THINK SILVERTON!

THURSDAY, SEPTEMBER 12, 1985

VOLUME 77 NUMBER 37

All Around
The Town

BY MARY ANN SARCHET

We were very proud of the Owls and the way they played against Patton Springs here Friday night. The upperclassmen did very well, and the freshman players gave a good account of themselves also. The grapevine has it that the boys hit so hard against one another in practice that the coach is almost afraid to let them work out on Thursdays.

It is interesting to note that after their poor showing against the Owls in a pre-season scrimmage, the Miami Warriors defeated Cotton Center 50-40 last Friday night. Cotton Center did get one of its better players injured in the third quarter.

We'll be going to Tulia Friday night for the homecoming of our alma mater (we've only been back to homecoming one other time since moving to Silverton 26 years ago). My nephew, Brian Hill, is a starting offensive tackle and defensive end, and we've never seen him play. He made All-District on both offense and defense last year, and this is his senior year. We are looking forward to seeing him in action.

School to Dismiss Early Friday

All classes will be shortened Friday, and school will dismiss at 1:30 p.m. Buses will run at that time.

Cheerleaders Are Selling Winsox

The SHS cheerleaders are selling red and white winsox with the Owl mascot on them. Price is \$4.00 each.

See any cheerleader or call 823-2476 to place your order for one.

Proceeds of the sales are being used to pay for their uniforms.

Stodghill Reunion To Be Held Here

Clifton and Joy Stodghill will host a Stodghill reunion Friday and Saturday.

They will have music Saturday afternoon, and invite all their friends to come by for a visit.

Corey Robertson [60], on the runback after making an interception against Patton Springs Friday night.

—Briscoe County News Photo

Owls Earn Big 56-6 Victory in Season Opener

The varsity Owls opened their season with a big 56-6 victory over Patton Springs here Friday night, ending the game with 2:54 remaining on the scoreclock on the 45-point rule.

Patton Springs received the ball to open the game, ran three plays and punted. The ball went straight up, took a good Silverton bounce and roll when it came down, and the Owls began their first offensive series inside the Patton Springs 20. Cal Brannon passed to Corey Robertson for the touchdown with 6:33 remaining to be played in the first quarter. Sloan Grabbe kicked the extra points (a kick counts two points in six-man football), and the Owls held an 8-0 lead.

Patton Springs' second offensive series began on about their own 13, and right away Robertson intercepted a pass and carried it to about the three yard line. Russell Simpson carried into the end zone on the next play, Grabbe kicked the extra point, and the Owls led 16-0 with 5:37

still remaining to be played in the first quarter.

Once again, Patton Springs ran three plays and punted. Neal Edwards took the kick and ran to the Patton Springs 10, but the play was called back and the Owls started on their own 25 after a clipping infraction. Todd Reagan completed a pass to Grabbe on third down, but the Owls had to punt on fourth down. Patton Springs got the ball on the 40 with no runback after the punt went out of bounds there.

The Rangers passed for a touchdown on their next play, failed to convert on the PAT, and trailed 15-6 with 16 seconds remaining in the first period.

The Owls opened the second quarter with Brannon completing a pass to Jamie Frizzell which carried inside the Patton Springs 10. Simpson carried the touchdown and with 9:12 remaining in the first half, the Owls led 22-6.

The Rangers began their next See FOOTBALL—

Engineering Analysis Report on Mackenzie Water Is Released

Final results of the Engineering Analysis of Lake Mackenzie water was released last week by the Authority. The "culprit" has been identified as a large growth of fungus known as Actinomyces. Foreign matter in the water is measured in parts per million, or billion, and this fungus has been identified at 200 parts

per billion, but infinitesimal as it is, it is in sufficient quantity to cause the odor and taste problems.

Actinomyces especially like to feed on plants like Duckweed, Lemna, Chara, Najas and Typha, plants that are normally terrestrial, but that have been recently inundated by an inflow of water in the sudden rise in the lake level due to the rains in July. Control and removal of such growth can greatly reduce the problem; however, this kind of control is virtually impossible and too expensive for most surface water operations.

The more cost effective method is already being employed by the Authority by adding granular activated carbon and alum to the filtering process.

An excerpt from the report summary states, "In general it appears the Lake Mackenzie Water Treatment Plant is a well designed and well operated facility. This problem with Actinomyces is just something they are going to have to live and cope with."

Jim McAlister, General Manager of the Authority, said, "These reports don't always tell you what you want to hear, but I'm satisfied the plant operators are doing all that can be done to solve the problem with available resources. Mr. McMorries, consulting engineer, said the first frost can do much to check the growth of the fungus."

"Actinomyces can enter the lake from varied sources," noted McMorries, "It can come in on water fowl from other lakes, turtles, even boats."

A natural phenomenon for lakes like Mackenzie can also compound the problem, and that is when a lake literally turns over. As the surface temperature of the lake becomes colder than the deep water, the lake flips and the sediment on the bottom rises to the top creating additional problems in the treatment process. "The good news in all of this," said McAlister, "is despite all these actions and reactions, the water remains of good quality and safe for human use."

"Veterans who have much experience with lakes advise me that after a lake turnover a few times in its early life, it eventually 'stabilizes' and the resulting problems are not as perceptible," he noted. "The long-term benefits of surface water will far outweigh short-term difficulties."

School Enrollment Is About the Same This Year

Enrollment in the Silverton Schools this year is 245, which is about the same as in 1984. There are 65 students in high school, which is five more than last year.

In 1983 there were 256 enrolled in the schools, with 62 in high school. At the end of the 1983 term, enrollment was 251.

Mail Schedule Change Planned

Starting Saturday, September 14, 1985, the delivery and pick-up of mail at the Silverton Post Office will change.

The mail will arrive in Silverton at 6:55 a.m. and will be picked up at 5:20 p.m., Monday through Saturday.

If you have something to mail after 4:25 p.m. Monday through Friday, put it in the outside box, so it can be picked up at 5:20 p.m.

On Saturdays, anything you mail after 11:30 a.m. should be put in the outside box, and on holidays anything you mail after 9:00 a.m. should be put in the outside box so it can be picked up that day.

This announcement was made by Fred A. Strange, Postmaster.

Butter, Cheese to Be Given Friday

Butter and cheese will be given away at the Community Center in Silverton Friday, September 13, beginning at 8:00 a.m.

If you have signed up for these commodities, please be sure to pick them up.

CAPROCK CAMERA CLUB TO MEET TONIGHT

Caprock Camera Club will meet Thursday, September 12, at the bank in Quitaque at 7:30 p.m.

Everyone is invited.

OBITUARIES

W. E. MILLHOLLON

Funeral services for W. E. (Evans) Millhollon, 75, of Snyder were conducted at 2:00 p.m. Thursday of last week at Bell-Cypert-Seale Funeral Home in Snyder with the Rev. Ben Clamon, sr. of Snyder and the Rev. Dayton McCarter officiating.

Burial was in Snyder Cemetery under direction of Bell-Cypert-Seale Funeral Home.

Trust the knowledge and skill of our competent pharmacists when in doubt about your prescription.

We Can Mail Your Prescriptions To You

995-3525

CITY DRUG STORE
 Hwy. 86 & Maxwell
 Tulia, Texas

Mr. Millhollon died Tuesday, September 3, at Cogdell Memorial Hospital in Snyder after a brief illness.

He was born in Stephens County. He married Pearl Appleton December 4, 1933. He was a farmer and a member of the Baptist Church.

Survivors include his wife; a daughter, Sarah Reeder of Snyder; two sons, Jerry Millhollon and Jim Bob Millhollon, both of Snyder; two sisters, Maude Herrington and May Henderson, both of Fort Worth; a brother, Ed of Snyder; four grandchildren and four great-grandchildren.

MARY O. COBB

Funeral services for Mary Ollie Cobb, 84, of Tulia were conducted at 10:30 a.m. Wednesday at the Robertson Chapel of Memories in Clarendon with the Rev. Earl Blair, pastor of the First United Methodist Church in Floydada, officiating.

Burial was in Rowe Cemetery in Hedley under direction of Robertson Funeral Directors in Clarendon.

Mrs. Cobb died Sunday at Caprock Hospital in Floydada after a lengthy illness.

She was born in Johnson County, Oklahoma. She married Clarence G. Cobb on August 17, 1926 in Memphis. She had been a resident of Tulia for more than 30 years. She was a member of the First United Methodist Church in Tulia.

Survivors include her husband; a daughter, Mrs. Donald (Jane) Bean of Floydada; a son, Jack Cobb of Tulia; five sisters, Mrs. Eunice Land and Mrs. Lavoice McGaugh, both of Clarendon, Mrs. Letha Mulden of Floydada, Mrs. Inez Minyard of Littlefield and Mrs. Laura McDaniel of Fort Worth; two brothers, Wayland Fitzgerald of Silvertown and Dan M. Fitzgerald of Escondido, California; and four grandchildren.

RALPH GARVIN

Ralph Garvin, former Silvertown resident, died Sunday morning, September 1, 1985, at the West Coke County Hospital in Robert Lee, Texas. He had been a patient in the hospital for one day, but had been in failing health for several years.

Mr. Garvin was born September 10, 1901 in Midlothian, Texas. He came to Briscoe County with his parents, Mr. and Mrs. Ben Garvin, in 1919. He married Ruth Bruton of Edith, Texas in 1934. He lived in Robert Lee for several years before he and his family returned to Silvertown to the Garvin farm to live. In 1947 the family moved back to Robert Lee where he resided until his death.

Among his survivors are his wife, Ruth; his son, John L. Bruton of Midland, and two granddaughters. He was an uncle of L. B. Garvin and Billy Wayne Garvin. Attending the services were Mr. and Mrs. Clifton Stodghill, Mr. and Mrs. L. B. Garvin, Billy Wayne Garvin, Lane Garvin, all of Silvertown, and Danna (Garvin) Coleman of Dozier.

Windbreak Trees Should Be Ordered Now

The Caprock Soil and Water Conservation District is now taking orders for windbreak trees. Orders should be placed now to be sure your trees are reserved for next spring.

The most popular varieties are in short supply. These include Bur Oak, Pecan, Austrian Pine, Afganistan Pine and Arizona Cypress. If you want any of these varieties, you should order this month if possible.

Pine trees available include Austrian Pine, Afganistan Pine, Ponderosa Pine and Scotch Pine. Evergreens include Arizona Cypress and Eastern Red Cedar. Hardwood trees include Bur Oak, Honeylocust, Pecan and Russian Olive. Bush-type trees are Caragana and Desert Willow.

To order, contact the Soil Conservation Service office in Silvertown at 823-2320. Potted trees are \$1.50 each and bare-rooted trees are 50c each.

IMMUNIZATION CLINIC SLATED SEPTEMBER 20

An immunization clinic offering vaccines that give protection against several childhood diseases is scheduled from 1:00 until 3:00 p.m. Friday, September 20, in the Silvertown Elementary School.

Protection is against polio, diphtheria, lock jaw (tetanus), whooping cough (pertussis), measles, rubella and mumps. There will be no charge.

Round-Up Off To a Good Start

The 26th annual Cattlemen's Round-Up for Crippled Children is off to a good start with more than 100 head of cattle and horses already pledged, reports general chairman Jim Alexander of Abilene. The event benefits the West Texas Rehabilitation Center with campuses in Abilene and San Angelo.

Despite depressed markets and prolonged drought, CRCC officials are optimistic livestock producers will agree that this cause deserves their donations of livestock or cash.

This year's Round-Up will begin with a cattle sale September 30 at the Abilene Auction. Other scheduled sales include horse sale October 5, Abilene Auction; sheep and goat sale October 14, Junction Stock Yards, and special auctions October 9 in Coleman and Stephenville, October 17 in San Saba and November 4 in Brownwood.

"We are expecting more heavy beef for this year's Round-Up than ever before," Alexander continued. "Support for the annual fund raiser comes from all over the Southwest as evidenced by pledges already received."

"We are hearing from folks from as far south as Corpus Christi and Kingsville, and as far north as Yukon, Oklahoma. Over to the west pledges have arrived from Clayton, New Mexico."

Alexander expressed his appreciation to those who have already pledged horses. "Many of these are registered quarter horses while others are suitable

for running and cutting."

Persons wanting to make a donation should contact the Cattlemen's Round-Up chairman Johnnie Burson in this area or call the West Texas Rehabilitation Center in Abilene at 915 692-1633.

Burson is one of nearly 200 area chairmen throughout Texas who are giving their support to this event by lining up donated livestock and coordinating auction arrangements. Donated livestock are collected at designated points in each community and transported to the auction site.

The Cattlemen's Round-Up idea began in Bronte back in 1960 on the late Conda Wylie's Fort Chadbourne Ranch. He came to WTRC president/executive director Shelley V. Smith with the suggestion that 20 top steers be cut from his herd and sold to help defray operational expenses of the Center.

Today the results speak for themselves. WTRC personnel provide top quality care in physical, occupational and speech therapy, audiology, orthotics, psychology, education and social services, all without charge to patients other than for hearing aids and braces.

Reagan Receives Special Honor

Todd Reagan received honorable mention as Six-Man Player of the Week in the Amarillo Daily News this week.

The article said that Reagan "led Silverton to a 56-6 win over Patton Springs with 92 yards rushing and three touchdowns. His first score came from a yard out and then scored on runs of 37 and 15 yards."

The Six-Man Player of the Week was Elly Burt of Higgins, who carried the ball 25 times for 182 yards and scored the tying touchdown in the fourth quarter on a 3-yard burst.

Another honorable mention player was David Scott of Miami, who ran for 145 yards and a four-yard touchdown. His teammate, Jeff Bass, had three touchdowns with each just a minute apart, as he got them in the first three minutes of the fourth quarter. Bass rushed for 114 yards and had a fumble recovery in the end zone to earn his honorable mention.

Another honorable mention went to Brett Blackwood of Higgins who scored three touchdowns including the 50-yard game winner. His other touchdowns both came from three yards out and he rushed for 153 yards on 18 attempts.

Free Activities Planned During Tri State Fair

The 1985 Amarillo Tri State Fair will again provide fairgoers with an exciting bill of free entertainment each day during the six-day event, September 16-21.

A new musical act on the outdoor stage this year will be the Two For The Show Trio. The trio is versatile in their vocal numbers and instruments, including keyboards, guitar and banjo. Their repertoire of music and fun involves a wide range of modern sounds that feature the finest in close harmony and over forty crazy pantomimes of Spike Jones and Ray Stevens material.

The Paradise Country Band will also appear daily on the outdoor stage, courtesy of R. J. Reynolds Tobacco Company. The band has played for many of the major fairs across the country and has a unique but authentic country style.

Joey Matheson, ventriloquist and acrobat, has also been booked throughout the fair as a free act. Matheson has performed at many shopping centers and special promotions throughout the area.

Two For The Show Trio will perform at 7:15 p.m. and 9:30 p.m. daily; Paradise Country Band at 5:45 p.m. and 8:00 p.m. each day, and Joey Matheson at 6:30 p.m. and 8:45 p.m. daily.

The Bill Phillips Puppet Show will perform four times daily and is designed especially for the young folks.

The Animal Fantasy Petting Zoo will be back again this year and will be open daily for the youngsters to view and pet the animals.

There is a lot to see at the 1985 Tri State Fair.

News From The VO-AG SHOP

Last week I'm sure many of you drove by to see the charred bleachers. Somehow, during a minor repair job to the bleacher, a piece of hot metal burned a hole in the hose to the cutting torch rig. Hose ignited, setting a small area of the bleacher ablaze. Well, don't worry—your tax dollars are still intact. I guess Administration will think twice about asking the Ag teacher about fixing something. I wonder if they give Bonehead Awards to school employees; they do in the Fire Department—I won it twice. Next time, I'll let the kids fix it.

Many thanks to the Booster Club for their help in setting the flag pole on the football field. Without Doc and Fred's assis-

tance, I don't know how it would have been possible.

Speaking of football—have you seen our kids play football? Boy, they got mud in their eye; opponents beware. Say, while you're at the games this year, take note of the new paint job the cheerleaders gave the victory bell. Fine job, girls.

Students, teachers and Administration seem to be jelling into a great bunch of kids and personnel. It seems that 22 years ago the numbers were considerably higher. Where have all our kids gone? I don't think that WW III is needed to generate a new baby boom, but we do need to pull together to make our community grow and survive. Help!

Many of our Ag students will start on our chapter project this week. This year we are building

a livestock trailer that will be used by both the 4-H and FFA youngsters. This year the bit and spur donation drive netted \$638.00 for the purchase of materials for the livestock trailer. We feel this will be an adequate start, but may need some dollars and donations to complete, so don't forget us.

So many students, teachers and friends have expressed concern about my Dad. I appreciate your thoughts of kindness and concern very much. It's times like this that make our commun-

ity a great place to live.

—Stan Fogerson

The Great Seal of the U.S. has 13 of each of these items: stars, stripes, clouds, arrows, laurel leaves, berries, feathers in each wing and tail, and rows in the pyramid. This is one case where 13 is a lucky number.

Sloan Grabbe [73], in the process of sacking the Ranger quarterback, as the Owls won their season opener 56-6 here Friday night.

—Briscoe County News Photo

Football —

Continued From Page One

series on their own nine, ran a couple of plays and completed a pass before punting. Edwards carried to the Silverton 22 for a first down for the Owls after a face-mask violation. Edwards ran to the Rangers' 10 for another first down. The Owl offense bogged down on their series, and after Reagan carried to the five on fourth down, the ball went over to the Rangers. Patton Springs fumbled, and Grabbe recovered for Silverton on the six. Simpson carried to near the goal, Reagan carried to within inches of paydirt, and then scored on fourth down with 4:23 remaining in the second quarter. The kick failed, and the Owls led 28-6.

The ensuing kickoff was carried by the Rangers to the Patton Springs 24, stopped by Edwards. Next play, Robertson recovered another Ranger fumble on the Owl 37. Reagan carried the touchdown 37 yards with 3:17 remaining in the second period. The kick failed, and the Owls held a 36-6 lead.

Patton Springs carried the kickoff from the goal line out to their own 23, completed a pass for five yards, but had an incomplete pass on fourth down and the Owls took over on downs at their own 32 with one minute remaining in the period. Patton Springs took a pitch-out in the air and ran for a touchdown with 49 seconds remaining, but this was nullified by a clipping call against the Rangers, and Patton Springs had the ball at the Silverton 39. The Rangers got a penalty call against the Owls which gave them a first down, and the half ended with the Rangers completing another pass.

With 9:45 still showing on the third quarter clock, Edwards ran 46 yards for another score for the

Owls. Grabbe kicked the PAT, and the Owls led 44-6.

Patton Springs got a touch-back and had the ball brought out to their 15 on the kickoff, ran four plays and the ball went over on downs near midfield. Robbie McWaters gained several yards and Edwards carried to the Patton Springs 28 where the ball went over on downs. The Rangers lost yardage on first down when their quarterback was taken down behind the line by Roque Ramirez. On second down, a pass was completed to the 36, and needing seven yards on fourth down, the Rangers passed complete but the ball went over on downs at the Patton Springs 38 with 4:22 remaining in the

third period.

Silverton fumbled and Clay Schott recovered on first down, then Silverton got a clipping penalty. Needing 32 yards for a first, Edwards carried, Joe Ted Edwards caught a pass and McWaters gained some, but the ball went over to Patton Springs at the 17. Patton Springs got a first down on a penalty against the Owls, but then the Rangers were penalized for holding. The Rangers completed a pass, with the tackle made by Edwards on the 29. On fourth down the Rangers were held to no gain, and the ball went back to Silverton on the Owl 28.

Reagan ran to the Patton Springs 16 for a first down, and

then scored the touchdown on the next play with 7:44 remaining to be played in the game. The kick failed, and the Owls led 50-6—short by a point of ending the game right there.

The Owl defense did well on the next series, and the Rangers punted on fourth down to their own 33. Silverton fumbled and Patton Springs recovered on the 30. The Rangers fumbled on third down, and Ramirez recovered for the Owls. Edwards carried to the 25, and on fourth down McWaters went around left end to the Springs' 17. A face-mask violation against Patton Springs moved the ball half the distance to the goal, and McWaters carried the touchdown with 2:54 remaining on the clock to end the game at 56-6.

Silverton had a 312-yard offense as compared with 159 yards for Patton Springs. The Owls made 11 first downs while the Rangers got six.

Coach Shely said he was very proud of the team for its performance. "Patton Springs got six first downs," he said, "but three of them were by penalties, two were against the younger boys,

and only one was against our first team.

"Our whole defensive group did a good job," he added.

Two buses have been chartered to take the players and fans to Higgins Friday. There will be a junior high game-type scrimmage at 5:30 that afternoon, followed by the varsity game at 7:30 p.m. Early this week most of the seats had been sold, but a few remained at \$20.00 per seat. If you want to try to get on the bus at this late date, contact Doc Simpson as soon as possible.

Exercise Class to Resume Monday

The Senior Citizens Exercise Class will resume meeting September 16, from 8:00 until 9:00 a.m. Mondays, Wednesdays and Fridays.

The class is taught by Mrs. Valeria Weaver, and everyone is invited to attend. The classes are held at the Silverton Senior Citizens Center.

Arthritis Seminar Planned Friday

"Living with Arthritis" is a seminar set for Friday, September 20, at 1:00 p.m. at the Silverton Senior Citizens Center.

Dr. Robert McNutt of the Amarillo Diagnostic Clinic will be flying to Silverton to conduct the program which is sponsored by the Extension Home Economics Committee.

There is no charge for this educational program. Donations to the area Arthritis Foundation will be accepted.

The Extension Home Economics Committee, chaired by Mrs. Fred Mercer, will be planning additional health-related programs for 1986 at its annual planning meeting September 19.

Committee members encourage anyone with arthritis or an interest in learning more about the disease to mark your calendars and plan to attend this meeting on September 20.

Educational programs of the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion, handicap or national origin.

4-H Clubs to Organize For New Year

The Silverton 4-H Clubs will meet Monday, September 16, in the Pioneer Room at First State Bank at 7:30 p.m. Enrollment forms for the coming year will be filled out and projects and activities will be planned. Parents are especially asked to come and help and learn.

Leaders are needed for these

Baptist Church in Clarendon.

Guest speaker was Dr. Michael Strickland of Lubbock, brother of the LVN instructor, June Davis.

Others on the program were Dr. Ken Martin of Clarendon College, Lil Martin, R.N., Southwest Osteopathic Hospital, Carol Ward, R.N., Hall County Hospital, and Guy Dell Hill, R.N., Vocational Nursing Clinical Instructor.

Graduates were Honor Student Judy Miller, wife of Steve Miller of Silverton; Honor Graduate Mary Ann Sims Braddock of Clarendon, Marilyn Crow, wife of Melvin Crow of Clarendon, and Delinda Roark Petty, wife of Dennis Petty of Clarendon.

A reception hosted by the LVN Association followed immediately in the Fellowship Hall.

All continents, with the exception of Antarctica, are wider in the north than in the south.

activities and projects. Leaders do NOT have to be experts or even parents. Just someone willing to help and care.

4-H has many benefits available to 4-H'ers willing to become involved. Camps, trips, awards, scholarships and developing leadership abilities are just some of the extras 4-H kids can enjoy.

4-H is for boys and girls in grades three through high school with something of interest for everyone. Monday night will be a good time to "Discover" 4-H in Silverton.

The Senior Club will meet with the big group and then have a separate meeting following. All senior 4-H members are needed as Junior Leaders at this meeting.

4-H is open to all boys and girls from 9-19 years of age regardless of race, color, religion, socio-economic level or handicap.

LINES FROM YNDA

Lynda Fogerson
Briscoe County Extension Agent

Extension has something for YOU! As we start a new school year, a new 4-H club year, and a new Extension Homemaker club year, I want to encourage each of you to take advantage of the information in your County Extension Office and the agents who serve you.

Dirk and I work for you, the county residents, to share the latest research-based information on all areas of agriculture and home economics and families, and we also have responsibility for community development and 4-H youth work.

We provide club, community, or county-wide programs on subjects you request or which your representatives on our various advisory committees—home economics, crops, livestock and 4-H—suggest.

The Extension Home Economics Committee is especially concerned about health and nutrition needs in the county because of our lack of medical professionals other than the paramedics and EMTs in Silverton and Quitaque—of which we are extremely proud!

We planned an arthritis program for September 20 because we know there is much misinformation about arthritis and numerous people who are afflicted with the disease. The committee will be planning other health-related programs for 1986.

We have two Extension Homemaker clubs in the county—the Progressive Club which meets at 7:00 p.m. on the second and fourth Mondays of each month, and the Southwestern Club which meets at 2:00 p.m. on the fourth Thursday of each month. If you would like to visit one of these clubs or start a group of your own, call me—823-2128 (home) or 823-2343 (office), and I will be glad to give you further information. There are no dues for Extension Homemaker clubs and anyone is welcome to join.

You might want to start a new club with some of your friends and neighbors. For employed homemakers, it might mean an "After Five" club that could meet for an hour once a month and still have time to make it to the grocery store and home to cook supper.

The Extension Homemaker clubs are sponsoring a Fun-Fad-Food Fair October 18, from 10:00 a.m. until 4:00 p.m. A variety of workshops will be offered during the day. Mark your calendars for this and watch for more information.

I write a newsletter—"Lines from Lynda"—for over 500 county families. If you are not on the mailing list but would like to receive this, call me.

If you aren't familiar with the Extension services, you'd be surprised at the free up-to-date information we have. Come to see us in the Courthouse basement. We want to help YOU!

In 1979, foreign investors owned less than one percent of American farmland.

Francis Reunion Held August 31

Mother Nature contributed her very best to make the reunion of the L. W. Francis family a very memorable occasion, as John and Maebelle Francis hosted a yard party at their home Saturday, August 31, 1985.

Relatives and friends started arriving around 2:30 in the afternoon. Gospel singing and visiting filled the afternoon. Lots of fried chicken with all the trimmings was served at 6:00 p.m. After dinner music was provided by the "Country Sounds," consisting of Cliff and Joy Stodghill, Jimmy Burson and John Francis. Lesa Johnson and Dave Francis took their turns at the piano, James Jarrett playing a few guitar tunes. Gary and Lori House and Barry Francis contributed to the singing with Lori doing some solos. Lesa Johnson was winner of the guessing game. She guessed closest to the number of people in attendance.

United Methodist Youth Elect New Officers

New officers were elected for the 1985-86 year in United Methodist Youth. President will be Jeff Wheeler; Tara Nance, vice president; Tracy Tomlin, secretary-treasurer, and Donna Tomlin, Youth Council representative.

The group meets each second and fourth Wednesday evening at the Methodist parsonage at 6:30 o'clock. Any interested youth is invited to join the group which consists of junior high and high school age youth.

Two new members were welcomed into the group this week. They are Jeff Smith and Brian West.

Club to Sponsor Annual Carnival

Halloween will be here before you know it. The Progressive Extension Homemakers will once again be sponsoring the Halloween Carnival on Saturday evening, October 26, at the Show Barn.

Start planning now for your club, organization, youth group or you as an individual to have a booth. Look for information in the next few weeks for who to contact to reserve a space. Let's make this the best Halloween Carnival ever.

Girl Scouts To Begin New Year

It's time for Girl Scouts to start their new year. A new troop of Junior Girl Scouts for girls in the fourth grade will be organized this year with Vicki Bean as its leader.

The first meeting will be Saturday, September 14. Any girl interested in joining should meet at the park at 8:45 a.m., and should be picked up at the park at 3:15 p.m. Please bring a sack lunch; drinks will be furnished. Also bring \$3.00 for registration fee.

There were also some football, crochet, and horseshoes for those who were more energetic, including a few casualties. Langdon Reagan showed off a swollen lip and bloody nose, with Michael Bell and Jonathan Johnson doing

PUBLIC NOTICE
OF EXPLANATORY STATEMENTS
OF PROPOSED
CONSTITUTIONAL AMENDMENTS
GENERAL ELECTION
NOVEMBER 5, 1985

**PROPOSITION NO. 1
ON THE BALLOT**

House Joint Resolution 19 proposes a constitutional amendment that would authorize the issuance of general obligation bonds for the purpose of financing water development.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance and sale of \$200 million of Texas agricultural water conservation bonds."

amount not to exceed \$200 million, if authorized to do so by a two-thirds vote of the members of each house of the legislature. The Texas agricultural water conservation bonds would be general obligations of the State of Texas, and would be paid from the first money coming into the state treasury in each fiscal year. The amendment would allow Texas agricultural water conservation bonds to be issued and sold only for four years after the date on which this Act becomes a part of the constitution.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance and sale of \$200 million of Texas agricultural water conservation bonds."

**PROPOSITION NO. 3
ON THE BALLOT**

House Joint Resolution 54 proposes a constitutional amendment that would permit the legislature to authorize a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property if such relocation or replacement is done in conjunction with or immediately following the relocation or replacement of water mains serving the property. Any legislative enactment permitting the expenditure of funds for such purposes would authorize the city or town to fix a lien on the property, with the owners' consent, for the cost of relocating or replacing the water laterals, and would provide that such cost shall be assessed against the property, with repayment by the property owner to be amortized over a period not to exceed five years at the rate of interest set by law. Such liens could not be enforced until after five years from the date the liens were affixed.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the legislature to enact laws permitting a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property."

**PROPOSITION NO. 4
ON THE BALLOT**

Senate Joint Resolution 21 proposes a constitutional amendment that would authorize the use of the proceeds from the sale of permanent school fund land to acquire other land for the permanent school fund. Currently, the constitution requires that proceeds from the sale of such land be invested in certain bonds and other securities.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing proceeds from the sale of land dedicated to the permanent school fund to be used to acquire other land for that fund."

**PROPOSITION NO. 5
ON THE BALLOT**

House Joint Resolution 89 proposes a constitutional amendment that would enable the legislature to regulate the provision of health care by hospital districts by determining

the services the district must provide, by setting requirements a resident must meet in order to qualify for services, and by determining any other relevant provisions necessary for providing health care to residents.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the legislature to regulate the provision of health care by hospital districts."

**PROPOSITION NO. 6
ON THE BALLOT**

Senate Joint Resolution 6 proposes a constitutional amendment that would enable the State of Texas to enter into an agreement with another state to confine inmates from the state of Texas in penal or correctional facilities of the other state.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to permit state prisoners to be placed in penal facilities of another state pursuant to an interstate agreement."

**PROPOSITION NO. 7
ON THE BALLOT**

House Joint Resolution 27 proposes a constitutional amendment that would authorize the commissioners court of Chambers County to divide Chambers County into not less than two and not more than six justice precincts. Under current constitutional law, Chambers County may be divided into not less than two and not more than five justice precincts.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing Chambers County to be divided into two to six precincts."

**PROPOSITION NO. 8
ON THE BALLOT**

Senate Joint Resolution 9 proposes a constitutional amendment that would grant an additional \$500 million in bonding authority to the Veterans' Land Board for the veterans' housing assistance program. Under the current constitution, the Veterans' Land Board is authorized by Article III, Section 49-b-1 to issue and sell not more than \$800 million in bonds, \$500 million of which may be used for the Veterans' Housing Assistance Fund. This amendment would increase that authorization to permit the issuance and sale of up to \$1.3 billion in bonds, \$1 billion of which would be used for the Veterans' Housing Assistance Fund. In addition, the amendment would remove the current definition of "veteran" from the constitution and permit the legislature to redefine "veteran" as the changing times and circumstances require.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing \$500 million in additional bonding authority for the veterans' housing assistance program and changing the definition of those veterans eligible to participate in the veterans' land program and the veterans' housing program by authorizing the legislature by law to define an eligible veteran for the purposes of those programs."

**PROPOSITION NO. 9
ON THE BALLOT**

House Joint Resolution 72 proposes a constitutional amendment that would permit the legislature either to enact a statute or to attach a rider to the General Ap-

propriations Act to require prior approval of the expenditure or emergency transfer of any funds appropriated by the legislature to state governmental agencies.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to protect public funds by authorizing prior approval of expenditure or emergency transfer of state appropriations."

**PROPOSITION NO. 10
ON THE BALLOT**

House Joint Resolution 19 proposes a constitutional amendment that would authorize the legislature to provide for the issuance of general obligation bonds, the proceeds of which would be deposited in a fund to be known as the farm and ranch finance program fund. The fund would be administered by the Veterans' Land Board and would be used to make loans and provide other financial assistance for the purchase of farm and ranch land. The amount of bonds outstanding at any one time would be limited to \$500 million. The principal and interest that becomes due on such bonds in each fiscal year would be paid from amounts remaining in the interest and sinking fund at the close of the prior fiscal year, with the balance due to be appropriated from treasury revenues in the fiscal year when such amounts become due.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance of general obligation bonds to provide financing assistance for the purchase of farm and ranch land."

**PROPOSITION NO. 11
ON THE BALLOT**

Senate Joint Resolution 16 proposes a constitutional amendment that would define indictments and informations as instruments charging a person with the commission of an offense, and would delete certain technical requirements as to the form of writs and processes.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment relating to the manner in which a person is charged with a criminal offense and to certain requirements applicable to state writs and processes."

**PROPOSITION NO. 12
ON THE BALLOT**

Senate Joint Resolution 10 proposes a constitutional amendment that would grant the Texas Supreme Court and the Texas Court of Criminal Appeals jurisdiction to answer questions of state law certified from federal appellate courts. In addition, the two courts would promulgate rules of procedure relating to the review of those questions.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment granting the Supreme Court of Texas and the Court of Criminal Appeals of Texas jurisdiction to answer questions of state law certified from a federal appellate court."

**PROPOSITION NO. 13
ON THE BALLOT**

Senate Joint Resolution 14 proposes a constitutional amendment that would create a board with responsibility for the reapportionment of judicial districts, subject to legislative approval. The amendment would provide for the continued power of the legislature to provide for judicial reapportionment, and would provide that reapportionment

will be the responsibility of the Legislative Redistricting Board if the Judicial Districts Board fails to make a timely reapportionment. The amendment would provide for the creation of judicial districts smaller than a county in counties where the creation of such districts has been approved by the voters at a general election. The amendment would provide for more than one judge for a judicial district. The amendment would rename supreme judicial districts as courts of appeals districts. The amendment would provide that the jurisdiction and terms of court of district and county courts may be as provided by law. The amendment would provide for the jurisdiction of justice courts, which may have additional jurisdiction as provided by law. The amendment would provide for rules of judicial administration and civil procedure to be promulgated by the Supreme Court, and would provide that the legislature may delegate additional rule making power to the Supreme Court or to the Court of Criminal Appeals. The amendment would provide that courts and judges in existence at the time of its adoption remain in existence until otherwise provided by law.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for the reapportionment of the judicial districts of the state by the Judicial Districts Board or by the Legislative Redistricting Board, and providing for the administration and jurisdiction of constitutional courts."

**PROPOSITION NO. 14
ON THE BALLOT**

Senate Joint Resolution 27 proposes a constitutional amendment that would abolish the office of County Treasurer in Andrews County and transfer the powers and duties of that office to the County Auditor. The amendment would also abolish the office of County Treasurer in El Paso County if, at the statewide election at which this amendment is submitted to the voters, a majority of the voters who vote in El Paso County favor the amendment. The functions of the office of El Paso County Treasurer will be performed by a person employed or designated by the El Paso County Commissioners Court. The amendment also provides for the abolition of the office of County Surveyor in Denton, Randall, Collin, Dallas, El Paso, and Henderson Counties upon approval of such abolition by a majority of the voters who vote on the question at an election called by the commissioners court of the county. If the office of County Surveyor is abolished in any county, the commissioners court may employ or contract with any qualified person to perform the duties of the office.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to provide for: (1) the abolition of the office of county treasurer in Andrews County and El Paso County; (2) the abolition of the office of county surveyor in Collin, Dallas, Denton, El Paso, Henderson, and Randall Counties."

Estos son los informes explicatorios sobre las enmiendas propuestas a la constitución que aparecerán en la boleta el día 5 de noviembre de 1985. Si usted no ha recibido una copia de los informes en español, podrá obtener una gratis por llamar al 1/800/252/9602 o por escribir al Secretario de Estado, P.O. Box 12887, Austin, Texas 78711.

**PROPOSITION NO. 2
ON THE BALLOT**

House Joint Resolution 19 proposes a constitutional amendment that would allow the Legislative Redistricting Board to regulate the provision of health care by hospital districts by determining

LOCAL REPORTS

Mr. and Mrs. Berton Hughes spent the Labor Day weekend in Roscoe, visiting in the home of Rev. and Mrs. Randy Hughes, Amy and Matt.

Mrs. Zelda Dudley underwent cataract surgery and received an implant at High Plains Baptist Hospital in Amarillo August 29. She is home and recovering very well.

Al and Hazel Stevenson, Cheyenne, Wyoming, Lee Stevenson, Fort Sumner, New Mexico and Iris Graham of Amarillo have been visiting their sisters, Jettie Hardcastle and Bertha Mae Allard.

Jettie Hardcastle and Bertha Mae Allard visited in Plainview with their cousin, Carol Kopansky of Couperville, Washington.

Water Pollution Control Guideline For Feeders

Livestock and poultry feeding operations must now conform to design standards spelled out in a technical guideline for controlling water pollution.

The guideline adopted by the Texas Water Commission became effective September 1. It states "that there shall be no discharge of manure or waste water from feedlot operations (including concentrated livestock and poultry production facilities), but rather that these materials shall be retained, used or disposed of on agricultural lands."

Included in the guideline are standards for feedlot water pollution control and the regulating method, points out Dr. John Sweeten, agricultural engineer in waste management with the Texas Agricultural Extension Service, The Texas A&M University System.

The guideline was developed by the staff of the Texas Water Commission (formerly the Texas Department of Water Resources) in consultation with several livestock and poultry producer associations, the Texas Agricultural Extension Service and the Soil Conservation Service of the U. S. Department of Agriculture.

Feedlot size categories are specified as to the need for a permit. Smaller operations also can be regulated by permit on a case-by-case basis. Existing permits remain intact, notes Dr. Sweeten.

He adds that design standards in the new guideline are essentially the same as provisions of individual permits that have previously been issued to larger livestock and poultry feeding operations. Now, however, these standards will be applied to all feedlot operations whether or not a permit is required.

The guideline specifies that owners or managers of feeding operations with capacities greater than the following number of animals in buildings or open lots are to be regulated by permit: dairy cattle—250 head; beef cattle—1,000 head; swine—1,500 head; sheep and goats—6,000 head; chickens—30,000 birds with a liquid manure system; and turkeys—35,000 birds in open

lots or 9,000 birds with a liquid manure management system.

Poultry operations that have both dry manure handling and a continuous overflow water system must have more than 100,000 chickens or 32,000 turkeys to be regulated by permit.

Wastewater holding facilities must have a minimum design capacity to store runoff from a 24-hour storm with an average rainfall of 3.5 to 10.3 inches across the state, from west to east.

Dr. Sweeten points out that the guideline also specifies that waste holding facilities must have enough capacity to store manure and process-generated waste water. Minimum design capacities range from less than nine days in the Trans-Pecos region to 24 days at Stephenville to 60 days east of Nacogdoches.

In addition, the guideline provides for seepage control for groundwater protection, specifying that earthen waste holding facilities be constructed in clay soils or be lined with the equivalent of 12 inches of compacted clay.

"These design standards have been applied to several hundred feeding operations in Texas for as long as 15 years through individual permits," Dr. Sweeten points out. "The new guideline will be used by the Texas Water Commission in maintaining consistent technical requirements for livestock and poultry feeding operations in controlling water pollution."

Producers Slate Veg Conference

Discussions on pesticide regulations and marketing and promotion will highlight the conference of the Texas Pepper Foundation and Texas Vegetable Association at the Holiday Inn Civic Center in Lubbock September 24-26.

Featured on the program will be an address by State Senator Bill Sarpalius of Amarillo at a luncheon on Thursday, September 26. Sarpalius will discuss "Legislating Pesticide Regulations."

John Fisher of Austin, director of the Texas Chemical Council, also will be on hand that day to review some reactions of Texas' pesticide laws.

Mike and Sue Plake, also of Austin, and with Hort United, will report on legislation affecting agriculture during both the Wednesday and Thursday sessions.

Another key topic of discussion on Thursday's program will be the implementation of Texas' new irrigation water laws.

Marketing and promotion will receive attention from three speakers on Thursday—Bill Meeks, executive vice president of the Texas Citrus and Vegetable Association; Paula Fouchek, executive director of the Tex-Fresh Promotion, and Paul-ette Schwartz, Texas Department of Agriculture.

Vegetable sales returned more than \$450 million to Texas farmers in 1984, and marketing is considered by many as the most serious problem facing the state's vegetable growers and shippers, points out Tom Longbrake, horticulturist with the Texas Agricultural Extension Service, The Texas A&M Uni-

versity System.

Most discussions on peppers will be presented on Wednesday while discussions the following day will focus on celery, onions, spinach, cabbage and asparagus.

Conferees also will tour vegetable and pepper research and demonstration plots at the Texas A&M University Agricultural Research and Extension Center north of Lubbock and at the Halfway research site. The tour also will include several commercial vegetable and pepper farms and an ultra-modern potato packing operation and an onion processing operation at Olton.

Further information about the conference is available from Longbrake at 409-845-7341.

BROWN BAG NUTRITION EMPHASIZED

For economy and convenience, it's hard to beat the humble sack lunch.

But unless the sack lunch provides at least one-third of your daily food needs, it may not do much for you nutritionally, says a Texas A&M University Agricultural Extension Service specialist.

According to nutritionist Marilyn Haggard, a sack lunch should contain two to three ounces of meat or other protein food; a cup of milk or plain yogurt or two thin slices of cheese; one or two slices of bread or a serving of cereal and a serving of fruit or vegetables to meet this nutritional requirement.

"Including vitamin C rich and deep green or yellow vegetables in lunches helps to round out these frequently neglected nutrients, although these foods can also be provided in morning or evening meals," she says.

"Many children—and adults—think that a sack lunch has to have sweets and fats to be satisfying," Ms. Haggard notes. "But if you pack these foods, remember that they're a concen-

trated source of calories that should be consumed in small amounts."

Potato chips, lots of dressing on sandwiches or salads, soft drinks and candy bars can quickly add many calories with few minerals and vitamins, explains the specialist.

For both economy and good nutrition, the best food buy for school children is probably the lunch served at school, Ms. Haggard advises. But if parents carry sack lunches too, it may be just as convenient to pack them for the whole family at once.

A variety of lunch meats, prepared spreads, snack foods and even sandwiches are available for instant lunch packing. But because pre-packaged individual servings of foods are more expensive, it can sometimes cost more to pack a sack lunch than to eat in a restaurant, notes the specialist.

Freezing sandwiches ahead can save total preparation time. All breads keep good quality in a freezer, but some usual sandwich ingredients should not be used in frozen sandwiches, Ms. Haggard says.

Raw vegetables, whites of hard-cooked eggs and mayonnaise do not keep good quality when frozen.

Vegetables lose their crispness, cooked egg whites become tough, and mayonnaise and jellies have a tendency to soak into bread and make it soggy. Instead, she suggests using butter or margarine as a spread on sandwiches for freezing.

RISK MANAGEMENT SHORTCOURSE PLANNED

Managing risk is a key to the economic survival of farmers, and the Texas Agricultural Extension Service has planned a shortcourse to deal with that issue.

The activity is October 1-3 at the Computer Training Center at Stiles Farm at Thrall, six miles

east of Taylor on U. S. 79.

Producers will be briefed on yield and price strategies, crop insurance, crop budgets, accounting reports, cash flow projections, whole farm planning, the market outlook, grain futures, commodity options and options hedging.

EXTENSION ECONOMIST IN AG FINANCE

Dr. Danny A. Klinefelter has been named to the position of economist-management by the Texas Agricultural Extension Service to bolster education programs in agricultural finance and farm financial management.

He will give emphasis to programs that will help Texas producers with financial and production decision-making. He also will work with agricultural lenders in relating to producers the need for records to support loans.

The Alamo, which you may remember, was so called because it stood in a grove of cotton-wood trees, called Alamo in Spanish.

The first automatic pop-up electric toaster was marketed in June, 1926. It received one slice of toast at a time.

Extension Highlights

Dirk Aaron
Briscoe County
Extension Agent

The corn harvest is coming to an end here in Briscoe County. But major activity will start sooner than we think in our grain sorghum and cotton fields. We are presently in a severe state of moisture stress as it relates to early planting of wheat for grazing. Hopefully we will receive some needed precipitation by the end of the week.

Those of you who have late-planted sorghum, please be aware of the threat of sorghum midge. Damage to sorghum begins when female midge lay eggs in spikelets of flowering sorghum heads. Each can deposit from 50 to 250 tiny yellowish white eggs during her short lifetime, of 24 to 48 hours. A pinkish orange maggot hatches from the egg and feeds on the developing seed. "Blasted heads" result from this.

Since midge lay eggs only in flowering sorghum heads (when yellow anthers exposed on individual spikelets), damage can occur until the entire head or field has been pollinated. The period of midge susceptibility may last from seven to nine days depending on uniformity of flowering.

To determine the presence of midge, fields should be inspected during the morning or early evening hours when midge are most active. Use a clear one gallon plastic bag as a trapping device over the sorghum head. Apply an approved insecticide when 25 to 30 percent of the heads begin to flower and the number of midge adults averages one per head. If adults are still active three to five days later, immediately apply a second treatment. We are very susceptible to sorghum midge damage this year because of an abundance of sorghum that was planted late. Keep up with what is happening in your fields; frequent inspections can save a crop.

In addition to today's sorghum midge report, I would like to extend an invitation to all area farmers to the 1985 Crop Tour for Briscoe County. The tour will be held October 1 and will begin at the County Show Barn. We will leave from the barn about 9:15 to tour County Result Demonstrations. The activities will be highlighted by a free noon meal, provided by several chemical dealers.

Stops on the tour will include Cotton Variety Studies, Cotton Growth Regulator Studies, Weed Control Studies, Cotton Growth Stimulator Studies, and hopefully, Hybrid Wheat Variety Studies. Also at the noon meal a program will be provided by four District Extension Specialists on cotton response to herbicide drift, wheat variety information for the 1986 crop, wheat rust in 1985, and insects on the South Plains. Please make every effort to participate in some or all of this year's tour activities.

For more information on agriculture, home economics, or 4-H Club programs contact the County Extension Office.

Briscoe 4-H'ers Compete At Swisher Fair

Briscoe County 4-H Livestock Feeders competed at the Five-County Invitational Fair in Tulia on Saturday, September 4. This being the first fair of the 1985-86 4-H year, nervousness and excitement by exhibitors and parents ran high.

County achievements were highlighted by Kristi Bean who had the Champion Limousin Heifer. Kristi received a rosette and a beautiful show halter for her placing.

Brandi Brunson won the Reserve Champion Southdown honors with her Southdown lamb.

In addition to these two top exhibitors, other placings included Oleta Lane, Reserve Champion Limousin Heifer; Clay Schott, third place Heavyweight Mediumwool lamb; Bradley Brunson, fifth place Finewool lamb; Clay Schott, fourth place Heavy Chianina Steer.

Other exhibitors were Christa Tucker, mediumwool lamb; Bradley Brunson, light mediumwool lamb; Clay Schott, heavyweight mediumwool lamb.

County Extension Agent Dirk Aaron commended each of these 4-H'ers for their hard work and outstanding showmanship.

4-H Events Planned For Fall

County Agents Dirk Aaron and Lynda Fogerson would like to announce the upcoming 4-H events for this fall in Briscoe County. All of these activities and events will be discussed at the fall Adult Leaders meeting October 3 at 8:00 p.m. in the Pioneer Room of the First State Bank in Silverton.

Major events to be discussed will be the 4-H Pig Sale November 2; 4-H Achievement Banquet, 4-H Food Show. Your participation at this meeting will be appreciated. All interested parents and friends of 4-H are invited to attend.

4-H parents and members need to be aware of the ruling by the State Board of Education concerning the 4-H Club program. 4-H has been ruled as an extra-curricular activity in the State of Texas. This entitles all 4-H'ers to use some or all of their 10 days of excused absences for a 4-H activity. On the other side, 4-H comes under the no-pass, no-play ruling.

As requested by the school superintendents, we will be letting them know what 4-H'ers will be participating in all the 4-H activities.

Parents, please be aware of this ruling, because our major concern is that 4-H'ers maintain above-average grades and still participate in additional quality educational programs through 4-H.

For more information, contact your County Extension Agents, Lynda Fogerson and Dirk Aaron, at 823-2343.

Over 27 million Americans are also bowlers.

Quitague Church to Have Youth-Led Revival September 20-22

The First Baptist Church of Quitague will hold an All-Church Youth-Led Revival September 20-22.

Bro. Mike Anthony, who is presently serving as the minister of youth and education at the First Baptist Church in Post, will be the evangelist.

Bro. Dennis King will be the music evangelist. He is the minister of music and youth at the First Baptist Church in Plains.

Services will be held on Friday and Saturday nights at 7:30 p.m. and on Sunday at 10:45 a.m. and 6:30 p.m. Fellowships and other activities are planned before and after the services. A complete revival schedule is listed below. Everyone is invited to attend.

FRIDAY, SEPTEMBER 20

5:30 p.m.—Adult Bible Study
5:30 p.m.—"Preteen Jamboree" (Grades 1-6)
6:30 p.m.—Revival Service
7:30 p.m.—Afterglow Fellowship

Always wash the bowl and beaters with hot soapy water and rinse well before using to beat egg whites. Even a trace of grease will sabotage your best beating efforts.

Seals sometimes swim 6,000 miles over a period of eight months without once touching land.

**No matter what anyone says,
nothing is
"just as good as a John Deere."**

"And ours is just as good as a John Deere." How many times have you heard that? When one manufacturer is so clearly the leader, that's the ultimate claim any competitor can make. But when you put all claims aside, there's nothing like a John Deere tractor with Caster/Action™ mechanical front-wheel drive and 15-speed Power Shift transmission. No combine can match the productive efficiency of a Titan II. And the superior seed/soil environment created by Max-Emerge™ planters is literally legendary. But so is the dealer support that's provided with everything in The Long Green Line™. Don't take our word for it. Ask anyone. We're happy to be judged by what we're known for.

AFTER THE PARTY IS OVER

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

©Coleman Adv. Ser.,

Have you ever felt like this little girl after a big, exciting day at the Fair, or a party? You know how you feel — excited, exhausted; but you feel good, too. Sometimes you just want to lie down and think about it. But like the little one in this picture you, also, are too tired to remove your party hat or your shoes.

Sometimes it is delightful just to lie down and think of something good and wonderful and happy. It is good just to *be still* and sort of day-dream about what has happened.

There are other times in our lives when we need to achieve a sense of quietness and think of God. The Psalmist says, "*Commune with your own heart upon your bed and be still.*" Psalm 4:4. God says in Psalms 46:10 "*Be still and know that I am God.*"

We invite you to attend church and sense the still, quiet holiness that is God's presence in the midst of the congregation.

"... in thy presence is fulness of joy ..."

Water Issue is Topic of Program

The water issue in Texas is the topic for a program at the County Extension Program Building Executive Committee meeting Monday, September 16, at noon in the Silverton City Hall.

The program is a video tape from Senator John Montford's office concerning the issue of water needs in the state and an explanation of the water amendment that will be on the November ballot.

The committee will also plan an Extension Information Event for the fall and discuss a planned computer program for 1986.

This committee, chaired by Jimmy Burson, serves as the overall advisory group in program planning for the Extension Agents in the county.

AREA I YOUNG FARMERS CONVENTION, AWARDS BANQUET HELD RECENTLY

The annual Area I Young Farmer Convention and Awards Banquet was held recently at the Knights of Columbus Hall in Hereford.

During the business session of the convention, election of new officers was held. Those elected were Ray Schlabs, Hereford, state vice president; Freddie Maxwell, Sudan, president; Larry Robb, Dimmitt, vice president; Lyle Miller, Floydada, secretary; Tommy Louthan, Hale Center, treasurer, and Rick Hale, Hereford, reporter.

The Silverton Young Farmer chapter received the publicity award during the awards banquet.

Those attending from the Silverton chapter were Stan Fogerson, Calvin Shelton, Tobe Riddell, Clinton Dickerson, Mr. and Mrs. Rick Hester, Mr. and Mrs. Eloy Reyna, and Mr. and Mrs. Wayne Stephens.

Letter To The Editor

Dear friends,

Carroll, my sister, Lucille Davis of Canyon, and I attended the special West Texas Alzheimers Network Seminar in Odessa last week at the University of Texas-Permian Basin. The meeting was opened by President Andy Anderson's reading of the poem I am enclosing. I thought this might be of interest to many there who love Weta and others who are affected by this terrible disease.

Our best regards to all of you,
Glenna W. Garrison

ALZHEIMERS IS A STRANGER

She still is very beautiful she looks at me and smiles And yet she seems so far away it might as well be miles I search for just a flicker to help me see she knows that I am her own sister

And yet the pain still grows, the pain of loneliness and heartache for the victim we love so. Gone is all communication rich or poor it causes pain for Alzheimers is confusing it deteriorates the brain. Alzheimers is a stranger that slips in unawares and tangles up our happiness with deep perplexing cares. Oh, what can be the cause of it Alzheimers strange disease— We're searching for an answer So won't you help us—please.

—Glenna Wilson Garrison
dedicated to Weta

Probasco Attends NMLA Meeting

Don Probasco, owner and operator of Pro-Lock Shop and member of the New Mexico Locksmith Association, recently attended the 30th annual state meeting of the NMLA in Las Cruces, New Mexico. During the three-day meeting, Probasco attended a class on the new Ford locking system. Members of the class learned how to decode a door lock and decode an ignition lock so as to make a key for the car when no key is available. This new type lock is now used on Lincoln, some models of Mercury, Thunderbird, and some other deluxe models of the large Ford automobiles.

The second class attended by Probasco was a class on impressioning. This is the skill whereby a person is able to take a key blank and by correctly notching it with a file, make a key that will unlock the lock. Some locks of a very high security type as well as General Motors door, trunk and ignition locks do not lend themselves to this method. Almost all other locks do, if the locksmith has the proper training, skill, sight, and most of all—patience! Once the basics of this skill are learned, it must be practiced regularly. Instructor for these two classes was Steve Spiwak of Chicago, locksmith shop owner, writer and teacher in the locksmith industry.

During the NMLA meeting, wholesale locksmith suppliers displayed their products as well as donating prizes for drawings held during the awards meeting. Some 65 members from western Texas and New Mexico attended and were appreciative of the kindness and hospitality of the people of NMLA who planned the meeting and made it all possible. This industry is one of the few where fellow tradesmen teach and share knowledge with their competition. With greater knowledge comes better service and better products. The public gains, the locksmith gains, and sloppy, poor quality workmanship loses.

Cattle branding was practiced 4,000 years ago. Old tomb paintings show Egyptians branding their cattle.

"Good company and good discourse are the very sinews of virtue."

Izaak Walton

September 15-21 Is Farm, Ranch Safety Week

Farm and ranch related accidents and illnesses continue to abound in Texas and the nation, so a weeklong observance is aimed at calling special attention to safe operations.

Farm and Ranch Safety Week is September 15-21, and this year's theme is "Health + Safety = \$\$\$."

"With so many of today's farmers and ranchers concerned about the economic health of their operations, they could not bear the added burden of loss that would result from a serious accident or illness," says Dr. Gary Nelson, safety engineer with the Texas Agricultural Extension Service, The Texas A&M University System. "Employing appropriate safety and health measures could help them avoid such losses and enhance their chances of financial success."

Farm and Ranch Safety Week in Texas is a special campaign to inform farmers and ranchers and rural residents about accident prevention. Joining the Extension Service in the effort are the Texas Safety Association, Texas Farm Bureau, Future Farmers

and Future Homemakers, and the Young Farmers of Texas.

According to National Safety Council estimates, agricultural work accidents last year resulted in some 1,700 deaths and 180,000 disabling injuries, many of which were crippling.

Thousands of farm and ranch residents suffered serious and often fatal injuries in home, traffic and recreation mishaps. Several billions of dollars were lost—losses that farmers and ranchers can ill-afford these days, Dr. Nelson points out.

"The rural environment offers a lot of potential hazards, and agriculture has the highest level of general stress among the nation's occupations," notes Dr. Nelson. "Those two factors combine to make farming and ranching one of the most hazardous occupations in the U. S., so the need for safety education and for practicing safety is paramount."

The tropical man-of-war, or frigate bird, steals his fish dinner from other fish-eating birds.
