

Nixon Might Seek Tax Increase After Election

WASHINGTON (AP) — The annual ritual of raising the national debt ceiling has its roots in World War I, and never has Congress failed to increase it so the government could pay its bills.

If this year's debate goes according to form, Congress will point a finger at the size of the national debt, say it's a shame and ought to be reduced, then go ahead and vote the increase

requested by the administration.

Asked what would happen if Congress decided to turn down a debt-ceiling increase, one government official said: "You'd just stop paying the bills. You can't sell the debt because nobody would buy it."

Few economists regard the debt ceiling as a real restraint on government spending, saying that the only discipline

comes through the budget and the appropriations bills passed by Congress.

The party controlling the White House has tended to think of debt-ceiling bills as nuisances that must be faced each year. If nothing else, the annual happening requires the time of top officials to go to Congress and officially ask for an increase.

By the time the government

goes to Congress each year to seek an increase in the ceiling, most of the important spending decisions already have been made. That makes passage of the bill almost a certainty.

The administration this year is seeking a \$50-billion increase in the \$430-billion ceiling. It is the largest request to raise the ceiling since the \$85 billion in 1943.

If the result of debt-ceiling bills is preordained, why does Congress maintain the ceiling anyway? Officials say it's partly because of tradition, partly because of jealousy of its powers, but mainly for political reasons. It gives the party out of power a good chance to criticize the spending habits of the party in power.

The debt ceiling came on the

scene in 1917, but did not evolve into an annual ritual until the debt started soaring during World War II, as the U.S. economy became more complex.

During the mid-1950s, Congress made the whole procedure more complicated by establishing a permanent debt ceiling and a higher temporary debt ceiling. At present, for ex-

ample, the permanent ceiling is \$400 billion but the temporary ceiling is \$430 billion. Unless Congress acts, the temporary ceiling expires June 30 and the permanent ceiling would take over.

The present national debt subject to the limit is approaching \$427 billion, so chaos would result if the ceiling went back to \$400 billion. But no one expects that to happen.

HE'LL PRESIDE AT BALLARD TRIAL

Judge Sherrill Clarifies His Stand On Coverage

After contacting 112th District Judge Charles E. Sherrill today, the Herald learned that restrictions placed on the press in covering the murder trial of Whitmer Jean Ballard, 46, to begin Monday will not be as strict as first reported in an Associated Press news article.

Ballard is charged with the Dec. 2, 1970 shotgun murder of Glasscock County rancher Steve Currie which occurred during a robbery of Currie's ranch home near Garden City. Ballard's trial was moved to Alpine on a change of venue from Midland County.

Judge Sherrill agreed to preside in the case to be tried in 83rd District Court, Alpine, instead of 118th District Judge R. W. Caton, who had presided over all proceedings in the case since the first hearings in June, 1971 in Garden City which resulted in three venue changes — Garden City to Ballinger, Ballinger to Midland and Midland to Alpine, after Orville Davis, 51, was sentenced to life in prison for his roll in events leading to Currie's death.

District Judge Caton voluntarily stepped down from the case after overruling a motion by Ballard's defense attorney Bobby Bearden that he disqualify himself. Judge Caton agreed to step down when he learned that Judge Sherrill, of Fort Stockton, was willing to take the case.

According to Judge Sherrill, press conferences will be held

with the attorneys in the case at the close of each day's proceedings in the trial, but not for the purpose of limiting reporting, but merely to give members of the press official sources to quote and an opportunity to obtain information that might have been missed during the proceedings.

"The only restriction is that by motion of Bearden in which photographing and filming of the defendants and principals in the courtroom will not be allowed. We don't want this case tried in the press," said Judge Sherrill.

"There will be a separate press table set up, and members of the press will be allowed to come and go during the trial as they please. I have never had any trouble with members of the press, and I don't anticipate any now," said Judge Sherrill.

At first report, it was thought that Judge Sherrill intended to hold press conferences to stipulate what might and what might not be printed or broadcast of the day's proceedings; to restrict all reports of background in the case or mention of any prior police record that

Ballard or other principals in the case might have; and to forbid the photographing of all principals in the case anywhere on the courthouse grounds.

It had also been reported that Judge Sherrill had issued orders that it was not to be reported that Ballard has court-appointed defense counsel, but had later rescinded the order.

MOTION GRANTED
In Monday's hearing in 83rd District Court, Alpine, Judge Sherrill granted Bearden's motion for restriction of the filming and photographing of the defendant and principals in the case, and his motion for additional defense counsel to be appointed. Ralph Burleson was appointed to assist Bearden in defending Ballard.

According to the AP's report, attorneys in the case first moved to have Judge Sherrill disqualify himself from presiding in the case because he once served as Ballard's court-appointed attorney 15 years ago, but it was decided not to pursue the motion.

Charged in the case in addition to Ballard are Davis, now serving a life prison term, Benjamin Thomas Tisdale, now in federal custody and to be tried in San Angelo for murder in connection with Currie's death; Floyd Palmer, who is still at large; and Judy Dunham, who has been granted immunity from prosecution in return for her testimony in behalf of the prosecution.

During Davis' trial in Midland, Mrs. Dunham testified that she and the four men drove from Midland in a car and a pickup truck to the Currie ranch home which they intended to rob.

Mrs. Dunham said that her role in the robbery was to drop the men off in front of the ranch, and then drive into the

ranch yard, and go up to the door "to bareface the people inside" so that the men could gain entry to the ranch. She fled when one of the men emerged and said something had gone wrong.

She said she learned later at a roadblock of a shooting. Mrs. Dunham was taken into custody in California after the group had dispersed from Odessa, where they had gotten together. Melvin Sheppard, Midland, who testified in the Davis trial, linked Ballard with the case.

Proposed Penalty Now A Reality

A \$1 penalty will be assessed all water bills paid after the due date of Feb. 14, according to Rogers Nanny, city finance officer, today.

The third and final reading of the water rate ordinance which initiated the late charge was approved Jan. 25 by the city commission.

Nanny said today that starting this month the delinquent charge will go into effect on all water bills paid after the due dates and will be assessed on the following bill.

New Deadline Is Posted For Ads

Since the business office of the Big Spring Herald will henceforth be closed each Saturday, no classified ads declared for the Sunday edition can be accepted after 11 a.m., Friday.

The telephones of the newspaper will be answered each Saturday, but only by the news department. Those numbers are 263-7334, 263-7335 and 263-7336.

BAD WEATHER

Borden County School Closed By Icy Slush

By The Associated Press

Hazardous driving conditions existed across the entire western half of Texas early today after a combination of freezing rain, sleet and snow swept into the state.

An assortment of bad weather conditions, including fog, ice, rain and snow, plagued early morning motorists in many portions of the state, including Southwest Texas where ice-covered roads were reported.

Snow which fell Monday combined with icy slush to force the closing of Borden County schools north of Big Spring.

Snow was reported falling over portions of Northwest Texas this morning, with scattered areas of rain stretching across portions of the eastern half of the state.

Points reporting snow included Wichita Falls, Mineral Wells, Dallas, Tyler and Texarkana.

Early morning fog hovered over Wink and El Paso, where temperatures were in the high 20s.

Freezing or near freezing temperatures also were reported in Abilene, San Angelo, Amarillo, Childress, Wichita Falls and Mineral Wells.

The lowest early-morning temperature in the state was reported at Dalhart, where the temperature stood at 19 at 5 a.m.

The National Weather Service forecast a gradual clearing trend later today over West and Northwest Texas, with cold weather continuing to dominate the state.

The snow was expected to end this morning over Northwest Texas with a decrease in cloudiness across West and Northwest Texas.

Rain was expected to continue but taper off across the eastern half of the state.

Press Freedom Probe Pressed

WASHINGTON (AP) — FBI Director J. Edgar Hoover has told Congress his agents, after being asked to investigate CBS newsman Daniel Schorr, interviewed 25 persons in 6½ hours and found "entirely favorable" information.

In a letter made public today by Sen. Sam J. Ervin Jr., chairman of the Judiciary subcommittee on constitutional rights, Hoover said the White House asked for the probe but did not request any specific type of information.

Rather, Hoover said, agents conducted a routine investigation, the type during which questions are asked about a person's "character, loyalty, general standing and ability."

Ervin, who opened a new series of hearings into the freedom of the press, said Monday he wants to find out more about the investigation. He added that White House officials have refused to discuss the case or to testify on the general "problems of the White House and the press."

After the investigation was disclosed last November, the White House said it was ordered because Schorr was under consideration for an unspecified federal job. White House aides said the probe was not related to criticism of Schorr's reporting by President Nixon and some administration officials.

Executive Shot, Woman Arrested

DALLAS (AP) — Theodore Earl McGee, 39, chairman of Metrocom Inc., was reported in serious condition in Parkland Hospital today after being shot Monday evening in his 11th floor office at One Main Place.

A woman, who was found in the office, was arrested. She remained in the city jail this morning.

Police said they found McGee sitting in a lobby chair at the office. He told them the woman had shot him with a .22 caliber pistol.

(AP WIREPHOTO)

SHE ATTACKS — Bernadette Devlin, member of Parliament at Westminster for Mid Ulster, leaves the House of Commons Monday, after she rushed across the floor of the Chamber and attacked the Home Secretary, Reginald Maudling.

TRIBUNAL To Probe Bloody Sunday

BELFAST, Northern Ireland (AP) — The British government sought to calm the Irish Catholics today by setting up a court of inquiry into the killings of 13 civilians in a battle with British paratroopers in Londonderry Sunday.

The Catholics struck back Monday with bomb blasts, fires, strikes, demonstrations and torrents of abuse. Barricades made of hijacked vehicles blazed in Belfast, and clouds of smoke rose from a burning brewery and saloon.

Mobs tried unsuccessfully three times to burn down the British Embassy in Dublin, capital of the Irish Republic.

British Prime Minister Edward Heath announced he would ask Parliament to establish a special tribunal with judicial powers to investigate Londonderry's Bloody Sunday. But spokesmen for Northern Ireland's Catholic minority threatened not to cooperate with any commission set up by a government which they believe is out to bolster Protestant rule in the province.

No action was expected against Bernadette Devlin for her assault on Home Secretary Reginald Maudling in the House of Commons Monday, although normally she would have to apologize or face suspension. Infuriated because Speaker Selwyn Lloyd would not let her question Maudling about the killings, the 24-year-old Catholic deputy from Northern Ireland called the 54-year-old home secretary a "murdering hypocrite," then charged across the floor of the house, hit him in the face, pulled his hair and clawed him.

Houston Lawyer Kay Bailey Aims For Texas Legislature

By PEGGY SIMPSON
AP Regional Service
WASHINGTON (AP)—Lawyer Kay Bailey aims to be the third woman in the Texas legislature.

She says she knows and admires the two there, now, Sen. Barbara Jordan of Houston and Rep. Frances Farenthold of Corpus Christi, even though her politics are opposite theirs.

"I think they have been among the most conscientious in the whole legislature," Miss Bailey said in a recent interview. "If I can do as good a job on the conservative side as they have on the liberal, I'll feel good."

Until recently, Miss Bailey was press aide to Republican National Committee Co-chairman Anne Armstrong, also a Texas.

Before that she was a television political reporter in Houston and Austin and briefly practiced law after getting her law degree in 1967 from the University of Texas.

She's 28, a slender blonde and liked domestic relations and corporate law but forsook it for the more exciting job as a TV reporter.

Two men already have announced against her in Houston's Dist. 90. Miss Bailey has the endorsement of Mrs. Armstrong and a personal wish-you-well note from United Nations Ambassador George Bush.

"Oh, she'll be elected," Mrs. Armstrong said at a going-away reception she gave for Miss Bailey in the Capitol.

"She has what it takes—brains, competence and political know-how. Everybody's for her."

Miss Bailey doubts if the campaign will center on the issue of putting another woman in the legislature.

"I think we'll talk a lot about honesty in government," she said.

While reporting about the legislature for two sessions, she said, she got depressed that the representatives "were not the caliber of people I thought they should be."

"The way they handled our state's business was bad," she said. "Hypocrisy was all over the place. I think the stock fraud scandal really brought it home to people."

"I think there's a beginning of an awareness," she said. "I think good people are going to take the time to participate."

She said both as a lawyer and as TV reporter with ex-

perience in the state capital, she has valuable assets to bring to a public job.

One of her opponents is claiming a man would be "stronger" for the job.

"That doesn't hold water at all," Miss Bailey said. "You don't have to be a man to be strong. I've had experience in the legislature and I've seen it in operation. I think that's going to help me get things done for my district quicker than someone who doesn't know the workings of the legislature as well."

Her district is 70 per cent Republican, "a homogeneous upper middle class area—not rich and not poor." She hopes to shake most hands of the 74,000 people there and to keep her spending within the \$10,000 range.

Nurse Will Speak Here At Church

New officers for the Woman's Missionary Union, First Church of God, were elected during a business meeting Sunday evening at the church.

Mrs. Francis Longsine, nominating committee chairman, said the date for the installation will be announced.

Miss Anna Smith presided as several changes were made in by-laws. The regular monthly meeting was changed to the first Monday at 7 p.m. at the church.

It was announced that Dolores Beady, who formerly served as a missionary nurse in the African Congo, will be guest speaker at the church Feb. 14. At that time, there will be a church-wide supper, and the program will include slides on Africa. A church member will be honored by having a mission donation made in his or her name.

The state missionary planning session will be held March 6-9 at the Gulf Coast Bible College, Houston.

Director Is Appointed For Scout Day Camp

Mrs. Robert Sims has been appointed director of the 1972 Big Spring Day Camp for Girl Scouts according to an announcement from the Scout headquarters in Abilene.

Mrs. Sims joins the West Texas Girl Scout Council with 18 years of Scouting experience. She has worked in numerous day and established camps across the country and spent several weeks with older Girl Scouts in Canada.

Other members of the local administrative staff are Mrs.

Tom Ivey, business manager, and Miss Connie Thompson, registrar.

Day Camp will be held at the Silver Heels camp site June 12-16.

"Many ideas are being pursued to make this year's camp even bigger and better than past seasons," said Miss Arlene Estes, field director. "Specialized units will be offered to the teenage Scouts."

Mrs. Sims will attend a training course for day camp directors in March. The classes,

held at Camp Boothe Oaks near Sweetwater, will be conducted by members of the camp committee and Mrs. Jewel Jennett, camp director.

PRESIDENTIAL HOPEFUL? — Rep. Shirley Chisholm, D-N.Y., will become only the third woman to seek a nomination for the presidency, if she makes her expected announcement today as anticipated. The other two — Victoria Woodhull and Belva Bennett — were nominated by the Equal Rights Party in the late 19th century.

A LOVELIER YOU

Reconditioning Hint For Skier's Dry Hair

By MARY SUE MILLER
A lovely writes: A skiing vacation has left me with a beauty problem. My hair has become dry and brittle. I thought only heat dried the hair so I didn't wear a cap, only ear muffs on a headband. In any case, I need help with hair as brittle as icicles.

The answer: Extremes of both cold and heat have an adverse effect on your locks. Weather on ski slopes at high altitudes works several ways to parch your hair. The air is not only cold but dry; the sun is hot, much hotter than you think.

To sidestep trouble a skier most certainly should cap her head before tackling the outdoors. Another good measure is to film the hair with pomade or creamy dressing and to brush well after a day on the slopes.

Once the damage is done, a series of reconditioning treatments must be undertaken — one a week for at least six weeks of shampoo time. Excellent conditioners are found at cosmetic counters and beauty salons. Herbal and protein types gain favor at present.

During the conditioning period be sure to use a soft hairbrush and do brush very gently night and morning. Beware of tinting and permanent waving until the hair normalizes.

Of course you would not go hatless. That might be a cue to getting a new spring chapeau — a swooping white felt, maybe. It would be the quickest way to turn a beauty problem into an asset.

Is your hair a problem, Miss Teen? Then send for my leaflet, "Teen Tresses, Model Type." It tells how to correct such ailments as oily hair and flaky scalp; fly-away, unmanageable lackluster locks. Included, too, are styling tips and model grooming quickies. For your copy write to Mary Sue Miller in care of the Big Spring Herald, enclosing a long, self-addressed, stamped envelope and 10 cents in coin.

'Quotable Quotes'

Some quotable quotes from women during the week:

"Unlike other dancing, belly dancing is sensual. To do it, you have to put on a different face, like holding up a mask. I'm basically a shy person." — Carolyn Muehlbauer, opening a belly dancer school in London.

"This helps Australia over a critical time and helps the teachers put that education to good use. Education is expensive. All the more reason a teacher should teach, not check out groceries in a supermarket." — Dr. Clarie Pedersen, who helped arrange flights of jobless American teachers to Australia to fill a shortage of high school instructors.

"I believe that what is at issue for us is a clear constitutional confrontation. Does the President have the authority under the Constitution to pick and choose which sections of the law he will obey and which he will disobey?" — Rep. Bella S. Abzug, D-N.Y., urging Congress to censure Nixon for not setting an Indochina troop withdrawal date.

"People say they love their dogs and they hate the dogcatcher. But then they don't want the responsibility of their animals, and they just dump them out on the street. Or they let them run loose and get vicious. Or they move away and leave them to starve." — Pat Conner, Albuquerque's only female dogcatcher.

"Worst thing the government ever did was close the community schools. The children up here used to really learn something. And there was discipline. They didn't dare mess around at school because they knew the teacher wouldn't stand for it and their folks wouldn't either." — Alice Willard who, at 76, runs her own farm near Thurmont, Md.

Noble Grand Club Installs Officers

New officers were installed for the Past Noble Grand Club, Big Spring Rebekah Lodge No. 284, Monday evening in the home of Mrs. Jewel Fields, 1411 Scurry.

The officers are Mrs. Emmett Hull, president; Mrs. A. R. Cadzow, vice president; and Mrs. Gene Crenshaw, secretary-treasurer.

Refreshments were served, and games were played. The next meeting is at 7:30 p.m., Feb. 28 in the home of Mrs. Crenshaw, 603 McEwen.

Pleasures, Pitfalls Of Traveling Abroad Described By Speakers

"Travel is the greatest form of education," said Mrs. Gary Haines to Mu Zeta Chapter, Beta Sigma Phi, Monday evening in the home of Mrs. Calvin McMurray, 801 Marcy.

"There is no other investment which pays such constantly recurring dividends as travel," she continued, "but many people do not plan trips thinking conscientiously of the educational values available." She said the most expensive "do-it-yourself kit" is a do-it-yourself planned trip abroad. She said too little knowledge and too much knowledge can both be pitfalls to a well-planned trip.

Mrs. Pat Danforth, who traveled throughout Europe in 1969, assisted with the program and discussed what she learned there concerning passports, packing and attitudes.

She said people should write to the American Medical Association before a trip to receive a copy of their list of English-speaking doctors in Europe. The list gives both home and business phone numbers.

She said — the problems of having money converted in various countries, and tipping policies are two of the most hectic aspects of travel, and she told the women to beware of the tour guide racket. In conclusion, she said a traveler's attitude is very important, and that we should always treat visitors in this country the way we

would like to be treated in a foreign country.

Mrs. Rex Goff presided, and plans were made for a social hour, preceding the annual BSP Valentine Dance, from 7:30 to 9 p.m., Feb. 12 in the home of Mrs. Danforth, 2101 Cecilia.

Mrs. McMurray announced the wall mural in which members painted at Westside Community Center is completed.

A side of beef will be awarded Feb. 28 as a chapter fundraising project. Also, Feb. 28, the Brownie troop sponsored by the chapter will have an investiture ceremony at First Assembly of God Church.

MP's Income Shows Gain

ST. LOUIS — The Missouri Pacific System reported consolidated net income of \$25,016,000 in 1971, before extraordinary items, compared with \$21,580,000 in 1970, Downing B. Jenks, president, announced today. Operating revenues reached an all-time record of \$602,620,000 compared with \$534,128,000 in the prior year.

Net income for the year after extraordinary items was \$17,338,000.

Extraordinary items, net of taxes and minority interests, totaling \$7,678,000, all recorded in the fourth quarter, consist of: (a) a required \$1,894,000 charge for joining Amtrak, \$7,036,000 for losses on sale or retirement of related passenger equipment and facilities, a \$2,160,000 write-down of investments in affiliated companies, and \$1,420,000 for severance and other employee protective costs; (b) a \$4,466,000 gain on the repurchase of company bonds. The company had no extraordinary items in 1970.

On a basis of generally accepted accounting principles, consolidated net income before extraordinary items would be \$17,757,000 as compared to \$11,511,000 in 1970.

Pinewood Derby Winners Listed For Pack 138

Winners in the Pinewood Derby of Pack 138 were Kip McLaughlin, pack champion; Mike Eggleston, best looking car; Matt Taylor, Den 1 winner; Bruce Webb, Den 2 winner; David Logan, Den 4 winner; and Phil Swindell, Den 6 winner.

Awards presented at the January meeting by Cubmaster Bob Knight include: Wolf, Craig Atkins and Tony Hall; Bobcat, David Logan; recruiter, Mike Eggleston; denner, Kent Hagood, Matt Taylor, Chris Austin, Kevin McLaughlin, Bill Little and Larry Smith; assistant denner, Billy Torp, James Perry, Juan Martinez, Willie Dunivan, Raymond Torp and Steve Logan; one-year pin, Craig Atkins and Steve Logan; and two-year, Steve Blythe.

The 1971 Roundup Honor Unit banner was placed on the pack flag and membership cards were passed out. Webelo leader Chuck Henderson presented "Webelo of the Month" awards to Orlando Tercero, November, and Steve Blythe, January. Lee Harvey was inducted into the Webelos.

Achievement badges presented included: Raymond Torp, Willie Dunivan, Bill Little, Rusty Henderson, Kevin McLaughlin, Jimmie Jones, Steve Blythe and Steve Logan, Tony Deel, Phil Swindell, Mark McBride, Mark Knight, Larry Smith and Orlando Tercero. The next meeting will be the Blue and Gold banquet in February.

Horoscope

TOMORROW

—CARROLL RIGHTER

GENERAL TENDENCIES: You find that the morning starts off on a note of speed and efficiency but by early afternoon interferences start cropping up. This can be annoying but are actually good opportunities starting to manifest themselves and can be most helpful to you in the future. Take them in your stride and this becomes a happy day for you. Show courtesy to others.

ARIES (March 21 to April 19) If you use that charm you possess for constructive purposes instead of wasting it in wrong directions, this could be the start of a new upturn in your life. Avoid arguments.

TAURUS Study the time element where today's activities are concerned. This is the key to success. Stop trying to put your points across in a devious way. An honest approach is best.

GEMINI (May 21 to June 21) You may have had a big disappointment yesterday—but this is a new day—so make the most of it. Take care of obligations ahead of you, then spend quiet evening with mate.

MOON CHILDREN (June 22 to July 21) If you think carefully what it is you want most where your personal life is concerned, you can take the right steps in such direction. Show that you are sure of yourself.

LEO (July 22 to Aug. 23) A good day to get much done around your home that is of a constructive nature and increase harmony there. Avoid arguing with kin. Instead, use that gentle manner you reserve for a few.

VIRGO (Aug. 23 to Sept. 22) If you get together with experts, you can get the advice you need for adding to present income. For success you must be willing to work harder. Avoid temper tantrums.

LIBRA (Sept. 23 to Oct. 22) You can go directly to an expert in the morning who can be of great assistance to you in business affairs. Come directly to the point for best results. Relax with mate tonight.

SCORPIO (Oct. 23 to Nov. 21) There is one in your family who is giving you some trouble. If you look of the situation objectively instead of emotionally you can solve it wisely. Try to cooperate more.

SAGITTARIUS (Nov. 22 to Dec. 21) Many ideas pop into your head, but you have to distinguish the good from the bad and then put the right ones in operation. Obtain opinions of persons you highly respect.

CAPRICORN (Dec. 22 to Jan. 20) If you contact the most powerful person you know, you can get the backing you need to solve a pressing problem. The right advice could be invaluable. Don't neglect correspondence.

AQUARIUS (Jan. 21 to Feb. 19) You are generous by nature and can now have a fine day contacting those persons you want to see. Manage your affairs so you have plenty of free time. Show that you have ability.

PISCES (Feb. 20 to March 20) You have a financial lack. This can be offset by making the proper contacts and increasing your income. You can be successful if you stop being fearful. Know your capabilities.

Smugglers Caught

AJACCIO, Corsica (AP) — All 10 persons aboard a small Greek freighter were jailed after customs inspectors said they found 1,289 cases of American cigarettes worth \$140,000 concealed in the hold.

Fire Warning Cuts Damage

SAN ANTONIO (AP) — It wasn't a really big fire, but in

the eyes of 11-year-old Anselmo Reyes it must have been a major disaster.

The youngster was walking along one night when he spotted an orange glow in the sky and found flames licking at one home and spreading to two others.

"I knew a woman lived at

the house and I could see the fire going on to her wall from the other home," the boy said later. "I just ran to her door and beat and beat on it. I thought she never would come, but I needed her to call the fire engines."

Mrs. Bernice Morgan said she was reading in her den and

would not have known of the fire if Anselmo had not been so persistent.

"When I finally answered the door," she said, "I saw this little boy hollering, 'fire' and then I saw it. My house was on fire."

Band Is Banned

CHRISTCHURCH, England

(AP) — A war veterans' organization in Hampshire called off a scheduled charity dance after a musicians' union

protested about the offer of a band to play at the ball for nothing. The veterans' group had hoped to raise about \$400 from the dance. But the union insisted that paid-up union members should be hired for the job instead.

Big Spring (Texas) Herald, Tuesday, Feb. 1, 1972 3-A

From Marlboro to America's low tar and nicotine cigarette smokers-

Marlboro Lights

Lighter in taste, low in tar.

Some people prefer the taste of a low tar and nicotine cigarette. For them, we've made Marlboro Lights.

The same great quality you get with full-flavored Marlboro—only Lights were developed especially for those who prefer the lighter taste of a low tar smoke.

Marlboro Lights—14 mg. "tar," 1.1 mg. nicotine av. per cigarette by FTC method.

WIDE-EYED AS ALWAYS — Sandy Duncan, who underwent a 10-hour operation Nov. 1 at the UCLA Medical Center to remove a benign tumor from behind her left eye, is now permanently blind in that eye. "It's no big deal, really," says Miss Duncan, star of TV's "Funny Face." Both eyes move normally and there are no visible scars because the surgery was through the top of her head. Miss Duncan is shown during an interview in her Hollywood home.

Connally Asks Citizen Help

PITTSBURGH (AP) — The record deficit of \$38.8 billion estimated for fiscal 1972, Treasury Secretary John B. Connally says the federal government cannot, should not and will not supply all the answers to the nation's economic ills.

"The answers are going to rest with you," Connally told the Greater Pittsburgh Chamber of Commerce Monday night.

Earlier in the day he went before the House Ways and Means Committee to testify in behalf of the 1972 fiscal budget, which carries a record deficit.

ROLE TO PLAY

"Government has a role to play and it is trying to play it," he said of the nation's economy. "The solutions to all the problems across the nation do not lie on the banks of the Potomac."

Connally said President Nixon's economic policies will work because there is no acceptable alternative.

"Have you thought about what the alternative is?" he asked. "We had that before we had wage and price controls. Rampant inflation is not an acceptable alternative."

lion estimated for fiscal 1972, the wage and price controls and charges in the tax structure announced by President Nixon last August are not violent to the basic system, Connally added.

FACE TO FACE

"The President brought us face to face with the realities of modern times — last August," Connally said. "I find it very encouraging that we have a government flexible and courageous enough to take the steps necessary to right the economy."

Connally said imposing more taxes on the people of the United States may have balanced the budget, but it would not stimulate the economy and reduce unemployment.

"We're trying to rebuild. We're trying to expand. We're trying to encourage stimulation of the economic vitality," he said.

Some of the wage and price controls, Connally said, will remain in effect until the economic base has stabilized, possibly until 1973.

Trio Charged In Slaying Of Malone City Marshal

HILLSBORO, Tex. (AP) — Jury selection was to continue this morning in the murder trial of three Negroes charged with the last March 25 slaying of Milton Bortz, the city marshal at Malone, Tex.

One juror, Estell Odom, 59, a public school employee, was chosen Monday.

Jurors are being questioned about their feelings on various subjects including the death penalty, circumstantial evidence and racial prejudice since all three defendants are Negroes. They are James W. Hughes, 41; Benny Walker, 38; and Willard Gene Christopher, 32, all of Dallas.

A Waco psychiatrist, Dr. James Jolliff, testified Monday that Walker is incompetent to stand trial and should be examined further. He said that Walker can't make a "rational" defense. "He doesn't seem to be able to keep from lying," he said.

Judge Steve Latham denied a defense motion that Walker be given psychiatric testing because the motion was made too late.

Bortz was shot to death when he stopped a car at Hillsboro following a liquor store robbery at Malone, about 15 miles from here.

Free State Highway Map Offers Much To Tourist

AUSTIN — Gleaming new stretches of Interstate highways, more miles of four-lane divided facilities, several new lakes and a new National park make this year's 1972 Official Highway Travel Map better than ever.

The free map, published by the Texas Highway Department, is a perennial favorite with Texas motorists. Projections for 1972 call for distribution as high as 1.4 million.

This year's map includes the addition of Lake Fairfield in Freestone County and Decker Lake in Travis County. Lake Palestine, located in Henderson, Smith, Cherokee and Anderson Counties, has been on the map for several years.

The new map reflects construction, realignment and improvement of many types of highway facilities in the state-maintained system.

The publication shows that about 130 miles of Interstate highways have been added to the state's highway network. Texas now has 2,922 miles of Interstate highways open to traffic. When the national Interstate system is complete, Texas will have 3,176 miles of IH routes.

The map shows that several important gaps in the State's Interstate system have been closed. These include: A 40-mile segment of IH 30 between Mount Pleasant and New Boston, completing IH 30 between Dallas and Texarkana, a 32-mile segment of IH 45 between Streetman and Buffalo, completing IH 45 between Dallas and Galveston; 10-mile and 31-mile segments of IH 20 between Abilene and Fort Worth.

The '72 map shows that 265 miles of divided highways have been added to the state system. This gives Texas 5,695 miles of four-lane divided facilities, which are an important safety measure in cutting down on

head-on accidents. The new map will reflect a new U.S. Highway 380 designation from Greenville in Hunt County, westward to near Old Glory in Stewar County. In addition, the map will show the new boundaries of the Guadalupe Mountain National Park located in Hudspeth and Culberson Counties.

The map is one of the most popular of the more than 7.3 million pieces of travel-oriented literature distributed each year by the Texas Highway Department. The map may be ordered directly by sending name, address and ZIP code to Texas Highway Department, Travel and Information Division, P. O. Box 5064, Austin, Texas 78753.

The publication shows that about 130 miles of Interstate highways have been added to the state's highway network. Texas now has 2,922 miles of Interstate highways open to traffic. When the national Interstate system is complete, Texas will have 3,176 miles of IH routes.

The bidding:
South West North East
1 ♥ Pass 2 ♦ Pass
2 ♥ Pass 3 ♥ Pass
3 NT Pass Pass Pass
Opening lead: Three of ♠

Today's hand produced an unusual twist when it was dealt in a recent team-of-four contest. One South played the hand at three no trump while the other became declarer at four hearts and yet the final outcome was the same in each case, thanks to an inspired effort by West.

At the first table, the bidding proceeded as indicated in the diagram. West opened fire against three no trump with the three of spades and South won the trick in his hand with the jack. If hearts divided evenly there were eight tricks available—five hearts and three spades. In order to score a ninth before the situation was revealed,

South led the five of clubs at trick two. West was about to detach a small club when he paused to consider matters.

The play to the first trick revealed that his opponent had three spade winners. South had rebid hearts, presumably showing five and since he had made no attempt to play hearts, it might be assumed that suit was runtable. West concluded that the club lead could only be an attempt to establish a ninth trick.

So reasoning West put up the ace of clubs and promptly shifted to the queen of diamonds as the only hope for setting the contract. When the queen held, he continued the suit and East proceeded to cash out three more diamonds.

At the other table, the auction began in the same manner, but over North's raise to three hearts, South chose to carry on to four—which appears to be an impregnable contract since declarer can take three spades, five hearts, and two clubs, if left to his own devices. West uncovered the same killing defense as his counterpart by simply opening the queen of diamonds and continuing the suit. The third round of diamonds established a trump trick for there was no way to shut out West's jack of hearts on an overruff. The ace of clubs subsequently scored the setting trick and produced a standoff on the deal.

The standard deduction is up this year. But maybe you should itemize.

Your best buddy Lenny might have told you to itemize your deductions because it would save you more tax dollars. Your neighbor possibly suggested taking the standard deduction because you'd pay less taxes that way.

And Frank down at the office . . . he helps everybody with their return . . . what did Frank recommend?

If there's some way to save you money on your income tax, H & R Block will know how to do it.

Itemized and standard deductions are nothing new. We've been preparing returns for years using both. We'll figure out your situation both ways and then prepare your return using the method that's best for you.

You see, for only a few dollars more than it costs to do it yourself (with advice maybe from some other amateur), you can have your tax return prepared with complete confidentiality by a specially trained member of the H & R Block team. There are thousands of them in over 6,000 conveniently located offices.

things about your income tax that you never knew existed. Things that we know, because income tax returns are our only business.

H & R Block's fees start at \$5 and the average cost was under \$12.50 for over 7 million families we served last year.

Furthermore, if your return is audited we will accompany you, at no extra cost, to the Internal Revenue Service and explain how your return was prepared, even though we will not act as your legal representative.

It means that H & R Block also offers you year 'round tax service for just one low fee, with no extra charge for audits and estimates.

Yes, it's true. The standard deduction is up this year.

It's one of the many things we'll consider when we do your return.

DON'T LET AN AMATEUR DO H&R BLOCK'S JOB.

H&R Block.
The income tax people.

City Attorney Presses Ambulance, Tax Bills

This week approximately 200 notices went out to people who have delinquent ambulance bills pending with Alert Ambulance service in Big Spring, according to City Attorney James Gregg.

Notification of delinquent ambulance service bills is part of the present contract between L. A. Hiltbrunner, Alert Ambulance service operator, and the city. Besides notification and enforcement of the ordinance requiring payment of the service bills, the city also is paying the service \$400 per month.

In the notices Gregg points out that the delinquent bill has been brought to his attention and the ordinance requiring payment be made is quoted to the person billed.

Section 30-14 of the Code of Ordinances states that, "Any person calling for emergency ambulance service within the city... and refusing to pay for such service after use... shall be guilty of a misdemeanor and, upon conviction in Corporation Court, shall be subject to a fine not to exceed \$200."

Gregg noted that if the office does not hear from the person within 10 days from the receipt of the notification letter, it will be necessary for him to request that charges be filed.

The 200 accounts were given to the attorney by Hiltbrunner for action. The service operator said today on most of the accounts, from four to six notices had been sent to them by his office and there has been no response. He said if his office is not contacted after several notifications are sent to the customer, the account will be turned over to the city attorney for legal action.

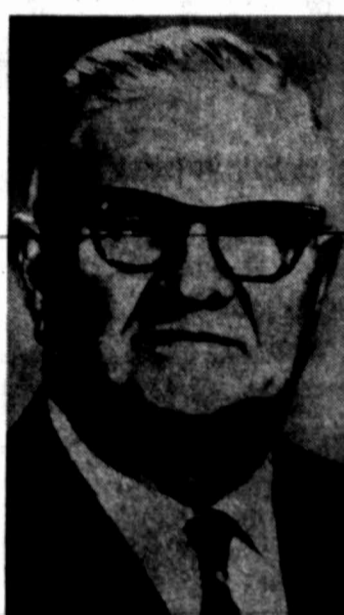

Hiltbrunner also said he has approximately 100 other delinquent accounts that will be sent to the attorney's office shortly.

Pressing collections on

another front, Gregg recently mailed 75 delinquent tax notices. According to the city tax office, one case has been tried, more are pending trial, and there has been good volume of voluntary payments.

"I haven't made too many friends since I've been in town but in the past there has been no action from this office taken on delinquent bills owed the city, and I intend to take necessary steps," said Gregg.

Magazine Cites Charlie Thompson

CHARLES C. THOMPSON

COLORADO CITY — In the disastrous days of the early 1900's Texas farmers and ranchers suffered twin problems: drought and little or no farm credit.

Charles C. Thompson, local rancher and banker, has spent much of the 40 years since helping to do something about this.

In recognition of his accomplishments, he has been named "Man of the Year in Texas Agriculture for 1971." The award was announced by Charles Scruggs, editor of The Progressive Farmer magazine.

Mitchell County's Agricultural Credit Corporation was organized in 1932, with Thompson's help, and 20 years later he became chairman of the Farm Credit Board of Texas. This organization is responsible for the Texas operations of the Federal Land Bank, Intermediate Credit Bank, and Bank for Cooperatives.

Scruggs pointed out that "originally these banks were established with government money has been paid back, and the system is now owned by agricultural producers. Thompson played a major role in this unprecedented action."

Thompson's background in farming and educational activities goes all the way back to

his boyhood membership in the Mitchell County 4-H Clubs. In more recent years he has helped build Texas Tech into a university of national repute, having served 20 years on the University's governing board, 15 of these as board chairman.

The Progressive Farmer's recognition of Men of the Year in Agriculture began in 1940. Among those named in earlier years were: Wilmer Smith, Dolph Briscoe Jr., Roy B. Davis, C. B. Spencer and T. A. Kincaid.

Groups Discuss Drug Problems

First step in a community-wide drug education and prevention program was taken at a meeting held Monday between representatives of almost 30 local groups concerned with drugs and drug abuse in Big Spring.

The meeting, set up by Lynn C. Hise, assistant superintendent for instruction and school official responsible for drug education in the Big Spring schools, was designed as a communications session between the local groups, many of which had never before worked together.

Highlight of the program was an explanation of a drug use survey taken in the Big Spring schools, involving grades five through 12.

The drug survey was taken as part of the effort to comply with House Bill 467 of the 69th Legislature, which orders Texas schools to provide a drug education program for all Texas school children.

The group agreed to set up additional meetings, and decided that a monthly newsletter should be sent to all the local agencies working on the drug problem in Big Spring.

City Administration Sets New Zoning Procedures

New zoning procedures have been initiated by the city administration, Harry Nagel, city manager, reported today. The new procedure could feasibly hold up a request for three months before approval.

Under the new plan, a zoning request will have to go before both the planning and zoning board and the city commission twice before reading of the ordinance approving the request can be made.

Nagel explained that a person requesting rezoning of a piece of property must first submit the request to the planning and zoning board. If approved in that meeting, the board then calls a public hearing to be held in the next monthly meeting on the request.

Then the board's recommendation is sent to the city commission on the second Tuesday of the first month, and if approved, the city council will also approve the calling of the public hearing.

The following month the plan-

ning and zoning board holds the public hearing on the request, and then sends final recommendations to the city fathers, so they can make a final decision on the second Tuesday of the second month. Then the readings of the ordinance will begin.

"Under the old procedure, the planning and zoning board called for a public hearing before reviewing the request," said Nagel.

He said that with the new plan, the board would be able to review the request before calling the public hearing, and the city commission would have a chance to over-rule the board's decision.

By law the board and commission must publicize the public hearing 15 days before the meeting is held, and the new procedure will assure this is done every time, Nagel added.

Nagel also pointed out that after the formal public hearing is held, the commission also has a prerogative to either conduct the entire three readings on the ordinance, or grant that the ordinance be approved on emergency reading.

"This is to accommodate those persons requiring faster action on the request," said Nagel.

Requests presently before the planning and zoning board and the commission is the Medical Center Memorial Hospital rezoning request and rezoning request of the Malone and Hogan Clinic.

Nagel said the requests came under the old zoning procedure, therefore, the first reading of the ordinance will be held in the next city commission meeting Feb. 8.

The requests were approved on a split vote of 4-2 in the last session of the planning and zoning board.

Two requests for zone change and two requests for specific use permits will come before the board in regular meeting at City Hall at 5:15 p.m. today.

A request by Robert E. Wheeler will be made for a zone change at the corner of 18-20 and North Bell Street for the purpose of providing a parking area for a garage already established there.

Also a request by John Burgess, attorney in behalf of Robert J. Cook, realtor, will be made for a specific use permit on all of Block 44, and lots three, four, and 12, and lots three through 10, Block 47, Amended College Heights Addition for the purpose of establishing a convalescent home. Burgess also represents Cox Convalescent Center, Inc.

Another zone change request for the purpose of establishing a funeral home on all of Block 48, and lots one, two, part of 13 through 16, Block 49, College Heights Addition will be made by Ernest Welch, president of River-Welch Funeral Home, Inc.

K. L. Click will request a specific use permit for the purpose of placing a mobile home as a fixed dwelling for home and office use at 809 Johnson in the meeting also.

Glasscock's Top Barrow Shown By Garry Batla

GARDEN CITY — Grand Champion barrow at the Glasscock County Junior Livestock Show and Auction held Sunday and Monday, was a Duroc shown by Garry Batla.

The 200 pound Duroc sold for 51 cents per pound to the C & W Butane Co. of Garden City.

The Reserve Champion was a 190 pound Crossbred shown by Darrell Halfmann and sold for 57 cents per pound to the First National Bank of Big Spring.

The Champion Purebred (Hampshire) was a 204 pound barrow shown by Dorothy Schwartz and sold for 53 cents per pound to the McGibbon Oil Co. of Big Spring.

The pig showmanship award went to Mike Batla.

The Grand Champion Steer was a 950 pound Hereford shown by Ronnie Halfmann in the heavy weight division. He did not sell the steer.

The Reserve Champion Steer was a 960 pound heavy weight Hereford shown by Larry Batla. Larry also did not sell the steer.

The Champion Crossbred was a 1,150 pound steer shown by Ronnie Halfmann.

The lamb champions were shown by Jeanie West and Jody Kingston. Jeanie showed the top finewool lamb and the top medium wool lamb while Jody had the champion crossbred.

Jeanie's 107 pound finewool sold for \$1.30 per pound to the First National Bank of Big Spring. Jody's 87 pound crossbred sold for \$1.05 per pound to the C & W Butane Company of Garden City.

The lamb showmanship award went to Mike Blissard.

At the auction 20 lambs sold for better than \$1 per pound and 32 pigs sold for a 45 cents per pound average and four steers sold for a 45 cents per pound average.

Jack Hightower Filing For Ballot Place As Senator

SEN. JACK HIGHTOWER

Now in the mail are formal requests for a place on the ballot in the Democratic primaries by Jack Hightower, Vernon, candidate for re-election as state senator from the 30th Senatorial District.

Sen. Hightower has been an announced candidate for some time, but formal filing with the county Democratic committee was delayed due to litigation involving Senatorial district boundaries and questions of filing fees.

Some of the legal questions having been resolved, it is now known which counties will be included in the 30th Senatorial District, he said.

Sen. Hightower is in his eighth year in the Senate. He also served one term in the Texas House of Representatives and was district attorney of the 16th Judicial District for seven years prior to his election to the Senate.

A legislative leader, Sen. Hightower was chairman of the Senate's administration committee and played a role in seeking improving legislative processes.

In addition to membership on major Senate committees in the last session of the legislature, he served as president pro tempore of the Senate. On April 3, 1941, while serving as acting governor, the people of the 30th District honored Sen. Hightower and family in

"governor-for-a-day" events in Austin. Sen. Hightower, 45, is a native of Memphis, Hall County, and he and his wife, the former Colleen Ward of Tulsa, have three daughters, Ann, 19, student at Baylor University, Amy, 15, and Alison, 12, Allison, 12.

Howard County has been in a district represented by Sen. David Ratliff, Stamford, who said several months ago that he would instead run for a seat in the House of Representatives since his district lines had been drastically changed.

DEATHS

Mrs. Mackey Rites Today

COLORADO CITY — Mrs. P. K. Mackey, 89, died Monday morning in Root Memorial Hospital after an extended illness.

Funeral services will be held at 2 p.m. Tuesday at the First Christian Church, with the Rev. Weems Dykes officiating, assisted by Rev. Billy Wilkinson, the pastor of First United Methodist Church here.

Burial will be in the Colorado City Cemetery under the direction of Kiker-Rains-Seale Funeral Home.

Mrs. Mackey was born Pearl McClure in Decherd, Tenn. She was married to P. K. Mackey in Hillsboro Sept. 22, 1905. They came to Colorado City in 1931. Mr. Mackey, prominent rancher and banker, preceded her in death in 1954.

She was a member of the First Christian Church, the 1921 Study Club, and the Merry Wives 42 Club.

Survivors include one daughter, Mrs. George Witten, Colorado City; six grandchildren and six great grandchildren. Two sons who preceded her in death.

Stanton Has Jaycee Unit

STANTON — The Stanton Jaycees were officially formed at a meeting Monday, according to Herb Sorley, new vice president of the organization.

"We had about 20 people present, and we have 23 paid members and about five more who we think will join."

Jaycee officials are Mike Black, president; Herb Sorley, vice president; Bud Gillespie, treasurer; Terry Franklin, secretary; Danny Pennington, chaplain; Roger Fleckenstein, two-year board member; Gary Deitiker, two-year board member; James Jenkins, one-year board member; and James Lewis, state director.

The next meeting will be held Monday to discuss the charter banquet, to be held in mid-February.

Regular meetings will be held the second and fourth Monday of each month at 8 p.m. in the Texas Electric Reddy Room. The meetings are open to any person who would be interested in joining the Jaycees.

Illness Fatal For Michigan Man

Wayne Merrill Lowry, 58, who became ill a month ago while visiting here, died here early Tuesday.

Arrangements are pending at the Nalley-Pickle Funeral Home.

Mr. and Mrs. Lowry, who live in Bridgman, Mich., had been visiting in the home of Mrs. M. S. Warren and family at 605 E. 15th when he became ill Jan. 6. He died following a series of complications.

He was born Dec. 27, 1913, in Indiana and was married in 1947 to Miss Wanda Warren in Big Spring. He had attended Kalamazoo Michigan College and then obtained his M.A. degree from Western Michigan university. For six years he taught school, but for a number of years had been in the printing business. He was a veteran of World War II, having served with the 120th Evacuation Hospital in Germany. He was a member of the Sawyer-Highlands Baptist Church in Sawyer, Mich., of the American Veterans Post 88 in St. Joseph, Mich., and an active worker in and member of the National Association for the Physically Handicapped. He also had authored a genealogy of the Lowry family.

Surviving are his wife, Wanda; his father, Fred Lowry, Lawton, Mich.; four sisters, Mrs. Mary Hartwell, Deputy, Ind., Mrs. Louise Irons, Lawton, Mich., Mrs. Oletha Johnson, Coldwater, Mich., and Mrs. Betty McGuire, Kalamazoo, Mich.

William Sherman Rites Pending

William Sherman, resident of Big Spring for 23 years, died in a hospital here Monday at 2 p.m. after a prolonged illness.

Arrangements are pending at River-Welch Funeral home, but

MISHAPS

Northwest Second and Benton: Claude Jimmy Hale, Box 396, Coahoma, and other vehicle left scene; 8:51 p.m. Monday.

Lister Service Due Wednesday

Funeral services for Cornelius Lister, 61, will be Wednesday at 2 p.m. at the River-Welch Funeral Chapel with interment in Mount Olive Cemetery.

Mr. Lister, victim of a shooting, is survived by his wife, Pearl Lister, one daughter, Joyce Marie Lister, Big Spring; two brothers, L. C. Lister and Datson Lister, both of Terrell.

Rites In Alabama For C. E. Mills

The body of Curtis E. Mills, 57, of 3701 W. Highway 80, will be sent Wednesday by Nalley-Pickle Funeral Home to Reform, Ala., for last rites in charge of Stabler Funeral Home.

Mr. Mills dies Monday at Webb AFB Hospital. A veteran of World War II who had combat wounds in Germany, he had retired after 20 years of service. For the past 10 years he has been a civil service worker at Webb AFB.

Surviving are his wife, Mrs. Edith-Morris Mills, and one daughter, Candice, both of Big Spring.

THEFTS

Jimmy Rose reported to police Monday the theft of an electric welder, valued at \$150, and various tools. Total value of the stolen items was \$287.

Location Spotted In Clearfork

One location was spotted in the middle Clearfork section of the Howard-Glasscock field on today's oil report.

There were two completions in Martin County's Spraberry Trend, one of them a failure in the Strawn.

An attempted drillstem test on Midwest No. 1 Myers in Dawson County failed when the test tool stuck.

LOCATIONS

HOWARD
Howard-Glasscock (middle Clearfork) — Wood, McShane & Thoms No. 1 Fluor-Read, 1960 from the north and 600 from the west lines of section 141-29, W. 1/4, 18 miles southeast of Coahoma, to 3,850.

DAILY DRILLING

MARTIN
Adobe No. 1 Kelly total depth 11,764, moving off rotary; set 5 1/2-in liner from 9,417-9,780.
John L. Cox No. 2-B Tom Lindsey drilling 6,240.
Cox No. 4 Mabee drilling at 7,995.

Cox No. 1 Mary Wolert drilling 8,890.

BORDEN
Midwest No. 1 Reynolds drilling 7,464.

DAWSON
Midwest No. 1 Myers total depth 4,050, from drillstem test from 3,900-4,050; shut in the test tool.

HOWARD
Cardinal No. 46 Settles total depth 4,000 plugged back 3,830, shut in perforations 3,418-3,725.

Coahoma Flu Wave Wanes

COAHOMA — The Coahoma schools appeared to have turned the corner in their battle against the flu bug today.

Although nearly 10 per cent of the student population is still out, the number of absentees is declining.

At mid-morning, there was no count on the high school which had 22 out yesterday, but indications were the absentees were less. In elementary schools the 86 pupils and two teachers absent was down from about 100 pupils and three teachers Monday.

The flu epidemic first forced closing of the schools Jan. 18, then again last week on Jan. 26 when administrators decided more time was needed for pupils and teachers to recuperate. At that time about 200, or 20 per cent, were out.

One Is Charged In Saddle Theft

Howard County Sheriff's department has recovered three saddles reported stolen Jan. 28 from the Chalk estate at Forsan. One man has been arrested, charged and released on \$500 bond in connection with the theft.

Richard Lopez, 20, of 606 N. San Antonio, was arrested by deputy sheriffs Monday afternoon and released on \$500 bond set through the sheriff's office.

FIRST SNOW — Samran Wore Walker, a new Big Spring resident from Thailand, builds her first snowman in the first snow she has ever been in. She played in the 1 1/2-inch of snow Big Spring had Monday all day long, despite her normal fear of the cold.

Snow Is New Experience For Native Of Thailand

Samran Wore Walker woke up Monday to see the first snow of her life.

The 22-year-old housewife is from Thailand, where it is there no snow, but people consider 55 degrees a cold snap.

Mrs. Walker arrived in the United States in June and was married in September to former Air Force Sgt. Harland-Hiram Walker.

"I like the snow very much," she said. "My mother and sisters and brother have only seen snow in the movies, and they didn't really believe in it, but I would see them some, but it would melt."

Samran played out in the snow all day. "I am scared of the cold, but yesterday I forgot all about it. This was my first snowman. It is not too good, but my husband showed me how to do it better next time."

Samran is sending pictures of herself and the snow to her family to show them that there really is snow in Texas.

Evidence On Five Cases Given Jury

Evidence in five cases had been presented to the Howard County Grand Jury by shortly before noon today.

District Attorney Wayne Burns said that he expected to finish his presentation of evidence by noon Wednesday unless the number of witnesses to be presented in some of the cases caused delay.

Cases to be presented total 12, including those of one defendant charged with murder with malice, two with assault with intent to murder, one with robbery by assault, two with burglary, one with theft over \$50 and another with theft by bailie, one with forgery, two with circulating worthless checks in amounts over \$50, and one charged with a second offense of driving while intoxicated.

Chamber's Dinner Ducats Total 478

Ticket sales for the Chamber of Commerce banquet Wednesday have been pegged at 478, with some uncounted tickets still to be picked up.

The banquet will be held at 7:30 p.m. Wednesday in the high school cafeteria. The speaker at the banquet, with the theme of "Industry and You-72" will be Tom J. Vandergriff, longtime mayor of Arlington and one of the state's outstanding public figures.

WEATHER

SOUTHWEST TEXAS, EAST OF THE PECOS: Partly cloudy and warmer this afternoon and tonight, except for considerable cloudiness and fog in east tonight. Becoming mostly cloudy Wednesday. Turning colder. Northwest Wednesday afternoon. Slight chance for a few showers in north. Wednesday, High 48 in south. Low tonight 34 in north to 48 in south.

OVER 65 ONLY: ENROLLMENT PERIOD ENDS MIDNIGHT FRIDAY, FEBRUARY 4, 1972

Here's where most folks over 65 find out...too late... what Medicare does not pay...

Now, for just \$1 for your first month's protection, you can examine 'on approval' this sensible, affordable Plan! New Elder-Care® pays you up to \$50,000 Tax-Free Cash! It covers every hospital expense that Hospital Medicare leaves out, except the initial deductible!

- only \$3 a month after the first month!
- no age limit ■ no health questions
- all pre-existing conditions are covered!

Your first month is only \$1. And you get your dollar back if you're not completely satisfied.

IMPORTANT ANNOUNCEMENT

MEDICARE COSTS JUMP AGAIN!
Now You Must Pay 13 1/3% MORE!

Effective January 1st 1972 Hospital Medicare payments increased again, by law! Just as in past years, amounts that patients must pay rose very sharply - up 13 1/3%! Fortunately ELDER-CARE owners need not worry! Once again this Plan automatically adjusts to cover increased hospital charges... yet it still costs just \$3 a month. Today your Initial Deductible is \$68 (up from \$60!); after the 60th day you must pay \$17 per day (up from \$15!); and your "lifetime reserve" contribution is now \$34 per day (up from \$30!). These continuing annual increases make it more important than ever to protect yourself at today's rates! Send your Application NOW - before the postmark deadline.

MEDICARE IS GREAT-BUT!

Wake up friends. Blessing that it is, please realize that Medicare isn't everything many folks suppose. It has Gaps—deductibles, percentages and charges that you must pay out of your own pocket. And recent changes have increased those Gaps. The Government pays less and you pay more! What a shock to find this out too late. Today, even with Hospital Medicare, a long siege of illness in the hospital could leave you with crippling financial debts.

DON'T LEARN THE FACTS THE HARD WAY! After you're laid up, it's a little late. Under Medicare today you pay the initial deductible for each "benefit period". That's the first \$68 of hospital expenses. Then from the 61st day of the period you must pay \$17-a-day. After 90 days this increases to \$34-a-day - \$238-a-week, \$1020.00-a-month—that you must pay. Plus you start dipping into your Hospital Medicare 60-day "Lifetime Reserve". And after your Lifetime Reserve is used up, Hospital Medicare won't pay you a cent for the rest of that period. Think what a long spell of illness could mean—the slow kind that older folks get more than anyone else! You could be stuck with unpaid bills that could wipe out retirement savings... force you into borrowing (at today's rates)... selling your home... even turning to your children for charity!

ARE YOUR PARENTS OVER 65? READ THIS!

Right now you have an opportunity to help protect your parents against today's skyrocketing hospital bills. A long illness can easily exhaust their savings. That's why we urge you to bring this plan to their attention immediately—and help them get \$50,000 worth of lifetime maximum benefits. Or better still, just complete the form below for them using your address and we will send the Policy and payment notices to you.

THIS PLAN IS A MUST FOR ANYONE OVER 65

If you feel Medicare Gaps are confusing, you're right—they are! Worse—they're expensive! Part 'A' of Medicare is Hospital Insurance, designed primarily for in-hospital costs. Part 'B' is Medical Insurance, for doctors and medical service bills. This Plan supplements Part 'A' to protect you for every eligible Medicare hospital expense that Hospital Medicare doesn't pay. After your initial deductible, you're covered for all the Hospital Medicare Gaps—100%—with no time limit—no matter how much or how often you collect—up to \$50,000.00 tax-free cash! And no matter how Hospital Medicare Gaps widen in the future, you needn't worry. This Plan fills in automatically. There's no finer Plan in America today!

MEDICARE GAPS KEEP GETTING WIDER

The law requires that Hospital Medicare costs must be reviewed each year—and if hospital charges change significantly, the money that patients contribute must be adjusted the following year. Well, it's no secret; it's already happened three times—in '70, in '71 and again in '72. In fact, hospital costs have TRIPLED in the past few years. And are still increasing! There's little doubt about it. You'll wind up paying even more. That's why our Elder-Care Hospital Plan makes so much sense!

THE COMPANY BEHIND YOUR ELDER-CARE

Elder-Care is issued to citizens over 65 no matter what their present state of health by Union Fidelity Life Insurance Company of Philadelphia, a progressive old-line legal reserve company. Union Fidelity is recommended by both Best's and Dunne's, the insurance industry's leading independent rating authorities.

EVERY GAP IS ANOTHER PROBLEM FOR YOU:

The Social Security Administration estimates that Medicare will pay less than half of your total health cost! That's why this Elder-Care Plan is so vital. It assures you virtually complete hospital coverage no matter how much Hospital Medicare pays (or doesn't pay) in the future. It assures you will never be saddled (or saddle anyone else) with bankrupting hospital bills. It's like having up to \$50,000 set aside against a rainy day!

ANY CONDITION YOU HAVE NOW IS COVERED NOW!

There are no tricky "catches" or "waiting periods". All pre-existing conditions (physical illness you've had or have right now) are covered in any recognized hospital, from the moment your policy is in force. Here are the only exceptions: Federal or State Government facilities, mental institutions, sanitariums for alcoholics or drug addicts, and geriatric extended-care facilities like nursing or rest homes. Loss paid by Workmen's Compensation or Occupational Disease Laws is not covered. Your plan cannot be cancelled as long as you pay your premiums, and the \$3 rate cannot be raised, unless a general rate adjustment - up or down - applies to everyone in your state.

SEND \$1 FOR YOUR FIRST MONTH'S PROTECTION...

while you examine your Elder-Care Plan. It's yours with a money-back guarantee. Examine it carefully in the privacy of your own home. There's no "fine print". Show it to any trusted advisor. Indeed, show it to your doctor. He knows about the limitations of Hospital Medicare. He'll tell you how valuable this Plan really is. Even then, if you're not completely satisfied, return the policy within 30 days and we'll promptly refund your money—no ifs, ands or buts! It makes sense to protect yourself now for such a low amount—while you make up your mind! If you decide to continue, your regular monthly premium is only \$3 per person. A small premium for so much peace of mind!

ENROLL AT ONCE—NOW IS THE TIME!

Everyone over 65 automatically qualifies during this mass enrollment period—with no medical questions asked! The closing date, however, is definite! We cannot accept applications after the postmark deadline. So please don't hesitate. You are protected by an iron-clad 30-day money back guarantee. Mail your Application Form, with only \$1, regardless of the number of people to be covered, before the midnight deadline. Act now, while the thought is uppermost in your mind!

9 IMPORTANT QUESTIONS AND ANSWERS

- Q. If I have Medicare, why do I need this Plan?**
A. Medicare, with its maximum limitations, was never designed to cover all hospital expenses. But the amount you pay gets bigger! \$17-a-day is up from \$15! \$34-a-day is up from \$30! Where will it all end? These widening Gaps could cost you thousands of dollars. But Elder-Care relieves your hospital money worries—up to \$50,000 security in tax-free cash!
- Q. How do I collect my benefits once I'm in the hospital?**
A. There's a simple form to be completed by you and your doctor—and that's all there is to it. As soon as your request reaches us, it gets immediate attention. Folks all over the country have praised the speed and efficiency of Union Fidelity's claim service.
- Q. Can I enroll if I'm not in good health?**
A. Yes you can. There are no medical questions to answer. No matter how poor your health, any health condition you have right now is covered. There is no waiting period. And of course, any accident or future health condition is covered too.
- Q. Can you cancel me, or raise my rates if I go in and out of the hospital, or if I collect thousands of dollars?**
A. Absolutely not! Your Plan cannot be canceled as long as you keep up your low premiums—no matter how often, or how much, you collect—up to the \$50,000 maximum. And you'll never pay more than \$3 per month, unless a general rate adjustment is made on all policies of this class (Form 1-919) in your state.
- Q. Does this plan cover doctor bills?**
A. No. Private doctor bills are not covered by Elder-Care because they do NOT come under the hospital part of Medicare. For protection against doctor bills make sure you're signed up for the Medical part of Medicare through the Government.

- Q. How can it cost only \$3 a month?**
A. Because the initial deductible is not insured—that's still your responsibility. Without this one provision Elder-Care would be too costly to afford. With it, however, this Plan is exceedingly reasonable. Hospital Medicare covers most expenses in the first 60-day hospital benefit period. Then Elder-Care fills in the rest of the hospital benefit Gaps—100%—provides up to \$50,000 long-range protection. In addition, mass-enrollment by mail—plus no medical questions to process—keeps policy-issue costs at a minimum. And since no salesman will call, there are no sales commission costs. All these savings are passed on to you!
- Q. If I have other hospital insurance, doesn't it cover these Medicare Gaps?**
A. Unfortunately no! Many other plans specify exclusions, riders, and limitations on Medicare. They don't bridge all the Gaps, particularly as benefits are adjusted. But with Elder-Care you know that hospital Gaps are covered automatically with up to \$50,000 protection. There's no waiting period—you're covered immediately for pre-existing conditions. And note: this Plan pays in addition to any other coverage you may have. It's your money to spend as you wish.
- Q. What other advantages are there to joining this Plan right now?**
A. During this period there is no red tape of any kind. Just fill in the simple Application Form here. And you enjoy a 30-day approval guarantee! You're protected for only \$1 while you examine your Elder-Care Policy. If you're not completely satisfied return the Policy within 30 days and we'll promptly refund your money. In the meantime, you're still protected!
- Q. How do I enroll?**
A. Complete the Application Form at left and mail with only \$1 for the first month's protection. Your spouse, if over 65, may also be enrolled on this form. But do not send more money! \$1 covers you both during your 30-day approval. Be sure to sign your name and mail before the postmark deadline.

Jean Adams' TEEN FORUM

SISTER WATCHER: (Q.) My brother's curiosity is ridiculous. When my girl friends visit me, he spies on us. He is always watching me. What can I do to stop him from being so curious and nasty? I am 13 and he is 12. — Maniac's Sister in Michigan.

(A.) Your brother's interest seems to be in girls in general. That is good. It is not good for him to be too interested in you, personally, or for you to be too interested in him. Your letter tells me that despite your complaints you are sort of pleased that he is so interested in you. Ask your parents about putting a lock on the bathroom door and giving everyone, including your grandmother, a key. Tell them what your brother is doing. At least get a lock on the door to your room, and use it, so that you and your friends can have privacy.

Spicy Manual Is Circulated

NORMAN, Okla. (AP) — Copies of a 48-page pamphlet containing information on birth control and abortion, and illustrated with a picture of a couple engaging in sexual intercourse, have been distributed to students living on the University of Oklahoma campus.

The handbooks, 3,000 of them, were passed out by Residents Action, a campus organization set up and funded last year by the OU student congress.

Residents Action Director Dan Scull, a Norman junior, said the handbooks contain "just plain old physical facts about the body."

Distribution of the pamphlets, purchased for \$250, was completed Thursday to OU's five major dormitory centers and to fraternities and sororities. Scull said the purchase was a "wise investment because the money was spent in the best interests of the student."

"I don't see why this should bother anybody because you can't be offended by something unless you look at it first," he said. "It contains facts which Residents Action firmly believe students everywhere have a right to know."

BLUE VELVET: (Q.) I'm going to a snowball and I need to know what kind of accessories to wear with a royal blue velvet gown. Also, should the guy I'm going with wear a shirt the color of my gown or plain white? — In a Hurry in Pennsylvania.

(A.) Silver, white or black goes with royal blue. For winter, the silver or black would be best for shoes and handbag. You can carry short white gloves. Whether or not your date wears a blue or white shirt is up to him.

Rockefeller Sells Oklahoma Ranch

KANSAS CITY (AP) — Winthrop Rockefeller, former Arkansas governor, has sold a 14,000-acre ranch near Sulphur, Okla., to a North Kansas City management firm, effective today.

The purchaser, Lacy Management Co., operates more than 20 other registered and commercial Hereford ranches in Oklahoma, Missouri, Kansas and South Dakota.

Pilot's Fault

PRETORIA, South Africa (AP) — Private pilot George M. Hattingh's plane hit a power line and he made an emergency landing, so he sued the Electricity Supply Commission for damages. The court rejected his claim and awarded the commission \$8,038 for damage to the power line.

Mafia Rates Top Priority

HOUSTON (AP) — Saying that the Mafia is trying to move into the Houston area, Dist. Atty. Carol Vance said Monday he is setting up a special division in his office to combat organized crime.

"I will actively supervise their activities on a daily basis," Vance said. "There will be no higher priority in the district attorney's office."

The new division will be staffed by three assistant district attorneys who will also carry the title of investigator and be commissioned as peace officers, Vance said. The new division will be financed by a grant of \$138,000 from the Texas Criminal Justice Council.

Eight Members Of Family Victims Of Asphyxiation

HUERFANO, N.M. (AP) — Eight members of a Navajo family were found dead Monday in their trailer home near Huerfano Trading Post in northwest New Mexico.

San Juan County Coroner L. B. McCarty said the victims, Levi Werito, 38, his wife, Pauline, 30, and their six children died of asphyxiation.

Undersheriff Doug Brown said a butane heater had been installed without proper venting in the trailer home living room. The children were identified as Deanna, 13, Rena, 8, Vera, 7, Verna, 6, Lavern 2, and Levi Werito Jr., 4.

Dr. McCarty said the victims had been dead since Saturday night. Brown said Mrs. Werito's mother, Edith Platero, and a sister, Ida Platero, had gone to the trailer home early today and were unable to get response to knocks on the door.

They went to a nearby Ber-

ean Mission and returned to the trailer with Robert Foster, who tried a trailer door open, about 2:05 a.m.

Foster found the bodies, turned off the butane gas heater and notified the sheriff's office in Aztec.

Sheriff's officers said the trailer home was comparatively new and the regular heating unit had not been

hooked up because there was no electricity. The interior of the trailer was covered with soot, officers said. Werito's body was found on the floor near the bathroom and the rear door of the trailer. The boy's body was on the floor in the sleeping area. The bodies of Mrs. Werito and the five daughters were on beds. Officers theorized Werito had become conscious, noted the fumes, and was trying to reach the door when overcome.

50 Solved Cases

FONTEWAY LE COMTE, France (AP) — Joseph Barbeau, 22, said he wanted to become a policeman and offered to help detectives working on a series of about 50 unsolved burglaries. They questioned him and ended up charging him with the crimes.

Maybe A New Minority

Results of the balloting in Arizona last weekend to select 500 delegates who will name the state's 25 delegates to the National Democratic convention were surprising in one respect — the unexpectedly strong showing of Mayor John V. Lindsay of New York. He ran second to Sen. Ed Muskie of Maine in the preferential balloting.

While Sen. Muskie's lead was substantial, 38 per cent to 24 for Mayor Lindsay, the combined percentage of Lindsay and Sen. George McGovern of South Dakota, another pronouncedly dovish candidate, is 44 per cent — or more than Muskie's. If they combine forces, as they likely will, this means that Muskie must get better than 12 per cent out of the 17 per cent divided between Sen. Henry Jackson and Sen. Hubert Humphrey in order to capture the state's entire delegation. To block his leading adversaries, he may swing it with another six to seven per cent from the two rear-guard runners.

How come the surprising vote for Lindsay? It may take a better analysis than is possible from early wire reports, but there are indications that the New York mayor had been able to cut deeply into the aggressive youth block, which is flexing its muscles with the advent of 18-year-old voters.

Chances are that this may not yet prove decisive in Arizona, but it may be a harbinger

of what to expect not only in other primaries but in the national election. The older voters, who have had control of partisan machinery, may find that activist politics of the young beats apathy of their elders when the votes are counted.

While politicians have been worried about their minority or ethnic groups, such as the blacks, they may now have an equally formidable one from an unexpected source — the young voter.

Who Feeds Bangladesh

The Soviet Union is playing a waiting game with the United States regarding Bangladesh.

Russia reportedly is in no rush to recognize the new nation, formerly East Pakistan. Object of the waiting is for international pressure to build on the U.S. so it will pick up the tab for rebuilding a devastated country.

The tab will be enormous, in the billions of dollars. Russia, which is suffering from an agri-

cultural shortage and trying to buy grain from the U.S., is in no position to head off famine in Bangladesh. Instead it assumes the U.S. will use its crop surpluses and assume the burden.

Russia and India bear the responsibility for Bangladesh's plight. The Soviets supported Indian military intervention which split the country from West Pakistan. Russia and India must be prepared to accept the consequences of their actions.

Home Business

Around The Rim

Jo Bright

At one time or another, many people, especially women, wonder how they can earn money at home. To actually obtain such income, one must first think of a product or service that somebody else needs. If you can supply it from your own home, you're in business.

HERE ARE SOME ideas that have worked for housewives and others. One of them might work for you.

1. Take in typing. Your best students are college students and professionals. Advertise in the newspaper or on student bulletin boards, offering quick, reliable work. What you charge depends on the type of job.

2. MAKE MINOR repairs. There should be a need for handymen with a knack for repairing small appliances, putting in window panes, fixing stuck doors, installing locks and cabinets, repairing concrete and what have you. Here again, you can advertise in the paper or distribute leaflets.

3. Cater picnics and parties. This can vary from sandwich lunches for nearby workers to full dinners for parties. Potential customers include civic organizations, college and high school groups, clubs or individuals.

(Check licensing requirements for food handlers.) Advertise in newspaper and club or plant bulletins.

4. TEACH OR TUTOR. For this you need above-average proficiency in some activity (bridge, sewing, painting, etc.) or knowledge of a particular subject (such as geography, grammar or a foreign language) and a flair for teaching. Customers could be school-age youngsters, housewives, businessmen.

5. Sell flowers and plants. Florist shops and other stores sometimes accept home-grown flowers and plants on consignment. You might survey florists and variety store managers in the area to see whether you have a market.

6. RAISE ANIMALS. Pet stores are potential customers for carefully raised white mice, hamsters, guinea pigs and other small-cage animals. (Be sure to check with your local investing in equipment or animals.)

7. Answer telephones. Usually, some switchboard — experience is necessary. One or two-man offices and shops are possible subscribers to a business-hours-only service, since missed phone calls can mean lost customers. Ask the telephone company about equipment and rates. Survey businesses to determine need.

Key Is In Moscow

David Lawrence

WASHINGTON — The big mystery is not why Hanoi has turned down the American eight-point plan for the withdrawal of troops and an internationally supervised election in South Vietnam following a cease-fire throughout Indo-China. The real source of curiosity is why a small government would reject a simple offer that assures both North and South Vietnam their independence. The answer probably is that it was advised by Moscow to wait until after the November elections here in the hope that another American president might pull out all our forces without any conditions and let North Vietnam dominate Indo-China.

CERTAINLY RED China is not likely to have held Hanoi back, because there is no advantage to the Peking regime in such a policy. But the Soviets, who have moved into the Indian Ocean with their navy and have enlarged their influence in India and South Asia, presumably want to gain a strong ally in North Vietnam, to which they have been sending arms and munitions amounting to billions of dollars in the last few years.

President Nixon was right in making public his proposals and the details of his private negotiations with the North Vietnamese, which began 30 months ago. The fact that he offered last October a comprehensive plan for peace will be helpful to him in this country, because many people have not known that he is ready to set a date for total withdrawal of our forces as soon as an over-all settlement has been reached. But apparently the North Vietnamese have brushed the proposal aside and prefer to wait until November.

hearing differing opinions about the Vietnam war. But what is needed now is unity behind the President by the critics and aspiring presidential candidates so that the Soviets will not be misled into thinking that the eight points presented by President Nixon will be abandoned by the next administration if he fails to win re-election.

The dissension inside the United States has been reported widely throughout the world, and the impression has prevailed that President Nixon was not trying to end the war. But his latest announcement shows clearly his willingness to terminate American involvement within six months after an agreement is reached with North Vietnam.

WHILE RED CHINA has been helpful to Hanoi, it may be doubted whether Peking would stand in the way of a peace treaty between North Vietnam and the United States and South Vietnam. Only the Soviet Union would undertake such a risky course. But being assured of Soviet help, the North Vietnamese doubtless feel that they can decide what to do after the November elections here. If Mr. Nixon is re-elected, they can then negotiate a peace agreement with him and end the war. But if he is defeated, they believe they will get better terms and be able to take over South Vietnam through an election process which they hope to find a way to control.

THE GOVERNMENT here sees no reason to delay a settlement. The sooner an agreement can be reached, the earlier the fighting will end and our troops will be withdrawn. But the key to the whole problem is really not in Hanoi but in Moscow.

(Copyright, 1972, Publishers-Hall Syndicate)

Investment Secrets?

John Cunniff

NEW YORK (AP)—Can the small investor who is barely able to set aside \$5 a week actually make money in the stock market? Or will the high commissions and the market's volatility make him a loser?

Many thousands of Americans are living evidence that it is easier to lose than win in stocks, which makes the view of George Nicholson especially interesting and potentially profitable.

"I'm convinced," says Nicholson. "It is possible for people to achieve a goal of \$20,000 invested in stocks in a 20- to 30-year period by budgeting \$20 to \$30."

Nicholson, research partner in a Detroit brokerage firm, happens also to be a member of the advisory board of the National Association of Investment Clubs, which perhaps would tend to color his opinion.

He was, however, giving more than a mere opinion for the record—he was speaking of the record. NAIC members have averaged nearly 15 per

cent a year over their lifetimes. Nicholson gave his views as the NAIC released its latest survey of club performance. It was conducted from April 1970 to April 1971, during which the clubs averaged gains of 37.5 per cent, a figure that exceeded most of the popular indices and averages and which was better than most mutual funds.

The organization is made up of 12,500 clubs with an average membership of about 13. Because of the instruction they receive, club members are less inclined to panic, as do many small investors. During the past two years, when many stocks were greatly underpriced, clubs built up their portfolios.

What are the secrets? None. Says Nicholson: "Investment clubs which succeed are the ones which follow our philosophy that investing is a long-term proposition."

From the beginning of NAIC, he says, clubs have observed three guiding principles:

1. Invest every month, regardless of what the market does.
 2. Re-invest all dividends.
 3. Buy growth companies.
- Successful clubs, Nicholson explains, do not look for signals in day-to-day market moves, and they ignore the peaks and valleys of the traditional market indicators. Instead, they study the fundamentals and keep cool.
- When is the time to begin an investment club? "Now," says Nicholson.
- "You can't put off waiting for ideal conditions. There is always uncertainty. Usually the most uncertainty there is, the best stock prices are for long-term investment."

The most dangerous time to begin a club, he says, "is when all stocks are going up every day." Nicholson has observed that a club formed under such conditions or to take advantage of them is poorly prepared when the tide turns. Often it will break up.

Mission Impossible

Art Buchwald

WASHINGTON — The biggest mystery of President Nixon's speech last week was when he revealed that Henry Kissinger had made as many as 10 secret trips to Paris to negotiate with the North Vietnamese.

MOST PEOPLE who watched the President found it hard to believe that Mr. Kissinger could have gone to Peking twice, Paris 12 times and Hollywood 456 times.

How, the big question is, can one man do it?

The answer can now be revealed. There is not one Henry Kissinger, but five.

When President Nixon first came into the White House, he knew he was faced with problems all over the world. He also was aware that he needed a foreign affairs expert who could speak in his name. But he didn't want to spread these duties around.

SO HE CONTACTED the National Institutes of Health in Bethesda, Md., and gave them the problem. The NIH said they were working on a project where they could turn out five people completely alike in every respect. All they needed was a model.

The President called in Henry Kissinger, who was then a professor at Harvard, and told him what the President had on his mind. The real Kissinger, who hates to fly agreed to go along with the plan.

He went to NIH for a month, and the doctors got to work duplicating exact models of him (most of the volunteers were German scientists who had been laid off by the space program).

PLASTIC SURGEONS went to work on the faces. Hair specialists and make-up men were brought in. In a few cases transplants had to be made to get Kissinger's exact measure-

ments. By trial and error with 12 volunteers, four were finally selected who looked, talked and appeared to be facsimiles of Kissinger. (The seven volunteers who didn't make it were buried at midnight with full military honors.)

WITH FIVE Henry Kissingers to work with, President Nixon was able to go ahead with his foreign policy plans.

A special dormitory had been built in the basement of the White House where all the Henry Kissingers lived when they weren't out on a trip.

Whenever the President wanted a Kissinger for an assignment, he spoke into a special microphone attached to a loudspeaker in the dorm: "Who wants to go to Peking?" If more than one Kissinger wanted to go they would cut cards for it. If the President needed a Kissinger for a back-grounder in the White House, he would yell down, "Will one of you guys come up to brief the press?"

THE MOST ingenious part of the startegy was when someone in the White House decided to give Kissinger the image of a swinger. "If we make him a swinger and have him photographed with beautiful women in Hollywood, New York and Washington, we will have everybody fooled. At the very moment that he's dancing with Jill St. John, one of the other Kissinger's will be eating sweet and sour pork with Chou En-lai."

While all five Kissingers wanted to play the role of the swinger, it was decided to give it to the real Henry Kissinger, as a reward for lending his name and his body to the foreign policy of the United States of America.

(Copyright, 1972, Los Angeles Times)

Hal Boyle

NEW YORK (AP) — You're an old-timer if you can look back and remember when—

You could tell a floorwalker because he had a carnation in his lapel and often wore a waxed moustache.

It was a laborious chore for most people to write a check because they did it so seldom.

Every passenger train had a mail car on it. Having a private Pullman car—not owning a yacht—was the most popular symbol of great business success.

Dentists preferred to pull bad teeth rather than try to save them, and you could get one pulled for \$1. A strong dentist prided himself on his ability to remove a tooth with his bare fingers.

There were 48 stars in the American flag, and the average man doubted there ever would be any more.

It was common for a person to die in the same house he was

born in, and he expected to be buried in the same cemetery where his grandparents lay.

Few women aspired to careers outside the home. A sensitive woman was repelled by the moil of the market place. She was quite content to be known as a good wife, a good cook, and a pretty fair hand at growing roses.

The biggest problem many a mother had with her son was getting him to hold still while she washed behind his ears.

Growing up on the farm then wasn't as difficult for a boy as growing up in a city is now. After he had conquered the arts of milking a cow and harnessing a horse for the plow, there really wasn't much for him to learn until he got married.

You knew you were in a home of culture if it didn't have a cuspidor beside the coat stove in the living room.

There were more people who had heard of cocktail parties

than had been to one.

When a fellow didn't have anything else to do, he could always look busy by just standing there with his hands stuck in his back pockets and pretend he was thinking.

You always came home from church on Sunday so scared by the preacher's sermon that you wondered if you could keep from going to hell before you got a chance to go to church again.

In a large family no piece of clothing was thrown away until it had four patches on it, two holes in it, and had been worn by at least three children.

Older women rather looked down on a young mother who didn't breast feed her children.

It didn't cost so much to live then, because people didn't need to buy so many gadgets to take their minds off themselves. People were their own best fun.

Those were the days—remember?

Deluded India

William F. Buckley Jr.

NEW DELHI — It was an intellectual, not Gunga Din, who told me, his eyes alight, that this was the first real war that India had fought, that the others didn't really count because they were primarily factional, or unsuccessful, for reasons which are now extraneous. This was the war that India won, against the Pakistani, without any help from the United States. What happened, he explained, was that after the humiliations of 1962, when the Chinese Communists easily had their way during the great border dispute, it began to dawn on India that the age of Nehru was passing.

IN DUE COURSE Nehru died. A close study of the failures of the Indian Army in 1962, and of Indian diplomacy, suggested the wave of the future. And, when tested last December, the Indians proved victorious.

It was a conclusive military victory. The implications of it, as they are understood by Indian enthusiasts, are immense. India (you will hear) is the fourth major power on earth, after America, Russia and China. Far more important than Japan, because — as someone put it — Japan's umbilical cords are too easily cut. India, with her enormous population (550 million), her natural resources, and her strategic situation, can't help, particularly now that she has been annealed by the December victory, from emerging as a great power. How lucky that she had the wit not to sign the nuclear anti-proliferation treaty!

That was a highbrow talking. Listen to how it comes through as rendered by the cheering section.

"HOW... DID this miracle — for no less it was — come about? Can that frail, modest little lady of New

Delhi conceivably play Charakya to Morarji and Yahya, Nixon and Mao, alike? Or can there be a hidden deus ex machina, god from the machine, somewhere behind all this political skill and diplomatic strategy?

"The answer is simple and uncomplicated. Yahya blurted it out when he referred to his formidable adversary as 'that woman!'; and Mujib acknowledged it when he saluted her as India's 'magnificent Prime Minister... who is not only the leader of men but also of mankind.'"

LAST YEAR, after 25 years of independence and socialism, with a population of 550 million people, India produced as many automobiles as the United States produced in 1968. The roadworker down the street from where I write, is working an eight-hour day for three rupees, or 36 cents. The annual per capita income is approximately \$75 per person. After years of socialized effort, this monstrously large nation exports less than Formosa, whose population is about 24 per cent India's. If you want to buy a motor bike in India, all you need to do is amass \$750 and wait 10 — 12 years.

CULTURALLY, the country is wobbly. Intensive nationalism, under Nehru, caused them to give up English as a required language in the schools, and the estimate is that five years hence, even as lingua franca, the English language will cease to serve, irreversibly; after all, only three per cent of the population handles it now. There are 14 other languages, and Hindi, the principal of them, is spoken by only 25 per cent. Television is only in New Delhi, has not yet spread. Xenophobic economics frightens away many potential investors.

The Washington Star Syndicate, Inc.

My Answer

Billy Graham

My husband has recently accepted Christ, stopped running around and has joined the church. He confessed to me that he had been intimate with a divorcee — several years ago. This has broken my heart, and although I told him I would forgive him, I can't get it out of my mind. What can I do?

M.G. I can well understand your feelings, but since your prayers have been answered, and your husband has accepted Christ, out of gratitude to God you should forgive him. The Bible clearly teaches that we are to forgive as we have been forgiven. "Be ye kind one to another, tenderhearted, forgiving one another, even as God for Christ's sake hath forgiven you." Ephesians 4:32.

It would have been much easier for him to keep that sin a secret

from you, but it appears that he wanted to purge himself completely by confessing it to you. This shows that he has truly had a change of heart. For you to show an unforgiving spirit in regard to this disloyalty which occurred before his conversion, might be devastatingly discouraging to him.

Remember, (and this may be an encouragement to you) he is a new man, with new motives, and with a new Master. It was the "old man" who was unfaithful, and not the one you are now living with. Love him, thank God for the change in him, and completely forgive him. Though you, perhaps are not guilty of the same sin, you had other sins which separated you from God. "Forgive us our debts as we forgive our debtors," is the prayer Jesus said we were to pray.

A Devotion For Today..

We are fellow workmen for God. —I Corinthians 3:9

PRAYER: O God, make us realize that we are co-workers with Thee. Arouse us to let ourselves become instruments of Thy will. In Jesus' name. Amen.

Beall Tough To Contain

ACKERLY — Three years a starter, 6-0 Bobby Beall is enjoying his greatest basketball season with the Sands Mustangs. He may be the hottest Class B performer in the state.

The Sands buzzsaw is averaging about 30.9 points a game for Bob Davis' team and can only get better. He's made 321 of 610 shots from the floor, most of them from outside, and hit 130 of 171 free shot opportunities.

He'll also fight the boards with anyone. He's come down with 117 rebounds. Coach Davis grades him out to 117 plus, which is about as high as a player can go under Davis' system. (The plan credits the productive things a player does during a game and subtracts the errors he makes).

Stan Smith ranks close to Beall in Davis' battle plan. Although he is only 6-0, he's a jumper and battles underneath for the Mustangs.

He's scored 177 field goals in 289 attempts, hit on 122 of 148 free throws and captured 337 cars for a grade average of 38.5.

In Summer League competition in Big Spring in 1971, Beall's sure, quick moves earned him attention as one of the two or three best players in action. He outplayed most of the Class AAAA boys who performed in the circuit.

Sands goes after its 24th victory in 26 starts in a game with Dawson here tonight. In district, the Ponies are 8-0.

Forsan Girls Win JH Cage Crown

FORSAN — Forsan Junior High's girls clinched the district basketball championship here Monday evening, defeating Grady, 27-13. The Forsan fems are 7-0 in conference and 13-3 overall.

Forsan's boys also prevailed, turning back Grady, 24-21. It was their first league success in seven assignments. Overall, the Forsan boys are 8-8.

John Daugherty and Paul Bedwell each had eight points for the Forsan boys. Grady was led by Junior Rangel, who wound up with 15.

In girls' play, Letha Strickland tallied 10 points for Forsan while Joanna Sawyer had nine for the visitors.

The Forsan teams wind up play Monday night at home against Greenwood.

Boy's game: FORSAN (24) — John Daugherty 4-8; Paul Bedwell 4-8; Brad Stevens 3-4; Keith Miranda 1-2; Totals 12-24. GRADY (21) — J. C. Tunnell 6-11; Benny Butler 1-2; Junior Rangel 6-3-15; Richard Dorra 1-1-3; Totals 8-21. Girls' game: FORSAN (27) — Elena King 4-8; Letha Strickland 4-2-10; Beverly Strickland 4-8; Totals 13-27. GRADY (13) — Joanna Sawyer 4-1-8; Hermenia Cruz 1-2; Leslie Welch 6-2; Totals 5-13. Forsan 5 13 24 27 Forsan 1 5 9 17

A KING EDWARD CIGAR

Circuit's Leaders Face Steers Here

A high-octane but often frustrated Big Spring High School basketball team courts trouble in large doses this evening when it takes the court against state-rated Midland High in an 8 o'clock encounter in the local gym.

Midland, unbeaten in conference play after eight starts and moving like the wind, beat the Steers 20 points in the teams' previous meeting and the Bulldogs haven't shown any signs of slowing since that time. Big Spring fields a tall ball club but the Steers look like pygmies when they stand along side the Bulldogs, most of whom have to duck when they go through doorways.

Midland likely will bring a horde of fans with them. The team has lost only twice all season and the Bulldog buffs like a winner. If the Longhorn rooters don't get out and recruit, they likely will be outnumbered this evening.

The Bulldogs poured on the coals last Friday to defeat Odessa Permian, 75-56. Gary Brewster, Ronald Taylor and Danny Woods were the siege guns for Midland in that one, scoring 20, 19 and 18 points, respectively.

The Longhorns may have to dig a moat to keep the Bulldogs on their end of the court this evening.

Still, Big Spring is conceding nothing. The Steers resorted to a slow-down tactic to keep the score down in their previous meeting and could do the same this evening.

Harold Howard and Mike Tillman are other starters for Midland.

Big Spring is apt to go with a lineup consisting of Mike Randle, Ted Smith, David Newman, Robert Wallace and Johnny Tonn. David Carter will be pressed into play early.

Junior varsity units of the two schools square off at 6:15 p.m. The local JVs have a good record and want to improve upon it.

The Big Spring varsity troops have a 15-11 record and just to improve upon it.

Big Spring Goliad won its eighth straight game and its 17th of the season in rallying to humble Andrews, 37-28, here Monday evening. The Mavericks have lost only four games.

Jim Ray's feat of hitting five straight free throws enabled the Mavs to overhaul the invaders in the fourth. Ray wound up with 15 points.

Ray Don Box was also a tower of strength for the locals. His floor play queered Andrews' battle plan.

The Mavericks return to play Thursday evening, at which time they visit Snyder to oppose Travis in a 5:30 p.m. game.

GOLIAD (37) — Mark Moore 3-3-9; Jim Ray 5-5-15; James Lee 1-2-2; Fickel 1-1-2; Totals 37-28. ANDREWS (28) — Benson 4-2-10; Montoya 0-2-2; Robinson 1-0-2; Boles 4-4-8; Flores 1-0-2; Duffy 1-2-4; Totals 11-6-28.

Sands JH Wins 44th In Row

FLOWER GROVE — The Sands Junior High boys ran their winning streak to 44 straight by routing Flower Grove, 62-38, here Monday night. Reserves played much of the game for the Colts.

Sands also won the girls' game, 26-14. The Sands girls have lost only once.

Eleven Colts got into the scoring act, Frosty Floyd leading the way, with 15 points.

The Sands teams play Klondike in Ackerly next Monday night.

Boy's game: SANDS (62) — Kevin Gandy 2-4; Keith Gandy 3-3; Johnny Robles 6-1; Frosty Floyd 7-15; Steve Bodine 2-4; Stanley Foster 1-2; Twiggy Wiggington 1-2; Andy Anderson 4-9; Neil Grigg 5-11; Andy Orton 2-4; Darrell Wiff 0-2; Totals 27-42. Adolph Rupp Guides Cats Back To Top

By The Associated Press

Adolph Rupp, the University of Kentucky's 70-year-old basketball coach, apparently has found the fountain of youth.

"I'm only 40 years old," said the usually stern Rupp in a rare moment of jubilation after his Wildcats had regained the Southeastern Conference lead with a 77-74 decision over Alabama Monday night.

The victory boosted Kentucky's league record to 6-2 and put the Wildcats a half-game ahead of Tennessee, which was upset by Louisiana State 63-62. Tennessee fell to second place with a 5-2 mark.

LSU's triumph was no surprise to Rupp. "The last thing (LSU Coach) Press Maravich told me before he left (Lexington Saturday night) was 'I'm going to beat (Tennessee Coach Ray) Mears if it's the last thing I do.'"

Rupp, in his 42nd season as the Wildcats' leader, had to go to a seldom-used zone defense in order to ward off the stubborn Crimson Tide.

Kentucky's 1-3-1 zone—necessitated when starters Jim Andrews and Ronnie Lyons got into foul trouble—worked so well that it held Alabama scoreless for the first four minutes of the second half. In that time, the Wildcats scored 10 points, and with 5:32 remaining, they had pulled ahead 72-60, before holding off a late Alabama rally.

Tom Parker paced Kentucky with 22 points and Larry Stamper had 19.

The Wildcats have won the SEC title an amazing 26 times, including the last four years, since the league was organized in 1933.

Tennessee, seeking its fifth league championship, was beaten by the deadly shooting of LSU's Al Sanders. Sanders scored 21 points, hitting nine of nine field goal attempts and three of four foul shots.

Meanwhile, seventh-ranked Virginia raised its record to 14-1 and its Atlantic Coast Conference mark to 5-1, downing Clemson 62-58.

Florida State, rated 12th, got a career high 29 points from Rowland Garrett, 24 from Otto Petty and 21 from Reggie Royals in trouncing Pan-American 109-83. Royals also grabbed 20 rebounds. The Seminoles now are 17-3.

Jacksonville, the No. 17 team, ruined the return to Florida of its former coach, Joe Williams, outlasting Furman 91-90.

Williams, known as a quiet coach at Jacksonville where he spent seven years before leaving for Furman two years ago, spent much of the game screaming at officials. He even was charged with a technical foul for racing onto the court to protest an officials' call.

Furman's Russ Hunt led all scorers with 31 points and teammate Roy Simpson had 28. Ernie Fleming topped Jacksonville with 27, while 7-foot Dave Brent had 15 points, 13 rebounds and 13 blocked shots.

LUBBOCK — Western Texas College of Snyder fashioned an 81-74 victory over the Lubbock Christian College JV unit, here Monday evening. Walter Hanibal led the Westerners with 21 points.

DEFEAT STANTON Coahoma's Girls Clinch District

STANTON — Coahoma's girls clinched their fifth straight district basketball championship by defeating Stanton, 67-51, here Monday night.

The Bulldogs go to McCamey for another league start Thursday.

Coahoma has a 7-0 conference record. McCamey is 4-2, Stanton 3-4, Crane 2-4 and Ozona 0-6. The Bulldogs are coached by Leatrice West.

Over-all, Coahoma has an 18-4 record. Theresa Beal, Pam Patterson and Sally Echols all scored well for Coahoma, Beal leading the way with 28 points.

Darla Sawyer collected 29 points in a losing cause for Stanton.

Stanton had the satisfaction of winning the B game, 56-45. Jayne Meacham tallied 18 points for Coahoma in that one while Shoemaker led Stanton with 28.

The poll Monday showed: 1. Dallas Highland Park, 29-0. 2. Houston Wheelley, 29-2. 3. Midland, 22-2. 4. Victoria, 22-2. 5. San Antonio Jefferson, 24-2. 6. Houston Washington, 26-4. 7. Corpus Christi King, 23-4. 8. Dallas Roosevelt, 23-4. 9. El Paso High, 22-2. 10. Houston Yates, 21-3. 11. Conroe, 24-4. 12. Corsicana, 19-3. 13. Deer Park, 25-4. 14. El Campo, 24-5. 15. McAllen, 25-4. 16. Plainview, 22-5. 17. South San Antonio, 24-4. 18. Texas City, 22-5. 19. El Paso Business, 21-4. 20. Austin Johnston, 19-4.

COAHOMA (67) — Pam Patterson 10-21; Sally Echols 7-4-18; Theresa Beal 10-4-28. Totals 27-18-47. STANTON (51) — Darla Sawyer 5-19-29; Lambert 7-16; Smith 2-2-6. Totals 14-26-51. Coahoma 15 36 51 67 Stanton 10 17 27 51

Hill County Wins

HILLSBORO — Hill County JC shot down Ranger College, 88-74, in a Texas JC Conference game here Monday night. Ranger is now 3-2 in conference and 9-9 overall.

It would be "hard to measure," Tex Schramm, Cowboy president and general manager, said the charges against Thomas "certainly doesn't help things."

Dallas also has an eye out for young linebackers to be ready to step in for the over-30 trio of Chuck Howley, Lee Roy Jordan and Dave Edwards if and when they decide to step down.

The Cowboys were drafting last—No. 26—from their ex-halted position as king of the professional football world.

Schramm, "Our draft will not be influenced by this (Thomas) situation. We've always taken the best athlete available."

Schramm spoke briefly with Thomas by telephone Monday and said the conversation was "limited to the subject of his being properly represented. It's in the hands of our attorneys—or his attorney." We did not talk football or about his contract. We had not begun renegotiation of his contract."

Thomas and his brother, Bertrand, were arrested Sunday near the northeast Texas town of Greenville and released in \$5,000 bond each.

Thomas was a giant public relations headache for Dallas during the 1971 season after New England negated a trade it had made with the Cowboys for the sensational running back from West Texas State. He refused to speak to the press and had little contact with his teammates.

Archie Myers (20) flies without a license

Arch Rewrites Record Book, Jayhawks Win

By TOMMY HART

Archie Myers' dramatic struggle with the record book which he conquered in the first couple of minutes, all but obscured the fact that Howard County JC had to battle for the life before neutralizing the threat of Odessa College in a Western Athletic Conference basketball game here Monday night.

The Jayhawks exercised their classic chout to win, 121-103, but not before the Wranglers had practically shot the locals out of the gym. At one stage in the first half, the Hawks were down by 14 points and Odessa still led at half time by 10 big ones.

Myers, whose court adventures have hyped the HC gate where another title run may have left the fans yawning, pulled the hat trick with an electrifying performance.

Scoring records fell like tenpins when Artful Archie leaned to the task. His 57 points were

the greatest single game effort ever posted by an HC individual. He now has 975 for the season, and he needed only three last night to beat his own mark set last year. In addition, he now has a career total of 895 points.

It will also be noted that the 36 points the superstar from Cleveland, Miss., registered in the last half of play was the greatest accumulated by an HC performer in one period. Local buffs may never see his like again.

In his last three games, Myers has scored the amazing total of 138 points — and he was the third leading scorer in the nation before he started that string.

The Hawks, of course, needed all that and more to discourage an aroused Odessa team, which started shooting when it came into the gym and never let up.

LaSelle Taylor, as lethal as a rattlesnake from outside, carried the Wranglers early. When Taylor cooled off, Alvin Bailey

and Randy Anderson took up the slack.

Had it not been for the fact that ace gunner Quincy Wallace got into foul trouble early and eventually fouled out with 18:47 remaining in the fluid contest, the Wranglers might have been able to shuck the Hawks.

Myers needed lots of help, and he got it — from a group of HC players who seem to delight in complementing his play with some artful dodging of their own.

Harry Miller stuffed in 20 points for the locals and helped light the boards with Lawrence Young, Russ Frantz, Jim Kreier and Myers. Young and Kreier each amassed 15 points. Herby Lee didn't score often but he was usually in the eye of the hurricane, battling for possession and rallying the troops.

The win was the 23rd of the year for HC, compared to 16 reversals. In conference, the Hawks are 6-1. Odessa is 6-11 over-all and 3-3 against league opponents.

HC takes a respite until Thursday night, when it pops up in Borger for a joust with dangerous Frank Phillips. They play here again Monday night against NMMI.

Marquette, also undefeated in 16 games, held second place in the balloting with 768 points.

Louisville, winner of its last 15 games after an opening loss, moved up one place to third. North Carolina, 13-2, also advanced one spot to fourth, with Long Beach State dropping from third to fifth.

Last week, UCLA whipped Chicago Loyola 82-64 and Notre Dame 57-32, extending its two-season winning streak to 31 games. The Bruins' last loss was to Notre Dame in Jan. 1971. They have won the NCAA championship the past five years and seven of the last eight.

The Bruins' performance this season has surprised Coach John Wooden.

"We expected to be good," he said, "but we've come along better than I anticipated. Just how good, I don't know."

Wooden said he would still like to wait until the season is over before making a true evaluation of his team, but he said, "I'm exceptionally pleased with our progress."

UCLA BY LANDSLIDE It's No Contest In AP Cage Poll

By The Associated Press

For the second consecutive week, unbeaten UCLA has been unanimously acclaimed as the nation's No. 1 college basketball team.

The all-conquering Bruins, 16-0, received all 44 first-place votes and a whopping 860 points in this week's balloting by an Associated Press national panel of sports writers and broadcasters.

Last week, UCLA whipped Chicago Loyola 82-64 and Notre Dame 57-32, extending its two-season winning streak to 31 games. The Bruins' last loss was to Notre Dame in Jan. 1971. They have won the NCAA championship the past five years and seven of the last eight.

The Bruins' performance this season has surprised Coach John Wooden.

BUT HE WANTS TO BE WELL PAID Patulski May Go To Bills

NEW YORK (AP) — The Buffalo Bills stood ready today to select Notre Dame defensive end Wait Patulski as the No. 1 pick at the National Football League draft—and Patulski stood ready to join them for the right price.

Patulski, a 6-foot-6, 260-pounder rated the best athlete available in a lean college crop, has been quoted in the weeks leading up to the draft as saying:

"I don't care where I play. I don't mind the cold at all. But if it's true some of the things I've heard about what the pros paid top choices last year, I'm going to have to think things over."

The suggestion there is that Patulski feels the contracts offered No. 1 draft choices last year were low and that he might be forced to consider the Montreal Alouettes, who hold the rights to him in the Canadian Football League.

But it isn't considered likely that the Bills would let money stand in the way of signing Patulski. Just three drafts ago, they laid out a \$300,000 contract for O.J. Simpson.

Patulski, of course, doesn't figure to command that much as a defensive player, but he is such an outstanding talent that he figured to be the first defender selected No. 1 since Baltimore took Bubba Smith in 1967.

The Bills, however, have been contacted by many clubs looking to pry the No. 1 choice loose in a trade and the Buffalo club was expected to be on the phone talking up to the moment they have to announce their pick.

Because of what the prospects indicate is a lean crop, the pre-draft guessing was far more involved than it was last year when quarterbacks Jim Plunkett, Archie Manning and Dan Pastorini went 1-2-3 as expected.

But there were indications that the draft might go this way through the first seven teams:

Buffalo — Patulski, Cincinnati — Bobby Moore, Oregon running back-wide receiver, or Royce Smith, Georgia tackle.

Chicago-Lionel Antoine, Southern Illinois tackle, or John Reeves, Florida quarterback.

St. Louis—Mike Kadish, Notre Dame defensive tackle.

Denver—Moore or Jerome Barkum, Jackson State wide receiver.

Houston—Barkum or Rile Odoms, Houston tight end.

Green Bay—Willie Buchanan, San Diego State defensive back, or Jerry Tagge, Nebraska quarterback.

After Green Bay, the first round went like this:

8, New Orleans, 9, Jets, 10, Minnesota, on choice acquired from New England, 11, Green Bay, on choice acquired from San Diego, 12, Chicago, 13, Pittsburgh, 14, Philadelphia, 15, Atlanta, 16, Detroit, 17, New England, on choice acquired from Los Angeles, 18, Cleveland, 19, San Francisco, 20, Oakland, 21, Jets, on choice acquired from Washington, 22,

Baltimore, 23, Kansas City, 24, Giants, on choice acquired from Minnesota, 25, Miami, 26, Dallas.

The Bears, Packers and Jets, with two first-round choices, were in good shape considering the supposedly sparse talent available while San Diego, Los Angeles and Washington were on the outside looking in without a first-round pick.

The Redskins, as a matter of fact, did not have a draft selection until the eighth round, and have only a total of 10 remaining in the 17-round selection process expected to last two days.

The New Orleans Saints and the Oakland Raiders had the most choices—22 each.

Other club totals were: Pittsburgh and Dallas 20, St. Louis and Baltimore 19, San Francisco and Cleveland 18, Buffalo, Chicago, New England, Philadelphia, Miami, Los Angeles and Giants 17, Atlanta, Cincinnati, Green Bay, Houston, Kansas City and Jets 16, Detroit, San Diego and Minnesota 15 and Denver 14.

Troubles Are Piling Up For Pokes In Backfield

DALLAS (AP) — The Dallas Cowboys went into the National Football League draft today with a world championship behind them and a critical situation developing at a spot where they were once so talent rich—running back.

The Cowboys, of course, have no way of knowing what will transpire in the case of troubled Duane Thomas, who faces a charge of marijuana possession.

A Hunt County grand jury is expected to act in the case sometime this month. Until some definite action is taken, it puts Dallas in limbo for the season—particularly in the trade marts.

Dallas' other blue chip running back, Calvin Hill, is expected to undergo surgery this winter for a damaged knee.

Hill played in Dallas' 24-3 Super Bowl VI victory over Miami with his right leg wrapped with yards of tape.

There had been talk Dallas was placing Thomas and unhappy second-string quarterback Craig Morton on the trading block for a quality running back star such as O.J. Simpson of Buffalo or Floyd Little of Denver.

Coach Tom Landry said Thomas' possible trade value would be "hard to measure."

Tex Schramm, Cowboy president and general manager, said the charges against Thomas "certainly doesn't help things."

Dallas also has an eye out for young linebackers to be ready to step in for the over-30 trio of Chuck Howley, Lee Roy Jordan and Dave Edwards if and when they decide to step down.

The Cowboys were drafting last—No. 26—from their ex-halted position as king of the professional football world.

Schramm, "Our draft will not be influenced by this (Thomas) situation. We've always taken the best athlete available."

Schramm spoke briefly with Thomas by telephone Monday and said the conversation was "limited to the subject of his being properly represented. It's in the hands of our attorneys—or his attorney." We did not talk football or about his contract. We had not begun renegotiation of his contract."

Few Black Patrolmen In 'Dixie'

ATLANTA (AP) — State police units in the South have few if any black patrolmen, a situation resulting in suits in Mississippi and Alabama and the threat of one in Florida.

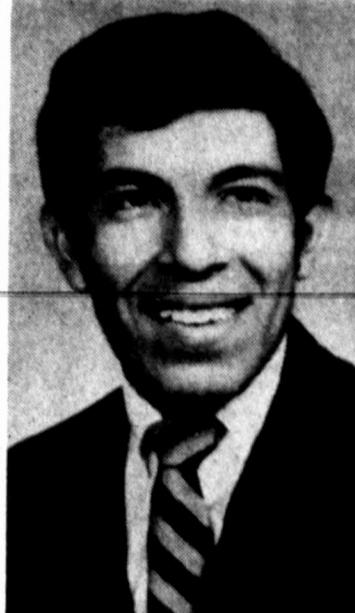

An Associated Press survey showed only 27 blacks, among the more than 5,000 patrolmen and troopers in the eight South-eastern states.

Alabama and Mississippi have no black patrolmen.

South Carolina and Louisiana have four each, Georgia and Florida have two apiece, Tennessee has six and North Carolina leads the region with nine.

Patrol officials maintain they do not discriminate, but can't find qualified black applicants. Civil rights leaders are skeptical.

"All the blacks that have qualified have been appointed," said Col. P. F. Thompson of the South Carolina patrol. Officials say blacks qualified and interested in law enforcement jobs invariably go to the big-city police forces in the region.

SANTOS LUJAN JR.

Lujan Hired As Band Aide

Santos Lujan Jr., son of Mr. and Mrs. Santos Lujan Sr., of 506 North Bell, began his duties recently as assistant band director of the Reagan County schools.

He will assist Michael R. Barry in that capacity.

Lujan graduated recently from West Texas State University in Canyon with a bachelor's degree in Music Education. He is an accomplished saxophonist and will work especially with the woodwind sections of the Reagan County bands.

Santos graduated from Big Spring High School a little over four years ago.

TO MONITOR CONVERSATIONS VIA FAMILY TV SET CATV Spying In Living Room?

WASHINGTON (AP) — Spies armed with sophisticated listening devices could in the not-too-distant future tap your television set if it's hooked to a two-way cable.

Without your knowledge, they could listen to and record the programs you watch, your transactions with department stores and banks, even your living-room conversations.

The new dimension in electronic eavesdropping would be possible with installation of two-way cable television, a development now being tested in some communities and likely to come into limited use within five years.

IT'S POSSIBLE
 Devices to prevent such spying are technically possible, and specialists interviewed said the technology for converting television sets into pervasive spies has outstripped development of legal safeguards.

Both public and private cable-TV agencies have virtually ignored the possibility, explaining that other developments demand more immediate attention.

Sol Schildhouse, chief of the Federal Communications Commission's cable-TV bureau, said the tapping possibility "is one of the things we'll look into" after appointment of committees on technology and on state and local regulation of cable systems.

NOT DISCUSSED
 He said tapping is not discussed in the FCC's general cable regulations to be announced soon.

"We can't deal with everything in one day," said Henry Geller, special assistant to FCC Chairman Dean Burch. "I don't mean to indicate that we're not interested."

Geller said the committees will "deal with emerging problems, and if this becomes an emerging problem, they will deal with it." Geller said two-way systems remain in a rudimentary stage. Although he agreed they could

be tapped, he said "nobody would dream of doing it." The American Civil Liberties Union isn't so sure.

Jerrole N. Oppenheim, staff counsel of the Illinois ACLU, wrote in a recent issue of the

Ballistics Test 'Clears' Mesquite Deaths Suspect

MESQUITE, Tex. (AP) — Ballistics test on .32 caliber bullets taken from the bodies of three Mesquite residents murdered last October show the same gun was used for abduction slayings at Lubbock and Lakewood, Colo., earlier in 1971, according to Mesquite police.

A Mesquite officer added that the FBI report "all but totally clears" Everett Clinton Harris, a Quinlan construction worker, who was first charged with the Mesquite murders and then released after being held for 30 days.

The police theory is that the killer or killers traveled through Utah, Colorado and Texas to end up in the Dallas area, which they probably knew well.

national organization's news-letter that cable TV "could be a serious threat to personal privacy."

FBI 'EYES'
 "Cable-tapping is no less of a threat than wiretapping. Imag-

ine a TV camera in your home controlled by the FBI," Oppenheim wrote.

The two-way systems involved are an expansion of the one-way systems installed in a number of American communities primarily to get more channels into the home than could be received with only air-waves reception.

Expansion to a two-way system would require equipping the home TV set with a transmission terminal and addition of television receivers in places using two-way TV communications.

THIRD PARTY
 For example, cable-TV specialists say department-store and banking transactions could be conducted by television, pollsters could question citizens via the tube, and water and electric meters could be read that way.

The Lubbock woman, Mrs. Elizabeth Perryman, disappeared from an all-night cafe near the Texas Tech campus Sept. 28. Her body was found near Amarillo Dec. 19.

Leora Rose Loony of Lakewood, disappeared from a doughnut shop there and was found shot to death Aug. 20.

ACLU associate director Alan Reitman of New York said, "The information being recorded by wire might be of interest to some third party. If there's a wire, it's possible to tap it."

Bob Stengel, a staff assistant with the National Cable Television Association, agreed with the tapping possibility and predicted limited use of two-way systems within five years and more-widespread use after the cost of home terminals is reduced.

IS THAT ENOUGH?
 He said virtually all one-way systems now being installed are being wired in such a way that two-way capability easily could be added later.

Stengel said it is technically possible to shut out potential eavesdroppers with such devices as scramblers or switches attached to a television set blocking all radiation from it.

The specialists interviewed said they know of no state or local agencies that require such safeguards with cable operators.

Reitman said the ACLU will encourage officials entering franchise agreements to write in protective clauses. "The critical point," said Stengel, "is shutting off the terminal at home, but is that enough?"

Drums To Decide Fate Of Many

WASHINGTON (AP) — Two locked plastic drums, one containing numbers and the other dates, are sitting in the Commerce Department here waiting to decide the fate of thousands of the nation's 19-year-olds.

Leisure-Rich Society Will Need More Parks

KINGSTON, Okla. (AP) — Demands for all outdoor recreation opportunities are increasing at a furious pace, and the costs are doing the same, participants in the Southwest

Parks and Recreation Training Institute were told when they met at Lake Texoma Monday. The meeting drew about 500 park and recreation specialists from 10 states. Texas Tech University of Lubbock conducts the institute.

"Hardly before we can satisfy the already known and identifiable needs of the people for outdoor recreation, their tastes and preferences begin to change," said Gen. James Cross, executive director of the Texas Parks and Wildlife Department, who was the keynote speaker.

His view was echoed by each of the speakers at the opening general session and rising costs were illustrated by one East Coast participant who pointed out that land that cost \$1,000 to \$2,000 an acre in the 50s now costs \$15,000 to \$25,000 an acre to acquire.

Gen. Cross suggested that Texas is solving to some extent the high cost of land acquisition with its current proposal for coastal parks development. "Pocket" parks, satellites to larger ones, will be purchased, developed and maintained for those who want to spend only a day or two at the beaches. Larger parks will accommodate the "snow birds" who come south for a winter vacation on the Gulf.

The need for urban parks was repeatedly emphasized. Dr. Janet Maclean, professor of recreation at Indiana University, predicted parks would be needed for the leisure-rich society of the future, which might have only 39 four-day work weeks in the year and, at a conservative estimate, would have 60 per cent of its time available for leisure.
