight of the survey showed that folks who wish to select just the right card for friends or relatives will have a much greater choice this year.

It used to be that the "special title" classification was limited to members of the family such as Mother, Sister, Father and so on but now demand from Christmas Card senders has widened the variety of special purpose cards to include "Merry Christmas to the Boss," to the Milkman, to your Doctor, to the Postman and even to Mother-in-law. Her card reads: "Merry Christmas to the Mother of the One I Love the Best."

Remodeling City Hall Scheduled

The city council voted Tuesday night to remodel the city hall interior, with local contractor Clyde Cofer doing the work.

It is planned to lay an asbestos tile floor, paint the walls, and lower the ceiling. The rear portion of the hall will be remodeled for a council meeting room, and the interior will be furnished.

Once again we face Thanksgiving with gratitude for His favor in bestowing on us the blessings of democracy and all the fruits this fertile tree bears. But now, as our forefathers three hundred years ago, we are aware of the need for protecting His gift against forces of evil that threaten to drag these works down into the lowest depths of tyranny. Again we are faced with the stern reality that "vigilance is the price of liberty."

County Home Demonstration Clubs Entertain Families At Annual Recreation Night Saturday at High School

Ochiltree County Home Demonstration club members and 4-H club girls entertained their husbands and parents at a dinner and program Saturday night. The dinner was prepared by the club members and served to their families in the high school cafeteria at 7 o'clock. Tables were beautifully decorated to represent each of the twelve months and guests were seated at the table corresponding with their wedding anniversary. Following the dinner a program was presented in the high school auditorium with Mrs. Faye Savage, county home demonstration recreation chairman, as mistress of ceremonies. The county home demonstration chorus, directed by Mrs. Byron Tevis of the Modern Priscillas club and accompanied by Mrs. O. J. Crain of the Black club, sang three selections including "Ochiltree," "Let's Go to Church on Sunday," and "Put On an Old Pair of Shoes." The chorus has trained over a long period and received an enthusiastic response from the audience. J. H. Kershaw exhibited motion pictures which he has made locally and also showed motion pictures of the annual celebration rodeo and parade made by Dean Conner. A black-face number was presented by George Yates and Mrs. Faye Savage of the Notla club sang, "We're on the 4-H Trail, "Dreaming," and "I'm Looking Over a 4-H Clover." Highlight of the program was the presentation of the 1950 4-H awards to all county 4-H winners. Corrine Flowers, daughter of Mr. and Mrs. Travis Flowers, received the gold star award for the most outstanding, all-around club work in the county. Other awards went to Mary Anita Selby, daughter of Mr. and Mrs. Charles Selby, for representing Ochiltree county in the State 4-H dress revue held at College Station in June. Also receiving dress revue awards were Dorothy Nell Portwood, Wanda Jo White, Mary Hummer, and Corrine Flowers. Other awards were received by Betty Witt, daughter of Mr. and Mrs. Garnet Witt, canning; Virginia Cook, daughter of Mr. and Mrs. J. O. Cook, achievement award; and Dixie McGarrah, daughter of Mr. and Mrs. L. McGarrah, baking. Dixie won first in the county baking contest and placed second in the district competition. Mary Watson Jones, county home demonstration agent, presented the awards assisted by Mrs. Virlie Faries, one of the 4-H club leaders.

Oletha Newman and Winston Britton Exchange Vows In Home Ceremony

The wedding of Miss Oletha Newman and Winston Britton was solemnized Saturday, November 8, at 3 p. m. in the home of the bride's parents, 11 miles west of Perryton, Mr. and Mrs. R. F. Newman are the bride's parents, and Mr. and Mrs. W. K. Britton of Olton, Texas, are the parents of the groom.

Rev. M. W. Smith of Oklahoma City read the ceremony. The wedding music was presented by Mrs. James Hardy, and "I Love You Truly" was sung by Mrs. Frank Gipson and Mrs. Virlie Faries preceding the ceremony. The vows were exchanged before an improvised altar decorated with two baskets of yellow chrysanthemums with fern.

The bride chose a two piece dress of champagne satin, styled with a v-neckline, fitted bodice with small covered buttons down the front and three quarter length sleeves. The full skirt of nylon net over satin with satin applique was ballerina length. Her shoulder length veil was attached to a crown of pearlized orange blossoms. She carried a white Bible with red roses. Ellen Newman, maid-of-honor wore a street length blue satin dress with black accessories. Mrs. Newman, mother of the bride, wore a dress of navy blue crepe, with black accessories and a corsage of white carnations. Mrs. Britton, mother of the groom, wore a black crepe dress, black accessories and a corsage of white carnations. Byrl Hardy served as best man.

A reception was held, immediately following the ceremony. The bride's table was laid with a lace tablecloth and the two-tiered wedding cake centered the table. When the couple left for their wedding trip, the bride wore a light brown suit with hat to match, and black purse and shoes. The couple will be at home in Olton, Texas. Judge Light
Of Liberal
Dies Nov. 16

Judge G. L. Light, 64, president of Kansas State Bar association and long-time civic leader here, died Nov. 16 in Epworth hospital after about two weeks' serious illness.

He is survived by his wife and three children, Auburn G. of the firm Light & Light, Mrs. Veva Ramskill, Burlingame, and Mrs. June Lank, Baton Rouge, La., and a sister at Kismet, Mrs. Harry Lepper.

George Laverne Light was born on a farm near Bowling Green, Ohio, March 17, 1886. With his parents he moved to Kingman county. He attended the schools in Kingman and Barbe counties and Kansas State Normal at Emporia. Later he taught school in Barber county and when the Light family, moved to Seward county, he taught schools from

1909 to 1912. In 1912, he was elected clerk of Seward county District court. It was in this office that he started to study law. In 1916 he was admitted to the bar, and immediately became a candidate for county attorney and was elected in November 1916. After serving two terms as county attorney, he returned to private practice in 1921. Attorney Light was a tireless worker in his profession and early in life was recognized as an able attorney.

In 1925 Gov. Ben Paulsen appointed him first judge of the newly created 39th judicial district of Kansas. He served on the bench four years and retired to private practice. He was a charter member and past president of the Seward County Bar association and Southwest Kansas Bar and a member of the Kansas State Bar since 1917. He was also a charter member of Kansas District Judges association and a member of the American Bar association.

A charter member of the Liberal Chamber of Commerce, he served on the board of directors for more than 20 years and gave much of his time and talent to civic affairs. He was a charter member of the Lions club and the first president of that club. During World War I he served as governmental appeal agent of the draft board. For the last ten years he was director of Kansas Crippled Children's Society for District 10—SW Daily Times.

These Are Lonesome Days for
The Texas Used Car Dealer

By EDD ROUIT
Associated Press Staff
These are sad days for Texas used car dealers. Most are swearing, some have quit the business and others pray that Regulation "W" will be repealed. Only some who deal in jalaps express satisfaction. It's the same story over the nation. Regulation "W," set up by the board of governors of the federal reserve system to keep down credit buying, requires that a person pay one-third down on a car and the rest in 15 months.

"My customers can't pay one-third down on a car and even if they could they wouldn't be able to pay it out in 15 months," L. P. Penson, a big, red-faced second-hand dealer in Dallas said. "It looks like I'll just have to close the gates."

But another Dallas dealer, Dave Tharp, deals in cars 10 years old or older, and gives another view: "The big boys are hollering. But my business is as good or better than ever. My cars are junkers and don't sell for much anyway. They cost me more now, but I just add it on to the customer's price. And I've always charged more than a third down and given the customer less than 15 months to pay the balance."

This month the national association of used-car dealers met in the north Texas city to talk about regulation "W." Collectively, they said sales were off 50 to 75 per cent. A survey of the market in Texas shows:
1. The price of old cars (pre World War II) is up from \$25 to \$100. New car dealers have boosted slightly, the prices they charge used car dealers obtain as trade-ins.
2. New car dealers have lowered, fractionally, the prices of 1948-50 trade-ins they sell to used car dealers.
3. Because the new car dealer isn't selling as many new cars, he hasn't as many trade-ins to sell used car dealers.
4. The demand for the old jalaps has increased since Regulation "W" went into effect in September. The used car association

Where's the money coming from?
"Oh, war plants, new jobs, and so on. There'll be plenty of money soon and people can make these big down payments and monthly installments," he explained.
Dave Karlen, late-model dealer said he may be able to survive the new credit rule.
"I own my own lot, and finance many of my sales. But most Texas dealers have to pay high rent and many of them have to floor-board their cars (floor-board in the used car business means to borrow money to buy a car).
Sometimes the interest runs pretty high. The dealer has got to move the car or have it eaten up by interest, Karlen explained.
"I used to wholesale a lot of used cars out in the state, but that phase of my business is gone too. I can't find the cars to sell."
Little Miss Thomasene Swink spent Thursday night with her grandparents, Mr. and Mrs. L. L. Swink of Perryton.

Skeleton Saff at Work
SYDNEY (AP)—A party from Melbourne University has found ancient burial grounds of Australian aborigines in the northern part of South Australia State.
Five-hundred skeletons found at one point were estimated to be up to 900 years old.
The skulls varied considerably over the years. The most primitive type apparently belonged to a particularly ugly race, said P. Staughton, an anthropologist and a member of the group.
Staughton said many skulls showed wounds of tribal battles, others had been crushed by clubs and stone tomahawks. He explained it was an aboriginal custom to bash the heads of the dead to a burial to disperse the spirit.

Rangers Finish Winless Season by Taking 53-6 Shellacking from Phillips Blackhawks

The Rangers finished their 1950 football season Friday night by taking a 53-6 shellacking from the Phillips Blackhawks. This was the tenth loss of the current season, and the Rangers have now gone 22 games without a victory.

The game was one-sided Friday night, and the only consolation for the Rangers was that they were able to score in the third quarter against the Phillips regulars. Coach Chesty Walker played his first team all of the first half and half of the third quarter, then mixed in his reserves liberally during the final period.

This was the final game of their career for Mickey Huston, Ed Melvin, Bill Melvin, Alfred Carter, Jerry Johnson, Kenneth Slaughter and Raymond Vaughn.

Phillips opened the scoring quickly, making a touchdown on the second play from scrimmage,

when Buster Hodges broke over right guard from the Ranger 48, and went all the way to score. Wells' try for extra point was blocked.

The Hawks made it 13-0 soon afterward, with Hale scoring on an 8-yard plunge to cap a 39-yard scoring drive which ate up only seven plays. Bobby Wells added the extra point.

Wells scored the third touchdown in the first period by roaring over center for 21 yards to cap a 69-yard scoring drive. Wells' try for the extra point was no good.

Phillips added two more touchdowns in the second quarter, the first one a 25-yard gallop by James Reddick around left end, and the second a 3-yard quarterback sneak by Reddick. Wells added both extra points, and it was 33-0 at the half, with the Rangers having only a first down to show for their offensive efforts

in the half.

The second half scoring opened with a 26-yard scamper by Buster Hodges, and an extra point by Wells to make it 40-0, and then coach Walker eased up a bit, sending in his reserves.

The Rangers unleashed a passing attack following that touchdown which carried 62 yards and brought the only score for the Rangers. Starting on their own 38, Dietrich hit Mickey Huston with two passes which carried down to the Phillips 32. After a 2-yard loss on the ground, Dietrich flipped one to Jerry Johnson which went to the 4, and two plays later Dietrich plunged across for the score. The kick was no good, and Phillips led, 40-6.

The Hawks roared back from that one, driving 58 yards to score, with J. W. Waldepe making the touchdown on a 29-yard scamper. Wells again added the point, and it was 47-6.

In the final quarter, reserve halfback Stan Alexander broke over right tackle and went 37 yards for the final Phillips touchdown. The extra point kick was blocked by Gene McLain, and the score was 53-6.

Phillips had three touchdowns called back for penalties and were in complete control of the game except for the third period scoring drive.

Balko Cagers Win Double-Header Over Booker

BALCO—Balko basketball fans witnessed two thrill-packed games Saturday night when the Bison and Lassies defeated Booker in a double-header on the home court.

The girls' game, which ended 26 to 30 was nip and tuck with the score tied several times during the first half. During the third quarter the Booker girls failed to score, while Balko tossed in two neat goals and scored one free toss to gain a five-point margin. Booker came back in the fourth quarter to add a few baskets but were unable to overcome the Balko lead.

In their second encounter of the season, the Bison downed the Booker Kiowas 47 to 26. In the first quarter the Kiowas kept the Bison well under control but as the game progressed the Balko lads found the basket with Wilson, Duff and Neufeld leading the scoring parade.

Syracuse University's 1949 eleven set an Orange mark when it gained 1,300 yards via the passing route.

SPORTS AFIELD

By Ted Keating

How many times have you taken your gun from your shoulder and wondered how on earth you could have missed such an easy shot? It happens to all of us. So if we can eliminate the mystery and find out why and where we miss, the information should help us correct the fault the next time.

Now it's been said that shotgun shooting is not a sport but an art; that to hit a fast-flying bird requires such perfect timing and teamwork between mind, muscles and eyes that it must be classed as an art. Really, then, to miss is no mystery. When you miss an ordinary chance, one of many possible things upset your nerves and they didn't function on schedule.

Perhaps the greatest handicap a man has in field shooting is the desire to possess. You want that bird and a bubble comes up in your neck and your coordination goes haywire. So relax, and take stock of the situation.

When I go into a slump duck shooting I always find I am snap-shooting out ahead of my birds. No man can snap-shoot at long range effectively. I have to force myself to slow down.

Snapping an empty gun at game a few times will often pull a man out of a slump. Ray Holland furnished this trick and I have helped friends a number of times with the stunt. I put an empty shell in the friend's gun and hand it to him. He walks up to a pointing dog, flushes a single and snaps his gun at the flying bird. I take the gun and reload it again with the empty. I may tell him that one of these times it will have a loaded shell in it. When it does, he kills his bird.

Everyone has his bad days, and when you start missing, it will probably help you to snap a few empties. You don't need someone standing behind to give you a load when you don't expect it. And just remember, even the best of shooters miss occasionally. That's fine, for without the misses there would be no thrill in the hits.

RESOLUTIONS OF RESPECT

In memory of Val McLanahan who died November 14, 1950. Once again a Brother Mason, having completed the designs written for him on life's trestle board, has passed through the portals of Eternity and entered the Grand Lodge of the New Jerusalem and hath received as his reward, the white stone with the new name written thereon.

And Whereas, the all-wise and merciful Master of the universe has called from labor to refreshments our beloved and respected brother, and he having been a true and faithful member of our beloved Order, therefore be it Resolved, That Ochiltree Lodge No. 910, A. F. & A. M. of Perryton, Texas in testimony of her loss, be draped in mourning for thirty days, and that we tender to the family of our deceased brother our sincere condolence in their deep affliction, and that a copy of these resolutions be sent to the family.

Uses His Head To Enlarge Class

NORTH HOLLYWOOD, Calif. (AP)—The Rev. Geoffrey H. Royall promised his Church of the Nazarene flock he'd enlarge his Sunday school class, even if he had to stand on his head.

He did, too, on the church roof where everyone could see. It was effective, if unorthodox. Five hundred people turned out for

the event. There are only 300 in the regular class.

SPORTS

From the Grandstand . . .

By WILBUR MARTIN
Associated Press Staff

The resignation of Blair Cherry as football coach at the University of Texas is a sad commentary on sportsmanship.

The grandstand wolves help make his decision to get out of coaching is no secret.

Somebody has to lose, but it better not be you," he observed not too long ago.

Cherry's resignation—which he laid directly to the bark of the wolves—is the second in years that can be traced to the manager of the Dallas Eagles of the Texas League in 1949.

For the same reason, "It's not worth it," Adair said the time.

Cherry's wife said practically the same thing, when she learned of her husband's decision to take the calmer life of a business.

Perhaps the best comment came from Vernon Schuhardt, who holds the responsible position of chairman of the Athletic committee of the University of Texas.

"I wouldn't blame him if he did quit after that Oklahoma game," said Schuhardt before Cherry did announce his plans.

"If he does, they ought to get on those people that make it so hard for a coach to enjoy life."

Criticism of Cherry was sharp after Texas lost to Oklahoma 14-43, this season.

Sports—as the name implies—ceased to be sports sometime ago. Almost all fall in the category of big business at the moment. You can't operate a multi-million dollar athletic plant on pleasure.

Perhaps because sports now are big business, the fan feels he's entitled to his comment. He's paying a pretty stiff price to see the various events.

But he might be killing the goose that laid the golden egg, if he gets any pleasure from watching athletics.

Too many coaches, managers, and officials have reached the point where "it just isn't worth it."

LONGVIEW, Tex.—Fred Lawrence, Longview oilman, claims he is the No. 1 spectator in football-crazy Texas.

He is now following a four-month schedule that includes 40 games. He will have traveled more than 6,000 miles to see his favorite teams in action this year.

Gridiron double-headers are an old story for the East Texan.

He travels by air, train and automobile in order to fill the ambitious calendar which he starts mapping the minute the football schedules are released each spring.

He opened the 1950 season at the Cotton Bowl in Dallas where he saw the Washington Redskins play the Detroit Lions Aug. 30. A few days later he was in Shreveport, La., to see the Baltimore Colts-New York Yanks game. He returned to Dallas Sept. 3 for the Southern Methodist-Georgia Tech game, then hopped a train from Longview to Austin Sept. 30 to watch the daytime Texas-Purdue tilt. The minute that one ended, he grabbed a cab to the airport and boarded a plane for Houston to see Rice and Santa Clara battle.

Oct. 7 he was back in Shreveport for the Baylor-Mississippi State game and Oct. 14 went to Dallas to attend the Texas-Oklahoma game in the afternoon and the Southern Methodist-Oklahoma A. and M. tilt at night.

Oct. 21 he motored to College Station for the Texas Aggie-Texas Christian game, then drove on to Houston to see Southern Methodist play Rice at night.

He will watch a game each Saturday for the rest of the season. In December he'll watch the state high school play-offs.

He will wind up his season Jan. 1 by seeing the Cotton Bowl game in Dallas. Then he'll start planning for 1951.

ONLY BUICK HAS Dynaflo — AND WITH IT GOES:

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD front-end, taper-through fenders, "double bubble" tail-lights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

It would be easy to let the breath-taking power, the luxurious ride and the gleaming good looks of a Buick sweep you off your feet.

And once you've sampled the sweet response of Dynaflo Drive*—you feel a big lack in anything else.

But let's be practical about all this.

What does it cost to buy—and to own—this star performer?

The first answer is a look at delivered prices—and most people still are surprised to find that a car which offers so much actually costs so little.

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

That's true, whether you put the SPECIAL, the SUPER or the superb ROADMASTER against other cars of comparable dimensions. They certainly shine on a first-cost basis.

But this is only half the story, as you'll soon find out on any used-car lot.

Year in, year out, the resale prices of Buicks stay much closer to first cost than the prices of cars with lesser merit.

And among recent models, Buicks with

Dynaflo Drive command such a premium that you can almost figure you get this dream drive for free.

So why not let yourself go? Why not walk right into your Buick dealer's now and say, put me down for one of those!

There's no time like the present for showing your good judgment.

 "Ancient and Modern Necro-
 mancy, alias Mesmerism and
 Hypnotism, Denounced" is the
 subject of the Lesson-Sermon
 which will be read in all Church-
 es of Christ, Scientist, on Sun-
 day, November 26.
 The Golden Text is: "Watch
 ye, stand fast in the faith, quit
 you like men, be strong" (I Cor-
 inthians 16:13).

Among the citations which
 comprise the Lesson-Sermon is
 the following from the Bible:
 "And Jesus knew their thoughts
 and said unto them, Every king-
 dom divided against itself is
 brought to desolation; and every
 city or house divided against it-
 self shall not stand" (Matthew
 12:25).

The Lesson-Sermon also in-
 cludes the following passage
 from the Christian Science text-
 book, "Science and Health with
 Key to the Scriptures" by Mary
 Baker Eddy: "Jesus cast out evil
 and healed the sick, not only
 without drugs, but without hyp-
 notism, which is the reverse of
 ethical and pathological Truth-
 power" (page 185).

Now As Then

Today, as our forefathers did, we celebrate Thank-
 giving with a deep appreciation for His generosity.
 But now, as then, we are faced with the necessity of
 darkness that threaten to smother the light of liberty.
 Yet, with faith in Him we are certain that liberty
 will conquer, as it did then.

TWO FLAGS WEST—Lovely Linda Darnell and Jeff Chandler are two of the stars in "Two Flags West," the new motion picture which comes to the Ellis on Tues.-Thurs., Nov. 28-30. The story is a post-Civil War tale of Confederate veterans fighting for their rights in the West.

Epic of Confederate History Is Told In 'Two Flags West'

A star-studded cast brings to life the story of "Two Flags West," a historical adventure based on a little known irony of the Civil War. Linda Darnell, Joseph Cotten, Jeff Chandler and Cornel Wilde are the co-stars in the picture which comes to the Ellis on Tues.-Thurs., Nov. 28-30.

The story centers on Confederate Colonel Clay Tucker, played by Joseph Cotten, who has accepted the amnesty offer of Northern Captain Mark Bradford (Cornel Wilde) and been sent to Fort Thorn, New Mexico, commanded by order-barking Major Henry Kenniston (Jeff Chandler). There, to help shape the crux of the tale, Cotten meets up with Linda Darnell, portraying Elena Kenniston, beautiful young widow of the Major's brother, secretly loved by Chandler and a former sweetheart of Wilde's.

Amid Civil War and Indian fighting and documented history, "Two Flags West" tells its own human drama. In its top billed foursome it has peculiar assets with which to do so. Cotten, fresh from his triumphs in "The Third Man," returns to American films in a rugged kind of role new to his fans. Miss Darnell, whose performances vary in style from

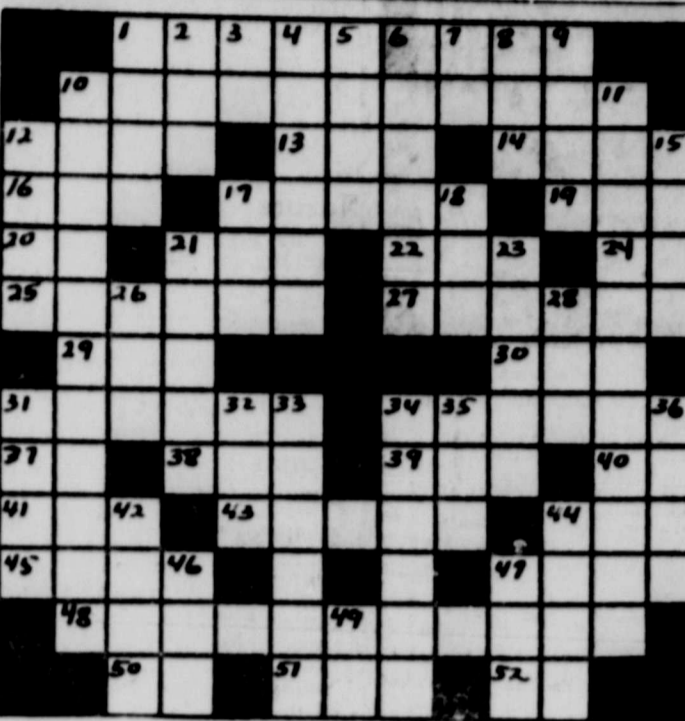

"A Letter to Three Wives" to "No Way Out," but never in excellence, also has a change of pace in her present assignment. Chandler, who lately proved himself as the noble Indian chief of "Broken Arrow," reverses himself as the disgruntled Indian fighter of "Two Flags West," and proves again that in his time an actor plays many parts. And Cornel Wilde, who has played everything from Chopin to "The Walls of Jericho," is back in the kind of outdoor thriller at which he has long excelled.

'Surrender' Tells Story of Very Wicked Woman

Violet Barton will be remembered as one of the most wicked women in motion picture history in "Surrender" which comes to the Ellis on Fri.-Sat., Nov. 24-25. "Surrender" is the story of a woman whose fabulous beauty masks the mind of a cheat and a thief. She uses her appeal to get what she wants to herself, regardless of the cost, leaving a trail of broken hearts in her wake. Jezebel and Madame Bovary had nothing on Violet Barton.

Violet leaves her husband, Henry Vaan (Frances Lederer) in a Houston jail and takes refuge with her sister Janet (Maria Palmer) in a little town near the

Melodrama Of Crime Portrayed In New Picture

The blind loyalty of youth, even in the face of murder and disgrace is the theme of "Prisoners in Petticoats," a crime melodrama which comes to the PerTex on Wed.-Thurs., Nov. 29-30.

The picture centers about beautiful Joan Grey, the daughter of an upstate college professor. An accomplished pianist, she has been unable to get a chance to prove her talent in the city.

Then Nickey Bowman, a decent appearing gangster who operates the Gander Club as a cover-up for his profitable crimes, gives Joan a job in his floor show. She becomes involved with mobster Steve London, who takes her home after a shooting at the club. He gets the girl into serious trouble with the law when he hides \$100,000 in stolen money in her suitcase.

Handsome young special investigator, Mark Hampton, is in love with Joan and tries desperately to warn her about her friends, but she stubbornly refuses to believe that they are not "nice people."

Steve is killed before he has a chance to recover the money and Joan eventually is sent to jail as his accomplice. Nickey's moll is planted in jail to lure Joan into revealing the whereabouts of

Edwin Pletcher to Represent Notre Dame Law School in National Trial

Must rainmakers pay losses of those deprived of rain? Forty-two law schools test this cloudy issue in a moot court of appeal this month. The national Inter-Law School competition is being held in nine U. S. cities in November.

Representing the Notre Dame Law School will be Edwin Pletcher of Perryton, competing with student lawyers from Indiana, Loyola, Marquette, Northwestern, Chicago and Illinois universities in Chicago.

Pletcher, a senior in the Notre Dame School of Law, was chosen to represent his school on the basis of his scholastic ability and student accomplishments.

This novel point of law, already a hot cinder in the eye of the news, the legal profession, courts, state legislatures and municipalities, is one that is without decisive precedent in court records. It is likely to remain unsettled until it reaches the U. S. Supreme Court.

So-called "state supreme courts" manned by prominent judges and lawyers will hear arguments on this moot phase of the law in New York, Washington, on this moot phase of the law in New York, Washington, Albany, Boston, Detroit, Chicago, Dallas, St. Louis and Philadelphia.

Judges for the national final

round in New York, on the evening of December 1, will be Associate Justice Robert H. Jackson of the U. S. Supreme Court; Judge Harold R. Medina of the U. S. District Court of New York; Chief Judge John Biggs, Jr., of the U. S. Court of Appeals for the Third Circuit; Chief Judge John T. Lougran of the New York State Court of Appeals; Sir Frank Soskice, K. E., Solicitor-General of England, and Whitney North Seymour, president of the Association of the Bar of the City of New York.

Competing teams will be judged on their printed briefs, forensic ability, reasoning, logical presentation, ability to counter opposition points, acquaintance with the law, evidence of research, and general courtroom manner.

Veteran Forum

Q. My nephew is a paralyzed veteran who lost control of his hands and therefore is unable to sign his name. How may he apply for a grant for "wheelchair housing," when he cannot sign the necessary papers?

A. Forms and application papers will be acceptable if he merely makes a mark or symbol, which should be attested to by a witness.

Q. I am going to school under the GI Bill and I have just received notice that I am to return to active military duty. Need I inform VA to stop my subsistence payments?

A. Yes. Write your VA regional office which has your records, and include your full name and address, "C" number, the amount of the VA payment and the date you are to go back into service. You are not entitled to any VA benefit payments covering any period after you have returned to military service.

BOOKER FARM ROAD—Bell and Braden construction crews are pictured above completing a bridge on a new farm to market road which runs from the Oklahoma state line north of Booker to a point several miles south. All dirt work on the road has been completed and structures should be finished in the next ten days according to W. O. "Bob" Mauldin, foreman on the project. The road will likely be topped next spring Mauldin said.

Q. My husband received a Certificate of Commitment on a GI home loan, and he died a few days later—before he had a chance to sign a mortgage or any other papers. May I, as his widow, go ahead and buy the house on a GI guaranteed loan basis?

A. Under your circumstances, VA does not have the authority to issue a Certificate of Guaranty, even though your husband already has a Certificate of Commitment. However, you may be entitled to a GI loan on your own rights as a deceased veteran's unmarried widow—if he died because of injury or disease incurred in or aggravated by line-of-duty service and was discharged under other than dishonorable conditions.

TEXANS IN WASHINGTON

By TEX EASLEY
(AP) Special Washington Service

WASHINGTON (AP)—The Texas probably most affected by the Nov 7 congressional elections—except for the defeated Republican Rep. Ben Guill of Pampa—is senator Lyndon B. Johnson.

The junior Texas senator has been thrust more into the limelight by the defeat of such Administration stalwarts as Senators Millard Tydings of Maryland and Scott Lucas of Illinois.

Although in the Senate only two years, Johnson already had become chairman of an Armed Services subcommittee charged with keeping an eye on defense preparations. The spot is comparable to that in which President Harry Truman first gained national attention.

The defeat of Tydings automatically moves Johnson up to fourth Democratic position on the fourth Democratic position on the whole Armed Services committee. Ahead of him in the 82nd Congress, starting next Jan. 3, will be Senator Russell (D-Ga.) as chairman, Senator Byrd (D-Va.) and Senator Chapman (D-Ky.)

In the defeat of Senator Lucas the Democrats lost their Senate floor leader.

Four senators prominently mentioned for that inflation position are Clinton P. Anderson of New Mexico, Ernest W. Farland of Arizona, Joseph P. Mahoney of Wyoming, and sell.

Arguments have been raised to show that none of these men would be re-elected in 1948 looked at and he differed with the president over the Brannan farm program. McFarland is not regarded as some to be as militant as the party would like. Johnson's views have often differed with those of Southern and he is a foe of state ship of the Titlelands. Russia from a deep South state some think he might not be going to accept the job; Lurg into trouble while trying to speak for the Administration legislative matters and at same time represent a two-party state.

Among other possibilities the job is Texas' Senator son.

For Power with Economy...it's High Compression!

FOR HIGH COMPRESSION... IT'S THE "ROCKET"!

Ever since Oldsmobile introduced the "Rocket" Engine two years ago, seems like everybody claims "high-compression"—but nobody explains it. The phrase simply means squeezing the gasoline into a smaller space before exploding it. This gets more power out of the same amount of fuel. But the engine must be designed for high-compression all the way through to assure smooth, quiet, gas-saving performance. The "Rocket" is 100% high-compression—from the crankshaft out. And the lowest-priced "Rocket" Engine car is Oldsmobile's "88." Makes good sense to try it soon—doesn't it?
