AGENTS CALLS NAMES OF 17 TAX DODGERS

WASHINGTON, June 24 (AP)—Two score names of persons high in business and financial fields were listed by treasury officials today in the Senate-House inquiry into tax evasion and avoidance.

The list included Andrew W. Mellon, Pierre du Pont, John J. Raskob, Thomas W. Lamont, Alfred P. Sloan, Jr., and Mrs. Ethel du Pont.

The names were listed in tables given the congressional investigating committee by Guy T. Helvering, internal revenue commissioner, as the committee studied what Helvering termed the "device of personal holding companies" to reduce tax payments.

Helvering did not say at any point that the tax-reducing activities of those named were in any way illegal.

Instead, he said they took advantage of tax deductions allowed personal holding companies under the law which are not permitted on individual tax returns.

WASHINGTON, June 24 (AP)—Commissioner Guy T. Helvering of the Internal Revenue Bureau handed to a congressional tax committee today the names of 17 personal holding companies.

The tax official made no charge that such reductions were in any way illegal.

The corporations included the Adason Tobacco corporation, the principal owners of which were listed as A. W. Mellon, B. Mellon, C. Louis Allen, and C. D. Marshall.

Helvering supplied a table showing the firm, on the basis of its 1935 tax return, had a net income of \$97,773 before any adjustments were made under the personal holding company tax section paid.

The list also included the Penn Tobacco corporation, owned by the same individuals, with a net income before adjustments of \$192,600, no ordinary corporate, or holding company surtax, no dividends, and an additional surtax that would have been paid if the firm had not existed of \$76,586.

Scruples Heads List The list started with the Robert P. Scruples company, of which Robert P. Scruples was given as principal owner.

The firm had net income before adjustments of \$173,599, paid no corporate or holding company tax, and dividends of \$45,000, the treasury official said. The additional surtax that would have been paid had the company not been formed was placed at \$59,840.

The treasury presented the names to the committee without immediate identification. Additional firms named included:

E. W. Scruples company, principal owner E. W. Scruples, net income before adjustments, \$1,705,405, no ordinary corporate tax holding company tax \$67, dividends paid \$850,000, additional surtax that would have been paid \$448,134.

Kovik Investments, Ltd., owned by a man named Higgins, net income \$5,072, no corporate or holding company, no dividends, additional surtax that would have been paid, \$8,350.

STEEL PLANT OWNER CALLS MURRAY 'LIAR'

SAYS GUFFEY DOESN'T KNOW WHAT HE TALKS ABOUT

WASHINGTON, June 24 (AP)—Tom Girdler, chairman of Republic Steel, told a Senate committee today Philip Murray, chairman of the steel workers organizing committee was "a liar" and that Senator Guffey (D., Pa.) "doesn't know what he is talking about" with respect to the present steel situation.

Appearing before the Senate Post-office committee to answer charges made against Republic by Murray, Girdler made his assertion in answer to a question by Senator Bridges (R., N. H.).

The wheat tested 62 pounds to the bushel, and was graded No. 1 dark hard wheat. The grain company reported the grains were large and splendidly formed. It was described as "exceptionally good quality." The wheat was brought in about 9 o'clock.

FASCIST SHIPS PATROL SPAIN

(By The Associated Press.) German and Italian warships patrolled the coasts of Spain on their own initiative today, their commanders acting in apparent concert.

Italian vessels were under orders to strike back immediately at any "attack" from the Spanish government. The German battle fleet, about to be reinforced by the pocket battleship Graf Spee, was told to "protect German interests."

A fear still pervaded Britain that the joint Italian-German withdrawal from the non-intervention patrol designed to isolate the Spanish war was the forerunner of an attack against Spain as "punishment" for an alleged attempt to torpedo the German cruiser Leipzig.

The German cruiser Kohn arrived unexpectedly at Gibraltar, but whereabouts of the rest of the German fleet went unreported. Reports from Tangier, Morocco, said Italian and German warships had sailed from there.

From Paris, meantime, came word that France and England would look askance at any Italo-German attempt to blockade the Spanish government coast.

Germany blamed Russia and Great Britain for the new European crisis, which resulted when France and Britain refused to accede to German and Italian demands for a naval demonstration against the Valencia government.

An official Berlin communique declared "Bolshevist Moscow" seeks to make Spain "a section of the communist international."

Meanwhile, a new cabinet crisis was reported in autonomous Catalonia, ally of the central Valencia government. There also were many spy arrests there.

On the northern Spanish front, government forces merged into a single army to strengthen resistance to the insurgent threat to dominate the entire Basque and Asturian regions.

Panhandle Oil Allowable Up 900 Barrels

AUSTIN, June 24 (AP)—The Railroad Commission today issued a new proration order fixing the allowable crude oil production for Texas on July 1 at 1,285,476 barrels.

The figure represented an increase of 36,214 barrels over the basic allowable for June and 10,376 more than the Federal Bureau of Mines had estimated the national market demand would require from Texas.

The allowable production on June 17, however, was 1,407,652 barrels, having increased normally from the figure set at the start of the month because of new completions.

A statement by C. V. Terrell, chairman of the commission, which administers conservation laws in Texas, said that during the past 12 months Texas had underproduced the allowable two and one-fourth per cent.

"This was occasioned by the natural decline in submarginal wells, together with shut-down for mechanical and physical difficulties causing wells to produce less than the allowable assigned them," he said.

The factor on which the allowable of the big East Texas field is computed, 2.32 per cent of the average hourly per well production, was not changed and was calculated to permit production on July 1 of 466,000 barrels, which compared with 642,000 on June 1 and 459,300 on May 1.

Other districts allowables, for June 1 and July 1, were announced as follows: Poth area 76,048 and 77,017; Moore county 1,348 and 1,348; Osborne area 635 and 635; North Texas 60,450 and 61,000; Ford county 550 and 675; West Central Texas 55,460 and 67,848; West Texas 172,493 and 177,040; East Central Texas 76,909 and 78,601; Rodessa 35,608 and 36,048; Southwest Texas 213,697 and 221,973; Gulf Coast 186,276 and 193,291.

NEGRO SLAYER FOUND NOT GUILTY BY JURY

Archie Nelson, Pampa negro, was found not guilty of murder without malice by a jury in Gray county district court shortly after noon today.

Nelson had been indicted for the Memorial Day shooting of Willie Phillips, another negro resident of the Pampa "flats." The jury deliberated slightly more than an hour.

Counsel for Nelson, Attorneys John Sturgeon and Walter Rogers, pleaded self-defense for their client. It was shown in testimony that the deceased man had threatened Nelson on two occasions before the fatal shooting.

Jurors were M. F. Roche, Tex. Evans, Dick Hutes, L. N. Aichinson, Keller, C. E. Hutchins, E. C. Snyder, Brent Blankvist, S. S. Thomas, M. V. McArthur, Glen Ritter.

LATE NEWS

HARRISBURG, Pa., June 24 (AP)—Governor George H. Earle today lifted martial law in the Johnstown strike zone, effective at 7 a. m. tomorrow. "Apparently the emergency in Johnstown has passed," the governor said, "therefore decree an end of martial law at 7 a. m. Friday morning." Earle said that the mills may reopen at 7 a. m. and conditions generally will revert back to the status which prevailed before martial law was declared.

NUISANCE TAX EXTENDED WASHINGTON, June 24 (AP)—The Senate voted today to extend the so-called nuisance taxes and the three cent postage rate for two years instead of one.

Delegates from Lubbock, Slaton and Post, comprising 60 Scouts, will arrive in Amarillo at noon today. Leaving this afternoon on the 5-10 train, the Jamboree group will pick up more Scouts at Pampa.

FIVE WARREN PLANTS CLOSE IN SYMPATHY

By The Associated Press WARREN, O., June 24—Five manufacturers closed their plants in Warren and Niles today after the C. I. O. notified its unions to abandon plans for a general sympathy strike.

Officials of the Brainard Steel company, who declined to be quoted by name, said their contract with C. I. O. was "no good."

They denied there was a lockout at their plant, and said operations were curtailed, partly due to lack of orders.

F. R. Schaeffer, general manager of the Niles Steel Products company, declared the action was taken because of an unauthorized strike yesterday.

C. I. O. unions called strikes in many Warren plants yesterday in a move for a projected general labor holiday as a protest against a court injunction limiting picketing at the Republic steel plant in Warren.

Protection Protested The action, also, was a sympathy move against the movement of men and supplies into the Republic of the Republic corporation, Bethlehem Steel, Inland Steel, and the Youngstown Sheet and Tube Co., whose plants have been strike-bound since May 26 because of refusal of the management to sign labor contracts with the steel workers organizing committee, a C. I. O. affiliate.

The Van Huffel Tube corporation and the Ohio Corrugating Co. also were closed down today. There was no comment from the management.

With the threat of a general strike over, Warren breathed easier, as the mediators in Cleveland continued negotiations with executives of the Republic corporation, Bethlehem Steel, Inland Steel, and the Youngstown Sheet and Tube Co., whose plants have been strike-bound since May 26 because of refusal of the management to sign labor contracts with the steel workers organizing committee, a C. I. O. affiliate.

John McKeown, CIO organizer, said he had advised his unionists to abandon plans for a general industrial strike.

C. R. Wheeler, assistant to the district manager, said 2,500 of a normal force of 6,500 were on the job and that all departments were operating except the hot mill.

The general strike threat was abandoned after police reserves were ordered out today to protect non-strikers entering the Republic Steel Corp. plant.

Stones Hurdled Stones were hurled at several of the 100 to 200 automobiles, carrying one to five men each, as they drove by Pine and Walnut streets and through the plant gates for the 7 a. m. shift.

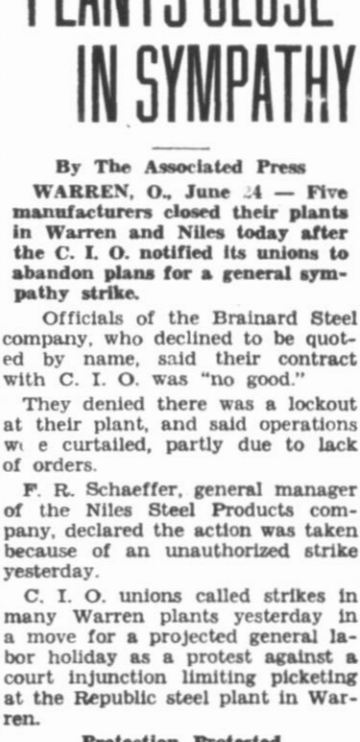

Thirty to 50 pickets were on duty but most were ordered away from the plant gates by police. These retreated to a nearby sidewalk. Soon afterward, national guardsmen ordered the four city blocks away from the plant.

They complied and the non-strikers, amid two squads of police re-pressed as her rights as an American citizen.

One of filmdom's most engaging romances comes to its climax at the altar when Mary Pickford, "America's Sweetheart" of a decade and more ago, weds Charles (Buddy) Rogers, actor and orchestra director in Hollywood June 26. The marriage is Miss Pickford's third, her first, with Owen Moore, having been terminated by divorce in 1920, and her second, with Douglas Fairbanks Sr., coming to a similar end in 1935. Miss Pickford, now 44, was on the stage at the age of 5, which was seven years before Rogers, 32, was born.

Mars Drought Bests Sahara's Or Dust Bowl's

DENVER, June 24 (AP)—The planet Mars is having a drought worse than the midwest dust bowl and the African Sahara rolled into one.

The telescopic story of the drought was reported today to the American Association for the Advancement of Science by two Mt. Wilson astronomers, Dr. Walter S. Adams and Theodore Dunham, Jr.

This drought hits the red planet just at the Maritan springtime. It was observed in the equatorial regions, the area where dark spots appear in summer that astronomers suspect is vegetation.

As to whether Martians exist, the scientists were told last night by Nevil V. Slidgwick, F. R. S., eminent chemist from Oxford University, England, that chemistry indicates life up there is possible.

The Mt. Wilson astronomers reported studies in February, this year, and again in April, which showed not even a trace of water vapor over Mars' middle regions. They used the spectograph, which split the light from Mars into rainbow lines. Water between here and Mars blots out some of these lines.

The existence of some moisture in Mars' air has been shown by occasional clouds, by the frosted poles, and by observations of some other "lines" in the spectrum.

MRS. STRUBLE DIES EN ROUTE TO HOSPITAL

McLEAN, June 24.—Mrs. Maude Struble, 50, died in an ambulance en route to Pampa yesterday evening of injuries received when the car she was driving was in collision with a Greyhound bus just inside the east city entrance park on highway 66 here.

Frank Cole, driver of the 7:21 westbound bus, said that he saw the approaching car, but that Mrs. Struble apparently turned to wave and did not see the bus. He was unable to judge the course of the car, he said, and although he stopped the bus quickly enough to jar passengers and break the steering wheel, the force of the collision practically demolished the car.

Both Mrs. Struble's legs and one arm were broken, her face was cut and crushed on one side. Boyd Mcador of McLean, passing on the highway, took her to a doctor here for emergency treatment to stop bleeding, then a Rice ambulance started for a Pampa hospital with the patient.

Died Near LeFors. Death came just after the ambulance passed LeFors, but the body was taken to Worley hospital at Pampa, then returned to McLean, where it lies at the Rice Funeral Home.

The funeral is to be tomorrow afternoon at 4 o'clock at the Baptist here. The minister has not been selected. As Mrs. Struble was a member of the Pentecostal church and a minister of that faith is to be secured from out-of-town.

The car Mrs. Struble was driving belonged to her father, L. O. Floyd, McLean pioneer. She had driven Mr. Floyd to town, done some shopping, and was believed to be driving to a home a short distance from McLean on the highway when the accident occurred.

Almost head-on, the collision was of enough force to push the engine back into the car, damage the hood and bend the bumpers of the bus. The bloody car and the bus were left on the highway until an investigation could be made, while Officers L. S. Timm and Charlie Nicholson directed the tangled traffic on the busy highway. The bus was later towed to Amarillo.

Bus passengers were transferred for the remainder of the trip to Amarillo. None of them was thought seriously injured, but Mrs. Reo Heasley of McLean suffered a wrenched back and another passenger had a bruised knee.

Mrs. Struble was born October 11, 1886 and came to Pampa with her parents in 1904. She was well known here as a musician, and formerly taught art in this city.

Survivors are the father; a daughter, Mrs. Frank Price, and granddaughter, Flora Jean Price, of McLean; a brother, W. H. Floyd of McLean; and three sisters, Mrs. W. D. Biggers of Sudan, Mrs. Eunice Kennedy of Hot Springs, N. M., and Mrs. J. W. Kolb of Lubbock.

Mrs. Kolb is visiting in McLean, and Mrs. Biggers will be here to attend the funeral. Another brother of Mrs. Struble, Andrew Floyd, was killed in the World war, and the American Legion post here is named for him.

TOMORROW TO BE FREE DAY AT SWIMMING POOL

Children by the hundreds are expected to storm the swimming pool again tomorrow for the free swim which lasts from until 12 o'clock. All children 12 years of age and under will be admitted free. Last week about 500 children enjoyed the free swim.

Mrs. Josie Young, operator, requested that each child bring a wooden coat-hanger, if possible. The pool will be scrubbed tomorrow night and filled with fresh water.

Jail 'Put Back Together' After Ohio Gal Wrecks It In All-Night Rampage

Employees of the sheriff's office, headed by Turnkey Jess Hatcher, busied themselves for quite a while this morning putting the county jail back together.

That was after auburn-haired Ginger Baker, pretty 23-year-old "peppermint" leader from Newark, Ohio, who is everything and a little bit more than her first name implies, had taken the jail apart to see what it was made of.

Miss Baker and her girl friend, Miss Anne Styx, also 22, red-headed and pretty, of Columbus, Ohio, are guests of the county for a few days at the request of deputy sheriffs who arrested them for vagrancy on a downtown street last night.

Deputies explained that the young women were a "little to the windward," possibly from quaffing too much of the cup that cheers and cheers, so they decided they should come in off the street and nestle under the protective wing of the law.

"Ginger" Gets 'Em Told. Miss Styx decided to be submissive about the whole thing, deputy sheriff explained today, but "Ginger" had other ideas about it. In fact, she never was so humiliated in her life, if you are to take the word of the officers. And before Miss Baker got through with them, the officers, too, were a bit humiliated—if not downright shocked.

Once behind the bars in a fourth floor cell of the county jail, Miss Baker began to assert what she expressed as her rights as an American citizen.

Keeps Jail Awake She was very much put out at her reception in Pampa and decided there was a thorough and highly noticeable lack of what she had heard termed, "southern hospitality."

So, in protest, Miss Baker kept everybody in the jail awake all night.

Du Pont-Roosevelt Wedding In Hands of Party Planner

By NEA Service.
PHILADELPHIA, June 24.—The much-heralded wedding of the du Pont and Roosevelt unions may be an event which excites the public's curiosity more than any story since the recent nuptials of the Duke and Duchess of Windsor. But to a slim, bright-eyed, exceptionally busy society matron of this city, the affair on June 30 is another job.

And, although she has been busy planning the invitations, the guest list, the seating arrangements, the food, the decorations and the music ever since March, she insists that the du Pont-Roosevelt bridal party is no more important nor expensive than a series of other June weddings, for whose arrangements she is responsible.

You see, Mrs. Edward J. MacMullan, to whom the job of seeing that everything goes right at this uniting of the President's son and the munitions magnate's daughter, has been in the business of planning important weddings, debutante parties and teas for 14 years.

June has always been a heavy month for her and this June promises to be even more rushed than usual.

"Managed Parties are Still Good Fun." "I started in this business," she explained in an interview, "in order to render a much-needed service whereby all the details of debutante parties and weddings might be taken from the shoulders of the mothers and daughters. But I never, never take the fun of giving a party away from them. My business is to relieve them of responsibility, but not of any attendant pleasures."

"I have my own list of guests but I always use these in cooperation with the hostess and her lists," Mrs. MacMullan says. "A tea list, for instance, is always made up entirely of friends of the hostess. When it comes to a wedding list, I work with the mother and the daughter. At debutante parties, it is always necessary to supply extra boys because of this system of cut-in dancing.

Arranging an affair like the wedding of Ethel du Pont and Franklin Roosevelt Jr. is all in the day's work for energetic Mrs. Edward J. MacMullan (above), Philadelphia socialite.

work for energetic Mrs. Edward J. MacMullan (above), Philadelphia socialite.

Viennese waltz. I saw girls flatly refusing to be cut in on. They enjoyed the dancing of a partner so much they weren't going to have it spoiled by taking a new partner every few steps.

"Another thing I noticed was that behavior among young people at parties is better since recent, noticeably so. Most of the debs drink tomato juice, which we always serve on the cocktail trays. And both boys and girls drink quantities of milk. I always encourage a milk bar at parties."

Has Run Other du Pont Parties.
Mrs. MacMullan, who lives in Rosemont, fashionable suburb of Philadelphia, has her offices in the Bellevue-Stratford in a sumptuous suite. From this suite, Mrs. MacMullan directs her varied activities. She herself supervises every party and even if she has as many as three parties in one evening, she goes to all three of them for a time, leaving a few of her secretaries at each one.

"The people for whom I plan parties give them not to make a display or a show, as some people may imagine," she says, "but in order to give their daughters a dignified introduction to the world or to give their children a wedding in good taste. Surely they are entitled to that."

Mrs. MacMullan "got the job" of the du Pont-Roosevelt wedding logically enough, for she arranged Ethel du Pont's parties in her debutante year. She is now arranging the debutante party for Aimee du Pont, Ethel's younger sister; that will take place next fall.

Public Invited To Lawn Social Of This Evening

Final plans for the annual benefit lawn social to which women of Holy Souls church invite friends this evening, were made at a meeting of the Altar Society yesterday afternoon in the home of Mrs. Donald A. Powell.

Mrs. William Haley was co-hostess to the 24 members and two guests. Miss Mary Roche of Kansas City, and Mrs. Cook.

Fine weather and moonlight nights of this week promise a perfect summer setting for the entertainment, which will be on the lawn of the church. Music and games have been planned; ice cream, cake, and feed drinks will be served from 6 to 10 o'clock.

Women of the Altar Society under direction of Mrs. William Finkbeiner general chairman, and Mrs. Powell, president, will act as hostess.

Members of the society voted yesterday to follow their usual summer schedule of meetings, with only one session a month in July and August. First Wednesday's will be meeting days.

Women May Enter Swimming Pool Free This Eve

Tonight will be ladies night at the swimming pool and all women, both old and young, will be admitted to the pool without charge when accompanied by an adult. This bargain night, announced today by Mrs. Jessie Young, operator, will begin at 6 o'clock this evening.

Many local women are becoming interested in swimming, and are practicing at the pool daily, Mrs. Young said.

School Children Attend Funeral of Peter Pan Creator

KIRRIEMUIR, Scotland, June 24 (AP)—Three hundred school children who looked upon Sir James M. Barrie, creator of Peter Pan, as the fairy godfather of all girls and boys, helped bury him today.

Most of those who attended the funeral for the man who made this little village famous as the "Thrums" of his Scottish tales were the townspeople and the children he had loved.

The famous author died of bronchial pneumonia last Saturday.

Girl Scout News

Three Girl Scouts of troop four passed cooking tests yesterday, and proved their skill by serving other members the delicious cake, pie and muffins they had baked. Tessie Mae Killian, Louise Almond and Mildred Austin received credit in cooking.

A first aid course being conducted by Tom Eckerd was continued by the entire group, and will be completed next week.

Members planned a bake sale for Saturday at the Piggly-Wiggly store, and invite the patronage of friends. Twenty members, four visitors and three troop leaders were present.

MIND your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Is it important that a house guest be prompt at meals?
 2. May a house guest accept an invitation without first consulting her hostess?
 3. If a hostess has no servant, should a house guest make her own bed and wait on herself?
 4. What is the traditional color for wear on a tennis court?
 5. When a man and woman are playing golf together, does he let her drive first, even though the "honor" is his?
- What would you do if—
You were a young woman having a man from another city visit you for a few days? There is not room to take him into your home.
(a) Arrange for a room at a hotel for him and pay the bill in advance.
(b) Arrange for a room and let him take care of the bill.
(c) Let him find his own place to stay.

Insull Furniture Auctioned off to Satisfy Creditors

CHICAGO, June 24 (AP)—Fine old English furniture, oriental rugs, costly China and glassware that Samuel Insull collected in his heyday as utilities magnate went under the auctioneer's hammer today "to satisfy creditors."

The scene of the two-day sale was the ten-room penthouse atop the skyscraper Civic Opera building—which the former millionaire built to house his pet avocation, the opera.

In the federal building, not far away the 78-year-old financier was involved in a \$40,000,000 suit filed by creditors who suffered losses in the mid-depression collapse of his utility empire.

DATES FOR HOSPITAL HEARINGS ANNOUNCED

AUSTIN, June 24 (AP)—The Board of Control will begin a series of hearings June 28 in San Angelo for West Texas cities seeking a recently authorized state hospital for the insane.

Other hearings announced by Claude Teer, chairman, were: June 28, Big Spring where hearings for Odessa, Midland and Kermis will be held also; June 30, Lamesa in the morning and Lubbock in the afternoon for consideration of Lubbock's and Slaton's applications; July 1, Plainview and Amarillo; July 2, Colorado and Sweetwater; July 3, Abilene.

Farm Population Decline Indicates Prosperity Return

WASHINGTON, June 24 (AP)—Agriculture department economists noted today a traditional sign of prosperity—a decline in the farm population.

They said persons living on farms at the start of this year totaled 31,729,000, a decrease of 80,000 from January 1, 1936. It was the first decline since 1928.

During prosperous periods, they explained, more young farm men and women found jobs in cities and towns and fewer persons returned from urban centers to the country, where they at least could find food and shelter.

The economists estimated 716,000 babies were born to farm women last year and that 349,000 farm residents died.

LONOKE, Ark., June 24 (AP)—Lester Brockelhurst, 23-year-old one-time Sunday school teacher, went on trial today, charged with the hitch-hike slaying of Victor Gates of Little Rock.

Prosecutor George F. Hartje said the death penalty "is the only fair verdict that can be reached" against the Galesburg, Ill., youth.

Brockelhurst's attorneys built their defense around a plea of insanity in response to which the prisoner himself exclaimed "I don't think I'm crazy; at least I hope not."

WAKE UP YOUR LIVER BILE—Without Calomel—And You'll Jump Out of Bed in the Morning Ready to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sick and the world looks pink.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes these good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. Etc.

CANT HUSTLE AMERICA INTO ONE-MAN RULE

One of the encouraging things about our republic is the way it has of smacking a man down just when he begins to think he knows all the answers.

You could dig enough illustrations out of the history books to fill a column, but a few recent ones will suffice. . . The most striking case is that of Woodrow Wilson.

Mr. Wilson was probably the most powerful leader in all the world on Nov. 11, 1918. Indeed, he could be called one of the three or four most powerful leaders in all history. He had settled the greatest war of all time; he alone, among all the allied statesmen, seemed to have a plan for bringing the hopes of a war-sick world to realization.

But the cheers had not died away before Mr. Wilson collided head-on with the ancient, invincible reluctance of the American people to be hustled. And the first thing anyone knew he was a tragically rebuffed and thwarted man, his high hopes and grandiose plans wrecked by the simple fact that the republic had got tired of seeing one man lay down the law to it.

On the smaller scale you could repeat the parallel with Franklin D. Roosevelt. Last fall Mr. Roosevelt won a landslide election as no president before had ever won one. In the Congress he had a majority which made all former majorities look insignificant. If ever there was a president who could be pardoned for supposing that his word was all-powerful, Mr. Roosevelt was the man.

And so what? So the first major program he handed to the Congress—the plan for revising the Supreme Court—was riddled with hostile bullets and finally was rejected by a Senate committee in a report as biting and critical as any in the annals of that historic house. And the all-powerful president learned what Mr. Wilson had learned—that the American people will take nothing from anyone unless, upon talking it over, they decide that they happen to like it.

Lesser examples abound in recent memory. There was the cast of Father Coughlin, who looked for a time as if he were going to be the uncrowned king of American politics, but who wound up completely beaten when the votes had been counted. There was Dr. Townsend, at whose nod legislators trembled for many a long month—until, at last, the people had had enough. There was for that matter, Herbert Hoover, who rode into office on a great landslide and rode out on another one, overwhelmingly beaten.

You can add this sort of stuff up all day and you will get just one answer. The instinct for democracy as against personal rule is all-powerful in this country. The people's distrust of power concentrated in one pair of hands is ineradicable, and the man who gets such power in his hands, or even seems about to get it, is riding for a certain fall.

The lesson could be studied with profit by all who aspire to leadership in America—among others, perhaps, by Mr. John L. Lewis.

WASHINGTON LETTER

WASHINGTON—One of the possibilities critics see in the new wage-hour bill is that, extended to a degree, it could be used to exercise vast control over industry.

Some of the problems involved in such control were suggested in this column yesterday. The wage-hour bill contains some of the machinery of a real planned industry in which a central planning board might conceivably be called upon to determine the whole production of all industry. Planned industry, as usually defined goes that far. The country is no wise near that yet, but NRA, AAA, the Cuffey coal act, TVA and some of the measures now before congress seem to point speculatively in that direction.

The wage-hour bill would permit a federal board to fix standards of minimum wages and maximum hours for industry engaged in interstate commerce.

A planned industry would require a decided step farther. It would require a board with authority to maneuver wages and other costs of production upward and downward in order to achieve the near-Utopia of a country without unemployment and with adequate production of all needed things.

Now some very conservative economists believe that if a federal board had such authority, it could really make headway in tempering booms and depressions. Give the board, for instance, the power to regulate rail rates, interest, and wages. With such power it could check unwarranted plant expansions in time of booms. Such expansions are one of the perils of booms, for plants built for boom trade are usually the first to fold up when the recession starts.

In time of depression, a board with authority to adjust wages, rail rates, and interest downward during a period of depression could give a real fillip to new industry. Business men and investors, assured of low costs while getting a new enterprise started, would be all the more willing to take a fling if they could see some profit in the storm.

But just contemplate the forming a board would encounter if it explained it was lowering wages and rail rates so a few business men could make a profit! They could argue

Man About Manhattan

By GEORGE TUCKER

NEW YORK — Speaking of terse criticisms, there was the incident of a Broadway press agent's reaction to an invitation to handle the publicity for a waning restaurateur.

Unable to escape, the press agent arrived and sat through a far from savory dinner.

Reflecting bitterly upon the experience next morning, he dispatched his telegram to the restaurateur: "What you need is a chef, not a press agent."

It must be true, the saying that a racket—just any old racket—will work in New York. There was the "hit show" gag that cropped up in the police reports the other morning.

It appears that a broker received two tickets to "The Women," a Broadway star attraction, and with the tickets was a note saying, "Guess who?"

Unable to solve the anonymity of the donor, but nevertheless delighted to have two tickets to a hit drama, the broker and his wife went gaily off for a pleasant evening.

At last they discovered a little note pinned to the dining room tablecloth. It said impudently: "Now you know."

Carousing past No. 2 Beekman place on a recent evening I was delighted to witness one of those unexpected little side-shows which New York is always so willing to put on.

There was a strolling troubadour on the sidewalk, or rather he wasn't exactly a troubadour. This fellow, a sad-eyed derelict, was a street musician, and he earned his living by playing impromptu tunes to any and all who would listen, and who would, incidentally, contribute a few coins.

Several yards away stood one of those haughty doormen who, so the New York legend has it, are far more imperious than a grand duke could or would want to be. He suddenly stepped briskly up to the startled fiddler.

He said something in a low voice to the fellow, and I suppose he was inviting him to get the hell away from there. The fiddler looked up and gravely passed his violin over to the doorman. Whereupon that be-liveried personage, shedding his austerity like mascara at a tear-jerker, caressed the fiddle fondly and held it up to his chin.

It was, I assure you, a delight and a surprise to stand and watch him give an impromptu recital, with a beggar's borrowed fiddle, there on Beekman pavement.

Despite the advances recently made in treating skin diseases, psoriasis remains the most baffling ailment of this type. Its cause is undefined. Its positive, permanent cure is impossible.

Treatment, so as to reduce scaling and limit its spread, is available to the psoriasis sufferer and is effective in most cases. But such treatment seldom effects a cure. If a cure should follow, it cannot be properly ascribed to the treatment.

When a true cure for psoriasis is discovered, this joyous news will reach the public through the established channels of instruction and not by way of the advertising columns.

In the meantime the psoriasis sufferer can benefit by sun bathing, by generous use of soap and water, and by applying — under medical supervision — a variety of salves, notably ammoniated mercury and chrysarobin.

The latter should be used only on medical instruction. Applied to the face or scalp, chrysarobin may cause serious burns. At certain stages of the psoriasis lesion — as when the patches are spreading rapidly, and the affected skin appears red, inflamed and oozing — chrysarobin may aggravate rather than benefit the condition.

The psoriasis sufferer may gather some assurance, if not satisfaction, from these facts: Psoriasis is neither contagious nor communicable. In other words not "catching."

Psoriasis frequently affects those in otherwise good, if not perfect health.

There is no other known definite disease condition which invariably or frequently co-exists with psoriasis, though some believe that arthritis is more commonly found among psoriasis than in the general population.

Nothing definite is known about the hereditary susceptibility of the children of psoriasis, to develop psoriasis. Sometimes two children in one family are affected by it.

How's Your Health?

This, That and Everything

BY WILLIAM HUSLEY CLARE

We are all interested in how to keep young. There is more truth than poetry in the old saying that "a person is as young as he feels."

We have a real come-back at the remark that we are getting up into years if we are able to reply that we feel young. But just how to feel young may become an insoluble problem. We may not be able always to retain the feeling of youth, but here is a sure symptom of that feeling. That person is never old so long as he dreams of doing big things in the future. So long as one can maintain that aspiring psychological disposition of a high school graduate, he is capable of retaining his youth. But if we become pessimistic about our own personal future we are old even though we are yet in our teens.

Those who prescribe for beauty say, "Keep that schoolgirl complexion." An excellent prescription for keeping young is to "Keep that school boy's ambition."

BOOK A DAY

By BRUCE CATTON

Bruce Catton's Book-a-Day column periodically is turned over to Olive Roberts Barton, noted child training authority. Here is her latest article reviewing books suitable for children.

By Olive Roberts Barton Ernest Thompson Seton in his "The Biography of an Arctic Fox" (Appleton-Century; \$2), has written another book about the wild life he knows so well. Katag, the white fox, and Liago, his mate, meet in the spring, dig their den and rear their young, then work and play together through the gay far-north summer.

They finally separate to try, each alone, to survive the long, hard winter. Defeating starvation again and again, Katag meets his death in another way, and gallantly.

The beauty of Seton's prose is matched by the delicate format of the volume—a splendid book for children to own.

For very small folk, there is "Fluff," the Little Wild Rabbit" (Harper's; \$1), an engaging story by Lida. Mother Nature had given Fluff "three gifts: an invisible coat, two magic ears, and seven-league boots.

With his friend, Capucine, he leads a jolly life until the hunters' guns nearly separate them forever. But in the end, well, there is a jolly end, too. It is a big, colorful book in large print for easy reading.

"Behave yourself," by Betty Allen and Mitchell Pirie Briggs (Lippincott; \$1.25), is the latest of the expanding group of books on "etiquette for modern young people."

This volume presents, semi-humorously, hundreds of helpful hints on everything from appropriate clothes to business letters.

Directed by its young authors to boys and girls alike, these do's and don'ts are up-to-date and pertinent.

So They Say:

The girl who drowns usually is the one trusting her "boy friend," who says "come on out to the raft and I'll save you."

—WILBERT E. LONGFELLOW, assistant director, Red Cross life-saving program.

After what I have seen of Europe, don't let anybody make a mistake about our form of government. It is the best.

—ALFRED E. SMITH, after a European trip.

Every time he gets up to speak I shout: "What about the women down in the mines in Russia?" He just dithers with rage.

—LADY ASTOR, explaining how she deals with a Communist in the House of Commons.

Gas Strikers Face Assault Charges

PORT WORTH, June 24 (P) — Three Lone Star Gas Co. strikers faced possible assault charges this morning after a cruising trio had plagued company service crews yesterday in the first physical encounters to occur since the arrival of Texas Rangers Monday.

Capt. F. L. McDaniel of the Rangers reported that he had obtained the identities of the three men from the company workmen who had been involved in three separate clashes with the trio and that charges would be filed.

The company employees involved in the fight told him they recognized their assailants as strikers. Three of the company employees were injured and one of the company men reported that he hammered one of the trio with a wrench as the latter attempted to wrest ignition keys from a truck.

The disturbances occurred during a city council meeting and were reported to the body of Chief of Police A. E. Dowell.

In a statement to the council, Mayor W. J. Hammond placed blame for the trouble on the situation created by the presence of the Rangers.

Youths Capture Prison Fugitive

CROCKETT, June 24 (P) — Two young Crockett residents early today captured James Henry Mitchell, one of the 19 convicts who broke Tuesday from the Eastham prison farm, at Hopewell school, seven miles east of here.

J. D. Woodward Jr., former local high school athlete, and A. B. Smith, returning to Crockett from Houston,

spotted three fugitives in a stolen machine on the highway. The light pickup truck the fugitives were driving was recognized by Woodward as one which had been stolen from Ely Elkins of Lovelady.

The Crockett residents chased the convicts two miles, finally overtook them and forced their truck into a ditch. The trio jumped from the truck and ran but Woodward fired on them with a pistol and Mitchell surrendered.

Three explosions sent fresh alarm through the city last night. The explosions were near the Republic Steel plant which hundreds of self-intended non-strikers have kept operating despite the strike.

First it was reported an attempt had been made to blow up the plant, but C. R. Wheeler, a plant official, said he believed the explosions were caused by giant firecrackers hurled toward the plant from the Mahoning river or from the opposite bank.

The explosions caused no damage.

In the face of the complications that a general strike here would bring President Roosevelt's three-man mediation board at Cleveland redoubled its efforts to bring truce.

A change in the board's procedure was hinted in reports that officials of Inland Steel company, one of the four corporations against which CIO is striking, would meet with the mediators privately. Afterward the board was to call in the officials of the other three concerns — Republic, Youngtown Sheet and Tube, and the Bethlehem Steel corporation.

Lewis Is Adamant

The chairman of the mediation board, Charles P. Taft II, continued hopeful that the board could find a way out of the apparent deadlock. Secretary of Labor Frances said yesterday that the mediators—Taft, Lloyd K. Garrison and Edward F. McGrady—were making "fine progress."

The board realized that before any settlement could be reached it would be necessary to find some angle of compromise on the one point at issue—signed contract with CIO. The four steel companies have said unequivocally that they would not sign a contract with what one steel official—Tom Girdler of Republic Steel—referred to as an "utterly irresponsible" organization.

John L. Lewis, the CIO leader, has insisted just as firmly that the strike would continue until the men were given a contract.

HETTSON CONVICTED AGAIN

CHILDRESS, June 24 (AP)—W. T. Hittson, tried in connection with the highway death of R. L. Sims, Cottle county farmer, in November, 1934, was found guilty today of murder without malice. The jury assessed a two-year prison term after deliberating 16 hours.

Conviction and a two-year term at a previous trial had been reversed by the appellate court.

ITALY NEEDS IRON

ROME, June 24 (AP)—Mayors of every Italian city received a government circular today asking for estimates on the amount of iron that could be realized by scrapping all municipal iron fences and gates. Rome, itself, recently set an example by removing four miles of iron railings from magnificent Borghese park.

MARKET BRIEFS

NEW YORK, June 24 (AP)—Copper pushed out in front of an irregularly higher stock market today as France sought to match Germany's show of warships in the Spanish crisis.

Stocks, which improved unevenly at mid-day on threats of hostilities abroad, took a new lease of life in late dealings following word martial law would be lifted in the Johnston strike zone.

Gains of fractions to a point or more for the list at large were whittled down in some sections in final hour.

Volume approximated 600,000 shares.

CHICAGO GRAIN

CHICAGO, June 24 (AP)—Wheat fluctuated nervously today, advancing more than a cent a bushel at one stage but then reacting to close below yesterday's finish.

Heading pressure and profit taking contributed to the persistent selling while high temperatures in some sections of the grain belt, better than three cents upturn in Liverpool wheat and reports of failure of the wheat crop in parts of southern Saskatchewan and in stretches of the domestic northwest helped buying.

Wheat closed unchanged to 1/2 cent lower, July 1.13 1/2, September 1.15 1/2-14, and corn was 1/2 cent off to 2 cents higher, July new 1.04 1/2, September 1.04 1/2-7/8. Oats were 1/2 cent off to 1/4 up. July soybeans advanced the limit of 4 cents a bushel.

NEW ORLEANS COTTON

NEW ORLEANS, June 24 (AP)—The demand tapered off as the morning progressed and a small flurry of offerings depressed the market 4 to 8 points net lower at midday.

The foreign situation was watched with interest and probably had considerable to do with the lack of specific sentiment.

The official daily weather summary of the cotton region said the entire belt was dry and temperatures were slightly above normal in some sections.

July traded off to 12.09, Oct. to 12.27, Dec. to 12.35 and March to 12.40. Other options were inactive.

Hub and Hitters Click In Happy Giant Reunion

(By The Associated Press.)
Carl Hubbell is back on the winning track, recovered from the mysterious non-winning malady that set in the day the Dodgers broke his two-season winning streak of 24 straight.

The manner in which Bill Terry's Giants went about providing for Hub's ninth victory of the season, his 8-4 conquest of the Chicago Cubs, yesterday, was equally heartening to the man whose club is locked in a bitter three-way struggle for mastery of the National league.

How the Giants managed to pace the circuit for nine days was something of a puzzle. Their pitching was far from extraordinary, and they hardly have been compared to the Yankees in power at the plate.

Even the addition of Wally Berger to the lineup didn't bring results. So yesterday's performance, in which the Terrymen landed on four of the Cubs' best pitchers, was gratifying to Terry and a warning to the Cubs, out in front by one game, and the Cardinals, tied for second with the Giants in the won and lost column.

Berger, before giving way to George Davis when the Cubs switched from southpaw to right-handed pitching, pined his first Giant homer and sixth of the year. Sam Leslie drove in three runs with a home run and a single and led off with a batting slump has applied to everything but four-baggers, walloped his twelfth as every man but Dick Bartell, Lou Chiozza and Davis, who was up only once, hit safely. Hub had a six-run lead after three innings.

Even Hubbell, raged for five hits but scored on only in one inning, the eighth, when five straight hits produced all four Chicago runs, chimed in with two singles to aid his own cause and end a 4-game losing streak while pitching a complete game for the first time in seven starts.

While the Giants were disposing of the League leaders, the Cards and Dizzy Dean kept pace by turning back the Dodgers 3-2. Two un-earned runs cost Brooklyn the game after Van Mungo, a two hit pitcher for seven innings, was forced to withdraw because of a blister on the index finger of his salary hand.

Two well pitched games completed the National league program. Hugh Mulcahy lifted the Phils into sixth place with a four hit, 3-0 job on the Reds while rousing the Senators and Pirates turned in a six-hitter that was good enough to cost the Bees their eleventh straight loss, by 8-5.

In the American league, the front running Yanks were spilt by the St. Louis Browns, 6-3, but lost no ground as second place Detroit dropped a 6-5 decision to the Red Sox. The Cleveland Indians continued to suffer their road trip jitters in a 14-5 pasting by the Senators, and the Athletics, who have scored one run in their past three games, sustained their second successive shutout, a 2-0 performance by the White Sox who won on only three hits, two of them homers.

GET IN THE SWIM!

By JACK POBKUK
Noted Swimming Instructor
Speed! And More speed!
That's the ultimate goal for the swimmer, as for any athlete.

Perhaps the day will come when the idea of killing ourselves to set a new mark will be abandoned, but until that day we are always trying to outpace one another, even in fun.

Before entering any actual competition, however, it is most wise to be in proper condition. Then, too, you must practice carefully control, relaxation, co-ordination, and rhythm.

And most important in speed swimming is the start. Today's exercises will help you increase your lung power and teach you the proper start.

Exercises
Breath control—walk into waist-deep water, take a deep breath, cloth mouth, submerge. Under water exhale through nose. Push yourself upward with feet, springing up above surface. (Note: force all the air out through mouth as holding it produces rapid fatigue).

STARTS—From edge of pool practice broad-jumping for distance. A semi-crouch position is usually best. Arms in front of body are usually more effective. Experiment so as to find out your fastest style in starting.

NEXT: More training pointers.

COWTOWN ROUTS BEAUMONT 14 TO 8 AS MISSIONS WIN

(By The Associated Press.)
Oklahoma City and Beaumont have held pretty much of a monopoly on the Texas league's top post this season but the rest of the circuit has managed to edge into the white glare of the spotlight at frequent intervals.

Every club in the Texas league except Houston and Galveston have taken some measure of glory into themselves by sudden spurts of power and pitching. Even Dallas, clinging by its fingernails to seventh position, has spurred.

The latest hitters for fame are Fort Worth's cats. Good pitching and a fierce batting spear paced by Manager Homer Peel have brought the Panthers six straight games and into third place, a mere half game behind Beaumont. The Cats cut down the Beaumonters 14 to 8 in a slambang battle in which Peel drove in five runs and scored three.

San Antonio salvaged something from its current decline, winning its second straight from Dallas, 7 to 4. As they were doing in their recent winning streak that hoisted them near the top, the Missions cut loose at last.

Extra inning battles went to Oklahoma City and Tulsa against two South Texas clubs. In an 11-inning affair the Indians came out ahead of Houston, 3 to 2, largely because of Kent's wild throw to the Buff first baseman. Ralph Buxton was credited with beating Lyons of Houston in the pitching duel.

Tulsa took 13 innings to defeat Galveston by the same score.

LOUIS LOOKING FOR WORK AND LOTS OF IT

CHICAGO, June 24 (AP)—Heavyweight champion Joe Louis is looking for work—"an' lots of it!"

The new ruler of ringdom, by virtue of his eighth round knockout of James J. Braddock last Tuesday night which increased his already fat personal by about \$50,000, isn't worrying about where his next meal is coming from. Nor is he planning on going into hiding with his new crown.

"Long layoffs don't do me no good," said Joe as he packed his grips preparatory to leaving tonight for Detroit and a visit with his mother. "I want to fight as often" as mah managers want me to. I'd like first to meet Max Schmeling, but that's up to them to figure out."

The way things shape up, Joe won't have to worry about too long layoffs. Mike Jacobs, the New York promoter who staged Tuesday's title bout, yesterday announced a two-year extension of his contract with the 23-year old titleholder. The ex-

CEMENTERS OF DUNCAN PLAY HERE SUNDAY

The Halliburton Cementers of Duncan, Okla., with a season record of 20 victories and five defeats, will be in Pampa Sunday afternoon and Monday night for games with the Pampa Oilers. Sunday's game will be called at 8 o'clock with the Monday game at 8:30 p. m. Admission will be 40 cents.

Two weeks ago in Duncan the home team came from behind with an eighth inning rally to nose out the Pampanas, 9 to 5. Harry White, who has won 7 and lost no games this season, was on the mound for the Cementers. Leslie Munns is the other Cementer ace, also with 7 victories and no losses.

The Oilers are optimistic that they can register a win over the Oklahomaans. The Brickellmen have broken the Huber of Berger jinx that haunted them through four games.

Then, Halliburton's five losses were on road trips and three of them were to Texas teams—Gulf Oilers of Rosenberg, Conroe Oilers of Conroe, and Mt. Pleasant.

Leading hitter for the Cementers is Bruce Sloan, last season with the Elson Oilers of Enid, Okla. Sloan is hitting the ball at a .441 clip.

Pampa's Oilers also have some fair hitters on the club. Not including games played at Littlefield, Amherst and Elk City, Al Summers is smacking the pill at .391. Closely following the little second baseman is Sam Scaling with an average of .380. In third place is Eddie Sain with an average of .369. Only two of the Oilers are hitting under the coveted .300 mark—Fred Brickell and Sam Bark. Averages will be released within the next couple of days.

YESTERDAY'S STARS

(By The Associated Press.)
Jack Wilson and Moe Berg, Red Sox: Former fanned nine Tigers in gaining fifth victory in seven starts, by 6-5; latter led Red Sox attack with three hits and had thirteen putouts.

Hugh Mulcahy, Phillies: His four-hit pitching stopped Reds cold, 4-0.

Al Todd and Paul Waner, Pirates: Contributed half of team's 16 hits in 8-5 trimming of Bees.

Dizzy Dean, Cards and Van Mungo, Dodgers: Former scored tying run and struck out seven to gain 3-2 triumph; latter pitched two-hit ball before retiring in eighth with blistered finger.

Sam Leslie, Giants: Home run and single accounted for three runs in 8-4 victory over Cubs.

Mike Kreevich and Luke Appling, White Sox: Their homers, two of team's three hits, provided margin of 2-0 shutout of Athletics.

Beau Bell, Browns: Got four for five, including two doubles, as Yanks were upset, 6-3.

TO SELL LEASES.

AUSTIN, June 24 (AP)—Oil and gas leases on 91 tracts of University of Texas lands in West Texas will go on the auction block tomorrow.

Col. E. Walters, veteran land auctioneer, will conduct the sale, fourth of its kind. The board for lease of University lands discontinued the sealed bid system of bids when it found the auction system yielded a greater return in cash bonuses. Walters will sell to the highest bidders leases in Crane, Ector, Andrews, Upson, Crockett, and Pecos counties.

Three Softball Games To Be Played Tonight

Three softball games for the price of one will be the attraction presented at Road Runner park tonight when two of Canadian's softball teams will meet local teams and a City Softball league attraction will be played.

Play will begin at 7 o'clock with the Canadian Krazy Kats meeting the Pampa Sluggers, Girls team. The opening game under the lights will be at 8:30 o'clock and will see the league leading Texas company playing the Skelly Oilers, second in the standing. The last game will pit Canadian against the Pampa Jaycees.

Admission to all the above attractions will be only 10 cents for children and 15 cents for adults.

The Texas and Skelly teams have strengthened until they are ready for a crack at the Industrial league winners, is the boast of the Texas boys that they will finish the league race undefeated. Skelly Oilers, who have been climbing fast since organizing recently, figure to stop the winning streak of the Texans tonight.

Pampa's Jaycees will be out to average a one-run loss in Canadian a few weeks ago. Since then the Jaycees have added a pitcher, an outfielder and a catcher to their roster. Canadian has a strong team again this year.

On tomorrow night two games in the Industrial league will be played under the lights at Road Runner park. King Oil and Champlin will meet in the first game, at 8:30 o'clock, with Danciger and Phillips staging the final battle. Admission will be 10 and 25 cents.

INTERNATIONAL OPENS BUSINESS PLACE HERE

Pampa business has another addition to the many various trades established here.

This week, Herring and Risley completed stocking and installing machinery in their new International Harvester house located at the corner of Kingsmill and Ward-st. The firm will carry an entire stock of International equipment, including trucks, farm machinery and power units. To better facilitate trade in the territory, parts for all stocked equipment will be carried.

A service department will be operated in connection with the business under the supervision of L. S. Herring. Mr. Herring moved to Pampa from Perrin, Texas, where he was formerly in business, handling International equipment.

Sales will be under the direction of G. P. Risley, formerly of Amarillo. The business will be staffed with 12 employees.

RANGER CAPTAIN WILL PROBE MARIHUANA CASE

AUSTIN, June 24 (AP)—Ranger Captain Bill McMurray who has hunted many enemies of peace and order today investigated another foe of man—dope producing marihuana weed.

He was sent to the Rio Grande valley area to investigate reports that 2,000 acres of the narcotic were growing near Raymondville.

Gov. James V. Allred asked the Public Safety Department to conduct a survey after Sheriff William Shely of Nueces county said his deputies, investigating a statement by a prisoner, reported many patches flourishing in the valley area.

Of the 11,000,000 homes in Japan less than 20,000, and these in the remote places, are not equipped with electric lights.

SUPERSTITION MOUNTAIN By Oren Arnold Copyright, 1937 NEA SERVICE, Inc.

He was a flash of color. His sombrero was white and his serape was crimson; both were etched with gold. He leaned with artistic indolence against the hotel wall.

The characters and situations in this story are wholly fictional and imaginary and are not intended to portray any actual persons or events.

Chapter I Nina Blake had him first—a flash of color through the taxicab window. His sombrero was white and his serape was crimson; both were etched with gold. He leaned with artistic indolence against the hotel wall.

"Well! If there isn't Don Pedro or somebody himself! Snap out, Stew, and behold the scenery!" Nina sat up straight and stared. It took a lot to interest Nina.

"Stew" was a sissy name for Stuart Blake—Stuart Alfred Blake, Jr. He didn't like it, but he couldn't do anything about it. Nobody could do anything about Nina. He stepped from the cab and assisted his sister and father to alight.

"Uhnh!" whispered the father appreciatively. "Have to get me an outfit like that, eh, Nina? The old Southwest!"

Stuart answered: "Too swanky for you, Dad. I'll wear it. I know what to do when the scenesters smile! Ta-tum, ta-ta-ta!"

But Nina snapped him up. "I'll testify you do! Glide into a tango, and try to kiss her in the first chorus. And some black-eyed lover like our friend here will dig you with his dagger! Listen, sweet brother—if you can weather my sarcasm—this is Arizona, not Chicago. Even I don't know how to act out here."

"Well I do!" "Well you don't, you've never been west of Des Moines in your life! You think this is—"

Stuart Alfred Blake, Sr. interrupted them, moving with them meanwhile to the hotel clerk's counter. He roared a little.

"Stop that, you two! Arguing like school kids, at your age—good day, sir. I was a comfortable suite for a man with two babies."

"Babies, sir?" The clerk was deferential.

"Ya, these two. Twenty-five and twenty-two. Years, not months!"

You could get Hotel Westward Ho down on one of Chicago's main streets, turn around twice, and have to call a policeman to help you find it. Nina mentioned as much, following an after-breakfast tour; but her father informed her that hotels, and people, are different in Phoenix, Ariz. This was "out West," said he. Nina sighed.

The hotel didn't matter anyway. They were heading for the hills—"going western"—and the wilder the dude ranch the better. They had been intrigued by frequent news items about Superstition Mountain, 40 miles from Phoenix.

"They keep telling about excitement up there—might be interesting," Mr. Blake, Sr. had admitted. "Probably hokum, but it'll be fun," Stuart agreed.

"Murders aren't hokum, son. Two or three unsolved, the papers say. People do queer things, hunting for treasure."

Treasure! That's right, there was gold in Superstition, or supposed to be. A lost mine, or something. Stuart didn't need gold; he would inherit plenty of money. But hidden gold—that's different. Adventure! Fun! Superstition came striding across the lobby now to join his sister and father.

"Everything's set," he announced. "Superstition Lodge, right at the base of the mountain. Four rooms reserved. Bingo kid—" he slapped Nina's arm—"we're going wild and woolly! With a gross of six shooters and—and a—"

Nina smirked elaborately. "That's just it, old tough-and-ferocious. You can't even speak the language. Just a penthouse pal, you are. What'll you do when an Indian pokes his head around a rock and growls BOO?"

Stuart grinned. Nina couldn't help smiling back at the handsome bum, she told herself; he always beamed with some kind of enthusiasm.

For 55 years the firm of L. Potter and Sons in Phoenix has owned the same life-sized bronze statue of a horse, and has kept the poor critter outside in the elements every hour

however, was a facial contradiction—maybe it was pride, or determination. Certainly it was backed by inherent beauty. "We ain't farming no more," the old man confided. "I hev got a map to a rich mine. I bought it offen a feller. We went to the mine, four years in a row. I done some mining once. I can do'er again. With this here map I might make m'self rich! Who knows?"

His concluding tone seemed to dare Fred to dispute it. "Your mine—it's in Arizona," Fred probed. "Th' same. It's in this Superstition Mountain right east of here. It dates plumb back to Spanish days. Carolee, she says it's probably nothing to it, but I can tell. I can feel it!"

Fred Potter swallowed. There wasn't anything to say to that. He had seen gold fever working in many another hopeful soul. You can't cure it. It has to run its course. The door banged a sort of fitting punctuation anyway, and Fred went up front. Two men had walked in, vastly different from the Colters, and one spoke boldly to Fred. "Are you Mr. Potter?" he addressed Fred. "Blake, Stuart Blake. This is my father here. Say, Potter, we're going up into Superstition Mountain for a bit of vacation and want some outfitting—boots, heavy socks, khaki suit and such. The hotel says you have them if anybody has. Right?"

Outside on First Avenue, alert Jim Burke, policeman, had observed the Blakes' taxicab stop at Potters. More tourists, Jim mused, good spenders. It was a little early in the morning, morning to begin tagging over-parked cars, and the day seemed too tranquil for any sort of crime. Jim didn't have much to do. He loafed around for 15 minutes or so, finally decided to amble over to Fred Potter's home—boots, heavy socks, khaki suit and such. The hotel says you have them if anybody has. Right?"

MA' FERGUSON MAY ASK FOR GOVERNORSHIP

BRENNHAM, June 24 (P)—Miriam A. Ferguson, twice governor of Texas, may be a candidate in next year's race for governor, her husband, James E. Ferguson, intimated in the Brenham Banner-Press today.

In an article over his signature the former chief executive said: "My wife . . . tells me to say that letter every week asking if my wife is again going to run for governor. Some of the letters seem to be merely seeking information, while many of the letters urge my wife to run for a third term.

"My wife . . . tells me to say that she has no desire to again meet the rigors of a political campaign."

But, he added, "my wife's health and my health is better than it has been in years."

The man whose wife followed him into office after he was impeached as governor further explained: "Unless there should be some widespread and general demand amounting to a public duty to render a personal service, my wife says that she is willing to leave the field to younger statesmen who are willing to distinguish themselves on the altar of their country."

"Frankly, I do not look for any such demand that would induce my wife to become again a candidate. However, there is already a well-developed idea in the minds of the people that there must be a decided change in the administration of the government, both state and national."

He then took the present administration to task regarding "the mounting deficit in the state general fund."

"The miserable mess which has been made of state affairs," he said, "is causing the people to ask who can best handle the deplorable situation that confronts us. It is not that my wife's administration was so good, but that the present administration is so bad that makes the people want a change."

5 ESCAPED CONVICTS CAPTURED BY POSSES

HUNTSVILLE, June 24 (P)—Texas officers who captured five of the 19 hardened criminals who broke Tuesday from the Eastham prison farm pressed their hunt today for six others believed hiding in a wood near Groveton.

Two convicted murderers were taken with three other convicts in captures yesterday. Forty miles from the prison farm, near Groveton, George Scott of San Antonio and Jack Foreman of Comanche were taken in a tree from which they sought refuge from the pursuers' bloodhounds.

They offered no resistance. Scott and Foreman were serving life terms for murder.

Near Huntsville Warden W. W. Wald and a posse captured Alvin Stockton of Houston, Lawrence Williams of Houston county and Tom Corbitt of Quitman. They were hiding in a small church and ran when the posse approached. When guards pointed guns at them they surrendered. All were serving long terms.

The hunt was pressed for five men under the leadership of W. H. Bybee, who with another convict overpowered a guard and led the other convicts to freedom on a horse and 15 mules.

Bybee and his companions were believed cornered in a wood. Officers hoped for a break in the terrific heat, which yesterday exhausted dogs and horses in the chase.

HELP KIDNEYS PASS 3 LBS. A DAY

Doctors say your kidneys contain 18 miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 3 pints a day or about 3 pounds of waste. Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disease, may be the cause of nagging backache, rheumatic pains, lumbago, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 18 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

BEAUTY INSURANCE

VITA-RAY

Vitamin FACE CREAM

with every jar of

We believe that a woman is entitled to know in advance what to expect from a beauty cream. And with VITA-RAY, we are backed by scientific records when we answer the question:

"Will VITA-RAY cream overcome dryness, enlarged pores, lines? Can it make a woman look actually younger in 28 days?"

Here is our answer! It is VITA-RAY's beauty insurance to you: We have in our toilet goods department, photomicrographs taken in medical universities, showing skin before and after 28 days' treatment with VITA-RAY Cream.

Moreover, we have seen photographs taken underneath the skin—indicating actual increase in the number of capillaries, the only source of skin nourishment.

We know that scientists—doctors—beauty editors—GOOD HOUSEKEEPING itself—confirm clinical results of VITA-RAY Vitamin D treatment.

So certain are we of what VITA-RAY can do—that if after 28 days, your skin doesn't look noticeably younger, lovelier, we will refund your \$1 without delay.
