PROSPERITY WAVE SWEEPING COUNTRY

Court Votes Public Health Nurse for Lubbock County

APPROPRIATION OF \$1,650.00 MADE FROM CO. FUNDS

STATE TO FURNISH EQUAL AMOUNT FOR SUPPORT OF COUNTY NURSE

Wednesday the Lubbock County Commissioners Court, climaxing a busy session during which many important matters of business of the county were discussed, voted to make an appropriation of \$1,650 for the support of a Public Health Nurse for the county. The appropriation was made for the employment of a nurse for a period of fifteen months.

Dr. H. Garst, of Austin, director of the Bureau of Child Hygiene, and Miss Dorothy Anderson, advisory nurse for the Northwest Texas and Panhandle district were here and presented the department's proposition to the commissioners.

First efforts to establish a public health nurse were made last year but the commissioners court, then headed by Judge P. F. Brown, did not believe the time ripe for the establishment of the office in this county, and the matter was deferred until following the election when Judge Brown was re-elected by County Judge Elect Chas. Nordyke.

After a short discussion with the court Wednesday concerning the establishment of a nurse in Lubbock county, the department representatives left the matter with the court.

Declaring that if the people of Lubbock county can pay one hundred dollars each quarter to have their sheep in this county inspected against scabbies, Marvin T. Warwick, commissioner of the precinct of which Lubbock is a part, made a strong plea in behalf of the establishment of the public health nurse offices here.

His view in the matter was taken by commissioner I. C. Denton, who urged that the office be established as soon as possible. Lubbock county will appropriate fifteen hundred dollars for the support of the office, one year, this amount to be matched dollar for dollar by the state. An additional three months service of the nurse, making the contract cover a period of three years, was contracted for. For the additional three months service of the nurse Lubbock county will pay \$150 while the bureau of child hygiene will pay \$600.

Dr. Garst stated that a nurse to take up the work in this county will probably be available the first of December, and according to the contract the office is to be established just as soon as possible. It was stipulated in the contract that the nurse is to serve only in an advisory capacity in a city of ten thousand population or more, in the county, which will eliminate Lubbock proper from securing the active services of the nurse. The work of the nurse will be educational only, and she will not be required to do bedside duty, according to the contract.

An advisory committee headed by a doctor to be recommended by the Lubbock Medical Society, will assist the nurse in the work in the county. Members of the committee will work without pay.

FORMER INDIAN CHIEF DIES IN JAIL CELL

EL PASO, Nov. 12.—Felipe Gonzalez, 89, son of Juan Severino Gonzalez, one-time chief of all Indian tribes at Yalea, Texas 40 years ago, was found dead in a cell at the county jail Wednesday, where he was being held for mental observation. Coroner Rawlins pronounced the death as the result of old age.

New York City had at the close of 1923 81,751 street lamps, of which 79,930 were electric.

\$10,000 FOR GIRL HURT IN CRASH.

EVA STEINBERG (ON COFFIN)

Just as a jury was being sworn in to hear testimony in Miss Eva Steinberg's \$10,000 suit against the Brooklyn-Manhattan Transit Co., of New York City, the company offered a settlement of \$10,000, which was accepted. This is said to be one of the largest damage suit settlements ever made. She was injured in a collision between two trains and had to be carried into court on a stretcher, attended by her sister and Dr. Paul Laoidus.

GREAT GROWTH ALONG ALL LINES IS SHOWN HERE

CITY AND RURAL SECTION DEVELOPMENT SHOWS PROSPERITY

Perhaps no town in the state is enjoying such an era of prosperity and development as is evident in and around Lubbock, where builders of all the trades are finding work plentiful, and where the harvest of a good crop of cotton is lending its wealth to the farmers, who being of the most progressive type, are keeping developments in the rural sections abreast with developments in Lubbock.

It is conservatively estimated that the crop in Lubbock county this year will yield forty thousand bales. Up to Saturday over 6,000 bales have been ginned at the seven gins here, and it is probable that an additional eleven thousand bales will be ginned here this season, with the remaining twenty-two thousand bales distributed evenly among the other ten gins of the county.

Fifteen of the twenty-three rural schools in the county are housed in substantial brick structures, while contracts for the construction of two additional structures to displace frame schools will be let this month according to County Superintendent P. F. Brown. Few counties in the state can boast such substantial rural schools as are to be found in Lubbock county.

That the development program in Lubbock along the building lines has been kept abreast with the developments being made by the city in paving and sewer and water extensions is shown from the building permit records. From January 1st to September 24th, this year, building permits were issued for seventy-two thousand five hundred ninety dollars. A check-up on the records Wednesday revealed building expenditures here from September 25th to November 8th to be one hundred and nine thousand one hundred and fifty dollars.

The Panhandle Construction Company is now constructing 106 blocks of paving in the business and residential sections of the city at a contract price of \$867,410.60. Seven and one-fourth miles of sewer lines, ranging from 78-inch to 42-inch diameter.

NEFF APPEALS FOR PRESERVATION OF BEAUTY SPOTS

LAMESA, Texas, Nov. 12.—Governor Pat M. Neff spoke at the District Court Room in Lamesa, Monday evening, November 10th. The large room was filled and many were unable to gain admittance. The Governor spoke for better than 20 hours on the State Park Program, which has been conceived and undertaken during the past eighteen months. He stressed the fact that there are just so many beautiful places in Texas as can be found anywhere. He urged the people to see Texas first. The governor stated that it was his desire to see the places of scenic beauty in Texas preserved for future generations.

Following the address by Governor Neff, D. E. Kolp, chairman of the State Park Board, and who accompanied Mr. Neff to Lamesa, made a short talk in regard to the State Park System.

Following the addresses, the Governor and Chairman Kolp, were the guests of the Lamesa Lions Club at a banquet. Col. and Mrs. F. M. Weaver, who donated the Weaver State Park, located here and Judge and Mrs. J. E. Garland, who gave a beautiful boulevard leading from the city to the park were also special guests, together with the wives of the members of the club. A feature part of the banquet was an old-fashioned cow camp dish that was served to the gathering. This part of the menu was provided by Col. and Mrs. Weaver, who have large ranch holdings in this section.

The Governor addressed the club and their guests for a few minutes in an informal manner and left immediately afterwards with Mr. Kolp for Lubbock, where he was one of the main speakers at the laying of the cornerstone of the Texas Tech on November 11th.

The program also includes: Repeal of the provisions of the transportation act, providing for...

REPORTS SHOW ALL SECTIONS OF NATION ACTIVE

HIGHER LEVEL OF PROSPERITY IN SOUTHWEST IS PREDICTED

BY THOMAS L. STOKES WASHINGTON, D. C., Nov. 12.—Optimistic predictions of a high wave of prosperity made recently by several leaders, are confirmed in black and white in the records of the labor department, which has received reports from cities and towns in every state showing a steady improvement in nearly all lines of activity.

These reports, indicating a period of humming mills and factories with subsidiary lines active, give promise of work for nearly everybody during the winter months. There is some unemployment in the country, mostly among unskilled workers, but indications are that most of it will be absorbed in seasonal activities, such as lumbering in the northwest, road building in middle and southern states, and other lines which are living up as a result of the general improvement. One of the surest signs of a generally prosperous condition is the noticeable pick up reported in the production of certain luxuries. Confectionery and tobacco plants are taking on more workers generally.

In New Jersey, plants which manufacture musical instruments, radio apparatus, and electrical supplies are adding to their payrolls in preparation for a busy season. The most pronounced pick up is being registered in the eastern industrial sections. Iron and steel plants in New York and Pennsylvania are taking on extra workers and this industry is particularly healthy. The textile industry in New England is showing improvement. Many mills are still on part time, and a few closed, but others are working at full capacity, and still further improvement is predicted.

Paper and pulp industries in New (Continued on Page 6)

SEALED VERDICT GIVEN HILL CASE TWO HURT WHEN CAR OVERTURNS

VERDICT TO BE OPENED BEFORE JUDGE SOPHER THURSDAY MORNING

By United News. BALTIMORE, Md., Nov. 12.—The jury in the trial of Congressman Phillip Hill charged with violation of the Volstead act, was still out at 11 a. m. Wednesday, Judge Sopher left the court room early in the evening, leaving instructions with the jury to return its verdict sealed should it agree during the night, the verdict to be read in court at 10 o'clock Thursday morning.

Hill was charged with violating the Volstead act through home manufacture and possession of elder and wine exceeding the alcoholic content of one half of one percent. The question which the jury was forced to determine, however, was whether the elder and wine, both of which admittedly exceeded that standard, had a sufficient "kick" to be considered intoxicating in fact.

Judge Sopher, instructing the jury declared that the burden of proof rested with the government. He refused to change his instructions when United States district attorney Woodcock made the claim that Section 22 of the Volstead act shifted the burden of proof to the defendant but after examining the section, admitted that it was an "arguable" point.

The judge ordered the jury to bring in verdicts of not guilty on the two counts which charged the congressman with "maintaining a nuisance" and warned them that their (Continued on Page 6)

MANY SEND OUT EXTRA COPIES OF MORNING AVALANCHE

Several hundred copies of the Morning Avalanche of Wednesday have been sent out by Lubbock people, to relatives and friends in other sections of the state and in other states, letting the people know about the celebration of the cornerstone laying of the Tech College, and we still have a few copies left, and if you want any of them you should come and get them now, before they are all gone.

Call early today if you want them.

LABOR HOPEFUL FARM BUREAU AFTER DEFEAT WINS DECISION

NOT DISCOURAGED OVER ELECTION OUTCOME LEADER CLAIMS

EL PASO, Texas, Nov. 12.—Labor is not discouraged over the results of the presidential election. James O'Connell, president of the Metal Trades Department of the American Federation of Labor, told representatives of 227,000 metal workers here that labor could not insure the election of Senators La Follette and Wheeler. "It undoubtedly polled such a large popular vote as to command a more sympathetic and more responsive consideration of labor desires politically in the future."

He said that no attempt had been made to deliver the labor vote, "but we were only endeavoring to inform labor and trying to prepare it to vote intelligently."

While admitting that there was a growing sentiment in favor of a purely labor political party, the labor chief urged that the present non-partisan political policy of the federation was the best to pursue for the present.

Samuel Gompers, president of the federation, upon his arrival declined to make any comment on the political situation but indicated that he would fight any movement to form a labor party. His spokesman said that the veteran labor chief had no apologies to make for supporting the La Follette-Wheeler ticket.

Delegates to the metal trades convention were informed by their officers that the employers associations and private detective agencies were spending more than \$50,000,000 a year for "labor spies". It was estimated that 10,000 agencies were employing about 155,000 operators were engaged in "labor crushing" activities.

A loss of 75,383 members during the last two years was revealed in the membership report. This heavy loss was explained as due to the railroad strike and the large amount of unemployment in the ship building and metal working industry.

Federal regulation of child labor, abolishment of injunctions in labor disputes and non-interference with the right to organize trade unions are outstanding features of the legislative program of the American federation of labor, now preparing for its annual session Monday, November 17.

The program also includes: Repeal of the provisions of the transportation act, providing for...

(Continued on page 3).

FARM BUREAU WINS DECISION

IS GRANTED TEMPORARY INJUNCTIONS AGAINST TWO MEMBERS

C. K. Bullard, of Dallas, chief counsel for the Texas Farm Bureau Cotton Raisers Association, appeared in the 72nd Judicial District Court here Wednesday foiling temporary injunctions against Robert Meeker and Fritz Braun, Lubbock county farmers and members of the Lubbock County Farm Bureau Cotton Association, seeking to restrain them from selling their cotton on the open market.

During the injunction proceedings it was shown that the two farmers had signed farm bureau marketing contracts which they had violated, and the temporary injunction was granted by Acting Judge Dalton.

According to Attorney Bullard forty-five cases in all have been filed in Texas courts this season against that many of the 49,000 members of the association in the state.

The action of the association was taken upon the recommendation of Field Representative R. E. Overstreet, of Lubbock, who has been in Farm Bureau work here the past two years.

These are the first cases the association has filed in the 72nd Judicial District, and according to Mr. Overstreet, will be effective in causing members as well as businessmen to respect the association contracts.

HALL COUNTY GINNED 20,000 BALES OF COTTON TO DATE

(Special to The Morning Avalanche.) MEMPHIS, Nov. 12.—Up to the present time there has been 8,640 bales of cotton ginned at the six gins in Memphis and approximately 20,000 bales ginned in the county. It is now estimated at 40 per cent of the total crop. Cotton is selling today on the streets from 23.50 to 24.00. Seed is selling at \$30.

FOUR INJURED WHEN EXPLOSION ROCKS POSTOFFICE

GRAND RAPIDS, Mich., Nov. 12.—A terrific explosion believed to have been caused by an infernal machine shook the downtown district here late Wednesday, demolishing an entire annex of the postoffice building and seriously injured three postal employees, and a man who was walking along the street near the building.

The injured are: Charles Butler, 40, superintendent of mails; Hedman Peitersch, 40, and Edward Antoinette, 30, 50th employees of the postoffice.

C. R. Mackley, 43, manager of the American Weather Strip company. The explosion which could be heard for miles, tumbled bricks from the nearby buildings, broke windows in all neighboring business houses and rained debris on the streets for blocks around.

Several government mail trucks, and private automobiles parked near the building were demolished, and some were completely destroyed. Torn letters, bundles and mail sacks were strewn over the pavement and even on the sidewalks across the street.

At least a half dozen other persons received minor injuries. Police investigating the case are baffled by the explosion. The cause of the explosion has not been ascertained. The infernal machine theory is advanced by those who believe the explosion may have been caused by a time bomb sent through the mails.

WEATHER WEST TEXAS—Thursday unsettled, rain or snow possible. Middle, colder North portion.

Public Health Nurse for Lubbock County

The club women of Lubbock county are delighted over the action of the County Commission in the employment of a public health nurse. The county federation several years ago was actively interested in the question, but met with little response from the court at that time, as the Commission then thought the time was not ripe for action.

Many constructive things have been done in the last two years and Mr. Warlick, Mr. Denton, the County Judge, and the other commissioners are to be congratulated.

The general health of the children of Lubbock county will be better cared for and the rural communities will be the ones to benefit as a city of more than ten thousand is not entitled to the services of a County Health nurse except in an advisory capacity.

Many South Plains People To Hear "Don Pasquale"

The seat sale for "Don Pasquale" has justified the arranging of contracts for next year's presentation, of perhaps two Operas, the names of the sets and the Operas are not announced as yet, but will come from the same pre-eminent trainer and producer of "Don Pasquale"—William Ward Hinshaw, of New York City.

Lubbock's first attempt to finance the engagement of big stars in Opera will be concluded Saturday night at the presentation of the Opera Comique "Don Pasquale" by Donzetti, at the high school auditorium.

Seats are being ordered reserved from many out-lying towns, from people who have been guests at Dallas and Fort Worth during Opera season.

This appearance, Saturday night, doubtless marks a new era in the development of Lubbock along artistic lines and in placing the city on a list among those of many times the population of Lubbock.

Irene Williams alone in concert has proved an immense drawing card many times in Texas cities, and her eastern appearance have won for her unusually large phonograph recording contracts.

The cast supporting Miss Williams includes artistically known in eastern musical centers, Pierre Remington, a Bass of recognized merit, Leo De Heirapolis, a Baritone, who is acclaimed in foreign Opera circles both for his dramatic ability and superb voice. The remainder of the cast are stars in their fields and lend their ability to a finished opera, bearing toward comedy, sentimental and new inspiring, in all the splendor of antique silver, lace and velvet, amid gorgeous settings, and lighted in the mystic and artistic method of typical metropolitan productions.

Party for Mrs. Hagerty At Country Club Friday

A lovely evening party was given at the country club last Friday when Mr. and Mrs. Neal H. Wright entertained complimenting Mrs. Roy N. Hagerty of Omaha, Nebraska who is the guest of Mrs. A. V. Weaver.

The club rooms were charmingly decorated with yellow and white chrysanthemums and seven tables were placed for bridge.

The hostess was assisted by Mrs. Mendor and Mrs. Weaver. At the close of the games the honor guest was presented with bridge markers and score pad and Miss Lavonia Baker received the cut prize which was a deck of cards.

Delightful refreshments consisting of fruit salad, toasted wafers, olive potato chips, plum pudding, whipped cream, and coffee were served to:

Mr. and Mrs. Bryan Dickinson, Mr. and Mrs. Ernest Conley, Mr. and Mrs. Elmer Conley, Mr. and Mrs. Harold Griffith, Mr. and Mrs. Lee Duggan, Mr. and Mrs. Holdric, Mr. and Mrs. Charles Read, Mr. and Mrs. Claude Harbut, Mr. and Mrs. Guy McAfee, Mrs. and Mrs. McCelvey of Temple, Miss Mary Mendor, Miss Frances and Lavonia Baker and Kenneth Kimbro, Edgar Lewis and Carl Roberts.

A FAIRY STORY.

Rumpy Dudgets Tower
By Julian Hawthorne.

Rumpy Dudgets Tower makes his first bow to American book gaudy this autumn, the St. Nicholas Magazine in this country and in magazine and book form abroad. The author's preface sketches its history briefly and interestingly and then the story begins. It is a truly creative tale, Rumpy Dudget is no ordinary character. He is a single individual, separate little character of a dwarf.

He was an ugly little dwarf, about as high as your knee, and all gray from head to foot. He had a gray beard and wore a broad-brimmed gray hat, and a gray coat that was so much too long for him that it dragged on the ground as he walked. And on his back was a small gray hump, that made him look even shorter than he was. He dressed in a gray tunic whose battlement could be seen from the palace windows. In this tower was a room with a thousand and one corners in it. In each of these corners stood a little child, with its face to the wall, and its hands behind its back. These were children that Rumpy Dudget had caught trespassing on his grounds and had carried off with him to the tower.

The story is told as a story should be told in beautiful English and with proper attention to every fanciful detail. Long ago it begins, before the sun caught fire, before you were born.

Could any opening be more sweepingly complete and wouldn't you like to meet an Airy Spirit carrying its nose in the air? You may meet it in this book. And you will read of the Diamond Water Drop which princess Hilda carried in a little crystal bottle, hinged around her neck by a coral chain, and of the golden Ivy Seed and of the disappearance of Rumpy Dudget—when the mischief was squeezed out of him as he was made of mischief. No wonder this story couldn't be forgotten. I can picture many small children this year and many years to come making Rumpy Dudget re-appear with all his mischief simply by beginning the book all over again. Children's Book Week, Nov. 9 to 15th.

TESTIMONY CLOSES IN CANCEL SUIT OF OIL LEASES

BY H. O. THOMPSON

LOS ANGELES, Calif., Nov. 12.—Presentation of evidence in the government's civil action to annul naval oil storage contracts and Elk Hills Naval oil reserve leases held by E. L. Doherty Petroleum companies has been completed. Striking a final blow at the defense, a stipulation was introduced Wednesday by Owen J. Roberts, assistant government counsel to show that attorney general Harry M. Daugherty never had been asked to rule on the legality of Pearl Harbor contracts given the Pan-American Petroleum and Transport company.

The point involved was whether or not exchange of royalty oil for construction work was legal. The issue has been brought out repeatedly during the trial, and according to previous testimony, other oil companies had objected to entering into any such contract with the government for fear the deal would not stand court scrutiny.

Four rebuttal witnesses were called to testify in Wednesday's short session. Commander Irvin Landis, naval officer in charge of the Elk Hills reserve presented a document which showed location of wells, drilling statistics, and other routine information which the prosecution wished to enter as evidence.

PIMPLES AND BUMPS TAKE THE JOY OUT OF LIFE

Girls and boys too, whose faces are broken out with pimples and blotched, imagine all sorts of weird things.

The worst fault it leads to is using just anything which promises them relief from their condition, which often makes their trouble worse. Never put anything on your skin which has not been proven by the test of time and public opinion to be right. In this connection, the phenomenal success, which is called Black and White Ointment and the Soap, offers sufferers from such skin diseases the one reliable and dependable means of relief and restoration of their skin to that clear smooth and lovely condition it was in their youth.

Black and White Ointment, and Soap, are economically priced, in liberal size packages. The 60c size of the ointment contains three times as much as the 25c size. All dealers have both the Ointment and the Soap.

AFTER WINNING ELECTION OFFICE IS ABOLISHED

NEBRASKA CITY, Neb., Nov. 12.—Here's the prize hard luck election story:

J. W. Barnett was re-elected assessor of York county, unopposed, by 4,500 votes. But the same voters decided the office should be abolished by a majority of 300. Barnett has held the office for several terms.

NOTABLE MAYA RUINS ARE BEING UNCOVERED.

"TEMPLE of THOUSAND PILLARS."

Wonderful disclosures of the ancient Maya civilization of Yucatan are already resulting from the expedition of the Carnegie Institute and the Mexican Government. The excavation just now centers about the "Castle," central figure in the "Temple of a Thousand Pillars." The photograph shows a native Maya Indian on guard over the ruins at Chichen Itza, Yucatan.

TAX REVISION NOT PROBABLE AT NEXT SESSION, SAID

WASHINGTON, Nov. 12.—Proposals by some republican leaders of congress to bring up the question of tax revision at the coming session have been definitely vetoed by the administration. This was made known following a conference between President Coolidge and Secretary of the Treasury Mellon on Wednesday. There were indications also that suggestions of an extra session are not favorably viewed by the white house, though the president is still open to conviction on this question. An agitation for an extra session is to be started in congress with Senator Borah as one of the leaders. If the demand becomes strong enough, the president may yield.

President Coolidge and Secretary Mellon agreed that it would be useless to push tax revision at the coming session which lasts only until March 4, and which will be occupied with the routine appropriation bills which will require most of that time.

There is some talk in congress of enacting a resolution making a horizontal cut of say 25 percent in taxes on incomes earned in the calendar year of 1924, and payable next year. Such a flat cut was made in taxes payable this year under the old law. Senator Smoot chairman of the senate finance committee favors such a reduction.

Until the question of an extra session is finally decided, business men over the country will not know whether to count on further reduction in incomes for the calendar year 1925.

When President Coolidge reluctantly signed the present tax law last June, he emphatically expressed his disapproval of many of its sections.

"A correction of its defects may be left to the next session of congress," he said. "I trust a bill less political and more truly economic may be passed at that time. To that end I shall lend all my energies."

However, instead of having the corrective work at the next ses-

sion the president now thinks the wiser plan is to have it undertaken by the next congress, when he will have less trouble with the La Follette group than in the present one.

No recommendations for tax revision will be contained in the president's message to congress next month, though he may include a request for abolition of the publicity feature.

Meanwhile the appropriations committee of the house has made an early start toward preparing the annual supply bills. Hearings were begun on the department of interior bill Wednesday. This work is of a tedious, time-consuming nature, and consists largely of questioning bureau chiefs regarding the necessity for various items in the appropriation requests.

GREAT GROWTH SHOWN IN ALL LINES HERE

(Continued from Page One)

storm sewer to 15-inch vitrified tile are being laid in connection with the paving program. Hawley & Roberts, consulting engineers, stated Monday that 11,580 feet of this sewer, including practically all of the 78-inch lines, have been laid. Rapid progress is being made on this work with no serious shortage of labor at this time. Until three weeks ago, however, labor was scarce and work was retarded materially.

Schools of Lubbock are crowded, with 2,900 enrolled. An addition that will double the capacity of the high school is being erected at this time at a cost of one hundred thousand dollars. It will be furnished at an additional cost of twenty five thousand dollars.

Enrollment in all schools of the city will be increased during the next two months, and Supt. M. M. Dupre, who has been head of the schools here the past ten years stated Monday that unless the addition to the high school has been completed by Christmas, the school will be filled to capacity without taking care of all the students.

Total tax values in Lubbock county in 1923 amounted to \$11,372,730, and the tax values for 1924 are \$15,508,547. In 1923 total state and county taxes for the county were \$272,000, while this year they equal \$298,888.98. While more than 91 per cent of the taxes were collected last year, Holland stated Monday that he hopes to collect a

larger percentage this year. In October, 1923, he collected \$3,157,76 current taxes, while collection for October of this year amounted to \$3,807.64.

The churches of Lubbock are being built and enlarged to meet the demands of a fast increasing population. The First Presbyterian church is nearing completion at a cost of forty five thousand dollars, while the Church of Christ is being enlarged and when completed will represent a total investment, including the building site, of nearly seventy thousand dollars. The First Baptist and the First Methodist churches are housed in substantial brick struc-

tures that are adequate for any increased demands. A brick parsonage is being erected for the First Methodist church at a cost of twelve thousand five hundred dollars.

With prospects good that direct railroad connection will be made with Fort Worth in the near future, Lubbock occupies an enviable position among the cities of the state.

LABOR HOPEFUL AFTER DEFEAT

(Continued from Page One)

government regulation of industrial relations in the railroad industry. Construction and repair of public works in periods of acute unemployment.

Comprehensive workmen's compensation laws.

Power of congress to re-enact by a two-thirds vote measures declared unconstitutional by the supreme court of the United States.

Graduated income and inheritance taxes.

State use system for the employment of convict labor.

Exception of trade unions from anti-combination laws.

No restrictions of the workers' right to quit work collectively or to collectively bestow or withhold patronage.

LAMESA LEGION HAD CHARGE OF ARMISTICE DAY

LAMESA, Texas, Nov. 12.—Allen Houston Post, No. 330, of the American Legion, were in charge of Lamesa on Tuesday, November 11th. At Ten thirty a parade, led by the Lamesa Chamber of Commerce Band and including near one hundred ex-service men, formed and marched over the business streets of the city. Following the parade an appropriate program of a patriotic nature was rendered at the Baptist Church. A banquet was served to the ex-service men and their families, together with a number of invited guests, at the noon hour. A musical program was given during the banquet by the Lamesa Orchestra. A number of toasts and short tributes were given following the banquet. Over one

hundred and fifty people enjoyed this occasion.

At seven thirty in the evening an athletic program was given by the Legion at the skating rink. It was a very enjoyable and entertaining affair.

The Allen-Houston Post has over one hundred members and new ones are enrolling every week. The Post is planning to erect a club house for the use of ex-service men soon. Joe

M. Peterson is post commander, Phillip Young, city attorney of Lamesa is post adjutant.

The business houses of the city were closed during the parade and the program that followed.

Taxes in Columbia, South America, are so small as to be non-existent. A modern hotel on the principal street of Bogota is valued at

about \$10,000 and the owner is assessed at about \$15 a year. Wealthy persons live in magnificent well-furnished houses, while the street outside is so hideously decrepit that it is almost impossible to proceed faster than ten miles an hour in a car. The streets are not drained for the most part and in spring torrents pour through them causing much destruction according to one traveler.

The IMPROVED PERFECTION Oil Heater

Light a Perfection whenever heat is wanted—it responds with instant cheering warmth. Clean, odorless and economical to operate—there are ten hours of solid comfort in every gallon of kerosene.

Let us show you the latest improved models with six brand new convenience features.

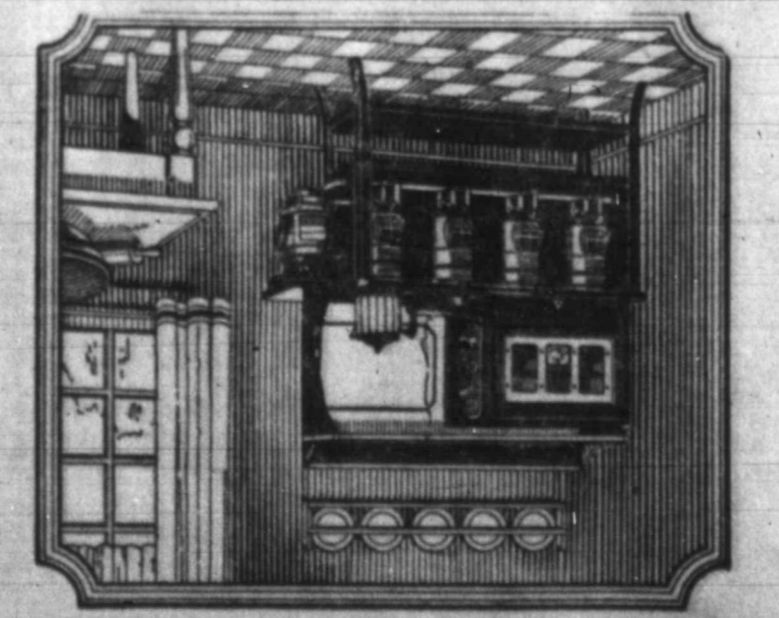

Sherrod Brothers
"Quality Merchandise at Reasonable Prices"

The IMPROVED PERFECTION Oil Heater

Welcome warmth to protect the little ones from chill and dampness. Instant heat on frosty mornings, at baby's bath time and a dozen other times a day. Get your Perfection Heater today. Models in enamel, or plain finish. We carry the complete line.

Myrick Hardware Company
If its Hardware, we have it

Cooks the Minute You Light It

The improved Blue Chimney Perfection Oil Stove is the greatest value we have ever sold at its moderate price.

It is quick, clean, odorless and economical. A stove that will give you perfect service twelve months in the year.

We sell all styles and sizes of Perfection Stoves and Ovens. Let us demonstrate.

Rix Furniture & Undertaking Co.

Ready When the Guests Arrive

The keen satisfaction of serving a perfectly cooked meal—on time—is assured the hostess who cooks on a modern Perfection Oil Range.

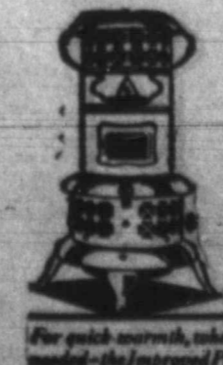

For Perfection's quick, clean heat, its ample size and complete convenience eliminate uncertainties and give a woman's cooking skill full sway.

This year-round oil stove answers the demand of women everywhere for greater freedom in kitchen tasks and does away with the time-taking, back-breaking labor of cooking with coal or wood.

If you too would lighten cooking cares this winter, banish the old range now and put a Perfection in its place.

Outside Texas, Oklahoma, New Mexico, \$1 per mo., \$8.00 per year. Subscriptions payable in advance.

NOTICE—It is not the intention of the Avalanche to cast reflection upon the character of anyone knowingly, and if through error we should, the management will appreciate having our attention called to same, and will gladly correct any erroneous statement made.

AVALANCHE PUBLISHING CO.

THE BIG RANCHES CONTINUE TO SUCCEMB TO THE NEEDS OF THE FARMER

One by one the people who have been holding the great bodies of land in the west, and more especially in the South Plains section, where the largest body of uncultivated lands all in one body in the world lies, are breaking up, and the land is being placed on the market in tracts small enough and upon terms that the smallest farmer can own a home.

So rapid has been the development that people who several years ago visited this country, and have not been here for the past twelve months can hardly realize that this is the same country.

The latest big ranch-holdings to be cut up and offered for sale is the large 65,000 acre tract of land in Bailey and Cochran counties belonging to I. C. Enoch.

In many instances it has been known that the crop on the land the first year will more than pay for the land so that there is no need for fear that within twenty years the land will become the property of the purchaser, and this will mean that this country will receive thousands of good citizens and that it will become one of the very best farming sections of the state, and the people will become home owners instead of tenants.

THAT FEDERAL BUILDING

If ever a town in the United States needed an adequate building for a post office it is Lubbock. A new building is being erected for its use on the east side of the square, and we are told that next Saturday the post office will be moved to that place from its present location on Avenue I.

In another twelve months we will not be surprised that Lubbock will have two persons here to our one now. This probably is far underestimating the growth, but we will take that as a basis of calculation, and we will have, as a result of a little mental figuring, a need for double the postoffice facilities and working force, and the present building that is now being erected will be altogether inadequate, and there will be a need for a more modern, and up-to-the-minute postoffice building and equipment.

The people of this town should make it so warm for the next session of congress that they will give us this needed building to get rid of us if nothing else. Lubbock must have a federal building, and the sooner we get started on the proposition to get one through the better it will be for the whole South Plains country.

In the United States it is a long, long road to a labor government—a convincing lack of business

THE RED CROSS DRIVE

The annual membership drive of the Red Cross was opened Tuesday and many memberships were sold, but not as many as might have been, in proportion to the number of people who were in Lubbock, and who were given an opportunity to contribute their annual mite to the Red Cross.

This will, in all probability, be a year which much money will be needed to carry on the work of this organization—much more than possibly ever before—Why? Because there are many more people in this country, and many more are coming to this country, and many more are coming this way every day.

Of course, we would much rather that this class of people would not come our way, but they will come, and we will have to assist them along life's way, in some way or other and it has been proved that through the medium of the Red Cross is the best way to carry on this work.

The Red Cross organization has been of great benefit to the public in general as well as to many individuals in rendering valuable information and in the judicial expenditure of funds, and this is one of the best arguments in favor of raising the budget for this cause, that can be advanced.

The campaign will be on for some days, but you should not wait till the last minute to make your contribution. Do it now and have it over with. It is a worthy cause, and should have the unstinted support of the people of this country.

HOUSE NUMBERING

There is a very great need for a more perfect house numbering in the city of Lubbock. At present it is very inefficient and confusing, and there seems to be little or no system about it.

It is almost impossible too, for the delivery boys of the Morning Avalanche to find the houses in the city by the numbers. The telegraph messenger boys are also handicapped and the delivery of groceries and other wares is hindered and greatly delayed on this account.

Many of the streets are not marked, and there is no way of telling what street or avenue you are on. The Avalanche suggests that this matter be taken up immediately, and that arrangements be perfected for completing the numbering of the houses and the marking of the streets also make arrangements for houses to be numbered correctly as they are built, on the vacant property.

This will keep the matter straight in the future and eliminate a great deal of the present annoyance, and unsatisfactory service that the business houses are unable to correct.

DANES DISARMAMENT

The Minister of Defense of Denmark has introduced a sweeping disarmament proposal in which conscription is to be abandoned in the army and navy, and the War Ministry and the Navy Ministry cease to exist.

The State Marine is to consist of one inspected vessel each for Greenland, Iceland, the Faroe Islands, North Sea and Danish waters, with 12 sea planes for guard services.

If this measure becomes a law it will go far toward setting an example to other nations whose "war" taxes are crushing their people.

The death of Albert H. Loeb, vice president of the Sears, Roebuck Co., and father of Richard Loeb, who was sentenced to life imprisonment for the murder of little Bobbie Franks, is attributed to a broken heart. The crime of his son weighed terribly upon the father, who seemed to realize that his own neglect was in part responsible for the tragedy.

The League of Nations, now in session at Geneva, is making a strenuous effort to restrict the manufacture and sale of opium in China and India.

The system Great Britain pursues may be clumsy, illogical, and apparently unworkmanlike; but at least it insures that public opinion can be brought directly, and at frequent intervals, to bear upon the Government of the country.

"Keep Cool with Coolidge." The country is certainly keeping cool even though there be a few

ASKING FOR INFORMATION

We would like to know who is responsible for the numbering of the residences in the city. If they will make a re-check on their work it will be found that any number of the houses are numbered wrongfully.

We beg of you to ascertain your correct street and house number and place the number on your house at once. Then if you fall in, getting you paper "bawl us out" we want you to get your paper promptly each morning and assure you if the boy happens to miss you we will "hot-foot" it out to your house as soon as you notify us of failure to get it.

We appreciate every one of our subscribers, and we want to render you good service, but friends we must have your co-operation in securing the right street and house number.

With more than one of the big international organizations of the country bent on efforts to establish friendly relationships between people of the world, it will enable friendly arrival at solution to serious problems, the interests of peace will surely be safeguarded for the immediate future at least, and Rotary could take upon itself no more weighty responsibility than that of furthering these relationships.

THREE KILLED BY POWER LINE

FOURTH MAN IS SERIOUSLY INJURED BY CONTACT WITH BROKEN CABLE

CONROE, TEXAS, Nov. 12.—A single broken cable, carrying a high charge of electricity, claimed the lives of three men and a fourth was seriously injured here Wednesday.

J. R. BEAKLEY, merchant, W. G. and TRAVIS RYE, brothers, of Rye, Texas, employees of the Delta Lumber company, and Leslie Berris, also an employee of the Delta company, were badly burned.

Bentley was killed as he stepped through the yard gate to his home and came in contact with the cable. The Rye brothers ran to his assistance and died as they started to lift him.

A news dispatch tells of a hen that laid an egg every day for 44 weeks—which proves the existence of a good layer or a good liar.

BOYS' WORK IS MAIN TOPIC OF ROTARY DISCUSSION

Wednesday's Rotary luncheon program was as full of pep as though the members had spent a whole week preparing to enjoy the day, when as a matter of fact the entire membership of the club was engaged all day Wednesday in helping to entertain the thousands of visitors here for the Tech celebration and for the past week had been busy with arrangements for the celebration.

Neil H. Wright, president of the club, took charge of the program in time to give the speakers ample time to dispose of their subjects in proper form.

Tom Shelby, of Austin, representing the State University at the celebration, was urged by members of the club to remain in Lubbock for the program and delivered an address on Rotary work in connection with boys' organizations, pointing out the appalling number of boys falling tom-aw-goo in life because of misapprehension as to their early obligation to society and to the world.

Rotarian Shelby told of the keen insight into the true principles of Rotary gained at the recent convention at Toronto, and expressed belief that Rotary will have its wholesome influence upon the world with regard to establishing better relationships between all peoples of the various countries which will ultimately lead to an easy solution of the problems of preventing war.

With more than one of the big international organizations of the country bent on efforts to establish friendly relationships between people of the world, it will enable friendly arrival at solution to serious problems, the interests of peace will surely be safeguarded for the immediate future at least, and Rotary could take upon itself no more weighty responsibility than that of furthering these relationships.

Treaty Requires Washington Sink Is Wilbur's Answer

WASHINGTON, Nov. 12.—Secretary of the Navy Wilbur, answering the suit brought to enjoin him from destroying the battleship Washington, holds that the naval limitations treaty specifically provides for scrapping of this capital ship and that congress empowered the president to authorize the methods by which its destruction is to be accomplished.

Wilbur's formal answer to the suit brought in the district supreme court by W. B. Shearer, of New York, as inventor, and written on behalf of affairs, was sent to the department of justice to be filed through that channel.

STUNT FLYER FALLS TO DEATH FROM AIRPLANE

TULSA, Okla., Nov. 12.—Losing his hold on the rudder of his plane which he grabbed after slipping from one of the wings, Cycle Horchem, a stunt flyer of Rancon, Kansas, fell 1,000 feet to his death Wednesday.

Jesus Catron, student flyer of Sand Springs, Oklahoma, who was piloting the plane, said Horchem climbed out on one of the wings, slipped down the fuselage and grasped the rudder. The ship then went into a tall spin, according to Catron, and Horchem fell. Catron landed safely.

Bertha Horchem, wife of the dead aviator, was killed in San Antonio, Texas, last March. She too was a stunt flyer.

MAN SENTENCED TO YEAR AND DAY ON "HOP" CHARGE

HOUSTON, Nov. 12.—R. G. Cochran, former student and accountant who told a federal jury here that his greatest consolation in life was reading "Plato's defense of Socrates," was sentenced to a year and a day at Fort Leavenworth on a narcotic charge.

Cochran asked Judge Hutcheson to send him to prison at Atlanta instead of Leavenworth.

"You want to go there because you can get dope," Judge Hutcheson told him.

"No, your honor, it is because Leavenworth is too cold. You can't get dope at Atlanta unless you are a rich man, any way, and I am poor," the prisoner replied.

RICH ATTORNEY TAKEN ON CHARGE OF RUM RUNNING

SAN FRANCISCO, Calif., Nov. 12.—With the arrest of F. R. Anderson, wealthy and prominent attorney of Vancouver, B. C., on a federal warrant, charging violation of the prohibition act, government agents declare they have penetrated the "inner ring" of the rum running industry on the Pacific coast.

The arrest of Anderson and the issuance of a federal warrant for Russell Whiteley, wealthy Vancouver shipper, follow the seizure of the Canadian steamship Quindra by a U. S. Coast Guard cutter several weeks ago.

Liquor valued at \$100,000 was confiscated by the government and Captain George Ford, master of the ship, and the entire crew were placed under arrest.

INDIANA MAN PLAYED NURSE TO H. R. H.

INDIANAPOLIS, Ind., Nov. 11.—George W. Jenks claims the distinction of having played nurse for His Royal Highness, the Prince of Wales, Jenks, was in England in 1897 as personal representative of President McKinley. While there the Sixtieth anniversary jubilee of Queen Victoria was held.

While other members of the royal family were called away to review a unit of the naval service, the prince was left in a tent in a baby carriage, and Jenks being the only one near, had to wheel him back and forth to quiet him.

Apparently an important step towards converting light into power has been made by two French scientists, who have succeeded in producing a mechanical record of the passage of a star across the field of a telescope. An ultimate possibility promised by this discovery is the conversion of sunlight into electrical power, although such development on a practical scale is perhaps a long way in the future.

A scientist says a mosquito can hear because it is rigged up a good deal like a radio set. And how impressively it can sink the aerial.

TIGERS MEET PAMPA FRIDAY AT SLATON

CONTEST TO DECIDE CHAMPIONSHIP OF DISTRICTS ONE AND TWO; WINNER MEETS VICTOR OF VERNON-AMARILLO

Special to Morning Avalanche
SLATON, Nov. 12.—The Slaton High School Tigers, champions of District 2 of the University Interscholastic League are all set for their clash here Friday when they meet the Pampa Harvesters, champions of District 1, in a battle for bi-district honors. This promises to be one of the greatest games of the season on the Southplains, and Slaton is preparing to entertain several thousand visitors on the occasion.

The Tigers to date have played eight games, including every strong team on the Southplains, both in class A and class B. They have not lost a game, and several times their goal line has not been crossed. The Harvesters likewise have met and defeated the strongest that the Northplains affords, with the exception of Amarillo, who now is bidding strong for class A honors of the district. The Northplains representatives well deserve to be termed champions of their district, for they have won over strongest competition.

The Tigers will be outwaged by their opponents, according to reports which indicate that the Harvesters have one of the heaviest high school teams in the state. Coach Miller, of the Tigers, however, is not worried over this score, and expects to offset this advantage of his opponents with speed and flit which has been a characteristic of the Tigers all through the season.

The winner of the game here Friday will go into competition with class A teams in their drive for state championship, and will meet the winner of the Vernon-Amarillo game, which will be played Monday at Vernon.

It is expected that 4,000 fans from throughout the Southplains will witness the battle here Friday, and special arrangements are being made on the field here to accommodate them. The game will be called at 3:30.

Officials for the encounter will be Big "Oss" Eckhart, coach of the Canyon Normal Buffaloes, Jas. H. Goodman, of Lubbock, formerly of Trinity University, and Coach Caudell, of Wayland College, all officially recognized by the Interscholastic League.

Hagen and Walker Meet In January In 72-Hole Match

By United News
NEW YORK, Nov. 12.—Walter Hagen holder of the British open golf championship and Cyril Walker, an American open golf champion will meet in a 72-hole match in Florida some time in January, according to an announcement by Robert E. Harlow, promoter of the match.

Although the date and meeting place are still tentative, it is likely that the first 36 holes will be played in Miami, while the second rounds will be fought out at Pasadena, on the Gulf, seven miles from Saint Petersburg.

This will divide the playing between the east and west coasts of Florida. This will be the fourth year that the winners of the two championships have met in singles.

Hagen won the British championship at Hoylake England, Walker lifted the American title at Detroit.

OKLAHOMA UNIVERSITY'S SQUAD ARE READY FOR KANSAS
International News Service
NORMAN, Okla., Nov. 12.—Strung by three consecutive defeats, Oklahoma University's football aggregation is hard at work this week preparing for its annual battle Saturday with the Kansas Jayhawkers at Lawrence.

On the basis of comparative scores which fortunately have not meant much this season, the Kansas despite their lone Conference victory

REVIEW OF FOOTBALL GAMES PLAYED LAST WEEK END SHOW MANY CHANGES MADE IN HIGH SCHOOLS AND COLLEGES

FT. WORTH, Nov. 12.—Last week's game went another step toward the finishing of the Conference race, with the Elimination of Texas State T. C. U. Oklahoma A. & M., and Arkansas State by the more powerful teams.

Texas State's new stadium was christened by a 28-10 defeat, at the hands of Baylor, in a game that was Baylor's from the starting gun to the final one. Coffey, Bear quarterback, ripped the State line for three touchdowns, while Leonard made the sber on a short pass received behind the goal posts. The educated toe of Jack Jones accounted for the extra points. Four of Texas' ten points came from safeties. While Marley went over for State's long touchdown, Texas fought and fought hard, but the Bear men were not to be denied. This gives Baylor the unique distinction of having defeated both Texas teams in a single season, and they did it in two consecutive games.

The Arkansas Razorbacks, playing on their home grounds kept inviolate a sixteen-year record that they would suffer no defeats on homecoming day, holding the powerful S. M. U. team to a 14 to 14 tie. Had it not been for an Arkansas man being offside when S. M. U. tried for point after touchdowns and failed, the score would have been 14-13, Arkansas but the penalty imposed on Arkansas was granting S. M. U. the extra point, although they failed to kick it.

At College Station, the Texas Aggies ran amuck and swamped their lighter opponents, T. C. U. by a 28 to 0 score, eliminating the Christians from the first division taking fourth place in the race themselves. Berry, Aggie quarterback, ran over, thru and around the Frog line for long gains, until stopped by the secondary defense. Mitt Damsky, 190 pound fullback, ripped thru the line for six and eight yard gains, placing the ball in a position to score.

The Frogs were battered on all sides by the powerful Aggie machine and before the game was over Bell had to take one of Ward, Washam, Adams and Cartrell on account of their injuries. Herman Clark, Frog quarterback, was the only consistent gainer for the T. C. U. bunch, and running the ball into a position to score, being held on a dropped pass by Taylor and Kishi's interception of the succeeding one.

This week's grid card holds forth one game of great promise, when Baylor and S. M. U. tangle at Dallas, both being in the lead for Conference honors. Baylor is slated to win, for two consecutive victories over the Texas teams have shown Bridges crew as one of the best that has been seen in action in the Southwest, while S. M. U. has had to take a tie score in two games, one with A. & M. the other with Arkansas, both much weaker teams than the Bruin aggregation.

Rice, the other participant in the tripartite for first place meets the Aggies at College Station on November 14, with Rice's speedy team granted the victory over the slower aggies.

Texas University plays the Christians at Fort Worth on November 15, and with most of the Bell defense out of the game on account of injuries received in the Aggie game, it looks like an easy victory for State, but the teams will be evenly matched if Bell can get his injured men in shape for the game.

Arkansas and Oklahoma A. & M. play non-Conference game with Phillips U. and Creighton, respectively.
Conference standing to date
Team L T Pct.
Baylor 3 0 0—1.000
Rice 2 0 0—1.000
S. M. U. 2 0 2—1.000
A. & M. 1 1 1—.500
T. C. U. 1 3 6—.250
Oklahoma A & M, 0 3 0
Arkansas 0 1 1—.000

In high school circles, less than forty teams remain in the race for interscholastic honors, many champions having emerged from the dust of last week's struggles.

In Class A, the results were as follows:
District 1 Amarillo and Vernon met in Amarillo on Armistice day, battling to a tie, count 3 to 3. They will play off the tie Monday at Vernon.
District 2 Cisco and Ranger meet to determine who would play Comanche for the District honors. The Cisco team scored early then resorted to defensive play, winning 7 to 0.
District 3 Cleburne won the title by defeating Mineral Wells 17 to 3 in a hectic struggle with Mineral Wells scoring the first score that has been made against Cleburne so far this season.
District 4 Waco and Hillsboro meet to decide the issue, with Waco the favorites.
District 5 Oak Cliff and Sherman fight it out at Dallas with Oak Cliff doped to win.
District 6 Marshall, Texarkana, Nacogdoches and Athens are still in the race.
District 7 Houston Central and Houston Heights, of Beaumont.
District 8 Temple and Corpus Christi play Nov. 15 with Temple given the edge.
In Class B games the champions of the different districts have been settled with sixteen victorious teams coming through the week.
District 1—Pampa, champion.
District 2—Slaton, champion.
District 3—Stephenville, champion.

District 4—Cubam, champion.
District 5—Highland Park, Dallas, champion.
District 6—Longview claims the championship, not officially announced by the Interscholastic League.
District 7—Odessa, champion.
District 8—Lampas, champion.
District 9—Marlin, champion.
District 10—Jasper, champion.
District 11—San Sabe, champion.
District 12—Granger, champion.
District 13—Caldwell, champion.
District 14—Humble, champion.
District 15—No report.
District 16—Robstown, champion.
After November 17, there will be eight champions in each division, these will then play to decide who will be the eight winners that will play in the State finals.

Class A teams that are considered as championship material are: Cisco, Cleburne, Amarillo, Waco High, and Oak Cliff. Their weaker opponents of Class B standing are not conceded as having much chance to last with their heavier opponents.

Warrants Issued For Two Arrests In Broker's Murder

By United News
LOS ANGELES, Calif., Nov. 12.—Police investigation of the murder of Harry I. Katz, wealthy real estate operator, musician and diamond broker, took two new turns Wednesday, afternoon.
On information given by Harry

Glaze, an ex-policeman, a telegraphic warrant was dispatched to San Diego for the arrest of a Los Angeles private detective and his woman companion. Glaze declared he was positive this man, whose name was not revealed, had killed Katz, explaining that the pair had been attempting to extort money from the gem merchant through blackmailing methods.

The private detective, according to Glaze, had worked up on Katz's desire for feminine companionship, had entangled Katz in a maze of underworld connections. The other new twist given the case, came with the arrest of Hal Hall, against whom a charge of suspicion of murder was placed. Detectives said they found a \$1,100 diamond necklace, at one time the property of Katz, in Hall's possession. Hall accounted for this by saying the jewels had been given him to sell. The suspect, a real estate dealer, denied any knowledge of the murder.

Katz until he was shot to death by a gunman who knocked at the door of his richly furnished bachelor quarters Monday evening, was becoming more and more involved in close transactions along "diamond row" where the dealings were sharp, and not always honest, detectives state.

Kid McCoy, from his cell in the county jail bobbed up Wednesday when he declared that Albert Moss, husband of the woman of whose murder McCoy is accused, was a close friend of the murdered man.
"It was a hired job," McCoy said. "I wouldn't wonder if the same man killed Teresa and Katz. I'm sure somebody was paid for killing Mrs. Moss and there is the chance that the same person handled both crimes."

Conversation is a great thing. If it were not for talking so much, some people would have to think.
Why doesn't somebody organize a wife insurance company?
One fool bigger than a big fool is the one who argues with him.

PHILOSOPHY PROF. PUBLISHES NEW TEXTBOOK

AUSTIN, Texas, Nov. 12.—Dr. G. W. Cunningham, professor of philosophy in the University of Texas, is the author of a new introductory text book in philosophy entitled "Problems of Philosophy" which has just been published. The book is an introductory survey, intended to be used by beginners in the subject. It is now being used in 2 courses in philosophy in the University, but will probably not be introduced into other colleges until after Christmas.

This volume differs from ones that have been used in that it undertakes a systematic survey of the problems of philosophy without giving a separate discussion of the history of these problems. Instead the historical phase is incorporated into the discussion proper. The book also contains questions and exercises at the end of each chapter. This is intended to give the student questions to be used in reviewing and references for further reading.

In his new work, Dr. Cunningham presents the main problems of philosophy in such a way as to make them clear to a beginner. The book first treats of the method of science the relation between common sense and science, and the relation between science and philosophy, and then proceeds to a discussion of the main problems of philosophy in their proper order. The volume is admirably constructed, mechanically, has an attractive binding, and is printed in clear, large type.

Other books of which Dr. Cunningham is the author are the following: "A Study in the Philosophy of Bergson," published in 1915, and "System," written for his doctor's thesis and published in 1909. He has also written articles for the Philosophical Review, and contributed to

Such popularity must be deserved

To convert critics into enthusiasts, whether for a new school of music or for a cigarette, requires something more than luck. There's sound reason for every big thing in popular taste. So, to account for Chesterfield's swift rise, look to the cigarette itself, its tobacco, its blending—in short, its taste. This one thing alone—its decidedly better taste—explains why thousands of smokers are changing from other cigarettes to Chesterfield.

TRADE REVIVAL IN BRITAIN CONTINUES UNBROKEN AS COUNTRY SLOWLY DRAWS BACK TO NORMALCY UNDER DAWES PLAN

(EDITOR'S NOTE—Europe is taking its first feeble steps toward normalcy since the inauguration of the Dawes plan. The United News has obtained from its correspondents in various European capitals first hand accounts of the progress that is being made. In this article of the series, Charles M. McCann explains why the average Englishman is hopeful in spite of nearly six years of desperately hard times.)

BY CHARLES M. McCANN

LONDON, Nov. 12.—This "nation of shop keepers" is straining its ears for the first reassuring tinkle of cash registers that will mean that the Dawesian era of European re-construction has begun expressing itself in terms of pounds, shillings, and pence.

Now, in addition to other signs, capital is loosening up. There is much building in the London business districts.

Taxation, though still high, has been reduced. A trade revival that started before the labor government came into office ten months ago, continued unbroken during their incumbency.

There may be bad times ahead in some ways. The Dawes report means that Great Britain's customers will forget the war as she has and start to work. That means trade. More trade means more money, and for employers first and married women second to work their husbands for silk stockings and furs.

The ordinary man still finds it hard, if not impossible to find a house in which to live. Business building is in full swing, but not house building. People are dressing better. Working women find it easier to buy and married women easier to work their husbands for silk stockings and furs.

All British people ask of the Dawes report is that it puts continental Europe on its feet, believing that normal conditions on the continent will mean normal conditions elsewhere, and will mean that this "nation of shop keepers" will hear once again the frequent musical ring of its cash registers.

The launching of the Dawes plan and the inauguration of a conservative government are omens of better times but so far there is little surface indication of a return of prosperity. English taxes are among the heaviest in the world; nearly 1,250,000 workers are unemployed; no one seems to have any money.

The average man and woman are dressing better here now than they were during the years just after the war, but partly because the clothes they were wearing dropped off.

There was a time a couple of years after the war when an old suit was a badge of honor, and a new one was almost accepted as evidence that its wearer was a profligate.

Under the surface there are signs of returning prosperity. Trade figures are improving, the pound sterling is returning gradually, but apparently surely to par value as compared with the American dollar. Hours of work were recently increased in cotton mills which make one of the most important national industries.

England are active. Quarrying is improving. Some heavy machinery are working both day and night shifts. In New Jersey, the glass industry is on the upgrade, with many plants previously idle now working at full time. Textile industries in New Jersey are extending operations.

The impetus given to transportation by increased industrial prosperity is being reflected in greater activity in railroad shops. Railroad equipment plants are operating at a higher rate as a result of the boom. Coal mining and iron manufacture generally are improving. Building throughout the country is going forward at a good rate, and evidences are that it will continue.

It is absorbing many workers, and taking care of the normal surplus in some sections. Conditions in the west, northwest, southwest, and south generally are improving and indicate a higher level of prosperity in the coming months. Industry is increasing its activity down through Virginia, Kentucky, Tennessee, North and South Carolina, and industries in the west generally are in good condition.

Of course there are some dark spots. The steel industry in Ohio showed an appreciable let-up during October and did not reflect the ac-

emphasize that a reasonable doubt applied to the intoxicating character of the beverage as well as to all other points.

"What is on trial before you is not John Phillip Hill, but the last vestige of American liberty," Machen told the jury in his argument.

This drew vigorous objection from Woodcock, in which he was sustained by the court. Machen was told that "this is no place to make a speech against prohibition."

Machen closed his argument with a plea for a verdict of "not guilty." "Go out of this court with the knowledge that you have obeyed your conscience and done your country a service," he urged the jurors.

"The Volstead law means that you and I and the average human being consider intoxicating," Judge Sopher said, referring to its provision on elder and fruit juices.

"There is no dispute that Hill manufactured and possessed liquor," Sopher said. "The question for you to decide is whether the articles manufactured conform to the charges in the indictment."

"Hill is not responsible for what happened to the wine since he was ordered by injunction, Oct. 11, 1923, to lock it up."

"I therefore charge you," he said, "that before you can find him guilty on the wine and elder counts you must find the liquor was intoxicating in fact."

Irate Rent Payers Hold Riotous Mass Meeting in Capital

By United News

WASHINGTON, Nov. 12.—The long suffering rent payer is on a rampage here. Five hundred tenants in one of the capitals largest apartment houses, enraged at rent increases in some cases, held a riotous mass meeting in the lobby of the apartment house and hooted the manager down when he tried five times to disperse the gathering.

Well dressed women stood on chairs and booed. Now the agent is consulting with his attorneys to determine whether he can bring action on charges of criminal trespassing or inciting to riot.

Tenants in other apartment houses have organized and have volunteered to help out in a fight which probably will be carried to congress next month.

One economist living in the apartment produced a chart showing that eight trusts had been placed on the property for loans totaling 85 percent more than the selling value fixed by the senate committee on housing in the District of Columbia.

When one tenant attempted to call the meeting in the lobby to order, Manager Joseph Lowe pushed through the crowd and shouted: "This is a hallway. We cannot permit any one to hold a meeting here."

"We have the consent of the police," shouted one well dressed woman tenant. "If you make this meeting disorderly, we will have the police put you out."

One tenant said her rent had been increased 37 1/2 percent, another shouted that her's had gone up 50 percent.

Again the manager edged in. "We cannot sanction a meeting in this hallway," he shouted.

"Go on and protest, we are holding our meeting any way," a tenant interrupted.

"Put him out," some one yelled. "We are paying for this hallway," another tenant shouted.

"If they put us out, let's go and camp in front of the white house and see what the government will do for us," Mrs. H. C. Brown suggested.

The tenants appointed a committee to protect their interests.

Manager Lowe declared later that the meeting was packed by members of a tenant's league.

"What right have property owners if people can come in from the outside and conduct their meetings in their halls and occupy their premises against the owners wishes," he asked.

"If we all stand together and refuse to pay the increases, they won't put us out because they can't do it," Mrs. Brown declared when old that Lowe was considering legal action.

Tenants declare that the property owners in trying to boost rentals, have taken advantage of a recent court decision which ended the rent fixing powers of the rent commission created here during the war.

RED CROSS DRIVE FOR FUNDS HERE MEETS WITH SUCCESS

Mrs. C. E. Yager, of the Yager Shoe Company, was the first to renew membership in the American Red Cross here when the Annual Roll Call drive was inaugurated Tuesday by the Lubbock County Chapter.

According to reports given out at the Red Cross office Tuesday the campaign thus far has been successful, and if the people of Lubbock continue as liberal toward the institution as was shown during the canvass that was made Tuesday the necessary funds for carrying on the work here for another year will be raised.

All the ladies of the city whose services have been enlisted in the house-to-house campaign, that will be made today will meet at the Red Cross office this morning at nine o'clock to complete plans for the days work.

The splendidly arranged Red Cross windows that are to be seen in the leading stores of the city most of which were designed by

Miss Mae Murfee, the secretary have attracted much attention.

MUCH ACCOMPLISHED BY CLUB WOMEN REPORTS SHOW

AMARILLO, Nov. 12.—The State Federation of Women's Clubs of Texas, has taken a long step forward along the lines of endeavor during the past year, according to reports made in the second day's session of the organization, here today.

The seventh district is among the leading ones in increased schoolships.

Mrs. Meade F. Griffin of Plainview, state chairman of fire prevention reported that the definite goal of the division was established the teaching of fire prevention in every Texas school as a part of its curriculum. She reported great progress made in fire prevention in the 1st, 2nd, 3rd, 4th and 7th districts. From 1-3 to 2-3 of the schools in these districts teach fire prevention.

The Federation-Jubilee endowment fund is reported as having reached \$15,000 the goal being \$25,000. The Axon club of Houston reported it had raised a \$10,000 scholarship to Rice Institute to be used by the T. F. W. C.

The largest board meeting ever covered by the Federation worked behind closed doors all day Tuesday with the exception of two hours spent at the country club luncheon.

Many exhibits of original paintings by Texas artists are shown at the Red Cross office. The Fire Prevention department also has a telling exhibition of posters.

The outstanding feature of Wednesday morning was the presentation feature of the press and publicity department, Mrs. W. C. Martin of Dallas chairman, Judge E. Allen Frost of Chicago was the special speaker and an array of beautiful girls dressed in colonial costumes assisted him in his demonstration.

The seven wonders of the world during autumn are: Monday, Tuesday, Wednesday, Thursday, Friday, Saturday and Sunday.

It is better to begin at the bottom and work up than to begin in the middle and stay there.

JUDGE REFUSES TO GRANT STAY OF PRISON LASH

HOUSTON, Nov. 12.—Federal Judge J. C. Hutcheson today refused to grant a petition which would restrain Captain Buck Ross, manager of Basset Blakely prison from lashing the backs of four prisoners and the last hope of saving the men from punishment permitted by the state penitentiary commission is gone.

In refusing to grant the petition Judge Hutcheson said that he would be glad to intervene if it were within his jurisdiction.

Federal intervention, would have been late anyway, George W. Dixon, Houston attorney and leader in the fight to save the men from the flogging, declared today.

Rumors from the farm that the men had already been strapped

faces down, their backs bared and lashed by their keepers, could not be confirmed. The men were to be whipped "some time" this week was the only information prison authorities would give.

"Captain Ross is out and has no statement to make," was the information to the United News late today from the prison farm office.

The four men sentenced to the lash are Roy Bird, D. E. Roach, John Cook, and Robert Barrard. The charges against them are "Mutiny" and impudence to prison farm officers.

Attorney Dixon said tonight that petitions would be presented to Governor Neff despite rumors that the men had been flogged.

Millions of people do not seek riches; they seek "a good time", so they spend their money with those who get rich.

No farm should be so big as to ride its owner.

Uneeda Bakers

After School

The deliciousness of Uneeda Graham Crackers makes them a treat for children, and for grown-ups too. The delectable nut-like flavor comes from using only the finest graham flour ground in the old-fashioned way between real burr-stones. At your grocer's in packages or by the pound.

Bad Coughs Ended Quickly by Double-Action Remedy

Remarkable results in quickly clearing up the severest coughs have been obtained with a prescription by a well-known specialist that does two things at once. It not only soothes and heals the soreness and irritation, but it very quickly loosens and removes the phlegm and congestion which are the real cause of the coughing. It is often astonishing how speedily the cough stops.

The prescription is Dr. King's New Discovery for Coughs. It is particularly valuable for night coughing. It promptly and effectively weakens mucus, simply before entering the air passages. It is the best cough remedy ever made. It is sold in 15 or 30 second bottles everywhere. People who have been unable to rest an hour of continual coughing have often gotten their full 8 or 9 hours sleep by this simple remedy.

Dr. King's is excellent, too, for children's spasmodic croup, bronchitis, laryngitis, hoarseness, asthma, and whooping cough. It is sold in all good drug stores. Ask for **DR. KING'S NEW DISCOVERY FOR COUGHS**

MEN AND WOMEN IN NEWS OF THE DAY

Above: MRS. LOUISE DOOLNER & MAYDELLE G. COREY Below: KING ALPHONSO & DR. MARIGN Y. BURTON

King Alfonso of Spain has gone to Bordeaux, France, with his dear son, Don Juan, to consult French specialists. President Marion Leroy Burton, president of the University of Michigan, who nominated President Coolidge at the Cleveland convention, is ill with broncho-pneumonia. Mrs. Louise Littauer Doolner, daughter of the multi-millionaire glove manufacturer, who invoked, in vain, the French court to prevent her marriage to an automobile salesman, has opened a dressmaking establishment in Washington, desiring society. Mrs. Mabelle Gilman Corey, divorced wife of the multi-millionaire steel manufacturer, has reported to the police of Paris, where she lives, the theft of \$15,000 worth of furs from her home.

PUBLIC UTILITIES RATES TO BE KEPT ON RECORD

AUSTIN, Texas, Nov. 12—Rates of all public utilities in Texas are now being obtained by the League of Texas Municipalities in connection with the Bureau of Government Research of the University of Texas, according to R. D. Jackson, executive secretary of the League. Letters are being sent to city officials over the state, and complete information on the subject will be printed in a bulletin.

The chief advantage of the compilation of these rates is that city officials will be able to compare their public utilities accurately. The stupendous amount of work involved in gathering data is shown by the fact that every public utility will be investigated.

The League of Texas Municipalities, which was organized in 1913, is a non-partisan organization which has for its aim better municipal government in Texas. Active membership may be held by any incorporated city in Texas.

WOMAN'S REPRESENTATIVE BOARD FORMED AT AUSTIN

AUSTIN, Texas, Nov. 12—Every lodging house for girls at the University of Texas has a member on the Woman's Representative Board, which holds regular meetings with Miss Lucy J. Newton, dean of women, to discuss the special problems of the girls at the University. There are fifty members of this Board, including all the representatives elected from every boarding house, rooming house, sorority house and dormitory.

The following officers have been elected: president, Miss Ruth Bourne of San Antonio; vice-president, Miss Katherine Terrell of Fort Worth; treasurer, Miss East Castleburg of Brownfield; reporter, Miss Mrazet Cousins of Dallas; and sergeant-at-arms, Miss An Johnson of McGregor.

It is the purpose of the Woman's Representative Board to crystallize public opinion on the campus and to foster wholesome attitudes toward all problems of student life. The Board co-operates with the dean of women in forming and enforcing the student regulations. The House-mothers Association is a similar organization of all chaperones of houses where University girls live. Every effort is thus made to standardize the social regulations of the girls, whether they live in dormitories, sororities, or in rooming houses.

The following rules are enforced: Quiet hours after 8 p. m. on every night except Saturday and Sunday. Any absence from the house after 11 p. m. must be by special arrangement with the housemother.

Parties may be attended only on Friday evening, Saturday evening, or the evening before a legal holiday. Exceptions must be by special permission of the dean of women. Unless the Social Calendar announce-

OBITUARY

LILLY BELLE EDGAR

Lilly Belle, daughter of Rev. and Mrs. W. W. Edgar, of this city, was born on July 18, 1910, in China Springs, Texas, and died in Lubbock Nov. 10, 1924, having reached the age of 14 years, 3 months and 22 days.

Lilly Belle was sick only for a few days and her death coming as it did in the morning time of blooming youth, was a shock and great sorrow to her parents, other relatives, and the host of friends in many sections of the state.

Lilly Belle was converted to Christ at the tender age of 8 years and though just a child, her Christian experience was one very definite, and she was a most devoted and active Christian worker throughout the brief years of her young life.

Her father and mother says of their precious child who has just gone that she was a most devoted daughter, always careful and considerate of her parents, and devoted at all times, to the work of the church wherever her father was called to be the pastor. It is said of her that during her brief Christian life she had many others to embrace the Christian religion.

But just as this beautiful Christian life was to develop and bless and help, the Death Angel winged his way into the home and carried her to a fairer, and better land.

Lilly Belle leaves to mourn her going her father, mother, one brother and several sisters, with a host of devoted friends.

Yes, dear sorrowing ones left behind, you will miss her cheerful voice in story and song about the home circle; you will be lonely without the touch of her hand. But there is a great consolation in knowing you may meet her again in a land of fadeless light, where there is no sorrow, sickness or separation. Be faithful and true and after a while you will find the one you have loved and lost for a while, in a city builded by a good God for those who love Him and keep His commandments. In the house of many mansions your dear child will be awaiting your home-coming.

Her friend, C. E. LYNN.

BAPTIST ASSOCIATION IN SESSION MONDAY AT SLATON CHURCH

The first regular meeting of the Lubbock Baptist Association, composed of churches in Lubbock, Hockley and Cochran counties, was held at Slaton Monday, with Hon. John L. Ratliff, of Lubbock, moderator, in charge of the meeting.

Rev. Hardesty, of Slaton, clerk of the association, was also in attendance.

Rev. W. A. Bowen and wife, John L. Ratliff and other members of the Lubbock church were in attendance.

The association was organized at an all-day gathering at the church here Monday, November 3rd, at which time plans for the meeting at Slaton were made.

The association has a comprehensive program to be carried out during the year and regular meetings will be held.

WILLYS-OVERLAND CUTS PRICE OF COUPE-SEDAN

Willys-Overland makes its most startling announcement of the year in the official statement from its Toledo headquarters that the price of the popular Overland Coupe-Sedan is \$555 f. o. b. Toledo, making it the world's lowest-priced closed car with doors front and rear.

This unexpected move is made possible, continues the announcement, by the tremendous demand which has increased closed car production to unprecedented peaks, making available greater economies because of quantity production, which are to be shared by the motor car buying public. In particular is this true of the Overland Coupe-Sedan. Never before in the history of the company has a single model en-

CHURCH ANNEX TO BE BUILT AT HAMLIN

HAMLIN, Texas, Nov. 12—The Baptists of Hamlin have donated \$1,400 for the construction of a Sunday school annex, which will be constructed in the near future. The building will be 35 by 70 feet and will occupy a space near the Baptist church. A new pastorate was recently secured by the Baptist denomination, and Rev. Reeves, pastor of the church has recently occupied the new home for the pastor.

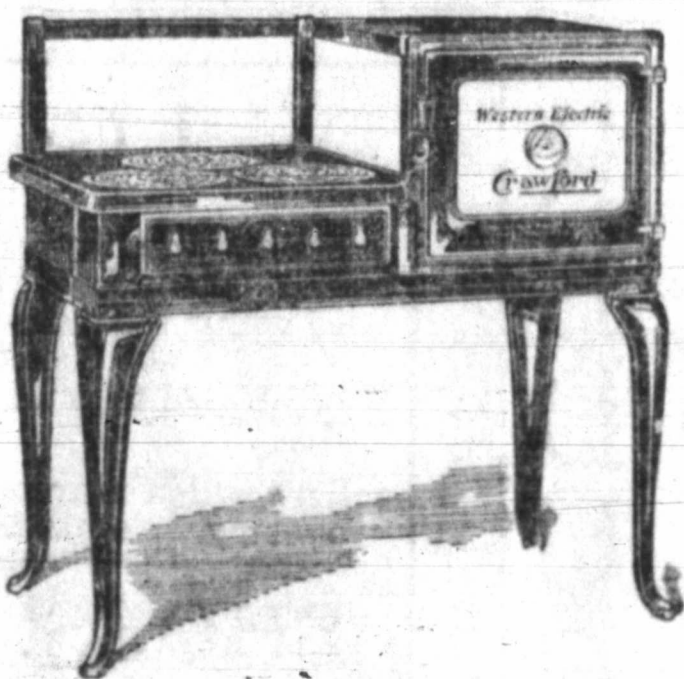

LAMESA MAN TO ERECT \$12,000 BRICK HOME

LAMESA, Nov. 12—H. E. Williams, local merchant has recently let a contract for the erection of a modern brick home to cost \$12,000. There are quite a number of brick residences being erected here. There are scores of modern and convenient homes now under construction here. The supply of tenant houses is inadequate at this time.

SCURRY COUNTY TURKEYS ARE SENT TO THE NAVY

SNYDER, Texas, Nov. 12—Uncle Sam's boys will eat some of Scurry county's turkeys this Thanksgiving. The Model Farm Production Association shipped a car of turkeys this week to Roanoke, Va. This car was bought by the government and will be served to Uncle Sam's boys who are serving in the navy.

Saturday Morning

Western Electric

In order to convince you beyond a shadow of a doubt that this stove belongs in every home in Lubbock, Sherrod Bros. will announce tomorrow morning an event of unusual interest to every housewife in the City of Lubbock.

Watch for Announcement

We will attempt to prove that it is healthier, cleaner and cheaper as well as a thousand times more satisfactory to own and operate the Western Electric Stove. We will offer you inducements that will help you to make up your mind immediately and to begin enjoying the comforts and economies of this stove in your home.

It's an Important Event

DAWSON FARM BUREAU HAS SHIPPED 4,000 BALES OUT OF LAMESA

LAMESA, Nov. 12—The Dawson County Farm Bureau Association has shipped over four thousand bales of cotton here, Lamesa, so far this season. The Bureau has about three hundred members in this county and the majority of them are shipping their cotton to the association, according to E. P. Whitson, field man in this county. The Bureau expects to ship more than eight thousand bales from this county before the season is over. Dawson county will probably be the leading Plains county this year in shipping cotton to the Bureau.

Something must be done to redeedancing, say the muzzes. By which they mean, it is inferred, that steps must be taken.

es a formal, all parties close at midnight and any one returning later than 12:30 must have special permission from the housemother. Formal affairs close at 1 a. m., and no absences after 1:30 a. m. are permitted.

LAMESA HIGH SCHOOL BUILDING IS NEARING COMPLETION

Special to the Avalanche.

LAMESA, Nov. 12—The new Lamesa high school building is fast nearing completion. This will be one of the largest buildings on the Plains when completed. Bonds to the amount of \$125,000 were voted several months ago for this building. A premium of \$6,000 was paid for the bonds and recently an additional \$25,000 bond issue was voted to complete and furnish the building. This makes a total expenditure of \$156,000 to be used on this structure. Besides the class rooms there will be a large auditorium, equipped with stage equal to the large theatres. A gym with basket ball court and other equipment will also be contained in the building. Everything will be strictly modern and all conveniences will be incorporated in the building. The contractor plans to have the structure fully completed by January 15 of the coming year.

BIG SPRING GETS 250 BALES COTTON DAILY

Special to the Avalanche.

BIG SPRING, Texas, Nov. 12—With continued fair weather cotton is being brought into Big Spring at the rate of 250 bales per day. The receipts at the local yard up to the first of the past week are given at 9,400 bales, and the receipts at Comahoma 9,900. Many farmers are holding cotton in the local yard.

NOTICE

To the Stockholders of the South Plains and Santa Fe Railway Company: You are hereby notified that the Board of Directors have called a meeting of the stockholders to be held in the City of Lubbock, County of Lubbock, State of Texas, at the principal office of the Company on the eighteenth day of November, 1924, between the hours of 10 o'clock a. m. and 4 o'clock p. m., to consider and act upon a proposition to authorize the execution by the Company of a mortgage or deed of trust to be called "first mortgage" or by such other name as may be determined by the Board of Directors of the Company, other bonds to be issued to be used for the acquisition, construction or extension of railroads, additions and betterments to such railroads and properties to be hereafter owned, and other lawful corporate purposes, each series of bonds to be issued to mature at such time and provide for the payment of such lawful rate of interest to be tax free or not taxable, to be convertible or not convertible into shares of capital stock as may be determined by the Board of Directors, and to contain such other terms and conditions as may be determined or prescribed by said Board, and such mortgage or deed of trust to be in full force and effect from and after the date of the meeting of the stockholders at said meeting. W. S. POSEY, Secretary. 9-14 to 11-18.

CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County, Greeting: You are hereby commanded to publish publication of this Citation once in each week for four successive weeks previous to the return day hereof in some newspaper published in your county, if there be a newspaper published therein, but if there be no newspaper published in said Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 72nd Judicial District, to appear at the next regular term of the County Court of Lubbock County, to be holden at the Court House thereof, in Lubbock, Texas, on the 23rd Monday in January, A. D. 1925, the same being the 19th day of January, A. D. 1925; then and there to answer a petition filed in said Court on the 7th day of November, A. D. 1924, in a suit, numbered on the docket of said Court No. 1259, where in Carl Beston is plaintiff, and Tommie Thompson is defendant, and said petition alleging that plaintiff is a mechanic and aviator and that defendant owned and operated an airplane and that about July 21, 1924, plaintiff entered into a contract of hiring with defendant to repair and operate the airplane owned by defendant and that pursuant to said contract of hiring with plaintiff, the plaintiff repaired said plane and put it in operation and drive the same over and above Lubbock County, Texas.

That many days were spent in repairing said plane and many parts were purchased for said plane, said parts being purchased by plaintiff. That attached hereto is an itemized statement of all expenses, including labor and mechanic fees and against hotel bills paid, all of which were to have been paid by defendant, including \$50.00 per week as salary. That Sept. 24, 1924, this plaintiff made out and filed with County Clerk of Lubbock County, Texas, a labor and mechanic lien against said plane, it being in Lubbock County

at that time and still being in Lubbock County, Texas. That all items set out in said statement and in said lien as filed are true, correct and just and are now due and unpaid, and although plaintiff has often requested that defendant pay the same he has failed and refused to do so. Wherefore plaintiff prays that defendant be cited by publication to appear and answer said petition and that upon hearing plaintiff have judgment foreclosing said lien, for costs of suit and for such other relief as he may show himself justly entitled to.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Lubbock, Texas, this 10th day of November, A. D. 1924. (SEAL)

HERBERT STUBBS, Clerk, County Court, Lubbock County, Texas. By Irma Pryor, deputy. 13-4Thur.

JOHN M. RICE OF ABILENE WILL PREACH HERE FRIDAY

John M. Rice, of Abilene will preach at the Church of Christ, Friday evening, according to announcement of the members of that church, and all are cordially invited to attend.

Mr. Rice is represented as a good speaker and you will enjoy hearing him in his address.

LARGE NUMBER EXPECTED AT TEACHERS MEETING IN SAN ANTONIO

FOET WORTH, Nov. 12.—M. M. Dupre, superintendent of Lubbock schools, and P. F. Brown, of Lubbock, superintendent of Lubbock County schools are expecting a large number from city and county to attend the Texas State Teachers Association convention, which will be held in San Antonio Nov. 27, 28 and 29. Many of the teachers in Bailey, Lamb, Heckley and Terry counties are also expected to attend the convention.

Doctor George A. Works and others who have been engaged in making the Texas School Survey will make addresses. The needs and conditions of Texas schools will be discussed, with a view to offering remedies for prevailing weaknesses.

San Antonio has arranged to entertain 5,000 visitors, and it is probable that the attendance will be the largest in the history of the association.

J. D. Rankin, superintendent of the Brownfield schools also reports that a number of teachers from Brownfield and rural schools of Yoakum county will attend the convention.

THREE THOUSAND ACRES ARE LEASED FOR GOLD OPERATIONS

LIBERAL, Kan., Nov. 12.—The fabled gold of Colorado may be discovered in Kansas.

More than 3,000 acres of land has been leased here as a site for a prospective deep shaft mining operations by Colorado mine men, who declare that they have located a vein of ore from 50 to 400 feet wide showing lead, zinc and other minerals. Operations are expected to start in the spring.

McCAULEY MAN IS DEAD OF HIS WOUNDS

McCAULEY, Texas, Nov. 12.—In a shooting affray at a negro festival here Saturday night Jim Bob Tipton received fatal injuries and died before reaching the sanitarium at Stamford where he was rushed immediately following the shooting. The cause of the shooting is not known.

Jim Bob was an innocent bystander and was struck accidentally. No arrests have been made up to this time.

WOMAN BURNED WHEN CAN OF OIL EXPLODES

GOLDTHWAITE, Texas, Nov. 12.—Mrs. Edward Morris, residing four miles north of this city, was severely burned while preparing breakfast. A can of oil exploded in her hands while starting a fire in the kitchen stove. Her husband's hands and arms were burned in his efforts to extinguish the flames.

Mrs. Morris' parents, Mr. and Mrs. R. R. Casbeer, reside in Dallas.

Thomas Leaman and Mrs. Julia Hoyt, widower and widow, of Norwalk, Conn., were married a few weeks after the wedding of Leaman's son and Mrs. Hoyt's daughter.

Always pretend to be surprised when a man says he is married and when a woman says she isn't.

Watch Your Daughter!

Dallas, Texas—"After I had the measles I had severe backaches and was very thin. I was all rundown and in a miserable condition. We had two doctors who did me no good. My mother, who had used Dr. Pierce's medicine in her family for years, gave me the Golden Medical Discovery, and after taking two bottles my backache stopped and now I am fat and well. I shall always praise Dr. Pierce's Medicine."—Miss Trizzie Mottraw, 1713 So. Lamar St.

Dr. Pierce's Discovery is a well known, tonic and builder that can be procured in tablets or liquid at your neighborhood store.

MARKETS

PROFIT TAKING SEEN IN GREAT VOLUME IN HEAVY TRADE

By EDWARD J. CONDLON. NEW YORK, Nov. 12.—Proceeding under a full head of steam on Wednesday the stock market registered further record breaking stock sales and then proceeded to blow off the cap. Profit taking appeared in greater volume than at any time in the six consecutive bull markets which preceded this one with the net result that the active railroad shares averaged nearly 4 of a point lower. The industrials moved up about half a point, due chiefly to excited movements in a handful of issues.

The turnover of 2,422,900 shares was reached through some major transactions which involved several hundred shares each. The market was in a highly nervous state. Everybody was asking, everybody else:

"Has the peak been reached, and the answer received was as far apart as the poles, viz.

"Well, I look my profit" and "the bull movement has just begun."

It appeared to be a case of safety first in the rail issues "for it seemed a long time ago that the much advertised menace of government ownership with Robert M. La Follette and his third party passed out of the picture although by the calendar it has been exactly seven days." There is an old axiom in Wall street to the effect that one never goes broke taking a profit.

Certainly the attitude taken by many traders was that a reaction appeared due for technical reasons if for none other.

The bond market presents very irregular front, liberties weakening visibly, when banks, corporations and other large holders disposed of round lots of bonds because of the opportunity for greater profits in stock and in other bonds.

It is agreed that the demand for tax exempt securities will be dulled by the fact that income taxes will be revised downward at the next session of congress.

Even cheap call money which ruled all day at 2 percent, failed to whip up the lagging market, for the liberty loans.

Foreign exchange closed lower with sterling down more than a cent.

The composite price of pig iron this week has advanced to \$19.54 a ton, the highest since the end of June 1924. This compares with last week's price of \$19.21 which was the lowest in 30 months. The total sales are estimated this week at 600,000 tons.

Kansas City Livestock

KANSAS CITY, Nov. 12.—Cattle 11,000; calves 2,500; market slow; killing quality mostly plain; part of receipts still due to arrive; undertone weak on most killing prices; hogs 10@15c lower; stockers and feeders dull stock cows and heifers weak; stock calves weak 25c lower.

Hogs 11,000; practically nothing sold; bidding around steady; packers and shippers bidding up to 89.55 on choice weights; butchers; packing sows \$8.40@8.75; stock pigs steady mostly \$6.50@7.00.

Sheep 3,000; lambs steady to 15c higher; fed offerings \$14.00; natives \$13.85; clippers \$11.80@11.90.
