

ONE BIG UNION IS FEARED BY LABOR LEADER

CHICAGO, June 25.—Officials representing all recognized railroad unions met here today in an effort to keep their men in line and to put a halt to the series of unauthorized strikes sweeping the country during the past several weeks.

W. G. Lee, president of the Brotherhood of Railway Trainmen, spokesman for the union leaders, laid the responsibility of the present situation on President Wilson in a statement saying the President had permitted the railway administration to "daily along nearly a year after the men presented demands; that it took the President forty days to appoint a railroad labor board after the Esch-Cummings bill, authorizing it, became a law.

"We are here to discuss some way of avoiding the danger because of the government's delay in passing on our wage demands," Lee said. "Unless immediate action is taken, we fear the transportation situation will be paralyzed."

The heads of fifteen railway organizations declared the situation is the most menacing they have been called upon to meet since the war. They expressed doubt of their ability to prevent "complete paralysis of transportation," unless given cooperation by the railway labor board now considering wage demands.

Lee declared "the men have reached the breaking point in patience. In the meantime men are leaving railroad work for more money or are being expelled from the train men's union because of unauthorized strikes."

MAN IS HELD UP THREE TIMES ON TEN MINUTE WALK

EL PASO, June 25.—All border records of robbery and holdups were beaten recently when a visitor to Juarez, opposite here was held up three times during the ten minutes it took him to reach the El Paso side of the border after he had decided that he did not appreciate the spirit prevailing in Juarez.

The tourist left his "roll" at the hotel and went across in the morning with only \$10 which he spent peacefully. Late that afternoon he returned to El Paso and decided that he would walk across the border. He started at 9 o'clock and was more than halfway across when he was stopped by a man who demanded his money.

"One fellow fished for my watch," he said, "while the other got \$5. I had tucked away in my vest pocket. Then when started to take my change, I said: 'have a heart, fellows, leave me a nickel for carfare,' and one of them handed me back a nickel. I had a ring left that they did not notice."

"Well, sir, about a minute later up walks a policeman. He had a police uniform on anyway. He says to me, 'Let's look at that ring. And he grabs my hand and tried to take it off. I fooled him, brassard made him believe it was cheap brass; so he walked away and let me go."

Then I started out to walk down the street between the trolley tracks and got about a half block when three more men came up and grabbed me. There was no speaking then. They took the ring and when I held out my nickel and told them that was all I had they took it."

SMALL BOY TAKES ENOUGH POISON TO KILL THREE MEN

Dallas, Texas, June 24.—A five-year-old boy swallowed enough poison here recently to kill three men, according to officials at the emergency hospital where he was saved by prompt use of a stomach pump.

Interns declared that this case certainly furnished them experience in handling poisoned patients. The little fellow obtained access to a medicine chest, and started his debauch by sipping from a bottle of iodine, they declared. Next he crammed his mouth full of mercury tablets and Epsom salts and wound up by drinking carbolic acid.

IRISH FIGHTERS ARE SLOWLY QUIETING

LONDON, June 25.—London-derry, which since Friday has been the scene of violent street warfare between Unionists, Nationalists and Sinn Fein factions, is approaching normal condition today with the banks and shops open and people on streets. Food is short. Fighting since midnight was confined to sniping rivals.

HE IS IN CHARGE

Homer S. Cummings. When his gavel falls the Democrats will begin consideration of platform issues and candidates to oppose Harding in the national race for the White House.

MARBLE USED FOR PAVING IN EASTLAND

SPECIAL TO THE TIMES. EASTLAND, June 25.—A huge deposit of marble has been found on the outskirts of the city of Eastland.

Workers getting out crushed stone for the city streets had been using a hard stone that one of the export marble men working on the First State bank building was called to the rock bed to examine.

He declared the rock to be a fine grade of marble.

This rock has been crushed and used on the city streets and a large quantity of it has been shipped away as paving stone. It is said that there are millions and millions of tons in this deposit, which extends nearly to the city limits.

Some months ago this same pit disclosed something else out of the ordinary, the well preserved jawbone of a prehistoric monster was uncovered, it is thought that the jawbone is that of a mastodon, the teeth were well preserved on each side of the jaw was bigger than a horse's head. Several ribs were also found, but they were dropped from the wagon and were crushed by the wheels.

CHILE AROUSED WHEN ELECTION DATE IS CLOSE

SANTIAGO, Chile, June 25.—Excitement of the campaign before the presidential election on June 25 has aroused all Chile.

The liberal alliance formed by the advanced liberals and democrats here for its candidate Senator Arturo Alessandri, prominent lawyer, brilliant speaker, who represents at the head of the alliance the democratic and decentralizing tendency and promises reforms in all branches of the administration.

The liberal union's candidate is Luis Barros Borgoño, professor of history, director of the Mortgage bank, able statesman who has long useful work as foreign minister, and head now of the conservative tendencies opposed to the wholesale reforms advocated by the alliance, although its program includes social and labor measures of welfare and protection.

The two tendencies, popular and provincial directed by Alessandri as against the representative of the directing classes of the country, Senor Borgoño, are the issue of the campaign. According to the best informed politicians the result will be close.

POPULATION OF UNITED STATES IS ANNOUNCED

By Associated Press. WASHINGTON, June 25.—The population of continental United States is estimated at 105,000,000 by O. A. Hill, chief statistician of the census bureau.

His calculation is based on the combined populations of 1,405 cities and towns in which statistics have been announced. The increase over 1910 is placed at about 13,000, showing that the growth of the country has not kept pace with previous decades. The decrease in immigration, influenza and war deaths are given as the cause.

SEARCH FOR NEGRO, CHARGING ASSAULT

DALLAS, June 25.—Several hundred farmers are searching northern Dallas county, according to reports from Sheriff's office here, for a negro man following the assault on a young woman tied and gagged in a cane patch yesterday. Dallas officers hurried to the scene. The leaders of the searchers declare they will not turn the man over to the searchers if he is captured.

Democratic Convention Snap-Shots THE STORY OF 16 NOMINATIONS By A. H. Vandenberg

THE CONVENTION OF 1916

The outcome of the Democratic National Convention of 1916 was a foregone conclusion months before the delegates assembled in St. Louis on June 14. President Wilson was in complete command of the situation. Ex-Governor Martin Glynn of New York was temporary chairman.

The arrival of Secretary of War Baker, as President Wilson's personal representative the night before the Convention promptly established a harmony program: (1) because Secretary Baker brought the news that President Wilson desired Vice President Marshall renominated; (2) because Baker effectively disposed of a Vice-Presidential boom which had been launched in his own behalf. Baker also brought the President's own draft of a proposed platform; and everything was ready for sure, swift and amicable action.

Governor Glenn's opening address was a tremendous eulogy of President Wilson and his policy of maintaining the United States in World War neutrality. Senator James of Kentucky, as permanent chairman, followed with an equally glowing apostrophe to Wilson's attitude in foreign affairs. At the end of the second day the track was cleared for nominations, and President Woodrow Wilson of New Jersey and Vice-President Thomas R. Marshall of Indiana were both renominated by acclamation. One roll call for President gave Wilson 1092 votes—just one lone delegate from Illinois dissenting.

The only real convention contest came over a woman suffrage plank in the platform. A minority report sought to declare suffrage purely a state issue; but it was voted down 888-1-2 to 181-1-2 after Senator Walsh of Montana had told the Convention that President Wilson himself considered a straight national suffrage plank vital to party success.

Although Bryan was not officially in attendance at the convention, having been defeated for delegate in his home

AND THESE ARE ALSO WAITING AT SAN FRANCISCO

GENERAL ISAAC R. SHERWOOD, Democratic congressman from Toledo, civil war veteran and one of the oldest members of the lower house, will be disappointed if there is anything in the Democratic platform that may be construed as favorable to the maintenance of a large army.

SENATOR LEE OVERMAN of North Carolina, a strong administration supporter, hopes to see a big navy plank in the Democratic platform.

SENATOR JAMES D. PHELAN of California can take his meals at home while attending the Democratic national convention. He lives in San Francisco.

COMMUNISTS TO UNITE PALMER OFFICE LEARNS

WASHINGTON, June 25.—Evidence of the formation of a United Communist party by the consolidation of the Communist Labor party and the Communist party, with the avowed purpose of fomenting against existing government, was received today at the department of justice, an announcement says.

Communist publications in the hands of the department announce the formation of the new party at a secret convention of delegates of the two old organizations. Officials said steps are being taken to guard against a spread of propaganda.

CRURCH WILL ABOLISH TERMS DENOTING CLASS

PORTSMOUTH, England, June 7 (by mail).—The use of the words "ladies" and "gentlemen" is to be discontinued in the parish so far as he is concerned, says the Rev. Bruce Cornford, in his parish magazine.

"The words have now absolutely no meaning," he writes. "Foolish class distinctions should have no place in the church. Even the Master called His mother 'woman,' while no one would insult St. Peter by calling him gentleman. The parochial church consists of men and women."

HEALTH RESORT RATES GREATLY INCREASED

PRAGUE, Czechoslovakia, June 3 (by mail).—The tariffs for the famous baths of Carlsbad, Marienbad and Franzensbad are to be greatly increased, according to a plan now under consideration. The tax for the cure will range from 10 to 50 Czech crowns. Nationals of countries on a crown basis may pay in crowns, but foreigners such as British, French and others on a higher currency basis will pay in proportion.

ANTI-SALOONER SAYS COX WILL FIGHT FOR WETS

WASHINGTON, June 25.—An attack upon Governor Cox of Ohio as a "nullificationist" and "the wet candidate for president" was launched by Wayne B. Wheeler, general counsel for the Anti-Saloon league.

"Governor Cox's attitude for the nullification of the Eighteenth amendment by a beer and wine provision," says Wheeler, "is in direct conflict with that of Andrew Jackson, who condemned in the most violent terms any officer or citizen who attempted to nullify the federal law. Mr. Cox has been elected governor of Ohio by deceiving the people as to his attitude on this question."

INTERNATIONAL COURT WILL BE AT HAGUE

THE HAGUE, June 25.—The commission of jurists in session here for the formation of a permanent court of international justice provided in the London covenant unanimously decided the court will be located at The Hague.

LATE BULLETINS

WASHINGTON, June 25.—President Wilson sent messages to Governor Bickett and to Senators Simmons and Overman of North Carolina suggesting that he need not point out to them the "critical importance" of action of the North Carolina Legislature on the federal suffrage amendment when it meets in special session next month.

Governor Bickett, at Raleigh, commenting upon the President's message, said he hoped the Tennessee Legislature would meet in special session to ratify suffrage, thus relieving North Carolina of doing it.

BRECKENRIDGE, June 25.—The Gulf company brought in a well on the Hopper lease, eight miles north and a little east of Breckenridge. The well came in unexpectedly with a flow not definitely known but heavy. It opens much new territory between the Ward and Ball wells and the Blackwell near Clear Fork.

WIMBLEDON, June 25.—R. Norris Williams of Boston won his match in the British tennis championship today. William M. Johnston and William T. Tilden, Americans, won their double match from the French team in the same tournament.

STEVEDORES WILL NOT UNLOAD ANY BOOZE

BUENOS AIRES, May 26 (by mail).—Even Puerto Arenas, which is at the bottom of the world, where ships call in weathering the Straits of Magellan to leave supplies for the 35,000 inhabitants, comes a dispatch saying that the maritime workers of the port have resolved that in the future they will not unload any liquors containing alcohol. The anti-prohibition movement in the port is not disclosed, but the dispatch says: "This resolution has caused serious damage on account of having been taken without warning the liquor merchants."

EASTLAND COUNTY TAX RETURNS ARE STEADILY UPWARD

SPECIAL TO THE TIMES. EASTLAND, June 25.—Two years ago the taxes of Eastland county totalled \$12,000,000, last year it was \$24,000,000, this year indications are that the taxes will reach \$30,000,000.

The tax on big oil companies operating in this field that have made their returns show that the increase over that of last year is more than \$1,000 more than the total revenues of the county two years. This increase in property includes only the big oil companies and does not include independent companies.

CHARITY LUNCHES IN SCHOOLS WERE FOR ALL CHILDREN

BERLIN, June 7.—Complaint that more school children of the middle class than the poorer class parents were fed by the American Friends' society was made by the independent socialist members at a municipal council meeting at Spandau.

The burgo-master replied that the children were selected by the school doctors without regard to class, strictly in accordance with the relief commission's instructions, and experience had shown that middle class children were more under-nourished than those of the less wealthy classes.

AUSTIN.—Cooperative plans have been perfected between the United States Health Service, City authorities and the State Health Department for the handling of the bubonic plague situation at Galveston. It was announced by State Health Officer C. W. Goddard.

CANDIDATE AND CONFERENCE ROOMS ARE PROVIDED IN THE DEM. CONVENTION BUILDING

SAN FRANCISCO, June 25.—When the Democratic national convention meets here June 28 it will have available for the first time accommodations in the Exposition Memorial auditorium building sufficient to house under one roof not only the convention proper but committee meetings and headquarters for candidates as well.

These are largely to be utilized, according to J. Bruce Kremer of Butte, Mont., vice-chairman of the national committee, thus avoiding the inconvenience and delay usually attendant upon holding minor conferences away from the convention hall.

In addition to the main auditorium, the maximum capacity of which Mr. Kremer estimated at 12,500 persons, the building contains two auxiliary halls, one of that will seat 900 persons and the other 750. There are nineteen rooms that may be used for smaller meetings.

A fence around the entire building, with entrance gates for ticket-holding spectators, delegates, officials and news-writers, will be used by police and convention authorities to prevent crowding from rushing doorkeepers to obtain admittance.

This has occurred several times during national party conventions. The auditorium for three weeks past has been a scene of noisy activity. Carpeters have erected the speakers' platform, 30x40 feet and ten feet high, on the south side of the big hall just in front of the great organ and opposite the main entrance. Section seats, lower and extending along the greater part of that side of the auditorium is the press section with seats for 516 working news-writers. Most of the speakers' platform is sound-proof rooms, are telephone booths and fully equipped accommodations for press associations and newspaper men.

The central portion of the main floor is reserved for the 1,092 delegates and a like number of alternates. Around this space a solid railing has been raised to keep back spectators that are admitted to this floor. To aid these onlookers a platform one foot high has been built over the entire space they will occupy. The balcony, sweeping around three sides of the auditorium, will seat 4,416 persons.

Covering the dome is a canopy weighing sixteen tons that forms a false ceiling. This an draperies on the walls and in the corners are designed to improve the acoustics.

The auditorium will be equipped with all modern electrical devices, including sound-carrying wires and a telephone system that will enable the chairman to transmit orders from the platform to the sergeant-at-arms and other officials and these in turn to speak to their deputies in any part of the great hall.

A complete hospital under the direction of the Red Cross and a large restaurant and lunch room have been installed. Despite the fact that the \$2,000,000 four-story granite and concrete structure was erected only five years ago, the interior has been entirely renovated and repainted. Flags are to be used in the decorations, which will be a secret decorative effect to be presented opening day, are described as "typically Californian."

Statistics show that a woman's feet should be her height. The proportion of 14 to 100—that is, as high as possible one-seventh of the height.

SAN FRANCISCO QUIETS DOWN AS BREAKING OF BIG STORM IN CONVENTION IS IMMINENT

U. S. Must Sign Treaty at Once Hoover Insists

NEW YORK, June 25.—Speedy ratification of the treaty of Versailles after the elimination of article ten by the League of Nations was urged by Hoover in a statement published today as the platform of which the Republican party should stand.

EXAMS EXILED IN TWO BIG SCHOOLS IN MASSACHUSETTS

CAMBRIDGE, Mass., June 25.—The faculties of Harvard University and Massachusetts Institute of Technology have taken action to dispel or to ally the undergraduate bog of final examinations.

The tests which the students of the institute have undergone this month may be the last of the kind at "Tech." A committee of faculty members, alumni and undergraduates have been appointed to investigate methods of testing the college man's knowledge and proficiency in studies other than by the customary examination. This step followed unsuccessful attempts to have the students accept the honor system.

At Harvard there have been no consideration of the proposal to do away with examinations but there has been action to ease the mental strain which they put on the students. The soothing charms attributed to music, and its powers to stimulate sluggish minds to active thought, have been called upon as first aid to undergraduates beset with troublesome tests.

Under the direction of Professor A. T. Davison, university choirmaster, musical recitals of ten minutes each have been given daily in Appleton Chapel during the examination season. They have been held in the morning, just before the first of the day's examinations was to begin. The programs consisted of light classical selections, and proved popular alike among men who had sat up all night with their books and hollow-eyed and nervous, sought rest and calm; and among others who, after a night of sleep, sought from the music a mental stimulus for the tests which lay ahead.

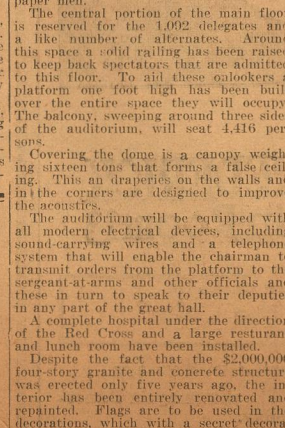

MOTOR COMPANY OFFICERS WILL FACE CHARGES

DALLAS, June 25.—A number of officials and stockholders of the Little Motor Car company against whom indictments alleging violation of the postal laws were returned on preliminary hearing last night and are at liberty today under new bail. The warrants were issued on complaint of the postoffice inspectors and charge fraudulent use of the mails in company stock sales, postal officials said. The new action will be placed before the grand jury Tuesday.

BUBONIC PLAGUE IS ACTUAL MENACE

WASHINGTON, June 25.—Calling attention to the discovery of bubonic plague in several American cities and renewing the warning regarding the introduction of the plague from the Mediterranean ports known to be infected, Surgeon general Hugh S. Cummings today urged communities throughout the country, especially along the coast, to inaugurate rat extermination campaigns.

Leader of Women

Mrs. George Bass. Mrs. George Bass of Chicago, chairman of the Democratic national bureau, is in San Francisco directing the activities of the women there for the convention.

MARSHALL TELLING THE WORLD HE WILL NOT RUN

YES SIR—I'M AN OLD MAN AND I HAVE TOLD YOU MY MIND FOR BRYAN— TO RETIRE— I WOULD NOT ACCEPT THE NOMINATION FOR THE PRESIDENCY IF IT WERE OFFERED ME ON A PLATTER—NO SIR!— BASE BALL EXTRA

Hospital Ready For Delegates At Convention

SAN FRANCISCO, Cal., June 24.—Civic Auditorium, where the Democrats will assemble next Monday, will be the final word in convention halls. Nowhere in the country is there a hall so well adapted for the purpose as San Francisco's great meeting place.

There will be within the hall everything but a place to sleep. It will be a veritable metropolitan hotel, except for bedrooms.

It will contain a hospital, a restaurant, a large room for the sergeant-at-arms with his staff of 1500 assistants, two reception rooms for women, a room for the Women's Associate Committee of the National Committee, a meeting room for the National Committee itself, rooms for secretaries to the National Committee, two large halls equipped with platforms, desks and chairs for meetings of the two most important committees, the Committee on Resolutions and the Committee on Credentials.

All these things were supplied without building a single extra room in the convention hall. This was made possible by the use of the hall's own resources. One of the distinctive features about the Civic Auditorium.

In other convention cities, for example, the Republican convention hall in Chicago, it was necessary to build an annex near the hall to accommodate the convention adjuncts. Nowhere in the country, Mrs. says, is there an auditorium with such commodious side halls that can be used to such advantage.

Beautiful Civic Center

The auditorium, classic in its own architecture, faces one of the most beautiful civic centers in the United States. It looks out on a park with fountains and statues where visitors will find many a moment of rest.

Two bands and the second largest pipe organ in the world will entertain the delegates and visitors between convention sessions. The bands will be seated in "crow's nest" platforms hung from the ceiling so they will not take up any of the much needed floor space.

The press rooms which have been arranged in the rear of the speaker's platform have better ventilation and lighting facilities than any others, according to newspaper experts who have seen the plans.

The entire interior of the building has been repainted and the San Francisco Committee is planning decorations that will "knock 'em cold," says Postmaster Fay. These decorations are going to be kept as a little secret, because the local committee wants to have a few surprises up their sleeves.

Will Seat 10,000

All the leading moving picture companies will film the convention while it is in action.

The seating arrangements have been made to get the utmost capacity out of the hall. In all 10,000 seats have been provided. The speaker's platform will accommodate 148. Just in front of the platform will be the 1002 delegates and back of these the 1002 alternates.

Flanking the platform on both sides will be seats for 514 newspaper men. On each side and in the rear of the delegates and alternates will be 2052 seats for the public. The galleries will seat 498.

The press seats, which face the platform, will be so arranged on a rising platform that those farthest away from the delegates can look over the heads of the others and see what is going on.

The speaker's platform will be six feet six inches above the floor with a runway jutting out toward the delegates from which the nominating speeches will be made.

The press platform will be two feet, four inches above the floor in the front and three feet, two inches in the rear. In the rear of the platform will be work rooms for all the national news services, the local newspapers

and the commercial telegraph companies. Accommodation of Public

At the rear of the press work rooms will be separate entrances and exits to be used exclusively by the press. The delegates likewise will have their own exclusive entrances. The public will enter through 19 entrances at the front of the building. By this arrangement neither the press, the delegates, nor the public will interfere with each other in getting in or out of the hall.

Just back of the speaker's platform will be seats for cabinet officers and dignitaries. For the accommodation of the public there will be many checking rooms, several telegraph offices, news stands and lunch counters.

FOR BILIOUSNESS AND HEADACHE TAKE A CALOTAB

The Nauseous Calomel Tablet That is Purified and Refined From All Nausea and Danger.

Ask your doctor and he will tell you that calomel is the best and only sure remedy for a lazy liver, biliousness, indigestion, headaches and constipation. Now that all of its unpleasant qualities have been removed, calomel, in the form of Calotabs, is the easiest and most pleasant of all laxatives to take. One tablet at bedtime, with a swallow of water; that's all. No taste, no griping nor nausea. In the morning you feel simply fine—live, wide-awake, energetic, strong and with a hearty appetite for breakfast. Eat what you want and go about your work—no danger.

Calotabs are sold in original packages, price thirty-five cents. So sure and delightful that your druggist is authorized to offer your money back as a guarantee that you will be perfectly delighted with Calotabs.—Adv.

Foot Specialist

Leaving Town

Soon on a month's vacation. Come early and avoid the final rush. If you, too, are going on a vacation by all means get your feet treated and enjoy the trip. No matter how your feet hurt you, or whatever is the matter with them, if you can make it up to the office, you can always walk home in comfort. Ask the satisfied patrons.

Zionists Give Program To Be Put to Meeting

LONDON, June 23.—Public ownership and equal rights for all, were advocated here today as the three leading principles in the social program American Zionists desire incorporated in the project for a Jewish Homeland in Palestine, by Jacob de Haas, executive secretary of the Zionist Organization of America.

Mr. de Haas arrived in London today with United States Supreme Court Justice Louis D. Brandeis, Honorary President of the Zionist Organization of America; Judge Julian W. Mack, president; Nathan Straus, Mrs. Mary Fels, Professor Felix Frankfurter, Captain Abraham Tulin, David Rosenbloom and Louis Lipsky, organization secretary. These are the advance guard of the 39 delegates of American Zionists to the World Zionist Conference in London July 4.

American Zionists will make a united effort to have the Pittsburgh program, which they adopted in 1918 as the guiding social principles for the Jewish Homeland, approved by the Conference, in the program it will formulate for the policy to be carried out in Palestine. Mr. de Haas in the statement he gave out on the eve of what is considered the most significant Jewish World conference ever held, stressed the progressive tenets of the Pittsburgh program, declaring:

"The Zionists are not going to be satisfied with a Palestine or land of Israel, which will be a mere duplicate of the numerous small states of Europe or South America. They believe that the 2000 years of suffering and martyrdom of the wandering Jew has given to our race a wealth of experience which, added to the ancient heritage of the Jew, can be made fruitful in the creation

CHILD LOSES BOTH LEGS WHEN RUN OVER BY CAR

TRENTON, N. J.—Edward Pachuta, three years old, son of Mr. and Mrs. John Pachuta of No. 432 Centre street, while chasing a baseball thrown into the street by his little sister, was badly injured by a one-man trolley car.

The child was taken to St. Francis hospital, where both legs were amputated. Carl H. Sheppard, motorman of the car, was arrested and later released.

EXPLAINS WHY U. S. IS DRY

LONDON.—"Look here, sir," said a paper hanger to an Evening News reporter, "if they had had booze in America there would never have been any prohibition." It ranks as the newest explanation of why America went dry.

One tablet at bedtime, with a swallow of water; that's all. No taste, no griping nor nausea. In the morning you feel simply fine—live, wide-awake, energetic, strong and with a hearty appetite for breakfast. Eat what you want and go about your work—no danger.

AT LAST, RELIEF FROM RHEUMATISM

Now Is An Excellent Time to Get Rid of Its Tortures.

Rheumatism is more than a mere local disorder confined to the locality of the painful parts. It cannot be rubbed away, because it is a deep-seated disease that has its source in the blood supply. The millions of little disease germs that cause the disease must be reached and eliminated from the blood before real relief can be had.

S. S. S. has been successfully used for Rheumatism for more than fifty years. It is the most thorough and reliable blood remedy because it searches out and eliminates the disease germs which infest the blood.

Two Black Eyes in Two Days TOO MUCH, SAYS WIFE

International News Service. TAYLORVILLE, Ill.—Christian county is boarding Levi Moore now. He stands to get the free cuts and lodging for two hundred and twelve days.

Why?

Well, Moore came home the other day and something went wrong. Shortly afterward Mrs. Moore had a black eye. The next day Moore came home again and something went wrong. And as before Mrs. Moore emerged with another darkened optic. Two black eyes were too much, so she went down and swore out a warrant for her husband's arrest, charging him with assault and battery. The judge thought Moore ought to be given 212 days in which to think it over, so they sent him to jail for that time.

But Moore hasn't got it so nice and free and easy. They gave him a nice little bucket and mop to continue his prowess on in the direction of cleaning the jail from stem to stern once daily.

President May Summer at Lenox, Mass., Is Report

International News Service. LENOX, Mass.—Lenox society is stirred over another report that President Wilson may come to this resort some time this summer. Agents of the White House were in Lenox within the last ten days and made a second inspection of the estate of Mrs. Ray T. Baker, which was offered to the president earlier in the summer as a residence.

It is understood that plans have been made to prepare the Baker villa for his coming if it should happen on short notice. It is believed that the state of the president's health is all that has delayed the arrival of the White House family here.

The New U. S. Grainless Rubber Solid Truck Tire Is Here

MOTOR truck owners and operators who are interested in the efficient and economical operation of their trucks will be glad to know that we are now ready to supply them with the new U. S. Grainless Rubber Solid Truck Tire.

This tire overcomes the two great causes of solid tire waste—splitting and base separation.

Splitting—by removing the grain which allowed splits to develop in the old type of solid.

Base separation—by affecting a chemical union between the steel and the rubber. A positive permanent advance in solid tire manufacture.

As representatives of U. S. Tires in this city, we are in constant touch with the latest developments in tire progress.

Bring your truck tire problems to us.

When a motor truck comes to our Service Station, it goes away with the kind of tire that was built for it—that will give its owner the best and most economical tire service possible—or we want to know the reason why.

In purchasing a new truck consult us about the type of tires to specify.

Swimming Races Scheduled Over July 4-Shamrock

A swimming and diving program including ten events will be held at Shamrock plunge over the Independence holidays, with the fastest and best swimmers of this section entered. Preliminary events will be run July 3 and 4 and the finals will be held on the holiday, which falls on Monday, July 5.

The program as laid out will run:

1. Twenty-five-yard swim.
2. Underwater swim for distance.
3. Plunge for distance.
4. Fifty-yard swim.
5. Breast stroke, 100 yards.
6. One hundred yard swim.
7. Rescue race.
8. Swimming on back, fifty yards.
9. The 200-yard swim.
10. Fancy diving.

The events are so arranged that a swimmer qualified for several events may take part in any or all. Time for rest is allowed between heats of events.

PERSONALS

Dr. R. H. Hodges has returned from Fort Worth, where he attended the state veterinary association and acted as examiner for applicants. Dr. Hodges stated today that the association was the best he ever attended.

Mr. and Mrs. J. P. Moore are in the city as guests of the family of their son, J. B. Moore of the Moore Construction company.

D. H. Eyer of the Milford Furniture company left today for Fort Worth to visit friends.

Frank Harry left for Fort Worth today on a business trip of several days' duration.

Mrs. Fannie G. Smith and her daughter Miss Agnes Sleeper, of Waco, are visiting Mrs. Smith's sister, Mrs. R. H. Hansford, and Mrs. Smith's daughter, Miss Francis Smith.

RANGER ELKS GIVE DIETRICH EMBLEM OF LEADERSHIP

The Ranger lodge of the Benevolent and Protective Order of Elks yesterday presented to C. J. Dietrich a diamond-tipped Elk's exalted ruler's emblem as a token of their appreciation of the work Mr. Dietrich has done for the organization.

Mr. Dietrich and Raymond Teal were instrumental in having the local club established in Ranger. This, together with the fact that Mr. Dietrich has worked unceasingly for the benefit of the order, actuated the club in making the gift of the emblem.

The organization also has chosen Mr. Dietrich as a delegate to the national convention of Elks which convenes in Chicago July 5 to 10. He will leave for that place July 1.

AMERICAN LEGION DANCE AT SHAMROCK ENTERTAINS CROWD

Carl Barnes post No. 69, American Legion, was host at an enjoyable party at Shamrock pavilion, Shamrock park, last night. Music was furnished by Kirkland's Jazzers. Proceeds of the dance, which netted \$30, went to the legion treasury.

According to announcement, the new dance pavilion will be used once a month for legion parties, arrangements having been made with Duff Clancy, manager of the park, whereby the use of the dance hall is given with only the music as an expense item.

TURKS WILL NOT ACCEPT LOSS OF SOME PROVINCES

CONSTANTINOPLE, June 25.—The Turkish peace delegation in Paris has been instructed from Constantinople that the Turkish government will uncompromisingly refuse to sign any peace treaty depriving Turkey of the Smyrna district, Adrianople or eastern Thrace. In the main it is indicated that Turkey agrees with all other territorial limitations fixed by the Entente.

Marriage Licenses

Marriage licenses issued by office of Earl Bender, county clerk, Eastland county, June 24:

A. M. Helm and Miss Laura Halterman, Breckenridge.

Verne Montgomery and Miss Mattie Webster, Ranger.

H. W. Thompson, Winter Haven, Calif., and Miss Maud Chatman, Dothan, Texas.

COUNTY COURT

List of suits filed in the county court at law, Eastland county, on June 24:

C. C. Fine vs. George Emmett, suit for debt.

Victor Heerman, directing Owen Moore in George V. Hobart's "Stop That Man" began his theatrical career at the age of seven, when he appeared in support of Nat Goodwin.

RANGER MERCHANTS ENJOY BANQUET AT HOTEL THEODORE

Fifty members of the Ranger Retail Merchants' Credit association banquet last night at the Hotel Theodore and were entertained with a good program of music and talks. Selections by J. M. White's quartet were enjoyed, as was the orchestra music. H. S. Cole, president of the Chamber of Commerce, talked on the relations of the Chamber of Commerce and the merchants' association and Lytton K. Taylor told the members of the legal angles on fraudulent checks offered by customers.

The object of the meeting was that all merchants have an opportunity to get together and know each other better as well as to discuss methods in vogue by merchants' associations elsewhere. Talks were made by J. E. T. Peters, A. Davenport, T. G. DeFubach, and Ervin Schwartz.

The spirit developed that the merchants' association was an organization of which every member was vitally interested in the welfare of the city and their activities as an organization were wholly unselfish, its aim being to advance the good of the entire community.

The association has been formed for several weeks but last night was the first "get-together" banquet.

WANTS TO BE "NOSE ARTIST" WITH ARTIFICIAL TIP

PRAGUE.—A poor devil asked Prof. Schlosser to "cut off his snout" so that he can become a "nose artist." He had heard of the remarkable success the surgeon recently had in making a new tip for a man who had lost the end of his proboscis by transplanting skin and muscle from the forehead. The patient can move the restored tip in every direction—up down, right or left.

GERMAN SCHOOLS ADOPT NEW PLAN OF INSTRUCTION

BERLIN, June 6.—(By Mail)—Catholic newspapers are watching with growing concern a movement to introduce a new system of religious instruction in German schools. Heretofore such instruction has been based on the old and old testaments.

The new plan, which evolved by teachers of Meiningen and recently endorsed by the teachers association of Thuringia, where protestants are in the majority, would do away with Bible study. Instead, during their first four years in school would be instructed in German fairytales and myths, Robinson Crusoe and the history of the child Jesus. In the last four years the instruction would have to do with the worship of God by ancient peoples, the life and teachings of Jesus, and the worship of God in Germany. More and more, the Thuringia teachers agreed, German myths and poetry should replace in the schools the old testament.

"By no stretch of the imagination," comments German, the organ of the Central Catholic party, "can this be called religious instruction. It is thoroughly in accord with the well-known tendencies of radical teachers. Catholics must follow this movement with close attention, for it threatens to invade their own schools."

SHAMROCK SUPERCEDES USUAL ORANGE BLOSSOMS

LONDON.—At a recent wedding in Wellington barracks the bride wore a wreath of shamrock with her lace veil instead of orange blossoms, and the three tiny little bridesmaids wore shamrock wreaths and shamrock green old-fashioned long skirts with white frills. Sir Gerald Burke of the Irish Guards was the bridegroom and Miss Muriel Christie was the bride.

EASTLAND SOON TO HAVE BETTER PHONE SERVICE

Special to The Times.

EASTLAND, June 25.—The Southwestern Telephone company here has announced that it will spend \$200,000 on improvements to the service in Eastland. A \$60,000 building, two stories high, of brick, will be started immediately. The telephone building will be fitted with a cafe and rest room for the company's employes.

An entirely new telephone system, equipped with modern apparatus and automatic phones, is to be installed. Ten cars of poles have arrived and are now on cars in the railway yards and five other cars are en route. The cross arms are also here, but the wire and cable are yet to be shipped.

It was announced by the manager that in all probability the contemplated improvements will be completed within ninety days.

Benny Leonard's going to mark his return to the ring after a whirl at the movies by tackling Charlie White at Benton Harbor, Mich. July 5. Which brings White into the limelight again. The promoters played it safe when they chose White. There's a bird who always gives the boys a run for their money. He travels in that select class of glove pushers who have won fame and fortune although their search for a title failed.

Everybody knows White has met all the boys in the lightweight class—great, near great and punk. He has taught the poor ones things books or managers never could have handed them and he has made the champs so the limit to keep him from the coveted title.

Charley was born March 25, 1891, in Liverpool, England. He's a Hebrew lad, having been christened Charles Ancho-witz. He got his start in the jabbing game by hooking the dishes to the floor from his high-chair with lefts and rights. He stepped into the ring in 1906. And since then he has met an army of boys—Johnny Dundee, Pal Moore, Jack Britton, Johnny Griffiths, Jimmy Duffy, Willie Ritchie, Freddy Welsh, Maffi Baldwin, Milburn Taylor, Leach Cross, Ted Lewis, Matt Wells. That doesn't begin to cover the list.

A POSSIBLE SOLUTION.

Farmers all over the country are worried about the shortage of farm labor.

One of the great problems in the handling of newly arrived immigrants is their tendency to colonize and remain in large cities where colonies of their nationality are in existence, thus increasing the difficulty of Americanization.

Sociologists have urged that if this tendency could be overcome and the newly arrived immigrants brought to the country where they would be obliged to live in neighborly touch with Americans, the difficulty now impeding their acquisition of the language and knowledge of the country would be largely removed.

Recently a shipload of former Italian soldiers, all in prime physical condition and each fairly well provided with money, arrived at the port of New York. There were 1,000 of these immigrants and they were met at the docks by agents of a big rubber factory, who engaged the whole lot at good wages, completing the deal before the immigrants had passed the immigration officials.

Many of the immigrants now arriving in this country in increasing numbers are men acquainted with the soil, who would be better and happier in rural surroundings and could be made, with relatively slight effort, into capable and efficient farm workers in this country.

If the farmers could take the hint offered by the rubber manufacturer and make some arrangement looking to the acquisition of a considerable quantity of this labor as soon as it arrives here and before it has had time to stagnate in the foreign colonies of the big cities, it might work to the benefit of all parties concerned and to the general good of the country.—Milwaukee Sentinel.

DISTRICT JUDGE DAVENPORT.

Ranger has lost an excellent police judge and has gained a district jurist, the first to be obtained in the Ninety-first district of Texas. He is one who will be a credit to the new judicial position.

Unusual demands upon the Eighty-eighth district, over which Judge Hill presides, led the special legislature to the creation of the new district. It becomes effective with the start of the August term.

Judge Davenport, a resident of Ranger since the early days of its development, has been police judge when the city was incorporated. He was president of the Ranger Chamber of Commerce in its early days, before the city had a regular government and when all the affairs of the overgrown town that Ranger was at that time were managed by the Chamber of Commerce. With the organization of the Ranger bar association, he was chosen president of that body.

Judge Davenport is possessed of the judicial temperament. He is not one to give voice to an opinion that is not first well considered, and when it is made, it is fair. Men whose good fortune it has been to be intimately associated with him have said that they have yet to hear him give voice to an unkind or unfair opinion.

There is that in his conversation, deliberate in tempo but quick with the play of whimsical humor, that bespeaks his friendly humanness. The judicial toga befits him, but does not give him forbidding sternness for he is, before he dons it, as he wears it and when he puts it aside, a man, a friend of men. In his contact with women, his courtesy and chivalry is that of the old South.

His ability to administer fearlessly and without favor is demonstrated in his rec-

ord as judge of the municipal court of Ranger. His successor will be measured by a lofty standard.

An attorney of wide experience and practice, the acceptance of the new judicial position probably will entail a financial sacrifice, with prestige as recompense. This Judge Davenport makes in his unselfish willingness to serve.

There are, unfortunately, too few of his calibre in positions of great trust and service. Ranger is fittingly proud of her new district judge.

TRUTH THAT HURTS.

By the very plain terms in which he described conditions as he found them at the Chicago convention, Dr. Nicholas Murray Butler has brought down upon his head the mighty wrath of General Leonard Wood. By way of punishment he is denounced as a liar and a faker with selfish ends of his own to promote, and confronted with a glowing testimonial from the general to the high character of William Cooper Proctor and his associated wealthy backers of the Wood candidacy.

In the ordinary family quarrel between distinguished Republicans the outsiders might hesitate to intrude. But in the present case a clear moral issue, aside from that of veracity, is presented for the consideration of the public. However strong the sentiment that General Wood may feel because of the criticisms directed against him and his trusted political supporters, however closely he may be bound to them in loyalty and gratitude, the fact remains that scandalously large sums of money were raised for his benefit and spent in his interest. That he has never expressed the least regret or manifested the slightest disapproval of the methods adopted by his campaign managers to secure for him the Republican nomination is a startling revelation of his own attitude toward the use of money in politics.

Dr. Nicholas Murray Butler had good reason for saying that "the chief task of the convention was to prevent the sale of the presidential nomination to the highest bidder." He accurately described the situation, the Wood managers and their political methods, and no epithets that the general in his anger may apply to him will make the truth less damaging.—New York World.

THE PUBLIC FORUM.

The Times does not use anonymous letters.

"Observer" suggests, "I would thank you very much if you can find space to publish this."

The Times is glad to use letters from its readers where the subject is one that is pertinent and the text is not scurrilous. "Observer's" letter was one which might well be used, but lacking a signature it

goes the way of all anonymous communications, to the waste basket.

Letters to the editor need not appear in print with signatures if it is desired that they be used without. But the name of the writer must be sent with the letter if it is to receive any consideration.

An anonymous communication in newspaper work, as well as in any other, merits no more time than is needed to find if it is signed.

BEAUTY HINTS

Some one has said that a winning smile is a matter of personality plus good teeth. It is certainly true that the most pleasant smile in the world is anything but pleasant to look at if it reveals a lot of jagged teeth that are badly in need of a dentist's attention. I hardly know which is the more important ingredient for a pleasant smile—good nature or good teeth; on the whole, I should say that since good teeth are more easily acquired than a pleasant disposition, the first thing a woman should do if her smile is not satisfactory is to examine her teeth. I want to give a few simple suggestions.

Never have a gold tooth put in or a gold filling where the filling shows. All front fillings should be of a material which I believe dentists call white enamel, which is absolutely invisible. Teeth that overlap can be straightened by means of tiny wedges set between them and changed from time to time as the teeth slowly assume proper position. Teeth that grow far up on the gums—eye teeth do this sometimes—should be pulled out. This case—where it is a matter of deformity—is about the only one where a good tooth should be sacrificed. A clever dentist can sometimes build out a badly shaped tooth so as to make that even white line which is so desirable.

These very simple little things should be attended to if possible. In any question of economy a woman can save by not spending money on her hair or complexion or nails. (Women often do spend more on these nonessentials than they do on either dentists or doctors.) No smile could be anything but attractive if it showed a line of even healthy teeth.

As far as the personality goes, the desire to be good natured and attractive is half of its accomplishment.

TESTED RECIPES

Carrot Marmalade. Two cups cooked carrots, 4 cups sugar and two lemons. Wash and scrape the carrots and cook until tender. Drain and chop fine, add the juice and grated rinds of the lemons and the sugar. Cook slowly about half an hour, until it has the consistency of marmalade.

Hints. When making fruit pies, put in the sugar when the dish is half full instead of on the top. The pastry will lighter.

When fruit is fermented reheat it, add a little sugar and make up into pies or tarts.—Mrs. C. McGinnis, 2333A Dodier street.

Bernardo Barber Shop, Specialty of children's hair bobbing. Across from T. & P. Depot.—Adv.

THE KING SEES GEORGE

Tinker Bob knew all about the creatures of the great forest and when Rufus the Tree Mouse spoke to him about George, the Black Snake, he knew that Rufus was more frightened than hurt. So he took Rufus with him to see what the trouble might be between him and Mr. Black Snake.

"Now," said Tinker Bob, "did George the Black Snake run his tongue out of his mouth when he saw you going down the tree?" "Did he?" exclaimed Rufus. "He ran his tongue out so far and so fast that I thought he would turn himself inside out." Rufus sat on the King's hand and laughed to think of such a thing. "He did not want me to come to you, and when I ran down the tree he thought he would stop me, but I was too quick for him. Then he went directly for Lady Sparrow's nest, and I suppose by this time he has sucked all of the eggs that were there."

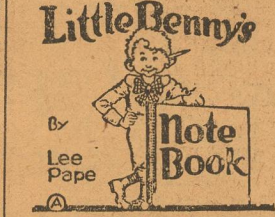

But don't you know that George, the Black Snake has always looked as though he had a tongue that ran clear thru to his tail. The tongue was given to him for the purpose of making everyone afraid of him," said Tinker as he walked on toward the tree where Rufus had his home. The King did not know, however, that Lady Song Sparrow had built her nest in the same tree till Rufus came to tell him. "They had not yet arrived at the tree when Tinker Bob heard a terrible spluttering.

"Oh! Oh! That's Lady Sparrow!" Rufus heard the strange sound also. "I'm sure," he continued, "Lady Sparrow must be getting killed. You must hurry, oh, King or she will be dead." "Don't you worry so much, Rufus," replied the King. "As long as Lady Sparrow can make a noise like that she is not dead." Tinker Bob stopped and looked up into the tree before going farther. He thought it best to see first if George the Black Snake was really doing the nest any harm; then, if he was, it would be time to take action.

Looking up, he saw Lady Sparrow flitting back and forth in the tree top, now darting down at Mr. Black Snake, now screaming at the top of her voice. George the Black Snake was curled about the limb nearest the nest. He was showing Lady Sparrow, as he did Rufus, how long his tongue was, and

how fast he could run it out of his mouth. Every moment or two he would crawl nearer the nest, but always keeping his eye on its owner. He was getting too close to be comfortable and Lady Sparrow felt that she would have to do something quickly or lose her nest. She did something. She darted down and pecked Mr. Black Snake on the head, and it didn't feel very good either. George pulled back his head just as the King called to him—but this is another story.

Tomorrow—The King sends for Dr. Cooch.

Last nite pop was talking to ma about what he would drather do on his vacation this year, and I sed Pop, will you please tell me a rime for orange.

I don't mind if I do, I used to be quite a rimster in my youth, sed pop, let me see, orange, borange, sorange, there doesn't seem to be many rimes to orange, let me see, forrange, worrange.

I mean a reel word, pop, I sed, and pop sed, I know you do, I'm serching for one, orange, torrange, slorange.

O, bother the old orange, sed ma, w dont you go fishing agen this year, Willyum, like you did about five years ago? I believe perhaps thats wat Ill do, thats a great idee, orange, dorange, zorange, I had the time of my life on that fishing trip, gorange, horange.

If certainly would be healthy for you, sed ma, and pop said, Theres no tonic like a good old fashioned fishing trip, jorange, korange.

Willyum Potts, will you stop making those silly sounds, sed ma.

All rite only a man awt to be ashamed to confess he's lived as many years as I have without being able to find a rime for orange, sed pop, I believe I will go fishing, I believe thats jest wat Ill do, lorange, morrange orange.

Ill throw something at you in a minute, sed ma, and I sed, It aint any use pop, orange is one of the words thers aint any rime for.

And do you mean to say you knew that all the time? sed pop, and I sed, Yes sir, and Pop sed well then, why in Sam Hill and all the little Hills did you ask me for one.

I wanted to prove it, I sed and pop sed, Well I want to prove that this slipper stings wen it comes in contact with human nants— Wich it did.

Betty Schade and Colin Kennedy will be seen in "Jenny," Olive Thomas' forthcoming picture.

Hobart Henley, the famous screen actor-director, is directing William Faversham in "The Sin That Was His," written by Frank L. Packard.

that all the time? sed pop, and I sed, Yes sir, and Pop sed well then, why in Sam Hill and all the little Hills did you ask me for one.

True Sand Found In Kincaid Well, Ardezone Braden

Special to the Times. EASTLAND, June 25.—It is said by operators familiar with the oil fields of Pennsylvania that when a well is brought in there, bidders offer to buy the well on a barrel production scale, for they know that the oil is coming from a true sand and can figure closely how many years it will produce and the amount of flow.

The following is an interview given out by John R. Roberts, geologist of Eastland, relative to the finding of a true sand in the Kincaid well of the Ardezone-Braden Oil company.

"The Kincaid No. 3 well of the Ardezone-Braden people, located a mile and a half north of Eastland, has penetrated a 'true sand' from 3,185 to 3,210 feet, within the Smithwick shale in the stratigraphic horizon of the Bend series of rocks of the Pennsylvania age. This is the first true sand found in the deeper pay in either Stephens or Eastland county, to my knowledge. This well is reported to be making 250 barrels daily from this sand and is not yet completed.

"This is one of the most important discoveries in the field since the McCleskey No. 1 was brought in in the fall of 1917. These oil producing sands are productive for years."

New Production For Ranger Field Is 6,320 Barrels

New production in the Ranger, Desdemona and Stephens county fields for the week ending June 21, 1920, was 6,320 barrels of oil and 25,000,000 feet of gas. Ranger contributed 1,300 barrels, Desdemona fifteen barrels and Stephens county 5,005 barrels of oil.

One of the heavy gassers is the L. C. Harrel No. 9 of the States Oil corporation, located in the shallow field to the northwest. It is making 15,000,000. The T. J. Earnest No. 5 of the Sinclair Gulf company is making 10,000,000 at a total depth of 1,902 feet.

None of the wells completed in the Ranger field were large producers.

BAGGETT NO. 2 FLOWING 1,600 AFTER JOLTING

Special to the Times. LEFRAY, June 25.—Greenwood & Terrell's Baggett No. 2, in the southeast quarter of section No. 44, five and a half miles north of Lepray, was shot at 6:30 p. m. Thursday with 210 quarts of nitro at 3,359 feet, 100 feet in the line. The well is now flowing sixty-five barrels in hourly flows, with a strong gas pressure. It is estimated that the well will be worth more than 1,000 barrels. Operators state that its daily gauge now reads that amount and the flow is increasing.

name in a book to be kept for that purpose.

2. Duty of physician when a patient dies, or in case of a birth: Every practicing physician in the City of Ranger is hereby required whenever a patient under his care dies, to furnish a certificate of such death and the cause thereof to the City Secretary, who shall register it in a book kept for that purpose.

The certificate shall as near as possible state the age, sex, color, residence and place of birth, as well as the occupation of the deceased, and whether married or single, if known; and every physician or midwife attending at the birth of a child shall furnish a certificate of such birth to the City Secretary, who shall register it in a book kept for that purpose.

Such certificate shall show the sex of the child. When any person dies without the care of a physician, the City Secretary shall record such fact and state as near as possible the age, sex, color, residence and place of birth and occupation of the deceased and whether married or single, if known.

3. Burial permits: The City Secretary shall issue to the person burying the deceased a burial permit before the deceased shall be buried. No person shall bury any body without first having been furnished with such burial permit.

4. Sexton or person burying must report to the City Secretary: Immediately after a burial, the person rendering the service shall deliver to the City Secretary a written report, stating when the deceased was buried, in what cemetery, and stating the lot or locating the place in said cemetery where deceased was buried. This report shall also be filed by the City Secretary with the physician's certificate.

5. Health officer to make mortality report: The City Secretary shall make a weekly mortality report to the Board of Commissioners of all deaths in the city.

6. Penalty: Any person violating any of the provisions of the five preceding articles shall be deemed guilty of a misdemeanor, and upon conviction shall be fined in any sum not exceeding one hundred dollars.

Duties of Physicians.

1. Physicians to report diseases to Health Officer: That every practicing physician in the City of Ranger is hereby required to report to the City Physician every case of diphtheria, small-pox, scarlet fever or other contagious and infectious disease that he may be called upon to attend. Such report shall be in writing and signed by such physician, shall be made within twenty-four (24) hours after the discovery of such disease and shall state the name, sex, place of residence and color of person afflicted with such disease, and the character of such disease.

DRS. HODGES AND LOGSDON have moved their offices and are now located in the Ranger Bank Bldg., suite 4 and 5, Phone 84, Stairway between drug store and Ranger Bank Bldg.—Adv.

Government Expert Working at Strawn On Water Invasion

W. A. Snyder, expert of the bureau of mines, department of the interior, was in this city today to confer with officials of the Sinclair Oil & Gas company regarding work he is doing at Strawn.

Mr. Snyder is testing out Satterfield No. 1, a deep well of the Sinclair company located near Strawn. The well came in about ten months ago for 300 barrels, but like other wells in the Strawn deep field, it is now making mostly salt water. The total depth is 3,482 feet.

Mr. Snyder is a conservation expert and has had years of experience in drilling operations in nearly every field of the United States. In explaining the work done by his department, he said:

"We don't claim to know everything there is to learn about drilling operations. Our work is mostly with small companies and our mission is to aid in teaching proper methods of drilling wells and ways to best conserve the oil after the wells are drilled. Big companies like the Sinclair or the Standard have their own experts along these lines. But on account of the fact that the bureau of mines keeps records and compares data on operations in all fields of the United States and in foreign countries we are often able to bring the benefit of experience gained at other places.

"The particular problem I am working on at Strawn is to determine whether the salt water is coming from above the oil-bearing sand or from the sand itself. I made a survey and secured data on the Satterfield well some time ago, charted the contours and finished the preliminary work. We expect to determine this week whether the water can be shut off."

Mr. Snyder stated that in his opinion millions of dollars have been wasted by small concerns in this field through improper drilling operations. He pointed out that one of the worst evils of the field has been a multiplicity of wells. Many wells now regarded as failures could be made to produce oil in paying quantities, he said.

GOOD WEATHER IS ADVANTAGE IN WEST TEXAS

Dallas, Texas, June 25.—Agricultural commercial conditions in the eleventh federal reserve district showed a little change during the last month, according to the monthly report of the Dallas Federal Reserve Bank, made public today. Generally speaking, agricultural prospects were reported slightly improved because of favorable weather. In mercantile lines continued evidence of decreased volume is noted. This applies to both retail and wholesale, and it is attributable to the price uncertainties.

The report summarized, shows that the condition of most crops is still below normal and that late harvests will be the rule. In South and Southwest Texas cotton, corn and other crops were benefited by reasonable temperatures and moderate precipitation. Heavy rains in North and West Texas interfered considerably with cotton planting and probably will result in a smaller acreage than previously contemplated.

Steady improvement is shown in general crop conditions in Arizona where large cotton acreage has been planted. Favorable crop conditions also are reported from New Mexico where the cotton plant is making a good growth and farming activities generally are progressing at a satisfactory rate. In Southern Oklahoma about one-third of the cotton acreage was replanted as a result of heavy rains in May.

The condition of cotton in Texas is 60 per cent normal and in Oklahoma 70 per cent. Much planting and replanting in Texas was accomplished in May.

Winter wheat made excellent progress during the month of May. Most of the Texas grain has matured and threshing is under way. Harvesting also has begun in Arizona where good yields are reported. In Oklahoma the crop is maturing rapidly, with little sign of rust developing to date. Owing to reduced acreage the prospects are for an extremely short wheat crop in Oklahoma, however.

Latest reports substantiate previous reports that nearly all the fruit was killed by April frosts. In East Texas the peach crop is a total loss in many localities, while in others the crop will be less than 25 per cent of last year's production. Similar conditions are reported from other parts of Texas and New Mexico.

The loss to East Texas farmers, however, is offset to some extent by a prospective heavy tomato crop.

In wholesale trade cancellations are reported numerous and buying on a very conservative basis. Recent propaganda on increased production, conservation of credit, curtailment of extravagant purchases and other factors affecting the economic situation has had a healthy effect, according to the report, which says depression has shifted from the retailer to the wholesaler.

Transportation difficulties, the report says, are being relieved to a considerable extent and the congested conditions at Galveston and other ports slowly increasing.

MARRY YOUNG, SUCCEED SAYS MILLIONAIRE BANKER

International News Service.

NEW YORK.—Archie M. Andrews, head of one of the country's leading banking houses, multi-millionaire, advises men to marry young.

"Twenty-five is not too young," he says, young fellows need responsibility. They should choose a real girl and settle down. They'll succeed.

"Marriage is not a question of money. It doesn't make much difference what a young fellow's salary is so long as it is enough to live on."

7-YEAR-OLD TAGGED BY ELKS HOME IN SAFETY

PORTSMOUTH, N. H.—John Paul Jones, seven-year-old son of Charles A. Jones of Sidney, Ohio, who traveled 1,950 miles from his home to visit this city and his uncle, Thomas C. Lackey, has arrived home again in safety, word has been received by his uncle.

Young Jones was insured during the round-trip for \$25,000 against accident and was tagged with an Elks card. The journey and the historical associations here in connection with his namesake, "the founder of the American navy," made a deep impression on the boy.

WHISKEY CROPS ENRICH CANADIAN FARMERS

WINNIPEG.—By the conviction of twenty-seven men within three days, provincial police have been revealed a more profitable "side-line" to farming than agricultural experts ever advocated, and, incidentally, have solved the mystery of the disappearance of great quantities of liquor from Manitoba.

The men, all farmers living near the international border, have been caught smuggling whiskey into the United States.

Their pockets bulging with rolls of bills, the farmers have appeared in court, pleaded guilty to the charge of "having liquor in a place other than a private dwelling," and paid fines ranging from \$200 to \$1,000. On most of the "rolls" the fines made little more than dents.

Thousands of gallons of liquor have been smuggled across the border into Minnesota and North Dakota from this province alone, according to the police. They have no means of ascertaining even the approximate quantity, but from the apparent wealth of the smugglers who have been caught, they know it is large. And they know that for every smuggler caught there are a dozen who escape capture.

Most of the smugglers operate in small bands. Agents in Winnipeg or other

towns get the liquor by ordering it from Montreal or Calgary, which is permitted under the law. The farmers get it by coming to the city, or having it sent in automobiles. And they do most of the smuggling at night, taking it across the border to confederates on the other side, or putting it in caches known to the Americans. With best grades of bonded whiskey procurable here at \$4 a quart and salable in the United States at \$20 to \$50, the business is infinitely more profitable than farming.

GIRL, PRETTY, ARRESTED AS HOLDUP ACCOMPLICE

NEW YORK.—Helen Lunnie, pretty fifteen-year-old girl, is under arrest charged with being the accomplice of three men in numerous holdups. Helen was the "decoy" using her feminine charms in luring victims to secluded spots where the male members of her band finished the "job."

Helen, according to the police confessed to her part in the robberies and gave information that led to the arrest of the men. The girl has been placed in a home for delinquent girls.

IF ONLY OUR BILLS WOULD READ THUSLY

BOSTON.—An electrical expert, figuring the cost of electricity at ten cents per kilowatt hour, says that one cent's worth of electricity on the farm will:

- Operate a six-pound flatiron for fifteen minutes.
- Drive an electric vacuum cleaner long enough to clean fifty square feet of carpet.
- Lift 100 gallons of water 100 feet.
- Run a sewing machine for two hours.
- Run a twelve-inch fan for two hours.
- Keep a heating pad hot for two hours.
- Run a buffer and grinder for one and a quarter hours.
- Shell eight bushels of corn.
- Cut 200 pounds of fodder.
- Cut 300 pounds of ensilage.
- Thresh one bushel of barley.
- Separate sixty gallons of milk.
- Churn thirty-three pounds of butter.
- Groom two horses.
- Stuff 200 pounds of sausages.

ROY NUNNALLY OF RISING STAR OUT FOR DISTRICT CLERK

ROY NUNNALLY OF Rising Star, has formally announced his candidacy for district clerk, subject to the action of the Democratic primary in July. Mr. Nunnally was raised on a farm in Eastland county, finished high school, worked his way through college, taught school six years and has had considerable business training and experience.

He joined the army at the outbreak of the war with Germany and served two years as a member of Machine Gun Company, 141st Infantry. He spent a year in France and was wounded in action. After the armistice he attended law school at Beaumont University.

Since receiving his discharge from the army he has resided at Rising Star.

MORTUARY

The body of Rex Woodruff, who died at the Texas Company camp a mile north of Tiffin, was sent to Fort Worth yesterday by the Milford Undertaking Company for burial. F. L. Harr, a nephew of the decedent accompanied the body.

PERSONAL

Earl Bender, county clerk of Eastland and candidate for reelection was in town yesterday in the interest of his candidacy.

Mr. R. F. Taylor, manager of L. Jones & Co., of Eastland, spent Thursday here on business.

Efficient Housekeeping

BY Laura A. Kirkman

THE BRIDE'S CHINA

"Please tell me how many pieces of china I will need and what pattern you would advise," writes a bride-to-be. "The man I am soon to marry is furnishing a little house for me so prettily, but we must have inexpensive things to begin with and I would like to be economical in choosing the china. The amount of china needed by a bride depends upon the extent to which she will entertain. But as my correspondent said nothing about this, I will give her a list comprising only the china she will need for herself and her husband and perhaps an occasional guest—not a list including the pieces she would require for extensive entertaining. This list is:

Six dinner plates, six tea plates, six soup plates, six dessert plates, six bread and butter plates, six cups and saucers, six cereal bowls, two vegetable dishes, a gravy boat, one large meat platter and one small six after-dinner cups and saucers (these might be omitted), two small fancy dishes to contain radishes, olives, bouillons or nuts. This supply of china should be supplemented by six small glass or earthenware ramekins, one large glass or earthenware casserole for baked puddings or baked vegetable meat dishes and six glass custard cups.

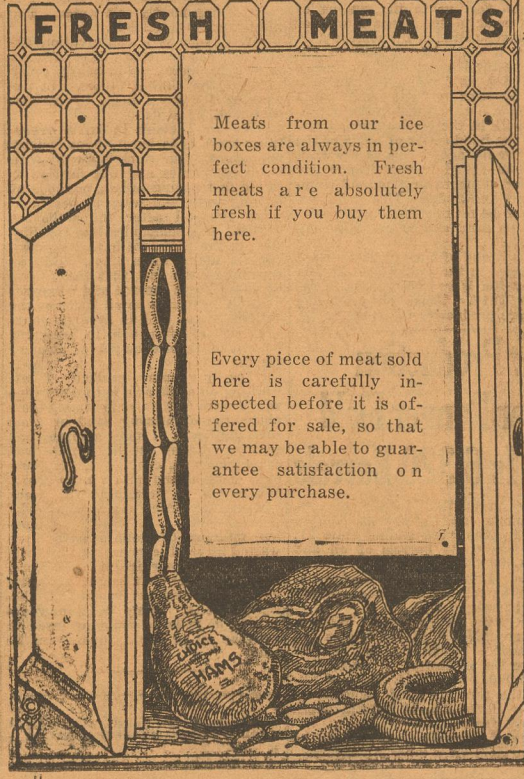

And now comes the question, "What kind of china?" In the first place, it should be of good quality; this is economy in the long run, for the cheaper porcelains are improperly glazed and not only chip more easily than the finer grade but in some cases the glaze cracks, having an ugly mottled appearance.

It is also important to select a pattern from "open stock" that is a pattern which can be had in odd pieces and which the dealer assures one will be manufactured year after year.

Tastes vary and the china on the market is patterned to suit the most antipodal preferences. But there are a few things one should avoid in choosing china—bands of gold or color running near the edge of china should be avoided because the least chip at the edge will show up—whereas if such a band ran nearer the center the chip would not be so noticeable; raised designs are also undesirable if these raised portions are colored or gilded for the color or gold will be pretty sure to wear off after a little use because the raised part will receive the most wear.

It is nice to have salad dishes (the tea plates may be used for this) of a different pattern from the rest of the set—a little fancier. The same is true of cereal dishes (which may be used for dessert dishes) and of bread and butter plates.

A couple of odd glass dishes (invitation cut glasses, or better, the lovely and inexpensive etched glasses, for dessert sets will be quite a help. Other necessary pieces of glassware are: an oblong dish to hold celery, a medium-sized salad bowl, six water glasses, a water pitcher, a sugar bowl and cream pitcher and a syrup pitcher with nickel or silver top. And when the time comes to afford extra pieces of glassware, I would suggest tall flaring glasses for iced fruit drinks in hot weather, and the new glass tubes with a colored shell-shaped flat portion at the end (to stir with) through which to dring the iced beverages.

PEOPLE WAIT TO LEARN WHO WILL GOVERN

By Associated Press
KLAGENFURT, Austria, June 1 (By Mail)—Along the center of the beautiful valley in which this old capital of Carinthia lies, runs the demarcation line separating Zone A and Zone B of the Austro-South Slav plebiscite region. Its population of some 125,000 are still waiting to know to what government they belong, whether they are to be part of Austria or subjects of the Kingdom of the Serbs, Croats and Slovenes.

The Treaty of St. Germain provides that within three months of the final ratification of peace the ballot shall be held and it is believed here that the plebiscite will take place in August.

Meanwhile, Jugo-Slav troops, who moved north last May, hold the South side of the demarcation line between the two zones as tightly as a war time frontier. They stand guard within rifle shot of Klagenfurt and in only exceptional cases can the line be passed by the inhabitants of the valley.

Several persons have been killed by Serb guards. One was the naturalized American citizen, Ernest Jaklitsch, of Jackson, Kans., shot at dead, the Austrians claim, without challenge, while passing the frontier. The Jugo-Slav authorities say he was a notorious smuggler.

Fifteen-year-old Betty Fide, shot by a South Slav guard while crossing the little stream which indicates the frontier, was buried with great ceremony by the city of Klagenfurt.

Citizens of the villages and towns along the zone have petitioned the Vienna government to seek relief through the Entente from the alleged oppression of the Jugo-Slav soldiery and authorities. The following is an extract from a letter addressed to the correspondents of The Associated Press, reciting the killings mentioned and certain other specific attacks on citizens:

"From the vicinity of Lavanund and Ruden are recently reported numerous cases of violation of girls and women by Serbian soldiers. The peaceful population of voting district A is constantly exposed to all kinds of vexations. Crimes of every description are committed daily and those who live near the frontier are risking their lives every hour."

It is difficult even by personal investigation just concluded to establish the truth of the charges freely made by the Austrian authorities, but that the inhabitants of the zones are having a rough time of it is easily apparent. The Jugo-Slav occupation of the whole of Zone A, on the South, with the rigidly closed frontier works great hardship.

Cuts Forms in Two
Passing east and west through the fertile basin of Klagenfurt, and bisecting laterally Lake Worther on whose eastern tip the city lies, tearing others with their woodland on the other side, and as the Jugo-Slav authorities grant permits to pass only in certain cases, much hardship has resulted.

have been compelled to kill or sacrifice, and in several instances the correspondent was shown piled firewood across the line, sometimes a few hundred yards from the house, which the owner was not permitted to bring home.

No food can cross to the North. It is all diverted to Laibach and other Slav cities. Thus while milk from cows that pasture within sight of Klagenfurt goes to Laibach, the American Relief is feeding the city's children with milk shipped from America. They have just been requested to try and feed an additional thousand.

The Jugo-Slav authorities in this region deny that permits are refused land owners or others who have legitimate business to cross the line. They admit the complete embargo on food, but claim they exclude only political agitators and propagandists. They meet the Austrian charges with counter charges of the same character and point to the fact that through the intervention of the Entente Mission here, composed of British, French and Italians, all but about 1,200 of the refugees who fled north when the Jugo-Slav troops moved in have been permitted to return to their homes. Also they allege that among them are hundreds of agitators and electioneers well supplied with money, who are abusing their privilege in proselyting the population against the impending vote. Then too they charge that the Austrian officials refuse passage to persons of Slav sympathy. They do not, however, accuse the Austrian guards of killing.

Figures are Given.
Austrian figures place the population of Zone A, the Southern region, at 23,000 Germans and 50,000 Slovenes and Zone B at 49,000 Germans and 3,000 Slovenes. The Jugo-Slavs do not admit this, claiming that the Austrians list as German everyone who speaks the tongue, while the population is largely bilingual.

Neutral observers point out that if the Southern zone votes Jugo-Slav, Klagenfurt will be forced to do likewise for Austrian with a political frontier drawn across the edge of the city, cutting it off from the agricultural and village population that means its life, it would perish.

One of the Jugo-Slav arguments, however, is that their boundary must be thrown north of the Karawanken mountains for military reasons. They say that this great natural fort, dominating the regions to the south, must be the back line to their front in the event of a war with German countries.

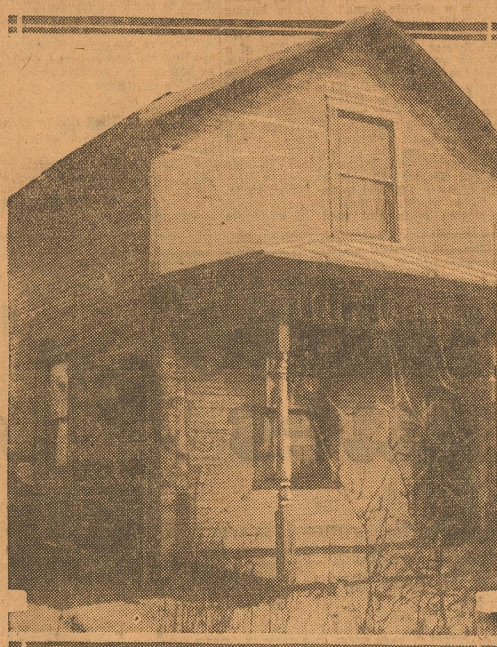

NEGROES WANT CHANCE TO SETTLE IN MEXICO

International News Service.
MEXICO CITY.—It is announced by the foreign office that 1,500 negroes in the state of Oklahoma are seeking an opportunity to establish colonies in various parts of the republic. The proposition has been referred to the department of agriculture and development for consideration. It is also reported that a number of Chicago negroes are also anxious to establish colonies in the southern portion of Mexico.

FOCH TO UNVEIL K. C. STATUE OF LAFAYETTE

BOSTON.—Announcement that the Knights of Columbus statue of Lafayette will be presented to France by the order, will be unveiled by Marshal Foch at Metz in August is made. The statue is the work of Paul W. Barlett, noted American sculptor of Boston.

THIS PLAIN LITTLE HOUSE MAY BECOME FAMOUS AS BIRTHPLACE OF PRESIDENT

Where Senator Harding was born.

This house, still standing in the village of Bloominggrove, Morrow county, Ohio, just north of Mt. Gilead, is where Senator Warren G. Harding was born on November 2, 1865. Should the senator, named as the presidential candidate of the Republican party, win in the election this house will take its place with other historic structures. Citizens of Morrow county are said to be planning to obtain an option on the house and restore it to its original condition if Harding wins.

JOHN-A-DREAMS

LVIII. DREAMS OF STONES, OF PEBBLES, OF ROCKS.

Man's fortunes and fate are written in Stone.
A pebble or the sacred rock of ages. The craggy coast round which the ocean rages.
All tell a tale of humans that are gone.

And so do dream of stones, of pebbles and of rocks tell tales of the human race, but not of the past; of the future instead.

Good dreams are these, in most cases. Have you ever seen a night-vision of yourself traversing a desolate region, strewn with stones, grown with rocks? A feeling of fear may have come over you in your sleep, but it was deceptive; it should have been one of elation instead, for such dream-wanderings are signs of a soul searching for the right path and finding it. If one great rock alone is visible, or attracts your attention above all the others, you will find a friend, man or woman, as the case may be, who will prove as firm and reliable an adviser and companion as though his or her heart were as stout and indestructible as the living stone.

If you dream that you climb upon a rock, laboriously and panting, you will be taken out of your lowly estate and elevated to a life of dignity and importance. If you climb lightly and without effort, your future life will be a round of merriment and happy days. Only if, after having ascended, you should feel

yourself slide backward, or should in some other way be unable to maintain your footing, does the dream bode ill. You will, after a short period of prosperity, fare worse than you did before.

To see many and large stones—not rocks—is a sign of happy idleness—unproductive, like the stones themselves, but satisfactory and restful. To pick them up, several or one by one, is a spirit announcement that, in as many days as there were stones, an invitation will come to you which, in its consequences, will be far-reaching. The surrounding circumstances of the dream will determine to what or by whom you will be invited.

Pebbles are glad thoughts. The more pebbles, the more thoughts and the gladder. If you kick them with your feet, there will be dances. If you take them in your hand, you will hold the hand of one dear to you. If you find them in your pocket, they mean money obtained unexpectedly.

But now we come to the bad meanings—few to be sure—of dreams of stones and pebbles. To have a stone thrown at you is an omen of an insult, so deep you will not be able to forgive it. To be hurt by the missile, indicates illness. If a shower of pebbles seems to strike you, it will be wise for you to keep away from certain people to whom you have not been over-kind; they are about to take their revenge for your lack of consideration.

To stumble over a stone is a sign that you will listen to the voice of the tempter, and if you fall, he will get the best of you. To bruise your foot or leg against a stone is a sign of bad news in respect to a love affair. In many cases,

such a dream means that your affection will be spurned.

In the next chapter I will tell you of Kings and Princes.

WOMEN BEGIN ORGANIZED FIGHT AGAINST H. C. OF L.

International News Service.
WASHINGTON.—As a part of the battle against the high cost of existence the housewives of the country are being organized into state chapters all over the country by the women's activities branch of the department of justice, in its campaign against high prices. Twenty states have been organized, it was announced today.

Encouraged by the progress of the work three additional women organizers have started from Washington to take up the organization work. They are Misses Mary Stewart, Helen Grimes and Florence Rohr, all good speakers, whose mission will be to talk to women's clubs all over the country and weld them into effective units in the campaign to lower prices.

The speakers will preach judicious buying, educate housewives in marketing principles, and teach the wisdom of buying only essential things.

GIRL "FIREMEN" IN LONDON.

BOY PREDICTED HIS DEATH TO MOTHER

International News Service. ST. JOSEPH, Mo.—Frederick Henn, eleven-year-old schoolboy, told his mother he was going to die the other day, and made his word good.

"STRANGE HOW WOMEN SUFFER"

Says Tennessee Lady, and Will Just Go Suffering, She Says, When Cardui Is Right at Hand.

Caryville, Tenn.—Hoping her experience may benefit others who suffer from disorders common among women, Mrs. Charles Rains, of this (Campbell) county, says: "I had womanly troubles till I couldn't rest, couldn't sleep, and was nervous and suffered a great deal of pain in my head, limbs and back. I would get to the place where I couldn't move without a great effort."

"For years I had known of Cardui, and it is strange how a woman will just go on suffering when the best remedy in the world is right at hand—but we do!

"But finally the pain was worse, my suffering so great I knew I must do something. A friend mentioned Cardui and we sent for it. One bottle helped me.

"I took a course of Cardui, regained my strength, built myself up and felt like a new woman. "Can I recommend Cardui? Yes, and gladly, for it is a God-send to suffering women. I hope when they suffer with troubles common to women they don't wait, but get this sure remedy at once."

Any druggist can supply Cardui promptly. Call on yours today.—Adv.

FARMERS SELL GRAIN DIRECT TO CONSUMERS

CHICAGO, June 24.—Direct selling of grain by Illinois farmers instead of through the Chicago Board of Trade is now being investigated by the Illinois Agricultural Association and it is soundly sentiment in farming communities of the state.

The Illinois Agricultural Association is one of the strongest state farm bureau federations in the country. It reports a membership of 86,000 and is operating this year on a budget of \$380,000.

D. O. Thompson, secretary of the Association, said in explanation of the proposal that the association is now hold-

ing a series of meetings through its grain marketing department in every congressional district in the state. The object is to consider plans for improving the marketing of grain, which in Illinois is chiefly corn and oats.

"There are now 700 farmer owned elevators in the state," continued the Agricultural association executive. "We feel that there is decided room for more and are encouraging their establishment. Their advantage for the farmer, among other things, is that they save him the profits of handling grain that private owned elevators turn to private individuals.

"Farmer elevators also make a competitive market at the shipping point, where a private owned elevator having a monopoly may set its own price.

"We are considering in connection with the farmer elevators the possibility of a farmer owned brokerage house for handling the grain. At the present time the farmer's elevators handle 65 to 70 per cent of the grain sold in Illinois. In time I am convinced they will handle 90 to 95 per cent of all Illinois corn and oats sold.

"A farmer brokerage house would mean that instead of sending grain to the terminals the farmers would be able to sell direct to the big buyers, to feeders of the south, and to the export trade.

"This would cut down farmer's transportation costs and tend to eliminate

the speculative element in grain.

"The meetings held in the nine congressional districts were attended by presidents, secretaries and managers of farmer elevators, presidents and directors of county farm bureaus, and representative bankers. At the close of each meeting we asked for a vote on the farmer brokerage house proposal, and in each case it was unanimous.

"I think myself that such a step is near at hand. If a house is established, I cannot predict whether it would be located in Chicago or downstate. In either case it would have branch offices."

Force of Habit. "I don't want any more returned soldiers to work on my farm."

"Why not? I thought they made good workers."

"They're too good. I set this one to spading up, and before I could stop him he had dug a front-line trench across my field."—Baltimore American.

Unqualified Endorsement. "Are you in favor of votes for women?"

"Why ask such a question at this late day?" inquired Senator Sorghum in return. "How can a statesman hope to get 'em if he isn't in favor of 'em?"—Washington Star.

CHINA FACES A HEAVY DEFICIT STILL GROWING

PEKING, May 23.—The Chinese Government is running behind financially \$10,000,000 to \$12,000,000 monthly, according to a statement made by an attaché of the cabinet in conversation with newspaper correspondents. The administrative debt of the nation totals \$270,000,000 of which \$180,000,000 represents loans by Chinese banks.

The monthly budget aggregates \$18,000,000 with only \$6,000,000 to \$8,000,000 available from ordinary sources of revenue. Of this monthly expenditure more than 70 per cent goes for military upkeep. To meet the monthly deficit drastic retrenchment is said to be contemplated.

Cognizance was taken of this state of affairs by Thomas Lamont, New York financier, on his visit here when he informed the Chinese authorities that loans to China could be undertaken, among other considerations, only after China demonstrated her ability to "balance" her budget for administrative and military expenditures.

As Usual.

"Oh, Mr. Mark, please buy a ticket to our entertainment! It is for a most worthy cause, I assure you."

"Certainly, Mrs. Clatter! And what is the cause?"

"Paying the expenses of the entertainment we gave last week for a worthy cause."—Kansas City Star.

"That fellow seems to be an expert repair man."

"His knowledge of automobiles is uncanny," said the citizen who is living beyond his means.

"Yes?"

The first woman notary public in Alabama was Miss Elizabeth Peebles of Birmingham, who was commissioned in 1893.

Philadelphia has a building and loan association run exclusively by and for women.

Seattle, Indianapolis and Washington, are the only cities of the United States that maintain separate bureaus of women police.

Special Values for Thrifty Shoppers

We are not having a sale in the general sense of the word but we have so many remarkable values in our store these days that we feel we really must tell you about them. To begin with it has always been the policy of J. M. White & Co. during our career as merchants in Ranger, to offer our patrons prices as low as the present high wholesale markets will permit us to.

We pay no rent for the building we occupy, our sales force is small and by conducting our store on sound business principles we are thus enabled to offer prices much lower than can be found in many other mercantile establishments here in the city.

For Friday, Saturday and Monday we have prepared an exceptional offering of extra special values, which we feel assured will be of great interest to you. We ask you to read this notice carefully, tell your friends about us and come in one of the three days of this event. Competent salespeople are here to advise and help you in making your selections, and we know we can save you money on any purchase you desire to make.

We Call Attention to Our Big Stock of Pretty Summer Wash Goods

—You simply must see these lovely Voile, Organdy and other summery materials we are now showing. We have one of the most complete stocks of piece goods in the city and we're especially proud of this charming assortment of pretty fabrics. You will be more than pleased with the low prices we are selling them at.

All Silk Fabrics at 25% Reductions During This 3-Day Sale

—This assortment includes a wide variety of beautiful silk materials. Foremost in the lot are Crepe de Chines, Georgette Crepes and crisp new Taffetas. These materials were formerly priced to \$4.50 per yard. During the next 3 days you will find them on sale at a substantial reduction of 25 per cent.

Charming Gingham Porch Frocks and Aprons

Best grade Gingham Dresses in attractive and very pretty new patterns. Checks, plaids and solid colors, in all new colors, offered at unusually low prices during this three-day event.

25% REDUCTIONS OFF FORMER LOW PRICES

Good quality Gingham Bungalow Aprons, very practical yet unusually pretty styles and patterns. They were formerly priced \$1.50 to \$6.00, now on sale for 3 days at 25 per cent reduction.

FOR FRIDAY, SATURDAY AND MONDAY ONLY

Thrifty women will supply their winter blanket needs now at present low prices.

No wise, far-seeing woman can afford to pass up our low prices on Quilts and Blankets. It is just a short time until winter and then you will be buying quilts and blankets at high prices. We purchased these one year ago, before the big rise in price on wool and cotton and can save you 100 per cent on any blanket or quilt you buy now during this 3-day event. Why not find out your needs now and plan for winter? Space does not permit us to quote any prices here, but you can come expecting at least 100 per cent saving over present retail quotations. We need the room.

LOVER'S DREAMS ARE VAPORINGS, SAYS LECTURER

LONDON.—There is always someone trying to smash love's young dream! It will no longer do for lovers to swear to their best beloveds that every night they dream of them.

"The sincerest of lovers is quite capable of forgetting the existence of his lover during his dream life," said Mr. William Archer, lecturing on "Dreams" before the Royal Institute recently. He was aware of no evidence, he said, that lovers frequently dream of their beloved.

Most of the dreaming of ordinary healthy people, he went on, had no more portent than the shapes imagined in the dying embers of a fire.

(Consciousness is only the surface of an unfathomable ocean. Dreams are dredgers by which these depths may be reached, for they furnish memories of which the waking mind leaves no trace.

"It is very strange that we should all be leading two lives, the one rational in the real world and the other irrational and fantastical in the world of the brain," he said.

"That men are irresponsible lunatics for eight hours out of every twenty-four shows that man was not intended by the Almighty to be a rational being."

STATE CREAMERY WILL BE MANAGED BY NORTH DAKOTA

BISMARCK, N. D.—Under authority established by the law, the state of North Dakota has embarked in the creamery business by leasing a plant at Werner, which will be operated on a co-operative basis under the direction of the commissioner of agriculture and labor.

Dairy Commissioner J. J. Osterhaus is establishing three creamery stations for the collection of cream for the plant in Mercer and Dunn counties. Farmers will be paid the market price for their cream, and at the end of each season the profits will be prorated back to them on the basis of the cream supplied.

Though this is widely regarded as a grain state, the dairy industry is advancing with tremendous strides. Last year, according to Commissioner Osterhaus' official report, the dairy industry represented a value of more than \$50,000,000 for the producers. Of this sum more than \$40,000,000 was in marketed butter fat.

NEIGHBOR'S STEAM TOOK CURL OUT OF WIG—SUES

International News Service.

LONDON.—When William Clarkson, theatrical wig maker, sought an injunction against a neighboring restaurateur whose steam was taking the curl out of his wigs, it was too much for the judge. He dodged by referring certain technical questions to the district purveyor.

MASKED DANCES GAIN FAVOR IN PARIS SOCIETY

PARIS.—A gay "masked dinner" party which was given in the residence of a prominent member of the French Corps Diplomatique is described by the newspaper La Liberté, which says that such affairs are becoming quite the rage in the ultra-fashionable circles.

After an afternoon spent in dancing, certain of the guests were given "the eye" that meant they should linger. After the others had departed the selects were invited upstairs to take their pick of a variety of costumes.

When dinner was announced the Baroness B. who is noted for her beautiful tresses, according to La Liberté, descended with her hair down her back and dressed in the costume of a maid. There was a burst of applause when the pretty blonde girl came down wearing the trousers and coat of the diplomat herself, which she had found by ransacking his room. More cheers greeted a matron who with some difficulty donned the short-skirted dress of the diplomat's ten-year-old daughter. One of the male members of the party dined in a pair of rose-colored pajamas belonging to the diplomat's wife.

BABY BORN IN "FLIVVER" OUTSIDE HOSPITAL DOOR

International News Service.

NEW YORK.—Patrick Mahoney, a policeman of the Bolter Squad, who lives in Nottawa street, Jamaica, is considering whether or not to name his youngest son Henry Ford Mahoney. The child was born in a flivver outside Mary Immaculate hospital, Jamaica, where a room had been engaged.

Dr. Joseph Musante, of the house staff, hurried out and discovered it would be impossible to move Mrs. Mahoney. "Big

BILL" Wegebauer, ambulance chauffeur, who has a wife and children of his own, was called and by striking one match after another he furnished enough light for Dr. Musante. The child and his mother are resting comfortably.

ADVOCATES BANDS TO FIGHT LOW STREET PLEASURES

LONDON.—Bernard Shaw advocates municipal symphony orchestras with nightly concerts as a counter attraction to a method of fighting the "low pleasures of the streets," which ruin the morals of youths.

SCHOOL CHILDREN "TOO FAT," SAYS PHYSICIAN

VALLEY FALLS, Kan.—The parents of school children here undoubtedly are good "providers."

In every grade in the schools here the pupils are "too fat," according to A. H. Braden, who completed an examination the other day.

In the eighth grade the average was from fifteen to fifty pounds too high. The heaviest boy tipped the beam at exactly 225 pounds.

RUFFLES, RUFFLES EVERYWHERE, AND SUCH DEEP ONES!

What could be more dainty and becoming for summer than this delightful imported blouse with crisp ruffles from the ears to the very fingertips. It is fashioned of the finest handkerchief linen and every stitch is made by hand. The little apron front, the black bows at the wrists and throat and the crocheted buttons all help in giving it a distinctive air.

HOW MUCH DO YOU KNOW?

- DO YOU KNOW that Ranger has the biggest Ice Plant in West Texas?
- DO YOU THINK it was built to look at?
- DO YOU KNOW it was built to make ICE FOR YOU?
- DO YOU REMEMBER what a helluva time you had with ice last summer?
- DO YOU KNOW that cannot happen this summer? (Thanks to us.)
- DO YOU KNOW who made and delivered ice to you every day last Winter, and at a loss of money to us, but not to you?
- DO YOU KNOW who "went South for the Winter" the first day they lost a nickel, and left their customers for us to lose money on?
- DO YOU KNOW that this same thing will happen this Fall?

You Know You DO Know

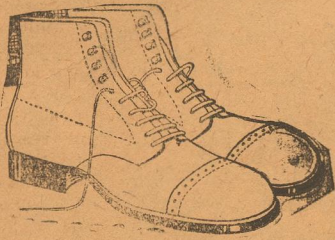

We only ask you to apply the "Golden Rule" to us—We have an up-town station for your convenience (next door to the Express Office)—We have REAL ICE WAGONS with GENTLEMAN DRIVERS who only want an opportunity to give you service—our ICE speaks for itself.
