Urge Folk Visit Public Schools This Week

This is Public School Week, March 2-6. The public schools of this area invite you to visit the class rooms where your children are receiving the benefit of one of the greatest heritages of democracy, a public school education.

You, parents and all citizens, are urged to go back to school for a short time, any day this week, or attend special programs arranged for your entertainment, and see "Democracy in Action." You will learn first hand just what is being done to make your sons and daughters good American citizens.

All patrons of the Talco School District are invited and urged to visit their school sometime during the week. The school will be carried on in the usual manner and we would like for everyone to see it as it is.

For the benefit of those who may not have an opportunity to visit during school hours and for all others who will attend, we plan to have open house on Thursday evening, March 5 from 5 to 7 p. m.

Then at 7 p. m. we will have the March meeting of the Talco Parent Teachers Association. A very good program is being planned for this meeting. We had a large crowd for the February meeting. We hope this will be the largest group we have had yet.

Supply Pastor is Named at Talco

Rev. James Draper of Dallas, has been engaged as supply pastor of Calvary Baptist Church in Talco, until a full-time pastor is called.

Some women of the church have furnished light housekeeping facilities for him at the parsonage, so that he may occupy it during his week end visits.

Will Ask Charter Open New State Bank at Paris

Several businessmen are seeking to establish a state bank at Paris, and will file an application shortly with the State Banking Commission.

The delegation appeared before State Banking Commissioner J. M. Falkner in Austin Thursday, and asked permission to file the application for a charter.

The proposed new bank would be a drive-in type suburban bank located at Clarksville and 12th, next to the Brookshire Center. The group has an option on a 90 by 200 foot lot there.

Proposed directors of the new bank are Wallace Norton, Bob Swaim, Morris Kimbell, M. D. Misso, Richard Margraves, Robert Glass and E. H. Rudy, all of Paris; Jim S. Sharp of Slaters Shoals, John R. Kelsey of Deport, Hank Wyatt of Grant, Ok., and Charlie Hassing of Hugo, Ok.

Paris presently has two national banks, Liberty National and First National.

SCHOOL NEWS

Mrs. Hall from Mt. Vernon, is the new music teacher, replacing Mrs. Ed Wolfe.

Western Week will be held March 9-13. This is sponsored by the Student Council.

The student body and faculty were shown a picture Wednesday on the "Tornado in Dallas." The Spanish Club sponsored a Spanish supper Tuesday night. They cleared \$72.00.

The school will present open house Thursday night.

Dr. L. D. Lawler of Mt. Pleasant, with Mrs. Dan Cotten, Mrs. Jack Brown and Mrs. W. R. Young assisting, is continuing eye examinations.

The Spanish Club will sponsor the movie, "Apache," March 7.

Dogs Running at Large Must Have Rabie Vaccination

At a recent meeting of the Talco City Commission it was determined that too many unvaccinated dogs are running at large in Talco, and that due to rabies they constitute a menace to the people.

An order was passed that all dogs running at large must be vaccinated against rabies or kept up. Services of Veterinarian Dr. Jimmie Kelly of Clarksville, have been secured to vaccinate dogs, their owners paying for the service.

Dr. Kelly will be at the City Hall in Talco on March 18, from noon until 3:45 p. m.

"Owners of unvaccinated dogs should attend to this matter not later than that date," says an official notice in this edition of The Times.

Allen Amendment Prevails in House

John Allen, Gregg County Representative, former Cunningham man, didn't like the language of Bill 135, providing for vaccinating cattle before movement out of livestock markets, to be done by veterinarians. He offered an amendment to permit owners of cattle to do the work or designate who should.

His amendment prevailed 103 to 35. Lamar's Representative Preston and Red River, Titus and Camp Representative Adams supported Allen's amendment. He wrote this newspaper saying:

"We must maintain what little freedom we have left after the actions of the Federal and State Government. I shall continue to give people the opportunity to make a decision for themselves without aid of veterinarians, the Livestock Commission, or the Federal Government."

Hocker Funeral Held Friday

Funeral of Sam Hocker, 56, who died at Clarksville, was held Friday at McKenzie Memorial Methodist Church, with burial in Fairview Cemetery.

Mr. Hocker, a real estate agent and former attorney, had been in failing health some time.

Check Given 33 Years Ago Cashed

A check given as payment of a lot in Highland Cemetery at Deport 33 years ago was found this week. The uncashed check, dated Aug. 8, 1925 in the amount of \$10.00, bore the signature of Raymond E. Nobles, and was drawn on the First State Bank at Deport. The check was found by James Grant in an old ledger belonging to his father, J. M. Grant, owner of Grant Funeral Home in Deport.

Grant showed the check to Nobles, a Deport merchant, who instructed him to go ahead and cash the check, and said it had probably "cooled off" enough by now.

Big Rain Falls Wednesday Nite

A heavy downpour descended on this area Wednesday afternoon and night preceding a cold front. Springlike temperatures dropped to 40 degrees Thursday morning. Strong wind, and an electrical storm accompanied the norther. No damage was reported early Thursday morning.

Deport's official government rain gauge showed 1.70 of an inch, according to A. C. Nixon. This was the first measurable amount recorded in March.

Prior to Wednesday night's rain farmers had been in fields putting out fertilizer, plowing, planting corn and early grain crops. Farm and road construction work will be delayed a few days.

A light shower of rain Friday night measured .12 of an inch to push the rainfall up to 3.64 inches in February. This brought the total precipitation up to 4 inches this year. Skies became overcast Wednesday and a sprinkle of rain fell about noon.

Housewives have put out cabbage and onion plants and planted potatoes and other early vegetable seed.

Father of Talco Man is Buried

Ed Primm, age 70, died of a heart attack Saturday night at his home near Camden, Ark. He was the father of Roy Primm of Talco. Funeral services were held at the Baptist church in Camden Monday afternoon with burial at Stephens, Ark. Attending the funeral from

Group Appointed Ask Maintenance Business Loop

A committee was appointed at a recent meeting of the board of directors of Talco Chamber of Commerce to go to Austin on March 26 and ask the State Highway Commission to take over maintenance of Talco's business loop.

Half of the loop now consists of U. S. Highway 271 and FM 71. The other half was paved with a city bond issue back in 1937. The committee will ask the Commission to take over and maintain that portion paved by the city. It is a reasonable request and will doubtless be granted.

Named to the committee are Mayor Jerry Jones, Harold Bonham, A. L. Sikes, County Commissioner Gene Mankins and School Supt. W. R. Young. State Senator A. M. Aikin Jr. will be spokesman for the group.

Oil Developments Newly Discovered Sands Near Talco

Moore & Coats No. 3 well, on the Liliestern & Hoffman tract, six miles northeast of Talco, was reported flowing from the Dexter sand, around 3700 foot level on Tuesday morning. The well has not been gauged by the Railroad Commission.

Effort to establish Glenrose pay in the 1-well Trix-Liz Woodbine pool seven miles east and north of Talco has ended in failure. R. E. Moore and W. M. Coats No. 1-B Hoffman, J. Prather survey, has been plugged back to the Woodbine after showing salt water with some oil and gas on a test at 5,300-06 feet. The operation is credited with 42 feet of net Woodbine pay in four sections.

Cunningham Boys Powderly Fems Win Tourney

Cunningham Warriors won the boys title and Powderly's girls captured top honors of the East Lamar post season basketball tournament of next year's teams Saturday night at East Lamar.

East Lamar was the runner-up in both instances. Cunningham, paced by Norwood with 16 points, registered a 41-30 win. Morris Short led East Lamar with nine points.

Maroney scored 19 points as Powderly tripped the East Lamar fems, 38-33. Jacqueline Short tallied 16 points for East Lamar.

Trophies were awarded the winners. The tourney was a single elimination affair, thus there were no consolation awards.

Other teams entered in the twin tournament were Blossom, Chicota, Delmar, West Lamar, Talco, Bogata and Deport.

Oscar Carrell Dies Monday

Oscar Carrell, former resident of Talco-Lavada vicinity, died Monday at the home of his daughter, Mrs. Ollie Frazie at Vernon, due to a stroke after lengthy illness.

Born in Georgia about 70 years ago, he was married near Hagsport in 1913 to Miss Annie Hawk.

Survivors, other than Mrs. Frazie, are a son; several grandchildren, two sisters, Mrs. Gus Wims of Bogata, Mrs. Zoie King of Snyder; a brother, Chesley Carrell of Midland.

Titus Co. Sheriff's Department Now Has One Deputy

Titus County's Sheriff's Department was reduced Saturday to one deputy in complying with a recent Commissioners Court order.

Sheriff Alvis Redfearn said Monday this was in accordance with the agreement he had made with the job Feb. 16 to replace Paul D. Brown.

Brown resigned as sheriff following a controversy with the Commissioners Court over cutting off his deputies and other matters.

Relieved was Deputy Odus Perkins, a veteran law enforcement officer. Perkins said Monday he has no plans for the future.

The Sheriff's Department now has one full-time deputy, E. R. Grayson and an office deputy, Mrs. Lurlene LaPrade.

Law enforcement is given Talco by Constable Clarence Tension, who was appointed by the Commissioners Court, Feb. 14 after Deputy Grayson was transferred to Mt. Pleasant by Brown.

Seven Men File For Three Places On School Board

Seven men have filed for three vacancies on the Board of Trustees of Talco Independent School District.

Seeking re-election are D. R. Harton, James L. Gandy and R. G. (Dick) Hood.

Others seeking election are H. J. (Pete) Hill, F. J. Davis, D. F. (Dick) Dixon and W. R. Dickerson.

Members of the board whose terms do not expire are J. L. Thompson, J. F. Cook, J. B. Morse and D. W. Buchanan.

Election will be held April 4. Deadline for filing was March 4.

James D. Phelps Dies Thursday

Funeral services were held on Friday at Smith-Bates Funeral Home for James D. Phelps, who died at his home at 11:20 a. m. Thursday in the Wilkinson community.

Born in Red River County in 1879, Mr. Phelps is survived by his wife, Mrs. Maudie Wilson Phelps, a daughter, Mrs. Hazel Jobe of Hurst, and four sons: Bill Phelps, Farmington, N. M., and Carl Phelps and Marshall Phelps, and Eudy Phelps, all of

Fire Insurance Rates For Local Towns Reported

Key fire insurance rates and fire record percentages have been published for insurance agents. With the thought that key rates of this and nearby towns would be of interest, they are listed below, courtesy of John H. Moore.

A town's key rate depends upon the type of equipment available to fight fires; size of water lines and water pressure; paid or volunteer fire departments and attendance at semi-monthly meetings of volunteer.

Along with the key rate goes a charge or credit for good or bad fire records over a five year period.

Towns may earn up to a maximum credit of 25 per cent or have a maximum charge of 15 per cent

Town	Key Rate	Cr.	Chg.
Talco	.56	.05	
Bogata	.51		.10
Deport	.49		.15
Detroit	.95		
Blossom	.90		.10
Clarksville	.24		.15
Mt. Vernon	.39		
Mt. Pleasant	.37		.05
Paris	.18	.05	

Deport, Bogata and Talco had changes in key rates over the previous year. Deport's key rate was reduced from 58 to 49 cents; and Talco's from 58 to 56 cents. Deport's charge of 15 cents remained the same and Talco's credit dropped from 10 to 5 cents. Bogata's key rate was up from 48 to 51 cents, but the charge was lowered from 15 to 10 cents. Detroit drew a neutral, as the 5 cent charge last year was dropped. Clarksville's key rate was lowered from 30 to 24 cents, but a bad fire record boosted the charge from 10 to 15 cents.

TALCO MASONS HONOR WASHINGTON'S BIRTHDAY

Masons entertained their wives with a supper Thursday night at school building. Jack Thompson was the speaker. He gave interesting facts about the life of Geo. Washington. This is a yearly affair, celebrating the birthday of Washington, the Mason.

TALCO'S BROAD STREET TO BE KEPT CLEAN

In an effort to make Talco's Broad street in the business district look better and more sanitary, the City Commission has employed Zeno Gieger to clean it up three mornings each week, according to Mayor Jerry Jones.

THURSDAY, MARCH 5, is the
deadline for filing for a place on
the ballot to be used in the city
election to be held on April 7.
In most small towns it is usually
a matter of who is willing to
serve. In 46 years as a small
town editor, there have not been
half a dozen red-hot election con-
tests for city office.

THE DEPORT TIMES is fifty
years old and its editor's profes-
sional journalistic fraternity, Sig-
ma Delta Chi, is also fifty years
old. We learned that when the
national secretary sent us a card
showing our dues had been paid
for 1959. Along with it was a
bright, gold seal showing dates
of 1909-1959. Just a coincidence.

ANOTHER GIMMICK is on
the market. A pharmaceutical
house has developed a tranquil-
izer for cattle. It is adminis-
tered before cattle are shipped to
market. This keeps them quiet,
and their blood sugar content
low. They don't get nervous and
excited, develop shipping fever
and lose weight. Results: More
money for grower and better
steaks for the eater. The tran-
quilized steak might even tran-
quilize the eater. We favor tran-
quility.

EVERY COMMUNITY has a

Enroute to the 10c Dollar?

A taxing and spending Con-
gress will eventually create a
dollar worth only 10 cents in pur-
chasing power, former Rep.
Ralph W. Gwinn of New York
recently told a Dallas audience.
It looks like some of the men
we send to Washington have noth-
ing in mind but continuity of
office. They are willing to bank-
rupt the nation to remain in of-
fice.

In 1943 this editor scraped up
what spare cash he had and
bought two \$500 government
bonds to help prosecute the war.
They paid 2 1/4 per cent interest
and were 15 year bonds. He cashed
them in on their redemption date
recently, and here is how he
figured the investment turned out:

He gave a thousand dollars for
those bonds, worth 100 cents on
the dollar.

He received back 1000 dollars,
worth \$480 in purchasing power.
He also received \$337.50 inter-
est on the bonds during the 15
year period—but the government
took \$67.50 in income taxes, leav-
ing \$270 interest over the 15 year
period.

That \$270 interest, plus \$480
depreciated dollars equals \$750
we got back for the \$1000 we
loaned the government 15 years
ago.

It cost us \$250 and interest on
our thousand dollars for 15 years
to buy the bonds. An unprofit-
able investment, don't you think?

No wonder the government's
long-term bonds now go begging
for buyers, and short-term notes
are offered. Look up govern-
ment bond prices on a financial
page and see what the New Deal-
ers and Give-Away congressmen
and senators have done to our
dollar. Even the Canadian dollar
is worth more.

Some day men and women liv-
ing on fixed incomes will curse
the men responsible for our low-
valued dollars. Some are now
proposing to pass a law to MAKE
citizens buy government bonds.
What became of the land of the
free and the home of the brave?

City Council or the School
Board. Their meetings are not
executive affairs, because after
all they are transacting the busi-
ness of the tax payers. Learn
some of the problems these bod-
ies try to solve. Write a letter
to the editor about them. Go to
the polls and vote. That is the
way to help make our commu-
nity a better place in which to
live and to educate our children.

Dear Mr. Sam:

I am in receipt of your letter,
signed by you and others, in op-
position to a proposed increase
in the amount of tuition charged
at our institutions of higher
learning. I most heartily agree
with you that this should not be
done. I voted against the in-
crease two years ago when it
passed, and I shall certainly vote
against this one, if it reaches the
Senate.

Sincerely,
A. M. AIKIN, JR.

The New Look In Peddlers

Beware of a nice, clean, attractive glamorized racket that is taking an alarming amount of money from the working girl's pay-check. Many sensible people unwittingly encourage and help it along, thinking they are doing a favor. People from small towns who do not know the tricks and clever schemes of this new kind of peddler are sympathetic until they themselves are stuck with a contract for merchandise on time payment that could be purchased from a local dealer and the money kept at home.

This new kind of glamorized door to door salesman is a young, nice-looking college boy, well trained in the technique of obtaining a personal interview with young marriageable girls who are filling their hope-chest while they are at home and making good money. This seems to make good sense to have all this paid for and over with before the wedding. Actually she is tying up all her money in time payments for something she may decide she doesn't want later on or might not please her husband. She is paying high rates of interest and carrying charges — and don't think these young salesmen are not getting enough profit to take care of a good salary and expense account, and all of this has to come from the sales or they would not be working.

EASY SOLUTION

A husband and wife were in the judge's chambers as he tried to get them to settle their differences and start all over again. "Your main trouble is extravagance," said the judge. "Your expenses excel your income. Now, this record shows that you, Mrs. Jones, buy expensive clothes. An expert has said that a woman's clothes shouldn't exceed the amount paid for rent monthly."

"Well, we can fix that," said the wife. "We'll move to a more expensive apartment."

IN A QUANDRY

An attractive woman hurried into a psychiatrist's office. "I'm in love with a wonderful young man and he's in love with me," she said. "Both our parents are agreeable to the marriage and we feel sure we'll be happy."

"Well," the psychiatrist said, "what's your problem?"

"Oh, doctor," the young woman moaned, "I just don't know what to tell my husband!"

Paul Taylor Blalock, son of Mr. and Mrs. Eugene Blalock, was honored on his second birthday, Sunday, with a party at the home of his grandparents, Mr. and Mrs. P. P. Hendrix. Refreshments of cake and punch were served. Attending were Mr. and Mrs. A. T. Blalock of Wilkinson, Susan and Junior Blalock of Dallas, Mr. and Mrs. Wesley Blalock, Charles Wayne, Bryant and Elizabeth of Wilkinson, Mrs. T. G. Temples and Donna of Mt. Pleasant, H. D. Lightsey, Mrs. Leon Barber, Pam and Kerry, Dallas, Mr. and Mrs. P. P. Hendrix, Mrs. Verna Mae Blalock and Belinda. Paul received several nice gifts.

State Capital NEWS

By Vern Sanford

Austin— 56th Legislature is moving like a snowplow— with the snow still falling and the snowballs flying.

Taxing and spending committees are pushing doggedly thru their hearing schedules. But new bills are still swirling into their path, and, in whatever direction they move, they're constantly pelted with objections.

With the 120-day session nearing the halfway point, each passing day increases the possibility that they'll come to the May 12 quitting deadline still "snowed under."

OVERHAUL PLAN — Rep. Frates Seeligson is pushing his take-some, add-some tax plan as

a long-needed updating of Texas' tax structure.

Seeligson (of San Antonio) told the House Revenue and Taxation Committee that many taxes still on the books (such as those on clock peddlers, waxworks, medicine shows, etc.) are no longer useful. Others, such as the chain store tax, he called inequitable.

Seeligson's bill would repeal some 38 such taxes and increase levies on other areas—auto sales, cigarettes, liquor, beer, corporation franchises. His plan also would include two ideas backed by Gov. Price Daniel—to take over abandoned property for the state and to make a bookkeeping

transfer of \$18,000,000.

But unlike the governor, Seeligson is frankly pulling for a general sales tax.

Other new tax ideas are to increase the levy on beer from \$4.30 to \$10 a barrel, by Rep. Leon Thurman of Anson.

Rep. W. T. Oliver of Port Arthur has introduced a five per cent gross receipts tax on hotels, motels, rooming house rentals and airline passenger business. Oliver also proposed a five-cent-a-gallon tax on soft drink syrup and a three per cent levy on pop sales.

GALS AT IT AGAIN — That hardy repeater from many past sessions, the women's equal rights amendment, is back again.

Sen. George Parkhouse of Dallas is sponsor of the proposed constitutional amendment which would remove legal restrictions on women.

Representatives of the Federated Business and Professional Women told the Senate Committee that some Texas laws classify women with "infants," imbeciles and lunatics." They pointed to the statute that prevents a married woman's selling, without her husband's permission, property she acquired on her own hook.

As usual, no one opposed the women. But the proposal was packed off to the attorney general for a "full appraisal of what effect it would have."

OF CHURCH AND STATE — Religion and politics got mixed—with explosive results — when four legislators announced they'd heard atheism was being taught in state colleges.

A bill to require all faculty members in state schools to take an oath they believed in a supreme being was introduced by the four. They are Reps. Bill Hollowell of Grand Saline, Joe Chapman of Sulphur Springs, Ben Lewis of Dallas and W. T. Dungan of McKinney.

College officials and university pastors joined in calling the charge "ridiculous." Several University of Texas spokesmen, both educators and ministers, said they had never known a time when there was more sincere interest in religion among both faculty and students than at present.

WHY VACCINATE? — Sen. Floyd Bradshaw of Weatherford and the medical profession are at odds as to the value of small-pox vaccinations.

Sen. Bradshaw refused to send his four children to Austin schools, which require vaccinations, and is teaching them himself in his office. He also introduced a bill which would prohibit local school boards from requiring that children be vaccinated before they can attend school.

Quoting from a 34-year-old medical article, Bradshaw told the Senate Public Health Committee, "the bedbug is the sole conveyor of smallpox."

But medical spokesmen credited vaccinations with eliminating the scourge that once killed thousands every year. Dr. J. M. Coleman of Austin told the committee that allowing children to come to school un-vaccinated had the same "potential for destruction" as allowing them to bring "pistols and switchblade knives."

FOUR ALARM HEARING — Committee discussion of bills on city firemen's and policemen's hours brought more spectators than a first class fire.

City officials and the firemen's and policemen's association are in a head-on clash over the old issue.

A bill by Rep. Robert Johnson of Dallas would set maximum hours, increase overtime pay for fire and police work in cities over 10,000. A rival bill by Rep. Ben Sudderth of Brownwood would give the cities control over these matters.

City officials declare the people who have to foot the bill ought to be able to make the decisions. Spokesmen for the associations said, in effect, that they have to come to the legislature because they can't get any help from their cities.

HOW MUCH CREAM? — Milk producers and milk sellers are squabbling as to whether the law should require that milk be labeled as to butterfat content.

House Health Committee sent the labeling bill to a sub-panel. Retailers opposed the bill, said the procedure would be costly. They said, too, that there would be competition to provide richer milk which a calorie-conscious public doesn't want. Present law requires 3.25 per cent butterfat content for whole milk.

Producers said they thought the public ought to know what they're buying.

SHORT SNORTS — Texas Capitol grounds of the 1980's will extend almost to the University of Texas campus, if plans materialize. A proposed master plan, unveiled by Governor Daniel and the State Building Commission, aims at continuing present expansion northward by four blocks and in a four-block-wide strip. National Safety Council sent congratulations to Governor Daniel for Texas' eight per cent drop in traffic deaths for 1958. Latest reports show 2,336 killed last year as compared to 2,539 the year before.

Imported Nurses At Ohio Hospital

Toledo, Ohio.—Flower Hospital has imported three British nurses, even paying their passage to America. Hospital Administrator Victor Bjork said the English nurses are particularly valuable because they are willing to live at the hospital and be available for emergency duty at all times. American girls, he said, are reluctant these days to live on the hospital grounds.

First Washer Was Developed For Farmer's Wife

It was the long-ago invention of a machine which made an important difference in the lives of untold millions of women in the twentieth century, but this difference was 52 years in the making.

Today, because of this invention, a touch of a button, a twist of a dial is all that the modern homemaker needs to do to transform the family's soiled laundry into a state of radiant cleanliness.

The "Pastime" washing machine which saw the light of day in 1907 at Newton, Iowa, was the product of a farm machine company that decided to develop a contraption that would lighten the load of the farmer's wife.

Instructions to the user were: "Take 50 pints of hot water and four pounds of soap. Add six teaspoons of alkali and two of essence of turpentine. Place garments in the pot and leave for five hours without touching."

To say the least, a homemaker or hired girl's lot in those days was not an easy one.

In 1911, an electric-powered model was introduced to the market. This electric washer created a demand for power laundry equipment even in areas where there was no electricity.

For the first time came in 1922 the simple mechanical principle that was to revolutionize the washing of clothes—it was the agitator. Finally in 1939 the first fully automatic home washer was developed using principles that had been employed for years in commercial laundries.

Shortly after World War II the agitator automatic clothes washer appeared on the market and broke down the claims that the automatic laundry could not wash clothes as clean as the old wringer washer method.

Today, more than 50 years after first washers were introduced, the modern electric home laundry is an integral part of American home life. It's no wonder that the American homemaker's favorite "pastime" today is Living Better Electrically. With her
